**Buffalo Man Who Dabbled in Real Estate Was Overworked.**

Buffalo, July 22.—Mrs. Frank V. La Bountie, wife of the confidential clerk and bookkeeper for the law firm of Wilson & Smith, who, it is alleged, used hundreds of thousands of dollars of his employers' money to carry on his extensive real estate deals, made a statement today in behalf of her husband. The figures now are approaching the half million mark, and the investigation is not nearly finished. "My husband returned \$80,000 before his employers knew anything about his wrongdoing," said Mrs. La Bountie. "Since the beginning of the investigation he has turned over to me the names of Wilson & Smith property aggregating in value not less than \$400,000. He was able to realize a profit of at least \$100,000 from the operations of a man who was insane on the subject of real estate speculation, and whose mental derangement was due entirely to being overworked. If Frank is arrested, as is hinted, we feel that the revelation of the true facts in the case will be a good and sufficient defence for him."

**Simple Funeral in the Old Church at Chiswick.**

London, July 22.—The body of James McNeill Whistler, the American artist who died July 17, was interred this morning in the family burial plot in the old church at Chiswick. The funeral services were held at Chelsea, in the old church where he often went with his mother when she was alive. There were no services at the house. The coffin, which was covered with a purple pall, was carried to the church, followed by the honorary pall bearers and relatives on foot. The pall bearers were Sir James Guthrie, president of the Royal Scottish Academy; Charles Fisher, George W. Vanderbilt, Edwin A. Abbey, John Lavery of the Royal Scottish Academy, and Theodore Duret.

**ONE MORE FOOLISH ONE.**

Niagara Falls, July 22.—Manager Nickles of the Gorge route is in receipt of a communication from Jack Glenister, the famous swimmer, in which he states that some time during the month of August he will make an effort to swim the upper rapids, the water in which Capt. Webb lost his life. He asks what inducement the Gorge road will hold forth for him to make the attempt. Manager Nickles says that he would give Glenister or any other swimmer \$25 to stay away from the rapids.

**Left Train Only to Die.**

Buffalo, N. Y., July 22.—In alighting from a freight train on a trestle near Anglin today, three youths, all from Buffalo, plunged headlong from the side of the bridge and struck on a rocky bed thirty feet below the tracks. One, Frank Coscobia, was dashed to death, and the other two sustained severe injuries and are at the emergency hospital.

**CRAZED BY FUSEL OIL AIR SAULORS ATTEMPT SUICIDE**

Doctor Declares Men Might Be Put in Class of Delirium Tremens Patients.

New York, July 22.—Crazed by the fumes of fusel oil, which penetrated the hold of the steamer Toronto of the Wilson Line from Hull, half a dozen sailors and longshoremen, who were unloading her cargo, fought each other and their would-be rescuers, the police and ambulance surgeons, and tried to jump overboard at Pier 30, North River, last night. After an hour's struggle, six men were taken to a hospital in ambulances. Twenty men were working in the hold when two casks of fusel oil being hoisted to the main deck fell and burst. Soon the fumes began to affect the sailors and longshoremen, and they all hurried to the deck.

Capt. Whitten called for volunteers to go down into the hold and take up the oil. Six men volunteered, Samuel Miller, Thomas Ray, William Lee, John Medson, William Hakes and Thomas Patterson. Miller and Ray soon toppled over. They were brought up on deck and appeared to revive, but a fighting spirit seemed to seize Miller and he had to be tied, while Ray wanted to jump overboard. Dr. McDonald said the men had been so affected by the fumes that they might as well be classed as victims of delirium tremens. The others sang, danced, laughed, cried and fought, together making such a racket that a great crowd began to gather. The police had to disperse it.

**BISHOP CLUT DEAD.**

Winnipeg, July 22.—The death is announced from Edmonton of Bishop Clut of the Roman Catholic Diocese of Athabasca at Lesser Slave Lake, two weeks ago. He was 91 years old, and retired from active work some years ago.

The Right Reverend Isidore Clut was born at St. Rambert, Valence, France, on Feb. 2, 1812. Joining the Oblate Order, he came to Canada and was ordained to the priesthood in 1837. He was soon afterwards sent as a missionary to the Mackenzie River district, and did noble work in spreading Christianity among the Indians and half-breeds. He was appointed Bishop of Athabasca in 1873, and has since been coadjutor to the late Bishop Farand and the late Bishop Groulx.

**Why Expedition Quit.**

Aden, Arabia, July 22.—Details of the failure of the Blue Nile expedition, headed by W. N. Macmillan of St. Louis, Mo., show that it started down the river in iron punts, and that while passing the rapids between precipitous cliffs, punts containing half their stores struck on the rocks and sank. The occupants swam ashore and camped, a hurricane swept the gorge on the following night and further damaged the expedition, which returned by forced marches and abandoned its task for one year.

**ASSESSMENT RETURNS FOR WARD NO. THREE**

Commissioner's Report Shows Large Increases in All Classifications.

Commissioner Fleming has handed out the final assessment returns for Ward 3. The figures all told show an increase over last year of many thousands of dollars. The total assessment of the ward is \$61,920,374, an increase over 1903 of \$462,014. Improvement values increased from \$22,100,000 to \$22,732,180. Real property figures are also augmented by \$800,011, the total for this year being \$51,430,457. Personal property increased from \$6,860,124 to \$7,108,836. Taxable income shrank from \$4,057,787 to \$3,323,084. Population increased from 39,421 to 40,088, or 1,567.

In Division No. 1 land values grew to the extent of \$181,949. This increase is due to the assessment of properties which were exempted last year, such as the Cyclorama, the old court house, St. Lawrence Market, and to additional assessments on the properties of the Bell and Electric Light Companies. Buildings in Division 1 increased \$788.

This amount does not represent the actual increase of the buildings as compared with last assessment, for the reason that by an amendment to the Assessment Act the real property of such companies as the Consumers' Gas Company, Toronto Railway and Bell Telephone, which by a previous amendment to the act were required to be assessed, in the ward in which the head offices of these companies were situated, is now assessable where the real property actually is. So that such property to the value of \$241,100 is not taken in this ward this year, but will be assessed in Wards Nos. 3 and 6. The result of this change will cause an apparent decrease in the figures of Ward No. 3 to that extent, while as a matter of fact the increase in the value of buildings totals \$230,620.

The increased personal assessment of the Eaton Company to the extent of \$14,588, and of other concerns, accounts for a total increase of \$180,537 in this division. The decrease in income assessment is explained by Mr. Fleming as follows: "Income, decrease, \$734,718. This large decrease is a partial result of the change in the Assessment Act, which increased the exemption of incomes from \$700 to \$1000. The improving conditions in mercantile and financial concerns has helped materially in reducing the loss on income assessments. The salaries of those connected with these concerns, and the incomes of the companies whose head offices are situated in this municipality show an increase over last year of \$144,400. It was estimated last year that the loss in income assessment by the increased exemption from \$700 to \$1000 would entail a loss of \$1,000,000. The result on the completion of the city assessment will show this assessment to be a very close one."

**REFUSE TO SIGN UNION CLAUSE**

Do Contractors on New Isolation Hospital—Controllers Meet.

The controllers held an unimportant meeting yesterday. Dr. Dawson of Spadina-avenue wants a bihtholthic pavement on the west side of the street between College and the crescent. He had a petition signed by all but one of the owners, and he will have to have a fully signed petition before any change in the pavement can be made. Mr. Marz and Controller Burns thought this a good place to give the new pavement material a trial.

McIntyre & McGregor have refused to sign the contract for structural iron work on the new Isolation Hospital, owing to the clause providing for the payment of union wages. The Dominion Bridge Company recently withdrew their tender upon the same grounds, and the board will advertise for new tenders.

**Gives Property to City.**

Edgar J. Jarvis, the man who made Rosedale, sent a request to the board that the city take over the roadway and adjacent land extending from South Drive (formerly Hill-street) in Rosedale to the Park Drive in the second ravine, being 70 to 150 feet in width by 1200 feet in length. Also a strip of land on the second ravine, about 1000 feet in length, which will be necessary for a main sewer.

"There is a well-laid sewer pipe put down by me, about 2000 feet in length, which has been the only means of drainage for many of the houses in that vicinity for twenty years. The citizens of Toronto have enjoyed the benefit of this sewer for many years, free of cost. The property forms the most central and convenient approach to the North Ravine Drive, which is nearly completed to the Carleton Place. It therefore submit that the corporation should take over the said property as a public utility to the park system, and allow my wife and myself such sum (by annuity or otherwise) as may be found reasonable and adequate. The Commission of Property will inspect the property and report to the board at its next meeting.

What was complained yesterday of a large pile of manure which has been allowed to accumulate at the end of a road in the city, on Dufferin-street. The residents of the neighborhood have been speaking to the alderman about it and the nuisance will be removed.

LOUGHEED BILL PASSES SENATE FAVORS MEASURE

Upper House Thinks Foreign Agitators Disturb Harmony Between Master and Men.

Ottawa, July 22.—Senator Lougheed's bill respecting offences in connection with trade and branches of contract, obtained its third reading in the senate this afternoon. It was warmly denounced by Senator Ellis, who declared that the measure would set labor against capital and capital against labor. Senator Sullivan said it was a coercion law. He paid a high tribute to the late Pope and reminded the house that his holiness had advocated the destruction of such fire brands as this bill. International complications might result from this bill, Senator Sullivan declared. He advocated caution in the measure. Senator Coffee also opposed the bill on the ground that it was framed in favor of capitalists. Working men might be guilty of faults, but there were grinding capitalists.

Insult to Workmen. Senator McHugh said the bill was an insult to the intelligence of Canadian working men. He charged solicitors and manufacturers who appeared before the committee with misrepresentation. Senator Cloran demanded to know why the promoters of this bill would not concede to labor the same freedom accorded capitalists. Senator Lougheed then explained that his bill was not a coercion law, but that the subject which was attracting public attention might be dealt with more intelligently in the future than in the past. The bill as it stood would tend to conciliate than any other measure. Had he been at liberty to do so he would have withdrawn the bill after the committee stage.

Bowling Supports the Measure. Mr. Mackenzie Bowell supported the bill and declared that Canadian law should prevent any man coming here to incite lawlessness. He did not fear United States agitators. Senator Gibson spoke of the injury caused by foreign agitators coming here to disturb the harmony between master and man. He said, could disturb the harmony of 300 men. Senator Gibson severely denounced the walking delegates. The bill had come to carry on trade unions in Canada as Canadian unions. He said he was not in favor of the bill for the purpose of fomenting strikes. He said he was in favor of a useful and conciliatory purpose. It was a reflection on Canadians that they could not produce as good men as those who came across the line to settle disputes.

The bill was then read and passed a third time on the following day: Yes—Hon. Messrs. Baker, Bolduc, De Boucherville, Bowell, Carling, Côté, Robertson, Tassier, Van Dine, Dobson, Ferguson, Galt, Fournier, Gibson, Godbout, Kerr, Kerr, Landry, Lougheed, Lovitt, Macdonald, Macdonald, Mackenzie, McDonald, McKay, McLaren, McMillan, Mercer, Miller, Montplaisir, Owens, Pelletier, Perley, Power, Robertson, Tassier, Van Dine, Van Natta—Hon. Messrs. Cloran, Coffey, David, Domville, Fisler, McHugh, McKeown, McLaughlin, Scott, Sullivan, Templeman.

ATLAS LOAN COMPANY. Official Liquidator in St. Thomas Straightening Up Things. St. Thomas, July 22.—R. Home Smith of the National Trust Company, liquidator of the Atlas Loan Company, was in this city to-day. He said he had come to settle some disputes in proving claims against the company. Mr. Smith was also explaining to the women creditors the proper procedure to be followed. Claims for interest, he said, would date from June 8, 1903. Creditors must have their claims filed with the liquidator before Aug. 15. He would offer no opinion as to the value of the stock securities. His own impression is that it would be unwise to build any hope on an immediate rise in price. Asked about the rumor that Mr. Wallace is not to retain his interests in the Ames firm, Mr. Smith said he knew nothing further than the street gossip in Toronto.

At the Central Y. M. C. A. to-night the subject "Is Novel Reading Injurious?" will be discussed at a conference of young men. R. A. Donald will introduce the discussion.

Next Sunday's Toronto Sunday World will contain an interesting sketch of the Huron "Old Boys" excursion to Winham. Copies can be obtained from Cooper & Co. and R. A. Douglas of Winham on Monday next.

GLASS OF BUFFALO WON.

Continued From Page 1. ing and backing, 15, clearing shank in time of 8 minutes; 20, under 8 minutes; 21, general neatness, 8. The points taken off Glass' total for general neatness were given to clumsy work of his helper.

The bullocks were killed under the uniform and drawn up a windlass. Under the United States rules, which governed the contest, the front feet and head were taken off and one hind foot skinned by the helpers before the contestants began to make time. When the contest was finished the sides were being up clean and ready for the hook. Fred Perry assisted Denison, and Frank Misenar was Glass' helper.

Canadian Championship. Four bullocks got into the contest for the Canadian championship. This was won by Fred Perry of the Harris Abattoir, his helper being Walter Denison, who took part in the international event. Perry's time was 7:20 1/2, and his points totalled \$2. Dan Leavack's time was 7:30 1/2, and his points totalled \$2. The judges were: William Crealock, George Rowntree, William Leavack, and James Harris. For the international event, Mr. Clink of Buffalo officiated as a judge with Messrs. Crealock and Rowntree. The timekeepers were A. Leavack, James Harris and George Walker.

Five Lambs Killed. Five lambs were killed and dressed. William Cruickshank was the best time, doing the work neatly in 3:19. The others finished in this order: Frederick Kewton, 3:48; Stanley Cuvide, 4:31; John Norman, 5:30. Mat Thomas of Buffalo gave an exhibition of lamb work in 3:25.

Catching the Slippery Calf. The last event was the catching of the slippery calf. This was expected to be a very interesting contest. The calf did not give the men any trouble. At all, fifty husky young men entered and the calf was chased half-way round the track before the word was given. The contestants took after it in all directions, some going thru the venetian canal in the centre of the track to gain time. When the calf saw the army after it across the field, it made one dash and ran right into the arms of Patrick Wilson, who easily held his prize.

Events in the Ring. During the afternoon a number of horse races made sport for the grand throng. The first race was a 100-yard race won by James O'Halloran's Altona after seven heats. James Davis' Golden Boy was second, and George Rowntree's Antle third and Ed. George's Emma L. fourth. The best time was 1:14.

In the named trot, Mr. Cuthbert's Sunday C. won first money, taking the first, second and fourth heats. T. Williams' double toe and heel, regular 25c, Walter Barnes' Madge K. third. Verne's Joe Dandy, Lamb's Rodger and Verne's Madge also entered. The best time was 1:18 1/4.

In the open race, Gypsy girl, owned by Andy Johnson, gave the best money in straight heats, William Robinson's Lord Roberts second and J. Moore's Dick Turpin third. Best time 1:14. In the matched pony race, American Girl was first and Dangerous Mad second. The officers were: Starter, James Noble; judges, T. Bartra, J. Verne, J. S. Smith, J. C. Rogers, T. Fitzgerald and John Kynen.

CANADIANS AT BISLEY. Bisley, July 22.—(Telegram Cable.)—The Canadians did some very good shooting to-day in the first stage for the King's Prize and some that was nothing to boast of. At the 500 yards range the scores of the Canadians were a good average. Vroom Spearling, P. J. and McGregor each made 34 out of a possible 40. The other competitors made 25 possible, and 40 thirty-fours, which leaves the Canadians nowhere, so to speak, at the present stage. In the first range there were also 25 possible and 123 thirty-fours. Private Gray of the London-Scottish volunteers won the bronze medal with a score of 103. In the All-Comers' aggregate Russell won 22, George Stoney 21, and the other competitors also won 22. FOUND NO CONTRACT. Ottawa, July 22.—(Special.)—Replying to Mr. Roche of Halifax, the Premier stated in the house that the government did not find in 1896 on assuming office that a contract had been signed by the government or by any minister on its behalf with the Messrs. Allan for a twenty or twenty-one knot service between Canada and Great Britain. Neither had the government ever been approved authorizing such a contract. A tender for \$225,000 sterling for a mail service had been made by the Messrs. Allan, but a construction on the terms and conditions of the tenders inconsistent with the public advantage.
