PREMIER WAS IN MONCTON TODAY

Sir Robert On Way To Halifax To Open Campaign

SPEECH LIKELY ON WEDNESDAY

Plans of Other Cabinet Members - Mackenzie King Liberal Candidate - Reports From Several Parts of Canada

Ottawa, Nov. 12.—The campaign has opened in earnest. Sir Robert Borden left for Moncton this morning. He will make his first speech, probably on Wednesday night. Hon. J. A. Calder, Hon. A. L. Sifton, and Hon. T. A. Cretor left for the west on Saturday night. Hon. Arthur Meighen, who has been addressing meetings in Ontario, has arrived in the capital, but will leave for the west soon. Hon. H. W. Rowell also left for Toronto on Saturday night, and will probably not return till towards the end of the week.

Passed Through Moncton. Moncton, N. B., Nov. 12.—Sir Robert Borden arrived in Moncton on a special train at 9:30 this morning. He was met at the station by a party of Conservatives. General Manager Hayes and Superintendent L. S. Brown of the Canadian Pacific were also present. The party here and left for Halifax.

Mackenzie King to Run. Newmarket, Ont., Nov. 12.—Hon. W. L. Mackenzie King, former minister of labor in the Laurier administration, was on Saturday by a party of the war candidate by North York Liberals. The candidate announced himself as a win-the-war man, and a follower of Sir Wilfrid Laurier. He said that the present union government was a gigantic effort to deprive the people choosing their own representatives. He condemned the Borden government and particularly criticized the war time election act.

Contest in North Essex. Windsor, Ont., Nov. 12.—Lieut. Col. E. B. Wigle, on Saturday, nominated by the Conservative unionists to contest North Essex against Mr. C. Kennedy, the Liberal candidate.

Union Candidate. Milverton, Ont., Nov. 12.—H. B. Morphy, K. C., former M. P., was nominated here on Saturday by a party of the Conservatives as a union candidate for the coming election.

Peterborough, Ont., Nov. 12.—R. R. Hall was named as Liberal candidate to contest the election in West Peterborough.

In Peel County. Brampton, Ont., Nov. 12.—Sam Charters was on Saturday endorsed as candidate for Peel county by a mass meeting consisting in the overwhelming majority of Conservatives, but to which Liberals had been invited, though they decline to take part.

In Toronto. Toronto, Nov. 12.—Alderman J. J. Gibbons was nominated by the independent labor party on Saturday night to oppose W. F. MacLean in South York, and J. J. Vick will run against Sir Edward Kemp, minister of militia overseas, in East Toronto.

MRS. MARY MAHONEY. Mrs. Mary Mahoney, a life-long resident of Melrose, N. B., passed away on last Friday night at the advanced age of ninety-six years. Despite her age, she retained her faculties to a wonderful degree until the last. Some ten weeks ago she took ill and had since been confined to her bed. She was the widow of James Mahoney, and is survived by two brothers, James and William Barry, of Melrose, and one sister, Mrs. Margaret Riley, also of Melrose. Sister Mary Patrick, mother superior of the St. John Infirmary, is a niece, and James Barry of the Customs house, and Dr. J. M. Barry are nephews. W. J. Mahoney and Dr. D. P. Mahoney, of this city are also relatives.

The Railway Rates. Washington, Nov. 12.—The final drive in the fight of the eastern railroads for the full flat fifteen per cent increase in freight rates and more to offset the heavy net operating war time costs was made before the interstate commerce commission this week.

TEN TODAY. Ten men applied this morning for medical examination to the standing medical board. Five were put in Class A, two in Class B, one in Class C, none in Class D, and two in Class E.

VICTORY LOAN CAMPAIGN IS GIVING A LIVELY START

Early Reports In City Are Very Pleasing

MANY SMALL SUBSCRIPTIONS

Hope To Get \$4,000,000 Here - Clanging of Bells and Tooting of Whistles in Many Cities Mark Opening of Great Money-Raising Effort

Are you wearing a Victory Loan button? The button or the lack of it is the test between the sheep and the goats these days. A high rating in Bradstreet's recognition in the social register or any other test of a person's standing in the community has been discarded. While the campaign is in progress there will be only two classes of citizens—those who wear the button showing that they have bought war bonds and those who cannot show this evidence of practical form of patriotism.

The hoops and shanks of the whistles and the clashing of the bells announced the beginning of the campaign at nine o'clock this morning and this was the signal for about 100 prominent business men to start on their rounds in the effort to roll up a total of \$4,000,000 in subscriptions.

The campaign has opened auspiciously and the canvassers this morning reported that they were met with an encouraging reception. The citizens have realized the importance of the loan and the need for digging deep into their resources to make their subscriptions as large as possible. Large subscriptions are fairly plentiful but one of the most encouraging features is the readiness of men in moderate circumstances, working men and laborers to buy a bond or to undertake the payment of one on easy terms. It is too early to form an estimate of the result of the canvass but it is felt that if all the citizens display the same spirit, the success is assured.

THE ROTARY CLUB

The Evolution of the Phonograph was the subject of a very interesting and instructive address by J. G. Harrison before the Rotary Club today. He reviewed the development of the talking machine, and in conclusion dwelt upon the essential value of music in human life. Brilliant selections on an Edison added emphasis to his remarks. C. H. Smyth presided. A. M. Belding reported on the matter of soldier's boys who might be made the subject of brotherly care by Rotarians, and was asked to submit a fuller report with practical suggestions at next week's luncheon. J. M. Robinson explained a method by which employers could co-operate with their employees who desired to purchase a Victory Bond on the installment plan.

FREE VACCINATION. Until further notice all persons applying at the board of health rooms, 50 Princess street, between 9 a. m. and 12 noon, week days, will be given vaccination. The public health authorities very earnestly advise everyone not recently successfully vaccinated to become so in view of the grave character of the small-pox outbreak in the adjoining state and in the north of this province. 11-16

Compulsory Work On German Munitions

Hindenburg and Ludendorff Plan Utilization of All Possible Man Power for Production of War Material

New York, Nov. 12.—The Evening World today publishes the following: "London, Nov. 12.—Field Marshal Von Hindenburg and General Von Ludendorff are planning a further development of the resources of the German civilian man power for a greater effort which undoubtedly will be made during the winter to increase the output of war material," says a Rotterdam dispatch to the Daily News.

"For this purpose the auxiliary service act is to be operated on practically compulsory lines. The new development consists in giving local authorities power to call up all male persons between the ages of seventeen and sixty living in the German empire, and it is expressly stated that this includes all Austrians and Hungarians.

Six months' imprisonment or a fine of 10,000 marks are the penalties for attempting to evade service."

PRINCE OF WALES HAS GONE TO THE ITALIAN FRONT

Rome, Nov. 11.—The announcement by the war office today reads: "At dawn yesterday, after artillery preparation which began the evening before, the enemy, having passed our line of observation in the neighborhood of Asiago, attacked our advanced posts on Gallo and on Mont Serraglio—Hill 1,116—behind the line and after a bitter struggle succeeded in taking them."

SHORTS DRIVEN TO COVER AT OPENING OF STOCK MARKET

New York, Nov. 12.—Wall street—The short interest was again forced to cover, at the opening of today's stock market, prominent issues adding one to two points to last week's final quotations. U. S. Steel made an extreme gain of one and a half points on its first offering of 8,000 shares and other equipments, motors and shippings were among the conspicuous features. Coppers, oils, sugars and tobacco also rose appreciably. Coalers led the railway list. Reading, Norfolk and Western, Baltimore and Ohio, and Chesapeake and Ohio showing pronounced strength. U. P. and New York Central also improved substantially.

Exchange Rates Increase

Copenhagen, Nov. 12.—The strong rising exchange rates continue. The dollar today was quoted at 215; sterling at 145; francs at 53; marks at 48, and Austrian crowns at 30. The movement is partly speculative, but to a certain extent represents the serious views of the situation held by business men here.

AS BERLIN REPORTS IT

Berlin, via London, Nov. 12.—The supplementary report from general headquarters this evening reads: "Northwest of Peschendale a British local attack sangnarily collapsed. In Sette Commune and in the Siga Valley (Italian front) ground has been gained by fighting. Our troops have taken by storm the Vittor bridgehead, on the eastern bank of the Piava, which was stubbornly defended by the enemy."

THE CORN MARKET

Chicago, Nov. 12.—Corn prices developed considerable strength today, reflecting the upward tendency of the New York stock market. Besides, weather conditions handicapped the bears.

THE MEN WHO HAVE NOT YET REGISTERED

Days of Grace Granted—An Analysis of the Figures Here

Those who are liable under the military service act, and who have not registered, have one or two more days in which to do so, was the information received at military headquarters here this morning.

This morning four men applied at the military headquarters to ascertain just what to do, saying that they had not applied in the allotted time.

It is estimated by a gentleman in a position to judge that at least two-thirds of the men in St. John who could be expected to go to the front have registered for active service.

The president described Germany's expansion as a nation.

"You have one answer to the question why she was not satisfied in her methods of competition," he said, telling how the government of Germany had "held hold on industry" and controlled the competition.

At the main post office, where most of the applications were handled for the city, as well as a large number filed by residents of other parts of the province who happened to be in the city.

An analysis of these figures, J. S. Flagg, who had charge of the work, said that about 800 of these would be duplicates, owing to the fact that employers would apply for the exemption of men who had also applied on their own account.

Regarding the number who have registered, Mr. Flagg said that he believed that there are comparatively few in St. John who should have done so, who have not registered.

WE MUST DECIDE BETWEEN THE OLD PRINCIPLE OF POWER AND NEW PRINCIPLE OF FREEDOM, Says President Wilson

MOST CRITICAL TIME THE WORLD HAS KNOWN

Buffalo, Nov. 12.—President Wilson today delivered a message to the workmen of the United States in an address before the annual convention of the American Federation of Labor.

The president referred to the present as a "time more critical than the world has yet known."

It was important in "this moment of counsel to remind ourselves how the war came about," he continued.

"Germany had a place in the sun. Why was she not satisfied? What more does she want?"

The president described Germany's expansion as a nation.

"You have one answer to the question why she was not satisfied in her methods of competition," he said, telling how the government of Germany had "held hold on industry" and controlled the competition.

**MRS. HARKNESS LEFT \$10,084,542 ESTATE**

Appraisal is Less Than Half The Value Estimated at the Time of Her Death

New York, Nov. 12.—The estate of Mrs. Mary Warden Harkness, wife of Charles W. Harkness, Standard Oil man, who died on Dec. 8 last, has been appraised at \$10,084,542, which is less than half the estimate of the value of the estate made at the time of her death. The valuation includes her half of the residuary estate of her husband, which was really \$11,587,062, but which was taxable at only \$2,502,518, because after her husband's death, which occurred May 1, 1916, she gave away securities and cash aggregating \$5,084,544.

The appraisal of Mrs. Harkness' estate shows that a few days after her husband's death she notified the Rev. Dr. Leighton Parks, pastor of St. Bartholomew's Protestant Episcopal church, that she would contribute \$500,000 toward the endowment fund of the church in memory of her husband because he was interested in seeing an adequate endowment established for the church. Her will gave \$800,000 additional for the

**CANADA VICTORY BONDS**

CANADA is asked to invest money in the purchase of Victory Bonds. For the successful prosecution of the War, and to fulfil our obligations to our Country and to our Allies, it is the duty of every Canadian to contribute to the financial strength of our Government.

In order to encourage the sale of these Bonds, and to promote their use as a medium of exchange, we will until further notice accept Victory Bonds of all denominations in payment for purchases made in any of our stores. In other words,

**A VICTORY BOND** is accepted by Birks in cash transactions at face value for merchandise to the amount of the Bond.

Our plan thus assists in the discharge of a national responsibility, and at the same time makes it possible for patrons to still retain the use of money thus invested.

same purpose, and she also left \$10,000 to the clinic maintained by the church. Many other charitable gifts, making a total of more than \$1,000,000 were provided in the will and made public when it was filed for probate.

The transfer tax report shows that the shares left by Mrs. Harkness to her brothers and sisters, were as follows: Henry Warden, brother, \$200,000 in trust; Edith W. Corning, sister, \$10,000 in jewelry; William G. Warden, brother, \$20,882 in jewelry and one-thirtieth of the residue; William G. Warden, brother, \$20,882 in jewelry, \$5,750 in prints, one-thirtieth of the residue outright and one-thirtieth in trust; Barbara W. Strawbridge, sister, \$1,425, and two-thirtieths of the residue; Sarah B. McLean, sister, one-thirtieth; Elizabeth B. Ketterlin, sister, one-thirtieth in trust; Herbert W. and Nelson B. Warden, brothers, one-thirtieth outright. She also left a share in the residue to three nieces and a nephew.

Mrs. Harkness had real estate worth \$570,000, of which \$385,000 was the value of her residence at 2 East Fifty-fourth street. Her country place at Madison, N. Y., was not taxed in this state. The total value of the contents of her residence, including her jewelry, was \$106,726, and her securities were appraised at \$2,904,279.

**Canvassers For The Victory Loan**

Seventeen teams, composed of about 100 patriotic citizens, who have offered their services in order to do all they can for the promotion of the movement, have arranged to make personal visits to every household in the county. Every household has received an application for Victory Bonds in his mail. It would greatly facilitate the duties of the teams and would save much time if each man would have his application all made out when the collector arrives at his house.

The men who are devoting their time in collecting for the Victory Loan are: Wards and parishes with their captains and canvassers:

**DEATH OF HUGH CAMPBELL**

Death on Saturday removed one who had been much before the public in the last forty-five years or more as a singer, when Hugh Campbell, barber, passed away at his home in Barker street. Blessed with a resonant, powerful baritone voice and a love for singing, Mr. Campbell early began taking part in entertainments and soon gained a popularity that he retained throughout the years. He was always willing to assist in entertainments, and on the stage and in the church choir probably few St. John men had so frequently given of their musical talent.

The late Mr. Campbell had been seriously ill for about two weeks, but previous to that he was able to be about. For the last few days he was gradually sinking until death relieved him of his sufferings Saturday night about 6 o'clock at his home at 47 Barker street.

He was a native of St. John and was a son of the late Hugh Campbell in his time an old ship carpenter of this city. He was sixty-eight years of age.

Few vocalists have had so long a record of good service. His first appearance on the stage was when he appeared in the Mechanic's Institute more than forty years ago. It was very gratifying to all who heard him, for the public recognized that Mr. Campbell

possessed a fine voice. Mr. Campbell appeared one year later in the Dramatic Lyceum, situated on the south side of King square. During his spare moments he began to study music earnestly and under the tutelage of James Scribner, the famous "Home Circle Minstrel," his voice developed until he was recognized as one of the finest baritone singers in the Maritime provinces. Afterwards he sang in Lee's Opera House, Dock street. Four years later Mr. Campbell joined the famous "Home Circle Minstrel," a local company possessed of much talent. He sang with them in Nova Scotia, New Brunswick and Prince Edward Island. Afterwards he joined the renowned Skiff and Gaylord's minstrels as ballad soloist. He travelled with them throughout these provinces and also covered Newfoundland, his last public appearance being at Eastport (N.S.), where he was given a great reception by the mayor and common council at that time. Soon after that he was called to Londonerry (N.S.), and sang there one evening and the people in appreciation of his services presented him a purse of gold.

Later on he joined St. Peter's church choir where for fifteen years he had been leader. During all these years he has sung in halls of all denominations and was always willing to assist and cooperate in any good work. Up to recently, notwithstanding he had been singing for more than forty years, he possessed a fine sweet and pleasing voice, so clear and full in his long musical career. Mr. Campbell was given testimonials by his friends. In 1871 or 1872 a benefit concert was held in the Temperance Hall, which then stood at the corner of Simonds and High streets, North End. A second benefit was held under the auspices of St. Joseph's society many years after. A third was given some time later. Coming to recent years he was accorded another public testimonial by friends in May 14, 1914, in the old York theatre.

In politics he was an active Liberal and was identified with the political fortunes for many years of Dufferin ward. He is the last of a family of six brothers and two sisters and only several nieces and nephews survive. He became practically an invalid some two years ago, but took a lively interest in current topics up to the time of his death. He conducted a barber shop for years in Main street and his premises were a by-place for many of the older element of the North End.

**MINISTERS PREACH ON NATIONAL NEEDS**

An able sermon on present war conditions and the necessity of sacrifice, was preached at Centenary church last evening by Rev. Dr. G. M. Campbell. Taking for his text the first, fifth and sixth verses of the last chapter of Chronicles, Dr. Campbell discussed the call of the empire. He first referred to the length of the war and the set back due to the action of Russia, the defeat of Italy, and the apparent slowness of the Allies. He said the situation was so serious that it has led to a further call on the country's man power and resources. The only peace possible, said Dr. Campbell, was that to be obtained by the defeat of Germany. It would be better, he said, to go down to defeat than to compromise with the enemy of freedom.

"Canada has got to keep up to strength the army at the front," he said. "Canada is as much in the war zone as though Germany were attacking New Brunswick."

Rev. Thomas Marshall addressed the congregation of Fairview Methodist church last evening on the subject of the present war and the crisis that has in-

ended. His text was "Should Such a Man as I Sleep?"

Rev. J. C. B. Appel of the Douglas Avenue Christian church, celebrated his twenty-first anniversary of his ordination yesterday. At the evening service he dealt with the progress of the church since his ordination.

Woodstock, N. B., Nov. 11.—His Lordship Bishop Richardson this morning administered the sacrament of confirmation to a large class at St. Luke's church. This evening the bishop preached to one of the largest congregations that has assembled in the church for many years. His lordship in an eloquent address, spoke strongly on the present war conditions and earnestly urged unity among all classes in this critical period of the world's history.

Referring to the union government the bishop said: "Let us hope and pray that from the coming together of the best elements in each party to win this war, to which God has called us individually and as a nation, new and higher ideals of what public service means. It is worth praying for, it is worth working for, it is worth any price we can pay."

"I trust that apart from the urgency of our national need, occasioned by this awful war, every earnest man, whatever his political predilections in the past, whatever his preference now in the way of policy, will not fail to seize the opportunity, a God-given opportunity, to lift up the moral level of public life by giving his unprejudiced support to this union government. It seems to me, and I speak with a full appreciation of my responsibility, to be nothing less than a solemn duty at the present time."

various sections of employees at these works, including all the women and members of the trades unions, as per accompanying list, to submit to Your Majesty and Her Majesty the Queen their grateful appreciation of the high honor conferred on them by your visit, and for the keen and kindly interest manifested in their work.

The King takes a real interest in the war work of his subjects, and Mr. Brooks says that he is winning a great position for himself as distinctively the King of the British workmen.

So great has been the rush for the battlefields among the women of this profession that many of the big hospitals find their staffs crippled. In order to meet the demand of those who really need their services the available nurses may be obliged to limit their work to those who absolutely require it.

To one who witnessed the Red Cross procession in New York it might seem hard to believe that there will ever be a dearth of nurses. Thousands of them in their neat blue uniforms and scarlet caps passed down the avenue, and it seemed as though the supply was inexhaustible.

Worst Artillery Fire The Canadians Have Yet Had Directed Against Them

Hold on at Passchendaele Ridge Despite it and Consolidate All Gains—Germans Try New Tactics and Offer Little Infantry Opposition

Canadian Headquarters in France, Nov. 10, via London, Nov. 11.—(By W. A. Willson, Special Correspondent of the Canadian Press)—After twelve hours of continuous desperate fighting Canada stands secure on Passchendaele Ridge, having consolidated all the positions gained in the splendid advance this morning, when our infantry stormed its way along the heights for another 600 yards, taking Venture Farm, Vindictive, live cross roads and Exert Farm.

From dawn until dark the salient has been the scene of our guns in the most tremendous artillery duel in the history of Canada in Flanders. Two minutes after our advance the enemy machine gun fire from the trench until 5 o'clock this afternoon every gun which he could employ along the whole front has been directed against our troops. In the forward zone were thirty heavy troops being massed in a line some thousands yards to the rear. Our right attack went forward practically without opposition. On the left enemy parties, holding fortified shell holes, offered stouter resistance, but by 5 o'clock we had taken all our objectives.

To the left the British troops, facing an almost impassable canal, swept by the enemy machine gun fire from the strong points at Vocation and Vox farms but were unable to advance in conjunction with our forces. Our left flank was exposed. The defensive flank accordingly was formed by a veteran battalion on the extreme left. Our troops in a narrow salient on the top of Passchendaele spur, were exposed to begin with letters and postcards post-marked November 2.

The increases also have been extended by departmental orders to first class mail to many foreign countries which have enjoyed the domestic rates. The new three-cent letter rate will apply to letters to Canada, Cuba, Mexico, Panama, England, Ireland, Scotland, Wales, the Bahamas, Barbados, British Guiana, British Honduras, Santo Domingo, Dutch West Indies, Leeward Islands, Newfoundland and New Zealand. The postcard rates will extend to Canada, Cuba, Mexico, and Panama, the only countries which have enjoyed the domestic postcard rate.

Amusement admission taxes are effective at places charging more than ten cents. They are one cent for each ten cents or fraction paid for such admission, payable by the person admitted to the amusement, proprietor, required to make sworn returns to the treasury. A flat tax of one cent for each child under twelve admitted when children are charged also is provided. Passes also are taxed except those to bona fide employees, municipal officers and children under twelve, at the regular rate. Persons leasing theatre boxes must pay ten per cent on their rental.

The new rates on cigars range from twenty-five cents to 87 a thousand, and on cigarettes from eighty cents to \$1.20 a thousand. Five cents a pound is the new tax on tobacco, snuff and other manufactured tobacco, while cigarette papers are taxed from one half cent to one cent a hundred. As the taxes are now reaching the ultimate consumer, the rise means about one cent more on five cents tobacco packages, from two to five cents on cigarette packages, and from one to ten cents on cigars.

Clubs whose dues are less than \$12 a year and fees to lodge exempt from the 10 per cent tax on club dues.

EMPEROR OF AUSTRIA HAS CLOSE CALL IN TORRENT

He and Two Footmen Swept Away by Swift Current But Charles Manages to Catch Branch of Tree and All Are Saved

Amsterdam, Nov. 12.—Emperor Charles of Austria-Hungary is reported to have narrowly escaped death in a mountain torrent on his return after a visit to Palmanova, in Northern Italy. His auto broke down while he was crossing a swollen stream. The emperor's two footmen attempted to carry him ashore but lost their footing and all three were swept a considerable distance by the swift current.

The emperor was saved by catching hold of a willow hanging over the bed of the stream. He was constantly submerged as the willow bent under his weight and the force of the current. His companions, after great exertion, procured a heavy beam, with the aid of which all reached shore.

For twelve hours what was practically a continuous barrage, was maintained by our artillery. Then quiet fell again upon the salient. The enemy had given up, and from the forward areas wounded men, tumbling in the dark over new plowed ground, staggered exhausted along narrow board walks and came to the advanced dressing stations with their story of how our new line had been consolidated.

Melton Overcoats Ready for Service

Our Melton Overcoats commend themselves to men who know this fabric, for goodness of material and excellence of tailoring.

To buy now is assuredly to your advantage because the manufacturers' prices have recently been largely advanced so that we cannot repeat and sell at the same prices we are now asking. Our customers will be protected as long as the present stock lasts, which may, however, be only a short time.

No more durable cloth can be put into an overcoat than Melton; it is always good style and gentlemanly.

Black and greys, fly front, velvet collar, \$22 to \$27.—Come and see.

- One cent on each dollar of premiums paid on fire, marine, casualty and other insurance policies.

Although the tobacco taxes do not become operative until Friday, many people have already advanced retail prices. Other taxes of the new law, including those on hard and soft drinks, licenses and war-excess profits have been in effect since the law was approved October 3, but in indirect form. In December 1 the new stamp taxes, including those on parcel post packages, will be payable, putting the entire law into complete operation, except for the increased rates on second class mail postponed until July 1 next.

Increases in first class mail rates probably will be most generally felt by the people. The law provides that the postage on letters, except "drop" or local letters, shall be three cents; and that on postcards, including private mailing cards, shall be one cent more than heretofore. The increase includes picture postcards. The advances are construed

WANT GAGETOWN RECTOR.

The following is from the correspondent in the Bangor Commercial:—"Rev. F. F. Marshall, of Gagetown, N. B., was in the city on Friday and met the warden and vestrymen of St. Anne's and a special meeting of the vestry will be held on Saturday evening at which it is expected a call will be extended to him. Rev. Mr. Marshall has been doing the work of the Anglican church in the Canadian Northwest, and for the last two years has been rector of Gagetown, where he has been most successful.

THE DRY TIME.

The Eastport correspondent of the Bangor Commercial writes:—"Orders have been received from Ottawa to close all places where liquor has been for sale in Charlotte county and the saloons on Campbell Island across the harbor have all been closed for an indefinite period and for the first time in many years it is almost impossible to obtain any intoxicating liquor in this city or at Campbell Island.

APPOINTMENT TO TRAINING DEPOT

Lieutenant F. DeL. Clements, M.C., Added to Staff—St. John Men in the Casualty List

Approval of the appointment of Lieutenant F. DeL. Clements, M. C., of this city, to the New Brunswick training depot battalion, has been received. Lieutenant Clements is one of the many New Brunswick officers who have fought with distinction and valor at the front and one whose gallantry has been recognized. He was awarded the coveted military cross at the famous battle of Vimy Ridge, where the Canadians fought so bravely and successfully. His appointment will prove a popular as well as a highly deserving one. He went overseas with the 10th Battalion and went to France with a Montreal regiment with which battalion he was serving. He has been home some two months.

9th at Service. No. 9 Siege Battery attached service in Charlotte street Baptist church last evening. Rev. J. H. Jensen, the pastor, preached an eloquent and telling sermon on Fight for Home.

Bombardier Townsend Wins M. C.

Charles R. Townsend, of Fredericton, of the D. 48 Battery, 2nd Brigade, C. F. A., has lately been awarded a military medal. Bombardier Townsend, a son of the late Rev. C. W. Townsend, has been on active service since June, 1915. Prior to his enlistment in the 28th Battery he was a student at the University of New Brunswick.

Lieutenant Allingham.

Many expressions of regret were heard yesterday when it became known that Lieutenant Winfield Allingham, son of H. P. Allingham, Fairville, had been wounded in action. The brief message which came to the members of the faculty on Saturday stated simply that he had been "wounded in the right thigh and was doing well." The latter part of the telegram is indeed reassuring. Lieutenant Allingham was a popular officer of the 11th Battalion with which he went overseas. Upon his arrival in England and the subsequent breaking up of his original battalion he was transferred into the 26th New Brunswick Battalion with which he was fighting when hit. He was about twenty-seven years of age and previous to enlisting he was employed with the Fenton Land and Building Company, Limited, of this city. His many friends will hope that his recovery may be complete and rapid. Dr. J. H. Allingham, of Fairville, is a brother.

Driver Chambers Wounded.

Samuel Chambers, 69 Hawthorne avenue, received a telegram on Saturday night saying that his son, Driver George W. Chambers, has been reported admitted to the 11th Field Ambulance suffering from gunshot wounds in the face and hand.

Driver Chambers has been on the firing

line two years, going overseas with the 2nd D. A. C. under Colonel Harrison, and crossing at the same time as the 26th. He was twenty-three years of age and was employed with H. W. Cole, Limited, wholesale grocers.

Lieutenant A. Reed, Formerly of St. John, Etc.

Many people of the city read with regret the announcement in Saturday's casualty list that Lieutenant A. Reed, of St. John, was killed in action. Lieutenant Reed had lived in St. John for a number of years and enlisted in the 11th Battalion under Colonel Wedderburn. When he arrived in England he was transferred into the 12th Nova Scotia regiment and crossed the channel to France. His friends in St. John, and he had many, were shocked to hear that he was reported as killed in action as the latest word from him stated that he was doing office work somewhere behind the lines in France. While in St. John he was with the Maritime Dredging Company where he gained the esteem of his employers as well as his fellow workmen.

He was clever at office work and had worked with several construction companies in Canada being employed previous to his coming to this city. He was with the Price Construction Company. He was thirty-three years of age and was unmarried. He was a native of the old country.

The names of four New Brunswick men appear in the midnight casualty list. Wounded—P. McKinley, Chelmsford; wounded and gassed, Lance Sergeant W. H. Stanton, Mervynville; gassed, W. G. Craig, Rockland, and C. G. Steeves, Moncton.

Word has been received in Moncton to the effect that Captain Travers Williams-Taylor, only son of Sir Frederick Williams-Taylor, general manager of the Bank of Montreal, has been wounded and missing. He was a member of the 18th Hussars of the Imperial service.

Memorial Service.

A memorial service was held in the Ludlow street Baptist church, West St. John, yesterday morning for Gunner Edward Barton, of the 9th Siege Battery, who was killed at Vimy Ridge in September. Rev. W. R. Robinson occupied the pulpit. Detachments from the 9th Siege Battery and 62nd Battalion and the Special Service Corps were present.

Ernest Amiraull, clerk at the Park Hotel, has enlisted in the 6th Battery.

On Saturday night several of his friends tendered him a surprise by presenting to him a field shaving set.

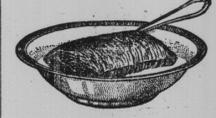

Cadets at Service.

The cadet corps of St. Andrew's and St. Stephen's churches attended service in St. Andrew's church yesterday. The St. Andrew's corps assembled in Mecklenburg street, near the home of Major Magee, instructor, and marching from Mecklenburg up Sydney street into King square, they met the St. Stephen's corps. Here the two troops joined and marched down King street in true military style into German street. Rev. F. S. Dowling preached a splendid sermon on Be a Man. He said that it was not a man that counted but men. He cited cases where countries had looked to one great man especially in relation to the present war, but they singly could not win the war but there must be a collection of such great men. Following the church services the corps lined up in front of

Austrians Ordered To Die For Reading Tsar Proclamation

Incredible Penalties Inflicted For "Offence" of Mere Idle Curiosity—Almost Unbelievable

Washington, Nov. 11.—The cruelty of Austrian courts martial against which the people of Austria-Hungary rebelled, forcing a general amnesty proclamation by Emperor Charles, is revealed in an article from the Post of Munich, Bavaria, on August 18 last, given to the press here.

This article which the "Munich Post" copied from the Wiener Arbeiterzeitung, which is printing a series of "incredible penalties" discloses that six persons were condemned to death and thirty-three others, many young school boys, were given aggregate prison sen-

tences of 91 years for merely reading a forbidden paper.

The verboten paper contained proclamations of the former Czar of Russia and General Renssekauf which had been dropped by a Russian aeroplane on Austrian troops. A copy was found by a girl on the floor of a hospital, where she had been to visit a wounded soldier. She sent it to her uncle who read it to others. Nearly all who heard the proclamation then or subsequently suffered the supreme or lesser penalties. Almost Unbelievable.

The almost unbelievable story, told in detail in the Vienna and Munich publications, follows: "The Wiener Arbeiterzeitung (the Vienna workmen's journal) continues its publications of the incredible penalties inflicted by Austrian courts martial, which it started a few weeks ago in order to demonstrate the necessity of the general amnesty which Emperor Charles proclaimed. The Thursday number prints the following: 'Aurelia Kolik, clerk, 21 years old, sent her uncle, Vladimir Kolik, a letter in September, 1914, and enclosed in this letter a copy of proclamations by the Tsar and General Renssekauf, which had been dropped from the floor of a hospital where she had been to visit a wounded soldier. The girl was condemned to death on account of this copy. The uncle copied the proclamation into his note book and read it aloud one day to one Blaschke, an employe, at a session of the directors of the land loan company of Brunn, and had him make a copy of it. For permitting this copy to be made Kolik was likewise condemned to death. The employe made three copies and passed them on to some of his acquaintances. He was condemned to death for this, and two of his friends who had merely read the proclamation and had immediately burned the bodies were condemned to five and three years in the penitentiary respectively. This third friend loaned his copy to an officer mate, Brezansky, who immediately made two copies. The former was condemned to death for lending his copy. Burek, an employe of

an insurance company, read the proclamations on this occasion. He was condemned to three years in the penitentiary. The copy was given to a woman employe named Paota, the other to a friend Tomon, a confectioner. Brezansky was condemned to death. Tomon read the papers through and fearing harm, destroyed them. He was condemned to three years in the penitentiary. The Paota woman read the first proclamation aloud to her landlady named Tichy, and expressed horror at it. After the Tichy woman understood the purport of the proclamation she became excited at the insult to the Czechs contained in it, and strongly urged the Paota woman to burn the copy. This she did in a candle flame after a short time. On the ground that she had undoubtedly contributed to the indignation against these proclamations

THIS IS A PEOPLE'S LOAN

(By Lord Shaughnessy.)

The ordinary government loan is usually of interest chiefly to the banks and the regular investing public, but the success of the new Victory Loan of \$100,000,000 vitally concerns every farmer, every mechanic, every farmer, every salaried employe. Without culture and business must come to a standstill, representing as it does the capital necessary to finance the purchase of food and arms. The supplies for the Allies and for our Canadian armies at the front, supplies which represent a very large proportion of our total agricultural and industrial production. These supplies are produced by Canadian labor, which must go unpaid unless the necessary capital is forthcoming. That capital moreover must come from the savings of the Canadian people, as under present circumstances it cannot be borrowed from abroad.

This loan is and should be a people's loan. The present war is not a banker's war, nor a war for large financial interests, but it is a war which champions the rights of free peoples. It is the bounden duty therefore of every Canadian freeman-loving citizen to become a bondholder in this loan, as it were to become a bondholder in the company of free peoples, and to help each other if he or she cannot take a place in the fighting ranks. The banks, the large companies, and the employers will no doubt give and give generously, but it is from the great army of the people that most of the money must come. In many concerns the employe will be helped by his or her employer to purchase bonds on easy instalments. These bonds bear good interest, and have behind them the guarantee of the whole Canadian people. The government in asking the Canadian people to make this loan is therefore asking for no sacrifice. It is asking only for co-operation, and indeed, at the same time will ensure prosperity for the people who lend.

LOCAL WARNING AS TO SMALLPOX

Dr. G. G. Melvin, Health Officer, Advises Vaccination and Guarding Against Contagion

Dr. George G. Melvin, the chief health officer of the city and county, wishes to call attention to the offer of free vaccination at the health rooms in another column, and to urge everyone to take advantage of it. Those preferring the services of their own physicians should apply at once to them for vaccination. Nothing has been more clearly and positively demonstrated than that vaccination is the chief, and indeed, largely the only effective method of combating smallpox. Quarantine restrictions are useful and generally essential where the disease has actually appeared, but vaccination is the only real and efficient measure of prevention. No one should consider himself safe from attack who has a vaccination scar more than three years old, although it is well known that no definite limit can be positively set upon the immunity conferred by vaccination.

Without desiring to create any undue alarm the chief health officer would, nevertheless, urge a general vaccination upon the people of this city and county, and indeed upon all other localities, in any way specially exposed to contagion. The fact that the disease is epidemic in the state of Maine, and quite widely spread over a large section of this province should spur everyone to adopt this simple and very necessary precaution. Those who travel and those who have to do with travelers, as well as those who have never been successfully vaccinated or whose vaccination is old are the most liable to contagion.

It is also well to remember that even if one is properly and recently vaccinated it is very necessary that he avoid contagion both as regards persons and places to the best of his knowledge, for although one may not contract the disease himself it is very possible to have his clothes or other belonging infected and so transmit the disease to others.

The roof is the last to go on your building; but the selection of an efficient and economical roof is of first importance. If you will use

Certain-teed Roofing

on your building you will get the most efficient roof, and will cut down the cost of the roof materially. CERTAIN-TEED Roofing is economical to buy, inexpensive to lay, and it costs practically nothing to maintain. It is weathertight, fire retardant, clean, sanitary, and gives the utmost roofing service over a period of years. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

The quality and merit of CERTAIN-TEED have made it the preferable type of roofing for office buildings, hotels, factories, stores, warehouses, garages, farm buildings, etc. If you are building it will be to your interest to investigate CERTAIN-TEED. There are many roll roofings, but only one CERTAIN-TEED. As it costs no more to lay a CERTAIN-TEED Roof than it does to lay a poor roof, it will pay to get the best, and save on renewals and upkeep. You can't tell the quality of roll roofing by its appearance, or by feeling of it; your only safety is in the label. Be sure it is CERTAIN-TEED.

Certain-teed Slate-Surfaced Asphalt Shingles are supplanting wood and slate shingles for residences. They cost less, are just as good looking, wear better, won't fall off, buckle or split. They are fire retardant, and do not have to be painted or stained.

Certain-teed Paints and Varnishes are made of the best quality materials and mixed by modern machinery to insure uniformity. Made for all uses and in all colors and sizes. Any dealer can get them for you. With paint and varnish, as with roofing, the name CERTAIN-TEED is a guarantee of quality and satisfaction.

Nailing a Lie—Cold!

WE have read letters from Chalmers Distributors in which they have stated that competitors were saying to present owners of Chalmers cars and to prospective buyers, generally, that the manufacture of Chalmers cars would be discontinued.

There are thirty (30) automobile companies in the United States recognized by the general trade that manufacture and sell Touring Cars and Roadsters at retail prices in Canada between \$1,500 and \$2,000. We haven't heard that all of these companies, or any one of them, were going to discontinue production or quit business. Why, then, should the Chalmers, with a better car than many others in this class of 30 manufacturers, stop production?

WE MAKE A PROPHECY, and will authorize our Distributors to back it up with \$200,000 of our money; that the Chalmers Company under the Maxwell Management, will stand ahead of 15 of these companies in production in 1918, and the Chalmers Company will stand ahead of 20 of these companies in production in 1919. This doesn't look as though we expected to discontinue making Chalmers Cars.

The reason some people are trying to disturb the present Chalmers owners is to scare them about service as to get a better "trade-in" on their Chalmers.

The reason for circulating such a story generally would be to prevent the prospective purchaser from inspecting a Chalmers car, because if a prospective buyer of an automobile will look at and ride in the present Chalmers models he will be very apt to buy one. It is the best car selling at \$1785 in Canada that we know of.

This is one reason why Chalmers cars will continue to be made, not only in 1918, but in 1919, 1920 and other years.

Another reason is that the Maxwell organization has told the general Public that Chalmers cars would be produced in larger quantities than ever before and we have a way of making good with the public on sales and production.

Premier Issues Ringing Call For Patriotic Co-operation

Second Manifesto of Union Government— Urges Support for Military Service Act From All Classes

Ottawa, Nov. 11.—Sir Robert Borden, on the eve of his departure for Halifax to open his campaign, issued a second manifesto to the Canadian people, setting forth his reasons for believing that they should give their support to the new administration.

The manifesto follows: To the people of Canada:

The twelfth parliament has been dissolved and it becomes the duty of the people to choose a new house of commons. Under the constitution the mandate of those whom the constituency returned in 1911 expired a year ago. But by agreement between the two parties in both the commons and the senate, and with the clear sanction of public opinion, the duration of parliament was, for reasons of a momentary nature in our history, extended for one year.

A further extension was proposed but, owing to the attitude of the opposition, it could not be pressed and a general election thus became inevitable. The circumstances and conditions under which and upon which the people must pronounce judgment are without precedent or parallel. Nearly three and a half years ago, in obedience to honorable alliances and out of regard for her very existence and the security of her dominions, Great Britain engaged in war with Germany.

Canada, as became a partner nation in the British commonwealth, entered the struggle by decree of her parliament. That decree was enacted without a single dissenting voice and it gave true expression to the sentiment and determination of the people of this country. No government could have lived and no government would have desecrated to live, that did not give such instant effect to the popular will.

The resolution and patriotism of the Canadian people found prompt and adequate expression. By voluntary enlistment an army of over four hundred thousand has been enrolled. Three hundred and fifty thousand Canadian soldiers have gone overseas at sacrifice and sacrifice on the scarred fields of France and Flanders. Many thousands of them lie in graves hallowed by their blood and glorified by their suffering. Pride in their valor and their achievements mitigates the sorrow which possesses so many of our homes.

New Revelation of Patriotism. Through what they have done we have a new revelation of patriotism. The nation is clothed with new dignity. But how meagre we shall stand at the bar of history if, through any neglect or failure of ours, the cause for which they all does not prevail. By the test which they met so steadily and bravely we shall be judged. If their living comrades in the trenches are not supported, shame and humiliation will be our portion. They will have paid a price for us beyond our deserts. What they sowed in honor we shall reap in dishonor.

When it became apparent that the voluntary system was not providing adequate reinforcements for the army it became necessary to consider the provisions of the militia act, empowering the government to enforce compulsory military service upon all male citizens of Canada between the ages of eighteen and sixty, inclusive. Under present conditions the public interest cannot be served by a chance selection, but it demands instead an intelligent selection based upon a wise and careful consideration of the country's needs, both in the fighting line and at home.

It is not necessary to repeat in full the announcement of policy already made public. In carrying out these policies, the government engages to stipulate no expenditure in undue duplication of railways and to arrange effective co-operation between the public and private railway systems. With the acquisition of the Canadian Northern railway, the state becomes one of the chief carriers of passengers and freight.

For many years in Canada, railway policy was determined not so much by the needs of transportation as by the demands of rival groups of railway builders. As a result we have a great railway mileage, constructed at heavy cost, with long stretches of parallel lines where a single system could have handled all the traffic and at lower charges upon a smaller investment of capital.

The necessity for greater production. Thorough and effective co-operation among agricultural producers will be encouraged. The men by whose sacrifice and endurance the free institutions of Canada will be preserved must be re-educated where necessary and re-established on the land, or in such other pursuits or vocations as they may desire to follow. The maimed and the broken will be protected; the widow and the orphan will be helped and cherished. Duty and decency demand that those who are saving democracy shall not find democracy a house of privileges, or a school of poverty and hardship.

The franchise will be extended to women not chiefly in recognition of devoted and capable service in the war, but as a measure of justice, too long delayed. If men die, women suffer; if they are wounded, women grieve; if they are maimed women labor. And since there can be no separation in suffering and sacrifice there should be none in citizenship.

The government will strive to develop and stimulate a common patriotism in all elements of the people and all portions of the dominion. It inherits no baneful legacies. It cherishes no grievances or animosities, east and west, arising equal at the council table and in the new parliament all the provinces will have equal and adequate representation.

Its policies with the least possible delay. It pledges itself to prosecute the war with ceaseless vigor, to strive for national unity, to administer the public departments with economy and efficiency, to devise measures of taxation which will regard social justice and to neglect nothing that may be required to sustain the soldiers on service or to comfort those of their households whom they left behind. Firmly convinced that these objects can best be achieved by a government representing all parties, classes, creeds and interests, I appeal with confidence on its behalf for the sympathy and support of the Canadian people.

But there are other reasons why the union government should be entrusted with power. It has pledged itself to a wise and bold policy of constructive reform. The system of patronage in the distribution of contracts and office which has prevailed in Canada for generations has been the root of many political evils. It has fostered local and sectional interests incompatible with the national welfare and injurious to the efficiency of the national service. It has troubled representatives of the people, permitted the ascendancy of organized minorities in the constituencies and affected the independence of parliament itself.

It may be that these evils should have been overcome long ago. Ceasure may have tolerated the system. But venereal diseases succumb only to heroic treatment—and heroism has not distinguished Canadian parties in dealing with patronage. Generally governments have lived long in Canada, and when for many years distribution of patronage has been confined to the party in power there is a natural disposition to adjust the balance when at length the other party succeeds to office. Once committed to the system, influences are recognized and interests created that are not easily resisted or dislodged. It is believed that a government derived from both political parties and strengthened by special representation of agriculture and organized labor, can act with greater freedom and independence than a government which held office under the old conditions.

Hence the resolution to abolish trading in patronage, to fill public office by merit and not by favoritism and to establish honest and open competition in awarding contracts and buying supplies.

Railway Policy. It is not necessary to repeat in full the announcement of policy already made public. In carrying out these policies, the government engages to stipulate no expenditure in undue duplication of railways and to arrange effective co-operation between the public and private railway systems. With the acquisition of the Canadian Northern railway, the state becomes one of the chief carriers of passengers and freight.

For many years in Canada, railway policy was determined not so much by the needs of transportation as by the demands of rival groups of railway builders. As a result we have a great railway mileage, constructed at heavy cost, with long stretches of parallel lines where a single system could have handled all the traffic and at lower charges upon a smaller investment of capital.

It is believed, however, that if public money will yet develop traffic in excess of present rail facilities; and in the meantime the government will endeavor to co-ordinate existing services and improve and protect the national railways, without injustice to private companies.

New System of Taxation. As old methods of railway building have to be abandoned, so old systems of taxation have to be revised. In order to meet the ever-increasing expenditure for war purposes and also to ensure that all shall share in common service and sacrifice, wealth will be conscripted by adequate taxation of war profits and increased taxation of income. There will be close inquiry into expenditures in order to protect the treasury against purely local demands, and to eliminate undertakings of purely political origin and object. Permanent committees of the cabinet have been established for war and reconstruction.

The very difficult and intricate problems inevitably arising out of war conditions are being considered and studied earnestly and attentively, with a view to effective action with the least possible delay. Immigration and colonization will receive careful and continuous attention, always with a sympathetic regard for labor and in full recognition of

the sympathy and support of the Canadian people. (Signed) R. L. BORDEN. Public Information. The announcement of the creation of a director of public information comes from Ottawa. It has been realized that a very important work is that of keeping the public in touch with the conduct of the war on both sides of the Atlantic and the appointment of the new officer is to further this end. He will be under the department of the president of the privy council.

SPORT NEWS OF THE DAY HOME AND ABROAD

CYCLE

End of Six Day Race

Boston, Nov. 11.—The Australian-American team, composed of Madden and Corry, won the six day bicycle race which was finished here last night. The finish was run off in twenty-one one-mile sprints with points from one to five scored against the first five teams in the order of their finish, one point to the winner of each heat. By this system of scoring Madden and Corry had fifty-one points.

BASEBALL

Diamond Sparkles

Pitching records just compiled show that Eddie Cicotte was the only pitcher in the major leagues during the last season to pitch a no-hit, one-hit, a two-hit and a three-hit game.

Fred Toney of the Reds was the most efficient batsman in the two leagues when it came to limiting opponents to three hits. He turned in five of these games, scoring two over Pittsburgh, one against the Cardinals, one against the Braves and one against the Phillies.

Babe Ruth pitched four games in which he limited opponents to three hits or less but he failed to get into the no hit class. He set the Tigers down with one hit, the Senators with two and both the Yankees and Browns with three hits.

Jim Vaughn of the Cubs led the National League in pitching two-hit games. The big southpaw turned the trick four times, his victims being the Pirates, Reds, Robins and Giants.

Fletcher Jones has announced that he had no idea of giving up the management of the St. Louis Browns.

Chief Bender, who did a great couch back this year, is out of the big money from the Phillies in 1918.

The Eastern League wants to take in Providence, but the Rhode Island promoters are lukewarm.

President Johnson of the American League, and Owen Francis of the National League, are not at loggerheads, despite reports to the contrary.

Cleveland scribes seem to think that Owner James Dunn is negotiating with the Yankees for a right handed pitcher. Is Ray Caldwell the man?

Grever Cleveland, manager, by winning 90 games for the Phillies this year, earned his \$12,000 salary.

SWIMMING

Swimming Marks in Peril

The women's indoor swimming season of 1917-18 which is under way in most districts and will open here next Saturday, says the New York Times, with a meet in the Brighton Beach Winter pool, promises to make history.

The brilliant performances of last summer, when three American mermaids shattered world's records and half a dozen others came dangerously close to standard marks, aroused the belief that the coming month may land the mermaid fair aquatic contestants on top of the international heap.

With very few exceptions the leaders in the United States are girls ranging in age between fifteen and twenty-one, whose rapid improvement is to be counted upon, and they will this season have every opportunity and inducement to show their best parts.

Water sports for women have attained such widespread popularity that many cities plan carnivals at which championships or other important events will be featured, and the promoting organizations have already taken steps to secure the appearance of the stars of all sections, so there is assurance of competition aplenty, in which rivalry and ambition should lead to far greater feats than accomplished heretofore.

The Times continues—Among the girl swimmers likely to figure in the title races at various aquatic centers are Claire Galts at various aquatic centers.

Look and Feel Clean, Sweet and Fresh Every Day. Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallowness, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make any one a pronounced crank on the subject of internal sanitation.

PIMPLES AND RUNNING SORES

Would Hold Head Down Face Was Such a Sight

Pimples are caused by the blood being out of order. Those festering and running sores appear on the forehead, nose, on the chin and other parts of the body, and although they are not a dangerous trouble they are very unsightly to both you and your friends.

There is only one way to get rid of this obnoxious skin trouble, and this is by giving the blood a thorough cleansing by the use of Burdock Blood Bitters.

This sterling remedy has been on the market for over forty years during which time we have received thousands of testimonials as to its curative powers over all skin diseases, such as eczema, itching, and other eruptions.

One of the most interesting novelties of the season will be the contest for the Young Women's Christian Association. A number of franchises for every swimming pool and those of New York, Philadelphia, Washington, Baltimore, Pittsburgh, Lancaster, and Wilkesbarre are forming an aquatic league, which is expected to shortly be ready for activities.

The annual mid-winter water carnival of the Hawaiian Islands will this season carry several important events for mermaids and some home champions are being booked to compete.

In the local pools will be seen all the metropolitan A. A. U. title events, as well as some of the nationals, and the size and strength of the newly formed team of the Women's Swimming Association promises to make them unusually well contested.

Owner Smith, of the Richmond International League Club, declined to comment.

Owners of the Minneapolis and St. Paul clubs did not make statements.

"Lifer" Fled Prison To Prove Innocence

Convict Gives Himself up After Coast-to-Coast Search for Witness

Called "Man of Mystery" — Present When Woman Was Killed in Washington, D. C., But Denies He Fired the Shot

(New York Times.)

An escaped convict's futile coast-to-coast search for the man whose testimony he hoped would clear his name from the charge of murder ended here last night when James MacDonald, known also as George Gillette, walked into police headquarters and surrendered himself.

MacDonald is a neatly dressed, clean-looking man and but for the haggard lines of worry on his face—he said he had lost forty pounds due to anxiety since his escape—he would never be taken for anything but a well-to-do business man without a care in the world.

The story he told involved a cabaret party in Washington in 1910, the fatal shooting of one of the party, a woman, his own arrest and conviction for the murder, and his subsequent efforts to find one of the witnesses, who he asserted, could exonerate him.

It seems that nearly eight years ago, MacDonald, who is an expert accountant, found himself one evening in the capital. It was proposed that he join a party of several men and women who were going to make a night of it.

MacDonald was arrested by the police and charged with the shooting. It became a murder charge when the woman died in the hospital. While in jail awaiting trial, MacDonald maintained such a complete silence that he gained the name of the "Man of Mystery."

However, his identity was discovered when he was recognized in court by an old friend of his family and brother, who is in the jewelry business in New York, and his wife, also here, were notified.

At some time before a verdict was reached, says MacDonald, a man who was present at the shooting visited him in jail and told him that preparations were under way to free him. This man told the prisoner that the man who actually fired the shot would reveal his name. But that was the last MacDonald

heard of the witness, and the jury, after deliberating fifty-eight hours, found him guilty. He was sentenced to Atlanta for life.

Once his wife and little daughter, who are still living in New York, came to visit him, MacDonald begged his wife to tell their child the true story, but she refused, saying it would break her heart to have to tell the little girl her father was a convict. Hence the child was informed that her father was "studying medicine" in Atlanta.

"I don't know what I would have done had they left me in Atlanta," MacDonald told the police here. "I had a good room, was well cared for, had made many friends, and, in fact, except for my freedom and the cloud over my name, I was almost contented."

"However, a year or so ago they opened a new federal prison at Lorton, and I was invited by the man who was going there as warden to come and take charge of the Bertillon system. I accepted this invitation. But when I arrived at Lorton, I found the new warden did not live up to his promises. I was closely confined, and many of the prisoners I had enjoyed at Atlanta were taken away. The thoughts of the injustice done me came on me with doubled force, and when I got a letter from a friend, saying the man I was looking for was in San Francisco, I decided to beat it."

It was a fairly simple matter to walk out. I had saved nearly \$500, which I took with me. I went at once to San Francisco, but found the man I sought had gone to Los Angeles. I went to Los Angeles, but missed him there, and I could not find him from place to place across the continent. It always seemed that I would reach a city in time to find he had just left.

"Finally, my money was nearly exhausted and I had to do something. But before I could decide what to do, I discovered a hot trail for my man leading to New York. Here I came. I did not let my wife know I was here, nor any of my other relatives. It will be time enough to see them when I am out of jail and my name cleared. I hurried to this city and went to the hotel where the man I wanted was supposed to be living. To my dismay, however, I found that it was the wrong man. I discovered a man by the same name as the one I wanted, but he was not the man."

Lieutenant Leeson examined the files of the "wanted," and found that a general alarm had been sent out from Washington for MacDonald. A comparison of MacDonald with the picture of him in the Atlanta shooting case revealed that it was the same man. The police in Washington were notified, and a telegram from Chief Pullman in reply said that officers were on their way to take the escaped convict back.

OTTAWA MAY BE IN NEW LEAGUE

New International Proposed—May Leave Out Some American Cities And Include Canadian

Ottawa, Ont., Nov. 10.—The announcement of the formation of the new Union Baseball League consisting of teams from the International and American Association Leagues, has aroused considerable interest here by reason of the fact that Ottawa will likely be included in the proposed new international.

It is a foregone conclusion that the cities eliminated by the organization of the new league are Toronto, Buffalo, Newark, Baltimore and a circuit with four of the American Association teams will be followed by the launching of a Class A league. Already New York reports are to the effect that Ottawa will be linked up with Montreal, Albany, Syracuse, Providence and other cities in reconstructed international. Hopes in fact, are held out that play will be resumed in Ottawa next summer.

That the Capital is a great little baseball burg was shown in 1912, 1913, 1914 and 1915, when the Capital won the pennant in the Canadian league. Until 1915, when war-time interferences and a lopsided pennant race interfered, the Ottawa club made big money. It was favored by Sunday baseball on the Hull side of the river and games over there never failed to draw big crowds. Frank Shaughnessy managed the team in 1913, 1914 and 1915, and among the players he developed was Urban Shockey, now of the New York Americans, baseball because immensely popular in Ottawa and visiting teams always did well financially on their trips to the Capital.

It is believed, however, that it would be better to include Hamilton and London in the proposed new International League, and to leave out some of the American clubs. Hamilton and London are both splendid baseball towns, as they too demonstrated in their former days in the Canadian League. One Ottawa man, discussing the important baseball shake-up tonight, said he believed the most successful league would be one consisting of Montreal, Ottawa, Hamilton, London, Rochester, Syracuse, Albany and Springfield.

This would give it a distinct international coloring and would minimize traveling expenses. It is doubtful if the resumption of play in the capital would be advisable until after the war, but if the International magnates wish to introduce the Capital in their new circuit they will probably find owners of the Ottawa baseball league ready to co-operate enthusiastically.

The owner of the Montreal baseball club, in the International League, when asked today what would be the attitude of the Montreal club in view of the story published from New York yesterday about a redistributing of the minor leagues in which Montreal appeared to have no place, said: "Montreal will look after its own interests."

Mr. Lichtenstein said he could not conceive of any such plan as was reported being underway as it was absolutely opposed to the regulations of National baseball. It was not sensible, he added, to say that any clubs under National constitutions could be summarily dropped. "Certainly," he said, "it can't be done without compensation, and Montreal will look after its own interests."

SAYS HE'S CANDIDATE. Alex. M. Purningham, of Bathurst (N. B.), has announced himself a candidate for a seat in Gloucester (N. B.) as a union government supporter and advocate of conscription.

Halifax, N. S., Nov. 11.—The Liberals of Kings county at a convention on Saturday nominated A. E. McMahon, of Berwick, for the house of commons.

BOLD HOLD-UP IN MONCTON THEATRE

Masked men broke into the office of a moving picture theatre in Moncton on Saturday night, severed the telephone wire so that an alarm could not be raised, gagged Mrs. Walter Davidson, who manages the theatre, and stole the day's receipts. The robbery was most daringly perpetrated and created a sensation in the quiet railway town. The police were later notified, but so far, it is understood, the yegmen have not been arrested.

It was undoubtedly the expectation of the robbers that they would get the money from the banking or who may, possibly, have remained secreted in the building after the closing time.

Upon the impulse of the moment, Mrs. Davidson grabbed for the telephone to call for help, but it was snatched from her grasp, thrown on the floor and put out of commission. Then she started to scream, but the men caught her and put a gag in her mouth. Then they proceeded calmly to the banking or who may, possibly, have remained secreted in the building after the closing time.

Mrs. Davidson suffered considerably as a result of her experience. Aside from the nervous strain due to the excitement she has several marks and bruises about the head.

Mrs. Davidson is a sister of Mrs. H. J. Sheahan of this city.

HEART WAS BAD NERVES ALL GONE

Very important it is in this age to have a clear cool head, a strong heart and steady nerves.

Too much rush and bustle, work and worry, fall to the lot of women attending to their household duties and social obligations. The constant strain under which they continue day in and day out will soon shatter the strongest system. Before long the heart gets weak, flutters and palpitates, the nerves become unstrung, you start at the least sound, the pulse becomes weak and irregular, then finally comes physical breakdown or nervous prostration.

Milburn's Heart and Nerve Pills are the remedy you require to strengthen your heart and steady your nerves.

Mrs. Jackson, 457 Bolwar street, Pet-terboro, Ont., writes: "Sixteen years ago I was so bad with my heart I could not walk across the house, my nerves were literally all gone, and I was frightened at my shadow. I commenced to take Milburn's Heart and Nerve Pills, and very soon able to do my own work. I have told dozens of people about them, some as bad as I was, and today they are doing their own work. If more people would take them there would not be so many weak hearts."

Milburn's Heart and Nerve Pills are 50c. per box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

IT'S ANOTHER GOOD BILL AT OPERA HOUSE
First Class Vaudeville Entertains Well and Chapter of The Gray Ghost is Enjoyed
A first class vaudeville programme is being presented this week in the Opera House. All four performances were crowded on Saturday and the various

acts were well received. Excellent dancing, tuneful music, a good comedian and a Japanese troupe combine in making the performance one of the best that has come to this house during the season. These, with another episode of "The Gray Ghost," make up a programme of merit.
The first act on the programme gives characteristic dances by Martinez and Ostiz. Their work was thoroughly appreciated and evoked hearty applause. The toe dancing of the male members was exceptionally good.
Grey and Klunker gave a pleasing entertainment which consisted of singing, dancing and selections on a violin. The male member was versatile. In addition

coast of Natal and Zululand is eminently suitable for the growth of sugar cane, and many farmers have given up their up-country farms for the more profitable sugar growing along the coast. The climate is very warm in summer, but as the main work, the cutting and milling of the cane, takes place in winter, sugar growers are enabled to leave their farms for a cooler climate during the summer months.
The best cane is grown in Zululand, owing to better soil, but the same kind is grown both in Natal and Zululand, namely, tuber cane. It is not such a large variety as, for instance, the Cuban sugar cane, but is very hardy and able to withstand the drought better. Its quality is, however, as good as any other sugar, its only drawback being that it must be grown in greater quantities, owing to its size.
There are sugar mills all along the coast, and these maintain trolley lines over the fields, from which trucks carry the cane to the mill. The mills work day and night through the winter season, and are up to date in every respect. They are lighted by electricity, and at present experiments are being made to test the desirability of using electricity for the machinery as well, instead of steam, as heretofore. The largest and newest mill on the coast of Zululand, at Umfolozi River, has entirely British-made machinery, something that has only recently become possible, as England did not always manufacture it.
There appears to be a need for colleges, where young men can prepare for work in the sugar factories, Holland and Germany having up to the present time, been the only centres for such colleges. Generally the young men intending to take up sugar-milling complete a course in engineering and chemistry, and then have to relate their knowledge to the conditions prevailing in South Africa. This involves experiment and sometimes much waste of time. The opening for enterprising young men is great, as constant opportunity is given for improvement and the invention of labor-saving machines. As it is, a mill employs, in ordinary times, 400 natives, both Zulus and Indians, the latter being especially quick at the work.
The mills of South Africa use the stalks of the cane as fuel for the boilers. This is a great saving and serves the purpose very well. The same mechanism that crushes the cane and extracts the sap carries on the stalks to the huge furnaces, which feed the boilers.
Both sugar growers and mill owners are hoping for the invention of a machine that will save the labor of cutting the cane in the fields by hand also of stripping it, a process which at present is accomplished simply by running a fire through the fields, and which naturally impoverishes the cane. An invention of a machine for this purpose would be of inestimable value to the sugar industry.

**LOCAL NEWS**

**AWAY TO TORONTO.**  
The group of young St. John men who went to Halifax last week to join the army flying corps, has left for Toronto to begin the course of instruction. Others from St. John also joined and the party left under command of Lieut. Jarvis McLehlan.

**O'HANDLEY-O'HANDLEY.**  
The wedding of John O'Handley, formerly of Boisdale, Cape Breton, to Catherine A. O'Handley, also of Boisdale, was solemnized with nuptial mass in the cathedral at six o'clock this morning by Rev. Arthur Allen. Mr. and Mrs. O'Handley will make their home at 45 Sydney street.

**TAKES UP DUTIES HERE.**  
Major Knox, of Halifax, arrived in the city this morning to take over the duties of assistant director of supplies of transports for this district. He has been connected with military work for the last few years, and he is considered a very able officer for the position. He will be assistant to Lieut.-Colonel Spittel, who recently arrived in St. John to take over the duties of director of supplies and transports.

**SUCCESSFUL BAZAAR.**  
Girls from Fairville school, mostly Grade 6, held a bazaar on Saturday afternoon in one of the unused rooms in the new building. The children worked hard and as a result the tidy sum of \$11.45 was realized for the soldiers' comforts. Those in charge were—Home made cooking, Beulah Craft, Pauline Patterson; candy, Muriel Burns, Mildred Bailey; dolls' clothes, Lillian Cox, Dorothy Lyons; grab bag, Myrtle Walters, Edna Cheesman; guesses, Mildred Humphrey.

**COBURG ST. CHRISTIAN CHURCH.**  
Appreciative audiences were present at all services yesterday. There was a large increase in attendance at the Sunday school. The pastor spoke to new converts at 1 a. m. on "How to Hold Out Faithful." One young man made the good confession at this service. An historical address on "Daniel Before King Belshazzar," at 7 p. m., was well received. Solos were sung by Mrs. Keys and Mrs. Coe. Three persons were baptized at the close of the evening service.

**RALLY DAY AT BROOKVILLE.**  
A large congregation met with the Sunday school in the Methodist church in Brookville on Sunday morning to celebrate "Go-to-Sunday-School" rally day. A pleasing programme was carried out, including solos by Helen Ray, Lillian Breen and Elizabeth Anderson, the members of the primary department joining in the choruses. A drill by the Sunday school cadets was well given. Addresses were made by H. M. Stout, on the effect of the Sunday school on child life; by Gordon Stevens on the effect of the Sunday school on the 'teen age, and by Mayor Hayes on the effect of the Sunday school on business and public life. Short addresses were also given by A. H. Wetmore and J. W. Cassidy. In closing, the superintendent, Geo. N. Breen, thanked the speakers for the very interesting addresses and also made appreciative reference to the interest the parents and friends have shown in the Sunday school work. Much credit is due Miss Gertrude Adams and Miss Myrtle Dowse for training the children. Miss Florence Adams presided at the organ.

**RIGH ROLLING IN A CITY LEAGUE MATCH**

Sweeps Have Single String of 504. Another of 500 and a Total of 1,468

The Sweeps not only captured all four points from the Beavers in a match game on Saturday evening on Black's alleys, but incidentally set two new City League records for the season. Their single string of 504 and their grand total of 1,468, are the highest made so far this year. McIven led the winners with an average of 108 2-3, and Maxwell led the losers with 97 1-4. The Beavers were badly weakened by the absence of two of their regular players, and a third being out of the game until the last string. They have made a bad get-away in the championship race, but are picked to give the other teams a race for premier honors. The scores:

Sweeps	Tot. Ave.
McIven	96 119 105-320 1068
Jenkins	88 103 93-280 983
Black	98 94 81-273 91
Gambin	96 89 119-304 1013
Sullivan	92 97 102-291 97
	665 504 800 1468
Beavers	Tot. Ave.
Lewis	82 73 94-240 88
Holman	88 77 84-244 813
Maxwell	102 97 93-292 973

**REPORT OF DEATH OF SOLDIER INCORRECT**

Corporal Murdoch R. Grant of Evandale Back Again With Battalion

Writing from the trenches to The Times, Corporal Murdoch R. Grant of Evandale, N. B., says that, despite reports to the contrary, he is alive and well. Through an error his name appeared among those killed in action instead of the wounded. The fact is that he was wounded in head, back and left leg on May 3 and on August 3 rejoined his unit and still was doing his share in the war at time of writing, October 15. The soldier states that he was prompted in writing by the fact that sincere friends had written to his commanding officer for particulars as to his supposed death, and a natural desire to ease their minds. He also wishes to thank the many throughout the province who extended sympathy to his parents in the hour of their grief and also for furnishing comforts to him when he was in hospital. It is more than two years since Corporal Grant sailed from St. John to take an active part in the war work.

**LIQUOR CASES KEEP COURT BUSY**

**Several Heard This Morning By Magistrate Ritchie—Youth of Seventeen Intoxicated**

Several liquor cases were brought up before Magistrate Ritchie in the police court this morning. His Honor said that conditions in certain parts of the city on Saturday nights and Sunday mornings were scandalous. "I have been ashamed of the city since the first of November," he said. "The bootleggers must be put down and numbers of private detectives will be put on the trail to endeavor to suppress the illicit liquor traffic."

Millidge Marsh, colored, pleaded guilty to a charge of carrying liquor in the street and also drinking in public. He said that he got the liquor from a man named John Witherscombe, of Nova Scotia. He said Witherscombe had asked of him if he had anything to drink and when told that he had not, he offered to get Marsh some. He was given the money and went down to the Boston hotel and he purchased some, bringing it back to Marsh. Marsh carried it to Union Alley in Union street and stepped in to take a drink, when he was taken by Inspectors Crawford and Barrett. His Honor informed him that he was liable to a fine of \$250 for the two offenses. He was remanded.

The two inspectors arrested another man in Erin street on Sunday. He pleaded guilty to being drunk and was fined \$8. He said that he used lemon extract successfully.

A boy of seventeen was arrested by Policeman Hansen for being in an intoxicated condition on Richmond street. He pleaded guilty this morning and said that he got liquor from two soldiers in the grave-yard yesterday. He was fined \$8 or two months in jail.

George Ferris was charged by Inspectors Crawford and Barrett with using threatening language when asked if he had liquor in a small grip he was carrying. The grip contained pies and other delicacies for Sunday's supper and Mr. Ferris became rather incensed when questioned by the inspectors. He said that they were too aggressive. He was fined \$25, but this was allowed to stand on account of his excellent record as given by his employer.

John Porter was then brought to trial on a charge of selling liquor to Mrs. Henderson, herself under arrest on charge of keeping a disorderly house. She testified that a week ago on Friday the defendant sold her a bottle of whiskey for \$8. Porter sworn, said that he had not sold her any liquor. The question rested on credibility of evidence, and the matter was postponed until tomorrow morning at ten o'clock.

Asked by Magistrate Ritchie how he could afford to buy liquor from Montreal and other places, the defendant said that it certainly was hard to do and that he didn't have the money to get liquor as often as he had wish to.

**The Hockey Situation.**

Quebec, Nov. 12.—Mike Quinn, former president of the Quebec Hockey Club, had little to say about Saturday's meeting, when questioned yesterday. "Things are in much the same position as ever," said he. "There really is nothing much to add to the report from Montreal regarding the quitting of the N. H. A., but in a day or so, possibly later, developments may be looked for." It is likely that Canadians, Wanderers, Ottawa and Quebec will reorganize and play out a triple schedule, unless Quebec should back out, though Mr. Quinn would not say anything regarding future plans.
