HAMILTON HAPPENINGS

STABBED SIX TIMES

Uninvited Guest Was Given a Warm Reception.

HAMILTON, Aug. 15.—(Special)—This evening Acting Detective Barrett arrested Stanislaus Markis, 52 Imperial-street, Markis will be charged with aggravated assault on Frank Broganski on Saturday night at a party in the foreign settlement. It is stated that the complainant was not invited to the party, but went, and in a dispute was stabbed six times.

The death took place this afternoon of Annie Birge, 21 years of age, daughter of William and Mrs. Birge, 343 North Emerald-street.

Bert Southern fell from the roof of 112 Emerald-street this afternoon and was taken to the city hospital, suffering from bruises and cuts.

The building committee of the library board held a star chamber session this afternoon, and talked over the plans of the building with Architect Peene.

As a result of Miss Toole claiming that she paid \$100 on a house, with which she was not credited, E. Murphy was this evening locked up.

William Crichton, 142 Emerald-street, was found unconscious on Walnut-street this morning, and late this evening was still unconscious, and in a critical condition.

The police authorities are baffled by the sudden disappearance of John Brockbank, a young police officer. He left his home Friday afternoon, it is believed to go swimming. He had considerable money on him. His young English wife is left with an infant, who is very ill.

STRUCK WIFE IN FACE

And Is Nabbed by Detectives; Who Were Nearby.

Herbert Foster, 99 Jarvis-street, disagreed with his wife at Queen and Yonge-streets last night. More than that, he struck her cruelly in the face with his fist. Then he ran and boarded a Queen-street car, but Detectives Guthrie and Murray, who chanced to be passing, also ran, with the result that Foster is in the cells, charged with assault.

William Wells, 189 Markham-street, commercial traveler, has been on remand from the police court since July 27, upon a charge of supporting his wife on the understanding that he should go to work. He has not done so and yesterday he was re-arrested on the same charge by Detective Twigg.

WALL COLLAPSED

Four Italians Instantly Killed at St. Lawrence Power Co.'s Works.

CORNWALL, Aug. 15.—(Special)—Four Italians were instantly killed and 15 or 20 men, mostly foreigners, were more or less injured by the collapse of a concrete wall at Cassena, N. Y., ten miles from here, this morning. The T. A. Gillespie Co. of New York City are building an extension of the St. Lawrence Power Co.'s power house and dam, and one of the concrete units, which were built hollow, was being filled with concrete when it burst, and the whole mass fell on the men who were working below.

Four of the injured were brought to the Hotel Dieu, Cornwall.

FIVE BARN BURNED

Lightning Works Havoc Within a Few Miles From Berlin.

BERLIN, Aug. 15.—(Special)—Lightning caused heavy losses within a radius of a few miles of Berlin this evening. Almost simultaneously two big barns, within half a mile of each other, three miles east of here, were struck and totally destroyed with the whole season's crop. One belonged to David Thaler, and the other to A. Kinzie. The insurance will not nearly cover the loss. Anthony Matusch, near Freeport, fared still worse. His barn, crops, implements, eight horses and seven calves were burned. Loss partially covered by insurance. Mr. Rutherford's barn, near Strassburg, was also burned down.

DRIVERS MAY STRIKE

Employees of George Lawrence Co. Threaten Walk Out.

As a result of a meeting in Alexandria Park last night, about 25 drivers for the George Lawrence Bakery Company, decided to strike this morning if in the meantime Mr. Lawrence does not give them an increase in wages of \$1.00 a week.

At present the men are getting \$9 a week, while drivers for other bakers they say, are getting as much as \$12. Restrictions which are put upon the drivers are another source of complaint. One is a fine of five cents for late in tickets, and another is a fine of 25c for complaints. "With other bakers," said one driver, "if the credit goes into the office and fines are imposed. We sign a contract when we start to give no credit. If we do it is a personal matter. Some of us have done so to the extent of \$50 and \$75."

KNIGHT CHALLENGE EXTENDED TO NOVEMBER

A Million Invested by a Canadian Automobile Manufacturer on Knight Motors.

It is announced by the Royal Automobile Club of Great Britain that the Daimler Company, England, have extended to Nov. 1 next their challenge to the automobile manufacturers of the world, to wager \$1250 against the performance of any automobile engine to equal in merits that of the Two Knight Motors, 38 horse power, and 23 horse power, in the famous test by the Royal Automobile Club, on April 7, 1909.

It will be recalled that this challenge was open to the world for three months in the year 1909. It was repeated by Mr. Charles Knight in his address in University Convocation Hall, Toronto, last January. The renewal of the challenge now should be an effective answer to all critics of the Knight Motors, if again there are no takers of the ordinary or valve type engines.

The challenge is of interest to Canadians by the fact that the Knight Motor is used in the Russell cars, made by the Canada Cycle and Motor Company. This company has invested a million dollars in Knight Motors for their 1911 models, and are doubling their output owing to the success of the Russell-Knight cars in 1910. It is pointed out that a large number of these cars have been sold already, for fall delivery.

DR. ANDREW SMITH DEAD

End Came Yesterday Afternoon—Funeral Will Be Private.

The death occurred yesterday afternoon, shortly before 5 o'clock, of Dr. Andrew Smith, F.R.C., V.S., announcement of whose critical condition was contained in yesterday's World. The doctor has been in low health for the past two months, and when several days ago hardening of the arteries of his heart was held out for his recovery. The immediate members of his family, his son, Dr. D. King Smith of 22 Wellesley-street, and his daughters, Mrs. A. D. Burritt and Mrs. Mc-Murray of Toronto, and his widow, had been with him continually since recovery was despaired of.

The funeral will take place from the residence, 311 Jarvis-street, on Wednesday afternoon at 2:30, and will be private. Interment will take place at Mount Pleasant Cemetery.

The following pen portrait of Dr. Smith appears in "Canadian Turf Recollections and Other Sketches," published last year by E. King Dodds, the well-known turfman:

"He has for nearly half a century been a conspicuous figure in connection with turf affairs in this country. As an owner he was represented by many good horses; such sters as War Cry, Inspiration, Helen Bennett and Lady D'Arcy, at different times wore his colors, and it is scarcely necessary to add that the latter were always a favorite with the race-going public. Not only as an owner, but also as a racing official, the doctor has for many years been a central figure. As chairman of the executive committee of the Ontario Jockey Club, he has given both time and energy to the discharge of his duties, and his unselfish services have had much to do in building up the present prosperity of our premier racing association.

"He was principal of the Ontario Veterinary College for over 40 years, and enjoys a national reputation as a veterinarian. His scientific attainments and clever management not only made it known all over the continent, but attracted to it students from every state, from every part of the Dominion, also from England, Scotland and Ireland.

"He was master of the Toronto Hunt Club from 1883 to 1894, and during his occupancy of that position the club increased in both numbers and prosperity. "No citizen of Toronto enjoys a more widespread popularity, and to quote the words of one who graduated from the Ontario Veterinary College more than 20 years ago, 'he is a grand old man, whom everyone who knows him delights to honor.'"

At the Star

One of the best all-round burlesque shows is "The Ducklings," at the Star. The first burlesque, entitled "Oh, You Lemon," depicts the troubles of a gentleman who has a large ward and wants to make it larger in a hurry. The second burlesque is called "A Night on the Roof Garden," and is most amusing. The song, "Come On, This Bell Witch Me," scored a great hit, in more senses than one, for the stalwart dame in charge of the "bell" succeeded in bowling over several members of the audience.

The chorus of 20 quite justify their title of the boards, "All Brothers." In the old Katharine Ross sings some new illustrated songs. Being batic stunts, and Mike Macdonald and John Price as comedians.

"Temptation," a most ambitious performance, is very successfully performed by Frank Damsel and Blanche Martin. The scene is laid in a Paris cafe, and culminates in a modified Apache dance.

"Follies of New York and Paris." Patrons of Burlesque Theatres have every reason to welcome Hurlie and Broggers, who are some remarkable acrobatic stunts, and Mike Macdonald and John Price as comedians.

"GRAND" TO OPEN WITH A BIG MUSICAL PLAY

"In Panama" the First Offering at the Historic Play House—Monday Evening the Date.

The Grand, Toronto, widely known and popular playhouse, will open for the season on Monday, Aug. 23, and will continue the same policy which has met with public approval the past 11 years, under the direction of A. J. Small. During the vacation period several improvements have been made in the entrances to the auditorium, chief of which is the new flooring in both the outside and inside lobbies. The latest sanitary interlocking rubber tiling has been introduced of a special marble design, giving the house one of the handsomest entrances of any theatre on the continent. White and gold predominate in the decorations, and the house, while the oldest in the city, is up-to-date in every respect.

A real summer show for summer time has been selected for the opening. It is the Broadway musical success, "In Panama," with the Klein Brothers playing the leading comedy parts, made famous by the Rogers Brothers. Ever since the initial performance at the Broadway Theatre, New York, crowded houses have greeted this attraction. The music is by Max Hoffman, the book is by Sylvester Masuire and the lyrics by Edward Madden.

During the season at the Grand the usual Wednesday and Saturday matinees will be given.

Seats for "In Panama" go on sale Thursday morning.

At the Royal Alexandra

"Divorçons"

Not during the very successful season have the Percy Haswell players been seen to better advantage than in their presentation of "Divorçons," Sardou's satirical comedy. Needless to say in the work of so accomplished a play-wright, the plot, slight in structure though it is, develops admirable opportunities for the interpretative artists, and were fully seized on by the members of the Percy Haswell Company, who were included, in last night's cast. What makes their quality even more marked is the fact that "Divorçons" was an entirely new production, and yet in the deftness and daintiness of the handling, it should really have been the result of more than a year's preparation.

Sardou's comedy naturally reflects the French temperament, but in its English guise it retains its original interest. This is perhaps owing to the way in which French wit is translated into British humor, and to the dexterous way in which the transformation is effected.

French wit is always difficult, and seldom successful, but in the case of "Divorçons" the obstacle has been cleverly overcome.

By Cyrilus des Prunelles Miss Haswell has a role that enables her to reveal the real artistic quality of her art. Changing moods are frequent, but all well sustained, and a command of an original temperament and her conception of the part was thoroughly self-revealing. In this development she was splendidly supported by Richard Gwynne, whose interpretation of the role of her husband, M. des Prunelles, was entirely convincing. The main roles had excellent support, every member of the cast revealing the true spirit necessary to artistic completeness. This was particularly observable in the sympathetic way in which the minor roles were filled, which indeed, makes particularization unnecessary.

The play was splendidly staged and must be ranked as a genuine artistic triumph. It will be given during the week, with Wednesday and Saturday matinees.

At Shea's

Mirth, Melody and Mystery. Mirth, melody and mystery is plenty at Shea's New Theatre this week.

Earl Taylor, Harry Kranzman and Al. B. White give a quarter-hour of rollicking songs with piano accompaniment. Then Howard and Howard, "The Thespian and the Hebrew Messenger Boy," are back with all that old patter that you can't resist, and a lot more besides. Their imitation of a violin and 'cello duet is wonderful. Mrs. Eva Fay gives demonstrations of what she calls "Nerve Surgery." What she does is this: Locked in a cabinet, bound hand and foot, she rings bells and generally tosses about while in the lot in there with her, while in the lot in there with her, performance she undertakes to answer questions written on slips of paper by the audience, the unseen by her. A deal of mirth is provoked by the questions and the answers to them.

The Takazawa Japs are wonderful as ever, particularly the foot juggling of one midget, which pleased the kiddies to the point of squaks and squis of delight.

The three Macagno Brothers have a European acrobatic turn, in which the hand balancing is superb.

Winfield Douglas and the Moscrop Sisters, with songs, dance and patter, present a southern sketch entitled "Marse Sheeb's Chicken Dinner."

The motion pictures are new and good.

PROVIDENCE, R.I., Aug. 15.—(Special.)—The Grays lauded the opening game of the series from the Leafs to-day by a score of 1 to 0 by purchasing hits off Mueller in the 10th. Slime was in the box for the Grays and pitched fine ball, allowing only five hits. Fast fielding was a feature of the work of both teams.

INFLUENCE OF WEALTHY MEN WITHIN THE CHURCH

Rev. Dr. Carman's Charge to the General Conference—Refers to

General Conference—Refers to Rev. George Jackson.

VICTORIA, B.C., Aug. 15.—Rev. Dr. Carman, general superintendent of the Methodist Church, this morning delivered his charge to the assembled general conference, which opened to-day, and which will continue three weeks. His references to the influence of wealthy men within the church, with an especial reference to Sherbourne Street Church, Toronto, and its relationship with Jackson, have created much comment.

"I have but one anxiety concerning our Methodism," said Dr. Carman. "It is that we are saved from worldlyness and spiritual sloth, and indifference, and all their consequences in every form, shape, measure and degree. Herein, possibly, is our greatest present danger; we are becoming wealthy, and may easily lose the vigor and tension of spiritual life and the voice and tone of aggressive evangelism. We have time for long prayers and positions of science, falsely so called. It is very easy to slacken up our push and pace; he satisfied with our attainments, and sing into the lap of formalism and naturalism, and of worldly comfort and ease. At such times and under such conditions novelties are preached for the well-proven doctrines of conversion, and sanctifying power. The eye of the church is dimmed and her arm is paralyzed. There is no strength in her movement, and she is in her march.

Even the Good are Dazzled. "Even good men are dazzled with the glitter of theories and befuddled with empty speculation. The gray solidity and sure simplicity of the truth have no charms for their intellectual understanding. The tendency, current and force in the spiritual life of our humanity, left to itself, is ever downward and not upward. Some do vainly and erroneously teach. They build up conjecture, assumption and human art and device to our utter undoing. This is the harvest, and it is alone in the Christian and Biblical ethnology explains the paganism of the nations.

Lacking instances of large-heartedness and open-handedness of brethren and friends in their outlook over the church and country cheer on and sustain the collector, the donor and the beguiler honor the name of the living and hallow the memory of the dead. Yet danger lurks even here. The masses of men easily lose self-reliance, and sag and sink into shameful dependence.

The money power is a tremendous power, and even in the hands of well-meaning men it may be misdirected. There is a possibility that such men could their money as their own, and in a way almost unconsciously to themselves become self-complacent and self-willed. There is an insidiousness and a deadliness in this sin as well as in any other. More than once in the history of the church this money power has been checked and its influence nullified in shame and at least temporary defeat.

When a church in which there are men of wealth would arrange for a pulp on plans, or a building, or a utility or utterly dislocate the Connexion, or on plans and relations utterly unattainable by poorer churches, and injurious to the cause of the church at large, the wealth of such a church exacts too high a toll, demands a consideration which no annual conference, no stationing committee, no quarterly meeting, no board of trustees, or other church authority has any right or power to meet or to pay. All right discipline and church order must repudiate such transactions. All churches and all ministers must stand for other church authority has any right or power to meet or to pay. All right discipline and church order must repudiate such transactions.

Suppose wealthy churches proceed to bring in chosen ministers, not of our church, from abroad and by influence with church authorities establish them in their pulpits; is that desirable? Is it honorable in all parties concerned? What is the end thereof? Suppose a wealthy church places even temporarily in its pulpit a minister who is under the ban of the church, or of ecclesiastical courts and who is at the same time attacking our church in the civil courts, is that creditable to any of the parties engaged therein? If we expect business men or ministers of our laymen to care for such things, we expect too much.

"Such things are the special charge of the ministers of Christ. Whether these are matters for legislation this conference can determine."

Concerning Victoria. Dr. Carman then made a direct reference to Dr. Jackson's connection with Sherbourne Street Church and with Victoria College, in which he referred to "incipient heathenism," adding:

"You will see I am decidedly with our chancellor in stiffening up the conception and clarifying the idea of the personality of God and of the instruction of the colleges. And I think we could find half a dozen Methodist superannuates who could and would do it.

As to church union, the superintendent said:

"And surely it is not desirable that it be consummated unless the Lord God Almighty will. All churches, no matter how questionable foundations, no matter how unsteady, no matter how unsteady steps, in prayer and faith and obedience we must have a clear vision, and be strong and well assured in the way of our going. Whether union comes or not, there must be much anxiety and labor."

The attention of the conference was also directed to the fact that the general advance in the cost of living renders it necessary to revise the salary list in most of the churches agencies. He favored a periodic review and possible readjustment of salaries, adapted to the times. "It is neither fair nor fraternal to exact privations when they can be avoided," he said.

"The conference is publishing a daily paper in connection with its meetings.

REGIMENT IS PUTTING IN SOME GOOD WORK

Q. O. R. in Camp at St. Joseph de

Levis—Men Criticized the Ross Rifles.

QUEBEC, Aug. 15.—(From Our Man With the Regiment)—Work was commenced in earnest at the Queen's Own camp at St. Joseph de Levis to-day, and before evening the men had smartened up wonderfully in their drill. In the morning each company was handed over to a instructor and put through their paces. The material is here and it is expected that the smartest drill instructors in Canada will make more equal to any regular troops in Canada before leaving on Saturday. The men know their drill and all that is needed is practice.

Capt. Butcher, R.C.R., took charge of the corps several times and made the men as a body work up more speed than they have ever shown before. He also told them how he wanted them to act, like statues when standing and like steel traps when going thru evolutions. When they were standing at attention, Capt. Butcher seemed able to detect the slightest move on the part of any one of the men, because he generally caught them and told them about it. Capt. Butcher said that the corps were the finest crowd physically that he had ever seen in the Queen's Own.

The Ross rifles came in for criticism owing to their being hard on the hands and wrists of the soldiers, and were discarded, and when going thru the manual the men get their hands between the thumb and first finger, either bruised or sore. The Ross rifles were criticized slightly. However, when they were shot with them and find how straight the bullets go, they will regard them as good.

It is said that, no matter how well the soldiers are fed, they will kick. The food is much better than usual, but because it is not so hot as the regular fare, the men are not so satisfied with it. Large numbers of them went to a supper and ate in Quebec to-night.

Overriding the hard work the men are having a good time. The camp is situated on the heights beside the St. Lawrence, in a small natural valley about three miles below Levis, at St. Joseph de Levis. In the opening of the valley, the waters of the river and the farms, still retaining the same elongated form, in which they were first laid out in the infancy of Canada, the Pointe au Lac, and in the distance the Laurentian Mountains.

The men are not the only ones being drilled. The non-commissioned officers are getting their share. A riding school is being conducted for the benefit of mounted officers.

Sir Henry Pellatt and the officers of the corps have been invited by Lieut. Col. Davidson and officers of the 6th Regiment, Quebec, to dinner on Wednesday.

ENGINEERS WITHDRAW

Councillor Stands by the Bridge

Contractor—General Suburban Doings.

UNIONVILLE, Aug. 15.—(Special.)—Messrs. Barber & Young, the engineers in charge of "Rightfoot" bridge, on concession 10, Markham, have resigned their positions, owing to the fact that the township council declares that it was not necessary to put the abutments of a 48-foot span bridge more than six inches under the level of the river. The bridge is 82 feet long and 15 feet high, and the cost will be about \$25,000. The township council, however, had a different opinion, and Mr. Barber & Young, objected to the way in which the work was being done, but Councillor Resor had the contractor.

NEW TORONTO.

NEW TORONTO, Aug. 15.—(Special.)—A runaway team on the Lake Shore road, drawing a big consignment of Macaulay's books, created a great deal of excitement this morning, and incidentally caused a good deal of loss and annoyance. The team was being driven to Port Credit, and at Lee's grocery store took fright, taking the radial railway tracks to make Queen's Hotel, where they upset the rig into the ditch. The horses were unable to rise until liberated by a number of neighbors, but no very serious damage was done.

MARKHAM VILLAGE.

MARKHAM VILLAGE, Aug. 15.—(Special.)—It looks now as though the excursion to Jackson's Point on Wednesday, Aug. 17, under the auspices of the Markham Public Library, will, if the weather is favorable, be one of the best of the season.

The Markham Library, since its inception, has been a great asset to the village, and every movement which increases its efficiency helps the town. The fare from the village is only \$1.00, but the excursion starts from Toronto, and even at that distance is only \$1.00.

The early Wednesday morning train, leaving the city at 7:30, stops at every station, and the passengers are not allowed to get out, there is to be a big excursion from Scarborough and Markham, and a number of other places.

High Canning is president, and Capt. H. S. Adam, secretary, of the public library.

At the council meeting later, with all the members present, a number of routine matters were dealt with. Barber & Young reported in favor of the acceptance of the tender for a concrete sidewalk on Markham-street to the present shape. The tender was \$1,000. The Spadina-avenue and Walker-road sewer tenders were considered too high, and tenders will again be called for.

A communication was received from the Spadina Heights Ratsisberg's Band, protesting against the amount levied for school purposes.

COMPLAIN OF FREIGHT DELAY

Board of Trade Executive Send Letter to C. P. R. Headquarters.

A special meeting of the executive of the board of trade was called yesterday afternoon to deal with complaints received from leading merchants, members of the board, regarding the delays in delivery of goods by freight over the C. P. R. It was decided to communicate with the C. P. R. authorities in Montreal, asking them, if possible, to find a remedy which should lessen the evil or overcome it altogether.

The condition of the congestion caused in C. P. R. freight by the Grand Trunk strike is rapidly ameliorating, said General Superintendent Gwynne yesterday. "We are handling from 75 to 100 per cent. more inward freight than usual and naturally that must in some measure suffer, but there is absolutely no delay in outgoing freight. No expense is being spared to relieve the situation as quickly as possible. We are taking and using to the best of our ability every available man who applies for work—we are even utilizing our old sheds at Queen's wharf, affording splendid accommodation for our ocean freight consignments."

"It would more than help matters along if things were properly handled at the warehouses," added Mr. Langston, superintendent of the Dominion Transport Co. "Teamsters arrive at the appointed time to get their loads, and often undergo no end of delays before receiving their consignments."

A costly freight wreck, indirectly due to the congestion of C. P. R. traffic, took place about 2 a.m. yesterday, near the railway crossing at Ossington-avenue. Two flat cars were derailed and broken to pieces, a new ballast spreader was demolished, two box cars were nearly ruined and an engine disabled.

FATALLY BURNED IN CELL

Arrested as Drunk, Set Fire to His Mattress.

Arthur Morley of Newmarket, Ont., recently emigrated with his wife and two children from Yorkshire, England, died at St. Michael's Hospital at 10 o'clock yesterday morning, having been brought there from the cells at Aurora, where he had passed the night as a drunk.

When Chief Constable Patch went to visit him in his cell there Sunday morning, he found him unconscious on the floor and badly burned. The cell filled with smoke. It is thought that he must have set the bedding on fire, and then been overcome by the smoke.

Foresters' Picnic.

The Ancient Order of Foresters will hold an old-time celebration to-morrow to start with a street parade from University-avenue at 10 a.m., via College, Yonge, Albert, James, Queen and Bay-streets to the ferry wharf, where they will embark for Island Park, to enjoy a picnic, games and a dance in the evening. A band concert will be given from 2 to 5 p.m.

They'll Picnic. The night clerk of the C.P.R. Co.'s telegraph has decided to hold their fifth annual picnic to Dundurn Park, Hamilton, on Saturday, Aug.

COBALT--Big Issues Forced Lower in Sympathy With Wall Street

Holders Willing to Keep Stocks Rather Than Liquidate

Conditions Underlying Mining Markets Are Favorable--No Feature to Trading Yesterday.

World Office, Monday Evening, Aug. 15.

The only feature in the Cobalt market was a manipulated reaction in Kerr Lake, which dropped about 40 points, and some realizing in Big Nipissing, which resulted in a small decline in the stock.

The Toronto markets were about as quiet as usual, but there was an ominous apprehension extant among many of the traders in regard to the future. The whole essence of the Cobalt market was the absence of actual stock sale on the exchanges. So long as the outside buying orders remain as solid as they are, it will be in the hands of professionals to hold down prices, but any incoming buying orders will cause a panic among those who have sold stocks and have not got them on hand.

The situation has reached this position that actual holders are willing to keep their stocks rather than accept present ruling prices, and it must therefore be admitted that to keep stocks at this level must be advanced.

Some prices may be held in check for a while longer, there is a possibility of a stampede of the shorts in the market at any time. The outlook for Cobalt, both from a market standpoint and from the camp itself, is brighter than it has been for a year.

SAMPLES FROM GOWGANDA

Directors of Boyd-Gordon Visit Property and Bring Back Samples.

Mr. Samuel Jardine and Dr. William A. Rusworth, both of whom are directors of the Boyd-Gordon Mining Co., Limited, at Gowganda, have just returned from a visit to the mine and district. They report conditions very satisfactory at the Boyd-Gordon, and brought back with them as fine a lot of ore samples as has ever been shown from this well-known mining district.

They state that there is no doubt of the richness of the Boyd-Gordon, and that other properties, such as the Mann, Dobie-Reeves, Welch, Bishop, Transcontinental, La Barriere, are all working and getting out rich ore.

The Mann property has sacked 200 bags from an open cut on the Henderson vein, which originates on the Boyd-Gordon, running east on to the Mann; two pop shots put in this vein on the surface of the Boyd-Gordon, opened up a vein 40 to 50 inches in width, of white quartz, impregnated with native silver and argentine.

This is exceedingly rich looking ore, good for 300 ounces to the ton. The finest specimens, however, come from the 50-foot level; here the vein is about two inches wide, heavily impregnated with native silver, the wall rock being about three with silver to at least eight to ten inches. The shots which brought forth this bonanza specimen are mentioned, they are well put in at the district as a whole, and state that every engineer who has examined the district claims all indications point to greater values.

Work is now resumed on the Boyd-Gordon. The property is in the best shape so far as supplies and equipment are concerned, and will again be in a position to be shipped this winter.

The earnings of the Twin City Rapid Transit Co. for the first week of August amounted to \$147,846, an increase over the same week last year of \$173,800 or 34 per cent., and of \$15,213 over the corresponding period of 1908.

Investors or speculators in Cobalt stocks will have to search pretty hard to find a more attractive stock among the non-producers and prospective mines now on the list.

The Union Pacific Cobalt is operating one claim alone on Peterson Lake that is worth undoubtedly four times the price the preferred shares are now selling for, and with the operation of the Michigan claim will be developing nearly fifty acres right in the midst of the demonstrated rich portion of the camp.

Immediate application will be made to list these shares on the Montreal and Toronto Mining Exchanges and New York Curb.

With further crop improvement abroad, we expect lower levels, as receipts are too liberal, and in our opinion will check any material advance, and premiums for futures are a handicap to holding positions.

SIMPSON Store Closes at 5.30 p.m. Closes at 1 o'clock Saturday H. H. FUDGER, President. J. WOOD, Manager. Probabilities Easterly winds; fine and warm to-day; local showers to-morrow.

American Excursionists

Via C. H. & D., and Wabash

The Manager of the personally conducted excursion from Cincinnati, Dayton and other Ohio cities, says that the Simpson store is one of the sights of Toronto. It is needless for us to add that our American visitors are the most discriminating of customers. They know a good thing, an up-to-date thing, when they see it. They recognize that

- Simpson's Silks and Dress Fabrics
- Simpson's Kid Gloves and Silk Hosiery
- Simpson's English Hall-marked Silver
- Simpson's Furs, Fancy Goods and Souvenirs
- Simpson's Clothing for Men and Women

are worth making a journey to see, and are the best value for the money on this continent.

Then they are appreciative of store comforts. The plunger elevators—smooth running and commodious, the ladies' rest room, the airy restaurant on the top floor, with club service and an excellent orchestra—all for a moderate price—call forth the exclamation, "Why, you can't get it anywhere else outside of New York City!"

Just once a year, one of the leading clothing manufacturers of Canada passes his Fall samples over to us at a price that makes to-morrow's offer possible.

August Showing of Autumn Styles

Our buyers returned home early. We had to accept early delivery of the goods. You might, therefore, think we are claiming as a virtue what is merely a necessity when we emphasize our early opening. But there is real virtue in being early. Genuine enthusiasm pervades the departments as they note your appreciation of the new goods.

For this is not an advance showing of a few odd things which, if you bought, you'd risk disappointment by seeing later something you liked better. Here is large variety, here are fully matured styles and colorings with dress accessories of all kinds. The shopping you do in Simpson's these August days will simply lighten for you the otherwise inevitable burden of Autumn purchases. It's suiting so many people on both sides of the country this August, that we're sure to do it again, and you cannot fail to be pleased and fully satisfied, if you join in the early shopping campaign which is bound to become a feature in this store.

Are There Any More at Home Like This?

These Suits, we mean Rajah Silk ones. We've had a great season with them—in fact there are only about sixty left. You've heard enough, no doubt about 'Summer Suit Clearances'—but this select little lot, was overlooked, they've never been on sale at such a price before. Seeing should be more than believing in this case—it's almost bound to be buying if you can get here early enough.

A collection of Ladies' Summer Suits, in fine linen and silk rajah. Coats are tailor-made, others finely braided and trimmed with buttons; some are lined throughout with silk. Skirts are gored, and the new semi-pleated, shades are pink, mauve, amber, mustard, navy, black and white; not all sizes in every color; some are slightly soiled; most of them perfect. Regular \$18.50 to \$10.00. Wednesday to clear \$4.95.
