moved by Victoria University, stated "after the abolition of tuition fees there is still a discrepancy between annual student revenue and annual student expenditure on education.' It called for modification of ex-

isting student loan schemes "as an initial step toward the elimination of loans" by making loans refundable upon successful completion of each academic year.

The congress also adopted a comprehensive 13-point educational action program including socio-economic studies on motivational factors and on cyberna-

Congress has "theme" song

One of the highlights of the recent CUS Congress held at Bishop's was the party on the last night of the gathering.

It was an unexpectedly sober affair no doubt due to the serious attitude that all the delegates (particularly those from the Press) assumed at all times and because not everyone had the foresight to obtain sufficient spirituous liquors.

Perhaps the highpoint of the evening was the lusty singing of the official Congress song. At Press time the Gazette was not A motion passed at the recent able to obtain the words, but we dents should contact Liz Campbell or Charles Henderson or Ann Rungas who we understand have pletely memorized.

national solidarity day

It seems that the decision to march has been taken. The Gazette has learned from a reliable source that the date October 27th.

It is significant that this is only a week and a half before the November 8th Federal election.

Welcome Frosh

A hell of a lot of you are going to flunk out of this place next spring.

A few of you will have serious mental breakdowns; a few more will become very depressed because of lack of money; one or two of you will get an education; and the vast majority of you will sail blithely through your freshmen year without ever once being bothered by anything other than the time involved to memorize a few irrelevant facts to be subsequently spewed forth on your final examinations.

Well that's not quite fair. If you're a girl you'll undoubtedly spend a great deal of time worrying about your social life and your popularity quotient. The boys will spend a great deal of time worrying about you, particularly about your moral standards, and about appearing like a "real man" for the other boys.

So welcome to Dalhousie, the Gazette trusts that your stay, whether brief or otherwise at this institution of higher learning, will be enjoyable. If you haven't started already you will probably soon experience the joys of drinking, more to the point, you may experience the thrill of high marks and if you are really lucky you won't run into one professor or student your whole time here who will be unpleasant enough to force you to do some thinking.

However, if by some slight chance you managed to escape our pedestrian high school with then you might consider some of the following facts.

According to the Atkinson report on higher education less than 14 per cent of the students come from families earning less than \$3,000 per year. This represents only 4.9 per cent of those in that category. Yet II per cent of the students have parents earning a salary in excess of \$15,000. per year. This represents 76 per cent of those eligible to attend from at least when some of them are decided. that class. The recent Canadian Union of Students Means Survey looks as though it will pecially a certain "establishment" universi-

In Canada only 12 per cent in the normal age bracket for university attend, whereas in the United States the percentage is closer to 40

sentation on the Board of Governors, hence it. Get active man, get active.

no voice in the highest policy making body. out the program passed immed-By a provincial law all student activities are lately before the discussion of controlled "de jure" by the administration. the budget. Fortunately this legal control is not exercised. but it might be tomorrow.

Almost all the members of University Governing Boards are businessmen who bring only one point of view to the deliberations, the viewpoint of the upper middle class who have impassioned speech from Malalways felt the universities to be their pri- calm Scott the outgoing Vice

Tough, you say, Maybe so, but not as tough keep the union insolvent. Or at as the hard economic facts that show other least that's how it looks from this countries gradually surpassing Canada, because of a superior educational system. The point is that something has to be done about education in Canada right away in order to maintain pace cessity for paying for the various with other countries.

And that's where you come in. For if you really want to become part of the university people fall into the trap of the and become immersed in its finest tradition then you must recognize that when you registered you joined a community. "A community of scholars in search of objective truth" is the old text book definition of the university and it has very real significance for our present situation in Canadian universities. The time is fast approaching when our society must make some vious futility of bringing into efbasic decisions about our institutions of higher fect the various proposed pro- said. learning. Society must make up its mind about some spark of curiosity and real desire to learn control of curriculum (in whose hands should it lie given the necessity for heavy government financing of universities) about opening the universities to all regardless of their parents' financial status, and about democracy in the university itself (what should be the relationship between the students, staff, and administration. These questions are pressing upon us and you may be the people who are the leaders of the student community when they are decided, or

SHAW SPEAKS

would like to very heartily welcome you to Dalhousie and hope that your days here will be

many and fruitful. This year we have the largest freshman class in the history of the University. We sincerely hope that this will not only be the largest freshman class, but a most successful one in terms of scholarship, enthusiasm, and spirit for Dalhousie, intelligent and informed interest in the activities

being carried on, on the campus. Dr. Hicks and Dean Cooke have spoken to you concerning your responsibility to your studies. The Students' Council endorse their words heartily and we sincerely hope that you will always put your studies before all other endeavours while you are attending University. However, we hasten to add that we feel strongly that each and everyone also has a responsibility to your University and to yourself to take part in some form of extracurricular activities. Whatever activity that might be at Dalhousie we are proud of our tremendously varied program of extra-curricular activities. The list of activities stretches from athletics to language clubs, from the production of a Broadway Musical to running a large Student Housing Bureau, from editing what has recently become an excellent campus newspaper to taking part in Science Society activities, from discussion of the important and involved problems of the Canadian Union of Students (of which Dalhousie is a keen member) to the planning of a Winter Carnival - and I could go on and on.

Last year the total of your Dalhousie Students' Union was nearly \$170,000 larger than many business concerns in this city. Student Government has taken on a new aspect at Dalhousie in recent years. It has not as yet, and hopefully it will not in the future become an impersonal bureaucratic tangle. Rather it remains as a wonderful opportunity for anyone to gain experience in the fields in which they are interested. I suggest that you cannot find me a person who is not interested in at least one or two of the activities which are sponsored by or in conjunction with the Students

Council. But Student Government at Dal is not just a training ground where various individuals join organizations to plan the Friday night dance or to gain experience in working with others thereby furthering chances of success in future life. I suggest to you that Student Government is becoming much more than that. University students are awakening to the fact that they have the ability

On behalf of the Dalhousie Students Union I and in fact the duty to make an important contribution to Society while they are attending university. Let me give you an example; as Dalhousie students we will be taking part in a National Student Demonstration to be held October 27 - the purpose of this Demonstration is to bring to the attention of the public, the crying need for more government aid to higher education. How many of you sitting in this hall will be forced to go thousands of dollars in debt to pay for your university education for the next few years. But much, much more important, how many of your fellow high school graduates who had the ability to come to university with you, were prevented from having the same opportunity as you have because they could not afford to come or were frightened of the psychological hurdle of mounting debts. The Students' Council feels that it is our responsibility as members of Society, (not just as students) to demand of our Premier and of the Prime Minister of Canada why more action has not been taken in alleviating the financial plight of our universities, thereby forcing higher and higher tuition fees. I submit to you that the concern of students about the problems of society should not be limited to tuition fees and such items of narrow interest to the student but should extend to such questions as the future of Quebec in Confederation, the position of the Canadian Indian in our society (I'll bet that many Dal students do not even realize that the problem of the Canadian Indian is one of the most serious questions presently staring the Federal Government in the face our interests should extend to a study of whether or not we feel our universities should adopt a Trimester system such as has been done in many American universities ... and again I could go on

> The point I am trying to make is that Student Government and activities at Dalhousie do not consist of merely "fun" activities, although it is important that we still have fun and recreation, but that all of us have a responsibility as a member of Society to study, attempt to understand education ourselves about the important topics of local and National interest, particularly in the field of education, and then to make our opinions known, just as other groups in Society do every day. I sincerely hope you will consider carefully these words in the coming months while you are becoming adjusted to university life.

Again I would like to wish you every success in your studies and hope that your stay at Dalhousie will be an educational and enjoyable one.

PAYAS YOU GO

PAY AS YOU GO

Perhaps the most significant story to come out of the CUS Congress at Bishop's University concerns the budget of the organization itself.

Not that the Gazette is unmindful of the many bold actions taken by the Congress. Free education was hailed by the professional press as the most important move of the meeting. The recognition of the Union Generals des Etudiants Quebec (UGEQ) as a national union of students is certain to have its effect on the whole Confederation debate. The birth control resolution was widely publicized by the papers and even the move to reconsider the CUS' membership in the International Student Conference (ISC) was thought by many to be highly significant for the future of the organization.

Yet after all this has been duly noted, it is most interesting to note that the member institutions refused to vote the Union sufficient funds to enable it to carry

When a motion was proposed to raise the per capita student levy 15 cents it was howled off the floor. Delegate after delegate rose to speak against this subversive proposal culminating with an President begging the delegates to vantage point.

The problem with many organizations today is that their members fail to realize the neservices which they (the members) so ardently desire. These wild eyed idealist who advocates thousands of wonderful schemes without mentioning how these schemes are to be turned into reality. This kind of behavior ultimately means that intelligent ganizations because of the obgrams.

We are saddened by the fact that the Canadian Union of Students - our Union - has been afflicted with this malady. The glowing promise of the first four and wealthy." days of the Congress were brought crashing to the ground by the financial irresponsibility of the fifth. EDICATION FOR THE RICH

Education in Canada is for the rich. And as less able enter and scrape through our universiif that wasn't enough of an indictment in a supposedly democratic society, automation is threatening to cement the relationship.

This is not the opinion of a frustrated middle aged Marxist, but one of Canada's leading authorities on higher education, Timothy E. Reid.

As well as being a lecturer in economics Prof. Reid, is co-ordinator of secondary school affairs and secretary of the faculty of graduate studies at York University.

This summer he spelled out the hard, cold facts concerning Canadian education to the Ontario Department of Education's Secondary School Principals' course at Queen's University.

"Our formal educational system has been people are driven from these or- and is extremely wasteful in that too many of our youth leave it before they have even moderately developed their potential thinking abilities," he

> ". . . the new technology could very well fix those conditions in our society which tend to perpetuate the sons and daughters of the poor staying poor and to perpetuate the sons and daughters of the middle-class and wealthy staying middle-class

Prof. Reid went on to trace the cycle that is the basis of our class structured system.

"Today, the under-educated are the unemployed. The unemployed are the poor. The children of the poor are the school drop-outs. The school drop-outs are the unemployed.

"Or, we can take a look at the other circle. The educated are the steadily employed and are the middle-income and the rich. The children of excuse for allowing the Union to the middle-class stay in school - many of the

Kudos from the Gazette

Though it is most unusual for a college newspaper to say anything nice about student politicians, those loutish tramplers of freedom of the press, the Gazette has decided to once again break tradition.

The cynical will shake their heads in wonderment at this violent departure from student journalism ethical standards, but the Gazette must admit that the Dalhousie delegation the annual Canadian Union of Students (CUS) Congress performed admirably.

It was a very strong delegation that went up to Lennoxville and this showed in Commission and in the Plenary sessions. Whenever Dal spoke she was listened to with respect and it is no accident that many of the important resolutions were passed because of the direct intervention of the Dalhousie delegation.

Ann Rungas the most inexperienced member of the delegation worked extremely hard reading the working papers in preparation for the Congress and she proved to be a sensible member of the Delegation when it got together to discuss strategy, and a valuable asset for the regional caucuses.

Carole Henderson was also a very valuable member of the delegation. She was always aware of the issues involved and often spoke on behalf of Dal in private conversations which had a real effect on the results of the

The third member of the delegation was Robbie's mate (running that is, not conjugal) Liz parents who live on \$3,000 or less are at school all the SISA grads (to be explained in a later issue) made Dalexternal relations.

"NO TIME"

Dear Sir:

In the coming months students will be bombarded with sugarcoated offers to buy Time magazine. We must agree that Time is well written and is highly entertaining, but it is not what it claims to be - a news magazine. Time is a skilfully written propaganda piece. It dismisses the realm of ideas and deals with the cult of the personality. From its front page picture of the week's leading news character (according to the judgement of Time) to the back page reviews the personality predominates. According to Time every international crisis can be reduced to black and white terms. (White is the United States position and black belongs to all godless, communist based causes that oppose Uncle Sam.)

We believe you should continue to buy Time. At the same time buy the odd copy of The Reporter. New York Times or the Christian Science Monitor (it is not a religious newspaper) and compare the foreign news coverage.

Yes, Time is a barrel of laughs. Yours Truly.

10, 1964 will be remembered as "black Saturday" in Quebec city. The occasion was the Queen's visit to the capital city of Quebec. French-Canadian separatist students were bullied and harrassed by riot squads as they carried out peaceful demonstrations against the royal visit. Several weeks later the Attorney General's department of the Quebec Government absolved police of guilt in the incident and blamed the Canadian press for inciting needsafety in Quebec.

For some years to come, Oct.

Frime Minister L.B. Pearson provoked a positive response from students in October when he told the National Conference of Canada Universities and Colleges he favored free university education. Although there will always be impediments of one kind or another, he said, the financial barriers to education which now exist cannot be tolerated indefinitely. He added, however, that there may be other and greater priorities in the field of education at the present time.

The administration and students at Berkely have since come to terms but relationships are strained and the peace is tenuous.

The strength of the Canadian Union of Students freeze-the-fees campaign met its first test at the University of Manitoba in early February. About 1,500 students took part in a half day strike and demonstration in front of the Manitoba legislative buildings to protest a predicted increase in tuition next September. The Manitoba Government turned down a Students' Council brief asking for an additional \$600,000 grant to the university to avoid the increase. Following the demonstration, Dr. H.H. Saunderson, president of the university, announced an across-the-board \$75 increase in tuition next fall.

Freeze-the-fees campaigns at the universities of Alberta and Western Ontario were more successful. After consideration, both universities announced they will not raise tuition next year althought graduate student tuition at the University of Alberta will be increased \$65.

The campaign suffered a ser-

Acadian coeds knitted continuous- sonably light. ly for ten days. The result: a red and white scarf 105 feet, 6 inches

bers of parliament and party lead- tion of things to come, ers were almost unanimously _ critical of the resolution.

Taking everyone by surprise, the Newfoundland government announced March 9 that it will pay tuition for all first year university students in the province beginning next year. Finance Minister Fred Rowe said the government was 'aware of the inevitability, before many years, of free tuition for second and third year students as well." The plan will effect freshman students at Memorial University in St. John's, the only degree-granting institution in the province. No other Canadian province provides free tuition to all students in any university year.

A University of Toronto "sitout" in front of the U.S. Consulate in Toronto protesting racial violence in Selma, Alabama, snowballed into a dramatic march past the U.S. Embassy in Ottawa March 14. About 320 students from the University of Toronto and another 3,000 students from at least six other Ontario universities participated in the march, which drew in all about 4,000 demonstrators, many of them non-students. In a statement to the demonstrators Prime Minister L.B. Pearson said. "I honor those in Alabama, or anywhere else, who are fighting within the law for their rights as free citizens."

From Angel's Roost: David Day Once a miracle; now a newspaper

During the past 96 years, there were occasions when the publication of the Dalhousie Gazette was a miracle a week.

Since the first 250 copies were handprinted in Halifax in 1869, the Gazette has been waylayed by student engineers. Occasionally, the paper never reached the students.

The views expressed by Gazette editors once swept them to the threshold of a court room door. However, Gazette staff writers have always sought to be accur-

ate and sometimes controversial. Gazette by-lines have been earned by men and women who later became university presidents, law school deans, wealthy business-

men and competent journalists. Subscriptions to the Gazette have been purchased by President Lyndon Johnson and the University of Moscow.

Last year, the Gazette expanded to eight columns - a first in Canada's student press. This week the newspaper circulation reached 4,000 and a

complete edition of advertising was published. Next week, we trust, you too will begin contributing to the Gazette, its weekly paper and its traditions.

One night, six years ago, a New York university professor, Jay Monroe, slipped into bed beside his wife with a paperback edition of Tolstoy's War and Peace. The bedroom light beaming down from the ceiling prevented

his wife from sleeping and she complained. But Monroe quickly found a solution. He invented a Lilliputian

lamp which permitted him to read in bed without disturbing his Neighbours and friends were attracted to the idea and asked

for copies. He decided to introduce his bed lamp into the consumer

In 1961, the first full year the lamps were available to the public, sales totaled \$53,000. Last year the Monroe operation Tensor Corp. had sales of \$4.2 million. Expected sales in the current year, says a corporation spokesman will be close to \$7.5

Besides, Tensor now dominates the small lamp industry accounting for some 50 per cent of the total industry's volume of

University professors in Queensland province, Australia are excitedly hunting down a 300-year-old crocodile

The huge, man-eating animal makes its home in a swamp on the upper Daintree River. It is 30 feet long, at least 300 years of age - and dangerous.

A riverside family has complained to provincial police that the crocodile has already devoured a horse and should be shot, But the professors disagree. They want the grand-daddy of crocodiles brought into captivity - alive.

Says one university spokesman: "A live crocodile born three centuries ago, is the kind of biological rarity usually found only on the Galapagos. Cost of capturing and transporting the animal is

Meanwhile, protests have been voiced by professional crocodile hunters who dislike police competition.

And the Queensland professors have asked organizations in the United States and western Europe for international financial support for an expedition to bring the crocodile back to civilization

THIS HOUSE **WAS BUGGED** FOR SCARE!

Patrolman Nicholas Heery, sent to investigate reports of ghostly doings at a deserted farm house, in Guilford, Conn., opened the front door and a strange figure swooped at him, knife in hand.

The figure was a dummy, one of several in the house. All were made from sheets rigged on wires strung to make the dummies plunge down stairs and lunge through doorways.

The report of strange happenings came from Frederick Bennett farm house owner after he had stopped by the old house to see if vandals had damaged it.

Bennett found a mannequin lying in state in the living room, a booby trapped kitchen, and one bedroom rigged so that a person outside could pull wires to raise the lid off a chest, lift the sheet off the bed and jangle the bed-

springs. Bennett and Heery agreed the haunting was probably the work of ingenious youngsters.

First step to free education

Free tuition for 1,400 freshmen at Memorial this autumn

By DAVID DAY of The Gazette Staff

There were 1,450 freshman queued outside the Olympic gymnasium at Memorial University, St. John's Tuesday morning when registration began for the autumn semester.

However, unlike freshmen classes of '65 enrolling at Canada's other 41 campuses this week the Memorial freshmen paid no

And according to Premier Joey Smallwood, whose Liberal government is financing the plan, no other North American university can boast such benefits for its students.

Besides, the Newfoundland Government has publicly promised free tuition for second year students come next September, and intimated, all 4,500 students on the campus in four years will pay

When the first year free tuition was announced last February, there was no partying in the legislative chambers at Halifax, Charlottetown or Fredericton.

Many of the Maritime university president's expressed re-

At the University of King's College, President Dr. Harry D. Smith did not agree with the Newfoundland government financing first year education.

Said Dr. Smith: First year is the screening year. The other years are more important. It would be nice to have university education free through to graduation but that won't be for another

But in Newfoundland, the Smallwood government had apparently decided not to wait quite that long.

At the founding convention of Memorial University's Alumni Association in August, Premier Smallwood remarked he would be "greatly surprised" if all years at the campus "were not free within two or three years after the coming year."

He was more specific two weeks ago and informed the Province, Memorial sophmores would likely benefit from government-paid

Assuming each student pays an average \$385 in first year, the Newfoundland government would be footing a \$555,000-bill for tuition

Not so, says Rex Murphy, Arts-Pre-Law IV at Memorial. He told the Canadian Union of Students at Lennoxville, Que. that Premier Smallwood's free tuition cry was "at best a half truth and at worst, a fraudulent, political move."

Congress delegates, he gathered, understood Memorial students were benefiting from government-paid textbooks, accommodation expenses, transportation and education.

The provincial government, said Mr. Murphy, was paying for tuition only. And at that, he added, not all Memorial students were in fact, benefiting from the move.

He contended at the Congress that more than 700 of the students who are entering Memorial today can get \$600 teaching grants from the provincial government. Medical students can take advantage of a government plan that finances their entire education from first year to graduation with an M.D.

Their education completed, the teachers and doctors must spend several years working back in Newfoundland.

Besides, scholarship winners will not have their tuition paid

for them by the Newfoundland government, the Memorial student pointed out.

In reality, about 700 students are getting tuition-free education.

But he was quick to add that the other years at Memorial are paying an additional \$50 in fees for the third, straight year, offsetting the expense of free tuition for these 700 freshmen.

Back in St. John's, the pro-Liberal radio station C.J.O.N. inaccurately quoted Murphy as terming the tuition scheme "a fraud" and Premier Smallwood retorted he heard the report with "shocked disbelief" and requested an apology. It was then he proposed free tuition for sophomores at the Newfoundland campus, and said his government had already decided to go to the provincial legislature presently to provide free tuition in all years (by 1969).

In Lennoxville the Congress welcomed Premier Smallwood's announcements and dashed off a congratulatory telegram to him. The delegates expressed hope the tuition-policy in Newfoundland would be repeated in the rest of the country.

Tuition fees to be major issue in "year of action"

LENNOXVILLE (CUP) - Patrick Kenniff, 22, incoming president of the Canadian Union of Students, told delegates to the 29th congress of CUS that universities are ignoring the obvious result of their actions in choosing to raise fees to meet their revenue

In his opening address on August 29, to delegates from 45 Canadian universities meeting at Bishop's University, Mr. Kenniff urged student leaders to fight inequality of access to higher ed-

Calling the coming year a decisive one, he said: "The Bladen commission on the financing of higher education is scheduled to report within the next two months and there is little reason to believe that this report will attempt to democratize accessibility to higher education."

"Drastic action may be required, and we must be prepared to meet this challenge."

Turning to the growing expertise of CUS in education, Mr. Kenniff called the Canada Stufall, "a study which will benefit ternational Union of Students. dent Means Survey, begun last both the students of this generaof CUS at the 28th congress at tion, and the students and decision York University last fall, served makers of the future."

Tigers drill for '65 grid season; boast "Cassius Clay of football"

Reports say Rutigliano is more optimistic

Head Football Coach Joe Rutigliano as a five year rebuilding housie University Football Tigers on August 31st, with increased manpower, experience, dedication and general optimism.

Dunstans in their first conference game there is a strong feeling that the Tigers could have housie on Saturday, September 18th when the team travels to Montreal to tangle with the reportedly tough Loyola College squad. One week later the Dartmouth Vikings of the Atlantic Football Conference will provide the opposition in an exhibition game to be played at Studley Field at 2.00 p. m.

Coach Rutigliano, chastened somewhat by a three year tenure that has produced only three victories and one tie in twenty-three games, refused to go out on a limb when asked to predict this year's results. However, with several talented new faces and almost a dozen headliners from last vear's squad Rutigliano remained quietly optimistic.

Of last year's Tigers only ten lettermen are in camp but the new recruits have more experience and more impressive press clippings than previous rookies.

Included in the nine lettermen not returning from last years squad are co-captians Wally Clements and Jamie Muir, who graduated. Speedy halfback Gary Sutor and tackles Phil Thomas and Shelley Harrison are not returning to Dalhousie while backs Glenn Christoff, Mark Offman and Mike Prendergast were academic casualties, Brian Coleman although at Dalhousie Law School is ineligible.

Headlining the returnees will be co-captains Bill Stanish and Bill Raine, Stanish, the Most Valuable Player of the 1964 Tigers, will be the number one quarter-

Year number four of what has back and could very well develop been conservatively estimated by into one of the conference's best signal callers. With a strong arm and good speed Stanish will operprogram opened for the Dal- ate as a double threat. Raine, a rugged 195 pound guard and Dalhousie lineman of 1964, is in good shape and according to Coach Rutigliano will be a standout.

Other returnees of whom big fore the Bengals tackle Saint things are expected are linebackers Cam Trotter, who may double at offensive halfback, and Don Routledge. Second year tacktheir first winning season since les Dave Blanchard, who tips the 1960. The season opens for Dal- scales at 230 pounds, and Elliot Jacobson, who has slimmed to 206, are both rounding into shape while center John Boyle from St. Pats is looking forward to another fine year. Jim Collins from Dartmouth and Eric Krantz from Long Island are returning backfielders while George Markou, after a fine season in 1964, will give Dalhousie some needed experience at end.

> Headlining a group of talented freshmen is All-New England halfback Paul Souza, hailing from Ipswich, Mass. The 5 foot 7 in. 190 pound speedster is present. ly recovering from an injury suffered in the Harry Agganis Bowl played in Boston on August 20th. If he responds well to treatment Souza could be Dalhousie's finest running back since Peter Cor-

> The new linemen in camp include all jersey shore lineman Frank Casey who is quickly rouninto shape after a bout with an ulcer, Harry Westerneier, from Middletown, N.Y., and Gary Holt, from Middleton, N.S. bothweighing in at a hefty 255 should certainly help out as will Clark Vinning from Prince Andrew and Keith Kingsbury from Massachu-

> Four newcomers bigging for the end position included John Ivany, a 6 foot 4 inches graduate of the McGill Redmen. Sure-Hanged Mel Ritcey and Barry Black from Q. E. H. have been impressive as well as highly touted Barry Griffin, from Portland, Maine.

Anyone interested in the fine old game of English Rugby should contact Colin Howell at 429-0510.

Other freshmen bidding for starting positions are halfback Bob Blanchette from Danvers, Mass, and Rob Daigle from Rhode Island. Doug Quackenbush. A Q. E. H. Grad, will be a defensive halfback as well as doubling a Quarterback. Tom Mac Kenzie another Prince Andrew Graduate_will be at one or another by the defensive slots.

Although the coaching staff refuse to make any predictions the feeling would have to be one of quiet optimism. With only ten lettermen returning, there certainly are problems which must be solved but as Coach Rutigliano says, "we have the nucleus of last years squad and with seven or eight talented freshmen to fill the gaps, we could come on strong."

Meet Loyola tomorrow in opener in Montreal

head into a new season and a new football scene.

commital about the team's chances for this season. However, informed sources say the Coach is more optimistic about this year's personnel. Although the Tiger's have lost nine players through Spring and Xmas graduations, they do sport a number of valuable returnees, and experienced newcomers.

This is the Tiger's fourth season under Rutigliano, and although they have not been a winning team in that period, experts have called the Bengals the bestconditioned team, and the team best-versed in fundamentals.

The League Dal enters is Rugger practices will begin on somewhat altered from last year, with the college teams dropping ference. It means that for the first time since Canadian football was introduced to this area, Dalhousie will compete for football honours on a strictly intercolleg-

> it would appear that officials of the Maritime Intercollegiate Athletic Union considered the withdrawal a necessary move. Many local supporters are not convinced of this.

The move has left a bitter taste in the mouths of those connected with the League for so long. It is difficult to deny that service teams have provided excellent competition over the years.

One has only to go back to 1957, the year the Shearwater Flyers won the Canadian Intermediate Football title. It was that team and that wear that did much to generate local interest in foot-

The League produced such notables as Bob Hayes, Coach of St. Mary's Huskies, Dale Klassen,

With a halfback who claims to who saw action with the Hamilton be "the Cassius Clay of foot - Ti-Cats, and 'Moe' Levesque who ball", a couple of 255-pound line- is playing excellent ball with the and an enthusiasm which Montreal Allouettes. It was a would make any coach envious, service team that introduced the Dalhousie football Tigers Coach Don Loney to the Maritime

Loney has made the greatest Coach Rutigliano remains non- single contribution to the advancement of football in these parts.

> There are many people who are not satisfied with the MIAU's explanation for this move. In any event Dalhousie will play this season without the valuable competition and experience offered by service teams in previous seasons.

Although it is difficult to predict what the Tigers will do in the 1965 season, it is certain that Coach Rutigliano will field a highly competitive and well-conditioned team.

The Tigers have been undergoing rigid training for the past few weeks. It has included three practices a day, with stiff conditioning drills. Considerable road work and wind sprints have been an integral part of the field sessions. Classroom meetings have also been an important part of the pre-season camp, with two hour-long sessions each day.

has noted this about the Tigers, They're smarter. They're easier to teach and we can do more with them in a given time than we could before. Their extensive high school experience has taught them the value of hard work. There are no quitterson this

Assistant Coach Al Yarr

Undoubtedly the success of the Dalhousie Tigers will depend largely on the support of the student body. This being the first edition of the Dalhousie Gazette, it would be only appropriate to make a plea to all Students, especially freshmen. GET OUT AND SUPPORT THE TIGERS.
