

ANNUAL RENT PAID

Chief Justice MacNair receives the traditional penny rent from U.N.B. President Dr. Colin B. Mackay.

TV DEBUT BY UNB LIBERALS ON THURSDAY

Members of the University of New Brunswick Liberal Club appeared on a ten minute television program from Saint John Thursday evening.

Supporting the local Liberal nominee in the forthcoming Federal election, the twelve member delegation was introduced by York-Sunbury Liberal candidate Dave Dickson.

This marks the first time that a University political club has appeared on television in support of a candidate.

Panel to Discuss Function of the University Prof.

There will be a Panel Discussion this coming Thursday evening in the Memorial Students' Centre, March 13th at 8:00 P.M. The panel will be chaired by Mr. A. A. Tunis, Public Relations officer for the University of New Brunswick.

The topic of the panel will be "The Function of the University Professor". Taking part in the panel discussion are Prof. L. Clark, Prof. R. J. Love, Prof. W. E. Hale, and Gino Blink. Two other students will be on the panel, but the Brunswickan was unable to determine who the other students were to be at press time.

NFCUS TO SPONSOR NATIONAL SEMINAR

A trip to the University of Western Ontario, discussions with students from across the country, lectures by well known personalities all for ten dollars — who are you trying to kid? This time we try to kid nobody, for we have the pleasure to announce that N.F.C.U.S. is holding its first National Seminar, in London, this fall from September 8th to the 12th.

The Seminar is designed to bring together a group of students from as many different universities as possible, and give them the opportunity of discussing the "Role of the University in National Development".

Anyone who intends to return to UNB next year is eligible. Selection will be made by a committee soon after March fifteenth
(Continued on page 3)

Hon. Lester B. Pearson, Miss Joan Proudfoot, and J. Barry Toole

The University of New Brunswick celebrated its 158th anniversary this past week with the observance of Founders Day. The ceremonies began Thursday afternoon with a luncheon in the Memorial Students Centre given by UNB President Dr. Colin B. Mackay. At the luncheon were members of the Legislative Assembly, members of the Fredericton City Council, the University Senate. Following the luncheon University President, Dr. Colin B. Mackay gave a brief welcoming address, after which Stephen Patterson and Iain Barr entertained with a recreation of their roles from the first act of UNB's recent musical comedy, "Around the World in Eighty Minutes".

A visit was then conducted to the new Chemistry building and guests also viewed the new facilities of the Engineering building.

At 4:30 P.M. a spirited panel discussion on "The Future of UNB" was held in Memorial Students' Centre and was under the chairmanship of Doctor Colin B. Mackay. Members of the panel were Dr. F. J. Toole, Prof. J. O. Dineen, Dr. W. E. Hale, Dr. W. C. D. Pacey, and SRC President William Ray. In the discussion suggestions were brought forward concerning additions and improvements to the university but it seems that the present problem is the ever increasing enrollment or facing a huge outlay of money for additional staff and buildings.

The evenings ceremonies opened at 8:30 P.M. in Memorial Hall with a colorful procession while the UNB Choral Society, under the direction of Arthur Trythall, sang an old academic song "Guadeamus Igitur".

President Mackay gave the opening speech which was followed by

the traditional payment of the annual quit-rent. Chief Justice J. B. MacNair, in the absence of Lieutenant-Governor D. L. MacLaren, P.C., the visitor to the University of New Brunswick on behalf of the Queen, received the payment — a 1884 New Brunswick penny.

Following the payment of the rent the Choral Society sang two more numbers, "Swing Low Sweet Chariot" and "September Song", Dr. A. F. Baird, professor emeritus of electrical engineering, introduced the speaker of the occasion, Prof. W. S. MacNutt.

The topic of Prof. W. S. MacNutt's Founders Day Address was "The Founders and their Times" in which he outlined the actions of the Empire Loyalists who had successfully struggled to establish King's College. Later great men worked to modify the established college to one free

The Hit Parade

Well, here they are, the results of the questionnaire we put in a couple or three weeks ago. As a preliminary note, may we say that, while we got more answers than we had anticipated, nevertheless the response was not outstanding. To be exact, we got 14 answers from Forestry (8.5% of their enrollment), 21 from Arts and Bus. Admin. (5.8%), 6 from Science (3.6%) and 8 from the Engineers (1.3%). This makes a Grand (?) Total of 49 completed questionnaires or 3.8%. Incidentally, of those 49, only five came from the co-eds, three in Arts and two in Science.

—Lonely Comments—

The results had to be considered in two categories: The 'check' ones and the comments. The former comprise what boils down to a popularity poll and were not hard to evaluate. The latter were another kettle of fish. Few comments appeared on more than six entries. Others would have the "Brunswickan" include a Social Column, a Hobby Page, and an Employment Bureau. While comments of this sort have their place, it should be obvious that the paper is neither large enough nor wealthy enough to accommodate such requests. The same applies to the seven people who want more Off-Campus news. This is handled quite capably by the downtown papers, who do not

devote more than occasional columns to student affairs but who specialize in Off-Campus news. Incidentally there were three people who wanted less Off-Campus news. As was to be expected, the old beef turned up about "tampering" with the articles submitted. Once again we will state that an editor's job is to edit. Sometimes the article submitted will be too long, it is cut; it may be too short, it is padded; it may be too vitriolic, it is toned down; or too meek, and is pepped up; and so on and so on. The editors are under no obligation to use submissions as they stand. The editor must only print what they consider worth printing. Occasionally their choice does not coincide with yours; that is human nature.

—Common Comments—

These are some of the more common comments. More humour, news from other Universities, news of clubs, etc. on Campus, more on the SRC (one wanted less), more Creative Writing, pictures, extension plans and Intramural Sports. One subject that has a mixed following is Sports. Fifteen people commented on it. Of these, ten from Science, Engineering and Forestry, wanted less space devoted to it. The other five were all Artsmen and they all wanted

more. There must be a conclusion to be drawn here but exactly what it is escapes us. Common ground was reached, however, in that almost all wanted Sports to be confined to the back page.

With regard to the desire for more Creative Writing, we must repeat that we cannot publish what we do not receive. If the Creative Writers on this Campus would send in a sample or two of their work, we will be only too glad to satisfy our readers.

GARY SAUNDERS and FRED McDUGALL

The following word-list appeared in the Brunswickan in 1931, and is reprinted here in an attempt to combat campus illiteracy. The author remains unknown.

THE RANGER DICTIONARY
(All wrongs reserved)

ABNORMAL: Irregular; example: a fire-fighter complaining of being overpaid.

APPROXIMATE: More or less. A word designed for use of field men in compiling reports dealing with unknown or impossible quantities; as for instance, approximate sizes and amounts, as for instance; costs, humidities, temperatures, speeds, thicknesses, heights, volumes, diameters etc. Use permissible on all reports

with the exception of the Weekly Expense Account.

AXE: A tool of steel or iron used by fire-fighters for quarrying and removing rocks from the fire-guard.

BILTMORE STICK: A straight stick used to measure round surfaces. Can be very useful to a one-eyed person. Often used to prove that the quantity of wood in a tree is greater than the amount it contains.

COMPASSMAN: A man who travels fast when you want him to go slow and vice versa.

CRUISER: A battle-scarred, bottle-scarred, mosquito-stung, fly-blown, frost bitten son of the woods.

HORSEPACKER: One who is paid more for less.

Now for the easy part, the Hit Parade. The columns and subjects were "rated" as follows: for every time the 'Always Read' box was checked, they got five points; 'Usually', three points; 'Sometimes', one and 'Never', none. In the "standings" below, "1" indicates the most popular, "2" next and so on.

Story With A Moral

There once was a Co-Ed
Who made up her mind,
The secret of passing
And knowledge to find.
With every intention
Of making all "A's";
Here is the record of
How passed her days:

At eight in the morning,
She would quickly arise;
(She would? but she didn't
She just closed her eyes.)
She would never be late
For a nine o'clock lecture;
(Never? — Well, readers,
What's your conjecture?)

And so it continued,
Exams drawing nearer;
Unheeding and careless,
She found things no clearer,
But woke up one morning
So sad and bereft—
With a shock came the thought
"There is just one month left!"

The moral is obvious
And will always prove true
Plan to work better next year,
If returning you do.
But that's what you did
In your planning last year.
However, everybody must change
his ways sometime and had you
changed yours last fall,
There would now be no fear.

Childish and Unrealistic

Recently the Daily Gleaner reprinted a letter to the Editor of the Brunswickan that was printed in the latter publication in the March 4 issue. It concerned the criticism of the Red 'n' Black Revue that L.S.L. wrote for the Gleaner. The criticisms apparently hurt a number of people's feeling. Why is not quite clear to us. We felt that the criticism was fair, to the point, and in many ways easier on some participants than might have been expected. Yet feelings were hurt, and somehow this is indicative of expectations and reactions on this campus. Apparently the feeling exists that when students put a lot of work into something that is for the benefit of the whole campus they deserve praise and honour. This, we feel, is a completely unrealistic and childish attitude that should be considered critically before it is carried too far.

In normal life, when a job is to be done, we do our work with the greatest of conscience. We may put an enormous amount of work into a project. Yet we expect to be judged on the quality of the job done, on its relative merits, not on the work we put into it. It would be a strange world if the quality of our work were judged on the time spent on its completion. The most faulty and irresponsible plans could be put into operation by, for instance, the government, if the time spent on the planning were the criterium of quality.

With the Red 'n' Black, the Drama Society productions, the Musical Comedy, and all other public productions in whatever form they are expressed, the accent should be on quality of presentation and material. Those that view or review the products of U.N.B. students either publicly or for their own satisfaction, consider these products on their merits, not on the principle that whatever U.N.B. does is always good or bad.

About Letters and Editors

We mentioned a letter written to the Brunswickan. We might pursue this particular subject 'Letters to the Editor' a little further. A great many of the few letters that we receive from readers contain criticism, which is exactly what we desire. It is, however, a pity that in the majority of those letters the writers attack people. This may be an amusing pastime, but it has extremely little effect.

For those who are not aware of this we would like to mention that the intention of the letters to editors is, or should be, criticism of the principles involved, not the character of the Editor.

We will admit freely that a letter in which it is stated that the writer thinks that we are all wet and continues with a long involved diatribe against the personality of the Editor rates very low and is soon forgotten.

What is taken seriously, however, are those letters wherein the writer informs us that we are wrong, and then proceeds to either prove it or attack the principles involved. Such letters may provide for a healthy controversy, or what is even better, for a decision that something is either good or bad for the college, the students, the faculty, or the Brunswickan.

Letters to the Editor

The Editor, The Brunswickan
Dear Sir:

The following was recently discovered in the pages of a student's prayerbook. We thought it might be of interest to your readers:

THE LORD'S PRAYER

As appointed in the seventy-ninth year of Our Lord to be said or sung in a loud voice, twice every Sunday, in the chapels and churches of this Province of New Brunswick.

Our Father, Which art in Nassau, hallowed by Thy fame;
Thy business boom; Thy will be done in Fredericton as it is in Fleet Street. Give us this year our annual grant. And condemn for us our liquor laws, as we condemn those who imposed them against us. And lead us not into inflation. But deliver us from poverty. For Thine is the Province, the towns, and the people, for ever and ever, Amen.

Sincerely,
(signed) Three scholars.

Dear Sir:

The Editor, The Brunswickan Re - "Lecturers or Teachers"

I read your editorial with interest which (it seems to me) raised the following questions:

1. What are the functions of universities in Canada from the point of view of instructors and students?
2. For the former: is a university primarily a place to teach or to conduct research?
3. For the latter: is it primarily a place to learn, to prepare for an occupation, to establish significant connections in business, the professions, marriage, etc.?

Assuming that your main interest lies in establishing teaching and learning as a primary function of universities, it appears that the most appropriate mechanism for its transmission is what concerns you. From this point of view I would suggest that the problem varies with the size and sophistication of the class, the subject taught, research facilities (in libraries, labs, nearby areas for field work, etc.) and in the personality of the instructor.

While I know of no single formula for ideal transmission, I think it probable that there are certain broad principles which might be explored. I have heard that a panel discussion may be planned to deal with the subject, and I would like to go on record as supporting this endeavour provided the discussion is phrased in terms of a general problem and in a constructive way.

Sincerely,
(signed) Tom F. S. McFeat

The Editor, The Brunswickan.

Re - "Sports and What Not"

Dear Sir:

In recent Brunswickans we have seen some controversy over the class, consistency and calibre of the sports and athletics of the U.N.B. campus. I would like to put forth the more general feeling of the student body. It is quite obvious that by far the greatest proportion of people at U.N.B. can take no part in Varsity sports. These are the wisest members of our ranks. Why are we at University? — To become N.H.L. famous? — or to make money? — I, for one, am here solely to become a millionaire, and for this reason, I shall attempt to advise others in this predicament.

For the last few years I have been observing, very carefully, all the millionaires in my social circle. Go into any of the clubs downtown and you can see them, six or seven of them grouped around, reading. It is funny you know, you would think they would be too tired for reading after a hard day at the office. Eleven till three are hard hours, especially with only two and a half hours for lunch, but don't you believe it, they are really tough. They read and read until they too can understand and appreciate the subtleties of Pogo, L'il Abner, and with luck Nipper.

Moving back to the athletic field; do you ever see millionaires getting up early, taking cold showers after their run before breakfast? — No — Never. Do you see them worrying about their diet? — No — Athletes are a finicky lot, in general. — They will not eat raw flesh because there is too much nitrogen in it, they will not eat fruit because there is not enough. They will not drink water out of a tap, fried eggs off a plate, or oysters out of a bucket, and they are all scared stiff of alcohol in any shape, and out of any container.

Everyone knows that all good millionaires have to be able to take neat scotch until all other millionaires are under the table — (in this condition business can be so much more profitable) and everyone knows the wonderfully lackadaisical hours of the millionaires. So let the U.N.B. coaches and players argue and fight, let the ardent sport fans scream and yell. I, for one, will practice being a millionaire, and to hell with all sports.

Signed "Sporty, the Fan"

The Editor, The Brunswickan

re - "Sports and what not"

Dear Sir

The opening statement of your editorial appears to be quite superficial. Actually the level of sports at U.N.B. is rather average and not low. This is a fair conclusion if one looks at the records of all the various teams participating in sports at U.N.B. over the past few years.

The editorial seemed pre-occupied with the three major sports at U.N.B. But by defin-

ition the level of sports embraces the total number of athletic groups on the campus. It is therefore a bit unfair to make so broad and general a statement. In fairness to all the teams on the campus one thinks a future explanation of the statement would be in order.

Sincerely,
(signed) Pete Mockler,
Arts IV

Comment

We apologize for making this error. Indeed the comments con-

Teachers or Lecturers . . .

Recently we wrote an editorial with the title "Teachers or Lecturers?" This sparked considerable discussion both in classrooms on suggestion of professors, and among students. Professor McFeat in his letter elsewhere on this page mentions the possibility of a panel discussion to deal with this subject. This will be held on Thursday, March 13 at 8 p.m. in the Students' Memorial Centre. The panel will consist of six members and a chairman, three faculty members and three students. The discussion will be on: "WHAT IS THE FUNCTION OF THE UNIVERSITY PROFESSOR?" and will be sponsored by the UNB Debating Society.

The intention of this panel is to go as deep as possible into the duties, responsibilities, and practices of a college professor. Possibly professors and students hold different views on these subjects, and it is for this reason that we ask as many as is possible to be present at this discussion. There will be ample time for a question period, so that everybody will be able to present his particular view of the problems involved or to bring his particular complaint about practices and attitudes that he has run into. We would suggest that this might be of interest to all faculties. Make an appointment with yourself to attend this promising event! !

Belts Awarded

The UNB Judo Club, under the able supervision of Sergeant Jack Milrose of the R.C.M.P., first Dan black belt, has recently held competitions for the purpose of grading members. The following advances in rank were awarded: fourth Kyu, Dave Lawson; fifth Kyu, Ken Sansom; sixth Kyu, John Gardner, Walter Moore, John Campbell, Les Smith, Welsford Musgrave, Woody Nonan, Richard Knox, Gil'es Marcotte, and Gregg Tracey.

The following list of judo grades should clarify the position of the various judo ranks for those who are not familiar with the sport. Starting with the first rank obtained and the belt worn to signify this position: sixth Kyu, white; fifth Kyu, yellow; fourth Kyu, orange; third Kyu, green; second Kyu, blue; first Kyu, brown.

The only belt worn above the rank of first Kyu is the black belt. The black belt holder is ranked according to his degree or "Dan", a first Dan black belt coming after the rank of first Kyu. The highest rank attainable is that of tenth Dan black belt.

At this meeting also Dave Lawson was elected President of the club, with Ken Sansom as secretary. John Gardner, Walter Moore, and John Campbell complete the executive. Students with inquiries as to the activities of the club are asked to phone 5-8679.

NFCUS TO SPONSOR

(Continued from page 1)
so get on the ball and get your application into the Registrar's Office or to Bob Sutherland, who can be reached in the Beaverbrook Residence.

tained in the editorial entitled: "Sports and What Not" were aimed at the three major varsity sports, and not, as one might gather too easily from the opening paragraph, all sports. G.B.

Red Raiders Win Over The X-Men

TAKE A 3 POINT LEAD Co-Eds Lose Hoop Title

UNB's John Kelly is shown on a lay-up shot during last Saturday night's exciting basketball game against St. Francis Xavier. St. F.X. players watching, apparently entranced, are Monterio and Fashay (17). UNB won the cage contest 70-67.

The University of New Brunswick Red Raiders downed Saint Francis Xavier 70-67 in the first game of a home and home, total points playoff series for the Maritime Intercollegiate Basketball Championship. An enthusiastic crowd watched the exciting and hard fought game in the Lady Beaverbrook Gymnasium last Saturday night. In the preliminary tilt, Moncton C.Y.O. defeated the Junior Varsity 68-57 in a close game.

The scoring in the first period of play was initiated by John Gorman for the Raiders, however, good defensive play on the part of both squads kept it down to 13-13 at the half way mark. The Raiders pulled ahead towards the end of this opening half in which play became very heavily checked. At half time the score tallied 40-29 in favour of the Red and Black.

During this period the Raiders netted 14 baskets, twice as many as their opponents, from 48 shots. The Xaverians picked up 15 additional points from a total of 25 foul shots, and the Raiders scored 12 of their 17 penalty shots, one of which resulted from a technical foul late in the period.

Excitement rose to a fever pitch in the second half of the game as the Blue and White squad fought their way back into the game, from a scoreboard point of view, only to be met by a tightened UNB defense. Tension rose at the twelve minute mark, with the scoreboard reading 54-53 in favour of UNB when the Raiders lost a key man as John Kelly was fouled out of the game. Lonnie Taylor fouled out with two minutes remaining in the game followed shortly by Hilton of St. F.X. Moments before the final siren sounded, UNB picked up a foul shot, executed by Bob Porter, and increased their edge

over the Xaverians by 5 points.

During this last half, the X-men netted 15 baskets two more than the Raiders. St. F.X. had 49 shots at the hoop while the Raiders had 44. The X-men tallied 6 out of their twelve foul shots whereas UNB racked up half of their 8 penalty shots.

It would be difficult to try and single out any one outstanding player in the game since all turned in excellent performances. Davenport, who picked up most of his points from foul shots and Moran, by means of consistent running attacks and a good jump shot, were the highest scorers of the night, tallying 24 and 18 points respectively for the X-men.

John Kelly and John Gorman led the scoring for the Red and Black with 17 and 16 points each. Captain Don Bryant and Ron Manzer, each picked up 11. This was Manzer's first game in several weeks.

An indication of the close checking was the staggering number of fouls (41) called by referees Bill Reid and Tony Tamarro. 24 went to UNB and the remaining 17 to the Blue and White. As mentioned earlier, Kelly and Taylor were the bad men for the Raiders accompanied by Hilton of St. F.X. all fouling out in the last period of play. Moran and Davenport for St. F. X. and the Raider's John Gorman and Bob Porter came close with 4 fouls each.

Red Raiders' coach Nelson was pleased with the outcome of the game and when asked as to the prospects in Antigonish next Saturday, where the final game will be played, he noted that there "is a lot of hard work ahead". He went on to say that "it is up to the boys — they have the goods".

Mount Allison University captured the Maritime Women's Intercollegiate Basketball Championship at a round robin tournament played at the Beausejour School in Moncton on Saturday. In the opening game Mount A defeated UNB by a score of 45-29. The "Red Bloomers" came back in the second game with an impressive 54-44 win over Dalhousie University. The evening game between Mt. A and Dal clinched the title for the Mt. A girls as they defeated Dal 47-42. The title was previously held by

UNB. The Mount Allison squad had been showing a definite improvement with every game they played during the schedule and led by Charlotte Doyle, who accounted for twenty of her team's points, they took an easy victory over the hard-driving, but spiritless, UNB team. The UNB team had the lead at the end of the first quarter but they lost it early in the second quarter and never regained it.

The Dal-UNB game saw the "Bloomers" playing ball with all

the skill that they possess. Starting slowly at first the UNB-team slowly took the lead and never lost it. The final score read 54 to 44. Pam Dewis was high scorer for the game with twenty points. UNB's Diane Smith was close behind with eighteen points and Jo-Anne Carr had sixteen points.

Freda Wales and Donna Ellis were referees for the tournament which resulted when UNB, Dal and Mt. A tied for first place in the MWIAU basketball schedule.

Swim Teams Retain Crowns

The University of New Brunswick men's and women's swim teams won the Maritime Intercollegiate swimming titles at a meet held at Acadia University last Thursday.

The UNB men's team, in racking up their eleventh title in twelve years, chalked up 58 points over their only competition Acadia who scored 42. The Beavers won seven of the twelve events and set one new record, UNB's Darroll McKenzie in the 100 yard breaststroke established the new time of 1:17.1 in a preliminary event. McKenzie also won the final heat of this event with a time of 1:19.

A new record for the 100 yard butterfly of 1:15.6 was set by Chawn of Acadia.

UNB took first place in all women's events as they defeated Acadia and Dalhousie. The co-eds piled up 51 points over Acadia's 22 and Dalhousie's 10. Acadia University's President, Dr. Kirkconnell presented the winners trophies to the Beavers' captain Dave Sanger and to the girls' co-captains Janet McNair and Eleanor Hoyt at the con-

clusion of the meet.

Results — Men's Events
UNB 58 Acadia 42
