EDITOR HOMOEOPATHIC MESSENGER,
97 St. Joseph Street,
Toronto.

PUBLICATION OFFICE:
23 Wellington St. West.

The object of the MESSENGER is to make more generally known the advantages of Grace Hospital, to give from time to time some account of the work of that Institution, together with other items of information of use and interest to every household, and to encourage a wider interest in the Science of Homoeopathy.

"For a man without a purpose life has no meaning, the world no use, the Beyond no place, unless, indeed, there be a rubbish-heap there as here."

Paracelsus says: "Medicine must operate upon the body like fire, and must act as powerfully in disease as fire acts upon a billet of wood. Now, the spark has no weight. As the spark acts in the wood, making itself greater or less, according to the quantity of the wood, so also the medicine. Who attributes this to the weight of the spark? No one, since it is due to its virtue."

 Miss C. E. McConnel, 221 Spadina Avenue. Telephone 2151.
 Miss Carrie De Willen, 167 Mutual Street.
 Miss Baldwin, 421 Church Street.
 Miss Belle Clarke, 421 Church Street.

METHODS OF ASSISTING THE HOSPITAL.

Friends can aid the Hospital in any of the following ways:—

1. Donations of money; also of fruit, flowers, vegetables, provisions, books, clothing, bandages, old linen, and whatever is necessary or useful to the sick.
2. Annual subscriptions to be paid any time during the year, and continued at will of subscriber.
3. Subscribers of £100 and upwards shall be known as "Donors," and shall have the privilege of sending a patient for twenty weeks, free of charge, to a ward of the Hospital. This privilege will be good till used, but is extended only to those who subscribe at least £100. The like privilege attaches to every additional £100 subscribed by the same giver.
4. Two hundred and fifty dollars subscribed annually will maintain a bed in a 55 ward of the Hospital, to which the donor shall have the right to send any proper hospital patient.

FORM OF REQUEST.

I give and bequeath to Grace Hospital (Homeopathic), to be paid by my executor to the person acting as Treasurer of the Board of Trustees thereof, the sum of dollars to the charitable uses and purposes of said Hospital, under the direction of said Board of Trustees.

PRIVATE WARDS.

SCALE OF PRICES.

Private rooms in the Hospital range in price as follows:—\$5, \$3, \$10, \$12 and \$15 per week. This includes all Hospital attendance.

ASSOCIATE MEMBERS.

As many friends of Grace Hospital who are interested in the success of the Institution, and still have not the time to devote to actual work, have expressed a desire to be of some assistance, it has been deemed expedient by the Trustees and Board of Management to establish an order of "Associate Members," who, by their influence, can be of great benefit, not only in Toronto, but throughout Ontario, in securing a wider interest in the science of Homeopathy and spreading the knowledge of Grace Hospital, it being the only homeopathic hospital in the province.

The privilege of attending the monthly meetings will be accorded those becoming Associate Members. These are held at the Hospital on the second Thursday of the month, at 4.30 o'clock. A reception committee will be present at 3.30, and will show Associate Members through the various wards prior to the meeting.

A copy of the HOMEOPATHIC MESSENGER, showing the work which is being accomplished, will be sent monthly to all "Associate Members."

The annual fee for membership in the order is \$2.00.

Lectures were given by Dr. Evans on:
 Classification of diseases.
 Diseases of Respiratory System.
 Diseases of Circulatory System.

The lectures were discontinued on account of the Christmas and New Year, and are to be continued January 7th.

MEETINGS.

Meetings of the ladies' section of the Board of Management are held every Thursday at 11 o'clock a.m., in the Board-room of the Hospital.

Meetings of the Board of Management, at which the Trustees, also Associate Members, are present, are held on the second Thursday of every month, at 4.30 p.m.

Meetings of the Young Ladies' Auxiliary are held every Wednesday, at 10 a.m.

BOARD OF MANAGEMENT.

The meetings of the Board of Management have been held weekly during the last month. There were many Christmas gifts received, for which the ladies desire to thank their friends. At the end of the year Miss Brent, Lady Superintendent of Grace Hospital, resigned that position to accept a similar one in the Sick Children's Hospital, in which one the Board of Management extend to her wishes for every success.

YOUNG LADIES' AUXILIARY REPORT.

The meetings during December were attended very irregularly owing to the Christmas preparations, but now that the New Year has commenced we will hope for a fuller attendance.

The young ladies of the auxiliary provided a very pretty Christmas-tree and short programme for the patients. The Adam Wilson ward was decorated for the occasion, and all patients who could be moved downstairs participated in the festivities. The Rev. Mr. Broughal, of St. Stephen's Church, acted as chairman, and after the rendering of several selections by Miss Dora McMurtly, Miss Bridgeland, and Dr. Nichol, each patient was presented with suitable gifts.

Miss Brent, the retiring Lady Superintendent, was also presented with a very handsome clock by the male employees of the hospital in token of their esteem.

The young ladies wish to thank all kind friends who so generously sent donations.

Remaining in January 1st	65
	110

Jan. 5th, '07. Wm. Stiernot, M.D.,
 House Physician.

" Dear Mrs. ---, friend,
 It nearly slipped my mind,
 Ten dollars to the "Grace", to send,
 They are so good and kind.

This is the third year of the five
 Of which I promised you;
 And I will pay, if I'm alive,
 Through you so kind and true.

Grace Hospital does a splendid work,
 And heals the sick, distress;
 And drives out every ill that lurks
 Within the human breast.

The old folks they make young again,
 The bowed down, raise up;
 And drive out every kind of pain,
 When death seems in the cup.

If by the ear our head's cut off,
 And without any pain
 They'll take it, like a fresh-made loaf,
 And put it on again.

ROBERT SWAN,
 162 King St. East.

Toronto, December 1806.

HINTS.

A correspondent of a German homeopathic journal recommends *Ledum pal.*, in one drop doses of the mother tincture, for bad coughs in persons of a rheumatic constitution; also, for coughs in those given to drinking.

Arnica internally, and the diluted tincture externally, is highly commended for inflammation of the knee joint. When *Arnica* tincture is used externally it should always be diluted, say half a teaspoonful in a half pint of water.

A few doses of *Belladonna* is the best known preventive of scarlet fever. Dr. Stierenart once gave it to two hundred persons exposed to the contagion, and not one contracted the disease. Fifty others refused

the remedy, and of these fourteen were seized with the fever.

Geranium 1 is said to permanently cure many cases of habitual sick-headaches when other remedies have failed.

Melancholy young persons subject to epilepsy have been much benefited by *Indigo* 3.

Ineffectual urging to stool, flatulence, eructations and mental depression are the general symptoms calling for *Lycopodium* in constipation.

Tartar emet. has cured dull headaches from deranged stomach, with nausea, vertigo and trembling; condition greatly aggravated by walking.

Tartar emet. is a good remedy for attacks of suffocative breathing in which the chest expands with difficulty; also, for suffocative coughs with rattling in chest, as though choking with phlegm. The *Tartar emetic* syrup sold at homoeopathic pharmacies is the best form in which to administer the remedy.

The London *Lancet* is responsible for a statement concerning the X-rays that will make people a little chary of these mysterious gleams. It says that in a preliminary experiment, to ascertain the possibility of photographing a bullet in the head of a child, it was found that twenty-one days

after the experiment all the hair came out in the region exposed to the rays. In the *Deutsche Medicinische Wochenschrift*, Dr. Mareuse tells of a boy on whom he experimented with the rays for four weeks, when "the hairs could be plucked out without pain and showed signs of degeneration—in short, there was incipient alopecia." "Alopecia" means, in common parlance, baldness. The eyes of this boy were affected, but how seriously is not apparent from the account. On his back a place, "as large as a plate," lost the skin, and the place was raw and bled more or less; it looked like a burn. "From other sources," says the *New York Medical Journal*, "we hear of loss of nails as a result of exposure to the X-rays."

In July, the *Lyon Medical* contained an account of a case of cancer of the stomach that was being benefited by treatment with the Roentgen rays; but the August number of that journal relates that the apparent improvement did not continue; the patient grew rapidly worse, "there was an abundant diarrhoea, with involuntary stools," and death ended the case.

From all this it would seem that it would be just as well for the average man or woman not to sit in the light of these tricky rays any more than is necessary.

GRACE HOSPITAL
