TENDERS WANTED

for heating and ventilating the Picton Public School Building by steam, each tender to be accompanied by full specifications and a plan of the system, also a marked cheque for 5% of the amount of the tender. Lowest or any tender not necessarily accepted. Tenders received up to MAY 10TH, 1906.

P. C. MACNEER,
Secretary Picton Public School Board,
Picton, April 23rd, 1906.

AGENTS WANTED

Civil engineers know that the semi-regular built road, the BUDAPEST ROAD, was laid in 1875, and that it has been successfully used in DIFFICULT POSITIONS since, both THERE and IN BELGIUM and GERMANY. The PRINCIPLE upon which this road was built has been thoroughly demonstrated by THIRTY (30) YEARS' PRACTICE.

THE AMERICAN MECHANICAL APPLICATION of this principle in road building (The Nash Road) has been very different. It has been COMPLETE, not semi, FAR MORE EFFECTIVE, IN MANY MORE WAYS, and is VERY MUCH CHEAPER.

Agents wanted throughout Canada for this road. Address The Nash Road, Borough of Brooklyn, N. Y. City.

Street Sweeping Machine

Is the Standard of Perfection

Because no sweeper so effectually does the work for which it is designed as "The Studebaker." It Sweeps Clean. No sweeper is constructed with the same degree of care and mechanical precision. It Wears Well. "The Studebaker" has the smallest number of working parts, and has less gearing than any other sweeper made. It is free from all unnecessary complications. With reasonable care it does not get out of order. Send for complete descriptive catalogue.
