COMMUNICATIONS.

For the Standard.

Mr. Barron.—
Sir.—On a perusal of the Standard of the 22nd instant, I observed an Article with the signature of A. Campbell attached, in which my name is blazoned forth to public view, in such a manner, as to leave me, if the insinuations were accredited, no enviable reputation. I am accused by him, as being the writer of an "Effusion," the Author of which, signs himself "A friend to good order in Society." How far Mr. Campbell is or is justified in public view, in forming hasty conclusions, from the premises in his possession, and giving publicity to those conclusions, time alone will determine. He says "that he would not have considered it necessary, had he noticed the article in question, had it appeared with the author's name affixed; but that if uncontradicted it might possibly injure the cause, which I profess to advocate, but wish to destroy." What the Gentlemen has meant to insinuate by the sentence quoted, I am at a loss to comprehend. To the writer of the article in which I have been attacked I have had no cause for personal animosity having often experienced kindness from his hand; and it is not my intention, at present, to reply, at any length, to the stigmas, which the author may have thought,

perhaps necessary, to cast upon my character by the publication of that article, knowing, that, with an enlightened public, opprobrious epithets, applied to personal character, through the columns of a Public Paper, do not sink the person slandered but on the contrary lowers the writer of such assertions in their estimation. But in order to justify myself, on account of some of the observations, published; the public will excuse me if I become an Egotist for once, and inform them: what I am not. I am no friend to controversy, through the columns of a public Journal: neither do I wish either in private or public, to detract from my neighbour's reputation, by low insinuations, in order to lower his public estimation; so as to assert in supporting a disputed point. I strive to treat every person with due courtesy and respect, in their several stations and relations; neither impugning the character of the Minister of the Gospel, nor criticising too closely the duties of the Magistrate. I never wish to lacerate or wound the feelings of my fellowman, no matter how humble the sphere in which he may move. And more especially would I strive to guard against giving a deadly thrust, if I thought the individual attacked, incapable, from his situation, of repelling such. Knowing myself to be possessed of weaknesses and failings, I look with an eye of charity on those of my fellow brethren, who have resided in St. Stephen more than

twenty years and have been generally treated with marked courtesy by the highminded portion of the community. I will not take it upon me to decide, at present, whether the author, of "A friend to good order in Society," reported the sayings and doings of that Temperance Meeting, correctly, or not; but I do earnestly request the writer to come forward again and exonerate me from the imputations alleged against me. As I am no Lawyer I will drop special pleadings at present.

I am Sir,
Yours &c.
JAMES McBRIDE.

St. Stephens, April 27, 1846.
This is first rate, ain't it.—An American exchange paper, publishes the following advertisement. It is certainly a decided hit at a very unmanly and vulgar practice; and the remarks will apply to a nearer latitude.
WANTED—One hundred and seventy five young men of all shapes and sizes, from the tall, graceful dandy with hair enough on his upper works to stuff a barber's cushion, down to the little hump backed, freckled face, bow legged, carrot headed upstart. The object is to form a gurch corps, to be in attendance at the church doors on each Sabbath before the commencement of Divine service, to stare at the females as they enter, and make delicate and gentlemanly remarks on their person and dress. All who wish to enlist in the above Corps, will appear at the various church doors next Sabbath morning, where they will be duly inspected, and their

names, personal appearance, and quantity of brains, registered in a book kept for that purpose, and published in the news papers. To prevent a general rush, it will be well to state that none will be enlisted who possess intellectual capacities above that of a well bred donkey.

Success of Perseverance.—James Cunningham Esq., owner of the steamers Governor, Charter Oak, Portland, and other steamers, once was a poor Scotch apprentice, but by patient industry, hard study, wise economy, and active and intelligent enterprise, has amassed a handsome fortune. His life furnishes a new example to the young men of the present day to persevere in all laudable efforts at improvement, not doubting that in the end they shall succeed if they faint not.

Mr. Cunningham has just finished a beautiful mansion in East Boston, the best in that part of the city.—State Signal.

A petition has been presented to the Legislature of Canada, from the coloured inhabitants of Toronto, praying that it may be made penal to use towards any of Her Majesty's black subjects in Canada the opprobrious epithet of "nigger!"

A Common Case.—Mr. Bryant, late one of the editors of the Louisville Courier, says he has "scuffled with poverty from his youth up, and were he now relieved from it, it would be a joy of deprivation." His case is not a singular one.

The N. Y. Chamber of Commerce, composed of members of both political parties, have adopted a strong remonstrance to the

THE STANDARD.

St. Andrews, FRIDAY, May 1, 1846.

Immediately after the rising of the Court, yesterday (Thursday) evening, the following Address was presented by J. W. Chandler, Esquire, on behalf the Charlotte Bar, to His Honour Mr. Justice Street.

To the Honourable GEORGE F. STREET, one of Her Majesty's Justices of the Supreme Court in the Province of New Brunswick.

We the Members of the Charlotte Bar, with sentiments of unfeigned respect, congratulate your Honor upon your elevation to the Bench of the Supreme Court of this Province. We recur, with pleasure, to the recollection of your Gentlemanly deportment at the Bar towards all your Professional Brethren, the high sense of honor which distinguished your conduct on all occasions; and we cannot forget the example which your brilliant career has illustrated that abilities of the first order may be associated with urbanity of manner, and a punctilious performance of duties. Your varied and extensive practice of the Law in all its departments, your thorough knowledge of the general business of the country qualify you, in an eminent degree, for the distinguished situation you now occupy; and will we hope enable you to give additional lustre to the Court in which you preside,—a Court whose reputation extends far beyond the limits of this Province.

That your Honor may long enjoy uninterrupted good health is the fervent wish of your Honor's

Obt. humble servants.
(Signed) J. W. Chandler, Saml G. Andrews, Alex. Campbell, Geo. D. Street, Wm. B. Chandler, G. J. Thomson, T. B. Abbott, D. S. Ker, T. B. Wilson, W. Hatch.

April 28, 1846.

To the Members of the Bar, in the County of Charlotte.

GENTLEMEN,
I cannot but feel highly gratified in receiving from those of my own profession, with whom I have for so many years been in the habits of intimacy as a Brother practitioner, such a warm and complimentary testimonial of their respect and esteem, as your kind address has bestowed upon me, and I trust my future conduct as a Judge will secure to me, a continuation of that high estimation of my character and abilities which you are pleased to assure me, my career as a Barrister, has produced.

It has always been my greatest desire, while at the Bar, to exert all my influence in promoting a strong Bond of Union among the members thereof, and to prevent dissension—as it is a body that can only hold its due rank and influence in the country, by its members uniting cordially in maintaining its respectability and high character for integrity and honor—and be assured Gentlemen that, although I am now removed to a higher branch, yet I shall never cease, to take a warm interest in the prosperity of the Bar, with present members of which, generally, I have so long lived and moved in social and friendly intercourse as well as in professional practice, and while they maintain and keep up a due and proper respect for themselves, they will be sure to command it from others, and will ever find in me a sincere and zealous friend.

Some of you gentlemen are young practitioners, allow me therefore to remind you, that although man cannot command powers of mind, which it may not have pleased God to have given him, yet he may greatly improve these natural abilities he does possess by deep study, industry, and close application to the duties of his calling; and that integrity of character, high sense of honor, and gentlemanly habits are all within his reach, and although necessary requisites to every gentleman, are more particularly called for, in a member of the Bar.

The high character that the Bar of this Province has hitherto held, has led me heretofore to feel proud of being a member of it and I have full trust and confidence that the same will always be kept up, and it will thus afford me the highest satisfaction as a Judge, to stand well in their estimation.

I have only to add my sincere thanks, for the good feeling and kindness which have prompted you to present me with this complimentary address. And believe me,

Gentlemen,
Always your sincere and warm friend,
Geo. FREDK. STR. ET.

The Grand Jury presented an Address to His Honour Judge Street, a copy of which we have not yet received.

From the Courier.
Tribute of Regard—On Wednesday last a Piece of Plate, subscribed for and procured by a number of the inhabitants of this City and County, was presented to John R. Partelow, Esquire, by a Committee, on behalf of the subscribers, accompanied by an Address, explanatory of the intentions of the donors, which, with Mr. Partelow's reply, will be found below. This mark of respect must have been peculiarly gratifying to the feelings of the late City Chamberlain, after his complete triumph over an unmerited and malignant persecution, as well as highly complimentary to him as one of the leading Members of the Provincial Legislature.—The inscription on the Plate was as follows:
PRESENTED TO
JOHN R. PARTELOW, Esq., M. P. P.
for the County of St. John, N. B.
BY A FEW FRIENDS
As a mark of their Respect for his Talents as a Public Officer and Private Friend.
1846.

Arrival of the
CAMBRIA!
The English Mail by the Steamer Cambria was received here to day, after the paper was put to press.
Liverpool papers to the 19th and London to the 18th ult. have been received from which we take the following hasty summary.
The public mind in England was in a very unsettled state pending the uncertainty of the Corn Bill—some noblemen had become converts to Free Trade, among them the Earl of Essex.
Business was stagnated—Money for commercial purposes scarce.
The state of trade however in Manufacturing districts was more favourable.
We regret to state that the intelligence from Ireland is truly distressing. In some parts of Tipperary the peasantry unable longer to resist the cravings of hunger—plundered the Shops and Flour Mills. Clonmel was in a state of seige. Meetings were held in Waterford and other cities, to adopt measures to meet the existing destitution. Potatoes sold for 7d per stone, Oatmeal for 16s per cwt.
The House of Commons met after the Easter recess—when the Irish coercion bill again formed the subject of debate, which stood adjourned until the next day.
The government have at length determined to bring in a bill to enable Railway Companies which have no acts to dissolve.
An Attempt was made to shoot the King of France, while riding in his carriage with the Queen, and other ladies. Three balls entered the carriage—the assassin was immediately taken into custody, and proved to be an old General.
Affairs in Spain have approached a crisis which renders it questionable whether they can be more degraded. Narvaez in consequence of a quarrel with Christina, has been driven out of the country.
Sir Allan McNair has retired from the Speakership of the House of Assembly in Canada, in consequence of severe family affliction. The Province will therefore be deprived for a time, of his abilities.—The hon.

A. N. Morin, his successor, is said to be well qualified to discharge the duties of that important office.
Mr. Morin is to hold the office during the absence of Sir Allan.
An Inquest was held at St. Stephen, on the 3d inst. before David A. Rose, Esq. Coroner, on the body of Mrs. Elizabeth Sutherland, who was found drowned, near the Public Landing at that place. The Jury brought in a verdict of "accidental death."

POTATOES.—Several eminent Farmers recommend to persons who intend planting potatoes this season to put them in the ground whole, unless they are very large, in which case they may be cut once—two sets or whole potatoes in a hill, or if in drills or beds half sixteen inches apart. New land is also recommended, from the fact, that in every instance where they grew last year on this description of land, the potatoes were sound, not having been visited by the rot. A more extensive cultivation of the Turnip and common white Bean is urged, they being good substitutes for the potatoe, and easily cultivated.

Total Abstinence Society.
The monthly meeting of this Society, was held in the Town Hall, on Monday evening last. A large and respectable audience was present, among whom we observed a number of strangers, whom we suppose were led to attend the meeting from the interest they felt in the progress of the cause. This must be gratifying to the members of the society, who so fearlessly and sincerely advocate the claims which the question of Total Abstinence has upon the attention and countenance of the public at large. The meeting was addressed by A. CAMPBELL, Esq. of St. Stephen, who offered a number of arguments in favor of total abstinence from intoxicating drinks—and related a very gratifying circumstance which had lately occurred in the upper part of this County, at the village of Milltown, where he stated there were now but 17 persons who had not signed the pledge, and farther, that ardent spirits in any quantity however small could not be obtained in the village. He was followed by Messrs. Elliot and McCurdy, who each made a statement as to the progress of temperance principles in the town; Mr. McCurdy having enumerated the number of pledged Total Abstiners in the parish, made a comparison as to the proportion of the population to that of the members of Total Abstinence Societies in the same, by which it appeared that more than five sixths of the inhabitants of this Parish, were still standing aloof from, and had not identified themselves with the abstinence cause—this plainly shows, that much still remains to be done by the friends and advocates of the cause. The Rev. M. Pickles next addressed the meeting in his usual feeling and earnest manner, and called upon those who had already joined the ranks of the society, to stand firm to the engagements which they had made, and thereby prove the usefulness of making such engagements.
Some names were added to the pledge.—Although the society has many obstacles to encounter, yet it is surely if not rapidly exerting a beneficial influence upon this town and neighborhood, and we trust the officers and members, will be stimulated to renewed exertions by the success which they have already met with.

The Governor General has recommended an appropriation of £4,500, for the payment of arrears of salary due L. J. P. Piquet, Esq., for his services as former Speaker of the Lower Canadian Assembly.
The business of the Court is progressing but slowly, several causes will lie over until next term.
A Fire broke out in Fredericton on the 25th ult. in Queen street, which at one time threatened destruction to the whole block.—After destroying three buildings, the property of Mr. F. W. Hatheway, the fire was extinguished. The buildings were insured.
"Charlotte Gazette."—We unintentionally omitted to notice in our last, that the Prospectus of a paper under the above title, to be published in this Town, has been issued by Mr. McLachlan. It is to be devoted to the leading interests of the County—and unconnected with any party. We wish the talented Editor much success.

The Phoenix Advertiser.—A new paper recently started in St. John by J. & A. McMillan, the first number of which is before us. It is to be circulated gratis, depending entirely upon advertising patronage for support—we wish its proprietors success.

Teas Destroyed.—A fire broke out in New York on Friday night in the new block of stores, corner of Cherry and Pike Streets. The cargo of tea lately received by the ship

Rainbow, from Canton was destroyed with the building.

From the Brooklyn (N. Y.) Star, April 24.
Another Boat at the South Ferry.—Men Hoisted—and a number reported missing.—Last evening, just at dusk, as the Germans employed by the Atlantic Dock Company were returning from their work to go to their homes, they were attacked by a number of Irishmen with stones, and very much injured. The citizens of the neighborhood were first aroused by the cry of murder. The Germans were observed running to the South Ferry boat (which was then in) for their lives. The ferry master observed five or six of them with their faces much bruised, the blood streaming down their cheeks, and one man in particular holding his hands to the back of his head, which seemed to be fractured. It is reported that the man died on reaching the opposite side of the river. A man was taken into Mr. Quirk's drug store; we could not learn the extent of his injuries; another named Christian Bisset was taken into Dr. Chapman's, on State street, having his skull badly fractured, where he received every attention by Dr. Chapman Moriarty; he was removed by his friends this morning to No. 155 Stanton street, New York, where he has a wife and several children. It is the opinion of the Doctors that he will not recover. This man was found lying among the curb and other stones in Anderson's yard, Columbus st., near Atlantic.

Another report is that at least twenty or thirty women have been quarrelsome with the contractors for their husbands. Two hundred and sixty are employed upon the works. At the roll call this morning there were at least thirty of the men missing.
The Deputy Sheriff, was on the spot at the time of the outbreak, and seized one of the rioters, who was rescued by his countrymen. One or two military companies were called out last evening under the alarm of the riot. District Attorney was early on the spot this morning making inquiries, and using the utmost activity in obtaining witnesses.
Several indictments have been found by the Grand Jury against the earlier rioters, and others will probably grow out of the disturbance.

CANADA.—A correspondent of the Quebec Mercury, writing from Montreal, furnishes the following intelligence from that city.—"The Militia Bill is announced for Friday it is stated by those who profess to know, that the Imperial Government asks of Canada an appropriation of £5,000 per annum for the pay of certain officers; whatever other sum is necessary will be furnished by it—that it is intended to call out the Frontier Battalions immediately—that the arms accoutrements and clothing are already shipped; the markets are to be percussion. Every Colonel will be required to furnish security for the stores furnished him; and the Captains of companies in turn will have to give their Colonels security to the amount of £250 for their quotas, being allowed for keeping the same in order, 1s per musket.
The drilling of the Volunteers is going on rapidly, and they already make a respectable appearance. I was present at a drill of the Fire Companies last night; they mustered about 500 in the great hall of the market; they are a fine body of men; the first company look particularly well in their brass helmets, of a Roman pattern. In good truth, we are getting a military population.

Flare up in Montreal.—The Montreal Corporation lately divided equally in the question of choosing a Mayor, and subsequently neither of the two candidates was chosen, and the City is at latest advices without a Chief Officer. The best of the joke is, however, that while one of the candidates was in the chair, the other, voting for himself, carried by a Majority of one. It was then claimed that the candidate in the chair, had a right also to vote for himself.

Free Trade Association of Montreal, or more properly speaking, the Grand Montreal Monopoly.
Sir Robert Peel has acknowledged himself a convert to Free Trade, and no sooner is the announcement made than followers are found in every direction, and even in our metropolitan advocates of the enlightened policy are without number, and The League is established.
Let us look at its manifesto and see how miserably contracted are its views. The following extract is given entire:—
"First, we shall show the amount of produce collected annually on the shores of our great Island waters and brought to this city for distribution to the various markets of consumption; next, the vast quantity that passes through the Erie Canal, seeking a market at New York and other American ports; and lastly we shall show that it is in the power of Canada to divert a large share of this latter trade through her own waters, if her people and Legislature will promptly give effect to the liberal and enlarged policy which it is the object of this Association to advocate and urge.

No. 1.—Statement showing the quantity of produce by the St. Lawrence to the city of Montreal, in the year 1845
Pork, 6,169 brls. Beef, 723 brls. Lard, 461 kegs, Flour, 590,305 brs. Wheat, 450,208 bus. Other grain, 40,781 bushels, Ashes, 33,000 brls. Butter, 8,112 kegs.
No. 2.—Statement showing the quantity of produce carried through the Erie Canal in the year 1845.
Pork, 63,646 brls. Beef, 7,699 brls. Lard, 3,064,800 lbs. Flour, 2,519,250 brs. Wheat, 1,620,033 bush. Corn, 35,803 bush, Flax, seed, 8,303,000 lbs. Ashes, 89,646 barrels.
From the foregoing statements, it will be

seen that the quantity carried through the latter channel is enormous as compared with the former. It becomes then a question of vital importance, whether a portion of this trade cannot be attracted through the St. Lawrence.
So far well, and we admit the association will deserve well of the country if it can divert a portion of this trade through our own channels, "in a consummation devoutly to be wished," but "oh! most lame and impotent conclusion,"—to fancy it can enlist the energies of the Province to force this trade to Montreal and thence to Portland, as if Canada had any sympathy in common with Portland over Boston or New York.

Had the association advocated a railroad from Sarnia to Halifax, to be constructed by the three Provinces assisted by the Mother Country, it would have found many willing to co-operate with it,—for such a railroad would double the resources of the Provinces—knit them together and be the means of establishing a community of interest now unhappily wanting.
It is to be hoped we will never see the day when the navigation of the St. Lawrence will be free, but it is a question how far we ought to go in building the American Draw Back Bill, and by allowing the river to be navigated by foreign bottoms on payment of a sum so small as not to be onerous, but to be insisted on to show the Sovereign power. With this in summer and our grand railroad in winter, we could make British North America the channel and outlet of the Western States, and see Halifax, St. John, Montreal and Quebec, vying with the largest Cities of the Union.—*Quebec Gazette.*

China.—The latest overland mail brings advices from Canton, Jan. 31 ten days later than the sailing of the Rainbow, which arrived last week at New York. The last instalment of the Chinese indemnity was paid and by the terms of the treaty the English were to evacuate the Island of Chusan. But the Chinese had refused the admission of foreigners into Canton, who are pelted with stones piled up at the gates for the purpose, if they attempt to enter. A notification in the government paper intimates that Chusan will be retained until the city is opened, and that a despatch from Sir John Davis to Keying gave him notice of this determination.
It is stated that Admiral Sir Thomas Cochrane had discovered in the Island of Formosa an abundant supply of coal but a few miles from the shore, of excellent quality. This will be of immense advantage to the steam navigation on the coast. It is said that the coal can be delivered at Hong Kong at two dollars a ton.

St. Helena.—The ship T. H. Perkins from Monilla at New York, brings some further account of the disastrous swells in the harbor of St. Helena. On the first and second of March, a great many vessels were driven ashore by this sudden rising of the water, and lost. Among them were four or five captured slaves. The report of the T. H. P. which is very brief, adds that "the verandah and balcony were swept away, and the fishing boats suffered greatly."

Steam Mails from England to the Pacific.—The British Government has made an arrangement by which the West India Steamers which leave Southampton on the 17th of each month, shall carry a mail, which will reach Chagres on the 21st of the succeeding month—cross the Isthmus, and on the 24th be received on board the Pacific Company's Steamer for Peru and Chili. Returning, the steamers will leave Valparaiso on the 1st of the month, after stopping at Callao, arrive at Panama on the 21st, meet the West India mail on its return from San Juan at Chagres on the 24th, and proceed thence to England.

Earthquake in the West Indies.—The Philadelphia American says, by way of Havana we have received advices from the town of Cuba. On the 23d ultimo, at 7 1/2 in the morning, after a calm sultry night, low rumbling sounds were heard. Suddenly the ground shook violently causing the greatest consternation. The people rushed into the street for safety. The first shock lasted one or two minutes, and after a lapse of five minutes, the ground was again violently shaken. It was a solemn moment, in every direction the affrighted inhabitants might be seen on their knees, calling on God to save them, expecting every moment to be swallowed up. Several lighter shocks were felt during the forenoon, but it is believed no lives were lost. Several buildings were thrown down and very many cracked. In the evening mass was said in all the Churches for their deliverance from death.

The Coming Wheat Crop.—To judge from present appearances, the ensuing harvest promises to be as abundant, as any of its predecessors. The growth last fall was great beyond precedent, and fears were entertained that the plant would not survive the winter. But the season has been highly favorable, and it now looks unusually well. The quantity of ground sown last fall, was probably as great as ever before, and we may expect an overflowing crop.—*Rochester Advertiser, April 23.*
The Grain crops at the South are said to look extremely well, but the unfortunate cotton crop looks no better than usual.

Philadelphia.—The intelligence Washington of the passage of the Oregon resolution in its modified and unobjectionable form has caused general satisfaction, and gives a favorable aspect to business affairs. Stocks have all gone up to-day.

General Smith.—The Editor of the Halifax Chronicle says:—"We have a distinct recollection of Sir Harry, England's great 'Master in the Art of War,' when he served in this Garrison as Colonel of the Rifle Brigade. He was a well made, wiry and compact, Soldier like looking person, with handsome features, a fine eye, and complexion even then bronzed by exposure in the Southern Climate. He was a good amateur actor, rode well, and accompanied by his Lady, a pretty French woman, who used to beat him at leaping ditches and stone walls, was a general favorite both in the garrison and in the community. Long may he live to wear the laurels so profusely and so freshly gathered.

Assault.—We learn that a violent assault was last week committed on the person of James Tilley, Esquire, one of the Justices of the Peace for the County of Sunbury. Mr. Tilley received a violent blow inflicted with the pole of an axe on his back, which broke three of his ribs. As the matter will undergo a judicial investigation we refrain from giving any of the particulars as related to us.—*Head Quarters.*

Worthy of being Recorded.—We are informed that Colonel Miles, of Manguerville, has on his farm a large quantity of Potatoes, for which he will not receive more than two shillings per bushel, nor sell more than ten bushels to one individual, and that for the purpose of seed. This circumstance offers a happy and striking contrast to those in this community, who, a few days since, when cost was not to be procured, had the conscience to ask double the usual market price for what they had to spare of that article.—*Ibid.*
We are authorized to state that the Queen as a mark of her Royal approbation of the conduct of those Gentlemen of the late Executive Council of this Province, who consented to remain in office after they had tendered their resignations during the Legislative Session of 1845, has been graciously pleased to allow them to retain the honorary rank they enjoyed in that capacity.—*Courier.*

Fatal Accident.—On Monday evening a woman named Eliza Johnston was killed by the charge of a gun in the hands of a man named Henderson, who keeps a sailor's boarding house near the Fish market, and with whom the deceased resided. The gun is stated to have been discharged accidentally, lodging the contents in and completely shattering one side of her head.—*Chronicle.*

Infernal Smokers.—A correspondent of the Troy Whig, writing from Cuba, says:—"The entire population smoke cigars. In returning from the theatre, the other night, where I went to see the Revels, I saw ladies generally dressed smoking cigars as they were walking home through the streets. The barber smokes while he shaves you, the negro smokes as he waits upon you, the servant girl smokes as she sweeps or cooks, the children smoke; and over the way are two or three girls who smoke the day through, and cease not when the sun gives way to the moon."

They have some expert thieves in Missouri, if we are to believe the St. Louis American, which states that a man lately carried a sawing to a mill, that it might be cut into boards. The mill was engaged for that day and the owner would not ensure the safety of the log until the next morning, unless the customer would sit astride of it to watch it all night. The man agreed to do so, but fell into a slight doze sometime in the night, which the thieves took advantage of, and stole away the wood of the log without suspicion, and left the man astride of the bark!

MARRIED.
At St. George, by the Rev. Samuel Thomson A. M., Rector, Mr. James Green, to Miss Ruth Colson, born of that Parish.

DIED.
On the 1st instant, Mr. Samuel Curry, aged 55 years, for many years a resident of this Parish, and a member of the Scotch Church, leaving a sorrowing widow and large family, to lament the loss of a kind husband and affectionate father, together with a large circle of friends who sympathize with them in their affliction. [His funeral sermon will be preached in the Scotch Church, on Sabbath morning next, at 11 o'clock.
At Fredericton, on the 25th April, aged 53 years, James Holbrook Esquire, Master of the English Department in the Collegiate School of Fredericton. This upright and estimable man, having emigrated from England in the prime of life, received, twenty four years since, under the auspices of Major General Smith, then Lieutenant Governor, his appointment in the College of New-Brunswick Mr. Holbrook subsequently married the youngest daughter of the late Lieut. Colonel Hailes, at one time administering the Government of the Province. The deep affliction of his widow and three orphan daughters, will, it may be trusted, derive consolation (next to the assured hopes of religion, on whose services he was a constant and devoted attendant) from the grateful and affectionate respect with which his memory is cherished by the numerous body in whose education Mr. Holbrook sustained an important part.

rupts for the County of Charlotte.

REMOVAL.

Thankful for the patronage he has received
would respectfully inform his friends and
the Public, that he has removed to the
House lately occupied by B. R. Fitzgerald,
which has undergone a thorough repair, and
is now fitted up for the reception of Travel-
lers and others. The situation is central
being in the immediate vicinity of the Mar-
ket Wharf. The manager pledges himself
that no effort on his part shall be wanting
to give satisfaction to all those who may
favour this Establishment with their patron-
age, hopes to merit a continuance of that
patronage so liberally bestowed upon him
since his commencement.

N. B.—Good Stabling, and an experi-
enced Hostler.
St. Andrew, May 6, 1846

Houses and Lands.

JAMES W. STREET.

WISTAR'S
BALSAM OF WILD CHERRY.
A Compound Balsamic Prepara-
tion from Wild Cherry
Bark and Tar.

The best remedy known to the world for the cure of
Coughs, Colds, Asthma, Croup, Bleeding of the
Lungs, Whooping Cough, Bronchitis, In-
fluenza, Shortness of Breath, Pain
and Weakness in the Breast or
Side, Lame, Complaint, and
the first stages of
CONSUMPTION.

A THOUSAND CURES in cases deemed
utterly hopeless have firmly established its
superiority over every former medical
discovery. It has always been styled "Na-
ture's own Prescription," being formed chief-
ly from chemical extracts from Wild Cherry
Bark and Tar—two trees that are thickly
scattered wherever disease of the lungs pre-
vails. We give a few instances of its extraor-
dinary power, from a catalogue almost with-
out end.

A lady (address will be given at the New-
York Agency) who was given up by all her
physicians to die of consumption, had a hard
tumour for months on the side—raised among
large quantities of matter a sort of honey sub-
stance—had taken no medicine for two months
being past all hope—entirely cured by a few
bottles of this Balsam in September and Oc-
tober, 1844.

A Williams, Esq., Attorney, Ac., New-
York, cured of spasmodic asthma of 25 years
standing, certified by by Recorder Fairbridge
and J. Power, D. D.

A German, New York city, who had not
sleep, lying down, for 7 years (being obliged
to sleep in a sitting posture) so far cured as to
attend to his business in the most stormy weath-
er.

Thomas Bradley, Esq., J. P., Jamaica, L. I.,
cured of asthma of 40 years' standing.

Mrs. Anna D. Hopkins, of Knowlsville,
N. Y., entirely cured of liver complaint and
general debility of eighteen months' stand-
ing.

Jacob Hoffman, M. D. Huntington, cured
a child of P. Schroebel, of obstinate disease
of the lungs after he had tried all the usual
remedies in vain.

"There is no such thing as fail" in the
history of this wonderful BALSAM. Ever
since the most convincing evidence that
no one can doubt—fully establishes this
fact.

NO QUACKERY!! NO DECEPTION!!
All published statements of cures
performed by this medicine, are, in every
respect TRUE. Be careful and get the
genuine "DR. WISTAR'S BALSAM OF WILD
CHERRY," as spurious imitations are a-
broad.

ALL MAY BE CURED

HOLLOWAY'S OINTMENT!

FIFTY ULCERS CURED IN SIX WEEKS
Extract of Letter from John Martin, Esq., "Chron-
ic" Office, Tubago, West Indies—
February 4th, 1845.

To Professor Holloway.
Sir,—I beg to inform you that the inhabitants
of the Island especially those who cannot afford
to employ medical gentlemen, are very anxious
of having your astonishing Medicines within their
reach, from the immediate benefits some of them
have derived from their use, as they have been
found here, in several cases, to cure Sores and
Ulcers of the most malignant and desperate kind.
One gentleman in this Island, who had, I believe,
about fifty running sores about his legs, arms, and
body, who had tried all other Medicines before the
arrival of yours, but all of which did him no good,
but yours cured him in about six weeks, and he is
now, by their means alone, quite restored to health
and vigour.

(Signed) JOHN MARTIN.
A remarkable Cure by the Pills and Oint-
ment.—A half pay Lieutenant, lately residing at St.
Hollers, Jersey, whose name by request is con-
fided, had for three years suffered from piles and
fistula, besides a general bearing down, of the most
distressing nature. He had in consequence under-
gone an operation, but to no purpose, and at last gave him-
self up to despair. Yet, notwithstanding the com-
plication of complaints, together with a debilitated
constitution, he was completely cured of all his
infirmities and restored to the full enjoyment of
health by these justly renowned Medicines, when
every other means had failed.

EXTRAORDINARY CURE IN THE WES-
INDIES, OF LEPROSY AND OTHER
DIRTY SKIN DISEASES.
June 3rd, 1844.

Mr. LEWIS REEDON, of Georgetown, Dem-
marra, writes under the above date—that Hollow-
way's Pills and Ointment have cured bad legs that
no doctor could manage, ulcers and sores that were
of the most dreadful description, as likewise lep-
rosy, blotches, scales and other skin diseases of
the most frightful nature, and that the cure effected
there amounts to the whole population.

**CANCERED BREAST—A WONDERFUL
CIRCUMSTANCE.**
Copy of a Letter from Richard Bull, Bootmaker,
Tutton, near Southampton
February 9th, 1845.

To Professor Holloway.
Sir,—The Lord has permitted me to wrought
a wonderful cure of Cancer of the Breast, of 15
years' standing, in my wife's breast. In the last
part of the time, eleven wounds were open at once.
The Faculty declared the case as past-cure, several
pieces of bone had come away, and I expected
that my poor wife would soon have been taken
from me. It was then that a friend recommended
the use of your Pills and Ointment, which, to our
utter astonishment, in the space of almost three
months, healed up the breast as soundly as ever it
was in her life.

"I shall ever remain
Your most grateful and obedient servant,
(Signed) RICHARD BULL.

Wheezing on the Chest and Stoit- ness of Breath.

Copy of a Letter from Mr. J. Casey, No. 1, Cropp
ton place, Crompton street Brunswick square
London, April 25th, 1845.

Sir—I beg to inform you that I believe I have
been, for more than three years, one of the great-
est sufferers in the world with Chronic Asthma
For weeks together my breath was frequently so
short that I was obliged every moment of being
checked with phlegm. I never went into a bed,
very often indeed, I have been obliged to pass the
night without being able to recline sufficiently,
my head on a table, lest I should be suffo-
cated. No one thought I should live over the winter
my dear did I expect it myself, but I am happy to say
that I am now able to work from morning to night,
and that I sleep as well as ever I did in my life
and this miracle (I may say) was effected by
rubbing your invaluable Ointment twice a day into
my chest, and taking ten of your Pills at bedtime,
and ten again in the morning, for about three
months.

(Signed) JEREMIAH CASEY.
IN ALL DISEASES OF THE SKIN,
Bad Legs, Old Wounds, and Ulcers, Bed
Breasts, Scrofula, Nipples, Sores and Ulcers,
Cancers, Tumours, Swellings Gout Rheuma-
tism and Lumbago, likewise in cases of Piles
the Pills in all the above cases, ought to be
used with the Ointment; as by this means
cures will be effected with a much greater cer-
tainty and in half the time that it would re-
quire by using the Ointment alone. The Oint-
ment is proved to be a certain remedy for the
bite of Mosquitoes, Sand-flies, Chigoe-foot
Laws, and Coco-bay

Burns, Scalds, Chilblains, Capped Hands,
and Lips, also Bunions and soft Corns, will be
immediately cured by the use of the Ointment.

THE PILLS are not only the finest reme-
dy known when used with the Ointment, but
as a General Medicine there is nothing equal
to them. In nervous affections, as well as in
all cases of general debility, or where there is
a want of purity in the blood and fluids, they
will insure HEALTH TO ALL!

N. B.—Directions for the Guidance of Pa-
tients are affixed to each Pot.
