Main St., Athens.

A TRIP FROM SPOKANE

THE INLAND EMPIRE METROPOLIS OF THE NORTH WEST.—SITUATED IN SPOKANE VALLEY, THE NORTH EASTERN PART OF THE STATE OF WASHINGTON.

This beautiful city has a growth of not quite twenty years, but is the most beautiful and picturesque city anywhere. The Spokane Falls and the river are through the middle of the city, and the hills and mountains are all around. To the South is a large valley, known as the Palouse Valley. This valley is adapted to agriculture and different kinds of fruit culture. To the north is a fine timber belt, and to the northeast is a vast mineral deposit. The altitude of this lovely city is 2,500 feet above the sea level, giving to its inhabitants pure fresh air to breathe while the springs and streams are the purest of soft water.

The population of Spokane is over sixty thousand people and it has one of the finest systems of schools and colleges to be found anywhere in the States. Then the churches are not forgotten, as every denomination is represented, and the ministers are as fluent and eloquent speakers as you can find anywhere. If it were not for the sin that is rife in the world, Spokane would be a perfect garden of Eden.

Leaving Spokane, our first stop of any note is Missoula, Montana, a day's journey through beautiful mountain scenery. We have been gradually climbing upward until we are nearly thirty-two hundred feet above the sea. This city is situated in what is called the Bitter Root Valley a very mountainous country all around. The State University and the Northern Pacific Railroad Sanitarium, are located here. Fort Missoula, four miles south of the city, and Lolo Peak can also be seen. The Bitter Root Valley is adapted to cattle grazing and fruit raising. They have the most extensive sheep ranches to be found anywhere in the North-West.

Leaving this mountain city about sundown, we roll on through the beautiful moon lighted space with the dark majestic mountain or the grand canyon with their rushing torrent on either side of us climbing higher and higher until at about midnight of July 18th we look far ahead and what seems to be myriad of stars springing from the earth confront us, and we find it is the electric lighted city of Butte, Montana. This city is 5,701 feet above the sea. The State school of mines is here, it being the city of the greatest copper mining district in the world. The great smelters are located at Anaconda 26 miles west of Butte. One of the enormous smelters known as the Washoe plant, costing \$5,500,000, is here. We were at Butte until about 2 a.m. (or 6 a.m. at Athens).

Next we stop a few minutes at Logan where the other line coming by way of Helena, branching off at Garrison, connects with the main line. We reach Bozeman in time for breakfast. This place is at the head of the Gallatin valley, the largest and most fertile valley of Montana. The valley is nearly all under irrigation, and they raise 100 bushels of oats and barley to the acre and 60 bushel of wheat, while their usual crop of timothy hay is 4 tons to the acre. Alfalfa and clover are among the principal productions. The State Agricultural College and experiment station is located at Bozeman. The Bridger Range is to the North and the Gallatin Range to the south. We follow the west Gallatin River to the junction of the Missouri.

Our next place of interest is Bozeman Tunnel, our last crossing of the Rockies. In 1806 Captain Clark used the pass leading to this tunnel. The tunnel is over 3/4 of a mile long and 5,565 feet above the sea. We have already crossed the highest point, known as Pipe stone pass, 6,400 feet high, near Butte. When we are at Bozeman tunnel, we are about half way between St. Paul, Minnesota, and Portland, Oregon, where the great Clark and Lewis Exposition is being held.

After leaving Bozeman tunnel, we come to Livingston, Montana, a pretty little city of 5,000 inhabitants, the county seat of Park Co. The principal industries of this section are stock raising and agriculture. You can see the snow-clad mountains and Baldy Peak to the south, and the gateway to the Yellowstone National Park road, and is about 1100 feet below Bozeman

Tunnel. They have finest station anywhere on the Northern Pacific Road. It is a massive granite building, large arches lead to the beautiful waiting rooms and offices, and handsome granite pillars supporting the roof over the promenade, which is built in crescent shape.

We do not see much of interest until after we pass through the foot hills into Wyoming and the Little Big Horn Valley where the Little Big Horn battle was fought June 25th, 1876, known in history as the Custer Massacre. The principal town of the Valley is Sheridan, where Fort McKenzie is located. We leave Sheridan on the eve of July 19th, wending our way over the North Eastern corner of Wyoming, and the South Western corner of South Dakota, known as the Black Hills, through the night, reaching Crawford, Nebraska, a little after sunrise July 20th where we receive the service of the "Mountain Climber," a very large engine used to climb the Mountains. Then we begin to climb a steep grade on the Western side of Nebraska. We drop the Mountain Climber at Hemmingford, a small farming village; then we keep on to Alliance where the Denver branch of the Burlington joins the main line. This is an infant city of 4000.

After this we pass through an extensive farming belt where 25 years ago you could see the Prairie Schooner winding its way along to parts unknown and the Sod Mansion or humble dugout in the side of a hill was the chief abode of man. Now, instead, we have the bustling village or town surrounded by beautiful farm with modern homes, showing the proof of the old adage, "A small beginning makes a great ending." At about sundown we reach the beautiful capital city of Nebraska, Lincoln, one of the largest cities in Eastern Nebraska. From here we go to Omaha, one of the shipping points on the Missouri. This is where the Cuddy pork packing plant is located. We stopped all night in this bustling metropolis leaving next morning at 8.30 a.m. over the North Western for Chicago. We pass through the southern portion of the Great Corn-state, Iowa, where the beautiful green corn was waving over the farmers' head. The crops were looking grand through this section. We only stopped at the larger cities, crossing the Father of Waters, the Mississippi river, early in the afternoon, at Clinton, into Illinois, where our rail-splitter President came from, Abraham Lincoln. We only make a few stops, reaching Chicago early in the evening. We had been traveling all day at the rate of 60 miles an hour. After we leave Chicago we go by the lake shore and the New York Central, reaching Athens July 25th.

After a few days rest and visit at Hard Island we took a most delightful trip to Charlston lake. Mr. Lovern was so kind as to take our party, all around in and out among the beautiful islands, in his pleasure yacht. About noon we made a gypsy fire on one of the islands in nearly the centre of the lake. Here we cook the finny tribe that had been caught and had a most delicious repast beneath the beautiful shade. After dinner we spent the afternoon in fishing and sight seeing. Miss Violet Robeson succeeded in bagging the largest fish of the day, a four pound pike. We started on our homeward trip at about 5 p.m., reaching port soon after, and after a drive of eight miles we reached our homes, all very tired, but our day at Charlston will long be remembered by all.

We left Athens August 8th, en route for our Washington home, over the Grand Trunk and Canadian Pacific by way of Vancouver, Victoria and Portland.

Mr. and Mrs. A. ROBESON.

Recuperative Effect

Considered with reference to its recuperative effect, there is not so much good in the ordinary vacation as there is in a single bottle of Hood's Sarsaparilla. The latter costs \$1; the former—well, that depends; how much did yours cost last year?

Hood's Sarsaparilla refreshes the blood, sharpens the dulled appetite, restores the lost courage.

Mrs. S. J. Russell of Delta was the guest at Mr. Phil. Witsee's this week.

Mrs. Wood returned to Ottawa on Saturday after a pleasant visit with her aunt, Mrs. Wright.

A SCHOOL SUIT SALE

Here's a Benefit for Boys and Parents

WINNING A BATTLE BY TELEPHONE.

That the Japanese victory at Mukden was won by skillful use of the telephone is asserted by M. C. Sullivan. He believes that it was the decisive factor in the victory. He says the issue might hang in the balance, and that it has been through the superior use made by the Japanese of ordinary devices of commercial and social life that they have been so successful at every turn. He writes:

"One of the most remarkable events that has occurred in the world's history is the battle of Mukden. It was a battle because it was the mightiest land battle ever fought, and it was a battle of scientific methods. Plans were completed by the Japanese before the battle was previously declared by military experts to be impossible. The success of the Japanese was due to the use of the telephone. It was the skillful use of what is today considered to be one of the most ordinary instruments of modern warfare. Formerly a large battle was to a certain extent a haphazard, hit and miss affair, the careful foresight and the most careful general falling to take into account the many accidents and incidents which would result from almost any movement. Now, however, as by means of the telephone, it is possible for the commanding officer to obtain the best use of every portion of the army, with the least expenditure of effort. That the battle of Mukden furnishes a particularly good example of such use of the telephone is asserted by Sullivan. It was the belief of the Japanese that the Japanese would not fight in the open. Playing on this belief, the Japanese moved south and east to make a flanking movement through the mountainous country to the south and east to make a flanking movement through the mountains. To do this, his forces were disposed in a crescent ninety miles long and divided into five sections, each of which was in telephonic communication with the general staff. The Japanese General thus had his entire army under control and operated it as a huge machine effecting his purpose and gaining a decisive victory. Says Sullivan:

"From the subdivisions of each portion of the army telephone lines were run to portable switchboards and from the various switchboard trunk lines were run to headquarters, several miles away. This was the part of the army that was made to correspond with the subscribers of a telephone station in the center of the main body of troops, even when the army was advancing by forced marches, and perfect order was maintained between the different divisions. Wherever the conditions permitted the reels of wire and the instruments were carried in wagons. The line was laid on the ground as rapidly as a horse-drawn vehicle could advance. If the line so laid became permanent, a detail came after the wagons at leisure and attached the wire to trees or hastily erected supports."

ENGLISH SPAVIN LINIMENT
Removes all hard, soft or calloused lumps and blemishes from horses, blood spavin, curbs, splints, ringbone, swellings, stifles, sprains, sore and swollen throat, coughs, etc. Warranted the most wonderful Blemish Cure ever known.

SPEED OF PIGEON'S FLIGHT.
Bird Has Been Known to Fly More than a Mile a Minute.
So many wild statements are made as to the speed of a carrier pigeon that it is interesting to learn how fast it can actually travel under the most favorable conditions. On a recent Saturday between 200,000 and 300,000 birds were tossed in competitions in various parts of the country, and some thousands of these feathered athletes raced to London from Bedford and Brantford, journeys of 127 and 135 miles respectively. The conditions were ideal; the weather was beautifully clear and a fresh wind was blowing to help the birds on their way; and yet under such favorable circumstances few of the birds attained a speed of one mile a minute, which in these days of swift locomotion is beginning to be considered comparatively slow.

Better times were made not long ago when 1,000 pigeons were tossed at Templecombe in Dorset. Assisted by a southwest wind they travelled so rapidly that many of them had reached their coasts some time before their owners even thought of looking for them. One bird actually covered 108 miles in 94 minutes, maintaining throughout the long journey a speed of nearly 69 miles an hour; another did equally well by travelling to Chelsea at the rate of 2,018 yards a minute, while one bird out of every ten exceeded 60 miles an hour.

A very remarkable journey, which illustrates the endurance and courage of a pigeon, was made some time ago by a bird called Silver Queen, belonging to a member of the Homing Club of South Pittsburg. On Aug. 7, 1900, this bird, with several others, was liberated from the roof of the Brown Palace Hotel, Denver, in the presence of a large gathering of people interested. The pigeons, when released, made several circles in the air, then all of them flew eastward. They were first heard of four days later, when a letter dated Aug. 11 reached the Pittsburg Club from Henry Homeyer, of Zieback county, South Dakota, saying that a carrier pigeon arrived at his place that afternoon, just after the last of several terrific thunderstorms had cleared away. Mr. Homeyer fed and watered the bird, which, afterward identified as Silver Queen, resumed its flight as though quite refreshed.

Three weeks more passed, and as no further news of any of the five birds was received, they were given up for lost. But on Sept. 6 Albert Greb, of Pittsburg, the owner of Silver Queen, while in his loft early in the morning, was astonished by seeing his bird perch upon the windowsill. She had thus accomplished a flight of 1,700 miles within a period of thirty days, during which she passed through many most severe storms of hail, rain and wind.

Belgium was for some time the scene of a daily race between a pigeon and a train which travels between Liege and Waremme, of which the Mous, a leading Belgian newspaper, gives the following account: The train starts at three minutes to 10 a. m., and a crowd gathers daily to see the pigeon go with it. The bird wheels around the station while the passengers are taking their seats, and as soon as the whistle is blown and the journey begins it takes up a position a little behind the engine, and there it flies, surrounded by the moist, though warm, steam, which it evidently enjoys. "It retains this position even while the train is passing through tunnels, and apparently is not concerned in the least by the warm vapor. When the train

reaches its destination the bird flies swiftly along the railroad track back to Liege, where it arrives about half-past 11 o'clock. This pigeon was born at the railway station in Liege, and consequently is familiar with the trains, smoke and steam."—London Tit-Bits.

THE MIKADO'S SUCCESSOR.

Interesting Data About the Crown Prince and His Children.
Royal names in Japan are not as easy to roll off the tongue as Togo and Ito. The Crown Prince is named Harumichi, and his sisters are the Princesses Taunomiya, Kanemiyama, Fuminomiyama and Yasunomiyama. The Crown Prince had two elder brothers, but they died. He himself was unmanageable as a boy. A professor of Chinese literature, who used to give private lessons in the Chinese classics (which include Confucius' Book of Precepts), in the palace, was a stern disciplinarian. One day Prince Harumichi refused to receive the lessons from the professor, because he takes the higher seat in the room than himself, who is the Crown Prince. The professor said: "I am taking the place of Confucius in teaching you the Book of Confucius. Your Highness, Confucius is above his scholars, whether they are ordinary men or imperial princes." But the Crown Prince did not acquiesce, and the professor was thereafter degraded. When the young Prince was in the Peers' College he was a terror to the young fellow-students, who, being sons of the feudal daimyos and other nobles, had to submit to him in any quarrel, no matter whether he was right or wrong. The Crown Prince is a daring young man. He has a consumptive tendency, and it is doubtful whether he would be alive to-day but for his outdoor doings. At 28 he is a splendid horseman. The Crown Prince is fortunate in his wife—Crown Princess Sadako. At 21 she had three sons. The elder, Hirohito, is in line to succeed to the throne of Japan. His next brother is Atsumiyama. The other boy is as yet a babe. According to a writer in the Independent, the Crown Prince's household is conducted on the most refined European plan, adapted to the best Japanese customs.

TOLD BY GEO. WESTINGHOUSE.

A good story of George Westinghouse, the Pittsburg inventor and organizer, is that when he had completed his air brake he submitted it to Commodore Vanderbilt, with the object of installing it on the Comstock's railroads. He was only twenty-three. He was admitted to the great railroad manager's office and permitted to explain his mission while the Commodore opened his mail. Occasionally Mr. Vanderbilt uttered a grunt merely to signify that he was listening to the enthusiastic recital. When the inventor paused, Vanderbilt was ready with his decision. "Young man," he said, "do I understand that you propose to stop a train of cars with wire?" Westinghouse admitted that was the fact.

"Well young man, I have no time to bother with fools," declared the Commodore. How to Cut Glass.
Glass can be cut without a diamond, and the way is very simple. Dip a piece of common string in alcohol and squeeze it reasonably dry. Then tie the string tightly around the glass on the line of cutting. Touch a match to the string and let it burn off. The heat of the burning string will weaken the glass in this particular place. While it is hot rub the glass under water, letting the arm go under well to the elbow, so there will be no vibration when the glass is struck. With the free hand strike the glass outside the line of cutting, giving a quick, sharp stroke with any long flat instrument, such as a stick of wood or a long bladed knife, and the cut will be as clean and straight as if made by a regular glass cutter.

Long Felt Want.
"It fills a long-felt want," was a popular expression twenty years ago. Nowadays one does not hear it so often, because there really seems to be something pat for every use. Only wings to fly. As yet we lack wings—even girls who are pretty enough to have them. But the wing exception proves the rule. What troubles people at this time is not that there is no article or invention for such and such a use, but that they don't know where to find it. Hence the necessity of free and constant advertising. Dealers must advertise or the thousand things that fill "long-felt wants" will remain unsold.

Fight One Another's Battles.
Paris possesses a curious organization with an odd purpose. It is a band of prosperous tradesmen, who agree to trade with one another to the utmost extent possible, and when necessary to help one another with loans without interest. The clique calls itself "The Tragic Fathers."

Advertisements as News.
When one wants a particular commodity one is much gratified to come upon an advertisement telling where it may be had, what it will cost and other facts about it. The information is in the nature of news, which is more important to the person interested than data concerning thecession of Saghali or the status of the Equitable war. Wiser merchants recognize this unending hunger for store news and enrich their "ads" accordingly.

The writer of advertising jingles realizes that sweet are the uses of advertisements.

Canadian Hair Restorer
Will restore gray hair to its natural color. Stops falling hair, causes it to grow on bald heads, cures dandruff, itching and all scalp diseases. Contains no oily or greasy ingredients. By its use the hair and scalps become thick, soft and luxuriant.

AUTOMOBILES HELP TO MAKE GOOD ROADS.

The crowning glory, automobilizing, however, lies in the demand it has created, in all parts of the world where motor cars are being used for pleasure or business purposes, for good roads. Here in America the good roads movement, within recent years, has become a question of national importance. With the exception of a few States, notably New Jersey and Massachusetts, the subject of better roads was last thought that gave the legislators the least particle of trouble. The Automobile Club of America in its younger days expended a tremendous amount of argumentative energy in endeavoring to convince the lawmakers of New York that money expended on good roads was a good business investment. Their appeals brought out a few thousand dollars, somewhat grudgingly given. Finally the general sum of one hundred thousand dollars was appropriated, and at the forthcoming election a constitutional amendment will be presented to the voters providing that the State may bond itself for five million dollars for ten years for the building of improved wagon roads.

Agitation has been productive of similar good results in other States. Governor Dineen, of Illinois, gave a marked illustration of the growing demand for better roads in the West when, in his last message he made a strong plea for the expenditure of more money and careful thought upon road-building. His statement that barely two per cent of the Illinois roads were suitable for traffic at all periods of the year was no exaggeration and scores of other States could show no higher average. Departments of highways have been established in California, Idaho, Minnesota, Mississippi, Missouri, Oregon, Oklahoma, North Carolina, Nebraska, and in several of the Eastern States in which the good roads movement has languished. Florida recently appropriated five hundred thousand dollars for good roads, and it is confidently predicted that within a short time there will not be a State in the Union that will not manifest a just pride in the increasing mileage of its serviceable roads good all the year round.—H. P. Burchell in the August Outing Magazine.

ONE ORFICE KETTLE.
Novel Utensil, Which is of English Origin.
A true novelty in kitchen utensils is being brought out by Birmingham, England, manufacturer, in what he has styled the "one orifice kettle." The feature of this device is that it obviates the use of a hinged lid, or in fact any lid, which sooner or later proves itself an annoyance and inconvenience in manipulating a kettle filled with hot water or other liquid. The spout is

HE TELLS THEM TO ASK THE I.O.F.
John J. Burns Cured by Dodd's Kidney Pills.
He had Chronic Inflammation of the Kidneys—Says his Brother Forsters can Tell All About It.
Darnley, P. E. I., Aug. 21.—(Special.)—John J. Burns, a prominent member of the I. O. F. here, whose cure of chronic inflammation of the Loins and Kidneys caused a sensation some time ago, reports that he is still in splendid health. "Yes," says Mr. Burns, "my cure is entirely satisfactory. I have had no troubling since I used Dodd's Kidney Pills. They drove away the disease from which I suffered for eight years. "No, I'll never forget Dodd's Kidney Pills. The doctor could not help me. I got so bad I could scarcely walk, sit or sleep. I was about to give up entirely when an advertisement led me to try Dodd's Kidney Pills. Now I am in good health. Dodd's Kidney Pills saved my life."

If anyone doubts Mr. Burns' story, he simply refers them to his brother Forsters. They all know how he suffered and that Dodd's Kidney Pills cured him.

A Sultan's Curiosity.
As an instance of the Moroccan Sultan's childlike curiosity in "the toys of Europe," a correspondent relates an incident that occurred during one of the Sultan's large shooting expeditions. A troop of soldiers accompanied as usual. The party was overtaken by three camels bearing pianos the Sultan had ordered. His Majesty had one of them unpacked in the child's delight. A few weeks later the same piano was seen at the palace, rusty from the rain and besprinkled with sand, looking like a discarded toy.

"DAD RATHER BE DEAD" than suffer again the tortures of insomnia, palpitation, nervous twitching of my muscles induced by simple neglect of a little indigestion." These are the forcible and warning words of a lady who proclaims that her cure by South American Nervine when everything else had failed was a modern miracle. A few doses gives relief—52

Costly Crown for a Statue.
Seventeen hours of religious services preceded the crowning of the statue of "The Virgin of the Pillar," in the Cathedral of Saragossa. Twenty-two altars were in use, services being continuous at all of them, and at last the Archbishop advanced with due solemnity and placed the crown upon the head of the statue, while a military band stationed outside played the royal march and a salute was fired from the fort.

Wanted No Rival.
The young Princess Victoria of York was recently asked whether she would like to have a little sister. "A sister, yes," she said on reflection. "A sister, but not another princess."

SUNLIGHT SOAP

Unless the soap you use has this brand you are not getting the best.

ANSWER.
"What are you doing for your baby?" The young married man did not reply. Instead, he put his hand in his pocket and presented the following:

A CARD.
In answer to the question as to what we are doing for our baby, we would say that up to date we have fed him on sterilized, unsterilized, pasteurized cow's, goat's, condensed peptonized and modified milk. We have rocked him to sleep, sung him to sleep, and let him howl himself to sleep. We have doted him with hot water, peppermint, ipecac and soothing syrup. We have rubbed him with goose oil, olive oil and cod-liver oil. We have patting him on his stomach to the tune of John Brown's Body. We have shaken a rattles before his face for three-quarters of an hour.

We have given him mental treatment, vibration treatment, and turned red, blue and green thoughts on him for hours. We are here to take orders and advice from everybody, and if you have the slightest thing to suggest that we have not already done to that baby, do not tell us. We may forget it. But write it down and send it along at the earliest possible moment.

Yours respectfully,
THE BABY'S PARENTS.

RHEUMATISM—WHAT'S THE CAUSE?—WHERE'S THE CURE?— The active irritating cause of this most painful of diseases is poisonous uric acid in the blood, South American Rheumatic Cure neutralizes the acid poison. Relieves in six hours and cures in 1 to 3 days.—30

A GOOD STORY.
John Burroughs, the naturalist, was laughing about the story of a lion tamer who, instead of a wild duck that got a salt water mussel caught on its tongue and could not get it off, found the salt in the fresh water, where it tipped the mussel, sickening it through osmosis and thus causing its firm grip.

"I believe that story of the duck that understood the theory of osmosis," Mr. Burroughs said. "I believe it as implicitly as I believe the story of the crippled lion and the young lieutenant."

Perhaps you have heard this story? Not well, then, a young lieutenant, during an African campaign, came across and shot a crippled lion. The great brute limped over the tawny sand on three paws, holding its fourth paw in its air. And every now and then, with a kind of groan, it would pause and lick the injured paw pitiously. When the lion saw the young lieutenant it came toward him. He stood his ground, rifle in hand. But the beast meant no harm. It merely came to rub its paw against his soft felleo paws; it extended its hurt paw. The lieutenant examined the paw and found that there was a large thorn in it. He extracted the thorn, the lion roaring with pain, and he bound up the wound with his handkerchiefs. Then, with every manifestation of relief and gratitude, the animal withdrew. But it remembered its benefactor. It limped up to him in a practical way it recognized the lieutenant's superior in rank. Thus in a few weeks the young man, thanks to the astute animal, became a colonel."

NEW YORK, PHILADELPHIA
In going to above points take direct route Lehigh Valley Railroad. Five fast express trains daily, from Suspension Bridge, Niagara Falls. Trains of G. T. R. make direct connection at Suspension Bridge. The Lehigh Valley has three stations in New York uptown, near all first class hotels and business houses; downtown, near all European steamer docks, saving passengers for Europe a long and expensive transfer. Secure your tickets to New York or Philadelphia via Lehigh Valley Railroad.

A Typographical Error.
Laurence Hutton cited as the most perplexing and, at the same time, most journalistic and literary career one which occurred in an article he wrote at the time of the consolidation of the Astor, Tilden and Lenox libraries, in which he was asked to express the following opinion: "New York, perhaps, has never fully realized until this day how greatly it has been enriched by the receipt of the vest buttons of James Lenox!" He had written "vast buttons."

AUGUST CENTURY SALES.
Although the August edition of the Century was largely increased, to meet anticipated demand for the magazine containing Rudyard Kipling's "An Habitation Entoreed," the edition was virtually exhausted in less than a fortnight from the date of issue. Within a week the main office of the American News Co. had not a copy left; and the publishers have not sufficiently reserve supply to meet the demands coming from the news companies throughout the country.

ORANGE BLOSSOMS
That precious remedy, is a positive cure for all female diseases. Write for description free and free sample. R. S. McGILL, Simcoe, Ont.

OUR LATEST PARLOR "SILENT" MATCH
NOISELESS. HEADS WON'T FLY OFF.
If dropped on the floor and stepped on, it will not ignite, as sometimes happens with the common parlor match. It strikes on any surface, the best yet.
ASK YOUR GROCER FOR A BOX.

Ayer's Hair Vigor
Why is it that Ayer's Hair Vigor does so many remarkable things? Because it is a hair food. It feeds the hair, puts new life into it. The hair cannot keep from growing. And gradually all the dark, rich color of early life comes back to gray hair.

PROFESSIONAL CARDS.

C. C. FULFORD, BARRISTER, Solicitor and Notary Public etc. for the province of Ontario, Canada.

Additional Local

Looks like fall fair weather. Camp meetings are in progress.

Charleston Lake has had a busy season. August over already Got your coal in yet?

Get your printing done at the Reporter Office. The carpenters at the Public School are rushing their work.

What is a great difference between daylight and lamp-light? Electric light.

Athens is to have another grocery, if rumor has things correct. Messrs. Ira Kelly and Campbell Tribute are to be the new proprietors.

The regular council meeting will be held Monday evening in the new town hall, when the tax rate will be struck for the current year.

\$7.00 per cwt was paid for hogs at Athens station Monday. Those who are fortunate enough to have porkers on hand are reaping a reward.

Mr. and Mrs. Morley Earl have the sympathy of the community in the loss by death of their infant twin daughter on Thursday. The other twin died a few weeks ago.

Miss Maggie, daughter of Mrs. C. Niblock of Athens, is still at her sister's, Mrs. Eaton, at Frankville, since the successful operation by Dr. Dixon & Bourne, for the removal of tuberculous swellings in her neck.

The Pinehill English Church Sunday School will hold their annual picnic at the Rolling Bank, Charleston, on Saturday, Sept. 2nd. Mr. Loverin will convey those wishing to attend from Charleston village in his launch, leaving the dock at 9.30 a.m.

Henry Johnston and son Roy, who lived at Lake Elvida, until last April, are doing well as a result of their first crop at Watson, Saskatchewan district. They have a 1/2 section of land, and on ground sown on the 18th of May, they have a yield of between 50 and 60 bushels to the acre.

The Misses Gilbert and Morris expect to bid the goods and counters adieu the fore part of next week for Toronto by boat. The former will be en route for Lindsay to act as bridesmaid on Wednesday next at the marriage of her cousin, Miss Beatrice, a daughter of E. Bowes, one of Lindsay's enterprising business men, to W. F. Webster of that town.

THOSE WHO HAVE GONE TO TORONTO TO EXHIBITION.—Mrs. Wright and her daughter Mary, and Mrs. dePencier on Friday by boat; Mr. and Mrs. G. W. B. Bach, Monday, by boat; Mr. and Mrs. H. W. Kincaid, Monday, by boat; and Messrs. John Wiltse and Irwin Wiltse and son, Mr. and Mrs. H. H. Arnold, Mr. and Mrs. E. S. Clow, and the Misses Purvis and Weeks—all by train Tuesday morning; Mr. and Mrs. James Mills, Tuesday by boat. The last mentioned were en route for home at Westover, near Hamilton. They had been guests at the home of his sister, Mrs. W. Johnston (P.S.1) for several days.

DR. ANNA ALGUIRE HURT.—By the Daily Northwestern, published at Belvidere, Ill., in its issue of Aug. 21, sent to lady friend here, and kindly loaned us by her, we learn as follows:—Dr. Anna Alguire was severely injured yesterday about 5 p.m., at Camp Epworth, where she had been spending the day in company with her mother, Mrs. Herbson, and Dr. Bert Sherrett, a lady friend from Hamilton, Canada, who is her guest. The accident occurred in the Corral when the horse had just been hitched to the buggy preparatory to the return home. Dr. Anna was the first to get in. She had secured the lines, when the horse immediately started to run and the Dr. endeavored to hold her up and keep her in the road, but it seemed impossible. The horse ran into the gate, the leader of the cart crashing, and the force threw Dr. Anna out striking on her head and shoulders. The cart passed over her body. The others were uninjured. Upon examination by several doctors it was found that one rib was broken and there were other internal injuries, which were not apparent at time of going to press. She was taken to her home in Belvidere. A later account stated that she was improving.

ROBERTSON—WILTSE

Many Athenians were early on the qui vive this morning to attend the marriage of Miss Edith E. daughter of Phil. Wiltse, of the mercantile firm of Pierce & Wiltse, to Edgar A., son of W. W. Robertson, a dealer in harness and saddlery of Montreal.

The ceremony took place in St. Paul's Presbyterian Church at 8.30 a.m. The pastor Rev. I. N. Becksteit B.A., officiated. The bride was gowned in white silk eolienne with veil and orange blossoms. She looked charming as she entered the church on the arm of her father. The groomsmen was W. O. H. Percy of Montreal, while Miss Edna G. Robertson, sister of the groom, waited on the bride. Miss Brown of Phillipsville presided at the organ.

The church was beautifully decorated with golden rod and golden glow. An elaborate early dinner was served at the residence of the bride's father on Main St., which was beautifully decorated for the occasion. A large number of invited guests were present. The presents were appropriate and costly.

The newly married couple, were conveyed by a commodious cab, to catch the afternoon train, for Montreal. The bride's going away suit consisted of blue ladies' cloth with white silk waist and blue togue with touches of white.

HARVESTING THE WHEAT CROP OF THE GREAT WEST, Latest advices from Winnipeg state that the wheat crop of Manitoba and the Canadian Northwest will exceed all previous seasons.

A great number of eastern laborers will be required to assist at harvesting, and farm laborers' excursions will be run from all points.

FARM LABORERS' EXCURSIONS, Sept. 6th, 1905.—From all stations in Ontario, South St. Mary, Sudbury, Maberley and East, and stations east of King-ton.

Tickets will be sold to female as well as to male laborers, but will not be sold at half rate to children.

At Winnipeg the special trains will be met by farmers and by representatives of the Manitoba Government. Laborers may engage with them at Winnipeg, and ticket agent will issue free ticket from Winnipeg to C. P. R. station where he has engaged to work.

After a laborer has worked for at least thirty days, and has certificate signed by the farmer with whom he has worked, and certificate will be honored prior to Nov 30th for a ticket to return to starting point by same route as on going journey, on payment of \$18.00.

150 lbs. baggage, wearing apparel only, will be allowed on each ticket, and each piece of baggage checked should bear the name of the owner, and show their home address. It will be readily understood that some difficulty may be experienced in handling some thousands of pieces of baggage at one station. Therefore, when possible, baggage should be carried in hand grips, which passengers should take in the cars with them.

Further information will be supplied on application to any Canadian Pacific Ry. ticket agent. In ending excursions should notify nearest ticket agent at once. See advertisement in another column.

BIRTHS

KNOWLTON.—At Windsor, on Monday, 28th inst., to Mr. and Mrs. Chaud—Knowlton, a son.

Dr. Hugo's Health Tablets for Women

These tablets are the prescription of Dr. Hugo, of Paris, a distinguished specialist in women's diseases—a prescription for which thousands of women in Europe have paid \$50. They are compounded for the special needs of women alone—embody the results of the very latest medical discoveries—contain ingredients recently discovered that no other remedy contains—are a compound remedy, containing something for every organ of the female system—are purely vegetable, containing neither alcohol nor opium.

Make Healthy Women

Ogilvie's Royal Household Flour. Bran waste is one great difference between good and poor flours. The food part of flour is "protein." Protein makes bone, muscle and brain.—There is no protein in bran.—bran is the outside part, the husk or "bark" of the wheat.—bran is the part of the wheat which is absolutely without food-value to the human system.—bran represents part of the difference between Royal Household Flour and whole-wheat flour or cheap, inferior flours that are poorly milled and not thoroughly purified. No other flour in this country is so thoroughly and completely separated from the waste as is "Royal Household," because no other mills are so well equipped or exclusively devoted to the production of scientifically pure flour as Royal Household mills. Ogilvie's Royal Household Flour.

TAYLOR'S SHOW ROOMS. Every Prosperous Farmer. Will tell you that the Massey-Harris Binder is the right binder to buy, as it will satisfactorily handle any crop. It is famous throughout the world for its reliability and durability.—It has no equal. All the Massey-Harris implements are sold here, and, in fact, everything in machinery that a Leeds county farmer requires.—Price and terms will suit.

Canada Carriage Co. Goods. We have full line of buggies of every description. Vehicles made by the Canada Carriage Co. look well and wear well—that's why they sell well. AGENTS FOR THE FAMOUS HEINTZMAN & CO. PIANOS. A Piano Bargain—A brand new Palmer Piano for sale—would deal for a horse or cattle. When you want farm machinery of any kind, call at.....

TAYLOR'S SHOW ROOMS. MAIN STREET, ATHENS. Trade Mark Registered in Canada June 24 1897. ONLY DOUBTERS SUFFER. OXYDONOR compels the body to absorb quantities of oxygen from the air, thus making disease impossible. Disease is forced out by the regenerating, vitalizing power of oxygen. Oxydonor causes the body to be cured and re-invigorated, just as sunlight and pure air revives the drooping plant and makes it grow. It conveys to the sufferer the element that makes all life possible. For years Oxydonor has been the life guard of more than a million persons. Write TO-DAY for book I, mailed free. Send us a description of your case. We will answer you promptly. 161 Euclid Ave., Toronto, Ont., Nov. 8th, 1902. Dear Sir:—I hereby certify that we have used Oxydonor No. 2, continuously in our family for the last twenty months, and I believe it to be a valuable agent for building up and giving increased life and power to weak men and women. I would not part with the one we have. Yours respectfully, ARTHUR W. STRICKLAND. Beware of dangerous and fraudulent imitations. The genuine has the name of "Dr. H. Sanche & Co." plainly stamped in its metal parts. DR. H. SANCHE & CO., 2268 St. Catharine St. Montreal, Canada. 1714 St. St. Detroit, Mich. 361 Fifth Ave., New York, N.Y.

THE WEST END GROCERY. Bran, Shorts, Provender, Barley Meal. Prosperous, progressive farmers find it pays to feed. We have just received a car-load of the milk-producing goods. Call and see what we can do for you.

The Best on the Market. ST. REGIS LUMBAGO CURE. An Indian Remedy. Guaranteed to Cure Lame Back or money refunded! An excellent remedy for Rheumatism, Lame Back, Etc., Etc. Read the following testimonial from a man you all know: Newboro, Aug 2nd, 1905. Mr. W. A. SINGLETON, Crosby, Ontario. Having used your remedy for five years I am pleased to state I cannot say too much regarding the benefit I received from it. I suffered from Lumbago, Sciatica and also from a stroke. To-day however I can thank St. Regis Lumbago cure for my present good health. I would not be without this medicine in my home. Yours truly, JAMES BARKER.

NERVOUS DEBILITY CURED. Excesses and indiscretions are the cause of more sorrow and suffering than all other diseases combined. We see the victims of vicious habits on every hand; the hollow, pimpled face, dark circled eyes, stooping form, stunted development, bashful and melancholic countenance and timid bearing proclaim to all the world his folly and tend to blot his existence. Our treatment positively cures all weak men by overcoming and removing the effects of former indiscretions and excesses. It stops all losses and drains and quickly restores the patient to what nature intended—a healthy and happy man with physical, mental and nerve-powers complete. For over 25 years Drs. E. & K. have treated with the greatest success all diseases of men and women. If you have any secret disease that is a worry and a menace to your health consult our established physicians who do not have to experiment on you. We guarantee to cure Nervous Debility, Blood Diseases, Stricture, Varicocels, Kidney and Bladder Diseases. Consultation Free. If unable to call, write for a Question Blank for Home Treatment. Drs. KENNEDY & KERGAN, 149 Shelby Street, Detroit, Mich.

SOME SUIT FACTS

The man who doesn't care what his suit costs him will have it made by a Custom Tailor, unless he is in a hurry.

The man who does care what it costs but does not care what he gets, won't get his suit here, that's certain.

The man who both cares what it costs and cares what he gets,—that's the man we delight in.

PLEASE WORK AND PROVIDE FOR

Our suits at \$5.00, \$7.00 and \$10.00, are well worth the time it will require in coming in to see them.

They are certainly unusual suits for the money.

We make our values a sort of premium for patronage

Nervous Debility

A POSITIVE CURE IS WHAT YOU WANT

Nervous Debility often results from excessive brain work and worry, as well as from excesses, and the abuse of nature's laws. It causes loss of energy and ambition, easily exhausted, falling memory, despondency, specks before the eyes, loss of vigor, tired in mornings, weak back, poor circulation, nervousness, dreams at night, weak limbs, poor appetite, etc. Don't wait until it's too late.

DR. SPINNEY, Founder of Dr. Spinney Co.

Additional Locals

Mondav is Labor day—and Newboro Fair.

The duck shooting season opens Friday, 1st. September

Mr. J. A. Rappell has been on the sick list, but is now better.

Mrs. D. P. Hamilton returned home to Smith's Falls on Tuesday.

Mrs. J.H. Ackland spent last week the guest of Newboro friends.

Mrs. Beckstead leaves this week to visit Toronto and Guelph friends.

Mrs. Thos. Vanarnan and Master Charlie, Havelock, are guests of friends here.

Hailstones as big as a goose egg were found at Toledo to day during the storm.

Mrs. S. C. A. Lamb is spending the week the guest of relatives at Smith's Falls.

Mr. Harry Smith of Greenbush is the latest addition to the staff of the Reporter.

It is expected the new school will be ready for occupancy about the 1st of the new year.

Miss Edith Brown of Sheldon's Corners spent last week the guest of Miss Hazel Rappell.

Mrs. Harry Blanchard and daughter of New York are guests at the home of Mr. A. W. Blanchard.

Mr. Ora Grundy of Syracuse, N. Y. is in town this week the guest of Mrs. Jas. White and other friends.

The barn of Samuel Barnes at White's Corners was struck by lightning and burned during to-day's storm.

Miss Berrv, Parishville, N. Y. and Miss Loleta Wood, Brockville, are guests of their cousin, Miss Clara Taber

Toledo now boasts of a bank—the Union Bank of Canada having opened a branch there. It is only open on Thursdays.

George Patterson, who had his arm broken in a runaway accident at Montreal, is on a visit to his home here on Reid street.

The Delta Fair, which takes place on Sept. 27th and 28th, promises to be larger than ever. The lists are now in the hands of secretary Phelps, who is busy mailing them to all enquirers.

During the absence of Rev. L. M. Weeks on Sunday, the pulpits of the Baptist churches at Athens and Plum Hollow were filled by Mr. Hilliard Jones who has a bright career ahead of him in his chosen calling.

The pulpit of the Methodist church was ably filled on Sunday, in the morning by Mr. Claude Gordon, a bright young divinity student, and in the evening by Rev. Wm. Rilance. Both sermons were interesting and instructive.

Mr. and Mrs. Jackman of Burlington, Vt., contemplate removing to Cambridge, where Mr. J. intends to take a post graduate course at the university there. They expect to move about Sept. 25th. The Reporter wishes them every success.

Mr. W. F. Earl has laid the pipes necessary, from his shop to the new town hall, with which to illuminate that building with acetylene gas. When all the fixtures are installed and the light turned on the new building will present an imposing appearance.

S. B. Wright, divinity student, son of late Rural Dean Wright, of Athens, has Tamworth parish in charge during the absence in England of Mr. J. W. Jones. It is a crude but well meant compliment to add that he is "a chip off the old block."—Ontario Churchman.

H. S. Drussell, of Frankville telephoned chief Burke last week to locate an orphan boy named Chas. H. Clarkson, who disappeared from his home recently. Clarkson is described as being 17 years of age, dressed in a brown suit with small stripes, and peaked cap.

The Reporter Job Department has been working day and night to turn out the prize lists for Frankville, Delta and Lyndhurst fairs, and the other office work. But we are pleased to say—the lists for Delta and Frankville are now in the respective secretary's hands, while Lyndhurst list will be out in the course of a few days.

The Misses Rowe of Brockville spent a few days this week the guests of Mrs. O. L. Lamb.

The picnic at Toledo on Wednesday afternoon last attracted quite a few from here.

Mr. Fred Ritter, one of Athens bright young men, is home from New York for a three weeks' holiday at the home of his father, Mr. Mat. Ritter.

Mrs. Ritter accompanies him. They are now holidaying at the lake. We trust Mr. Ritter's health may be greatly improved as a result of his sojourn here, and that he may rise to a higher position than he now holds.

Athens' News Agency, Box 240 Athens P. O., Rev. W. Rilance, Manager Orders for all kinds of newspapers and Magazines that are pure. It makes a specialty of giving club rates for the leading daily papers at great reduction. It also takes orders for books—It received a large one this week. Advise the Agency for the lowest possible price of anything you want.

If you knew about a remedy on the market which could cure your rheumatism forever in two weeks or probably a little longer, how long would you hesitate before paying 50c for this remedy. The poison that will kill one man will kill another. Similarly the remedy that will cure Rheumatism in one person will cure it in another. Tuck's Rheumatic Bone Oil has cured the worst cases of Rheumatism on record. The following un solicited testimonial tells more than we could tell in a column of this newspaper:—

I tried your Bone Oil for Rheumatism, and my wife tried it also for Rheumatic Pains in her legs. Health being better than wealth, we are thankful for our cure. Had I not received your oil just in time I would have been obliged to sell my farm from inability to work it. We can cordially endorse your Bone Oil.

THOS. WILTON, Montague.

Tuck's Bone Oil cures because it is powerful enough to strike at the seat of the disease. It allays inflammation almost immediately and relieves the agony of pain. Ask your druggist or send 50c for a trial bottle to THE TUCK BONE OIL CO. LIMITED, Smith's Falls Ont.

INTERNATIONAL LESSON NO. XI. SEPT. 5TH, 1905

The Life Giving Stream—Ezek. 47:1-12

Commentary.—I. The source and progress of the Gospel (vs. 1-5). 1. Again—Now follows another vision to inspire hope and faith in the exiles, to lead them to prepare by a right life for their return, and to make them willing and anxious to return, attracted by the blessings yet to come upon the land, contrasted with their sad condition in exile, etc.—The temple. The waters, etc.—The natural fact on which this conception rests is, that there was a fountain connected with the temple hill, the waters of which fell into the valley east of the city and made their way toward the Dead Sea. This was the only natural fountain stream flowing from Jerusalem. It was a small stream, whose soft-flowing waters were already regarded as a symbol of the silent and unobtrusive influence of the divine presence in Israel (Isa. viii. 6). The waters of this stream flowed eastward, but they were too scanty to have any appreciable effect on the fertility of the region through which they passed.—Skinner.

2. The man.—The angel described in chapter xl. 3. There is no special significance to the exact distance, but only to the fact that gradually the river broadened and deepened as it flowed toward the sea. Ancestors... knees, etc.—This may be applied to the gradual discovery of the plan of salvation. 1. In the patriarchal ages. 2. In the giving of the law. 3. In the ministry of John the Baptist. 4. In the full manifestation of Christ by the Holy Ghost. 5. Waters to be applied to the souls of men, starting from the temple, feeding itself and so soon becoming a mighty river, is a type of the Gospel as it spreads and deepens among all the nations of the earth, transforming the desert into a garden of Eden.

II. The power and efficacy of the Gospel (vs. 6-12). 7. Many trees—So long as the beholder, the prophet, followed the measurer, the angel, he saw nothing of the trees on the bank. The looking forward gave him the knowledge of the progressive fullness and depth of the waters; not until he looks back does he come to know the fertilizing, enlivening effect of these waters.—Lange.

8. Into the desert.—The Arabah, the valley of the Jordan and the Dead Sea extending south to the Red Sea. The country between Jerusalem and the Dead Sea is "the most desolate and inhospitable tract in the whole country. There the steep declivity of the hill-tops range rises to retain sufficient moisture to nourish the most meager vegetation, although the few spots where wells are found, as at Engedi, and the prophet sees the trees of life growing on the banks of the river and the whole region transformed, like the oasis around the fountain of Engedi, into the sea.—The Dead Sea, the waters of which are so impregnated with various salts that no fish or animal can live in them. waters shall be healed—Restored to their proper condition, made healthful. This is typical of the work of the Holy Spirit.

9. Shall live—Life and salvation shall continually accompany the preaching of the gospel; the death of sin being removed, the life of righteousness shall be brought in.—Clarke.

10. In this verse we are told that the fishers shall stand from one end of the sea to the other and catch many fish. 11. The miry places and marshes shall not be heaved, but shall be given to them and shall be healed by the healing waters of the gospel through their faith and earthly-mindedness are given over to their own bitterness and barrenness. "The gospel is the only healing medicine for the disorders of our fallen nature, and they who will not receive it in the love of it remain incurable and are abandoned to final ruin."—Benson.

12. Trees for meat—Salvation must present itself for the terribly sick heathen world, above all, in the form of saving grace. Besides the nourishing fruits, therefore, are named also the healing leaves. The figure of the fishes refers to the extent, the greatness, of the community; this figure of the tree to its nature in so far as the divine grace transforms it into truly living members, who themselves bear rich fruit and thereby become a means of life and recovery to others also.—Lange. Fruit according to

his months—"This signifies a constant disposition, desire, resolution and endeavor to bear fruit, not in their own wisdom, power or goodness, or any goodness in themselves, but by the continual supplies of divine grace. When he is the instrument of planting them, it is divine grace which gives the increase."

PRACTICAL APPLICATIONS. Ezekiel had prophesied that Israel should be restored to their own land (Ezek. xxxvi. 24), a new temple should be built (Ezek. xli. 1) and the priesthood be re-established and entrusted with service and sacrifice, no longer anticipative, but memorial (Ezek. xliv. 15; xlv. 28-31; xlv. 4, 25). Here he sees "from out of the sanctuary issue living waters which carry healing and fertility and life wherever they go."

"Water issued out from under the threshold of the house" (v. 1). Water is a type of spiritual life, the gift of God the Father (John iv. 10); God the Son (John iv. 14); and God the Holy Spirit (Isa. xlvii. 38, 39). The word of God is the instrument God uses to purify or to satisfy us (Ezek. xxxvi. 25; Eph. v. 26; Isa. lv. 1; Rev. xxii. 17). "The waters come down" (v. 1). The way from God to man is always "down," whether man be living under conscience (Gen. xi. 5), under law (Exod. xix. 20), in captivity (Dan. iv. 13), or under grace (John iii. 13; vi. 38, 41, 51, 58). The waters came... from the right side of the altar (v. 1). The "right" way is the bright way. The righteous shine here (Matt. v. 14-16) and hereafter (Dan. xii. 3; Matt. xiii. 43). Facing the east the right side is toward the south, the place of warm devotion. The waters came down—from the altar" (v. 1). Type of Calvary, the place of sacrifice. From the wounded side flowed blood and water (John xix. 34).

"Then brought He me" (v. 2). "He brought me" (v. 3). Salvation is all from God. All the way it is a "gift" to receive. It is "by grace... not of works" (Eph. ii. 8, 9). If we will "let God" (Rom. iii. 4; Psa. lxxviii. 1) he will lead us into his "mercy" salvation (Heb. vii. 25), even to the "salvation ready to be revealed at the last time." "The waters were to the knees" (v. 4). Water kneed-deep speaks of spiritual worship (1 Kings vii. 54; Dan. vi. 10; George W. McCalla, in his "Rising of the Waters," says "the worship is not only in the Spirit, but according to the truth (John iv. 24). Kneedeep waters have to do with sanctification of the Spirit and belief of the truth (H. Theses, p. 13) with those who accept Christ as their teacher as well as their sanctifier; who have not only purity of heart, but are filled with the knowledge of his will in all wisdom and spiritual understanding" (Col. i. 9).

"For the waters were risen, waters to swim in, a river that could not be passed over" (v. 5). This is the deep place where Christ is all and in all (Col. iii. 11). No limit, no measure; unfathomable, impassable. It is God's will that his people should know the deeper spiritual truths. They may be sanctified wholly, be filled with all the fullness of God. Abbie C. Morrow.

AUTOMOBILE RIDE.

A WOMAN 105 YEARS OLD WHO NEVER WAS IN A TRAIN.

Bridgeport, Conn., Aug. 28.—Mrs. Deborah Silliman, of Easton, a village five miles from here, was 105 years and six months on Monday. To-day she took her first ride in an automobile, accepting an invitation extended to her by Marshall S. Driggs, of New York, to spend an afternoon travelling about the country in his big touring automobile. Mr. Driggs, who is at his summer home in New Canaan, drove up to the door of the Silliman homestead at about two o'clock and took the aged lady into the tonneau of his machine. Then they started off and travelled all over the town and about the country, taking a trip of nearly an hour. Sometimes the speed of the big automobile made her hold on to the seat and gasp for breath. She was wonderingly slow, fencer and farm houses racing by her. She preferred a moderate pace and at her request, the speed of the car was kept well within the limit allowed by law.

The last time I travelled very fast was in a stage coach which ran through Fairfield from New Haven to New York," said Mrs. Silliman. "I've seen a steam engine, but I never travelled in a train. I never saw a trolley car."

Mrs. Silliman enjoyed her ride immensely, and on her return she was very enthusiastic over it. She eagerly accepted an invitation to go out again in a few days. "I remember we used to go to Fairfield for news of the war of 1812," said Mrs. Silliman. "I remember we used to travel then and I suppose I got to like horses, so I've never been curious to ride in one of the new fangled things. But that automobile ride was grand. I never imagined anything could be so pleasant."

A telephone was installed in Mrs. Silliman's house about a month ago and she used it only once. She said that to have a voice she knew coming out of two wires gave her "fidgets."

Electricity was our mode of travel then and I suppose I got to like horses, so I've never been curious to ride in one of the new fangled things. But that automobile ride was grand. I never imagined anything could be so pleasant."

FOUL MURDER AT STRATFORD.

Result of a Drunken Row at John Gamble's Shanty.

An Indian Named Seneca Run Over by Train.

Two Men Arrested in Connection With the Tragedy.

Stratford, Aug. 24.—Another dark chapter has been added to the criminal annals of Western Ontario in the shocking death of John Gamble, a disappointed resident of Stratford, and Adam Seneca, a member of a band of Indians who have been engaged in pulling flax in the fields near the city. That Gamble was brutally murdered by the Indian there is but little doubt. There is a strong presumption that Gamble avenged himself on the Indian by inflicting upon him injuries which led directly or indirectly to his death. But there is also in the background the possibility that one or more other persons had a hand in the death of the two victims, and it is this contingency which will lend interest to the proceedings to be taken at the coroner's inquest to be held to-morrow morning at 10 o'clock in the Police Court chamber at the City Hall.

Until a few months ago John Gamble resided with his wife and family in Stratford, but finding that his family life to a certain extent was a restraint upon his indulgence in periods of debauchery, he left his wife and children and went to live in a miserable shack, which he erected against the fence of a small farm which he held at the intersection of Romeo street with the Buffalo and Goderich branch of the G. T. R. He at times entertained questionable company, and the house heard sound of drunken mirth and quarrelling from the spot. Last night these sounds were again heard, and it was evident that another debauch was in progress, but no one expected the tragic termination which the morning revealed.

Train Crew Found Bodies.

About 5:30 a.m. to-day a freight train on the Buffalo and Goderich branch was rounding the curve near Gamble's shack when Engineer Dan McGovern saw the body of a man on the track ahead. He gave the usual warning signals and reversed his engine, but there was no movement of the proscribed train. It is God's will that his people should know the deeper spiritual truths. They may be sanctified wholly, be filled with all the fullness of God. Abbie C. Morrow.

SENECA AND GAMBLE KILLED EACH OTHER IN A FIGHT.

Stratford, Ont., Aug. 25.—At the inquest held on the bodies of the Indian Seneca and John Gamble, which were found but on the outskirts of this city yesterday morning, a sensational statement was made by Harold Crowfield, one of the men last in the company of the train to the effect that Seneca is not the man who was in the shack the night

Washing Blood From Face.

Inside the hut was found a man named Harold Crowfield, an English mechanic, brought to the city by the Grand Trunk Railway Company to take the place of one of the striking workmen at the shops here.

Result of Post Mortem.

Coroner J. P. Rankin empaneled a jury during the afternoon, and after the bodies were viewed an adjournment was made until 10 a. m. to-day. The bodies were then removed from the hut to the mortuary for post-mortem examination where the post-mortem was made by Dr. D. B. Fraser and Dr. Joseph Corcoran. While the official report is not made public until the inquest is resumed, it is learned that the injuries which Seneca had sustained from being run over by the train, he had received a heavy kick or blow in the leg, which had caused a laceration of the large intestine. This injury was sufficient to give the Indian intense pain and severe shock to the system, and without surgical attention would ultimately result in death. The Indian's skull was also fractured, but the weakness of the circulation consequent upon the internal injury will make it difficult to determine whether or not the fracture was sustained during the fight or under the wheels of the engine. It is the opinion of the medical men that the Indian was either dead or in a very weakened condition when struck by the train.

Could Have Walked to Track. It would have been possible, they say, for him to have walked to the track after receiving the injury to the stomach; it would have been equally possible for him to have inflicted the fatal blow upon Gamble after he himself had been wounded to the death.

IF you put the right tea into the teapot there's no fear about the results. Ceylon Tea is the world's preference. Black, Mixed or Green. Highest award St. Louis, 1904. Sold only in Lead Packets. 40c, 50c, 60c per lb. By all Grocers.

Gamble's injuries were confined almost entirely to the head, but they were of a frightful nature. His skull, which was of a normal thickness, had been fractured by vicious blows, large pieces of the bone being driven into the brain. Both eyes were blackened, and the face and head bore other marks of the deadly struggle which was waged about the lonely cabin in the small hours of the morning. Gamble's left leg was a little shorter than his right, owing to an old and badly-set fracture just above the ankle.

Crowfield's Story. Immediately upon their arrival at the scene of the tragedy, the police arrested Crowfield, who was found in the shack. His story of the affair was that Gamble, Seneca, Caleb Poyner, a weak-minded man, and himself had been drinking at the cabin all evening, about 2 o'clock in the morning a quarrel arose between Gamble and the Indian, and after fighting in the hut they went outside to finish it. There were sounds of a fierce struggle, and Crowfield says that he put his head outside the door to see what was going on. He did not see that he had been struck a terrific blow by a bottle or some other blunt missile, and he lost consciousness, knowing no more till the train crew made their appearance. In this, however, he is contradicted by the crew, who say that he must have seen Gamble's body, which lay in front of the open door.

Later in the morning the police arrested Poyner at the house of a friend, Thomas Donaghy. Poyner at first declared that he had not been near Gamble's hut, and in this he was backed up by the Donaghy family, whose members heard sound of the previous evening. Poyner later acknowledged having been drinking at Gamble's hut, and said that when the fight started he became frightened and ran away.

Both Crowfield and Poyner give the impression of holding something back, and if they do not refuse to give evidence at the inquest some interesting testimony may be drawn out in their examination by Crown Attorney G. G. McPherson.

At a meeting of the Executive Committee of the Methodist Board of Missions, held in Toronto, yesterday, it was decided to recommend that the Rev. Alexander Sutherland, D.D., general secretary of the board, shall proceed to China and Japan after the annual meeting of the General Board, which this year will be held in October at London, and that he shall conduct an official visit to, and inspection of, the Methodist mission stations in Western China and throughout Japan.

THE IDEAL WIFE

Shapes the Destiny of Men—The Influence of a Healthy Woman Cannot Be Overestimated.

Seven-eighths of the men in this world marry a woman because she is beautiful in their eyes—because she has the qualities which inspire admiration, respect and love. There is a beauty in health which is more attractive to men than any other quality of a woman's feature. The influence of women glorious in the possession of perfect physical health upon men and upon the civilization of the world could never be measured. Because of them men have attained the very heights of ambition; because of them even thrones have been established and destroyed.

What a disappointment, then, to see the fair young wife's beauty fading away before a year passes over her head! Alas! my dear friend, if you are a woman, especially when she is the mother of a family, is a damper to all joyousness in the home, and a drag upon her husband.

The cost of a wife's constant illness is a serious drain upon the funds of a household, and too often all the doctoring does no good. If a woman finds her energies are flagging, and that everything tires her, dark shadows appear under her eyes, her sleep is disturbed by horrible dreams; if she has headache, nervousness, irregularities, or depression, she should take means to build her system up at once by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

This great remedy for women has done more in the way of restoring health to the women of America than all other medicines put together. It is the safeguard of woman's health. Following we publish, by request, a letter from a young wife.

Mrs. Bessie Ainsley of 611 South 10th Street, Tacoma, Wash., writes: "Dear Mrs. Pinkham—'Ever since my child was born I have suffered, as I hope few women ever have, with infirmities, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so that I could not enjoy my meals, and half my time was spent in bed. Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every woman who is in poor health and ailing. Its benefits begin when its use begins. It gives strength and vigor from the start, and surely makes sick women well and robust. Remember Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of women's ills. This fact is attested to by the thousands of letters from grateful women which are on file in the Pinkham laboratory. Merit alone can produce such results.

Women should remember that a cure for all female diseases actually exists, and that cure is Lydia E. Pinkham's Vegetable Compound. Take no substitute. If you have symptoms you don't understand write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

THE MARKETS.

Table of market prices for various commodities like wheat, corn, and flour.

Table titled 'Toronto Fruit Market' showing prices for various fruits.

Table titled 'British Cattle Markets' showing prices for different types of cattle.

Table titled 'Cheese Boards' showing prices for various types of cheese.

Table titled 'Toronto Live Stock Market' showing prices for live animals.

Table titled 'Leading Wheat Markets' showing prices for wheat from different regions.

Bradstreet's on Trade. Montreal—Wholesale trade here is showing rather more activity than a week ago. Orders for fall dry goods are more numerous. Groceries are moving better, and there is a fair movement in hardware. There is considerable activity in metals and prices have a firm tone. Values of commodities generally are steady. Butter and cheese have shown a firmer tendency, although not as firm as in the past. The market is generally quiet. The quality of wheat is unusually good.

London—There is a good business being done for this time of the year. Orders for fall dry goods continue large and the outlook for trade generally is bright.

Utawa—There is a good tone to trade here. Distribution of autumn merchandise is in progress—unusually early this year, and the volume of forward business is so heavy that the last half of 1905 promises to establish a remarkable record of commercial activity. Current retail trade is well maintained, the urgency of orders received by jobbers indicating that dealers' stocks are becoming depleted, and there is little complaint regarding collections. More labor disputes have reached settlement and no serious controversies are threatened, while in many sections the supply of wage earners is inadequate. Freight bloated by delay, despite widely extended facilities as compared with last year, and this trouble will probably increase as the crop-moving season advances. Special reports regarding manufacturing conditions have been received from about 40 leading industrial centers, and there is surprising unanimity in the statements.

Blue Ribbon

Are You Aware of the Fact

That you get more SOLID VALUE per dollar when you invest it in BLUE RIBBON TEA than any other kind on the market?

Only one Best Tea—Blue Ribbon's it.

LOVE AND A TITLE

"Come in," said Vane's voice, and the next moment the two friends were hand in hand.

"Well, old man," exclaimed Charlie, cheerily, "awfully glad to see you—awfully! How are you? Let's have a look at you." And with a laugh he took Vane by the elbows and turned him around to the light.

Vane laughed, but with an undertone of uneasiness that the other noticed instantly.

"Hem!" said Charlie, dropping his hold and flinging himself into a chair, "I've seen you looking chirper, old man."

"In well enough," said Vane, catching up the hairbrush and brushing away like mad; "in fact, 'm quite well."

"And the marchioness?" asked Charlie. "I ought to have asked after her first. Always forgetting my manners. Awfully good of her to come to us so soon. And now, old man, I'll congratulate you. Jove! I was a prophet when I prophesied mischief would come of the hermit business at Newton Regis!"

"Mischief!" said Vane, with a slight smile. "Charlie laughed. 'According to all accounts, you're the luckiest of lucky men, Vane. We've had no end of reports of her beauty and popularity. You always were fortunate, old fellow!'"

"Yes," says Vane, and he turned to tell Willis, the valet, who had entered, that he might go again; "yes," he said. "So they say she is very beautiful, do they?"

"By George, they do! Wentworth—he's here—was melted almost to tears last night. He's been staying at Ferdale, hasn't he?"

As she stands robed in one of Worth's masterpieces, she looks so tall and stately that she scarcely recognizes in the marchioness the slim little girl who used to nod from bowdler to bowdler, or crouched at the helm of the Nancy Bell.

But as she turns, one sees it is the same face, the same sweet, fresh loveliness, not one whit hardened or dimmed by her sudden rise. There is the old light-hearted girl looking at it sadness, smiles, regret? What is it that gives the dark eyes, and the red, mobile lips, an undefinable expression of wistfulness?

It is not always there. It is not there now that Mrs. Fleming comes back, and fastens the armlet, but it was there when Vane's step was heard at the door.

It is three months since Vane, Marquis of Ferdale, brought his bride to his ancestral home; three months since, mad with passion and disappointment, he charged her with being false and dishonorable, and declared that they should be apart, and they are apart still.

To the outward world, to those immediately about them, they are a pattern couple. No servant, no one of the many guests, has even heard of a harsh or unkind word spoken between them.

A Spanish Hidalgo could not be more courteously polished than is Vane when he addresses his wife, no lady of Castile more superbly bred than Jeanne when receiving those courtesies. That it is a love-match pure and simple, the many who have hung about her with adoring admiration, are all positively convinced.

It is only too palpable that his wife is his law, and that she has only to express a desire, and he knows no rest until he has satisfied it.

Have not the whole side of the Ferdale grounds been replanned, because cause Jeanne once remarked that she did not care for landscape gardening? Were not fifty men working night and day in gangs, cutting a glade through the home wood, that she might get a glimpse of the river from her room?

Was not my lord himself in the saddle for three days looking for a match pair for her pony carriage? And did he not, the night when her ladyship cut her little finger in the conservatory, go without sleep for three days, waiting for the doctor, because no one could ride Kaiser—the swiftest horse in the stable—but himself?

Charlie only spoke the truth when he said that the house was full—only Charlie's mother, the countess, could have told how eagerly invitations had been sought for.

People were always anxious to meet the great marquis, the musician, artist, and traveller, about whom so many stories were told that his presence gave a smack of romance to any house which he visited. Added to this, the same old bride's beauty had been spread, and made people curious to see the woman who had at last conquered and tamed the eagle.

That she did not belong to the exclusive world only added a piquancy to the curiosity.

"She was a dairy maid, wasn't she, dear?" "No, a fisherman's daughter, I believe, and Lord Ferdale used to help her mend the net. So eccentric and romantic, isn't it?"

This is the sort of thing that had gone on.

There was one who could have revealed the truth, Lady Lucelle; but she professed an ignorant ignorance of the marquis's bride as any one.

Jeanne swept down the stairs in her lace and diamonds, calm and composed, just as Jeanne of old, with the additional confidence that the sound of his admiring homage and popularity will give any one.

Swept down the stairs to find a tall, stalwart figure standing like a sentinel in the hall. It was Vane.

Jeanne raised her eyes for a moment, and a slight, just a slight touch of color swept over her face as she came forward.

"I thought you would like me to wait for you," he said, and Jeanne noticed a certain significance in his tone.

"Thanks," she said simply, and laid her finger tips on his arm.

He glanced at her, taking in the beautiful whole with a thrill of admiration; but not a word more was said. Merely that cold "Thanks."

can obtain a fair view of Clarence's mistake. That there is a slight taint of hereditary jealousy in the Ferdale blood we all know; and Jeanne—well, surely knows that women are never jealous!

At present, however, there is nothing much to excite jealousy on either side. Clarence devours his soup in profound silence, and Vane, beyond remarking that the weather is like summer, is dumb.

But with the fish, Clarence plucks up courage; he has scarcely dared to look at her yet. It is not the diamonds that flash in the candlelight—diamonds that eclipse all others in the room, as does their owners face—but it is Jeanne's dark eyes that he fears to meet.

For nine months their sweet, serious smile has haunted him. Is it to be wondered at that now it is here, shining on him in reality, it sets his heart a-beating?

"I hope Mrs. Dorell is quite well?" he says suddenly, to Jeanne, who is looking across at Lady Lucelle, whose yellow hair, in close juxtaposition to Vane's, is bent over the menu.

"Quite well when I heard last," she says, in a low voice.

"And—your brother Hal?" he asks, gaining courage from the sound of his own voice.

"Quite well, also," says Jeanne, turning her eyes upon him with sudden courage on her part. "Have you been well? You have been away, haven't you?"

Yes, said Clarence, "I've been about a good deal since I saw you last. Can Jeanne help blushing when she thinks of how she saw him last? And feeling embarrassed, of course she hurries on, womanlike.

"And are you going to stay in England?" "I don't know—yes," she says, suddenly. "Yes, I'm going to stay."

Then he pauses, and screws himself to the point.

(To be continued.)

A MODERN MEDICINE

Dr. Williams' Pink Pills Cure Disease Through the Blood.

Medicines of the old fashioned kind will sometimes relieve the symptoms of disease, though they can never touch the disease itself—they never cure. Ordinary medicines leave behind them indigestion, constipation, biliousness and headache; purgatives leave the system feverish and weakened.

Dr. Williams' Pink Pills, on the other hand, do direct good to the body, blood and nerves. They fill the veins with new, rich, red blood; they brace the nerves; they drive out disease by going right to its roots.

Now Dr. Williams' Pink Pills build up strength as they did in Mrs. Henley's case in just one way—they actually make new blood. That is all they do, but they do it well. They don't act on the bowels, they don't bother with mere symptoms, they go right to the cause of the trouble in the blood.

That is why Charles' manners are not of the new school. He takes Jeanne's hands—both hands, and wrings them up and down, till Jeanne's eyes dance with their old girlish fire.

"Delighted to see you!" he says. "I shall be friends, Lady Ferdale! Don't say there's a doubt of it, though I am Vane's bachelor friend; and wives don't like me put my toes on the fence, do they?"

Results of Agricultural College Experiments With Autumn Sown Crops.

The wheat harvest has been completed at the Ontario Agricultural College. The weather conditions of the past year have been favorable throughout Ontario for the successful growth of most of the autumn sown crops.

The average results for six years show a yield of grain per acre of 60.4 bushels for the Mammoth variety and 67.5 bushels for the common variety of winter rye. The returns from winter barley in Ontario are uncertain, as sometimes the yields are very high and sometimes they are very low.

In the co-operative experiments conducted throughout Ontario in 1905 under the direction of the Experimental Union, the varieties of winter wheat gave the following average yields in bushels of grain per acre: Dawson's Golden Chaff, 22.2; Imperial Amber, 22.2; Michigan Amber, 21.7; Buda Pesth, 21.1; Turkey Red, 20.1, and Banatica, 19.4.

Within the past few years efforts have been made to improve both the quality and the yield of grain of some of the best varieties of winter wheat by means of systematic selection and by cross fertilization.

Some of the most interesting crops of winter wheat grown at the College in 1905 were those obtained from crosses made between different varieties in previous years.

CANADA OUR HOPE AND PRIDE.

(Birmingham Mercury.) (Received by the Secretary of the Canadian Manufacturers' Association in response to the toast of Canada during the recent festivities in Great Britain.)

We may be proud of Canada. Who isn't of his home? We're glad to sing the praises of the land from which we come.

We had our high noon, amid this festive cheer. This work is that we had let our native land, and dreamed our home was here.

But now you've set us thinking, a haze comes o'er the view. And we strain our eyes with longing look across the miles of blue.

And see again that little place that no commercial worth. Can value; for to us it is the dearest spot on earth.

There from our home, a landscape is spreading far and wide—Sunrise upon its western peaks and in the east morning glories.

Inviting brush of picture, commanding poet's pen. To paint and picture beauties of mountain or of glen.

Hood's

Sarsaparilla enjoys the distinction of being the greatest curative and preventive medicine the world has ever known. It is an all-round medicine, producing its unequalled effects by purifying, vitalizing and enriching the blood on which the health and strength of every organ, bone and tissue depend. Accept no substitute for Hood's, but insist on having Hood's AND ONLY HOOD'S.

W. H. SHAW, President
T. N. STOCKDALE, Principal
Cor. Barrie & Clergy Sts.

Special to the Music Trades, New York

Hamilton, Ont., July 3, 1905.

The popularity of the Nordheimer Piano with buyers is being daily attested to by the receipt of numerous flattering, eulogistic letters from satisfied customers. The following opinion from one of Hamilton's best musicians is one of many of the strong endorsements on file.

"I have used my Nordheimer Piano on an average six hours every day for the last ten years and the tone has developed in sweetness and breadth. The action is as good as new. The case does not look a year old."

We have Nordheimers in every style and size at prices from \$850 (on our 3-year payment plan), upwards.

Let us send catalogue and full particulars—no trouble at all, we assure you.

LOCAL ITEMS

Miss Caroline LaRose is holidaying at Long point.

Mrs. Post is the guests of relatives at New Boyna.

Miss Freeman spent last week the guest of Gouverneur friends.

Misses Amy and Bessie Arthur of Gananoque are visiting in town.

Miss Brennan of Brockville spent a short time the guest of Mrs. Rappell.

We understand that Mr. Garrett leaves tomorrow for a trip to England.

Mrs. Robt. Wright of Elmoira is dead. She was a sister of Mr. M. B. Stack of Lyn.

Mr. and Mrs. S. C. A. Lamb spent Sunday and Monday in Westport with friends.

Miss Ethel Horton, Brockville is visiting at the home of Mrs. Ed Taylor, Wiltse street.

Mr. and Mrs. Wilber from Syracuse, N. Y., are the guests of Mr and Mrs. R. Henderson.

A comfortable room, suitable for 2 lady students, to let. Apply at the REPORTER office.

Mrs. W. Sutherland of Smith's Falls won the handsome Morris Chair given away at Toledo picnic.

Mr. and Mrs. Nelson Jarvis and children of North Bay are this week visiting his sister, Mrs. F. Foley.

—Live Hens and Chickens bought every Wednesday evening at Wilson's Meat Market. Crops must be empty.

Master Roswell Morris of Glen Morris is visiting at the home of his grandparents, Mr. and Mrs Jacob Morris.

Miss Eolalia Wiltse is spending her holidays in Brockville visiting at the home of her grandmother, Mrs. Frank Wiltse.

Mr. John Connor and daughter, Gladys, of Winchester Springs, were the guests of Mrs. J. L. Nislock on Tuesday.

Mr. and Mrs. Malvin Livingston of Athens spent Sunday visiting at the home of their daughter, Mrs. Wood of Lyndhurst.

Rev. W. W. Giles and family arrived in Athens on his way to Charleston where he will remain for the next six weeks.

Master Lawrence Taylor returned home after spending two weeks visiting at the home of his grandmother, Mrs. Thomas McBratney, New Dublin.

Mrs. George Churchill, and her little daughter, Gladys, left Athens last Tuesday to visit friends at Lindsay, and will also attend the Toronto Exhibition.

Miss Mabel Curtis, late of Smith's Falls, is moving to Athens about 10th of Sept., to start a dressmaking shop in the rooms over Mr. H. H. Arnold's store.

A party of thirty members of the Holiness Movement arrived in Athens yesterday from Northern New York to take part in the camp meetings in progress at Lake Elroida.

Mr. C. M. Quinn of Lansdowne has purchased a 200-light Earl acetylene gas machine. The machine is a large one, and will be used to light 5 stores and a church there.

Rev. Mr. Taylor of Westport will occupy the pulpits of Plum Hollow and Athens Baptist churches on Sunday. He will hold special meetings at the Plum Hollow church all next week.

Misses Ethel Waldie and Mae Andrews graduates of Brockville Business College have secured situations in their own town, Gananoque. The reports indicate that more graduates of this college secure positions than of any other college in Eastern Ontario.

—Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse Schools of Telegraphy, in this issue and learn how easily a young man or lady may learn telegraphy and be assured a position.

—A. A. McNish of Lyn Agr'l Works has in stock metal wheels to fit standard axles 3 1/2 x 12 and 3 3/4 x 12, also has rims ready and can make hubs to fit any axle, to order, on short notice. When you get tired pitching into your high wagon try a set of his low broad-tired wheels and save a lot of hard work.

Miss Marie Wilson, who has been spending the past month with Mr. and Mrs. W. G. Kendrick, "Brae Side," Lyndhurst, left for her home in Creemore, Simcoe County, on Saturday, via B. & W. R. to Brockville, where she took steamer Belleville, to Toronto Miss Wilson being of bright disposition won herself a host of friends who will welcome her back when she comes again.

—To OPEN THE NEW HALL.—Mr. D. Derbyshire, M.P., arrived in town this evening and met a number of our prominent merchants and discussed the date for the formal opening of the new town hall. It has been decided to hold a grand opening concert, and to have Sir Wilfrid Laurier, Sir Wm. Mulock, G. F. Graham, M.P.P., D. Derbyshire, M.P., A. E. Donovan, and others.

The date will likely be about the 15th or 20th of September

Mr. and Mrs. D. Fisher Sundayed in Perth.

Miss Stafford of Montreal is visiting in Athens.

Mrs. E. J. Halliday of Elgin moved to Athens this week.

Miss Jean Johnston has charge of Froelands school this term.

Mrs. McGhie and family spent a few days this week with Elgin friends.

Mr. W. G. Parish and family have returned from their holiday at the lake.

Miss Maude Taylor, a recent graduate of the A.H.S., is teaching the Plum Hollow school this term.

Mrs. K. E. Redmond and daughter, after a visit with friends here, have returned to their home in New York.

Mrs. Harry Loughlin and family of Portland, Maine, are visiting her sister, Mrs. W. Wilson Wiltse.

Mr. Charles Connell of Berlin, N. H., after an absence of ten years, is this week visiting his mother and other friends in Athens.

Mr. W. W. Wiltse left on Tuesday for Belleville where he will attend the High Court meetings. He goes as a delegate from Athens Court.

John Doolin, a Chicago contractor and builder, who was visiting relatives at Frankville, left this morning on a trip to Portland, Me., and other points before returning home.

STUDENTS

Who contemplate taking a Business College course should communicate with the Reporter office. We can save you money.

Mrs. E. R. Harris of Detroit has been spending a few days with friends in this district, and was last week the guest of her sister, Mrs. Robert Taylor of Chantry and Mr. Will Taylor of Oak Leaf.

Mr. Ford Wiltse leaves shortly to take a position as superintendent of a large stock farm at Gotham, New York state. Mr. Wiltse is well qualified for the position, and his many friends wish him success.

Mr. and Mrs. L. W. Washburn of Washburn's Corners and Mrs. Leverette of Brockville were in town to-day attending the marriage of their cousin, Miss Edith Wiltse to Mr. E. A. Robertson of Montreal.

Mr. W. A. Spooner, A. Mus., T. C., London, Eng., Organist of Trinity Church, Brockville, purposes to visit Athens weekly to give instruction in Vocal and Instrumental Music. Communications to Box 521, Brockville. 35 2pd.

Over 30,000 telegraph operators are annually required by American rail roads alone. Railroad and Commercial Telegraphy is thoroughly taught at the Ottawa Business College, Ottawa. For particulars write W. E. Gowling, Principal.

Mr. Harry Berney, son of Mr. Thos. Berney, left for Montreal to-night to accept a position as traveller for Shorey & Co. Mr. Berney's district will be through British Columbia. Harry's many friends wish him all kinds of luck in his new undertaking.

We have been instructed to announce that the boys who have been in the habit of congregating in the new school, and throwing stones, smoking and doing other damage, will be prosecuted by the board. This warning will not be repeated, and all offenders in future better beware of consequences.

Rev. S. Sheldon, secretary of Sabbath schools, and wife, of Toronto were the guests of the latter's mother, Mrs. James Kilborn, a few days this week. After a visit here Mrs. Sheldon intends to go to Montreal for a short time. Mr. Sheldon took charge of the Sunday work at the Baptist church, Brockville.

James Dailey, of Tinacp, recently met with a bad accident while returning from delivering a load of cheese at Brockville. It appears the wagon seat was quite loose and in turning a curve in the road the seat upset pitching the driver out on the hard road. The wagon passed over him crushing his collar bone and breaking two of his ribs. He is likely to recover and is doing as well as could be expected.

Electric Lights.—Mr. Roddick of Lyndhurst is contemplating the erection of an electric light system there, capable of supplying light to that town, Delta and Athens. Providing he can get 1000 lights contracted for the project will be gone on with—200 in Lyndhurst, 200 in Delta and 600 in Athens. The cheapness, steadiness and brilliancy of the new system is a great convenience to all users. Mr. Roddick will be in town again about the first of next week.

A SAD MISSION.—Winnipeg Free Press.—Rev. R. F. Oliver, of Frankville, Ont., spent a day recently in the city on his way east after a month's stay at Saskatchewan. He called on an old friend, T. E. Morden, of the Press, and was delighted with what he was able to see of Winnipeg. His mission to the west was a sad one, having been occasioned by the drowning of his son, George, a young man of eighteen years, near Saskatoon. The melancholy satisfaction of finding the body was realized, but only after twenty days laborious search by a large party.

An Ounce of Prevention IS BETTER THAN a Pound of Cure

Farming, like all other business, has proved a science. Fortunately all farm produce is commanding a remunerative price. Good results can only be had from any source when we have done our best toward obtaining them. The most successful farmers have proved beyond doubt that profitable results come from feeding Poultry and all other Stock not only good grain, hay and ensilage but such Blood-makers and Tonics as

Herbageum, International Stek Pd Poultry Food, Kow Kuro, Horse Tonic, Linseed Meal, Oil Cake, The Great English Calf Food - Cream Equivalent, Granulated Bone & Oyster Shell for Hens.

All of the above are guaranteed to produce results that will pay a good dividend for the cost of them.

Jos. Thompson

Logs Wanted

The subscriber will pay cash for water-oak and basswood logs—delivered at his mill as Greenbush also for a large quantity of birch timber not more than 10 nor less than 4 inches in diameter, cut 10 or 12 feet long.

A ROOT. Greenbush
