Col. McGivern has been elected Presi-
dent of the Dominion Board of Trade,
now in session at Ottawa.

The oil shed belonging to the Grand
Trunk, situated at the foot of John St.,

A DESTRUCTIVE fire occurred in St.
Catherines on Wednesday morning, by
which a large wooden building belonging to
Mrs. Towers was destroyed.

Society, Mr. W. A. Cooley was nominated
member of the Council of the Provincial
Association.

STUCK IN HIS THROAT.—An assistant
in a drug store on Young street Toronto,
went on a big spree a few nights ago and
got into a low grogery with a lot of
colored men. One of them undertook to
swallow a tallow candle if the neophyte
of the pestle would stand treat. This
was agreed to, and when the darkey had
the candle three-quarters swallowed the
white man slapped him on the mouth
and nearly choked him. He fled and is
afraid to look a black man in the face
ever since.

GILLOTT, THE PEN-MAKER.—A cable
telegram has announced the decease of
Joseph Gilloft, the celebrated English
manufacturer of steel pens. The early
agency of the man is obscure. He was
born, probably, in Birmingham, about
seventy-five years ago. He commenced
business there in a garret, his wife aiding
him in the manufacture of the pens.—
They made black "barrel" pens and sold
them to small store-keepers about town.
The business increased, and in a few
years Gilloft was enabled to build a large
factory in Birmingham. He sent his
goods to the foreign market, and soon his
pens were sold all over the world. Mr.
Gilloft, it is said, was a man of fine char-
acter, with noble aspirations. He pos-
sessed a taste for the arts, and was a
large collector of splendid works. His
gallery of paintings at his country resi-
dence, near Edgbaston, Birmingham, is
the admiration of connoisseurs. It has
always been understood that Mr. Gilloft's
intention was to present it to his native
town at his death.

Clifford's Trade and Advancement

(From our correspondent.)

So many doubts having arisen in var-
ious quarters with reference to the cor-
rectness of reports lately transmitted to
the Mercury of the amount of business
done in this village, I have remained
here a few days longer than intended, in
order by personal observation and en-
quiry to test them. Situated at the
mouth of one of the richest grain districts
in the Dominion, Clifford, as intimated
in my former communication, seems des-
tined to become a leading point of this
northerly section, and nothing can be
more cogent in proof of this than the fol-
lowing particulars. From the 25th of
December last, the day on which trains
commenced to run here regularly, up to
this, inclusive, I find 114 cars, averaging
21,000 lbs each, have been despatched as
follows:—For Guelph, 37; Galt, 18;
Elora, 16; Toronto, 16; Waterloo 10;
Hamilton, 5; Brantford, 3; Hespeler, 2;
Suspension Bridge, 2; Dundas, 2; Wel-
lington Square, 2; Preston, 1; and Colpe-
cote 1. Of these, only 3 contained pork,
and 3 barley, the remainder were all
wheat. Within the same period, 18
working days, no less than 50,672 bush-
els of grain have been purchased by the
following buyers, viz:—James Stinton,
Guelph, 10,551 bushels, costing \$10801 of
which 10,500 bushels have been shipped;
John Armstrong and David Stewart, of
Guelph, 9377 bushels, costing \$10,600;
David Dickson, of Guelph, 3,630 bushels,
\$4,991; Wm Gordon, of West Montrose,
8,178 bushels, costing \$9,138; and 905
hogs, weighing 181,150 lbs, costing \$8,
787; (all Mr Gordon's purchases were
made since the third of Jan.); John
Rogerson, of Durham, 10,500 bushels,
costing \$12,000; J. S. Tolton, of Brant,
5,860 bushels, costing \$6,325; G. Mac-
donald, of Clifford, 2,576 bushels, costing
\$2,614 and Louis Zimmer, of Clifford, 862
sheepskins, costing \$1,300; and 370 hogs
weighing 74,000 lbs, costing \$3,441; mak-
ing a total as to grain of 50,672 bushels,
for which \$56,469 has been paid. Num-
ber of hogs, 1461, weighing 279,949 lbs,
for which \$13,353 has been paid, and
sheepskins, \$1,300, or a grand total of
\$71,122 paid out for produce here since
Christmas last. Of this, most has been
shipped or is awaiting shipment, Mr Mac-
donald being the only buyer whose grain
has been purchased for use here. The
storehouses are nearly all full now,
standing that about \$3,000 has been
received at the station for freightage al-
ready.

Far exceeding, as the above figures do,
all that you have represented, the result
cannot fail to be satisfactory to your
numerous readers here, as it naturally is
flattering to the locality. As will be
readily conceived it has caused a large
amount of additional work to the com-
pany's officials, and were it not for the
indomitable energy of the station master,
Mr J. H. Dolmage, guided by the counsel
and experience of the very affable gen-
tleman, Mr A. Robertson of Hamilton,
who has been sent here to put things in
working order, and the attentive Super-
intendence of Mr Tiffin, the traffic inspec-
tor, it could never have been accom-
plished in the satisfactory manner it has
been.

I observed that a good many new stores
have been erected, or are in course of
completion, in this village, several really
handsome ones, and that many new
branches of trade have been opened up.
The following are perhaps the most promi-
nent:—D. Morrison's two storey general
store 22x40; McEachern Bros, do 24x
50; T. Harrison, do 40x22; John Hill-
house's Tin Shop, 22x50, story and half;
W. Davison 24x50, two storey; Taylor &
White's blacksmith shop, 24x36; Wm
Knechtel's cabinet shop, 24x60 two
storey; F. Carroll's Drug Store 25x35.
Numerous, elegant and commodious
dwelling houses have also been erected,
beside several additions to old houses.
Messrs Jas. Stinton, David Dickson, J.
Armstrong & D. Stewart, and J. S. Tolton,
have also erected new Storehouses, with
capacity for about 7000 bushels each,
thus making eight produce stores in the
village. Mr Frank Brown has refitted
and put a new engine and machinery into
his Saw Mill, thus making it one of
the best in the county. Mr K. M. Walton
continues to do an extensive business at
his commodious foundry, and Mr P. L.
Hewar in his well stocked hardware store.
Messrs J. & H. Macdonald of Kincardine
have started a new and well furnished
Saddlery Store, and Mr G. B. Fraser of
Guelph a branch in dry goods. Messrs
Hood have made extensive additions to
their Shingle and planing Mill, while
Mr Macdonald's grist and flour mill, with
three run of stones and 30 horse-power
steam engine, under the guidance of Mr
W. J. Present as miller, and Mr George
Mathewson as engineer, keeps up his
work day and night, averaging upwards
of 3000 bushels per month.

Surely these facts and figures demon-
strate clearly that your previous state-
ments about Clifford have not been
exaggerated. Its prosperity now is owing
to the richness of its surrounding coun-
try, its establishment and growth to
Messrs Frank Brown, Geo Macdonald, J.
H. Dolmage, and other energetic citizens.
It contains many generous enterprising
hearts, and I close by wishing it an en-
during existence of increased prosperity.

I should have mentioned that a Bank
agency is much needed here, would be
acceptable to all, and could not fail to be
highly remunerative. The Bank Man-
agers in Guelph should consider the above
figures and see to it.
Clifford, Jan. 15th, 1872.

EMBASSY FROM JAPAN.—The arrival of a
great and influential Embassy from Japan
headed by the Prime Minister of the Em-
pire, is an important event. Iwakura,
accompanied by United States Minister
De Long and over 100 persons, native and
foreign, has landed at San Francisco, en-
route for Washington and European cap-
itals. It is understood that the treaties
of Japan with other nations are about to
be revised, and this formidable array of
dignitaries is sent as preliminary to the
comparison and interchange of views be-
tween the Japanese officials and foreign
diplomats.

Sabbath School Conference.

Jan 17th.

The Conference met this morning.—

After devotional exercises the question of
Union Sabbath Schools came up for a
short time for consideration. The report
of the Committee on statistics was given
in a read. According to the report it
appeared that 29 schools had returned
statistics, that the number of scholars in
them was 2528, that there were 318
teachers, 9443 volumes in the libraries,
and that \$562 25 had been raised by 11
Sabbath Schools.

Some conversation followed upon the
report, but ultimately it was agreed that
it be engrossed in the minutes of the Con-
ference, for further reference and compar-
ison. Schemes of Lessons were next
taken under consideration. Most of the
members who spoke expressed themselves
in favour of the one prepared at Edin-
burgh, and published by Gall & Inglis,
while all were in favour of some uniform
scheme. Ultimately it was agreed to re-
commend the Presbytery to appoint a
Committee to examine different schemes,
and to report to them as soon afterwards
as convenient.

Dr. Barrie, according to appointment,
addressed in an able, earnest and effective
manner, on the importance of teaching
the shorter Catechism in Sabbath Schools
of the Canada Presbyterian Church. The
first part of the address was historical,
giving an account of the preparation, in-
troduction and early use of the Westmin-
ster Standards, embracing the Confession
of Faith, the Larger and Shorter Catech-
isms, constructed by the Westminster
Assembly of Divines. He stated the num-
ber that met, the solemn protestation by
which they bound themselves, and the
period, more than four years and a half,
which they sat. They first prepared the
Confession of Faith and the Directory of
Public Worship. The Larger Catechism
was designed for grown up persons and
communicants, the Shorter for the exami-
nation of children and illiterate persons,
by their parents and guardians.

The address, of which we cannot give
even an outline, was full of information,
and gave evidence of extensive research
and careful preparation. Mr Barron
spoke in strong terms in favour of the
Shorter Catechism, and of the importance
of instructing our young people in the
knowledge of the Word of God, and he
was not aware of any other work in which
the doctrines and duties of that Word
were so fully and clearly expressed.—
Children may not understand everything
in the Catechism, but they will experience
the benefit of having learned it. Mr
McGuire followed in the same strain.

Mr Smellie spoke in warm terms of Dr
Barrie's address, and suggested that ap-
plication be made to the Editor of the
Record to have the paper printed in its
pages for general circulation.

AFTERNOON SESSION.

The Conference began their closing
session, as on former occasions, with re-
ligious exercises, after which Mr Middle-
miss, of Elora, read a pointed address on
the "Importance and Method of Prepara-
tion by Sabbath School Teachers."—
The speaker dwelt upon the unseemliness
of ignorance of the subjects taught in his
class on the part of his teacher, and the
bad effects this would have upon the schol-
ars. He would not speak on the method
of preparation, as he anticipated a num-
ber of valuable remarks would be thrown
out in the course of the addresses that
would follow. The chief book for pre-
paring was the Bible—the book of books
—next comes the Shorter Catechism;
there need not be many other books, but
they should be well used. A complete
Concordance and some work on Biblical
Antiquities were indispensable.

At 3 o'clock the special services for the
children were begun. Mr Thos McGuire
preached a sermon well adapted to his
hearers from 2nd Timothy III, 15,
pointing out three reasons why we should
become wise unto salvation, and three
ways of becoming thus wise. His re-
marks on the several points were appro-
priately illustrated by anecdotes of a
religious character, fitted to arrest and
keep alive the attention of the children.
Mr Donald Guthrie next addressed them,
urging them to be real, generous, and to
look forward, even to the world to come.
Each of these points were forcibly pre-
sented in well-chosen language, and ren-
dered impressive and memorable by apt
anecdotes. Mr Ball was to have followed,
but declined protracting the services.
Some other business was then transacted,
such as votes of thanks to the Trustees of
Chalmers' Church for the use of their
place of worship, and to the friends in
Guelph, who had extended their hospita-
lity to delegates.

Thus has closed the first Presbyterian
Sabbath School Conference held by the
Presbytery of Guelph. All present have
testified that the season was a pleasant one
and productive of spiritual good, and it
may be reasonably expected that the re-
sults will be beneficial especially to those
schools which were represented. It would
have been more satisfactory if there had
been a greater number of delegates com-
missioned to the Conference, a fuller stat-
istical report from schools, and a larger
attendance of the people of the town.
But sufficient encouragement has been
given for holding another such meeting
next year, which we hope will take place,
and at which, we promise, there will be
a larger attendance, and a fuller report
from the Sabbath Schools in the bounds
of the Presbytery.

"Woman is a delusion, madam!"
exclaimed a crust

of the other wounds and bruises described.
After a protracted trial the Jury brought in a verdict of aggravated assault against the family for their treatment of deceased. His Lordship said a more frightful case of cruelty had never come before him, and he wished he had the power of ordering fifty lashes to Games and his son George. He defers passing sentence for the present.

MANITOBA LEGISLATURE.

The Local Legislature for the Province of Manitoba was opened by the Lieut.-Governor, on Wednesday, the 17th inst., with the usual formalities. His Excellency congratulated the members on the prosperity which the Province has enjoyed, and on the abatement of the small-pox, and on the improved prospects of the Indians and half-breeds. He refers to the Fenian raid, and the prompt manner in which the people turned out to repel the thieving crew. He refers to the efforts made for inducing immigration into the Province, to the satisfactory progress of the surveys, to the wisdom and adaptability of the laws passed last session, and recommends that measures be adopted for security and purity of elections, and for the efficient working of the judiciary. He also recommends that something be done to prevent the careless firing of the prairies, which has caused so much damage. He confidently anticipates, in conclusion, that the result of the present session will be looked back to with pride and satisfaction.

EDITORIAL ITEMS.
Five marriages occurred in one family in Ottawa within 36 hours.

It is reported in Ottawa that Lieutenant-Governor Howland will not be re-appointed at the expiration of his term of office.

M. C. CAMERON is to lead the attack on the Government benches. He will not make much impression on the firm ranks of the Reformers.

Or the 118 ocean steamers plying between New York and European ports England owns no less than 89. The remainder is divided between France and Germany. Yankee enterprise being entirely unrepresented. American statesmen are gradually awakening to the fact that they have smothered the ship-building industry in endeavoring to effectually protect it.

It is quite indefinite when the Dominion Parliament will be called together. In official circles two reasons are given. The first is that the Cabinet wishes to wait until the Washington Treaty is discussed in Congress, in order to let the Americans show their hand. Another reason is said to be that the Pacific Railway surveys are not sufficiently advanced to enable the Cabinet to definitely settle on the route and come down with a scheme.

NEW TERRITORY.—The new Territory of Ojibway, which it is proposed to set off in the northern part of Dakota, will contain about 74,000 square miles, being nearly one-half of the present area of fertile and well-watered lands, but its inhabitants consist almost entirely of Indians. It will be crossed midway, however, by the Northern Pacific Railroad, which will build up settlements and towns rapidly along the route, and from the line of the railroad population, agricultural development will be diffused in all directions.

THE SILVER MINES OF LAKE SUPERIOR.—The most wonderful reports are circulated of the richness of the silver and gold mines upon the northern shore of Lake Superior. At the Silver Island mine enormous quantities of ore are taken out every day, the amount being limited only by the force employed. The quantity of silver seems inexhaustible, and it is believed that several million dollars worth will be taken out this winter. Several other mines are doing very well. The number of labourers employed in and about all the mines, is about 450. Gold-bearing quartz has also been found in the neighborhood. The total population in the vicinity of the mines is about 8,000, but it is believed that in a short time the people of the region will number 100,000.

GOLD PROSPECTS IN AUSTRALIA.—The Australian gold fields still offer inviting prospects to investors. The Melbourne *Argus* of Nov. 6th says that it would appear from the discovery of new auriferous ground which are made from time to time in Victoria that nearly the whole colony is auriferous, and that gold will be extracted from it for all time to come. Only recently a payable gold-field was found at Stockyard Creek, near Port Albert, in the most southern-eastern portion of the colony, far from the region of what had hitherto been termed gold country, and now reports come to hand of the discovery of gold quartz reefs in the southern-western portion of Victoria, at some distance beyond the existing western gold fields. The locality of the new field is in the vicinity of the township and Victoria ranges, about 48 miles west of Ararat, and 46 miles north of Hamilton. Some stone which was struck within three feet of the surface has been analyzed, and found to contain gold at the rate of one ounce to the ton.

GUELPH POLICE COURT.

Before T. W. Saunders, Esq., Police Magistrate, Jan. 11.

Jacob R. Karacher was charged with selling liquor on Sunday last at Crief. Fined \$20 and costs.

Win Johnstone was charged with being drunk on the Market Square yesterday. Fined \$2 and costs or 20 days in Jail at hard labor. Committed. Just from Jail.

The Mayor of Montreal has impounded the Grand Duke's cheque for \$1,000 given to the poor of that city until the Council consents to pay the little "bill" for H. I. H.'s entertainment, about which there is such a tuppenny halpenny row.

A lawyer once wrote "rascal" in the hat of a brother lawyer, who, on his discovering it, entered a complaint in open court against the trespasser, who, he said, had not only taken his hat, but had written his own name in it.

Mrs. Thornton, wife of the British Minister, was the only lady not dressed in silk, satin, velvet, or the three combined, at the recent grand Executive reception in Washington, and was voted "awfully plain" by the gorgeous dames of the American court.

The Empress of the Brazils recently received one of the prettiest bouquets seen in Paris since the war. It came from the market women of the Halle, who carried it triumphantly through the streets, and received a present of \$400 for their Benefit Society in return.

A LACONIC MAYOR.—The St. Catharines *Journal*, in its report of the last meeting of the Town Council of that place, states that on the voting of a gratuity of \$100 to the Mayor for his services during the past year, His Worship returned his thanks in the following terms: "Gentlemen, I thank you, gentlemen. That's all." Nobody ever complains of the undue length of His Worship's speeches, at any rate.

We were pleased to see, not long since, in one of our exchanges, some pretty severe remarks addressed to several persons who, during an interesting lecture by Rev. J. S. C. Abbot, kept a continuous coughing, which prevented many from hearing. People who cannot refrain from coughing, had better stay away from such places, or else take a bottle of Johnson's Anodyne Liniment with them.

M. J. BROWN-SQUARD experimented upon the stiffened arm of an executed criminal, by injecting warm blood into the muscles regained their contractility and their irritability. As the cutting off of the blood is paralysis of nervous element, so a deficiency of blood is a cause of degeneration of nerve element. Fellows' Compound Syrup of Hypophosphites will cause the formation of healthy blood and consequent increased nervous power, induce vital activity in debilitated constitutions, and tone all the organs dependent for health on muscular or nervous strength.

BREAKFAST—EPPS' COCOA.—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many a heavy doctor's bill.—Civil Service Gazette. Made simply with boiling water or milk. Each packet is labeled "James Epps & Co. Homoeopathic Chemists, London." Also, makers of Epps' Milk Cocoa (Cocoa and Condensed Milk).

The importance of giving Sheridan's Cavalry Condition Powders to horses that have been out in the cold rain, stood in cold wind, or drank too much cold water, cannot be over estimated; no man should be without them who owns a good horse.

Guelph Evening Mercury
THURSDAY EVENING, JAN. 18, 1872
HELEN MOIR
—OR—
Love and Honour.
A TALE OF THE CLYDE.

CHAPTER XI.
"When he dismissed her?" repeated Jaquin, inquiringly.
"Yes, you must know she was English governess in the Herr's house, and the moment the wine merchant came to know that she and his son were betrothed, he tried to persuade her to give him up, and go away out of his sight. I was on the landing and heard most of the conversation, and she stuck firm to her point, in spite of all that he could say. When he spoke of low station and poverty, she met him with her high notions of love, and mutual affection being above wealth and rank. A low birth, she said, was no disparagement where the party was honest and honorable. Loudly she declared that if through her family she brought disgrace to Herman or his friends, she would never marry him; but—"
"Ha! did she say that?" exclaimed Jaquin, with sudden and startling energy.
"She did, but immediately added, with an air as proud as an empress, that her parents and connections were as pure in character and spotless in fame as any family, however exalted. There she took her stand, and left the house as firm as adamant.—Why, what's the matter with you?"
"Would she abide by that test?" cried Jaquin who had become extraordinarily excited. "Bah," he went on, "I am a fool to ask it. She felt it convenient to say what she did, because she fully believed she was safe on that score. A discovery to the contrary would not alter her anything, I daresay. She would find a way of getting over it."
"Getting over what?" inquired Dubosque. "What are you driving at?"
"I mean, suppose it was to come out that some member of her family—a near connection—had done something dishonourable, something criminal, something for which he had to leave the country, would she stand to what she said to the wine merchant, and refuse to disgrace his family by marrying his son?"
"I believe she would."
"You what?" exclaimed Jaquin, vehemently. "You believe she would be as good as her word? You verily believe it?"
"From what I know of her character I think she would. But why speculate on what is impossible? From inquiries I have made in this district I find her family was as respectable and exemplary as she boasted."
"Think again," said Jaquin, in an impressive tone; "think calmly and deliberately, and say if you believe she would stand to her word."
"I tell you I do think it; but what's the use of speaking about it when there is not the remotest chance of her being put to the test?"
"But what if there is a chance of that?" said Jaquin.
"I tell you there is none, and 'tis mere folly speculating on that which never can exist. If you would help me, as you wish to do, you must suggest something practical. Look, while we have been talking they have disappeared."
"Let them," said Jaquin, his eyes glittering with malignant satisfaction. "You ask me to do something practical. What if I give you the means of terminating their marriage project?"
"Do that, and I will owe you a debt which can never be paid. But your words are but idle breath; they can mean nothing."
"They mean everything," replied Jaquin with a significance which arrested the other's attention.
"Anything?"
"Yes, everything if your belief in the girl's character is well-founded. I can tell you that which, once communicated to her, will cause her to turn from her lover—aye, were she on the very altar steps."
"Man, you are raving, or you are mocking me," roared the Frenchman, springing suddenly to his feet. "Beware how you do so. The subject maddens me, and he who makes sport of it goads me on to a desperate deed."
"Calm yourself. Your angry suspicion is natural, but mistaken. As surely as the sun has gone down in the west will rise to-morrow above yonder mountains, so surely is it in my power to give you in possession of a secret which will have all the influence I say, if your estimate of the character of Helen Moir be true."
"In the fiend's name, tell me at once what your word points to," yelled Dubosque. "You torture me. I am on the rack, and will no longer bear your riddles."
"Out with it, man; out with speaking. This secret and make good your boast, or both of us shall not leave this place alive."

Husband. And what does the parson's wife say about it?

Wife—Why, it does everything but impossibilities; she cures Sore Throat, Canker, Rash, Croup, Cough, Rheumatism, in fact she is a host of doctors all in herself if she has a bottle of Pain-Killer with her.

Husband—She needs to be, I never saw such children as hers are, they are always cutting their fingers, spraining their ankles and falling down stairs.

Wife—Yes, and the Pain-Killer is magical when used for Sprains, Bruises and Fractures. That reminds me Willie cut his finger awfully this morning; I will hasten and put some Pain-Killer on it.

The Pain-Killer is an internal and external remedy for pain. For internal pain, Cramps, Spasms, Stitches, Colds and Bowel difficulties, a few drops in water will give immediate relief. As a liniment it is without an equal; it stops pain almost instantly. Be sure and get the genuine, made by Perry Davis & Co., and sold by Druggists and Grocers.

FELLOWS

COMPOUND SYRUP OF HYPOPHOSPHITES

As all life-endowed bodies, whether they be Beasts, Birds, Reptiles, Insects, or even Zoophytes, and subjects of the Vegetable Kingdom are sustained by vital force, which binds all the springs of existence, and as nothing can save them from destruction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed a boon to the world.

Modern Chemistry has ventilated the question and discovered the ingredients constituting the Brain, muscles and nerves, and that by introducing these ingredients in proper proportions the brain and nervous system are strengthened.

This Syrup substantially the basis on which FELLOW HYPOPHOSPHITES is built, its direct action upon the Blood, the Brain and Nervous System, and the Muscles, Strengthening the Nerves, it causes the rapid distribution of Vitalized Blood in the Muscular Organs of the Body.

Rousing the Stagnant Heart and Liver, Strengthening the Action of the Stomach and Bowels, and enabling the Lungs to be fully saturated with Oxygen.

It is adapted for all cases of Weakness and Emaciation, whether arising from a Seditary Life, a tropical climate, from fever, or debility from any cause, and is efficacious in Pulmonary Consumption, many confirmed cases having been cured and all benefited, where its use has been continued over a fortnight.

In Bronchitis it is a specific, and in Asthma it gives relief where every other remedy fails. For Nervous Debility it stands unrivalled, and may be used with confidence in all cases. As this is entirely distinct and different from every other preparation of Hypophosphites, be careful to ask for Fellows Syrup, and take no other.
