MAN ARRESTED AT GLENCOE MAY BE SIDNEY MURRELL

BUSINESSMEN BELIEVE GENERAL ELECTION WILL HAVE STEADYING EFFECT

"Ballot Box Will Give People Chance To Relieve Their Feelings"— Merchants Do Not Anticipate Any Ill Effect On Business—People Tired of Present Government—Time For New Deal.

How will Premier Meighen's announcement of an early election affect trade and business? Was the announcement accepted by the shopkeeper and the man on the street with genuine rejoicing or otherwise?

Most generally it was accepted with reservations and mixed feelings. But this being a day of general mixing, mixed drinks, mixed parties—like the National-Liberal-Conservatives, for instance, mixed bathing and a lot of other mixed things—mixed feelings are, perhaps, quite as much in order as anything else.

WILL BE LIVELY.

"Nearly everybody who talked about the forthcoming battle of oratory and ballots appeared pretty well agreed that it will be a lively campaign.

"There'll be some hot 'mixing' when it gets well under way. It'll be the best little election we've ever had," was the way one man put it.

Will Help Business.

"I think it will help business," said one businessman, a haberdasher, on Dundas street. "People will have a chance to relieve their feelings now, and after they get through talking, they'll come in and buy. One thing certain we can't have a worse government than we have. The fire can't be much hotter than the frying-pan. We've got to turn the old crew out first, and whether the new government is Farmer or Liberal, in any event we'll have the beginning of a new era, of some kind of development. People will stop swearing at the Government now, that they have a chance to vote against it. Swearing takes up more time than marking a ballot paper. We'll be over soon, everybody will stop knocking and start buying."

ST. THOMAS BOY IS DROWNED; FELL FROM TREE INTO STREAM

Clifford Gore, 12 Years Old,
Meets Death in Peculiar
Manner.

[Special to The Advertiser.]
St. Thomas, Sept. 3.—Clifford Gore, 12-year-old son of Alfred Gore, painter, 62 Mitchell street, was drowned this morning in a small stream at the rear of Roseberry Place. The boy had climbed a tree for the purpose of cutting a small branch for a fishing pole when the limb on which he was standing broke, letting him fall to the ground. In falling he struck his head on a small stone rendering him unconscious. It is believed he then rolled over, face downward into the stream. When discovered life was extinct.

WOMAN WELDS BRIDGE CABLES; GETS \$30 A DAY

Performs Difficult Task At a
Dizzy Height Above
Kingston Creek.

Kingston, N. Y., Sept. 3.—Folks who have been seeing curiosity at work on a suspension bridge, 300 feet above Rondout Creek, were amazed today to learn that a blonde worker in overalls, who has been welding cables, is a widow, 31 years of age, and she got a job in a machine shop. When the bridge contractor asked a company in Jersey City for its best welders, she was sent to Kingston. She says she is never afraid of dizzy, never had an accident and never rejected a task because of the danger. She hopes to take her children home to Denmark for Christmas, then return and don overalls again.

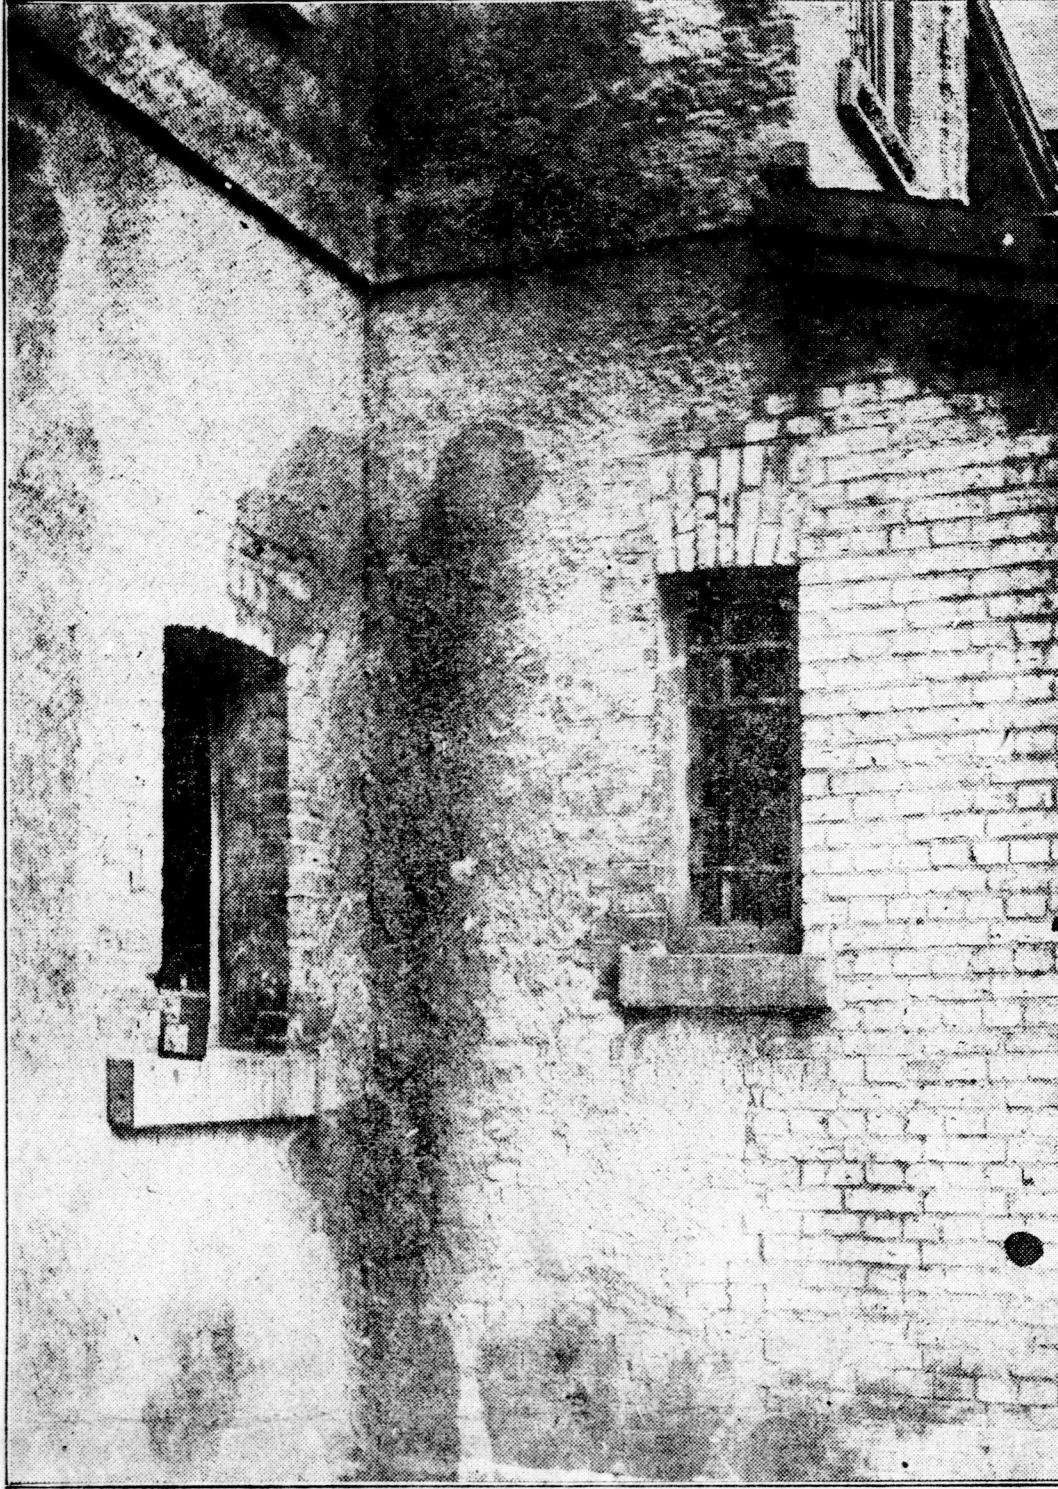

A former welfare worker of the soldiers' aid commission has investigated the case of the Everett family in Manor Park, following an article published in The Advertiser Thursday. Through the efforts of the welfare worker, himself a returned soldier who served overseas with the first division, Mr. Everett has secured employment with a local firm for whom he had worked a few days prior to the accident which necessitated taking his baby girl to Victoria Hospital. Through a misunderstanding when the father was absent from work on account of his little child going to the hospital after drinking milk, his position was found filled by another man on his return.

The firm more fully made aware of the circumstances connected with the case, readily provided another position for Mr. Everett.

"It is the most desiring case I have ever investigated," said the welfare worker. "I have secured a pledge of some assistance from the soldiers' aid commission, and am negotiating to get another small frame building on an adjoining lot for the family. They now possibly live in their present home this winter. Other returned soldiers will give a day's assistance in moving the two buildings together and making the little home comfortable and warm for the winter."

As soon as the facts of the case became known, neighbors in Manor Park who previously had not known of the hardships faced by the family, came to their assistance. Members of the Anglican Church in Manor Park are also arranging to assist the family in improving their home and circumstances.

The only real blame resting upon anybody apparently lies with the emigration agent, who promised Mr. Everett plenty of work in Canada.

Work on the cutting of the iron bars, which are "conspicuous by their absence," from the window in the right of picture, was apparently the labor of some days, as the severed ends of the bars show signs of rust.

AGREEMENT REACHED BY THEATRE EMPLOYEES AND MANAGERS

Spirit of Co-Operation Shown by Both
Sides During Negotiations.

Another outstanding example of that spirit of co-operation and compromise between owner and employee that is so much in real demand at all times, but more particularly during a period of acute depression is now disclosed by the intimation today that a satisfactory agreement has been reached between the local theatre managers and their staffs.

While Montreal, Ottawa and other centers of the east have experienced considerable difficulty more or less in getting their differences straightened out, the London situation has been the reverse.

The commendable spirit of "give and take" has predominated throughout the local negotiations and the managers are fervent in their praise of the friendly co-operative feeling displayed by all their employees.

COMMANDER OF IRISH REPUBLICAN ARMY TO SPEAK AT ARMAGH

Special Trains Will Be Run to
Ulster City For the
Occasion.

Belfast, Sept. 3.—Special trains will run from all parts of South Ulster to the city of Armagh tomorrow bearing crowds to welcome Michael Collins, called by the Sinn Fein "minister of commerce and commander-in-chief of the Irish republican army," on his first visit to North Ireland. Mr. Collins, who moved to the Northern Parliament for Armagh, intends to deliver an address at a meeting to be held here tomorrow afternoon. The Armagh council has decided to present an address to Mr. Collins.

BIG IMPROVEMENT IN TRADE BETWEEN ALL PARTS OF THE EMPIRE

Ottawa, Sept. 3.—Canadian Press.—An improvement in trade between the United Kingdom and the rest of the empire is reported by Harrison Watson, Canadian trade commissioner in London. The proportion for the first six months of 1921, he advised, was 24.2 per cent. higher than for the corresponding periods of 1920 and 1919, respectively. The volume of inquiries is reported in some quarters to be increasing. Acceptance of reduced wages is paving the way for gradual restoration in different industries.

INDIAN DISTRESS ALARMS ALL EUROPE; REVOLT ON BIG SCALE WOULD WEAKEN CIVILIZATION

Sir Phillip Gibbs Points Out Seriousness of Situation—Prestige of Race is At Stake—Indian Students in the English Universities Return to Native Land as Agitators and Propagandists of Rebellion—Effects of War Seen.

By SIR PHILIP GIBBS.

[Special Cable to The Advertiser.]
London, Sept. 3.—Recent news of serious risings in India has excited those alarmists who expect any day to hear of a flaming insurrection throughout the Indian Empire.

It is also a curious fact that many people not altogether unprincipled or bloodthirsty, but with ideas of liberty carried to excess, entertain secret hopes that the Indian people, as they say, with extraordinary ignorance of all races and peoples within that vast continent, may liberate themselves from "British oppression" and establish "self government."

I have heard elderly little ladies jump up in English public meetings and cry out in a shrill voice "Ireland for Ireland! When will India be liberated from British tyranny?"

I have been huddled that way myself and have sought to find that many of the classes who are clamoring for a country-damning republican rights.

Little groups writing communistic and revolutionary tracts, secretly printed and distributed among British workmen, men, prophesying that the time is near at hand when India will "throw off the British yoke" and join Russia in establishing liberty and equality.

Many of these tracts are written and

circulated by young Indian students of law and medicine in London University, who afterwards go back to India with theoretical ideas of western parliamentary systems which they propose to adapt to Indian civilization and with a sense of irritation against English society which treated them with ill-disguised though unexpressed condescension.

Many of them become propagandists for revolt against British rule, but would not have much influence were it not for other forces far more powerful at work to incite revolution among the Indian race.

Russia in India.
There is no doubt, from recent information which I have personally received, that the Russian Bolsheviks are actively stirring up trouble by way of Afghanistan, where they have important centres of propaganda. The Turks also are trying to excite religious feelings in their fellow Mohammedans because of the Greek war and the British operations in Mesopotamia and Palestine.

In this way, over many Oriental territories, Indian unrest is traveling over wide territories and is reacting on European interests in Asia Minor.

A general uprising in the Mohammedan world would be a new menace

GLENCOE CONSTABLE IS BRINGING HIS PRISONER IN FOR IDENTIFICATION

RETAIL DEALERS ARE OPTIMISTIC ABOUT BUSINESS

Look For Decided Improvement
of Trade in the
New Year.

ONTARIO LEADS Several Important Resolutions Adopted at Winnipeg Convention.

No one is in a better position to gauge the business pulse of any country than the retail merchant. It, therefore, means much when the representatives of 10,000 such dealers gathered in convention, can feel decidedly optimistic regarding the future prospects of business throughout the Dominion. Yet, according to Wilfred Hodgins, vice-president of the Retail Dealers' Association of Ontario, this city, and second vice-president of the Retail Dealers' Association of Ontario, this feeling of optimism permeated the annual convention of the Retail Dealers' Association of Canada held in Winnipeg last week.

The Dominion organization includes the retail dealers of every description from coast to coast. The association is nearly 10,000 strong at the present time, showing an increase of 4,000 during 1921. The nine provinces of the Dominion were represented at the convention by the members of their respective executives.

NO Pessimism.

When interviewed today by The Advertiser, Mr. Hodgins, who returned home recently, said that not one of the 50 delegates to the convention felt in the least pessimistic about the business conditions. While admitting that sales were rather slow at the present time, due possibly to the holiday season, he believed to a man that the business depression had reached its lowest ebb and that from now on there would be a gradual improvement.

No great rush of business is expected for some time, however. The consensus of opinion being that there would be a gradual improvement in business until the first of the year when much better conditions are expected.

Better Crops Aid.

In the Canadian West, business brightened considerably during the last half of August, according to Mr. Hodgins. With prospects of better crops than was expected early in the summer, the banks were showing greater readiness to extend credit. This, he believed, was true of not only Winnipeg, but as far as he could learn, nearly the whole of the western provinces.

The convention, which lasted from the evening of August 22 until the evening of August 25, was very important to the retail dealers of the country whether they were grocers, hardware merchants, automobile dealers, drygoods or boot and shoe merchants. In the three days, a total of 40 resolutions were placed upon the table. The business of the convention was extremely heavy because of the many pieces of legislation important to the welfare of the retail merchant, enacted during the last session of the Dominion House.

"Made in Canada."

One resolution of importance to the whole of Canada, called upon merchants everywhere to adopt the slogan, "Made in Canada." It is the purpose of this association to educate the public in the importance of buying goods made in this country. The retail merchants will be asked to press the sale of Canadian-made goods as much as possible.

The automobile dealer decided a resolution to indicate their determination to keep after the Government for some recompense for the losses incurred by them when the luxury tax was lifted suddenly in December last. The tire and auto accessories dealers decided to accede to an attempt to stabilize the price of tires throughout the country.

Ontario Banner Province.

Ontario was proclaimed the banner province by the convention. This province was represented by the following members of the provincial executive: President B. W. Zeman, Preston; First Vice-President W. J. Cully, Stratford; Second Vice-President Wilfred Hodgins, London; Treasurer D. W. Clark, Toronto, and Secretary W. C. Miller, Toronto.

J. A. Banfield of Winnipeg and E. M. Trovoren, Ottawa, were unanimously re-elected president and secretary respectively of the Dominion association. The delegates were greeted warmly by the Manitoba association. Secretary M. Carl of that association spared no pains to give the visitors a glorious time.

Urges Amalgamation of Organizations for Political Campaign

Mr. Hodgins informed The Advertiser that he would be willing to give any information regarding the convention to any retail dealer in this city desiring it.

Calgary, Sept. 3.—A resolution calling for the Armys and Navy, the Grand Army of United Veterans and the Grand War Veterans as to amalgamate for the purpose of creating an organization to cope with the present political situation, was adopted by a committee of representatives last night. And will be presented to general meetings immediately.

Man Arrested At 11 o'Clock Today May Be Sidney Murrell —County Constables Making No Effort To Capture the Escaped Bandits—Governor Carter Refuses To Spread Alarm by Telegram—City and Provincial Police Are Following Up All Possible Clues.

John Henry, town constable of Glencoe, arrested a man who he suspects to be Sidney Murrell. Murrell is understood to have an eagle tattooed on his chest. The Glencoe prisoner has a tattoo mark on his chest.

The Glencoe constable has never seen the Murrell boys and does not know their description very accurately, but it is understood that the man arrested is being brought into London. Word of the arrest was received about 11 o'clock.

ARE NOT WORRYING.

The local county police are "not making any concentrated search for the escaped prisoners. They profess to fail to see the use of it, and are simply busying themselves answering and investigating various rumors received from different outlying sections.

Crown Attorney McKillop says: "We have notified the attorney-general's department, and it will be up to the inspector of prisoners to deal with the question of an inquiry."

MRS. MURRELL BROUGHT BASKET.

Shortly after the discovery of the escape of the two desperadoes last night, Detective Harry Down, who was in the cell from which they escaped, pointed to a basket which contained toast and other food and articles, and asked: "Who brought this in here?"

"Mrs. Murrell, the mother of the boys," replied one of the officials of the jail.

NO TELEGRAMS SENT.

As the city detectives left the institution one of them mentioned the sending of telegraphic messages regarding the affair.

"Well," remarked Governor James Carter, "I spent about \$ on telegrams when Vincent Strong escaped and I haven't had it returned to me yet."

BROKE JAIL AT 7 P.M.

Sydney Murrell and William Murrell, alleged murderers of Russell Campbell at Melbourne, are at large today, doing as they please to escape the force of the law. They escaped last evening when they sawed their way to liberty through the stout iron bars of the window of their cell in the county jail. The jail-breaking was carefully planned. Details of the escape were given to the employment of outside help. This leads to the belief that the fugitives have secured a change of clothing and are at large.

Had A Party After the Escape.

Not until one hour after the brothers were last known to be in jail was their absence discovered. Turnkey William Melroy first informed the detective department.

"The boys are gone!" was his message to Detective Thomas Bolton, who requested the telephone call at the police station.

Excitement Relaxed at the Jail.

Through a most-well-informed source of Detectives Thomas Nickle, and then Chief of Police Robert Birrell and told him of the affair. The chief and the detective proceeded to the jail. Detective Harry Down arrived soon afterwards. Sergeant of Detectives Edwards had promised to give up the new job if the escape occurred.

Excitement relaxed at the jail. The count's van, which was believed to contain the prisoners, had been seen away. Turnkey William Blake declared that when he went off duty at 6:30 p.m. he saw the brothers escaping. Since that time not a word has been heard of a trace of their whereabouts. Nationalists have managed to get away for some months, relieved Blake. Jail officials first discovered that the prisoners had broken the bars of their cell into No. 1 ward to lock the two men sleeping cells.

THEIR EXCELLENCIES MAKING FIRST OFFICIAL VISIT TO CANADA'S METROPOLIS.

Montreal, Sept. 3.—Lord Byng, governor-general of Canada, and his staff, arrived in Montreal this morning at the Windsor station for his excellency's first official visit to the city.

The governor-general and his party were met at the station by Sir J. C. Parry Sound, and the staff of officers of military headquarters together with all the officers who served overseas in the Canadian Corps and who had been invited to attend the military reception tendered Lord Byng at the railway station. This afternoon the governor-general will inspect the Canadian naval squadron, which is now in port.

GREEKS TAKE NUMBER FORTIFIED POSITIONS FROM TURKISH FORCES

Athens, Sept. 3.—Greek forces continue their advance against the Turkish Nationalists and have occupied successively a number of fortified positions near the Sakaria River, says an official statement issued here.

THOUSANDS OF TOURISTS RETURNING FROM TRIPS TO EUROPE'S BATTLEFIELDS

Montreal, Sept. 3.—Returning tourists from Britain and the European battlefields are now crowding the Canadian liners on board the C. P. R. liner Corsican, which arrived here this morning. There was a party of 129 school teachers who come from every province in Canada.

The party left on the Tunisian July 2, under the auspices of the Overseas Education League, which is arranging to tour within the empire during the holiday seasons. The Canadian party saw most of the interesting points in Europe and made an extended trip over the battle fields of the western front.

Seasonable Pointers For Farmers

Mushrooms Good to Eat; How to Distinguish Them

The Best Way Is To Find Out the Poisonous Ones—These Are Fortunately Few in Number and Readily Identified.

Experimental Farms Note. There is a widespread lack of knowledge among the public concerning the edibility of many of the common mushrooms growing, except in very dry weather. In the woods, or in our gardens and lawns.

Not All Toadstools. The common idea of fungi is that they are all poisonous, and which are also found in fields and pastures, mushrooms, and all others are "toadstools," and therefore poisonous. The word "toadstool" and "mushroom" are synonymous, and mushrooms are classified either as "edible" or as "poisonous." Fortunately, however, there are a number of varieties of mushrooms that are not more than four or five poisonous varieties. It is somewhat an edibility variety, and is somewhat of a variety, and is dangerous in mistaking one for another. All the so-called "toadstools" are not poisonous, and it is necessary to ascertain whether a mushroom is edible or not, and is absolutely worthless, and may be classed as "edible" or "poisonous." The only way to know the properties of fungi is by looking someone who is familiar with them, or by studying them one by one, or by taking up the study of them, for instance. Unfortunately, popular works on fungi are not reliable, and several reliable works are available to the student who wishes to acquaint himself with the subject, as, for instance, "The Mushrooms of Ontario," by J. J. Moffatt, "The Mushrooms of the United States," by J. J. Moffatt, "The Mushrooms of the United States," by J. J. Moffatt, "The Mushrooms of the United States," by J. J. Moffatt.

Deadly Varieties After Rain. Practically no mushrooms are to be found during very dry weather, but two of the deadly varieties, the Fly agaric (Amanita muscaria), and the Death Cap (Amanita phalloides), are common after rain. The fly agaric is a mushroom, not resembling any other variety in the forest, and is very common. The death cap is a mushroom, not resembling any other variety in the forest, and is very common.

Rats and Mice Are Plagues Which Grow in Volume Both on the Farm and in the Home These Pests Increase—Their Destructiveness Costs Millions of Dollars Every Year.

There is no greater pest in our country today than the rat. After a century of work in the eastern hemisphere was made, it was estimated that Great Britain annually \$1,800,000, Denmark \$1,200,000, the United States \$1,000,000, and the United States \$1,000,000.

Owls and Poultry. The great horned owl is the only one that has been known to attack poultry. The noisy little screech-owl, commonly called the barn owl, is, of course, the most indefatigable mouse hunter we have. It kills mice for its immediate wants, but also for the pleasure of hunting them. It watches the granary, the barnyard, and the garden. Its food consists entirely of such creatures as mice, rats, and insects.

WILLY DUCK FOODS. The majority of the plants which are used as duck food are of the aquatic type, and are, as might be expected, those which occur either in water or in marshes. A few land plants, however, are placed on the list of which the principal is Barnyard Grass (Echinochloa crus-galli). This is an annual species.

The Yorkshire Is Best Bacon Hog

This is a fine Yorkshire male, which is the property of J. J. Moffatt, honorary president of Wingham Fall Fair. Mr. Moffatt has been very successful as a breeder of hogs, and in the type herewith illustrated is emphasized all the points that go to make the true bacon type, from which are produced the famous Wiltshire sides, so much in demand in Great Britain.

of the poison, or a stiff dough of eight parts of oatmeal and one of poison. The poisoned dough should be placed in the runways of the animals. Small terriers are well known as great rat destroyers. Some methods of driving away rats that have been recommended are: (1) Scatter sulphur or sage about the places they frequent; (2) put some cop-

The Annual Clean-Up of the Poultry House

The Whole Interior Should Be Given a Thorough Scrubbing—It Should Then Be Disinfected and Get New Coating of Whitewash.

(Experimental Farms Note.) As soon as the breeding season is over the fowl that are not intended to be retained for future broods should be disposed of. The birds should be either put into a yard or confined to part of the yard, the rest being limed, plowed and seeded to green crop, such as rape or rye.

All litter should be removed from the house, the ceiling, walls and floor thoroughly swept. Movable fixtures should be taken out, and the whole interior given a thorough washing. The walls should be washed with a stiff brush, but be sure to get into the cracks and crevices. If you have one: after the hose, give the building a good flooding and scrub it with a stiff brush. If there is no hose, be even more careful about the scrubbing. After the house has been thoroughly cleaned, it should be disinfected with a strong disinfectant. One of the best preparations for this purpose is a solution of formalin. If there is no formalin, a solution of carbolic acid will do. The house should be left standing for a couple of days to dry out, leaving the doors open to allow the sun and air to enter freely. It should then be given a good application of whitewash. The fixtures, nest boxes, roosts and droppings should be removed and destroyed. At the time of this annual clean-up, it is a good plan to note what repairs to the houses, fixtures and fences are needed and have them made as soon as possible. Also clean up the barn, leaving nothing under which vermin may hide. A clean house free from dirt and rubbish is a good thing to have. Finally, of importance in salt and brackish water are the Tassel-Pond-weed (Lemna minor), the Water Lettuce (Wolffia globosa), and the Water Hyacinth (Eichhornia crassipes). The Biological Survey of the United States Department of Agriculture at Washington, D. C., has issued a number of important leaflets on this subject—J. Adams, Botanist.

TIMELY POINTS ON POTATO STORAGE

Good storage of potatoes begins at the time of harvesting. The digger should be adjusted so as to furnish sufficient vibration to separate the dirt from the tubers—and no more than that. The tubers should be handled as little as possible. The soil should be allowed to remain in the ground as long as possible. The tubers should be stored in a cool, dark, well-ventilated place. The temperature should be kept between 40 and 45 degrees F. The humidity should be kept between 75 and 85 percent. The tubers should be inspected regularly for signs of rot and disease.

WESTERN ONTARIO DAIRY PRODUCTS CAPTURE AWARDS

All Except Three of Toronto Prizes Gained by Dairy-men of District.

The high standard of the dairy products of Western Ontario is shown by the fact that in the cheese competitions at the Canadian National Exhibition at Toronto all the prizes came to cheese-makers in Western Ontario with the exception of three. This is a most creditable record. We are indebted to Frank Hiers, chief dairy instructor for the Ontario department of agriculture, for the following list of the awards.

GOOD PROFIT SEEN IN THE FALL PIG

Indications are that the man who has planned to raise fall pigs this season has struck it rich. The price of pigs is up, and the price of corn is down. The price of pigs is up because of the shortage of pigs in the market. The price of corn is down because of the surplus of corn in the market. This is a good time to raise fall pigs. The profit is good.

PROPER MARKETING ENHANCES PROFIT

"Fruits, to bring the best price on the market must be clean and put in next spring, when they can be planted early and the seeds of spring wheat." A New York law cancels the license and production of autos used in steal-

People buy at a good price because the product looks good. A good example of this is the ready sale of the Ben Davis apple. It is a rare commodity and looks good, but by many it is considered of poor quality; yet it far out-sells many better sorts.

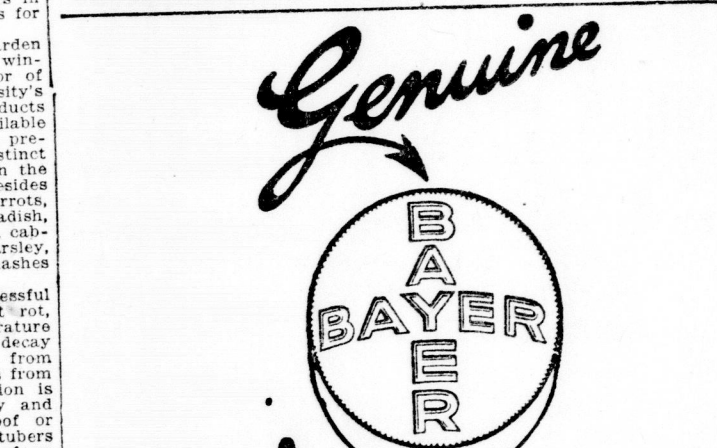

THE EAGLE EYE OF THE FOREST AIRPLANE. The use of airplanes in forest protection is bringing to light some valuable features that had not been anticipated. Most forest fires are caused by the carelessness of human beings, hunters, campers, fishermen, and others who go into the woods for business or pleasure. It is necessary to be always, careful with their camp fires, their matches, and their cigarette stumps over half the load would be lifted from the shoulders of the fire fighters. This is the reason why the fire warning poster is probably the most important single factor in forest protection. And here comes in a little psychology in which the airplane is the key. When a man camps at a place where a warning against the careless use of fire is conspicuously posted, he is more likely to be careful. When he camps at a spot where he seems to be outside of the range of human touch, he is more likely to be careless. Fires are likely to follow in his trail. One of the Dominion forestry branch inspectors in reporting on a first week's experience in observation from an airplane, records this fact that men carrying a load of wood out from the city for a few days, or a week-end, are suddenly and effectively reminded of what the consequences of a careless use of an airplane high above them, attending strictly to his business is doing to the forest. This impression of the forest when the men realize that they and their camp have been seen certainly when they see a message fluttering down to them through the air. They naturally watch where the paper is falling, and when they see a message reminding them that as citizens of Canada, they should assist in the protection of the forest, they are more likely to be careful with their camp fires. This feature of airplane patrol is of great importance.

Few Men Dread Death Itself

A PHYSICIAN of long experience told the Ohio State Journal the other day that, when the time comes, few men dread death itself for themselves. What they do dread, he said, is leaving their families unprotected. He told of some sad scenes where men about to die repented bitterly of their failure, while yet there was time, to assure the future of those dependent on them for material support. If your physician told you that there was "no hope for you," would you face the inevitable with the peace and calmness which only the knowledge that you have provided for the future comfort of your wife and children could bring? Or would you have fears and regrets? Life is uncertain. Surely no man who really loves his wife and children will put off the duty of insuring his life? Procrastination has robbed many wives and families of the protection that they sorely needed. The Mutual Life Agent is ready to assist you in determining the best possible policy for you to carry.

CRERAR READY FOR THE FRAY

"Will Accept Challenge of the Premier," Declares Progressive Leader.

KENORA, Sept. 2.—(By Canadian Press).—The National Progressive party will go into the federal election contest prepared to accept all the responsibilities which may be placed upon it. We accept the challenge of the prime minister to an appeal to the electorate of Canada. This was the statement of Hon. T. A. Crerar, National Progressive leader, at an interview this afternoon at his summer home near Kenora. Mr. Crerar expressed his regret that the Government had decided on an appeal to the country before redistribution had been effected, and declared that the west thereby would be short in the next Parliament of part of the representation to which it was entitled. The Progressive leader said he recognized the importance of the tariff question, but he claimed that there were many other questions of great interest and importance to the people, and that all of them would be vital factors in the campaign.

VETERANS URGE GOVT. WORK FOR UNEMPLOYED

Meighen Tells Soldiers That Plans Are Under Advise-ment.

TORONTO, Sept. 2.—Premier Meighen passed an active day following his announcement that he would go to the people. He delivered two speeches at the Canadian National Exhibition, heard a soldiers' deputation regarding the necessity of getting work started to relieve the unemployment situation and in the evening held a conference with the political followers.

Tells of Conference. The premier addressed an audience of thousands of exhibition visitors from the central bandstand this afternoon at 5 o'clock and stirred them deeply with his eloquent and earnest exposition of the recent imperial conference and the growing significance to the dominions of the Empire of the political battle, concentrating almost wholly on the recent conference, naval power and related international interests.

TRUCK PLUNGED INTO RIVER WITH DRIVER

Joseph Duncan Had a Narrow Escape From Drowning.

SARNIA, Sept. 2.—Joseph Duncan of Detroit had a narrow escape from drowning in Black River, Port Huron, today, when a motor truck which he was driving on board the ferry "City of Cheboygan" for transportation to Detroit, got beyond his control and plunged through the opposite side-rail of the boat into the river, carrying the driver with it. Members of the crew immediately went to his rescue and succeeded in bringing him ashore where first aid methods were applied. Later, Duncan was removed to the Port Huron Hospital, but attending physicians stated that no serious results would ensue and that he would be able to return to Detroit. The truck is resting on the bottom of the river, but will be easily salvaged. He was on his way to Hamilton,

BIG STEEL WORKS REOPENING MONDAY

LONDON, Sept. 2.—(By Canadian Press).—Further signs of a revival of industry in Great Britain are apparent. Palmer's steel works at Jarrow, which have been closed down since the first week of the recent stoppage of work in the coal mines, will be reopened next Monday. In the Cleveland district two iron works, which have been idle since last March, will also start up again shortly. This will involve the opening of the Ironstone mine at Aytun.

MOTHERS! WATCH YOUR TEETHING BABIES THOUSANDS OF THEM DIE EVERY SUMMER

When the baby starts to cut its teeth, then is the time the poor mother is under the stress of great anxiety. The child's bowels become loose, and diarrhoea, dysentery, colic, cramps and many other bowel complaints manifest themselves; the gums become swollen, cankers form in the mouth, and in many cases the child wastes to a shadow, and very often the termination is fatal.

On the first indication of any loosening of the bowels, give a few doses of

DR. FOWLER'S EXTRACT OF Wild Strawberry

and thus, perhaps, save your baby's life. For the past 75 years "Dr. Fowler's" has been used by mothers for teething babies so you do not experiment with a new and untried remedy which might be dangerous to your darling's health.

INDIAN UNREST

Continued From Page One.

not only to the British Empire, but to all European civilization, for that which weakens the British Empire would weaken all Europe in her present state, and anything like a widespread insurrection in India will be one of the most ghastly episodes in history which we have yet seen, including that of Russia.

Now what is the chance of such an uprising?

I have reliable information from friends in India which breaks through the secrecy of the censorship imposed on the press and the difficulty of telegraphic communications.

Taking into account many sinister incidents and popular riots of an alarming character, their reports are, on the whole, reassuring. They do not underestimate the gravity of the situation, which is dangerous, owing to agitation everywhere, but they believe that the loyalty of the Indian princes, the general faith of Indian peasants in British justice and administration, and the lack of co-operation among the Indian people of different race and religion, make anything like an extensive uprising improbable.

A friend of mine, holding an important position in India, who is just home on leave, sums up the situation by saying that unrest is general, but that British prestige still rests on secure foundations.

One cause of that unrest in India, as in all parts of the world, is due to the war. During the war I was a personal witness of the wonderful loyalty and gallantry of the Indian princes and soldiers on the western front.

The Indian princes poured out their treasures with prodigal magnificence in proof of their devotion to the British Empire and the Indian army in France in the bad early days, poured out its blood at Ypres, Neuve Chapelle, Festubert and on other dreadful fields.

My memories of the spring of 1915 in France go back to the flat fields about the river Lys and the Flemish towns where the Indian troops were billeted. People of different race and religion, soft-eyed Indian men with gentle manners and chivalrous ways, seemed like fairy, book figures, romantic and sympathetic.

Were they not fighting for France and dying for France?

I saw many of them dying and saw their comrades shivering and miserable in water-logged trenches in a Flemish winter.

I thought then, and think now, that in spite of our great need for regular trained soldiers in those early days before our new armies were ready, it was a mistake to bring those Indian troops to France.

The climate was against them and their way of fighting did not fit them to stand in ditches under modern gun fire, but apart from that, altogether every native who wrote home or went home helped to lower British prestige in India.

They saw the early phase of the war when the German outnumbered us in men and guns and seemed to be winning on many fronts and were inflicting upon us enormous casualties because of the superiority of their artillery and ammunition. It was a shock to the Indian soldiers, who believed in the invincibility

of the British army.

White prestige was lowered because white women were too friendly and romantic toward the Indians and because this mutual massacre of Christians and Christians races seemed to many intelligent Indians to be ghastly insanity from which their own race might profit according to the wisdom of Allah. I saw extracts from many Indian letters, in which such ideas were expressed openly or in allegory.

Long service, illness, wounds, the inevitable hardships of war, long exile and the stirring of ideas and emotions made some of these men agents of revolt, and in thousands of secret ways the Far East, which has been called unchanging in spirit because of that great European conflict.

Yet they are only ignorant souls or fanatics who talk of India as a people claiming self-government on western lines.

The Oriental Mind.

Mr. Ghandi, who has organized a widespread boycott against British goods used such words as nationalism, home rule and liberty, but in his brain, as in other Indian brains, they have meanings totally different than western ideas of the same terms.

Amiable and liberal souls in England, ignorant of the east, proclaim Ghandi as a kind of liberal statesman like Gladstone. But that is not how he is regarded by Indian peasants. To them he is a miracle worker. Many believe he can cause rain to fall on parched fields and can raise spirits from deep wells. They have been told so by the Holy Fakirs.

He himself upholds the caste system, though for a time he tried to avert it, and in India caste is so strange that a man is polluted by the shadow of a man of another caste falling across his path, and that there cannot be intermarriage between one caste and another; so strange that every trade and occupation from street sweeper to wards has a definite status of caste from which there is no escape in life and which is inherited.

Western liberty cannot exist with the caste system nor among races who worship gods and fear devils according to the Hindu faith.

Again there are many races in India filled with religious hatred for each other. Only the rule of a dominant race keeps India safe from continual bloodshed and anarchy. In its history there have been many dominant races, but not until the British came did India get peace and justice as fair to the peasant as to the prince and an administration which in spite of all human faults has made good roads, watered great deserts and brought British faith and security to a vast population.

Our India civil service was a great school of administration and produced fine types of men who did big jobs without favor or much reward, efficiently and devotedly as a kind of vocation. I think they were our best type in many ways, and one cause of the trouble in India today is the replacement of Indian civil servants who knew the people and their language by younger inexperienced men of lower grade.

Of course, all agitators and "real lovers of liberty" refer to the Amritsar massacre as typical of British rule in India, and of British character everywhere. It was a black episode, but isolated in Indian history and an act of ill judgment and unnecessary harshness by a general since degraded.

My object in writing this is not to minimize British rule in India, but to point out that if it falls or is overthrown there is no substitute but frightful anarchy and another source of danger and weakness to white prestige throughout the world.

I want also to give warning to political speakers, especially the Sinn Fein, that in using India as an example of "British tyranny" they are not only proving themselves guilty of gross ignorance of Oriental conditions and mentality, but are playing into the hands of the revolutionary agitators who do not care one rap for India, farmers or human liberty, but desire to unleash devils throughout a world in which all men of good will are striving for universal peace.

It is a far cry from India to Ireland, though both names are used together as reproaches against British rule, but I cannot let this article go without a reference to the chances for Irish peace.

Like most English people who have set their hearts on liberty for Ireland within the federation of British peoples, I was profoundly depressed by the irreconcilable attitude of Eamon de Valera of dominion home rule subject to certain conditions capable of explanation and enlargement.

It seems to me that the Irish leaders are revealing medieval minds, still looking backward to old traditions and thought and falling woefully to advance to the new ideals of world peace and co-operation. Intense nationalism which sees liberty only in absolute isolation is old-fashioned and retrograde. It is as though certain states in the United States were to renounce their allegiance to American unity. De Valera rejects liberty by his refusal of obedience to the generous bylaws which safeguarded all British peoples.

I am told that secretly Irish leaders express themselves as being willing to accept dominion home rule with certain alterations to the British offer if the British Government will bring pressure to bear on Ulster to acknowledge the supremacy of the Bill Eireann, Ulster, and much as I deplore the Ulster dog in the manger policy I dislike treachery still more.

There is still time to bring persuasion to bear on the Irish leaders on both sides, and American opinion above all

is of value in this direction. I profoundly hope that it will be expressed more strongly in favor of a compromise.

Churches also should raise a voice on behalf of peace, reminding men of Christian faith, like the Catholic leaders in Ireland, that there is a higher law even than that of liberty and that those who draw the sword shall perish by the sword.

"Dealer Influence"

National advertisers who use the Canadian daily newspapers intelligently do not worry about "dealer influence." New customers outshine the most gorgeous colors and obscure fine engraving.

An advertiser's vanity may be flattered once by the sight of his name and product in a national magazine, but never after he realizes that he has left the dealer alone to clear his crowded shelves.

In Canada all the magazines combined do not reach half as many readers as any single group of the larger dailies alone. The dealer, knowing this, says: "Influence my customers and you influence me. Reach them, as I have learned to do, through the daily newspapers."

Retailers read and believe in daily newspaper advertising. Linked with their local prestige, a national selling plan commands success, and reduces costs to the lowest decimal.

Electricity Is the Cheapest Kitchen Fuel

Hydro, generated by the people and for the people, by the mighty powers of Niagara Falls, is without a rival among the fuels available to today's housewife.

HYDRO IS CHEAPER—With electricity you save your stove for all purposes, at less than one-third the cost of gas, and at rates far cheaper than any other fuel, including coal, wood or oil.

HYDRO IS BETTER—Quick heat for frying or boiling is at your instant command at the turn of a switch. Heat regulation in the oven of the electric stove is perfection itself. Burners in both top and bottom give an even distribution of heat that no other stove can equal. The improved results make the novice cook like a French chef.

HYDRO IS SAFER—No matches, no fumes, no smoke. No danger of fire, suffocation or explosion. No harm results should a switch be turned on by accident.

HYDRO IS CLEANER—No fuel requiring laborious handling. No smoke. No soot. No ashes. No dust. No soot-blackened pots and pans. No flame to vitiate the air. Just heat under perfect control, working exactly as you want it.

AND HYDRO SAVES ON YOUR FOOD BILLS, TOO—The oven, constructed to conserve both heat and the nutritious juices that have the highest food values, saves the costly shrinkage of roasting. You pay for every time you use old-fashioned cook stoves.

FREE PREMIUM

To every one who purchases a McClary Electric Range during the September reduced price campaign, The Hydro Shop will give free a specially designed covered roasting pan. Order early. This special offer and reduced prices hold good for September only.

A CALL TO THE CHURCH.

"Thy kingdom come, Thy will be done, in earth as it is in heaven."—Matthew vi. 10. Discussing the "Church of Scotland Bill of 1921," in the British House of Commons, the member for East Edinburgh, Mr. Hogge, taunted the church with having failed at critical times to give guidance and put moral backbone into the people of the country.

A grave undertaking confronts the church if the tragedies of history are not to be repeated, and she is to share the encomium of Isaiah, "How beautiful are the mountains are the feet of Him that bringeth good tidings—that publisheth peace—that saith unto Zion, Thy God reigneth."

It has been discovered that the corn-borer is an enemy of the gladiolus. The United States officials who seize these lovely flowers at the border are apparently in the same class.

The Annapolis Valley has the greatest apple crop in its history. Nova Scotia has reason to be proud, and it would be well for Ontario if its crop of pommes-de-terre was in proportion.

At the premier's meeting in the Grand Opera House, while the audience was waiting the momentous election announcement, they were unexpectedly enabled to see through a Glass darkly.

plous platitude. Giant evils, like slavery, have been excoriated from Christendom by the march of Christian conviction. There is no occasion to lapse into supine hopelessness that mankind is forever manacled to war.

THE REAL ISSUE.

There is no reason to doubt that the forthcoming general election will be fought on the broad issues of democracy versus reaction. Premier Meighen in his London speech said that the main issue would be free trade as against protection.

But however wide of the mark Mr. Meighen's assumption may be, it is susceptible of being paraphrased into the statement that the principal issue to be decided at the general election is freedom versus privilege.

Britain's island continent has the motto, "Advance, Australia." Her empire in the West must in like manner adopt the slogan, "Forward, Canada!" There must be no clogging of the wheels of progress by the lifeless clay of old ideals.

Mr. Meighen knows full well that the result of the approaching struggle of the Tory die-hards to retain a few remnants of their power has already been written on the wall of state.

EDITORIAL NOTES.

The Germans have banned Sedan cheers. The Meighenites are already talking about "dark December."

Although its eyes are fixed on the general election, London will not overlook the Western Fair.

The reorganization of the Provincial Police Force is to be undertaken. This means lots of work for the undertaker.

London's botanical collection does not boast of a bread-fruit tree, but the city possesses some very fine bread plants.

The Toronto Board of Education has protested against the 51-inch rule on street cars. The Golden Rule would be much better.

Mr. Meighen's supplementary knowledge of political perspective has enabled him to see that his party has reached the vanishing-point.

Birmingham University has established a chemical course with the object of getting better beer. It is anticipated that there will be a great rush of students from Canada.

It has been discovered that the corn-borer is an enemy of the gladiolus. The United States officials who seize these lovely flowers at the border are apparently in the same class.

At the premier's meeting in the Grand Opera House, while the audience was waiting the momentous election announcement, they were unexpectedly enabled to see through a Glass darkly.

If Premier Meighen succeeds in making a clean sweep of his former colleagues in the Government and in whitewashing the policy he has pursued since assuming power, he will rank as one of the greatest black-and-white artists the country has ever produced.

The French doctor who advises that the sparing of the rod saves the child instead of spoiling it, cannot be accepted as an authority on the subject, because he has no children of his own.

Mr. Meighen has not shown himself a very skillful cabinetmaker. Unseasoned material, cracks, knots, discolorations and other blemishes have marred the usefulness of his handwork.

The Christian Church seems to need the inspiration of this crusade for international righteousness, which surely is part and parcel of the Gospel mandate.

What's In a Book?

By Kathleen K. Bowker.

SALAD WITH SAUCE PIQUANTE.

Ninety-nine people out of ninety-eight enjoy a love story properly told. And quite possibly they enjoy it all the more for having an entirely outside interest.

Love-making is often spoken of as the sauce of our "saucer days." With experience develops a bit of the gourmet in most of us; and we appreciate a touch of tarragon—a dash of chives—a sprig of endive—a caper or a caraway seed—to vary the flavor of the dish.

Just such an intriguing concoction is offered to the rapacious reader in "Her Father's Daughter"—the just-out book by Gene Stratton Porter. (S. G. Gundy & Co., Toronto.)

Linda Strong was a high school girl, who lived and worked in Lila Valley, one of the loveliest spots that may be picked at random within the twenty-mile radius of Los Angeles.

During the early part of the book, Linda seems really too good to be true. But before one is half finished, one has had training and her touch of genius (such things do happen sometimes, though not often enough) such a girl might come to pass, by that time, in fact, you couldn't bear to part with Linda, and finally refuse to say that you don't believe there's no such person.

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

the sinister struggle with the formidable Jap—the resume of the yellow peril and the race question (I must admit that near eighteen does seem a bit young to have evolved all that, in just that language, ever as "Her Father's Daughter," when her father had been dead four years!)—Peter, the perfect knight—that wise man, Eugene Snow—even the unspeakable Anderson—are all well worth meeting. And Mrs. Porter has left the page ajar for a sequel. But

the chiefest charm and value of the book lies in its wonderful description and interpretation of the flora of California; the glory and the glamor of the plant life in canyon and forest, on rocks and seashore, and even in the sun-baked desert itself. The extraordinary knowledge, the intensive culture, the deep slithers in very line, are expressed in a love of the whole concern that are vivid and arresting manner, even worthy of the entrancing subject. "The kindly

fruits of the earth" almost overwhelm us with their variety and abundance. Perhaps this sort of writing is just "bald-headed luck" for the American eagle. But certain it is that the Californian Chamber of Commerce should install special chairs for Mrs. Porter in their specious halls, and serve her with extra portions of their get-together dinners. Their publicity people should hand her a handsome check, and those who love that land, should give her loud applause. I doubt if these books of hers were originally intended as American propaganda to the world—but that is what they are, in a very fine sense. In spirit, it is exactly what should be in progress, from the Canadians to the Americans. It would have a subtle but certain effect on the vital question of "exchange." It could be gloriously done if— But perhaps that is outside this column?

The Only Asphalt Shingle That Is Tapered

Winthrop Tapered Shingles are the only tapered asphalt shingles manufactured. They have three outstanding features that make them a perfect roofing:

- 1—They are the big butt shingles—the only asphalt shingle that gives a shadow line, which so improves the appearance of a roof—something architects have long wanted in Asphalt Shingles.
2—They are scientifically constructed. They are tapered. Being thicker at one end than the other, the butt of the shingle over-lapping lies flat on the

upper part of the shingle in the row below. No rain or snow can accumulate underneath—wind cannot get under them and blow them off.
3—Being tapered extra thickness and weight are distributed where extra thickness and weight are needed—in the part exposed to the weather.

We have obtained a special license to manufacture these shingles under the brand

Brantford Winthrop Tapered Asphalt Slates

Quality of materials and production methods are of the usual high Brantford Roofing standard.

Brantford Winthrop Tapered Asphalt Slates are made from carefully selected Felt saturated and coated with a special blend of asphalt. Real quarried, crushed slate, in its natural colors (red or green or blue black) is embedded into and encrusted on them while the asphalt is hot. They are unaffected by climate. The colors are permanent, and never need staining. They are highly fire-resistant and they are tapered.

LXIX.—Out For Conquest.

Eve resolved to adopt the good old motto that "there's no time like the present."

"Therefore, after lunch, behold her saluting forth upon the conquest of young Dick Calardin.

"Her small, plump face was very lightly 'rouged up,' so that Dick might honestly believe her to be a beauty.

"Her cheeks were guileless of artificial 'rouge' beyond the merest 'suspension' of pink blood inconspicuously.

"That's quite a nice when one does run into an old friend, isn't it?"

"I hope you're coming round to dinner this evening. Oh, by the way, I quite forgot to call you up about it, Carrington is particularly keen for you to come."

"Oh, please," said Eve, a world of feeling in her manner. She moved a little closer to the young man.

"Dick's thoughts were all on Mary Drew. He wanted just one glimpse of Mary. He had not slept all night for thinking of her."

"Oh, very well—I'll come." He had no pride, he told himself to keep on hankering after Mary—who had found a glimpse of her so badly!

A CLASSIC IN VELVET. There are some dresses which are classic, and it is in gowns such as the one shown that artists love to paint or photograph—not in dresses which are so fashionable that in a few years the portrait is ridiculous.

when it is out of fashion usually has little to commend it. Fortunately, there are dresses lovely enough to be preserved in museums and portraits, and this is one of them, a dress which happens to again be in fashion, but which in style or cut is lovely in line and has no offending features.

The Broken Hem Line. Shown at a recent fashion promenade, and made of soft black velvet, it was greatly applauded. The quaint neckline of the shoulder, as many a neckline will be this fall, has a deep collar of rich ivory point velvet lace.

Short skirts are already being spoken of in the past tense. Suits are the short, eight inches being the usual level, but dresses may be anywhere from eight to three inches from the floor. Usually it is not the entire skirt, but some ochreous, red or pink panel which attains the greatest length. That skirts are wide again is too obvious to need mention.

The Velvet Gown in Color. There is nothing of greater elegance than a velvet gown, and nothing which provides such a rich background for one's coloring. All the velvet gowns one sees for winter are not going to be black by any means, in spite of the fact that everyone predicts that black will be the dominant note of the season again, as it has been for this. Orders are now being taken for dresses in all of the shades of purple and fuchsia, and in the most brilliant reds for the Grand Prix ball, which was held in Paris, has stimulated in what the French choose to call the violet shades, and what we in America are learning to recognize as fuchsia. It is almost unbelievable as this time, but a study of the flower itself reveals the fact that it embraces shades which are really red and others which are a light orchid.

The effect of the drug caffeine, an average dose of which is contained in each cupful of good coffee, is to increase the rate and force of the heart action for two or three hours, to increase the depth and speed of the respiration, to increase the length of time, and to increase the elimination from the kidneys for about the same length of time.

This is a stimulant, but it is an exciting stimulation, unlike any ordinary stimulation which is not accompanied by an after-depression or a depression of the organ or function which has been stimulated.

Now, I am not seeking to boost the use of tea or coffee. On the contrary, I have repeatedly condemned the use of both. I have repeatedly condemned the strength by children under 15 years of age, whom such stimulants unreasonably harm. I know, as many a doctor knows, that tea, and more especially coffee, when taken late in the evening or within two or three hours of going to bed, is likely to keep the brain at the time when sleep is desired.

Beavers Force Tecs To Split Twin Bill in Last Game of Season At Kitchener

Karl Allowed Champs Only Five Hits in First—Herbst Better Than Berry in the Second.

KITCHENER, Sept. 2.—The Beavers and Tecumseh split the honors in the double-header here this afternoon, the former winning the first engagement by a 2-0 margin and taking the last game of the local season, 5 to 0. Ed Karl pitched a clever game in the initial contest, holding the champions down to five hits. He also practically won the game by hitting out a homer with two on bases in the sixth inning. Pinto was hit quite freely by the Beavers. London won the second game of the matinee by hitting Berry's assortment with men on bases. Herbst kept the hits off his delivery well scattered, and was never in danger.

Two-Day Tennis Tourney Here in September For Western Ontario Players

Courts At London Hunt Club Will Be Used—Big Entry List Expected.

A two-day tennis tourney at the London Hunt and Country Club courts is a possibility for September if plans of the Western Ontario Association mature.

J. G. Boucher, who has the arrangements for the play in hand, is out of the city at present, but the idea is being worked up by local men.

Tennis has had two years in which to reach an even better basis than before the war and the progress has been more than satisfactory, not only in London, but throughout Western Ontario.

A tournament as is suggested would bring many players from small towns not entered in the Western Ontario League because of lack of numbers.

Many good players are scattered in this way throughout Western Ontario. A tournament would do much to arouse general interest in the game, which scheduled league games wouldn't.

Those behind the idea believe that it will appeal generally and are looking for a big entry list when the dates are announced.

Posties Win See-Saw Battle in Mfrs. Series

Civil Service won the first game of the Manufacturers' League play-off last night at Queen's Park by a score of 12 to 9. Nopper, on the mound for Civil Service, was touched up for six hits, good for five runs for Ruggles, the first frame, but after that steadied down, and so did his support, which booted two in this chapter.

Athletes of Tecumseh A. A. C. Billed For Track Meet At Ex.

"Scotty" Hogg, manager and coach of the Tecumseh Athletic Club, will take two or three London athletes down to the Toronto Exhibition track meet next Saturday.

A Bennett, the speedy miler, who did great work at the manufacturers' meet this spring, and Walter Simpson, who took two of the bike events at the same meet, are two of the members whose entries have already gone down.

The Tecumseh A. C. is a small organization as yet, but the best track talent in the city is bearing the Tecumseh colors this year, and the whole club is working hard every week. Next year, with the talent developed this season, the Indian heads should be heard from.

ELAINE HAMMERSTEIN REACHES ARTISTIC HEIGHTS IN "THE MIRACLE OF MANHATTAN."

Big Feature Now Playing at Grand Opera House Reveals This Dainty Star at Her Best—At the Grand Three Times Today.

The selection of the cast of a motion picture is always an important part of the production, but in making Elaine Hammerstein's latest Selznick picture, "The Miracle of Manhattan," which is now playing at the Grand Opera House, it assumed the proportions of a problem of great magnitude.

The stellar role, of course, was not so difficult, as the manuscript had been chosen with Miss Hammerstein in mind for the part, but the leading male role was the first problem to be solved.

Character of Larry Marshall is somewhat of an anomaly. Matt Moore was chosen for the role, and the wisdom of the choice is reflected on the screen.

The part of Stella Warren was given to Ellen Cassidy, as her past performance has proven her ability to depict a "grande dame."

ICE COLD ROOM PROVIDES THE HUMOR FOR JIMMY AUBREY AT GRAND THREE TIMES TODAY.

Ordinarily there is nothing funny about a cold room with a blizzard raging outside, a broken window pane and scant bedclothing. But no situation is at all ordinary when Jimmy Aubrey, at the inevitable, is present. And he is impressively and excruciatingly present in "The Blizzard," a Vitaphone comedy which is now playing at the Grand.

It is only for the wicked that there is no rest Jimmy Aubrey must be wickeder indeed. His new comedy ends in a fast and furious fashion, with an abundance of snowdrifts and the strenuous comedian still unaccountably alive.

THE FAVORITE SCREEN STAR, EUGENE O'BRIEN IN "THE WONDERFUL CHANCE."

Eugene O'Brien appears as a crook in his latest Selznick picture, "The Wonderful Chance," at the Grand Theatre, and his characterization of "Swagger" Barlow, who is ranked among the best of his many fine screen portrayals.

H. H. Van Loan's story of the man who tried to go straight, but who is gradually forced down the "crooked" path, is a story which is being presented in a most unusual and entertaining photoplay.

THE SCREEN FAVORITE, CONWAY TEARLE IN "THE FIGHTER."

An elaborately appointed reception room in the foreground, with a conservatory showing through from the background and a big drawing-room at the left was one of the big sets built and filmed for the forthcoming Conway Tearle production "The Fighter," which will begin a three-day engagement at the Grand Theatre next Thursday.

MAY ROBSON IN "IT PAYS TO SMILE."

It is interesting to note the engagement of the well-known comedienne, May Robson, at the Grand, will occur on Monday evening only, September 12, for Augustus Pitou Inc., under whose management she has been appearing for several years, offers her each season in a new play and with a cast of players and production each worth while.

THE BLACKSTONE SHOW.

What would you consider the most treasured sort of entertainment? The question is suggested by the much-talked-of "tired businessman," which I personally believe is a misnomer. I have observed audiences for years and their opinions are of the unanimous: I fail to find enough of that party to breed to cause anyone undue worry.

When the businessman or any other man is really tired, he stays home and goes to bed.

FATHER TIME is very kind to certain houses—just as he is to certain people. In the case of this house there is a good reason—from the day, long ago, when it was built it has always had a permanent protection against the elements, and to-day it is proudly pointed to as a family inheritance.

B-H PAINT

Long after ordinary paint needs renewing the brilliant finish and surface of B-H "English" Paint will be a delight to the eye. B-H "English" Paint is so completely opaque that it gives a maximum of covering capacity—its surface saving film is so elastic that it resists the extremes of Canadian temperatures—and it is so tough and durable that it provides a protection for a longer period of years than other brands.

McClary's Sunshine Furnace

Selecting the Correct Type of Furnace. Upon nothing else so much as the heating plant does the comfort, health and happiness of the dwellers in a home depend.

FOR every type of building—dwelling, business or meeting house, For every kind of fuel—there are twenty distinct varieties between Newfoundland and Yukon,

For every kind of climate—the changeable from sunny clear to damp and raw in Eastern Canada; the clear, biting, bracing cold of the Prairies and the moist chill of the Pacific winters,

—For every demand of efficiency and economy, There is a model of McClary's Sunshine Furnace built to meet the very condition for which you need a furnace.

Not only is there a Sunshine model for every type of home and kind of fuel, but McClary's see to it that the Sunshine Furnace is properly installed to heat every room in the house.

McClary's select a dealer in each town whom they know understands the problems of heating; upon whose judgment and ability they can depend.

Only dealers who can measure up to the McClary's standard of efficiency are selected to sell McClary's Sunshine Furnace.

If a McClary's dealer tells you he can install a One-Register (pipeless) Sunshine Furnace so that it will satisfactorily heat your home, you can depend upon it that it will do so when it is put in.

If he tells you that a One-Register (pipeless) furnace is not suitable for your home, you may be certain that, no matter what make it is, it will not suit your purpose.

Because McClary's not only design and build their Sunshine Furnaces well, but see that they are properly installed, is the reason why McClary's Sunshine Furnaces give satisfaction in over 50,000 Canadian homes from the Atlantic to the Pacific.

Write for descriptive booklet to any branch. McClary's Makers of those "good stoves and cooking utensils". London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton, Calgary, Saskatoon, Edmonton.

WINNIPEG, Sept. 2.—Perhaps the most interesting election gossip here today was that Premier Meighen would be asked to run in South Winnipeg.

Continued From Page One. GLENGOE CONSTABLE

yard in two had been started by county officials a few weeks ago. The south half of the yard, which was being partitioned off, was being farmed by a man named James McNeil, who had been removed from the jail building, is the site of a shed to be erected to house county road machinery.

Two ladders had been left in the yard, and the women had been seen to go out to look at them. The men who were supposed to have been removed from the jail building, is the site of a shed to be erected to house county road machinery.

Occupants of a house on the jail premises, were despoiled of their property from the wall to the roof, were taken to a large scale until the quiet being restored.

Immediately after their visit to the jail to ascertain the exact facts of the matter, the detectives drove to Manor Park, in which section of the city the Murrell boys' parents and brothers and sisters live. All was quiet in the park when they arrived, and news of the Murrell boys' parents and brothers and sisters live.

Was Not Affected. A young brother of the Murrell boys, who resides at the north end of the suburb, received the news while at work, it was said, but it did not affect him visibly, as he continued to work as usual until the usual closing time.

Late last night an organized search had been instituted by county constables. It is not likely that they will take part in any prolonged search, as they receive no pay, and are not to be paid until the date of the trial had been successful, last night's affair would not have occurred.

Charles Lusky, a Manor Park resident who had been a turnkey at the jail for a few months, resigned Thursday night after having an altercation with the deputy sheriff regarding routine matters at the institution. He returned to his home, seeking his job, but was refused it.

Governor James Carter has been on duty as long as twelve hours a day since he took over the safekeeping of the prisoners. Detective Thomas Bolton stated last night that he was not satisfied with the formation of the constables to have been neglected was a daily inspection of the bars of the cells, especially since Detective Bolton's resignation.

One resident of Manor Park is alleged to have stated that the father of the two young men told him that "Pat," the fourth bandit who has been at liberty since the Melbourne affair, would return and help their sons to obtain their freedom.

May Offer Reward. If the bandits are not captured within a few days it is likely that a reward will be offered from some source.

Spread Rapidly. News of the escape of the Murrells, which spread like wildfire throughout the city within an hour of the discovery.

Immediately set at liberty a multitude of other prisoners, some with a semblance of fact and some of such a nature as to give undoubted ground for belief that the men had been taken by Governor Carter to prevent such a contretemps, the two prisoners and their friends outside have been in constant touch.

Expected Getaway. Some of the friends of the bandits seen after the escape became known, admitted to an advertiser reporter that they had been waiting for some time for an attempt at jail-breaking would be made very shortly.

One of the male friends of the men hinted that earlier in the evening he had heard a noise at the back of the house where the men had been held, and that he had seen a light in the yard.

Back to Cow Punching. Out in the western ranching country the bosses used to encourage the cowboys to go on periodical sprees in the nearest towns. Their money spent, and most of the barrooms demolished of glassware, as well as the liquors carried back to the ranch to sober up on hard work.

Now, the barroom furniture that the inspectors do not want a few shovels, is the mahogany desks down in the Parliament Buildings at Ottawa. He doesn't so much object to the furniture as he does to the desks, and he is looking to look long at the same set of barroom furniture.

Fired of Present Order. A few of the old, wily, voters of Ontario were inclined to a fear of too radical changes at the hands of a post-war majority. But most of them were inclined to risk even that, rather than to have the present state of things continue.

Time for New Deal. But the most remarkable thing was that these businessmen picked at random (not a single one of them added) asked whether they would vote for a new administration, and the answer was a resounding "yes."

May Crop Should Pay Enormous Profits Shortly, Is Opinion. [By AURELIUS.] Chicago, Sept. 2.—Beware the commission house propagandist. Seek no conclusion from the broker who tells you wheat can't advance simply because his customers are all bulls.

Not since the fall of 1916 has the wheat market been in such a position for a strong advance. Selling wheat shorts is a foolish speculation. Consider the array of bullish data and think for yourself whether wheat should break or if it should not legitimately advance to \$1.15 in the May option.

Biggest Export in History. Bears say export business is shot to pieces. Anyone who made out to such an assertion would lay himself open to the palms and penalties of perjury. In the past month the United States has sent out nearly 50,000,000 bushels of wheat—by far the largest shipment for any one month in history.

It has been a glorious year for bears in everything and yet most of them have not yet seen the light. They are waiting until prices are at bottom before making their move, and the natural course of things is to expect a period for a big rise in prices is at hand.

This is the time the "Princes of the Hand" becomes effective. E. A. Driver, if alive, would be a rampant bull. He would make \$50,000 a million in the next few months.

GREW PLAYERS RETURN TO MAJESTIC THEATRE Popular Company To Open Monday in "Turn to the Right."

An announcement that will prove of much interest to London and Western Ontario theatregoers is that of the return to the Majestic Theatre of the William A. Grew Players, who delighted thousands of residents last year with their versatile interpretation of dramas, farces, etc. "Turn to the Right," the screaming farce that had such a wonderful success in New York for two years and has been greeted by full houses in every city in which it has been produced, is the opening number to be presented by the company, and will be shown every night next week, with a special matinee on Monday (Labor Day), and regular matinees on Wednesday and Saturday. Mr. Grew and his brilliant wife need no introduction to Londoners; neither is it necessary to assure patrons of the theatre that the company which is to play before Londoners this season will be of good omen. Mr. Grew personally went to New York and selected the fourteen people who are to appear in different roles in this city. The Majestic Theatre during the past week has presented a scene of activity. Painters, paperhangers and cleaners have been working in an effort to have the place newly decorated for opening night. New lighting effects and color schemes are in evidence everywhere, and patrons will be struck with the different appearance of the theatre once they cross the threshold. The entire company in the city rehearsing for opening night, and with an excellent orchestra, it is an assured fact that next week will mark an epoch in theatrical triumphs in London. After the William A. Grew Players left London last spring at the close of the season they went to Hamilton to fill a summer engagement, where they proved so popular with Hamilton theatregoers that Mr. Grew has agreed to furnish a company to play in Hamilton all this season. Mr. Grew has arranged for many popular productions for London this coming season, and says that he will be glad to see his power to make the Majestic Theatre and the Grew Players as popular this year as they were last.

TALBOT ST. PAVEMENT READY WITHIN A WEEK Break in Sewer Caused \$1,300 Damage and Delays Job.

Although a break in the sanitary sewer on Talbot street, between Queen's avenue and Fullarton street, caused damage now estimated at \$1,300, and a delay in resurfacing the pavement, City Engineer H. A. Brazier informed the Advertiser today that the work will be completed by the end of next week. Completion on time as predicted, he says, will disappoint many citizens who, assuming the "I told you so" attitude, contend that this street will be torn up during Fair week. But for the unexpected sewer break, involving 210 feet of the city's thoroughfare would be completely resurfaced with asphalt ere now. In fact, civic gangs are rushing to completion resurfacing of Talbot street from the sewer break north of Queen's avenue, south to Dundas street, which section will be completed Saturday. New concrete base which must be laid over the sewer trench will cause a delay next week, and add to the expense of repairs, which is charged to the sewer maintenance fund, to which all property owners paying for sewers in all parts of the city contribute. The cause of the break, the full extent of which has not yet been estimated, is believed to have been inefficient back filling, which allowed the heavy weight of earth above the tile to press down and crack it, as it was unsupported by earth packed in on either side. Talbot street is being resurfaced with asphalt in place of the old bricks from King to Fullarton streets, with that block between King and Dundas streets completed and opened to traffic last week.

BIG THREE ARE PLANNING TOUR Crerar, Drury and Morrison Will Cover the Dominion.

TORONTO, Sept. 2.—Farmers in Ontario, caught just a trifle unprepared by Premier Meighen's announcement, started today to prepare for an election campaign. On Tuesday the provincial executive meets. It is likely that, following the example of the Conservatives, the U. F. O. will appoint organizers for the various sections of the province. The farmers' campaign in the Dominion will be conducted entirely through the various provincial associations. The tour of the big three—Crerar, Drury and Morrison—is likely at last to become a reality. Hon. T. A. Crerar, it is understood, will tour the Dominion and while in Ontario it is likely that he will be joined by Secretary J. J. Morrison and Premier E. C. Drury. On the assumption that the expected redistribution bill would get many of the rural ridings out of existence, a number of U. F. O. riding associations refrained from nominating a candidate. Mr. Morrison said today: "Now there will be a regular swarm of conventions," he said. HAD \$122,727 SURPLUS. TORONTO, Sept. 2.—The tenth annual report of the Toronto hydro-electric system shows a surplus for 1920 of \$122,727. The gross income was \$2,150,846. Power from the provincial commission cost \$574,827.92, or at the rate of 17.44 per h.p.

LETTERS RECEIVED GIVING DETAILS OF JOE KELLY'S DEATH London Man Killed by Train in Minnesota Slept On Tracks.

A letter addressed to the chief of police from August Bragg, cashier First State Bank, New Haven, Minn., giving the details of the manner in which Joe Kelly, a former Londoner, and his chum, Jimmy Murphy, met death in the Western States two weeks ago. The letter contained an incriminating statement. E. Kelly, mother of Joe Kelly, from Post No. 261, American Legion, expressing the sympathy of the unit, Kelly served in the Canadian forces during the war and with the American army later. A letter addressed to the chief of police from August Bragg, cashier First State Bank, New Haven, Minn., giving the details of the manner in which Joe Kelly, a former Londoner, and his chum, Jimmy Murphy, met death in the Western States two weeks ago. The letter contained an incriminating statement. E. Kelly, mother of Joe Kelly, from Post No. 261, American Legion, expressing the sympathy of the unit, Kelly served in the Canadian forces during the war and with the American army later. Our local undertaker has requested that I write you the particulars we have as to the death of Joe Kelly. I am writing to tell you, and trust that you will communicate or let the parents of Joe Kelly, if he has any, have any information that I give you. Riding Blind Baggage. It seems that Kelly, in company with Jimmy Murphy, boarded a train known as 110 on the Soo line and bound for Minneapolis, Minn. They were riding in a very severe night's riding, as the train leaves there at 5:30 a. m. and arrives in St. Paul at 7:30 a. m. They were both put off the train at South Haven and seemed in good spirits, and, according to the undertaker, and when told it was 56 miles they laughingly remarked that they could walk that in a couple of days. It was not practical. They visited one or two places, but did not get any addresses to anyone, and left South Haven, walking towards Minneapolis. Foggy, Dark Morning. There is nothing concerning their deaths that can be sworn to, but that they were run over by a freight train going west, and this happened 1 1/2 miles east of South Haven. It was a very foggy, dark morning, somewhere about 6:30, and the engineer said he did not see them, although he knew he had struck something. The train crew went back and investigated and found the two boys very badly mangled and both dead.

WILL RESIDE IN TORONTO

M. M. FERGUSON. It is generally known throughout Canada that London is one of the Dominion's most important advertising centres, more advertising being placed and planned in London than in any other Canadian city outside of Toronto and Montreal. This distinction has been achieved because London is the home of McConnell & Ferguson, Limited, now the most comprehensive organization of its kind in Canada, having besides the home office, branch offices in five other leading cities. Mr. M. M. Ferguson, who for the past year has been recuperating his health, will take charge of the company's interests in Toronto and will become editor-in-chief of The London Advertiser. The presentation was made by Col. J. B. MacLellan, about forty guests were present at the event, dinner being served in the Arts and Letters Club.

COLLEAGUES HONOR ARTHUR KENNEDY [Special To The Advertiser.] TORONTO, Sept. 2.—Editors and executive heads of the MacLellan Publishing Company tonight presented Arthur R. Kennedy with a large manted clock. Mr. Kennedy leaves shortly to become editor-in-chief of The London Advertiser. The presentation was made by Col. J. B. MacLellan, about forty guests were present at the event, dinner being served in the Arts and Letters Club.

ALLEGED ATTEMPT TO PACK CONVENTION TORONTO, Sept. 2.—The battle for the Conservative nomination in West York has become decidedly heated, and when the party stalwarts gather to elect a nominee to make a choice the voting will be limited to those showing proper credentials. The charge has been made by friends of A. J. Anderson, the other possibility, to pack the convention.

Christian Burial. The undertaker tells me that Joe Kelly had been buried before the train from Stoney Mountain arrived here. In this connection I beg to say that he was buried at the expense of the local citizens of South Haven subscribed a small amount to one of our local ministers for conducting the funeral service. The undertaker also tells me that the heavy expense of returning the body to London is caused by a passenger tariff and a certain metal container which the rail requires.

GRAND TRUNK RECEIVED TRIBUTE TO CONDITION OF ROADBED. The Grand Trunk Railway System has just received a remarkable tribute as to the condition of its roadbed, and the care with which "The International Limited" train service is operated over the double track main line between Chicago and Montreal. A gentleman who made the trip within the past few days states that a tall glass vase, containing flowers in water, with a small base of about eight inches was undisturbed, although unsupported during the entire journey of nearly 800 miles. It is probable that few railways in the American continent can lay claim to having received testimony of this character.

SEPTEMBER 12 TO BE CHILDREN'S DAY AT WESTERN FAIR City Clubs and Organizations To Assist in Making Day Successful.

A meeting of the fair board directors and representatives of some of the various clubs and organizations of the city was held Friday afternoon in the Western Fair offices, regarding the setting aside of a day on which the children of London would be the chief attraction. After much discussion Monday, September 12, was unanimously agreed upon. A letter was sent to the school board, asking for their co-operation in the matter. It is not yet known how this decision will affect the regular school fair days, Thursday and Friday, but it was thought it would be better to have it later in the year because a certain amount of enthusiasm would wear off by the time the exhibition would be coming to a close. Free Admission. Lieut.-Col. W. M. Garshoff, president of the fair, told of the plans in force at the Toronto exhibition. He stated that tickets were sent to different schools and presented to the children. These admitted the bearer to the grounds, and a coupon which was attached entitled the children to enter the grounds free of charge, either at the afternoon or evening performance. These plans probably some enlargement. The Children's Welfare Association, with a staff of 30 nurses and attendants, will have a large marquee erected on the grounds in which to look after children lost or checked. This arrangement will afford parents a better opportunity of seeing the exhibition. The association will also have a large rest-room for mothers, and the Technical and Art School have kindly offered to loan any number of chairs required for the week for this purpose. Committee Formed. A committee of six men, made up of one representative from each organization represented at the meeting, was formed to look after all of the details pertaining to "Young Canada Day." The committee selected is as follows: G. Philip (chairman), Chamber of Commerce; William Abbott, Shriners; A. J. Mitchell, Kiwanis Club; J. H. Foster, Lions' Club; D. G. Clarke, Advertising Club; W. K. Wendall, Rotary Club.

MAY DIE FROM HIS INJURIES Camden Man Pinned Under Corner of House When Beam Broke.

THAMESVILLE, Sept. 3.—While engaged in moving a house along the road at North Thamesville this afternoon, Arthur Deline of Camden Township was probably fatally injured. Deline had crawled beneath a corner of the house to place more planks to add strength to the structure when a large beam broke, letting the whole corner of the house down upon him. When physicians arrived from town they found him unconscious and suffering from a broken hip and severe internal injuries. He was rushed to the general hospital at Chatham with slight hopes entertained for his recovery.

MISS MARY GRANT IS VICE-PRESIDENT TORONTO, Sept. 2.—Mayor T. L. Church of Toronto was elected president of the Ontario Municipal Association at the conclusion of the annual meeting today. Mayor Copley of Hamilton was also nominated, but retired in favor of the Toronto man. All of last year's vice-presidents, namely, Miss Mary Grant, Longton Township; M. Huenergard, Kitchener; J. F. Vance, Wentworth, and W. Johnston, Toronto city solicitor, were re-elected and Mayor Copley of Hamilton was added to the list. Horace I. Brittain was re-elected secretary-treasurer. The names of W. H. Gregory, Stratford, and P. J. Eachern of Cobalt, were added to last year's executive committee to act this year.

CONSTATLES WILL LAY FOR SPEEDERS SARNA, Sept. 2.—The high county constable has been instructed to be on the alert for speeders at all times, said Magistrate J. J. Jarvis this afternoon, in concluding a session of the township police court, at which nine cases involving violations of the speed limits were disposed of. The statement was made in an emphatic tone, indicating that the campaign to call a halt to fast driving is to be carried on relentlessly.

Fatigue - your enemy - don't let it down you!

If you tire easily, that's a sure sign that you aren't eating the food your system requires. Heavy, rich foods are a drag on you, rather than a help. If you must eat foods like these, then counteract the effects by eating plenty of bread and butter as well. Bread of the high quality of Neal's Good White Bread ranks first among the strength-producing foods. It keeps the digestive system in perfect order and contains all the properties needed for health and vigor. We want to have every bread-eater in Western Ontario eating Neal's Good White Bread—that's why we make it so well and from such good materials.
