DOCTOR THIRCE FOILED  
AT SCIENTIFIC SUICIDE

Dr. Rustin, Self-Inoculated With  
Cancer, Typhoid and Tetanus  
Germs, Pulled Thru Each Time.

OMAHA, Neb., Sept. 8.—At the corner of the street in the city of Omaha, the body of Dr. Fred H. Rustin, found fatally shot at the door of his home.

Mrs. Abbie Rice, who was known to have been in Dr. Rustin's company on the night of his death, declared that Rustin had been taking of committing suicide, but that he wished to disguise the act so as to protect his life insurance for the benefit of his family. After much importuning he induced her to promise to kill him and then take her own life. Arrangements to this end were made for Friday night, Aug. 28, but her nerve failed.

On Tuesday night following, Dr. Rustin pointed out to her on the street cars a man who, he said, had promised to do the deed, saying that it would be done that night. She identified Charles B. Davis, a clerk in a local bank, and a member of a prominent family, as the man referred to. Davis testified that he attempted to commit suicide on the night in question by taking drugs furnished him by Dr. Rustin, but denied that he would be killed. He said that he was not willing to end his life except that he had no desire to live. He said he had made previous attempts at suicide. For three years, it became known here to-day, he had been carrying on a series of terrible experiments upon himself, the object being to find the appearance of self-murder, so that his life insurance policies would not be declared void.

The first of this ghastly series of experiments took place in April, 1905. Soon after Dr. Rustin had told his friends that he would soon be a dead man, he reported a malignant cancer in his throat and said that a Chicago specialist had declared that he would die. He carried these tubes and almost invariably fatal operation must be performed. He tried to have this operation performed in Omaha, but failed.

The ravages of the terrible cancer were too slow for the experimenter, for several months later Dr. Rustin sent to the University of Chicago and procured two tubes containing pure germs, one of typhoid, the other of tetanus. He carried these tubes in his pocket for a few days, telling his friends of their possibilities.

Two weeks later Dr. Rustin's second experiment began to show its effects. The experimenter was taken down with typhoid of the most malignant type. The physician whom he called could not handle the case.

For weeks Dr. Rustin was racked with fever and the goal of death seemed near. Day after day, when his system showed signs of rallying, Dr. Rustin injected more and more of the germs into his system until delirium stayed his hand.

After months the experimenter emerged from the fever bed with resolution unshaken. Tetanus germs were next in order, and these Dr. Rustin injected into his leg, but these germs for some strange reason failed to thrive, and still another attempt was made to overtake death, so long as the experimenter lived. Dr. Rustin cunningly opened a vein in his wrist, when a train on which he was a passenger was wrecked, but when he did not die, also no one ever heard him admit that he had abandoned his terrible resolution.

YARD FOREMAN BADLY HURT  
Reginald Smith, Grand Trunk Employee, Run Over in Local Yard.

His life in serious danger, Reginald O. Smith, a G.T.R. yard foreman at the Union Station, is lying in Grace Hospital.

While uncoupling a passenger coach from a slow moving train his foot became caught in a "frog" and the wheels passed over his legs, crushing them badly. One has been amputated at the hospital, but the other may be saved. It is feared, however, that Smith, who is a young, unmarried man, may not survive.

HON. G. P. GRAHAM ILL.  
Arrived From Ottawa Yesterday Suffering From a Severe Cold.

Hon. G. P. Graham, minister of railways, came up from Ottawa yesterday for to-day's Liberal meeting. He was accompanied by F. G. Inwood, Liberal organizer. Mr. Graham was suffering from a severe cold, and on his arrival went to the Rossin House, where he was confined to his room for the remainder of the day. It was hoped last night that he would be sufficiently recovered by this morning to attend the meeting.

McCABREN ON TOP.  
NEW YORK, Sept. 8.—By carrying 18 of the 23 assembly districts of Brooklyn, Senator Patrick H. McCabren to-day maintained his political control of Kings County, only four of the seven revolted districts returning anti-McCabren leaders.

C. P. R. OFFICIAL  
IS PROMOTED

For Some Time Past District Passenger Agent at Toronto, Has Gone to Vancouver to Become Assistant General Passenger Manager for the West

C. B. FOSTER.

ST. CATHARINES, Sept. 8.—(Special.)—The lighting committee of the city council was not ready to-night to report the result of negotiations with the Cataract Power Co. and the Hydro-Electric Power Commission for lighting of the streets.

Chairman Southcott said the committee hoped to have a report ready in two weeks. Ald. McLean was impatient and moved to reconsider a resolution and moved to a previous meeting to open negotiations with the Hydro-Electric Power Commission. He thought St. Catharines ought to get in line with other municipalities and light their own streets. The answer was that the negotiations now under way were of a secret character and it would not be wise to let the public know what is being done. Then the council adjourned.

MERWIN BEFORE CASSELS  
NO RECORDS TO DISPLAY

But He May Get Some From New York—Supplies for the Arctic Expedition.

MONTREAL, Sept. 8.—(Special.)—At this afternoon's sitting of the enquiry into the management of the marine and fisheries department before Judge Cassels, evidence was given by G. T. Merwin.

Merwin said that he was agent for the Safety Car Heating Co. of New York, and the Submarine Signal Co., and partner of the F. L. Brooks Co., which firms had sold hundreds of thousands of dollars' worth of material to the marine department, but he had kept absolutely no record of the business. He was unable to give details of the business because he tore up his letters, threw away his check stubs and kept no letter book. He cared little for such detail so long as he knew how the bank account stood.

Merwin declared he sent all letters to New York. He knew of no reason why these books and records should not be produced, and would do what he could to have them sent here. With regard to the F. L. Brooks Co., which had sold large quantities of lighthouse supplies to the department, he was only interested to the extent of \$2500. He had since severed his connection with the firm and had destroyed his records.

The only evidence of interest this morning was by Albert Hudon, member of the wholesale grocery firm of Hudon and Orsall. His evidence showed that the firm had made profits of \$100,000, never more than 10 per cent., and occasionally sold at a loss.

Asked how he secured the bulk order as that on Aug. 1, 1904, for \$112,392, he said: "I heard there was going to be a big expedition to the North Pole, so I went to Mr. Prefontaine and asked him if tenders from my firm would be considered. He promised me that he would do all in his power to secure consideration for our tenders. About fifteen days after Commander Spain came to me and asked me to quote for certain goods at our best price."

At Quebec—Hon. Judge J. W. Ross of the Court of King's Bench, Quebec, At Montreal—F. A. Pinoleau, superintendent of the city conservatory.

ENQUIRY COMMENCED  
INTO WOMAN'S DEATH

Septic Poisoning Given as Cause of Demise, But Circumstances Are Veiled in Mystery.

Moved to the General Hospital from her home at 20 Elizabeth-street at 2 o'clock yesterday afternoon, Mrs. William H. Gray died three hours later.

She was taken to the hospital upon the order of Dr. S. B. Pollard, 425 Jarvis-street, having been previously attended by Dr. J. M. Johnson, 8 Elmwood-st., and according to her husband, Dr. Joseph S. Graham at the Sick Children's Hospital. A post-mortem will be held.

The woman was in a state of collapse when taken to the hospital, and never rallied. The cause appeared to be septic poisoning, following an operation, and Dr. Brown directed that the chief coroner be notified, who directed that the body be held at the hospital until an investigation can be made as to the cause of death.

"There is something wrong," said the husband last night, when seen at his mother's house at 23 Sunnyside-street. "I had a thorough investigation."

He said that his wife had taken her daughter to the Sick Children's Hospital two months ago. She was unwell herself at the time. Mrs. Gray told him that Dr. Graham had examined the daughter, and had then examined the mother. A nurse was present.

Mrs. Gray did not improve after this, and having done plumbing for Dr. J. M. Johnson, he had called him in. Dr. Johnson saw her three or four times, and then on the advice of a woman friend he called in Dr. Pollard, who ordered her removal to the hospital.

Dr. Johnson said that he lived with the Grays at 20 Elizabeth-street, said that Mrs. Gray told her that while they were living at 20 Young-street she had a miscarriage. Mrs. Gray told her that Dr. Johnson had ordered her removal to the hospital, but had told Gray there was no chance for her recovery. He had written on the slip that went with her that she was suffering from septic poisoning, but did not know the cause.

PROGRAMS ARRANGED  
BY SHEFFIELD CHOR

Rich Musical Treats Promised in the Four Toronto Concerts in November.

Mr. Henry Coward, conductor of the far famed Sheffield Choir, which the great musical leader, Arthur Nikisch, has described as "The finest body of singers in the world," has forwarded an outline of the programs for Toronto.

They are four in number, and will be given on Nov. 5, 6 and 7 for the first time in the city's history. The most notable work will be presented, not in its entirety, but with all the principal choruses and vocal solos. This wonderful work has not yet been presented in Toronto, on account of the immense demands it makes on chorus and orchestra.

On Saturday night, the choir will be given a concert, and on Friday night, the choir will be given a concert, and on Saturday night, the choir will be given a concert, and on Friday night, the choir will be given a concert.

RAILWAY TRAFFIC HEAVY.  
Estimated That Station Was as Busy Yesterday as Monday.

Incoming traffic to the city over the steam roads was entry bit as heavy yesterday as on the holiday, the superintendent estimating that 40,000 people came into the Union Station yesterday. Outgoing traffic was equally heavy.

Flag Raising  
Old Fort. at

On Friday, the 11th inst., at 4 o'clock, his honor the Lieutenant-Governor of Ontario, has, at the request of the Imperial Order Daughters of the Empire, kindly consented to hoist the flag at the Old Fort on the flag-staff recently erected there by the order.

The handsome flag to be hoisted on this occasion was kindly presented to the Imperial Order Daughters of the Empire by F. B. Fetherstonhaugh. All members of the order and other interested in the preservation of the Old Fort are earnestly requested to be present.

EXHIBITION SURPLUS  
MAY REACH \$100,000  
IF THE PACE KEEPS UP

Success Unparalleled and Directors Are Glad—New Poultry Building Is Promised for Next Year.

It is being estimated this year that the exhibition surplus will run from \$75,000 to \$100,000.

There are two good reasons for this—contingent, of course, on the favorable weather of the past ten days continuing till Saturday night. In the first place as President George admitted at the directors' luncheon yesterday the management had been apprehensive about the attendance this year. The natural deduction is that the expenses incurred are much lighter than would otherwise have been the case. Very little has been expended on permanent improvements. The prize list has very wisely not been edited, but close observers can see signs of economy in other directions.

On the other hand, the patronage this year has been unexampled. On Labor Day the gate receipts were actually double former records, and while this is not officially admitted, it is not difficult to see why. It is accepted as explaining the broad smiles worn by President George and his staff these bright days.

Yesterday was an excellent day all round, the by contrast with Monday of course comparatively light in attendance. There were probably 6,000 people on the grounds during the day. The grand stand performance continues bright and popular, and the evening program captures the crowd.

L. C. Vance, manager for Milla La Blonche, who was injured on Monday, stated last night that he had just been to see her at the hospital and was spent an hour with her. She was quite cheerful and her mind was set on getting back to work again. No bones were broken, but she is still suffering from the shock, and her limbs are still partially paralyzed. Mr. Vance also denied that the rope broke on which Milla La Blonche was performing. He declares that the rope passed thru a post and was fastened to a stake. This stake pulled out of the ground and let the rope loose with the result known.

Liquor in Stable.  
License Inspector Johnson with Police Inspector Dickson pointed down upon a horse stable yesterday afternoon at the exhibition grounds, and found a quantity of liquor, corkscrews and glass. William McGuire, who appeared to be in charge, did not give a satisfactory explanation and was arrested, as was also another man, who was believed to be connected with the stable and who refused to give his name.

George E. Gidloch of Quebec found a gold watch just outside the grounds and handed it over to the police. Six faded soldiers of fortune found a box containing a quantity of jewelry were gathered in by the police in the early morning hours.

Manager Orr says that the Labor Day was the best day for the exhibition since the opening. The showing being largely due to the increase in the number of outside visitors.

Several scores of soil tillers at the fair yesterday gathered in the amphitheatre of the dairy building for a business session of the flourishing organization, the Farmers' Institute.

At a meeting of the executive some very pointed criticism of the work of the judges at the Quebec and Ottawa live stock shows was made. The general opinion was that most of the judges were incompetent and very few were believed to be connected with the Ontario Government to prosecute an examination, which applicants for future positions should be before being allowed to officiate.

President Geo. C. Creelman of the Ontario Agricultural College, who occupied the chair at the general meeting, said that there are 4000 Ontario farmers who are experimenting with advanced methods of agriculture and reporting results. He said he would like to see experimental plots established in every township.

G. A. Putnam, superintendent of In-Continued on Page 7.

DEPUTY SHERIFF'S ERROR.  
Wanted Boys Arrested for Pocket-Picking, But Admitted Imagination.

Driving four small boys before him with the threat of more severe physical punishment than a slap on the wrist if any one of them deserted the ranks, a middle-aged man arrived at the police headquarters at the exhibition at 10:30 o'clock last night.

His complaint was that he had been "touched" for a wad of about \$50. He said he came from Kentucky and was deputy sheriff, showing a badge in proof.

"What is your name?" asked a constable, and he replied "Frank, just occurred was somewhat wandering, and left Inspector Dickson skeptical. However, the proprietor of a hot beef sandwich stand for which the aggressive man was wanted, was summoned. There was a conference, at which Frank admitted that he had obtained an appointment to that supplied at the W.C.T.U. building, and that his imagination had been fired by his pretensions. The boys were released, and the police, tempering justice with mercy, allowed the Kentuckian to go also.

28TH YEAR

THRESHERS ARE SCARCE  
WEST COMPLAINS AGAIN

Claims That Scarcity of Help Prevails With Hundreds of Men Still Needed.

WINNIPEG, Sept. 8.—The cry from the west for men to work in the harvest fields is again becoming a loud one, and the conditions of labor are evidently getting to be serious.

It was thought that a sufficient number of men had come to the country, but this is far from the case, and hundreds are still wanted to do the work. The scarcity is principally from Alberta, where very few harvest hands can be got.

Yesterday 800 men came from the east and were immediately sent to Edmonton and the surrounding districts. When they left the city they all had positions to go to. It is chiefly men to do the threshing who are wanted.

At the provincial immigration office demands for men are coming in thick and fast, and the department is at a loss to find sufficient men to answer the call. The scarcity is causing an upward move to be made in wages, and the price for a man in Alberta is a good one, as much as \$3.00 a day being given.

JUDGES AS EXHIBITORS  
SHARE WELL IN AWARDS

And Some of the Other Poultry Owners Think It Wasn't a Square Deal.

William McNeil of London, president of the Ontario Poultry Association, western representative of the poultry and members of the C.N.E., declared at the directors' luncheon yesterday that the judging this year in the poultry classes had given greater satisfaction than in any previous year.

Mr. McNeil's ideas are not shared by a large number of the local poultry men, who say that Mr. McNeil practically appointed himself and Richard Oke as judges in a large number of classes in which both Mr. McNeil and Mr. Oke had entered their own birds for competition.

When this was protested against as violating the rules which declare that no exhibitor may be present in the poultry building, Mr. McNeil was willing to go. Mr. McNeil went to the exhibition management and got a special dispensation so that he and Mr. Oke could be present, not only as exhibitors, but as judges.

Mr. McNeil was awarded \$74.50 in prizes in the nine classes in which he had entered, almost all of which he turned to his share, and Mr. Oke has no reason to be dissatisfied with the \$137.25 in prizes which falls to his lot. The results of the judging are 23 classes. This is in addition to the fees and expenses paid to them as judges.

Other exhibitors take a serious view of the case, and there has been a talk of getting out an injunction to stop payment of the prizes. Whatever the merits of the birds exhibited may be it is strongly felt that the judges should be absolutely independent.

UNDER POLICE GUARD.  
Strike Breakers at Angus Road a "Demonstration."

MONTREAL, Sept. 8.—(Special.)—By prompt action on the part of the police, what looked like an attempt at more rioting on the part of the C.P.R. strike sympathizers was prevented this afternoon.

Long before the arrival of the afternoon work train at Place Viger Station, bringing back men from the Angus shops, it was noticed there was a large gathering of men nearby which had increased to 500 before 6 p.m. As a trouble was feared, 50 police were sent down to the station to protect the employees. As soon as the train arrived the cries of "tears" were heard on all sides. But the police guarded each group of the non-union men and sent them away safely.

ELECTRIC HEALTH CURRENTS  
Will Prolong Activity—Sir James Grant's Discovery.

(Canadian Associated Press Cable.)  
LONDON, Sept. 8.—Before the physiological section of the British Association Sir James Grant of Ottawa delivered a full account of his Neuro-stone, which, acting on inactive nerve centres which become poisoned by noxious gases in age, cleanses them by electricity. Sir James said he would be enabled to abandon spectacles and also increase general activity in consequence of the use of the instrument. The discovery is the first successful application of electricity to humor digestion.

"IT'S ALL MY FAULT."  
Witness Testifies to Hearing Fireman Anderson Make Agitated Statement.

WINNIPEG, Sept. 8.—(Special.)—Has a dozen witnesses were examined in the enquiry into the loss of the Premier. They concurred that the fire started amidship, but could not definitely place the origin. The mate stated the captain did all possible. Another witness testified hearing the missing fireman, Anderson, say, "My God! My God! It's all my fault."

CHILD BURNED TO DEATH.  
ST. THOMAS, Sept. 8.—Kenneth Dyker, three and a half years old, was burned to death at 10 o'clock this morning, and the house was damaged to the extent of \$1000.

His mother left him to take charge of a year-old baby, while she went to a neighbor's. The child got matches and set the woodshed on fire.

Forward all complaints to The World Office, 33 Yonge Street, Toronto.

### A CAMPAIGN FOR THINKERS.

Caesar, the Roman journalist, divided all Gaul into three parts, but your modern, wiser, and political journalist, divides all Canada.

Read The Globe and you find that all the virtues reside in the breasts of Liberals, while wickedness is the characteristic of Conservatives. Read The Mail and the tables are turned. The Globe divides Canada into its friends and its foes; so does The Mail. Is it not possible that a man may be neither a friend nor a foe of these partisan journals, and merely a thinking Canadian, desirous of forming his political opinions thru study of the facts?

Sir Wilfrid Laurier, surely a distinguished Canadian, made a notable speech at Sorel, Quebec, on Saturday. He was in the home of his friends, and it was natural that he should get a rousing welcome. The Globe gave great prominence to his speech. It spread itself to the extent of three columns or more. In The Globe Sir Wilfrid was given an ovation at Sorel. On the other hand, The Mail lent less than a column to his address, and insinuated that he disappointed his audience.

Then again, R. L. Borden spoke at Lunenburg, N. S., Monday. Naturally, being among his friends and prominent as a public man, he was given a great reception. In The Mail, his address was made the news feature of the day. In The Globe the meeting was dismissed with a paragraph, in which it was said half the audience left before he had finished.

What do these partisan journals take their readers for? Is it possible that The Globe thinks its readers are not interested in Mr. Borden's talks? Does The Mail fear to offend its subscribers if it does justice to the prime minister of Canada? The World does not apologize to its readers for having given almost equal prominence and space to the speeches of Sir Wilfrid Laurier and R. L. Borden. The World believes the people of Canada are a thinking people, and that they desire to read just what our public men say and how they are really received by their audiences. For years this course has been followed by The World, and the increase in our subscribers and well-wishers is the best encouragement and proof of the soundness of our judgment.

The present election campaign is a good time for high and deep thinking, and The World proposes to let its readers know, with all exactness, and to a reasonable extent, what the big men on both sides of the partisan fence have to say for themselves. Then, with the facts fairly before them, the jury of Ontario people may be trusted to bring in their verdict without direction from the partisan Judge Jeffreys, who occupy the editorial benches in The Globe and The Mail.

**GOOD ROADS MOVEMENT.**  
Good roads and their provision is just now engaging attention in several parts of the old and new world. In the State of California many counties are actively promoting movements in that direction and enlisting the sympathies of the public authorities, chambers of commerce and other local bodies. As an example, the County of Santa Clara may be taken, which has just organized a Best Roads Convention, whose proffered assistance has been most cordially welcomed by the

board of supervisors. "We will be only too glad," one of its members is reported to have observed, "to have the citizens indicate what they want done and what they are willing to pay to have done. We want good roads—the best roads."

Under plans which the association will take into consideration and help to formulate and carry out, it is proposed to build about twenty miles of the "best roads" each year, until all the main highways of the county have been made first-class absolutely. The expense of this construction can, it is declared, be met by levying an annual tax of \$1 per \$1000, and also it may be done in different districts of the county, all will form part of a pre-arranged general plan. This last is one of the most necessary conditions to a thoroughly satisfactory road system, and it can be carried out best and most easily in a new country. In all older lands the roads simply grew out of local necessities and in default of proper methods and appliances for construction followed the easiest routes available. Hence the peculiar turns and twisting conspicuous not only in rural roads, but in the streets of cities, since in building the existing paths were kept without deviation.

At the International Road Congress the superiority of French methods was generally conceded, and, indeed, good main roads are a factor in European countries, where military and strategic considerations were first regarded. Hence these were laid out on a regular principle and obstacles were not considered when they derogated from the general advantage. European experience, as true of Britain as on the continent, shows that under purely local management the surface of the roads varies to an extraordinary degree. Some districts are noted for the excellence of the roads, others fall even to maintain a fair average. Local authorities are apt to consider local needs to be paramount, but roads are thrives of national importance. This has been acknowledged in both the Republican and Democratic platforms, and the feeling in general in the United States that the maintenance of trunk roads ought not to be laid upon the adjacent proprietors. Ontario ought to be in the van of progress in this matter, and its road system should be the result of a well considered general plan, with adequate provision for their proper construction and maintenance.

**PREMATURE UNEMPLOYMENT.**  
In a letter to The London, England, Morning Post, Mr. Michael Ernest Sadler, professor of history and administration of education in the Victoria University, Manchester, calls attention to the remarkably high percentage of applications entertained by distress committees under the unemployed workmen act received from men who had not yet reached the prime of life. This noticeable circumstance was first remarked upon by Professor Sadler in January last in connection with the returns made up to March 31, 1907, and the figures for the year to March 31, 1908, are not less sinister. The ninety-four distress committees covered by the analysis represented districts with an estimated population of upwards of 14,500,000, as at the middle of last year.

Considerably more than half (57.7 per cent.) of the total number of applicants found qualified for assistance under the act were under forty years of age, and more than one of every four (28 per cent.) of that number were under thirty. Professor Sadler has worked out individual percentages for each of fourteen districts in London, ten in "London Beyond the Border," and forty-four towns in different parts of England and Wales. The tables are thus thoroughly typical of the geographical groups into which they have been divided. The result shows that the proportion of young workmen among the employed was especially striking at

Woodwich, Birkenhead, Wallasey and Ipswich. Woodwich was affected by discharges from the royal arsenal. There was no abnormal degree of unemployment at Birkenhead and Wallasey, while at Ipswich the demand for labor, especially in the building trade, had fallen very short of the supply. Yet at these three towns 507 workmen under 30 years of age were found qualified for assistance.

Professor Sadler considers that the large proportion of young men among the unemployed (a proportion which has been nearly constant since the returns began to be published) is a disquieting fact, since it confirms the view that the education given in the higher classes of the elementary schools is still too literary in character to meet the real needs of many of the pupils. He asks if it is not desirable that for those boys who intend to become workmen the amount of practical training in constructive work should be increased. And he adds, do not the facts suggest that it would be wise to establish more day trade schools and practical continuation classes held in the day time for boys during the critical years of adolescence? Professor Sadler does not apparently allow for the tendency on the part of employers to retain in their employment men who have families dependent on them, but even taking this into account he gives a note of warning of which educational authorities would do well to take heed.

### AT OSGOODE HALL

George S. Brimble, carriage-builder, 413-421 West Queen-street, is applying at Osgoode Hall for an injunction to restrain J. W. Macdonald, manager of the Crofton Storage Battery Company, 423 Queen-street, from discharging water, refuse and smoke onto the plaintiff's property.

Elizabeth McMillan has issued a writ against Lewis G. Wilson and Caroline A. Wilson of New York to collect \$652.52, said to be overdue on a mortgage held on 604 and 606 Givens-street.

A winding-up order in the matter of the Atkisson Iron Company, Limited, of Port Arthur, was made yesterday, and John Dix Fraser, manager of Port Arthur, was appointed provisional liquidator. The petitioners were Macdonald, Mann & Co., Limited, creditors for moneys advanced to the amount of \$2523. The Atkisson Iron Company, Limited, was incorporated on April 14, 1906, "for carrying on the business of a mining, milling, reduction and development company." The capital stock was \$1,000,000, divided into 10,000 shares at \$100 a share. Directors from Toronto were D. D. Mann, vice-president; William Macdonald and Z. A. Leach.

Daniel McGregor has brought suit against Meyer Goldstein to recover \$400, "balance due to plaintiff from defendant," who is said to have acted as McGregor's agent in connection with the sale and work of horses.

The following writs were issued yesterday: Catherine Quinn v. City of Toronto, asks \$1000 damages for injuries due to alleged negligence of city in not repairing Funston-street sidewalk. Mary A. Meagher v. Toronto Railway Company. Damages for injuries due to alleged negligence. Emma Maud Curran v. Walter Curran, suing husband for alimony and interim alimony at \$25 a week and interim costs. Wallace McNaughton v. J. A. Breckenridge of Nottawa, Ont., asks \$3500 and alleges negligence.

**PLEDGED TO LABOR TICKET.**  
Editor World: I, the undersigned, secretary of the Federated Trades of the Mechanical and Car Department, am requested to ask you to publish the undermentioned statement of 30 harvesters, thereby showing the public in general how the C.P.R. are trying to fill the places of men on strike by lowering the wages to the point of starvation, then offering them jobs as strike-breakers.

Geo. D. Heaton.  
Sec. F. T. of M. and C. Depts.  
We, the undersigned, hereby pledge ourselves to vote the Labor ticket this November:  
Geo. Fixell, Ed. Bennett, Leon Semlitz, T. Burrows, W. Round, C. Smith, Wm. Smith, T. Potter, Thos. Kenny, G. T. Lyon, Ar. McLeod, C. Dewyer, F. T. Hiller, J. Hiller, Ned Connolly, G. D. Toye, S. J. Patterson, Ed. Goodfellow, G. Scally, R. W. Brodie, Russel Austin, E. Reading, Adam Deavitt, Chas. Baird, Edgar Brown, H. West, H. Clutterbuck, C. West, J. Wright and W. Clark, acting chairman of the harvesters.

These 30 votes come from the harvesters who have had to depend upon strangers for food. Altho we had a transportation ticket, which was limited, at Ignace, Ont., which was only to get us to take strikers' places.

We also wish to extend thanks to the strikers for the kind attention shown us this day, Sept. 3, 1908, also the nation in food from the Town of Ignace.

Signed on behalf of the harvesters.  
Ignace, Sept. 4. W. Clark.

**Have You Seen The Prince of Wales?**  
—turn to the right as you enter the manufacturers' building—the handsome diminutive grand piano selected by the Prince of Wales for his private apartments at Quebec during the Centenary week. It is made by the old firm of Heintzman & Co. Limited, and occupies a first place in their very attractive exhibit, artistically draped with the British flag. Be sure and see it.

**TRIBUTE TO DEAD MAYOR.**  
City Council Pass Appreciative Resolution of Service of W. B. McMurrich.  
Mayor Oliver presided at a special meeting of council yesterday afternoon for the purpose of expressing sympathy with the relatives of the late W. B. McMurrich. After the following resolution, moved by Controller Harrison and seconded by Controller Spence had been endorsed, council adjourned to attend the funeral:

"This council desires to place on record an expression of the profound sorrow with which it had learned of the death on the 6th inst. of Mr. William Barclay McMurrich, K.C., who filled the high honorable position of mayor of the City of Toronto during the years 1881-82, in a most acceptable and efficient manner."

"Mr. McMurrich also rendered im-

# EATON'S DAILY STORE NEWS

THIS STORE OPENS DAILY AT 8 A.M. AND CLOSSES AT 5 P.M.

## THE "EATON" WATCH FOR MEN AND WOMEN

THE name of the watch is all the guarantee you'll need, that from the case to the minutest bit of the inner workings everything about the watch is quality right through and through.

The name promises accuracy in time-keeping; promises that the watch will last up to the very last word of all we say about it and promises the very best of value.

The maker has been making reliable watches for many years. This store has tested him in many ways, and when we planned for a watch of our own, one that the men and women of Canada could pin their faith to, he worked with us to the desired end and

### THE EATON WATCH IS HERE

The "Eaton" Watch has started upon a great march of popularity—it's bound for popularity, backed up by the store that always does things well.

Men's and Women's, in different sizes, every one put through a most rigid test at Kew Observatory, England, being tested six weeks in every position, so we have positive proof when we say they're "absolutely perfect time-keepers." We guarantee every one TWO years.

**Cases**—Standard 10k gold filled, guaranteed 20 and 25 years, same as used with finest movements made; or, if you've a good case, we'll fit it with an "Eaton" movement.

**Movement**—See illustration; Brequet hair-spring, exposed winding wheel, fine adjustment, stem wind and set.

**Prices**—We're willing to take a very small profit owing to the quantities sold, and if you've a thought of buying there are savings of dollars for you in these close prices:

**Men's**—Three sizes, one price; 18 size, 16 size and 12 size.

7-jewel movement, 20-year case . . \$8.50

15-jewel movement, 20-year case . . 9.75  
17-jewel movement, 20-year case . . 13.00  
21-jewel movement, 20-year case . . 22.50

**Women's**—6 and O sizes:

7-jeweled movement, 25-year hunting case . . . . . 10.00

7-jeweled movement, 25-year open face . . . . . 8.75

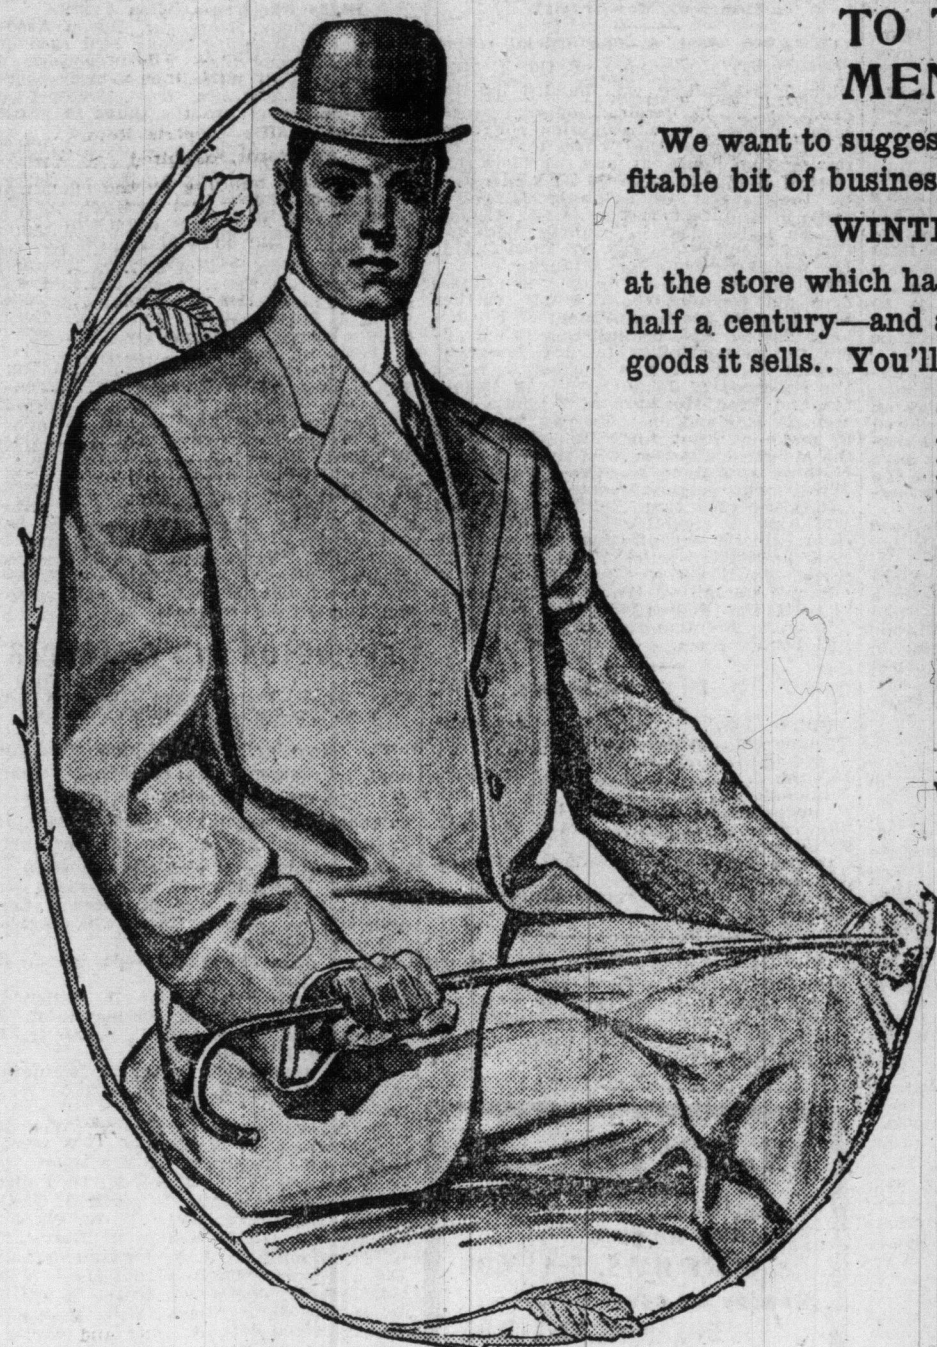

15-jeweled movement, 25-year hunting case . . . . . 12.25

17-jeweled movement, 25-year hunting case . . . . . 15.50

21-jeweled movement, 25-year hunting case . . . . . 24.25

After buying, if you're not perfectly satisfied we'll refund your money

MAIN FLOOR—YONGE ST.

## TO THE GREAT ARMY OF MEN VISITING TORONTO

We want to suggest your combining with your pleasure trip a very profitable bit of business—the purchase of

### WINTER'S CLOTHING REQUIREMENTS

at the store which has been Canada's greatest supply house for almost half a century—and all the while LOWEST in its prices, BEST in the goods it sells. You'll see the value of the suggestion when you investigate

Through our London buying office we have first hand selection of materials at the world's best mills, and correct information regarding new fashions.

The tailor-work is all done here, in the store, and guaranteed faultless every way. This year the construction has been bettered in many ways that make for SHAPE-RETAINING, and you can't help seeing it.

A short price list follows—rather to hint at the very great variety than to suggest the kind of values

the store offers you; the values can only be seen by your examination of the garments and THEN your comparison of the prices. And that examination will more than repay you.

Single-Breasted Tweed Suits, . . . . . \$4.97 to \$10.00

THE T. EATON CO LIMITED

THE T. EATON CO LIMITED

portant service to the public as alderman for Ward St. Patrick in years 1879-80, and as a member of the public school board for many years prior to 1874, when he was appointed solicitor to that body, a position which he filled for the long period of 34 years, faithfully and satisfactorily.

"As a citizen of Toronto he at all times manifested the utmost zeal in promoting any undertaking which had for its object the advancement of the well-being of his native city, while his courteous and genial disposition won for him the esteem and respect

of his fellow citizens irrespective of class." One inch of city land was disposed of by the board of control yesterday morning to Mrs. Catherine L. Bulger of Dufferin-street, and situated about 40 feet south of Armstrong-avenue. The board turned down a recommendation that a site for a new fire station be purchased on Dupont-street. A contract was awarded to Messrs. Carswell Company, Limited, for the printing of a supplementary edition of the statutes of Ontario.

**DR. HOWARD'S APPOINTMENT**  
Becomes Ship's Surgeon on the C.P.R. Empress of India.

Dr. E. A. E. Howard, for two years house surgeon at St. Michael's Hospital, left the city yesterday morning for Vancouver, B.C., where he goes to take the position of ship's surgeon on the largest of the C.P.R. trans-Pacific liners, the Empress of India. The appointment is exceptional for so young a man, but Dr. Howard's re-

cord at St. Michael's Hospital was also unusually good. Dr. Howard goes aboard ship Sept. 18.

**An Innovation at the Fair.**  
For the first time in years the people are able to procure a pure, healthful, delicious, thirst-quenching drink on the Fair Grounds. O'Keefe's Star Beer (the new non-intoxicant) is being sold in the manufacturers' building and at other booths on the grounds. It is a rich, mild, temperance drink containing less than 1-1-2 per cent. of alcohol.

**Smoke a Pound of Shamrock Plug Tobacco On Trial . . .**

Do this, and if you don't find it the finest tobacco you've ever smoked, tell your dealer and he'll refund your money.

Do you think that we could afford to make this offer if we hadn't tremendous faith in **Shamrock**?

Not only have we faith in the quality of the tobacco selected for **Shamrock**,

But we have just as great faith in the way the tobacco is blended, matured, and put up.

**SHAMROCK Plug is always just right.**

## JOHN CATTO & SON

### OUR AUTUMN OPENING

of New Goods Commences  
WEDNESDAY 9th SEPT.  
NO INVITATION CARDS ISSUED  
THIS SEASON. EVERYBODY KIND-  
LY ACCEPT THIS INTIMATION.  
For the benefit of those who cannot  
get in on Wednesday, we will continue  
the display for some days thereafter,  
but everyone will appreciate the ad-  
vantage of coming early to get first  
choice.

#### New Millinery

This season's millinery productions  
embrace many innovations, and these  
are all fully exploited in our collection  
of MODEL HATS FOR AUTUMN.

#### PARIS HATS

LONDON HATS  
NEW YORK HATS  
OUR OWN HATS

#### Suits

Complete showing of METROPOLI-  
TAN MODEL SUITS, in all the de-  
manded cloths and colors, and every  
style and trimming.

#### Cloaks & Jackets

From the everyday Knockabout  
TWEED COAT to the most elaborate  
BLACK VELVET OR SILK MANTEL,  
our stock runs the whole range. Many  
of our offerings are single pattern gar-  
ments, and their like will not be seen  
elsewhere.  
The prices are arranged to afford  
extra good value in every class.  
N.B.—Cloak and Suit Catalogue on  
application.

#### Dress Fabrics

As usual, we are right in line  
with all the good things in DRESS  
FABRICS. Many novelties in SINGLE  
COSTUME LENGTHS in our display  
will not be seen anywhere else. Par-  
ticular dressers will appreciate the ad-  
vantage of this in preventing duplica-  
tion.  
Some of the new materials are Chev-  
ron designs, in different shades of  
black, Worsteads, Donegal, Tweeds,  
Zelbelines, Striped Chevrons,  
Overlaid Effects, Chiffon Poplins, Sat-  
in, Maitlandes, Fantaisie Cloths, Peau de  
Laines, Meltonettes, Chiffon Broad-  
cloths, etc., etc.

#### Gowns & Suits

##### To Order

The busiest time in the history of  
this department has been experienced  
since the middle of August, when our  
regular customers began to take ad-  
vantage of our specially early arrange-  
ments to prevent crowding. DESPITE  
ALL OUR CARE AND FORE-  
THOUGHT, this season is going to tax  
our powers to the limit, and those  
who do not wish to be delayed in de-  
livery must certainly GET ORDERS  
PLACED NOW.  
MAIL ORDERS ON EQUALITY  
WITH SELF-SHOPPING.

(Opposite the Post Office)  
TORONTO.

#### LONDON CONSERVATIVES.

LONDON, Sept. 8.—(Special.)—The  
Conservative convention for London  
has not yet been decided on, but may  
be held a week from Friday.  
Mayor Beatty will not have a walk-  
over in the convention, as already a  
large delegation has walked on Wil-  
ham Gray and asked that he allow his  
name to go before the meeting. To  
this Mr. Gray has consented, leaving  
it to the convention to decide who  
should be their candidate.

From the Great Northwest.  
Travelers from the Northwest come  
back remarking the popularity of rad-  
nor water at all the centres of popula-  
tion, at the clubs and leading hotels.  
The westerners recognize radnor's  
claim to be the best of table waters,  
and at the same time to be purely  
Canadian.

Insist on having radnor everywhere.  
British Columbia Lumbering.  
VANCOUVER, B.C., Sept. 8.—(Spe-  
cial.)—Both lumbering and logging in-  
dustries of the coast are exhibiting  
signs of healthy improvement, the re-  
sult of an increased demand for lum-  
ber from Northwest ports.

#### TORONTO TAXES FOR 1908.

Ratepayers are reminded that Thurs-  
day, Sept. 10, will be the last day to  
make payment of the second instal-  
ment of general taxes without penalty.  
5134.

#### BUSH FIRES IN GATINEAU.

OTTAWA, Sept. 8.—(Special.)—Bush  
fires have been doing considerable  
damage in Gatineau districts for some  
time past. At Boisfranc people were  
compelled to leave their homes and  
fight a fire which raged for twenty-  
four hours.

## THE WEATHER

METEOROLOGICAL OFFICE, Toron-  
to, Sept. 8 (3 p.m.)—The weather has  
turned much cooler in Alberta and Sas-  
katchewan and heavy showers have oc-  
curred in northern districts, but in  
Manitoba it continues fine with high  
temperature from Ontario to the Mar-  
time Provinces. It has been fine and  
moderately warm.

Minimum and maximum tempera-  
tures: Dawson, 28-46; Victoria, 52-  
62; Vancouver, 48-58; Calgary, 44-54;  
Edmonton, 42-52; Prince Albert, 48-  
60; Qu'Appelle, 58-68; Winnipeg, 60-  
68; Port Arthur, 50-64; Pary Sound,  
44-54; London, 40-72; Toronto, 46-72;

Phone M. 2075.

#### EXHIBITION SURPLUS

Continued From Page 1.

attitudes, and C. C. James, deputy min-  
ister of agriculture, also spoke.  
It was decided to change the date  
of the annual meeting from June to  
either December or January, as Mr.  
Putnam may later determine.

#### Longboat and the Girls.

Tom Longboat created a flutter at  
the fair last night. The Onondagan was  
discovered by a lady exhibiting, and  
while eating a "red hot" and was  
promptly corralled. He had to stand  
treat all round and was then hustled  
into a photo studio and made to sit  
for his picture with one of the girls.  
Tom, after paying for the photo, made  
a bolt, and there was a keen search  
for the gate at his famous "lope,"  
with a string of persistent maddens in  
the rear.

#### Meeting of Managers of Fair Boards.

A large meeting of the members and  
officers of the Ontario Association of  
Fairs and Exhibitions was held in the  
tent of the department of agriculture.  
An excellent program was prepared for  
the annual convention in February.  
There was a keen discussion of  
several important subjects, including  
the field crop competitions among  
standing crops which have aroused  
widespread interest in many parts of  
the province. A hearty vote of thanks  
was voted to J. Locke Wilson, super-  
intendent of the fair exhibition. To-  
day there will be a meeting of the ex-  
ecutive and members of the Horticul-  
tural Association of Ontario, and to-  
morrow the Vegetable Growers' ex-  
ecutive will convene. There will also be  
a meeting of the committee on nomen-  
clature, appointed by the Horticultural  
Association, at 2 p.m.

#### Pony Society Meets.

A meeting of the Canadian Pony So-  
ciety was held, with President W. R.  
Meach, Norway, the chair. A dis-  
cussion on classification took place,  
several members pointing out that the  
present system was unfair to the Shel-  
lands. They should not come into  
competition with Hackneys and Welsh  
ponies. Secretary Harry Good explain-  
ed that the society was incorporated  
and the system of registration with  
the National Record Board at Ottawa,  
was adopted late for recognition in this  
year's prize list.  
A committee on recommendation was  
appointed to prepare a report for sub-  
mission to each member and to be pre-  
sented for consideration at the annual  
meeting.

#### Photographic Tower.

How were the vast Labor Day  
crowds at the exhibition photographed?  
The World's pictures were taken from  
the 25-foot telegraph tower of Fringle  
and a book this year on account of these well-  
known photographic artists in snap-  
ping the thousands created general in-  
terest.

#### New Poultry Building Promised.

President George admitted at the di-  
rectors' luncheon yesterday that they  
had been a little apprehensive about  
the outlook this year on account of the  
financial depression, but the results  
have shown there was no ground for  
anxiety.

It was Stock Breeders' and Farmers'  
Day and the speakers were selected  
from those representing these inter-  
ests. A new building was promised

## WHERE SAVAGES BEAT US.

The rude, uncultured savage did not  
at most of the day in a padded office  
chair, a carriage or car. His food was  
not prepared by a chef. He had to hunt  
for something to eat. And dinner,  
when he got it, was none too rich.  
But the rude, uncultured savage did  
not suffer from indigestion, constipa-  
tion, biliousness, headaches, or any dis-  
eased beings do. Exercise and the  
amount of fruit and fresh vegetables  
in his diet, kept liver, bowels and kid-  
neys working right.

None of us want to go back to the  
days of wigwags and tomahawks but  
a lot of us certainly would like to have  
the digestion of the savages.  
We can, by taking "Fruit-a-tive."  
"Fruit-a-tive" act directly on the  
stomach, liver, kidneys and skin, and  
keep these organs in perfect condition.  
"Fruit-a-tive" bring back lost appe-  
tite and sound digestion to the Dys-  
peptic—regulate the bowels of those  
who suffer from Constipation—and  
build up the whole system. Trial size  
25c. Regular size 50c, or 6 for \$2.50.

the poultrymen, William McNeill of  
London, president of the Ontario Poul-  
try Association, having changed his  
mind since two years ago, when he  
thought the present building quite  
adequate.

President George could not find suf-  
ficiently superlative terms to apply to  
the Ontario Agricultural College at  
Guelph, and he called on President  
Creelman to speak for his institution.  
Mr. Creelman was more than enthu-  
siastic and in a lively address pointed  
out the strong features of the exhibi-  
tion as they applied to practical ag-  
riculture. He had seen the classes of  
sheep, the cattle judging, where the  
judges hardly knew where to place the  
ribbons, competition was keen, he  
had seen the young farmers leading in  
their stock and he realized that the  
young agriculture of Canada was be-  
coming a thing apart with a brilliant  
future.

#### Visitors From 'Way Down East.'

Mr. Cumming, president of Nova  
Scotia Agricultural College, considered  
the term "national" as applied to  
the exhibition was more fitting than  
was generally understood. In his own  
town of 600 people there were forty  
visitors to the exhibition this year.  
A. McNeill, Ottawa, chief of the fruit  
division, considered the horticultural  
building the finest on the grounds. The  
fruit division at Ottawa was the ob-  
ject of spreading the apple trade over  
a two months' longer period than  
hitherto. He believed Duchess, Gra-  
venstein and other varieties could be  
shipped to England to advantage  
early in the season. He did not be-  
lieve the Niagara fruit growers were  
right in neglecting mixed farming.  
There must be live stock kept for suc-  
cess in any kind of intensive farming.

The World is pleased to give promi-  
nence to the following letter from "Cit-  
izen." It refers to the highly commen-  
dable effort of the National Cash Regis-  
ter Co. of Dayton, Ohio, towards  
awakening in citizens of all communi-  
ties an interest in the apparatus of  
their homes and the bettering of their  
neighborhood. The lectures also em-  
brace the sociological problem of  
improving the working conditions of  
factory employees and are repeated ev-  
ery hour during the afternoon and at  
8 in the evening.

Editor World: "I notice that you in-  
vite comments and opinions in your  
valuable paper under the special head-  
ing of civic improvements. It just oc-  
curred to me that while on the exhibi-  
tion grounds I saw in the applied art,  
or women's building, a very helpful  
talk on civic improvements. In in-  
suing bonds for forwarding political  
projects or other expensive ideas—but  
explaining how for a little effort, a  
very small amount of money and spare  
time, the individual citizen can im-  
prove his surroundings in a manner  
which will benefit the whole com-  
munity. The lectures also em-  
brace the sociological problem of  
improving the working conditions of  
factory employees and are repeated ev-  
ery hour during the afternoon and at  
8 in the evening.

#### Smith's Bon Ton Girls.

The dashing, gaily costumed Bon Ton  
Girls in the Midway's leading vaude-  
ville act, introduced a new and more  
satisfying act, enter into the perform-  
ance with a zest which is soul satisfy-  
ing to the pleasure bent throngs which  
will be attracted to the new act.  
Miss Florence Wardell, acrobatic toe  
and Spanish dancer, calls for special  
mention. The devotee of Terpsichore  
astonishes the audience and secures  
sympathetic movements and encore  
succeeds encore. The Penman family,  
dancing, are artistic and genuine fa-  
vorites, while the brilliantly clad boys  
of French tricks bring down the house  
in the Prince of Wales' chorus. Miss  
Gervaise makes a great hit in her  
Chantant song and the humor of this  
intertained by the grotesque action  
and droll humor of Monsieur Gervaise.

#### A Dainty Septet.

At the top right-hand side of the  
"Corduroy" there is an excellent va-  
deville show, under the heading of  
"Seven English Roses." Seven pretty  
girls introduce popular songs and  
McCampbell, in a comic song and  
dance turn, pleases everybody. All  
right standing room only is avail-  
able in the best position to this class  
of show early.

#### McConkey's Pastoral Cafe.

Exhibition visitors who are desirous  
of dining at a restaurant where the  
food and service are equal to those pro-  
vided in the best private grill room,  
will do well to give McConkey's, 22  
West King-street, a call. This res-  
taurant has been established many  
years and has built up a high repu-  
tation thru its aim to cater to the  
most fastidious taste. With its ample  
and varied menu, its comfortable  
menue, and agreeable surroundings, Mc-  
Conkey's is an ideal dining place. The  
terms are as moderate as the quality  
of service. Visit McConkey's if you  
are particular and would be satisfied.

#### Hygienic Communion Cups.

Church committees should call at the  
process building and inspect the in-  
dividual communion cups display. They  
are dainty and provided with a tip  
that can be sterilized after using.

#### Ideal Orchid Perfume.

A great achievement in perfume  
manufacture has been attained by the  
Sovereign Perfumes, Limited, of Tor-  
onto, in extracting from the orchid,  
the most delicate and sweet-scented of  
flowers—a highly fascinating perfume.  
In one of the most expensive locations  
in the manufacturers' building, the  
orchid perfume is displayed in an elab-  
orate booth, richly and tastefully  
decorated, and admired by all who  
throng the fair grounds. The "Ideal  
Orchid" perfume has already become  
very popular. Every visitor to the ex-  
hibition will be well repaid by calling  
and receiving a free spray of this de-  
lightful extract.

#### Bandings, Rubbing and Graining.

Manufacturers of furniture, pianos,  
office specialties, carriages, doors, sash,  
etc., etc., will find the greatest neces-  
sity for their trade in the exhibi-  
tion of the Fisher, Sander Company of Ber-  
lin, which is located in the machinery  
hall. This company is showing a com-  
plete line of bandings, rubbings and  
graining machinery, and can show origi-  
nal testimonials from the best-known  
firms in Canada.

#### Fine Undertakers' Layout.

In the carriage building are some

practically noiseless. Their ball bearing  
friction clutch pulley also attracts a  
great deal of attention, as friction  
clutch pulleys are as a rule one of the  
sore spots in power transmission. This  
company is also exhibiting samples of  
cold drawn steel, and carbonizing to  
demonstrate their facilities for hand-  
ling this class of work.

Converting as it does such a wide range  
this exhibit is bound to be of great in-  
terest to all power users, especially  
now that the question of the cost of  
power is becoming such a live one with  
manufacturers, and this exhibit also  
shows more clearly the strides that  
this young concern is making towards  
covering the many fields that are open  
to it. The fact that over seven hun-  
dred of the leading Canadian factories  
are using Chapman Double Ball Bear-  
ings is good evidence that they are be-  
ing appreciated by the public.

#### Royal Souvenir Range.

Essentials of the modern cooking  
stove, or range, are that they be equip-  
ped with reservoir, warming closet, and  
provided with coal or wood burning  
grates. All of these features are to be  
found in the "Royal" Souvenir Range  
exhibited, along with all kinds of stoves  
and furnaces, by the Gurney, Tilden  
Co., Limited, in the process building.  
The fire box of the "Royal" Souvenir  
is fitted with iron stove linings, espe-  
cially adapted for hard coal. If pre-  
ferred, however, cast iron linings can  
be supplied. The grates are duplex and  
can be removed at any time without  
disturbing the fire box. The oven is so  
designed that it can be used for waste  
space, and is the only oven made with  
the special "Aeration" qualification. A  
hundred and one other features about  
this stove have been arranged with  
studied care and it will not be time  
wasted to look over this company's  
exhibit.

#### Fire-Proof Safes.

On display in the exhibit of Ford &  
Featherstone, in the process building,  
is a charred safe, which was buried  
for 180 hours under tons of burning  
goods and bricks and when the fire  
fire, yet it came thru little the worse,  
and had preserved its contents in ab-  
solutely first class condition. Since the  
fire 21 Carey houses have been sold in  
Three Rivers to the leading whole-  
salers, banks, business houses, etc.

#### The Butcher's Supplies Exhibit of the

Vokes Hardware Company, of the  
fair grounds, in fact, sufficient room  
to make the creditable exhibit which  
the Vokes Hardware Co. (Yonge and  
Adelaide-street) wished to have. It is  
an impossible thing, and so this ex-  
tending firm have converted some of  
their largest departments into spe-  
cial exhibits. The exhibit of butcher's  
most interesting exhibit to the butcher  
and folk and kindred trades will be the  
very excellent display this firm is mak-  
ing this week.  
Butcher's supplies.—These include  
presses, meat choppers, scales, meat  
tickets, scrapers, saws, cleavers, split-  
ters, hooks, blades, baskets, sausage  
stuffers and pumps, and after a visit  
to the special display by a repre-  
sentative of The World the claim is not  
overstated when they say "we are  
the largest dealers in butcher's sup-  
plies in the city to-day." The Vokes  
Hardware Co. invite visitors to the  
city interested in such lines to pay them  
a visit.

#### High Quality Electric Motors.

The Kay Motor, exhibited (all sizes)  
in the process building by the Fleming  
Aerial Ladder Co., and claimed to be  
the strongest and most economic cur-  
rent users on the market, commands a  
most earnest consideration by every-  
body. The Fleming people also show  
their famous sky-scraper ladder.

#### Smith's Bon Ton Girls.

The dashing, gaily costumed Bon Ton  
Girls in the Midway's leading vaude-  
ville act, introduced a new and more  
satisfying act, enter into the perform-  
ance with a zest which is soul satisfy-  
ing to the pleasure bent throngs which  
will be attracted to the new act.  
Miss Florence Wardell, acrobatic toe  
and Spanish dancer, calls for special  
mention. The devotee of Terpsichore  
astonishes the audience and secures  
sympathetic movements and encore  
succeeds encore. The Penman family,  
dancing, are artistic and genuine fa-  
vorites, while the brilliantly clad boys  
of French tricks bring down the house  
in the Prince of Wales' chorus. Miss  
Gervaise makes a great hit in her  
Chantant song and the humor of this  
intertained by the grotesque action  
and droll humor of Monsieur Gervaise.

#### A Dainty Septet.

At the top right-hand side of the  
"Corduroy" there is an excellent va-  
deville show, under the heading of  
"Seven English Roses." Seven pretty  
girls introduce popular songs and  
McCampbell, in a comic song and  
dance turn, pleases everybody. All  
right standing room only is avail-  
able in the best position to this class  
of show early.

#### McConkey's Pastoral Cafe.

Exhibition visitors who are desirous  
of dining at a restaurant where the  
food and service are equal to those pro-  
vided in the best private grill room,  
will do well to give McConkey's, 22  
West King-street, a call. This res-  
taurant has been established many  
years and has built up a high repu-  
tation thru its aim to cater to the  
most fastidious taste. With its ample  
and varied menu, its comfortable  
menue, and agreeable surroundings, Mc-  
Conkey's is an ideal dining place. The  
terms are as moderate as the quality  
of service. Visit McConkey's if you  
are particular and would be satisfied.

#### Hygienic Communion Cups.

Church committees should call at the  
process building and inspect the in-  
dividual communion cups display. They  
are dainty and provided with a tip  
that can be sterilized after using.

#### Ideal Orchid Perfume.

A great achievement in perfume  
manufacture has been attained by the  
Sovereign Perfumes, Limited, of Tor-  
onto, in extracting from the orchid,  
the most delicate and sweet-scented of  
flowers—a highly fascinating perfume.  
In one of the most expensive locations  
in the manufacturers' building, the  
orchid perfume is displayed in an elab-

## A TIME-TRIED INVESTMENT

This is not only one of the largest and strongest, but also one of the oldest of the Canadian financial institutions. It has a record of more than half a century of steadily increasing success, stability and strength. In this time an experience has been gained which entitles its Directors and Officers to be considered experts in the selection of choice, safe securities for the investment of its funds. Its Capital, fully paid, and Surplus, exceed eight and three-quarters million dollars.

Its record, experience and strength constitute it an unusually safe depository for savings, and its Debentures have long held a very high place in the estimation of those conservative, cautious investors, both in Great Britain and Canada, who prefer absolute safety to a high rate of interest. In Canada they are a Legal Investment for Trust Funds, and are accepted by the Canadian Government as the Deposit Securities.

We shall be glad to send you a specimen Debenture, a copy of our last Annual Report, and full particulars, on receipt of your address. Write for them to-day.

## CANADA PERMANENT MORTGAGE CORPORATION

TORONTO STREET, TORONTO.

## WALK STREET IS BUOYANT AFTER THREE DAYS' REST

New High Records Are Made in Several Securities  
---Toronto Exchange Exhibits Weakness.

World Office, Tuesday Evening, Sept. 8.

No accumulation of buying orders was present at the Toronto Stock Exchange to-day and it required support from the inside to maintain a steady appearance in some of the specialties. Holders of securities were without any information otherwise than quotations, and purchasers were by no means plentiful. Buoyancy on Wall-street, exerted a small amount of influence on sentiment, but the high prices of the foreign stocks was considered as a sufficient discount of everything at present in sight on the distant future. Sao Paulo was sold down two points on realizing, but it was difficult to get a bid on Rio at anywhere near the last market. An unexplainable weakness was apparent in Twin City and from the ominous remarks of brokers it would seem as the something is to develop in connection with the property not altogether to the liking of shareholders. Both this company and Toronto Railway showed decent increases on the last week's earnings, but these were not considered in the market's operations. On the surface the market closed emphatically weak, considering the general surroundings.

Wall Street Features.

It is believed old 4 per cent. dividend will be resumed on Steel common.

Bank statements showed unexpected increase in loans and first important loss on cash this season.

Rogers, Brown & Co. report better feeling in iron market than at any time this year. Dun's review reports steady decrease in idle machinery.

Large orders of coal have been notified that producing interests will not stock hard coal for private industries and there are storing enough coal to last for several months.

Financial Chronicle's compilation shows United States railroads for first six months of 1908 lost \$235,000,000 gross and \$85,000,000 net.

General steel trade said to be slow, but structural steel orders increasing.

Pennsylvania Railroad reported yesterday decrease of 8000 in number of idle cars.

Strait business in miscellaneous freight best of year and in some sections almost up to tonnage of last year.

PITTSBURGH.—The Mount Washington Savings and Trust Co. has failed to open its doors at the usual hour to-day. There is no notice posted, but one of the attendants made the statement that the bank had suspended business for 10 days. Officials cannot be reached at this time, there is a large crowd outside doors. The bank is a small one, and affiliated with the Cosmopolitan of Pittsburgh, which closed its doors Saturday.

Bullish speculation operations seem likely in a trading market this week. We would not follow up advances too closely, nor neglect fair returns on the recoveries, preferring to buy on reactions for moderate profits, with stocks under protection. Important distribution has not occurred, and the low money rates operate against a speculative policy with the subsequent decline usually experienced. A broad conservative bull position appears to us to be justified.

Joseph says: Call funds 1 per cent. Time accommodation in plenty. Crops doing famously. Industries revival. Public only partially interested marketwise. Capitalist confident. Europe is disposed to lend a listening ear to the harmony of conditions here. Pacific shares will continue in the lead. Better take on some U. P. This stock is selling away at all proportions to its intrinsic worth. Remember that Con. Gas is not being bought by

King Presents Victorian Order to Canadian Officers.

(Canadian Associated Press Cable.)  
LONDON, Sept. 8.—General Smith, Dorrien, Colonel Gordon, of the Gordon Highlanders, Lieut.-Col. D. M. Robertson, Brig.-Gen. Larry Buchanan and a detachment of non-coms of the 48th Highlanders, Toronto, arrived yesterday morning from Aldershot at Waterloo Station.

## MODEL CAN FLY.

Toronto Engineer Constructs an Aeroplane—His Design a Success.

A Toronto electrical engineer, who is a friend of the European aeronaut Zeppelin, has constructed an original aeroplane. It is of silk and bamboo, is operated by storage batteries, and has a tail for steering purposes. A model carrying a weight of fifty pounds made an experimental trip 40 feet from the ground and traveled 1000 yards. A complete machine from the model will be made, and it is expected that it will be seen in operation in Toronto in about a month.

## PRIZE COUNTY CONSTABLES

Judge Winchester's Charge to the Grand Jury—To Probe Jail Escape.

Judge Winchester complimented the county constables in his address to the grand jury of the sessions at noon yesterday.

"From my own experience," said his honor, "I know for a fact that the county constables of York County have done much good work. It will be for you jurors to consider whether it is not time for the county constables to be put on a salary basis to remove all charges of the constables' arrest of innocent persons to obtain fees."

Among the cases to be heard is that of Jos. Haselton, druggist, of supplying noxious drugs, and the judge remarked.

"Unfortunately there have been many cases of this nature of late, and it is your duty to fearlessly bring in a true bill if you think a crime has been committed."

Speaking of the escape from Toronto of his honor remarked that it was the duty of the jurors in visiting the institutions to make a general investigation into the condition of the jail and escape of the prisoners.

The grand jury is composed of J. J. Copeland, foreman; George Arnold, Harry R. Beaver, James Dunning, Edward Irving, Douglas Macdonald, Mainprize, D. H. Sprague, Abraham Dicker, Michael Humphrey, James Buckley, and Alex. McDonald.

True bills were brought in against James Powell on two charges of false pretences; against P. H. on the same charges; against Frank D. Garmo on three charges of theft.

The cases before the grand jury today will be David Knowles, wounding; W. G. Williams, abduction; Herbert Wright, abduction; James Bayes, theft; George Buchan, theft; and Fred Schwalm and P. Sherwin, criminal negligence, in running down A. Williams, owner of the lumber.

## Killed While Blasting.

Exceptionally Good Grains Exhibit.

One of the most interesting exhibits at the Canadian National Exhibition is that found at the Grand Trunk Railway exhibit, being samples of grain and oats, taken Aug. 27 and 28, between Portage la Prairie, Man., and Saskatoon, Sask., on the line of the Grand Trunk Pacific Railway, at the following stations:

Lafayette, Man. Spy Hill, Sask.  
Lafayette, Man. Goodwin, Sask.  
Seymour, Sask. Allan, Sask.  
Atwater, Sask. Kellin, Sask.

These samples have been submitted to the best experts of grain, and they have pronounced it to be of a very superior quality, thus demonstrating the superiority and fertility of the land along the line of Grand Trunk Pacific Railway, which information will be gladly received by many thousands of residents of the older Canada, who are desirous of securing suitable home steads in the west.

## LISTED STOCKS NEGLECTED FOR MINING ISSUES.

World Office, Tuesday Evening, Sept. 8.

A moderate amount of business was transacted at the Toronto Stock Exchange to-day, but the members and their clients were more interested in the Cobalt shares than they were in the listed securities, and the prices of the speculative stocks did not hold their own. Many of the transactions were believed to be for market effect, but the support was substantial and quotations were steady at a little below the closing prices at the end of past week. Profit-taking was apparent in South Americans, and the prices sagged under this weight. There was nothing in the day's news to engender sentiment, and traders were entirely guided by the market's appearance.

HERBERT H. BALL.

## Grain Markets Erratic Government Report Bullish

**Cables Are Lower With  
Chicago Firms When  
Government Statistics  
Are Published.**

World Office  
Tuesday Evening, Sept. 8.  
Liverpool wheat futures closed to-day  
lower than yesterday, and corn  
futures 3/4 lower.  
At Chicago Sept. wheat closed 1/2 higher  
than Saturday, Sept. corn 1/2 higher,  
and Sept. oats 1/2 higher.  
Winnipeg car lots wheat to-day, 146;  
year ago, 145.

Chicago car lots to-day: Wheat, 63; corn,  
33; year ago, 62.  
Northwest car to-day, 1919; week ago,  
23; year ago, 22.  
Visible this week: Wheat, increase 2;  
corn, 11,000; oats, in-  
crease, 900,000.

Lamson is buying May corn.  
St. Louis receipts wheat, 135,000; Kan-  
sas City, 559,000.

Government crop report: Condition of  
spring wheat when harvested was against  
27.7 on Aug. last; 77.1 at time of harvest  
in 1907, and 83.4 in 1908. Condition of corn  
as Sept. 1 was 75.4, compared with 82.5 a  
month ago; 80.2 on Sept. 1, 1907, and 80.3 on  
Sept. 1, 1908. Condition of oats when har-  
vested, 28.7, against 33.8 on Aug. 1 last;  
65.9 at time of harvest in 1907, and 61.9 in  
1908.

J. R. Heintz & Co. (R. B. Holden) fore-  
tell the following Broomhall foreign  
weekly crop summary:  
United Kingdom—Weather slightly cold;  
some complaints heard of damaging wind  
to recent wet weather.  
France—Latest reports regarding yield  
favorable, with quality very uncertain,  
and generally poor.

Germany—it is claimed that much of  
the wheat and oats crop has been lost as a  
result of recent wet weather, and it is  
feared some damage to quality has re-  
sulted. The demand for foreign wheat  
is improving.  
Rumania—There have been beneficial  
rains in parts of the country, which is  
good for growing.  
Russia—Beneficial rains have fallen in  
the south, and receipts of wheat at the  
ports are fair. In other sections the  
weather is unfavorable for harvesting.

**ST. LAWRENCE MARKET.**  
Receipts of farm produce were 1200  
bushels of grain, 100 bushels of hay and  
many mixed loads.  
Wheat—Two hundred bushels sold at 55c  
to 56c.  
Barley—Two hundred bushels sold at 55c  
to 56c.  
Oats—Eight hundred bushels sold at 44c  
to 45c.  
Hay—Thirty loads sold at \$12 to \$13 per  
ton.  
Straw—Two loads sold at \$12 to \$13 per  
ton for sheaf.  
Potatoes—Prices steady at 50c to 55c.
