Beresford and Sydenham Charge U. S. Warships Broke Rules.

HUNS' PIRACY CONTINUES

Viscount Grey Points Out That Kaiser's Pledge is Ignored.

London, Oct. 26.—Some utterances of the feeling that the activity of American warships in rescuing passengers from the vessels sunk by the German submarine U-53 off the American coast amounted to a breach of neutrality were made today in the House of Lords by Baron Beresford and Baron Sydenham.

Lord Beresford is recognized by the country as the spokesman for the navy in the House of Lords, and Lord Sydenham's varied activities have included the authorship of books on naval affairs.

Similar opinions have been expressed by some of the newspapers and public men, as well as by naval officers, and the matter was brought up for discussion today by requests for information from Viscount Grey, secretary for foreign affairs, regarding the American policy and possible action by the British Government.

The Serbian force operating north of the Starok Grab mountains has seized the fortified height at the confluence of the Gerna and the Struma rivers. This village point was gained by a brilliant charge in which the Serbs dispersed bodies of Germans and Bulgarians. They took 108 prisoners in this action. In further fighting this number was swollen to 450, including deserters. One machine gun was captured.

British infantry east of the Struma River is still held up by fogs. British naval aeroplanes, on the other hand, made an attack on the Salonica-Constantinople railway. They dropped bombs on the stations at Buk and Drama, and these did considerable damage to rolling stock.

U.S. Will Mix Into, Not This, But Next Great Conflict.

Cincinnati, O., Oct. 26.—Discussing the relation of the U. S. to the European war, President Wilson today declared that "this is the last war that involves the world that the U. S. can keep out of."

He gave as his reason his belief that "the business of neutrality is over," and that war now has such a scale that the positions of neutrals sooner or later becomes intolerable.

Throw Lines Further Forward Into Macedonia by Sharp Stroke.

Special Cable to The Toronto World. London, Oct. 26.—Pressing forward on the extreme right on the front north of Salonica, the French combed their junction with the Italians from Avona by occupying Laletta on the boundary line between Greece and Albania, and the nearby village of Golcorda with the Laletta bridge, it was announced in Paris today.

The line of the allies now stretches from the Albanian coast to east of the Struma, and they are ready to proceed to active operations.

London, Oct. 27.—One of fifty Victoria Crosses, the award of which is made in today's London Gazette, is to Private Thomas Jones, who, according to the official account, after killing three snipers who were shooting at him, entered the German trenches and single-handedly disarmed 102 Germans, including three or four officers and marched them back to the British lines thru a heavy barrage fire.

Allies Cause Tremendous Losses—Take Five Thousand Prisoners.

Special Cable to The Toronto World. London, Oct. 26.—Fighting raged at Verdun today as violently as any which has raged around this historic citadel since the beginning of the war, and at the close of the day the French were able to record the repulse of four extremely violent German attacks, launched in succession between morning and evening. The German effort was directed against the Douaumont region and the four separate attacks were launched from as many angles.

The first attack began at 2.30 this morning and the next began at 11 in the afternoon. These made for the east of the French positions to the east of the Douaumont region and the four separate attacks were launched from as many angles.

FOE RETREATS BEFORE ONSET OF ROUMANIA

Allies Drive Germans Across Northwestern Frontier to Transylvania.

ENEMY DRIVES SOUTH

Efforts of Von Mackensen in Dobrudja Begin to Weaken.

Special Cable to The Toronto World. London, Oct. 26.—Putting their full weight into the struggle the Roumanians have cleared Moldavia of the Germans, and they have thrown them back thru Tolgea, Gyimes, Biaz and Oltuz passes into Transylvania, inflicting heavy losses on the foe and making considerable captures of men and guns. This rally gives the Roumanians control of all Carpathian passes again. The Germans are now established only in the Vulcan, Bodza and Fedral passes of the Transylvania Alps. From these vantage points they are still striving to thrust at Bucharest by way of Kimpoling and Fedral and at Buzon and the Csernowitz railway.

The capture of the mountain. The Roumanians have also captured Mount Kerekharas on the Transylvanian front south of Biaz, and they are prosecuting the fighting beyond the Roumanian border in the Oltuz valley.

On the northeastern Transylvanian front the Roumanians have arrested the progress of superior forces of the enemy.

Petrograd today also reported a lessening of the pressure of the forces under Von Mackensen in the Dobrudja. Russian sailors destroyed everything of value before evacuating Constantza and the Roumanians set fire to the Cernavoda bridge before evacuating Cernavoda.

The Germans dilate on the value of Constantza as a seaport and on the importance of the Cernavoda bridge. They also assert that the Russo-Roumanians were divided into two bodies by the offensive of Von Mackensen, and that one portion withdrew into Roumania over the bridge. They also assert that the capture of Cernavoda.

Telegraphic information received late last night in response to a dispatch forwarded by The World seeking an explanation from T. P. Tansey, the Montreal manufacturer with whom the order was placed, indicated that a miserable attempt on the part of Germans or German sympathizers in the States to cause friction had been made. Owing to pressure of business, Mr. Tansey states that he was forced to place a sub-order with a reputable firm, by name The Ehrman Manufacturing Co., and in view of the fact that he emphatically declares no German flags are made in his factory it seems clear that the enemy badges were placed in the consignment from that American concern.

An explanation has been demanded of the general manager of this firm, who is of a well-known Ontario family. Directly the mistake was discovered notification was made to headquarters and the officials there had a busy time scurrying over the city in an endeavor to stop the circulation of the enemy flags. Shortly before the close of the day nine or ten had been actually accounted for, but it is quite probable that owing to the hasty manner in which the flags were handed out, many were placed on coats and the mistake not discovered until some time after.

Demands an Explanation. Mrs. Arthur Pepler immediately despatched a letter to Mr. Tansey asking for an explanation, but she was confident of receiving a satisfactory reply. When interviewed by a reporter for The World she declared that there was no question as to the loyalty of the manufacturer.

The Teutonic badges handed to The World for inspection were placed under a strong magnifying glass in order to ascertain the name of the maker, which was printed in the corner very indistinctly. Even with the aid of the glass it was difficult to decipher the words, but finally they were made out: "German Mfg. Co., Boston," or "Farman Mfg. Co., Boston."

On this discovery The World immediately despatched the following telegram to T. P. Tansey at Montreal: "Red Cross German relief flags found mixed with Belgian flag day flags sold in Toronto today. Will you explain how they came to be there, stamped German Mfg. Company, Boston?"

Five in One Package. Needed to save the discovery yesterday morning caused the official concern. According to the captain of the team which covered the district around Spadina avenue and St. Patrick street, five enemy flags were found in one package of tags given her for distribution. A girl at

London, Oct. 26.—Lloyd's announces that the following vessels have been sunk: The Norwegian steamer Venus II, of 754 gross tons; the Danish steamer Ul, of 1313 tons gross; the Belgian steamer Comtesse de Flandre, of 1810 tons gross; and the British schooner Tweed, of 200 tons gross.

The Norwegian steamer Sola has also been sunk. The crew was landed.

The Sola sailed Oct. 8 from New York for Havre.

A Christiania despatch says: The losses to the Norwegian shipping caused by the war have reached a total of 268,900 tons gross register, according to a compilation made by the Ritzau News Agency. The insurance carried amounted to 102,000,000 kroner and the loss of life 149.

The Norwegian steamer Atlo Jarl, 1054 tons, and Profit, 1126 tons, have been taken to Swinemunde and Cuxhaven respectively by German warships.

A despatch to the Central News from Christiania says the Danish ship London has been set on fire in the North Sea by a German submarine.

An Easy Way to Get Fat And Be Strong

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods, rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched.

There is a preparation known to reliable druggists almost everywhere which seemingly embodies the missing elements needed by the digestive organs to help convert food into rich, fat-laden blood. This modern treatment is called Sargol, and has been termed the greatest regenerative, reconstructive power to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to the starved, broken-down cells and tissues of your body.

You can readily picture of your reduced in connection with the origin of the North America Indian were dismissed by the speaker. He gave no credence to the stories that they were descendants of the lost tribes of Israel or that they originated from wandering Japanese, Chinese or other eastern people.

"The lofty temples and terraces in Central America that day of the sturdy and unadorned of early Spanish explorers were absolutely distinct and original in conception and execution from any other buildings of ancient people," he said.

In conclusion, he believed the North American Indians to have descended from the people that inhabited Central America, and their loss of ancient civilization he believed resulted from their being driven to the forests in the north by enemies or disease.

FIRST TRAIN RAN SIXTY YEARS AGO

G. T. R. Celebrates Anniversary of Inauguration of Toronto-Montreal Service.

COMPANY JUSTLY PROUD

First Sleeping Coach Ever Made for Any Railroad Built in Hamilton.

Today is the sixtieth anniversary of the inauguration of railroad communication between the cities of Montreal and Toronto. On October 27th, 1856, the Grand Trunk operated its first thru train between these two important Canadian centres.

Toronto and Montreal had been dependent for their communication upon the St. Lawrence waterway and the stage routes, and after the close of navigation each year intercourse was maintained with great difficulty. The Grand Trunk Railway Company was incorporated in 1852 to build a railroad between the cities, the undertaking being looked upon as one of great national importance.

The company had promised the people of Canada that it would provide these new facilities for travel during the winter of 1856, and it accomplished its pledge in spite of many difficulties. The general manager of the road in his report to the directors in the following year said: "Notwithstanding all these obstacles the trains were enabled to run with a regularity which was not surpassed, and in the majority of cases not equalled, by any railroad on the continent."

The first train to operate over the Toronto-Montreal line was the forerunner of the International Limited of today. It represented the last word in railroad equipment, although it only consisted of three first-class and three second-class coaches. The operating schedule was a fast one for those days. The eastbound train left Toronto at 7.00 a.m. and the westbound train left Montreal at 7.30 a.m., and the running time was fourteen hours between the two cities, as against the seven and one-half hours of the International Limited of today.

The first train from Toronto was greeted on arrival in Montreal by thousands of visitors from all parts of Canada and the United States. There were military parades, torchlight marches, fireworks and dancing. The mayors of Boston, Cleveland and Portland and representatives of the City of Chicago congratulated the managers of Montreal and Toronto, and the proceedings were graced by the governor-general of Canada. The Point St. Charles shops of the Grand Trunk were turned into a great banquet hall with seating accommodation for 4,400 guests, and every table was crowded. Speeches were made by the governor-general, the governor of the State of Maine and other notabilities.

The mayor of Montreal alluded with pride to the fact that the Grand Trunk possessed 849 miles of railroad; today the Grand Trunk System comprises 8,115 miles of road. Montreal newspapers, in describing the banquet hall, said that the table cloth was close upon one mile in length. One of the ceremonies in connection with the opening of the line was a visit to the Victoria bridge, then under course of construction with two abutments and nine piers out of twenty-four already built. Barges, steamboats and sleighs in the winter served to move passenger and freight traffic across the St. Lawrence to join up with the railroad line to the Atlantic seaboard.

The company's officials were looking forward with confidence to the new traffic which the steamship "Great Eastern," planned in connection with the thru booking arrangements of the Grand Trunk, would bring to the line. Five months after the opening of the road between Toronto and Montreal the fact of its being added to the schedule, and railway history gives many complimentary accounts of the excellence of the accommodation provided. The first sleeping coach ever made for any railroad in the world was built at Hamilton, Ont.

The Grand Trunk is justly proud today of the fact that it was Canada's pioneer railroad, and takes especial pride in the fact that it has led the way in a very large number of the most important improvements in connection with railroad transportation, and that it is pursuing the same progressive policy in initiating or adopting all modern devices making for the safety and comfort of its patrons.

DISCUSSES ORIGIN OF INDIAN RACE IN CANADA

Rev. W. R. Harris Doesn't Believe They Are Descendants of Wandering Tribes of East.

The origin of the Indian race in Canada was discussed by Rev. W. R. Harris, D.D., in speaking at a luncheon of the members of the Empira Club yesterday. Declaring that Central America was the cradle of the Indians of North America, he made reference to the wonderful cities that ages ago existed in Yucatan and southern Mexico.

Many theories which have been advanced in connection with the origin of the North America Indian were dismissed by the speaker. He gave no credence to the stories that they were descendants of the lost tribes of Israel or that they originated from wandering Japanese, Chinese or other eastern people. "The lofty temples and terraces in Central America that day of the sturdy and unadorned of early Spanish explorers were absolutely distinct and original in conception and execution from any other buildings of ancient people," he said.

In conclusion, he believed the North American Indians to have descended from the people that inhabited Central America, and their loss of ancient civilization he believed resulted from their being driven to the forests in the north by enemies or disease.

Canada's future depends upon the fitness of her men

"The War will be DECIDED in 1935," says General Baden Powell, of South African and Boy Scout fame. "The true victory will lie, not so much on the battlefields to-day, as in the quality of the men who have to carry on the work of the country after the War." These ringing words point the way to duty,

The loss of thousands and thousands of our finest, fittest men, brings Canada to the parting of the ways. Every priceless human asset lost increases the responsibility of citizenship that, sooner or later,

must be shouldered by every man, young man and boy at home. Do your duty to yourself and the community. Join the Y.M.C.A. and increase your efficiency for your own and your country's sake!

Should Not Be Delay in Paying Insurance Claims

The payment of soldiers' insurance money is likely to be taken out of the hands of the committee at present

managing the affairs and handed over to a new official, to be installed at the city hall.

The committee is far behind in its work, and City Solicitor Johnston thinks that no delay should be countenanced in paying the claims of dependents.

Business Assessment on St. Charles Hotel Reduced

W. L. Hunter, who said he owned houses in every ward in the city, told the court of revision yesterday that he had reduced his rents from 20 to 50 per cent. Rents, he declared, were never lower than they are now. In appealing against an assessment of \$8588 on 63 and 65 West Gerrard street, he said he would gladly take \$7000 for the property. He was granted a cut of \$15 a foot. Frank Dussette had the business assessment of \$50,000 cut off the St. Charles Hotel, Bay and Richmond streets. The land is assessed at \$2900 a foot, and he was also promised a little reduction on that.

CHANGE NAME AND WORK. American Legion Auxiliary Becomes American Women's War Relief Association.

Much splendid work was done last winter by the women's auxiliary of the American Legion, which was composed of American women residing in Toronto. However, as they now desire to broaden the character of their work, at a recent meeting at the Carleton street they decided to change their name and become the American Women's War Relief Association. Not only will they assist American soldiers in the Canadian army service, but they will assist in other relief work. They have just forwarded ten dozen pairs of socks to the Secours National and will also fill one hundred Christmas stockings for Canadian war prisoners in Germany. A mother, whose boy is confined there has promised to obtain the names of one hundred Canadian soldiers who have no relatives or friends in communication with them.

Coryell.

It is the proud boast of Mr. and Mrs. George Oates, who reside at 108 Aloor avenue, that one of their sons died while serving the empire, another is fighting in France at the present time, and a third is now on his way overseas. The first of the family to don khaki was Robert Oates, who joined the 33rd Battalion as a private and he died Fred Oates, 123rd, of wounds. Pte. Fred Oates enlisted in the 123rd Royal Grenadiers Battalion, going overseas some time ago, while a third son, George, is attached to the 180th Sportsmen's Battalion, which left Toronto on Sunday last.

Both countries, however, are authorized to except from this exchange persons of the age mentioned if military reasons warrant. The Pope and Bilinguals

The encyclical letter of His Holiness Pope Benedict XV. to the Catholic hierarchy of Canada is admirable alike in dictation and sentiment. It deals in a straightforward manner with the bilingual issue and will do much to put a stop to noisy agitation.

When it comes to the school situation in Ontario his holiness reminds the bilingualists that the state "is supreme." "If you make your separate schools a nuisance to the public," he says in effect, "and defy the over-riding public sentiment of Ontario, you will rake up some morning to find separate schools in that province abolished altogether."

A Case for Hon. Mr. Hanna

A few days ago we published a letter from Rev. A. H. Tyrer, 240 Jarvis street, dealing with the conditions of life under which human beings carry on an existence in some parts of Muskoka. "Mental breakdown and physical and moral degeneration are found in an alarming degree," was one of the very best statements which Mr. Tyrer introduced in his letter in dealing with what may be called the sociological problem, for in no sense is there a social organization or social life in the districts described.

the provincial government, but we can scarcely believe that Hon. Mr. Hanna could allow his officials to remain inactive if he heard the story Mr. Tyrer has to tell, and saw the photographs Mr. Tyrer has to show of the cases, only too numerous within a range of a mile and a half, in which physical deformity and disease attend in the train of insect and adultery.

The Romanian Situation

We have had no alarm about the Romanian situation during the past two weeks. The fall of Constanta and the seizing of the railway to Carnavoda are not quite the triumph the Germans would have us believe. No doubt there was disappointment in some quarters because the Roumanians were unable to hold their gains in Transylvania, but it is by no means clear that the advance there was not a ruse to draw the foe.

Winter quarters in the Carpathians must be anything but an alluring prospect for the Germans, and the Carpathians must be held if the Roumanians are not to be allowed to repeat their raid on Transylvania. We take it that in their own territory the Roumanians can hold the enemy forces.

The immediate effect of the grand strategy in the Balkans was to tempt the Germans to weaken their lines in the west. The result of that has been seen at Verdun, and probably on the Somme battlefield also.

Let Us Be Merry

"Let us be merry," said Mr. Pecksniff, as he helped himself to the half of a captain's biscuit. "It is a poor heart that never rejoices." So our good neighbor The Mail and Empire bids the poor people rejoice and to give no thought to the high cost of living.

THE HOLY FATHER TO THE BISHOPS OF CANADA

He Enjoins Peace Among Catholics in the Language Dispute—Reminds Them of the Rights of the State—Urges the Bishops to Compose Differences Among Them, or, Failing This, to Refer These to the Holy See.

To our beloved Son, Louis Nisard, Bishop of the Holy Roman Church, Archbishop of Quebec, and to the other Archbishops and Bishops of the Dominion of Canada: Pope Benedict XV. On the 26th of October, 1916, the Holy Father, in a long and eloquent encyclical, addressed to the Bishops of the Dominion of Canada, deals with the question of the language dispute in the schools.

When divisions that endanger the mutual bonds of peace and concord arise within the church, the office divinely committed to our care of feeding the Lord's flock strongly urges us to make every effort in our power to bring them to an end. What is there, indeed, more harmful to Catholic interests, or more opposed to the divine precepts and to the principles of the church, than that the faithful should be divided up into factions? For "every kingdom divided against itself shall be made desolate; and whenever Christians cease to be of one heart and of one soul," they gradually wander away from that charity which is not only the bond of perfection, but is also the first and foremost enactment of the Christian law, that the Saviour of mankind bequeathed to His disciples as His last will and testament, and proclaimed it to be the sign and proof of the truth of His teaching.

By reason of family and race there is a disagreement amongst the faithful and the vessels of the flesh are estranged from one another. Let all you, therefore, who are called to the unity of the spirit in the bond of peace. For we are the children of the same Father, we are baptized in the same water, we share the same sacraments, and are called to the same happiness; baptized into one body, we have all been made to drink. As many of you as have been baptized in the name of the Father, the Son, and the Holy Spirit, are united in the same baptism, and share the same sacraments, and are called to the same happiness; baptized into one body, we have all been made to drink.

Meanwhile it is necessary that the daily and weekly duties of the faithful, not fan the flames of discord amongst the faithful, nor further the hatred of the church; and if those who write in them remain patiently and reservedly silent, or even further strive to calm excited feelings, they will surely accomplish a task well worthy of their profession. The faithful, too, who are called to this matter in public gatherings, in public meetings, or in the presence of the press, should be careful not to speak or to write anything that may add fuel to the fire already ablaze.

NEUTRALS FIND U. S. NEGLIGENT

(Continued From Page 1.) of the British steamer Stephano and the others had been received, and whether the circumstances were in accordance with the German pledge to the U. S. He referred to "the activities of the U. S. navy" and to the declaration of President Wilson which had resulted in the German pledge.

Lord Sydenham declared: "Even before the pledge was made to the U. S. the government of the U. S. has made no sign, whatever, and the sinking of neutral ships goes on almost every day. The Norwegians have lost 13 vessels in this one month, and what must be small neutral think of their powerful representative?"

No life, he said, was lost because of the presence of American warships. Lord Sydenham took the position that the presence of American warships actually enabled Germany to defy what she has called the "hounds of neutrality" as a sacred and indisputable rule of international law.

Seek Quarrel With U. S. Baron Sydenham expressed the opinion that Germany intended to bring America into the war so as to be able to say she could not fight the whole world, and because the U. S. would be a valuable asset in the peace conference. He continued: "The U. S. are really rather aiding and abetting this rather serious situation."

Foreign Secretary Grey said: "I have no understanding as to what information they are going to get or what they will do with the information when they have obtained it. All we do is to obtain information for ourselves from such sources as are open to us, and these sources in this case I imagine are officers in charge of the merchant vessels sunk or passengers, in one case, at any rate aboard the merchant vessels, all of whom have survived and to whom we can have access from whom we can get their individual statements of what happened."

"That is what is being done on the other side," I understand, Earl reports. I trust, will reach the admiralty in due course as to the statements of survivors, and when these reports are received by the admiralty, the reason why they should not be made public in this country, or that there will be any reluctance on the part of the admiralty among the departments concerned to making public the fact, which we shall have got for ourselves as to how the vessels were sunk and treated by the German submarines."

Lord Sydenham, continued Viscount Grey, "quoted statements made by the German admirals, the number of vessels sunk by German submarines since the German Government gave a pledge to the United States Government in May of last year, up to the middle of August, in circumstances which were apparently not in accordance with that pledge, which included firing torpedoes at ships without warning and insufficiently providing for the safety of the crews or passengers when the ships were sunk."

ARCHBISHOP'S TRIBUTE TO MONTREAL HEROES

"They Immortalized Themselves and Canada," He Says at Requiem Mass. Montreal, Oct. 26.—"Our fallen ones enrolled themselves valiantly to fight for a great cause, that of civilization, of right and humanity. They immortalized themselves, and in doing so they immortalized Canada. In this fight Quebec has done and is doing its share. I have too great a belief in the God of justice and right to permit me to believe for a moment that our enemies shall triumph," said Archbishop Bruchet, addressing about 1000 officers and men of the local battalions and civilians in Notre Dame Church this morning, at a requiem mass for the Montreal soldiers who have fallen especially those of the 22nd Battalion. The church was draped in mourning, and a large casket, used only on special occasions, was draped with the Union Jack.

Rugby St. Michaels 19 Senior Meds 1

SENIOR MEDS SOUNDLY BEATEN BY THE SAINTS

Light St. Michaels Team Romped Away From Their Heavier Opponents.

The heavy Senior Meds team was soundly thrashed by St. Michaels' fast youngsters yesterday in a "Mud-Cup" fixture. The score was 19 to 1, and it was just about indicative of the play. The Saints are fleet of foot and well-coached. They unhooked some clever trick plays and so well did the line work together that they stopped their heavier opponents nearly every time.

Senior Meds were sadly shy on team play and their backs did some costly fumbling. Twice St. Michaels' fell on loose balls behind the "doctor" line for tries. Criss-cross and straight runs were pulled by the winners, and they just about showed everything on the rugby map. The tackling was of the hardest order, and nearly every scrum was resulted in an injury. This dragged the game out and the last quarter was played in the dark.

Trynor did some grand booting for St. Michaels, and Collins was the big ground gainer up on the line. Senior Meds lost many holes and the Saints were not slow to take advantage. The doctor wings were woefully slow and the Saint backs had heaps of time to run back every kick.

St. Michaels piled up eleven to the Meds one point in the opening quarter. Collins found a hole soon after the start and salloped away for forty yards. With seven yards to go Collins romped again and landed behind the line for the first try. It was not converted.

Meds forced a rouse for their only point of the game. A doctor back fumbled a punt behind his line and Ford promptly rolled on it for a try. It was converted. This left 11 to 1 at the quarter.

The Saints tore thru time after time in the second quarter, but it was always stopped before they got into the dangerous district. Trynor booted to the line, and another fumble by the Med back line when trying to run the ball out, spelled disaster. Ford rolled over the ball and the half time score was 16 to 1.

Trynor kicked to the deadline shortly after the third period opened, and the Saints forced a rouse before they were ended, making the score 18 to 1. It was dark when they started the last session, and the goodly crowd of spectators were unable to follow the play. Just before the final whistle St. Michaels forced another rouse, and the final score was 19 to 1.

The teams:

St. Michaels (19): Flying wing, Dobin, halves, Blainey, McKenzie, Blatz; quarter, Sinclair; scrummen, Campbell, Dick, Fallon; insides, Dillon, Gordon; middles, Collins, Middleton; outsiders, Ford, Slesby.

Referee: Adelaar.

Cutting Down the Expense—News and Gossip of the Hockey Players.

A Vancouver dispatch says: Judges of hockey are going to be conspicuous this winter by their absence. Of course, where two clubs feel that they cannot get along with one referee, the officials will be permissible to inject a judge of play into the proceedings, but President Frank Patrick of the P.C.H.A. is convinced that one referee can handle the matches and to this end a change is being made, as well as one official to be made. The interests of the game will be served just as well as the officials on the ice. There have been occasions when the interests of the game will be served just as well as the officials on the ice. What You Should Wear

THE answer is "Hickey clothes." And the reasons are mighty good ones.

THERE'S a pattern reason, a style reason, a wear reason and a value reason—we "don't take our hats off" to any store on any of these features. Ask the man who wears our clothes.

THERE are some mighty fine cold weather overcoats to choose from now—garments that are as stylish as they are serviceable.

BOOTS NAMED TO CARRY TOP WEIGHT IN LONG ATONIA CUP RACE SATURDAY

Fair Mac, Pif Jr. and Rancher, Placed Horses in O. J. C. Handicap, Among the Entries—Kentucky Racing Will Close This Week.

Cincinnati, Oct. 26.—The Atonia Cup, two miles and a quarter, has the distinction this year of being the first American cup race in which the field will be composed of stars of this country and foreign lands.

As usual, the big race, in addition to its money value, will have a trophy donated by the Atonia Jockey Club, which goes to the owner of the lucky winner. This trophy has been especially designed to the order of Manager Jack Hachmeister, who has spared no expense in giving this year a trophy in solid silver that is in keeping with the monetary value of the stake.

There has not been in many years a prospective field of starters in a long-distance race that, on paper, appeared more attractive than the Atonia Cup does this fall. To test the four of the most probable starters have all won good races in America, as well as abroad, these being Star Hawk, Fair Mac, Boots and Killanna.

Star Hawk was a double stake winner in England as a two-year-old in 1915, and in the United States this year has his credit to the Lawrence Realization Stakes and the Kentucky Cup, while he also ran second to George Smith in the Kentucky Derby, being only beaten a neck after experiencing much bad luck in the running of that race.

Fair Mac won in Ireland in three years before his importation last June, and recently in Toronto captured the Ontario Jockey Club Cup at two miles and a quarter. He is from the popular line of the line, which the famous mare Pretty Polly made so fashionable.

Boots was a stake winner in England, and, coming back to America, has made a remarkable record this year. In his last start he has won five good races, and earned so far this year a total of \$12,500. While bred in America, having been foaled at the Elmendorf stud of the late J. B. Haggin, in Kentucky, his sire, Heslian, is an imported American, and his dam, Little Flower, is by Star Ruby.

The latter won the Thornton Stakes at the Elmendorf stud, San Francisco, in 1896, running four miles in 7:23 1/2. Star Ruby is a half-brother to the remarkable mare scepter, which won the One Thousand Guineas, Two Thousand Guineas, Oaks and St. Leger, and earned a record for turf performers of \$83,500, a record for turf performers of her sex.

Killanna won some good races abroad, and in Kentucky this fall has won at a mile and an eighth, and ran third in the Louisville Cup, two miles, and finished second in the Kentucky St. Leger, two miles and a quarter.

Both Boots and Star Hawk are owned by the California turfman, A. K. Macomber, while Grant Hugh Brown of New York owns Fair Mac and Killanna belongs to E. R. Bradley of Chicago.

Some other high-class horses of American breeding will be almost sure to go to the post for the race the coming Saturday. Among the favorites, the official mention are Hooge, Embroidery, Pif Jr. and Rancher.

Hooge has, during his career on the turf, won the Louisville cup, two miles, and a quarter, and the Kentucky Derby, won by Old Rosebud. In a recent race at Atonia he ran a mile and an eighth, and won, and he won a total of 34 races and \$36,560 in the four years he has raced.

Embroidery won at the recent Church Hill Downs meeting, the Kentucky St. Leger, two miles and a quarter, and ran second in the same race when won by King James in the same race this fall. Embroidery is owned by the Virginia turfman, Capt. A. B. Hancock, who at the present time has a breeding stud located in Kentucky.

Pif Jr. is a horse that, at times, runs races good enough to beat almost any horse. He seems now to race like a stayer. He is by Waterbury, winner of the Brighton and Saratoga Handicaps in 1905, while his dam, Anna Bain, a stake winner, is a daughter of the famous horse Kingston, which won the turf 59 races and \$142,662. Pif Jr. belongs to the popular Lexington racing stable of R. L. Baker.

Rancher has done much brilliant racing in the last two years. He has carried big weight and covered considerable distances of ground like an old-time four-miler. Last year he beat the Ontario Jockey Club Cup, two miles and a quarter, and ran third to Fair Mac and Pif Jr. in the same race this fall. On the opening day at Atonia he ran a close second to the great three-year-old Dodey, which has been in top form in Kentucky this fall. Rancher is a son of Galveston and his dam, Sweet Lavender, a stake winner, is by Gold-tinch. The latter is a half-brother to Common, winner of the Two Thousand Guineas, Derby and St. Leger. Rancher is owned by the prominent Canadian turfman, George M. Hendrie.

As usual, the big race, in addition to its money value, will have a trophy donated by the Atonia Jockey Club, which goes to the owner of the lucky winner. This trophy has been especially designed to the order of Manager Jack Hachmeister, who has spared no expense in giving this year a trophy in solid silver that is in keeping with the monetary value of the stake.

Both Boots and Star Hawk are owned by the California turfman, A. K. Macomber, while Grant Hugh Brown of New York owns Fair Mac and Killanna belongs to E. R. Bradley of Chicago.

Some other high-class horses of American breeding will be almost sure to go to the post for the race the coming Saturday. Among the favorites, the official mention are Hooge, Embroidery, Pif Jr. and Rancher.

Hooge has, during his career on the turf, won the Louisville cup, two miles, and a quarter, and the Kentucky Derby, won by Old Rosebud. In a recent race at Atonia he ran a mile and an eighth, and won, and he won a total of 34 races and \$36,560 in the four years he has raced.

Embroidery won at the recent Church Hill Downs meeting, the Kentucky St. Leger, two miles and a quarter, and ran second in the same race when won by King James in the same race this fall. Embroidery is owned by the Virginia turfman, Capt. A. B. Hancock, who at the present time has a breeding stud located in Kentucky.

Pif Jr. is a horse that, at times, runs races good enough to beat almost any horse. He seems now to race like a stayer. He is by Waterbury, winner of the Brighton and Saratoga Handicaps in 1905, while his dam, Anna Bain, a stake winner, is a daughter of the famous horse Kingston, which won the turf 59 races and \$142,662. Pif Jr. belongs to the popular Lexington racing stable of R. L. Baker.

Rancher has done much brilliant racing in the last two years. He has carried big weight and covered considerable distances of ground like an old-time four-miler. Last year he beat the Ontario Jockey Club Cup, two miles and a quarter, and ran third to Fair Mac and Pif Jr. in the same race this fall. On the opening day at Atonia he ran a close second to the great three-year-old Dodey, which has been in top form in Kentucky this fall. Rancher is a son of Galveston and his dam, Sweet Lavender, a stake winner, is by Gold-tinch. The latter is a half-brother to Common, winner of the Two Thousand Guineas, Derby and St. Leger. Rancher is owned by the prominent Canadian turfman, George M. Hendrie.

NINETEEN MISSING IN FARNHAM FIRE

Five Children, Eight Women and Six Men Probably Lost.

HEAVY PROPERTY LOSS

Little Insurance Carried on Grey Nuns' Hospital Destroyed.

Farnham, Que., Oct. 26.—It is believed that nineteen lives were lost in the fire which destroyed St. Elizabeth Hospital early this morning.

With the destroyed building of the Grey Nuns still smoldering, at midnight tonight, it was impossible to search the ruins for the remains of those who lost their lives in the fire, and no definite information as to the loss of life was ascertainable. So far as can be learned the probability is that 19 people were burned to death, five children, eight women and six men, but as supposedly lost ones are occasionally turning up safely this is more or less of a guess. Following is a list of those missing at midnight and believed dead:

Children: Phoenix, Vaudre, Daullin Dubou and Bonville. Women: Leduc, Morin, Fournier, Leclair, Yell, Couture, Larocque and Cadieux. Men: James Daniel, A. Bernard, Levesque, Bonville, James Oilmour and Bishonette.

Those suffering from injuries and being cared for in the convent near the burned buildings are as follows: Misses Alma Lussignan, Alphonsine Dufresne, Neuville Laberge, Cecile Laberge, Adrienne Potvin, Lina Cadoret, Mabel Cadoret, Lucia Cadoret (sisters), Jeanne Alexis Larocque and Elizabeth McCormick, all orphans.

Many Orphans. The cause of the difficulty in learning with accuracy the full extent of the loss of life in that the greater number of the inmates were without relatives or friends. At the time of the fire there were 54 old men, 37 aged women and the remainder servants and helpers to the Grey Nuns.

The cause of the fire is a mystery, as the furnace had not been in use for two or three days. The theory that it was a continuation of a chimney fire of Tuesday night is not held by the local authorities. The chief reason for such a large list of dead is attributed to the failure of the electric lights shortly after the flames were discovered.

It is understood that the Grey Nuns will rebuild. The material loss is estimated at about \$125,000 and there is \$35,000 of insurance.

Heroic Rescue Work. Details of the fight put up by the sisters and citizens to save the lives of patients and children entrapped in the hospital showed that dozens of men and women risked their lives in the rescue work. The sisters, even when it was obvious that it was impossible to get into the building and come out alive, continued to attempt to get the patients out of the building. A heroine of the fire was Sister Benoit, who, single-handed, saved the lives of 45 children.

Work of Incendiaries. Incendiaries are believed to be at work here, as two fires occurred to night without apparent cause. The first was at 8:30 when a barn and stable owned by Bert Gauthier was burned, the loss being about \$1000. Shortly after the fire the sisters, even when under control, a heavy stable owned by Arthur Groux was destroyed by fire. Local authorities have asked for help from Montreal detectives in trying to locate the authors of these fires.

Railway Men Deny They Will Discuss New Agreement

The report in an evening paper yesterday that the street railwaymen were to hold two mass meetings in the Labor Temple on Saturday night to discuss the forming of a new agreement between the union and the company, was denied by union officials last night. The agreement between both parties does not expire until next June and the union has not yet thoroughly taken up the matter.

One of the directors of the union when asked at the Labor Temple why two meetings were scheduled for Saturday night, replied that every October the union hold a social entertainment, and the only business transaction is the reading of the financial statement.

TOTAL SALES LARGE

Dealings at New Centres Mainly Around Secondary Shares.

New York, Oct. 26.—Like the preceding sessions of the week, today's active, broad and frequently irregular market

Latest additions to the ranks of prominent and strong rally were Lake Erie and Western, Chicago Great Western, Texas Pacific, Colorado and Toledo, St. Louis and Western.

U. S. Steel and related stocks fluctuated within 2 to 3 points limits, handling on the later covering movement.

The more popular equipments and munitions were under pressure, but yielded only moderately with Motors, Leathers, Industrial Alcohol and Mexicana.

Coppers were irregular, except for Utah, which attained to a new record with Globe, Cane Sugar and Consolidated.

Rock Island, Pittsburgh, Wells Fargo Express and Paper shares. Total sales amounted to 1,260,000 shares.

The greater heaviness of international war issues, some of which fell to new low records, while others approached their minimums, featured an otherwise strong market.

DAVIDSON HIGHER

The Porcupine, Davidson made a further gain, selling up to a new high at \$2. Dome Extension was easier, selling back to \$1.1-2 with \$1 paid for an odd lot.

Domestic Lake slipped back a little also to \$1. Big Dome changed hands at \$2.60.

Hollinger Consolidated added in good demand all day at \$6.75 to \$6.80.
