McLaughlin

Canada's Standard Car

McLaughlin builders have won today's undisputed leadership on a Big Idea — a right principle, rightly applied, the famous McLAUGHLIN VALVE in HEAD MOTOR.

The McLaughlin Car was designed primarily for use, and for plenty of it. The materials used are the very best. Nothing has been skimped or slighted. The workmanship is as fine as can be found in the Motor Car industry.

In principles of design and construction, in standards of manufacture, and in actual performance, it measures up to highest expectations.

**AN INVITATION TO SICKNESS
Impure Blood Means a Break-Down in Your Health**

Impure blood is an invitation to sickness. The blood is at work day and night to maintain the health, and any lack of strength or purity in the blood is a weakness in the defense against disease. Anaemia is the doctor's name for lack of blood. There may be an actual loss in the quantity of the blood, or one or more of its constituents may be lacking. Its surest symptom is pallor. Anaemia is particularly common in young girls. It is not, however, confined to them alone, for it is this same lack of blood that prevents full recovery after la grippe, fevers, malaria and operations. It is also present in old age and in persons who have been under unusual mental or physical strain. If you are suffering from this trouble take Dr. Williams' Pink Pills for Pale People. They make pure new blood with every dose and this new blood means health and strength. Thousands have proved the truth of these statements, among them Mrs. John Hyatt, Metiskow, Alta., who says:—"About a year ago I was in a badly run down condition, my blood was watery, I was very nervous, slept badly at night; suffered from frequent headaches and found my household an almost intolerable burden, my appetite was poor, and I did not seem to assimilate the food I took, altogether my condition seemed serious. As there was no doctor in our neighborhood I decided to give Dr. Williams' Pink Pills a trial, and I have much cause to be thankful that I did so, as in a few weeks I could feel a great change for the better. I continued the use of the pills for some longer, and found a complete cure. I feel better than I have for years and can therefore cheerfully recommend Dr. Williams' Pink Pills to all who are weak and run down."

You can get these pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Canadians in the Thick of Fighting on Western Front

Ottawa, March 5—Indications that the Third Canadian Division at the front has been in another fight are furnished by cables received at the Department of Militia. In the action on March 1st, in which Lieutenant Colonel Becket was killed, there were losses affecting Ontario battalions, but they were not heavy. A number of officers besides Colonel Becket are believed to have gone, but the lists will be forwarded through the usual channel of the Record Office.

Toronto, March 5—The special correspondent of the Evening Telegram cabled today from London as follows:

Once again, after months of routine warfare, the Canadians have been in heavy fighting, the heaviest for them since the Somme offensive, through very local in extent, for in this latest "strafe" against the Germans several battalions only from one of the Canadian divisions were engaged.

The attack took place on Thursday. To assist in the general forward movement the British troops have been making, of late, over ground abandoned by the Huns in their retreat, the Canadians launched a strong assault against a particularly formidable German position on high ground, well fortified and heavily manned by the enemy.

After vigorous bombardment of the Hun position by artillery, the Canadians turned on gas, following up with an infantry advance in waves.

Owing to unfavorable atmospheric conditions (it has been damp and foggy), and uncertainty of the wind, the gas clouds were not as effective as usual.

The Germans met our advance with a heavy fire, but the Canadians inflicted severe losses upon the enemy before returning to their trenches. Our artillery did particularly effective work.

Will Adopt 2500 Belgian Children

OYSTER BAY CITIZENS, AFTER HEARING ADDRESS BY COLONEL ROOSEVELT, COME TO THIS DECISION
NEW YORK, March 5—After listening to an address by Theodore Roosevelt, the citizen of Oyster Bay at a mass meeting last night decid

ed to "adopt" a Belgian village of 2,400 children. The plan will call for a contribution of \$2,400, a month.

Col. Roosevelt, it was announced today, will serve as Honorary Chairman of the general committee of the Rocky Mountain Club of New York which has started a campaign to raise \$1,000,000 a month to aid the children of Belgium. This committee is making a particular appeal to the states of the far West.

CHILDHOOD AILMENTS

The ills of childhood come swiftly and too often before a

doctor can be called in or medicine obtained the little one is beyond aid. The wise mother will always safeguard her little one by keeping Baby's Own Tablets in the home. This medicine always does good—it can never do harm. Concerning it Mrs. Napoleon Lambert, St. Ignace, Que., writes:—"Baby's Own Tablets are an excellent medicine for childhood ailments and I am well pleased with their use." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Senators Obstructed Vote on Armed Neutrality Bill—Wilson to Call on Extra Session

Washington, March 4—Twelve Senators, led by Senator Lafollette and encouraged by Senator Stone, Democratic Chairman of the Foreign Relations Committee, in a filibuster denounced by President Wilson's spokesman as the most reprehensible in the history of any civilized nation, denied the will of an overwhelming majority in Congress up to the last minute today, and denied to the President a law authorizing him to arm American merchant ships to meet the German submarine menace.

Unyielding throughout 26 hours of continuous session to appeals that their defiance of the President would be humiliating to the country; uncompromising in a crisis described to them as the most serious to the nation since the Civil War, Lafollette and his small group of supporters refused a majority of their colleagues an opportunity to vote on the Armed Neutrality Bill and it died with the Sixty-Fourth Congress at noon.

An extra session of Congress the President says, is required to clothe him with authority, but it is useless to call one while the Senate works under the present rules, which permit a small minority to keep an overwhelming majority from acting.

The President proposes, therefore, that the special session of the Senate which he has called to meet tomorrow will revise the rules "to supply the means of action, and save the country from disaster."

"A little group of wilful men," says the President, in this statement, "representing no opinion but their own, have rendered the great Government of the United States helpless and contemptible."

Only 94 British Ships Destroyed During February

New York, March 5—Official figures from the British admiralty, made public here today at the office of the consul general of Great Britain, show that during February, 94 British merchant ships were destroyed by mines or submarines. Of this number 61 ships were 1,600 tons or over, and 33 were under 1,600 tons. In addition to the merchant ships 29 fishing vessels were sunk. It is reported that during the month 67 British merchant vessels were unsuccessfully attacked by submarines, as shown by reports on file with the admiralty up to and including March 4.

The figures show that the number of merchant vessels, of all nationalities, over 100 tons each and exclusive of local or fishing craft which arrived at and departed from British ports, were as follows:

Vessels arrived, 1,463; vessels sailed, 9,124, total 18,587.

The foregoing figures do not include losses of ships of Great Britain's Allies, or those of neutral nations which, the admiralty stated, are not available. The number of German submarines captured or sunk, the admiralty says, will not be made public.

Indicative of the activity of Great Britain in replacing the losses it was officially stated that at the present time more than 2,000,000 tons of shipping is on the stocks in various shipyards, all in more or less advanced stages of construction.

"The general situation," the admiralty announced, "is considered quite satisfactory."

Mrs. E. Norman Dimock left Tuesday night for New York called there by the serious illness of her sister Mrs. Clarence Dimock who recently arrived there from France, where she had for some months been assisting in Patriotic work for the alleviation of suffering victims of the war.—Windsor Tribune.

Japan Would Not Desert Her Allies

Tokio, March 3—Declaring that Japan had received no such proposal as that bared in Germany Foreign Secretary Zimmermann's letter to German minister at Mexico, Viscount Motono today asserted the whole plot "showed the mental delusions under which Germany is now laboring." "The entire scheme is absurd," he declared "First it was absurd to suppose that Japan would desert her allies and join with Germany. Secondly, it was absurd to imagine that Mexico could induce Japan to follow such a course." No proposals of any kind have been received from Mexico.

It will be a relief to many Nova Scotians to know that none of the overseas mail sent from Halifax was on the Canadian liner Laconia, which was torpedoed and sunk on Sunday night.

Arrangements have been made whereby the Hiawatha Band, under the able leadership of Mr. Charles Silver will provide the musical program for the second annual Dominion Atlantic Employees' Ball, to be held in the Pastime Hall on Easter Monday, at 8 p. m., the net proceeds of which will be turned over to the needy families of Kentville soldiers, now at the front.

With the splendid showing made by the Band at the recent Oddfellows' Dance, there does not now appear to be any necessity whatever for going outside of the town for musical talent, nor is there any reason why, with such musical capabilities, we should not have more entertainments of the nature of that provided by the Oddfellows, and where every individual stands on his or her own merit, without respect to class or clique.

Increased Production Urged.

A call has gone out for increased production in 1917, and townspeople are urged to cultivate every acre of waste land. If everybody who can will do his bit in this way it will help keep down the cost of living and the exercise itself will add to the general health of those who employ their spare hours in cultivating a garden or in raising poultry or in any other way that produces foodstuffs. Look about you now and see if you cannot help others by helping yourself. Self-help is more blessed than self-denial.

The bottom dropped out of the Boston potato market on Wednesday and telegrams received in the afternoon stated that merchants would not pay \$2.00 per bushel.

Two Showings Daily Afternoons at 3 o'clock Evenings at 8 o'clock

From the Official Motion Pictures of the Battle of Courcellette
A Famous Nova Scotia Battalion Leading the Attack at the Battle of Courcellette

The 25th Battalion led by its colonel, advanced in four lines on a frontage of eight hundred yards. Each man carried rations and water for forty-eight hours, his entrenching tool, two hundred and fifty rounds of ammunition and sandbags. As they topped the crest of the ridge they looked over two thousand yards of open trenching ground, and over our trenches to the orchards and still undestroyed houses of the village of Courcellette.

It was a critical moment, for though our own heavies were taking in a furious tornado on the village, who could tell what machine-guns, ready

to sweep everything high in the open, lurked in its recesses? The men, however, advanced at a walk, laughing and chatting. Though the dust whirled up in places under the impact of the bullets, the enemy's rifle and machine-gun fire was weak. The German eight-inch guns soon got the range, and men began to fall under the crashing explosions, but the lines passed steadily as if they were on parade in some peaceful and distant land.

The lines swayed and dipped forward to the very verge of the village. In the last six hundred yards the enemy's rifle fire redoubled in intensity. Casualties and the necessity for retreating from rear to front, reduced our lines of attack from four to two. It was then that Major Brooks and Captain Dickey, the adjutant, were killed. The final rush across the open ground carried the Nova Scotians into the outlying gardens of the village. The Germans tried to stand

there, and in the middle they lost heavily in killed and prisoners. They captured a machine gun here. The barrage lifted. There was something like silence for a moment, till the crackling of rifles and machine-guns, which

Every battalion in both the morning and evening attacks of this day gave its best, but here the case of the Stairs family calls for particular mention. Three brothers and a cousin have fought in this war. One brother was killed in the second battle of Ypres, another brother and the cousin, have given their lives in the Somme, and Dennis Stairs, the last survivor was killed recently.

The Germans paid heavily for their failure to resist the sudden blow of the Canadian infantry. One battalion alone took in the two thirds of the village which fell to them, over three hundred prisoners, and killed and wounded over 500.

Among the varied spoils which fell into the hands of the Canadians were two heavy guns and a large trench mortar of a new pattern. The latter weapon was taken by Lt. Dennis Stairs, a battalion machine-gun officer, who was shot through the right wrist while making the capture.

"The Rexall Druggist"

A Poem of Merit Written By a Former Kentville Man

We had the pleasure of reading an "Acrostic on Kitchener's Army," written by a former resident of this town, now living in Edinburgh, Dr. Arthur Douglas Webster.
The poem is too long to review at length, but the two following stanzas will give some idea of its classical quality.

Red page of war, no peaceful theme
Inspires the pen—is it a dream
From which the soul cannot awake?
Yet lying low in terror shake,
In horror at thy mangled fleece,
Thy stricken form—O lamb of Peace!
But as with shame the face doth glow
The big battalions moving go;
They spring as from the earth
springs wheat
Growing apace by Heaven's heat;
As free as is the wind and wave
They come their fathers' hopes to save;
A great heart in the filling phase
In action—to the world's amaze
Bright blood arrives in every part
Fresh flowing from the Empire's heart
And as it courses quick and strong
It rouses life as stirring song.

Young men—and men forever young—
Whose praise shall be by virgins sung,
Born in the fullness of the time
To stem this peril at its prime;
When Church and State together rise
And martial music fills the skies,
Titanic hate proclaims its hour
Yet virtue calls with greater power,
The strength of mailed fist shall fall
As fell before the Christ, St. Paul;
From blinded eyes shall drop the scales
And men shall see the print of nails!
But e'er we see the curse subdued,
The age-long feud must be renewed,
The reign of force, to fullness grown,
With its own weapons be overthrown,
And this the Day! The Army rose
To grapple with their mortal foes.

Dr. Webster is now serving his country as Colonel in the Scottish Medical Corps. His two eldest sons are also serving in the medical corps of the Empire. Captain Douglas Webster is stationed at Salonica. Major William L. Webster is stationed at Malta. His son-in-law, Captain Duncan Church, is serving in India, and Mrs. Webster and young daughter are engaged in voluntary nursing. This instance adds one more to the many thousands of English families who are nobly answering their country's call to duty.

Six Hundred Soldiers Breakfast in Truro

Six hundred soldiers who were intown early this morning, were provided with their breakfasts in the short time of one hour and a half.

The men were entertained at the following different hotels, and lunch rooms, the Learment, The King George and The Royal Hotels also at the C. G. R. dining hall. This was good quick work, and speaks well for the efficiency of the Truro hotel proprietors who had but a few minutes previous notice to prepare for their soldier guests.—Truro News.

Gin Pills FOR THE KIDNEYS

From all parts of the world we receive words of praise for Gin Pills as the great remedy for kidney troubles. The following is from Jamaica where Gin Pills enjoy a very large sale.

"I was a clerk in a store in Jamaica but had to give up my position on account of kidney trouble. I purchased one box of Gin Pills from a local Druggist and before it was all finished I was entirely better and able to return to my work. I recommended them to a friend who was also in a similar condition and he tried them with the same good results. I may tell you I tried many remedies in Jamaica before I got your Gin Pills.

THE CORRECT WAY TO TREAT A COLD

A cough is not a distinct disease, it is the result of inflammation caused by a cold. Therefore, the only way to cure a cough is to allay the inflammation which invades the delicate bronchial tubes. All of the narcotics in the world will not correct the conditions which cause a cough—they simply deaden the senses and afford temporary relief.

Penslar White Pine and Spruce Balsam with Menthol will promptly soothe and heal the inflamed membranes and overcome the nervous irritation. Price, 25c and 50c the bottle.

THE LITTLE THINGS

Studebaker cars are fine cars. The excellence of Studebaker chassis design—the beauty of the body, both in finish and in line—the wonderful power of the motor—the smooth, almost vibrationless operation of the car—these are the BIG things that indicate quality, which makes Studebaker a fine car.

But PERFECTION also is shown in the LITTLE things.

In both the Studebaker FOUR and SIX you find a high-grade Yale Ignition Lock; permanently bright finished metal parts; hand grips on the door; leather-bound carpets in the tonneau; aluminum bound linoleum in the driver's compartment; leather edged top; Blackmore curtain openers; leather-bound robe straps; big pockets on every door.

These are some of the LITTLE things that indicate the perfection not only in BIG things but in detail, which make the Studebaker such a wonderful value for the money.

GOOD COWS PLEAS FIFTY PER CENT

The man familiar with cows may make a fairly close estimate of what any one in a given herd will give possibly per day, per month or per year. Does it follow she is the 'best' cow? It depends somewhat on what the owner is after: he may look for a large flow of milk, he may require plenty of cream, or wisely, he may expect a substantial profit above the cost of feed. So your cows as a herd, may 'average' 6,000 pounds of milk and 200 pounds of fat, but is each one earning a good pro-

fit? Cow testing, checking up each individual, will answer this and any other questions. It will also help, as it has helped many dairymen, to add at least fifty per cent to their income from the same number of cows, because they keep those that are known to be efficient. Your average may be 7,000 pounds, but in three years perhaps you can make it over 10,000 pounds, but it won't be unless each one is up to a good standard. Write the Dairy Commissioner, Ottawa, for milk record forms. Your letter does not need a postage stamp.

DOMINION PARK IN ANnapolis VALLEY

(St John Telegraph) Annapolis Valley, rich in historical interest, is to have a Dominion Park maintained by the federal government, in order that the historical interest of the Land of Evangeline may not be diminish on this continent.

Id Fort Ann, round which so many traditions centre and upon which much of the early history of Acadia was built, has been taken by the Government, by an order-in-council issued on January 24. This was the information given to The Telegraph by L. M. S. Fortier, FASHRDL by L. M. Fortier, of Annapolis Royal, who was a guest at the Royal yesterday.

About three years ago Mr. Fortier recommended that the federal authorities take over this historic property. The recommendation was not acted upon and after it had been left to follow for about a year and a half Mr. Fortier interested the people of Annapolis Valley in the scheme and finally it was approved by the government. Now the Fort Ann property is under the jurisdiction of the commission of dominion parks at Ottawa. It will be Nova Scotia's first historical park. Heretofore it was the property of the town of Annapolis Royal, but there were not sufficient civic funds at hand to properly maintain and improve it.

It is not likely that any large amount of money will be spent upon it until after the war is over and conditions become normal again. In all probability the order creating Fort Ann an historical dominion park will be promulgated in the course of the next few days.

Mr. Fortier is inspector of immigration agencies for the Maritime Provinces. He said that the immigration agencies at the present time were for the most part engaged in preventive work, looking out for the aliens and parole men who may be seeking to escape from parole. They are also looking out for undesirables and turning them back, thus keeping the immigration machinery in working order.

Mr. Fortier said that he anticipated a big rush of settlers to Canada after the war. He pointed out that there were many in the old land who felt they would like to come to Canada but they had their homes established and did not care for that reason to come to the new world. The war had brought about new conditions. Thousands would emerge from the conflict desirous of making a fresh start in life and Canada presented the opportunity.

A good scheme, in his opinion was under consideration by Premier Murray and his government in Nova Scotia. It was first suggested by the western Nova Scotia boards of trade and was later taken up by the government. It is to divide large farms into small holdings and offer them at inviting terms to new settlers. This was primarily brought forward to accommodate the returned soldier but as many of these men do not desire to go upon the land on their return from the trenches, it has been decided to put forward the scheme for the benefit of new settlers. Mr. Fortiers will return to his home the first of the week.

NEW ZEPPELIN AND CREW DESTROYED

London, March 3—A new Zeppelin, on speed trials at Ghent, caught fire on Monday and was completely destroyed, according to reports from Berlin received by the Exchange Telegraph Company by way of Copenhagen. The despatch says that the crew of the Zeppelin perished with their airship and that two Belgians who witnessed the disaster were arrested and taken to Germany.

P. E. Island Man Russian Admiral

(Vancouver World) Vancouver, B. C., Feb. 24 — Prince Edward Island has contributed an admiral to a foreign navy in the person of Captain John L. Read, for many years in charge of the dominion government ice breakers, plying between the island and mainland during the winter season. 12 months ago Captain Read took the ice breaker Minto over to Archangel. The Russians, being so pleased with his exploits in rescuing of the ships from the icy grip of their frigid zone on his first visit, asked him to return again, and he has again complied with their request, this time going in command of the new dominion government ice breaker J. D. Hazen, which has been disposed of to the Russian government and renamed the Mikula Sellaninatalch. Captain Read has now been asked to attack himself to the Russian navy as superintendent of the entire fleet of ice breakers, with the rank of admiral.

The above recalls to mind that a few years ago Bucknam Pasha died in Turkey. He was vice admiral and commander of the Turkish navy. He was born at Halls Harbor in this county, son of Ezra Bucknam and his wife Isabella Roscoe. His real name was Ransford D. Bucknam. —Ed. Advertiser.

A Vote For Laurier For Bourassa

The Halifax Chronicle's doughty Maritime champion of Laurierism, professes to be perplexed by the statement that "A vote for Laurier is a vote for Bourassa." The Chronicle will be content to let the question be decided by Mr. Bourassa himself.

Writing in his daily paper, Le Devoir, a short Mr. Bourassa made the following definite charges, far as we know, remained unchallenged:

"Let us suppose, for argument," wrote Mr. Laurier, "that Mr. Laurier's actions are true and that the National resistance is inspired towards England, a school were given to sons of hatred and disunity of the school of the Liberal under the supreme leadership of Mr. Laurier. If Laurier who taught us as early as 1890, that 'never will we take part in the England'."

"Really, if the National and generally the French-Canadians, do not feel in a position to shed their blood for England, for any other country, Mr. Laurier may be the generation I have up and educated; he has principles, the ideas and the moments which I have upon my dear country. Is it not therefore logical to say that 'A Laurier is a vote for Bourassa'?"

Halifax, March 5—have been two chief conversations in millit during the past week.

The first one was the German intrigue to Mexico and Japan in United States. Seeing latest unlawful submission would bring into direct conflict many on account of promises made at the Sussex outrage, a plan was made through C. Bernstorff and the Ambassador to Mexico, Mexico and Japan in Germany in the war United States. It is to realize a more intimate and when this became both the United States and Senate hastily president permission what steps were needed to protect United States interests. This sort but probably not so Bernstorff since the deceiving many United States. Now the matter of importance is the German drawal on the Somme fifty square miles of have been voluntarily by the Germans. Is this kind of natural some trap, but the matter seem to be the man saw that it was to defend this section and withdrew to

"A Vote For Laurier is a Vote For Bourassa"

The Halifax Chronicle, that doughty Maritime Province champion of Laurier Liberalism, professes to be peeved that the statement should be made that "A vote for Laurier is a vote for Bourassa." Surely the Chronicle will be content to permit the question to be settled by Mr. Bourassa himself.

Writing in his daily newspaper, Le Devoir, a short time ago Mr. Bourassa made the following definite charges, which, so far as we know, remain unchallenged:

"Let us suppose, for one moment," wrote Mr. Bourassa, "that Mr. Laurier's accusations are true and that the Nationalist resistance is inspired by hatred towards England, at what school were we given such lessons of hatred and distrust? At the school of the Liberal party under the supreme inspiration of Mr. Laurier. It was Mr. Laurier who taught us, as early as 1890, that 'never would Canada take part in the wars of England.'"

"Really, if the Nationalists, and generally the French-Canadians, do not feel in a hurry to shed their blood for England or for any other country than their own, Mr. Laurier may say: Here is the generation I have brought up and educated; here are the principles, the ideas and sentiments which I have impressed upon my dear compatriots. Is it not therefore quite logical to say that 'A vote for Laurier is a vote for Bourassa?'"

Halifax, March 5—There have been two chief topics of conversation in military circles during the past week:

The first one was the clumsy German intrigue to embroil Mexico and Japan in a war with United States. Seeing that the latest unlawful submarine campaign would bring United States into direct conflict with Germany on account of broken promises made at the time of the Sussex outrage, a proposition was made through Count Von Bernstorff and the German Ambassador to Mexico, to have Mexico and Japan unite with Germany in the war against the United States. It is hard to realize a more unfriendly act, and when this became known both the United States Congress and Senate hastily gave the president permission to take what steps were needed in order to protect United States lives and interests. This sort of thing, but probably not so aggravated, has been carried on by Von Bernstorff since the war started, but he was shrewd enough to deceive many United States politicians. Now the mask is off.

The other matter of great importance is the German withdrawal on the Somme. About fifty square miles of territory have been voluntarily evacuated by the Germans. In a case of this kind we naturally look for some trap, but the facts of the matter seem to be that the Germans saw that it was impossible to defend this section of the line, and withdrew to save their

troops, which may perhaps be much needed elsewhere at this time.

It is gratifying to see that the winter campaign which usually does not amount to much, has been so fruitful, and other withdrawals at an early date would not be surprising.

These facts should encourage us to put on all pressure so as to bring the war to a speedy culmination, and every fighting man should take his place to accomplish the desired result.

Plot to Kill President Wilson

Hoboken, N. J., March 5—An alleged plot against the life of President Wilson has been uncovered here, according to detectives who today arrested Fritz Kolb, a German reservist from Mexico. In a hotel where Kolb had engaged a room, were found two bombs which, the detectives said, were to have been sent tonight to the President.

Kolb, questioned sharply at police headquarters here, is said to have confessed he conspired against the President's life, and that he took part in the Black Tom and Kingsland explosions.

According to members of the New York bomb squad, the two bombs, were the "height of ingenuity." One is a time bomb and the other fitted to explode by the ignition of a fuse. The explosives were contained in tubing wrapped around with copper wire.

Upon information declared to have been given by Kolb, detectives arrested two other men, one here and one in Jersey City, and brought them to headquarters as alleged accomplices.

GERMANS REPULSED AT VERDUN

British Also Successful
London, March 5—The troops

of the Crown Prince sume ward again north of Verdun yesterday afternoon in a sweeping attack along a two mile front between Chambrettes Farm and Bezonvaux. They smashed through the French advanced positions north of Caurieres Wood, but were back in every effort to penetrate the wood itself.

A curtain of fire from the French guns checked the onrushing columns at every point and inflicted severe casualties on the attackers. This morning General Nicelle's soldiers pressed forward against the positions occupied by the enemy and wrested back the greater part of them, according to Paris.

On the Somme and Ancre fronts the British carried out minor enterprises aimed to strengthen their new lines. German attempts to recapture the trenches lost yesterday east of Bauchavesnes failed completely. The British positions east of Gommecourt were improved during the day and successful raids were carried out in the Arras, Ginchy and Ypres sector.

Aerial activity was revived along the entire front. Seventeen German machines were brought down, all but three by British aviators or anti-aircraft batteries, while the Germans accounted for seven British planes.

come to Nova Scotia and take his college course at Acadia University, where he graduated with the degree of B. A., in the class of 1903.

He was ordained in Wolfville on June 24, 1903, and sent out as a general missionary to the colored Baptist Churches in Nova Scotia. He did effective work in Windsor Plains, Kentville, Digby, Weymouth, Yarmouth, Sydney and organized the second Baptist Church of New Glasgow.

On Feb. 3, 1905, Mr. White came to Zion Church, Truro, and since that time many marked improvements have been made. The old mortgage on the church was burned and a most convenient parsonage has been added to the church property.

Mr. White received notice on the 27th that he had been appointed Chaplain of No 2 Construction Battalion, composed of colored men recruited from all over Canada and on this preferment we all extend congratulations.

Mr. White, born in the United States is a loyal British subject. He took out naturalization papers about six years ago.

It is quite an honor that Truro should furnish the first colored Chaplain ever appointed to military rank in Canada.—Truro News.

Congratulations to Capt. Rev. W. A. White, B. A.

We congratulate Rev. W. A. White, B. A., pastor of Zion Baptist Church, Truro, on his appointment as Chaplain of No. 2 Construction Battalion, under Lieut. Col. Sutherland, O.C., and we congratulate the men of the Battalion in getting so worthy and so good a man for their spiritual adviser.

Captain White, we can assure the boys of the Battalion, is quite an athlete; he had great training on the football campus at Acadia University and if occasion arises he can not only wield the "sword of the spirit" but the Ross Rifle as well.

Mr. White was born in King and Queen County, Virginia, and received his early education in the country public schools. When sixteen years old he moved to Baltimore, Maryland, where during his leisure time he took private lessons and attended night school.

In the fall of 1894 he entered Wayland Seminary Washington D. C., where he graduated with honors from the College Preparatory and Bible departments as the President of his class. While at school in Washington he met Miss Helena Blackadar, who was then teaching there. He was influenced by her to

VON BERNSTORFF ASKED TO EXPLAIN TO MASTER LEAK ON MEXICAN NOTE

London, March 5—A despatch to the Exchange Telegraph Co. from Amsterdam says:

"According to a Frankfort telegram, received here, the German government has sent a wireless despatch to Count Von Bernstorff, former German ambassador to the United States who is at sea returning to Germany, asking him to explain how the German note with regard to bringing Mexico and Japan into war with the United States was divulged. A special courier has been despatched to meet Count Von Bernstorff on his arrival and warn him against granting any newspaper interviews on the situation."

The correspondent adds that the Socialist newspapers in Munich, Leipzig, and Magdeburg criticize the note to Mexico as the crowning diplomatic blunder of Germany.

Capt. Fred W. Wickwire Seriously Ill But Improving

The relatives of Capt. Fred W. Wickwire have lately received word from General Foster that Capt. F. W. Wickwire from this town of the Canadian Army Medical Corps, had been admitted to hospital in France seriously ill with pneumonia.

Captain Wickwire, who before going overseas was engaged in newspaper work and afterwards farming in Kentville, has been in France for almost two years. More than two years ago he sailed from St. John as second in command of No. 6 Company, Canadian Army Service Corps. A year ago he was given command of No. 5 Company Canadian Army Service Corps which company he has ably commanded in France ever since. His many letters home told of much hard work but a very interesting life, and when he wrote he seemed to be in very good health. His many friends here and in Kings County, hope that further news will tell of his recovery.

A subsequent cable announced that he was improving. Captain Wickwire has done noble service and spoken of in glowing terms by the wounded soldiers who have returned.

Have Hun Submarines Been Trapped or Sunk in the North Sea?

London, March 5—Have the German submarines given up their campaign, or have they been trapped in a British net?

That is the subject of an interesting discussion in naval circles here today. To understand the situation that has given rise to such speculation, it is necessary to consider the following figures relative to the submarine campaign, which has dwindled down to almost nothing since the close of February: In the first five days of March the aggregate of shipping destroyed has been three ships, of 6,376 tons, or a daily average of only 1,275 tons. During the twenty-eight days of February there were sunk 208 ships, aggregating 17,252 tons. In other words, by the terms of this comparison the daily toll of destruction has fallen off eighty-seven per cent.

The abrupt decrease in the submarine operations is shown even more strikingly in comparisons of the results of the first and last five days of February. In the first five days of February there were sunk 31 ships, of 41,887 tons, in the last five days 33 ships, of 109,165 tons; and in the first five days of March three ships, of 6,376 tons.

These figures cannot be taken as exactly accurate, for the reports have not always been definite, and undoubtedly news will be received at a latter date of additional sinkings during the last five days. However, they afford a sufficiently accurate basis for the conclusion that beginning with the first day of March there was an abrupt decrease in the number of vessels that fell victims to the enemy's undersea craft.

Naval men explain this fact in two ways. Some argue that the German authorities have decided the submarine campaign is not worth the candle, and consequently have recalled all or most of the raiders. The majority of experts consider it in the following light, however. They contend that the submarines sent out from their bases early in February had exhausted their supplies of food, fuel and torpedoes, by the end of the month, and started back to replenish them while other submarines came out to take their places. The explanation of the sudden falling off in sinkings is that most of these returning submarines were caught in a British trap laid along the shallow waters bordering the German coast.

A week back, when Britain declared the extension of her blockade in the North Sea to cover virtually the entire coast of Germany, it was rumored persistently that an almost impenetrable network of mines had been laid by British boats across the entrances to the chief German ports. Nets similar to those protecting the Straits of Dover were also reported to have been stretched for miles and miles across the lanes of travel for enemy commerce.
