FISHERMAN RESCUED AFTER  
14 DAYS OF STARVATION.

One of the Crew of the French  
Schooner Mimesa Picked  
Up Off Sable Island—His  
Companion Drowned—The  
Man Was Almost Dead  
From Weakness

NEW YORK, June 13—Rescued after almost dead from hunger and exposure after being fourteen days in a dory, Louis Vollet, thirty-three years old, a fisherman from the schooner Mimesa, of St. Malo, France, was brought into port yesterday on the Carmania, of the Cunard line, in from Liverpool.

Vollet was just able to sit up for a few moments in the ship's hospital yesterday. His mind, almost wrecked by his terrible experience, fails him at times and he was unable to remember the name of his mate in the dory, who was swept overboard during the storm that drove them far from the schooner.

To the passengers of the steamship the rescue of Vollet was a thrilling spectacle, occurring early last Monday morning, when the Carmania was in latitude 41 degrees, 36 minutes north, longitude 54 degrees, 48 minutes west, or about 320 miles southeast of Sable Island. Just as the lookout had sighted off to the north what appeared to be a log.

Captain Warr ordered the course of the vessel changed and ran down to the bobbing object, which gradually took on the lines of a fisherman's dory, with a man huddled on the forward thwart.

Captain Warr stopped the turbines of the ship as the dory was under its lee, and then Vollet lifted his head feebly and attempted to pull on his only remaining life-line, a few feet of slimy rope, and he nearly toppled from his seat. One of the passengers, seeing this movement, started to jump overboard, fearing that at the last moment Vollet would lose his life. Vollet looked back on the thwart, and as he did James Breen, a seaman on the Carmania, jumped from a lower open port into the dory.

By this time ropes were being thrown from the decks of the liner. Two other seamen followed Breen into the boat, until Captain Warr shouted for the volunteers to desist, as there was danger of swamping the tiny craft. Momentarily in danger of having the dory crushed against the side of the ship, Breen fastened one of the ropes to the arms of the fisherman. When Vollet was drawn on deck Dr. Poynton, the ship's surgeon, at once applied restoratives.

For hours Vollet did not regain consciousness. When he did he told his story.

Fifteen days before—he had kept track of the passing days by cutting notches on the gunwale of the dory—he and his companion had left the Mimesa on the Grand Banks to set their trawls miles away from the schooner. On board of the dory were food and water for two days for the two men. During the day a fog set in, followed by a raging gale, and the men were unable to pull back on the position of their vessel and during the night the dory was almost capsized and Vollet's mate went overboard. He could neither see nor rescue him during the storm and for three days was driven before the fury of the gale.

After the seventh day Vollet's store of biscuit was gone and the only water was that saved from the fall of the snow and rain in the bottom of the dory. In the agony of his hunger Vollet gnawed at pieces of tarred rope until at last he became semi-conscious. Although he said that he could see that the Carmania was coming to his rescue he was too weak to make any signal.

HAMPTON PRISONER  
CHARGED WITH ABDUCTION

A Case in Which a Tragedy Was narrowly  
Averted—An Angry Father and  
a Thoughtless Girl

HAMPTON, N. B., June 14—This morning in the county court of Kings County under the Speedy Trials Act, before His Honor Judge Wedderburn, Donald Kennedy, a prisoner confined in the county goal in an indictment charged with abducting, on June 1st, last, Estie Boone, the 15 year old daughter of Fred Boone, at her home at Norton, pleaded not guilty. Five witnesses, Fred Boone and Estie Boone testified to the facts of the latter going with the accused for a walk arranged before by Kennedy. They finally walked up the Millstream Road toward Berwick and sat down on the steps of the Baptist Church where they were found by the girl's father, who, having released his daughter, made enquiries and following these up, learned of her having been seen with the accused, secured a warrant for his arrest and accompanied by a constable started out by team in pursuit. Boone said he was armed with a loaded revolver which he produced and would have used if both the accused and his daughter had not sworn that Kennedy had not criminally assaulted the girl.

She had been ordered to have nothing to say to this man and she had told him so, but continued to see him from time to time up to his arrest. It had been rumored that Kennedy was a married man whose home was at Sackville but she believed him when he said he was unmarried. They started out between seven and eight on the morning of June 1st, and after walking many miles between her home and Sussex and return, were overtaken between five and six in the afternoon.

SUPREME COURT.

FREDERICTON, June 14—The Supreme Court delivered a number of important judgments this morning. The judges present included the Chief Justice and Justices Hanington, McLeod and Landry. There was a large attendance of the legal fraternity.

The case of *St. John and wife v. Cromer*, the defendant had been convicted of violation of the Scott Act and sentenced to one month jail. The case was made to quiet the confusion on the ground that it was made on Easter Monday, a statutory holiday. The Chief Justice delivered the decision of the court, refusing the application and sustaining the conviction.

Robert Chittick v. the city of Saint John. The case tried before Judge McLeod without a jury. St. John and wife v. Cromer. The damages were assessed at \$250. The defendant moved to set aside the decision as being excessive. The court upheld Judge McLeod's finding and refused the application.

The case of *St. John v. the company* brought an action against Lynch to recover for a bonus which they allowed him to pay on a contract for driving logs. The contract was verbal and the evidence was contradictory as to its existence. Judge Gregory instructed the jury they could find on the question, but if such a contract existed the verdict must be for the defendant, as contract would be ultra vires. A verdict for the defendant under these instructions was given, and the plaintiff asked it set aside on the ground of misdirection. The court held that Judge Gregory's instructions were correct, that such a contract would be ultra vires, and the verdict must stand. New trial refused, Hanington dissenting.

South West Miramichi Log Driving Company v. Lynch. The company brought an action against Lynch to recover for a bonus which they allowed him to pay on a contract for driving logs. The contract was verbal and the evidence was contradictory as to its existence. Judge Gregory instructed the jury they could find on the question, but if such a contract existed the verdict must be for the defendant, as contract would be ultra vires. A verdict for the defendant under these instructions was given, and the plaintiff asked it set aside on the ground of misdirection. The court held that Judge Gregory's instructions were correct, that such a contract would be ultra vires, and the verdict must stand. New trial refused, Hanington dissenting.

Kennedy Island Milling Co. v. St. John Lumber Co. This was tried before Judge McLeod, without a jury and a verdict rendered for the plaintiff for \$1,356. Motion made for a new trial. Court upheld Judge McLeod's finding that it was not against the weight of evidence. New trial refused.

The chief justice stated that this completed all the cases that were argued before the court up to date, and that in the record of the court, notwithstanding some very judicious remarks that were made at the last session of the legislature and which were directed upon the bench.

NORTH SHORE DESPERADO  
KILLED BY A CONSTABLE.

EVIDENCE IN SUPPORT  
OF ORCHARD'S STORY

Is Now Being Offered in the  
Idaho Trial

Detective McPartland Made No Promises in  
Obtaining the Confession—Will  
Hurry on the Trial.

BOISE, Idaho, June 14—Additional evidence bearing on the story told by Orchard, of San Francisco, will be introduced by the State today. Laurence Gubbi, the proprietor of the store near the Bradley home is the first witness. It was here Orchard says he made his rendezvous when he was watching the Bradley building. Gubbi is an Italian. He is a small man, quick and intelligent. Orchard or Barry as he called himself when he frequented the Gubbi store, made himself very popular with the family. It was the proprietor who went out and secured the room opposite the Bradley house from which Orchard said he could look into the exact knowledge which enabled him to plant the bomb at the right time. It is unlikely that the State will be able to conclude the San Francisco testimony today because two witnesses are on their way from California and will not be here in time. One of these is a woman from whom Orchard rented a room while in San Francisco.

At the course of his cross-examination Orchard said he had received a registered letter containing \$100 from Petitioner. One of the witnesses to be called today is the registry clerk and it is possible that the tracing of the letter will be a strong piece of evidence.

A witness now on the way is said to be the man who sold the powder with which Orchard made the bomb. Being unable to conclude corroboration of the California part of Orchard's story the State will take up some of the minor witnesses. It is believed that Steve Williams will be located in Ogden by some of these but after the San Francisco matter is temporarily passed the evidence will then be of no great importance for the rest of the week. It is possible that Judge Wood will adjourn court over Saturday but as the State is under great expense in the matter of witnesses it is more probable that a session will be held on Saturday in order to dispose of those who are not of first importance in the link of the case.

When the court does adjourn tonight or Saturday it will be until Monday afternoon or Tuesday morning as Judge Wood will have to hold court on Monday morning at Caldwell. The case of Harry Orchard charged with the murder of Frank Steenberg will be called in Caldwell and will be postponed until the next term. Orchard reached the climax of his testimony yesterday. Warden Whitney said his prisoner appeared to be in better spirits than he had before for many months. His shows not the slightest evidence of fatigue or nervousness and ate a hearty meal after he reached the penitentiary.

Capt. James McPartland, the famous detective, who has figured so largely in the testimony and who has been attacked by the counsel for the defense, prefers not to be interviewed at length on the subject of the Orchard confession. "It would be superfluous for me to reiterate," he said yesterday. "Orchard has told the literal truth about his confession and the way it was given to me. I made him no promises. I never made a promise to a criminal in my life. Orchard first confessed to me but said he was quite ready to give it to me finally. I promised to hold it for some time and did so. He told me that when he was ready to tell the whole story that he would let me know and some time later he again told me the incidents of his life. Leaving out nothing, every word that he said on the stand as to the confession is the truth and there is nothing to add."

The state expects to close its case in ten days or two weeks. Clarence Darlow, for the defense, says their case will take about four weeks though it is possible it may be concluded in less. It is generally conceded, however, that the verdict will not be reached before August 1st.

Three Men Attempted Highway  
Robbery, and Resisted  
Arrest—Peter Fountainina,  
While Trying to Overpower  
Officer Sealy Was Acci-  
dently Shot Through Body

MONCTON, N. B., June 14—Yesterday Mr. Boyle of Dalhousie while driving with his wife and child were attacked at Dalhousie by three men. They gave Mr. Boyle a severe beating.

Officer Sealy of Dalhousie started last night to arrest the men. Officer Sealy went to the house and found the men. They resisted him, one threatening him with an axe. The officer and one of the men, Peter Fountainina by name, clinched. The revolver which the officer held in his hand was accidentally discharged, the shot passing through the body of Peter Fountainina. Although fatally wounded the man broke away and went around the house and went up stairs pursued by the officer. They clinched at the head of the stairs and came tumbling down. By this time the constables had arrived, and between them they put the handcuffs on the prisoner. Fountainina died a few hours later. An inquest will be held tomorrow. The other two men made their escape to the woods, and up to the time of writing have not been captured.

TWO DAUGHTERS DEAD;  
ONE SERIOUSLY ILL

Double Bereavement in the Family of  
William Stanley—Sisters Died Within  
a Few Hours of Each Other.

The family of Wm. Stanley, of Elm street, has suffered a double bereavement during the past two days. On June 11th two of Mr. Stanley's daughters, Annie and Sarah, were taken away with the measles. Sarah's case was the most serious and she was sent to the hospital. Shortly after arriving there pneumonia set in and her condition became dangerous. Annie's illness grew worse and she too was sent to the hospital. Pneumonia set in in her case as well and she died yesterday.

The funeral was held yesterday afternoon and the members of the family had scarcely returned from burying the little one when word came that Sarah was not expected to live. All through the night the family awaited news and this morning they were told that Sarah had passed away. Annie, who died yesterday, was nine years and five months old, and Sarah was twenty-one years of age. The sorrow attending these deaths was great indeed but the family may be called upon to mourn another mourning for a long time for the mother, Annie, who died yesterday, is quite ill at her home with the disease. These are the first deaths to occur for a long time from the measles and the board of health authorities state that there are quite a number of cases in the city. The two Stanley girls are survived by their parents, three sisters and five brothers. Miss Sarah's funeral will take place tomorrow afternoon from the hospital.

STRAIT SHORE HOUSE  
WAS BADLY DAMAGED

Fred Logan's Place on Fire This Morning  
—The Upper Portion Destroyed

At 11:30 o'clock this morning fire was discovered on the roof of Fred Logan's house on Strait Shore Road. The building is a two story structure and the fire caught around the chimney. In a few minutes after being discovered the flames had gained considerable headway on the dry shingle roof. An alarm was sounded from box 134 and the northern division were soon on the scene. Neighbors and men from the Rolling Mills assisted in removing most of the furniture and the Salvage Corps with their rubber covers prevented much damage to what was left in the house. The fire was confined to the roof which is badly damaged and a great deal of damage is done by water.

Mr. Logan has \$300 insurance on the house and \$100 on his furniture, both policies being with the Hartford Co., Geo. E. Fairweather & Son, agents. At the time the fire was discovered Mr. Logan, who is a fisherman, had been away from home only about a quarter of an hour and had hardly started to fish in the harbor when his attention was attracted to his house on fire.

HALIFAX, June 14.—Walter Hobbs, a brakeman on the Halifax and Southwestern Railway, was instantly killed at Liverpool last night, being struck by the engine. He was 23 years old.

The fire recently held by Police Magistrate R. J. Ritchie is being resumed in the police court this afternoon.

FIRE DEPT.: WATER WORKS.
Galveston's Fire Department is be-
yond question the most efficient in the
state. The insurance record will show
the percentage of loss in Galveston is
less than any other city in the south,
and especially in seaports where the
breeze from all sides is unbroken by
hills or trees.

The commissioner of streets and pub-
lic property is very devoted to the de-
partment under his care. He is in no
sense a politician.

The commissioner of waterworks and
sewerage is an active partner in the
large wholesale establishment; which
requires his constant attention.

The City of Galveston owns its own
waterworks, which cost \$1,500,000; also
owns its own sewer plant. Being a thor-
oughly progressive citizen and one who
has always taken an active interest in
the welfare of Galveston, the commis-

The commissioner of streets and pub-
lic property is a real estate agent and
an active, patriotic and intelligent
young man. No longer a keeper of
drives and politicians permitted to

The city health physician has ren-
dered the city efficient service and is
very devoted to his department and the
welfare of the community. The streets
and general sanitary conditions of the
city are better today than ever in its
history.

The city is getting better set-
tled from all of its employees and the
men in the employ of the city seem
perfectly satisfied.

LIKE A BUSINESS OFFICE.
The city hall is run like a large busi-
ness establishment, and is no longer the
haunting place of idlers and politicians.

The special annual vehicle tax origina-
ted by the present commissioner is being
collected and set apart for the exclusive
use of street paving. In Galveston the
city itself pays the entire expense of
street paving; the abutting property
owner pays no part.

The interest from the police depart-
ment and from the waterworks and
sewerage departments is greater at this
time than ever before. The collection of
occupation and other taxes receives
very careful attention.

No department of the city can incur
any debt without first having obtained
authority at a regular meeting of the
board. No contract where the amount
to be expended exceeds \$500 can be let
without first advertising.

The board of commissioners meets
every Thursday afternoon at 6 o'clock
and has special meetings whenever ne-
cessary. It also holds conferences in
the office of the city attorney whenever
it is deemed advisable.

All applications for franchises must
be presented and then advertised for
a period of ten days before any action
can be had. All petitions from citizens
either receive immediate attention or
are referred to the commissioner of the
proper department for investigation
and report.

The levels of the various departments
are freely consulted in regard to mat-
ters presented to the board, and with
this end in view the heads of all depart-
ments are required to attend each
weekly session.

NEWSPAPER CAMPAIGN
WIPES OUT AN EVIL.

BOSTON, Mass., June 13--The anti-
bucket shop bill which originated in
the Massachusetts legislature as a re-
sult of a local paper's fight to close
out bucket shops in Boston, and was
fostered in the house by Representa-
tives J. J. Higgins, of Somerville, and
in the Senate by James H. Vahby, of
Watertown, becomes a law at midnight
tonight, by virtue of the statute which
provides that all bills carrying a pen-
alty, unless otherwise provided, be-
come a law thirty days after enact-
ment.

As a result thirty or forty so-called
bucket shops in Boston with their var-
ious branches throughout the state to-
day closed up their business entirely
or moved outside the state.

The closing of the bucket shops in Boston
will throw half a hundred thousand
operators, as well as a large number of
clerks and boys, out of employment,
but many of these have found places
in other local offices and in other
states.

AUBURN, Me., June 13--The body of
Onesime Olivier, aged 23 and married,
of Lewiston, was found tonight in the
Little Androscoggin River just above
the dam at the Barker Mills. His hat
and coat on the bank of the river led
to the discovery. Olivier had been
missing from his home since Wednes-
day night. It is thought to be a case
of suicide, although nothing to cause
such an act has been learned.

"HOCH DER KAISER!"

Rear Admiral Coughlan, of the United States Navy, who has just returned, will be chiefly remembered because he recited "Hoch der Kaiser!" at a dinner at the Union League Club a couple of years ago, and almost created international complications by doing so. The verses are as follows:—

ONE BODY FROM THE MISSING LAUNCH FOUND

Naval Officials Now Conducting an Investigation Into the Disaster.

NORFOLK, Va., June 12.—The body of Coxswain Robert H. Dobson, of the battleship Minnesota's ill-fated launch, which, with its eleven occupants, six midshipmen and five seamen went to the bottom of Hampton Roads in the darkness of Tuesday night, was found floating in the Roads today and tonight reports were circulated but almost immediately denied that the other bodies had been recovered.

It was learned here today that Commodore William H. Evans' yacht, the Chilhowee, with a party of Baltimoreans, was anchored off the exposition grounds and according to members of the party, cries of the drowning midshipman and sailors were heard coming over the water, though the party at that time believed that the noises were made by sublimated parties returning from the army and navy ball.

United States supervising inspector of steam vessels Ulmer, arrived from Washington today and in company with Colonel Edwards, supervising inspector for this district, proceeded to Old Point to investigate the loss of the battleship Minnesota's launch.

THE STAR, ST. JOHN, N. B. FRIDAY, JUNE 14, 1907.

Try one of these 5c. Dinners

of Clark's Pork and Beans. Because there is more strength and energy in the grade of Beans that Clark uses than prime Canadian Beef even. And that is why

Clark's Pork and Beans

is the most economical as well as the best food for the worker and for growing children.

But to make that energy and strength your own the beans must be properly cooked, and here is just where Clark's Pork and Beans excel, "just done to a turn" with a piece of fine farmed pork—ready to eat.

And into every 5c. tin is put ample of this strength giving appetizing combination for a good dinner for one grown man.

Now, Clark's Pork and Beans are the best of their kind, therefore insist on getting them. Refuse all substitutes. Substitutes pay a larger profit to the dealer, cost less to make and therefore cannot be so good.

Make your dealer supply you with Clark's Pork and Beans every time.

McBRIDE MAKES VIGOROUS PROTESTS TO COLONIAL OFFICE

Bill to Amend British North America Act Given First Reading in Commons

LONDON, June 13.—Winston Churchill, as under secretary for the colonies, brought up in the House of Commons this afternoon the bill amending the British North America Act respecting the federal subsidies to the provinces.

It is understood the bill gives legislative sanction to the compact made last October in Ottawa between the federal and all the provincial ministers except British Columbia, under which the provinces are to receive increased per capita subsidies.

Mr. McBride, premier of British Columbia, who is still here, has made vigorous representations to the Colonial Office against what he deems the inadequate sum given to British Columbia. The Colonial Office takes the view that the question is one which British Columbia must herself settle with the Dominion, but the Imperial bill to be introduced today makes an important concession to British Columbia in eliminating from the Dominion government's proposed amendments.

PRESBYTERIAN ASSEMBLY ADJOURNED; WILL MEET NEXT YEAR IN WINNIPEG

MONTREAL, June 13.—Dr. John Somerville, has been elected general treasurer of the Presbyterian Church, Western Section.

This action was taken by the Assembly in accordance with the report of the committee on the treasurer's duties. Dr. Somerville's salary was made \$3,600.

Dr. Wardlaw Taylor, of British Columbia, warned the Assembly to be careful how it interfered in the committee on the treasurer's duties in which each province differed in points.

The moderator pointed out that the Presbyteries had now authority to give these powers to their divinity students, but Dr. Patrick declared this was too narrow.

Dr. Sedgewick urged caution in a fundamental manner and raised the issue whether it depart from Presbyterian doctrine in making provision for revocation of these powers.

The board of trustees which is in control of the general finances of the church was appointed as follows: Robert Kilgour, Toronto; James Rogers, Montreal; Lieut. Gov. W. M. Clark; Messrs. H. Cassels, J. K. Macdonald, Jos. Henderson, Toronto, and the treasurer Rev. Dr. Somerville, Toronto.

At the afternoon session discussion which arose at morning session in reference to the status of student catechists in charge of the frontier missions, and after some further discussion to administer the sacraments or to perform the ceremony of marriage was resumed, and after some further discussion the following motion was adopted on motion of Principal Patrick:

"It shall be competent for the Presbytery to ordain a catechist or a student for work under the home mission committee, but those ordained shall not possess full ministerial status or be eligible for a call." A good portion of the assembly during the summer.

The discussion with the respective duties of the church treasurer and the financial agent of the church, which was submitted to assembly that two

PLAYGROUNDS WILL BE OPENED JULY 3

Decided to Add Physical Instruction to Last Year's Features—May Use Victoria Grounds—Ton.

Yesterday afternoon the public playground committee met to appoint the teachers who will take charge of the playgrounds during the summer.

Those present were: the convenor, Miss Peters; Dr. Margaret Parks, Mrs. Chisholm (secretary); Mrs. Edwards; Mrs. Miss Leavitt; A. M. Belding and Mrs. D. McClelland.

After some discussion the salaries to be paid the teachers were fixed and the teachers wanted decided upon. The willingness of those teachers to accept the salaries will determine the appointments. Several applications were made for the positions.

Miss Peters reported that she had visited the Victoria grounds offered to the association by the Every Day Club. The grounds were found to be well suited for the desired purpose and although not fitted up, may be used as a playground.

A communication was received from the School Board giving the formal permission of the board for the use of the playgrounds of the Centennial and Winter street schools as public playgrounds. It is the intention to open the grounds to the children on the third of July. In addition to the features of last year there will be physical instruction by competent teachers.

It was also decided to ask the local papers to open subscription lists for the public playground fund. The committee will make arrangements concerning the lists.

Dr. Margaret Parks was appointed treasurer in place of Miss Leavitt, who resigned.

See Coney Island at the Nickel

Vivacious boarding school girls in all the abandon and care freedom of a holiday outing at Coney Island is the chief picture at the Nickel for the remainder of the week and in the vernacular of the boys who prefer to sit next the ceiling "like a corker." For 800 feet of film—about ten minutes the onlookers are plotted around the great New York fun centre, while the giddy girls have a "try" at every attraction: the shoot-the-chutes, the Ferris Wheel, etc., while their prim, prudish chaperons protest most amusingly. The other pictures Between Two Fires and An Exciting Honeymoon are good smile producers.

In fact the show is a thoroughly enjoyable one from start to finish, and the Illustrated Song Cheer Up, Merry rounds out a great big five-cent's worth of clean, up-to-date entertainment.

MUST HAVE CLEAN BILL OF HEALTH

Bubonic Plague Scare at Trinidad Causes Pickford & Black to Consult St. John's Port Physician

It has been reported that the bubonic plague has broken out in Trinidad and the local representatives of the Pickford and Black Steamship Co. have asked Dr. Scammell, acting port physician, that action he would take in case a steamer coming from that port were to arrive in St. John.

When seen by the Sun last evening, Dr. Scammell said that if the vessel arrived at quarantine here with a clean bill of health from Trinidad and there was no sickness on board, it would not be quarantined. But if the report is correct that the plague has broken out in Trinidad, the doctor said that steamers visiting there would have to remain till the quarantine was relaxed.

When the Orinoco was last at Trinidad there had been several cases of yellow fever in the port, but the danger from infection had been removed. No cargo was taken on board the vessel, and it did not dock at the wharf there.

The Orinoco will sail from Halifax on Saturday for Trinidad.

THE VICTORIAN LANDS MAILED AT NORTH SYDNEY

NORTH SYDNEY, June 13.—With weather that was ideal, the Allan Line Victorian landed mails off North Sydney, and barring a little delay owing to Captain MacNicol, of the Victorian, failing to come further up the harbor the test again fully demonstrated the advantage of this port as a port of call. Out of her 1,200 passengers who left Liverpool on Friday last there were fourteen for North Sydney, twelve of whom were saloon and two steerage.

The Government steamer Montclair alongside the Victorian, and at twenty-five minutes past two o'clock the platform was lowered from the Victorian on to the deck of the Government steamer. The work of transferring the mails, which was the largest ever landed in Nova Scotia, barring the Christmas mails, took exactly one hour, including the handling of baggage and debarkation of the fourteen passengers.

The total amount of mail matter was 885 bags and 28 baskets. Fifteen for Nova Scotia, thirty-two for New Brunswick, five for P. E. Island and twenty-five for Newfoundland. Winnipeg alone had 238 bags.

Saloon passengers who landed at North Sydney included Lady Weatherbe, Dr. Emilio Weatherbe, James H. Plummer, president of the Dominion Iron & Steel Company, and Miss Mary

STEAMER UNIVERSE IS FLOATED AGAIN

CANSO, N. S., June 13.—The Norwegian steamer Universe, which was ashore at Seal Cove, near Whitehead, was successfully floated today by three Halifax tugs and divers. The steamer was afterwards beached on a sandy bottom.

The repairs will be made after which she will be taken to the dry dock at Halifax. The steamer had been abandoned by the underwriters as a total wreck.

The Universe, Captain Donvic, sailed from New York on April 21 last in ballast, for Louburg, C. B., and during thick fog on April 24 she struck on the ledge at Seal Cove and remained fast. She registers 1,634 tons net and 2,555 tons gross, and was built at Sunderland in 1888. She is built of steel and has five bulkheads. Her bottom is badly damaged.

As usual, those that were "almost landed" or slipped through the raft all weighed two pounds or more.

The promised increase in the water pressure has not yet arrived, which makes two false hopes given out by the waterworks department of late. People living on the higher levels, and those who reside in second and third stories are yet without an adequate supply, which state of affairs has been going on for a month. While it is generally agreed that repairs must be made, it is nevertheless difficult to figure why the work is not proceeded with more expeditiously in view of the untold inconvenience to which hundreds of ratepayers are being put.

C. H. J. Knapp who has been in St. Stephen for the past two weeks returned here on Friday. He has some idea of spending the fishing season in Newfoundland as the P. Phillip Pool which he had for the past two seasons has been sold to a wealthy American who also bought the farm paying the understand about \$5,000, the property a few years ago being bought by Phillip for \$100, and only a few hundred dollars being expended on it by him since—Victoria County News.

### PRESENTATION

At the regular meeting of Sapphire Rebekah Lodge, in the Calvary Hall, North End, last evening, a pleasing incident took place. The lodge opened in due form and after routine business, closed to receive the speaker as an open meeting. H. E. Codner took the chair and a programme of songs, readings and speeches was given through. During the evening Mr. Codner, on behalf of the lodge, presented to Mrs. Frank Alward a very nice leather travelling companion, accompanying the gift with a short address, in which he expressed the esteem in which Mrs. Alward is held by the lodge and other friends. Mrs. Alward responded briefly. She leaves on Tuesday evening for Calgary to join her husband who has been residing there for some little time. After the presentation, refreshments were served. Those present included a number of Oddfellows from the city and Carleton.

### POLICE COURT.

Three drunks faced the police magistrate this morning and each was asked to pay \$5 or go to jail for two months. There was not eight dollars among the trio so all went to jail. One of the number, Michael Kelly, only got out of jail Tuesday and last night was the cause of a large crowd assembling on Brittain street. He refused to go home when asked by Policeman Bowser, but used bad language. The magistrate told Kelly that had better give up rum or the lunatic asylum or alias house if he continued at the rate he is going. The man Wilson arrested for receiving stolen goods from the McClary. Mr. Company's warehouse knowing it to be stolen was brought before the court. E. E. Ritchie appeared in his defence and as Dr. A. W. Macrae, the prosecuting attorney is absent from the city, Wilson was remanded to jail. The case will be taken up at nine o'clock tomorrow morning.

It will be remembered that when Wm. Mahoney was arrested on the charge of stealing from the McClary Company the first stolen stove recovered was found in Wilson's house on the corner of City Road and Delhi streets.

### SHIPWRECKED BOXER RILEY TALKS FIGHT

Tell the Star About His Meeting With Eddie Connelly

His Ups and Downs With Other Aspirants for Fistic Laurels—Will Get Back to New York Quickly, and Go Into the Game Again.

Young Riley, James Francis Riley, to be explicit—one of the shipwrecked crew of the schooner Alma, which was towed into port from Gooseberry Cove yesterday, is rather disappointed with the treatment he received from the American Consul here. The consul wants him to re-ship on a vessel in order to get back to the States, but Riley is desirous of hurrying right through to Boston, thence to New York. As already announced in this paper Riley is a boxer of some eastern repute. He claims to have bested our own Eddie Connelly at one stage of his career, though the "go" was only a three-round curtain raiser. The last fight in which the sailor-boxer participated was during last December when he met and was bested by Austin Rice, the "iron man," at Deepwater, Conn. Last year he boxed a draw with Kid Sullivan in Washington, but shortly before that Young Griffin put Riley out at the Knights of Columbus Fair in New Haven.

However, when it comes to enumerating clear sheer wins, bouts that left no doubt as to the better man, the names of the following aspirants are on Riley's card: Jack Lowrey, Tom Daley, Charlie Seliger, all of New York; Andy Daley, and Joe Butler, of Boston, and others.

Riley says that Eddie Connelly is now in Cleveland, though others state that he is engaged in business on Atlantic Avenue, Boston.

As soon as he gets back to Gotham the shipwrecked sailor will start in tuning up for the fall boxing campaign. He fights at 135 to 145 lbs, which places him in the lightweight class, and has no notion of retiring from the roped platform. Riley is a well-built, agile, quick and looks if he could put up a pretty convincing fistic argument.

### HARRY McCLASKEY HEARS HIMSELF SING

It was quite interesting to a group of talking machine enthusiasts yesterday to be present at a private recital in one of the dealer's offices when Harry McClaskey was present. St. John singer is one of the most popular artists in the world with the phonograph, graphophone and gramophone public, and under the pseudonym "Henry Burr" and "Irving Gillette" renders hundreds of sentimental songs, sacred solos, and patriotic ditties in quartette records. In fact no vocalist on the list of the talking machine companies is in greater demand than Harry McClaskey, and he is only down east here, and by those on the inside, that Mr. McClaskey known by his true name. In listening to the pieces played, several of which were his own, the genial Harry was particularly pleased with the rendering of Kipling's "Danny Deever," as sung to a wondrous and dramatic arrangement of the great British baritone, David Bingham. About his own records Mr. McClaskey was very modest.

### HARRY ALLBRIGHT'S NEW JOB.

Harry Allbright, the well-known scenic photographer, leaves again tonight for Portland, Me., which city is now his headquarters. Mr. Allbright arrived home from Florida a few days ago where he had been all winter taking pictures of tropical scenery for the Hugh C. Leighton Co., of Portland, Me., and Frankfort-on-Maine, Germany, the largest picture postal card concern in the world. The ex-St. John man says his sojourn down south was one of absorbing interest, warm weather and lots of work. He has a working commission, and may see much of America before long.

Mr. Somerville is survived by his wife, four sons and four daughters, also by two brothers, William, Codys, Queens Co., and Thomas, Houlton, Maine. Burial was at Belleisle Point.

### ENQUIRY UNDER OATH MAY BE THE RESULT

Ald. Baxter Talks of Asking an Investigation—Mr. Mayes Thinks of Taking Action.

In another letter which was published in the Telegraph this morning, R. H. Cushing re-asserts that the charges which he made against Mr. G. S. Mayes are true. In his first letter he stated that Mr. Mayes had threatened to ruin him. This was vigorously denied, and in reply to the denial Mr. Cushing repeats his former charge. He also makes some reference to Mr. Baxter's policy in the common council.

As a result of this, it is altogether probable that Mr. Mayes will take action against Mr. Cushing for libel, while Ald. Baxter, the Star understands, will ask of the common council that an investigation under oath be held into the charges made. Ald. Baxter is in Sackville today, but will return this afternoon and may make some different statement.
