We don't ask you to encourage
home industry—we ask you to see
the quality of goods we manufacture
and get our quotations. Goods man-
ufactured by us are considered High-
Grade in the leading cities of Canada.
Foreign woods imported direct from
the south.

MAIL ORDERS
We solicit out of town orders, which receive
our personal attention. The length of time tak-
ing to fill orders is governed very largely by how
"expensive" we are in the department of our factory in
which the particular goods are made. While
we have exceptional facilities for promptly
turning out goods, it is important to place or-
ders as far ahead as possible. Orders are filled
by us in the rotation in which they are received,
and customers can always depend on our doing
everything in reason to give prompt despatch.

THE SECOND ANNIVERSARY OF THE FIRE WHICH DESTROYED CAMPBELLTON JULY 11

HOW THE TOWN HAS PROGRESSED IN TWO YEARS SINCE THAT GREAT DESASTER
OVERTOOK IT. A FEW OF ITS PUBLIC AND PRIVATE BUILDINGS

Grammar and High School

On the night of July 11th 1910
Campbellton was a heap of smoking
ruins, and the whole of Canada
stood aghast at the holocaust. Two
years have passed and on this the
second anniversary of the great
fire, a new Campbellton has been
built, which is a credit to the pro-
vince and an example worth follow-
ing by any Canadian town. In
two short years the town has been
practically rebuilt, the undaunted
energy of the citizens surmounting
stupendous difficulties which would
have caused many people from es-
sentially rebuilding their
shattered businesses. But in this
new and brighter Campbellton we
have a better town and a cleaner
community than before the fire and
the labour and expense which was
not spared has brought us a fitting
reward. Since the fire a better
class of building has been erected,
many handsome brick and concrete
buildings taking the place of the old
business premises of frame, and a
great improvement made in the class
of residences erected both as regards
architectural design and value. The
citizens have vied with each other
in erecting permanent and substan-
tial homes, the equal of any to be
found in any city in Canada. In
connection with this it would be
well to remember that contrary to
the general impression there is less
money loaned on mortgages than
there was previous to the fire, which
is a healthy sign in a town's life.

Lumber Co., for \$10,000. The
building lands and equipment cost
over \$60,000, but it is a paying pro-
position, for in addition to lighting
the streets and supplying the town
with electric current, an all day ser-
vice has been established. Sufficient
power is available for small indus-
tries which being supplied at a
reasonable rate is being largely
taken advantage of, numerous es-
tablishments installing electric

ada. The water is taken from lakes
in the virgin forest by gravitation,
and is at all times perfectly pure
and wholesome. This, with a
splendid sewerage system, gives the
people every advantage of the mod-
ern town.

Post Office and Custom House

motors for various purposes.
The second improvement of im-
portance is that of the new Gram-
mar and High School. The build-
ing which will formally be opened to-
day was erected at the cost \$50,000,
from the design of Leslie R. Fair-
architect. It is considered by ex-
perts to be the finest school building
in the province. It is a handsome
two storey building built of brick
containing twelve class rooms, a
large assembly hall, additional rooms
for manual training and domestic
science, besides numerous retiring
rooms and cloak rooms. The sani-
tary arrangements, heating and ven-
tilating systems are the latest pro-
ducts of scientific skill, and no ex-
pense has been spared by the school
authorities to make the environ-
ment of the students healthy and
wholesome.

The latest improvement is the
new Fire Alarm system which has
been lately installed. This is of the
famous Gamewell type, the same as
used in all large cities. The system
is not yet complete, only a begin-
ning having been with nine alarm
boxes with alarm tappers in the
homes of the firemen. The large
bell required for a general alarm
will likely be purchased during this
present year.

Campbellton has one of the finest
water systems to be found in Can-

& D. A. Harquail, McLennan
Foundry, A. C. Roy, A. C. Belleisle,
H. Sanson, and many others.

The Intercolonial Railway man-
agement has made provision for
handling the increasing business at
Campbellton by re-building their
entire works on a much better and
larger scale. The new station is a
fine brick and stone structure facing
on Gerrard Street. Its interior
finish is done in excellent taste and
it has all the modern conveniences
of a well appointed city station. The
roundhouse is situated to the west-
ern end of the railway property and
is a solid piece of workmanship,
built of brick and concrete. It has
accommodation for thirty-eight of
the larger type of engines. Upwards
of 300 men are employed in the
railway services who make their
residence at Campbellton.

The International Railway's head
offices and shops are located at the
southwest of the town. This
line operates from Campbellton to
St. Leonards and is the most direct
route to the great Boston and Maine
markets. The traffic on this line is
increasing enormously month by
month and is a pioneer in opening
up a large territory which lay long
idle. The great progress made by
the new settlements, Hazen and
Grimmer settlements has been
largely due to the operations of this
railway. The machine and repair
shops of the road are located here
and compare favorably with any
branch road in the Dominion.

The equipment of the road is in
first class condition, and travellers
speak highly of the comfort and
convenience of the express train
which leaves Campbellton every
morning arriving at St. Leonards at

ORANGEMEN PLAN FOR MONCTON TRIP

Big Celebration of the Twelfth is Outlined.

Arrangements were about completed Saturday evening by the local Orangemen for their participation in the celebration of the "glorious twelfth" in Moncton next Friday. The first special train will leave St. John at 7:45, instead of 7:30, as previously announced, and is to make all intermediate stops along the line. The second train leaving at 8:30 will only make the necessary stops for water. The Carleton Orangemen will cross on the 7:40 trip of the ferry, and with No. 27, of the Market building, will join the other lodges on Germain street. There a procession will be formed in the following order:

The Union Jack in the lead, supported by two scarlet knight in uniform.

Artillery Band.
Royal Black Knights.
Royal Scarlet Knights.
Havelock, No. 27.
Johnston, No. 24.
True Blue, No. 11, with Pipe Band.
Gideon, No. 7.
York, No. 3.
Eldon, No. 2.
Verner, No. 1.
St. John District Officers.
St. John County Officers.

Lodges No. 60 and 70, from Fairville, will march to Simonds street and joining the North End Orangemen, will with the Carleton Cornet Band march direct to the depot. Rev. B. H. Thomas, Grand Master will lead the procession on the white horse, and afterwards address the gathering on the Exhibition grounds.

HOW'S THIS?

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

Whole Sale Druggists, Toronto, Ont.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

GRAPHIC'S GREAT VOTING CONTEST

Are You Interested—Don't Forget. "He who Hesitates is Lost"

Why don't you get a piano which this paper is going to give away? Some person will win these prizes; why not be one of them? Get your friends to work for you. If you can't see them face to face to ask them for support drop them a line. Their help might get you the Grand Prize. And once you are in the field stay in it. Lots of people will re- after that Piano, but the one that begins early and is determined and persistent has the best chance. Get busy. It is worth while. Get the children to help you. If you have friends in a church, society or other organization ask for their support. Every vote will help you and every friend who works for you means that you are that much nearer a prize. Read the conditions of the contest carefully. Votes can only be obtained by subscribing to this paper or renewing a subscription or by cutting the coupons that will be printed from time to time. Keep after the Grand Prize. Set your goal high. Keep at work. It is the one who keeps at work all the time, every day, spares no effort, does not let up until the very last minute who wins the victory. And victory is worth winning in this case.

If you are thinking of entering this contest, or if you desire any information, kindly call, phone or write; we will be pleased to give you the desired information. We will soon publish the list of candidates and their standing. Send in your nomination to-day—it means 1000 votes.

Who May Enter This Contest

Any lady (married or single), any man any boy or girl, is eligible to compete, providing the conditions set forth below are complied with.

Every candidate must be regularly nominated in writing on the blank printed in this paper, or a similar blank furnished by the Graphic.

No candidate will be permitted to transfer votes to another after receiving them for himself.

All money paid on subscriptions must be sent direct to The Graphic and on receipt of remittance, credit will be given.

Contestants are not prevented from securing subscriptions or votes anywhere, as votes will be allowed on any paid in advance subscriptions. If an order for a subscription is sent with the money votes will be issued in favor of any contestant that the writer may designate, and returned to the subscriber or mailed to the contestant if so desired. List of subscribers will be furnished if desired.

Any person wishing to withdraw from the contest must write us personally.

Candidates may be nominated in the regular way or they may nominate themselves, either by the enrollment coupon or letter or they can be nominated by a friend.

All nominations must be accompanied by the proper home address of the candidate.

It is not necessary to be a subscriber of the Graphic to become a candidate.

No employee of the Graphic nor member of his or her immediate family may become a candidate.

The Contest Editor reserves the right to reject any candidate or contestant he may consider undesirable, without giving a reason for doing so.

The first announcement of nominations will be made at an early date.

A board of three responsible business men will have exclusive control of the ballot box the last day of the contest and make the announcement of the result of that day's voting and declare the winners.

A list of candidates and their number of votes will be published each issue during the contest.

FRIDAY, JULY 12, 1912

THE FIFTEENTH

This anniversary issue marks another year in the life of the Campbellton Graphic, this being No 1 of Volume 15.

Since the installing of our new plant here in March we have been constantly endeavoring to make the Graphic a journal necessary to the home and are glad to state that our efforts are meeting with good success. We desire however to do better yet than we have done, and we trust in the near future to be able to give our readers a publication giving all the local news of the surrounding districts.

Our subscription list is steadily increasing which is a good sign but in the new subscription contest we hope to see the circulation going up by leaps and bounds. Our advertisers would do well to remember that our advertising rates are low compared to the service we give, for in ninety-nine homes in Campbellton out of a hundred you will find the "Graphic."

AUTO DANGERS

Day after day reports of automobile accidents reach us, and although in many cases they seem to be pure accidents perhaps combined with a little speed in driving, still one case has been brought to our notice which puts a different bearing on the occurrence. It is said that the accident to Mr. E. Sullivan's car was caused through a teamster taking the middle of the road and stopping there, causing the auto to take the ditch in an endeavor to pass the rig. It is also freely stated that all along the road to the west of the town there seems to be an organized fight against automobiles by teamsters taking up all the road they can hog, two of them usually going abreast, and complaints are also registered regarding bottles being thrown on the road, not to speak of wires and ropes stretched across the roadway. Much as we have sympathy with the farmers in trying to put down the scorchers who let her out at every opportunity, still reprisals of this kind won't help the farmer one bit, rather the reverse. We are of opinion that our good neighbours are men of more decency and mental capability than to try and deliberately wreck a car, but in the ditching of Mr. Sullivan's car there can be no statement as to reckless driving on this occasion, as Mr. Sullivan is noted for his carefulness and slowness in an auto. There may be something more come from this. We shall see.

HOUSE LADDERS

Made to Order.
Drop me a card.

JOS. A. PLOURDE,
Campbellton, N. B.

Empire Steel Ladders.

The safest and best ladder on the market. Will not burn or rot, always reliable.

W. L. Ashfield, Ph.D., Principal.

THE "BLUENOSE"

The Nova Scotia gives the impression of belonging to a province whose people are perhaps the most homogeneous to be found in Eastern Canada. His people are distinctive as a whole, conforming more generally their provincial type. They are neither English or American, but are thoroughly fused into Nova Scotia Canadians. But why give descriptions, for who has not met the genial, wide-awake Bluenose. He is a combination of the New Englander and the old countryman transplanted to Canadian soil, and Nova Scotia soil at that. He, too, is first a Nova Scotian, but none the less a Briton and an ardent Canadian. The earlier resentment of the modus operandi by which his Province was brought into the Union has practically disappeared. For some years, however, to quote the familiar saying, "While he did not object to the marriage, he had a strong dislike to the way the ban was published." Industrially, by virtue of natural resources combined with native ability, he leads the East. As a people the Nova Scotians are tenacious of established customs, hospitable, intelligent and thrifty. Their chief product is prominent statesmen and educationists—for Canada and other countries.

The New Brunswick by virtue of being so closely associated with the Americans on the west and the French-Canadians on the north, does not represent so homogeneous a type as either the Island or Nova Scotian. For the same reasons he is more cosmopolitan. He has been more in touch with continental movements and with Canada as a whole. Nevertheless, there is a typical New Brunswicker as there is a Nova Scotian. In origin, being chiefly of United Empire Loyalist stock, he is of course ultra-British in sentiment, and while being a true New Brunswicker, he claims to be the most ardent Canadian of all. He has seen much of pioneer life, and the subjugation of his fine Province

has qualified him for fields of large endeavour. Physically, in stature, he excels his Maritime brothers, while intellectually and in all other respects he is their equal. He manifests the same ability to excel in the learned professions, and if he has specialised at all, it is in the departments of statesmanship and literature. It has been said that a New Brunswicker may be known by the way he shakes a pepper bottle, a Nova Scotian by the way he says "valley," and an Islander in his handling of a horse. Be this as it may, the foregoing may serve to indicate some characteristics of their Maritime types.

Turning more particularly, now to the contrasting customs, we note a number, chiefly pertaining to the industrial side of life. For instance, while the ox as a beast of burden has been long since abandoned in New Brunswick and Prince Edward Island, he still holds a very large place as a factor in the farm labor of Nova Scotia. In the former Provinces, an ox-team upon the highway would be regarded as the advance guard of a circus and the centre of curiosity, while in many parts of Nova Scotia, it is one of the most commonplace sights.—F. A. Wightman, in The Canadian Magazine for July.

The Great French Tonic VIGOROL

Makes Men and Women Strong—White Drug Co., your Druggist, is the First to Import this into Campbellton. Get a Bottle and be Healthy.

Since the introduction of VIGOROL into Canada the sale has been phenomenal. VIGOROL is purely a tonic—it builds up the run-down system, creates a new lease of life. Everybody should take a tonic. The only question is what to take. You can rely upon VIGOROL as one of the greatest, if not the greatest, that man ever prescribed. Every drop of this wonderful French Tonic contains life. Your nerves are toned up to their proper tension. The stomach and bowels are made healthy and strong, while the kidneys, liver and bladder are put in good working order. Headaches, biliousness and all blood impurities are at once removed. The skin becomes clear and healthy. VIGOROL in short will change your whole system making it pure and healthy. White Drug Co. your druggist, will refund your money if it fails. Price \$1.00 a bottle.

INSPECTS RAILWAY

Commissioner Brady of the I. C. R. accompanied by Mr. Price of Campbellton and secretary arrived in Chatham on Saturday and when interviewed stated that there was no particular significance to his trip here. He was satisfied with the progress being made on the new station, but he did not like the site as it would always make that part of the town a dirty section.

When asked about the wharf on the face of the station property, Mr. Brady said he had sent in his recommendation on this matter to the department and "it was now wholly in their province to deal with the subject. A report has been in circulation that the railway was intending to improve the wharf at Loggieville, but Mr. Brady stated that this was the first he had heard of the project.

Glover Building. **J. F. GALLAGHER,** Water Street.

Layers of the out of ordinary amusement will be interested in the announcement that the Mighty Haag Shows are coming on July 15 afternoon and evening, in Campbellton presenting decidedly the largest and greatest program of original, unique and thrilling feature act known today to the world. This vast tented amusement is along in a class by itself, without a rival.
Nothing like the imperial performance provided by Ernest Haag ever before witnessed or dared by the boldest managers.
Whatever your preference, you will find plenty to interest, astonish and edify you; there are thrilling aerial acts during every moment of which one expects to see the intrepid performers hurled into eternity, artistic and sensational equestrianism, uncredited bewildering athletic and acrobatic numbers, blood-chilling peck, hurdle and chariot races, amazing venturesome bicyclists, and phenomenal exhibitions by fierce wild beasts. In fact, so numerous and varied are the novelities offered in the rings and upon the elevated tracks by these shows, lack of space will not permit each of these to be mentioned. The quality of the features are such as to really stagger comprehension.
It matters not what show you have seen or how big the Mighty Haag shows have been in years gone by, this season they completely overwhelm all past efforts.

LOCAL ITEMS OF INTEREST

Newspapers of Town and Country Happenings Gathered by Graphic Reporters.

A GOOD THING

Don't miss D. Goldenberg & Co.'s annual cheap sale.

NOW RECOVERING

Mr. MacArthur who has been in the hospital for some time is now improving.

EXCESSIVE HEAT

The thermometer today registers ninety-eight degrees, yesterday it was ninety-six and we may say that since Sunday the average heat has been about ninety-six.

A BIG ATTRACTION

In the past D. Goldenberg & Co.'s sales have attracted large crowds. This sale is larger than ever. Don't miss it.

MASONIC MEETING

A special meeting of the Masonic lodge was held on Monday evening in the lodge room.

COME TO CAMPBELLTON

The biggest drawing card to Campbellton in the last two weeks will be D. Goldenberg & Co.'s annual clearing sale. Read the ad. on page 6 and 7.

THE NEW DAM

Work on the new dam at Smith's Lake is going ahead. The engineer reports that the outlet pipe will shortly be in place ready for the concrete.

GOOD DISPLAY

In the window of Messrs. A. E. Alexander & Sons there is a model of an automobile which draws the crowd. Have a look at it.

STEEL TOWER

The steel tower at the side of the Post Office has now been erected, and is proudly standing its flag. What about the clock?

THE PICNIC

The Sunday school picnic on Tuesday passed off very successfully. The weather was all that could be desired and the picnicers brought back with them some food of value.

SPORTING EVENT

For the delectation of the sporting patrons in town a boxing and wrestling entertainment will be given in the Skating Rink on Thursday evening. Good boxing and wrestling events will be the draw.

OF DEEP INTEREST

Read D. Goldenberg & Co.'s advertisement on pages 6 and 7 and then call and see the goods he is offering at the prices named.

THE NEW SEWER

Work on the new sewer outlet to the river on the north side of Water street, has gone on with great celerity. The engineer had his work cut out to have the street in order for the celebration but he will manage it.

KILLED AT GREEN POINT

Lightning struck a house at Green Point, near Bathurst, owned and occupied by Thomas Gosselin on Thursday night. Gosselin was sick in bed at the time and it is said the lightning entered the bedroom, passed up through the bed and killed him instantly. It is not known whether any other member of the family was injured. At Bathurst, Minnie it is reported that houses were damaged, fences and chimneys blown down and other damage done.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by all dealers.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

BIG MERCANTILE ANNOUNCEMENT

Two Whole Pages Speak to Growth of Business of a Campbellton Firm

In the past two years Campbellton has not been "marking time" but has shown to the world that in spite of adversity it can move on in progress.

This is true not only of the town but also of the various business houses in it until today we have merchants with exceptionally large stocks, as large and varied as those carried in the larger cities.

One of our progressive firms is D. Goldenberg & Co., which, in this issue of the Graphic place the largest advertisement ever handled by us, before our readers. We believe that this is the largest advertisement which has appeared in the weekly papers in the Maritime provinces and speaks well of the push and enterprise of D. Goldenberg & Co.

On pages six and seven will be found this adv. and we are sure our readers will find it just as interesting reading as any other section of the Graphic.

On Sunday afternoon Mr. Chase Johnson met with an accident near the scene of his former success. Mr. Johnson was not so fortunate this time receiving a nasty cut on the face when he was pitched from the car.

For soreness of the muscles, whether induced by violent exercise or injury, there is nothing better than Chamberlain's Liniment. This liniment also relieves rheumatic pains. For sale by all dealers.

The Oddfellows met on Monday evening for their annual meeting. The business being the appointing and installing of the new officers for the coming year. The names of the newly installed officers will be given next week.

Any merchants or manufacturers having goods in the parade who desire to have same mentioned in next week's Graphic, will please hand their description into the Graphic office, as our reporters will be fully employed on Thursday and perhaps might omit some interesting features.

Work has been started on excavating the basement of Our Church of the Lady of the Snows, on the new site on the Patterson property recently purchased by that congregation. The foundation walls will be of concrete, and the first four feet of the edifice will be of granite and the remainder of the walls will be of brick.

Mr. and Mrs. Thomas Foley and the two Misses Foley left Newcastle the latter part of last week in Mr. Foley's new automobile, for a trip through the New England states and to New York. Sunday afternoon at Portland, Me., Mr. Foley and two male companions were in collision with a street car and Mr. Foley was badly and severely bruised in the smashup. His car was badly wrecked.

The United Baptist Association of New Brunswick is meeting at Newcastle this week. The ministerial sessions convened Wednesday. During the session public meetings will be held and addresses will be given by Rev. Dr. Cutler on Acadia. Rev. Dr. E. Crowell on Ministerial Annals. Quiet hour sessions on Thursday afternoon by Rev. J. E. Wilson and on Friday Rev. A. C. Herrie will deliver the sermon.

An automobile party in four large cars and consisting of Mr. and Mrs. W. B. Tennant, of St. John; Mr. and Mrs. W. H. Tennant, of Amherst; Mr. and Mrs. E. L. Riving, of St. John; Mr. and Mrs. Fred H. Ryan, of Sackville; Mr. and Mrs. R. O'Leary, of Richibucto; Mr. and Mrs. W. S. Montgomery and members of the various families in the party, came to town on Tuesday afternoon. They motored to Matapedia and left for their homes that same evening.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed dead tired at night. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthy and beautiful. For sale by all dealers.

INSECT STINGS AND SUMMER SORES.

Insect bites and stings, blistered feet and sores. These three things, or any one of them, may spoil many days of your vacation, or make your work a bore! Zam-Buk is the remedy you need. It takes the "burn" out of these red, inflamed patches where the sun has got home on you; it cures bad mosquito bites, and it soothes and heals blistered feet and sores.

In the hot weather your babies suffer terribly from heat spots and chafed places. Here again, Zam-Buk will give almost instant relief. Mothers should always keep Zam-Buk handy, and should use Zam-Buk Soap for baby's bath.

Fur cuts, firm, and more serious diseases, such as eczema, skin itching, etc., and for the Zam-Buk is absolutely the most equal. All drug stores and stores good to use or Zam-Buk Co., Toronto.

Wheelbarrows

We will send, freight fully prepaid to your nearest railway station, a strong, handsome garden barrow, for the sum of

3.25

We will guarantee it to be strong and well made, with a good, roomy body, and fitted with a wooden wheel, 29 inches in diameter with 2 inch rim and cast iron hubs, making it one of the strongest barrow wheels on the market.

Or if you will get up a Club Order for Three or more of these barrows we will ship them to one address, freight prepaid, for \$3.00 each.

Write for catalogue, showing this and a full line of farming implements at very low prices.

YOU THINK IT'S RHEUMATISM

You Haven't Rheumatism!

It's only fallen incept—a brace down of the foot arch—and you have Flat-foot brings muscular pains that feel much like rheumatism and are often diagnosed as such. The real cause is so properly support the arch of the foot long enough to give it time to grow right. The Scholl "Foot-Easer" does this—takes off all the strain—Nerve cures the trouble. The Scholl "Foot-Easer"

worn inside any shoe—exercises the foot pressure at the right spot—and not only overcomes the strain produced by flat-foot—which is responsible for all the aches and pains of the feet and limbs—but also eases the feet, body and nerves and makes Flat-foot. The Scholl "Foot-Easer" gives the feet a well-earned even tread. For men and women—price \$2.00 the pair. Your money back if they do not ease your feet.

Get the Scholl "Foot-Easer"—not an imitation. Your health is too precious to run any risk. Ask your dealer to give you a pair.

B-H "ENGLISH" PAINT

SAID THE HOME OWNER—"I told the contractor I wanted a first class job—and I insisted on his using BRANDRAM-HENDERSON, Limited, 'ENGLISH' Paint. I knew that the perfect formula for color, spread, durability and economy was 70% B. B. White Lead and 30% Zinc White, and I knew too that I could get this formula only in BRANDRAM-HENDERSON, Limited, 'ENGLISH' Paint. So I paid a fair price and I believe in B-H 'ENGLISH' I got the best paint obtainable in Canada—in fact, the best obtainable anywhere or at any price."

DALHOUSIE

It is to be hoped that the police authorities of our town will have a sharp look-out for those who are guilty of petty larceny. The parties who stole the book, the coffee, the tin of soap, the Campbellton excursion ticket, on Monday Day should be severely punished. There is a considerable staff of up with automobile owners driving too fast on our streets where so many children are enjoying themselves during this season.

Mrs. B. H. Anderson and daughter Agnes, of St. John's Newfoundland, have been visiting Mr. and Mrs. Geo. Haddock at "Bonnie Brae".

Miss Prude, daughter of the late John Prude of Armstrong Brook, Rest. Co., and now of Concord, Mass. has been spending a few days the guests of Mr. and Mrs. Haddock.

Mrs. Geo. Ball of Clarendon, New Hampshire and her sister Miss Susie Scott have arrived in Dalhousie to spend a few weeks with their parents Mr. and Mrs. Thos. G. Scott.

Mrs. James B. H. Stover and child have returned from an enjoyable visit in Bathurst.

Miss Alma LaBilios is spending a few days in Bathurst the guest of her friend Miss Nellie Meahan.

Mrs. Walter Miller of River Charles was a visitor to town last week.

Miss Amelia LaPlante left for Montreal last week, where she will reside in future.

Capt. James Gouin has gone to Montreal. Miss Minnie Jamieson who is spending her holidays with her parents Mr. and Mrs. James Jamieson, is receiving congratulations on having been awarded the gold medal for stenography at the Moncton Business College.

Miss Gladys Miller of Bridgewater, N. S., who made many friends during her stay in Dalhousie, has gone to St. John, where she will remain for sometime.

Mrs. Geo. Cole and son William are visiting Mrs. Cole's parents at Gibson, York Co., N. B.

Mr. and Mrs. L. D. Jones have returned from Sussex.

Mr. and Mrs. Richard O'Leary, the Messrs. O'Leary of Richibucto, Mr. and Mrs. Tennant, Mr. and Mrs. Rising, St. John, Mr. Fred Ryan, Sackville were among a party of twenty-two who came to Dalhousie by automobiles on Sunday and spent sometime here.

Hon. C. H. LaBilios left on Tuesday for Bathurst and Chatham, at the latter place he will visit his sister, Rev. M. LaBilios.

The Church of England supper and fancy sale has been postponed a week on account of the Campbellton celebration.

The Presbyterian S. S. picnic will be held on July 18th.

The annual school meeting was held here on Monday evening. Dr. A. G. Ferguson, re-elected trustee and E. Kene Richard replaces Mr. J. V. Magee who is now residing in Edmundston. The trustees present at the meeting are to be congratulated on having voted to increase the salaries of all the teachers. Splendid work has been done in the Dalhousie Superior school during recent years and it is appreciated in a practical manner by the taxpayers.

Mr. LaBilios who moved the resolution giving an extra increase of salary stated how he was congratulated at Fredericton on the stand taken by pupils coming from the Rest. Co. school.

Mrs. Arthur McGregor of Lewis P. Q., is visiting her husband's old home the guest of Miss Katie McGregor.

Miss Louise Barthe returned on Saturday from a trip to Sussex.

Miss Augustus McKenzie of Moncton was a town recently.

Mrs. John Montgomery and daughter Agnes of St. John are visiting Mrs. Wm. Montgomery.

CAPLIN RIVER

Mrs. Eabulb Kerr has returned from a pleasant trip to Vancouver B. C.

Mr. Arthur O'Keefe of Campbellton who has spent a pleasant visit in Caplin River has returned to his home.

Miss Bernice Willitt who has been spending a few days with her sister Mrs. Malcolm McLennan has returned to her home in Grand Cascapedia.

Miss Jane Babin is home from Quebec to spend the summer with her parents Mr. and Mrs. Nap. Babin.

Mr. and Mrs. Peter Poirier are receiving the congratulations of their many friends on the arrival of a daughter in their home.

Schooner Myosotis was at the wharf at St. Charles De Caplin last week loading a cargo of ties.

A butter factory is in operation in Caplin River which has been running since June last year by all reports it is doing a paying business.

A very heavy thunder storm passed over here on Wednesday night last as far as we can learn no damage was done.

Some of our fishermen are out fishing but report that the cods are not plentiful.

CAPE COVE

Mr. Albert Beck who has been ill for some time has been improving of late and we all wish him a speedy recovery.

School being closed our two teachers, Miss Lillian Crozier and Miss May Garrett have returned to their homes in New Carlisle, we understand Miss Garrett is going West, at an early date and we wish her every possible success.

A very pleasant afternoon picnic given by Miss Garrett in honor of the children.

We must also make mention of the picnic held at Lanes and Beaulieu, given by Miss Jennette Beck and Miss Lillian Crozier a large crowd attended, and a very enjoyable time was spent by all.

Congratulations are extended to Mr. and Mrs. J. Le Gresley on the arrival of a baby boy at their home.

Mr. and Mrs. Robert Mahan have arrived from the West on a short visit among their friends.

CHARLO

The half yearly examination of Upper Charlo school was held on June 28th. It being a thorough drill of the school work of the past term together with the following programme:

Welcome Song by School
Recitation "Welcome" by Theresa Hayes
"Vacation" by Wilfred Roy
"Idyll of the Farm" by Leslie McKenzie.

Recitation "Old Forsaken Schoolhouse" by Louise Babin.

Recitation "Grandma's Mistake" by Mildred McKenzie.

Recitation "Writing to Grandma" by Jean McKenzie.

Recitation "Grandfather's Barn" by Alexander Babin.

Recitation "Vacation Times" Clifton Babin.

Dialogue by Mary Wyers, Gerrie Shannon, Theresa Hayes, and Mary McKenzie.

Recitation "When Pa was Young" Douglas Craig.

Recitation "The Dead Doll" Mary McKenzie.

Dialogue "In want of a servant" Mary Myers.

Recitation "The Two Portraits" Hazel McKenzie.

Recitation "Farmers Wife" Theresa Hayes.

Recitation "The Light on Dadman's Bar" Elsie Craig.

Song by the School.

Valuedictory by Greta Craig.

The examination was conducted in a very successful and appropriate manner and a few suitable and complimentary remarks were passed by Secretary to Trustees. There were a number of visitors present also.

RIVERSIDE

Mrs. J. Sharp of Dee was the guest of Mrs. J. P. Wall on one day last week.

A. S. Walker made a flying trip to Dalhousie one day this week returning the same evening by Limited.

Mr. Roberts has his saw mill running now in perfect order and is doing a bustling business.

D. A. Myles of Brandy Brook passed through here en route to Matapedia P. Q.

Quite a lot of Riverside people are looking forward for the 11th of July anticipating a big day in town.

F. Boltonhouse of Chain of Rocks made a flying trip through here one day last week.

Mrs. S. Walker and baby Vance was visiting Mrs. D. Irving last Sunday evening.

Sold by the White Drug Co.

GLENWOOD RANGES.

MAKE COOKING EASY

We have taken the exclusive agency of the celebrated GLENWOOD RANGES for the town of Campbellton, and we are in a position to fill all orders in this line. In our selection of a range we have secured one that has gained its reputation from actual use in the busy kitchens of the United States, where there are upward of 22,500 in use daily, which is good evidence of what skillful house-keepers think of the GLENWOOD.

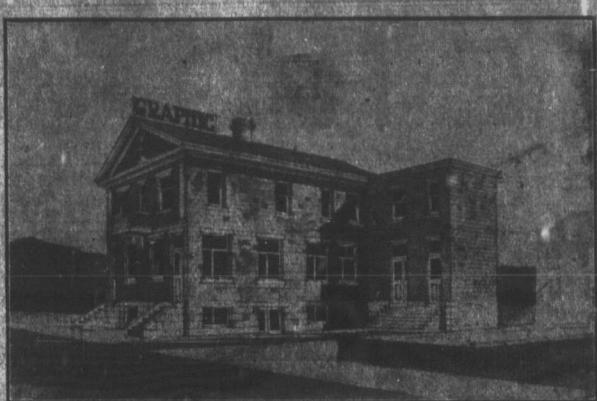

This cut shows our Cabinet GLENWOOD, with Hot Closet fitted to burn wood or coal. Note the neat, attractive appearance of this range, the combination of fancy nickel to catch the dust or dirt, the mission style of the front, which is removable from the front.

This range has the reputation of being the most economical, and the most perfect baker that is to be found on the market. These ranges are made in the U. S. A., where over 2000 are to be found in use daily.

Call and have us show you why the GLENWOODS are superior to all other makes, and why they are giving such satisfaction.

At least one half of all GLENWOODS are sold through the enthusiastic recommendation of a satisfied user.

A. H. English, Campbellton, N. B.

While we all take pride in the growth and expansion of Campbellton yet we of the "Graphic" take pardonable pride in the growth and expansion of our paper since the fire, so much so that we think our readers will pardon us if we give a short description of our new building and plant.

Two years ago the "Graphic", in common with every Campbellton business was destroyed. One week later the "Graphic" was published in a small four page form and has regularly appeared each week since, until today when we are issuing a twelve page paper.

At first our office was a tent. Later we erected a small temporary building on the site of our present building, and therein was installed a small job printing plant to look after the needs of our towns people.

In this temporary building we did business until January of this year, when we removed to our present premises, then only partly completed. Since that time the work of completing the building and installing our newspaper plant has been carried forward, until today everything is practically in order and we think we have one of the most up-to-date printing establishments in the maritime provinces.

THE BUILDING

The building which is two and a half stories, 30 x 48 with an ell 18 x 20 is built of vitrified clay blocks (terra-cotta) on concrete foundation.

The basement is the entire size of the building, well lighted by ten large windows and has eleven clear feet between floor and ceiling. The ceiling, which is the ground floor of the main building is of reinforced concrete, eight inches thick, thus the basement is absolutely fireproof.

Herein are placed the heavy newspaper press, thus eliminating to a large degree vibration and noise. Also the steam heating plant, and store room for heavy paper are in this basement.

On the ground floor are situated the public office, which is finished in native woods and southern pine. Off of this are the private offices of the Editor and Manager, and to the rear of these, respectively are the news, or composing room and the

job printing department. These are all finished in native spruce, stained to dark oak. The private offices being divided from the public office by glass partitions extending to the ceiling.

To the rear of the job department in the ell is situated the stock room wherein paper in its "raw" state is kept in stock.

The first floor is fitted up as a nine room flat. This is finished in the colonial style, the spruce being stained to oak. All the floors are of polished hardwood.

In designing the building special attention was paid to lighting the workrooms and for convenience in handling the various kinds of work. Heat is supplied by a large steam boiler.

THE PLANT

The plant installed, while not yet just what is wished, yet it is up-to-date and is being added to as growth requires.

The newspaper press is a fast two revolution Cranston, capable of turning out 1750 papers an hour without pushing it. The folder is the latest pattern Mentzer which will handle papers of various sizes in 4, 6, 8, 10 and 12 pages.

These are run by a four horsepower electric motor.

In the job room everything has been purchased to enable us to turn out high class commercial and general printing. Latest job presses and job type faces are there in abundance and a very high class of work is being turned out from the small visiting card to the full sheet poster, from the envelope to the illustrated fold-r.

Here also is machinery to handle the making of monthly accounts and loose leaf form, card index systems, etc., and although only installed recently, already a large business in these lines is being worked up. Electric motors are used in these departments.

To our friends who should be in town today or any other day we shall be only too happy to show them through the building and explain the process necessary to turn out a readable weekly newspaper.

MONCTON MAN BOOSTS CAMPBELLTON

Gives Campbellton Citizens First Lesson in Boosting Town.

C. S. Clarke of Clarke & Anderson, Moncton, N. B., was in town Tuesday and is now a confirmed "Booster" for Campbellton.

Mr. Clarke was here in reference to the real estate he purchased a short time ago.

While of course there is no place on the map just as good as Moncton yet in his estimation Campbellton is a close second and we cannot converse with him long before this fact is made known. He has it all down location, harbor, railways, steamship lines, great lumber interests, pulp and paper possibilities, the mining and natural business center. All these combined makes, in his estimation, the growth of Campbellton assured. It is to be hoped that our citizens will follow his example and be a "Booster."

Also a new shipment of Boots and Shoes made by the best makers,

EMILE DAVID,
Corner Prince William and Water Sts.

**YOU WANT THE BEST—
NOT THE CHEAPEST**

Don't be alarmed if somebody tells you to buy an automobile for less than \$1000. You can't get a good one for that price. The only way to get a good one is to buy a Buick.

Don't be alarmed if somebody tells you you can buy an automobile for less money than the \$1000 Studebaker Flanders '20'. You can, but the \$1000 point by point. The Flanders '20', corresponds solid. Cheap cars with the best and highest prices on ideas long ago discarded for good cars. Don't take our word for it. Make comparisons and see. You are content with a car that runs, looks, and dies tomorrow. Don't buy the \$1000 Flanders '20'. It will wear for years. Remember this—the Studebaker Flanders '20' will wear for many other cars under \$1000. You doubt satisfaction, confidence and comfort into the bargain.

YOUR SUMMER

VACATION

"The Seashore," a forty-eight page booklet with a striking cover, has more than 100 illustrations that first appeared describing the New England District of Connecticut on the line of the Central Vermont Railway which promises to be another more popular resort for Canada in general and Montserrat in particular than was Old Orchard in its earliest days. Anyone who is a devotee of the annual "summer problem" will find interesting inspiration in the contents.

varied are the resources of the new territory of

**Anna Dunn Carried Of
Kibbina in London Show**

London is intensely interested in the girl Miss Mona Dunn, the bright and girl of nine, who has the distinction of being the youngest lady horse exhibitor at the International Exhibition in London, and Miss Dunn's appearance in the showing has created a rapturous delight for the London born, her fight for the title, now in London, but well known in circles, while her grand old M. M. Price of Quebec.

An enthusiastic daughter of nine years ago. 'She was born in 1891. Why, she does not for brother and sisters who are English, but

And corresponding writers. Mrs. Dunn going to the show with her friends, of Quebec, who came by day from Canada, on the same steamer as the Sifton, who gave the last prophetic utterance to the W. Presse, who gave the other side of some of the situation and the situation in the French-Canadian. He also dated the devotion for making the second year schools were the world, the more as the French left much to be desired.

[illegible]

It is an attack on their various beliefs and consciences is that they feel the result of a battle and the result of a battle. An example: We want to do not dare mention it. New Brunswick talk less than we do, but they do mention it. This year they washed up before in New Brunswick, and I may say that while I blame for indifference they are, I believe it more so that some of our own to religious Archdeacon Franchise, who was the first and significant reference to the matter. Franchise: Where I asked, I was speech, with a few remarks. The first person to speak was the

YOU CAN'T LOSE
You can't lose in the Graphic subscription campaign—that is impossible, there are two grand prizes contestants will win, and if you are not of the two The Graphic will pay you ten per cent. cash commission on the gross amount of subscription money you will collect if you remain actively in the campaign until the end. The campaign thus works both ways—a prize contest and a very lucrative position. If you want a piano enter your name! enter the campaign no matter what you want: you can't lose; enter anyway. Send in your name or that of a friend to day.

"INDIAUS", THE CIGAR SMOKING CAMEL

When visiting the Mighty Haag Shows, a collection which exhibit at Campbellton, July 15 and 16, the display of Siberian camels to-day. Don't fail to have the attendant to point out "Indiaus" who is the only living camel that actually smokes cigars. In the camel's regular bill of fare must be included cigars, or he refuses to work. Not long ago through an oversight his cigars were forgotten and he refused to work at all, at the last moment a cigar was procured and "Indiaus" entered the ring smoking a cigar. It proved such a novelty that the management now has included in his regular ring work, and twice daily wherever the Mighty Haag Shows exhibit, may be seen this interesting and novel sight.

THE RING FINGER

The following extract from an article on "Wedding Etiquette" in the Canadian Herald: "After all this attention to the detail of wedding etiquette may we just turn for a moment to the question of the little custom which covers the custom of placing the wedding ring on the third finger. Some scientists claim that different people have different kinds of electrical energy stored up in them. Some are positives and some are negatives. It is also asserted that the greater number of people are positively charged and that it is hard to find the human variety of negative electricity. Have is the test for negative electricity that also seems to explain the power of the 'water witch.' If you 'pick up' negative electricity at a point, a small tin foil fork into two branches of about equal size. Trim this limb down into a forked wand about two feet in length. Hold the ends of the fork in either hand with the butts of the limbs upward. Then take a walk across the fields or through a wood. If you are a person of negative electricity the moisture in the green wood will act as a conductor for your particular brand of lightning, and as you pass over an underground stream the point of the forked wand will twist in your hands till the butts will be pulled straight down toward the earth. The point will also show the existence of the underground stream. If this is true it explains the ability and the accuracy of the 'water witch.' There are one or two of these men or women in every neighborhood and they are always consulted when the farmer wants to sink a well. Others take pay only when water is found within a certain depth. Whether they are men or women, the title of 'water witch' is given them. According to the theory the positively charged man or woman has to sink a well to make the green twig move when passing over the water or where the earth is dry. Their particular brand of electricity has no affinity for metal sticks.

WONDERS OF HUMAN ELECTRICITY

Explanation of the Ability of Some Persons to Locate Under-ground Streams by a Forked Stick.

Are you a sort of storage jar for electricity. Most folks are apparently. When you rub a rubber comb through your hair, you will hear faint cracklings and spittings as the teeth of the comb pass clear of the hair. In the dark you can sometimes get a real electrical spark like that produced by a laboratory machine. There are other folks who are able to produce the same thing by rubbing the feet swiftly back and forth on a carpet and then touching their fingers tips to another person. If the other person does not know of this possibility the effect is sometimes startling. Some people have more of this power than others. They are apparently charged with electrical fluid most of the time. They are able to produce the same thing by rubbing their hands on silk, woolen or other fabrics. When they comb their hair in the dark they can get inch-long sparks of snapping brilliancy. It is the same thing that enables a rubber comb to pick up and hold little scraps of paper after it has been pulled through the hair two or three times. There will be a faint whistling crackling as the teeth of the comb approach the scraps and a few of them will jump up and cling to the comb. They will continue to do so till the electricity has passed off and left the comb in its usual condition. Some scientists claim that different people have different kinds of electrical energy stored up in them. Some are positives and some are negatives. It is also asserted that the greater number of people are positively charged and that it is hard to find the human variety of negative electricity. Have is the test for negative electricity that also seems to explain the power of the 'water witch.' If you 'pick up' negative electricity at a point, a small tin foil fork into two branches of about equal size. Trim this limb down into a forked wand about two feet in length. Hold the ends of the fork in either hand with the butts of the limbs upward. Then take a walk across the fields or through a wood. If you are a person of negative electricity the moisture in the green wood will act as a conductor for your particular brand of lightning, and as you pass over an underground stream the point of the forked wand will twist in your hands till the butts will be pulled straight down toward the earth. The point will also show the existence of the underground stream. If this is true it explains the ability and the accuracy of the 'water witch.' There are one or two of these men or women in every neighborhood and they are always consulted when the farmer wants to sink a well. Others take pay only when water is found within a certain depth. Whether they are men or women, the title of 'water witch' is given them. According to the theory the positively charged man or woman has to sink a well to make the green twig move when passing over the water or where the earth is dry. Their particular brand of electricity has no affinity for metal sticks.

NOTICE

We, Peter M. Shannon of the Town of Dalhousie in the County of Restigouche and Province of New Brunswick, Broker, and Jerry O'Dea of the Town of Campbellton in the County and Province aforesaid, do hereby certify that we have formed a limited partnership under the laws of the Province of New Brunswick hereby certified.

1. That the name of the firm under which such partnership is to be conducted is "Shannon and O'Dea".
2. That the general nature of the business intended to be transacted by such partnership is the buying and selling of real estate on commission or otherwise and the carrying on of a general real estate brokerage and insurance business.
3. That the names of the general and special partners interested in said partnership are as follows: Peter M. Shannon who resides at the Town of Dalhousie aforesaid is the general partner and Jerry O'Dea who resides at the Town of Campbellton in the County of Restigouche is the special partner.
4. That the said Jerry O'Dea has contributed the sum of two thousand dollars as capital to the common stock.
5. That the period at which the said partnership is to commence is the second day of May, A. D. 1912 and the period at which the said partnership is to terminate is the second day of May, A. D. 1913.
Dated at the Town of Campbellton this first day of May, A. D. 1912.

PROVINCE OF NEW BRUNSWICK, COUNTY OF RESTIGOUCHE, S. S.
A. E. G. McKENZIE, Notary Public for the Province of New Brunswick, do hereby certify that the foregoing is a true and correct copy of the Certificate of Partnership as filed in the County of Restigouche and Province aforesaid. DO HEREBY CERTIFY that Peter M. Shannon and Jerry O'Dea the persons named in the Certificate of Partnership hereto annexed personally appeared before me at the Town of Campbellton aforesaid on the first day of May in the year 1912 and acknowledged that they signed the said Certificate of Partnership as made for their use and to the effect and to the purposes therein mentioned and contained.
IN TESTIMONY WHEREOF I, the said Notary, have hereunto set my hand and affixed my Official Seal at the Town of Campbellton aforesaid this day and year in this Certificate written.
A. E. G. McKENZIE, Notary Public.

"My GURNEY OXFORD jumped right in and helped with my housekeeping"

Dear Edith,

In a general way I have wished you all the good things I know of, so now I am going to descend to the practical and give you some sound advice from the store I have accumulated since I started housekeeping.

Housekeeping naturally suggests the kitchen first—its equipment and management, or in other words, THE RANGE

My range, as you know, is a Gurney-Oxford. I never enjoyed much of a reputation as a cook in my younger days, so when I thought of being responsible for three meals a day my heart sank. I imagined myself boiling all day with a sassy range, trying to coax it into a good humour, and covered with mortification because of late or spoiled meals. But my dear, my Gurney-Oxford seemed to sympathize with my inexperience. From the day it came it

jumped right in and helped. It has become my good right hand, and I go my way confident that my Gurney-Oxford will not disappoint me.

It has the cleverest arrangement for regulating the drafts, well named the Gurney Economizer. One small lever put up or down does everything. The fire will stay in all day, hardly burning any coal at all—then, presto! It is burning brightly, ready to bake or roast. An arrangement of flues keeps the oven always properly heated, so that the biscuits or bread come out light and crisp and brown. Yes, Edith, as Bob says, I have developed into "some cook," and I often tell him he must give at least half the credit to our Gurney-Oxford.

You will understand my enthusiasm better after you have had your Gurney-Oxford a month or so.

Sincerely Yours

MARY HOUSEWIFE

A. E. ALEXANDER & SON,

PRESBYTERIAL LARGELY ATTENDED

Everything would seem to indicate them to be the most Successful yet held

The first meeting of the Presbyterian was held in St. Andrew's Hall last Thursday evening and despite the warm weather was very largely attended. Rev. Geo. Wood, the chairman in a few well chosen words warmly welcomed the delegates to Chatham. Owing to ill health, Rev. G. Firth was unable to be present but two very interesting and instructive addresses were given by Rev. Mr. LeBel of Escomiac on Evangelical work in the province among the French and by Mrs. Carr Harris of Bathurst on work in the foreign fields. A piano solo by Miss Murray was greatly enjoyed and added to the pleasure of the evening.

The next meeting of the Presbyterian was opened Friday morning in St. Andrew's Hall with Mrs. Carr Harris acting President in the chair. After the reading of the minutes of the last meeting held at Jacques River, the Treasurer, Miss A. B. Cameron, gave her report showing that \$1625.00 had been raised for Foreign Missions and \$263.00 for Home Missions in the Presbyterian during the year 1911-1912. The report of the Korean Nurse Fund showed a balance on hand of \$1075.00, which amount it was decided to send Dr. Kate McMillan to assist in establishing her hospital in Korea. After letters from Rev. G. W. Firth and Miss Carmichael regretting that they were unable to attend were read, resolution and nominating committees were appointed and the reports of the 39 auxiliaries were read showing the interest in Mission work was greatly on the increase.

At the afternoon session, which began at 2 p. m., Mrs. McCallum of New Richmond led in a devotional and praise service and there was read a paper written by Miss Montgomery of Dalhousie which contained many very helpful suggestions. The reports of the Mission Band delegates were then read showing that the work of the band was on the increase.

After the discussion of certain changes in the constitution, the election of officers resulted as follows:— Hon. Pres.—Mrs. J. Ferguson, Bathurst. Pres.—Mrs. Carr Harris, Bathurst. 1st Vice-pres.—Mrs. Montgomery, New Richmond. 2nd—Mrs. Archibald, Rexton. 3rd—Mrs. W. Anderson, Chatham. 4th—Mrs. D. J. Bruce, Campbellton. Secy Young People's Work—Mrs. Wm. Anderson, Bathurst Church. Assistant—Mrs. Jas. Craig, Campbellton. Secy—Miss M. C. Gerrard, Campbellton. Treas.—Miss A. B. Cameron, Dalhousie. Home Mission Secy—Mrs. P. J. Hamilton, River Charles.

It was decided to accept the invitation to hold the next Presbyterian in Rexton in June 1913. At the close of the session ice-cream and cake were served by St. Andrew's church Auxiliary and a pleasant time spent socially.

WOMAN SICK FOR YEARS

Wants Other Women to Know How She was Finally Restored to Health.

Hammond, Ont. — "I am passing through the Change of Life and for two years had hot flashes very bad, headaches, soreness in the back of head, was constipated, and had weak, nervous feelings. The doctor who attended me for a number of years did not help me, but I have been entirely relieved of the above symptoms by Lydia E. Pinkham's Vegetable Compound, Blood Purifier and Liver Pills, and give you permission to publish my testimonial." — Mrs. LOUIS BRADGAGE, Sr., Hammond, Ont., Canada.

New Brunswick, Canada. — "I can highly recommend Lydia E. Pinkham's Vegetable Compound to any suffering woman. I have taken it for female weakness and painful menstruation and it cured me." — Mrs. DEVEREUX BARBOUR, Harvey Bank, New Brunswick, Canada.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female troubles we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

The public meeting in St. Andrew's church Friday evening was largely attended and an excellent address was given by Rev. Dr. Pringle of Sydney who is well known in Chatham and the surrounding districts. A very interesting and instructive manner of interpretation in the west, showing the good that can be done among our fellow-men. They closed a most profitable and successful Presbyterian, electing delegates having been in attendance.

NOTICE

Parties in town of country will have an opportunity to have their Pianos or Organs tuned and repaired during the next two weeks, as I will be in Campbellton on July 15th, or within one week from that date.

Orders may be left with The Lounsbury Co., E. Sullivan, D. F. Graham or A. C. Belleisle.

Satisfaction Guaranteed,

W. C. DAY

Graduate Tuner and Repairer of Pianos and Organs.

You may be paid \$50 in Cash for improving your walk like this

108 Canadian farmers will receive cash prizes (twelve in each Province) in our big

1912 FARMERS' PRIZE CONTEST

WE held a contest last year in which 36 prizes were offered. This year there will be three times as many prizes (108) and therefore three times as many chances for you to win one of them. You do not have to use a large quantity of cement to win a prize. Many of last year's prize-winners used comparatively little cement.

THE contest is divided into three classes and is only one of these (Class "A") does the amount of cement used count in deciding prize winners. Class "B" is for doing the best concrete work (no size limit on difference). Class "C" is for setting in the best and cleanest description of how any piece of concrete work was done.

THERE will be four prizes (First, \$50; Second, \$25; Third, \$15; Fourth, \$10) in each class in each Province. You have only to compete with other farmers in your own Province, and not with those in the other parts of Canada. This gives you the best possible chance to win a \$50 prize.

IT COSTS NOTHING TO ENTER—There are absolutely no "strings" to this offer. There is no entry fee or red tape to bother with. You cannot lose, because the improvements you make of concrete in competing for the prizes will be more than worth their cost. We have a book, "What the Farmer Can Do With Concrete," that will give you all the information about the use of concrete you can need. It will be sent to you free when you ask us for magazine articles in one of the Prize Contest. Ask for particulars today. Just say "Send me, free, your book and full particulars of the 1912 Prize Contest." on a post card and mail it to-day. — J. J. Day, Publicity Manager.

THE SECOND ANNIVERSARY

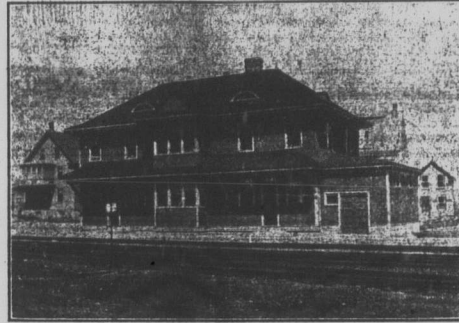

Continued from Page One

lunch time. The station buildings are constructed of wood in pleasing design and replete with all modern conveniences. The board room and offices on the upper flat are laid out tastefully and are bright open rooms. The road is under the control of Mr. Thos. Malcolm as general manager, with Mr. E. H. Anderson as Traffic manager. Altogether there are about 150 men employed on the road, including the train crews residing in Campbellton.

There are five religious denominations in Campbellton, Roman Catholic, Presbyterian, Methodist, Baptist and Anglican.

of the Gaspé peninsula, and the Matapédia valley up as far as St. Flavie. Its ideal location makes it such. It is a divisional point on the Intercolonial Railway system, with its fifteen or twenty daily trains running east and west. It is also the terminal of the International Railway, with a daily passenger and freight service to St. Leonards, making the shortest possible route to the Boston markets by connecting with the Bangor and Aroostook Railway at Van Buren. The International is fast developing a rich and fertile farming country, which in a short time will be of great benefit to the country at large and particularly to Campbellton. Already a number of mills have been established along its route and an impetus to business generally is being felt.

With the completion of the Grand Trunk Pacific Railway, Campbellton will also have the advantage of

International Railway Station

all doing a splendid business.

Some idea of the amount of business done at Campbellton can be gained by comparing the statement of freight and passengers receipts of the Intercolonial as published in the Auditor General's report. Campbellton takes seventh place in the total amount of earnings, the only place showing greater net earnings being the larger cities, Montreal, Halifax, St. John, Sydney, Moncton and Truro.

The lumber shipments have increased very rapidly during the past few years. About the time the town was incorporated the lumber cut on the Restigouche was about twenty million feet, while last year it had reached the one hundred million mark. This year the total will probably amount to considerably over one hundred and fifteen million feet.

Another indication of the importance of Campbellton as a business centre is the fact that there are no less than three banks located here, each doing a rapidly increasing business in fine brick and stone structures. These are the Bank of Nova Scotia, Bank of New Brun-

swick and the Royal Bank of Canada. As a business centre no other town can boast of such splendid facilities and opportunities for catering to the needs of the surrounding country. To the north, south, east and west of us run railway and steamboat lines, carrying freight and expressage and affording the most comfortable means of travel for the business men of the neighboring districts. The fire did much damage to the town but with it all was a blessing in disguise. From the ruins of the old has arisen a new and mighty Campbellton, a better and stronger people, a more virulent society, and a happier community.

The spirit which animated the people in the re-establishing of their homes after the great calamity, still remains, and in the knowledge that Campbellton will always go forward, they are satisfied to work to that end, and make our town one of the most prosperous in the province of New Brunswick.

ARE YOU A CANDIDATE IF NOT, YOU SHOULD BE

Row of Four Houses which Escaped the Flames

wick and the Royal Bank of Canada.

With regard to Campbellton as a shipping port the following figures for the year 1911 will be of interest. One hundred and forty coastwise vessels carried imports of 53757 tons and we exported coastwise 31946 tons. In vessels entered from the sea we imported 30459 tons and fifty vessels cleared with lumber equalling in weight 55000 tons. The trade to American ports has been steadily increasing year after year, while the imports to Campbellton as a distributing centre are steadily growing.

On this therefore the second anniversary of the great fire we can point with pride to our splendid buildings, our factories, mills and workshops, the great river that flows past our doors, opening up a great sea trade, and we can say that we have done well and yet can do better.

The Graphic's Voting Contest is starting with a list of candidates of high character and a standing in the community that is most gratifying.

The list of Candidates who have already entered their names will appear in the next issue. Some are hanging back but a list will grow as the contest progresses. We advise you to study the names and you will be able to tell just how much interest is being taken in this contest. It seems to us that when you consider the number and value of the prizes we are offering, you will easily see yourself a winner of one of them. If you are undecided what to do about it we'd like to talk the matter over with you. We know why some of you hang back. It is the habit of putting off until tomorrow what you could do better today.

If you want a piano here is a chance to get an instrument, costing \$400.00, for a little work. You need not put a dollar in it yourself, only call on all your friends—write to those away from home—ask them all to help you—they will do it.

Cut a nomination blank from the Graphic, fill it out and send to this office. Get busy—Don't delay—Get an early start—Enter today and get a prize.

Write us if you do not understand the directions—we will be glad to help you. DON'T NEGLECT YOUR OPPORTUNITY.

The Graphic, \$1.00 per year Strictly in ADVANCE
