through France. Heart-rending accounts are published of the sufferings of missionaries and their flocks. At Nucanha in Annam, the superior of a college and a whole host of Christians were slaughtered; some were thrown into the sea with their hands tied behind their backs. Some of the missionaries tried to make a stand with muskets, but were soon defeated. Churches, schools and dwelling houses were everywhere burned and the Christians who escaped had to walk for days without food or shelver to reach places of refuge. General De Courcey is accused by the missionaries of having taken no steps Annam, the superior of a college and a

The fact is that Toronto

City," not of Ontario merely, but of she dominion.

Toronto drew a large local benefit from the leneral "hum" which commenced in the latter part of 1879. But more recently we have seen the coming of one particular change, which is destined to being about a series of other changes in the city's forst tunes, and that on a grand scale. We allude to the entrance and settlement here of the Canadian Pacific railway, which is surely, and not very slowly either, working Standard and store and settlement here of the Canadian Pacific railway, which is surely, and not very slowly either, working Standard and Stoneware; Dessert Sin Panted Landscapes, &c.; Tea and Coffee sets in great variety; Five O'Clook Tea Sets and Cups and Saucers; De Cream Sets in Panted Landscapes, &c.; Tea and Coffee sets in Panted Landscapes, &c.; Te surely, and not very slowly either, working a revolution in the city's business position and prospects. It is surely no exaggeration to say that this one new thing with us—the C. P. R. and its far-reaching connections—has literally "millions in it" for the bity's good. The Grand Trunk, the Great Western, and the Northern railways did Western, and the Northern railways did the exception of Lackawanna, lower to-day, which advanced apparently on the reduction of the control of the con Western, and the Northern railways did much for Toronto in years before; but think of what these and other roads, plus the Canadian Pacific—must do for the expansion of Toronto's trade in years to come. The latter is a new element in the case, the potency of whose operation we are as yet but beginning to see, and to feel. But there is more to come, something that is now very near at hand. Soon the railway link between Gravenburst and Callender will be completed, and then Callender will be completed, and then Callender will be completed, and then there will be connection between the old provinces and the Northwest, all through our own country, in winter as well as in summer. We are no advocates of inflation by wind merely, without anything solid to warrant it, or yet of that kind of a "boom" which makes its victims rich to-day—in their dreams—and poor to-morrow, in reality. But we invite the sober, serious thought of the public to the solid facts upon which a very hopeful view of the city's prospects in the near future may be rested. The rate is only \$2.50 per large to the choice and tempting viands. ing viands. The rate is only \$2.00 per week—or at a rate of 120 per meal, including dinner, which alone is worth 25c. You can walk from King and Yonge street in ten minutes, Yonge and Shuter 5 minutes; and for the attention, promptitude and civility you get it is worth a great deal to a business man whose time is money and who does not want to wait half an hour after his order is given. Any persons visiting places of interest in the city must not miss this house. The proprietor will gladly show them over.—Advt:

Canadian Made Cartridges. It is stated that Capt. Howard has nterested a number of American capitalsts in an enterprise to establish a cartridge manufactory in Canada. There is vidently plenty of room for the new wenture, as all our cartridges are imported from the United States and England, and exceed in value \$100,000 per annum in Ontario alone. There is a duty of 30 per cent, on the imported article, which will leave an ample margin for the company to work on. It is said that the factory is to work on. Its said and should be incated near Montreal, but an effort should be made by the civic authorities to have the company commence business here. The site has not yet been selected, here. i perhaps a little persuasion might uce Capt. Howard and his company to the near Toronto.

The Big Sale This Afternoon, Some two or three years ago the Ontario Industrial Loan and Investment company, Industrial Loan and Investment company, one of the largest operators in real estate in this city, purchased from the estate of the late Hon. John Crawford, ninety ares adjoining the west side of the kerounds of Trinity college, extending from a little north of Queen street to Bloor. Shortly after acquiring the property, it was surveyed into building lots. The company presented to the city a park of several acres at the junction of Crawford, Shaw and Arthur streets, embracing the company presented to the city a park of several acres at the junction of Crawford, Shaw and Arthur streets, embracing the ravine once known as Shaw's grove and since named Bellwood's park. A large number of the lots around this locality have been sold, the streets opened up and in some cases block-paved. It is the intention of the enterprising company to offer for sale by public auction this afternoon the remaining portion of the state lying south of College street.

One of the new properties just opened for cale is in the western part of the city on the lake shore, immediately west of the Exhibition ground, under the historic name of "Tort Rouille" park. The custom so common how in all large cities of business men living in the suburbs, must keep up the price of property especially adapted for villa resi-Fort Rouille Park.

dences, and men will buy in the hope of shortly being able to build. Of course property which cannot be duplicated—such as the Fort Rouille park property, with its lake view and a park as one of its boundaries and with no possibility of any inferior class of buildings being built near it—must always command a high figure and find a ready sale.

The Canadian Harness Co. Front street, opposite hay market, have informed us that they have sold over five dozen sets of harness during exhibition week. Their trade has more than doubled during the past month, owing to the great satisfaction their harness is giving, which is pronounced by competent judges to be of excellent workmanship; all hand stitched and No. 1 stock used. We would advise all those requiring harness and who want to save \$10 on a set, to give this enterprising firm a call. A Big Thing for Toronto.

PHRENOLOGY. If you are suffering from ner vous or any chronic disease, by getting a phrenological examination you will be greatly benefited. No child is too young to be examined, the sooner the easier they can be improved. Every one before commencing a trade or profession should see if they are adapted for it, which can only be learned from a competent phrenologist. To enable all to learn this most useful science I will teach classes this winter at persons' own residences. A class now forming to meet at my office, commencing in October. Private examinations daily. J.
