FRANCE AND TURKEY.

Trouble Not Over, and French Ambassador Leaves Constantinople.

PARIS, Aug. 27.—A semi-official note has been issued announcing that the negotiations with regard to the disputed questions between the French and the Ottoman governments, M. Constant, the French ambassador, under instructions, left Constantinople August 26th.

An arrangement had been effected August 19th and its terms drafted by the Ottoman foreign minister, with the approval of the sultan, who had promised M. Constant that the text should be handed him August 25th. M. Constant telegraphed to Paris August 19th as none of the promises had been fulfilled, and M. Delcasse, August 21st telegraphed M. Constant that in view of a flagrant disregard of the understandings the negotiations could no longer be continued, and requested M. Constant to inform the sultan that he had received orders to leave Constantinople.

On August 22nd M. Constant communicated with the sultan, fixing August 26th as the date for his departure, and as the engagements were still unmet M. Constant left Constantinople on that day.

With the departure of M. Constant the relations between France and Turkey may be regarded as broken off. Munif Bey, the Turkish ambassador to France, has been telegraphed not to return to Paris.

During the absence from his post of M. Constant, who started yesterday for Paris, M. Basset, councillor of the embassy, will act as charge d'affaires at Constantinople.

PARIS, Aug. 27.—The correspondent of the Associated Press was informed today from the best source that while the current affairs of the two embassies could be carried on by the charge d'affaires all negotiations of a political nature would be entirely suspended until the sultan should yield to the French demands. The French government considers that the sultan has broken his word. He had promised full payment of the long standing indemnities to Frenchmen, amounting to twelve million francs, but at the end of last week declined to pay the full amount and offered a reduced sum, which was refused.

M. Constant had arrived at Stamboul, where he was to take the Orient express, when a court chamberlain reached there in post haste from the sultan, begging M. Constant to return to the capital and promising that everything would be satisfactorily settled. M. Constant declined to return, declaring the time for promises was past. It was for the sultan to fulfil his undertakings. The French government will take no further steps in the matter, but will wait for the sultan to move, and it is not thought the sultan will allow the present situation to last very long.

BAD OUTLOOK IN CHINA.

LONDON, August 27.—Byron Brennan, British consul general at Shanghai, who has just returned to England, said today to a representative of the Associated Press:

"From the standpoint of foreign interests, the position of affairs is far worse today than before the international occupation of Peking. Formerly the Chinese believed foreign interests were, at any rate, to a certain extent, identical. Thanks to recent events, they are better able than ever to play off one power against another, so patently have their interests been shown to diverge. There is a very hostile feeling in many parts of northern China and local disturbances may be expected."

Mr. Brennan declares that Russia and Germany both had far more influence with the Chinese government than Great Britain. He believed the Chinese States would be the greatest sufferer by the closing of Manchuria to foreign trade.

SHIPPING DEMORALIZED.

NEW YORK, Aug. 27.—Stagnation in the shipping business in New York and more so at the outports is the existing condition, according to the Journal of Commerce, which asserts that shipping is demoralized and that shippers find themselves unable to obtain business at any rates. The dearth of merchandise is general, including manufactured products as well as grain and provisions.

"This condition of stagnation," says the Journal, "applies to the shipping business of the outports even more than to New York, as practically all the freight business out of this port is carried in the regular line packets. It is a fact that large steamers, with 12,000 tons carrying capacity and upward, have recently left this port carrying less than 3,000 tons all told of cargo."

A LURID STORY.

SEATTLE, Washington, Aug. 27.—Edward Mortimer, 68 years of age, is the centre of a story emanating from Dawson, where he is said to have been kidnapped and lowered into a deep shaft on Thistle Creek. It is miles from Dawson. His captors demanded \$5,000 as the price of release, but on being told that he had no money, left him to perish. After twelve hours' effort the old man succeeded in climbing to the surface of the shaft, and after wandering eight miles found a canoe, which brought him to Dawson, where he sought police protection.

EARL RUSSELL'S TROUBLES.

LONDON, Aug. 27.—The government has stricken the name of Earl Russell from the list of Berkshire magistrates. Earl Russell was sentenced July 19th by the house of lords to three months' imprisonment as a first-class misdemeanant, after having been convicted of bigamy.

SOUTH SHORE RAILWAY.

The New Line That Will Be Seeking an Atlantic Port.

A despatch from the present holders of the South Shore Railway now being made known. It will be the continuation of the line from the Brockton falls, a connection to be made from St. Lawrence and to be made from St. Lawrence falls, but this Atlantic coast will be reached in a long time. James McCarthy, C. E., has been appointed chief engineer, and has immediately made a report concerning the re-planting of the country and portion of the road and to examine the survey of the extension to Lake Umbagog. The rolling stock is to be largely imported. The cost of subsidies earned and received is \$40,000 from the provincial government for the Yarmouth bridge, \$30,000 from the Dominion government for mileage and \$25,000 from the municipality of Sorel.

WILL EXTEND B. & A. RIVER.

The Bangor & Arctostook Railway Co. is to extend its line from Ashcroft to Fort Kent. The new line will be some 50 miles in length and will run through a country which has valuable timber and which is rich in natural resources. It will pass by Eagle, Fortage and other lakes and through the Fish river country where millions of feet of valuable timber are only waiting for some method of transportation before they can be shipped to market.

The capital stock of the new road is all subscribed for and the work of building it will be commenced as soon as the railroad commissioners have approved of the location. Men who are familiar with the situation are of the opinion that the new line will cause the erection of several new saw mills in the Fish river region.

MANUAL TRAINING.

Prof. Robertson Gives His Impressions of This Work.

(Ottawa Citizen.) "Our adoption of manual training," says Professor J. W. Robertson, "has attracted great attention in England in Canada's educational work, starting as it did through the generosity of one Canadian; and just now, next to the war, the question of education occupies the attention of the press and people of Great Britain, more than anything else."

At all events he has been looking, he says, into the progress of elementary schools in the rural districts of England when they have been using "school gardens" as part of the educational course. "The object of those who are doing that work in England," said the professor, "is to make the education in the rural schools a training of the faculties of the children generally, but with special attention to the life occupations of the district. I visited for instance a school in the Isle of Wight and met T. S. Rooper, his majesty's inspector, who had just returned from Germany, where he was looking into their system for the department of education of the imperial government; and I got from him some valuable information. I also met J. C. Medd, who was just back from Holland, where he had also been gathering information, which shows not only the keen interest taken in the reform of elementary schools in the rural districts in England, but the great progress that is being made. Some of the schools I visited have small gardens attached where the children have exercises two or three times a week for training the powers of observation with regard to objects in nature."

Prof. Robertson said he was hopeful there would be as marked a movement in Canada to make the educational system of the schools in rural districts successful as manual training has proved to be in the city and town schools. He spoke enthusiastically of his observations in England of the benefits of this training in the rural schools, recalling with pleasure his visit to the Embury school, where, owing to the encouragement of Chas. S. Roundell, such instruction has been given for thirty years with the result that it was the centre of the best tiller and best looking section the professor saw in England. Another school seen by Prof. Robertson with great profit was the celebrated Bilton Grange school, conducted by Rev. Walter Earle, who at the time of the professor's visit has as his guests for the day the teachers of Whitshire, invited there to hear discussions on this subject of rural training by the best eminent specialists in the country.

ENGLISH WHEAT CROP.

The New York Tribune's London correspondent says the British farmer has a sad tale to tell of his grain crops. Wheat is rather below the average, and this means that the country is barely producing eight million quarters, not much more than a quarter of the amount required for consumption.

BRIEFS BY WIRE.

Gen. Mead Dead—A Miser Starves to Death—General Notes.

The Ward line steamer Morro Castle arrived at New York today from Havana with 97 passengers, of whom 51 were sent to Hoffman Island for observation.

A free-for-all fight among the graders on the Babes railroad at Antelope Pass, sixty miles southeast of Deming, N. M., resulted in the killing of two brothers named Hoffman, sub-contractors, and the wounding of three other men, names unknown.

A number of the stars among the motor race following bicyclists of America will go to England and South America for a winter tour. Elkes, Whitham and Stinson, it is said, already have engaged for the trip.

The United States Collector of Customs William Hoey was arrested last evening at Nogales, Arizona, on a charge of conspiracy to smuggle Chinese from Mexico into the United States.

The statement that King Alfonso, accompanied by General Weyler, will go to terms and there meet the czar has been denied.

General Fabian J. Mead, a veteran of the civil war and the friend of Grant, Logan and McClellan, died of consumption last night at his late residence here. General Mead was born in Raleigh, N. C., in 1822.

An old man named Paddy Kearns died yesterday in Trenton, literally of starvation and neglect. In the house in which he had lived alone for more than fifty years, bank books showing deposits of \$7,000 were found. He came to America from Ireland in 1849. The Panama Steamship company's steamer Oriaba sails today from New York for Colon, carrying a large number of huge packing cases, which those who are well informed say contain men in the department of Cauca on the Pacific coast of Colombia.

YELLOW JACK.

HAVANA, Aug. 27.—Of the eight deaths bitten by infected mosquitoes in connection with the experiments conducted by the yellow fever board during the last three weeks, three have died. Three others, who took the fever, are expected to recover. Two have not yet developed the disease. Thus far during August there have been two deaths from yellow fever in Havana, as compared with an average of more than fifty for the month of August during the previous eleven years.

WANT ELECTRIC CARS.

NEW YORK, August 27.—A plan for the abatement of the smoke nuisance in the tunnel of the New York Central railroad in this city has been prepared. It is proposed to operate all the suburban traffic by electricity. This suburban traffic is now enormous and when the smoke from these trains is done away with and a better system of ventilation is completed, it is believed that there will no longer be cause for complaint. The improvement will cost about \$7,000,000.

FAT FEES FOR LAWYERS.

SAN FRANCISCO, Cal., Aug. 27.—Fees and commissions amounting to \$402,571 have been awarded to attorneys and executors of the James G. Fair estate, by Judge Trout, in addition to the \$30,000 given each of the executors by the New York probate court for the administration of the portion in that city. Other heavy fees are yet to be paid, but it is estimated that \$3,000,000 will remain for each of the late Senator Fair's three children.

CONSERVATIVE ELECTED.

LONDON, Aug. 27.—The parliamentary election held yesterday to fill the seat in the house of commons for the Andover division of Hampshire, made vacant by the death of William W. Beach (father of the house of commons), resulted in the return of Edmund Brackett Faber, conservative, who received 3,696 votes to 3,373 cast for his liberal opponent, George Jack.

DRIVING NEGROES OUT.

STROUD, Oklahoma, Aug. 25.—The desire to run all negroes from territory towns, started at Sapulpa, has spread to Stroud, and a mob of gamblers and toughs has driven all the blacks from town. In addition they tore down the houses of two negroes and burned the buildings and contents. The trouble started when a negro attempted to stab a white man. The officers so far have not interferred.

SOUTH AFRICA.

CAPE TOWN, Aug. 27.—Lord Milner, the British high commissioner in South Africa, arrived here today from England. He met with an enthusiastic reception. Replying to an address of welcome, he said there was no doubt whatsoever of the unshakable determination of the people and government of Great Britain to adhere to their South African policy.

THE AGE TO MARRY.

Oliver Wendell Holmes, in due course of a letter to a young friend who had married, wrote: "I do indeed congratulate you on changing your social condition into the best state of quality. The very moment you feel that he is falling in to the old age of youth—which I take to be from 25 to 30 in most cases—he must not dally any longer. The first ere of his life is fairly closed, and he may live half his bright days over again if woman's pure kiss, sweet and long, comes only to his lips before it is too late. If he waits till the next epoch of his life, there is great danger that he marry his wife as a jockey buys a horse—namely, shrewdly and merely as a convenience in his domestic operations."

PARTLY IN.

(Chicago Post.) "I see your names in the papers a good deal," commented the old friend. "I suppose you're really in society now."

"My wife thinks we are," replied the man who had become suddenly rich. "but sometimes I have my doubts."

"How so?" "Well, when there's a swell charity entertainment to be given, with boxes quoted at \$200 and \$300, my wife's evidence seems to indicate that we are very much in society, but when some exclusive private function takes place there seems to be nothing but what you might call negative evidence. I think possibly it might be correct to say that our money is in society, but we are not."

HISTORIC PANTOMIME.

It has been suggested in CHICAGO, and the proposition has been received with considerable favor, that on the occasion of the royal procession through that city the French Canadians reproduce some famous historical event in the early history of Canada, and that they do this on the open space above the Queen's wharf, where the duke and his party will pass on their way to Government house. It is expected the suggestion will be taken up by St. Jean Baptiste society. The honorarium said it is a splendid suggestion, and could easily be carried into effect.

A SIMPLE PROBLEM.

(Philadelphia Ledger.) Here is a simple problem in mathematics: There were four bootblacks standing on the corner of Sixth and Chestnut streets at the Public Ledger building. Two were white bootblacks and two were black bootblacks. The two white bootblacks and the two black bootblacks agreed to black each other's black boots. One black bootblack blacked the two black boots of the two white bootblacks and that white bootblack blacked the two black boots of the black bootblack. The other black bootblack's black boots were blacked by the other white bootblack, and that black bootblack blacked the two black boots of the two white bootblacks. The two white bootblacks blacked the four black boots of the two black bootblacks, but how many black boots did each black bootblack black?

WANT TO SEE THE "BOOK."

They are having lots of fun with Ald. Cox of Toronto, who is chairman of the royal reception committee. Here is a letter he received from a prominent citizen last week.

"In approaching the throne of the serene receptioneer, I do so with becoming humility and would crave a boon at his hands, to wit, that he will see that the name of his slave and that of his slave's wife are duly inscribed in the invitation lists to the great functions when the sublime receptioneer is preparing for the 'Book.' And your petitioner will ever pray."

HER OBSERVATION.

(Washington Star.) "Don't the nights get longer pretty soon?" said the young man with the vacant eyes. "I don't know," answered Miss Cayenne. "They have seemed longer since you began calling."

Interesting Reports Submitted Yesterday in Moncton.

MONCTON, Aug. 26.—At the Baptist convention today it was reported that 2000 copies of the year book had been printed, at a cost of \$47.97.

Rev. A. Cohoon submitted the report of the H. M. Board for N. S. and P. E. Of the 49 fields, 30 have had regular pastoral labor throughout the year, 8 for most of the year, 8 for a few months, and 3 but seldom. The sum of \$3,173.77 had been granted to 71 churches in N. S. and \$46,170 to 10 in P. E. Islands. Two new meeting houses had been opened. Rev. A. F. Baker had been appointed general missionary for the board to begin work in September. The income of \$600 legacy from the late Rev. David Shaw had reverted to this board and \$1000 had been received from the estate of the late Gilbert White, of Sussex. The income from all sources was \$3,323.76, the expenditure \$4,498.64, leaving a deficit of \$1,174.88.

Rev. Mr. Cohoon resigned the secretaryship of the board, and the convention adopted a resolution expressing its high appreciation of his long and faithful services.

Nov. Dr. J. E. Saunders moved that a committee be appointed to consider the matter of having the Free Baptists of Nova Scotia and New Brunswick unite with this convention in the work of foreign missions and higher education under control of this body. This was adopted, and Dr. Trotter, Dr. M. Saunders, Dr. Manning, Dr. Saunders, and Rev. A. Cohoon, B. N. Nobles and A. T. Dykeman were appointed such committee.

Dr. Manning submitted the report from the home mission board for New Brunswick. Among other things the report said that Rev. B. N. Nobles had been appointed secretary of the board in place of Rev. Dr. Gates, resigned. During the nine months (from Sept. 1, 1900, to June 1, 1901) covered by this report, 17 circuits comprising 28 churches have received aid to the extent of \$1,004.15. Contributions from Associations were as follows: Western Association, \$353.15; Eastern, \$140.05; Western, \$460.94. The replenishment \$693.55 was made.

A committee reported against organization with the Northwest convention in home mission work. A very cheering report on Northwest missions was submitted. There are now 24 Baptist churches in Manitoba, and 27 in the Northwest, compared with 25 in Manitoba and 7 in the territories in 1881. Then the membership was 1600; now it is 4,676. The money raised has increased from \$25,000 in 1881 to \$54,000 in 1901.

The report of the convention committee on state of the denomination showed 1200 baptisms last year in the three provinces, or only half as many as in 1896.

COMMITTED SUICIDE.

CHARLOTTETOWN, P. E. I., Aug. 24.—James Fitzgerald, a well known resident of Richmond, near Summerside, committed suicide by hanging yesterday. After returning from a field

where he was looking after a horse, Fitzgerald entered his barn and ended his life. His lifeless body was found hanging from a beam in the barn loft. The unfortunate man was about fifty years of age and unmarried. He had been confined to the Asylum for the Insane for several years, and was sent home a few weeks ago apparently of sound mind.

SOLDIERS' MEMORIAL.

QUEBEC, Aug. 28.—The design of
the monument which Quebec proposes
to erect to the memory of her brave
boys who fell or served in South Af-
rica, has been adopted. It is by Ham-
ilton McCarthy of Ottawa, and repre-
sents a soldier of the Canadian infan-
try planting the standard of his country
on the summit of a kopje. The pose
is striking and animated, and the ef-
fect of the whole is very impressive. It
was intended originally to have erect-
ed this monument in the national park
to be formed out of the Plains of Ab-
raham, and to have had the corner-
stones laid by H. R. H. the Duke of
Cornwall and York during his coming
visit; but, owing to the hitch in the
transfer of the Plains to the city by
the prime minister, it is now said that
the site of the proposed monument is still
undecided.

A WARNING FROM HOME.

(Montreal Witness.)
When addressing the men of St.
James' parish, at a special service yes-
terday morning, the Rev. Abbe Va-
cher, treasurer of the Canadian col-
lege in Rome, stated that the pope was
kept well posted on Montreal through
the agency of the college, and added
that his holiness felt much aggrieved
at the immensely large number of
drinking places in our city and also
the increase of theatres. He further said
that one sure means of pleasing the
holy father was to stay away from
such places.

ray, charged with cutting Thomas

EQUITY COURT.

Turner, an infant, an application for
the appointment of the father as guar-
dian was made, but as the rules of
procedure had not been followed the
motion was refused.

In re Vanwart, an application made
by D. McL. Vince to have his ac-
counts as trustee under a deed of as-
signment made to him by James A.
Vanwart allowed and passed, for an
order for a commission as a remunera-
tion of his services. There being no
statute or precedent for such an order
the judge refused the motion as to the
accounts. A commission of 1 per cent.
was allowed for his services.

In re Abell, an application to have
J. R. Armstrong, K. C., declared dis-
qualified to act as arbitrator between
City of St. John and William Abell to

water from their dam to flow over
plaintiff's property at Upper Falls. Dam,
and place flood gate in proper po-
sition, and a claim for damages result-
ing from a flood in 1891, caused by a
freshet. As to damages, Judge Barker
held that the plaintiff had a remedy
at law. As to the injunction the plain-
tiff did not show that the plaintiff
had received any damage since the
dam was repaired in 1891, nor was
there reason for apprehending great
damage. Bill dismissed with cost.

In Delbury v. Delbury, and C. J. Coater
and Irene M. Simonds, as trustees

ment in trust made by her to them.

Delbury to improve wharf property
was reserved pending settlement. D.
Mullin, K. C., and A. A. Stockton, K.
C., for plaintiff; C. J. Coater, K. C.,
for defendant.

POLICE COURT.

On the 21st of July Thomas O'Brien
was given in charge by his father for
being drunk, breaking furniture, re-
sisting the police and assaulting his
mother. After a lecture from the mag-
istrate he was sentenced to a fine of
one hundred dollars or a year in jail,
and the magistrate said that he would
be out of the way for some time. A
few days ago, after serving four weeks,
O'Brien paid fifty dollars and was re-
leased. Yesterday he used obscene
and filthy language on the Carleton
candy floats, with the result that a
number of ladies and today was fined eight
dollars or two months.

He was not the only prisoner on the
bench. Frank O'Neill had taken two
punches and was charged with being
drunk. He was fined, for delin-
quency, paid it, and hurriedly left,
presumably to appear in the county
court a few minutes later.
Charles McCracken used abusive
and insulting language to a woman
who lives near him and this morning
pleaded guilty to the charge. He had
also threatened to do bodily harm, but
this charge was not pressed, and he
was fined eight dollars and two months.
Steve Brodie, not the famous Steve
—raised cane in the Seaman's mission
yesterday by toying with the seat at
a chair. Incidentally he managed to
break a door, and this morning the
charge was called off when Steve pro-
mised to pay the carpenter's bill.
Thomas Conboy, an "uninteresting
drunk from Sheffield street, was given
eight dollars or ten days.

Blood Alley Billy Burr appeared on
the charge of using insulting language
to his sister-in-law. She would not
mind him calling her names if he could
prove them, but she disliked being in-
sulted. The magistrate explained that
the fact of Billy using those names to
her did not make them true and she
went away quite satisfied. Billy, with
a broad smile announced to the court
his approaching marriage, which hap-
py event is to take place in two weeks.

A HORSE THAT CAN TRAVEL.

There was an interesting race from
the che-mite house to Rothesay last
evening. C. T. Gillespie was driving
out in his carriage, and at the one-mile
house was on even terms with the
Susex train. He raced the train to
Rothesay and got there first. Of
course the train made the usual stop,
but was running at her ordinary rate
of speed, and the fact that Mr. Gilles-
pie reached Rothesay before her was
much commended by the passengers,
who to-
rect in the race.
The distance of
about twenty-five miles,
utes, and it is said won a wager on the
race. He got a great reception on his
arrival at Rothesay. Everybody on
the train watched eagerly as every
stage of the journey for a glimpse of
the white horse that was speeding
along, now behind, now ahead of them,
now on even terms, and finally a win-
ner by a good margin.

A RUNAWAY.

At half past eight last evening a
horse, owned by Robert L. Ross, and
driven by Thomas Gaines, took fright
at a street car at the head of King
street and ran away. Gaines was
thrown from the wagon, but beyond
a few scratches on the face was not
severely injured. While the horse was
running along Charlotte street, Mas-
sey's team, colored cow black, was
struck by the wagon. The horse ran
up Coburg street, along Carleton, down
North, along Mill, up Main and out
Douglas avenue, to the bridge, where
it was caught. The wagon was bro-
ken to fragments.

NEW SALVAGE CORPS WAGON.

The new salvage corps wagon, built
by James R. Andrews, was yesterday
morning examined and passed by
Director Wisely. Last evening it was
handed over to the corps. It is a very
smooth running wagon and makes
practically no noise. The body part is
hardly jarred by rough roads on ac-
count of the solid rubber tires with
which the wheels are fitted.

THE CLAM BAKE.

Local and Western Newspaper Folk
at McLaren's Beach Yesterday.

During their western trip the mem-
bers of the Canadian Press Association
have been entertained in a variety of
ways. But until yesterday afternoon
they had not met the original clam
bake in its native haunts. Last night
they were able to say, "We have met
the enemy and it is ours."

A special Shore line train took the
party to within a very short distance
of McLaren's beach, where for about
two hours Caterer Jackson had been
working over that clam bake. But
before testing the results of his labors,
which then lay in a sea weed covered
heap, whose odor of cooking clams,
chickens and potatoes and corn had
the ambrosia of the gods beaten from
the start, the party wandered about
and a large number took the oppor-
tunity to have a dip in the salt water.

In the early evening the wanderers
were called together, the clam bake
was unveiled in silence, and the party
sat around it on logs and stones, and
on the sand. Local press men acted
as waiters, and they were assisted by
Mayo Daniel, W. S. Fisher and others.
A claim in the main, the party sat
if one has had no practice, and the visi-
tors realized the truth of this. They
started out somewhat timidly, and with
close shut eyes swallowed the first
clam as it lay smothered in melted
butter. Their eyes were opened then
and every sense was on the alert to
assist in the enjoyment of that meal.

In time the repast was over, and A.
G. P. McDonald, of Alexandria, Dan.
McGillivray, of Fredericton, and Mayo
Daniel spoke briefly to the assembled
company. The visitors seemed to have
enjoyed themselves and they said so.

The party again broke up into
groups. One crowd got into a hay
field that had the appearance of a
pasture. The after grass may come
on it some time in the dim and distant
future, but the lady who owns that
field has hopes. May they be realized.
Anyhow an attempt to play ball there
resulted in editors, managers, sporting
editors, religious editors and ordinary
reporters hearing things about them-
selves. The ball got lost later on and
as darkness gathered, the crowd came
together and while waiting for the
train sang wailing melodies. No one
was hurt. About half past eight the
party reached the city, after a most
enjoyable day. This morning the mem-
bers of the association left for Freder-
icton by steamer, followed by the
best wishes of the many friends they
made here.
