J. EMERY-CODERRE, M.D.

Over 25 Years' Experience.

"Expectorating Syrup"

OF

Dr. J. Emery-Coderre,

Professor of Materia Medica and Therapeutics.

DR. J. EMERY CODERRE'S Expectorating Syrup is prepared under his direction and with the approbation of the Professors of the School of Medicine and Surgery of Montreal, Medical Faculty of Victoria University. For the last 25 years, the Expectorant Syrup has been administered with the greatest success in Coughs, Bronchitis, Catarrh, affections of the Lungs, Hooping-Cough, Croup,—in the latter case it is necessary to take first an emetic, &c., &c.

INFANTS' SYRUP, Prepared by Dr. Coderre.

"THE INFANTS' SYRUP" is prepared with the approbation of the Professors of the Montreal School of Medicine and Surgery, Medical Faculty of Victoria College. This Syrup can be given in all confidence to infants, in cases such as Colics, Diarrhoea, Dysentery, Painful Dentition, inability to sleep, Coughs, Colds, &c., &c.

DR. J. EMERY-CODERRE'S TONIC ELIXIR.

The TONIC ELIXIR is prepared under the immediate direction of *Dr. J. Emery-Coderre*, and has been administered with the greatest success for more than 20 years, in diseases requiring the use of tonics. Its use can be continued without any inconvenience, in complaints such as Chlorosis, or Green Sickness; Leucorrhoea, or Whites; Dysmenorrhoea, or difficult courses; Anæmia, or thinness of the blood; General Debility, Involuntary Seminal Losses, Scrofula, Ringworm, and other Diseases of the Skin, &c., &c.

CERTIFICATES.

We the undersigned Physicians, after carefully examining the composition of the Expectorant Syrup of *J. Emery-Coderre, M.D.*, certify that it is prepared with medical substances suitable for the treatment of diseases requiring the use of expectorants.

We, the undersigned Physicians, after carefully examining the composition of the INFANTS' SYRUP, certify that it is prepared with proper medical substances for the treatment of Infants' Complaints, such as Colics, Diarrhoea, Dysentery, Painful Dentition, Coughs, Colds, &c., &c.

We, the undersigned Physicians, after having examined the composition of the TONIC ELIXIR, as above, certify that it is prepared with medical substances for the treatment of diseases requiring the combined use of tonic and alterant agents.

1875/76

PREFACE.

IN presenting their first edition of the THE EASTERN TOWNSHIPS GAZETTEER AND DIRECTORY to its patrons, the Publishers beg to state that every effort has been used to make the work as complete, reliable, and interesting as possible and though absolute accuracy in a work of this nature is not to be attained, especially in the orthography of proper names, arising in a great measure from the numerous and varied sources from which information is derived, the Publishers trust that whatever errors may be detected will meet with lenient criticism.

Should circumstances favor and the rapid increase in population, wealth, and mercantile, manufacturing and mechanical importance, which the present promises for the future of the Townships, require the issue of a similar work the proprietors hope in the course of two or three years to again solicit the ample patronage so kindly bestowed and for which they tender their thanks to their numerous patrons.

JAMES WRIGHT,

MANUFACTURER OF

Church, Bank, Store and Office

FITTINGS,

PARQUET FLOORS,

Wooden Carpetings & Fancy Wainscots

Turning, Sawing & Fancy Wood Work

OF ALL KINDS.

2 to 15 St. Antoine Street

AND

801 CRAIG STREET.

THE Wooden Carpeting has proved by its durability that it is the cheapest covering for Kitchens, Offices, Stores, Banks, Halls, Laundries, Schools, Dining and Sitting Rooms, or Border for Drawing Rooms, and where care is taken it can be made to look nice as long as it lasts, which in Private Houses would be as long as an ordinary HARD WOOD FLOOR, or at least ten times as long as the best ENGLISH OIL CLOTH. The great advantage of these Floors is that they are Insect and Dust-proof, can be laid over any Floor without disturbing the arrangement of the Room materially, such as the Door Sills, Hearth-Stones, or Register. Being but $\frac{1}{4}$ inch thick, the wood is glued on Heavy Cotton Drill, and is manufactured at the factory 801 Craig Street, and can be shipped to any point, as it is portable and rolls up like Oil Cloth. The Plain Floor laid complete costs \$1.50 per yard. Or with more Elaborate Style with Fancy Borders, Initials, Monograms, Inscriptions, Centre Pieces, and Wainscots for Walls from $\frac{1}{4}$ inch to 1 inch thick at from 40 cents to \$1.00 per square foot, finished. Design and Estimates furnished, and floors laid in Montreal will be shown in all styles, or samples may be seen at the above address.

P. O. BOX 943 $\frac{1}{2}$, MONTREAL.

College of St. Cesaire,

ROUVILLE COUNTY, P.Q.

This INSTITUTION was founded by Rev. J. A. Provençal, in 1869, and is conducted by the Religious of the

ORDER OF HOLY CROSS.

It combines the advantages of a Christian Education with those of a thorough Commercial Course, as is fully testified by the position now occupied by its Alumni, and the continued patronage of the public in general.

TERMS OF ADMISSION.

Board and Tuition, including Bed, Bedding, Washing and Mending, per Session of ten Months	\$110.00
Piano (when required).....	20.00
Violin "	20.00
German "	20.00
Use of Library.....	2.00
Doctor's Fees charged extra. Books and Stationery also charged extra.	

Payments always quarterly in advance, either in gold or its equivalent.

N.B.—The uniform, which is now strictly required, consists merely of a black coat and a light green sash.

F. X. COLLERETTE,

President.

EASTERN TOWNSHIPS GAZETTEER AND DIRECTORY.

HISTORICAL SKETCH.

PREVIOUS to the discovery of this continent by Europeans the territory now known as the Eastern Townships, formed a hunting ground of various Indian tribes belonging to the great Algonquin nation, notably of the Abenakis, subsequently known as the St. Francis and the Coosucks which tribes occupied the country on the St. Francis and Becancour rivers and their tributaries and the northern part of Vermont and New-Hampshire. This region appears to have been the scene of frequent hostilities between the numerous warlike nations dwelling to the north and south of it, and during the war waged almost unceasingly between the Hurons and their allies, the French, and the powerful confederacy of the Iroquois, which resulted in the almost complete annihilation of the former tribe, and which for many years jeopardised the existence of European settlement. During this dreadful period every seigniory in the older settlements was fortified and every village enclosed by palisades and guarded with cannon. On the 4th of August, 1701, a permanent treaty of peace was solemnly confirmed between the French and Iroquois at Montreal, at which thirteen hundred natives, representatives of different tribes, took part in the ceremonies.

During the frequent wars between the French and the English colonists of New England this territory was the great thoroughfare through which rival predatory bands passed on the hostile expeditions so frequent at the time; and, being situated almost equally distant from the English and French frontiers, frequent collisions took place with varying success. The usual routes of the Canadians lay through Lake Champlain, entering it from the east, passing up the several tributary streams as far as possible in canoes and then pursuing their journey by land. The route between the head waters of Otter Creek and Black river was known as the *Indian road*.

ROGERS' EXPEDITION.

During the interval between the capture of Quebec and the final cessation of hostilities a large body of French troops were in possession of Isle aux Noix at the northern extremity of Lake Champlain, the entrance into Canada in that quarter. General Amherst commanded the British colonial forces at Forts Ticonderoga and St. Frederic, (Crown Point) and, while waiting the arrival of reinforcement took the opportunity of carrying into effect a project long determined of punishing the St. Francis Indians, dwelling on the banks of the St. Lawrence, whose savage ferocity and frequent

depredations on the English settlements had aroused the vengeance of the colonists and urged them to a summary revenge.

Major Rogers, a famous partisan and commander of the provincial rangers and sharpshooters, had, by frequent acts of daring and by his intimate knowledge of the country, gained a prominent position as a successful leader, and to him the command of the expedition was entrusted. During an absence from his home his wife and children had been murdered by a party of these savages, and nearly every man of his force had suffered in some degree from their atrocities, and they eagerly seized the opportunity to avenge their wrongs.

Late in the month of September, 1759, Rogers embarked at Crown Point with two hundred men and proceeded down the Lake in batteaux. On the fifth day, by the explosion of a keg of powder, several men were injured and sent back to Crown Point with an escort, thus reducing his force to one hundred and forty-two men. Pushing forward to Missisquoi Bay he concealed his boats, leaving in them sufficient provisions to carry the party back to Crown Point.

“Leaving two of his men to watch the boats, the party advanced into the wilderness, but, on the evening of the second day, the two men left with the boats overtook them, and informed Rogers that a party of four hundred French and Indians had discovered the boats and sent them away with fifty men, and were in pursuit with the remainder. This intelligence was kept secret, but he despatched a lieutenant and ten men to Crown Point to inform General Amherst of what had taken place, and request him to send provisions to Coos on the Connecticut river, by which route he intended to return. Nothing daunted he determined to outmarch his pursuers and, pushing on toward St. Francis with the utmost expedition, arrived within sight of the village on the evening of the fourth of October, and, leaving his men to refresh themselves, disguised himself in an Indian garb brought for the purpose and went forward to reconnoitre the town. He found the savages, without the least apprehension of danger, engaged in a grand dance and feast, and, returning about one o'clock, led his men to within five hundred yards of the place, and soon after the Indians retired to rest. On the morning of the fifth of October they commenced the assault, the surprise was complete, and, according to the ruthless custom of the time, the savages were mercilessly slaughtered; the vengeance of the provincials was roused to frenzy by the discovery of six hundred scalps of their friends and countrymen which were suspended on poles in the lodges and waving in the air, and two hundred of the three hundred inhabitants were slain on the spot, a few were taken prisoners, and several English captives rescued. It appears that the greater part of the warriors were absent hunting and fishing, so that little resistance could be made, the whites losing only one man and six slightly wounded. By express orders of General Amherst the women and children were spared.

“Having reduced the village to ashes and refreshed his men, Rogers set out on his return at eight o'clock in the morning, taking with him his prisoners, rescued captives, and whatever plunder was of value, consisting chiefly of votive offerings to the village church, and directed his course up the St. Francis river, on the way to Coos. The absent Indian hunters had returned in the course of the day and, maddened with rage, fifty of them started in pursuit, the next morning these were followed by forty-five

more, and came up with Rogers' party at Kingsey, where in a skirmish they lost several men, and the other party had a few slightly wounded; this check for a time relieved them from this annoyance and several of the Indians were in favor of abandoning the pursuit, but other counsel prevailed, and they pushed forward to the "Little Forks" (now Lennoxville) where they intended to give battle. On the tenth Rogers crossed to the opposite shore of the river, near Brompton Falls, and, while the Indians were making the *portage* pushed on to the "Big Forks," now Sherbrooke, and gained an elevated point, near the present residence of Mr. Sheriff Bowen. The strategic importance of this position determined him to await the arrival of his enemies.

"The river, which here makes a short turn, on one side has a high bank, then thickly wooded, while the opposite side was low and covered with a thin growth of stunted bushes. From the height Rogers had a fair view of the river for two miles down.

"For the purpose of deceiving and misleading the enemy's scouts he sent a few of his men to the 'Little Forks' to make fires, as for camping, and then return to their companions beyond the mouth of the Magog. This plan was successful, the Indian scouts passed up the shore till they saw the fires at the Forks and, thinking Rogers' party had encamped there, returned to the Falls with the intelligence. Those who had completed the *portage* set out in the canoes, leaving the others to follow up the shore, but, unfortunately for them, they passed the ambuscade where their foes were secreted, while they were in full view—about half the canoes had turned the point—a deadly fire was opened on them and nearly every one was killed, the rest hastened back to the point, but, being in the open woods below the mouth of the Magog, could offer but a feeble resistance and were almost all destroyed. Thus the hoarded vengeance of years was appeased, and the once powerful tribe of the Abenakis nearly annihilated. A few still remain in the forests bordering on the Maine boundary."

"After the slaughter of their foes the victors crossed the Magog and proceeded to the Little Forks; here Rogers, ordering his prisoners to be shot, resigned his command, advising his men to separate into small companies and, taking different routes, rendezvous on the Connecticut as before appointed. Accordingly some of the party went by the Eaton, Massawippi or Coaticook rivers, and others by the Magog and Lake Memphremagog, and, after incredible hardships, a few only, including their leader, succeeded in reaching the settlements, the majority perished under the influence of fatigue, hunger and the inclemency of the weather.*

FRENCH SETTLEMENTS, SEIGNIORIES, &C.

During the occupation of Canada by the French, large tracts of land called *seigniories* were granted to officers of the army, gentlemen of limited means, and to religious communities. These *seigniories* each contained from one hundred to five hundred square miles and, bordering on the St. Lawrence or some of its tributaries, comprehended an extent of several hundred miles, and were parcelled out into lots, in freehold leases, of

*For the above interesting account of this remarkable expedition we are chiefly indebted to "Thompson's History of Vermont" and "Mrs. Day's Eastern Townships," and an account of the affair related by Captain St. Francis, son of the chief of the tribe, to the late Jesse Penuoyer, Esq.

three acres in breadth and from seventy to eighty in depth, fronting on the bank of the river and running back into the woods. The *seigneurs* held in feudal tenure, and to them were owing money and service by the *censitaires*; they had judicial authority, holding courts, and were empowered to act as judges in what was termed *haute et basse* justice, including all crimes committed within their jurisdiction, murder and treason excepted. In addition to land rental the seigneur derived an income from grist mills, to the profit of which he had an exclusive right, from timber sales, fishery tithes, and from *lods et ventes*, or a fine on the disposal of property held under him. On the death of a seigneur the land was divided longitudinally, the eldest son taking the larger share, and the younger sons taking *fiefs*. When roads were opened, latitudinal divisions were also made. But successive generations thus dividing and subdividing, and with characteristic disinclination to leave their native place, the reduction in the size of the farms is so great that the frontage is often not more than thirty-three and a half feet and the depth two thousand feet or as one to sixty. The proprietors or *habitants* pursuing the same method have reduced their homesteads to very small dimensions and the row of houses causes the appearance of a long village street. The law of tenure was abolished in 1855, and the land in the townships is now held by "free and common soccage."

GEOGRAPHICAL AND TOPOGRAPHICAL FEATURES.

The Eastern Townships, properly so called, formerly included the country between the Richelieu and Chaudière Rivers in one direction and between the frontier lines of Maine, New Hampshire and Vermont and the seigniories of the districts of Montreal, St. Francis, Three Rivers and part of Quebec on the other and contained the large counties of Sherbrooke, Stanstead, Shefford, Missisquoi, Drummond and Megantic, an area of 4,886,400 acres of land, very little of which is unproductive. At present the Eastern Townships are included in the Districts of Bedford and St. Francis. We are indebted to "Hunter's Eastern Townships Scenery" for the following interesting chapter :

"As a whole, there is no more beautiful tract of country to be found on the Continent of North America, whether we regard its sublime and beautiful mountains, its enchantingly romantic lakes, its picturesque scenery, beautiful rivers and fertile valleys. As the traveller recedes from the banks of the St. Lawrence in a southerly direction, toward the townships, the first remarkable objects that meet the eye are the towering mountain-tops of Belœil, Yamaska, Chambly, Rougemont, Mount Johnson and Boucherville. Passing on through the flourishing counties of Shefford and Brome the country becomes gradually more and more undulating until it finally assumes a mountainous character toward the shores of Lake Memphremagog and the river St. Francis. The whole of this tract is exceedingly fertile; the eye of the traveller is everywhere delighted with rich, luxuriant fields and valleys, neat homesteads, beautiful cottages and flourishing villages.

"The features of the country through which the St. Francis river flows are varied and interesting. As we follow its course of about one hundred miles in length from its rise in lake St. Francis to its confluence with the St. Lawrence at lake S

Peter, we see here a valley whose fertility contrasts with the forest we have left ; there, in the distance a gently swelling hill, whose easy slope we may ascend without perceiving it. At certain points the level ground is limited to the breadth of the road. On one side we see many feet below us; on the other a high hill above us. Merging from a defile we come in full view of the river, here widened by an island smiling with verdure. On one side we have a farm-house or a little hamlet; on the other a cascade a factory or mill, around which cluster tasteful dwellings and frequently a pretty village church." The numerous tributaries of the St. Lawrence with their minor ramifications often spread out into small and beautiful lakes which give, in association with mountain peaks, great picturesqueness to the scenery. Throughout this vast territory can be found numbers of streams affording power which will in time be turned to profitable account with no great outlay of capital.

Dr. Thomas Rolfe, whose labors on behalf of Canada cannot be over estimated says: "From one hundred miles below Quebec to one hundred miles above Montreal, on both sides of the St Lawrence, there is a most beautiful country, not only cleared, cultivated and thickly settled, but actually adorned with a continuous line of villages on either bank. There is not a point from which the spire of a spacious and elegant parish church does not greet the eye, and frequently there are many to be seen in the same view. The eastern portion of Canada, and especially the Eastern Townships, contains the greatest variety of beautiful scenery, mountain, rock, hill, dale, plain, forest, waterfall, lake and river."

LAKES AND RIVERS.

MEMPHREMAGOG.—Length 30 miles, breadth from two to six miles, height above sea level 634 feet. The "Geneva of Canada," as it has been appropriately called, is one of the most picturesque inland lakes in Canada, well deserving its Indian name *Mepmow-bouque*, "Beautiful water." About one-third of it lies south of the Province line. The scenery of this lake has been compared with that of Lake George, which it resembles in conformation. On the west shore are high mountains extending nearly the whole length of the lake, the most prominent of which is Owl's Head, 2750 feet above the level of the sea. The view from the summit of this mountain includes the whole length of the lake from Magog to Newport. Mount Elephantis is another lofty peak of the same range. A magnificent view of the lake and surrounding points of interest can be had from the *Mountain House*, about half a mile from the base of Owl's Head. The east shores of the lake are fertile and sparsely populated; here are the summer residences of several of the prominent citizens of Montreal. "Belmere" the seat of Sir Hugh Allan, containing one hundred acres, and the cottages of Judge Day and Mr. Molson are models of architectural beauty.

Our space will not permit us to notice all the places and objects of interest connected with this lovely sheet of water. The tourist will find every charm of variety. We can only mention Skinner's Cave and Rock, a narrow den about 30 feet deep—so named from Captain Uriah Skinner, the "bold smuggler of Magog" who lived here many years ago, and, evading pursuit, died here—balance rock, a huge mass of granite balanced close to the water's edge, the numerous beautiful islands, the villages nest-

ling in brilliant foliage, and the thousand other charms which diversify the picture. The lake empties into the St Francis at Sherbrooke by the river Magog.

The Steamer "Lady of the Lake," Captain G. W. Fogg, makes two daily trips between Newport and Magog, making the run in about three hours. It is almost superfluous to add that this lake is one of the most fashionable and delightful summer resorts in the province.

LAKE ST. FRANCIS—A lake in Wolfe county, the source of the river of the same name is about 40 miles north east of Sherbrooke. It is fifteen miles long and from one to four miles wide, and is surrounded on every side by lofty wood-covered hills, some of which contain iron ore.

LAKE MASSAWIPPI—A beautiful sheet of water, in the township of Hatley, about 9 miles in length and from 1 to 3 in breadth. It is remarkable for its great depth which in some places reaches 60 and even 90 feet. Its shores are richly wooded and its scenery varied and beautiful, and it abounds in different kinds of fish, such as maskinonge, sturgeon, pike, lake trout, shad, bass, &c. The Massawippi Valley railway skirts the eastern shore. Its outlet is by the Massawippi river into the St. Francis at Lennoxville.

LAKE MEGANTIC—About 40 miles south east of Sherbrooke, near the boundary line between Canada and Maine; length about 16 miles; average breadth, 2 miles. The lake abounds in fish, and the adjoining country in game, making this locality a favorite resort for sportsmen and tourists. It is the source of the Chaudière river, and is memorable as being the route by which Arnold in 1775 accomplished his hazardous march through the wilderness, up the Kennebec and Arnold rivers, through the lake and down the Chaudière to Quebec.

BROME LAKE.—This is one of the most beautiful of the waters of the Townships. It is of a circular form, its circumference being about 9 miles. It is famous for its black bass, and is a favorite sporting locality. The village of Knowlton is situated at the head of this lake.

BROMPTON LAKE—In the townships of Brompton, Orford and Stukely—is about 8 miles long and 3 wide. It contains several islands, and on the west side the mountains rise to a great height.

LAKE AYLMER.—This lake is an enlargement of the St. Francis river, and is 8 miles long by 3 in breadth. It divides the townships of Garthby and Stratford.

MISSISQUOI BAY—A branch of Lake Champlain, is about two miles long and from four to six wide, part of it being in Vermont. The village of Philipsburg is situated on the east shore. Pike river is its principal tributary.

In addition to the above are several smaller lakes, many of them being gems of beauty, and almost all abounding in fish, among them are Orford Lake, at the base of Orford Mountain, Lakes Weedon and Louisa, on the St. Francis, and Nicolet with its numerous small islands.

RIVERS.

* **THE RICHELIEU, CHAMBLY OR ST. JOHN**, leaves Lake Champlain at its northern extremity, and, after a northern course of about 80 miles, empties into the St. Law-

Sole Agent.

rence at Lake St. Peter. At its mouth is the town of Sorel. The banks of this river are generally from six to eight feet high and well cultivated. Near its center it expands into Chambly basin, of a circular form, and about a mile and a half in diameter; from this basin the river gradually increases in width as far as St. Johns, where there is ship navigation to Lake Champlain. The Chambly canal extends from St. Johns to Chambly, about eleven and a half miles, and was made to overcome the interruptions in the channel of the Richelieu. This river forms an important part of the navigation between the St. Lawrence and Hudson.

THE ST. FRANCIS rises in Lake St. Francis, and takes a south-westerly course. Bull's Head fall occurs about seven miles from its source, and just below this the river expands into Lake Aylmer, near which point is the mouth of Black Creek, the head waters of which are only about a mile from others which flow in another direction into the Nicolet and Becancour; about a mile lower down the river again expands into Lake Louisa and three miles further receives the waters of the Salmon River. A succession of rapids known as the "Two Miles Fall" occurs when the river enters Dudswell, thence passing through Westbury, Eaton and Ascot, and receiving the waters of the Massawippi at Lennoxville, it turns to the north west and is joined at Sherbrooke by the Magog, and thence through a highly picturesque country, till it enters the St. Lawrence at Lake St. Peter, about sixty-five miles below Montreal. The Indian village of St. Francis is very near its mouth.

This river drains nearly the whole district. Its chief tributaries are the Salmon, meeting it at Weedon, and the Eaton at Westbury. Moe's River and another Salmon rise in Hereford and Clifton, pass through Compton and Ascot, and, uniting, flow into the Massawippi and the Coaticook, and, passing through Barford, Barnston, Compton and Ascot, also augment the volume of the Francis.

THE MAGOG RIVER. The outlet of Lake Memphremagog is about seventeen miles long, and varies from less than one mile to three miles in breadth, the course of this stream is very rapid, falling several hundred feet from its source to its mouth, thus giving Sherbrooke its unrivalled water-power. About its middle it expands into "Little Magog Lake." This stream supplies the best fly fishing in the country trout of from three to five pounds weight being common. A special act closes this river to fishermen from the 25th of June to the 15th of October.

THE CHAUDIERE RIVER has its source in Lake Megantic, and after a north-west course of 102 miles joins the St Lawrence 7 miles above Quebec. Its breadth varies from 400 to 600 yards. Near its mouth are the celebrated Chaudière Falls, upwards of 120 feet high, the breadth of the river at the point being about 130 yards.

The course of this river is frequently interrupted by small islands covered with timber, and the banks are generally high and precipitous. Its principal tributaries are the Gilbert, Sampson, Du Loup and Famine.

THE NICOLET RIVER rises in the lake of the same name, in the county of Wolfe. Its length is about sixty miles. It is a rapid stream, and is navigable to some distance above the village of Nicolet at its mouth on Lake St Peter.

THE YAMASKA OR RIVIERE DES SAVANNAS. This beautiful river has its source in Brome Lake, and is formed by two branches, each of which receives several small tributaries, uniting in the parish of West Farnham whence, passing through the County

of Rouville, and forming the boundary between St Hyacinthe and Bagot, winds through Yamaska and empties into Lake St. Peter, between the Richelieu and St. Francis. Its length is about 100 miles. During its course it runs parallel with the Richelieu, only about 12 miles distant, forming the lovely valley known by the name of the Two Rivers. This valley possesses immense water-power, the greater part of which is not yet utilized, West Farnham alone possessing sixty feet fall within its limits; flour and saw mills, woollen factories, cheese factories, and other branches of industry have been established and are increasing in number.

MOUNTAINS.

THE NOTRE-DAME MOUNTAINS—A continuation of the Green Mountains of Vermont, enter the Province at the Gaspé peninsula, with elevations of 4000 feet, and extending, with diminished altitude, towards the west to a point whence a spur branches southward to the White Mountains. The main range passing Lake Memphremagog on the western shore takes a southern deflection, and meets the Green Mountains, thus forming a part of the great Alleghany system.

Geologists affirm that the isolated greenstone peaks of this range: Montreal Mountain, Belœil, Rougemont, Boucherville, Chambly, Yamaska and Shefford Mountain, are thus prominent because in resisting the elements they have been more successful than the softer strata by which they were formerly surrounded and which, gradually subsiding as it were, forms the prairie-like surface of the adjacent country.

Southward from Dunham and Frelighsburgh the mountains attain a great elevation and, from the summit of the "Pinnacle," the highest peak, a magnificent panorama meets the view of the observer, the whole expanse of country for many miles, with its varied succession of attractive scenes lies before him: Lake Champlain seems at his feet, though fifteen miles distant, with the Adirondaeks, Mount Marcy towering over all, in the back-ground; the White Mountains show the summits of Washington and Lafayette; the beautiful valleys of the St. Francis and Missisquoi; and on a clear day the city of Montreal at a distance of fifty miles is plainly visible, for the spectator is a thousand feet higher than the summit of Montreal mountain.

MINERALS.

The following minerals are found in greater or lesser abundance in the Townships: Gold from the boundary Line as far as Quebec, the rocks of the Notre-Dame Mountains, extensive fields on the Chaudière and St. Francis, and especially in the township of Ditton, where mines have been profitably worked for several years. The numerous small streams in the vicinity show indications, and future researches will, without doubt, discover an extensive auriferous region here. Silver, combined with lead, Iron in the form of slates, consisting in large part of red hematite—large deposits of this metal are found in Brome, Sutton, St. Armand and Drummond. Iron pyrites in great

abundance and valuable in the manufacture of copperas and as a source of sulphur for the fabrication of sulphuric acid or oil of vitriol. Chromic iron is also found in considerable quantities; Copper, found principally in interstratified masses, is abundantly dispersed over a large territory. The Huntington mines in Bolton and the Capelton mines in the neighborhood of Lennoxville, are profitably worked, and several others, are awaiting development.

In addition to these, titanium, antimony, asbestos, excellent building stone, limestone, quartz, ochres, roofing slates of the best quality, brick clay, peat, soapstone and phosphate of lime are found in several districts.

EARLY SETTLEMENT, COURTS, PARLIAMENTARY REPRESENTATION, &c.

Previous to the year 1791 this part of the country was a wilderness, except that along the borders, there were small settlements few and far between. To encourage settlement the government granted lands on certain conditions to all who would locate them. A number of persons were united into a company called *Associates*, one of whom acted as agent for the transaction of business between the company and the government. The number of these associates varied as the extent of land required, the ratio being forty for a tract of ten miles square. Actual settlement was essential to the procuring of "letters patent." Two sevenths of the land were reserved, one for the crown and the other for the support of the Protestant clergy.

Though intended originally to give every possible advantage to the settler, this plan failed in a very great degree. A spirit of speculation, duplicity and intrigue too often characterized these transactions, favoritism took the place of justice, and many of the original grantees abandoned their possessions, and for a long time the settlement of the country was retarded. The first settlers were United Empire Loyalist and emigrants from New England, an energetic, self-reliant and independant class, inured to hardship, of indomitable courage and fitted by experience to encounter the varied vicissitudes of life in the bush. In a work of this nature it is not possible to enter into details of privation and suffering, destitution, famine and isolation, which were the invariable lot of the pioneers; we hope some resident of the country will preserve these recollections, as well as the untiring perseverance and subsequent triumphs, It is a pity they should be forgotten.

Early in the present century Craig's Road was opened by the military authorities along the upper St. Francis valley, thence across and down the banks of the Chaudière, between the township of Shipton and Quebec, on the road between that city and Boston. This road was sixty miles in length. In 1811 the Governor-General of the colony remarks in his address to the Legislature, speaking of the district. "A large tract of country hitherto little known has been opened up to you; its inhabitants are industrious and intelligent, and they cultivate their lands with a productive energy well calculated to increase the resources of the country.

In the year 1819 the Governor's message remarks: "The seat of the jurisdiction to which the inhabitants scattered over a large tract of newly settled country was sub-

jected, being either at Montreal or Three-Rivers, is so remote as to place justice almost beyond the reach of those who sought it, and is exceedingly expensive and oppressive to those amenable to it." This evil was remedied in 1823, when the "District of St. Francis" was erected and a resident judge appointed. See "*Sherbrooke*."

After much opposition and years of agitation a bill was passed by the Legislature on May 11th, 1829, giving eight members to the townships. The representatives were: for Drummond, F. G. Heriot; Sherbrooke, C. F. H. Goodhue and Samuel Brooks; Missisquoi, R. Taylor and S. Baker; Shefford, P. Knowlton; and for Stanstead, T. Baxter and E. Peek. In 1830 registry offices were established.

COURTS, MUNICIPAL OFFICERS, GENERAL AND LOCAL STATISTICS, &c., OF THE DISTRICT OF BEDFORD.

THE DISTRICT OF BEDFORD—Erected in the year 1857, includes the counties of Brome, Missisquoi and Shefford. The court house, jail and public offices are located at Nelsonville in the township of Dunham.

DISTRICT OFFICERS.—Hon. Christopher Duncan, *Judge*; P. Cowan, *Sheriff*; W. S. Foster, *District Magistrate*; Fred. T. Hall, *Prothonotary, Clerk of the Crown and Peace*; H. B. Martin, *Deputy Do*; G. C. V. Buchanan, Q.C., *Crown prosecutor*; Horace D. Pickel, *High Constable*.

TERMS OF COURT.

SUPERIOR COURT.—Shefford, Missisquoi and Brome, held at Nelsonville from the 10th to the 15th of February, 23rd to 28th April, and 10th to 15th October.

CIRCUIT COURT.—Bedford Circuit, held at Nelsonville, 5th to 9th February, 18th to 22nd April, and 5th to 9th October.

BROME COUNTY.—Knowlton, 26th to 30th January, 10th to 14th April, and 26th to 30th September. J. Lefebvre, *clerk*.

SHEFFORD COUNTY.—Waterloo, 21st to 25th January, 5th to 9th April, and 21st to 25th September. Vespasian Nutting, *clerk*.

MISSISQUOI COUNTY.—Bedford, 1st to 3rd February, 15th to 17th April, and 1st to 3rd October. T. Capsey, *clerk*.

BROME COUNTY.—Knowlton, *chef lieu*, officers, 1874.—N. Pettes, M. P., *Warden*; A. H. Chandler, *Secretary-Treasurer*; John Macfarlane, *Auditor*; Robert Allen and Eugène A. Dyer, *Co-Delegates*; Hiram S. Foster, *Registrar*.

Total.	2,933,311	45,031	55,392	4,688	105,111	55,726	49,385

Of the English-speaking population those of English birth or descent are the most numerous, amounting to 30,000, being greatest in Brome, Stanstead, Missisquoi and Sherbrooke. The Irish number 15,494, being greatest in Shefford, Stanstead, Missisquoi, Brome and Compton. The Scotch number 9888 being greatest in Compton, Brome, Stanstead and Missisquoi.

The French population surpasses the English-speaking in the counties of Shefford and Wolfe. In all the other counties the latter is in excess.

* The total population of the Province of Quebec according to the census of 1871, is thus divided: French 929,817; Irish 123,487 English and Welsh 70,105; Scotch 49,458; German and Swiss 8,130. Other nationalities (including 6,988 Indians) 10,522. Total 1,191,516. By Religion, Catholics 1,019,850; Church of England 62,449; Wesleyans 36,737; Methodists 4,364; Presbyterians 46,165; Baptists 5,301; Congregationalists 5,240. Other denominations 21,411.

EARLY SETTLEMENTS.

This summary is necessarily brief. For an interesting and detailed account we refer the reader to "the History of the Eastern Townships;" by Mrs. C. M. Day, and to Thomas' "Contributions to the History of the Eastern Townships." Excellent works, which will well repay perusal, and to which we are greatly indebted for the following sketch :

DISTRICT OF BEDFORD.

EARLY SETTLEMENTS, NAMES OF FIRST SETTLERS, ETC.

BROME COUNTY.

This county includes the townships of Brome, Bolton, East Farnham, Potton and Sutton. Knowlton in Sutton is the *chef-lieu*.

BROME TOWNSHIP.

This township was erected and granted to Asa Porter and thirty-two Associates, August 16, 1797, but, through some defect in the title, little was done towards settlement, till the year 1827. The first settlers were two brothers named Henry and Ebenezer Collins, who came from the States and located in West Brome; they were followed in 1798 by Isaiah Sweet. In 1802 a grist mill was built on the south branch of the Yamaska near the south-western corner of the township, and in 1804 the first saw-mill was constructed at *Brome Corner*, and in 1799 Valentine Smith and Ephraim Stone settled in the same neighborhood. A tavern was opened here in 1805, a store three years later, a school was opened in 1810, and the postoffice established in 1831.

In 1800 settlements were made near *Knowlton*, but no location on the site of the village till about 1815; a saw-mill was built here in 1821, and a school house in 1822. In 1834 Col. P. Knowlton arrived here and a store and grist mill were erected soon after. The postoffice was opened in 1851. A few small settlements were made near the outlet of Brome Lake as early as 1803, the mills were built in 1832, and the post-office, Brome, was opened in 1858.

BOLTON TOWNSHIP.

This township was erected and granted August 18th, 1797, to Nicholas Austin and fifty-three Associates, but differences and disputes arose, owing to some oversight in the division of the land, resulting in litigation which greatly retarded settlement, many parties locating on lots not appropriated to them, others sold their rights and left the place, and a good deal of the land fell into the hands of speculators, a class whose selfishness has become proverbial.

In 1795 Nicholas Austin and his family, bringing with him several servant-men, came here from New Hampshire, and made the first location in the east part of the

township on the west shore of the lake. Among others in this neighborhood who came soon after were Jeremiah Page and Simon D. Wadleigh, the latter of whom kept the ferry for many years. Mark Randall, Alexander Thomson, who built mills, and Daniel Taylor, of Danville, Vt., and James Taylor, a Scotchman, settled in the vicinity of Peaslee's Corners in 1797, Richard Adams, an Irishman—who was a magistrate for many years, performed the ceremony of marriage here, (which marriages were, like others under similar circumstances, subsequently legalised by the government) and Mark Spinney, were notable men in these early days. In West Bolton the earliest settlers, in 1809, were Jonathan Duboyce, David Blunt and John Brill. Settlements in South Bolton began in 1815 when Brooks Davis located here. Nathan Hanson soon after built a tavern. Joshua Peevy and Richard Holland, who kept a public house in Georgeville, and kept afterwards the ferry between Bolton and Stanstead, also settled here. A school was opened in South Bolton, at Rixford's Corners in 1852, and about three miles from this point Joseph Buzzell built a saw-mill in 1808.

TOWNSHIP OF EAST FARNHAM.

The "Warrant of Survey" for this township was issued August 27th, 1798, and it was granted in part to Samuel Gale, Oliver, Samuel, Robert, Richard and David Wells, Nathaniel and Reuben Church, Micah Townsend, Ephraim Nash, Abraham, Cornelius and Jacob Glen Cuyler, James and William Sutherland, Amaziah Howe, Alexander Schut, John Goudy, jun., John Mebris, William Matthews, John Jones, John Steele, and Charles St. Ours. Colonel Samuel Wells of Brattleboro, Vt., a noted U. E. Loyalist, was subjected, on account of his political leanings, and uncompromising loyalty to British interests, to great pecuniary losses, and after his death his children received in acknowledgement of his services a grant of 1200 acres each in the Eastern part of the Township of East Farnham, which lands were in great part located by his heirs and family connections. The vicinity of Allen's Corners was settled in 1820. Josiah Allen, Henry Jewell, John Hoskin, Abner Bede, Seth Barnam, and Levi Vincent, were the earliest settlers.

Captain Clark Hall, Charles Kathan and Gideon Bull, were also among the early pioneers.

TOWNSHIP OF POTTON.

This township was erected, and a part consisting of 8400 acres granted to Captain Laughlin McLean of the 84th regiment, October 31st, 1797, and on the 7th July, 1803, further grants were made to Henry Able and eighty-eight others. The first settler was Moses Eldridge, from Peachum, Vt., who was soon followed by others, many of whom were U. E. Loyalists; prominent among these was Colonel Henry Ruter from New York, who came here in 1799 and built the first grist and saw mills in the township; he sold the land where Mansonville stands to Joseph Chandler and John Lewis; this location was purchased in 1811 by Robert Manson, and mills were erected. In 1798 settlements were made at Meigs' Corners by Jonathan Herth and Jacob Garland.

TOWNSHIP OF SUTTON;

The warrant of survey for this township was granted March 29th, 1802, to a company of 170 U. E. Loyalists, the greater number of whom had served in the British army during the revolutionary war; many of them sold their claims to other parties.

As early as 1792 Thomas Spencer and Alexander Griggs, with their families and such household goods as could be conveyed on horseback through the woods, made the first settlement in Sutton near the present site of Abercorn. In 1797 a Baptist preacher, William Marsh, settled near Sutton Flats. William Huntington built here soon after and, in 1799, the celebrated Lorenzo Dow, and other Methodist preachers, founded religious societies. Joseph Sowles and John Smith about 1799 settled in North-Sutton, and in the same year James Miller and his son-in-law, a man named Jones, settled in Glen Sutton.

MISSISQUOI COUNTY.

This county includes the townships of Dunham, Farnham West and Stanbridge and the Seigniories of St. Armand, Foucault and Noyau. Bedford in Stanbridge is the *chef-lieu*.

TOWNSHIP OF DUNHAM.

The warrant of survey of this township was issued August 27th, 1793, and in the following year the township was granted to Thomas Dunn and thirty-three Associates. This township was the first erected in Lower Canada.

In 1793 Andrew Ten Eyck from New Jersey, a U. E. Loyalist, and the forerunner of several others of the same class, made the first opening in the south-western part of the tract. Jonathan Hart located in the south in 1795. In 1799 Joseph Baker and his family, George Shufelt, Henry Church, John Church, Isaac Gleason and Capt. Jacob Ruiter settled here. About the year 1795 Jacob Heliker, Amos, Gideon and Samuel Hawley, Abraham Lampman and John Wagner settled on the site of the Village of Dunham. Ox-carts, the introduction of which marked the commencement of a new era, were first used in 1802. In the latter part of the century Capt. Ruiter founded the settlement of Nelsonville, and erected mills on the Yamaska. Solomon Squire made the first settlement in East Dunham in 1797.

FARNHAM WEST.

The warrant for the survey of this township was issued August 27th, 1798, and soon after it was granted in part to the heirs of Col. Samuel Wells and thirteen associates; another extensive grant was made to George Allsopp for government service. William Cook, from Rhode Island, built a saw mill here in 1817, and, about the same time, Isaac Gibbs, John Higgins and Capt. Buck made settlements. In 1827 John Bowker settled on the site of West Farnham, being preceded by the proprietors of three saw log cabins, the germ of the present thriving village. This township possesses first-class water-power.

TOWNSHIP OF STANBRIDGE.

This township was erected September 1st, 1801, and granted to Hugh Finlay and associates, very few of whom fulfilled the conditions of actual settlement and, consequently, many tracts reverted to the crown. The first locations were made in 1797 on the site of Stanbridge village by Nathan Andrews and Caleb Tree who followed the next year. In 1800 William Wilson, who came from Waterbury, Vt., built grist and saw mills and erected the first frame house, and on the same site, Ebenezer Martin built the first tannery. Ebenezer Hart opened the first store in 1810, and, in March, 1820, the dignity of the village was settled beyond cavil by the erection of a wool, carding and cloth-dressing establishment by John Baker, formerly of Barre, Vt. Large tracts in this township belonged at an early period to the Des Rivières family. In 1841 a saw mill was built here, and the year after a grist mill. In 1845 a Roman Catholic church was built, and in 1863 a post office, Malmaison, was established.

ST. ARMAND.

On the 23rd of September, 1748, a tract of land six leagues in length along the Missisquoi river and Lake Champlain, by three leagues in width from north to south, was granted by the French Governor La Gallissonnière, and the Intendent Bigot, "In fief and seigniory, with all the rights and privileges appertaining to the Sieur Nicholas René Lavesseur. This grant was ratified by the King of France in 1749.

After the cession of Canada this tract became the property of the Hon. Thomas Dunn, afterwards judge of the Queen's Bench at Quebec and was from him called "Dunn's Patent." In the settlement of the boundary line, however, nearly two-thirds of the tract was found to be in the territory of the United States. Subsequently a tract four miles square was annexed to the east end of the seigniory. These lands were disposed of in lots by deeds, the possessors paying certain sums in a specified time and also a yearly rent of one shilling for every hundred acres, by which the lands were released from every other seigniorial claim.

The first settlers were a party of U. E. Loyalists, most of whom had served in the British army in the Revolutionary war. They arrived in the autumn of 1784 and located near Missisquoi Bay. Many of them were of German origin and left their homes on the Hudson to share the fortunes of the royal cause. The names of the first party, almost all of whom settled in this and other sections of the township, were John Ruitter, Gilbert and Alexander Hyatt, Harmonas and Conrad Best, Alexander Taylor, Christjohn Wehr, Christjohn and Frederick Hayner, Peter Miller, James Anderson, Adam Deal, John Saxe, Philip Luke, Jacob Barr, Garret Sixby, Lewi Streit, Joseph Smith and John Mock. In 1800 John Ruitter and Alexander Taylor opened a store on the north-east shore of the bay, which locality soon became the centre of business for the settlement for many miles around.

The names of Rev C. C. Cotton, of the English church, who came here in 1804, and Rev Dr Stewart, subsequently Bishop of Quebec, who arrived in 1810 as a missionary sent by the "Society for the Propagation of the Gospel in Foreign Parts, are intimately connected with the history, progress and prosperity of this section.

In 1834 the Seigniorv was divided into the Ecclesiastical parishes of St Armand East and St Armand West.

As early as 1789, Sampson Jenne, who had served in the British army, settled near the site of Frelighsburgh.

FOUCAULT AND NOYAN.

The seigniorv of Foucault, as originally granted by M. de Beauharnois, April 3rd, 1733, to the Sieur Foucault, fronted on the Chambly river, now the Richelieu, and extended from the boundary of the Seigniorv of Noyan, two leagues along the river and lake, and in depth to Missisquoi Bay. After the cession of Canada it became the property of General John Caldwell and was known as "Caldwell's Manor." After the determination of the boundary line the greater part of this tract was found to be south of 45°; and this Seigniorv now consists of a narrow strip of land about three miles in width and extends along the boundary from the Richelieu on the west to the Bay on the east.

Noyan was granted April 2nd, 1733, to the Sieur Chavoy de Noyan, a captain of marines, and extended two leagues along the Richelieu by three in depth; after the cession it became the property of Gabriel Christie, and was known as "Christie's Manor." In common with Foucault this tract was first settled by U. E. Loyalists; among the earliest were Isaac Sells, Peter Hawley, Col Henry Ruiter, afterwards of Potton, and families named Derriek and Young.

SHEFFORD COUNTY.

This county contains the townships of Ely, Granby, Milton, Roxton, Shefford and Stukely. Waterloo, in Shefford, is the *chef lieu*.

TOWNSHIP OF ELY.

This township was erected November 13th, 1802, and one-fourth part granted to Amos Lay, the younger, and nine associates. Locations were made early in this century. Among the earlier names were Amos Lay, Nathan Darby, Silas and William Woodard, Daniel Oliver, Jewett Putney, Isaac Westover, Peter Cramer, Andrew Auringer, and persons named Wright, Collins, Wales and Trenholm. In 1830 North Ely was first settled by Ira Bartlett, of Bethel, Vt. For three years this family lived at a distance of ten miles from neighbors. In 1864 the township was divided into North Ely and South Ely for municipal purposes.

TOWNSHIP OF GRANBY.

This township was erected January 8th, 1803, and granted to the officers and privates of the Canadian Militia, and to the widows and orphans of such as were deceased. The grantees were ninety-five in number.

In 1809 John Spalding settled near the site of the village of Granby, and Simon Door came about the same time. Several families named Horner settled the site of the village, and Jonathan Herriek near it in 1812. In 1825 Richard Frost came to reside here and in 1826 the postoffice was established.

TOWNSHIP OF MILTON.

This township was erected January 29th, 1803, and subsequently granted to officers and men of the Canadian militia and the widows and orphans of such as were deceased. The grantees were eighty-one in number. With the exception of the neighborhood of Milton Corners the inhabitants are all French Canadians. It is divided into two municipalities. St. Cecile de Milton and St. Valerien de Milton.

TOWNSHIP OF ROXTON.

Erected January 8th, 1803, and granted in part to the widow and children of the late John Ruiter and twenty six others, but few permanent settlements were made till about the year 1834 when Rufus Kempton, Alenson Ball, A. Sanborn, Benjamin Kilborne and James Savage located the southern part. The majority of the inhabitants are French Canadians.

TOWNSHIP OF SHEFFORD.

Erected Febuary 10th, 1801, and granted in part to captain John Savage and his associates. John Savage the younger, John, son of Edward Savage and Peter Savage, Abraham, Isaac and Solomon Kinneson, Isaac, elder and younger, and Elijah Lawrence, William, John, Samuel and James Bell; John, elder and younger, and Joseph Mock, Ezekiel and Silas Lewis; Malcolm McFarlane, James Berry, Peter Hayes, Henry Powers, Henry Graves, Anthony Cutler, Alexander Douglas, John Katchback, Timothy Hoskins, Thaddeus Tuttle, Hezekiah Wood, Simon Griggs, William Moffatt, John Lockhart Wiseman, John Spalding, Henry Hardy, and John Allen.

The greater number if not all of these associates became actual settlers. The first permanent settler was Capt. Savage, who, in the spring of 1793, pioneered the way with axe and compass and was followed by others who cleared away the under-wood. They settled in the south-western part of the tract. The second settler was named Toner and the next was Isaac Lawrence who came from Hinesburgh, Vt., in 1794. Several families of the name of Frost settled in the south east of the township and Dr. Stephen Sewell Foster, a very prominent man in those days, came here in 1822.

The first mills were built at the outlet of the Waterloo pond previous to the year 1822 by a person named Lewis, and were purchased in that year by Hezekiah Robinson. In 1825 Charles Allen commenced business as a blacksmith and soon after as a founder. Daniel Taylor, Adolphus Bennett, Calvin Richardson, Samuel Brown and Rev. R. Whitwell were also among the early settlers.

TOWNSHIP OF STUKELY.

Erected November 3rd, 1800, and granted in part to Stephen Willard and his associates, twenty-five in number. In 1796 Silas Knowlton and John Whitney from Southern Vermont came here as Pioneer settlers and were soon after followed by several parties from the same locality who settled in the southern part of the township.

In 1836, Henry Lawrence built a saw mill and cooperage on a branch of Black river which may be called the commencement of the settlement of North Stukely.

The township is divided into two municipalities, North Stukely and South Stukely.

DISTRICT OF ST. FRANCIS.

COMPTON COUNTY.

This county includes the townships of Ascot, Auckland, Bury, Compton, Clifton, Clinton, Chesham, Ditton, Eaton, Hampton, Hereford, Lingwick, Marston, Newport, Orford, Westbury Whitton, Winslow, and Woburn.

TOWNSHIP OF ASCOT.

Erected March 5th, 1803. See *Sherbrooke Town*.

TOWNSHIP OF AUCKLAND.

Erected April 3rd, 1806, and granted in part to thirty-five associates. It does not appear however that settlements were begun till a recent period the land reverting again in most part to the Crown. The township is as yet only sparsely inhabited.

TOWNSHIP OF BURY.

Erected March 15th, 1803, and one-fourth granted to Calvin May and nine associates who, failing to comply with the terms of settlement, suffered their lands to revert to the Crown. The township ultimately became the property of the British American Land Company and was settled by English emigrants, under its auspices. This is a good and prosperous township. For further particulars see *Robinson*.

TOWNSHIP OF COMPTON.

Erected August 31st, 1802, and granted to Jesse Pennoyer, Nathaniel Coffin, Joseph Kilborne, and their associates, Samuel and Silas Woodard, Addi and Stephen Vincent, Ebenezer Smith, Samuel and Matthew Hall, John McCarthy, Ephraim Stone, Isaac Farwell, John Lockwood, Page Bull, Oliver Barker, David Jewett, Tyler Spafford, Nathan Lobdell, Abner Eldridge, and Thomas Parker. This is one of the richest agricultural townships in the district.

CLIFTON TOWNSHIP.

Erected July 13th, 1799, and granted July 3rd, 1803, to Charles Blake, Daniel Alexander and Duncan Cameron, and seven others who, however, never settled the land, but probably sold their rights to others. The greater part of the wild land is yet owned by non-residents or the British American Land Company. It is divided into the municipalities of East and West Clifton.

TOWNSHIPS OF CLINTON AND CHESHAM.

These townships are united with Ditton, and Newport for municipal purposes and are very sparsely settled. They are well watered and the soil is of average quality.

TOWNSHIP OF DITTON.

Erected May, 1803, and granted to Minard Harris Yeomans, and sixteen associates, but owing probably to its distance from other settlements, no permanent locations were made till a late period. The land is said to be of excellent quality and gold and other minerals have been found.

TOWNSHIP OF EATON.

Erected Dec. 4th, 1800, and granted in part to Captain Josiah Sawyer and his associates; Israel Orsemus, Timothy and Ward Bailey, John, Levi, and Luther French, Royal Learned, John and Philip Gordon, Abner Osgood, Charles and Royal Cutler, Calvin Rice, Charles Lothrop, Benjamin Bishop, Abthorp Caswell, George Kimpel, William McAllister, Watham and Jabez Baldwin, John Cook, James Lucas, Abner Powis, Jesse Cooper, Samuel Beech, Samuel Hugh, Peter Green Sawyer, Amos Hawley, John Perry and Abel Bennett. Of these associates the greater number located the land now in many instances occupied by their descendants. Other families of an early date named Pope, Hodge, and Alger, soon followed. The township is well settled and is one of the best in the district.

TOWNSHIP OF HAMPDEN.

This township is as yet very sparsely settled. It is united with Marston and Whitton for municipal purposes.

TOWNSHIP OF HEREFORD.

Erected November 6th, 1800, and granted in part to Thomas Rankin and twenty-two associates, few, if any, of whom settled here permanently, probably disposing of their rights to others as a large part of the township is now owned by non-residents. The first settlers were squatters, a needy, hard working race whose only proprietary rights were those of descent from Adam and the emergencies of circumstances. To this class the country is however largely indebted as they generally worked with a will and either purchased in time from the original proprietors, kept their clearances by means either forcible or legitimate or left for new locations and adventures.

TOWNSHIP OF LINGWICK.

Erected March 7th, 1807, and granted in part to William Van-del Venden and nine others, but no permanent settlement was made here till a much more recent date. In 1841, large numbers of emigrants from the island of Lewis, Scotland, came here and several others from the same locality have arrived at subsequent periods. These people form the majority of the population. This township has rapidly increased in wealth and population during the last few years.

TOWNSHIP OF MARSTON.

This township is connected with Hampden and Whitton for municipal purposes and is as yet only thinly settled.

TOWNSHIP OF NEWPORT.

Erected July 1st, 1801, and one fourth part granted to Edmund Heard, and ten associates. The first settlers were the aforesaid Heard and a companion named Sawyer who located at a place now known as Pleasant Hill, in 1793, being twenty-five miles from any neighbors to the south and seventy from the French settlement to the north. About two years after their arrival, they were followed by others and this little community formed a kind of small republic, meeting occasionally for the formation of such regulations as were necessary for the interests of the settlement.

TOWNSHIP OF ORFORD.

Organized May 5th, 1801. See *Sherbrooke*.

TOWNSHIP OF WHITTON.

Erected March 4th, 1863. There are several small lakes and streams in this township. It is united with Marston and Hampden for municipal purposes. The inhabitants are chiefly French Canadians.

TOWNSHIP OF WINSLOW.

Erected April 19th, 1851, and subsequently divided into the municipalities of North and South Winslow, the former of which is chiefly settled by French Canadians and the latter by Scotch Highlanders and islanders, who settled here first in 1852, and who preserve to a considerable extent the Gaelic language. This is a flourishing township.

TOWNSHIP OF WESTBURY.

Erected August 13th, 1804, and granted in part to Henry Caldwell, his heirs and assigns. This is a small and thinly peopled township. The soil is of average quality.

WOBURN.

A tract of land not yet surveyed, and with few, if any, inhabitants. It is bounded on three sides by the boundary line. The land is said to be of average quality, and it is well watered.

RICHMOND COUNTY.

This county includes the townships of Brompton, Cleveland, Melbourne, Shipton, Stoke and Windsor. Richmond is the *chef lieu*.

TOWNSHIP OF WINDSOR.

TOWNSHIP OF BROMPTON.

Erected November 27th, 1801, and in part granted to William Barnard and his associates, thirty-one in number. The first settlements were made near the Little Brompton Falls, as early as 1797, by Ozias Caswell, Jedediah Caswell, Samuel Bishop, Samuel Pearse; and, about two years after a few miles further inland, near Wakefield Hill, several parties of that name and others named Martin Heustin and Harrington took up locations. Other parts of the township were settled by families named Wilcox, Rice, Bishop, Knapp, Terry, Ward, Arms, Child, Stevens, and others whose names we are unable to ascertain.

TOWNSHIP OF CLEVELAND.

This township was originally united with Shipton, but was set off as a distinct municipality in 1855. See *Shipton*.

TOWNSHIP OF MELBOURNE.

Erected April 3rd, 1805, and granted to Henry Caldwell and John Davidson, the elder, and thirty-six associates. The first locations were made in 1799. Extensive and valuable slate quarries have been successfully worked, and rich deposits of several kinds of metals are abundant.

TOWNSHIP OF SHIPTON.

Erected December 4th, 1801, and granted to Elmer Cushing and forty-six associates. Elmer Cushing, the agent, settled on lot sixteen of the fourteenth range, May 24th, 1798, and was soon followed by several others, chiefly from New Hampshire and Vermont. The first mills were built in 1802, and others were erected near the site of Danville in 1812. Among the early settlers were Simeon Flint, John Philbrick, Levi Leet, Rayner Leet, Stephen Olney, Henry Barnard, Hosmer Cleveland, Elijah and Daniel Andrews, Eber and Jared Willey, Captain Joseph Perkins and Ephraim Magoon.

TOWNSHIP OF STOKE.

Erected February 13th, 1802, and granted in part to Jane Cowan and her associates, forty-one in number; but no permanent settlements were made until a much more recent period. The township is as yet only sparsely populated, but it has greatly improved of late years.

TOWNSHIP OF WINDSOR.

Erected July 14th, 1802, and subsequently granted in part to the officers and men of the Canadian Militia and widows and orphans of such as were deceased. The original grantees numbered one hundred and thirty; these people were all French, and the first six of the original fifteen ranges into which the township had been divided were erected into a separate municipality called "St. George de Windsor." In "Eng-

lish Windsor" Captain Josiah Brown located on lot twelve, range twelve, in 1800, and soon after was followed by Peter Frye, Nathaniel Caswell, Nathaniel Webster, Moses Bailey, John Thomas, Ebenezer Moore and others. The first mills were built in 1803, There is a large Scotch settlement in this township.

STANSTEAD COUNTY.

This county consists of the townships of Barnston, Barford, Hatley, Magog and Stanstead, Stanstead Plain is the *chef lieu*.*

TOWNSHIP OF BARNSTON.

Erected January 1st, 1801, and granted in part to Robert Lester and Robert Morrow and eighteen associates, viz., James Shepherd, Joseph Bartlett, senior and junior, Elim Buttolph, William Kent, Clement Drew, Abraham Cochlin, Edward Hogan, Isaac Hellican, Stephen Lampman, John McCarthy, Abraham Kelliker, Jacob Mantle, Joseph Dolph, Matthew Morehouse, Jacob Brown, Ashael Porter, and Jonathan Hart.

Among the earlier settlers were families named Baldwin, Cleveland, Cutting, Wheeler, Cameron, Norton, Hollester, Mosier, Hill and others.

The land of this township varies in quality but is generally good, and the Coaticook river and several smaller stream afford excellent water-power.

TOWNSHIP OF BARFORD.

Incorporated April 15th, 1802, and granted to a [company of fifty-two persons, most of whom came from the New-England States and settled principally along the banks of the Coaticook. Among these early settlers were families named Drew, Child, Straw, Lyman and Hollister. The soil and natural features are the same as those of Barnston.

TOWNSHIP OF HATLEY.

Erected March 25th, 1803, and granted in part to Henry Call, and Captain Ebenezer Hovey and their associates, Job Chadsey, Joseph and Samuel Fish, Joseph, Eli and Joel H. Ives, Samuel, Benjamin and Isaac Rexford, John and Abiel, elder and younger, Abbott, Chauncey and Paul Hitchcock, Reuben and Jonas Martin, Japhet Le Barron, Edmund Boyden, Joseph Davies, Harvey Clarke, Martin Adams, David Chamberlin, Providence Williams, Amasa Merriman, Asa Dagget, Jesse Wadleigh, Reuben Simmons, Peter D. Blanchard, Daniel Green, Enos Mix. Stephen Burch, Chester Hovey and William Taylor.

The first settlements were made in the western part of the tract in 1793. Captain Hovey was a model pioneer and by his energy and perseverance was instrumental in a great degree to the early prosperity of this fine township.

* For an interesting and detailed account of the early settlement, sketches of the pioneers and general history of this county, we refer the reader to a work recently published by B. F. Hubbard, Esq., postmaster of Stanstead Plain.

TOWNSHIP OF MAGOG.

This township was formed of the seven western ranges of Hatley and the nine eastern ranges of Bolton, as these townships were first constituted: The first location was the east side of the outlet, near the lake, by captain Ebenezer Hovey.

TOWNSHIP OF STANSTEAD.

Erected September 27th, 1800, and granted in part to Isaac Ogden, and his associates; Israel Wood, Ephraim and Amos Hawley, Samuel and Thomas Filer, Philip and Conrad Decker, Abraham and Joseph, elder and younger, Friolt, John Curtis, Andrew Patterson, Lyman Brunson, Crosby Towner, Andrew Young, Johnson Taplin, Benoni Grant, Ebenezer Clark, Charles Kilborne, John and George Hogle, Henry Emerick, Abraham Salls, and Alexander Ferguson.

The first permanent location was made at Stanstead Plain by Johnson Taplin in 1796 and soon after captain Moses Copp settled at Copp's Ferry now Georgeville. Among the earlier settlers were Dr. Isaac Whicher and families named Hubbard, Mansur, Rogers, Peasley, Young, Lee, Hibbard, Morrill, Nash, Ruiter, Bodwell and Magover.

COUNTY OF WOLFE.

This county comprises the townships of Dudswell, Ham, South Ham, Stratford, Garthby, St. Camille, Weedon, Wotton and Wolfestown. South Ham is the *chief lieu*.

This county is connected with Richmond for electoral purposes.

TOWNSHIP OF DUDSWELL.

Erected May 13th, 1805, and one fourth granted to the heirs of John Bishop, Naphthali Bishop, Barnabas, Jehiel, Ebenezer, Stephen and Richard Barnum, Thomas Farlan, Champion Smith and David Furness.

John Bishop, the pioneer of Dudswell, a land surveyor and formerly a soldier in the American revolutionary army, removed here from Vermont, with his wife and seven children, in October 1800. He bore a high character for ability, integrity and energy and his death, shortly after, involved the affairs of the infant settlement in great confusion, but his brother Naphthali proved a worthy successor and one-fourth of the tract was secured to the above named associates. There is some excellent land in this township and marble of first class quality is abundant.

TOWNSHIP OF HAM.

Erected July 29th, 1807. This township was not settled for many years after its construction. It is sparsely populated and the majority of its inhabitants are French Canadians. South Ham was for a long time known as "the augmentation of Ham." Craig's road passed directly through it, and in 1830 Israel Rice settled on it. This tract was formed into a distinct municipality in November, 1857. Antimony is found here in considerable quantities.

TOWNSHIPS OF STRATFORD AND GARTHEY.

Stratford was erected April 3rd, 1856, and Garthby May 25th, 1855. These townships are united for municipal purposes.

TOWNSHIP OF ST. CAMILLE.

This is a small township and formerly formed part of Wotton, the greater part of the inhabitants are French Canadians.

TOWNSHIP OF WEEDON.

Erected February 28th, 1822, and granted to a company of ten persons. The inhabitants are almost all French Canadians. Numerous streams, ponds and lakes are found here.

TOWNSHIP OF WOTTON.

Erected June 2nd, 1849.—The population is almost exclusively French Canadian.

TOWNSHIP OF WOLFESTOWN.

Erected August 14th, 1802, and granted to Nicholas Montour and eight associates, but permanent settlements were not made for seven years after. This is the most northern in the county or in the district of St. Francis. As in the adjoining township, the majority of the inhabitants are French Canadians.

ACTON VALE.

VILLAGE OF ACTON.

An incorporated village and station of the Grand Trunk railway, township of Acton, county of Bagot, 22 miles from Richmond Junction, 54 from Montreal, 19 from St. Hyacinthe and 6 from Roxton Falls. This place has progressed with almost unexampled rapidity having more than doubled its population since 1872. A station of the South Eastern Railway will be established here. The celebrated copper mines are being successfully worked and add materially to the importance of the place. Estimated population 2500. Assessed value of real estate \$200,000.

MUNICIPALITY 1874: Chas Rosconi, *Mayor*; C Marchessault, F X Dalpé, Paul Beausoleil, C Lapointe, H Laplante, David Leblanc. Chas E Laroche, *Secretary-Treasurer*.

The following are the principal manufacturers:

THOMAS R JOHNSON, steam saw mill, chiefly building lumber up to 50 feet, 25 hands.

C MARCHESSAULT, carriage factory, 15 hands.

CHAS & F ROSCONI, shingles, laths, lumber, etc, 120 hands. This firm also manufacture all kinds of upper leather, employing 8 hands.

BEDFORD.

The *chef lieu* of Missisquoi county is situated on Pike river, in the township of Stanbridge, 2 miles from Stanbridge Station, 10 from Dunham, 16 from Clarenceville, and 20 from St. Johns. This place possesses excellent water privileges, and among its several manufacturing establishments may be mentioned the tannery of Martin and Alcombrack, Horskin's machine works; Douglas' sash, door and blind factory, two sewing machine factories, axe and scythe works, &c. There are several fine buildings, here; the county buildings of brick are equal to any in the townships. Martin's new hotel of brick, and Eaton's block, are ornaments to the village. There are English and Roman Catholic churches here. The annual exhibitions of the Missisquoi County Agricultural Society are held here. Population about 800.

CAPELTON.

A village and station of the Passumpsic railway, situated at the confluence of the Coaticook and Passumpsic rivers, in the township of Ascot, 7 miles from Sherbrooke and 4 from Lennoxville.

This place owes its importance to its being the seat of the operations of the "Canadian Copper Pyrites and Chemical Co., (Limited) of Glasgow, Scotland." Mining was first begun here about two years ago by George B. Capel and has been only recently improved by the erection of extensive works for the extraction of copper by the Henderson process. The Company employ a large number of operatives and are rapidly extending their works. The Hartford and Acton mines are also the property of this Company, who own besides a large amount of unproductive mining property in the townships.

COATICOOK.

An incorporated village and station of the Grand Trunk Railway, in the township of Barnston, county of Stanstead, 5 miles from Barnston Corners, 18 from Stanstead Plain, 21 from Sherbrooke, 16 from Hereford, 122 from Montreal and 175 from Portland.

The site now occupied by the village originally belonged to Richard and Levi Baldwin, Jonathan Cutting, Nathaniel Pollard and Robert Magill. On the 30th March, 1842, a store was commenced by H Cutting, and this modest structure, 14 x 20 feet, was the first business stand in the place. Previous to this Richard Baldwin, one of the pioneers of the county, built a saw mill here, and a frame dwelling was erected about the same time by Robert Magill. A tavern was soon after built by H Cutting, and in 1844 the premises now occupied as Davis' hotel was completed. A carding mill and store were built by the late M Child, and in 1850 a grist mill by Levi Baldwin. In 1847 a school was opened by Miss R Cleveland, who was succeeded as teacher by the Misses Sarah Brook and Ives. Alpheus Lewis was the first shoemaker here, and John Kennedy the first blacksmith. The post office was opened in 1843, H Cutting, postmaster; the first quarter's receipts reaching the respectable sum of four pence halfpenny, the large proportion of one third being allowed the postmaster, which liberal accession to his fortune we are happy to know was properly appreciated by that gentleman.

On the 18th of July, 1844, the Grand Trunk line was opened here and the growth and prosperity of the village may be said to have begun. The splendid water power afforded by the Coaticook river attracted capitalists, and manufacturing establishments stores and mechanics' shops were soon after established, and the consequent general mercantile and manufacturing interests of the village have advanced with a steadiness and rapidity equal to that of any other in the Province.

Coaticook was incorporated January, 1864, the population then being 470 and the assessed value \$84,000. The first council was composed of the following gentlemen: A T Adams, *Mayor*; Levi Baldwin, Richard Baldwin, H Cutting, A K Fox, Benjamin

COMPTON CENTRE, P. Q.,

COOKSHIRE.

The *cherlieu* of the county of Compton, and a station of the St. Francis, Megantic and International Railway pleasantly situated in the township of Eaton, 16 miles from Sherbrooke and 8 from Robinson-Bury. The land in the vicinity is of excellent quality and is highly cultivated. The Compton Library association have a large and well selected assortment of reading matter. The Circuit court and registry office are located here. The village contains Episcopal, Roman Catholic, and Wesleyan churches, and an academy. The starch factory of Messrs. Pope, the only one in the Province, produces an unequalled article for laundry and culinary purposes. Population about 350.

The Township of Eaton is the wealthiest and most populous in the county. It was first settled about the year 1797. The earliest settlers were the Maynard family, one of which, the first white child born in the township, is now (1874) residing in the village; the Bailey family, the Hawley family, Captain Josiah Sawyer, Capt John C Cook, Alger Labaree, Ebenezer Learned, John Lebourveau, John Pope, Luther and Levi French, David Hodge, Lothrop Cooper, Bradford Harmond, John Jordan, J Osgood, A Caswell, and Jonathan and Ezra Taylor. In 1834, John Pope and Rev Jonathan Taylor erected a store which was leased to one Farnsworth, and the hotel was opened about 1840 by H H French.

DANVILLE.

An incorporated village and station of the Grand Trunk Railway, in the township of Shipton, county of Richmond, 12 miles from Richmond, 87 from Montreal, 36 from Sherbrooke, 86 from Quebec, and 8 from Tingwick. It is the centre of a rich agricultural district, and one of the most prosperous villages in the province. The Nicolet river in the neighborhood supplies good water privileges. There are English, Roman Catholic, Presbyterian, Methodist, Congregational and Adventist churches here, a well conducted academy, a commodious town hall, and several elegant private residences. Population about 800.

Monteith Robert, farmer	Taafe Thomas, woollen manufacturer

FRELIGHSBURG.

An incorporated village, port of entry, and a station of the Montreal, Chambly and Sorel railway, situated on a branch of Pike river, in the parish of St. Armand East, county of Missisquoi, 10 miles from St. Armand station, 8 from Bedford, 13 from Sweetsburg and 31 from St. Johns. The Victoria springs, a favorite resort for invalids and pleasure-seekers are within a mile of the village. In the year 1789, Stephen Jenne, a British soldier, who had served in the revolutionary war, located about two miles east of the site of the village and the next year John Gibson built a log house near the present site of the mill, and a person named Owen soon after built a grist mill which, with other improvements, became the property of two men named Conroy and Yeomans and subsequently of Abram Freligh, from whom the village takes its name. A tavern was opened in 1797, and a store by George Wallace in 1801. Elijah Kemp, who came to the country in 1790, from Springfield, Vermont, and settled here in 1797 was a prominent man in the early days. In 1808 the rev. Dr. C. J. Stewart, afterwards Bishop of Quebec, came to St. Armand as a missionary, and the church was erected the following year; this is, next to the Quebec cathedral, the oldest English church in the Province. The village was incorporated January 1st, 1867. Population about 400.

MUNICIPALITY, 1874, Ira A Smith, *Mayor*; Joseph Landsberg, Olivier Benoit, E Rowell, M D, E E Spencer, H H Clark, H H Carpenter, G R Marvin, *Secretary-Treasurer*.

FRELIGHTSBURGH, P. Q.

FROST VILLAGE.

A village in the township and county of Shefford, 22½ miles from Waterloo, 6½ from Emerson Junction and 7½ from Knowlton. In the year 1794 Aaron, Jeremiah and Richard Frost settled this locality and gave their name to the village. At an early period Samuel Willard opened a store here and others were subsequently established by David and Alonzo Wood and Lyman & Childs. Dr Stephen S Foster settled here in 1822. Capt Alvin Williams was also one of the early settlers. Several years ago this was a commercial centre for many miles, but since the establishment of a railway depot at Waterloo little business is done. Population about 100.

 FULFORD.

A village in the township and county of Brome, 4 miles from Waterloo and 8 from Knowlton. A branch of the Yamaska river and Brome lake provides good water power. There are extensive grist and saw mills here and a tannery containing one hundred vats and employing twenty hands. There are English and Wesleyan churches in the village. Population about 200. In the year 1830 the immediate vicinity of the village was purchased by Jacob Travers, Enoch Sargent and Jacob Whiting, all of whom came from Dunham, but the site of the village was a forest until 1856, when Oscar George built a saw mill and dwelling here in the following year. The house was occupied by William Cummings who thus became the first actual settler in the place. In 1853 Francis England built a tannery and in 1861 L. Orcutt a rake and furniture factory. The post office was established in 1864.

GEORGEVILLE.

A village and port of entry on the east shore of Lake Memphremagog, township and county of Stanstead, district of St Francis, 10 miles from Magog, and 13 from Stanstead Plain. The beautiful lake and vicinity, abounding in varied and picturesque scenery, make this an attractive resort for summer tourists. The steamer "Lady of the Lake" Capt G. W. Fogg, calls here daily on her trip between Magog and Newport, Vt. There are English and Methodist churches in the village and several beautiful private residences, occupied during summer by Montreal families, among them Belmere, the property of Sir Hugh Alan. Population about 250.

GOULD.

A thriving village in the township of Lingwick county of Compton. The village was first settled in 1837 by John Randall and Henry Cowan and subsequently by John Baxter, James Ross, John Noble and others. There are two churches in the village, Canada Presbyterian and Episcopal and a model and eight district schools in the neighborhood. This township of Lingwick possesses excellent and numerous water powers from the Salmon, Albion and Maitland rivers and several other less important streams. Population of the village about 200.

 KINGSBURY, P.Q.

KNOWLTON.

The *chef-lieu* of Brome county and a station of the Drummond and Arl abaska branch of the South Eastern railway, is pleasantly situated about half a mile from Brome lake.

About the year 1815 the village site was first settled, though locations were made in the vicinity as early as 1800. Colonel P Knowlton came here in 1834, and a store and grist mill were erected soon after. The postoffice was opened in 1851.

The present prosperity of the place will compare favorably with that of any other village in the townships. New and extensive steam works, for the manufacture of furniture, and general wood work, giving employment to about fifty workmen, have been recently erected by Mr Joseph Lefebvre, and are a great acquisition to the village. There is a home here for emigrant children, where they are properly cared for until employment is obtained. The county buildings are situated here. The Brome County Agricultural Society holds its annual exhibitions here. Distant from Waterloo, 11 miles, from Sweetsburg 10, and from Mansonville 18. Population about 600.

LACOLLE.

A village, port of entry and station of the Montreal, St. John's and Rouse's Point railway, in the parish of St. Bernard de Lacolle, district of Iberville, 5 miles from the Province line, 8 from Rouse's Point, 18 from St. John's, and 38 from Montreal. Population about 800.

In the year 1812 the battle of Lacolle Mills was fought between the British and Americans, the latter, under General Dearborn, were defeated and driven back; they again in the same year attacked an Indian encampment, but, in the darkness of night the wily savages retreated, and their foes in the confusion fired on each other and several were killed. In 1838 two encounters between the rebels and loyalists took place here, to the disadvantage of the former.

BOARD

LAKE MEGANTIC.

A settlement at the foot of Lake Megantic, in the townships of Marston and Whitton, 19 miles from Stornoway, 39 from Robinson, 168 from Montreal, and 60 from Lennoxville. The settlers are almost all Scotch Highlanders who came here in 1856. The land is of excellent quality, and the neighborhood a favorite resort for sportsmen, the lake abounding with fish and the forests with game. The government has opened excellent roads through this section, and a little judicious exertion would, doubtless, soon locate here a large number of the thousands of emigrants who annually pass through our country in quest of homes. The population of the settlement already numbers 400, with ample room for ten times that number. The St. Francis, Megantic and International Railway will have a station in the neighborhood of the post office and greatly facilitate settlement. Gold and other minerals are found here, schools and a Presbyterian church are established and the locality is rapidly advancing in wealth and consequent prosperity.

Lake Megantic, P. Q.

LAKE WEEDON.

A post office in the township of Weedon, county of Wolfe, district of St. Francis, 5 miles from Weedon village and 39 from Sherbrooke. The proprietors of the Brompton Mills have built a dam here across the St. Francis, giving a head of sixteen feet available for power. The Sherbrooke, Eastern Townships and Kennebec railway will pass close to this power and the consequent erection of mills, etc., will be the means of opening up this hitherto isolated country.

LINDA.

A village in the township of Ascot, county Compton, 20 miles from Cookshire and 5 from Ascot Corner. Among the first settlers in this neighborhood was a family named Bridge, who came here from Boston in the year 1812. They built a log-house, dug a well, and made a small clearing. One day the man and his wife returning from the woods where they had strayed found their child, about eight years of age, drowned in the well, soon after they left the place. In 1809 the first settlers arrived, Ephraim Barlow, John Gamsby and John Nason. There are good water privileges in this vicinity.

Dunn Bros (John, Michael & Edward) tanners	

MAGOG.

An incorporated village at the outlet of Lake Memphremagog, township of Magog, county of Stanstead, district of St. Francis, 10 miles from Georgeville, 16 from Sherbrooke, 21 from Stanstead Plain and 21 from Waterloo. There are excellent water privileges here, which the Magog Manufacturing Company have in part utilized and intend to erect manufacturing establishments, so as to employ it more efficiently

About four miles from here there is a deposit of first-class building and lime stone. A railway between this place and Sherbrooke is only a question of time, and, with its immense natural advantages; Magog promises to be a place of considerable importance. The steamer "Lady of the Lake" plies daily between this place and Newport, Vt. Stages to Sherbrooke, Waterloo and Ayer's Flat. Population about 600.

MUNICIPALITY, 1874, Ralph Merry, *Mayor*; T L Hoyt, J J Webster, W W Oliver, Patrick Danigan, Calvin Manning, A M Donaldson; E S Mazurette, *secretary*.

MASSAWIPPI.

A village and station of the Connecticut and Passumpsic Rivers and Massawippi Valley railway, township of Hatley, county Stanstead, in the immediate vicinity of the lake of the same name. There is a Union church in the village. A large and commodious hotel, now closed, would afford every accommodation to the travelling public. Distant from Stanstead Plain 12 miles, from Ayers Flat 2½ miles, from Lennoxville 12 miles, from Sherbrooke 18 miles, and from Magog 12 miles. Population about 250.

The site of the village and neighborhood was first settled about the beginning of the present century. Among the early settlers were Paul and Ephraim Hitchcock, Abiel Abbott, William Putney, Simon and Joseph Kezer, captain Ebenezer Hovey, John and Chester Hovey, Jonathan Cox, John Harvey, Jonathan Le Baron, and Jesse Wadleigh.

MELBOURNE.

An incorporated village on the river St Francis, opposite Richmond, with which it is connected by a bridge 740 feet long, built by government in 1848, at a cost of about 7000 dollars. The village consists of two parts, the "Lower" being incorporated. The land in the vicinity is remarkable for its fertility, especially for grazing, and stock-raising is extensively engaged in; copper and slate abound in the township, and the river affords excellent water-power not yet to any great degree utilized. Distant from Richmond Junction, station G T R, about 1 mile and from Montreal 77 miles. Population about 500.

MUNICIPALITY, 1874, L Thomas, *Mayor*; William Beattie, Dugald Campbell George Hamil, Alexander Fraser, Alfred Boisvert. T Mairs, *Secretary-Treasurer*.

A. S. WALBRIDGE,
GENERAL FOUNDER AND MACHINIST.

Manufacturer of Portable & Stationary Steam Engines.

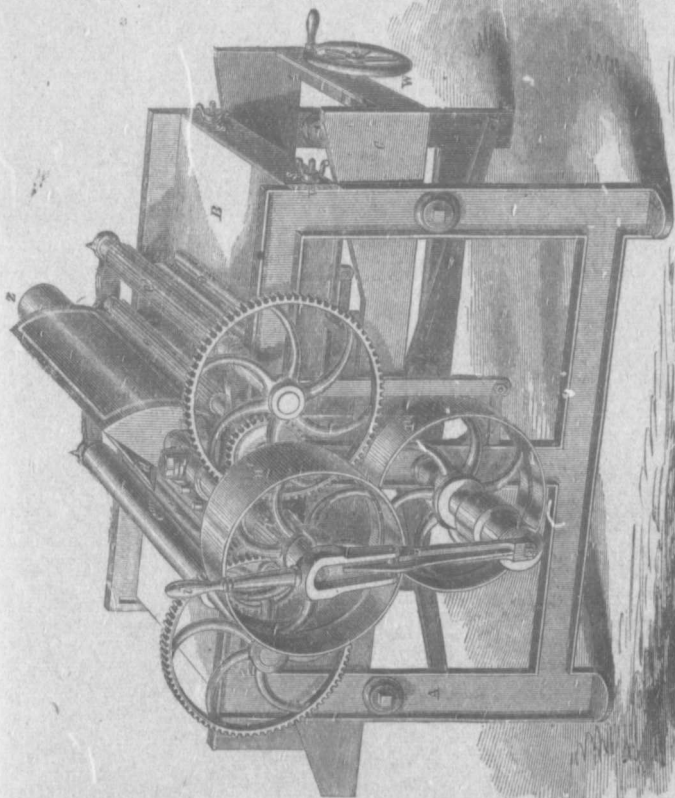

Governors for Engines and Water Wheels, Engine and Hand Lathes, Gear and Bolt Cutters, Drills and Drill Lathes, Iron Planers, Large Circular Saw Mills, Grist & Saw Mill Gearing, Shafing and Pulleys, Bangers with Adjustable Boxes, Jack Screws, Cheese Factory Boilers, Screws & Pipes.

Tenoning, Moulding, Steeking and Planing, Tongue and Grooving Machines, Daniel & Woodworth's Planers,

Mortising Machines, Shingle and Clapboard Machines. Also, the improved Knifen Mower

and SPIRAL, WORM AND SPUR GEARS CUT TO ORDER.

MYSTIC, P. Q.

The above cut represents one of my board planers with upper table removed. With the upper table or lumber can be taken out of wind joints either square or bevel edge and then passed under the table and brought to a thickness such as doors, rails, and panes or for any thing of the sort or such, and for price, durability and convenience cannot be excelled in the country.

University of Bishop's College, Lennoxville.

Professors and other Offices of the College.

L. Leprohon, M.D.; Professor of the Institutes of Medicine, Registrar—F. W. Campbell, M.D., L.R.C.P., Lond.; Professor of Midwifery and the Diseases of Women and Children—E. H. Trenholme, M.D., C.M.; Professor of Chemistry, Practical Chemistry and Microscopy—J. Baker Edwards, M.A., Ph.D.; Professor of Materia Medica and Therapeutics—A. H. Kollmyer, M.D.; Professor of Anatomy—R. A. Kennedy, M.D., C.M.; Professor of Medical Jurisprudence—W. Gardner, M.D., C.M.; Professor of Pathology—G. Wilkins, M.D., M.R.C.S.E.; Professor of Botany and Zoology—J. B. McConnell, M.D.; Demonstrator of Anatomy—J. Perrigo, M.D., M.R.C.S.E.

ADMISSION TO THE COLLEGE.—Candidates for admission into the College shall present testimonials of good conduct, and shall be examined for Matriculation in the following subjects:—Scripture History; Gospel of St. Matthew; Xenophon Anabasis, (one book); Homer Iliad, (one book) Virgil, Æneid (one book) Cicero (one oration).—Arithmetic.—Algebra to end of Simple Equations, Euclid (one book).

Casual students and such as cannot keep continuous residence according to the regulations of the Terms, may with the approval of the Principal attend particular courses of instruction without becoming regular students. Such casual Students passing satisfactorily the same examination required of regular students, may, after a residence of nine Terms, be admitted to the Degree of B.A.

EXPENSES.—The annual expenses of a student resident in College are from \$180 to \$200.

TERMS.—Michaelmas Term—First Saturday in September to Dec. 21st; Lent Term—Third Saturday in January to 1st Saturday in April; Trinity Term—First Saturday in April to last Thursday in June.

VACATIONS.—One month at Christmas, two months at Midsummer. Return tickets, at reduced fares, are issued for the vacations to all points on the Grand Trunk Railway, and on the Passumpsic Railway, as far as White River Junction.

SCHOLARSHIPS.—Two Scholarships, \$200 per annum, founded by the S. P. G.; one annually to the most deserving Bachelor of Arts who is a recognized candidate for Holy Orders.*

One "Mountain Jubilee" Scholarship, \$87 per annum, open to candidates for Holy Orders, aged not less than 18, who are students of the College, or are about to become so.

One "General Nichols' Scholarship of the value of \$80 per annum, open to all Undergraduates.

Eight Divinity Exhibitions of the value of \$150 each, given from year to year by the S. P. G. Two or more "Doctittle" Scholarships will be founded shortly.

PRIZES. (Annual open to Undergraduates).—The Prince of Wales Medal; a Bronze Medal with a Prize in Books or Money, value \$60; two of Dr. Mackie's Prizes, for English and Latin Essays; Prizes are also awarded annually to the best men in their respective years in Classics, Mathematics and French, and the several branches of the Medical course, according to the result of the annual examinations.

RECTOR.—The Rev. C. H. Badgley, M.A., Queen's College, Oxford; Sub-Rector—The Rev. C. E. Willets, M.A., Corpus College, Cambridge; Assistant Masters—H. J. Galton, Esq., M.A., Queen's College, Oxford; A. W. Powell, Esq., B.A., Corpus College, Cambridge; C. L. Worrell, Esq., B.A., Trinity College, Toronto; G. G. Nicolls, Esq., B.A., Oriol College, Oxford; Mr. Edwin Avery, (Bookkeeping and Writing Master); Sergeant Roche, (late H. M. 27th Regt.) Drill Inst.; Bursar—Mr. Edwin Avery; Lady Matron—Mrs Irving; Medical Superintendent—D. T. Robertson, Esq., M.D.; School Terms and Vacations.—the same as the College. See above.

FEES.—One pupil \$220 per annum—Michaelmas Term \$88.00, Lent Term \$66, Trinity Term \$66; Two brothers (not day pupils) each \$210 per annum; Day pupils, \$69 per annum.

The sons of clergymen in the diocese of Quebec and Montreal are admitted free of charge for Tuition, if they reside in the School Boarding House.

Boys over fourteen years of age will be required to produce satisfactory testimonials of good conduct from the Head Master of the last school.

The payments for Board and Tuition must be made *strictly in advance*.

A half Term's notice must be given in writing before the removal of a pupil.

Books and Stationery are supplied in the School at ordinary prices.

BOARDING.—Resident pupils are required to provide themselves with bedding and towels. These articles will, if desired, be furnished by the School, for the whole period of a boy's residence, for a fee of \$15. It is particularly requested that Parents will send their Boys to School with their clothing, linen and other requisites carefully and clearly marked with the name in full.

ADMISSION.—Applications for admission to be made to Rev. the Rector, Bishop's College School Lennoxville.

PIGEON HILL.

A village in the parish of St Armand west, Missisquoi county, situated in the main road between St Armand station and Frelighsburg, 5 miles from each of those places, 11 from Dunham, and 7 from Philipsburg and about 2 miles from the Province line. In June 1866, the Fenians took possession of the place for a short time and did considerable damage in the role of robbers, etc, despoiling cupboards, poultry-yards and, indeed, exhibiting a wonderful disregard of choice,—every thing eatable, not to say drinkable, and portable being annexed with the same degree of nonchalance; when opposition appeared these chivalrous heroes precipitately retreated. The inhabitants were afterwards indemnified by the government.

In 1790 Adam Sager, cleared the first acre in this neighborhood and was followed the next year by his father and his family and others. This place was for some time known as Sagersfield, until the Pigeons, fancying the locality, greatly outnumbered the Sagers, and bestowed their name on the location, which was certainly no improvement. There are Episcopal and Methodist churches in the village. Daily stage. Population about 150.

Garments to Order in the Latest and most Fashionable Styles, and on the most Reasonable Terms.

RICHMOND.

An incorporated village and station of the Grand Trunk railway, pleasantly situated on the St Francis river, township of Cleveland, county of Richmond. The Montreal, Quebec, Portland and Western branches of the G T R centre here, and an extension to the Maine boundary is contemplated. The Missisquoi and Black Rivers Valley railway now (1874) in course of completion will also have a chief depot here, thus giving the village first-class advantages, and materially augmenting its general interests. The Grand Trunk has extensive works here, and, as the water privileges afforded by the river are numerous and excellent, there are good inducements for the establishment of all kinds of manufactures. Extensive deposits of copper and slate are found in the neighbourhood. The St. Francis college, located here, has attained a high character among the Educational institutions of the country. Distant from Montreal 76 miles, Sherbrooke 24, Waterloo 40, Quebec 96, Island Pond 61, Portland Me 216 and Boston 221.

MUNICIPALITY 1874. Thomas Hart, *Mayor*; J H Graham, L L D, Edward Griffith, Joseph Bedard, G K Foster, Thomas Barrett, R N Webber, M D, Arthur Wileock, *Secretary-Treasurer*. Population about 1500.

ROBINSON.

A village in the township of Bury, county of Compton, 21 miles from Lennoxville. It is a station of the St. Francis, Megantic and International railway, pleasantly situated in the centre of a beautiful and fertile country. There are Episcopal and Methodist churches in the village, flour mill, saw-mills, and carriage and furniture factories. Population about 300.

This section was originally settled in the year 1836 by the British American Land Co, under the superintendence of Colonel Moore and after of Sir A. T. Galt, and to the energy and experience of the last named gentleman, must, in a very great degree, be attributed the success with which the undertaking was accomplished. The first settlers were chiefly English emigrants, the present prosperity of whom and of their descendants is sufficient proof of the certain success of the industrious settler in this country. Well cultivated and large farms, handsome and commodious dwellings and outhouses are everywhere to be seen, and increasing prosperity is the rule. Among the early settlers were: Matthew Barber, Enoch Waite, Francis Martin, A. C. Vaughan, Thomas Stokes, Wm. Saunders, Thomas Murray, G. Hunt, the Berwick, Herring, Bown and Rowe families, etc. Major L. Pope, formerly of the B. A. Land Co., was also one of the earlier settlers.

ROCK ISLAND.

An important manufacturing village adjoining Derby Line, Vt., and Stanstead Plain, in the township and county of Stanstead.

The manufacture of boots and shoes is carried on here extensively by the well known firms of Hall & Jondro, Foster & Seaver, and Morrill & Judd, each of whom employ a large number of hands. The celebrated "Reece's patent circular shuttle sewing machine" is also manufactured here, by Messrs Morrill & Co. This machine combines all the excellencies of the various machines now in the market together with several others for which we refer to the advertisement. It is patented in Canada, the United States, Great Britain, France and Russia.

The Rock Island apiary of Mr W Newton is one of the most complete in the country. This gentleman has for several years devoted his attention to the raising of these insects, and having by long experience obtained a thorough knowledge of their habits, dispositions and requisites, is one of the first apiculturists in the Province. The raising and supplying of Italian queens and the manufacture in improved hives are specialties. All orders will be accompanied by a Beekeepers Manual, containing plain rules for management.

ST HYACINTHE.

The city of St Hyacinthe is situated on the Yamaska river, seigniory and county of St Hyacinthe, and is the *chef-lieu* of the district of the same name which also includes the counties of Bagot and Rouville. This is one of the most important places in the Province of Quebec. The local trade is large and increasing, and the markets are second only to Montreal in the variety, quality and value of the articles exhibited for purchase. The manufacturing establishments are numerous and extensive and the material progress of the city has been almost unequalled; the value of real estate has nearly doubled within the last two years; the present (1874) assessed value being \$900,000, and the population now is upwards of 6000. Its admirable position, excellent water power, the fertility of the adjoining country and its proximity by rail to Montreal and other places on the Grand Trunk railway, of which it is an important station, are advantages which will still further increase its importance.

The first settlement of St Hyacinthe was made in the year 1777. In 1811 the rev M Girouard laid the foundation of the humble college which has since become the celebrated "Seminary of St Hyacinthe." This magnificent structure is built of cut stone, is upwards of seven hundred feet in length and is surmounted by a cupola, from which an extensive view of the beautiful country surrounding may be obtained. This institution possesses an excellent library, containing 15000 volumes, chemical laboratory, physical and astronomical apparatus and all the several modern appliances essential to a first class educational establishment. It has eighteen professors and upwards of three hundred pupils are in attendance. In 1816 rev M Girouard also established a ladies' school, afterwards conducted by the Ladies of the Congregation of Montreal and at present by Les Dames de la Présentation, who annually instruct about 200 young ladies.

In 1840 the Hotel Dieu of St Hyacinthe was founded by rev M Edouard Crevier, and is under the management of the Sisters of Charity, who, with the kindness, ability, and self-sacrificing christian benevolence which ever and under all circumstances characterize them, devote themselves to the amelioration of human suffering.

The new community, "Les Dames du Précieux Sang," was founded here in 1861. This order conducts two establishments, one at Toronto and the other at Montreal.

Among the prominent buildings may be mentioned the city hall and market, the court house, the bishop's palace, and the splendid edifice belonging to Les Dames de la Présentation.

On the 8th June, 1852, the diocese of St Hyacinthe was erected, and Mgr J C Prince was appointed the first bishop; S G Mgr Charles La Rocque is the present titulaire of the diocese.

ST JOHNS.

This important town is beautifully situated on the west shore of the River Richelieu, at the head of the Chambly canal, and at the foot of the navigable waters of Lake Champlain, in the barony of Longueuil, district of Iberville and county of St Johns. It is the *chef-lieu* of the district.

St Johns is a station of the Montreal, St Johns and Rouse's Point branch of the Grand Trunk railway, and the terminus of the Vermont Central and the Stanstead, Shefford and Chambly railways. The town of Iberville (or St Athanase,) is situated on the opposite side of the river, and is connected with St Johns by a bridge, and another railway bridge also spans the river close by. Two sessions of the Queen's Bench, holding criminal jurisdiction, three of the Superior Court and three of the Circuit Court are held here annually.

Of late years St Johns has made rapid progress in extent, population and local and general importance. A large number of factories, foundries, mills and other manufacturing establishments are in operation, employing a great number of operatives and representing a large capital. Many of the private residences, churches and mercantile establishments are not inferior to those of places of greater pretensions, and the energy, intelligence and capacity of the business men of the town is unsurpassed in the province. Distant from Chambly 12 miles, from Montreal 27, from St Armand 25 and from Rouse's Point 23 miles. Population about 4,500.

The following are the principal manufactures :

G H & L E FARRAR, pottery, St George st, established 1841; chiefly manufactures stone and Rockingham ware and fire bricks; steam power, 40 hands.

ST JOHNS STONE CHINA WARE CO, George st, established 1873. Edward Macdonald, *President*; A K Lavicount, *Secretary*; chiefly manufactures white granite and French pearl ware; steam power, 200 hands.

ST JOHNS BOOT AND SHOE CO, recently established. Louis Molleur, *President*; O Hebert, *Secretary pro tem*; steam power, 300 hands.

JOHN ROSSITER, tannery, Richelieu st, established 1820; manufactures sole and rough leather; steam power, 10 hands.

ST JOHNS WOOLEN MANUFACTURING CO, established 1873. E Macdonald, *President*; O R Whitby, *Secretary*; John Armitage, *Manager*. This company manufactures flannels exclusively; steam power 60 hands.

ST. JOHNS ADVERTISEMENTS.

	Tamlin John, farmer

SAWYERVILLE.

A village in the township of Eaton, county Compton, 6 miles from Cookshire, and 20 from Sherbrooke. The village possesses Wesleyan and Baptist churches, an excellent high school, grist and saw mills, and a furniture factory. The site was first settled about the beginning of the century, by Captain Josiah Sawyer. Population about 200.

SCOTSTON.

A village and station of the St. Francis, Megantic and International railway in the township of Hampden, 20 miles from Cookshire. The village was first settled in May, 1873, and chiefly belongs to the Glasgow and Canadian Land and Trust Co. Extensive saw mills are erected and the excellent water privileges of the Salmon river are being utilized. Population about 150.

SHERBROOKE.

The town of Sherbrooke, which in population, wealth and commercial and manufacturing importance, occupies the leading position in this part of the province, is beautifully situated at the confluence of the St Francis and Magog rivers, the site rising gradually from the former till the *upper town* attains a considerable elevation.

Sherbrooke is united with the townships of Ascot and Orford, forming the "Electoral District of the County of Sherbrooke," which is represented both in the Local and Federal Parliaments. The importance of the town is due in a great measure to its extensive water power, which on the Magog river has a descent of one hundred and fourteen feet in less than a mile, comprising an almost uninterrupted succession of excellent privileges along which several large manufacturing establishments have been located and others are contemplated. This immense power when utilized, as it must soon be, will tend to make the town one of the greatest manufacturing localities in the Dominion.

The present prosperity of Sherbrooke will compare favorably with that of any other town in the Provinces, and its future promises still greater advancement. The

HON. E. HALE,

President.

A. G. WOODWARD,

Secretary and Treasurer.

Grand Trunk, the Passumpsic and Connecticut Rivers and Massawippi Valley, the Sherbrooke. Eastern Townships and Kennebec, and the St Francis, Megantic and International railways all meet here, and another between Sherbrooke and Magog will be commenced in 1875. The vast resources of the territory, now for the first time opened up by the three last named, cannot fail to greatly enhance the importance of the town as a commercial depot and a manufacturing centre. Direct and easy communication with all points, magnificent water power and a productive country, possesses great natural advantages, together with an intelligent, wealthy and energetic population are advantages possessed here in an eminent degree, and it requires no great prophetic accuracy to approximate the time when the city of Sherbrooke will take her place with her elder sisters of the Dominion.

In 1871 the population was 4450; in 1873, 5500, and is now, December, 1874, estimated at upwards of 7000. Measures are being adopted for lighting the town with gas, and an extensive system of water works is under construction. Other improvements, necessitated by the rapid increase of the population and extent of the town, are also under consideration.

In the year 1796 Gilbert, Abraham, Joseph, Cornelius, Jacob and Isaac Hyatt brothers, of the town of Arlington, Vt, owing to political causes came to Canada and settled on part of the tract now known as the township of Ascot, and subsequently obtained extensive government grants for themselves and their associates, whose names were David, Joseph and Elim Austin Moe, Bildad and Israel Hubbard, Jonathan Ball, Francis, John, Thomas, Joseph and Clement Wilcox, Ebenezer, Thomas and James Lobdell, Thomas and John Merihew, Ebenezer and Samuel Dorman, John Newton, Samuel Peckham, Benijah Benedict, Moses Knapp, Abraham Vontine and John Ward. The township was organized March 5th, 1803.

On the 5th May, 1805, the Township of Orford was erected and granted to Luke Knowlton and his associates: Calvin Cook, Benjamin Remington, Samuel, Seth and Consider Shattuck, Stephen Kimball, John McNamara, John Stewart, Samuel Dickenson, Sylvanus Holbrook, Daniel Cheney, Daniel Fraser, John Plummer, Seth Hoskins and Benjamin Searle.

At this period the site of the town was known as the "Lower or Big Forks," and the best authority we can discover confers the honor of being the first settlers here on David Moe, Gilbert Hyatt and Samuel Terrill. The first named built a frame barn, just on the border of the present corporate limits, on which was cut the date 1800, little thinking that this trifling incident would in time become an interesting historical item. Terrill located a point opposite the mouth of the Magog river and Hyatt a little later built a grist mill on the Ascot side, and near it Jonathan Parker built the first carding and cloth dressing works. Jonathan Ball built the first saw-mill on the Orford side, and Wm R Willard the first tannery. At an early period, we have been unable to discover the exact date, John and Samuel Ball were the proprietors of extensive tracts on both sides of the Magog, which they sold to C F H Goodhue and the Hon W B Felton. This property, with the water power, was afterwards purchased by the British America Land Company, and by them subsequently sold in lots,

About the year 1828, C F H Goodhue built woollen, grist and saw mills here; the latter-named was afterwards owned by Charles McDougall. An axe factory, a very

important branch of industry in those days, was one of the early enterprises of Mr Goodhue, whose assistants, Jonathan Silsbee and George Alger, were the first iron workers here; Albert Burchard and Thomas Gordon were the first shoemakers; William Hall, the first harnessmaker; Lucius Deming, the first brickmaker, and William Walker, who came here from England in the year 1816, the first blacksmith. In 1833 William Arms and George Brown opened the first foundry and machine shop.

Stores were first opened by John Nicols, Goodhue & Moore, William Henry and Kimball & Ball, and taverns by Felix Ward, Henry Hubbard, Noble Mallory and Otis King—a delectable beverage known as potato whiskey being at the time the popular stimulant.

In 1822 the Hon John Fletcher was the first appointed Judge of the District of St Francis, and his successors to the present time were the Honorables J H Gardner, Edward Short, J S Sanborn and the present Judge, Hon Marcus Doherty. Charles Bridgman Felton was the first prothonotary, his successors were William Bell, Bell & Bowen, Bell & Short, and Short & Morris. Charles Whiteher was the first sheriff, William Ritchie the first notary public, J H Terrill was the first high constable, succeeded by E Clarke and the present popular and efficient officer, G B Loomis. Carey M Hyndman the first crier of the court, and Solon Shurtliff the first jailer, who was succeeded in office by Patrick Read, father of the present official. William Hamilton was the first customs officer. The first court house, a wooden building, was erected in 1822, and the present fine brick edifice in 1839. The jail was completed in 1869.

The first advocates were Charles Crecy, Charles A De Tonnancour, Christopher P Elkins, Ebenezer Peck, James Hallowell and Edward and John Short.

Among the other early settlers of Sherbrooke were Dr Moses Nichol, Thomas Stevens of New Fane, Vt, who came to Brompton Falls in 1810 and to Sherbrooke in 1816; Abiel Chamberlin, major Henry Beckett, who came here from Hampshire, England, in 1819; Samuel Brooks; Stephen A Edgell, store and registry office; Hassard Terrill; James Hughes, carpenter; Timothy Taylor, watchmaker; James Presby; Wm Ames, blacksmith, who also kept a boarding house; Francis Loomis, storekeeper; Dr Barnard; Dr Wilson; C Chambers, shoemaker; John Drummond, carpenter; D Thompson, carpenter; Joseph Griffith; William Jones, mason; Capt Cukeley, and Irwin Stafford, blacksmith.

In the year 1823, St Peter's, church of England, was founded, the first clergyman being the Rev C F Lefevre, sent as a missionary by the "Society for the Propagation of the Gospel in Foreign Parts." The first church was a small wooden building on the site now occupied by Harkness' livery stables. The parsonage built by Henry Beckett was the first brick building erected here, the present church built of brick was erected in 1844 and greatly enlarged in 1864. Mr Lefevre was followed in succession by the Rev Messrs Parkyn, Doolittle, Wait, Hellmuth, the present bishop of Huron, and Reid, the present incumbent.

Previous to the year 1834 the Roman Catholics had a mission station here, and in that year the Rev J B McMahon was appointed resident priest, followed in succession by the Rev Messrs P H Harkin, Bernard O'Reilly, D McGauvran and in 1853 by the present incumbent the Very Rev A E Dufresne, vicar general.

The first church, built about the year 1833, and afterwards used as a school, was

destroyed by fire in 1857. The present large and beautiful structure, now the Cathedral of the Diocese of "St Michael of Sherbrooke," was commenced in 1854 and completed at a cost of about \$50,000. The convent school, under the direction of the reverend ladies of the Congregation of Notre Dame, is well attended, and the Industrial College of Sherbrooke, another Roman Catholic institution, conducted by Prof Boutin, has also a large number of pupils.

The Congregational Church was organized December 27th, 1835, with an original membership of twenty-nine. The Rev Mr Robertson was installed in 1837, and on his decease, Sept, 1861, he was succeeded by the present pastor, Rev Archibald Duff.

The Presbyterian Church was established in 1804, and the Rev Joseph Evans was inducted first pastor on the 28th October of that year. The property in which the manse stands was purchased from Sir A T Galt, and a house once used as a theatre was transformed into a church and improved from time to time. Mr Evans was succeeded in 1869 by Rev Charles A Tanner, and in 1872 by Rev Peter Lindsay, the present pastor.

In the year 1819 the Rev John De Putron, a Methodist minister, who was stationed at Melbourne, visited Sherbrooke occasionally. In 1833 the Rev Edmund Botterell was appointed the first resident minister. The church was built in 1856 during the incumbency of Rev W D Brown.

In 1832, or the following year, the *St Francis Courier*, the first newspaper published here, was established by C W Tolfred, who removed his office to Derby Line Vt, in 1836. Messrs. Walton and Gaylord established the *Farmer's Advocate* in 1834, J S Walton, editor. This paper was sold to Robert Armour, who conducted it for about a year, when it again became the property of its original owners, and in 1837 the name was changed to the *Sherbrooke Gazette*, and in 1870 was purchased by Messrs. Bradford & Morehouse, its present proprietors.

The *St Francis Telegraph* was established some twenty years since by W L Felton Esq, and soon after its publication was conducted by Mr H Carr under the name of the *Reformer*.

The *Sherbrooke Times*, published by J W Ritchie Esq, and subsequently by George Bottome, Esq, was succeeded by the *Freeman*, the plant of which was purchased by Messrs Cabana & Belanger, who established the *Pionnier de Sherbrooke*.

In 1871 the *News* was established by W B Ives Esq, subsequently by H B Brown, Esq, by whom it was recently sold to Messrs Belanger, its present publishers, who are also the proprietors of *Le Progrés*, established 1874.

In the year 1852, the town of Sherbrooke was incorporated, and on the 14th day of August of that year the following gentlemen had the honor of forming the first council: George Fred Bowen, *Mayor*; Joseph G Robertson, John Griffith, Leonidas Goodall, Adam Lomas, Albert F Ball and Oliver Camirand. The corporation officers were William Griffith, *Secretary-Treasurer*; Charles O'Connor, *Inspector*; James Griffith, Hiram Moe, and Joseph Bailey, *Valuators*.

Sherbrooke is distant from Montreal 101 miles, Quebec 196, Portland, Me, 196, Toronto 434, Richmond 24, Waterloo 36, Stanstead 30, and from Magog 17.

MUNICIPAL OFFICERS, 1874.

R D Morkill, *Mayor*; John Griffith, H A Elkins, J A Archambault, H S Hubbard, Henry Camirand, Andrew Paton, *Councillors*; William Griffith, *Secretary-Treasurer and Inspector*; James Griffith, John Campbell, Matthew Read, *Valuators*; Robert Davidson, *Market Clerk*.

SHERBROOKE FIRE CO.—J C Waterhouse, *Chief Engineer*. This company consists of fourteen men. There are one steamer and three hand engines with complete apparatus.

BOARD OF SCHOOL COMMISSIONERS.

Henry Hurd, *Inspector*; A G Woodward, *Chairman*; R N Hall, L C Belanger, W W Beckett, William Griffith; Robert Davidson, *Secretary Treasurer*.

DISSENTIENT SCHOOL BOARD.

John Woodward, *Chairman*; E F Walker, T P Terril; S A Stevens, *Secretary-Treasurer*.

CHURCHES.

CHURCH OF ENGLAND.—St Peter's, corner Commercial and Montreal streets. Evening services Wednesday, rev C P Reid, M A, *Rector*; rev I Brock, M A., *Cofessor*.

LE PIONNIER DE SHERBROOKE.—H E Cabana, editor and proprietor.

LE PROGRÈS.—Belanger Bros, publishers and proprietors; L C Belanger editor in chief.

The following are the chief manufacturing establishments:

THE SMITH-ELKINS MANUFACTURING Co.—Incorporated. Hon M H Cochrane, *President*; J S Walton, *Vice-President*; R Smith, *Managing Director*; H A Elkins, *Secretary-Treasurer*. The buildings of this establishment cover a space of about four acres, and about 75 hands are employed. The manufactures of the Company include brass and iron works, agricultural implements, paper and mill machinery, &c.

S B JENCKES, founder and machinist, employs 12 hands in the manufacture of grist and saw mill machinery.

THE CANADA PAPER Co.—Incorporated. Depot No 378 St Paul street, Montreal. William Angus, *President*, Thomas Logan, *Vice-President*; John J Young, *Secretary*. This establishment has extensive works at Sherbrooke and Windsor Mills, employing in the former place about 50 hands in the manufacture of manilla and wrapping paper to the extent of about two and a half tons a day, exclusive of a large quantity of roofing felt, R L Parker, *Manager*. In Windsor about 200 hands are employed, and the finest kinds of printing, news and book paper are made. Angus McDonald, *Manager*.

THE BANNER SEWING MACHINE Co.—Established 1869. Incorporated 1872. W B Ives, *President*; L B Lawford, *Secretary*; J C Waterhouse, *Manager of works*; employs 60 hands, turning out six thousand machines per annum, large numbers of which are exported to the United States and South America. All parts of the machine are manufactured on the premises. The celebrated Climax machine is also manufactured by this Company.

THE PATON MANUFACTURING Co.—Incorporated, R W Heneker, *President*; A Paton, *Secretary*. This is the most extensive woollen and tweed factory in the Dominion, employing about 400 hands.

ADAM LOMAS & SON.—This Company, established in 1846, is chiefly employed in

the manufacture of flannels, employing about 150 hands and turning out about 200,000 yards per annum. This is the only manufactory of fancy flannels in Canada.

THE MAGOG WOOLLEN MILLS, A L Grindrod & Co, employs an average of 20 hands, custom carding, spinning and weaving.

C G BECKETT & Co.—This Company manufactures spools and bobbins for woollen or cotton mills of a superior quality, and which are deservedly popular, being used in the Paton and several other extensive establishments. The machinery is new and perfect, and this branch employs about 20 hands. The firm is also largely engaged in the manufacture of telegraph matches, giving employment to about forty families.

ARKLEY & LOOMIS, millwrights and builders. Employ a large number of hands. Woollen, cotton, saw and grist mills built to order. All kinds of building material manufactured and in stock.

LOW & WILSON, builders and contractors, manufacturers of sash, doors and windows and all kinds of joiner's work. There is a planing mill in connection. This firm averages 12 hands.

SHERBROOKE FUSE FACTORY, Thomas Richards, proprietor. The only establishment in Canada for the manufacture of dry and submarine blasting fuse of all kinds.

THE CANADA MEAT AND PRODUCE Co (of Sherbrooke, P Q, and Edinburgh Scotland), John L Johnston, *Managing Director*, Francis Braidwood, *Secretary Treasurer*. This company, recently established is destined to be of incalculable advantage not only to the townships but also to the whole Province. They will employ about 200 operatives, and require from 200 to 300 fatted cattle weekly, exclusive of game, poultry and vegetables. The prime joints will be sent to Great Britain in a fresh state, and the rest as canned meats prepared by the process of the Messrs. Johnston of Edinburgh. The town of Sherbrooke and the neighboring municipalities granted this company a bonus of \$22,000 and exemption from taxation for 20 years.

STANSTEAD PLAIN.

An incorporated village and port of entry, in the township and county of Stanstead. Distant from North Derby 5 miles, Georgeville 13, Coaticook 19, Magog 20 and from Newport, Vt, 10 miles. The village is celebrated for its picturesque situation and for the number of its beautiful and costly private residences. The surrounding country is unequalled in the province for its fertility, and valuable deposits of granite, equal to the best found in New England, are abundant. The flourishing village of Rock Island, a station of the Massawippi railway is immediately adjoining, and the village of Derby Line, Vt, is separated from the latter by a bridge over the Tomifobi river. The Stanstead Wesleyan College, a splendid building, possessing a high character among the educational establishments of the Dominion, is one of the chief ornaments of the place. A detailed account of this institution will be found in another part of this

The first location on the village site was made in March, 1796, when Capt John Taplin built a log house near where the Roman Catholic church now stands, and soon after Capt Moses Copp arrived, but shortly after removed to Copp's Ferry now Georgeville. Capt. Israel Wood was also one of the earliest settlers. About the year 1810, Col Wright Chamberlin opened a store, and another was in operation in 1813, owned by Ichabod Smith and Wilder Pearce. The post office was established in 1817, commissioner's courts in 1825, the seminary and the Congregational church were built in 1829 and the Wesleyan church, afterwards purchased for the town hall, in 1832. The village was incorporated in 1857. Silas H Dickerson was the first mayor.

MUNICIPALITY 1874. S W Snow, *Mayor*. John Meigs, M D, C S Channell, John B Daly, J F Moulton, W H Holmes, C M Thomas. Israel Wood, *Secretary-Treasurer*. Population about 1000.

SWEETSBURG.

A village and station of the South Eastern railway, in the township of Dunham, county of Missisquoi, 15 miles from West Farnham, 16 from Bedford and 29 from St Johns. This and the adjoining village of Cowansville are merged in the common name Nelsonville, and form the *chef-lieu* of the district of Bedford. The court house, jail and public offices are located here. The post office was established in 1854, changing the original name of Churchville to its present one. Population about 300.

L. E. RICHARDSON,

GENERAL MERCHANT,

WARDEN, P.Q.

Constantly on hand Pork, Flour, Fish, Salt, &c., &c.

Also, agent for the Singer and various kinds of Sewing Machines.

WATERLOO.

The *chef-lieu* of the county of Shefford, district of Bedford. It is the terminus of the Stanstead, Shefford and Chambly railway, and will be the starting point of the Waterloo, Magog and Sherbrooke line, which is now under consideration.

As early as the year 1820 there were mills, cloth dressing works, a blacksmith shop and one or two dwellings on the site of the village, and Frost Village had for several years previously been a centre of trade for a large section of country. The Waterloo mills were built by a person named Lewis, and in 1822 become the property of Hezekiel Robinson. Among the early settlers were Adolphus Bennet, Calvin Richardson, Samuel Brown, Dr Sewell Foster, Daniel Taylor and the rev R Whitwell. The first store was opened by Messrs Lyman and Child, and in 1825 Charles Allen laid the foundation of the extensive business which adds so much to the importance of the place. The post office was established in 1836.

Since the completion of the railway the progress of the village has been very rapid, and is steadily increasing.

Waterloo was incorporated January 1st, 1867, and the first council elected were hon A B Foster, *Mayor*; G G Stevens, H L Robinson, George H Allen, Spencer Shaw, A Hébert, N V D Labonté. J P Noyes, *Secretary-Treasurer*.

In the vicinity of the village there are extensive deposits of copper and iron ore, and a wooden railway connects it with the Huntington mines. Distant from Magog 21 miles, Granby 18, Melbourne 33, Knowlton 10, St Johns 50, Steanstead Plain 42, Sherbrooke 36, and from Roxton Falls 18 miles.

MUNICIPALITY 1874.—G G Stevens *Mayor*; hon A B Foster, D Frost, jun, O R Foss, A Hébert, E Slack, N V D Labonté; J P Noyes, *Secretary-Treasurer*. Population 2000.

SCHOOL COMMISSIONERS.—Thomas Brassard, *Chairman*, J F Leonard, *Secretary-Treasurer*, W G Parmelee, A D Girard, W A Taylor, William Clark.

The following are the principal manufacturing establishments:—

WATERLOO IRON WORKS. Established 1839. Allen, Taylor & Co, saw, grist mill and tannery machinery, agricultural implements, &c, patentees of the "Poor Man's double stove"; steam power, employs about 40 hands.

WATERLOO CARRIAGE FACTORY, Wallace & Payan. In addition to all descriptions of carriages this firm is extensively employed in the manufacture of sashes doors, blinds, &c. Steam power, employs about 20 hands.

WATERLOO BOOT AND SHOE CO, recently established, G G Stevens, *President* D T Frost, *Managing Director*. Steam power, 50 hands.

STAR PEG MANUFACTURING CO. Ribbon pegs, boot and shoe shanks, shingles, &c. Steam power, about 50 hands.

NORBERT BEAULNE, sash, door and blind factory, steam power, employs an average of 10 hands.

SHAW & Co, tanners, sole leather only; steam power, about 50 hands.

ELLIS' STEAM grist and saw mills.

Stanstead Wesleyan College.

Lorrison H, farmer	

WEST FARNHAM.

A thriving incorporated village in the west part of the parish of St Romuald de Farnham, county of Missisquoi. This place possesses excellent water power, and contains several saw, flour, shingle and lath mills, and one woollen factory. A foundry and machine shop by a joint stock company has lately been started, and a company for the manufacturing of cotton is being considered. A large quantity of lumber manufactured here is taken to St Johns for exportation to the United States. West Farnham is one of the principal railway centres in the Eastern Townships. The Stanstead, Shefford and Chambly Railway, a branch of the Central Vermont Railway,

has a very fine station here. It is also the terminus of the South Eastern Railway. The Eastern Townships Peat Co's works are within a short distance of the village. Distant from Bedford 12 miles, St Johns 14, Cowansville 14, and Sweetsburg 15 miles. Population about 2000, assessed value of real estate about \$250,000.

UNIVERSITY OF BISHOP'S COLLEGE,
LENNOXVILLE.

The University of Bishop's College was constituted by a Royal Charter granted in the year 1852, and empowered to confer degrees in Divinity, Arts, Law and Medicine.

The Convocation of the University consists of the Chancellor and Vice-Chancellor, the Principal and Professors of Bishop's College, and all persons admitted to the degree of Master of Arts, or to any degree in Divinity, Law, or Medicine in the University.

No degree can be granted by the University, unless a supplicant for that degree shall have passed the Convocation, having been previously approved by the College Council. Other persons may be recommended for degrees by either of the Bishops of the Province of Quebec.

Any candidate for a degree, being a British subject, must previously to the conferring of the degree have taken the oath of allegiance.

UNIVERSITY OFFICERS.

Chancellor—The Hon Edward Hale, D C L, 1865; *Vice-Chancellor*—The Hon George Irvine, D C L, Q C, 1872; *Registrar*—E Chapman, M A, 1852; *Examiners*—The professors of Bishop's College, the Rev R W Norman, M A, H H Miles, LL D.

The Faculties of Divinity, Arts and Medicine are in full operation. The Faculty of Law has not yet been constituted.

(For names of Professors see advertisement.)

Bishop's College was by an Act of the Legislature of the Province of Canada, passed in the year 1843, constituted a body corporate, consisting of the Lord Bishop of Quebec, (or in a case of the division of the Diocese of Quebec, of the Bishops of the Dioceses into which the Diocese of Quebec shall be divided) the Trustees of the College and College Council.

By a subsequent Act of the Legislature of the Province of Quebec, passed in the year 1870, the Governing Body of the College was materially altered, with the object of bringing the College into more immediate connection with the two Dioceses of Quebec and Montreal. According to the terms of this Act, six trustees and six members of the College Council are appointed by each of the Bishops of the two Dioceses now contained within the Province of Quebec, and five trustees and five members of the College Council are elected by the vote of their respective Synods—such members of the Corporation to hold their seats for three years, and to be eligible for re-appointment.

The present Members of the Corporation are:—1 The Bishops, who are also the Visitors of the College: The Right Rev Lord Bishop of Quebec, *President*. The Most Rev The Metropolitan of Canada, *Vice-President*.

2 The Trustees, Hon E Hale, chairman, G F Bown, Esq, R Hamilton, Esq, R W Heneker, Esq, Rev R Lindsay, M A, G Macrae, Esq, Lt-Col Morris, L E Morris, Esq, H Pangman, Esq, Rev C P Reid, M A, Rev F Robinson, M A, W B Simpson, Esq, R H Smith, Esq, W G Wurtele, Esq, L H Davidson, Esq.

3 The College Council, The Rev the Principal of Bishop's College, Chairman, the Rev the Rector, Strachan Bethune, Esq, Rev J Brosk, M A, Edward Carter, Esq, M P, E Chapman, Esq, M A, Rev J Foster, M A, the Rev C Hamilton, M A, the Rev G V Houseman, M A, the Hon G Irvine, M P, Vice-Chancellor, D B McCord, Esq, the Rev R W Norman, M A, the Hon Mr Justice Ramsay, the Rev H Roe, M A, Prof of Divinity; the Rev A C Searth, M A, Professor of Ecclesiastical History, Rev R C Tams, Professor of Mathematics.

The Officers of the Corporation are Edward Chapman, M A, Secretary; E L Montzambert, M A, Honorary Counsel; C Brooks, Esq, auditor; B T Morris, M A, attorney.

Bishop's College, which owes its existence to the earnest and untiring efforts of the late Bishop Mountain of Quebec, was designed in its foundation to satisfy a two-fold need: first, to provide the Church of England in the Province of Quebec with a suitable place for educating her ministry, and secondly to offer to the Province at large the blessing of a sound and liberal education based upon religious principles.

The village of Lennoxville was selected as its site, on the grounds of its central position in the midst of the English speaking population of the Province of Quebec, and of the prospect it afforded of moderation in the scale of expenses to individual students. A considerable amount moreover was promised in the neighbourhood, and a site for the College buildings, with other advantages equivalent altogether to about \$12,000.

Besides liberal donations made at the foundation and subsequently by members, of the Church in Quebec and Montreal, additional subscriptions were raised in England in the year 1847, by the Rev J H Nicolls, D D, Principal of the College and the Rev Professor Hellmuth, now Lord Bishop of Huron. By this effort more than \$10,000 was procured; \$5,000 of which was a donation from the Society for Promoting Christian Knowledge, this Society and also that for the Propagation of the Gospel in Foreign Parts, having previously given \$5,000 each towards the endowment. These contributions, together with (nearly) \$30,000 given to the Bishop of Quebec by a munificent friend of the Church in England, Thomas Churchman Harrold, Esq, of Little Horkesley Park, Essex, and augmented by a donation of \$1,000, from Miss Leeds, of Ipswich, Suffolk, together with a further annual grant (in the year 1848) of \$12,000 from the S P G (afterwards commuted for \$16,800) and \$4,000 collected by Professor Hellmuth in 1849, form the invested capital of the College.

A generous offer of \$400 per annum for five years towards the Divinity Professorship was made last year by a member of the Church Society of Quebec, on condition of its being supplemented by a like sum from the Diocese of Montreal. The offer and the conditions have been made good.

The College Library contains about 5,000 volumes, embracing works in Theological, Classical and General Literature. Among its principal benefactors have been the English Universities, Dr Bray's Associates (two donations of books), the Society for Promoting Christian Knowledge, the Rev Arthur Hussey and the Mountain family.

The Museum, comprising objects of Natural History, Mineralogy, Numismatology, curiosities from different countries, and various objects bearing on the study of

Manufactures, together with philosophical and other instruments, occupies temporary quarters in the main College building.

The course of study comprises the following subjects, which are arranged so as to occupy, in the Faculty of Arts, 3 years, and the Faculty of Divinity 2 years, viz, Classical and English Literature and Composition, History, Mathematics, Natural and Experimental Philosophy, Chemistry, Logic, Rhetoric, Moral Philosophy, Divinity French.

Besides the ordinary examination for the degree of B A, there are prescribed subjects of examination for Candidates for "honours," i. e, for higher academic distinction.

BISHOP'S COLLEGE SCHOOL.

The School or Junior Department of Bishop's College was founded in 1857. The Rev J W Williams, M A, (now Lord Bishop of Quebec) being its first Rector. It possesses large and commodious buildings in proximity to the College, and as regards general government is under the control and supervision of the College Council. Though intended in the main as a Preparatory Department to the College Course, the object of the School is also directed to the imparting of such a general education as may fit boys for any calling in after life, special attention being directed in the Modern Side to preparation for Commercial pursuits. The discipline and general management of the School are based, so far as circumstances allow, upon the English Public School system.

COURSE OF INSTRUCTION.

The Course of Instruction includes all the usual branches of a sound Education in Classics, Mathematics, German, French, English, Elementary Physical Science, Book-Keeping, Vocal Music, Gymnastics and Drill.

STANSTEAD WESLEYAN COLLEGE.

INCORPORATED DECEMBER, 1872.

Rev William Hansford, Governor; Rev A Lee Holmes, MA, Principal.

This excellent institution of learning was designed to meet an urgent need of the Protestants in the Province of Quebec.

With increasing numbers, wealth and influence, there came a necessity for a school which should afford the best instruction in science and literature to which Protestant parents could send their children of both sexes with assurance that their health, morals and religious convictions would be carefully guarded, and where also the children would have the comforts and the improving influence of a pleasant cheerful christian home.

Such was the necessity for and the design of the foundation of this Provincial Protestant College. To meet the views of Protestants broadly it is non-sectarian in character. But while its patrons, shareholders, directors and faculty represent various shades of Protestant belief, the Institution enjoys the immediate patronage and receives "the moral aid and support" of the Methodist Church and Conference of Canada.

Several towns and villages contended for the site: the village of Stanstead Plain, in the county of Stanstead, was finally chosen. Unquestionably in a sanitary point of view no better selection could have been made. The village occupies an elevated plateau in the midst of a highly cultivated agricultural country, and is noted for purity of air and water. It is exceptionally free from malaria and those forms of disease which prevail in summer, and from consumption and pulmonary affections.

For beauty and variety of scenery Stanstead is without a rival in Canada, and the site of the College is perhaps the finest in Stanstead. In the foreground the country slopes away to Lake Memphremagog, which is four miles distant, and in view.

The picturesque *Green Mountains* and an amphitheatre of high hills skirt the horizon. The intermediate country is beautifully diversified.

These rare natural advantages are fitly supplemented by art and culture. Residences and churches evidence a degree of wealth and taste seldom observed outside of large cities.

The Massawippi Valley Railway, the South Eastern Counties Railway and the Connecticut and Passumpsic Rivers Railway converge to this point, and, with connecting lines of railway, afford the best facilities of access.

As an additional inducement for the shareholders to locate the College at Stanstead, the enterprising citizens of that place and vicinity, who themselves were contemplating the establishment of a school of superior education there, pledged the sum of fifteen thousand dollars, which was about one-third the amount which has been actually expended upon grounds, building and furniture.

The college building is thoroughly constructed of granite and brick, is five stories in height, 142 ft. x 52 ft. on the ground, with a wing of 37 ft. x 42 ft. on the ground, has a high central tower, and presents a fine architectural appearance. Its capacity is sufficient for the proper accommodation of the teachers, two hundred boarders and one hundred day pupils. The arrangements for heating and ventilation were personally supervised by Henry J Ruttan, Esq, of Coburg, Ontario. Gas is brought to every room. The spacious drawing rooms, parlors, corridors, offices, recitation rooms and dining hall are all well warmed and well lighted.

Water closets and baths, with hot and cold water, are conveniently arranged on each floor. Perfect sewerage has been secured.

Each dormitory has a closet, and is elegantly and conveniently furnished with bedstead, spring bed, mattress, feather pillows, sheets, blankets, comforter, counterpane, a bureau with mirror, carpet, curtains, chairs, table, and sink, with towels, desk, &c., &c.

From the above it will be seen that the building and all its appointments and surroundings accord with the advanced and progressive movement of the times.

The second scholastic year of this College has opened with an average attendance of 140 students.

The names of Directors, Managers, and Faculty are a guarantee of an honest endeavor at least to make the Institution in all respects such as its founders hoped for, and its patrons desire.

CHURCH DIOCESES.

THE DIOCESE OF ST MICHAEL OF SHERBROOKE was established August 16th, 1874. S G Mgr Antoine Racine, Bishop; A E Dufresne, Vicar General; F P Digman Secretary; M M A E Dufresne, S G C Hamelin, J B Chartier, M McAulay, P Quinn, A Masson, Diocesan Councillors.

RAILWAYS.

GRAND TRUNK RAILWAY, Montreal, Quebec and Portland. From Montreal to Richmond Junction, 76 miles; Montreal to Quebec, 172 miles; from Montreal to Portland, 297 miles. Branch from Three Rivers to Arthabaska, 35 miles. The Montreal, St Johns and Rouse's Point branch, 50 miles.

THE SHERBROOKE, EASTERN TOWNSHIPS AND KENNEBEC RAILWAY, This road runs in a nearly direct line between the town of Sherbrooke and Pt Levis, opposite the city of Quebec, and will be about 93 miles in length to the junction with the Levis and Kennebec railways at a place, formerly a ferry, known as Madame Morin's, and passing through the counties of Sherbrooke, Compton, Richmond, Wolfe, Megantic, Dorchester, Beauce, Levis, Lotbinière, Bellechasse and Quebec. The present population of these countries may be estimated at 235,000, and having a cultivated area of upwards of 750,000 acres.

At Sherbrooke this line connects with the Grand Trunk, the Connecticut and Passumpsic and Massawippi Valley, the Megantic and International and the Waterloo and Magog railways, having by these connections direct communication with all parts of Canada and the United States. This route will be 142 miles shorter from Sherbrooke to New York and Boston than by the way of Portland, and 98 miles less than by Grand Trunk and Vermont Central, White River Junction and Springfield Railways, and 117 miles shorter from Boston than by the Grand Trunk.

The country through which this line passes or which is in its neighborhood is the most productive in the Province, and is already to some extent inhabited by a good class of farmers. It possesses unrivalled water power, excellent land, an almost inexhaustible supply of timber, minerals of various kinds, and immense beds of marble equal in quality to the best produced in Vermont.

The means of transportation afforded by this line will enable the settlers to develop these immense sources of individual and national wealth, and give this part of the province, hitherto so little known, a fair opportunity to compete with older sections in the general prosperity characteristic of the country.

SOUTH EASTERN RAILWAY, Montreal, St Johns and Newport, 65 miles.

VERMONT CENTRAL RAILWAY, Stanstead, Shefford and Chambly divisions. St Johns to Waterloo, 43 miles. The Eastern, Missisquoi line, from St Albans to Richmond, 28 miles.

CONNECTICUT AND PASSUMPSIC RIVERS AND MASSAWIPPI VALLEY RAILWAY.—Sherbrooke and White River Junction, 145 miles. There is a short junction line at Stanstead.

MISSISQUOI AND BLACK RIVERS VALLEY RAILWAY CO.—Hon L S Huntington, President; George Williamson, Secretary; J H Graham, Vice-President and Managing Director; head office Richmond. Leaving Richmond passes through the Townships of Melbourne, Brompton, Brompton Gore, Ely, North Stukely, South Stukely, Bolton and Potton to the Boundary line, and there intersecting the South Eastern Railway, and connecting at St Albans with the Vermont Central. The Vermont Black River line proposes to meet this line at the Boundary, and connect with the Montpelier and Wells' river line, and consequently with the several railway systems of the New England, Northern and Middle States, and will also connect with the Midland Vermont. Stations in Quebec will be located at Richmond, Brompton, Kingsbury, Valcourt, Lawrenceville, North Stukely, Bolton, Forest, Dillonton or Huntington Mills, Bolton Centre, South Bolton, Mansonville, etc. The line will pass for 55 miles through the Province of Quebec and with other lines will make a short route to Boston, New York, etc.

GRAND LODGE OF A F & A MASONS OF QUEBEC.

Lodges holding warrants under G R Q.
