77TH YEAR

WHEAT SOAKING TO \$1.50

PASSED \$ MARK IN CHICAGO YESTERDAY

BASED ON CROP FAILURES

Sensational Scenes in Board of Trade at Chicago at Opening of Market—Millions of Bushels Were in Demand From All Parts of Country.

BRITISH GRAIN MARKETS SHOW UNUSUAL PANIC

WINNIPEG, May 13.—Flour was advanced ten cents per hundred pounds again today for all grades as a direct result of the wheat prices. This is the second jump inside of week. The other was twenty cents a barrel.

CHICAGO, May 13.—In the most sensational opening in the history of the Chicago Board of Trade, wheat today shot past the dollar mark. Heavy realizing sales pushed the price backward, but at the close the market was strong.

According to the majority of speculators on the board, the demand is still unmet. The next advance to-day for wheat was 4c for July and September options, and 4 1/2c for the December option.

From the low point on Monday of last week, July wheat was advanced 13 3/4c, and September has gone up 15 3/4c. In the December option the high point today was 13 3/4c above the low price of last Monday.

There were no reports in any direction that the market was being manipulated. The general opinion seemed to be that the advance was based on natural conditions, which are certain to curtail in large degree the world's coming crop of wheat.

Advices from all parts of the west and north at continuing previous reports of damage by weather and insects. In addition, telegrams from the Canadian Northwest declared that the wheat still North of the 49th parallel is being killed and that every day's delay meant the loss of thousands of acres which might otherwise have been saved.

Warranted by conditions. Cablegrams received at the market at Liverpool and London stated that prices were advancing strongly. Liverpool was declared to be affected by gloomy reports from Russia, and it was in a position to be forced to buy heavily in the American market, and that the American market was being so severely pressed that it would be scarcely strong enough to supply such wheat as is needed for home consumption.

Such promising news as that of William H. Bartlett and James A. Patton declared that the conditions warranted the sensational advance in prices. They said that the wheat problem this year will be a difficult one for European buyers to solve. Among smaller traders, predictions were made that wheat prices will certainly go over \$1.25, and possibly as high as \$1.50.

It was a certainty that a strong bulge would occur in the wheat market at the opening. Country orders had piled up in the Pacific and Atlantic seaboard, and in obedience to them brokers stood ready to buy millions of bushels at the market price. Orders were ready to cover. The result was that as soon as the gong sounded there was a terrific roar of volleys, everybody willing to sell to buy and nobody willing to sell.

The trade was too big and too broad to be followed with any certainty, and brokers filled orders frequently several cents away from the point at which they had hoped to buy. The confusion was so great that for a few minutes trade staid a trifle millions of bushels were being traded.

As soon as figures were registered on the terminal, the July option sold anywhere between 93c and 94c, which was 1 1/4c to 2 3/4c higher than the close on Saturday. September opened at 91c to 92c, which was 13c to 15c above the closing price of last week. December was bid at \$1.00, and other options, for the opening quotations for December ran at all figures between 91 1/2c and \$1.00, prices that were 1 1/2c to 2c above the final quotations of Saturday.

Orders From All Over. The rush of buying orders seemed to come from almost every town in the United States, situated along a telegraph wire. They came from Winnipeg and from Louisiana, and from points on the Pacific and Atlantic seaboard.

Professional traders were of the opinion that the opening was a little too vigorous, and as soon thereafter as trade staid a trifle millions of bushels were thrown upon the market in realizing sales. As a result, the advance for a time was checked, but the buying orders kept pouring in and the market again soared. Again long whet brought about a reaction, and again the country buyers forced prices up. The situation was too strong for any man or clique of men to stem. The country at

\$100,000 CLEAN UP.

DETROIT, May 13.—A clean-up of \$100,000 less than sixty days in a wheat coup is a record said to have been made by A. J. Clark, president and treasurer of the Commercial Stock & Telegraph Co., general brokers in the Hodges building. It is said to be the most sensational successful market plunge made in Detroit for years.

M. Clark began buying two months ago and covered in all about 1,000,000 bushels at an average of 10 cents a bushel below present quotations.

PHONE EXCHANGE WIDE IN SCOPE

Justice Killam's First Ruling to Get at the Basis of "Bell" Tolls.

MONTRÉAL, May 13.—(Special.)—The government telephone enquiry opened here to-day with Hon. A. C. Killam presiding, with his colleagues on the railway commission, Hon. M. E. Bernier and Dr. James Mills. The crown was represented by G. F. Shepley, K.C., and W. S. Bull; the Bell Company by Almo Geoffroy, K.C., and McFarlane. City Solicitor Hunt of Winnipeg was also present, representing that city, and W. W. Lightfoot, K.C., for the Canadian Union of Municipalities.

As a result of the day's work, Mr. Shepley, just before adjournment, stated that their examination of the company's books had shown that there had been no extravagant paying of prices in connection with subsidiary companies. Mr. Shepley, however, argued that the manufacturing interests of the subsidiary companies were so dependent upon the main telephone business as to be a mere incident to it. Therefore, he argued that the Bell Company could not transfer their businesses to subsidiary companies without being called upon to account for these profits when the question of what tolls could properly be charged the public for telephones was under investigation.

Mr. Shepley took up the question of the other holdings of the Bell Company in real estate and stocks in other companies.

Real Estate and Tolls. This led Mr. Geoffroy to enter a protest as to what scope the investigation should take, whether it was to consider the telephone business and matters as such, or the effect of other business arrangements of the company. If he argued, the telephone business and other holdings, quite irrespective of the telephone exchange, otherwise the company could reimburse itself for possible losses on real estate by increasing telephone rentals.

Judge Killam pointed out that the Bell Company had incorporated for the purpose of conducting the telephone business, and to manufacture and deal in supplies and instruments, and that, therefore, the telephone business and other holdings, quite irrespective of the telephone exchange, otherwise the company could reimburse itself for possible losses on real estate by increasing telephone rentals.

Property and Stock. G. H. Shepley then examined Mr. Sise as to the real estate values owned by the company—head offices at Montreal, 815 St. Louis, other buildings, \$301,552, and other valuable lots, making a total of \$1,612,591. This valuation, Mr. Sise said, represented the original cost of the properties, which are worth far more to-day.

Passing thence to stock holdings, Mr. Shepley went thru the list. Taking the manufacturing stocks, he asked as to the Northern Electric Company. Mr. Sise said that the company was originally a workshop of the company, but as they found it necessary to increase their manufacturing capacity they incorporated this company with powers to that effect, and owned the whole \$300,000 capital stock. Later they increased the capital to \$500,000 and the stock, retaining \$270,000, a controlling interest.

Subsidiary Companies. The Wire & Cable Co., in which the company held \$200,000 stock at par. Mr. Sise said, had originally been his personal property, but he had sold it to the Bell Company, but just what he paid for it, the Bell Company were not under contract to buy from these companies, but bought wherever they could get goods cheaply.

Taking up the various operating telephone companies, in which the Bell was interested, Mr. Shepley secured a statement from Mr. Sise as to the original cost of (1) The Federal Telephone Company, in which the Bell Company owned \$28,500 of stocks, the company being bought out; (2) \$10,000 stock in the Kamouraska Company; (3) \$200,000 in the North American Company; (4) \$163,400 in the New Brunswick Company.

Then Mr. Shepley took up the contingent fund, which was started with \$5000 in 1881, and had grown to nearly \$200,000. This fund, Mr. Sise said, was created to provide for contingencies, such as arose when the company lost \$300,000 on patents it had bought by a single decision of the courts.

Mr. Shepley: What has been done with that money? Mr. Sise: It has been invested in place along with the other capital to extend the field.

Dividends and Policy. Mr. Shepley: And you have taken this large sum out of revenue, if it had not been put into this fund, would it not have been available for dividends? Continued on Page 7.

Montreal Longshoremen Go Out Demanding an Increase in Pay

Increased Cost of Living Their Excuse—Ultimatum Issued to the Shipping Federation—Over 1500 Men Affected.

MONTRÉAL, May 13.—(Special.)—Fifteen hundred longshoremen went on strike for increased wages and it looks as if the steamers would be tied up in port for lack of men to load and unload them. This afternoon the men asked the federation of shippers for 30 cents per hour up to 6 o'clock in week days, and 35 cents after 6. Sundays the men want 40 cents an hour up to 6 and 70 cents after 6. This demand was put in the form of an ultimatum, and as the federation did not make the same concession with regard to the dealings of the Bell Company in other stocks.

Ever since the opening of navigation the organization committee of the longshoremen's union have been very active. At the last meeting a class of two hundred new members were initiated, and about one hundred applications received. It has been known that the radical element in the union wanted to declare a strike at the very opening of navigation, but the conservative leaders held out for peace, arguing that the matter could be settled by conciliation and arbitration, but as time wore on the workers became impatient and decided to bring the matter to a final conclusion.

There are a few non-unionists, but the great majority of the workers are members of the local union, which is affiliated with the International Association of Longshoremen.

TOO MANY SAILORS FOR BRITISH NAVY

30,000 Men in Excess of Ships—Of What Use is Colonies' Proposal.

(Canadian Associated Press Cable.) LONDON, May 13.—The Chronicle's naval correspondent says the admiralty is perturbed at the enormous impression prevailing in Canada and Australia that by merely contributing a trained reserve of seamen they assist in solving the problem of imperial defence. If war broke out to-morrow there are 30,000 British seamen for whom there are no ships. Therefore the colonies should assist in some other way.

WEST YORK BY-ELECTION JUNE 1.

The Ontario government has passed an order in council fixing the date of the by-election in West York, to fill the vacancy caused by the death of the late Speaker on Saturday, June 1. Nominations on week earlier.

SHOULD FAVOR COLONIES.

Austen Chamberlain Leads Attack on Government Policy. (Canadian Associated Press Cable.) LONDON, May 13.—In the house of commons, on the second reading of the Finance Bill, Austen Chamberlain moved an official tariff reform amendment. He dealt with the general question of taxation and satirized the attitude of the government towards the colonial demand for preference. The demands of the colonies he thought had been refused almost brutally. The opposition were anxious not to repel the first united advance for closer union with the colonies. No juggling with the income tax would meet the case. He laid it against the British fiscal system that it was as a handicap to trade and commerce, wages and employment, and suggested the imposition of duties on imported manufactured goods.

NOT FOR THE PUBLIC.

Meeting of University Senate Was Distinctly Private. Routine business was transacted at the regular meeting of the senate of Toronto University last night. The sessions of this body are distinctly private. A World representative who wished to attend the meeting went up to the college last night. At the foot of the stairs near the main entrance was halted by the janitor, who warned him not to go upstairs "for fear some one might see him."

The World man, however, got upstairs and close to the senate chamber. Once inside the door he was immediately escorted by Registrar Beesbee, who hustled to the entrance and informed him that he must retire at once. "All meetings of this body are certainly private," he said. "This meeting is certainly private."

COUNCIL ADOPT "WORLD" POLICY

Committee Will Report on the Various Matters Vital to the City's Future.

A motion, of which Ald. Church gave notice at yesterday's meeting of the city council, asks that a committee be appointed to enquire into problems in which the city is vitally interested, very much along the lines as suggested by The World.

The motion, which has Ald. Adams as its sponsor, recommends that the committee consist of the mayor, Councillors Hubbard and Harrison, Ald. Chisholm, McMurich, R. H. Graham, McGhie and Geary, and the mover and secondor. The committee is asked to enquire into and report on the following matters:

(a) A systematic plan for the improvement of Toronto harbor and waterfront.

(b) To enquire into and report as to whether Toronto is being discriminated against by the railways, and to report on a systematic plan for the improvement of Toronto's transportation interests by rail and water, with a view to the future of the city as the capital of the province.

(c) As to what new territory (if any) should be annexed to the city with a view to the future of the city.

(d) As to whether it is advisable to make Toronto a free port, and on what terms.

As to what should be done to advance the interests of Toronto as the centre of the commercial and transportation interests of the Dominion.

(e) Any other matters relating to the city's transportation interests, with power to confer with the board of trade, C.M.A. and the members of parliament and make full report to this council at an early date.

Harbor Improvements.

The mayor has received a joint letter from representatives of the board of trade, Employers' Association, Harbour Board, Dominion Marine Association, Riveter's Business Men's Association, Toronto Improvement Association, Canadian Manufacturers' Association, and the Retail Merchants' Association, and the members of parliament for East, South and Centre Toronto, asking for the creation of a harbor commission of three members appointed by the city, the Dominion and the Ontario governments to engage engineers and decide on a plan for solving the harbor and Ashbridge's Bay problem. The letter points out that the reasons for the wretched condition of the harbor to-day are want of tonnage, the want of a proper appreciation by the general public of the tremendous advantages which would accrue to this city if Toronto possessed a first class harbor and the want of a broad comprehensive plan for the improvement of all parties concerned, and the members of parliament have recommended a solution of the difficulty in the past.

What's Wanted.

"If Toronto is to progress as an industrial and commercial centre a comprehensive scheme for enlarging and dredging Toronto harbor, widening and deepening the channels so as to permit vessels drawing 20 feet of water to enter, providing adequate dock and loading facilities, straightening the Don, and reconstructing the harbor, are essential. The whole should be worked out in one big plan," says the letter, which adds that "it is of importance to the Dominion to make Toronto a national port of call for all traffic in the Great Lakes. It is of interest to the Ontario government because of the general supervision it exercises over all provincial public works and more particularly from a sanitary standpoint, because the questions of sewage disposal and water supply are involved."

ONE KILLED; MANY INJURED.

Train Dashes Thru Open Switch at Truro. COLUMBUS, Ohio, May 13.—Dashing thru an open switch at Truro Station, twelve miles southeast of Columbus to-day, the "West Virginia" express on the Ohio Central Railroad, was derailed. One man, who was walking along the side of the track, was killed, Michael Martin, the engineer, who was pinned under his engine, will die, as will also Daniel Martin, the fireman, and an unknown woman.

THE OWL IN POLITICS. The Register and Leader of Des Moines, Iowa, rises to enquire: "Is it not about time to begin to eliminate negative men from American politics? Statesmanship is a virtue, not a mere looking wise and saying nothing."

Here is a nugget of truth that may well be digested in Canada. We are too prone to assume that any man who holds a public position must be a wise man, unless he groces the contrary. It is a tradition that lingers from feudal days, when men were supposed to be chosen by Providence to rule their fellows. Reverence for authority is commendable; respect for office is commendable; but nowadays people have a right to enquire whether authority is well administered, and whether the man who happens to occupy an office has a head filled with brains or filled with sawdust.

"We have a right to ask of a member of parliament, what he does for his constituents? What does he stand for?" The frock-coated statesman has had his day. We've even heard now of "short-sleeved diplomacy."

Yet there are people who look upon a member of parliament as a wild man if he attempts to improve the condition of the people. They prefer him to look wise and to cover a vacant mind by unbroken silence.

The British empire has a King who lets no day go by without accomplishing something. The United States has a president who is never idle. They have set the pace by which public servants are to be judged.

What The Register and Leader says of the people of the United States is true of the people of Canada:

"The American people have no desire to stand still and mark time. That is a mere waste of the opportunities of life. It is better to be doing something that does not amount to much than to be doing nothing."

UNIVERSITY PRACTICE SCHOOLS. Before the board of education commits itself to allowing the university to use the city schools as a training ground for a period of two years, the interests of the schools and the teachers should be carefully considered. The school board should not go into this blindfolded. The university has had ample time to mature its plans and before every detail is submitted for consideration.

There is one matter that does not appear to have been considered, and that is the matter of what remuneration teachers are to receive for all this additional wear and tear involved in teaching for show and having the student teachers constantly hovering about them? Is the board of education bartering away the work and energy of its teachers, as it were disposing of goods and chattels, without consulting them or even deliberating on their behalf? What is to be done with the money paid the city for the use of the schools? Is this money to go into the coffers of the school board, and are the teachers to do the work for nothing?

These are pertinent questions that should be settled before any extension of time is granted.

GERMAN INDUSTRIAL PROGRESS. Free trade—or rather free import—fanatics evade the call to explain the

vast and rising prosperity of highly protected countries such as the United States and Germany by simply remarking that it is not due to, but in spite of, their fiscal policy. This strongly recalls the prudent course adopted by the worthy but not too audacious minister who, confronted with a passage much questioned by higher critics and noting the fact observed, "My friends, we will just look the difficulty in the face and pass on." But people possessed of ordinary common sense will hardly be satisfied with a course that obviously sidetracks a natural and proper enquiry. Looking to the marvelous industrial and commercial progress of the United States and Germany, one wonders how much greater it could have been than has actually occurred. And when it is recalled that in the dreams of the early English free traders, Britain was to remain a universal provider, levying tribute for its manufactured products from every world market, it becomes hard to believe that the rise of protected countries to a position of keen rivalry could have been accomplished with the rapidity and ease to which their history bears witness.

In a report just issued by the British foreign office, Mr. H. Harris, Gastrick, H. M. consul, reporting on the trade of Wurtemberg, gives some extraordinary particulars of the present prosperity of German industry, which are offered for the consideration of the people of the United Kingdom. Practically every industry is reported to be in a highly flourishing condition, capital is increasing with unparalleled rapidity, wages are rising and the demand for labor cannot be met. The consul says:

"The general economic improvement in Germany... has continued steadily, and in the latter of the two years under review (1905-6) reached a hitherto unprecedented height.

"There are no signs as yet of high-water mark having been reached, most manufacturers having orders for months in advance. The home labor supply has risen to a point where it is no longer able to meet the increased demands and in some trades a considerable number of foreign workmen have been obtained."

"This scarcity of labor has resulted in a very general increase of wages, which in many industries amounts to more than a 10 per cent. rise and also in many cases to a shortening of the working day."

From the particulars supplied by Mr. Gastrick, it appears that the coal consumption of Germany has risen from 165,200,000 tons in 1904 to 185,000,000 in the first eleven months of 1906. Freight traffic on the railways in 1906 was double that of 1905. In 12 years the volume of German imports and exports has all but doubled the figures for imports being in 1904, \$1,030,000,000, as against \$1,960,000,000 in 1906, and exports, \$330,000,000 and \$1,530,000,000. The capital invested has risen from \$54,250,000 in 1904 to \$97,500,000 in 1906, an increase of nearly 75 per cent. In two years. It is reported that arrangements are now being made for the transfer of from 5000 to 10,000 skilled workmen from Britain to Germany. The men wanted are not ordinary laborers or men who have to be taught their trade, but picked mechanics such as blacksmiths, engineers, fitters, moulders, painters, varnishers and polishers.

Had Germany remained a free import country and its home manufacturers been subjected to the competition that is invited, it is certain its industrial development, even if not wholly checked off, would not have attained its actual and unprecedented character. It has been accompanied, too, by a continuous improvement in the condition of the German workman. That Germany intends seriously to challenge the industrial, commercial and maritime supremacy of the United Kingdom is openly avowed and it will be done from the basis of a home protective system. With a much more moderate tariff Canada has attempted to build up her home industries, and is doing so, under even more unfavorable circumstances than those with which Germany started had to deal. Yet there are free import critics who would willingly see Canada let down the barriers that are aiding, ensuring rather, her industrial progress. Facts such as those disclosed by the British consul cannot but effect favorably the tariff reform campaign in Great Britain, which has recently given substantial proof of its increasing vigor and importance.

VICTORIA AND BRITISH AGRICULTURISTS. Victoria is another of the Australian states that has entered with vigor upon the task of securing a share of British emigration. Its government recently set apart special areas of land for such immigrants, and the department of lands has prepared a pamphlet for distribution by the agent-general throughout Great Britain. Stress is laid upon the superior attractions of Victoria. Some of the points made are thus summed up on the back cover of the pamphlet.

"Close settlement in Victoria offers excellent opportunities to practical farmers with small capital. Victoria is the land of rapid growth and unlimited possibilities. Good soil. Splendid climate. Abundant rainfall. Free education. Light taxation and general prosperity. No country in the world offers such advantages for wheat growers, dairy farmers, wool growers, cattle raisers, orchardists, and for raising lambs for export.

Quick and easy means of transport. All the railways of Victoria are owned by the state; they speed their network over the whole area of the state, in fact, comprise one-fourth of the railways of the commonwealth. Average distance to

A Platform For Greater Toronto

(1) Take into the city all the Township of York, south of St. Clair Avenue. This to include Toronto Junction, North Toronto, East Toronto.

(2) Complete the national railway from Toronto to Hudson Bay at the earliest date.

(3) Centre the administration of the railway transportation of Ontario in Toronto, not Montreal.

(4) Public ownership applied to the distribution of electrical energy for Toronto and all Ontario.

[The World will be glad to receive suggestions as to other planks for the development of Toronto and the province.]

reports 135 miles. Average freight in wheat 3 1/2¢ (7 cents per bushel).

It is claimed on behalf of Victoria that it is the most prosperous part of the province. With an area of 50,000 acres and a population of about a million and a quarter, the total production of its farms, forests, minerals and manufactures was \$185 per head. Last year its 53,000 farms produced \$100,000,000, made up from cultivation \$38,000,000 dairying and pastoral \$54,000,000, and minor farm products \$8,000,000. And the government states there is room for 200,000 more farms.

Victoria wants agriculturists with some capital, but all able-bodied men, willing to work on the land, are acceptable. Payment of the freehold of valuable farms may be made by half-yearly instalments of 3 per cent. on the value of the land and instalments equal to the passage money of immigrants may be suspended. In the case of agricultural laborers and milk hands, whose applications are approved, the minister of lands undertakes to provide them with small improved holdings ranging in value from \$700 to \$1000, near the centres of work, and to make advances up to \$500 towards effecting necessary improvements. Reduced fares are granted, and arrangements have been made to meet immigrants at the ship's side and convey them free by rail to their place of employment.

There is a much-needed lesson for Ontario in this emergence of the Australian states upon the British immigration field. For it is not Victoria alone that has now become alive to the suicidal nature of the policy hitherto prevailing, resulting, as it has, in a practically stationary population. The Australian states are not leaving the matter of immigration to the federal government, but are actively and intelligently engaging in the diversion of British emigrants to their own respective territories. Ontario is suffering, not only from the lack of initiative and independent action, but Dominion Government favors the western provinces; the claims of Ontario to be the province that best suits the British agriculturist is not pressed; no adequate provision is made for the reception of the immigrant and for his transportation to his place of settlement and employment. Victoria, in everything but distance from the United Kingdom, has many inducements to offer, and the provincial government should bestir themselves and promulgate a more up-to-date scheme for encouraging British agriculturists to find a new home in Ontario.

EDISON'S ADDRESS. W. N. C. is informed that Thomas A. Edison's address is West Orange, New Jersey, U.S.A.

AT OSGOODE HALL. ANNOUNCEMENTS FOR TUESDAY. Chambers. Cartwright, Justice, at 11 a.m. Judges' Chambers. The Hon. Mr. Justice Tzetzal at 11 a.m. Toronto Non-Jury Sittings. In the action brought by Ambrose H. Haverstick and M. G. Haverstick against W. J. H. Emory of certain moneys were paid into court as security for costs. Upon Emory's consent the moneys are now to be paid to the plaintiffs' solicitors. Halleybury Lands. A certain agreement between Chas. A. Beach and Vincent Beach and H. D. Graham for the sale of certain lands in Halleybury is now the subject of a lawsuit. The Beaches are claiming specific performance and have issued a writ against Graham. Wants to Go Free. William H. Inverly has begun an action against the Grimsby Park Company, claiming under its terms that he was entitled to the land under a lease made of the Ontario Methodist Camp Ground, to one Maxwell Jones, for an indefinite period, and that the company had prevented him or his family going upon the lands in question, or for

UP TO RAILWAY BOARD TO STOP OVERCROWDING

Conclusion of Argument in Famous Case—City Rules Time-tables.

The adjourned hearing of the city's application to the Ontario railway and municipal board for relief from the overcrowding of street cars, especially during the crowded hours of the day, was resumed yesterday afternoon.

Chairman Leitch had recovered from his recent illness and was able to preside, and, in addition to the other two members of the board, there were present the corporation Counsel Fullerton, H. S. Oster, counsel for the Toronto Railway; Mr. Johnston of the city legal department, and Inspector Nix of the Toronto Railway Company.

In opening his argument, Mr. Fullerton contended that under the judgment of the board, the city engineer had authorized to determine the time-table and intervals. Under section 38 of the agreement, he said, it was provided that cars were not to be overcrowded, and the city council had adopted a resolution fixing the number of passengers to be carried at the seating capacity of the car, with half as many more standing.

The board then is not called upon to determine what overcrowding is, remarked Chairman Leitch.

For the City Engineer. Mr. Fullerton replied that that was a question for the city engineer and the council to determine. He contended, however, that the board should determine what overcrowding is, and that the overcrowding, which had been proved, had resulted from a lack of cars.

It had been shown by the evidence, he said in conclusion, that there was a shortage of cars on the following routes during the rush hours: College and Yonge, Bloor and McCaul, Carleton and College, King, Parliament, Devoncourt, Church, Bathurst and the West Line. This, he insisted, all went to prove that the contention of the company, that the congestion on Yonge-street was to a large extent due to overcrowding, was incorrect.

Order Too Indefinite. Mr. Oster urged that the order, which Mr. Fullerton asked for, was too indefinite. It was merely charged that the company had violated the agreement by permitting its cars to be overcrowded, and that the company be asked to put a stop to this condition by putting on more cars to carry the passengers. In the contingency of the case, he stated that the cars should be comfortably filled. From this the officers of the company conceived that the board would fix it, and that a single line of passengers should stand in the aisle, not enough to prevent the conductor from getting them without crowding. For the convenience of the public, the company believed that it was better to carry people home quickly than to have them waiting for the slow walk for long periods. The city, Mr. Oster declared, was not desirous of applying the remedy which the agreement provided. It hoped for a resolution which would require a resolution that the section referred to should be carried out, the company would see that it was put into effect. During the rush hours of the day, he continued, over 300 cars passed the corner of King and Yonge-streets, the cars reported by the city called for 523 cars to cross that corner within a given time, which would be an impossibility.

Can't Avoid Overcrowding. Mr. Oster next enumerated a number of exhibits, which he argued, would prove the truth of his contention, that the company was doing all possible to provide a reasonable service and should convince the board that it was impossible for it to avoid overcrowding in a city of the size of Toronto, besides showing them that the service had steadily improved during the past two years. In actual numbers, there was a real increase of eighty-eight cars, because of the new cars of larger size that had been put on.

He argued again, that the increase in available cars had been very small, new cars had been decidedly larger in size than the number of scheduled cars. Between 1905 and 1907, in fact, the percentage of scheduled cars, as compared with the entire number available, had gone up from 65 per cent. to 89 per cent. This meant that a large number of extra men had to be kept on hand.

The Only Remedy. In closing his address, Mr. Oster suggested that the remedy for overcrowding was the building of new lines, but the railway could not be forced into building lines which would not pay. Nor did the city council, apparently, wish to put the agreement to the test.

Mr. Oster intimated, however, that where the service was actually needed the company would raise no objection.

Malicious Prosecution. In October, 1905, Robert Hastings, a lumber dealer of Bark's Falls, laid an information before a police magistrate, charging Peter SHEL, a saw-mill owner of the same village, with stealing a quantity of oak lumber. Hastings, the imprisoned until his trial, when he was discharged. Still thereupon brought an action against Hastings for malicious prosecution. At the trial the action was dismissed. An appeal was taken to the divisional court, who set the judgment aside and directed a new trial. An appeal was taken to the court of appeal, who, after hearing argument yesterday, dismissed the appeal with costs.

Lawyer Advised to Steal. Confession of Former Loan Clerk Made Public. NEW YORK, May 13.—Details of a confession made by Wm. C. Douglas, former loan clerk of the Trust Co. of America, made public to-day, are to the effect that acting on the advice of a lawyer, he planned to steal \$100,000, and directed a new trial. An appeal was taken to the court of appeal, who, after hearing argument yesterday, dismissed the appeal with costs.

CHINAMEN GO TO TRIAL. Evidence Sufficient on Charge of Conducting Lottery. When You and Wang Chung were committed for trial at the sessions, which start to-day, by Magistrate Denison in the police court, yesterday, on a charge of conducting a lottery at 190 York-street, alleged frequenters were remanded for a week.

Famous Case Dismissed. WASHINGTON, May 13.—The somewhat famous case of the State of Kansas against the State of Colorado, by which the former sought to have the latter enjoined from diverting the waters of the Arkansas River for irrigation purposes or permitting its citizens to do so, was dismissed by the supreme court of the United States to-day.

Union Workers Go Out. MONTREAL, May 13.—(Special.)—Employees of the Standard Foundry Co. have gone on strike because of the discharge of a foreman by the company. The foreman was discharged because at the request of the union employees he had been taking a non-union laborer some days ago.

Year for Stealing Camera. David Hogan was sent to the Central for one year yesterday for stealing a camera, valued at \$250, from Archie Belanger. The camera was taken in picture and had his machine standing on the sidewalk while he went away for a plate. When he later recovered in Hogan's possession, Hogan pleaded insanity.

DOUKHOBORS REFUSE TO BECOME CANADIAN CITIZENS

OTTAWA, May 13.—Rev. Dr. John McDougall, commissioner to the Doukhobors, is in Ottawa to report to the government. He says that owing to the decree that the Doukhobors must become citizens of Canada or live on reserves, quite large tracts of land now held by them under favored conditions will be thrown open to settlement. After their eight years in Canada only about one-third of the Doukhobors decided to become Canadian citizens. The tenet they held was "God is our king; we cannot become subject to any earthly sovereign." Thus they refuse to become owners of the land they have till.

To Improve Kingston's Streets. A. W. Campbell, deputy minister of public works, leaves to-day for Kingston, where he is to advise the council on the question of improving the city's roadways. Kingston has a plan formulated for the betterment of its streets. This Mr. Campbell will go over and criticize.

Ottawa Freight Handlers' Strike. OTTAWA, May 13.—The freight handlers of the C.P.R. at Union Depot are on strike for \$45 per month in place of \$41. The sheds are congested, as only two teams are at work. The men are employed by the Dominion Transport Company. Strike-breakers were sent up from Montreal, but these now refuse to work.

EXAMS BEGINS JULY 2. Matriculation, Teachers' and Specialist's Tests Arranged for. The examinations for junior and senior matriculation, junior and senior teachers, commercial specialist and art specialist, all begin on July 2. Inspector Chapman has requested that candidates for any of these examinations desiring to write at Jarvis-street, Harbord-street or Jamison-avenue Collegiate Institute, St. Joseph's Convent or Loretto Abbey, and for art specialists at the education department, should make application to him on or before May 24.

Book's Cotton Koot Compound. The great Urtree Tonic, and only safe and effective remedy for all ailments, is now on hand. Sold in three degrees of strength. No. 1, 1 lb. \$2.00; No. 2, 1 lb. \$1.50; No. 3, 1 lb. \$1.00. Sold by all drug stores. Prepared on receipt of price. Free pamphlet. Address: THE BOOK MICHIE CO., TORONTO, ONT. SILKS Special POULARDS at 50 CENTS PER YARD. Special PEAU DE SOIES at 90 CTS., \$1.00 and \$1.25 PER YARD. SPECIAL DRESSINGS at \$1.00 PER YARD.

Handkerchiefs At present we are making an unusual fine display of Ladies' Face Handkerchiefs, Embroidered and Hemstitched Handkerchiefs. Mail Orders Promptly Filled.

JOHN GATTO & SON King-street-Opposite Post-Office, TORONTO.

NO DEFENCE TO OFFER. Celebrated Grain Case in West is Concluded.

WINNIPEG, Man., May 13.—(Special.)—At the conclusion of the celebrated grain case to-day the attorneys for the defence declined to offer any defence. The judge thought there was not only a case against the three men, but a test of the way in which business had been carried on. That was what he allowed, but if they were to be punished, but if they were to be thrown open to the three men, and the judge thought the three men, and the judge thought the three men, and the judge thought the three men.

DEATHS. BLACKHALL—At Toronto, Ont., on May 10th, 1907, James Blackhall, of Devon Junction. Burial at St. Joseph's cemetery, Toronto, on Monday, May 13th, 1907, Hannah, beloved wife of E. H. De Guevre. Burial at the Mount Pleasant cemetery, Toronto, on Monday, May 13th, 1907, Hannah, beloved wife of E. H. De Guevre.

OTTAWA, May 13.—A threatening fire broke out at the Village of Finch, the junction of the C.P.R. and the Ontario and Ottawa line, an important dairy centre, this afternoon. At 6 o'clock a small rubbish pile, burning in a coal shed, caught fire, and then to the general store of A. F. Day in the McNaughton block. This whole building was burned, with the exception of the Merchants' Bank, which saved the books and bills alone; the armory and full equipment of a new issue of rifles and uniforms of No. 4 Company of the 59th Regiment; the paraphernalia of the Orange Lodge, and a branch of the Independent Order of Odd Fellows, and the public library and 800 books.

BISHOP KINGDON ILL. Fears Are Entertained as to His Lordship's Recovery. FREDERICTON, N.B., May 13.—(Special.)—Bishop Kingdon suffered a recurrence last night of the illness which almost caused his death a year ago. His lordship was in a precarious condition as a result of a severe attack of acute rheumatism, and for weeks his physicians felt he was hovering between life and death. He rallied and gradually recovered, although he has since been unable to pursue active work. For several hours last night he was unconscious. To-night the bishop's fingers are numb, but there is little hope of his recovery.

MAD DOG ATTACKS DOCTOR. MONTREAL, May 13.—(Special.)—Dr. D. A. Shirras was to-day attacked by a mad bulldog, which inflicted terrible injuries to his leg and feet. The animal first attacked Dr. Shirras' horse and the doctor went to the rescue. The dog turned on him. Dr. Shirras was powerless to defend himself. His cries brought assistance from some men, who drove off the brute, which was later killed.

Do You Want Your Walls Cleaned? If you haven't your house cleaned, send for W. E. Farrow, 22 St. Lawrence Avenue, and he will clean your walls, ceilings, pictures, etc., at such a low price that it will not hurt you to do it yourself.

THE WEATHER

Meteorological Office, Toronto, May 13.—(9 p.m.)—The weather has turned warm to-day in the lower Lake region and eastward to Montreal. It has also been warmer in Alberta; elsewhere cool conditions have still obtained. A few showers have occurred in the St. Lawrence Valley, and local thunderstorms in the Upper Lake region. Maximum and minimum temperatures: Pt. Stuyvesant, 44-50; Victoria, 40-62; Vancouver, 48-64; Edmonton, 40-64; Battleford, 30-48; Prince Albert, 24-49; Calgary, 24-32; Qu'Appelle, 24-44; Winnipeg, 30-40; Fort Arthur, 34-42; Pelly, 30-40; 74; Toronto, 54-74; Ottawa, 50-70; Montreal, 38-60; Quebec, 34-42; St. John, 38-44; Halifax, 36-54.

Probabilities. Lower Lakes and Georgian Bay—Strong winds or moderate gales, southerly, gradually shifting to westerly; fresh northwesterly; waves and partly fair, with some showers or local thunderstorms. Cooler on Wednesday.

Ottawa Valley and Upper St. Lawrence—Moderate to fresh northwesterly winds, clearing during the night; Wednesday cooler.

Atlantic Provinces—A few scattered showers, but for the most part fair; higher temperature.

Manitoba—Moderate to fresh westerly to southerly winds; mostly fair and warmer. Lake Superior—Strong winds or moderate gales, northerly to westerly; cool, occasional rains or sleet.

British Columbia—Stagnant, a little higher temperature to-day; Wednesday milder.

Saskatchewan and Alberta—Fine and warmer.

BIRTHS. ROGERS—On Monday, May 13th, to Mr. and Mrs. John W. Rogers, a daughter.

DEATHS. BLACKHALL—At Toronto, Ont., on May 10th, 1907, James Blackhall, of Devon Junction. Burial at St. Joseph's cemetery, Toronto, on Monday, May 13th, 1907, Hannah, beloved wife of E. H. De Guevre. Burial at the Mount Pleasant cemetery, Toronto, on Monday, May 13th, 1907, Hannah, beloved wife of E. H. De Guevre.

JACKSON—Sunday, May 12, 1907, at the residence, 388 Adelaide-st., of bronchial pneumonia, Alice Irene Jackson, beloved daughter of Joseph and Justina Jackson, aged 64 years. Burial Tuesday afternoon, 2.30, Aulsebrook in Jesse.

TOWERS—At Elora, Ont., Ada Torrance, aged 34 years, wife of George Torrance and daughter of the late E. F. Towler. Burial at St. James' chapel on Tuesday, May 14th, at 3 p.m., to Humboldt cemetery.

Southampton, Eng., papers please copy. WALTER, Mrs. J. M., 1210 Johanna Ward, widow of the late Richard Ward, aged 64 years. Burial Tuesday, May 14th, at 2 p.m. Interment in Mount Pleasant cemetery.

\$50,000 FIRE AT FINCH. Two Churches, Store and Other Buildings Destroyed.

OTTAWA, May 13.—A threatening fire broke out at the Village of Finch, the junction of the C.P.R. and the Ontario and Ottawa line, an important dairy centre, this afternoon. At 6 o'clock a small rubbish pile, burning in a coal shed, caught fire, and then to the general store of A. F. Day in the McNaughton block. This whole building was burned, with the exception of the Merchants' Bank, which saved the books and bills alone; the armory and full equipment of a new issue of rifles and uniforms of No. 4 Company of the 59th Regiment; the paraphernalia of the Orange Lodge, and a branch of the Independent Order of Odd Fellows, and the public library and 800 books.

C. P. R. New York Central. The New York trains leaving Toronto 8.45 a.m. and 5.20 p.m., reach Grand Central Station at 10 p.m. and 7.50 a.m.

Charged With Theft From Bank. WINNIPEG, May 13.—(Special.)—Henry Douglas Anderson, the young man who was arrested by the provincial police on Feb. 28 on the charge of having stolen \$1500 from the Bank of England at Manchester, started back to England last night in custody of Detective Sergt. Harold Smith, who came across from him.

Week-End Excursions. Saturday to Monday excursion tickets are now on sale at all C.P.R. ticket offices, at single fare, plus ten cents, to many local stations.

TELEPHONE ENQUIRY

Continued From Page 1.

Mr. Sise: "I don't see it in that light. If we had not done this, we should have had to increase our capital, and so reduce our dividends. It was to the benefit of the shareholders that the money in the plant as we did. It is really a reserve fund that can be used for any purpose."

Mr. Shepley: "Then you have accumulated nearly \$3,000,000 in this fund, of which \$500,000 has been taken out of the pockets of your shareholders—or, at any rate, retained? The rest was premiums on bonds and stocks, and did not these premiums come because of the large earning power of your company?"

Mr. Sise: "If we had distributed that money among our shareholders we could not have paid the dividends we did."

Mr. Shepley: "Why not have regular dividends, as you have done with the Cays for collecting the rentals all over the country?"

Mr. Sise: "The public would not condone all probability of liability, being now \$165,000."

Mr. Shepley thought not, pointing out that it was not at all impossible that they might have an accident, which would kill five or six men and they needed a permanent fund whose interest would provide for such contingencies, which he figured at from \$15,000 to \$25,000 a year.

ROYAL BAKING POWDER'S SUCCESS

IN CURING OLD, CHRONIC CASES OF RHEUMATISM

PATIENTS GIVEN UP AS INCURABLE RESTORED TO HEALTH IN A FEW HOURS BY THE USE OF HIS 3 X RHEUMATISM REMEDY.

Hundreds of Torontonians Testified and Sent Testimonials to the Newspaper Offices Endorsing the Wonderful Curative Properties of Munyon's World-Renowned Remedies.

OLD CUSTOMS, OLD SYSTEMS, MUST GIVE WAY TO NEW.

The man who conducts his business on the methods that were in vogue twenty years ago will not prosper in business. The physician who prescribes according to the formulas and teachings of the text books of a few years ago ought to go into partnership with the undertaker. No one is capable of doing more good than an old fogey doctor, no one is capable of doing more harm than an old fogey doctor who prescribes salicylic acid, colchicum, or who fills the system with opium to deaden pain, ought to have his license taken from him. Salicylic acid is a splendid article, but a few years ago it was a deadly and dangerous drug for the living, as it will positively plug the kidneys and cause uric acid to accumulate in the system.

We want every rheumatic to throw away the old remedies, and get the 3 X RHEUMATISM CURE. No matter what your doctors may say, no matter what your friends may say, no matter how bigoted or prejudiced you may be against all advertised remedies, get a bottle of the 3 X RHEUMATISM CURE, price \$1.00. (If you will get 2 for you, it will cost you \$1.75.) A few doses will take away all aches and pains, and the bottle is used.

Remember, this remedy contains no salicylic acid, and no other harmful drugs. It is put up under the guarantee of the 3 X RHEUMATISM CURE. Professor Munyon's guarantee we consider the best, and the only one that is not satisfied, Professor Munyon will refund your money.

If you are doubting, no room for scepticism, no excuse whatever you should not get a bottle of the 3 X RHEUMATISM CURE. It is a standard remedy, and the only one that is not satisfied, Professor Munyon will refund your money.

They have no "cure-alls." Munyon's Cold Cure cures the cold. His Cough Cure cures the cough. His Asthma Cure cures the asthma. His Blood Purifier cures the blood. His Female Remedies are a boon to all women. His Vitalizer gives vigor and strength to old men, imparts new life, restores lost powers to the weak and debilitated. Price \$1.00.

All persons suffering from piles are most earnestly asked to try Munyon's Pile Treatment. It stops the itching, purifies the blood, and cures the piles in two to three minutes. Price 25c.

Very few of the "cure-alls" ever fail. The Catarrh Cure, price 25c, eradicates the scrofulous disease from the system, and the Catarrh Cure, price 25c, cleanses and heals the parts.

Munyon's Asthma Cure and Herbs are guaranteed to relieve asthma in three minutes and cure in five days. Price 50c each.

Munyon's Blood Cure eradicates all impurities from the blood. Price 25c.

Munyon's Female Remedies are a boon to all women. They cure all ailments of the female system, and restore the system to its normal condition. Price 50c each.

Munyon's Vitalizer gives vigor and strength to old men, imparts new life, restores lost powers to the weak and debilitated. Price \$1.00.

CARPENTERS WILL GO OUT TO HELP THE PLUMBERS

So One "Local" Decides—What Street Railway Employees Are Asking.

Under a penalty of a \$50 fine, each member of No. 4 branch of the Amalgamated Society of Carpenters and Joiners last night pledged himself not to work on a job employing a non-union plumber, should a strike arise in the plumbing trade this spring. There are eight branches of the carpenters, or 800 men, in the city, and it is the opinion of a meeting between the master plumbers and the union carpenters that will be held, the master plumbers have thanked Mayor Coatsworth for his offer to mediate in the threatened disturbance, and directed his attention to several clauses in the present agreement, which are characterized as ridiculous.

The new agreement, which the street railway employees have submitted to the company calls for a nine-hour day, with a change in shift regulations, more than 12 hours on duty; a sliding scale increase in wages from 18c to 28c per hour for the first year, 20c to 28c an hour for the second year, 21c to 30c per hour for subsequent years of service, allowing a minimum of 18c, and in fact no change in shift conditions, about 60 tie layers went on strike from the shops of the Vokes Hardware Co., McCoskey Co., T. Eaton Co., Brooks, Sells, Ford Co., O'Keefe Co., and James Robinson Co., yesterday, because the firms refused to sign an agreement.

All suggestions from the Master Plumbers has been accepted by the striking Carpenters' Union, whereby first-class journeymen receive \$3.50 an hour, second-class \$3.15 per day, and the closing number of the men, however, have decided to form a co-operative firm with the city.

At New York. NEW YORK, May 13.—Dollar wheat in the Chicago Board of Trade to-day was reflected in a violent advance on the produce exchange here, and trading assumed tremendous proportions, attended with much excitement. The advance of the public into the local grain market was a feature of the day's trading. July wheat opened at \$1.00 1/2, an advance of 1/2 cent from Saturday's close of 99 1/2 c. While September wheat opened at \$1.01 and \$1.01 1/2, an advance of 1/2 cent from Saturday's close of 99 1/2 c. An advance of 1/2 cent from Saturday's close of 99 1/2 c. An advance of 1/2 cent from Saturday's close of 99 1/2 c.

At Liverpool. LIVERPOOL, May 13.—Wheat to-day made a great advance, owing to the persistent poor crop reports from America, and the decrease in the total output from Russia and the Black Sea, which is less than half the previous year.

CHANGE OF DIRECTORS OF THE FOSTER MINE

Messrs. George and Blake Retire - J. G. Kent is the New President.

Following on the plan decided upon when they took over the direction of the Foster Mine, W. K. George, president, and W. H. Blake, vice-president, have withdrawn from the board of directors.

When they took hold of the mine it was distinctly understood that their jurisdiction, at their own request, should be temporary. They inaugurated a policy that had in view the development of the mine and not the manipulation of the market. With courage and zeal worth of all praise, they pursued a conservative policy, formulated plans, purchased and installed up-to-date equipment, until today the Foster Mine is considered one of the best equipped mines in the Cobalt district.

"Now I have a mine," said Superintendent Adler, the other day when he had completed his tunneling and underground workings on the Foster property. "And the Foster Mine is a mine. The ore has not been gouged out, as was done with the Nipissing and other properties in Cobalt, but the greatest care has been taken to go about the development of the mine in a systematic and scientific manner. Within six or eight weeks a large body of ore will be made ready for shipment, and the good work performed by Mr. George and Mr. Blake will become evident to all."

In excellent condition. When Mr. George was seen by The World yesterday and asked as to the reason for his retirement from the presidency, he said: "I have found that I have been unable to devote the necessary time to personally supervise the constantly growing business of the company, besides, by resigning, I am simply carrying out the intention I formed when I took over the presidency, which was to get the mine well under way as a mining proposition and then shift the burden to the shoulders of other directors."

"You can say that the mine is in excellent condition. In fact, from a report I received from Superintendent Adler on May 10, I can say that excellent ore has been found on Nos. 1 and 2 cuts. Drifts five and six have been connected and Mr. Adler is drifting northeast on No. 3 on the 10-foot level. He has started a northeast drift on a new vein, which has struck 100 feet from the shaft. This drift consists of a series of four strings, each about one inch in thickness. Two of these are massive smallite and the others calcite showing all over the face of the stopes.

Too busy. "I find that I am busy with matters of a more or less semi-public character that I cannot give the attention to the direction of the mine that I would wish. I am also attending to the Canadian National Exhibition and the National Club, as well as in the capacity of a business man with many interests calling for my attention. I find that there are not enough hours in the day for me to give direct personal care to the Foster mine which I believe in holding the position of president should give."

The property to-day is, in my opinion, in a very promising condition. We have always aimed to manage the property as a mining proposition, and I think the present outlook is certainly justifies the line of action taken by myself and Mr. Blake. We have a first-class mining plant in operation, work is proceeding rapidly and the dividends received are all of a most encouraging character."

Mr. Blake when seen by The World said that it was true that he and Mr. George were retiring from the direction of the Foster Mine, and in his case, as it is in Mr. George's, the main reason is that the pressure of other business interests prevents him from continuing the careful guardianship of the affairs of the mine that he would like to do.

NEWS FROM THE MINE. COBALT, May 13.—(Special).—The first announcement that John Macdonald had been selected as mine captain at the Foster has been received with considerable local satisfaction. He is known to be a practical miner and as considerable development work has been done this winter and a first-class plant has been installed, it is recognized here that in a few weeks the first regular shipments will be made. The delay in making these regular shipments has been the result of failure to do active development at an earlier stage of the property's history.

ped to date, and of these four were the result of open-cut work. The bottom of shaft No. 5 drifting has been done in a southeasterly direction. This started on a small calcite string at the 75 ft. level and was continued for 24 ft. when a good ore body was encountered and the work was continued to connect with a drift which was being run from shaft No. 4.

This shaft is sunk on the same vein at the southeast corner of the lot, and is down 85 feet and at that level the drift was started west to connect with the drift from No. 5 shaft. It is 125 ft. long and at the end of the drift a good ore body has been encountered, and last week only a few feet separated the men in the different drifts.

For the first fifty feet in the drift east of No. 5 shaft the vein showed nothing but a tight seam, which gradually widened, and at a distance of 25 ft. it widened to 14 inches of solid ore for about 20 ft., when it narrowed down to 8 inches.

The surface showing of this vein for 150 ft. was of solid silver and cobalt. This ore body has not been encountered in the drift below at the 63 ft. level, which demonstrates that the ore body has been blocked out 150 ft. long and 85 deep, which is very rich. From the smelter returns of shipments made by other mines, it is evident that the Foster has in this body of ore alone several hundreds of thousands of dollars which are now made available.

At present prices many men in camp are buying the stock and putting same away in their vaults, regarding it as an investment that will bring good returns.

NEITHER WILL GO FIRST.

Mrs. Thaw and Mother Stubborn as to Who Will Call First.

PITTSBURG, May 13.—Young Mrs. Thaw, who is at the home of her mother-in-law, Mrs. William Thaw, on Beechwood boulevard, sent a letter to Mrs. Holman the other day inviting her to call on her at the Thaw mansion, supposedly in the hope of patching up the differences between mother and daughter.

But Mrs. Holman refused to jump at the chance, as was supposed, she would. Instead of hastening to the Thaw mansion, she sent word back to her daughter, inviting her to call on her at her humble home in Brookline, whose door she has not darkened since she became the wife of Harry Thaw.

Mrs. Holman's refusal to go to the Thaw mansion upset all of the Thaw's plans, and just what the outcome will be no one can foretell. Friends of Mrs. William Thaw declare that they will make the first move toward a reconciliation with Mrs. Holman, much as she wishes it for the welfare of her son. The chances are that Evelyn will have to step into the breach and bring about peace. It is believed that she will accept the invitation of Mrs. Thaw to make the first call, after which she will invite her mother to call on her at the Thaw mansion. Mrs. Holman will consent to do so, and while she is in the city, she will meet the elder Mrs. Thaw. The first meeting is all that is necessary, and the rest will be smooth sailing.

ELLEN TERRY IN LONDON.

Congratulated on Her Marriage to James Carew.

LONDON, May 13.—Ellen Terry returned here to-day from the United States on board the steamer Minnetonka. A crowd of friends met her at the dock, congratulated the actress on her marriage to James Carew, her leading man, and presented her with a handsome bouquet. She was in the best of health and spirits, and enthusiastic concerning the American tour, but she expressed the wish that her marriage be treated as a private affair. Very few of those on board knew of the event until she reached London. In an interview, Terry said her plans were indefinite. She was going to prepare her autobiography for publication in June, and expected to hasten here in the next night's time, after which she would go to the country and enjoy a rest. She warmly thanked everybody for the kind congratulations.

NOT LAID UP, BUT VERY TIRED.

You need a rest; you would take it if you could; your nerves are all upset, your stomach sour and appetite poor, urine is dark in color, with a heavy sediment, and bowels irregular. You are on a straight road to a general breakdown and you will certainly arrive there if you do not take immediate steps to improve your condition. The age of miracles has passed, some diseases are incurable, but you can prevent contracting them. King Palmetto Compound will give you immediate relief. If you wait until a patient medicine, its formula is plainly printed. It is the result of a scientific knowledge combined with plain common sense. Do not wait until actually laid up. Take King Palmetto Compound now. Give a trial. Write for a free sample bottle to the King Palmetto Compound Company, Bridgeburg, Ontario. Sold and guaranteed by Burgess-Powell Company, 78 Yonge-street, Toronto.

C. S. A. Officers.

The annual meeting of the Canadian Society of Applied Art was held in the O.S.A. gallery yesterday afternoon. Election of officers for the ensuing year took place and resulted as follows: President, Agar Adamson; vice-president, G. A. Reid; secretary, J. W. McEwen; executive committee, Gustav Hahn, F. S. Chalmers, C. W. Jeffrey, E. W. G. G. West, Miss Westmacott, Mrs. G. A. Reid, Miss Toyns, A. Bonitche and A. H. Howard.

Something to Remember.

Victoria Day is fast approaching and it is time we made up our minds as to where to go for the holiday. Call at Grand Trunk city office, 100 King-st. west, and we will furnish you with full information and tickets. Remember, tickets will be on sale to all Canadian points at single rate on the round trip. To Muskoka points, Beauport, Port Carling, Rosseau, Bala, Foot's Bay, Huntsville, Dorset, Bayville, Portage, etc., temporary Cobalt, Halleybury, New Liskeard, Englehart. Tickets good going May 23rd and 24th, valid to return until May 27th.

Call to Markham Pastor.

Rev. Gilbert Argar has resigned the pastorate of King-street Methodist Church. He intends making a tour of the west. The congregation has issued a call to Rev. Mr. Nell of Markham to fill the vacancy.

Carling's Pilsener Beer and Lager. Noted for Purity, Brilliancy and Uniformity. Carling's London.

GOVERNMENT TO ASK FOR VOTE OF CONFIDENCE

Briand Replies to Further Interpellations of Government on Policy Towards Labor.

PARIS, May 13.—When the chamber of deputies reassembled to-day Education Minister, Briand replied to further interpellations of the government, on the latter's policy towards labor. He declared that the minister had acted in the true interests of both the public and the working people in suppressing the violence and the tyranny of the revolutionary general confederation of labor, and expressed his determination, with the fullest approval of his colleagues, not to permit any attempt at insubordination on the part of the school teachers or other state officials.

Continuing, M. Briand said the government categorically refused to authorize the school teachers and other state officials to form the unions which the general confederation desired in order to provoke confusion and disorder. He declared that the government desired to overcome anarchy by means of order and discipline, and that it was determined to do so. He declared that the government would not tolerate any insubordination on the part of the school teachers or other state officials.

BIG GRIST OF IMMIGRANTS.

Fifteen Hundred Reach Toronto in Three Days.

About 1500 immigrants have arrived in Toronto during the past three days. Most of these are seeking local situations, although three or four hundred went thru to the Northwest.

Children's homes in the old country were responsible for over one hundred of the strangers. Part of the juvenile contingent goes to the Macdonald Home at Niagara, the others to the Girl's Home at Niagara. All have homes, mainly with farmers, awaiting them in the province.

The influx of such a multitude of strangers is keeping the immigration officials busy. Saturday they were kept on the move until after midnight, and on Sunday they were kept on the move until after midnight. The Toronto people are glad to see the newcomers, and are glad to see the newcomers, and are glad to see the newcomers.

CANADIANS IN NEW YORK.

Hon. J. J. Maclean to Speak to Canadian Club Wednesday Night.

Hon. Justice J. J. Maclean leaves for New York by to-morrow afternoon's train. He will attend a dinner which is being given by the Canadian Club at the Hotel Astor on Thursday, and give an address on "Canadian National Sentiment."

Can't Sell These Fish.

In reply to a large number of enquiries, Edwin Timpley, superintendent of fish and game, wishes the public to take notice that certain species of bass, speckled trout and mackinnow are absolutely prohibited in Ontario by order-in-council.

Suit for Lumber.

In the non-jury action yesterday, suit was brought against Plympton & Revere, lumber merchants of Toledo, for payment of \$11,328.76 for lumber delivered by the Parry Sound Lumber Company.

Companies Affected by Corby Fire.

MONTREAL, May 13.—Following is the list of companies affected by the disastrous fire at Corby's distillery in Belleville: Royal, \$50,180; Union, \$15,750; Liverpool & London & Globe, \$15,750; Phoenix of London, \$15,750; Guardian, \$7500; North British & Mercantile, \$7500.

Buffalo Capitalist Dead.

BUFFALO, N.Y., May 13.—Frank H. Goodyear, one of Buffalo's leading business men, died yesterday, well-known for his financial work, well-known for his financial work, well-known for his financial work.

DR. A. W. CHASE'S 25c CATARRH CURE.

This is a new and improved formula for the cure of Catarrh of the Bladder, Prostate, and Uterus. It is a powerful and reliable remedy, and is sold in bottles of 25c and 50c.

CELEBRATE LANDING OF FIRST SETTLERS

Ambassador Bryce Gives Greetings of Old World—Lady Grey in Attendance.

NORFOLK, Va., May 13.—The celebration to-day on Jamestown Island, forty miles up the James River, of the 300th anniversary of the landing there of the first permanent English settlers under Sir Christopher Newport, John Smith and others, was held under fair skies and auspicious conditions.

The exercises were directly under the auspices of the Society for the Preservation of Virginia Antiquities. The opening address was delivered by Governor Swanson of Virginia and British Ambassador Bryce followed with Greetings from the Old World to the New. Among the distinguished persons who were to attend the ceremonies of the day is Lady Grey, wife of Earl Grey.

TEMPORARY CAR ROUTES.

Relaying of King Street Track Necessitates Several Changes.

The relaying of the street railway tracks on King-street, between York and Church, has necessitated the change of a number of car routes. Beginning Wednesday the routes of the following cars will be: Avenue and Dupont—Cars will run south on York, east to Church, south to Queen, west to Yonge and then north on Yonge.

Belt Line (up Sherbourne)—Sherbourne cars will run down York to Front, east to Church, north to King, and west to Spadina. Spadina cars will run south on Church to Front, west to York, north to Queen, west to Church, north to King.

College and Yonge—South-bound cars will run down Yonge to Queen and return by Queen and McCaul. North-bound cars will run down Church to Front, west on Front to Bathurst, north to King. King-street—East-bound cars will run down York to Front, east to Church, north to King.

WILL SUPPORT LEPERS.

Government Gives Them Choice of Means of Existence.

From a letter received from Dr. Montzambert, Dominion health officer, at the Toronto office of the Mission to Lepers, it is learned that the eight Chinese lepers from D'Arcy Island, who were last week shipped back to China, have been given by the Canadian government the choice as to how they will be supported there.

How to Enjoy an Ocean Trip.

There is a strong tendency nowadays on the part of experienced ocean travelers to avoid the overcrowding and corresponding inconveniences of record-breaking steamships, and to seek accommodations where the voyage can be made in perfect tranquility and freedom from all excitement. The change is noticeable this season, and is giving more than usual prominence to the Anchor Line, which seems to be making a distinct following of its own kind in the consolation of the various parts of which the trip is made.

Returned From Los Angeles Council.

Via C. P. R.

Several Toronto Nobles of the Mystic Shrine are returning from the Imperial Council of the order at Los Angeles by way of the C. P. R. and were met at the wreck at Honda, Cal., in which 25 nobles from New York and Pennsylvania were killed. The Toronto people who accompanied them were: Illustrations Potentate of Ramesses Temple James Glanville and wife; John J. Main, Police Commissioner; Robert Newman, secretary Shea's Theatre; F. R. Skell, a commercial traveler, and Dr. Capon, 26 College-st.

LOCAL SHRINERS NOT IN IT.

Harry Collins, past supreme officer of the order, sent the following message of condolence to the Shriners of Buffalo, N. Y., and Reading, Pa.: "An order will be issued for Ramesses Temple to go into mourning for sixty days."

LOCAL SHRINERS NOT IN IT.

Several Toronto Nobles of the Mystic Shrine are returning from the Imperial Council of the order at Los Angeles by way of the C. P. R. and were met at the wreck at Honda, Cal., in which 25 nobles from New York and Pennsylvania were killed.

ARNOLD'S NEW BILL FOR SERVICE RENDERED

Gives Details of Account of \$7500 for Waging Legal Battle for G. R. Cockburn.

Frank Arnold, K.C., rendered a bill to G. R. R. Cockburn for \$7500 legal services in the trial of the latter in connection with the Ontario Bank smash. The master-in-chambers ordered the former to itemize his bill.

Following is the itemized account submitted at Ontario Hall yesterday: Upon the discovery of the position of the said bank being made public, a criminal charge was laid against the defendant. In consequence thereof the defendant thereupon retained and employed the plaintiff as counsel to look after and protect the interests of the said defendant and to defend him against the said criminal charge and the consequences following and the fact of the same having been preferred.

The plaintiff acted for and on behalf of the said defendant in connection with the matters referred to in paragraph four hereof and in connection with the said criminal charge, and was engaged upon said matters all the time from the 18th day of October, 1906, to the 4th day of February, 1907, framing and carrying out plans for the defendant's protection and defence, and advising and procuring co-operation and assistance, and in and about doing so in interviewing various parties, making various arrangements, conducting interviews, and procuring upon numerous persons in connection with the said matters, and in attending twenty-two days in court, while proceedings were being taken affecting the defence of the said defendant, and in conducting the defence of the said defendant, with the result finally that the defendant was tried upon the said charge before Geo. T. Denton, police magistrate for the City of Toronto, and was, on or about the 14th day of February, 1907, acquitted upon the said charge made against him.

NEW PARLIAMENT OPENED.

Alfonso Refers to Excellent Relations Now Existing.

MADRID, May 13.—King Alfonso, who was accompanied by Queen-mother Maria Christina, opened the new parliament to-day. The king read a message from the throne promising reforms in the state administration, including decentralization, and urged the immediate necessity for the reconstruction of the navy. He referred to the meeting with King Edward at Cartagena, by which the ties uniting Spain and Great Britain were strengthened, and the excellent relations between Spain and all other nations were maintained.

Earl Grey Shield for Markmanship.

Contests in Armories.

The Earl Grey marksmanship shield will adorn the walls of Givens-street school for the next year, the team leading with 268 points in the rifle shoot contest. The school place in the armories on Saturday.

GIVENS ST. SCHOOL WINS.

CIGARET AGAIN BLAMED. Supposed to Have Set Fire Which Caused Many Deaths. MEXICO CITY, May 13.—The fire in the Terrene Mines, which caused the death of upwards of a hundred men, is supposed to have been started by a cigaret thrown away by one of the miners. The part of the mine in which the fire originated, it is said, was extraordinarily dry, and it is believed that the man, by throwing away his half-burned cigaret allowed it to drop in a bunch of waste. A blaze was the immediate result, and this quickly conveyed itself to the adjoining timbering. The fire had gained great headway before it was discovered. The miners found that all avenues of escape had been cut off. Seventeen, however, who were in good position made a dash and reached the outer air. Rescuing parties have been working heroically, but only charred and unrecognizable bodies have thus far rewarded their efforts.

A Cough Medicine. Ayer's Cherry Pectoral is a regular cough medicine, a strong medicine, a doctor's medicine. Good for easy coughs, hard coughs, desperate coughs. If your doctor fully endorses it for your case, then take it. If not, don't take it. Never go contrary to his advice. The late Dr. J. C. Ayer & Co., Lowell, Mass.

SPECIAL FARMING LIVE STOCK EDITION

SHYLOCK OUTDORE.
To listen to the plaint of the milk dealers, the minor key of sorrow which they describe their woes would lead the lay mind to believe they are being treated with ingratitude by the milk producers, and as they further enlarge upon their protracted condition they invite the sympathy of the consumer, whom they profess to be trying to protect.

Let us see how far these public-spirited dealers have the interests of the consumer at heart, and the self-sacrificing manner in which they have been endeavoring to protect their patrons. For an eight-gallon can of milk the dealers have been paying the producer an average of \$1.10. This can of eight gallons, or thirty-two quarts, is retailed out to their customers at 7 cents per quart, or 5 cents if delivered in a glass quart bottle; so that, at the first figure a can would realize a profit of \$1.14 on \$1.10 purchase from the producer, or \$1.46 if in the luxury of the glass bottle. This represents a profit of 103.4 per cent, and 132.4 per cent, respectively.

To obtain this difference the dealer requires to deliver the milk much as the baker delivers his bread. Now it has been stated by the profit to the dealer per quart, when everything is cleaned up, is only about 7 per cent, and not beyond 10 per cent, therefore by their own figures it must require on an average the difference between 103.4, or 132.4 per cent—the gross profit—to deliver the milk and collect the money. In other words, they require to spend on an average over 100 per cent in expenses to get 7 per cent saved out of the wreck for their own business profit. It is quite plain the consumer doesn't get any of the cheerfully paid 103.4, or 132.4 per cent profit to the dealer when he buys his milk at 7 or 8 cents a quart.

Where does the enormous expense come in that swallows up, as the dealers allege, fifteen-sixteenths of the original margin? It must be the milk drivers who get it as they are about the only ones to account for this deplorable waste after the cost of the hives and cart are covered and capitalized. But we haven't heard of any milk drivers buying summer cottages at lake-side resorts, or investing very largely in real estate.

But we know dealers who have, and others who are contemplating the purchase of automobiles, also we think that would be an indirect display, that would largely explain the mystery. So far as capital invested is concerned, it is safe to say that the milk producers have \$100 employed for every \$20 the dealers can show is being used in the actual necessity of their business; still they cry croak up, "Look at the money we have sunk in the business!" forgetting that producers must have horses and carts engaged in the industry as well as they, and also hired help and countless other expenses besides the necessary capital represented by farms rendered valuable by being adjacent to the city.

Recent legislation has prevented money-lenders charging an exorbitant rate of interest, but we never heard that the worst Cohen among the lot ever had the temerity to ask 122 per cent.

HOPE TO STRIKE OIL.
New Field in Western Ontario Gives Promise of a Strike.

Messrs. Walker and Douglas of Walkerville have obtained options on some farm properties in Sandwich East Township, where they purpose boring for oil. The forty miles distant from the city, the oil fields, it would appear from recent tests that the geological formation of this section is the same as that of the oil district, and for this reason those who conducted the investigation are hopeful of striking oil.

TO PUBLISH ALL PROCEEDINGS.
Deakin Will Propose Reconstruction of Colonial Office.

LONDON, May 13.—The Canadian Associated Press reports that Premier Deakin at tomorrow's sitting of the conference will propose that there should be a reconstruction of the colonial office so as to provide for a periodic interchange of officials between Downing-street and the various parts of the empire.

The Canadian Associated Press understands it has been decided to publish in extenso the proceedings of the colonial conference; the publication will be at an early date, but the speeches will require some revision before publication.

FRANK OLIVER AND DEPUTY MUST SHOW RECORDS.
CALGARY, May 13.—Hon. Frank Oliver and his deputy have been served with notice to appear with all records of the department of interior at the examination bearing on the case of Montalbett, who is now at MacLeod's jail on the charge of perjury in the Blairmore Townsite case. The registrar of the exchequer court has also been subpoenaed to produce together with the court records. Startling developments are expected.

Fred Nelles, barrister of Tilbury, son of the late Chancellor Nelles of Victoria University, is critically ill. His malady is kidney trouble.

THE PRICE OF MILK.

F. L. Green of the Greenwood Creamery Talks of the Cost to Produce Milk—What It Cost to Feed a Cow.

Just now the question of what milk is worth to the farmer is under discussion. Some claim—especially the City Dairy—that he is too well paid at \$1.20 per 5 gallon can.

Mr. F. L. Green of Greenwood farms a big farm of choice rolling land. He also operates a big flour and chopping mill. On his farm is a big creamery plant, supported by a herd of some 50 Jersey, Friesian and Guernsey cows, and a number of other breeds. Mr. Green is a shrewd and careful business man, and when he speaks he generally has considered his subject, for Fred is not a talkative man, as all who know him can vouch for.

When approached by a representative of The World regarding his knowledge of the milk business, he cheerfully accorded the information cheerfully and believes that the cow, the pig and the hen are the winning triplets of farm prosperity.

"How much butter do you make out of a can of milk?" asked the visitor.

"That varies greatly," said he, "but I should say that generally I would expect 3 1/2 per cent, butterfat in the milk, as that is the required percentage of butter fat in the milk for delivery in Toronto. Some milk is richer than that."

"Well, how much butter would that make you?"

"An 80-lb. can would make about 2.22 lbs. This at 25c per lb., which I am getting, would give a return of 56.1c cents."

"How about the value of the skim milk left, sweet on your place?"

"That is worth these days of dear feed fully 20c a can to me."

"Then you would say that your eight gallon can of milk was worth 90.1c cents, plus 20 cents?"

"Yes, that is over \$1.10 per can. If I had to take that can to the station and ship to the city I would want considerably more money, as I cannot support horses and rigs to go to the station for five or six days for nothing."

"Then you consider \$1.15 as little enough for the farmer?"

"I certainly do. Why bran at my mill is \$22 per ton to-day, while it was \$12 per ton ten years ago. All feeds have advanced, some as high as 70 per cent. Oats are now 45 cents on the level, which I could buy them ten years ago for 25 cents. And another point is that this has been high level prices for some time. In those years we would have a high year and then a low year, but now it is high prices all the time."

"Labor in the meantime has advanced early 100 per cent, to the farmer. Everything used in the production of milk has gone up. The case for the farmer is a very strong one. Other farmers in Ontario and York counties were a unit in saying that the advance to \$1.20 per can was fully justified by the high prices that have been prevailing. The cost to feed a cow for one year runs from \$30 to \$60. The average herds of these counties do not go 4000 pounds of milk per year. This, at the price of \$1.10 per can, leaves little for the farmer, beyond the fertilizing elements and the pleasure of looking after a calf for three years to get it to a milking age."

It was decided that the next show should be held Dec. 9 to 13, 1907. No changes were made in the prize-list for live stock. The following classes were added to the poultry department:

A class for Silver Penciled Wyandottes, Brahma bantams, African geese, guinea fowl in pairs, and an additional class for Island Bantams, making separate classes for the Single Comb and Rose Comb varieties. The class for Orpingtons, A.O.C., was changed to read Orpingtons, White, the varieties of Orpingtons not classified to be shown in the A.O.V. fowl class. The prizes and entry fees for guinea fowl will be the same as for pheasants.

It was also decided that the limited amount of space in the building, any hay brought into the fair building by exhibitors must either be baled or cut and placed in sacks.

It was also decided that late entries in the poultry department must be in the secretary's hands, or postmarked at the secretary's office, not later than Nov. 26. The regular entry fees for poultry must be postmarked at the mailing post office, not later than Nov. 26. The arrangement by which exhibitors were given the scale of points by which awards are made in the dairy department. The scale of points for the next show will be as follows:

Twenty-five points for each pound of fat. Three points for each pound of solids (not fat). One point for each ten pounds of milk. First thirty days; limit ten points.

The scale previously used provided for twenty points for each pound of fat and four points for each pound of solids (not fat).

Judges.
The following are the judges for this year:

Beef cattle—Robert McEwen, Stouffville; James Smith, Rockland; J. T. Gibson, Denfield (reserve).
Pigs—Prof. G. E. Day, Guelph; Geo. F. Morris, London.
Sheep—Prof. G. E. Day, Guelph; H. G. Clark, Georgetown (reserve); Wm. Jones, Zenda; A. C. Hallman, Breslau, Berks-shires—Peter McEwen, Ketchikan; H. G. Clark, Georgetown (reserve); Wm. Jones, Zenda; A. C. Hallman, Breslau, grade or cross—H. S. Arkell, Guelph; Live banded hogs—Prof. G. E. Day, Guelph; R. J. Corbett, Belleville; Wm. Jones, Zenda (reserve).
Bacon carcasses—H. S. Arkell, Guelph; Dr. F. J. Small, Toronto.
Socks—J. Buchanan, Guelph.
Dairy—Prof. H. H. Dean, Guelph.
Judging competition—Prof. G. E. Day, Guelph (in charge).

VEGETATION IN ONTARIO ALMOST AT DANGER POINT

Hard Frosts, Cold Weather and Dry Winds Make the Outlook for Farmers Not Pleasant.

Reports from many parts of Ontario show that apprehension is being felt by many over the outlook for the crops of Ontario this year. Although show in the middle of May, yet there is practically no growth in the land outside of a few warm townships in Western Ontario are all very backward. The seeding has gone on well, and most of the country has been sown. But when the grain was sown three weeks ago, hardly a blade is seen thru the cold clouds.

The Meadows.
Old and new meadows present a very sickly appearance indeed. Many people are obliged to mow up their meadows. Old meadows are looking so bad that at best now the crop of hay can only be a medium one.

Mr. Simpson Rennie of Toronto, who has been traveling over various sections of the province, reports that the new seeds are in "a bad condition in Western Ontario, and in the Georgian Bay district. Around Toronto there is a little brighter prospect, but it is behind in this vicinity. Warm rains and warm weather will do much yet to keep up the situation.

The Fruit Outlook.
The outlook for apples, pears, peaches, plums and small fruits was never better. Kind nature has kept the buds back so that the present cold blasts and morning frosts are not as harmful as they otherwise would be. A trip thru some parts of Ontario reveals a wealth of blossom ready to burst forth. Fruit buds are set in abundance, and a big yield is looked for. The reports from the United States would indicate a similar state of affairs as far as fruit is concerned.

Wheat Bad.
Fall wheat has certainly suffered badly. The frosts of April have heavyed the roots of the grain to such an extent that the plants become an easy prey to the drying winds of the last few days. From everywhere in Ontario there comes the same story. Many fields are cultivated over and sown to barley, so that the product can be used only for feed. The United States crop report just issued places the condition of wheat away down. A glance at our commercial page will show just how speculators view the situation. Wheat is now a dollar a bushel. When we take into account the big quantities yet undelivered in the west, of last year's crop, the situation is quite serious.

GUELPH WINTER FAIR.

Some Changes in Next Year's Judging—Scale of Points For Fowl.

A meeting of the executive of the Provincial Winter Fair was held in the office of the secretary, parliament buildings, on Thursday, May 2.

THE MILK QUESTION AGAIN.

The arbitration of the farmers and milk dealers takes place to-day.

No doubt the dealers will have carefully prepared statistics to show that they are poor.

The farmer is busy now and will not have all the facts at his command.

But the bare facts of the heavy costs of feed now, which labor at its highest, speak loudly.

The price asked by the farmers is judged by many representative farmers over the country whom we have met, to be quite moderate.

Others feel that the question should not have gone to arbitration, as the producers had a clean case.

Nothing less than the full demands will settle the question, even if agreed to by the producers now. There will be a scarcity of milk this summer. Farmers are leaving the business. Butter and cheese pay better.

The dealers are not to be blamed for wanting their prices, any more than all of us are for holding to our prices. But the farmers deserve more and in the race of supply and demand they are bound to win.

OPPRESS THE FARMER AND YOU OPRESS THE CITY.

FARMERS ARE MULCTED EXPRESS RATES VEXATIOUS

Fruitmen Are Not the Only Ones Pinched by Express Companies—Stockmen Feel Grip.

The fruitmen are not the only ones who are squeezed by the extortionate rates and poor accommodations given by the express companies. The facts as laid down by the writer from St. Catharines in a recent issue, and the miserable delay and prohibitory rates as mentioned by D. Johnson of Forest are common to the whole country. Complaints are made, and general inconvenience results by the hold-up these companies have on the traffic of the country.

The following letter from a stock-breeder in Pickering Township shows how grasping these express companies are in their business, and how much they get out of it.

The whole thing is outrageous, and the time is coming when enraged public opinion will rise up and demand in no uncertain terms that the utilities of the country be placed under control of the people.

Agricultural Editor.—I note with pleasure what you have to say regarding the grievances against the express companies. You are certainly putting the case more strongly. Canada is believed to be a leader in progressive government. Her people are intelligent, and the thrifty business progress along the lines of transportation and communication facilities they are woefully behind many less-developed and more ostentatious peoples. Why do we suffer a carrying company to throttle our trade and hold up honest intercourse between the business world? Why should a stockman have to pay an express company an amount equal to the value of the fruit to get that fruit to the value of the fruit?

Perhaps it is part of the system that has tied our country up so that the corporations have got the upper hand and use the law to their advantage. If so, it is high time for us, whether we have chosen for Grégoire or Torgue, to look about us and vote for what is a square deal to the farmer and consumer.

Double Rates.
I had occasion lately to ship some hogs to the express. The express company charged \$24 on three small pigs—an amount equal to the value of the pigs shipped. Last week I shipped a pig to Muskoka on the main line. The crate was prepaid with \$2.25. Upon reaching the destination the pig was delivered and a charge for express made upon the party to whom delivered for \$3.60.

This is due to mistake or extortion, and the strange wrong thing is that the mistake, if such, always occurs on the side of the company.

The rate is too high in the first instance. It utterly robs the stock-breeder's business much less profitable and plays big profits into the hands of the corporations serving the out of the farmers' hard-earned profits.

Pickering, May 11, 1907.

THE FARMSTEAD

Remember our auction sales. Express rates are obnoxious. Where are the warm winds of summer?

The milk producers should go to Brockville on the 23rd for a good Holstein.

The farmers should have the \$1.30 for their milk. No least is of any use to them, with dear feeds.

The season is already a long way behind the usual progress of the month.

Fruit prospects are good so far, and if the month wind is temperate to the end of June, a good crop will be harvested.

A good wire fence does not cost so very much, and it saves a great deal of worry from chasing after a thief.

W. H. Stevenson of Oshawa writes regarding his white Wyandottes. He says The World ads, pay.

We call the attention of our readers to the ad. of J. J. Turner & Sons of Peterboro, for their canvas tents.

J. M. Crutcher of Asper, Ont., is advertising white Leghorn eggs in this issue. These hens are layers and not much loss is met with by the hens being broody.

Richard Gathrie & Sons of Audley Street, London, Ontario, have a fine Clydesdale mare and foal last week.

The Woodstock Serpentine Review says that the frost last week in the Township of East Zorra was the most severe known for many years.

Hen manure contains the same plant foods that are found in any complete fertilizer, but in a far less concentrated form. The price asked by the farmers is judged by many representative farmers over the country whom we have met, to be quite moderate.

Others feel that the question should not have gone to arbitration, as the producers had a clean case.

Nothing less than the full demands will settle the question, even if agreed to by the producers now. There will be a scarcity of milk this summer. Farmers are leaving the business. Butter and cheese pay better.

The dealers are not to be blamed for wanting their prices, any more than all of us are for holding to our prices. But the farmers deserve more and in the race of supply and demand they are bound to win.

A ZERO

Makes a big difference sometimes. Last Friday some one left a zero off the figures that numbered our farm readers. That put the number away down ten times.

But there are no blanks in these ads. They mean business each time. They talk of business. They breathe of business and in fact are business from the word go.

G. MANHARD, Manhard, Auctioneers.

DILLON HINGE-STAY FENCE

"HINGE-STAY" MAKE DILLON TWICE AS STRONG

Short, stiff, hard, steel wire stays make a "hinge-like" joint at every lateral wire on the Dillion fence. These "hinge-stays" give our fence a greater degree of elasticity—enable it to withstand greater strain. They set like, and really stay, hinge—make our fence swing or spring back into shape after receiving a heavy blow, or the unusual pressure caused by a furious bull or other animal, without breaking its "twice as strong" fence.

COBALT --- Foster Liquidation Brings a General Market Weakness --- COBALT

LIQUIDATION RENEWED IN THE COBALT STOCKS

Foster is Heavily Sold and Other Stocks Follow the Trend of This Issue.

World Office.
Monday Evening, May 13.
A new weakness presented itself in the market for Cobalt shares to-day, and the prices of the principal stocks fell well below those at the close of the week. The heaviest selling took place in Foster, which was sold at from 130 to 124 1/2. No reason was forthcoming for the advance of selling orders in this stock, and the only inference to traders was that the large holders were again raising some of the stock. The bank in Foster brought pressure on Trethewey, Silver Queen and the market in general. A strange coincidence of the afternoon's business was the dealing in Cleveland Cobalt, which sold on the Standard Exchange at 10 1/2 at the same time it was selling on the Toronto Exchange at 9. There was no new information to guide speculators or investors, and the only criterion of values was the prices as made by the professionals on the exchanges. Under the circumstances the close was extremely nervous. Nipissing stock raised considerably at New York to-day, and this was not taken as a favorable influence by those who are given to watching the mining market as a whole.

New York Curb.
Charles Head & Co. wired to R. R. Bond and his fellows:
Nipissing closed 12 1/2, to 12 1/2, high 13, low 12 1/4, 7000; Silver Queen 1/4 to 1/2, 100 sold at 1 1/2; Green-Mechan, 1/4 to 1/2, no sales; Trethewey, 1/4 to 1/2, high 1 1/4, low 1/2; 400; McKimley, 1/4 to 1/2, high 1 1/4, low 1/2; 600; Red Rock, 1/4 to 1/2, no sales; King Edward, 1 to 1 1/4, 100 sold at 1 1/2; Foster, 1 1/2 to 1 1/4, 100 sold at 1 1/4; 1300; Silver Queen, 13 to 15, no sales; Cobalt Central, 28 to 30, high 40, low 38, 10000.
On Boston curb: Cleveland closed \$1 to \$1.03, high \$1.10, low \$1.00; Silver Queen, 13 1/2 to 15, 200 sold at 14; Abitibi, 13 to 14, 100 sold at 13.

COBALT & ALL OTHER STOCKS

16 KING ST. WEST. - Phone M. 981

Dr. Reddick Larder Lake Mines, Limited

(NO PERSONAL LIABILITY)

Head Office: Room 45, Central Chambers, - Ottawa, Ont.

OFFICERS AND DIRECTORS:
Lt.-Col. S. Maynard Rogers, President and Managing Director.
Robert Stewart, M.P., Vice-President.
Sir Frederick Borden, K.C.M.G., M.P., Ottawa.
Col. Sam Hughes, M.P., Lindsay, Ont.
Dr. Robert Reddick, Winchester, Ont.
Charles W. Dimick, Boston, Mass.
John G. Forgie, Barrister, Pembroke, Ont. Directors.
D. Smiley Sawyer, Ottawa, Ont. Secretary-Treasurer.

Dr. Reddick and his associates, Messrs. Hummel, Knott and Flynn, are the men who made Larder Lake famous, being the original discoverers of gold in the Larder Lake region, and after carefully prospecting, selected, staked and recorded what are universally acknowledged seven of the very best claims in this region. All of this work was done before the first fall of snow so that in purchasing this property we know that we have the best that could be procured in the Larder Lake region.

The claims all have a number of large quartz veins, showing values in Gold, Silver and Copper. Assays ranging from \$8.40 in silver, and \$122.00 to \$1,868.00 in gold have been recorded.

It is acknowledged on all hands that our property is the heaviest mineralized in the country.

A gang of men have been at work since the 15th of February putting up the necessary buildings and taking in supplies, machinery, etc., and actual development will commence shortly.

To intending purchasers we would advise this as a good investment and would be pleased to receive a call from any who desire further information. We are offering \$200,000 of the Treasury Stock, par value, \$1 per share. For Prospectus and full information write the company.

IT'S LIKE THROWING MONEY AWAY

MUST "MOVE ON."

Technical Conviction Registered Against H. E. Trent.

In the police court yesterday Henry E. Trent, 274 St. George-street, was remanded on a charge of disorderly conduct by Magistrate Dennis, the offence being that the defendant refused to give his name when asked to do so by a constable. A technical conviction was entered, and it is understood that J. W. Curry, K.C., appearing for Trent, will appeal from the judgment of the police magistrate.

Owing to a regrettable error, due more or less to the reticence of the police in giving out the facts, the name of Byron E. Walker was mentioned as one of the party requested to move on. It was J. R. Walker, who, with T. F. Webb, was present when the officer took away the truck. Both witnesses were sure that Trent was not blocking the thoroughfare, and that the constable had acted hastily.

LARDER LAKE

The Larder Lake gold district presents wonderful opportunities for rich profits—also losses.

Everyone should thoroughly investigate and get properly posted before getting in. It seldom pays to take "a flyer"—that's usually only another name for a "blind chance."

My office, my engineers and my experienced employes are on the ground. By their aid, and my own personal work, I keep my following reliably informed from week to week and they make money.

Thousands will testify to that.

WRITE TO ME for my weekly letter, my book, "The Gold-fields of Larder Lake," and my map. They are free.

HEAD OFFICE

COBALT DEVELOPMENT CO., Limited

Their properties consist of THREE claims in the Portage Bay District, one 20-acre claim in Coleman Township, and an exceedingly rich property adjoining the famous Temiskaming and Hudson Bay property, and the 600-acre town site of North Cobalt, where they are at the present time erecting 100 houses.

The price of this stock to-day is 25 cents per share, but it will be advanced to 30 cents per share in a few days, as we only have a small allotment of shares at the above price.

Send at once for prospectus, particulars and application forms to

SAMUEL HERBERT & CO.

Phone Main 689. 20 KING ST. EAST Toronto, Can.

P.S.—This stock will be listed on all American and Canadian Curb Markets as soon as the mining markets steady up.

ron Whittaker of Detroit was sunk in the lower Detroit River last night off the coast of St. Clair. She was carrying 1000 tons of coal. Her crew of 12 men were rescued by the crew of the tug General.

Monitor Cobalt Prospecting & Development Company Limited

(No Personal Liability)

Authorized Capital \$500,000, Divided Into 500,000 Shares of a Par Value of \$1.00 Each.

THE WHOLE OF THE STOCK IS TREASURY STOCK

Incorporated under "THE ONTARIO COMPANIES ACT" and "THE ONTARIO COMPANIES INCORPORATION ACT."

INTRODUCTION.—With so many MINING enterprises at present before the public, it must be difficult for an investor to decide which is the BEST, and therefore a change from the well-trodden track of Mining enterprises should solve their difficulty.

We are not going to bias your faith against the now familiar facts of the unknown wealth of the Northern districts of Ontario (COBALT, LARDER LAKE, MONTREAL RIVER, etc.), but will proceed to place in your hands a proposition which will at once appeal to you as a sound investment from a business man's and investor's point of view.

ONE GREAT ATTRACTIVE FEATURE is that the city man need no longer worry over the problem of how to acquire HIS OWN CLAIMS, as we not only acquire the claims for him, but also Develop, Work or Sell them for him, thus he reaps the full benefit of the sale of his claims and also the benefit of his holdings in the above company.

A PURSE WELL LINED IS A BLESSING KIND. SO IS A LIBERAL CHARTER.

INTEREST IN SUBSIDIARY COMPANIES.—Our business as a Prospecting and Development Company is not to Sell ALL we get—but to develop any claim our engineers advise us as sufficient showing to warrant the forming a sub-mining company. Thus, naturally your holdings in the Monitor Cobalt Prospecting and Development Company, Limited, materially increase in value as you then hold interests in both companies. In addition to this our friends who come in with us NOW will have the opportunity of coming into such companies on the CELLAR FLOOR, which is just one flight lower than the GROUND FLOOR.

A WORD AS REGARDS OUR METHODS.—We have already despatched a group of prospectors to the field, and within a week or so the company will own a considerable acreage in the MONTREAL RIVER DISTRICT and NORTH OF LARDER LAKE. Foreseeing a large and ever increasing sale of claims, the directors are already in communication with brokers throughout Canada, the principal cities in the United States and in England.

Another means of procuring valuable properties is by either buying outright or advancing sufficient funds for development to men who have not sufficient capital to develop their claims, in which event the company takes an interest in proportion. No purchase or advance, however, will be made except on the advice of the company's engineers.

OUR CHARTER, being of a liberal and far-reaching character, enables us to undertake not only Mining enterprises, but permits us to handle any enterprise which will be done in cases where a good remuneration and a quick turn over is to be made.

The directors cordially invite all shareholders to offer suggestions for mutual benefit.

OUR DIRECTORATE has no names of a purely ornamental character, but comprises only practical mining and business men, which fact BUSINESS MEN AND THE INVESTING PUBLIC CANNOT FAIL TO APPRECIATE.

Review the Principal Facts—Small Capitalization. The Whole Stock is Treasury Stock. Each Man His Own Claims. Interest in Subsidiary Companies and the Cellar Floor Opportunities in Such Companies. Exceptionally Liberal Charter. Economic System-Working Directors. The Exceptional Chances of an Early and Good Dividend.

President John L. Birney, Broker, Toronto; Vice-President, W. H. Fehlan, Solicitor (England), Halifax, Ont.; Secretary-Treasurer, Albert E. Boreham, Montreal, Que.

Financial Agent, Toronto; Superintendent, Kenneth M. Curtis, New Larder and Toronto; Managing Director, John T. Rigg, Mining Broker, Toronto; Engineers, Eggert & Brooks, New Larder.

THE COMPANY'S OFFER.—The Company now offers for sale a limited amount of Treasury Stock, at the GROUND FLOOR price of FIFTY CENTS per share, par value \$1.00 each, fully paid up and non-assessable.

LARDER LAKE CLAIMS

Promoters and buyers of Larder Lake claims will do well to see us. We can offer a number of selected claims and groups of claims at a nominal increase over what you would pay on the ground, and, to responsible promoters who will commence development work immediately, we will furnish A1 claims in return for stock.

We were the first mining firm on the ground; our engineers and employes are in the field, and in dealing with us you may safely rely upon representations—at the same time, we think, deriving benefit from our knowledge of the field.

GRAIN PRICES BOOMING

WHEAT IS UP 5 CENTS

Liverpool Follows Chicago and Options Create a Lively Time for Awhile.

World Office, Monday Evening, May 13. Liverpool wheat futures closed to-day 4 1/2 to 4 3/4 higher than Saturday, and...

Chicago, May wheat closed 4 1/2 higher than Saturday, May corn 1 1/2 higher, and May oats 1/2 higher.

Winnipeg car lots of wheat to-day, 180; year ago, 150.

Chicago car lots wheat to-day, 36; contract, 15. Corn, 22 1/2 to 24, Oats, 22 1/2 to 24.

Northwest cars to-day, 601; week ago, 600; year ago, 181.

World's shipments of wheat to-day, 824,000; shipments, 781,000; week ago, 1,012,000.

ST. LAWRENCE MARKET. Receipts of farm produce were 100 bushels of peas, 10 loads of hay and 2 loads of straw.

Prices for grain are firmer, and the following quotations in the table are from Mr. Phillips, grain buyer on this market.

Wheat—One hundred bushels of good sold at 72c.

Hay—Ten loads sold at \$14 to \$15 per ton for timothy and \$10 to \$12 for mixed.

Grain—Wheat, spring, bush, \$0.76 to \$0.80; Wheat, fall, bush, \$0.72 to \$0.78.

Seeds—Red clover, per cwt, \$14.50 to \$16.50; Alkali clover, per cwt, \$10.50 to \$12.00.

Fruits and Vegetables—Potatoes, per bag, \$0.90 to \$1.00; Apples, per barrel, \$2.00 to \$3.00.

Poultry—Turkeys, dressed, lb., \$0.15 to \$0.20; Spring chickens, lb., \$0.10 to \$0.15.

Dairy Produce—Butter, lb., \$0.24 to \$0.29; Eggs, per dozen, \$0.18 to \$0.22.

FARM PRODUCE WHOLESALE. The prices quoted below are for first-class quality; lower grades are bought at correspondingly lower quotations.

Hides and Tallow. Prices revised daily by E. T. Carter & Co., 85 East Front-street, Wholesale Dealers in Wool, Hides, Calfskins and Sheepskins.

Wheat—The anticipated bullish statistics failed to materialize this morning, in fact, those received from abroad indicate that the movement of wheat from exporting to importing countries was insufficient to meet the weekly requirements.

Chicago Cattle Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Sheep Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Hogs Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Poultry Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Eggs Market. The market closed strong and with no signs of a let-up in the outside investment buying.

GRAIN AND PRODUCE.

The following were the last quotations at the board of trade call board. All quotations, except where specified, are for outside points:

Wheat—No. 2, 52c bid, Toronto; Spring wheat—No. 2 Ontario, no quotation; Manitoba, No. 1 northern, buyers 97c.

Barley—No. 2, 52c bid; No. 3, 52c bid; No. 4, 52c bid; No. 5, 52c bid.

Oats—No. 2 white, no quotation; No. 3 yellow, sellers 54c, Toronto.

Corn—No. 2, 70c sellers, buyers 70 1/2c; No. 3, 68c sellers, buyers 68 1/2c.

Flour Prices. Flour—Manitoba patent, \$3.85, track Toronto; Ontario, 90 per cent, patent, \$2.75.

Toronto Sugar Market. St. Lawrence sugars are quoted as follows: Granulated, \$4.00 in barrels, and No. 10, \$4.20 in barrels.

Winnipeg Wheat Market. Following were the closing quotations to-day on Winnipeg futures: Wheat—May 13, 40 1/2c bid, July 40 1/2c bid.

Visible Supply. Wheat—May 13, 18,000; May 14, 18,000; May 15, 18,000.

Toronto Grain in Store. Fall wheat—May 6, 19,001; May 13, 19,001.

Chicago Markets. Marshall, Spender & Co. (J. G. Beatty), King Edward Hotel, reported the following quotations on the Chicago Board of Trade:

Wheat—Open, High, Low, Close. May, 94 1/4, 94 1/4, 92 1/4, 93 1/4.

Chicago Cattle Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Sheep Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Hogs Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Poultry Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Eggs Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Butter Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Tallow Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Hides Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Wool Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Lard Market. The market closed strong and with no signs of a let-up in the outside investment buying.

Chicago Soap Market. The market closed strong and with no signs of a let-up in the outside investment buying.

national bulls, which was forced in order to permit traders to check up on the market and take a long breath for a fresh start.

Interest during the session included a decrease of nearly 2,000,000 bushels in visible supply, and reports from Kansas and Nebraska, claiming further reductions in the former state by green bugs, and their appearance in the latter.

Corn and oats were moderately active, but manifested little independence in strength, their movement being influenced very largely by trend in wheat.

Barley and rye were moderately active, but manifested little independence in strength, their movement being influenced very largely by trend in wheat.

Flour—Market has taken enormous selling to secure profits to-day without developing fundamental weakness.

Wheat—New in the Canadian northwest still points to a crop failure, all offerings found ready buyers.

Chicago—Late news gains an influence and brings outside buying. We look to see one sell higher.

New York Dairy Market. NEW YORK, May 13.—Butter—Steady; receipts, 3,021. Street prices: Extra creamery, 25c to 25 1/2c.

Cheese—Steady; receipts, 782; state full cream, 10c to 10 1/2c; Minnesota, 10c to 10 1/2c.

Eggs—Weak; receipts, 31,555; selected, Pennsylvania and nearby, 15c to 16c; extra, 15c to 16c.

MINING COMPANY'S STOCK.

\$1,000 Buys 10,000 Shares. Par Value \$10,000.

\$100 Buys 1,000 Shares, Fully Paid; \$50 Buys 500 Shares; \$25 Buys 250 Shares; \$10 Buys 100 Shares; \$5 Buys 50 Shares.

LARDER LAKE, EAST SIDE. ALL STAKED TO SHORE. ALL STAKED TO QUEBEC BOUNDARY.

THE WAY TO MAKE MONEY IN MINES IS:

BUY SHARES in a new property well located. DON'T wait until the first profit has gone to others. BUY a stock at the low points.

LARDER LAKE is a new gold field, untried till now. Ore running into hundreds of thousands of dollars per ton has been uncovered here.

THE GOLD MINT PROPERTY IS ONE OF THE FIRST. Mr. H. Dreany, who is a well-known practical mining man, left on Thursday to examine the property and arrange for the placing of the necessary plant and machinery on the ground to open up the mines at the earliest moment.

All the claims of the "GOLD MINT CO." carry veins of quartz with free gold in them. Another chance like this is not likely to occur in a lifetime. We do not fix the value of the stock of the "Gold Mint" at 10 cents per share, but make a ground-floor offer to get in with us and develop the property.

OFFER We offer the balance of 100,000 shares GOLD MINT stock at TEN CENTS PER SHARE, and advise its purchase on location, formation and general natural advantages.

Send For Latest Cobalt Map. Price 50 Cents.

TARRED AND FEATHERED.

Diagraceful Affair Occurred Recently at Port Elgin.

KINGARDINE, May 13.—The quiet Village of Port Elgin on Friday had its good name disgraced by an unprecedented affair.

For some weeks past there has been a growing feeling against a man named Joseph Elymer, an employe of the school works. Elymer came here some time ago and went to board at the restaurant and as when Verner about a month ago, left town, leaving his wife and family, Elymer has since lived at the house.

On Thursday night last a crowd of men broke into the house in search of Elymer, but he met them with a club and they made a hasty retreat.

On Friday morning one of their number, a supposed friend of Elymer, went down to the Verner residence and got the victim to come up town. They went to the Queen's Hotel, and at the noon hour, a few leading spirits had collected. When Elymer emerged from the hotel he was grabbed and rushed to the barn, where, in a box stall, he was stripped of his clothing and given a thorough coating of tar, hussies being afterwards sprinkled over him. In this condition he was left and ordered to leave the town.

J. Izzard, proprietor of the hotel, on learning what was going on, surrounded Chief Honey, but the band of purity had flown. Several names were taken, and two of these men, Hamilton and McKenzie, butchers, were taken before a magistrate and fined \$1 each costs.

Father Meehan Appointed. KINGSTON, May 13.—Archbishop Gauthier has appointed Rev. Father John Meehan of St. John's Church, Gananoque, to the newly-insulated

106 CARS AT JUNCTION FEW PRIME CATTLE

Many of Medium Grade—Trade Brisk—Hogs 10c Higher at \$6.60.

Receipts of live stock at the Union Stock Yards were 106 cars, consisting of 2236 cattle, 38 hogs, 30 sheep and 100 calves.

The quality of fat cattle, with the exception of a few loads, was not just as good as would be expected at this season of the year.

Exporters. Prices ranged from \$3.10 to \$3.40 per cwt.; the bulk selling at \$3.20 to \$3.30; bulls, \$4.25 to \$4.50 per cwt.

Butchers. Best butchers sold at from \$5 to \$5.25 per cwt. for hams, a few small lots selected from good loads brought a little more money.

Milk Cows. About a dozen milk cows and springers sold at \$81 to \$80 each.

Sheep and Lambs. A limited number of sheep sold at \$6 per cwt.

Hogs. Selects sold at \$6.00, and lights at \$6.35 per cwt.

Representative Sales. William Leveck bought 24 carloads of fat cattle at prices given above, which are Mr. Leveck's quotations of the fat cattle market.

McDonald & Maybree sold 200 shipping cattle. 1530 lbs. each, at \$5.30; 24 exporters, 1240 lbs. each, at \$5.20; 28 exporters, 1180 lbs. each, at \$5.20; 18 exporters, 1180 lbs. each, at \$5.20; 17 butchers, 1230 lbs. each, at \$4.90; 11 butchers, 1070 lbs. each, at \$4.60; 21 butchers, 1200 lbs. each, at \$5.25; 21 butchers, 900 lbs. each, at \$4.60; 13 butchers, 1180 lbs. each, at \$4.25; 22 butchers, 1000 lbs. each, at \$4.75; 16 butchers, 1130 lbs. each, at \$4.60; 12 butchers, 1440 lbs. each, at \$4.85; 16 butchers, 1000 lbs. each, at \$5; 14 butchers, 1380 lbs. each, at \$5; 13 butchers, 1200 lbs. each, at \$4.40; 12 butchers, 1000 lbs. each, at \$3.50; 13 stockers, 910 lbs. each, at \$3.75; 12 stockers, 900 lbs. each, at \$3.25.

SUICIDES AFTER KILLING WIFE AND TWO CHILDREN

Gananoque Farmer Driven to Insanity by Sickness, Commits a Terrible Crime.

GANANOQUE, May 13.—William Waldie, aged 38, a farmer, living a few miles east of Gananoque, killed his wife and two children with a hammer this morning, knocking their brains out while they were asleep. The children were aged 2 and 4. He then went downstairs and wrote a note, which he left on the table, then went upstairs and cut his own throat from ear to ear. He told the hired man, Shipman, who went to the factory with milk, if he did not see him when he came back to go upstairs and he would find him. Not finding him, he was a requester.

The Bodies Found. In the room where the deed was done were one bed and a cot. In the bed was lying the man who committed the murders. Beside him lay his wife with a dent in her head. In the cot were the two children with holes in their heads, and on the floor of the bedroom was a mass of blood. In front of the looking-glass is where Waldie apparently had stood while cutting his own throat, and on the bed alongside his wife.

He tried on Saturday last to sell his farm to neighbors. He was highly respected by a resident.

Mrs. Waldie is a daughter of Noah Peck, deputy reeve of Leeds and Lansdowne. Waldie was always very fond of his wife and children.

Left Signed Note. This is a copy of his note: "Upstairs will be found the work of a mental and physical wreck, a maniac for the last two years, unknown to anyone but myself, I suspect. Would to God I had never been born. I have killed the dearest woman and unborn baby and the two sweetest of children. I had I could not at all kill myself, but I could not at all live with the thought of the world. I have been hounded by those who should have been my friends, and can see no future, as I am utterly unable to manage myself or to accomplish my work.—William Waldie."

Remonstrated With Conductor. Major Collins, 194 Roxboro-avenue, accused of disorderly conduct on a street car, was up before Magistrate Kingford yesterday afternoon. Mr. Collins had called a conductor on a Bathurst-street car in hot style for not allowing ladies to get off where they wouldn't step into mud puddles. He sold his story to the magistrate and was remanded until called upon.

Appeal in Buckingham Case. OTTAWA, May 13.—The attorney-general has granted right to appeal to C. J. Brooke, crown prosecutor, before the Quebec Court of Appeal at Montreal, in regard to the dismissal of the Buckingham strikers, on the technical point of the omission to fix stamps on the warrants.

New Hotel at Queenston. A. D. Armstrong has taken over the Forest House at Queenston, belonging to the Pendegrast estate. The building is being entirely remodelled and fitted up for a first-class restaurant hotel, to be known as the Alexandria. For the first time in three years Queenston is able to accommodate the tourists and travelling public generally in regal style. The hotel is situated on the banks of the old Niagara, commanding an unobstructed view of the lower rapids and gorge, and the beautiful, placid waters seven miles toward Lake Ontario. The hotel is being newly furnished thruout, and equipped with all modern conveniences.

FASHIONS FOLLOW THE "GREYS."

And because "the store that quality built" keeps in touch with the trend of fashions with due regard to exclusiveness and gentlemanliness in the materials and making, you may find here to-day the "grey" idea splendidly expressed in Suits and Overcoatings—25.00 to 28.00. Fancy Vests—3.50 to 5.00. Guinea Trousers—(5.25 spot cash). Neckwear—French Four-in-hands—50c to 2.00. Gloves and Half-hose in grey—as well.
