## Newfoundland.

By CRESCENT.

Did the readers of this paper ever notice the originality of the Newfoundland stamps. Take for instance the late issue—the  $\frac{1}{2}$  cent Dog's head, the 1 cent Prince of Wales, the 2 cent Codfish, 3 cent Queen Victoria, 5 cent Seal and 10 cent Whale, all representing the different occupations, pursuits, etc., etc., of the game little colony. The Cabot issue—1 cent Queen, 2 cent Cabot, 3 cent Cape Bonivista, 4 cent Newfoundland sport, 5 cent mining, 6 cent logging, 8 cent fishing, 10 cent ship, etc, all serve to advertise the country to a great extent besides making it interesting and instructive to the philatelist. And here comes the advantage of collecting to a geographical student. Perhaps all collectors do not get all these stamps but a catalogue only costs a trifle and from a perusal of it now and then he can learn as much as in his text book, although perhaps he does not comprehend it and never thinks he got it from his stamps. The new issue is slowly coming out and from all indications it will be fully as interesting as its predecessors. I have seen the 1 cent, 2 cent and 3 cent which have the profiles of the Queen, Prince of Wales and Princess of Wales and I believe it is the intention of displaying the Royal Family in set. However time will tell and all active collectors should meantime keep an eye on St. Johns.

**THE WEEK**

Mr. Geo. Bradley, of St. Kitts, has purchased the *Ontario Philatelist* and amalgamated it with the *Stamp Reporter*.

W. A. Beatty, of St. Catharines, will hereafter devote his entire time to the stamp business.

Canada enjoys as good a postal system as may be found anywhere and it will soon be without a peer.

The date of our November Special has been changed to November 16th. Remember the date. This number will have the largest circulation of any we have issued.

Next week we shall publish the list of charter members of the Canadian Philatelic Press Club. If you have not already sent in your name do so at once and be a charter member. The editor is acting secretary until the organization meeting.

A one inch adv in the next four issues will cost you 50c. This will include the big November Special.

This paper one year for only 10c.

**From Across the Border.**

By **LRON V. CASS.**

The Scott Co., will issue a priced list of all new issues up to October. This decision is being well received by collectors in the U. S.

Many of our scribes are writing about the "worth full catalogue" stamp. Although some dealers are willing to allow from 10 to 50 per cent discount on the stamps they claim are worth full catalogue. My opinion is that a stamp is worth what it will bring irrespective of the catalogue quotations.

Old U. S. Revenues are selling better since the advent of the new issue. Omahas are not common in a used condition and as it is rumored that no more are to be printed, collectors should fill up their blanks at an early date.

Our new War Revenues are coming in new shades all the time, and new values and colors are being issued. It is rumored that the issue is to come perforated instead of rouletted as heretofore. Collectors should buy what they need at an early date.

Canadian postage stamps are selling for good prices in the U. S. and used Jubilees are in special demand.

The new Newfoundland stamps are being well received by collectors in general, and as they represent the present and future rulers of Great Britain and Colonies, no collector should neglect to secure this beautiful "portrait gallery" as some collectors term them.

Foreign revenues are not in very great demand at present and if collectors desire them, now is a good time to begin: while they are cheap.

U. S. adhesives are selling at about 50% below catalogue and if I am not mistaken the new prices in Scott's next catalogue will put them at about 40% lower than our 97-98 edition.

## A Condensed Philatelic Encyclopædia.

By OBSERVER.

**Albino.** A stamp printed without ink, usually means white when it should have been some other color. An impression taken without inking the plates.

**Amber, rose.** Two words to designate color. The first has reference to the color of the stamp proper, and the word in italics refers to the color or tint of the paper upon which the stamp is printed.

**Approval, approbation, sanction or linking.** Stamps sent on approval are stamps to be seen before purchasing.

**Bands.** Wrappers used on newspapers and small packages.

**Battone.** Foreign note paper having parallel lines close together both horizontally and vertically.

**Bogus stamps.** Stamps made to defraud collectors. Stamps of which there are no originals.

**Burelage or Burele.** Network of fine lines covering the face of the stamp. When on the back of the stamp it is sometimes called moire but this is more properly wavy lines to represent a mottled appearance.

**Arabesque.** A fine tracery used in engraving consisting of scrolls, ornaments, etc., generally produced by machinery.
