MAXIMUM PAY \$2 A DAY

Start at \$1.25 and Reach Highest Point in Four Years and a Half.

Mr. Mulock's Bill to Amend the Postoffice Act was Under Discussion Monday Afternoon in the House.

Ottawa, May 2.—Mr. Mulock's bill to amend the Postoffice Act was under discussion Monday afternoon in the House in Committee of the Whole. The Postmaster General explained that he intended to introduce a special examination for the department more suitable than the ordinary civil service examination. Mr. Puttee urged that eight hours be made the legal day under the bill.

Mr. Mulock's statement. Mr. Mulock in reply said that there seemed to be an exaggerated idea in the country of the hours of employe. At present of letter carriers. Investigation showed they worked on the average eight hours and 20 minutes per day. The employes would continue, he said, to hold office permanently, being removable only by Order-in-Council. A feature of the bill was that no one was to come under its operations except he chose to do so, others would be left to the enjoyment of all their existing rights.

Referring to the change in regard to the letter carriers, Mr. Mulock said that in 1878 their minimum salary was brought down from \$400 to \$300 a year, and in 1882 the statutory increase was reduced from \$40 to \$30 annually. The bill supplied an incentive to the letter carriers to report promptly and regularly for work. A careful examination showed that letter carriers employed by the year were absent from duty three times more than those paid by the day and docked for days absent. When a man's pay was stopped it frequently had a restorative effect.

E. F. Clarke asked if men were not obliged to produce a medical certificate in case of absence thru illness. The Postmaster General said that medical certificates did not state the cause of illness, and frequently men were ill thru their own misconduct.

Maximum of \$2. The bill would enable a letter carrier to attain the maximum of \$2 per day in half the number of years now required. After six months probation at \$1.25 a day the men would go on \$1.50 at the end of a year, \$1.75 in two years, and in two years more reaching the maximum of \$2 per day. A letter carrier under the bill would receive during his first nine years service annual average of \$18.34 not counting the \$25 which he might take instead of 10 days' extra holidays, than under the existing law, the superannuation act has been repealed, and the retirement act substituted. A letter was read by the Postmaster General from the Postmaster at Toronto, April 26, to the effect that the porters, messengers, box collectors and mail men were to be paid under the bill and promised to come under its provisions. He contended that he felt the minimum pay was higher than the policeman's.

Pay Full Time. George Taylor claimed the letter carriers should be on the same basis as inside employes and be paid full time during sickness. Mr. Puttee approved of the principle of the bill. He objected, however, to the feature of the bill that would grade men down as they grew older in their service.

C. B. Heyd endorsed the bill as a measure for the letter carriers, street car conductors, he said, required quite as high a qualification as letter carriers, yet in Ottawa they received \$9 per week for working 10 hours a day, while the letter carriers received \$12 for working 8 hours a day's work of eight hours and 21 minutes.

Dr. Sproule said the Postmaster General claimed this bill to be better than the Civil Service Act. If that were the case the bill should be united in one bill containing the best features of each and made applicable to the whole service.

Give Them More Money. E. F. Clarke pointed out that the meeting at which the resolution was passed endorsing the bill was not attended by a half a dozen employes. Further, he quoted The Globe's approval for increase in the letter carriers' salaries and the resolution of the Dominion Trades and Labor Congress. As contractors for the Postoffice Department were compelled to pay union wages and give union hours, Mr. Clarke stated that the maximum wage should be \$2.25 instead of \$2 and the day's work limited to eight hours.

Mr. Mulock, replying to Mr. Heyd, said that he had in his department received the statistics for 1901 of employes receiving under \$800 a year. The bill was amended by dividing class 3 of the outside employes into two, one class is to be known as class 3 and to receive \$400 to \$500; class 4 to receive from \$500 to \$800. Mr. Clarke stated that the bill should be amended to provide that the maximum wage should be \$2.25 instead of \$2 and the day's work limited to eight hours.

FISHER TAKES IT ALL BACK

No Censuses Enumerators for 1891 Had Been Informed of Charges of Stuffing.

NO EXCUSE FOR SUCH A SLANDER

Mr. Borden Takes the Minister of Agriculture Sharply to Task.

Ottawa, May 2.—The House went into Committee of Supply, and the census estimates were taken up. At a previous sitting, Mr. Fisher informed the House that the enumerators charged with stuffing the lists in 1891 had been informed of the charges, and their explanations would be given to the House. Mr. R. L. Borden asked that these explanations be produced.

Mr. Fisher admitted that he had been mistaken. None of the enumerators had been informed of the charges, nor had they been asked for explanations. Mr. Borden reminded the Minister of Agriculture that the Minister had charged the enumerators of 1891 with perjury, without a jot of evidence. Mr. Borden submitted that there should be no excuse for such a slander.

In reply to questions Mr. Fisher said that Mr. George Johnson, who was chief commissioner of the census of 1891, was still in the public service, and he had nothing whatever against him. Mr. Borden (Conservative) submitted that the Minister had no sufficient evidence on which to base his charges. What reason, he asked, had the Minister to attach more value to the statements of persons who conducted this so-called revision than to the enumerators who took the census of 1891? The Minister was bound now to persons accused of perjury.

The census estimates were finally taken up. Mr. Fisher presented the geological survey were taken up. In reply to a question by Mr. Boyd, the Minister of the Interior said the appointment of the geological survey was made in a regular manner. Miscellaneous items were gone thru, and the remainder of the trade and commerce votes were passed, and the House rose at 11:30.

MAKING DUPLICATED 'BO' BEEF GARRISON

Boers Besieged Them for Weeks, Harassing With Constant Sniping—Women and Children Take Refuge in a Fortified Schoolhouse.

Cape Town, May 2.—Reports, which have reached here via Port Natal, Western Cape Colony, dated April 19, are to the effect that British columns are now in close touch with the British garrison at O'okiep (about 50 miles inland from Fort Beaufort), and that the relief of the British force there is practically completed.

The plucky garrison at O'okiep has been closely invested by the Boers for weeks past, and has put up a defence which can be compared to that of Mafeking. The defenders of O'okiep suffered considerable loss of life, but they were subjected to constant sniping and had occasional sharp encounters with the Boers. No Change in the Split Over the Irish Catholic Representation.

Mr. Lumsden is said to have given the party executive until noon to call another convention. This was not done, and he is said to have left the city for two weeks. Seen this afternoon, Mr. Lumsden was asked: "What do you think of the Liberal convention?" "I don't know anything about it," was the reply.

"Of course you know you got one of the nominations" was the next query. "Oh, yes, I heard that much." "Have you made up your mind to run?" "As to that I am not prepared to say just now."

"Is it true that you made the statement that you would refuse to run if D'Arcy Scott ran?" "I never made any such statement," came the emphatic reply. "But didn't you write to the association that you would not accept a nomination?" "I was the next interrogated."

"Yes, I wrote my views to the association yesterday," replied the member. "Then do you intend to ignore the convention and act as if it had never been held?" "I will certainly abide by my letter to the association," replied Mr. Lumsden.

Mr. Lumsden's letter was to the effect that he would not accept the nomination of the convention as constituted last night. Es-Maxwell Bingham is still in the field, and D'Arcy Scott has no intention of retiring.

It looks as if the Barton Township Council will prevent the building of the Hamilton and Caledonia Electric Railway.

The council positively refused to grant right-of-way to the company unless city fares are granted from any point into the township.

Police Points... At today's Police Court Charles Gardner was ordered to pay his wife \$21, owing to her on a support order.

A Spectator Death... Samuel Cottrell, for four years caretaker of the Police building, died suddenly this morning.

Blamed the Government... Ald. Hall asked Dr. Chamberlain if the fact of the unfortunate being committed to the jail was not sufficient to warrant the Ontario government taking care of them as lunatics and not as prisoners.

THE ONTARIO ELECTIONS.

The information that is coming into this city from all quarters of the province is of a most encouraging character for the Conservatives and for Mr. Whitney. The World has often pointed out in these columns, the Conservatives have a large majority of the Ontario members at Ottawa, and on the same basis they should have a large majority of the members in the local legislature, and the indications are that such will be the result of the voting on May 20.

That, now, is the main issue. The discussion is pretty well settled. Everybody has had his say. The issue turns, as we have said before, on an honest election and the recording of the vote, more than anything else.

THE DUTY OF COAL. A subject that is exciting a great deal of interest at the present time among the manufacturers in Canada is the duty on coal, which at the present moment is 13 cents on a ton of 2000 pounds on all soft coal brought into this country and a corresponding amount on the hard coal.

POLITICAL INTELLIGENCE.

According to The Liberator the following are the prohibition candidates: George F. Marter, North Toronto; John Barry, St. Andrew's; Thomas Crawford, West Toronto; James Tucker, West Wellington; A. B. Spencer, West Toronto; J. E. Clark, M. P., and A. W. Wright will deliver addresses.

THE LIBERATOR. The new organ of the prohibitionists in Ontario, made its appearance yesterday. Typographically it is well got up, in four pages of the number is of an unimpeachable character. The first page is embossed with the title and the second page is the prohibition party pump, with a peroration in the form of a letter to the Liberator, signed by the Rev. S. P. Dixon.

LOOKING BACK

To the time when she was plucked from the very grasp of death, the natural impulse of the womanly heart is thankful for the life which saved her, and a desire to help other women in like predicaments.

Dr. Beattie Nesbitt will shortly deliver a speech in North Toronto, in which he will enunciate his views on the political situation. He will take an advanced and aggressive position on public issues.

W. J. Hill and Hon. John Dryden will open the West York campaign, in the Liberal interests, at Weston on Wednesday evening, May 7.

ONE PROFIT LESS.

What the Fire Engine is to the old-fashioned "Bucket Brigade," the Slater System of Makers price-control, is to shoe business.

From Manufacturer to you, via the Shoe Wholesaler, and uncontrolled Shoe Retailer, is the other system - which costs you two profits instead of one.

Stamped on the shoes, \$3.50 and \$5.00.

THE SLATER SHOE. 89 King Street West, 117 Yonge Street, 528 Queen Street West, Hamilton-23-25 King St. W.

W. J. Hill and Hon. John Dryden will open the West York campaign, in the Liberal interests, at Weston on Wednesday evening, May 7.

W. R. Latchford will speak in Hamilton on Monday evening in the interests of R. A. Thompson.

In Centre Grey, Mr. John Davis announces his determination to run against Mr. Lucas. In the election four years ago he ran as an independent candidate against Mr. Lucas and Mr. Boland and his total vote was 257.

A. R. Wardell, the Conservative candidate in North Westwold, was born in Ancaster Township in 1835. He was educated in France, and at the London University. In 1858 he was called to the bar, and entered into partnership with Dundas with Justice Robertson.

John McLaughlin, who represented Stormont in the last legislature, is meeting with encouragement from the electors of the riding, and his reelection is generally conceded.

Prescott Advocate: Election matters in this county are quiet, and by present indications, Hon. Mr. Ewart, the Conservative representative, will have a walkover, which will probably be the only county through the Province to elect its member without a contest.

In St. Lawrence Market Hall last night there was a meeting of the Friends of the Liberal Club in the interests of W. B. Rogers, the Liberal candidate.

Our Home-Furnishing Departments!

Bigger Than Ever! Better Than Ever!

Bigness of itself is not much of a virtue, but when combined with excellence and economy you have a combination that is both powerful and wide-reaching in its influence and usefulness. These features of our Home-furnishing Departments make it, we believe, second to none on this continent.

Some eighteen years ago we launched forth into the Home-furnishing business. A very small beginning—a floor space of about 45x50 feet, a few carpets, rugs, curtains and window shades, one man and a boy to look after the stock and do the selling.

But past achievements are not enough. We believe still greater usefulness is before us. To that end we have enlarged our Home-furnishing Departments, giving each more space for displaying and selling their goods.

OURSELVES.

AS SEEN FROM MARS.

What peculiar little people those mortals are down there on old Mother Earth. See how they rush about! Those with pants on are men. They come out of their little houses every morning to go to a place, and rush along the same road every day as if they never would be there in time. The funny part is that when they go there, some of them do nothing but scratch a little piece of steel on paper making black marks, others count green pieces of paper, and the more of this paper they have the happier they seem. In the evening, back they hurry along the same road again to their little houses. They do this day after day, and they don't seem ever to weary.

Those other little figures in pretty dresses—they are called women. They look sensible. Most of them are, too. But it's really wonderful how many of them are in slavery and don't know it. If they could only get above their surroundings, and look at themselves—how queer some of their work would seem. For instance, they are very anxious to keep their little houses, their little hands and faces, and their clothing clean.

You see that one there with her hands all roughened, and her knuckles hard! She did that trying to clean her clothing, and she did not need to have her hands soiled. Look at that one rubbing the clothes up and down on that board! She does that week by week. She wears away the clothes more in the washing than she does in using them.

See that one hurrying to the bargain counter! She did the same a few months ago, made a good bargain, too; but she wore out the bargain in half the time for want of just a little thought, and here she is hurrying to the bargain counter again. What a waste of shoe leather!

Notice how old looking some of them get before their time—that is really the effect of downright white slavery. And the worst of it is they don't know they are slaves.

Peep into that room where those two are sweating their lives out! Do you see that little square piece of buff-

looking material? Well, that is what ruins their hands, wears out their clothing, and keeps them in a perpetual state of nervousness and slaves to that—and they don't know it.

Look into that room; there are a number of women whose hands are not rough, whose clothing is whiter than the rest, and wears longer; they are not old before their time. They have taken time to think, and have realized that it made all the difference to their hands, their clothes, and their work, whether that buff material was pure or impure.

Some of these little women, when they want some of that buff material they use so much of, simply hurry to send some one to a shop and ask for "soap." Those who think and know the difference ask for "Sunlight Soap." They know Sunlight Soap is pure.

See, there is one of the thinking women in that shop—that little man has given her something instead of soap. "Sunlight Soap." See her push it back and say, "I'll have nothing else but Sunlight Soap, octagon bar."

That little child running along the road with a packet is returning to a shop to say that her mother won't have the impure soap sent in place of "Sunlight Soap."

It is very interesting for us up here in Mars to watch how the little mortals on old Mother Earth come gradually to realize how much depends on little things, and on such a little thing as soap, and how, as they think for themselves, they all turn to "Sunlight Soap."

That little girl dropping a postcard into that letter box! That card is addressed to "Lever Brothers Limited, Toronto, and asks them to send her free a copy of "Weekly Expenses Reduced." Sure as they read that book they turn to use "Sunlight Soap," and they do really save money in the weekly wash.

Note.—The above may seem, and is, a picture of the fancy; but it is founded on fact. Sunlight Soap is distinct from all common laundry soaps, and there is a marked difference in the effect produced by Sunlight Soap and ordinary soap. It worth two ounces of ordinary soap.

CITY NEWS.

At the Canadian Club.

At the weekly luncheon of the Canadian Club at Webb's yesterday an interesting address was given by Principal Parkin of Upper Canada College upon the approaching intercolonial conference. The remarks of the distinguished speaker were along the lines that Canada should share in responsibility in the defence of the empire, and this being the case the representatives from Canada at the conference should freely take the subject into consideration. He pointed out that Canada was old enough to at least pay for the defence of her own continent, and as such as the one in South Africa, by defraying the costs of the contingent sent out.

At the conclusion a hearty vote of thanks was passed to Dr. Parkin, and the principal speaker at the club's luncheon next week.

Prof. Clark of Trinity College will be the principal speaker at the club's luncheon next week.

Good as Well as Bad Blood Tells

You have the most convincing evidence of this fact every day. Otherwise beautiful faces, marred with blackheads, blotches and pimples, muddy or sallow complexions, and red, rough or oily skins are some of the most common and conspicuous symptoms of bad blood.

You can hide these ugly and humiliating blemishes by glazing them over with face powders and rouge, and the rough and discolored skin is made white and smooth by a lavish use of cosmetics, but these artificial complexions and false skins only last for a day, when the eruptions and spots stand out as bare and brazen as ever.

HER BEAUTY RESTORED. When my daughter was three months old Eczema broke out on her head and continued to spread until her head was entirely covered. She was treated by several good doctors, but grew worse, and the dreadful disease spread to her face. She was taken to a celebrated French Springs, but received no benefit.

When the blood is healthy and pure it tells a different story—a smooth and flawless skin, glowing with health, a sound body and active brain, well nourished system, good appetite and digestion, and restful and refreshing sleep.

The Waters are nature's remedy. They contain no potash or other injurious mineral, but are strictly a blood purifier and tonic that can be taken without fear of any hurtful effects, and with perfect assurance of a speedy and lasting cure.

C.P.R. Reacts on All Exchanges—
 Market Quotations, Gossip and

World Office,
 Friday Evening, May 2.
 The earlier tone in local stocks continued
 today and values were generally lower than
 yesterday. The unsatisfactory method of stock
 dealing on the London market was a factor in
 the decline. The price at New
 York at the time of the call here was
 about 125 and local quotations were made
 accordingly. Sales being made at 125 1/2.

The market was fairly steady in the early
 trading, but soon became irregular and the
 afternoon it was distinctly weak. The
 International Power episode has almost
 completely demoralized the market. The
 amount of manipulation that has
 been done in the past few days is
 probably the largest since the war.

THE ROBERT SIMPSON COMPANY, LIMITED

Directors: J. W. Flavell, H. H. Fudger, A. E. Ames. May 3rd. A 12.50 Navy Blue Uniform Suit for \$9.50

On Monday we introduce to the Men's Store a splendid line of blue uniform suits. We have been particularly careful in the selecting of these goods, knowing the requirements of a uniform suit, which must look unusually neat, stand wear and weather and retain its shape.

We have selected this line as being the very best for the purpose to be obtained in Canada. More than that, by taking a quantity, we received the quantity discount. Thus, what would usually be a \$12.50 suit, we are able to offer at the remarkably low price of \$9.50.

Mens 24 oz. Campbell Twill English Serge Navy Blue Uniform; a firm, smooth material, made from selected worsted yarns, cut in double-breasted, notched lapel, particularly suitable for uniforms, best Italian linings, silk sewn throughout, regular price \$12.50, special Monday, sizes 35 to 44. 9.50

Raincoats. "The picture of style and comfort." That's what they'll say about you when you don one of these new waterproofs. They look like the \$18.00 kind. We get ten dollars for them in the regular way, but the compliment will cost you Monday only \$6.95.

300 Boys' Suits. 75c Monday. These are ahead of the season, but are like the child's secret, "too good to keep." We must out with it—we bought them for a month later—but they are such extraordinary value you'd be right glad to have them on hand for an odd hot day this month.

Men's Shirts at 50c. New patterns, fancy cambric—some of the most popular patterns of this spring among the lot of \$1.00 and \$1.25 shirts we clear Monday at 50c.

Hats for Men, Boys, Children. Hats for all the ages of man. Hats for all classes and conditions of men. Hats for men who want to save money. Hats for men to whom price is a secondary consideration, if they get the hat that suits their particular fancy.

Don't Get Typhoid Fever. Drink Disinfectant Water. It is free from the germs and microbes that abound in city water. 5 GALLONS, 40c DELIVERED.

Madam Lytell. The funniest black cat pictures you ever saw are coming in every day. Saturday is the last day for city boys and girls and Wednesday the last day for country boys and girls to get their pictures here.

In the Footwear Department. Economy is always a feature of this store's footwear selling. We keep a close watch for saving chances to offer our customers. You may always be certain of getting values better than ordinary here. These for Monday, for example:

Men's \$2.50 Extra Good Dongola Kid and Box Calf Lace Boots, full extension soles, English backstays, sizes 6 to 10, handsome. 1.95. Boys' Best Quality Box Calf Lace Boots, extension edge soles, English backstays, sizes 1 to 5, the best wearing boot we know of, Monday, our price. 1.75.
