One Cruiser, Two Destroyers and Two Submarines Will Leave Portsmouth Tomorrow, Will Proceed via Southern Route, Touching at the Azores and Bermuda.

[Special to The Advertiser.]
Ottawa, Nov. 29.—Canada's new "gift" navy, consisting of one cruiser, two destroyers and two submarines, will leave Plymouth, England, tomorrow. The ships are expected at Halifax on December 18. The vessels, owing to the wintry weather in the northern latitude, will proceed via the southern route, touching at the Azores and Bermuda on the way.

The new fleet will be officially welcomed by His Excellency the Duke of Devonshire and Hon. C. C. Ballantyne, minister of marine and naval affairs. Sir Robert and Lady Borden will also be present, and on the same day Sir Robert will preside at the launching of the Canadian mercantile marine steamship "Canadian Explorer," a vessel of 8,400 tons, built by the Halifax Shipbuilding Company.

"Movie Mob" Creates

Alarm For Time in

London, Nov. 29.—What at first might have been mistaken for a genuine move upon the government buildings in Whitehall was made this morning, when a small crowd attempted to pass the barriers recently erected by the police at the entrance to Downing street and King Charles afreet. The crowd, however, it developed, was made up of about 150 supernumeraries sent by a moving picture company for photographic purposes only. The "mob," whose attempt at the barricade was a mild one, was dispersed by the police, the camera men meantime cranking vigorously.

MEETING WAR DEBTS

Determined On Achieving Pre-War Financial Position Among Nations of World. Sees Day When

"They are going to get back!"
emphatically declared Major Hume
Cronyn, M. P., when speaking of the
British people and conditions in the
old country, in an interview with The
Advertiser today. Major Cronyn has
just returned from a business trip to
England, during which he not only business and industrial con-but was incidentally called the Canadian Government to place of Hon. Hugh Guthrie,

take the place of Hon. Hugh Guthrie, minister of militia, at the economic conference convened by the league of nations in Brussels.

Speaking of the financial conditions in Great Britain, Major Cronyn said the great problem that faces the Government and the people is the great public debt, and the incessant calls upon revenue. "But the British people are meeting the situation with a firm determination to place the country upon its old footing as the financial centre of the world's commerce," he said.

"The Government is using the most drastic measures, in the form of income tax, and, strange to say, the people are not grouching. They know the bill has to be paid, and paid it will

Answering a question as to the income tax, Mr. Cronyn said: "All incomes over £250 are taxed 6s in the pound (20s). This is the normal taxation, and it rises by very rapid grading. For instance, a man with an income of £15,000 must pay £6,000 to the Government, or, in other words, 40 per cent of his income. The tax is especially hard on people with fixed incomes, and many of them are facing appalling difficulties in meeting the country's demands. Large numbers ting appaining difficulties.

Large numbers have given up their motor cars and moved to cheaper residences in order to play their part in the sacrifices that have to be made.

Government Expenditures.

"While they are doing this without complaint, there is a rankling fear that the governmental expenditures are the complete of the co complaint, there is a ranking feat that the governmental expenditures are not being cut as closely as they should be. There are still huge governmental expenditures going on what may be called war expenditures, and while understanding that the works in hand must be completed, the people have a feeling that there should be an easing up in these expenditures.

"I was greatly surprised at the spirit of determination shown by all classes of the people to get the country back to its pre-war position among the nations of the world. And," added Mr. Cronyn, with emphasis, "they are going to get back."

Speaking of interest rates, he said: "They are from one-half to one per cent higher than in this country. British war bonds bring 6% to 7 per cent. There have recently been many issues of industrial bonds bearing 8 per cent. ttal be CONTROL OF PACKING

American Desperadoes Believed To Be Preparing For Assassinations.

LIVERPOOL INVADED?

Vicious Characters Suspected of Connection With Sinn Fein.

London, Nov. 29.—Gunmen from the United States are said to have made their appearance in Londonderry, Ireland, according to advices received here today. The presence of these mercenaries in Dublin and other Irish cities have previously been reported. The military authorities of Londonderry are taking all precautions in the event of attempted assassinations.

The police of Liverpool, dispatches from that city say, also believe that United States gunmen have invaded Liverpool. The police report that they have established connection between Sinn Fein headquarters and numerous strangers who are idling about the streets in groups of two and three, and having the appearance of desperadoes.

POLICEMAN FOILS ATTEMPT TO BURN LUMBER YARD

LUMBER YARD

London, Nov. 29.—Half a dozen men who were preparing to set fire to a large lumber yard in the district of Finsbury, an important section of the city of London less than a mile north of London Bridge, were surprised by a policeman on Saturday night. This attempt was almost coincident with the breaking out of incendiary fires in Liverpool. The police challenged a loiterer, who immediately attacked the officer and shouted for help. Five men, with revolvers, answered his call, emerging from behind some empty wagons and rushing the policeman, who was compelled to liberate the man he had caught. All the men escaped. Searching behind the wagons, the policeman found cotton waste soaked with gasoline had been pushed through a gateway of a lumber yard, and he also discovered two revolvers and 100 cartridges. One of the supposed incendiaries was later arrested.

City Under-Policed.

It is a matter of official record that the increase in the amount paid in losses by burglary insurance concerns in 1919 over that of the previous year was more than 15 per cent, the Tribune says, and the increase this year, insurance men assert, will be even more imposing.

The Tribune has undertaken an investigation of the present organization of the police department, its general force, the patrolmen, whose duty it is to prevent crime, and the detective bureau, to which is given the task of running down criminals. The invistigation indicates: "First, that many sections of the city including the more important ones, are under-policed. Second, that the detective organization built up by former Police Commissioner Arthur Woods has been broken up.

"There's No Use of You saying Hard Things About the U. F. O.," Says Sir Henry Drayton to Manager of Condensed Milk Company.

Largely attended by manufacturers from Aylmer, London and surrounding towns, and a few editors, farmers and board of trade representatives of Western Ontario, the sittings of the Dominion tariff commission opened at the courthouse here this morning with Sir Henry Drayton, minister of finance, presiding, and Senator Gideon Robertson, minister of agriculture, as members. B. J. Roberts is the secretary of the commission, whose voluminous notes to date will constitute when published a small library in themselves.

City Clerk Baker was on hand early, and gave an unbiased presentation of local opinions on the tariff issue before the rush of high protection delegates began to crowd from Aylmer. Mayor Wagner led the delegation from this enterprising town, which according to its chief magistrate, wasn't thinking about the tariff whatever when it gave a good-sized majority-to the Liberal candidate, W. From Toronto On Board the Talk With Former Secretary of A. J. Small.

Formal arrest at Windsor on Sunday apparently had little effect on John Doughty, former secretary to A. J. Small, for when he passed through London at 4:50 o'clock this morning he was sleeping like a child. Accompanying him were Austin P. Mitchell, chief of detectives of Toronto, and Inspector of Detectives Wallace, also of Toronto. All was silent in "Molson," otherwise known as car 286, on C. P. R. train No. 20, except for one person, when The Advertiser attempted to get an interview. This one person was "George," the faithful colored porter who had been set the task of keeping the long-sought prisoner safe from those who would intrude.

"Yes, sir, Mr. Doughty's in this car," said the porter, in answer to the reporter's question.

George Was Firm.

Permission to see the man upon whom all eyes are turned for a solution of the Small mystery, was a thing which George could not grant, however.

"They'll all be about at breakfast, but I can't wake Mr. Doughty until seven o'clock, I was told," volunteered George, who had taken up his position in a small compartment directly inside the west door of the coach. And George refused to be moved. His work was cut out for him and he was going to fulfill his duty."

Three Toronto journalists, one an artist, boarded the train at London, but were forced to retire to a parlor car, which was attached to the rear of the train. Several other newspapermen were seated two coaches ahead of Doughty waiting for dawn and the possible revelations which might result from a breakfast table chat with the detectives' charge. Two of these, it is said, were side-tracked at Chicago, but caught up with Doughty, and met fellow-journalists, who had come from the Queen City, at Windsor. Doughty's half-day rest there made this possible.

Toronto, Nov. 29.-John Doughty, who was chased across the continent and was recently arrested in Oregon City in connection with the mysterious disappearance a year ago of Ambrose J. Small, missing theatrical magnate, today visited the home of his sister, Mrs. Lovatt, in this city, and revealed there to police authorities, who had accompanied him, the hiding place of Canadian Victory bonds which were missing. These bonds have been handed over to the police authorities intact. Recent reports from Oregon said that it had been intimated that the bonds had been deposited in care of a trust company in Chicago.

Doughty was to have been arraigned this morning in the police court here on charges of theft of \$100,000 worth of bonds and conspiracy to kidnap Ambrose Small.

Doughty is still in custody. Goes Back to Cells.

Trustees of Publishing Society Dispute Church Directors' Authority.

Boston, Mass., Nov. 29.—The controversies within the Christian Science Church came before the full bench of the supreme court of Massachusetts today for arguments on questions of law. The disputed points largely represented exceptions taken to the findings of Judge Frederick Dodge, who, as master in the original suit brought by the trustees of the Christian Science Publishing Society against the board of directors of the church, sustained the plaintiffs in their main contentions.

Since the litigation began in March, 1919, it has assumed various phases through intervening suits, but broadly speaking, the outstanding issue is whether the authority of the board of directors of the Christian Science Church extends over the trustees of the publishing society, which publishes the Christian Science Monitor and other church periodicals. Judge Dodge held that it did not. The arguments will occupy the time of the court today and tomorrow, the total of ten hours allotted among counsel.

100 YEARS OLD MEIGHEN DID

WANT GRATUITY

Request For \$2,000 Does Harm-Ask Money Shrinkage Be Recognized.

"Why can't the Government recognize "Why can't the Government recognize the shrinkage of the Canadian dollar of the returned man as it did with the C. P. R. and those other corporations," said H. L. Howe, circulation manager of the Great War Veterans' magazine at a mass meeting of the returned men in the Majestic Theatre last evening. "The cost of living has advanced so much that we are not able to live on the measily little pension we are getting. The Government granted that freight rates be increased, but it said nothing to raising our pension, which we rightly deserve and earned. The freight increase that was granted the railways was something that should not have been done. The C. P. R. stated that it would use 21 millions for an increase in the price of coal, 10 millions for increase in the price of coal, 10 millions for increase in the price of materials, 6 millions to come up the maintenance of way to pre-war standards, \$22,427,000 for dividends, 4 millions for income tax and 11 millions for fixed charges and pensions. With these expenditures there would be, in the neighborhood of from 15 to 20 millions of a surplus which would be added to the company's surplus, exceeding 20 or 30 million dollars. This freight increase averages from \$20 to \$30 on every man, woman and child in the Dominion of Canada. We returned men are helping to pay for that increase; yet we are not getting a cent increase in our pension. We will pay it, but we want an increase in pension." he shrinkage of the Canadian dollar

increase in our pension. We will pay it, but we want an increase in pension."

Calgary Resolution.

He said that the Great War Veterans' Association was not having anything to do with the "Calgary Gratuity Resolution," which was first heard of in the spring of 1918, when the Calgarian member of the G. W. V. A. debated a proposal that ex-service men should be granted an additional payment of \$2,000 for service at the front, \$1,500 for service in Canada. The proposal was enthusiastically indorsed and presented by a soldier member in the Provincial Assembly almost immediately afterwards. The Alberta Legislature declined to discuss the matter as it was recognized as belonging to the federal policy. Little effort was made to press the plan until the declaration of the armistice caused a renewal of interest. An extensive and expensive propaganda movement was set afoot, and all branches of the G. W. V. A. had expressed their opinions on the resolution, when it was rejected at the annual convention in 1919 in favor of a re-establisment bonus plan which would have given not less than \$100 to the man with the least service in the safest place and a minimum advance of \$2,500 to the person with the earliest service at the front.

Rejection of that suggestion by the Government resulted in a re-establishment of the entire matter by the G. W. V. A. at its annual convention of 1920 in Montreal, following which it was

ment of the entire matter by the G. W. V. A. at its annual convention of 1920 in Montreal, following which it was decided to request additional compensation at the rate of \$1 per day from the date of enlistment to the date of diaghance for the vetaran with service at the front, and a proportional consideration for the man with services elsewhere. This is the present policy of the G. W. V. A.

Must Throw Aside.

"When the soldier arrived in Canada after serving overseas, he was given \$13 to clothe himself (a great silence fell over the enthusiastic audience). He couldn't get but half enough clothes with that amount, and we suggested that the sum be raised to \$50 each, but the Government turned that down and decided to give him \$35 to clothe himself. I paid \$37.50 for my overcoat, and had to dig down to some other source to supply the rest of them. It was the same with every man who came home. There were 22,000 men home before this allowance was raised, and they did not receive the benefit of this. Members of the House said it was a small matter.

Glves No Remedy.

Gives No Remedy,

"The high muckety-mucks of the army were given from \$3.000 to \$4,000 allowance when they got home, and the private only this small amount. He was the one who needed it more than the officers. The Government has not applied anything to remedy these existing circumstances. We desire the support of the public to right these rotten conditions, and I am sure we are going to get that support in recognition to the services we did for them overseas. When the members of Parliament can increase their salaries why can't they increase the ones who fought for them? We are thankful for the Increase we received some time ago, for them? We are thankful for the increase we received some time ago, but when they advanced theirs, why didn't they consider the mothers and orphans who were dependents on the ones who are lying in Flanders' fields? "We don't want a gratuity because we are getting something for something we didn't do. What we want is a compensation whereby every ex-C. E. F. man will be benefitted. Our pensions have not been raised a bit since the high cost of living advanced, and all are finding it very hard to live on the present pensions. It is the duty of every returned man and every citizen very returned man and every citizer every returned man and every citizen to maintain that we get treated as we should in this matter. The civil servants received an exorbitant increase last February. Why shouldn't we get it? I think we should be considered state employees as well as they. However, we must consider that some of the members to the House are not responsible for their actions and should be pitted more than laughed at.

No Difficulty. No Difficulty.

"I ask you as comrades of the great war and citizens of London, are we not justified in asking for an increase in pensions? The value of the Canadian dollar has shrunk and the cost of living has advanced, but the pay of the men who went overseas and fought for the British Empire remains the same. I am sure we are going to experience no difficulty whatever from the public in asking for more money." he concluded. the public in asking for more money. he concluded.

W. E. Turley, provincial secretary of the G. W. V. A., spoke on the aims and objects of the association and what it had done for the returned men in the

had done for the returned men in the past.

"We made promises and kept them, not like the Meighen Government did," he said. "We have always stood for just causes, both for the returned man and the widows of our comrades."

Ald. Dr. Cameron Wilson was the chairman. Dr. H. A. Stevenson, M.L.A., Ald. John Bridge, Col. J. P. French and Col. W. G. Coles were present. During the period between speeches the hand of the association supplied music. A collection was teken for the Children's War Memorial

RELIGION IS MOST WONDERFUL THING

Not Melancholy As Some People Think, Says Mr. MacGregor.

That too many people regard religion as a sad and melancholy thing instead of a most wonderful experience was the opinion expressed by Rev. D. C. Mac-Gregor in his sermon on "Excuses" in St. Andrew's Church on Sunday evening. "They need only to read a few chapters of the New Testament and they will be most expressed."

chapters of the New Testament and they will be most agreeably surprised," he said.

"Other people look on the church as a rich man's club, and others invent every known excuses as to why they do not come to the church. They say the minister is no good or the people in the church are inconsistent." Mr. Mac-Gregor related one instance where a minister asked his people why they did not come to church, and twenty-seven excuses were given. not come to church, and twenty-seven excuses were given.

Rev. Mr. MacGregor made an appeal to everyone who had not accepted Christ to do so, particularly young people. He said that a great number of people gave their lives to Christ during the ages of 15 and 20. After this age there was a great decrease, and after the age of 40 very few people were known to accept the faith.

Would Be Primarily For Farmers' Sons, Milk Producers Told.

That an agricultural course in connection with Western University may be established in the near future was intimated by Lieut.-Col. W. J. Brown in an address to the Middlesex Milk Producers' Association in the Institute of Public Health Saturday afternoon. Such a class would be primarily for the sons of farmers who intended to return to that industry. It would not conflict with the Ontario Agricultural College. The courses there are largely for the purpose of training students to be experts in various branches of agriculture, he pointed out. The course to be established here will aim to prepare the students for actual farm work. He told them that he had conferred with the faculty of the Guelph College and with the minister of agriculture, and that all of them had approved the project.

culture, and that all of them had approved the project.

Although no official expression of opinion was given by the milk producers, their president, A. A. Nichol of Wilton Grove, and Mr. McNiece stated that they regarded it favorably.

In other respects the meeting was a reptition of one held last August, being repeated by request. Dr. H. W. Hill, dean of the faculty of public health, gave a general talk on milk production illustrated with lantern slides. S. N. "There is one question that is uppermost in the minds of the returned man;" continued Mr. Rowe, "we don't want a gratuity. Comrades, as one comrade to another, we must throw this \$2,000 scheme aside and get something that will help the fellow next to us, irrespective of rank in service. Right down in your heart do you think that \$2,000 should be given the man who enlisted in 1914 and went and stood the gas attacks of Ypres and went through all fighting right to the battle of Mons? The \$2,000 gratuity request has done more harm for the returned man than any other thing ever known.

"I followed the reports of Premier Meighen's tour through the West. He showed what the Government did for the returned man, and he made a good impression, because he didn't state what the Government didn't do for the returned man.

With the official opening on Saturday afternoon of the new reservoir at the top of Springbank hill, London's reserve water supply was more than doubled and provision made against shortage of water for domestic purposes that will, re is believed, prove dequate for many years. The capacity of the new basin is 10,000,000 gallone, and this with the 5,000,000 gallons of water stored in the old reservoir alongside it, and 3,000,000 gallons in the Ridout street reservoir, means a total storage of pure water of 18,000,000

total storage of pure water of 18,000,000 gallons.

Despite unpleasant weather conditions upwards of three hundred citizens made the trip to Springbank to participate in the opening ceremony, at which T. W. McFarland, chairman of the public utilities commission, presided. Many made the trip to the scene in automobiles, while an equally large contingent traveled out on the more democratic street railway. What these latter missed of the comforts of an auto they gained in the exhilaration of the climb up the hill, for despite the raw dampness of the air it was full of invigorating ozone, mingled with the perfume of pines and moist soil, especially enjoyable to tired city folk.

The flow into the basin was at the rate of 6,000,000 gallons per 24 hours, but as soon as the ceremony was over this was stopped and the water again turned on to the city. The reservoir will be filled by using the pumps at night and during slack periods.

Care and Economy.

Commissioners Mitchell and Vining spoke briefly, expressing their pleasure at the successful completion of the work. Each added his tribute to the ability of Mr. Buchanan, and expressed the hope that the city would be able to long retain his services on its behalf.

Sir Adam Beck congratulated the city of London on the finishing of a work that will insure to it for many years an adequate water supply, one which in his opinion should result in a considerable cut being made in the fire insurance rates. "I hope the day will never come," said Sir Adam, "when the people of London will have to use chlorinated water."

Calls for Mr. Buchanan brought that gentleman to the front, and he was accorded quite an ovation. In expressing order quite an ovation. In expressing the sincere appreciation of the kind ords said of his work by the different eakers and acknowledging the honor the call, Mr. Buchanan declared that very large share of the successful carrying out of the enterprise was due to the loyal co-operation given him by his staff.

Eight Men Since Beginning of Month.

Local employment conditions have not been seriously affected by depression in some American industries, according to Secretary Ed. Lance, of the Soldiers' Aid Commission. This organization has created a special department to take care of ex-service men, who are seeking employment, and so far has experienced no difficulty in placing them. William Casson has been given charge of the new department. He is making special efforts to secure the co-operation of local manufacturers and other employers, and is requesting them to notify him of vacant positions by telephoning 77.

Since the beginning of the month 185 men have applied to the commission for work. Already positions have been found for 98 of these in local industries. No men have been sent out of the city. An effort will be made to maintain this record, because many of the applicants are married men with families, and it is only with great inconvenience that they can take work at other centres. Only ex-service men are accommodated, and the first care of the department is for disabled men.

In reply to a question on general conditions Mr. Cronyn said: "While there has not been the sharp break in prices in Great Britain that has been noticeable in the United States, and here there are evidences of a gradual lowering of prices. The break in Ford automobiles caused much excitement, and there has been a rapid decline in motor car prices. This is made very apparent by the falling off almost entirely in the sale of second-hand motor cars, which is considered a good test of the activity or otherwise of the trade.

The wells are the cheapess and the best source, he declared. Paying a tribute to General Manager Buchanan, he said that "the Hydro Commission will gladly take him off your hands any time the City of London does not want him."

Digressing for a moment Sir Pam said: "I want to confirm who hadvertiser has already told you about the securing of an additional 10,000 horsepower of electric power. A deal has been completed by the hydro commission with the Niagara Power Company, and the additional supply will, I expect, be turned in on Tuesday. But let me say here in warning, because we have now an abundant supply of power it does not mean that it can be used wastefully. Care and economy is as necessary in the use of electric power as in the use of water."

London, a City

Some 1.930 Canine Owners Pay Taxes Into City Coffers.

With the old Springbank reservoir overflowing and the new basin already more than half filled, Londoners may now rest assured that the days of water shortage, at least for some time, have passed. Between the time the water was turned into the new reservoir on Saturday afternoon up to an early hour this morning something over 4,000,000 gallons of water has been ilifted from the wells by the pumps, the depth gauge showing 13 feet 8 inches of the basin.

This work was carried on without in any way interfering with the usual daily supply of 6,000,000 gallons to the city. The overflow of the old reservoir was brought about by the fact that no water has been drawn from it for city use since Saturday morning, while no restriction was placed on the flow of the springs into it.

These conditions mean that the city has today a reserve water supply of approximately 12,000,000 gallons on Saturday morning. said General Manager E. V. Buchanan, in conversation today.

Manufacturers' Paper Before the Tariff Commission.

PAY CITY CLERK BAKER

Departure From the Present Fiscal System Would Harm Many Concerns, Is Claim Made.

The following statement was read before the tariff commission in session at the court house today by City Clerk Samuel Baker on behalf of numerous manufacturing interests of the city:

The city of London, from the time that Governor Simcoe first chose the forks of the River Thames as the site of the capital of the province of Ontario, up to the present, has been characterized by steady and consistent growth. Apart from the boom in the early "fifties," London's development, as shown by all official records, affords a perfect example of the logical growth of a municipality which is the centre of a rich agricultural area, a centre in

With regard to the 1920 assessment. Stephen Grant, the assessment com-missioner, makes the following analysis: Industrial real estate, \$3,015,500; busi-Industrial real estate, \$3,015,500; business pursuits and wholesale houses, \$20,100,000; incomes,\$3,200,000; business assessment, \$5,426,000. The remaining \$22,000,000 odd would be for larid and residences of all kinds. Regarding these latter Mr. Grant states that he believes latter Mr. Grant states that he believes fully 75 per cent are owned by the occupants, a point which has a most important bearing upon the general labor situation in London, which has been particularly free from disturbance of any kind. When the people of a community have managed through thrift and economy to buy the homes they live in, their interests naturally become deeply rooted in their community. They have a stake which is not lightly thrown away, and in consequence develop rapaway, and in consequence develop rap-idly into citizens of the finest possible

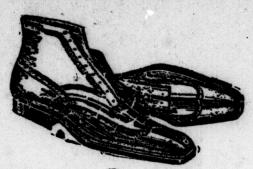

The importance of London as a bank-ing centre for both industry and agri-culture is illustrated by the fact that no less than 10 Canadian chartered banks are established in London, with 21 subsidiary branches, making a tota of 31 banking stations scattered throughout the environs of the city. The upward trend of the community's prosperity is indicated by the increased bank clearing totals of these institutions, which amounted to \$67,154,567 in 1910, \$89,774,787 in 1915, and to the stupendous total of \$164,126,856 in 1919, the latter

amount representing an increase of al-most 100 per cent in a period of only four years, and in a twelve months' activities which were given over entirely to peaceful pursuits.

Highly Satisfactory.

London maintains at the present time nine loan, savings and trust companies, all of whom report marked prosperity throughout the area they cover. Local real estate companies report that values of urban properties have increased on an average from 20 to 25 per cent in the lest five years irrespective of any an average from 20 to 25 per cent in the last five years, irrespective of any temporary decrease in the purchasing power of the dollar. A showing such as this, while not particularly remarkable as viewed in comparison with the Border Cities, where values have mounted rapidly on account of the remarkable influx of United States branch factories into those centres, is nevertheless highly satisfactory. The citizens of London feel that their time is coming, and that the wave of American industry which is sweeping into Canada from the States of New York, Pennsylvania, Ohio and Michigan, is moving directly toward der Cities, where values have mounted rapidly on account of the remarkable influx of United States branch factories into those centres, is nevertheless highly satisfactory. The citizens of London feel that their time is coming, and that the wave of American industry which is sweeping into Canada from the States of New York, Pennsylvania, Ohio and Michigan, is moving directly toward this city, which is the next in its path. The industrial development in London must of necessity be regulated by Canadian requirements in general, and by have occurred since the last remodel-by Cana-and by ent fiscal system would mean the must of necessity be regulated by Canadian requirements in general, and by the necessities of this part of the Province of Ontario in particular. There is a law, call it cupidity if you will, which regulates these things. Industry cannot overstep the boundaries of actual requirements, be the market of a home or an international charding desired and the charding desired overstep the boundaries of actual requirements, be the market of a home or an international character. And industry, like love, cannot live alone, but must be nourished by fruit and meat and vegetables. The City of London Year Book for 1920 estimates that the amount of business which will be transacted this year in farm produce at the local market will amount to approximately \$1,500.000.

Veterans' Secretary.

OTTAWA, Nov. 28.—The prime minister has written to C. Grant MacNeill, Dominion secretary of the Great War Veterans' Association, regarding the now famous order of D. B. Hanna, director of the Canadian National Railways forbidding employees to hold political office.

Hon. Mr. Meighen was asked to make a statement on the question in view of a strongly-worded resolution passed by the Manitoba command of the Great War Veterans' Association, protesting against the dismissal of H Moore, M. L. A., because at the time of his nomination he was unaware of any order. The premier reiterates that it is a matter for the directorate of the National Railways and not the Government, He says:

"I have your letter of the 20th inst. The action taken by the directorate of the Canadian National Railways was in no sense taken at the instance of or by any information from the Government, The directorate took the view that this was a matter within their purview only, as directors."

HAMILTON, Nov. 27.—The tariff commission, resuming its sessions here this morning heard septore the commission as official spokesman for the just manual force to the conditions in British Columbia, where there is also a flourishing industry. Exhaustive data, obtained from fourteen jam factories, was submitted. Over three and one-half million dollars were paid annually for raw fruit. An annual sale of goods to the value of \$16,000,000 evidenced the fact that this industry was no mean one. To close these factories would affect \$2,211 growers, mostly farmers, who grow fruit as a sideline.

Hundreds of growers last year made a thousand dollars per acre, selling all sorts of small fruits to the jam factories—equal to the returns from twenty acres of wheat at \$50 per acre. The policy of the council of agriculture would destroy the market for about \$5,000,000 worth of fruit. It would also destroy the market for about \$5,000,000 worth of sugar refined the fact that this industry was and cases, etc., made in Canada and \$4

their policy would wipe out a large part of capital investment of some \$7,000,000.

Cites instances.

Senator Smith cited instances of industries which owed their development to protection, and the fact that the British manufacturers, owing to the depletion caused by war, had not sought the Canadian markets, thus allowing the Canadian markets, thus allowing the Canadian markets, thus allowing the Canadian makers to enjoy what was equal to a high protective tariff. The number of Canadian factories had almost doubled as a result, as had also the output. The merchant, the transportation companies, the fruit and sugar men, the glass blower, box and can makers, etc., are all closely related to the jam factories, being used to maintain the other industries.

Man's glory is his strength

M AN'S ability to perform feats of strength to do things other men could not do has always been his stepping stone to power and position.

Every man wants to be a leader in his own line of work or sphere in life.

Unless a man is a genius or superman he can only attain his objective when he has strength—to have strength he must have health—to have health he must be full blooded, his heart strong and his nerves steady.

Milburn's Heart and Nerve Pills have assisted many a man who was facing a crucial test and was not at the moment just feeling his best.

How about yourself? Are you facing some task requiring all your strength and "Your Nerve"?

Do as hundreds of others have done, have a box of Milburn's Heart and Nerve Pills at hand and take them according to directions.

They have helped other men past the trying or testing time and may enable you to carry on and win and keep the position you so much desire.

Mr. Stephen Crouse, East Clifford, N.S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting, as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm and can truthfully say I feel like a different man."

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system. Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions. watch carefully for that first

Clean-Up Welcomed.

With the formal taking over of his duties yesterday afternoon and the appointment by him of License Inspector Mousseau of North Essex as chief aide in the work of throttling the efforts of rum-runners came the dismissal of all free-lance liquor agents formerly in the employ of Rev. J. O. L. Sprack-lin.

Superintendent Lannin is occupying offices in the Victoria Block, formerly occupied by Inspector Mousseau and his staff. That the five counties in Western Ontario under his jurisdiction may look for an immediate campaign is indicated by the quiet yet thorough preparations being made for a clean-up.

Entire Chamber, With Socialists, in Pro-Irish Demonstration.

ROME, Nov. 28.—The Chamber of Deputies yesterday approved the treaty of Rapallo, regarding the Adriatio problem by a vote of 221 to 12. Fortytwo deputies abstained from voting. Those who abstained were Socialists. Those who abstained were Socialists. In reply to Socialists who had spoken on the necessity of giving liberty to Russia, the Catholic deputy, Mauri, said: "Liberty must not be invoked only for Russia, but for all peoples, in cluding those of Ireland who are being massacred."

At this point the entire chamber, including the Socialists, rose and joined in an enthusiastic demonstration for Ireland. There were shouts of "Viva Ireland," in which the galleries joined.

British Army Heads Plan To Intern Irish Republican Army.

LIVERPOOL, Nov. 28. - Fifteen warehouses in Liverpool and Bootle, a suburb, principally cotton warehouses, were set on fire last night. Two of the cotton warehouses in Liverpool were burned out. Gasoline cans and paraffin were found about the premises. It was stated in police quarters there was strong evidence that the fires were the work of Sinn Feiners.

Some shooting occurred after the outbreak of the flames. Constables on the scene were fired at, and builets passed through the clothing of some of them, but none was injured. One civilian was shot dead.

Five men were placed under arrest in connection with the indendiary outbreak.

PARLIAMENT HOUSES

LONDON, Nov. 27. — Following the erection of barriers, eight feet high, last night to exclude the public from Downing street and the adjacent Charles street the Houses of Parliament were closed to the public today, and many persons coming up from the country were refused admission.

This official action followed the detention of a strange man in the outer lobby of the House of Commons yesterday. Although no official statement has been issued the Evening Standard says it has reason to believe the decision to close the houses to the public has an important bearing on sinister Sinn Fein activities in this country.

LIVERPOOL DISPATCH ALLEGES SINN FEINERS CAUSED OUTBREAKS

LONDON, Nov. 28.—A dispatch to the press association from Liverpool says:

"An alarming outbreak of Sinn Fein violence occurred Saturday night shortly before 9 o'clock. Fires broke out simultaneously in the south and north ends of Liverpool and also in Bootle.

"There were seven fires in Bootle and eleven in various parts of Liverpool.

son eleven in various parts of Liverpool.

"Subsequent discoveries revealed a well-planned Sinn Fein plot to spread a holocaust of fire among the warehouses in the dock area. The fires were spread over almost all of the whole seven miles of the dock area.

"Owing to the inflammable nature of the contents of the warehouses the flames quickly gained a strong hold, and by 1 o'clock in the morning the whole sky was lit up. The local fire brigades were unable to cope with the situation and were obliged to call brigades from other sources. The police commandeered all telephone wires and took all steps to prevent further outhreads by concentrating policemen along the line of docks.

"Three youths, watching the suspicious movements of avo men at the cotton warehouse in Parliament street, warned the police who challenged the suspects. Thereupon they bolted up and fired upon the police who pursued them. The policemen were unhurt, but a builet pierced the heart of a youth, Daniel Ward, who was among those who had warned the police and he fell dead.

"The fires in some instances were quickly quenched, Others, in stocked cotton warehouses, burned fiercely the night long. One in the south enc. Ad another in Bootle, at the north end, are taken as proving that there was careful organization. It was found that all the locks on the warehouses had been cut with bolt cutters. Many empty petrol cans were found on the scene. Each fire started at more than one place, In the case of one timber yard there were three separate outbreaks.

THE INGRATITUDE OF GREECE. [Kingston Standard.]

The recent election in Greece, which resulted in the crushing defeat of the government of Venizelos reveals a state of national ingratitude almost beyond numan comprehension. In the dark days of Greece sister of the German Kaiser, had almost alienated Greece from her real friends and wrecked the future opes of the nation. Venizelos proved to be the one King Constantine and his German wife were forced to abdicate the throne and go into exile. The territory of Greece has been extended as a result of the patriotic stand of Venizelos, her credit has een saved, her good name and honor preserved and yet, after all, the people of Greece forget their favor of a regime reeking with rot and treachery.

Eaten bread is soon forgotten. In a moment nation can be converted into a ruthless mass that will forget service and sacrifice. It has always been so; it always will be so. The crowd that followed the Man of Nazareth on his triumphant entry into the city of Jerusalem and shouted "Hosanna!" was the same crowd which a few days afterwards shouted "Crucify him!" Yesterday Venizelos wa the uncrowned king of Greece, today he is a political outcast. The people of Greece have chosen Barabbas rather than the man who in the days of their adversity and darkness threw his life into the cause of Greek honor and Greek freedom. The Greece of Byron's day must have been a different country to that of our day, or we fail to see how the British poet-patriot could ever have become s

This was the first big undertaking of this youthful chapter, and proved by its great success that the chapter, in spite of its smallness, is capable of doing big things. The hall was prettily draped with flags for the occasion, and on the tea tables silver tea services gleamed in the light from silver candlesticks. Mrs. E. B. So I was to be left in solitary state, it seemed!

What I had so urgently desired last night was to be forced on me today!

We women are illogical, contrary creatures—yes—even the best of us!
Subconsciously, I must have known that Neil's action in thus leaving me alone was perfectly justifiable. Had I—net in so many words, perhaps, but yet quite definitely—not asked for this arrangement?

Looking back on things, I know that Neil was only thinking of my comfort, my happiness.

"Yes, it will be much more cheerful with a lot of people round about us. I'd prefer that, thanks."
Was it my fancy, or did a look of pain filt across his open, boyish face?
And then a little demon of perversity and then a little demon of perversity and then wonder if Neil had "other fish to fry" than dance attendance on his bride at meal-times? Did he want me to have meals alone up here, so that he and Margery (she was staying in this bay hotel) could enjoy a solitude-a-deux downstairs?

It was a wicked thought.

"I rose, rather awkwardly. The two-pronged insurument with which I'd been dissecting my luncheon lobster slipped from my fingers to my plate with a clattering sound, then skidded to the floor. That little accident didn't tend to lessen my shyness.

"How do you do?" I said, lamely, uncertain whether to bow, or to hold out my hand, or both.

I made an awkward gesture toward the girl called Margery.

She chose, however, to ignore it. Giving me a cool, brisk nod, she turned to my husband, saying:

"We got your wire only half an hour ago. It quite took our breath away! Nove of websel over dreamed." She

"That's lunch," said Neil. "Shall we go down together?"
For a moment I decided that I wouldn't go. Then curiosity got the better of me. I must see this paragon of whom Neil thought so much! She would be there.

So I accompanied him.
Our table was on a raised dais close to the windows, on the side of the dining-room that faced the sea. We could, therefore, command an excellent view of the road outside, one of the plers, and the kaleidoscopic beach that was so thronged.

We could also make a complete survey of the interior of the apartment, from this coign of vantage.

"How lucky we are to get this table!" I remarked.
Neil smiled.
"Oh, if one tips the head-waiter with sufficient generosity, one can get most things!" His manner was careless.
This remark brought home to me the fact that I had married a "moneyed" man. The knowledge frightened me a little. Somehow, in my penniless condition, it made me fell more completely in his power.

It was an elaborate sort of lunch.

LORD ROBERTS CHAPTER. The Lord Roberts Chapter is to meet at the Institute of Musical Art today at RED CROSS SOCIETY.

RED CROSS SOCIETY.

Owing to the urgent need for knitted sweaters for the men in military hospitals, the Red Cross Society is opening its rooms on Wellington street, between 2 and 5 o'clock on Tuesday and Thursday of each week. The society has plenty of wool on hand and feels that there are many women in the city who would be willing to knit scarfs, or sweaters for the patients. The sweaters are badly needed now that the cold weather is commencing, and the society finds them expensive to buy.

Some very good subscriptions have been handed in to the local society for the British Red Cross Society in aid of the starving peoples of Central Europe. The subscription list is still open and donations will be received by the treasurer, E. C. Bowker, at the Dominion Bank, on the corner of Dundas and Richmond streets.

The parlor of St. Andrew's Church presented a gay scene on Saturday afternoon, when the Senior Girls' Club of the church held a most successful bazaar there. At one end of the parlor, separated from the big room by means of a pretty lattice fence, twined with the club colors, blue and gold, was the tea room, where Miss Margaret Brown and Miss Cannel poured tea, assisted by several of the club girls. Then all about the room, resplendent in the club colors and other pretty decorations, were the various booths, which made up the bazaar, including such articles for sale as candy, home cooking, fancy work, etc. BAZAAR AT ST. This crystalline lens is not essential for all vision, any more than are spectacles used by an elderly individual with weak sight. The crystalline lens is essential for clearness of vision of near objects, as in reading. But a suitable lens of glass worn before the eye serves every purpose which the natural lens would serve. Therefore, victims of cataract may submit to the only curative treatment, operation, in which the opaque or degenerated lens is removed, with every expectation of recovering comfortable vision through proper glasses. Of course, after such operation the individual cannot expect to have clear vision for any near objects without the glasses, which take the place of the crystalline lenses which have been destroyed by the disease and removed by the oculist.

The quaint, old-fashioned name of Patience has a doubly worthy significance. Sensational Battle Between De La Salle and Borderers Fought Out Evenly For Nearly Eighty Minutes, Goes To Latter in Last Moments-Sarnia Determination Won Over Slightly Better Playing.

A fumble by Cawkell, which brought a rouge in the fourth five-minute period over at Tecumseh Park Saturday afternoon, gave Sarnia Collegiate a 9-to-8 victory over De La Salle, the championship of the Junior Interscholastic series of the O. R. F. U., and Sarnia City its second consecutive rugby

The Argonauts went into the game with the score 2 to 0 in their favor, but won on yesterday's play as well, a field goal by Dudley Garrett in the final period scoring the three points that gave the victory to the oarsmen.

The College contingents and the neutral band of spectators were so het-up by the time the fourth overtime period hove into sight through the fast-gathering gloom that they would have gone up town and swamped the hardware stores for lanterns if the winning point had not come through when it did. It was the most sensational game London fans have ever experienced, and probable game to the collection of the collection of the collection of the collection of the time of the collection of the

Sarnia Collegians lost a championship last year by a point, and this year the break gave them the honors on a lone tally. Breaks they are, when two teams battle as evenly as these two battled Saturday afternoon, and it certainly was fated Sarniawards when Cawkell, the De La Salle half, who had by sheer brilliance of play kept his team on the verge of winning, elected to make his only fumble of the afternoon, and go down on a rouge; his team with him.

thereby tieing the score.

When put to the test, however, the Argonauts showed considerable class, and when apparently in a bad way, being thrown back on the defence on their 15-yard line, they carried the ball to the other end of the field until they got in a scoring position for Garrett's field goal. The ball was kicked at an angle by Garrett, and some of the Torontos did not think the ball had gone between the uprights, but there was no doubt of it from the bleacher side of the field.

The officials were of the same opinion and awarded the goal which, as it turned out, proved to be the winning point.

Kopsky and Bellow Gained Lap in Last Ten Minutes, But Were Ruled Out.

NEW YORK, Nov. 28.-Because of ule not generally known to six-day bicycle race enthusiasts, Joe Kopsky and Tom Bello were deprived of a victory in the long grind that ended at midnight last night at the 22nd Regiment armory. They gained a full lap in the last ten minutes of the contest, but because the sprints were in progress at the time they won, it was not officially recognized.

The first money and chief laurels went to Ray Eaton and Harry Kaiser, who had accumulated 836 points during who had accumulated 836 points during the week. Alfred Goullett and Fred Hill were second with 700; Jake Magin and Eddie Madden, third with 612; Kopsky and Bello, fourth with 415; Peter Drobach and Fred Weber, fifth with 316; Alex McBeath and Cecil Walker, sixth with 310, and Charles De Ruyter and Emil Aerts, seventh with 204.

All covered 2,240 miles and 4 laps during the 142 hours, being 519 miles behind the record of Goullet and Grenda behind the record of Goullet and Grenda in 1914.

This only leaves Crichlow of last year's outfield, and the Mississipplan may yet be sold, although he's a pretty 181 useful member to have around, and Buzz may be thinking that way, too.
Buzz Wetzel's secret in winning pennants has probably something to do with his methods of breaking up championship teams. The connection probably is that pennant-winning teams become temperamental after one year's success and are better separated.

EXECUTIVE BOARD hockey situation here is shaping up quite satisfactorily. The executive has been working quietly, and while they are not boasting of a championship are not boasting of a championship this winter, they claim that the city will have a better team than most people think. Russell Sandercock, a player of experience and ability, has been secured to coach the team, and as "Sandy" knows the game from A to Z, he should prove a big factor in putting Woodstock near the top of the O, H. BRANTFORD TO HAVE O. H. A. JUNIOR TEAM AS WELL!

BRANTFORD, Nov. 28. - Junior hockey prospects in the O. H. A. are reported to be bright for Brantford this year, the Industrial Baseball League officers having taken hold. John Kerr is elected president and C. M. Fairchild, vice-president, and J. Barnes, secretary-treasurer. Harry Fleming was elected delegate to the O. H. A. meeting on December 4. Season tickets are being served out, and the local team will have 20 players, from which a line-up will be selected.

Clonie Tait knocked out Lew Edwards, the Australian lightweight champion in two rounds last week. The only other boxer to put Edwards to sleep is Mitchell. Tait and Mitchell could be brought together for a rattling good match.

Eddie White, Archie Sillman's light-weight, is stepping right along. In his last two starts he has beaten Battling McCluskey and Joe Burton. Last summer McCluskey beat White in an openair show. White's victory now evens things up.

YALE TO TRAIN IN SOUTH.

New York, Nov. 29.—Yale's 1921 baseball team will train at a Southern camp next spring, like the major leagues, it was announced here today by Coach william Lauder. The innovation is in line with the decision of Yale alumni and undergraduates "to adopt a more aggressive attitude in future towards the development of athletic teams," he is at the set of the club who accompanied the team to Hamilton were high in their praise of the local champions. From Pat Maher at flying wing to Thompson at centre scrimmage, the local fourteen made a brilliant showing, but it was apparent that the St. Brigids backs were no match for the brain y Sammy Manson, who outkicked and at times outran his opponents, scoring all of the Cubs' 15 points. On the line the St. Brigids had an even break, but Manson on the second defence of the Tigers gave them the edge over the Saints. In fact, they

Drew in Mat Bouts, But Only Got One Decision From Varsity in Ring.

GUELPH, Nov. 28. - Boxers and wrestlers from the Ontario Agricultural College and University of Toronto staged by far the fastest and most furious program of bouts at the Guelph Arena tonight that was ever witnessed here. The Aggies broke even on the four wrestling bouts, winning two and losing two, but they were badly outclassed in boxing, one lone decision being awarded them in six contests. Two of the future U. F. O. leaders were knocked out cold; two others were chased from the ring before the first round had concluded; another took an awful pummelling, but managed to stick it out for three rounds, while "Scotty" McMillan, the popular Aggie football player, was the mly local student to beat his man, the ecision coming to him on points.

The following are the results:

SUCCESSFUL CAMPAIGN.—Adjutant Martin, of the local staff of the Salvation Army, who is conducting a campaign for funds to build an addition to Grace Hospital in Windsor, is in the city today. He stated that thus far the campaign has been successful. Toronto, Nov. 29.—Just as the morning's C. P. R. train from Windsor was pulling into the Union station at S:35 o'clock this morning, John Doughty got good news of his sister, who has been seriously ill with pneumonia.

"I saw your sister on Saturday," said a newspaperman.

"And Mrs. Lovatt," he interrupted eagerly. "Did you hear anything of her?"

"It was Mrs. Lovatt whom I saw," was the reply.

"Tell your farmer friends to investigate it for themselves," said Senator Robertson.

Senator Robertson indicated how he arrived at the 4½ per cent average duty on farm implements. There were a lot of tractors and similar farm equipment admitted free. Adding the total value of this to the taxable importations it brought down the average tax considerably.

M. R. Seed, another Aylmer manufacturer, said that protection must be continued or his firm couldn't continue manufacturing pumps. Free materials were not enough, said Mr. Seed. Unless the duty was kept on the manufactured pumps his firm would have to go out of business.

H. J. Pettyplece, editor of the Forest Free Press, raised a lot of pertinent questions, hinging around the Massey-Harris Company. Sir Henry Drayton, however, wouldn't admit Mr. Pettyplece's insinuation that any Canadian manufacturers got a rebate on their material, and yet added it to the price charged the farmers, making a clear profit out of the tariff.

"They made the farmers pay the tariff; then they got it back from the Government, and so got paid twice," said Mr. Pettypiece.

Canadian plow manufacturers in one year imported free of duty over \$1,000,000 worth of plow parts. Inc & ding mold boards, all finished except for punching holes in them, charging the farmers a price to cover the duty they didn't pay, and then exported \$2,000,000 of finished plows back to the United States, charged Mr. Pettypiece.

Mn Outrage.

"It was an outrage," he sald, not wishing to use stronger language. He advocated tariff for revenue. Plows were taxed but diamonds came in free. Why not put a tariff on tea, coffee and bananas, which couldn't be produced here. Then, the people's money were spent subsidizing tunnels, railroads and steamships to encourage trade with the United States. Then more of the people's money was spent hiring customs of ficers # stand at the end of the tunnel and keep the rade out. Why not leave the natural barriers, the lakes and rivers to keep th

The Care of the Small Estate

The greatest care should be exercised in safeguarding the estate of a few thousands because it is all that stands between the widow and poverty.

If such an estate is intrusted to an individual it is likely to be placed in one investment, unwisely selected, and the whole may be lost.

If it is left in the care of this company's experienced officials the heirs will be absolutely safeguarded against loss.

Mr. Pettypiece was followed by A. B. Auld, a Lambton County farmer, who took quite a different view of matters as compared with Mr. Skinner of East Elgin.
Mr. Auld was willing to have a fair tariff continued, but didn't think the tafff was fair at present. He submitted a lot of facts and figures in response to questions, showing how large a capi-

en suffer, Dr. Hamilton points out that nine out of every ten woman are by nature inclined to habitual constipation. Harsh purgatives are resorted to which only intensify the trouble. Although not generally known, it is a constipated condition of the bowels that causes half the sickness and tired weariness with which all woman kind is so familfar. It was after long years of study that Dr. Hamilton perfected the pills which have been of such marvellous benefit to women the world over. In his pills of Mandrake and Butternut every sufferer will find an absolute specific for constination, sick headache and billousness. It is safe to say that Dr. Hamilton's Pills bring better health and keep the system in a more vigorous condition than any other medicine ever discovered. At all dealers, in 25c

SERIOUS CHARGE AGAINST AGED MAN

John Palmateer of Fargo Is in Jail At Sarnia.

SARNIA, Nov. 28.—A charge of assaulting to do great bodily harm, less than murder, has been laid against John Palmateer, 78 year-old Fargo grocer and poolroom proprietor, who was arrested Thursday after Russell Willey, arrested Thursday after Russell Willey, also of Fargo, had sustained a builet wound in the face from a gunshot, from a firearm in the store conducted by Palmateer. The shooting occurred on Wednesday night as Willey stood in front of the store, and is claimed by Palmateer to have been entirely accidental.

Palmateer to have been entirely accidental.

Bond for Palmateer, who was confined in the county jail, was placed at \$500. He was arranging to furnish bond this afternoon. The charge was laid by Don R. Carrigan, assistant prosecuting attorney, who investigated the case. According to the story told by Sheriff, Stephen Windsor, Palmateer has been continually pestered by young people of Fargo, and authorities had been called by him several times. No trouble had ever occurred between Willey and Palmateer, it is stated.

H. V. ESMOND AND EVA MOORE AT GRAND THURSDAY.

When the distinguished English comedian, H. V. Esmond, and his wife, Miss Eva Moore, acknowldged as the leading comedienne of the English stage today, are seen here at the Grand on Thursday for three days in "The Law Divine:" Mr. Esmond's latest and most successful comedy, local theatregoers will witness a performance which has thrilled many thousands of people in London, where it ran for three years.

Mr. Esmond's reputation as a playwright who has dealt consistently and exclusively with the wholesome things of life, is world-wide. He has set his face steadfastly against everything that is unclean and unwholesome, and hoyal support of thousands of English-speaking theatregoers.

In "The Law Divisor" The Claw in from the classics.

New York has been described as the city where you never know your neighbors. The folks in the next apartment may be crooks. Your chauffeur is possibly a financially embarrassed British nobleman.
