DEATH LIST NEW YORK FIRE NOW NUMBERS TWENTY

Flames Spread With Such Rapidity in East Side Tenement That Scores of Persons Were Cut Off From Escape—The Bodies Burned Beyond Recognition

NEW YORK, July 28.—After an all night search of the ruins of the six-story tenement on Chrystie street, which was burned shortly after midnight, the police announced that there were 20 victims of the fire. Almost all of the bodies were burned beyond recognition, making it impossible to distinguish the sex. A majority of the victims, the police believe were women and children.

Only five of the victims have been identified up to an early hour today. They were Marie Di Dolico, his wife Amelia and their two infant children, and Frank Childs, a bedridden cripple, who was carried out alive by the firemen but who succumbed to his injuries soon after his rescue. The burned building was one of those old fashioned tenements common to the east side, with a store on the ground floor and the apartments upstairs crowded with tenants, mainly Italians. The fire started in the store, swept through the building with such rapidity that a fifth of the 100 tenants in the place met a horrible death.

Another score, though they escaped with their lives, were more or less burned or otherwise injured.

LONG BEACH, N. Y., July 28.—Eight hundred guests of the Long Beach hotel on the Atlantic coast had to flee their lives early today when a fire broke out in the hotel. There was no loss of life and no one was injured, although the guests were alarmed and roused the sleeping guests. The flames gathered quick headway in the great wooden structure and the guests had barely time to seize some scanty clothing and escape. The hotel burned like tinder and in a short time was a smoldering mass of ruins. Loss about \$200,000. The hotel was three stories high, and nearly 800 feet in length. It was filled to capacity. Housed 1,100 persons.

THREE WERE KILLED IN REAR END COLLISION

BROCKTON, Mass., July 28.—A special train ran into the rear of a freight train standing under the Plain street bridge on the New York, N. H. and H. R. R. and plowed its way through the cab and four cars, killing three trainmen and injuring four others, two of them seriously. It is said that no fireman was sent to the rear of the freight to warn approaching trains.

DR. DUFFY APPOINTED TO DOUGLASTOWN HOSPITAL

CHATHAM, N. B., July 28.—Announcement has been made of the appointment of Dr. P. F. Duffy, as surgeon of the marine hospital at Douglastown.

The contest was narrowed down to Dr. Duffy, Dr. Byrne, of Chatham and Dr. Desmond, of Newcastle, and was pretty warm. According to one side Dr. Byrne had the support of all Chatham, but the other side claims Chatham was divided between Byrne and Duffy and Newcastle between Duffy and Desmond, and Duffy therefore got the post.

WHAT'S IN A NAME?

A gentleman named Christ called at the Hall this morning to take out a license. During his stay in this city he will lecture on Market Square, giving a demonstration of lightning computation. He is the author of a book on figures, and after each demonstration he sells the books to those interested in the work. Mr. Christ will remain in this city for five days.

LONDON, July 28.—The White Star Line announced that a new principle will be adopted in the new \$24,000 ton steamer which is being built by Harland and Wolff for that companies dominion service to Canada. A combination of turbines with reciprocating engines.

The mayor receives many calls from many sources and is known throughout the city as a patron of all kinds of sport and a supporter of every semi-public institution, but the climax has been reached. A west end baseball team has decided that the mayor is a banker, and in order to obtain uniforms for a certain special occasion suggested to him sufficient to defray the cost of the suits. His worship has not yet decided whether he will accept this new role or not.

DRUNKEN BULLY GOT MORE THAN HE EXPECTED

Man Who Insulted Woman Was Thrown from a Car and Killed

NEW YORK, July 28.—The Herald this morning says: After repeatedly using insulting language to women passengers and challenging their male escorts to fight, William P. McKee, 38 years old, an amateur athlete, living in Long Island City, either fell or was thrown from a Long Island Railroad train while it was running at a speed of 40 miles an hour, near Hammill last night, and killed. His body was found lying across the third rail, but it is believed that death was caused instantly by falling.

Leaving Rookaway Park the train was crowded with returning Sunday excursionists that every platform was filled. McKee got aboard at Hammill. He evidently had been drinking and then began offensive language to the women. Several men threatened to punish him if he did not keep quiet, but this seemed to inflame him more and he burst into another torrent of language.

It was then, according to Mrs. Baillie, a passenger, that one of the men who was accompanied by his wife and two children, sprang from his seat, dealt McKee a heavy blow in the face, dragged him to the platform and flung him from the rapidly moving train. Another version is that McKee in getting alight at a passenger car who reentered with him, lost his balance and fell from the moving train.

TWENTY EIGHT EMPTY GIN BOTTLES ON WHARF

Magistrate Once More Refers to the Prevalence of Sunday Drinking.

Two drunks were fined \$5 each this morning. One was arrested late Saturday night, and the other yesterday. The magistrate said that there is a habit of too much Sunday drinking in St. John. He was informed by a citizen that no less than 28 empty square face gin bottles were found on a wharf off Smyth street a week ago last Sunday. The gin had been partaken of and the bottles thrown on the wharf. "I wish you policemen would just bring some of these wharf tippers up here to court until I see what they look like."

Hatfield complained to the court that the White Candy Company obstructed the Union street sidewalk in front of the factory on Wednesday last with a number of barrels, and that it was an annoyance to the people in the next building of which the complainant is a trustee. Manager White of the factory, explained that on the day in question, the engineer had charge of the factory and that this man had left the employ on Thursday. The case was adjourned until next Monday morning.

The Methodist ministers met in weekly session this morning. Rev. Dr. Wilson presiding. Rev. G. M. Campbell gave a short account of his trip through Nova Scotia in the interests of the Canadian Bible Society. Only the routine business was transacted.

THE ORINOCO WILL BE A TOTAL LOSS

HALIFAX, July 28.—The West India steamer Orinoco, is likely a total loss with her valuable cargo. Word from Cape Sable this morning says the tide ebbs and flows in her holds and the crews have abandoned her and are expected here tomorrow. About one hundred bags of sugar some personal effects and linen have been recovered.

MISUNDERSTOOD HIM.

One day an army chaplain saw a soldier of the name of McDonnell making for the back door of a saloon. "McDonnell!" the chaplain shouted, "McDonnell!" On McDonnell. McDonnell turned, gave him a hasty look, frowned, and darted into the bar. The chaplain loitered outside the door till McDonnell came forth again. "McDonnell," he said reproachfully, "didn't you hear me calling you?" "Yes, sir," McDonnell answered, "I did, but I only had the price of one drink."

The death took place at his home on St. Patrick street, this being the home of George Clancy. He was about 48 years of age and had been ill with consumption for a long time. He was unmarried.

Rev. Merritt L. Gregg of Providence, R. I. is a guest at the Clifton. Mr. and Mrs. Jas. C. Martin of Virginia are guests at the Clifton.

MONCTON ENJOYING A BUILDING BOOM

Many New Cottages are Now Under Construction

Rev. H. E. Thomas is Once More Talking Scott Act—Suggests a Saloon Opposite His Church.

MONCTON, July 28.—With permits issued for forty-eight new buildings, and twenty permits for extensive renovations, one of the most extensive building booms in recent years is under way in Moncton at the present time. Dwellings which are being erected are generally of an excellent character, costing in the vicinity of fifteen hundred and two thousand dollars, while more pretentious structures exceed a thousand dollars. On almost every street in the city, dwellings are in course of erection, or are being remodelled.

The sorrowful conditions of Scott Act enforcement in Moncton were severely criticized by Rev. H. E. Thomas, pastor of Wesley Memorial Church, in a sermon last evening. The city is now without a Scott Act inspector, here, said Rev. Mr. Thomas, is law without anyone to enforce it, and anyone might walk across to the corner opposite the church and start a bar-room, and no one dare molest him. It is astonishing that people who have a standing in the community, some of them members of the church, who have taken a solemn oath of office to uphold existing laws, defy the people who elected them.

The body of Edward Williams, who met death on Saturday afternoon through being drowned in Humphrey's mill pond, was this morning taken to Adamsville for interment.

ROCKEFELLER HAS SPENT HIS LIFE IN DOING GOOD

Go to Sunday School He Says, and Get Away From Summons Servers' Pursuits.

CLEVELAND, Ohio, July 28.—John D. Rockefeller told members of the Sunday school of the Euclid Avenue Baptist church yesterday that the great secret of success is "get away from the butterfly pursuits of life and devote yourself to doing good to those around you." "It will be fifty-four years, next September, since I came to Sunday school," he continued. "I was fourteen years old and I consider that event the most important of my life. An old lady came to me one day and said, 'I belong to the Baptist. She was a Presbyterian and did not have much use for Baptists, but she told me to stick to it and I always have.'"

A BIG FIRE RAGING AT LONG BEACH TODAY

FAR ROCKAWAY, N. Y., July 28.—A big fire is raging at Long Beach, a coast resort a few miles from this place. Assistance has been asked of the local fire department, and engines have been sent from here. One of the largest hotels along the Atlantic coast is located at Long Beach, and there are a score or more of cottages which are occupied at this season by New York people. The hotel is a great wooden structure of three stories and is about six hundred feet long and two hundred wide. It is usually crowded with guests at this season of the year.

NOVA SCOTIA NEWS.

HALIFAX, N. S., July 28.—The pulp mills of the North River Lumber Co., at St. Ann's, C. B., were totally destroyed by fire last night. The loss will be heavy. The warehouse, stable and wharf were saved. Vandals entered the parish hall of Holy Trinity church, Liverpool, Saturday night and destroyed Bibles, prayer books, organs and books in the library.

FREDERICTON NEWS.

FREDERICTON, N. B., July 28.—There was raffed at the Douglas boom last week 2178 joints and at the Mitchell boom 1,732 joints, making a total of 3,910.

The river has risen three feet since Saturday and is still coming up.

SAN FRANCISCO, July 28.—The jury in the case of Louis Glass, vice-president of the Pacific States Telephone and Telegraph Company, charged with bribing Supervisor Burton, was unable to reach an agreement and was discharged yesterday. The jury was out many hours.

NEW YORK, July 28.—Wm. Nelson, a negro, was executed in the electric chair in Sing Sing prison yesterday for the murder of Elizabeth Norman, with whom he lived. Nelson was given two shocks.

PRISONER SHOT WHILE ATTEMPTING TO ESCAPE

MOROCCAN TROOPS ARE AFTER RAISULI

Villages Destroyed and Tribesmen Beheaded—Force is Within Easy Reach of McLean

TANGIER, July 28.—The Sherifian troops Saturday attacked villages belonging to the Kmas tribe in whose territory the bandit Raisuli holds Caid Sir Harry Maclean prisoner. The troops burned and looted the villages killing many of the inhabitants and taking a large number of prisoners. The government forces were completely victorious, but as the battle was fought within six hours journey of where Caid Maclean is believed to be located, his position is regarded as more precarious than ever.

The Sherifian troops were under the command of Caid Bouchta, who has a personal account to settle with Raisuli, having been wounded by the bandit in a former encounter. Having reached the walls of the town of Sheshuan on Saturday, the heads of the Kmas villages met Bouchta and offered to discuss with him terms for the release of Caid Maclean. The government officials declined to discuss this matter and demanded the surrender forthwith of Raisuli. They then burned the villages, occupied Sheshuan and beheaded the rebels, who had been killed in the fight.

Caid Bouchta, who thus far has been completely victorious, will advance upon other villages, overawing the inhabitants in an endeavor to destroy Raisuli's influence. The Sultan is mobilizing other troops to assist in the search and the capture of Raisuli.

COMMENT ON THE HAYWOOD VERDICT

Depreciable Conditions Revealed by the Evidence—Bryan Gives His Views

LONDON, July 28.—Commenting on the result of the trial of Wm. D. Haywood, at Boise, the Chronicle to-day says: "The state of society revealed by the trial is more terrible than any civil war, because it is more treacherous and is likely to be more lasting. From beginning to end it reveals a condition of brutal rapacity and savagery. Your vindictive violence, a condition that gives American boasted civilization a dubious look."

The Daily News—"From the outset the question has been complicated by the fierce prejudices of a kind of smouldering civil war. The whole movement, both in the evidence of the trial and its accompaniment, is in public excitement, has illustrated the insecurity of authority in America and the profound scepticism concerning the identity of law and justice."

Both editorials refer to President Roosevelt's "undesirable citizen" statement. The News calls it one of his frequent public indiscretions and the Chronicle predicts it will cost him dear.

CHICAGO, Ill., July 28.—National secretary of the Socialist party, J. Mahin Barnes, has sent this telegram to Wm. D. Haywood: "Greetings and congratulations. Your vindication brings expressed joy to your comrades and fellow workers everywhere. The verdict is a complete route for the operators and a signal victory for the working classes. Greetings to your companions, the 'undesirable citizens,' Meyer and Pettibone." It was reported that Haywood would go to Duluth, Minn., to take charge of the strike of the iron ore miners.

PEORIA, Ill., July 28.—W. J. Bryan is quoted as follows on the Haywood verdict: "I am glad to learn of a verdict and that it was not guilty. I watched the trial and did not see how any one could be found guilty on Orchard's testimony. Every crime he charged was one he himself suggested and it was shown he was in communication with mine owners and attempted to induce the defendants to engage in crime."

"The manner in which the prisoners were taken from Colorado was hardly in keeping with a fair prosecution."

FATAL ACCIDENT TO AN AUTOMOBILE

NORTH ATTLEBORO, Mass., July 28.—An automobile owned and driven by Louis D. Burrows and containing also Mrs. Florence Murray, Dr. Thomas Ford and Mrs. Howard Black, all of here, crashed into an iron bridge at Arnold's Mills, R. I. last Saturday night, instantly killing Mrs. Murray and seriously injuring Dr. Burrows. Mrs. Black suffered from the shock but the others escaped unhurt, except for bruises.

Mrs. R. Downey and two children, of Halifax, are guests at the Carleton House, West End.

William Becket, Guard of the Chain Gang, Sent a Bullet Through John Cook's Leg

The Gang in a Mutinous State—Michael Cogswell Got Away

Wm. A. Becket, one of the guards over the chain gang, shot and wounded John Cook, one of the prisoners, this morning while the gang was at work at the Fernhill cemetery. Another prisoner, Michael Cogswell, made good his escape.

There were fourteen men in the chain gang this morning. They reached the cemetery about nine o'clock and as usual commenced work on the grounds. Supt. Clayton, of the cemetery, directed some of the work along with Guards Beckett and Collins. The two prisoners, Cook and Cogswell, no doubt had matters framed up to escape together, for the gang had been working only a short time when the two made a break for liberty, vaulted over a fence and headed for the woods. Guard Beckett followed and managed to capture Cook, who immediately put up a fight, saying that Beckett could not take him back to jail. Supt. Clayton was called for assistance and aided the guard in returning with the prisoner. On their return Cook made another break for liberty. Beckett drew his revolver and called on Cook to halt. He did so, and as Beckett got to where Cook had halted the report of the revolver the prisoner sank to the ground with a bullet of 38 calibre in his left leg.

The bullet entered the calf of the leg and plough its way from side to side. At the time of the shooting the other prisoners became restless and it was feared for a while that the entire lot would make a break for their liberty. A hurry up call was sent to Central Station and Chief Clark with Detectives Killen and Sergt. Fitzpatrick left for the scene. Dr. Berryman also was summoned and the wound in Cook's leg bled quite freely. The doctor probed for the bullet but failed to locate it, and it is thought that it passed right through the limb. Cook was conveyed to jail where he was attended to by the jail surgeon, Dr. Jas. Christie. Later he was taken to the hospital. It is not thought that the injury will prove very serious.

John Cook was arrested last Thursday for lying drunk in the I. C. yard. He has been working in the Mispac pulp mill. Some time ago he resisted arrest very violently on the Marsh Road.

Mike Cogswell who made good his escape, was arrested on the North Wharf a week ago last Sunday for being drunk. Both men were serving 30 days imprisonment.

STEAD SAYS BRITISH DELEGATES ARE NO GOOD

Have Utterly Failed in His Opinion to do Anything Towards the Promotion of Peace

LONDON, July 28.—Wm. Stead, editor of the Review of Reviews, who has been conducting a publication at the Hague devoted to peace conference matters, when interviewed on the progress of the peace conference delivered a serious indictment against the British delegates.

He said: "Until Saturday, when under the pressure of angry protests, the British government instructed its delegates, to make a belated declaration of adhesion to the American plan of obligatory arbitration, the British delegation has done nothing for peace, nothing for arbitration, nothing in short, for anything that British people believed they had sent to the Hague to do."

"Their action, and still more, their inaction, has been the amazement of despair of all the friends of peace. I do not exaggerate in the least when I say that as far as every principle the British government is supposed to have at heart is concerned, it would have been much better to have had no delegates at all, than the men who have shown skepticism where they ought to have shown enthusiasm, who have repelled where they ought to have attracted; who have been a wet blanket upon every aspiration of peace crusaders, and who have succeeded in utterly destroying England's reputation as the leader of the peace-loving nations of the world. As members of a conference striving for peace ideals, they are about the most incompetent set of beings that ever achieved an unmitigated failure."

Great Britain having abandoned her trade and national position, the leaders have fallen into the hands of United States and we taught the Americans that Germans are warmer friends and stouter allies than the British."

CALCUTTA, July 27.—As a result of three recent tours in the most disaffected districts of Bengal, my correspondent is in a position to state definitely that the serious nature of the situation is hardly realized by Europeans in the other parts of India or even at home. Many Europeans were interviewed, both official and non-official, and the missionaries at the various stations were interrogated, and all agreed that the disaffection was the result of a campaign of sedition directed from Calcutta, the agencies employed being not only the press and the platform, but the active organization known as the National Volunteers, which has local branches in almost every town and village. These volunteers are being trained in archery and in the use of sticks and swords by well paid professional instructors. They preach everywhere revolt against the Raj and actively push a boycott of the English officials and of the British goods. Men who cannot be threatened and who still retain relations with the English officials are punished by means of the boycott, either social or business. And undoubtedly the boycott is the deadliest weapon in the hands of the National Volunteers. The rural police are too weak and in some cases too disaffected themselves to take action. Where the British and Mohammedan officials have attempted to investigate the situation they have found themselves unable to obtain evidence, witnesses being afraid to come forward. Naturally in this condition of affairs the people are growing more and more restive for order and authority. Companies of Gurkhas from Assam and military police from other provinces are posted in the larger villages and at the river stations. The worst feature of the situation, however, is the growing certainty of assaults upon Europeans. A traffic officer is authorized for the statement that there is a danger of the Assam-Bengal Railway being closed entirely owing to the reluctance of the guards and the fact that the trains on one occasion no fewer than fifteen guards refused to work a train. Mohammedans in charge of the river steamers, have also been assaulted both on the steamers and on the bank. The last case reported was of a particularly daring nature, and disclaiming all connection with the government, are springing up. More government-aided colleges are openly defying the recent government circulars prohibiting students from attending political meetings. The students, however, are not in the least afraid. Not only do their willingly address the meetings, but they even hulkily address the meetings, publish the names in the newspapers. Examples of the wild talk of the Hindu press are published by the "Englishman." A few extracts may be taken as typical of the rest:

1.—Where is Hell on Earth? The Ferings' dominions.  
2.—The Ferings has got a fright. The rajai in the Punjab has become infuriated, the Sepoys are shaking their heads, and that is why the Ferings, his like cowards have superseded the courts of law and begun committing oppression. Let the drum first sound from Calcutta and may it re-echo from all India.  
3.—Arise, awake, the flame has caught on. Brethren now it has begun. The house has caught fire, sleep no more, arise, awake, awake. You suppose that happiness and peace are reigning all over the country and that with a few voting rights all your grievances will close. That is not so. Your heart and your homes are going to be ruined. Nothing will avail unless maddened you take a resolute stand. It has become necessary now to come to an understanding with the Ferings. There are few nations on the earth so barbarous as the Ferings. A boycott of the Ferings, this should be a guiding principle now. Try if the Ferings is not brought to his senses then, and if the Ferings resist the carrying to completion of this boycott, then they will be destroyed in the very flame which they have lighted up for the country.  
4.—We want complete independence. The country cannot prosper as long as the Ferings are in the country. Let the very streets of the Ferings' supremacy over it is left. Fle on the idea that the Ferings are to remain our masters for ever! A stranger has entered into our homes. He must be put out of it, or kept only as a servant or guest. This is the aim of the new party.

6.—Be not afraid. Not very many listened for the young Manik, the day when wounded to his heart's core for the sufferings and poverty of Italy he firmly resolved to free his country from its bondage. But today Italy has expiated her own sin and has washed away in human blood the blackness of her stigma. Oh, ye sons of Bengal, worshippers of Sakti (Kali, the Goddess of Destruction), will ye be averse from that? Under the stress of plague and famine lakhs upon lakhs of people are dying every year in this country. And yet are not ten thousand sons of Bengal prepared to embrace death to avenge the humiliation of their fatherland. The number of Englishmen in the entire country is not more than a lakh and a half. And what is the number of English officials in each district. With a firm resolve you can bring English rule to an end in a single day. Begin yielding up a life after taking a life. Dedicate to your life as an offering at the temple of liberty.

CHARLOTTETOWN LAWYER  
SENT UP FOR TRIAL

CHARLOTTETOWN, July 28.—The preliminary examination of E. O. Brown, charged with forgery, before the stipendiary magistrate of Charlottetown, drew a large crowd to the police court Saturday. Brown is a young barrister hitherto regarded as a rather clever and rising member of his profession. The charge is obtaining money from the Misses Stampfer, of this city, for which he gave them a mortgage which turns out to be of no value, the certificate of registration thereon being forged with the name of the registrar of deeds. After hearing the evidence, the magistrate remanded Brown to stand trial at the supreme court. Immediately after hearing the first charge, another charge was read in court, made by the manager of the local branch of the royal Bank of Canada, and specifying that the accused had presented for payment a forged note of hand bearing the name of Alexander Martin, M. P. for Queens County. Postponement of the hearing of this charge was allowed on request of the prisoner's counsel. The charges are the only ones upon which action has been so far taken in a case which has furnished the greatest sensation in this line that Charlottetown has ever experienced. Brown is a native of Little Rock, a settlement nine miles from Charlottetown, and of a most respectable family. How far his operations have extended is not known, but people who have been engaged in business relations with Brown and had entrusted money to him, on turning up their accounts found them to be of no value. Brown is thirty-three years old and was a distinguished student at Prince of Wales College, and at McGill University. For his family and his family and his brother, H. H. Brown, merchant, of Charlottetown, there is much sympathy felt.

U. S. SENATOR PETTUS DEAD

ASHVILLE, N. C., July 28.—U. S. Senator Pettus, of Alabama, died at Hot Springs, N. C., at 10 p. m. Senator Pettus was stricken with apoplexy while seated at breakfast at a hotel at Hot Springs, N. C., yesterday morning. He remained unconscious until his death. First Tramp—After all, it pays to be polite, partner. Second Tramp—Not always. The other day I was actin' deaf and dumb when a man gave me a kipper. I says, "Thank you, sir," and he had me arrested.

#### DRUNKENNESS IN CANADA.

Anyone who takes the trouble to search through the departmental blue books can find a great deal of interesting information hidden among masses of tiresome statistics but still worthy of thought. Perhaps nothing more striking appears in these official reports than the proof annually given to the great increase in the use of liquor in Canada. In spite of the strenuous campaigns now being carried on by temperance organizations, this country is rapidly falling from the creditable position it once had, and is becoming noted for inebriety. Never has there been recorded so much drunkenness as during the year 1905, and the steady increase in the past ten years is most marked. Taking Canada as a whole, it is found that there is now fifty per cent more drunkenness in proportion to population, than was found in 1896. In the latter year there was one violation of the vagrancy act for every 265 persons in the country, while in 1905 there was one recorded violation for every 118 inhabitants. The increase has been continuous, and 1905 was the worst year on record. The cases reported numbered in all 23,316, as against only 19,179 in 1896.

Manitoba is responsible for the largest proportionate increase, interperence having gained over three hundred per cent in ten years. Ontario statistics show that drunkenness is far more common in that province now than formerly. Nova Scotia and New Brunswick are both losing their creditable record, and only P. E. Island and Quebec can claim that liquor is not being used any more freely than in the past.

In the matter of drunkenness, the standing of the provinces is as follows. The table gives the number of violations of the act, and also the number of persons in the provinces for each violation.

| Province.         | Cases. | Ratio. |
|-------------------|--------|--------|
| P. E. Island.     | 294    | 49     |
| Nova Scotia.      | 3,018  | 152    |
| New Brunswick.    | 1,227  | 174    |
| Quebec.           | 4,281  | 200    |
| Ontario.          | 11,569 | 191    |
| Manitoba.         | 4,348  | 76     |
| British Columbia. | 2,659  | 173    |
| Territories.      | 2,410  | 149    |
| Canada.           | 33,816 | 178    |

In the year 1896 the standing was:

| Province.         | Cases. | Ratio. |
|-------------------|--------|--------|
| P. E. Island.     | 138    | 746    |
| Nova Scotia.      | 2,181  | 203    |
| New Brunswick.    | 236    | 236    |
| Quebec.           | 7,155  | 219    |
| Ontario.          | 6,357  | 338    |
| Manitoba.         | 791    | 248    |
| British Columbia. | 77     | 173    |
| Territories.      | 404    | 261    |
| Canada.           | 19,179 | 265    |

It should be added that in P. E. Island in 1896 the cases of drunkenness were fewer than they have been in any year since that time.

In the province of New Brunswick in the year 1905 out of 1,733 persons fined for drunkenness, the total amount of the money fines imposed was \$3,244. C. C. Hesse, the fines paid aggregated \$4,709, there being \$1,465 unpaid, and 187 persons were committed to jail by default. Looking through the records of all the different provinces, it is found that the largest number of persons going to jail on conviction are those found guilty of drunkenness, and that the proportion of fines paid is smaller on this offence. Prisoners who are guilty of assault pay up far better than those for drunkenness, and indeed the whole report goes to show that the authorities are compelled to expend in dealing with persons who use liquor far more money than is required for any other branch of the work, and that they receive proportionately less in return.

It is a remarkable fact that in the Northwest territories every cent of the fines imposed in 1905 for drunkenness were paid. This record is remarkable in the history of justice. In Canada a total of \$34,657 was paid. Very different is the record of offences against the Canada Temperance Act, or violations of other liquor laws, for in these it is shown that over 90 per cent of the fines were paid. It is worthy of note that 64.1 per cent of the total number of persons convicted of indictable offences in Canada in 1905 used liquor moderately, and 27.4 per cent used it to excess. The balance of the percentage for the year, representing the non-drinkers are given as not classified, but it might be supposed, judging from other statistics that half of these used liquor.

#### ARE CONSERVATIVES NOW.

Having for several years been the private property of Mr. David Russell, The Telegraph and The Times have now passed into the hands of a party of Conservative leaders. These papers will hereafter endeavor to fill the gap which has, in the minds of those who oppose the present government, existed in the press of St. John. The opposi-

tion have been endeavoring to obtain control of some one or other of the existing journals, having evidently come to the conclusion that an established paper is a better investment, from a business point of view, than would be the organization of a new one. All that is now needed is a total change in the policy of the papers, which will no doubt be made tomorrow. The announcement this morning, of independence, is the first step, and hereafter those who feel it their duty to talk "against the government" will find ready support in the columns of The Telegraph and The Times.

#### KINSHIP.

"Heir of an ancient, kingly line—"  
"Or so they said to me—"  
"Sealed with that mystical high sign  
"You dare not recant be."

In youth I pledged my fealty  
"To each renewed forer,  
"Who with his sacrifices free  
"Enriched me unaware."

And oftentimes I feel the stir  
"Of some remoter claim,  
"When whisp'ring this across me  
"Seen vibrant with my name."

"Oh, will you go a-gypsying?"  
"The wandering voices say—"  
"The dancing spirits of the spring  
"Are with us but a day."

Come out! Come out! The summer  
"rings  
"Her radiance over all;  
"We'll find for you her secret springs;  
"Come learn their sliver call."

What wealth was scattered at the feet  
"Of an impoverished child,  
"What influence wooed her strangely  
"To kingdoms of the wild!"

Some day—so strong the instinct lives—  
"I shall fare forth, I know,  
"To dwell with my rich relatives,  
"My kin of long ago."

#### ONE UNFAILING OPTIMIST.

There's an optimistic fellow  
"Whose writings I admire;  
"I read him at each week end—  
"He's such a cheerful heart—"  
"He sings down from the mountain  
"This most uplifting line:  
"The water's clear and normal—  
"The fly fishing is fine."

You grasp your boots and tackle  
"And to the trout stream fly;  
"You find it chock'le colored  
"And my, but it is high!"

You whelp the food all valmally—  
"Of trout there is no sign—"  
"But still there comes this message—  
"The fly fishing is fine!"

We've heard of Ananias,  
"And some who've led since him;  
"But sometimes all those liars  
"Would yield to truthful whim;  
"But he who lures the fishers  
"Knows many a spell benign—"  
"With him all water's crystal—  
"And the fishing's always fine!"

#### A DOUBT.

"That was rather slighting," said  
"Senator Beveridge of a certain speech."  
"It was like the speech of the old  
"Adams butler."

"When I was a boy in Adams county,  
"Judge Blank was taken very ill.  
"The doctor called regularly, but  
"Judge kept getting worse, and finally  
"The crisis came."

"The morning after the crisis the  
"doctor rang the Judge's bell at sunrise.  
"I hope your master's temperature  
"is lower than it was last evening?" he  
"said to the butler, anxiously."

"It's not so sure about that, the  
"man answered. He died, sir, in the  
"night."

"The president of this road," remarked  
"the man in the corner of the  
"smoking compartment, "is one of those  
"old-fashioned railroaders. He began as  
"a brakeman. Instead of riding over the  
"line in a private car to inspect it, he  
"walks over it."

"I don't blame him," declared the  
"man."

"You don't have any of those rambling  
"old farm houses in Kansas," said  
"the eastern tourist."

"No," responded the dejected one,  
"when our farm houses get ready to  
"go anywhere they haven't time to  
"ramble."

DIE BUT ONCE.

The teacher was telling of the effects  
"of cigars smoking on the  
"heart, and added, "People with weak  
"hearts often die."

A deeply interested boy asked how  
"How often do they have to die before  
"they stay dead?"

UNLUCKY.

Husband—"Ah! me, marriage is a  
"lottery!"  
"She—"And I heartily wish someone  
"else had my ticket!"

## THREATEN TO BLOW UP A CANADIAN CRUISER

### Quoddy Fishermen Very Indignant Over the Prosecution of Dynamiters—A Fish Famine Follows Stoppage of the Crime.

EASTPORT, July 27.—The arrest and conviction of the men thought by Commissioner Donahue of Rockland in the act of killing pollock by dynamite on Wednesday, July 24, brings into discussion the effects of the use of explosives in the waters of the bay upon other fishes and upon the fishery business in all its branches. There are those who declare that the dynamiting operations carried on successfully during the present summer are responsible for the marked scarcity of sardine herders, usually plentiful during the month of July and the citizens of Eastport, who have in mind the welfare of the community as a whole, present and future, deplore the practice which many claim is a legitimate one. There can be no question but that the terrific explosions in the bosom of the deep caused by the men whose greed of gain makes them regard but little the rights of the community as a whole, are responsible for the destruction of much sea life and the natural consequences are disastrous all around the fish being scared away from their natural haunts working an injury upon the people of the city who are content to secure the inhabitants of the deep in a legitimate manner.

Some of those who stoutly assert their right to take fish by means of dynamite explosions insist that nearly all the fish killed or stunned by the explosion are secured while others, whose knowledge of the fishery question entitles their opinion to consideration, insist that less than 25 per cent of the fish affected by the submarine shocks are secured by the dynamiters. No matter how the experts may differ as to the percentage the fact remains that a positive injury to the fisheries results from the practice which Commissioner Donahue is determined to suppress and the sooner those engaged in the same realize the fact that they are virtually killing the goose that lays the golden egg the better it will be for all concerned.

It is a rather significant fact that closely following the operations of dynamite explosions insist that nearly all the fish killed or stunned by the explosion are secured while others, whose knowledge of the fishery question entitles their opinion to consideration, insist that less than 25 per cent of the fish affected by the submarine shocks are secured by the dynamiters. No matter how the experts may differ as to the percentage the fact remains that a positive injury to the fisheries results from the practice which Commissioner Donahue is determined to suppress and the sooner those engaged in the same realize the fact that they are virtually killing the goose that lays the golden egg the better it will be for all concerned.

### METHODIST PREACHER IS READY WITH HIS GUN

CHATTANOOGA, Tenn., July 29.—For the second time within a period of three months, Rev. S. L. Crouch, a Methodist preacher, yesterday shot and killed a negro. The shooting three months ago was in defense of his wife, while the killing of Bud Wiley yesterday was in defense of his own life. Crouch is employed at a watchman at a large lumber mill. While making his rounds it was reported to him that two negro men had broken into a store nearby. He captured one. The negro struck Crouch in the face and attempted to escape. Crouch then fired a bullet into the negro's head.

### LT. GOVERNOR VISITS ALBERT COUNTY

HOPWELL HILL, Via Albert, N. B., July 27.—His Honor Lieutenant Governor Tweedie and Mrs. Tweedie who have been the guests of Hon. G. J. and Mrs. Osman, at Hillboro, for the past few days, drove down to Riverside this afternoon in company with Mr. and Mrs. Osman, and spent several hours in the village putting up at the Hotel Shepody. The party called on ex-Governor McClellan and also visited the consolidated school, after which they started on the return to Hillboro, the drive through this beautiful section of country being much enjoyed.

Yesterday afternoon Hon. Mr. Osman and Mrs. Osman held a reception at their residence at Hillboro in honor of the Lieutenant Governor and his lady, the function being a most enjoyable one.

R. L. Belding, lighthouse keeper at Point Lepreau, reports that lightning struck and damaged the Foresters' hall there, on Friday night.

It is understood that Rev. W. C. Gaylor, who formerly directed the interests of the New Freeman, will in the near future again assume charge of that paper.

The members of Zion church, celebrated its forty-ninth anniversary yesterday by holding special services. Rev. Dr. Rogers, of Sussex, preached at both morning and evening services. The choir sang special music, two of the hymns being "Jehovah Praise" and "Let the People Praise Thee," which were rendered excellently. Miss Muriel Turner sang at both services.

It has been suggested that as Rockwood Park is visited by so many these days, the roads leading to it from the city, should be improved. The walk from Gilbert's Lane to the park is very steep and rocky and it is thought that if it was improved many more persons would use it, as it is the shortest walk from the street cars. The jail squad might be put to work at making this road more easy for travel.

Sir Charles Ross, at Rockville range on Saturday made 49 out of a possible 50. The third shot was an inner, the other nine being bulls. Sir Charles fired shot after shot, with another rider who lay alongside of him. The range was 900 yards. There was a high wind at the time the score was made.

### AN INCREASING DEMAND FOR I. C. R. LITERATURE

The steady increase of passenger travel over the I. C. R. and the growing interest in the "People's Railway" is most satisfactorily shown this year by the unprecedented demand for the time folders of the railway and other publications issued between St. John and Hampton, and between Halifax and Windsor Junction. This demonstrates clearly that there has been a growth of the suburban business between the points mentioned, and that people are appreciating the improvements in the suburban train service.

With regard to the illustrated booklets and the hunting folders the same satisfactory condition of affairs exists. From all parts of Canada and the United States applications are pouring in, and the I. C. R. agents at various outside points write that they notice a growing demand for all of the I. C. R. publications.

It would certainly seem as if the I. C. R. was now reaping the harvest as a result of the vigorous advertising of past years. Passenger traffic all over the line is unprecedentedly heavy.

PATRIOTISM.

(By Lucia Ames Mead.) The combative, belligerent spirit is not to be repressed, but utilized for noble purposes. The small boy who can defeat his neighbor in a fight with the sword of the patriot, the enemies of disorder, meanness, cruelty, which often lurk within his little ballistics. He will not do this unless his teacher recognizes the profound truth of these words of Judge Richardson: "The dangers, if any exist, to the nation, the state or the city, are not in things outside them, not in the yellow peril, not in other public duties, and especially among the people, in popular errors concerning the law, the state, and our obligations to the more clearly defined." To fight for one's country must ever be held up to the child as the most sacred duty; but must not the enemies be fought by more clearly defined terms? Hero worship, especially the worship of heroes who have wrought brilliant deeds by saving life rather than destroying it, will, as every teacher knows, be one of the most potent influences in developing the true spirit of justice and service. The noble deeds not alone of historic characters but of the humble farmer, policeman, housewife or engineer, may be directly related in the child's mind not merely to a vague humanitarianism but to definite service of country. Especially should great constructive work be referred to as not merely "good deeds" but as deeds of service to the country, achieved by painful sacrifice, and essentially patriotic. The teacher who perceives that the present standard for money and divines capacity for joy and spiritual vision is one of the most dangerous of our country's foes, will teach her "nature lessons" as no mere botanist could teach them. She will care less for the memorizing of the names of genera and species than for the opening of her pupils' eyes to a new world of thought and interest in the things which surround them. She will realize how these are powerful antidotes to the poisonous sordidness of life, will have less emphasis placed upon mere technical skill and new emphasis upon the elements which cannot be marked or tested by examinations. To create a genuine love of great masters of art and of all that is pure and lovely will be seen by the teacher of the future to be even a greater achievement in any community where dollars form the test of merit and success, than to send forth pupils skilled in reckoning and calculation, who would rather be the richest man in the world than a Shakespeare or a Beethoven. Even the arithmetic class when rightly handled may serve as a medium for patriotic teaching. Why should not city and national expenditures serve as a basis for many problems in division, in fractions and proportion? Why should not the local debt and tax rate, the water rate, the cost of lighting and cleaning streets, the cost of building school houses and city hall, the cost of parks and the fire department serve as a basis for calculation as well as the progress of a tortoise and a hare or the business of John Doe and Richard Roe? No word of interest need be uttered, but day after day, as the child's thought is turned to what it costs the city to give him the advantage of public utilities, as he figures on the same problems that are being worked out at city hall by the assessor or treasurer, history by little and by little will be introduced, especially if he is asked to collect figures as data for his own problems will be found them interesting and incidentally will learn where such figures are recorded and

BARN BURNED ON RICHMOND STREET

Was Insured, But Contents Belonging to V. R. Caples Were Not—Horse Badly Burned—Other Alarms. The fire department had a busy time between ten and eleven o'clock Saturday night. Three alarms were rung in within a few minutes of one another. The first alarm was from box 14 for a fire in a stable on Richmond street near Brussels. The fire had gained considerable headway before being discovered and gave the firemen fifteen or twenty minutes work before it was extinguished. The building was owned by R. G. Haley and occupied by Vincent G. Caples. The latter had two sleighs, a quantity of harness and a set of wheels destroyed. A horse also belonging to Mr. Caples which was in the stable at that time was severely burned about the head. The animal was under the care of a veterinarian yesterday. Mr. Caples loss has not been estimated but will be pretty heavy. It would have been much heavier had the fire occurred later. He had carried no insurance. The building was badly damaged but was insured. How the fire originated is unknown. The apparatus had hardly reached the station after returning from this when a second alarm was rung in from the same box. Little work, however, was required of the firemen. The second fire of the evening was discovered shortly after the first. The blaze was in the office of E. Riley's coal warehouse, 24 City Road. The apparatus from No. 5 Engine House responded to the alarm from box 412. The fire was put out in quick time. The damage amounting to about \$100. The building was insured.

VICTORIA BROUGHT HERE FOR REPAIRS

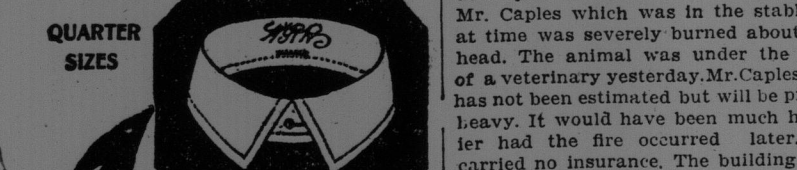

The Star Line steamer Victoria which ran up on the wharf at Ormocoto on Friday, reached Indiantown about half the tug Nereid. The tug Holly met the crippled steamer at Robinson's Point and helped to bring her to dock. The sheathing is torn away presenting a big hole in her side and her guard is crumpled up. The most serious damage is the broken paddle beam. Several beams of the paddle wheel are also broken. The whole weight of the boat came on her guard thus causing the damage. Repairs to the steamer will be effected at the Star Line wharf, Indiantown and operations will be commenced early this morning. Manager Richard expects to have her on the route Saturday. He thinks the repairs will not cost more than \$200 in actual money. There will be no boat on Tuesday or Thursday. The accident could not have occurred at a better time as there is very little freight to carry at this season.
