Canadian Institute for Historical Microreproductions / Institut canadien de microreproductions historiques

© 1997

The copy filmed here has been reproduced thanks to the generosity of:

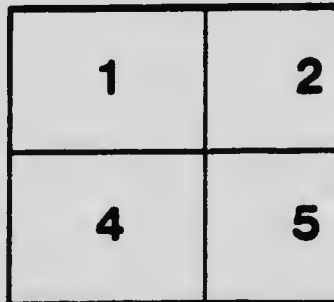

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

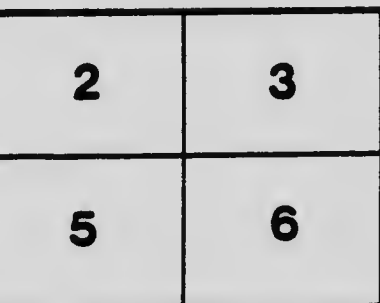

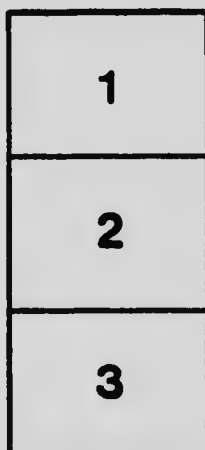

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PREFACE.

THE IMPROVED READY RECKONER AND LOG-BOOK contains tables showing the value of any number of pounds, gallons, yards, feet, etc. of any article, from one to a thousand, at from one-quarter of a cent to ten dollars each, so arranged that a person may, by looking at the head of the page to find the given price, and at the column on the side for the number wanted, see at a glance the amount of value required. As an example, suppose you wish to know what 35 pounds of tea would cost at 49 cents per lb. By referring to page 71 and following the left-hand column until you reach 35, opposite this number you will find \$17.15, the amount required.

It also contains carefully-prepared Tables of Board, Scantling, Plank, and Log Measures, as well as methods for calculating the measuremer of Stonework and Masonry; Tables of Weights

and Measures, Measurement of Grain and Hay; Tables of Wages and Board by the Day and Week; Business Laws in daily use, Business Forms, Interest Tables, Rates of Postage, and much more information of great value to the merchant, mechanic, farmer, lumberman, and, in fact, to all persons, employer as well as employed. The Publishers believe they have presented in this book more useful matter for all classes than is to be found in any similar volume of the same size.

Board by the Week.

The following Tables will also answer for calculating the amount of Wages by the Week or Month of Hired Girls, Servants, &c., who are compelled to labor on the Sabbath; being calculated for seven days in the week.

 Multiply these Tales by 4, and you have Wages by the Mouth.

Table 207—\$1.00.

Interest at any Rate per Cent.

INTEREST.

An easy method of calculating the interest on any amount for any number of days, at six per cent.

RULE.—Multiply the number of dollars by the number of days, and divide by 60; the result is the interest at 6 per cent. in cents.

EXAMPLE.—What is the interest of \$78 for 90 days at 6 per cent.?

SOLUTION.— 78

$$\begin{array}{r} 90 \\ \hline 60 \overline{)7020} \end{array}$$

117 cents — \$1.17 interest.

If any other rate than 6 per cent. is required, the following rule will apply:

RULE.—Multiply the number of dollars by the number of days, and this result by the given rate, and divide by 360; the result is the interest in cents.

EXAMPLE.—What is the interest of \$125 for 54 days at 8 per cent.?

SOLUTION.—125

$$\begin{array}{r} 54 \\ \hline 500 \\ \hline 625 \\ \hline 6750 \\ \hline 8 \end{array}$$

360)54000(150 cents — \$1.50 interest.

$$\begin{array}{r} 360 \\ \hline 1800 \\ \hline 1800 \end{array}$$

Table of Interest,

PER DAY, AT SIX PER CENT ON ANY NUMBER OF
DOLLARS, FROM ONE TO TWELVE THOUSAND.

EXAMPLE.—Look for April at the left hand, and September at the top—in the angle is 103.

RATES OF POSTAGE.

FIRST-CLASS MATTER.—LETTERS. Letters containing Gold or Silver Money, Jewels or anything liable to Customs duties, cannot be forwarded by post beyond the Dominion. (Such articles must be sent as Fourth-Class Matter to the United States, and by Parcel Post to most other Foreign Countries.)

Letters addressed to places in Canada and the United States, including Porto Rico, Hawaii, Guam and Philippine Islands, 2 cents per ounce or fraction thereof.

EXPRESS LETTERS AND PARCELS.—There is immediate delivery of "Express" letters and parcels, so marked, addressed to United Kingdom. Fee payable there on letters is 6c. a mile from addressee's post office. Fee payable on parcels, 10c., can be prepaid here.

POST CARDS.—For Canada and the United States, one cent each. For Great Britain, Newfoundland, and all Postal Union countries, two cents each. Reply Cards, for Canada and U. S. two cents each.

Private post cards may have a reply-card attached, bearing one cent stamp.

Private post cards may, if prepaid 2 cents, be posted in Canada, addressed to any Postal Union country.

The limit of size for a Private Post Card is 6 inches long by $3\frac{1}{2}$ in. wide.

Legal Documents and Commercial Papers and all other matter either wholly or partly in writing (except the matter specially mentioned under Third class) are liable to letter rate of postage, 2 cts. per oz. when posted for delivery in Canada.

These papers may be sent to all countries at 5 cents for the first 10 ounces and 1 cent for each additional 2 ounces. Must be sent in covers open at ends. Botanical, Entomological and Mineralogical Specimens, when posted for delivery in Canada may pass at the rate of 1c. for each 2 ozs. or fraction thereof. Limit of weight 5 pounds. The rate on these articles to the United Kingdom, United States, Newfoundland, and all other Postal Union countries when not sent for commercial purposes is the same as when addressed to places in Canada with this proviso, that the initial payment must be 2 cents, which, however, will cover a weight of 4 ozs. Limit of weight to United Kingdom, 5 pounds; to other countries 12 ozs.

CIRCULARS are communications in print, or produced by a multiplying process easily distinguished from typewriting, which are posted to several individuals, and couched in identical terms. A circular may, without becoming liable

RATES OF POSTAGE.

to a higher rate of postage, be signed and dated in handwriting, and may also contain the name of the addressee in writing at the top.

The postage on Circulars produced in imitation of type-writing or hand writing by a multiplying process, is 1 c. per 2 ozs. when at least 20 copies in precisely identical terms are handed in to the Post Office at one time. Circulars type-written are liable to letter rate.

Circular matter duly prepaid may be posted, addressed simply "The Householder," without the name of any person, or indication of street or number, and will be delivered at every house, so far as the supply permits, in places in Canada where there is free delivery by letter carrier.

On Seeds, Cuttings, Bulbs, Roots, Scions or Grafts (but not cut flowers), when posted for delivery in Canada, the postage is 2 cents for the first four ounces or fraction thereof, and 1 cent for each additional four ounces or fraction thereof. These articles can only be sent to the United States at the 1 cent per ounce rate. Limit of weight 5 lbs.

Inland registered letters—that is, registered letters posted at and addressed to a post office in Canada—may be insured against loss for amounts not exceeding twenty-five dollars, on payment of the following fees, in addition to the full postage and registered charges: 3 cents, \$10; 4 cents, \$15; 5 cents, \$20; 6 cents, \$25. A letter tendered for insurance must be enclosed in a strong envelope or cover and properly sealed. Envelopes with black or colored borders may not be used for Registered or Insured letters.

Bona fide Patterns and Samples of Merchandise, not exceeding 3 pounds in weight, AND NOT OF SALEABLE VALUE, may be sent to any place in Canada, at 1 cent for each 2 ounces or fraction thereof. Must be put up so as to admit of inspection. Goods sent in execution of an order, however small the quantity may be, articles sent by one private individual to another, *not being actually Trade Patterns or Samples*, are not admissible. Limit of size 30 inches in length by 1 foot in width or depth.

The rate on these articles when addressed to other countries is 2 cents for the first 4 ozs. or fraction thereof, and 1c. for each additional 2 ozs. or fraction thereof.

Limit of weight to United Kingdom is 5 pounds; limit of size 2 feet in length by 1 foot in width or depth.

The limit of weight to other Postal Union countries is 12 ozs.; limit of size, 1 foot in length by 8 in. in width and 4 in. in depth. If in form of a roll, it may be 12 in. in length and 6 in. in diameter.

RATES OF POSTAGE.

FOURTH-CLASS MATTER comprises such articles of general merchandise as are not entitled to any lower rate of postage. When addressed to places in Canada or the United States, the postage is 1c. for each ounce or fraction thereof. Limit of weight, 5 lbs.; of size, 30 inches in length by 1 foot in width or depth; but the combined length and girth of any packet must in no case exceed 6 feet. Matter claiming to be fourth class *must be open to inspection*, and there must be no correspondence enclosed (except invoices and accounts of the articles enclosed). Packages of Fourth-Class Matter may be sent to the United States, including Porto Rico, Hawaii and Philippine Islands, if prepaid 1 cent per ounce; but the contents will be liable to Customs Inspection and collection of duty in the United States. Sealed tins, containing fish, lobster, vegetables, meats, etc., if put up in a solid manner and labelled in such a way as to fully indicate the nature of their contents, may be sent as fourth-class matter within the Dominion; but no sealed matter can be forwarded to the United States under this head. Liquids, oils and fatty substances may be sent to places in Canada and the United States as fourth class, if securely put up.

REGISTRATION.—The fee on all classes of articles addressed to countries to which matter may be registered is 5 cents.

FOREIGN AND COLONIAL MAILS.—The postage rate for letters of 2 cents per half-ounce is applicable to correspondence exchanged between Canada and the United Kingdom, and between Canada and the following British Possessions: Aden, Ascension, Bahama Islands, Barbados, Bermuda, British Central Africa, British East Africa, British Guiana, British Honduras, British India, British North Borneo Company's Territory (including Colony of Labuan), British Postal Agencies in China, Cape Colony, Ceylon, Commonwealth of Australia, Cyprus, Faikland Islands, Fanning Islands, Fiji, Gambia, Gibraltar, Gold Coast Colony, Hong Kong, Jamaica, Johore, Lagos, Leeward Islands, Malay States, Malta, Mauritius, Natal, Newfoundland, New Zealand (including Cook Islands), Northern and Southern Nigeria, Orange River Colony, Sarawak, Seychelles, Sierra Leone, Somaliland Protectorate, Straits Settlements, St. Helena, Tobago, Transvaal, Trinidad, Turk's Islands, Uganda, Windward Islands, Zanzibar.

The countries included in this list are all embraced in the Postal Union, and with the exception of the reduction in the Letter Rate, and in the Newspaper Rate to the United Kingdom, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon,

RATES OF POSTAGE.

Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, Newfoundland, New Zealand, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad, Tobago, Turk's Islands, and Zanzibar, the Postal Union Rates and Regulations remain in force.

Transient newspapers, printed and published in Canada, may be sent to the United Kingdom, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, Newfoundland, New Zealand, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad, Tobago, Turk's Islands and Zanzibar, at the rate of 1c. per 4 oza.; other papers at the rate of 1c. per 2 oza.

RATES TO OTHER POSTAL UNION COUNTRIES.—

Letters, 5 cents per $\frac{1}{2}$ ounce; Post Cards, 2 cents each; Newspapers, Books, Photographs, Printed Matter, etc., 1 cent per 2 ounces; Samples, 2 cents for first 4 ounces, 1 cent for each additional 2 ounces; Commercial Papers, 5 cents for first 10 ounces, 1 cent for each additional 2 ounces; registration fee, 5 cents.

POST OFFICE SAVINGS BANKS are established at the General Office and at most of the branches. Sums of \$1.00 or any multiple of \$1.00 can be deposited. Interest, three per cent.

MONEY ORDERS.—Payable in Canada, Newfoundland, Leeward Islands, British Guiana and the United States. (The limit for a single order is \$100.) On Orders up to \$5, 3c.; over \$5 and up to \$10, 6c.; over \$10 and up to \$30, 10c.; over \$30 and up to \$50, 15c.; over \$50 and up to \$75, 25c.; over \$75 and up to \$100, 30c.

Not more than One Money Order under \$100 payable in Canada, Newfoundland, Leeward Islands, British Guiana and the United States can be issued to the same person on the same day, drawn on the same place in favor of the same payee, but as many of \$100 each may be given as the remitter requires.

Payable in the United Kingdom, British Possessions (except Newfoundland, Leeward Islands and British Guiana), and all distant countries upon which Money Orders may be obtained. (The limit for a single Order on these countries is \$50.) On Orders up to \$10, 10c.; over \$10 and up to \$20, 20c.; over \$20 and up to \$30, 30c.; over \$30 and up to \$40, 40c.; over \$40 and up to \$50, 50c.

The Postal Note System established by the Post Office Department affords a cheap and convenient means for remitting small sums.

RATES OF POSTAGE.

Are payable only in Canada and the United States.

Are bought and paid at any Money Order and Postal Note Office.

May be bought at any Postal Note Office.

The rates are as follows: 1c. on note for 20c.; 1c. on note for 25c.; 1c. on note for 30c.; 1c. on note for 40c.; 2c. on note for 50c.; 2c. on note for 60c.; 2c. on note for 70c.; 2c. on note for 75c.; 2c. on note for 80c.; 2c. on note for 90c.; 2c. on note for \$1.00; 2c. on note for \$1.50; 2c. on note for \$2.00; 2c. on note for \$2.50; 3c. on note for \$3.00; 3c. on note for \$4.00; 3c. on note for \$5.00; 5c. on note for \$10.00.

Odd cents may be made up by affixing Canadian Postage Stamps not exceeding 9 cents in value to the face of a Postal Note.

EXPRESS MONEY ORDERS.—Rates for Orders payable in Canada, United States and Europe: \$5 and under, 3c.; over \$5, not over \$10, 6c.; over \$10, not over \$30, 10c.; over \$30, not over \$50, 15c. Over \$50, at same rates.

BUSINESS LAWS IN DAILY USE.

The following compilation of business law contains the essence of a large amount of legal verbiage:

If a note is lost or stolen it does not release the maker; he must pay it if the consideration for which it was given and the amount can be proven.

Notes bear interest only when so stated.

Principals are responsible for the acts of their agents.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.

An agreement without consideration is void.

A note made on Sunday is void.

Contracts made on Sunday cannot be enforced.

A note by a minor is void.

A contract made with a minor is void.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

A receipt for money is not always conclusive.

The acts of one partner bind all the rest.

The maker of an "accommodation" bill or note (one for which he has received no consideration, having lent his name or credit for the accommodation of the holder) is not bound to the person accommodated, but is bound to all other parties precisely as if there was a good consideration.

Checks or drafts must be presented for payment without unreasonable delay.

If the drawee of a check or draft has changed his residence, the holder must use due or reasonable diligence to find him.

BUSINESS LAWS IN DAILY USE.

If one who holds a check as payee or otherwise transfers it to another, he has a right to insist that the check be presented that day, or, at farthest, on the day following.

A note indorsed in blank (the name of the indorser only written) is transferable by delivery the same as if made payable to bearer.

If the time of payment of a note is not inserted, it is held payable on demand.

An indorsee has a right of action against all whose names were on the bill when he received it.

If the letter containing a protest of non-payment be put into the post-office, any miscarriage does not affect the party giving notice.

If two or more persons as partners are jointly liable on a note or bill, due notice to one of them is sufficient.

If a note or bill is transferred as security, or even as payment of a pre-existing debt, the debt revives if the bill or note be dishonored.

All claims which do not rest upon a seal or judgment must be sued within six years from the time when they arise or are revived, except in Quebec, which is five years.

Part payment of a debt which has passed the time of statutory limitation revives the whole debt, and the claim holds good for another period of six years from the date of such partial payment.

If when a debt is due the debtor is out of the Province, the "six years" do not begin to run until he returns. If he afterward leave the Province, the time forward counts the same as if he remained in the Province.

An oral agreement must be proved by evidence. A written agreement proves itself. The law prefers written to oral evidence, because of its precision.

A Joint Note.
Toronto, Jan. 1st, 1905.

Business Forms

(5) \$800.

Bank Note.

Toronto, Jan. 1st, 1905

Sixty days from date I promise to pay *S. G. & B. Jones*, or order, at the Merchants' Bank, eight hundred dollars, value received. N. C. GOLDSMITH.

Remarks.—The above are the usual form of notes. A note on demand, as No. 1, is due at any time when demanded. A note payable to *S. H. or order*, may be sold or negotiated if *S. H.* writes his name upon the back, and if payable to *S. H. or bearer*, it can be sold without being endorsed, and will be good to the holder. In the State of Pennsylvania the words "*without defalcation*" are inserted after dollars.

When two or more persons sign a note "severally and jointly," they are each responsible for its payment. The words "*value received*" should be written on a note to make it valid.

A person endorsing a note, or writing his name across the back, becomes responsible for its payment. If, however, the person thus endorsing is not notified when the note becomes due of its non-payment by the drawer, he can no longer be held responsible for its payment. A partial payment of a note should always be endorsed on the same.

Business Forms

Inland Drafts.

A draft is much the same as an order. An order is generally given upon individuals in the vicinity of the parties concerned, while a draft is an order upon individuals more distant.

\$500.

Thirty days from date pay *Charles P. Huestis*, or order, five hundred dollars, and charge the same to

Mr. John Slater, Ottawa.

Toronto, Jan. 1st, 1905.

CUBIC MEASUREMENT OF TIMBER;

LOGS REDUCED TO SQUARE TIMBER;

LOG TABLES;

WEIGHTS, PER BUSHEL, OF GRAIN, Etc.)

Tables of Weights and Measures;

MEASUREMENT OF STONE WORK;

MEASUREMENTS OF GRAIN AND HAY.

BOARD MEASURE.

BOARDS are sold by the square foot surface, one inch in thickness. If cut thinner, they count the same as if an inch thick.

To ascertain the number of square feet in a board, multiply the width in inches by the length in feet, and divide the product by 12; the quotient is the number of feet in the board, and the remainder is the odd inches. Six inches and over, remainder, are counted an additional foot. For example, measure a board 22 inches wide by 19 feet long, as below :

Multiply .. 22 .. the width in inches,
by .. 19 .. length in feet.

198

22

12)418 .. Product.

Quotient .. 34 .. 10 remainder.

Showing 34 feet 10 inches in the board, which counts 35 feet.

THE MEASUREMENT OF TIMBER OR SCANTLING.

NOTE.—The following valuable tables are taken from *Day's Ready Reckoner*, by permission of the publishers, Dick & Fitzgerald, of New York.

SCANTLING, or Timber for building, is sold by the square foot of inch-board measure. Thus a cubic foot of scantling, which is a foot wide, a foot thick, and a foot long, contains twelve feet measurement. To ascertain the square feet in a piece of scantling of any length, width, and thickness, multiply the width in inches by the thickness in inches; then multiply the product of these figures by the length in feet, and divide the second product by twelve; the quotient is the number of feet, and the remainder (if any) is the odd inches. Six inches and over are usually reckoned as an extra foot.

In measuring the length of a piece of timber the lumberman counts even feet only. Unless the length is full ten inches or more over an even number of feet, the excess is not counted; but ten inches over are counted as a full foot. In marking the contents of a piece of timber when it runs over measure, the lumberman usu-

THE MEASUREMENT OF TIMBER.

ally places a mark at the spot where the measurement ends. The marks are made on one end of the stick with Roman capital letters instead of figures, as XXI for 21, XVIII for 18, and so on.

EXAMPLE.—Suppose a stick of timber to be 11 inches in width, 9 inches thick, and to measure 27 feet in length:

Multiply.....11...the width
 by..... 9...the thickness.
 Product.....99...by which
 multiply.....27...the length in ft.

693

Divide

198

this product by 12)2673

Quotient...222...9 remainder.

The quotient is the number of square feet (inch-board measure), the 9 remainder being the odd inches. As six inches and over are counted a foot, 223 feet are the contents of the stick.

PLANK MEASURE.

BOARD MEASURE is the basis of plank measure; that is, a plank 2 inches thick and 13 feet long and 10 inches wide contains evidently twice as many square feet as if only one inch thick; therefore, in estimating the contents of any plank we first find the contents of the surface, taken *one* inch thick, and then multiply this product by the thickness of the plank in inches.

EXAMPLE.—Suppose we wish to ascertain the contents of a plank 6 feet long, 12 inches wide and $2\frac{1}{2}$ inches thick. First multiply the width in inches (12) by the length in feet (6), and divide the product by 12. This will give the contents of a board 1 inch thick, 12 inches wide and 6 feet long. If the last product be multiplied by $2\frac{1}{2}$, the result will be the contents of a plank 6 feet long, 12 inches wide and $2\frac{1}{2}$ inches thick.

Thus, 12 width in inches.
 6 length in feet.

12)72

6

2 $\frac{1}{2}$ thickness in inches.

13 $\frac{1}{2}$ contents in feet, board
measure.

In the following table less than half a foot is not counted, and half a foot or over, and less than one foot, is called 1 foot; which is quite sufficient for all practical purposes.

CUBIC MEASUREMENT OF TIMBER.

HEWED timber for framing buildings and for building bridges, docks, ships, etc., is sold by the solid cubic foot, and the contents of each stick, when measured by the lumberman, is marked on the butt with a broad-axe in Roman capital letters. For example, a stick containing nineteen feet is marked XIX; one of twenty feet, XX; twenty-one feet, XXI, and so on. A cubic foot is a measurement one foot long by a foot thick each way, or the equivalent thereof; hence a stick of timber a foot square will count one cubic foot to each foot of its running length. In reckoning the cubical contents of a stick of timber, if it should run less than half a foot (or $\frac{1}{2}$) over an even number of feet, the excess is not counted; but a full half, or any fraction above it, is counted an extra foot. To ascertain the contents proceed as follows: Measure the thickness of the stick each way in inches, and multiply one by the other: then multiply the product by the length in feet. Divide the second product

by 12, and then divide the quotient by 12. The second quotient is the number of cubic feet. For example: Take a stick of timber of the size 18 by 14 inches and 41 feet long.

$$\begin{array}{r}
 \text{Multiply} \dots 14 \\
 \text{by} \dots \underline{18} \\
 \phantom{\text{by}} 42 \\
 \phantom{\text{by}} \underline{14} \\
 \text{Product} \dots 182 \\
 \text{Length} \dots \underline{41 \text{ feet.}} \\
 \phantom{\text{Length}} 182 \\
 \phantom{\text{Length}} \underline{728} \\
 \text{2d Prod.} \dots 7462
 \end{array}$$

To bring in and include the fractions of a foot, add two ciphers to this second product, and then divide by 12, thus:

$$\begin{array}{r}
 12 \overline{)746200} \\
 12 \overline{)62183} \text{ Quotient.} \\
 \phantom{\overline{)62183}} 5181 \text{ Second Quotient.}
 \end{array}$$

The two first figures of the second quotient (51) are the number of feet in the stick, and the two last figures (81) represent the fraction—viz. $\frac{81}{100}$. Hence the stick contains 52 cubic feet—half a foot ($\frac{50}{100}$) and over counting an extra foot.

LOGS REDUCED TO SQUARE TIMBER.

To reckon the contents of a round log in cubic feet of square timber, first reduce it to square timber, thus: Measure the diameter (or thickness) at each end in inches; add these measurements together, and divide the sum-total by 2; the quotient is the average diameter. One-third of this diameter is allowed for the chips or slabs. To deduct this third, divide the number of inches diameter by 3, and subtract the quotient from it; the remainder is the proper diameter for measurement. The thickness of the log is generally counted in even inches; and one-third of an inch excess, or upward, is added as an extra inch. After getting the square of the log in manner above described, the number of cubic feet in it is reckoned the same as in square timber (see page 222). But as in the reduction of logs fractions of inches often have to be reckoned, an example may be useful for a perfect understanding of it.

EXAMPLE.—Suppose a round log to be

LOGS REDUCED TO SQUARE TIMBER.

35 feet long, 24 inches thick at the butt
and 19 inches thick at the top:

Add.....24...

and.....19...the two diameters.

Sum-total.....43...to which add two
iphers to include the fractions, and then
divide by.....2)43.00

Deduct $\frac{1}{2}$ for slabs 3)21.50 average diameter.

7.17

True diameter.....14.33...or $14\frac{1}{2}$ inches.

Reduce this to thirds, thus: Three times
14 is 42, and the odd one makes 43 thirds.

Multiply.....43

by.....43

129

172

Total.....1849...which represents
ninths of inches. Add two ciphers to in-
clude the fractions, and then, to reduce to
inches, divide by 9: ~~205.44~~

9)1849.00

205.44

Multiply by..... 35...the length of
102720 the log.

61632

Divide by.....12)7190.40

Divide by.....12) 599.20

Cubic feet.....49 $\frac{2}{3}$ counting 50 feet.

CUBIC MEASUREMENT OF ROUND TIMBER.

THE following may properly be called **LOG TABLES**, as they give the number of solid or cubic feet in logs of different lengths and thicknesses. They apply to all kinds of round timber sold by the solid foot.

To reckon the number of cubic or solid feet in any log, ascertain its average thickness in manner given on page 233. Multiply this diameter in inches by an equal sum; then deduct one-fourth from the product, and add 5 per cent. to the remainder. Multiply the sum-total by the length of the log in feet, and divide the product by 12; then divide the quotient by 12, as in square timber, described on page 222. The second quotient is the number of solid (or cubic) feet and fractions thereof which the log contains.

EXAMPLE.—Suppose a log 23 feet long to be 29 inches thick at the butt and 26 inches thick at the small end:

CUBIC MEASUREMENT OF ROUND LOGS

Add together.....26

and.....29

Divide by.....2)55.00.....adding two

Average thickness.....27.50 ciphers to

Multiply by the same..27.50 bring in
fractions.

1375

1925

Deduct $\frac{1}{4}$ from 550

this product...4)756.25

Add 5 per cent., 189.06

or $\frac{1}{20}$20)567.19

X 28.36

Square of the log...595.55...or 595 $\frac{11}{100}$ in.

Multiply this by the length 595.6

of the log in feet..... 23

17868

11912

Divide the product by.....12)13698.8

Divide the quotient by.....12)1141.5

Contents of the log..... 95 $\frac{11}{100}$ feet.

Tables of Weights & Measures.

AVOIRDUPOIS WEIGHT.

Avoirdupois Weight is that used in weighing produce, coal, iron, groceries, etc.

TABLE.

16 drams (dr.)	- 1 ounce,	oz.
16 ounces	- 1 pound,	lb.
25 pounds	- 1 quarter,	qr.
4 quarters	- 1 hundred-weight,	cwt.
20 hund.-weight	- 1 ton,	T.

The following measures are of every-day use:

56 lb. of butter	- 1 firkin.
196 " of flour	} - 1 barrel.
200 " of beef or pork	
100 " of dry fish	- 1 quintal.
100 " of nails	- 1 keg.

TROY WEIGHT.

Troy Weight is used in weighing gold, silver, gems and jewels.

TABLE.

24 grains (gr.)	- 1 pennyweight, dwt.
20 pennyweights	- 1 ounce, oz.
12 ounces	- 1 pound, lb.

APOTHECARIES' WEIGHT.

Apothecaries' Weight differs from Troy weight in the division of the ounce. It is used in measuring medicines.

TABLE.

20 grains (gr.)	- 1 scruple, ℥.	℥. ℥. ℥. ℥.
3 scruples	- 1 dram.	
8 drams	- 1 ounce,	
12 ounces	- 1 pound, lb.	

Tables of Weights & Measures.

LONG MEASURE.

Long Measure is used in measuring length and distance.

TABLE.

12 inches (in.)	= 1 foot,	ft.
3 feet	= 1 yard,	yd.
5½ yards, or 16½ feet	= 1 rod,	rd.
40 rods	= 1 furlong,	fur.
8 furlongs	= 1 mile,	mi.
3 miles	= 1 league	lea.

SURVEYORS' MEASURE.

Surveyors' Measure is used in measuring land and boundaries.

TABLE.

7.92 inches (in.)	= 1 link,	li.
25 links	= 1 rod,	r.
4 rods	= 1 chain,	ch.
80 chains	= 1 mile,	mi.

SURFACE OR SQUARE MEASURE.

Square Measure is used in measuring areas or surfaces.

TABLE.

144 square inches (sq. in.)	= 1 square foot,	sq. ft.
9 " feet	= 1 square yard,	sq. yd.
30½ " yards, or	} = 1 square rod or perch,	rd. or P.
272½ " feet		
160 " rods	= 1 acre,	A.
640 acres	= 1 square mile,	sq. mi.

CUBIC MEASURE.

Cubic Measure is used in computing the contents of volumes or solids.

Tables of Weights & Measures.

TABLE.

1728 cubic inches (cu. in.)	- 1 cubic foot,	cu. ft.
27 cubic feet	- 1 cubic yard,	cu. yd.

WOOD MEASURE.

TABLE.

16 cubic feet	- 1 cord foot,	cd. ft.
8 cord " or	} - 1 cord,	cd.
128 cubic "		
24½ cubic "	- 1 perch of stone or masonry,	pch.

LIQUID MEASURE.

Liquid Measure is used in measuring liquids.

TABLE.

4 gills (gi.)	- 1 pint,	pt.
2 pints	- 1 quart,	qt.
4 quarts	- 1 gallon,	gal. - 231 cu. in.

DRY MEASURE.

Dry Measure is used in measuring grain, fruit, salt, soft coal, etc.

TABLE.

2 pints	- 1 quart,	qt.
8 quarts	- 1 peck,	pk.
4 pecks	- 1 bushel,	bu.

MEASURE OF TIME.

Time is a measured portion of duration.
 Thirty days has September,
 April, June and November;
 All the rest have thirty-one,
 Excepting February alone,
 To which we twenty-eight assign
 Till leap year gives us twenty-nine.

Time Table, etc.

TABLE.

60 seconds	- 1 minute,	min.
60 minutes	- 1 hour,	hr.
24 hours	- 1 day,	d.
365 days	- 1 year,	yr.
366 days	- 1 leap year.	
100 years	- 1 century,	cen.
<i>Also,</i>		
7 days	- 1 week,	wk.
4 weeks	- 1 month,	mo.
52 weeks	- 1 year,	yr.

MEASUREMENT OF STONE-WORK.

Stone masonry is usually estimated by the perch.

A perch of stone is $16\frac{1}{2}$ ft. long, 1 ft. high and $1\frac{1}{2}$ ft. thick, and is equivalent to $24\frac{3}{4}$ cu. ft.

The following is the common rule to find the contents of a wall or other stone-work :

RULE.—*Find the contents in cubic feet, and divide by 24.75.*

MEASUREMENTS OF GRAIN AND HAY.

Grain is usually measured in the United States by the bushel.

The standard bushel is 2150.42 cu. in.

Since a cubic foot is 1728 cu. in., a cubic foot is nearly .8 of a bushel; hence the

RULE.—*To find the contents of any quantity of grain in bushels, find the contents in cubic feet, and multiply by .8.*

For the same reason any number of bushels increased by $\frac{1}{4}$ the number will equal the number of cubic feet.

Heaped measure is regarded as containing $\frac{1}{4}$ more than stricken or even measure.

NOTE.—*The results under this rule are only approximately correct.*

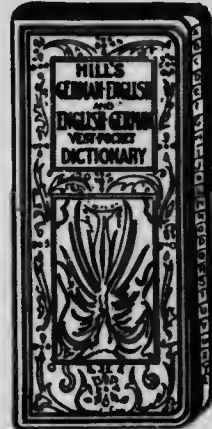

Vest-Pocket Series of Dictionaries and Reference Books.

Vest-Pocket Webster Dictionary. A Pronouncing Dictionary of the English Language. The best Webster's pocket dictionary made, because it contains only such words as will be looked for as regards spelling, pronunciation and meaning. Absolutely Best from point of manufacture. Absolutely Best because it gives the correct pronunciation of every word. It contains also Rules of Parliamentary Procedure; Rules for Computing Interest; Rates of Postage; Weights and Measures; Foreign Words and Phrases; Rules for Punctuation; Use of Capitals; Abbreviations in Common Use, etc.

SEVEN FOREIGN LANGUAGE DICTIONARIES'

- Dano-Norwegian Eng., Eng. Dano-Norwegian Dict.
- French-English and English-French Dictionary, Hill's.
- German-English and English-German Dictionary, Hill's.
- Italian-English and English-Italian Dictionary, Hill's.
- Latin-English and English-Latin Dictionary, Hill's.
- Spanish-English and English-Spanish Dictionary, Hill's.
- Swedish-English and English-Swedish Dictionary, Hill's.

No expense has been spared in compiling these books. As a result the most complete Foreign Language Dictionaries of handy size have been produced. Not only are they the most convenient for the student, but also the most practical for use of progressive American business men who come in contact with foreign language speaking people. They are the most reliable dictionaries of this style on the market, and each one contains a complete guide to pronunciation, with rules for same. Condensation and usefulness are the chief features of these books. Unusual and self-explanatory terms are left out to make room for more needful words. They are very useful for those desiring to trans-

Vest-Pocket Compendium of Applied Electricity. By Paul E. Lowe, M.E., written especially for officials and employees of all grades in Electric Railway, Lighting and Industrial Systems. This work is profusely illustrated, containing over 214 illustrations, and is supplemented with a voluminous vocabulary of electrical terms and phrases.

For students of electricity, its origin and nature, and for everybody interested in any one or all of the branches of activity in the modern industries, arts and

**THE MUSSON BOOK COMPANY, LIMITED,
TORONTO**

Vest-Pocket Series of Dictionaries, etc.—
continued.

sciences, where electricity is applied, this comprehensive and conveniently arranged little work is invaluable. Whilst covering the whole field of electrical science, embodying in each subject all the salient and essential features, the author, recognizing the ever increasing importance of the Electric Railway in the development of modern business and social life, has prepared the portion of this volume treating that subject, with greater elaboration than is usual in restricted works, and with far more than ordinary care and scientific precision. In this commercial era of grinding competition, and where only superior fitness for the performance of every duty in life can be relied upon to insure success, the value of constant vigilance, close attention to details, and a determination, by diligent study and application, to master the intricacies of the machinery and apparatus with which the Electric Railway operative is entrusted cannot be too forcibly urged. The fruits of exact knowledge, and the intelligent and earnest application of it, are economical and efficient operation, and by these qualities the valuable employee is distinguished and selected for preferment.

A leading characteristic of the entire work is its thoroughly practical nature and lucid explanation of all principles by means of diagrams of circuits, etc.

Conklin's Vest-pocket Book of Synonyms and Antonyms. By Prof. Geo. W. Conklin, of Hamilton University. In "Synonyms and Antonyms" the index words are distinguished by bold type and arranged alphabetically. Immediately after each index word follow words similar in meaning—synonyms—and thereafter, again, in parentheses, a series of words opposite thereto in meaning—antonyms. A knowledge of words is the most direct possible test of culture and civilization. Increase your vocabulary—it will pay in dollars and cents.

Conklin's Vest-pocket Book of Familiar Quotations. By

Prof. Geo. W. Conklin, of Hamilton University. No one can be expected to remember the exact words of the great authors he has read, and indeed no one has time to read over even hastily a tithe of the good things that the ages have accumulated. Hence a little book like this is indispensable. As we turn over its pages we are reminded of many wise and witty sentences we had forgotten, and we discover others we wonder at ourselves for having missed. Such a book is not to be read through at a sitting. Rather it is to be tasted every day or two.

Conklin's Vest-pocket Argument Settler.

By Prof. Geo. W. Conklin, of Hamilton University. Revised and brought

down to date by Paul E. Lowe, Ph.D. Containing all the latest railroad, electric, army, navy, and other valuable statistics, and covers the whole range of important scientific discovery and development. A complete encyclopedia of facts, statistics, tables and general information. A marvel of condensation; never before has there been published such an immense amount of knowledge in so small a space. The thousands of items of information covered by this book are so varied and extensive that it is almost impossible to find out what it does not contain. An idea of the immense number of facts to be found in Conklin's Argument Settler will be given by the fact that the index to contents embraces over sixteen pages. Five minutes' inspection of this little book invariably determines the examiner that he wants it. Strictly up to date.

Conklin's Vest-pocket "Who Wrote That?" Comprising 3216 Prose Selections. Edited by Prof. Geo. W. Conklin, of Hamilton University.

Who Wrote That? is an all too familiar question, the answer to which can be found in this handy volume.

**THE MUSSON BOOK COMPANY, LIMITED,
TORONTO**

**Vest-Pocket Series of Dictionaries, etc.—
continued.**

On no occasion is its value so great as when you do not have it convenient for ready reference. Containing, as it does, over three thousand two hundred selections from the world's choicest writings, it is an ever present help of great value.

Conklin's Vest-pocket "Who Wrote That?" Comprising Thousands of Poetic Selections. Edited by Prof. Geo. W. Conklin, of Hamilton University.

A necessary little book of exquisite binding. How complete it is may be judged from the fact that 26 pages of double column small type were necessary to contain its index alone. To those who wish to know and quote correctly this volume is indispensable.

Cloth Binding, Red Edges 25

Conklin's Vest-pocket "Who Said That?" Being Famous Sayings and Their Sources. Edited by Prof. Geo. W. Conklin, of Hamilton University.

This work is distinct from "Who Wrote That?" as it contains the choicest selections from the world's famous speeches or "sayings" as distinct from writings. It is necessary to recall only a word of a famous saying to quote it, for a wonderfully complete double column index of 25 pages will supply any forgotten point and enable you to locate the "sayings" quickly.

Conklin's Vest-pocket the World's Best Proverbs and Epigrams. Edited by Prof. Geo. W. Conklin, of Hamilton University.

This book requires no apology for its existence. Its need is self-evident. The classified arrangement enables one to find quickly an apt phrase, epigram or proverb on any of the various subjects contained in the table of contents, which comprises 11 pages of index and a list of authorities quoted. The latter consists of 276 people of all ages and times, ranging from the earliest dates to and including such famous characters as Thos. W. Lawson, Hetty Green, Theo. Roosevelt, Elbert Hubbard, etc., etc., etc.

Conklin's 50,000-Word Speller and Letter Writers' Manual.
 Edited by Prof. Geo. W. Conklin, of Hamilton University.

"How do you spell it?" is a question you no longer need ask, for within the covers of this book may be found not only an answer in the 50,000-word spelling list, but also a mass of valuable information that no letter writer, stenographer or person who wishes to write and spell correctly or use perfectly formed and well-rounded sentences can, profitably to themselves, be without.

Conklin's Shakspearean Manual. Edited by Prof. Geo. W. Conklin, of Hamilton University.

The manual is, in short, a new collection of 2000 familiar and frequently quoted passages from the works of William Shakspeare with illustrations of some common forms of misquotation and many explanatory notes, to which is added an index to the places in which the scenes of Shakspeare's plays are laid and a list of the plays, showing at a glance into how many acts and scenes each is divided, making a book that every Shakspearean lover should have and no one who desires to appear to know Shakspeare's works or quote Shakspeare accurately can possibly do without.

Faulty Diction—or, Errors in the Use of the English Language, and How to Correct Them. (Vest-Pocket Size.)
Thomas H. Russell, LL.B., editor-in-chief of Webster's Imperial Dictionary, did the public a great service when he wrote this book in which there are 1017 headings treated, and under some of them—plurals, for instance—over fifty every-day errors are illustrated and corrected.

Who does not make errors in speech? Probably there is no person who does not do so occasionally. To use the English language with correctness would be a phenomenon.

**THE MUSSON BOOK COMPANY, LIMITED,
TORONTO**

**Vest-Pocket Series of Dictionaries, etc.—
continued.**

But there are numerous faulty expressions so wicdily employed as to have secured something of the status of perfect diction. Many people who ought to know better believe them to be proper, and will defend them with promptitude and even passion. There is a large number of common blunders so grotesquely stupid that they raise one's gorge. They are so common that many people think the improper form the correct one.

Bridge and How to Play It. A New Book by America's Greatest Authority, Frank R. Hill.

This wonderfully complete work of 247 pages stands at the head of Bridge books and contains everything any player could possibly need or wish to know. The text is very full and instructions clear.

"The value of Mr. Hill's new handbook is in its thoroughness and its accuracy. It is really the most serviceable work on Bridge yet issued for players of all ranks."—*The Tribune.*

It is a remarkable compact as well as thorough treatise, covering more ground and offering more suggestions than much bulkier works on the subject.

To quote from Mr. Hill's Preface: "My endeavour, then, will be to lay before the reader the system which, after years of experience, has proved itself to be the best—that is to say, the system which is most lively to conduce to success.

in doing this, I give reasons for and against the different suggestions that are advanced, and spare no effort to make the treatise complete in every branch of the game."

ITED,

Profitable Poultry Keeping

By Stephen Beale.

Edited, with additions, by
Mason C. Weld,
And an Article on Incubators by
H. S. Babcock.

12mo, 278 pages; Illustrated. Cloth .. \$1.00

An excellent book to all who are practically inter-

ested in keeping poultry. The author, a practical man, fertile in expedients; gifted with rare common sense, and with a knowledge of his subject on matters of useful and essential details, gives a book, which, if the practical hints, etc., are followed, will result in the keep-

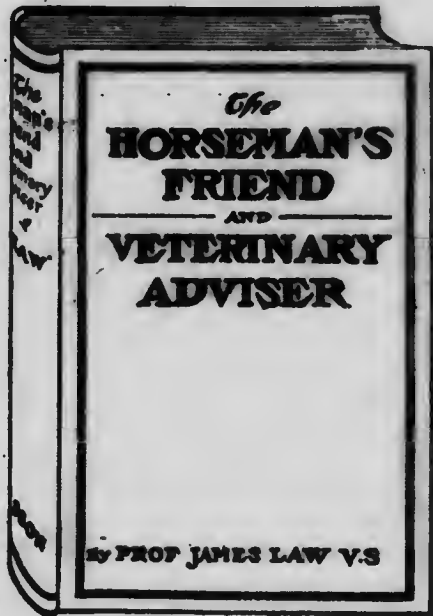

ing of poultry being profitable.

The Traction Engine

ITS USE AND ABUSE.

By James H. Maggard.

A Book of Instructions for Operators of Farm Engines. Including Gas and Gasoline Engines, with Special Chapters on Threshing Machines and how to run a Threshing Rig. Third Edition. Revised and greatly Enlarged by Expert Engineers. 293 pages. 70 Illustrations. 12mo, cloth, stamped in Gold and Ink \$1.00

“The book is full of practical points and suggestions, put in very simple language and very effective manner. It should be in the hands of every man who runs a traction engine.”

—*National Stockmen and Farmer, Pittsburg, Buffalo, and Chicago.*

“Judging the number of casualties reported from this class of engines, and the notorious abuse which they receive at the hands of their owners and operators, the desirability of such a book of instructions need not be argued. . . . The author has performed his task well.”—*The American Miller, Chicago.*
