READ THIS.

Since the days of the harpsichord the piano has stood in innumerable homes, closed and mute, a silent witness to the lack of skilled hands to coax forth its melodies—a locked treasure chest to a multitude of music lovers. But at last a key to unlock its treasures has been found. a wondrous plano-player that, with fingers almost human, plays any plano perfectly.

This device, the Chase & Baker Piano-Player, has a complete mastery over the piano, and plays any composition under the guiding composition under the guiding hand of the operator with faultless accuracy. It is, in fact, a skilled accuracy. It is, in fact, a skilled musician without a soul, affording to anyone the power to render a piece with the precision of a practiced planist. And the greater the operator's skill and taste, the more beautiful will be the interpretation. The Chase & Baker Piano-Player is pre-eminently perfect in construction and in operation. It cannot play a false note, it never slurs, but plays always with absolute precision and certainty of rhythm.

The new Donvig non-capsizable lifeboat, which has just passed successfully through a series of trying tests in the English Channel, is a spherical vessel, so constructed that it remains upright in the most tempestuous seas and cannot be drawn under a ship, no matter how strong the draught. The boat has a double flat bottom inside, and can carry 30 days' provisions. It is divided into four tanks filled with fresh water, which, as it is used, is replaced by sea water, supplied by pumps. This water acts as ballast and holds the boat true. It is believed that the Donvig boat will gradually replace the ordinary type of lifeboats on sea-going vessels.

EDUCATION BILL PUSHED THROUGH

45 Days' Debate.

Argentina Accepts British Conditions-Cattle To Be Imported Into Britain at Once.

London, Nov. 21. - After 45 days' discussion of details, the education bill has passed the committee stage in the House of Commons, the final vote that the bill be reported to the house being 212 to 86. Notice was given that several amendments would be made in the report stage of the

measure. CONDITIONS ACCEPTED. The President of the Argentine Republic has sent a telegram, in which he accepts the conditions named by Right Hon. Robert William Hanbury, president of the board of agriculture, under which Argentine cattle may be imported into England. The conditions are the Argentina shall adopt the British diseases of animals act, inspect her own flocks, and prohibit the moving of infected animals from the districts in which they are located. It is expected that this will result in the importation of cattle from Argentina within three months, and that it will materially affect the importations from

the United States and Canada. THE SHIPPING TRUST. As the date draws near for the completion of the great shipping trust deal, the interest naturally grows keener, and the opening of the career of the International Mercantile Marine Company is awaited with speculative wonder. There have been persistent rumors on the stock exchange that the United States financiers are experiencing difficulty in finding money to complete the purchase of the White Star Line by Dec. 1, but these rumors are dismissed at Morgan's London offices as absurd, and it is authoritatively stated that all the money is here and that everything is ready for the completion of the deal at the appointed

time. In well-informed circles it is believed that the completion of the purchase of the White Star Line will be at once followed by an advance in transatlantic freight and passenger rates.

TURKS WILL BE QUIET NOW.

A special correspendent of the London Times, who has been visiting Persia, took the opportunity on his way to India to visit Koweit on the Persian Gulf, and in a dispatch from Kurrache describes the conditions there. He says that Mubarakh, Sheikh of Koweit, no longer appre-hends direct aggresion on the part of the Turks, provided that British warships continue to give him support, and that his Wahabi allies secure the mainland from the invasion by Ibn El Rashid. The chief danger, according to the correspondent, arises from conspiracies on the neighboring Turkish territory, such as an abortive attempt on land and water in September, which attempt was baffled by the prompti-tude of the British warship at Koweit. Nothing has been done by the Turkish Government to punish the offenders, and the obstructive attitude of the Vali of Busra was evidently due to in-direct instructions from the Porte. Germany, adds the correspondent, is not alone in taking a special interest in the Koweit, as the coveted terminus of a projected railway. Two Russian consuls on the Russian ships have visited Sheikh Mubarakh, but their attempt to impress him with their superior advantages of Russian friendship and protection were unsuc-

Belfast, Nov. 21.-Thomas W. Russell, Unionist member of Parliament, was stoned by a mob after he had addressed a meeting at Dromore. The rioters attacked the hall where Russell made his speech and caused him to seek refuge in a neighboring house, whence he tried to escape in a carriage. The mob discovered him and bombarded the vehicle with stones. Russell was struck on the head, but

was not seriously injured. Thomas W. Russell, Liberal Unionist member for South Tyrone, began another land campaign near Belfast early in October. He declared that 80 per cent of the landlords were ready and suggested a new basis for land purchase, under which the state would \$700,000 among widows and orphans in give \$50,000,000 for the benefit of the insurance. landlords. Russell is opposed to home rule for Ireland.

Edinburgh, Scotland, Nov. 20. - Emperor William, on his way to embark on board the imperial yacht Hohenzollern, lying in the Firth of Forth, arrived at Dalmeny today, and was met by Lord Rosebery. As his majesty's carriage was leaving the station the hoses attached to it became frightened at the waving of the colors of the detachment of the Black Watch forming the guard of honor. The postilions lost control of them, and they got mixed up in the crowd. cident was only averted by the alertness of Lieut.-General Sir Archibald Hunter, who seized their heads and managed to control them.

After lunch the Emperor boarde. the Hohenzollern and sailed for Kiel.

GOVERNOR OF AUSTRALIA. Lord Tennyson, the temporary Gov-ernor-General of Australia, has been formally appointed to that office. The appointment, at his lordship's wish, is for one year only. CROWN PRINCE BROKE HIS LEG. Crown Prince Frederick of Saxony accidentally fractured his leg below the knee yesterday while hunting near CRAZY MAN WITH GUN. A well-dressed individual, evidently insane, accosted a sentry on duty at

the entrance of the Hofburg at mid-night and said he was the Emperor's son, Rudolph, and that he wished to see his majesty. The stranger, who is said to be a merchant of Hamburg, was taken to the guard room and searched. A revolver was found in his pocket, and also a white stave which he called his "magic wand."

CHINA BROUGHT TO TERMS. Advices from the Orient include a story of complications in the Yang-Tse Valley. The Asahi Shimbun, of Japan, says that Germany has taken concurrently.

The man was committed to an asy-

advantage of the naval demonstration made by Britain against China at Han-kow to formulate with regard to the evacuation of Shanghai conditions which would completely obliterate all traces of England's share of influence in the Yang-Tse Valley. The Tokio papers say Germany has induced France to join her in this maneuver. Advices have been received here that the British naval demonstration against China as the result of the refusal of the Chinese Government to punish the officials in Funan, who refused to provide protection for Revs. Bruce and Lewis, the missionaries murdered in Chen-Chou, has resulted in an edict being made by the Empress Dowager on Nov. 2 for the decapitation of the officials and the imprisonment of minor officials. The Chinese Government refused to punish these officials as requested by the British minister, and the Governor of Funan, in an official communication regarding the matter, used the term "barbarians" to designate the dead missionaries. This incensed the British minister, and he again called on China to punish the officials. The Imperial Government persisted in it being done, and the British made a naval demonstration. This brought the Chinese Government to time, and the officials were ordered to be exe-

Guatemala Refugees Confirm the Society Women Throng the Old Accounts of Ruin Caused by Volcanic Eruption.

San Francisco, Nov. 21.-The first of the refugees from the devastated lands of Guatemala arrived here yesterday. When they sailed Nov. 7 the volcano was still smoking and rumblings of thunder and flashes of lightning gave evidence of more eruptions to come. They escaped to the seaside with little more than the clothing they wore, transportation being so difficult as to preclude the carrying of baggage.

The refugees confirm stories of the loss of life. They say that the victims, for the most part, are Indians. Thousands of Indians were asphyxiated or buried in the sand. COURT WELCOME'S SUPPER. Court Welcome, No. 12, I. O. F., held their seventeenth annual oyster supper last night in the Foresters' Hall at East London. The affair was a huge success in every way. Not only was the supper itself admirably prepared and served, but the programme as well left nothing to be desired. The attendance was very large, perhaps the largest that has ever been known at an affair of this kind in the hall.

From 7 to 8 o'clock, the stairway was jammed from top to bottom, with an audience hungry to get at the good things in the hall above.

Among those present were: Bro. C. H. Merryfield, H. C. R., from Moncton, Ont.; Bro. Frank McCormick, H. from St. Thomas; Bro. Hunt, H. G. S. of London, and Bro. Henry Pratt, H. W., also of London.

The programme presented was as follows: Address by chairman, C. H. Merryfield, H. C. CRUEL MOTHER BROUGHT TO TRIAL

Bailey to Hear the Child's Terrible Story.

London, Nov. 21. - The famous Old Bailey Court was yesterday the scene of a remarkable trial. Mrs. Penruddicke, the wife of a Wiltshire magistrate and land owner, and a recognized leader of society in the west of England, was charged with systematically ill-treating one of her own children. The greater portion of the court reserved for the public was taken up by well-dressed women, and there was a big array of lawyers engaged in the

Guests by Mrs. S. Barton French.

Hot Springs, Va., Nov. 21.—Sir Wilfrid and Lady Laurier, Sir William Mulock and Sir Wilfrid's brother, Mr Henri Laurier, M.P., arrived at the Homestead Hotel at the Virginia Hot Springs on Wednesday morning for a short visit, in order to give the Premier the advantage of a few weeks' rest and an open-air life among the mountains. Sir Wilfrid appeared in good health and spirits upon reaching his destination. Most travelers drive from the station to the elevated grounds occupied by this popular resort, but Sir Wilfrid and party walked up, and much enjoyed the scenery. Before luncheon the Premier took a short walk with his brother, and in the afternoon quite a lengthy one with Sir William Mulock, covering a distance of about four miles, returning to the hotel with a jaunty step, showing that the mountain air had agreed with him He seems charmed with the surroundings, which are certainly healthful and invigorating, according to Sir William Mulock, who has been here before However, the latter is not here for his

Sir Wilfrid and Lady Laurier were given an informal reception yesterday afternoon by Mrs. S. Barton French of New York, who owns the largest villa here. Mrs. French was assisted by her mother, Mrs. Walker Fearn, widow of a late representative of this country in Egypt, and also at one time in Athens. Mrs. French has traveled much, and was educated at Oxford, so that she and Mrs. Fearn have seen much of public life abroad. Mrs. Nation Advises Them to Take Off Their "Disgraceful Clothes"-Had To Be Ejected.

New York, Nov. 21. - Mrs. Carrie Nation broke loose at the horse show yesterday afternoon. She harangued the multitude on the evils of overdress, attempted to break a bottle of champagne and finally was ejected from the building by the police.

Mrs. Nation entered the garden quietly and took a seat in the tier. She had been there only a few minutes when her gaze rested on the box where some of the Vanderbilt family were Bitting. She studied the programme and then descended to the promenade. Stationing herself in front of the Vanderbilt box, she delivered a tirade on

Inquest Begun in the Case of Florence MacFarlan.

Victim Invited Her Slayer Into the Parlor-Man's Picture Found on the Body.

Rechester, N. Y., Nov. 20 .- The coroner's inquest on the death of Miss Florence K. MacFarlan, who was stabbed to death Tuesday morning by Mrs. F. E. Young, was begun today at the public morgue.

James MacFarlan, father of Florence MacFarlan, learned of his daughter's death upon his arrival at Indianapolis, thrusting the knife into her breast, Ind., today. MacFarlan, who is a traveling man, said his daughter and Frank Youngs had been infatuated for some time and that he had warned of her father. the latter to cease his attentions to Miss MacFarlan. Mr. MacFarlan was left her. A cut about six inches in preparing to telegraph his daughter a birthday present when the news of her death was broken to him. He declared Mr. Youngs and his daughter had been intimate friends, but denied that the latter was a music teacher.

VICTIM WAS SOUGHT OUT. It appears that Miss MacFarlan, the murdered girl was sought out by the Jealous wife, Mrs. F. E. Youngs. victim fled before her assailant, who stabbed her in the breast and arms. The fatal shrust penetrated the woman's heart. To her parents Mrs. Youngs confessed the crime, but declared she did not know how badly her victim was injured. Her intention, she said. was not to kill but to maim. THE HUSBAND.

Frank E. Youngs, the husband of the woman under arrest, is a well-known man in Rochester. Miss MacFarlan was rooming in the family of Mrs. Louis Savoy, but boarding elsewhere. When Mrs. Youngs called, Miss MacFarlan invited her in, and they sat in the little parlor in the front of the house. No loud words were used, or, in fact, anything done to lead Mrs. St. Louis, the cook, to FURTHER DETAILS OF MURDER suspect anything. THE ATTACK.

Suddenly Miss MacFarlan rushed out of the parlor and toward the dining room, which is just off the hallway. Mrs. Youngs was close behind her. A blow already had been struck. Miss MacFarlan stumbled and fell against the dining room table, and spurted over the white linen cloth. Miss MacFarlan regained her balance and started for the little pantry just south of the dining room, and closed the door.

VICTIM PRAYS FOR MERCY. Mrs. Youngs dragged the door open and advanced upon the girl, who fell upon her knees, begging to be spared. and, waiting a moment to exclaim that she had avenged the loss of her husband's love, left the house. She was arrested two hours later at the home'

Last Obstacle in the Way of Negotiations Removed.

TITLE TROUBLE CLEARED AWAY

Will Take Ten or Fifteen Years to Dig the Panama Canal Ditch-Cost About \$40,000,000.

Washington, D. C., Nov. 20 .- Practically the last obstacle to the completion of negotiations for the Panama Canal route has now been removed. If all goes well the President will be able to incorporate in his message to Congress week after next a positive statement to the effect that the United States is now in position where it can go ahead and begin actual operations on the interoceanic canal.

The Minister of Colombia, who took has received from his Government a sharp reminder that it is his principal business to secure a canal treaty, and that he is not expected to concern himself at all with the domestic affairs of the home government. The result is that Secretary Hay and Minister Concha have reached the basis of an agreement, and the treaty will probaby be signed before Congress meets.

If not, a protocol or basis of agreement will be signed which will take the place of a treaty for the time being.

FIFTEEN YEARS' WORK. It is estimated, by those in a position to know, that it will take somewhere in the neighborhood of ten or fifteen years to build the big ditch. Some people have imagined that the United States had only to take up the cutting where the French left off, and continue the work until the canal was completed. Engineers who have gone over the ground say, however, that the French did not leave off anywhere in particular, and that, in fact, they have done but little but accomplish a preliminary working survey of the canal route. There has been some dredging and a

but, according to the best reports ob-

It is said that the \$40,000,000 which the United States is to pay will be a pretty good investment, because it will secure for the country a amount of engineering data which it would otherwise take years to accumulate. Many of the French surveys are known to be inaccurate, and some are said to be rank swindles, which were put down on paper at a time when the Panama Company was being systematically looted by its original promoters. Other sections of the work, however, were honestly surveyed, and, taken altogether, it is believed that the operations of the French company will on the whole result in the building of the canal.

SOMETHING TO GO BY. When the working canal commission finally gets together there is every reason to believe that the Chicago Drainage Canal will be made the basis of all future operations. The Panama cut, of course, will involve the expenditure of four or five times as much money, and the work will proceed on a much larger scale, but it is now understood that the first shipment of ma-chinery to the isthmus will all be of the same general type as that used so it upon himself to delay negotiations, successfully to divert the waters of has received from his Government a Lake Michigan toward the Mississippi River. The engineers who have been over the Panama construction say that much of the machinery in use there now will have to be abandoned, and it will also be necessary to organize entirely new methods of work.

It is not deemed probable that the line laid down by the French engin-eers will be adhered to. On the conroute can be profitably varied. FIGHT OVER PIECE OF PIE

Culminates in Divorce Suit and Separation.

Couple With Children by Former Marriage Have a Great Row.

Kokomo, Ind., Nov. 20 .- A fight over who should have the biggest piece of pie at dinner at the home of Noah and Catherine Loop, four miles east of Kekomo, was speedily followed by an application for divorce.

The Loops are past middle age and wealthy. They were married in 1896, it being the second matrimonial venture for each and each have children by former marriages. The household consisted of the elder Loops and both sets of children.

One day this week the family sat at the long table, and, after a blessing on the food had been asked, trouble was seen lurking in the eyes of the children as they glanced at the plate of pumpkin pie. To forestall the threatened action of one of the maternal brood one of Loop's sons, who sat near the coveted pie, pre-empted the biggest piece, so it is alleged, and prepared to defend his claim by dumping it on his own plate. A protest went up from the other side of the table, and Mrs. Loop insisted that the big piece was intended for her own favorite child and that no Loop brat should

The quarrel of the children was taken up by the parents, and there was a boy who had captured the big piece of pie was broken, but not until he had devoured the prize.

As a result of the scrimmage Mr. Loop says he was driven from the house and ordered to remain away. He came to town and filed divorce proceedings against Mrs. Loop and also secured a restraining order to prevent the defendant from selling the crops. In his complaint he alleges that Mrs. Loop broke the arm of his son and struck his children when they were

scale will be necessary, in the near fu-Woolstock, Ont., Nov. 20 .- The largest writ ever issued in Oxford County was served yesterday morning by Messrs. McKay and Mahon. The plaintiff is Mrs. Eleanor Stover, who claims \$100,000 damages in conection with the removal of the E. H. Thomas & Co., Limited, industry, from Norwich to St. Thomas, for which St. Thomas gave a bonus of \$20,000. Damages are asked by Mrs. Stover and other Norwich shareholders for the

wrongful taking possession by the defendants, for removing the plant, appliances and personal property of the E. H. Thomas Company, Lim-ited, of Norwich, and converting them to their own use, and for damages for the destruction by the defendants of the business of the company to the Thomas Bros, and the company formed in St. Thomas, and for an account from the defendants of the moneys received by them by reason of the transfer of the business at Norwich in St. Thomas.

A declaration is also asked that the

resolution of transfer of the assets of the Norwich company to the St. Thomas company, passed at the annual meeting of the company, is ultra vires. When the subject of a bonus was dis-cussed by the council of St. Thomas It is alleged that the Thomas Bros. who held a controlling interest in the industry at Norwich, passed a resolution at the annual meeting of the company, to which the shareholders claim they had received no invitation, that the shareholders in Norwich take the same amount of stock as they then held in the new company being form-ed at St. Thomas. The company in Norwich was capitalized at \$45,000, and the company now existing in St. Tho-mas has a capital stock of \$250,000.

This may read as though we were putting it a little strong, because it is generally thought by the majority of People that Dyspensia in its character and the people in its chara people that Dyspepsia in its chronic form is incurable or practically so. But we have long since shown that Dyspepsia is curable, nor is it such a difficult matter as at first appears. The trouble with Dyspeptics is that they are continually dieting, starving themselves, or going to opposite extreme or else deluging the already overburdened stomach with "bitters," "after dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is a rest. Now how can the stomach besame time the body nourished and sus-

Ninety-Nine Per Cent Are Anaemic-Fifty Per Cent of Older Men Have Rheumatism.

Scranton, Pa., Nov. 21.-When the coal strike commission resumed its inquiry yesterday afternoon much expert testimony was brought out on the question of the health of the mine workers. Three physicians who have practiced in Scranton or Wilkesbarre took the stand for the miners and in substance testified that the occupation of a mine worker was "very unhealthful" and shortened his life. One physician, Dr. Frank P. Lennahan, of Wilkesbarre, who says he has had a long experience among mine workers, testified that fully 99 per cent of the men who work in the mines are anaemic. Their health is impoverished and their general condition is below par, thus decreasing their earning powers. The principal ill suffered by the miners, the physician said, were the miners' asthma, rheumatism, lumbago and sciatica. The miners' asthma comes from coal dust, powder smoke and vitiated air. Dr. John O'Malley, of Scranton, said that at post-mortems he had seen miners' lungs as black as anthracité itself, and Dr. Lennahan testified he had personal knowledge of a man coughing up coal dust nine years af-ter he left the mines. He said he had information that a man had coughed up coal dust fifteen years after he had left the mines.

It was also stated that 90 per cent of miners who reach the age of 50 years are afflicted with some form of rheumatism.

WILL COST A MILLION.

Chicago, Nov. 21.-A News special from Scranton, Pa., says: A million dollars is the estimated cost of the coal strike arbitration proceedings now in progress. From the day the operators agreed to submit their differences with the miners to the decision of a commission appointed by President Roosevelt, the office of every company has been crowded with a large force of extra clerks and accountants, put to work to gather evidence. The operators will put in evidence re-

garding the violence resorted to by the strikers. This evidence was gathered by a small army of employes paid by the operators. This indictment is now complete, and fills a printed book of 72 pages. Every case summarized in those 72 pages cost money.

Two mills in Minneapolis have been bended and placed under heavy surethe United States Government for the purpose of grinding Canadian wheat and oats for export. The Minneapolis milling interests would gladly see the United States duty on Canadian grain removed. The hard wheat belt is receding northward, and the Minneapolis millers find it necessary to import increasing quantities of Canadian wheat for mixing in order to keep up the grades of flour exported to the British market. Under the bonding privilege they can bring in Canadian wheat free of duty and grind It in the United States for export, but not for home consumption. They claim the duty also is burdensome to them in another way-Canadian wheat is shut out of the United States and is forced, before the close of navigation on the lakes, to seek the British market, where it is ground by British millers and depresses the price of American flour. If there were no duty a large portion of the Canadian crop would go to the United States and would not "bear" the prices of American flour in Great Britain to the same extent. The Canadian millers also take a selfish view and have gone so far as to advocate an export duty on wheat in order to keep the profit of grinding it in Canadian hands as much as possible. home, the more employment for capital and labor in the Canadian milling industry; but an export duty on wheat would be too heavy a price to pay. The farmer is sufficiently burdened with import taxes without imposing an export tax, which would prevent him selling his wheat in the dearest market.

Developments in New Ontario. The Buffale News says there is "the foundation of a new empire in New Ontario." A new empire in the land

of the stunted poplar, of rock, and muskeg! The News hasn't read Mr. Whitney's speeches or the diatribes of his local organ. It is an odd situation: newspapers and public men in Ontario decrying the Province, and American papers dilating on its resources and its great future. The organization of a syndicate to put 12,000 families into Temiscaming district has attracted wide attention over the border.

The Minneapolis Tribune says:

"Ontario is an immense province in what may be termed for convenience, middle Canada. It has an area of 222,000 square miles, and a population by the last census of over 2,000,000, mostly in the southwestern portion. In years gone by the great unoccupied spaces north of Lake Superior have been deemed hardly fit for human habitation. But Ontario is like a great many other portions of the North American continent. As it becomes better known it is found to be better than its former fame. Climates thought to be too cold and bleak have been found tolerable, and areas reputed to be fit only for scrub growths of timber and the lairs of wild beasts have been found arable. It seems now that exploiters have been able to discover enough attractions in a hitherto ne-flected region to enable them to offer

inducements to intelligent and thrifty American families to seek it for purposes of home building. What with irrigation and improved methods of cultivation and building and development, it looks as if ultimately there will be very little of the North American continent left un-The syndicate scheme for the settle-

ment of the Temiscaming country has not been fully matured, but the conditions already made public are very satisfactory and safeguard the interosts of the Canadian people. There are millions of acres in the clay belt not get occupied or even surveyed. The population is growing rapidly and the need for railway communication is wery urgent. In addition to the Temiscaming Railway now under construction by the Government, railway development is proceeding in other portions of New Ontario. The Canadian Northorn is locating a route from Fort William to White River to connect with the Algoma Central. The latter is completed to within 25 miles of White River, and when the connection is made the Canadian Northern will have access into this portion of the Prowince over the Algoma Central and the Manitoulin and North Shore. The Manitoulin and North Shore will strike from the north shore of Lake Huron ecross Manitoulin Island and the Bruce peninsula to Owen Sound and you." other Georgian Bay towns, the water gaps being covered by ice-breaking ferries. New Ontario is on the eve of big things.

Mr. Monk Rebuked.

We predicted the other day that Mr. Monk, the leader of the Quebec wing of the Conservative party, would make more trouble for the Opposition than for the Government. He tried, witheut success, to inflame the French-Canadians against Sir Wilfrid Laurier, at the time of the sending of the coatingents to South Africa, by repreventures of Great Britain, and to share in the cost of a rampant imperfalism. He pictured Canada as on the werge of the abyss of militarism,

dragged thither by Laurier, the tool of were on the other tack, denouncing date. Laurier as a traitor and anti-imperialist. Mr. Monk is still playing the same game by denouncing the transfer of the THE LONDON ADVERTISER COM- Public Works portfolio to an Ontario Minister as an insult to Quebec, and to the French-Canadians. The Toronto Telegram, Conservative, says:

"Conservatism cannot be strengthened in Quebec by Mr. Monk's catch-penny appeals to provincial prejudice. It is almost time for Mr. R. L. Borden, M. P., to prove his strength by putting the brakes on Mr. Monk. Mr. Monk imagined that he was playing a deep game by persuading the Opposition to keep quiet, and thus lend color to his protest against the imperialism of Wilfrid Laurier. The imaginings of Mr. Monk are vain. Insincerity and petty deceits are not the best politics. The Oppo-sition has only to commit itself to Mr. Monk's tactics, and it will lose two seats in Ontario for every seat that Mr. Monk can carry for its candidates in Quebec."

The French-Canadians refused to listen to Mr. Monk's incendiary cry at the time of the war, and they are too broad-minded to heed his present sectional appeals. Quebec appears to be perfectly satisfied with the Cabinet

A Praiseworthy Movement.

The movement for the erection of a monument to Queen Victoria has plenty of enthusiasm and energy behind it and the ladies who have the project in hand will no doubt see it realized before very long. It is not necessary in this loyal community to advance reasons why the memory of the late Queen should be thus honored. There are other grounds for appealing for public support. It is rather a reproach to London that it has no public monuments. Ottawa has its noble group of statuary on Parliament Hill, erected by the nation. The parks of Toronto are dignified by splendid memor-The more Canadian wheat ground at | ials, the majority of which have been put up by private subscription. Hamilton boasts of its Macdonald monument, and Brantford has honored the Indian chieftain, Brant. A statue of Tecumseh in this city has been fre quently suggested, but this is the first time that the erection of a public monument in London has been actively promoted. Victoria Park will make an admirable and appropriate site for a statue of Victoria.

A London dispatch says the Grand Trunk will apply to the Canadian Government for a charter to build a line to the Pacific coast. Another line is badly needed, but there will be no repetition of the C. P. R. bargain if the Canadian taxpayers know it.

Generals Botha and Delarev have given up the idea of visiting the United States. They found that German, Dutch and French sympathy had very little cash value and there was no assurance that Uncle Sam would do better. The Boers will find that John Bull is their best friend after all.

A Toronto alderman is being sued for damages for calling an asphalt company a combine. The company claims the term is an opprobrious one It will be a nice question for the courts whether the meaning of a word is to be determined by the dictionary or by popular usage.

The Toronto City Council and a rad ial railway company have been trying for five years to come to an agreement under which the company's traffic shall enter the city over the tracks of the Toronto Street Railway Company. The London City Council and the South western Traction Company will move faster than that.

The Pacific cable has been successfully tested and was handed over yesterday to the cable board for regular business. Yesterday Marconi confirmed the report that a message had passed be tween Cornwall, England, and Sydney, Cape Breton, by wireless telegraphy. Yesterday was Sir Wilfrid Laurier's 61st birthday. He was born on Nov. 20, 1841; educated at L'Assomption Coilege; called to the bar in 1864; elected to the Quebec Legislature in 1871 and to the House of Commons in 1874. He has therefore been in parliamentary life for 31 years without a break. May he have many happy returns of the day and long live to adorn the premiership.

What Became of Them.

[Montreal Star.] The Boer general Viljoen, has been cturing to English audiences in a pleasingly pungent manner, defining some of the late colleagues as "newspaper generals," and mingling praise and blame for both sides in the war, with the adroitness of a truly journalistic or literary instinct. One of his most telling and instructive hits was

"During the war the Boers had to send away some bad generals, and at the end of it they were found herding cattle. He had heard that some British generals who were sent away were now teachers of military tactics."

Sir Richard and the Novelist. [St. John's Globe.]

The Right Honorable Sir Richard regret over the death of the boys' novelist, Mr. G. A. Henty, Sir Richard read Henty as a recreation. Often in the late hours of the night and in the early hours of the morning, when leading the Opposition in the House, or acting as lieutenant to the leader, Sir Richard sat with one of Henty's novels open on his desk, and fairly devoured ts contents while the tide of battle aged flercely around him. Nevertheess he missed nothing of the fray, for he could read the printed page with his eye, while with his ear he caught ed to declare that if Sir Richard was the midst of some fray in the novelst's page, and an opposing speaker became too "fresh" in his utterances, he gallant knight transferred fight from the page of the book to the floor of the Commons, and it might be well for the offender if the heretofore lovel reader did not wipe the with him. On the other hand, if the ovelist were at his gentlest mood Sir Richard, too, was gentle, and he heard with indifference or even with pleasant humor the evil things that might be uttered concerning himself and his party. Sir Richard has other favorites among the lighter novelists, but he took his humors very much from Henty, of whom he was a sincere ad-

WHY?

Why do women continue to endure suffering caused by womanly diseases? There are many answers to that question. Sometimes because they have exhausted the skill

of local physicians and remain uncured. At other times it is because they shrink from submitting to obnoxious examinations which local physicians deem Prescription

necessary. And to sum it all up, they endure suffering because they de not know that Dr. Pierce's Favorite makes weak women strong and sick women well. "Favorite Pre-

scription" establishes regularity, dries disagreeable drains, heals inflammation and ulceration and cures female weakness.

"I enjoy good health; thanks to Dr. Pierce's "I enjoy good health; thanks to Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' writes Mrs. J. J. Schnetyer, of Pontiac, Livingston Co., Ill. "I was taken sick and the doctors here called it 'Grip.' I lay for four weeks in bed, then when I got up I found I had 'displacement.' Had such aches and pains in my back and limbs could not stand any length of time. I knew that our home doctor would insist the first thing on an examination, and that I would not submit to, unless I was dangerously sick. My son had your book, 'Common Scuse I would not submit to, unless I was dangerously sick. My son had your book, 'Common Sease Medical Adviser,' and I thought from reading it that Dr. Pierce's medicine would do me more good than all the home doctors—and so it has. I can truly say I was surprised at the beuefit I received. I can do all my washing and also tend my flower garden. In fact I am on my feet most all the time. An old friend of mine said to me, 'Why what is the matter with you? You are getting young again.' I told her I had taken six bottles of Dr. Pierce's medicines, and that if she would do likewise she would feel ten years younger, too."

GRAND TRUNK'S LATEST PROJECT

posed Extension-Hostility to Pacific Cable.

London, Nov. 21 .- A good deal of comment is excited here over the published announcement of an application being made to the Dominion Parliament for powers authorizing a company in alliance with the Grand Trunk Railway Company to construct a railway from some point on the Grand Trunk line to the Pacific coast. The Pall Mall Gazette anticipates that the Canadian Pacific Company will succeed in killing the scheme, as it has killed others before. It is understood, however, in well-informed circles, that the Grand Trunk and Canadian Pacific directorates are disposed to give a more liberal interpretation to the present compact, which precludes either company from trespassing on the ground of the other. It is realized, considering the enormous developments of the east sist on too strict an embargo, which would be liable to deprive newer Canada of the necessary expansions of both the railway systems.

utes of the meeting at which the alleged charges were made. Mr. Shaffer objected, because the minutes were those of a secret meeting. which, if read by Mr. Sheridan, would involve him in trouble with his own organi-

zation for divulging the inner workings of the convention. The convention decided that the question of veracity between Mr. Shaffer and Mr. Sheridan was something with which it had nothing to do. There being no charges against Mr. Gompers, there was nothing to do but return a finding to the effect that Mr. Gompers was completely

exonerated. For the time being, at least, all opposition to the re-election of President Gompers has died out. Since the refusal of James Lynch, of the Typographical Oct. 3 last. Judging from appearances, Union, to run for the office, no effort has been made to find another candidate.

THE SOCIALISTIC IDEA. The convention entered upon an exduced by Victor L. Berger, of Milwaukee. committing the convention to the principles of socialism. The committee on resolutions reported that the principles of trades unions contain all that is necessary at present for the advancement of the workingmen of the country.

Delegate Max Hayes offered a substishould advise working people to organize their economic and political power to secure for labor the full equivalent of its toil, the overthrow of the wage system, and the establishment of an industrial co-operative democracy. The substitute was ruled out of order

Delegate Hayes then offered it as an amendment, and it was so admitted by

The debate lasted until 6 o'clock in the evening, when a roll call showed 4.744 votes against the amendment of Mr. Hayes and 4,344 in favor of it. The millers voted solidly in favor of the amendment. ITS POWER GROWS WITH AGE.—How many medicines loudly blazoned as panaceas for all human fills have come and gone since Dr. Thomas' Eclectric Oil was first put upon the market? Yet it remains, doing more good to humanity than many a preparation more highly vaunted, and extending its virtues wider and wider and in a larger circle every year. It is the medicine of the masses.

KING LEOPOLD ON ANARCHISM

Old London Talking About Pro- Without Order License Alone Remains-License Leads to Despotism.

> Brussels, Nov. 21. - King Leopold made a somewhat striking reply to a deputation from the chamber, headed by the president, who presented his majesty with an address of congratulation on his escape Saturday from the anarchist's bullet. After thanking the deputies, the King con-

> "The times are very troubled. Agitators are constantly stirring up their followers to disturb that order which is the guarantee of public liberties. Without order only license remains, which leads inevitably to despotism. These agitators find in their path firstly the heads of states. If they fail to reach them they attack their wives as in the case of the horrible drama at Geneva. Their blows are also aimed at ministers, as in the case of Senor Canovas, and they also blow up the houses of private individuals. They want to intimidate us, but they will not succeed. Even if they struck down the head of the state, it would make no difference, as he would soon be replaced. In addition to revolver shots they employ the pen, which can write what calumnies they please.

"I am nearing the end of my life. I do not know how long I shall livehow long they will let me live. But I can assure you that all the rest of my existence will be devoted, within the limits of my constitutional powers, to the good of my country and the protection of its liberties."

Corn—Steady, at 59½c for old Canada yellow and 45c for new Canada yellow west. American clubs entered for the contest, the London Hunt, of Ontario, Canada; the Chevy Chase Hounds, Washington, D. C.; the Warrenton Hunt Club, of Virginia, and the Overland Hunt Club, of at 59½c for old Canada yellow and 46c for new Canada yellow west; American No. 3 yellow is quoted at 64c for cars of old, and 56½c for new, on the track here. Oats—No. 2 white, 31c, middle freights. Peas—Steady, at 72½c to 73c for choice No. 2, middle freights. Butter—Steady; active demand both in dairy and creamery; creamery prints, 20½c to 21c; solids. fresh-made. 19c to 20c dairy tubs and Maryland.

A charming and picturesque sight they made in their uniforms of red and white with black velvet caps and silk As the entries from each club came through the gate, three abreast, they were greeted with a blast from

the bugle. They were mounted on the picked jumpers of their hunt, and made a pleasing sight to the eye as they stood grouped in the center of the arena. In this contest uniforms and appointments counted 25 per cent.

The audience tiptoed with excitement as the London Hunt led off at +0+0+0000+0+0+0+ the jumps and club followed club over the barriers. They fenced beautifully, taking the timber with grace and ginger. Dismounting afterward, each rider stood at his hunter's head, until the judging was finished, the bright colors of their uniforms blending cheerfully with the decorations and

bunting of the Garden. It was evidently a hard task for the judges to decide, and they noticeably had much trouble to reach an agree ment. Finally they sent them over the hurdles a second time before they could unite, which resulted in the first prize of \$300 going to the London Hunt, of Ontario, Canada, of which Adam Beck is master, and the two whips who rode with him, W. Wilson and S. Owen. Second prize, \$150, went to the Chevy Chase Hounds; third prize, \$75, to War renton Hunt, and highly commended, Overland Hunt Club. LET FOOTBALL FOLOW

George Stephenson, Colored, Charged With Such Threat.

Another Hotelman Fined for Illegal Selling.

John Stephenson, a lusty young colored man and Cherry, his wife, have not lived together for some time. The reason for this unfortunate state of affairs is said by Cherry to be the the matter of providing the coin which is so desirable even in the humblest of homes. She has been compelled, therefore, to work as a domestic. She was happy until Tuesday, when John, she says, went to the place where she worked, and not only threatened to kill her, but choked her and otherwise used her roughly. So she went to the police and swore out an order for his arrest The warrant was put into effect yesterday, and at police court this morning John was bailed for \$400 to appear tomorrow morning. The security for the bail will rest upon Mrs. Caroline Stephenson, John's mother, and upon himself.

Rev. C. M. Carew Assumes Pastorate Under Favorable Auspices.

Ordination services of a very impressive character were held last night at the Maitland Street Baptist Church, when Mr. C. M. Carew was ordained and inducted as pastor of the congregation. He was examined in the afternoon by a council of Baptist ministers in theology and other subjects pertaining to the duties of his position and was judged by the council to be fit and capable of assuming a pastorate of the Baptist Church. The former pastor of the church, Rev. C. S. G. Boone, vacated the pulpit some time ago, and for a few weeks the church has been without a pastor. Almost every member of the congrega-

His sermon contained many very helpful lessons by which the new minister might profit. He said that when God called upon a man to take up his work he first showed him his unfitness for it, but the speaker earnesty reminded the young minister that while this was so, he was also given the promise that if he did God's work he would be rewarded. THE BURNSIDE RULES. Guy Curtis, on being asked if he favored the Burnside Rubgy rules, said: "No, I do not. They appear all right, and may work well for a little while, but as soon as teams know them thoroughly they will evolve new plays, and the ultimate result will be a system of mass plays and wedges, and finally the present rough United States 'Varsity has not given up hope of securing the adoption of the Burnside rules by the Intercollegiate Union. An invitation has been extended to McGill and Queen's to attend the match here on Saturday. If they pronounce favorable, 'Varsity will move for another vote on the matter.

His horses are at Hornellsville at present, Mr. Miller will wager large sums of money, say as the ordinary man does a new hat. When he gets left he smiles laconically, but when he wins he laconically smiles.

That's the only difference. Mr. Allie Smith, the Buffalo driver. has arrived home with Topsy, 2:171/4, and is going to winter there. He started this trotter in 22 races this season, winning 16 firsts, four seconds, 1 third and fourth. This is pretty good for a green trotter the first year out. Mr. Smith is going to give her two or three races on the half-mile tracks next season, and then tackle the Grand Circuit. He will have a couple more green ones to campaign. Topsy trotted a half-mile track at Johnstown, Pa., in 2:12½ last week. That will hold some the wise trainers around Buffalo, who laughed at Mr. Smith when he told them a few months ago that she would beat 2:15 over a half-mile track before the snow flies.

Being Helped Himself Wishes to Help Others.

The papers were never so filled with advertisements of remedies that will cure every known disease, as they are today; these are invertably accom-panied by letters from people, testifying in the strongest terms to the virtue and merit of the particular preparation advertised; but because so much is claimed for the medicine, it has come to the point where most readers regard such testimony as pure 'fake" and made up out of whole

We are glad, however, to vouch for the reliability of the following from Mr. William Lichtenwalter, proprietor of the largest printing house in Canton, Ohio, regarding the Pyramid Pile Cure, for which nothing is claimed, except that it will cure any and every

form of piles.

"For several months past I have received so many inquiries from sufferers asking if my testimonial is authentic, that I am inclined to send in a bill to you for postage and stationery "It is now two years since I was last troubled, and my rectum is as clear and clean as any man who never had piles, although I suffered with protruding, bleeding and internal piles for twenty-seven years. I will not attempt to detail the agony I suffered, being too happy to say I believe I am cured, after two years of evidence. "What will cure one man will sometimes not cure another; whether it was the Pyramid Pile Cure that cured me, cannot say; but I have been free from piles for two years after using your treatment. I leave sufferers to

draw their own conclusions. "I will answer any communication that a sufferer may ask, and will refer to any business house, bank or manufacturer of Canton, Ohio, concerning my identity, among whom I have lived for forty-eight years." Pyramid Pile Cure is sold by druggists for fifty cents a package, or will be mailed to any address by Pyra-mid Drug Co., Marshall, Mich., upon

Glencoe Transcript: There passed away on Nov. 12, one of the oldest residents of Mos. late A. Burchiel, sen., aftillness, at the age of 92 year. ed was born in the parish of Skull, County of Cork Ireland; married in 1848; sailed for Canada in 1858. After residing in London, Ont., for nineteen years, they located on the south half of lot 8, in con. 3, of Mosa Town ship, where they encountered the usual privations of the pioneer, but by thrift and industry they made ample provision for their declining years. Mr. Burchiel's wife predeceased him five years next March; five children also predeceased him. He leaves two sons, A. Burchiel, on the homestead, and William, of Brooke, and one daughter, Mrs. Hugh McConnell, of Manitoba, to mourn the loss of a kind father.

AT THE GRAND TONIGHT.

In writing "The Scout's Revenge," Mr. John Arthur Fraser has done the best work of his career. He has writ-ten a play that will please the high-priced people as well as the gallery. The play has enough sensation in it to satisfy the lovers of gun-play, while the beautiful love story and bright clean comedy will appeal most forcibly to the more fastidious. It will be given at popular prices at the Grand tonight.

JUST TOMFOOLERY.

"The Show Girl," the attraction at the Grand tomorrow afternoon and evening, is receiving favorable criticism all over the country. The Montreal Herald said of it: "'The Show Girl' is not a comic opera, nor a musical comedy, nor anything at all in particular. Its proper title could not be found in any glossary of theatrical terms. It isn't anything. A 'folly bit of tomfoolery,'the programme calls it. This is one way of avoiding giving it a name. But the

programme is just about right. Tomfoolery it is from beginning to end. But it is tomfoolery that is never loud, never vulgar, never repellant just the jolliest kind of tomfoolery all the way through. There is not the shadow of a plot to worry about. Three hours of music, song and droilery, with never a minute that is slow and duli: comedians who are genuinely funny and chorus girls who are genuinely pretty: songs that have some point to them and music that rings pleasantly in the ear long after one has heard it, effective costumes, stage pictures that always please the eye, and snatches of burlesque that one can't help laughing

MELODRAMA FOR MONDAY. Holden Bros.' production of the great sensational comedy-drama, "Nobody's Claim." with a thrilling snowstorm, a realistic fire scene, and its wonderful railroad scene, will be given at the Grand on Monday evening. CITY COUNCIL IS URGED TO DEFEND RIGHTS OF CITIZENS

Mr. Nicholas Wilson Speaks of 1853." It was in 1857 that the building Long Standing Abuses.

They Should Not Be Augmented by Building New Siding.

PROJECTS which come before city council are opposed as vigorously and effectively as Mr. Nicholas Wilson, one of London's most venerable and esteemed citizens, opposed, last night, the proposed plan of

constructing a new R. siding on Bathurst street, from Burwell to William streets. There are many men in this city, and out of it, too, who would have been glad to have heard Mr. Wilson as he spoke upon this matter, for it showed that he is still strong mentally and physically, as in the days when they were his pupils at the old Union School. His protest against the granting of permission for the construction of the siding was one of the most effective ever heard in the committeeroom, and plainly impressed the aldermen, who decided that thy would take no action whatever until after they go to the district affected and personally understand the situation. It is do as they pleased. a fact worthy of note that Mr. Wilson, "I have lived there over 50 years," who spoke from one or two notes which Mr. Wilson said. "I have resided in the he had with him, was able to read them without his glasses, and he at the time

taught school in this city for nearer 60 than 50 years. Mr. Wilson has been the longest suffering of the residents in the neigh-berhood of Bathurst street, the Hamilton road and Maitland street, whose property was affected by the construction of the London and Port Stanley Railroad along the Hamilton road. His references to this fact brought up thoughts of the time when London was on the veranda of his home "and have

my home was a pleasant one, my surroundings were agreeable, and my friends who came to see me complimented me upon its location." That was before the railway came. "My before the railway came. "My before the railway came."

Mr. Samuel Winnett also addressed the committee briefly, corroborating what Mr. Wilson had said, and the other members of the delegation present opposing the siding were Messrs. home was there before there was a single railway in Canada," he said, "for the Gray, Wm. Hawken and James the Great Western was only built in Brooks.

of the L. and P. S. R. was brought up, and after choosing one route, the promoters changed it so as to run along the Hamilton road. Mr. Wilson and others protested unavailingly against this, and the road was built. He had a frontage of over 300 feet on this thoroughfare, lots of room to build cottages, but he could never do this.

The depreciation in the value of his property, for which he never received one cent in the way of compensation, was not the only grievance of which he in common with other residents in the neighborhood had reason to complain. committees of During all these years they had been forced to contend with the annoyances incidental to the immediate proximity of the railroad. During the last fourteen months this noise had been ter-

rific. "You would think that it was pandemonium itself," Mr. Wilson declared. "We can never sleep after 5 o'clock in the morning. Frequently in the night also there is a great noise. It is a terrible annoyance. I am old and my wife is old and feeble. I consider it a great hardship. This demon of noise is constantly heard. It is a shame that human beings, citizens of a free country, should have this hardship imposed upon us." More than that, the dust, cinders and rubbish thrown upon his property from the railway was continually injuring it.

This was only preliminary to Mr. Wilson's present protest. After enduring all this for so many years, the L. and D. R. R. was now asking that the council freely grant them the privilege of constructing a siding along Bathurst street, beside the frontage of 275 feet which he had on that street. Thus he would be hemmed in between the two. The latter would be more annoyance than the first, for they would be shunting and loading and unloading on a siding all the time. His property would be shut up valueless. Mr. Wilson said that the company was becoming more aggressive all the time They seemed to think that they could

If I had given my place up years ago, I might now have had a comfortable home and spend my time in peace and quietness in the

Letters to the Editor.

THE PROHIBITION QUESTION. To the Editor of The Advertiser: I see in your issue of yesterday, 17th, an article styled "Dr. Chown Confident." In the course of his remarks he says: "The anti-prohibitionists were afraid to debate with their op-

ponents," etc. Now, I am not a "liquor man," but it is most sorrowfully evident that, "the salt has lost its savor," when, after nineteen cen-turns of Gospel preaching, Rev. Dr. Chown and his coadjutors should descend from the pulpit, and on the platform canvass the votes of "the mixed multitude" to petition "the powers that be" to keep their people sober by act of Parliament. It seems that we are to be restrained from breaking the Sabbath by a like act. Shame! We now invite Dr. Chown, or any one else to take up the question of prohibition, and discuss it in the ight of Scripture, and in a Christian pirit, and we car not the result.

There is a divine principle which runs from Genesis to Revelations, viz., not the removal of temptation, but,

is seen in Eden, the call of Abraham, the flood, Sodom, Israel's deliverance from Egypt. The same principle obtains in Christ's teaching and miracles, Paul's letters, etc., and this we propose to show should anyone take this question up. ALEX McMORRAN.

Moist feet are cold in winter! Sole leather is cellular, and carries street fluid to the foot as the wick car-

outsole, in ordinary shoes. Between insole and outsole of the RESILIA shoe is placed the cushion centre-sole of live rubber, through which moisture cannot pass, making it wet-

proof, as well as springy and ventilated. Its cross channels permit the air to dry the inner sides of both outsole

and insole. It thus prevents the retention of moisture, cracking, hardening, mouldiness, and keeps the feet dry, clean, hardy

and healthy. Observe beneath, the rubber centresole and its cross channels.
