> ddresses on the subject from Almo Every Point of View-Dungannon Swings into Line with Godelich-New for Work.

Thursday of last week there was a large representative gathering of the ratepayers of Dungannon and vicinity to hear the railway question discussed. The meeting was called by Mayor Butler, of Goderich, at the request of the committee of the town council and a resolution of the Board of Trade, and Goderich was represented by Mayor Butler, Reeve Proudfoot and Mr D. Mc-Gillicuddy, and Colborne was championed by Reeve Beck, who carefully watched the interest of his township in the pre mises. In addition there was present a strong delegation from Lucknow-some twenty five in number-led by that re doutable bonus getter James Somerville, ex M.P., and Reeve Bryan, who had driven in to see that Lucknow was given

a show in the new railway program ; Port Albert was represented by Messrs Mahaffy, A. Hawkins, C. O'Connor and others; Ashfield by Reeve Griffin and deputy-reeve Girvin, and a goodly spinkling of ratepayers; and the Wawa-noshes by councillors and Todd, Gibson and other well-known progressive resi-

Mr Mahaffy-Well, I mean you could not calculate on a township bruue. Some years ago Ashfield gave \$10,000 of a bcnus to a railroad that never touched it, but it won't do it again. Port Albert, if it had half as much expended upon its harbor by Government as Goderich had, would be a better harbor. Goderich had received about half a million dollars and Port Albert only \$9,000. Even now a large vessel chartered with grain from Fort William to Goderich was on its way to Sarnia to unload a portion of its cargoo, owing to the fact that it could not enter wing to the fact that it could not enter quired before the statute could be com-Goderich harbor with a full cargo.

The back drawing-room of a city house, furnished as most of them are, with two or three great easy chairs, a piano, cabinet and inlaid table. A beautiful tiled hearth and fire-place, and, on the mantle piece above them, a cloisonne placque, some pieces of ham-mered brass, and two Venetian images, in brilliant colors. The floor was strewn with rugs, and before the blaze of the bright coal fire lay a large white bear skin. The walls had the usual complement of paintings and engravings, and some amateur productions in various shapes and shades of plush and velvet omed with cornations and wild ros-

Not long ago, when etiquette permitted, they might have been men-tioned as a gentleman and lady, or lady and gentleman, as it was evident they belonged to the classes so designated in former times. There was "an air of the great world" about them both; an in-definite subtle something which is not altogether the result of familiarity with "society," but which, when "native and to the mancr born," improves with one's social opportunities and experiences. \* The woman was, evidently, at home.

She sat easily, and she if she belonged there, in the arms of a large maroon chair, and put out her foot to the fender, turning it contentedly before the fire as one does only when against a familiar background.

She wore a dark blue dress with a velshe wore a data bloc dress with a tot vet collsr out of which arose an almost invisible rim of white linen. I The lines of her drapery were long and full and plain, and her bodice was a

WHAT TO READ.

BY AMY EWING.

"When a person has learned how to read, and not what to read, he is in great peril.'

This statement seems startling, but it is nevertheless true. Have you ever realized how much depends on your choice of books? We have talked of "why we read" and "how to read," but

we have yet to answer the question, "What to read?" It will require some We months to answer it in detail, but just now we will think of the general subject and try to get some idea of the importance of knowing how to select the best books. Reading well used is one of the best things in life ; abused, it is one of the worst. It can make or mar our characters. There are many people who think that reading is in itself a good thing, a meritorious act; they have never given

the subject enough earnest attention to comprehend that it may be a bad act— that it may even prove a curse if books are not carefully chosen. Did you ever think of the vast amount of reading matter that is published Books are issued from the press at the rate of seventy volumes every day. The country is flooded with newspapers and periodicals of all sorts. How are we to choose from this great mass of reading matter that lies before us? To read every book that comesacrossour path is to be like

Just imagine your wife not being able to speak for ten idays. What a change there would be in the house! what an unnatural silence! A case of this kind occurred in Hamilton some time ago, and one bottle of Wilson's Wild Cherry cured the afficient lady in four days. The Eleventh Volume of HARPER'S YOUNG PEOPLE, which begins with the Number for November 5, 1889, presents an attractive pro-gram. Itiwill offer to its readers at least four perials of the usual length, and others in two or three parts, namely, "The Red Mustang," by William O. Stoddard; "Phil and the Baby," by Lucy C. Lillie; "Prince Tommay," by John Russell Correll; and "Mother's Way." by Hialmar Hjorth Boyesen. Two series of Fairy Tales will attract the attract into no flovers of the wonder world, namely, the quaint tales told by Howard Pyle, and so admirably illus-trated by him, and another series in a differ-ent vein by Frank M. Bicknell. There will be short stories by W. D. Howells, Thomas Nelson Page, Mary E. Wilkins, Nora Perry, Harriet Prescott Sporofford, Bavid Ker, Hezeklah Butterworth, Sophie Swett, Richard Malcom Johnston, etc. A Subscription to Harper's Young People secures a juvenile library. There is useful knowledge, also plenty of amusement.—Bos-ton Advertiser. ONE WEEK CNLY. Commencing on Monday, Nov. 18th, TERMS : Postage Prepaid, \$200 Per Year Vel.
