

KING'S BIRTHDAY OBSERVED AT HOME.

Transvaal Assembly Presents His Majesty With Cullinan Diamond.

Lord Mayor's Show Was an Up-to-date Spectacular Affair.

London, Nov. 9.—The anniversary of the birth of King Edward, who was born Nov. 9th, 1841, was observed to-day throughout the British Empire with the customary military and naval salutes and displays. His Majesty is celebrating the event at Sandringham, where the King and Queen of Spain and the Queen of Norway are staying, in addition to many other members of the British royal family. The morning was occupied in receiving an immense number of congratulatory telegrams, letters and presents from almost all parts of the world, one of the most notable events being the presentation to the King of the Cullinan diamond, the largest known estimated to be worth \$750,000, and presented to His Majesty by the legislative assembly of the Transvaal as a token of loyalty of the people of that colony and in commemoration of the grant of a responsible government to the Transvaal. The presentation was made by Sir Richard Solomon, ex-Lieut.-Governor of the Transvaal, representing the government of the colony.

During the afternoon their Majesties entertained tenantry of Sandringham at dinner.

A great event of the day in London was the Lord Mayor's show, which was a distasteful improvement on the second-rate, circus-like parades of past years. The services of a professional pageant-maker were called in, with the result that he organized a historical procession representing all the King Edwards from Edward the Confessor to Edward VII., each group making a distinctive cavalcade, arrayed in the costume of the period represented, the reign of Edward VII. being symbolized by a car entitled "The harvest of the peacemaker." It consisted of a real harvest wagon, drawn by eight horses and bearing the fruits of Peace.

The route of the procession was elaborately decorated and the pageant viewed by enormous crowds of sight-seers.

The new Lord Mayor of London is Sir John Bell, the well-known brewer and officer of a number of municipal and other corporations, who was elected Sept. 28 to succeed Sir William Treloar, but who, according to custom, was formally installed in office to-day.

NIAGARA AIMS TO SUPPLY ALL CANADA WITH FRUIT.

Several New Canning and Preserving Factories Are Being Projected.

Beamsville, Nov. 9.—(Special)—No important product of our national industry, with the possible exception of grain, has grown in value during the past few years as fruit. It is wonderful that the fruit industry, managed to resist annihilation under the disastrous conditions of the years 1900-1903. That it still survives, and is bigger and better than ever, firmly established on a solid foundation, is an evidence of the courage and energy of the men engaged in it. The Niagara district growers have increased the yield of fruit by better tillage, and the introduction of better varieties. Labor, which is forty per cent., and materials another fifteen per cent. of the cost of production, are getting dearer each year. They still believe, however, that the district has the capacity of furnishing all the fruit consumed by the people of Canada, outside of British Columbia, and think it will do so in two or three decades. The Niagara district now buys with the money her fruit brings her more food products, manufactured goods than six other counties in Ontario combined, and any twelve in the Province of Quebec or those down by the sea, not including, of course, the cities and towns of over three thousand population. If all the fruit growing lands were planted and produced the goods, an enormous commerce would be developed, most of which would go to the cities nearby for clothing, coal, grain and meats. The area of land now cultivated in fruit in the peninsula is about 10,000 acres. It is no greater than is embraced in an average prairie county in Manitoba. While a wheat raising county in the west supports only eight or ten thousand people at best, this fruit district supports nearly the whole population of Lincoln and Wentworth Counties. An acre of wheat does not on the average produce more than \$30, but an acre of tomatoes runs all the way to \$100.

The fruit acreage has outgrown the dairy industry, stock raising and grain acreage of any other twenty counties in this Province. This is a statement that can be made of no other important agricultural crop produced in any of the Provinces outside those of the west.

Then, too, the grower here must produce her staple in competition with the States of Michigan, New York and Delaware. About the only grievance, and perhaps the greatest that they will have to contend with, are the high rates of express and freight charges. The prices of fruit on the Toronto markets are nearly always the eastern prices plus the high rates. Southern fruit coming into Canada is said to pay less than the rate charged Niagara fruit going to Winnipeg and Montreal. This must be accounted for in no other way than by the rebates on haulage, and the use of corporation owned cars now prevailing across the line, and which the growers here are at present unable to provide. Among the growers one sees to-day two radically different ideas as to the future fruit industry of the Niagara district. A man who is using old-fashioned ideas, carrying heavy mortgages, thinks the industry is going to ruin. The one who has the best equipped outfits for fruit culture, and exercises a careful and honest method in his packing, every year getting more and more fruit from his orchards, and more money for his fruit, believes that the industry is only in its infancy.

Without a doubt the future looks rosy enough for them. This year there were canning and preserving companies who hardly got the amount of fruit that could have been used by them, and still several more large concerns are already projected. The great flow of population into the west and north will give an unlimited market and high prices, and it is just a question whether with increased acreage the district can supply the increasing demand five years from now.

NO CLUE YET.

Trying to Find the Murderer of the Buffalo Saloonkeeper.

Buffalo, Nov. 9.—In their efforts to penetrate the mystery connected with the death of Alexander Young, the Ebenzer hotelkeeper who was assassinated last Tuesday night, the police yesterday escorted Mrs. Christina Bauer, of 131 Sherman street, to the District Attorney's office.

On account of former circumstances which have linked the names of the Bauers and the murdered hotelkeeper, it was believed that the woman might give a clue to enlighten the officers who are baffled by the crime.

If Mrs. Bauer told anything District Attorney Abbott and the detectives have bottled the information.

WILL STICK.

Buffalo Operators Vote Unanimously to Continue Strike.

Buffalo, Nov. 9.—By a unanimous vote the Buffalo telegraphers, at a meeting held in Columbus Knights' Hall, in Mohawk street, yesterday afternoon, decided to remain on strike. The meeting was attended by practically all of the local telegraph operators who are out on strike. They stuck to the slogan "Stick."

Not Much Money Needed.

Twenty-five cents is all you need to buy a good pipe now at peace's pipe store. He offers some genuine bargains at east.

WAS A MURDER.

Man in Charge of Shipment of Ponies Missing From Car.

Buffalo, Nov. 9.—The discovery of a blood-stained claw hammer, of blood-stained mattresses and of an overcoat that also was saturated with blood, in a freight car on the New York Central shortly after midnight yesterday, uncovered a murder that will give the police something to work upon for some time to come.

This much has been found—the body of the man who was murdered was picked up along the tracks near South Bend, Ind. His head was crushed in as if by a blow from a hammer.

Cards in his pocket showed that his name was A. W. Murphy, of Denver, Col. Cards and letters in the pockets, including a painter's union card, found in the overcoat in the car, bore the same name. The railway officials connect the cases.

Murphy, with his four ponies, started to New York from Colorado Springs. The ponies were owned by J. S. Kenyon, of Colorado. They were consigned to F. E. Lewis, of Bedford, N. Y., a short distance outside of New York city.

WILL HELP BARBERS.

Secretary Halford, of the Journeymen Barbers' Union, addressed the unions of the Boot and Shoe Workers last evening in regard to the barbers' strike. Both unions promised moral support to the territorial artists, and will give financial aid if it is required. There is no change in the strike situation to-day.

A Baby For \$1.69.

All our \$2.50 and \$2.75 fall hats, six weeks old to-day. To-night \$1.69. The 2 1/2, 30 and 32 James street north.

CANADIANS HONORED BY KING EDWARD.

Privy councillorship for Sir Charles Tupper—Hon. Chief Justice Moss made a Knight Bachelor—R. M. Coulter, Deputy Postmaster-General, Gets a C. M. G.

SIR CHARLES TUPPER.

London, Nov. 9.—The list of King's birthday honors has been issued. Sir Charles Tupper has been made a Privy Councillor. R. M. Coulter, Deputy Postmaster-General, gets the Order of C. M. G., and Chief Justice Moss of the Ontario Court of Appeal, is made a Knight Bachelor.

BURGLARS AT WORK

Residence of Mrs. John Conway, Dundas, Was Entered.

Dundas, Nov. 9.—(Special)—On Thursday evening burglars entered the residence of Mrs. John Conway, Hatt street, and got a few dollars in money, an overcoat of a young grandson who was visiting there, and some other apparel, a bank book and some other documents. The bank book and papers were found in a yard a short distance away. The police are working on the case.

The Public Library Board met last night and installed and opened to the public a new cataloguing system.

STANDS THE TEST.

Messrs. Lake & Bailey Give More Talk About Bread.

No decision is so supreme as that of years of continuous use of any article and especially of the staff of life, Messrs. Lake & Bailey years ago realized the value and importance of manufacturing a flour that would meet all requirements and succeeded in their ambition by placing before the discriminating housewife and cooking school expert the well-known Gold Medal Brand. They also believed in not hiding their light under a bushel and by their persistent advertising and good flour thousands of homes insist on Gold Medal every time. The crisp air always starts many housekeepers to bake and if this favorite flour is used the cook will be delighted, and the members of the home perfectly satisfied. For nearly a quarter of a century Messrs. Lake & Bailey have been making Gold Medal flour and its success and popularity are also due to its uniform character. All the leading grocers sell Gold Medal. If you have never tried it, do so the next time you order the groceries.

BIG CROWD.

At the Opening of Britannia Roller Rink Last Night.

The formal opening of the Britannia Roller Rink took place last night and the place was crowded to the doors. The immense rink, the largest roller rink in Ontario, was not large enough to accommodate the crowds who desired to skate or see others perform on castors. The International Harvester Co. band played an interesting programme of music.

REDUCTION SALE OF HOMEFURNISHINGS.

Right House Announces an Important Sale Event.

Commencing Monday morning at 9 a. m. Thomas C. Watkins will hold a gigantic reduction sale of carpets, curtains, rugs, furniture coverings, beds and bedding, silkolines, draperies, etc.

The reductions are absolute, and present marvelous chances of economy on highly desirable goods that every homemaker needs.

There are chances to save from a fourth to a full half, and when it is considered that this is the middle of the season the sale is indeed remarkable.

Every person with a home furnishing need and within reach of Hamilton should get to this old reliable store bright and early Monday for the best bargains they ever heard of.

Read the details in the big Watkins advertisement in this paper.

Always Leading.

Hot house lettuce, mushrooms, tomatoes, Brussels sprouts, grape fruit, Malaga grapes, butter beans, muffins, crumpets, our own sausage, ducks, chickens, turkeys, Long Point ducks, pigeons, New York counts, blue points, mackerel, maple syrup, pure sweet cider, Holland herring, Roquefort, Swiss, Gorgonzola, square cream, and Neufchatel cheese, new dates, figs, native grapes, etc.—Bein & Adams, 89-91 King street east.

The Man In Overalls

The wise ones are buying now.

Will there be another big bottle trade to-night?

Old country Liberals will be welcome up at the Liberal rooms. Initiation a mere trifle.

Was the Trades and Labor Council consulted about that factory inspectorship appointment?

No, Sir John's monument is not in statu quo.

Don't forget to put in a good word for the ward system.

If you are having trouble with the furnace, better get a man to look at it.

Should the Rational Sunday League get what it is after a lot more of us will have to work on Sunday.

Now, girls, if your mother asks you to be home before 10 o'clock, be home before 10 o'clock.

There would be fewer burglars if people would use ordinary precaution. You can't have a policeman for every house. Still a round-up of suspects would not be out of place.

The north-enders intend to put Mayor Stewart on his defence. He must give an account of his Stewart-ship, as it were.

The City Council cannot err in giving Mr. A. T. Neill a few more honors, even if they be empty ones. He's a faithful servant.

Here's Crown Point wanting to set up an establishment of its own, when it has no more to do than come right in here and hang up its hat.

These are busy times at the Con. Club picking out candidates and handing out factory inspectorships and things.

With the doctors' new schedule of prices, is it pay in advance or pay when you are able?

Is Whitney now to try to bribe Hamilton with the promise of a technical college?

"The Man in Overalls" thanks Stanley Mills & Co. for a copy of the song, "The Man in the Overalls." As soon as he gets his voice sharpened the former will have a try at the latter.

TO-MORROW.

Don't put off till to-morrow what you should do to-day. Somehow none of us ever see any of the to-morrows. They become to-days before we catch a glimpse of them and the to-days become yesterdays with equal celerity. To-morrow is always coming but never comes. To-day only is ours. But how the yesterdays keep piling up! There is never more than one to-morrow and never more than one to-day. But the yesterdays increase at the rate of three hundred and sixty-five a year. They keep increasing in spite of anything we can do or say. Then look at them! Some of them we are ashamed to look at or think of. Yesterdays that continue to rise up and testify against us for the shameful manner in which we sacrificed them, mispent them and then lost them forever. What would some of us not give to get back some of our yesterdays? How differently we would spend some of them. In all our experiences there are days which we would like to recall if we could. But we can't. That's an impossibility. We may kill time, we may misuse it, we may fling it away as if it were no value, we may spend it to our own hurt and that of others, we may do anything with it, but improve it, but we cannot add one second to it or hold it back one moment in its flight. The young fellow, you will notice I am usually after him, has his life all before him, but he takes little thought of time. Time enough, he thinks. Just now he wants a good time, and he is going to have it. And in this way he neglects his opportunities, opportunities that come knocking at his door when in his youth. But if he only knew it, now is the most important time of his life. This is the time when his future is fixed. On what he does with his time now depends what his life is to be. His future is in his own hands. It can be honorable, or dishonorable. It can be a success or a failure. He has the say. He's the doctor. What's he going to do about it?

PRINCE BORN

To Crown Princess Frederick William of Germany.

Berlin, Nov. 9.—Crown Princess Frederick William gave birth to a son at 9:30 o'clock this morning.

The Crown Prince Frederick William, who was born in 1882, was married on June 6, 1905, to the Princess Cecilie of Mecklenburg-Schwerin. Their first child, Prince William Frederick, was born July 4, 1906.

SAFETY DEPOSIT BOXES.

To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables, at the TRADERS BANK OF CANADA.

3,000 Bar.

Of Shell Brand Cattle Soap have just been received by us direct from the manufacturers. This soap is too well known to need advertising. We will just say we are selling it at 20c per bar. We also carry a large assortment of toilet soaps, ranging from 5c per cake to 75c per cake. Parke & Parke, druggists.

FOOTBALL SCORES.

Come around to the Times office this afternoon and see the scores of the Montreal-Ottawa game in Montreal, the Tiger-Argonaut game in Toronto, the Junior Tigers' game at the Cricket Grounds, and other football games.

TRAVELLERS HAVE SENT IN PETITION.

Ask Government to Make New Regulations Before Putting Local Option Into Force.

Ask That Community be Required to Assure Accommodation For Man and Beast.

A petition, emanating from the Commercial Travellers Association, has just been forwarded to the Provincial Government, and it promises to have an important bearing upon local option legislation. The matter was brought before the Commercial Travellers' Association by Col. Stoneman, who, like almost all other travellers, had met with cases of hardship following the adoption of local option. Under the present law, local option goes into effect three months after it has been carried in any municipality. The petition of the travellers asks that, immediately after the carrying of such a by-law in any municipality, and before the act goes into force, it shall be the duty of the community to show the Government that ample accommodation for man and beast shall be provided. In case the community fails to do so the law, the petition asks, shall not be put into effect, but the Government shall step in and take charge, making such provision as may be necessary for proper accommodation, either by continuing the licenses of the hotels or otherwise. Commercial men have been sufferers in many places after the introduction of local option. Right in this vicinity, this year, travellers are reported to have been compelled to go from door to door seeking accommodation in private houses and cases are reported in which they found it necessary to sleep in barns and stables. Such were the statements made at the meeting at which the subject was discussed. It was also suggested that an inspection of houses where accommodation was to be offered should be made, as to cleanliness, sanitary condition, etc. Travellers have experienced much annoyance, too, in respect to their baggage, in local option towns and villages. No one is responsible for the delivery and care of their luggage, and frequent loss, delay and annoyance have resulted. They will ask that this matter be regulated when the Government is providing that the community must show that it can afford ample accommodation.

\$3,000,000 FIRE AT SUPERIOR; ONE MAN MAY HAVE PERISHED.

Great Northern Elevator, Three Flour Mills, Forty Houses, Etc. Destroyed.

Duluth, Minn., Nov. 9.—Fire which started in the Great Northern elevator at Superior, Wis., about 9 o'clock last night was still burning at an early hour to-day, after having destroyed the elevator, three flour mills, 40 houses and 700,000 bushels of grain. Two scows, a derrick and two tugs were also destroyed. The loss is estimated at \$3,000,000. One man, who entered the plant of the Duluth Superior Storage Co., to rescue a tool chest, was not seen again, and it is thought he perished in the flames. The fire, the cause of which is unknown, started at the southwest corner of elevator A dock, and before it was discovered had spread to the elevator. An alarm was turned in and four fire tugs responded. The intense heat, however, drove the tugs from the slip, and unable to do anything to rescue the elevator, they concentrated all the efforts on an attempt to save the adjoining property. When the fire started the steamers W. A. Parent and W. A. Rogers were in the elevator slip loading wheat. The steamers Utica, Alva and Chili were on the opposite side of the slip, at a merchandise dock. All were pulled out by tugs and thus saved from destruction. Flying sparks from the burning elevator soon ignited the Grand Republic mill, the dock of the Great Lakes Dredge & Dock Co., and the plant of the Duluth Superior Storage Co., which contained the finishing plant of the Webster Chair Company. The fire at the Great Northern elevator was under control at midnight, but all the other fires were not controlled until 2 o'clock this morning.

COUNSELL-GIBBONS TWO FALL ACROSS STOVES.

Marriage of Popular Hamilton Barrister in London.

London, Ont., Nov. 9.—Miss Marjorie Gibbons, youngest daughter of Geo. G. Gibbons, K. C., and Mr. John Leith Counsell, the well-known young lawyer and athlete, of Hamilton, were married at St. Paul's Cathedral this afternoon. The affair was a brilliant social function—the most fashionable wedding here in years. The Bishop of Huron officiated. Many guests were present from fashionable circles of Montreal, Ottawa, Toronto, Hamilton and Quebec.

GENERAL BOOTH SAILED FOR HOME TO-DAY, BUT EXPECTS TO COME BACK.

New York, Nov. 9.—With upward pointing right index finger, preaching a final silent sermon of devotion while his age-wrinkled face was wreathed in smiles, General William Booth, the father of the Salvation army, sailed this morning on the steamer St. Louis for Europe. At the pier to bid him farewell were about a hundred of the leading staff officers of the United States, representing all sections of the country. Gen. Booth stood on the middle deck of the steamer, with his personal staff, consisting of Commissioner Nicol and Colonels Lawley, Higgins and Cox, and as the vessel moved out into the stream doffed his cap repeatedly in response to the cheers, cries of respect, devotion and admiration and the waving of Salvation Army and American flags on the part of his followers.

Help Them Go To-night.

200 men's \$12.50 to \$17.50 suits and overcoats for \$9.97 each. The 2 1/2, 30 and 32 James street north.

THE STAUCH MURDER.

Buffalo, Nov. 9.—Herjan Miller, accused of murder in connection with the death of Daisy Stauch, found smothered, to death in an Ellicott street rooming house several days ago, was yesterday set free by District Attorney Abbott.

ILLUSTRATED ADDRESS.

Every one is invited to enjoy an inspiring and helpful address to be given by Rev. F. W. Hollinrake, B. A., entitled "The Bar and its Blight," on Sunday evening at Bennett's Theatre.

In addition to this there will be choice music given by Wesley Methodist Church Choir, including "a quartette" "Abide With Me," by Miss Estelle Cerey, Miss Sutherland, Messrs. W. O. Pettie and Garthwaite, with humming accompaniment, also a duet by Messrs. W. O. Pettie and Garthwaite. A cordial

3,692 BARRELS.

Export of Apples From Hamilton in one Week.

During the past four weeks there have been shipped from Hamilton no less than 3,692 barrels of apples. The aggregate price paid to the growers was \$10,936, an average of \$2.98 a barrel. This price, within two cents of \$3 a barrel, was for the fruit on the trees. The buyers supplied the barrels and the packers, and did the hauling. The price is a good one, and the growers who were fortunate enough to have good crops are congratulating themselves.

TWO CREMATED.

Fire in Charleston Destroys Business Block.

Charleston, W. Va., Nov. 8.—A four-story building, occupied by Ruffner Bros., wholesale grocers, was burned yesterday. The loss is \$200,000 and the insurance \$100,000. Capt. J. J. Foley, of the fire department, and John Dewey, shipping clerk, were burned to death and several firemen were injured.

Love and Crime

"I heard something about him when I was in town the other day," the earl says, watching his daughter's changing color.

"Somebody told me—I forgot who—Lord Cardonnel adds, with rather overdone carelessness of manner, knowing quite well that it was Sir Roger Allison—that this—ah—Roderic— isn't that his name?—this Roderic Lindsay was a capital sort of fellow—that is, for a colonist, I suppose. Rather rough, I dare say, and unpolished, and all that kind of thing. Eh, Christabel?"

"I thought he was very gentlemanly—at least, from what I saw of him, father," Lady Christabel says, coldly.

"Something in her father's manner jars on her as being curiously false and assumed to deceive her for some hidden reason of his own."

"He is not the type of man one meets very often in society, but I certainly considered him well-bred."

"And very well off, too, I understand!" "And very well off, too, I understand!" the earl says, with a restless glance and a forced laugh.

"I had no idea that his father, Keith Lindsay, was a rich man. I've been told that, raising of course," Lord Cardonnel says, raising his eyebrows.

"Wool, tallow, sheep and all that sort of thing. But, really, in these days, trade is thought very differently of what it used to be. And this Roderic Lindsay—what is he like? Good-looking?"

porting hand, displaying the grand, white throat that rises from the soft lace ruffles, and the slender, snow white arm. Her long, loose gown of heliotrope satin, a curious shade of grayish purple, tinged round her long, slender limbs in shapely folds.

"That strange weird beauty of hers is apparent enough—with that long, pearly, white neck, that pale, small face, those gleaming, half-shut eyes shining like topaz jewels under the creamy white lids, the lustrous head of Titan-tinted hair, the tall, slim, graceful form, in its purplish, shining robe—to bewilder and charm away even Lady Christabel's distrust and dislike for the time being."

"She is very beautiful!" she thinks, with a thrill of conviction; "I cannot wonder that she fascinates, where she desires to fascinate! If I could only trust her!—if I could only feel she is worth—that she has won!"

"I am not going out to drive this afternoon," she says, coldly, but gently; "but if you wish, Miss Surtees, a carriage can round for you in an hour, and then, why do you stay up here, if you are lonely?" Christabel adds, pleasantly, wondering why it is she feels it such an effort to be friendly—why it is a sheer impossibility to her to run in gladly, and sit down on the couch beside Lydia Surtees, as she would beside any dressmaker's assistant.

"Why do you stay up here, if you are lonely?" Christabel adds, pleasantly, wondering why it is she feels it such an effort to be friendly—why it is a sheer impossibility to her to run in gladly, and sit down on the couch beside Lydia Surtees, as she would beside any dressmaker's assistant.

"I am going to the garden," she says, with a smile, and she goes. "Oh, I see you have your tea gone on!" "I see you have your tea gone on!" Lydia says, with a smile, and she goes.

"I am going to the garden," she says, with a smile, and she goes. "Oh, I see you have your tea gone on!" "I see you have your tea gone on!" Lydia says, with a smile, and she goes.

"I am going to the garden," she says, with a smile, and she goes. "Oh, I see you have your tea gone on!" "I see you have your tea gone on!" Lydia says, with a smile, and she goes.

"I am going to the garden," she says, with a smile, and she goes. "Oh, I see you have your tea gone on!" "I see you have your tea gone on!" Lydia says, with a smile, and she goes.

A CONDUCTOR ON TRIAL

W. E. Alexander Charged With Manslaughter at Winnipeg

Regina, Nov. 8.—The preliminary hearing of William E. Alexander, conductor of the eastbound passenger train that collided with a westbound freight here a week ago, took place this morning.

And Lord Cardonnel, getting more alarmed and bewildered than ever, seeks relief by getting into a rage.

"Wouldn't allow you!" he repeats, very angrily. "What an atrocious deed would not allow you to send for a doctor when she was very ill. And you actually have neglected to do so. I am astonished at you, Christabel. What can you be thinking of, to commit such a breach of the commonest laws of hospitality—not to say humanity?"

From Montreal, From Portland, From London, From Liverpool.

SMOKING FOR A PIANO.

The Record Broken in a Curious Contest in London.

London, Nov. 8.—"Get ready! One, two, three—go!" A hundred and fifty anxious smokers sat at tables at the Agricultural Hall yesterday evening surrounded by a crowd, and at the word "Go!" there was a volley of match-striking sounding like rifle-shooting at a distance.

Each competitor was given an eighth of an ounce of shag tobacco, and a thirty-guinea grand piano was offered to the winner of the last pipe to go out.

At first it was not a very serious affair. Several pipes went out within five minutes, and there was a good deal of laughter and ironical applause. But after about an hour, when quite fifty had given up, it became more serious.

At an hour and three-quarters only two were left. One, a young man, was smoking a new 4d. clay, and the other a man of forty-three—an old shilling briar. The merest streak of smoke came from the pipes and the judges had to look closely to see whether they were alight.

In another five minutes the clay went out. Mr. Thomas Wood, a Peckham painter, was still cheerfully smoking, and when he knew that he had won he puffed out great clouds of smoke. He kept his pipe alight for two hours, and beat last year's winner by eighteen minutes.

"Put my success down," he said, "to filling my pipe carefully and pressing the tobacco down with a pencil. I have not practiced, and I immensely enjoyed my two hours' smoke."

FLOOD AT MARSEILLES.

Terrific Hurricane Swept Over City and Did Much Damage.

Marseilles, Nov. 8.—A hurricane swept over this city to-night, causing immense damage to docks and other waterfront property. The gas works were flooded by the terrific downpour that accompanied the storm, and the city was plunged into darkness. A number of people were injured by collapsing houses, but in the confusion and darkness it is impossible to determine the extent of the casualties to-night.

All of southern France continues to suffer from the floods following the excessive rains. In many places the inundations were worse than the storm, which followed the September storm. The extensive coal stations at Grassac have been completely flooded, and all work has been suspended.

CANADA NEEDS EMANCIPATION

From Unreasoning Submission to What Has Been Said.

London, Nov. 8.—The Times, commenting eulogistically on the opening of the University of Toronto, says: "The first need of the rising generation in Canada is to be emancipated from unreasoning submission to what has been said. If this need be adequately supplied the resulting conditions should be more favorable to high average development than any which the world has yet witnessed. A community educated upon that principle which is finding acceptance in Canada would not tolerate many conditions to which we tamely submit."

HELD FOR LARCENY.

Toronto Boy Charged With Robbing His Benefactor at Buffalo.

Buffalo, Nov. 8.—The Buffalo News says to-night: "When penniless and in want of food, John Moore, nineteen years old, a Toronto youth, found a friend in Joseph Baum, who conducts a stand on the Chippewa Market in Buffalo. Baum put the youth to work, and took him to his home to live. That was last Wednesday. This morning Moore was held for the Grand Jury by Judge Murphy in the Police Court at Buffalo on a charge of burglary and larceny. The man who befriended him is the complainant."

## DO AWAY WITH STEAM ENGINES

**Scheme to Attach Centrifugal Pumps to Hydrants.**

**Why Didn't Ald. Farrar Attend That Meeting?**

**Chairman Dickson Wants a Reasonable Explanation From Him.**

The Ontario Railway Board yesterday changed the order regarding Herkimer street as asked for by the city and consented to by the Street Railway Company. It also extended the time for the work on James street, between King and Main streets.

Building permits were issued this morning to Robert Clochey for a brick building to be erected at the corner of Main and John streets for John Reche to cost \$1,000, and also for a brick house on Hunter street, between John and Catherine for M. O'Neill to cost \$3,000.

The health report for the week shows four cases of mumps, three of chicken-pox, two of scarlet fever and one of diphtheria.

City Engineer Barrow has completed the specifications for the new electric pumps for the Beach and it is likely the Fire and Water Committee will have a deal with the matter.

The Court of Revision will meet on Thursday afternoon to deal with appeals from ratepayers to be taxed as Separate School supporters. This will avoid a repetition of the trouble which it was necessary to arbitrate this year.

Assistant Engineer Heedle declared today that there was no truth in the report published in a local paper that he was to make a new report on the street railway's tracks which would not be as favorable as the first. "I still think," said Mr. Heedle, "that the company has done all it can possibly do unless it builds a new system.

This morning Inspector Birrell paid over to the city \$14,800 as the second instalment of the license fees, \$14,500 having been paid in the spring.

## OPENING IN HAMILTON.

W. F. Babcock, who carries on a carpet cleaning, upholstering and renovating business in Brantford, with branches in St. Catharines, London, Peterboro and Calgary, has secured the premises, 124 Bay street north, and will open a branch of the same business in this city next week. He operates on a new system.

**CHOR ENTERTAINED.**

The choir of Stoney Creek Methodist Church was very pleasantly entertained last evening by one of their number, Miss May Glover, at the home of her parents, Mountain Brow. The evening was enjoyed by all present, and after a dainty supper was served and several selections of music rendered, the members of the party returned home, thanking their hostess for a jolly time.

—On Monday evening next the St. Vincent de Paul Society, of this city, will resume the night classes for foreigners which were carried on last year in St. Mary's Hall, Park street north.

### THE HAMILTON TIMES

SATURDAY, NOV. 9, 1907.

#### MANY HAPPY RETURNS!

Here's to King Edward VII., the best-loved and greatest sovereign of the world, 66 years old to-day. May his life be long extended to reign over his subjects in peace, prosperity and happiness, to which it is his pleasure to contribute, and to enjoy the love and homage of the hundreds of millions of people who are sheltered by the British flag.

#### "A PURE FABRICATION."

So much capital has been made by opponents of the Government power supply out of the announcement that the McClary Company, of London, had utilized producer gas at a cost very much lower than the lowest possible price for electric power, that it is interesting to learn from the McClary Company itself that it installed a producer gas engine only for temporary use, and intends to take Niagara power as soon as it can be delivered.—Hamilton Herald.

The above is a paragraph to which the Herald gave prominence in its campaign of misrepresentation to bunco the city into the Hydro-Electric scheme. The following despatch from London shows to what lengths the organ will go in the effort to mislead our citizens in regard to the matter:

Col. Gartsore was seen to-day in regard to the statement made yesterday by a Hamilton paper to the effect that the McClary Company installed a producer gas engine only for temporary use, and intends to take Niagara power as soon as it can be delivered. Col. Gartsore, who is manager for the company, said the article was a fabrication; that the McClary company had not the slightest intention of adopting Niagara power and displacing its producer gas plant. "The producer gas plant is proving too satisfactory," he said. "We know pretty nearly what it costs us to get our power from it. We know nothing as yet regarding Niagara power, but, of course, if it can be delivered to us for less than our power from the producer gas engine costs us, we should be foolish not to adopt it. But so far there is no reason to believe that Niagara power can be de-

livered in London at a rate that will compete with the cost of our power for producer gas."

Such exposures as the foregoing cannot but discredit the slippery organ in the eyes of the honest and intelligent ratepayers on whom it seeks to fasten a heavy burden. They will ask themselves why it should resort to such fabrications to make an appearance of a case, and they will draw the natural inference.

Yesterday the organ sought to make it appear that the Government had announced that the city would contract for electricity from the Commission at a definite price per horse-power. That is probably another "pure fabrication." As far as we can find no report of the announcement of such a change from the statutory terms has been made. The Herald's report does not bear out its editorial statement; and we prefer the words of the statute to the trickery of the Herald. But suppose it should be stated in the contract that the price shall not exceed, say, \$17.50 per horse-power, the limit of the Hydro estimate, what of it? That is very much higher than large blocks of power are now available at. And besides incurring, as the Herald admits, a heavy 30-year liability to go into a scheme to get far dearer power than may be had without risk or investment, we must agree to pay for far more power than we use. The terms the Government has made compel it to pay for the entire month the price of the highest number of horse-power used for any 20 minutes of that month. Thus the city will not only be liable to pay the highest price for power, but to pay for a vast quantity more than it uses regularly.

The Herald stated last night in its report of Thursday's conference that "it was made clear that the Government would assume all liability for the construction of the transmission line, and that the only liability that would be incurred by the municipalities would be for the insurance of the line." We are loath to believe that Mayor Stewart or any of the Hamilton aldermen uttered such a statement. It, also, is "a pure fabrica-

tion," intended to deceive the people. It was too much for even the Herald editor, who says each municipality must bear its share of the cost of the transmission line, which is a 30-year liability, with interest.

Why this faking and falsehood? If the people are to consider this question on its merits, the facts are due them. If with the full facts of the case in mind they decide to run the risks of incurring onerous obligations to forward the scheme to make an improvident bargain, to pay for more power than they use at higher prices than necessary, the Times will have no right to object. But it wants the people to be informed on the subject.

#### MUNICIPAL DEBTS.

A recent bulletin of the Ontario Department of Agriculture brings out in strong relief the effects of the swiftness the Ontario cities have struck in piling up debt and taxes. In 1906 the assessed valuation for taxable purposes of the cities was \$330,518,694. Upon this a tax of \$14,142,322 was levied. The bonded indebtedness of the eighteen cities is \$51,188,027, or \$88 per head, and it is going up annually. Hardly a month passes but some big new scheme to lay taxes on the ratepayers is proposed by ambitious aldermen, who wish to leave their mark on the municipality, the taxpayer to foot the bills of costs. The significance of a municipal debt of \$88 a head is not easily grasped. It means that the average Ontario head of a family must in addition to paying an increasing amount to meet the exactions of Councils, pay interest on \$40 and such a sum yearly as shall ultimately extinguish the principal. And aldermen continue to plan expenditures so as to avoid levying in the yearly tax rate a sufficient sum to meet them, leaving huge overdrafts to be paid by floating debentures to be sold at a big loss in discount. Not only that, but they seek to get the tax-squeezed public to embark on other big schemes, with vast possibilities for graft, mismanagement and financial leaks that will add other mil-

lions to the taxes. Hamilton has a debt of well over \$4,000,000, after the sinking fund on hand has been deducted, and our Council has on hand schemes that may easily add half a million to it. It is high time that the burden-bearer, the taxpayer, should seriously ask to what the financial riot is going to lead.

#### EDITORIAL NOTES.

Will the Winnipeg Free Press' \$1,000 suffice to lay that ghost?

Grab and squeal appear to be the chief occupations of Toronto, if it will be judged by its press.

If Hamilton plunges into that big Hydro scheme, will it sell its debentures to finance it at a loss of many thousands of dollars?

Medicine Hat proposes to mortgage its waterworks and gas supply to raise \$200,000. That is not a good sort of advertisement.

If the Dominion-Provincial co-operation in the distribution of immigrants is well carried out, it should result in a saving of money.

It would grieve the Tory organs so much if Hon. Mr. Aylesworth should not be able to take his seat in the House again!

That deputations should bear in mind that it was a Provincial Technical College we were to get, not an institution founded and maintained at city expense.

The Hydro Commission estimate for a distribution plant for Toronto was about \$3,000,000. The city has obtained an estimate from practical private engineers, which runs it up to \$5,000,000. That is suggestive.

"Truth compels us to admit that we can see no prospect of victory through the immediate return of Mr. Borden," says the Toronto News, an ardent friend of the Opposition leader. It thinks the Conservative party should be on the

look-out for another Moses, if it does not wish to be a wilderness dweller. And the Moncton Transcript thinks his eyesecess would be a calamity to Canada.

Gen Booth says: "Socialism is either too late or too early. It should have come before Eden or should come after the judgment day." The General has been doing some thinking.

A United States contemporary describes in cartoon President Roosevelt's role in the financial panic as the fellow who rocked the boat, imperiling others' lives. And it is apt, too.

The Tories went into power with a net debt of \$140,262,060. When they were expelled in 1896 they had increased it to \$258,497,432. After eleven years of great progress and expansion and the carrying out of extensive public works by the Liberal Government the net debt stood on Oct. 31st, at \$251,506,732. The showing is a very striking one and must be very gratifying to every true Canadian.

The Santa Fe Railroad has been fined \$330,000 for rebating. It might have been fined four times as much, we are told. Perhaps the difficulty of selling the road under execution during the stringency accounts for the mercy shown.

The many friends of Detective Miller, of this city, will be pleased to learn that he has been selected for a position on the provincial detective force. He has a good record, and has won the respect and esteem of a wide circle of friends in Hamilton. The Times wishes him success in his new and important office.

If Mayor Stewart doesn't look alive Hon. Adam Beck will get ahead of him. Adam has a plan to make London's Hydro power cheaper by installing a power plant at the waterworks dam, to construct and operate which will, of course, cost nothing, or at most a mere trifle. Now Mayor Stewart might pro-

pose to have the sanducker fill in odd times in developing power at the filtering basins, and thus beat Beck all hollow.

Sir Charles Tupper has been honored with a privy councillorship. Good! The Times doesn't always agree with Sir Charles' politics, but it likes to see the men who have loomed large in our country's public life duly honored. Deputy Post-Master General Coulter gets a C. M. G., and Chief Justice Moss is made a Knight. Both are worthy of the honor conferred and will wear it gracefully.

Rumor has it that the Dominion Railway Commission has under consideration a general plan for the abolition of level railway crossings in Canada. That is a very big contract, and we are not ready to believe that that it is part of an early programme. But something might be done toward stopping the multiplication of these crossings unnecessarily.

When an issue of 4 per cent. bonds of the city of Hamilton commands only offers ranging from 87.75 to 89.05 in bulk, and when the aldermen are glad to get 90.25 for certain selected parts of the issue, it is high time that the people gave serious consideration to the ruinous increase of the city debt. Raising money at a loss of between 9 and 12 1/2 cents on the dollar of the bonds which represent \$1 and on which dollar we must pay interest is not good business.

Some of the Hydro-Electric organs are crying out that if the scheme is not accepted off-hand the chance will be lost forever. That is, of course, the game they play to stampede the municipalities into it. Useless delay in dealing with the matter is fairly enough to be objected to, but it is no less objectionable than that precipitancy which would saddle the scheme on the people with a heavy and enduring liability, before the people are fully informed of exactly what it is to cost, and how the people are to be recompensed. We do not wish to go into the scheme to lose money. And as it stands we have no trustworthy information that we shall not be undertaking a big

debt to get dearer electricity. The people want the facts.

"The Federal Railway Commission to-day is unquestionably the most important tribunal in the country," says the Toronto News, and in saying so it states a rugged truth. Moreover, when it says that "a good deal of the criticism to which the Federal Railway Commission has been subjected was not warranted," it is equally well advised. The creation of the commission was the assertion of the people's right to regulate the railways as public servants, and the work done so far has been of great benefit to the country. There is yet much to do, but we must remember that the cures for old wrongs cannot become effectual in a day. The Commission is making good progress.

#### HERE AND THERE

London Free Press:—Let's see; did nothing advance in price yesterday? Must be something wrong.

Kingston Whig:—Civil service reform with the Conservative party is an academic question. It is a splendid subject for discussion, but it has no practical application so far as this party is concerned.

Canadian Courier:—Reports are commencing to arrive daily from the United States about reduction in wages and staffs. Every financial panic in the United States has been followed by a commercial depression and this is not likely to be an exception to the general rule.

Montreal Star:—The Hon. Joe Martin thinks Canada may become an appanage of the Japanese Empire. While not usually considerate towards Joe, we feel it would be a shame if we did not allow him at least three more thinks.

Montreal Herald:—Admiration cannot be denied to Mr. R. L. Borden when it is remembered that he forced himself to deliver that Halifax speech about sixty times in two months. A man who could do that would make an elegant martyr.

Ottawa Free Press:—Since the barbers' strike Hamilton is said to resemble the city of Moscow in gala attire.

Ottawa Journal:—The dealers seem not to have noticed that the price of food has gone down.

AMUSEMENTS

At the Grand last evening "The Mayor of Laughland," a tabloid of fun and laughter, was given before a fair-sized audience. The presenting company was a large one and the show was cheap at the price, 15 to 50c. Tom Waters, in the title role, sang a number of songs acceptably and performed like a true Irish comedian. The funniest thing about the performance was the work of Major Casper Nowak, a diminutive comedian, Nowak took the part of a bell hop and he had the audience in roars of laughter all the time he was on the stage.

"The Mayor of Laughland" is being presented before a big house this afternoon and the closing performance will be given to-night.

Philadelphia, Nov. 9.—When the second act of "The Parisian Model" got

MME. CALVE, Who is to appear at the Grand shortly.

into full swing at the Chestnut street Theatre here last night and Anne Held failed to answer her cue the stage manager investigated. He found the actress unconscious and scarcely breathing upon the floor of her dressing room. The audience was immediately dismissed, a physician was summoned, and Miss Held was taken, still unconscious to the Music Hall. The doctors say she is suffering from a nervous breakdown, which will keep her off the stage for weeks, and perhaps for the entire winter.

The programme which Miss Gwendolen Halliday, soprano, recently of London, England, is to present at her recital at the Conservatory of Music concert hall on the evening of Thursday next, November 14, is one of exceptional merit. It shows a wide range of music which will display Miss Halliday's pure soprano voice to the best of ad-

BEN. GREET, Who will return to the Grand shortly, in one of his famous characters.

vantage. Those who have not already heard her will be delighted, and those who have will be glad to hear her again. She is to be assisted by a noted violin soloist, Maurice Poure, a Canadian who has spent many years abroad, and won his reputation before the most critical audiences of Europe and America. Mr. W. H. Hewlett will be at the piano.

HEALTH LECTURES.

Owing to the fact that nearly five hundred people were turned away from the illustrated Health Lecture given in the Association Hall last evening by D. M. Barton, assisted by his clever gymnasts, Mr. Barton has decided to repeat the same programme next Monday night.

There will be six hundred free seats at 15 and 25c, which may be reserved at Nordheimer's.

No admission except to adults. A special lecture has been arranged for the boys next Friday night.

A Chicago counterfeiter who has just been guilty of writing poetry has also been given a five-year sentence by a St. Louis Judge.

HE ATE POISON IVY.

An illustration of how Zam-Buk heals and closes poisoned wounds is provided by G. W. Stimers, of Colborne. He says: "Some time ago, in consequence of eating poisoned ivy I broke out in sores on my head and face. I went to a doctor, who treated me, and for a time the sores healed, but they broke out again as bad as before, and all the remedies I tried failed to give me relief. A sample box of Zam-Buk which I obtained did me so much good that I purchased a proper supply. The result of its work has been a complete cure. The sores have healed without leaving any scars, and indeed there is now no trace of them. The glands of my throat had become swollen and hard. These symptoms also have been cured by application of Zam-Buk."

Absolutely pure, Zam-Buk is nature's balm, and for all skin diseases is without equal. Zam-Buk will also cure eczema, itching sores, ringworm, cuts, bruises, chapped hands, boils, eczema, piles, etc., etc. Write Zam-Buk Co., Toronto, for free trial box, sending 1c stamp. All stores and druggists sell at 50 cents a box.

CHURCHES TO-MORROW

SPECIAL SERVICES AND SPECIAL MUSIC TO-MORROW.

Rev. J. K. Unsworth will preach at both services at the First Congregational Church.

In Simcoe Street Church, Rev. J. M. Copeland, of St. Catharines, will preach morning and evening.

In Central Church the service in the morning will be conducted by Dr. Lyle, and in the evening by Mr. Sedgewick.

Rev. Dr. Williamson will preach a special sermon to laboring men in Emerald Street Methodist Church to-morrow night.

In the First Methodist Church a former greatly beloved pastor, Rev. A. Langford, D. D., of Toronto, will preach at both services.

The "Wise Young Man of To-day" will be the topic of the sermon to be preached to-morrow evening in Wesley Church by Rev. Dr. Tovell.

At Victoria Avenue Baptist Church Rev. A. L. Huddleston will speak at 11 a. m. At 7 p. m. the pastor will speak on "Why Our Prayers Are Not Answered."

In the Gospel Tabernacle to-morrow Pastor Philipott will begin a series of sermons in the morning on the Epistles to the Corinthians, and in the evening on the book of Jonah.

Rev. J. A. Wilson, the pastor, will preach at both services in St. Andrew's Presbyterian Church. Morning subject, "John the Baptist;" evening subject, "The Second Commandment."

Rev. Roy VanWyck will preach in Sherman Avenue Presbyterian Church at 11 a. m. and 7 p. m. The managers are giving an at home for young people in the church Monday at 8 p. m.

All members and friends of Unity Church are earnestly invited to attend the rally Sunday service to-morrow evening. "The Inspirational Power of a Great Ideal" will be the subject of discourse by the minister.

In James Street Baptist Church Rev. T. T. Shields will speak three times. The afternoon meeting at 4.15 will be especially for men. "A Great Big Man" will be the subject of the address. Ladies will also be cordially welcomed.

The pastor of St. James' Presbyterian Church, Rev. T. MacLachlan, B. A., will occupy his own pulpit next Sabbath morning and evening. Morning subject, "Christian Described." Evening subject, "The Great Choice." Song service in the evening. All welcome.

Rev. J. B. Fotheringham, professor at Trinity College, Toronto, will preach at Christ's Church Cathedral to-morrow at the morning service, and at Christ's Church, M. A., at the evening service. Miss Victoria Stares will sing during the offertory at the evening service.

In Zion Tabernacle the services will be preparatory to the revival campaign, beginning with a praise, prayer and testimony meeting at 10 in the church, followed by the communion service. In the evening Mr. Hollinrake will speak on "The Salt of Life is Work, but the Best Plan is Work Done for Jesus." Mr. Will Holland will sing at the evening service.

Rev. Richard Whitting will occupy the pulpit of Centenary Church to-morrow. Sacrament after morning service and reception of members. Appropriate services by the choir, the soloists for the day, being Mrs. Allan, Miss Smith, Misses C. V. Hurehison, Roy McIntosh and Clifford Morden. Organ recital after evening service.

To-morrow will be anniversary day at Gore Street Church. Rev. Mr. Cobble-dick, Chairman of the Woodstock district, will preach morning and evening. Many will be pleased to have an opportunity to hear the eloquent preacher, bright and attractive music. Mr. Jack Addison will play euphonium solos at both services.

In Erskine Presbyterian Church services will be conducted by Rev. S. B. Russell, Morning, "Divine Guidance." Special service in the evening. Subject, "God's Pathway in the Sea." Duet "O Father Glorious." Miss Whyte and Mr. R. Symmers, Anthem, "Trust in the Lord."

The choir of Wesley Church was highly commended by Dr. Tovell last Sunday for its work in the service of song. The music to-morrow will also be of a special nature. The quartette will sing "In Heavenly Love Abiding," with humming accompaniment by the choir. Miss

WHAT IS POWER

Nature supplies force. Wind turns the wind-mill. The brook turns the water-wheel. Coal runs the engine and food runs the man. Some things contain little force, some things much.

One substance full of power is

SCOTT'S EMULSION

Nature put the power there. It is a wonderful flesh-producer. This is not only a matter of nourishment but of new vigor and activity in the tissues.

All Druggists: 50c. and \$1.00.

Monday Bargain Day

FINCH BROS. 29 and 31 King Street West

A SCENE IN COURT. In the Supreme Court yesterday, when his mind suddenly gave way. He was arguing the case of the Amity Oil Co. against E. V. Wisard and others. He was later taken to Findlay. It is said that Mr. Phelps has been affected by overwork.

OBITUARY.

Death of Mrs. Elizabeth Murphy—Funerals To-day. Mrs. Elizabeth Murphy, an old resident of the north end, passed away at her late residence, corner of Wood and MacNab streets last evening. She was the widow of Thomas Murphy, one son, Thomas, and one daughter, Miss May, are at home. The funeral will take place on Monday afternoon to Hamilton Cemetery.

The funeral of Miss Catherine Pearson took place this afternoon at 2.30 from Christ's Church Cathedral. Canon Bull conducted the service. Miss Pearson and Canon Bull were present at the opening of the Sunday School in connection with Christ Church Cathedral, fifty years ago.

The remains of Mrs. Elizabeth E. Green were laid at rest this afternoon, the funeral taking place from her late residence, 542 Main street east. Rev. John Young conducted the services. Interment took place at Millgrove.

Mrs. Margaret Holland, wife of W. H. Holland, passed away at her late residence, 145 West avenue north, this morning. She had been ailing for a year; but was taken seriously ill about two weeks ago. The funeral will take place on Monday afternoon at 2 o'clock.

The remains of Mrs. Mary VanNess were shipped this morning. The funeral took place from the residence of her daughter, Mrs. G. B. Ryckman, 94 Vine street, to the G. T. R. station. Rev. I. Couch conducted the services and the pallbearers were S. F. Ryckman, W. Pepper, S. Platt, D. C. Platt and J. W. Massart. Interment was made at Byron, Michigan.

Y. M. C. A. NOTES. "The Man Who Was Never Young" will make a very interesting subject for the men's meeting to-morrow afternoon, and will be handled by Rev. Dr. Nelson. All men cordially invited.

Song service at 8.30 in Association Hall is open to men and women. It comes at a good hour. The male choir and orchestra assist the choruses led by Mr. Chas. Houlding. The choir from Immanuel Con-

gregational Church will furnish special music.

Owing to the large number of people who were turned away from the illustrated health lecture given by D. M. Barton and his clever gymnasts in the Association Hall on Thursday and Friday evenings, he has decided to repeat the same programme on Monday night.

Regular Bible class led by the general secretary at 3 p. m., is open to all young men.

Boys under seventeen years of age will be made welcome at Mr. Robinson's class at 10 a. m.

The monthly reception open to members and friends, with the officers and men of the medical corps as special guests of the evening, will be held next Friday, Nov. 15.

High tea under the auspices of the Ladies' Auxiliary on Thursday evening next, Nov. 14.

IN THE WHIRL. But John Jones' Experience Was Not Pleasant.

John Jones, 24 Victoria avenue south, had a narrow escape from death this morning, shortly after 9 o'clock, while he was at work whitewashing the ceiling in Fearman's factory. He was working near a shaft, when his sleeve and apron caught in it and he was whirled up and around and jammed against the ceiling. The shaft was stopped by workmen who noticed Jones' predicament, and he was taken down. His side was crushed, and he was taken to the City Hospital. It was found there that a broken rib was his most serious injury, and he will be around again in a short time.

FAVORS INCORPORATION. Warden Vansickle is of opinion that the incorporation of the village at Crown Point will not be any detriment to the county, outside of the fact that Barton township might object to losing its deputy reeve, if Crown Point becomes incorporated it will have the right to send a representative to the County Council.

THE BREAD QUESTION.

To the Editor of the Times: Sir,—I believe a great relief is given the public by Mr. Ewing's defence and information regarding the very small profit he makes on a loaf of bread. Most of the people here have been complaining that the bakers have had too much profit on the size of a loaf of bread. I cannot see how Mr. Ewing's letter to his solicitors works out. He says he only makes one-eighth of a cent on each loaf. The price of a loaf of bread is 3 cents, that is twenty loaves for one dollar, and that makes a profit of 2 1/2 cents on 20 loaves of bread. How does he figure a profit of, as he says, "roughly speaking," a little over 3 per cent when it is shown by himself it is only 2 1/2 per cent? Mr. Ewing has taken the public into his confidence. He should let us know how much flour and other material is used in making a loaf of bread; also any other particulars that he thinks will show us he is correct in his figures.

Again the letter states it is only by his possessing the most improved and up-to-date machinery and competent workmen that he is able to make that profit. If that is so, I pity the poor bakers that have not these facilities. What profit do they make? I hope to get discussion in the matter so we can understand and sympathize with those who provide us our daily bread.

I suppose the wealthy bakers in this city got their money left them by their rich relations.

Rev. Mr. Hollinrake was about right when he said this is "no place for the poor man." Living now is too high, especially in a farming country, where produce should be cheaper. Conditions should be better in Canada than they are.

Come

MARKETS AND FINANCE

Saturday, Nov. 9.—Central market was well attended by buyers who had a large supply of a dozen. Eggs were selling from 35c to 40c a dozen. The tendency of butter is upward, and it took a small jump to-day. Lettuce, curly kale and brussels sprouts made their appearance and had good sales.

Poultry and Dairy Products

Table listing prices for Butter, Eggs, Chickens, Turkeys, Ducks, Geese, etc.

Fruits

Table listing prices for Pears, Apples, Peaches, Quinces, Lettuce, Cucumbers, etc.

Vegetables

Table listing prices for Watercress, Celery, Potatoes, Turnips, Cabbages, etc.

Meats

Table listing prices for Beef, Pork, Veal, Mutton, Lamb, etc.

Fish

Table listing prices for Salmon, Lake Ontario herring, White fish, etc.

The Hide Market

Table listing prices for Wool, Hides, etc.

Hay and Wood

Table listing prices for Straw, Hay, Wood, etc.

Toronto Farmers' Market

The offerings of grain-to-day were adequate. Wheat, quiet, with sales of 200 bushels of good at 90c. Oats steady, 100 bushels selling at 61c per bushel.

British Cattle Markets

London.—London cables are firmer at 10c to 12-14c per lb. dressed weight; refrigerator beef is quoted at 10c per lb.

The Cheese Markets

Napane, Ont.—To-day 1615 were boarded, 200 white and 1,350 colored; sales, 600 colored at 12-18c; white, 1000 at 10c above price. Board closed for season.

Bradstreet's Trade Review

Montreal.—There has been little change in the main features of business in the past week. The continued tightness of the money market.

COBALT NOTES

At the LaRosa there are 120 men at work, and the night shift is cut off.

The Amalgamated and the Gamey are two properties that should be overlooked.

The Princess is one of the good-looking new mines of the camp. Work was stopped here as at the Amalgamated, when the miners' strike was called last summer.

The recent find at the Big Pete is turning out to be a good one. The main shaft here is now down 175 feet, and no more sinking will be done until the new fifteen-horse compressor is in operation.

The treatment of the low-grade ores now piled up in immense dumps throughout the camp has been one of the camp's problems. It is now being energetically handled, and this is the feature in the camp's present development.

A rich strike was made at the McKinley-Darragh. The ore carries over 1000 ounces of silver to the ton, and there is no doubt but that the McKinley find is an extension of this series on the Princess.

Mr. George H. Morton, of Toronto, said yesterday that he would be highly advantageous to the mine owners of Cobalt to treat with the smelters as a unit, instead of individually, as at present.

Cobalt's output for the current year is 10,250 tons, so that in ten months of 1907 the shipments are more than double the output of the entire year of 1906, and on a similar basis of calculation, the value of the output for the ten months of 1907 is nearly eight million dollars.

Vice-President Freeman, of the Canadian Copper Company, will meet the mine owners of Cobalt, in Toronto on Nov. 12th and 13th. Negotiations will then be conducted for the purchase by the company of high grade Cobalt ores for treatment at the smelter at Copper Cliff.

Mr. C. E. Cattle, Portage Bay, who was in Toronto yesterday, said that many claims had been staked in the district, but with probably two exceptions little development work had been done, owing to the scarcity of money. Prospectors and owners were merely holding on to their properties till the present stringency was over.

Treatment of low grade ores at present piled up in immense dumps throughout Cobalt camp is not longer being deferred.

The new concentrator on the Coniags, which has now been in operation for six weeks, is proving successful, and during that time about 70 tons of ore a day have been treated.

The Nipissing concentrator, owned by the Cobalt Concentrators, Limited, has been erected on the Nipissing property, close to the Kerr Lake spur line of the T. & N. O. Railway.

Until the real cold weather has set in, when the lakes and rivers will be frozen, the White Brothers, of Muskoka, have in the meantime suspended operations on their two claims in the Montreal River section.

Willis & Co. yesterday received a message from Cookeville that natural gas had been struck at the 300-foot level by the drilling machine on some properties which are being developed there.

The Southern Belle Cobalt Mine has an authorized capital of \$1,000,000 in one dollar shares. There are 300,000 shares in the treasury. The claim, which is 40 acres in area, is near Kerr Lake.

The importance of Cobalt as a mining centre is being spread abroad in Europe. Paul Bloch, New York, is now making enquiries on behalf of certain French capitalists who are desirous of acquiring stock in the leading mines of the camp. The production at Cobalt now amounts to about 1,000,000 ounces a month, or 12,000,000 ounces a year, while the total amount of silver mined in the United States is about 60,000,000 ounces a year.

GREAT FIGHT FOR PEERAGE.

The Druce Mystery Once More Before the Courts.

Was the Duke of Portland Keeper of a Bazaar?

Remarkable Story Told By a Physician.

London, Nov. 9.—In the Druce mystery case this afternoon Robert Caldwell, of Richmond, N. Y., testified that he knew the late Duke of Portland both as the Duke and as T. C. Druce at Welbeck Abbey and at the Baker street bazaar. Mr. Caldwell added that he treated the Duke at both places for a disease of the nose.

When shown two photographs, Mr. Caldwell declared that they were photographs of the Duke of Portland in the character of T. C. Druce.

The witness was then asked to account for the beard shown in one of the photographs, and he replied that he had seen the Duke wear a false beard, and had even seen him take it off.

A day or two later he asked the Duke of Portland if the so-called "Druce" had left a will. The Duke thanked Mr. Caldwell for reminding him of such an important point, and said he must have one made.

Mr. Caldwell then gave a detailed account of his introduction to the Duke of Portland in 1864 by the famous physician, Sir Morell Mackenzie, who died in London early in 1896.

Mr. Caldwell referred to his intimacy with the Duke, to his numerous visits to the Duke both at Welbeck Abbey and the Baker street bazaar, and to his cure of the Duke's nasal trouble, for which Mr. Caldwell said he received \$25,000.

Mr. Caldwell also testified that he received presents from the Duke amounting about \$50,000, besides the fee of \$25,000. He remained in England six years after the funeral, went to America in 1871, saw the Duke case mentioned in the New York papers in February of that year, and

communicated with the Druce law firm.

Cross-examined by Mr. Avory, Mr. Caldwell admitted he had been described as "the great American affidavit maker," but he added that it was not true.

Mr. Avory questioned Mr. Caldwell closely on the subject of his alleged offer to sell a New York newspaper a story about the forged will and the robbery of the body of A. T. Stewart, the great dry goods merchant, of New York City.

The witness admitted that he had suggested that Judge Hilton had forged Mr. Stewart's will, and dug up the body.

Pressed to explain why, if it was not to extort money, that he had written to Albert Hilton, the witness said he desired to return him some letters which had passed between Judge Hilton and Mrs. Stewart which were securely locked in a safe, specially built to hold them, which cost \$3,500.

Mr. Caldwell refused to say where the safe was kept, but asserted that he had a key, and that another man had a key of the safe.

Explaining why his history was not published, Mr. Caldwell said the paper in question refused to pay the price he demanded for it.

The witness was then asked whether he took it back and with a few embellishments, including "a body-snatching incident," again offered it to a New York newspaper. Mr. Caldwell admitted this.

Mr. Caldwell was still under examination when the case was adjourned for a week.

The story of the Druces, to which reference is made in another column this morning, is that most of these antics were the result of the fact that the Duke led a double life. He was His Grace at Welbeck, but in London he was T. C. Druce, proprietor of the Baker Street Bazaar, a dry goods and notions emporium. As Druce he married and had a family, and, barring rather frequent absences from home, was a decent husband and father. Finally he decided to end the Druce double, and asked, as we would call it nowadays, his death, and he died in a London cemetery.

Mr. Druce claims there is nothing but lead in the tomb that for forty-three years is supposed to have contained the mortal remains of T. C. Druce, and that his grandfather lived for thirteen years afterwards as Duke of Portland.

June, 1906, workmen who were tearing down Harcourt House, in Cavendish square, London, previously one of the residences of the Duke of Portland, discovered an underground passage leading from the house to the Baker street structure, in which the famous Bazaar had previously been, and which was conducted by Thomas Charles Druce. The claimant declares that the Duke used the underground passage referred to for the purpose of getting from Harcourt House to the place of business of "Druce."

A strong light is thrown upon the Portland family's position by the fact that for years the present Duke, with an income of a million and a half dollars a year and a great deal of estate, has been some by many legal devices to prevent the opening of the grave of that very remarkable person, A. C. Druce. If, as alleged, nothing but lead is in the coffin, there would be a vacancy in the Peerage.

The suit of the claimant is being pressed by a limited liability company, the directors of which are the claimant himself and George and Joan Crickmer. A Mrs. Margaret Hamilton has testified that she knew the fifth Duke, both as Mr. Druce and as the Duke of Portland, and that she was aware of the fact that he had married Elizabeth Crickmer, the grandmother of the present claimant.

George Druce says he was born in 1841, and went to Australia in 1855, returning to England four years later. After this, he adds, facts which came into his possession showed that the Duke of Portland owned the bazaar referred to in the case, and he decided to claim the estates and for that purpose formed the limited liability company.

The original action was brought to eject Lord Howard DeWalden from the London property, which his father inherited from the fifth Duke of Portland through the supposed direct line. The contention has been that if this suit was successful the establishment of claimant titles to other estates held by the Duke of Portland would follow, as a natural consequence. The income from the Duke of Portland's estates is estimated at not less than \$1,000,000 a year, and it was on this basis that the shares of the limited liability company were placed on the market. Ten thousand ordinary shares were issued at \$5 each, and 20,000 deferred shares were issued at 25 cents each.

Since the famous fight by a former butcher's boy named Arthur Orton for the great estates of the missing Sir Roger Ebborne, no contest for a title and estate in Great Britain has so fired the public imagination as the effort of George Hollanby Druce to secure the Portland estates. The present Duke of Portland succeeded to the title at the death in 1879 of his first cousin once removed, probably the most eccentric man who ever held a seat in the Lords. He dressed like a laborer, made a perfect rabbit warren of the grounds of Welbeck Abbey, with underground runways in all directions, rarely appeared in daylight, hated women, had his meals sent to him by mechanical means, so that no one could see him eat his food, and in general so conducted himself as to earn the title of "The Mole" among the tenants, whose belief was that he avoided women and secluded himself from human society because of some terrible disease afflicting him.

The King, whose birthday is at hand, has a special claim to gratitude for his attention to Ireland. Had his predecessors done the same, had they visited Ireland, made it their residence during parts of the year, and cultivated the affection of a people eminently open to personal attraction, the Irish question would never have got into the calendar in the guise of an invader. The late Queen, during the greater part of her reign, declined to visit Ireland and was angry if the subject was mentioned. If she feared danger to her person, her fear was groundless. Her son fortunately, is endowed in a singular degree with the attractiveness of manner which fits him for his beneficent part.—Goldwin Smith.

THE KING AT CRATHIE CHURCH.

His Majesty the King and suite from Balmoral Castle, with their Royal Highnesses the Prince and Princess of Wales and suite from Aberfeldie Castle, attended divine service in Crathie Parish Church, near Balmoral, on a recent Sunday. The preacher for the occasion was the Very Rev. Dr. Gillespie, Mouswald, formerly Moderator of the General Assembly of the Church of Scotland, one of His Majesty's Chaplains, and the service was conducted by Rev. S. J. Ramsay Sibbald, minister of Crathie Church.

The King drove to the church from Balmoral Castle in an open carriage drawn by a pair of beautiful greys. His Majesty wore Highland costume, with Glengarry bonnet, in which were a thistle and oak leaves, the floral badge of the Royal Stuarts and of the Balmoral Highlands. Seated beside His Majesty was His Royal Highness Prince Arthur of Connaught, and on the opposite side of the carriage the Earl of Rosebery. As His Majesty's carriage passed towards the Royal porch the respectful greetings of a large crowd were graciously acknowledged by the King, who was looking remarkably well and evidently greatly benefiting by his sojourn at his Highland home.

From Aberfeldie Castle there were two carriages. The first contained their Royal Highnesses the Prince and Princess of Wales, Princess Mary of Wales, Prince Albert of Wales and Prince Henry of Wales. The Prince of Wales was dressed in Highland costume, while the Princess wore a neat silver-grey dress with toque to match, trimmed with heliotrope ostrich feathers, and had a feather bonnet harmonising with her costume. In the second carriage were Lady Catherine Coke, lady in waiting to Her Royal Highness the Princess of Wales; Sir Charles Cust, equerry to His Royal Highness the Prince of Wales; and Mr. Ansell, tutor to the young Princess. As the members of the Royal family drove past the assembled company near the church they met with respectful recognition, which they graciously acknowledged.

The service commenced with the congregation joining in singing the hymn "This is the time of light," to the favorite tune of Sir John Goss, Mus. D. Pray-

NEW DIPHTHERIA CURE.

Munich Professor Says Focyancaus is Quick and Sure.

Munich, Nov. 8.—Prof. Rudolph Emmerich, of the University of Munich, announces that he has discovered a new cure for diphtheria which he considers effective in the most dangerous cases, and which acts quickly.

"Focyancaus" is the name of the remedy. It is produced from the assimilation of focyancaus bacilli, developed in liquid cultures. Application is made by blowing it into the throat.

Cut to Pieces by Work Train.

Parry Sound, Nov. 8.—Robert Menzies, a workman on the C. P. R. construction, was run over by a work train on that railway, and was instantly killed. He was a young Scotchman, not long out, and was engaged in the C. P. R. gravel pit at Barker's Corners, and it was while returning up the track, walking, that he was overtaken by the train and cut to pieces.

TELESTEROGRAPHY.

Paris, Nov. 8.—Several papers here print photographs from copies which were transmitted over telegraph wires by an invention of Edouard Belin.

The method, which is purely mechanical, is not like that of Prof. Korn, who used sensitive plates. The new method is called telestereography.

Good Gas Goods

See our Instantaneous Water Heater. One tap will turn on the gas and water; one match will give you boiling water, and one cent will pay the bill.

See our Combination Cooker and Heater, \$2.75

T. F. Bermingham 20 John Street South

Young chaps, aged, say, 15 to 20, don't like to be called "youths"—they prefer "young men," but to distinguish the models we show in overcoats for these chaps from the "young man's" range, we dub them "youths."

The swiftest lot of these Overcoats here now this store ever had at one time—single and double breasted models, some in the loose, boxy styles, and some in the semi-form styles; smart American style lapels and collars that fit close up around the neck; concave shoulders with just enough padding to give the broad-shouldered effect. Materials are English Coatings of Beaver and Melton Cloths, Vicunas and Chevots, new designs and mixtures, as well as the plain black and greys. Priced \$4.95, \$6.50, \$8.50, \$10.00, \$12.00, \$15.00 and \$18.00.

Is it any wonder then that the whole Canadian people have confidence in the wise, conservative business management? And they show their confidence by taking out enough insurance in The Mutual Life to make it the fastest growing company in the Dominion.

HIS MAJESTY KING EDWARD. Born Nov. 9, 1841. Long live the King.

The King, whose birthday is at hand, has a special claim to gratitude for his attention to Ireland. Had his predecessors done the same, had they visited Ireland, made it their residence during parts of the year, and cultivated the affection of a people eminently open to personal attraction, the Irish question would never have got into the calendar in the guise of an invader.

The late Queen, during the greater part of her reign, declined to visit Ireland and was angry if the subject was mentioned. If she feared danger to her person, her fear was groundless. Her son fortunately, is endowed in a singular degree with the attractiveness of manner which fits him for his beneficent part.—Goldwin Smith.

His Majesty the King and suite from Balmoral Castle, with their Royal Highnesses the Prince and Princess of Wales and suite from Aberfeldie Castle, attended divine service in Crathie Parish Church, near Balmoral, on a recent Sunday.

The preacher for the occasion was the Very Rev. Dr. Gillespie, Mouswald, formerly Moderator of the General Assembly of the Church of Scotland, one of His Majesty's Chaplains, and the service was conducted by Rev. S. J. Ramsay Sibbald, minister of Crathie Church.

The King drove to the church from Balmoral Castle in an open carriage drawn by a pair of beautiful greys. His Majesty wore Highland costume, with Glengarry bonnet, in which were a thistle and oak leaves, the floral badge of the Royal Stuarts and of the Balmoral Highlands.

Seated beside His Majesty was His Royal Highness Prince Arthur of Connaught, and on the opposite side of the carriage the Earl of Rosebery. As His Majesty's carriage passed towards the Royal porch the respectful greetings of a large crowd were graciously acknowledged by the King, who was looking remarkably well and evidently greatly benefiting by his sojourn at his Highland home.

From Aberfeldie Castle there were two carriages. The first contained their Royal Highnesses the Prince and Princess of Wales, Princess Mary of Wales, Prince Albert of Wales and Prince Henry of Wales. The Prince of Wales was dressed in Highland costume, while the Princess wore a neat silver-grey dress with toque to match, trimmed with heliotrope ostrich feathers, and had a feather bonnet harmonising with her costume.

In the second carriage were Lady Catherine Coke, lady in waiting to Her Royal Highness the Princess of Wales; Sir Charles Cust, equerry to His Royal Highness the Prince of Wales; and Mr. Ansell, tutor to the young Princess. As the members of the Royal family drove past the assembled company near the church they met with respectful recognition, which they graciously acknowledged.

The service commenced with the congregation joining in singing the hymn "This is the time of light," to the favorite tune of Sir John Goss, Mus. D. Pray-

er having been offered by Rev. S. J. Ramsay Sibbald, the 8th Psalm—"How Excellent in All the Earth"—was sung, and then Mr. Sibbald read the Old Testament lesson from Ezekiel xiv., a warning against idolatry, and the hymn "Sound aloud Jehovah's Praises" was sung. Rev. Dr. Gillespie read the New Testament lesson from Ephesians x., descriptive of the spiritual armor of the Christian soldier, and another prayer was offered by Mr. Sibbald.

Rev. Dr. Gillespie chose for his text James i., 27—"Pure religion and undefiled before God and the Father is this, to visit the fatherless and widows in their affliction, and to keep himself unspotted from the world." From this the ex-Moderator preached a powerful, earnest and impressive sermon on practical religion as summarized by the Apostle James. The preacher pointed out that there were two distinct phases of religion, the one being that inward frame of mind expressed briefly in the phrase "devout," of which the aged Simeon was an example, the other consisting in the outward service of God, more precisely implied in the phrase "the offices of religion." It was the latter which was defined or described by James. Two branches of it were set forth by the Apostle, the one relating to our own character and conduct, the other setting forth what we owe to our fellow-men. In dealing with each of those, the preacher appealed to Christ's life and character as the embodiment of each, showing how successfully He kept Himself unspotted from the world, and how He went about continually doing good. In the former He did not shun the world, but, on the contrary, associated with all classes of men, and yet did nothing to tarnish His perfect purity. He was present at marriage rejoicings, attended dinner parties, and was, in consequence, accused of being a gluttonous man, and yet He did everything in an unworshipful spirit, keeping Himself harmless, undefiled and separate from sinners. That was the ideal, which was the office of religion, which we should strive to attain. The divine character of the second branch of duty, and the obligation under which we were to discharge it clearly appeared by noting how assiduously our great Master and Model was in the discharge of it. His heart ever beat as He thought upon the ill which sin had entailed upon our otherwise fair world. Our religion, James implied, was defective unless we extended to our fellow-men similar sympathy to His. After touching on the soothing magical influence of genuine heartfelt sympathy, Dr. Gillespie gave a caution against fulfilling the letter of the text without entering into its true spirit. Full and frank appreciation was expressed of the unprecedented extent to which the Christ-like spirit of the text had been realized and put in practice, especially since the advent of the Victorian era. Finally, the preacher emphasized that those offices of religion to be genuine and lasting must proceed from the springs of devotion in the heart.

In connection with the service the volunteers effectively played by Mr. S. Page, organist of the church, were all by special request. The first was "Eternally Ye Limpid Springs" from Handel's "Jephtha." During the time the offertory was being taken the Andante from Haydn's "Symphony in D" was played, and after the hymn "Now Thank We All Our God" had been sung, the concluding voluntary was Mendelssohn's "War-March of the Priests."

Mr. David Mulligan, of Millbrook, Kills Himself.

Minden, Nov. 8.—Mr. David Mulligan, of Millbrook, accidentally shot himself at Otter Lake, near Minden, to-day. He was one of a party of ten hunting at Otter Lake, and while unifying his hound at the camp his rifle accidentally discharged, the ball striking him between the eye and nose, coming out at the top of the head, death resulting in a few minutes. Deceased was a blacksmith and leaves a wife and two children.

THE "RIPPER" CONFESSED. Berlin's Mystery Cleared Up—Youth's Story Verified.

Berlin, Nov. 8.—The series of "Jack the Ripper" crimes upon little girls has been cleared up through the confession of a printer's apprentice, Paul Minow, charged, how he had been lured by his mother and sister with business, had gone out into the streets in a rage and stabbed four little girls one after the other. His confession has been verified by the police.

The Buckingham Riot. Ottawa, Nov. 8.—The trial of six Buckingham strikers, accused of manslaughter in connection with the riots at Buckingham last year, was begun at Hull this afternoon. Preliminary evidence was taken, and the men were allowed out on bail over night. Some fifty witnesses have been summoned, and the trial is expected to last a week.

McKeown by Acclamation. St. John, N. B., Nov. 8.—Pun. H. A. McKeown, new Attorney-General in the Robinson Cabinet, was elected by acclamation for St. John County.

Curzon to Contest West Hull. Hull, England, Nov. 8.—Lord Curzon of Kedleston, Chancellor of Oxford University, and ex-Viceroy of India, has consented to contest the seat in the House of Commons for West Hull, made vacant by the elevation of the Hon. Charles Henry Wellesley Wilson to the peerage.

# SOCIETY

at luncheon on Friday for Miss Bessie Bruce, who is staying with Mrs. Kirwan Martin.

Mrs. Thomas, Amoy, China, is staying with her grandparents, Colonel and Mrs. Grant, Bay street.

Mrs. John Jackson Scott introduced her daughter, Miss Margaret Scott, at a large tea on Friday afternoon, when the debutante wore a very pretty frock of white net and lace, carrying a beautiful bouquet of red rosebuds. Mrs. Scott was dressed in cream voile, American beauty roses in a shallow bowl decorated the polished table, where Mrs. Fred Walker and Mrs. Tandy poured tea and coffee, assisted by Miss Meta Gibson, Miss Alice Hope, Miss Charlotte Belfour, Miss Meta Bankier, Miss Alice Macdonald, Miss Constance Turnbull. Among those present were Mrs. DuMoulin, Mrs. Lucas, Mrs. Dent, Mrs. Charles Scott (Toronto), Mrs. Southam, Mrs. Spratt, Mrs. Arthur Gates, Mrs. Gerald Glasco, Mrs. Young, Mrs. Murray, Mrs. McBrayne, Mrs. H. C. Baker, Mrs. Mewburn, Mrs. Myles, Mrs. Evel, Miss Evel, Mrs. Houser, Mrs. Baker, Mrs. Alex. Osborne, Mrs. Nesbit, Mrs. Husband, Mrs. T. D. J. Farmer, Mrs. Thomson, Mrs. O'Connor, Mrs. Thomas (Amoy), Mrs. J. H. Mills, Miss Osborne, Mrs. Turnbull, Mrs. Hawkins, Mrs. Innis, Miss Bristol, Mrs. Bradley, Mrs. Tidwell, Miss Young, Mrs. Lottridge, Miss Ridley, Mrs. Forrester, Mrs. Simons, Mrs. Greening, Mrs. Renwick, Mrs. Gillard, Mrs. Champ, Mrs. Washington, Mrs. Marshall, Miss Tudor, Mrs. Carter, Mrs. Olmsted, Mrs. Rennie, Miss Rennie, Mrs. Wood, Mrs. R. T. Steele, Mrs. Labatt, Mrs. Snider, Mrs. Snider, Mrs. Gordon Henderson, Mrs. Ernest Laxer, Mrs. S. O. Greening, Mrs. Mullen, Miss Gaviller, Mrs. Hoodless, Mrs. Alex. Gartshore, Mrs. H. M. Watson, Mrs. Proctor, Mrs. Grantham, Mrs. Frank Vanzer, Mrs. Alex. Zimmerman, Mrs. Doolittle, Mrs. Herring, Mrs. Evans, Mrs. Herbert Heming, Mrs. Lester, Mrs. Charles Munton.

Mrs. Alex. Zimmerman entertained informally at the tea hour on Tuesday afternoon, in honor of Mrs. Bray.

Miss Emma Fuller and Miss Rosalind Osborne have returned from a trip to the continent. Miss Osborne will be one of this season's debutantes.

Miss Marjorie Knox gave a girls' tea on Friday afternoon.

Bruce W. Pearson, tenor soloist, of Toronto, is a guest of Miss Nisbet today.

At high noon on Tuesday the wedding of Mr. R. J. Mutrie, of Vernon, B. C., a younger son of Lieut. Col. Mutrie, ex-M. P. P., and Miss Alice Tolton, daughter of Mr. David Tolton, was celebrated at the residence, 69 Waterloo street, Guelph.

The marriage of Miss Kathleen Harty, daughter of Hon. W. Harty, to Mr. Hugh Osler, son of Mr. E. B. Osler, M. P., will take place in Kingston on Wednesday, Nov. 20.

Yesterday afternoon Mrs. Peter Crerar, of this city, gave a stirring patriotic address to the members of the 48th Highlanders' Chapter of the Daughters of the Empire at the armory's mess room, Toronto, calling on mothers, wives, sisters, daughters of soldiers to do all in their power to keep the idea of loyalty to the empire before them and their children. By enlarging the ranks of the chapters of the order continually all would work together with the one great object in view.

Mrs. (Dr.) J. W. Bell will receive for the first time at her residence, 70 Arkle-wood avenue, on Thursday, Nov. 14, and afterwards on the first and second Wednesday of each month.

Mrs. W. F. and Miss Montague will be at home to their friends on Wednesday next, Nov. 13, at Windcroft, station 8, Beach; afterwards on the first and second Mondays.

There will be quite a number of debutantes at the bal poudre next Friday evening. Among them will be Misses Edna Greening, Geraldine Grantham, Jean Melbourne, Ruby Campbell, Arvilla Gurney and Mabel Shepherd. The large advance sale of tickets guarantees a grand success. Mr. and Mrs. E. B. Gardiner are sparing no time or trouble to assist the ladies in their arrangements. The main entrance to the Waldorf will be screened off and guests will enter through the reading room, which will be transformed into a cozy reception room. Private dressing rooms will be provided for the officers and patronesses of the Daughters of the Empire, and also for the military men. Mrs. W. R. Davis, regent, and her committee, will receive in the upper main hall. The large reception room and hall will be used for card rooms. Special street cars will leave the front of the hotel at 12, 1 and 2.30 o'clock.

Mrs. Abbott, 111 Herkimer street, will be at home next Wednesday afternoon and on Wednesday afternoons during the winter.

Mrs. J. H. Oon will receive on the first and third Thursday of each month at her home, 88 Grant avenue.

**DON'T MISS IT.**

The majority of people in Canada are without doubt familiar with the well-known standard "Sanitol" tooth and toilet preparations that are so popular and largely used all over the United States. While these preparations have a widespread distribution throughout Canada, and are strongly recommended by Canadian dentists and druggists, the Sanitol Company in order to give every one interested an opportunity of testing the quality of the goods, are advertising (on another page) a special offer of their various preparations. This shows the great confidence the Sanitol people have in their goods, knowing that every one who once tries them will appreciate the value and benefit to health, and continue to use them.

By cutting out the coupon in the advertisement in this issue every reader can obtain \$2.70 worth of the "Sanitol" products for \$1.

As this is the last advertisement that will appear readers should send their coupon now.

Bobbs—What a pity it is that that pretty girl is so near-sighted. Bobbs—Well, in spite of the fact that she is near-sighted, she's a good-looker.

Another hostess on Wednesday afternoon was Mrs. Abbott, and many people went on from one tea to the other. Mrs. Almon Abbott assisted her mother-in-law in receiving, as did Mrs. Skinner, Montreal, whose baby daughter was very much admired. Mrs. Lottridge, Mrs. Southam and Mrs. Lucas presided at the tea table, which looked unusually lovely with many pink and white carnations in a large silver loving cup. On the polished mahogany—Miss Abbott, Miss Nona Gwyn, Miss Mary Glasco, Miss Frances DuMoulin, Miss Vera Martin and Miss Marie Morris assisted. Some of the ladies present were Mrs. Southam, Mrs. Doolittle, Mrs. H. C. Baker, Mrs. Tidwell, Miss Young, Mrs. C. M. Connell (Winnipeg), Miss McLaren, Miss Jean McLaren, Mrs. C. J. Jones, the Misses Gillespie, Mrs. Percy Onderdonk.

Our values are the greatest in Hamilton at the regular prices. Don't miss these bargains.

## Reduction sale of homefurnishings

Sharp price reductions on desirable new carpets, rugs, curtains, furniture coverings, silk draperies and silkolines—don't miss them

A SHARP, decisive price reduction sale of homefurnishings commences Monday morning at 9 a. m. This great November sale, coming in the midst of a tremendously large selling season, is indeed extraordinary and provides the opportunity of securing great bargains that every homefurnisher will appreciate.

This season's heavy selling has left us with many broken lots and odd pieces—a whole stock for some stores—thousands of yards of carpets, furniture, coverings, draperies and oil cloths, hundreds of pairs of curtains of all kinds and scores and scores of rugs, all at greatly reduced prices for this tremendous November sale event.

### Greatest bargains ever known

The Right House management will permit of no accumulations, hence this stock-adjusting sale with prices almost clipped in two, and that right in the midst of your needtime. Get here as soon as you can and fill every need for months to come. Buy now if you would share in the greatest savings you ever heard of. Everything will be on display for easy selection. Here are some of the details.

THOMAS C. WATKINS.

### English Brussels carpets reduced

Hard wearing qualities—good patterns

ALL the broken ranges left from the past month's busy selling have been sorted out and marked at decided reductions for this great November sale. There is enough of each pattern for one to six rooms. These handsome Carpets comprise our best selling English lines and one good pattern from a Canadian maker. Borders to match many.

**Regular \$1.00 English Brussels carpets reduced to 63c**  
**Regular \$1.15 and \$1.25 Brussels carpets reduced to 97c**  
**Regular \$1.25 and \$1.35 Brussels carpets reduced to \$1.09**

There are rich fawn, crimson, blue, reseda, green and rose grounds, with floral, conventional, Turkish and Persian designs. The lot includes some of Crossley's best quality. These big reductions will send them hurrying out. Wise people will come early and bring room measurements along.

The savings average a fourth to more than a third and you have thousands of yards to select from. Buy your Carpets now and save up to 37c on the yard. The reductions quoted are from our regular prices. These same qualities would be worth 15c to 25c the yard more than our regular prices if we had to buy them to-day. Making them, at the reduced prices, a double bargain.

### New Swiss point curtains reduced

The chance of the season to buy and save

SCORES and scores of dainty, practical, good-wearing Swiss Point Curtains will go into this November sale with prices sheared a fourth to a third. Many of the lines were specially purchased and worth fully 25 per cent. more than regular prices. Add to this the reductions and the bargains are marvellous.

**\$3.19, reduced from \$3.69**      **\$3.95, reduced from \$6.50**  
**\$3.59, reduced from \$4.65**      **\$7.19, reduced from \$9.50**  
**\$8.19, reduced from \$14.00**      **\$8.19, reduced from \$11.50**

All the broken ranges of our busiest Curtain season are included. Of some there are only 2 or 3 pairs of a pattern. Of others up to 8 and 10 pairs of a pattern. Balances of the very best selling designs as the small lots testify. Come and come early for best choice.

Included are some exquisite Duchesse and Geneva Point Curtains. But they are mostly good Swiss Points in white, ivory and cream shades. Good full sizes and a great variety of the very newest design ideas in both plain and filled centres, with beautiful dainty to elaborate border effects. We urge early selection, for, of course, first comers will get the greatest snaps.

### Axminster & Wilton carpets reduced

Including Templeton's and Crossley's weaves

THESE good Carpets could not be replaced to-day for less than 25c to 35c advance on our regular prices. Add this to the reductions given below and the bargains are simply wonderful. This big reduced lot is the balance of the season's broken lines and include many of our very best regular good patterns. Enough of each design for from 1 to 6 rooms.

**Regular \$1.75, \$1.85 and \$2.25 qualities \$1.47**  
**Regular \$1.65 qualities reduced to \$1.19**

Floral, conventional and Persian designs in greens, fawns, electric blues and wood tones. Suitable for drawing rooms, libraries, dining rooms, etc. Select now and save from 28c to 78c on every yard you buy.

**STAIR CARPETS**—Wilton and Axminster Stair Carpets—odd ends. Enough in each piece for one stairway. Reduced to \$1.47 the yard.

### Four bargains in printed oilcloths

TWO widths, 45 and 54 inches, in good heavy printed Oilcloths, block, floral and tile patterns in a good range of desirable colorings and combinations. They go on sale for Monday at these splendid reductions:

45 inches wide—  
 27c, reduced from 38c  
 39c, reduced from 50c

54 inches wide—  
 34c, reduced from 45c  
 48c, reduced from 60c

The prices quoted are for the running yard.

### Nottingham lace curtains reduced

Wonderful bargains in good wearing sorts

IF these dainty, practical, good-wearing Nottingham and Diamond Net Curtains were not in small lots of 3 to 10 pairs to the pattern they would be considered bargains at the regular prices. Many of them were specially purchased and at regular prices represent savings of a full fourth. They won't last long at these further reductions.

98c, reduced from \$1.13      \$1.69, reduced from \$2.25  
 \$1.19, reduced from \$1.38      \$2.29, reduced from \$3.00  
 \$1.39, reduced from \$1.75      \$3.19, reduced from \$3.88

Scores of pairs in a dozen or more lace designs and attractive patterns. Made-to-wear-well edges. Good full sizes, 50 inches wide by 3 and 3½ yards long, pure white. These are broken lots left from this season's assortments and the above prices represent decided reductions. They are suitable for any room.

**ODD PAIRS**—A few odd pairs of Lace Curtains to clear at great reductions—Come early for these, they won't last long.

### Kensington room size rugs reduced

All wool woven to wear well qualities

WE have made great reductions on these pure-wool, room size Rugs for this November sale. The designs are floral and conventional with very beautiful borders. The shades are wood tones, greens and crimsons. The sizes range from 2½ by 3 yards up to 4 by 4½ yards. Note the reductions:

**\$2.88, reduced from \$3.75**      **\$7.43, reduced from \$9.00**  
**\$4.59, reduced from \$5.25**      **\$8.23, reduced from \$10.00**  
**\$8.88, reduced from \$10.50**      **\$13.95, reduced from \$18.00**  
**\$9.95, reduced from \$12.00**      **\$12.19, reduced from \$15.00**

These splendid Art Squares are close, heavy, superior qualities that will give good hard wear and always look well. Suitable for any room and rare bargains. Come early for first choice.

### Heavy tapestry portiers reduced

Fine, rich, silk finished qualities on sale Monday

WE have reduced a number of pairs of these elegant Mercerized Tapestry Curtains for this November sale. The qualities are very superior and any one with a heavy Curtain need will find them excellent bargains. As the quantity is limited we would advise early selecting Monday.

**Our regular \$8.00 quality reduced to \$6.19 the pair**  
**Our regular \$15 quality reduced to \$9.88 the pair**

Rich, brilliant, silk finish in heavy tapestry weaves. Full large sizes. Beautiful ecru and green, and green and brown combinations, also exquisite two-tone Indian reds. Very handsome patterns. These highly desirable Curtains are finished with a very heavy cord at edge.

### Odd rugs greatly reduced

Hearth and bedside sizes

WE have sorted out all the odd Rugs and lots where color ranges are broken and marked them to big reductions. The lot includes Axminster, Fibre and Navajoe Indian in a wide assortment of good colorings and combinations and highly desirable designs. A nice assortment to select from.

85c qualities reduced to 69c each  
 \$1.50 qualities reduced to \$1.19 each  
 \$3.00 qualities reduced to \$2.19 each  
 \$5.50 qualities reduced to \$3.19 each

### Good furniture coverings reduced

Save a third to a half on them

NEARLY half price for highly desirable and rich Furniture Coverings. Good French tapestries, in neat effective small and medium designs in conventional patterns. The very best and richest colorings in greens, blues, Indian reds and light grounds with beautiful contrasting or harmonizing over designs. All 50 inches wide.

**88c, reduced from \$1.25 and \$1.75 the yard**  
**\$1.19, reduced from \$2.00 and \$2.50 the yard**

Suitable for upholstering purposes, window over-drapes and wall coverings. A nice variety for selection. All remarkable bargains.

### \$2.50 frilled curtains \$1.86

A great special purchase sale

SPECIALLY purchased at a splendid price saving. They are remarkable bargains. Five neat designs in frilled Bobbinet Curtains, good, stout, hard-wearing, but fine net bodies with lace edges and insertions. 3 yards long and 50 inches wide. You save a full fourth. Value \$2.50, November sale price only \$1.86 the pair. See them Monday.

### Silkolines are reduced

Best American qualities

FANCY figured Silkolines, Sateens, Cretonnes and French Taffeta Draperies join the sale at splendid reductions. A wide range of dainty desirable light to medium colorings and beautiful new designs. Suitable for drapery work, box covering, bedroom draping, over-drapes, etc., etc. 30 and 36 inches wide.

Regular 18c qualities reduced to 17c  
 Regular 22c and 25c qualities 17c  
 Regular 38c and 40c qualities 29c

### Remnants about half price

Come Monday morning

ALL kinds of useful lengths in Carpets, Furniture Coverings, Art Draperies, Madras Muslins, Sateens, Nets, Cretonnes, Silkolines, etc., etc. A wide range for selection. On sale Monday and as long as they last at about half price. Better come early for best choice.

### Silk draperies greatly reduced

TWENTY pieces to select from. The broken ranges and short lengths left from this season's busy selling. These are very high class goods and represent splendid bargains. Suitable for over-drapes, portiers, mantel drapes, shades, etc., large and small designs in newest ideas. A nice range of dainty to rich colorings and combinations.

Regular \$1.00 qualities reduced to 75c yard  
 Regular \$1.25 and \$1.35 qualities for 98c yard  
 Regular \$1.85 and \$2.25 qualities for \$1.39 yard

The Rev. Dr. Alex. Gray, Auchterless, (By A. McIntosh, Beaverton, Ont., in Aberdeenshire.)

N. Y. Scottish American. It is with unalloyed pleasure that I write a short biographical sketch about the late Rev. Alexander Gray, M.A., D.D., the ploughman's preacher...

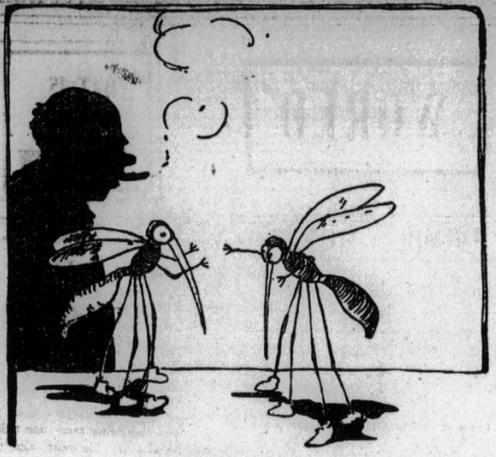

aspect of divine things. When he came to be about three score and fifteen his great power and activity had begun to grate for rest, and he left the parish to an assistant and successor in 1898, and retired to Aberdeenshire.

A Sunset on Yarrow. I had read much about the famous stream, and knew something of its literature, before I first knew the valley itself some seven years ago. Since then I have often visited the "classic vale," but only once have I felt the glamour of the landscape.

SAVED FROM HERSELF.

Masson, Que.—Just two years ago, the residents of this pretty village viewed with alarm the change that crept over Florence, the daughter of Mr. Jamison. From a bright, carefree child, she emerged into a young womanhood, worn and wasted.

How Turbines Work. Mighty Engines Which Cause Her to Race Across the Sea. The speed and general performance of the great Cunard steamship...

MOSQUITO TALK. First Mosquito—I just hear some one call that man a cold-blooded villain. Second Mosquito—Let's sample him; cold blood would taste very nice after all the hot weather we've had.

CURSE COMING TRUE.

Kaspar Hauser's Ghost and the Baden Grand Dukes.

Grand Duke Frederick is dead and his son has succeeded to the throne of Baden. The new Grand Duke is now 59 and is not robust; in fact, 20 years ago he was reported to be dying of tuberculosis.

Recent investigations appear to have supported this story. Alexander Von Arnim published a few years ago at Zurich a pamphlet containing two documents, the genuineness of which has never been disproved.

Who is Kaspar Hauser? asked the American at the pension table. "Gottlieb Lieber" cried the loyal minister at the head of the table, dropping the glass he was holding at a start.

But so often has some unknown hand inscribed beneath the name "The real Duke of Baden," that the space is almost rubbed away from the constant erasures.

The story begins with old Grand Duke Charles Frederick, who died in 1811 and was twice married, his son by the first union, Prince Charles being the heir apparent.

How it makes the appetite jump. There follows as a natural consequence an abundant supply of rich red blood. Vitality and strength will soon find throbbing within you, because your food is digested so thoroughly that it's readily assimilated.

Burmese Sacred Cattle in Texas. A herd of Burmese sacred cattle, which Tom O'Connor, a stockman of Gollad, Tex., imported from India about two years ago, has done so well that the variety will soon be found upon many of the ranches of southwest Texas.

Is Sciatica Curable? Many who have used poor remedies think sciatica is well nigh incurable. But it doesn't take long to change this opinion when Polson's Nerviline is tried.

GREAT SPORTING WORLD

C. A. A. U. AND OLYMPIC GAMES.

Officials Waited on Col. Williams at Ottawa Yesterday.

Tremblay Defeated Otto Roehm at Montreal—Hugh Hayes to Officiate at Peterboro This Afternoon—Billy Morrison Will Handle the Y. M. C. A. —Jerome College Game Here.

Ottawa, Nov. 9.—The commissioners of the Canadian Amateur Athletic Union had a conference yesterday with Col. Hanbury-Williams, the Governor-General's military secretary, on the subject of Canadian representation at the Olympic games of 1908.

TO-DAY'S CARD.

COLLEGE SENIOR. Ottawa at McGill. COLLEGE INTERMEDIATE. McGill at Varsity a. m. 1st final. COLLEGE JUNIOR. R. M. C. H. at Varsity III, a. m., 1st final. INTERPROVINCIAL SENIOR. Montreal at Ottawa. ONTARIO SENIOR. Westmount at Peterboro, final. O. R. F. U., INTERMEDIATE. Young Torontos vs. Tammany. O. R. F. U. JUNIOR. St. Michael's vs. Aura Lee. St. Jerome's at Hamilton Y. M. C. A. Tammany at Parkdale.

HAYES AS UMPIRE.

Hamilton Man Will Officiate at Peterboro To-day.

Montreal, Nov. 8.—Phil McKenzie as referee and Hugh Hayes, of Hamilton, as umpire, will officiate in the game between Westmounts and Peterboro at the latter town this afternoon.

There is a great deal of enthusiasm noticeable in Westmount ranks as the result of the fine showing of the team and many of the dyed-in-the-wool rooters will make the trip to cheer the locals. It appears the Montreal team has been done an injustice in being credited with one of its players having kicked the Peterboro centre half, in the head, and injuring him so badly that he is out for the season.

FOOTBALL INSURANCE.

A football insurance company has been organized in London, starting with 1,250 players, insured by the clubs to which they belong at \$3 each. Football players in England are regarded as coming within the Workmen's Compensation Act, which went into effect early last summer. Under this law an employer is responsible to an employee who is injured in the ordinary course of his employment.

A COLLEGE GAME.

Toronto, Nov. 9.—The Meds. won the senior intercollegiate championship at Varsity Field yesterday afternoon by defeating the Dents by 1 to 0.

Walker, of the winners, was hurt at the beginning of the second half and the Dents refused to drop a man to even up, claiming that there was nothing in the rules to compel them to do so.

SIXTEEN TEAMS READY.

Montreal, Nov. 8.—Today's great fifteen-mile team race, under the auspices of the C. A. A. U. and the Independent Harriers, the association which is battling the Federation of Amateur Athletics, will be the greatest road race Canada ever had, is beyond the shadow of a doubt. In all, sixteen teams will start, ten from Montreal, three from Toronto, and one each from Ottawa, Hamilton and Halifax.

The main guard of the Toronto contingent, came yesterday morning. Toronto arrivals include W. F. Cumming, Percy Sellen, Ray Price and Hilton Green, in charge of Lou Marsh; the Central Y. M. C. A. team, W. B. Goldsboro, Goulding, J. S. Near, W. B. Howard, and Lester, in charge of Fred Smith, and Carter and Jack Tait and Alf Sellers, the West Ends, with Wm. Tait. The rest of the West End men came down to-night.

The I. C. A. C. team is the favorite here, with the Central Y. M. C. A. team as second choice. The Central has a well-balanced team—the best out.

SHRUBB GIVES FIGURES.

New York, Nov. 9.—Alfred Shrubbs, the English champion long-distance runner, has won over \$3,000 in the course of his racing in this country and Canada. On Thanksgiving Day at Fall River he will undertake to defeat an American team of four runners, each man to run two and a half miles apiece, over a distance of ten miles. The American team will be composed of Frank Kanaly, of Boston, J. Smallwood, of Long Island; Davis, the Canadian Indian, of Canada, who ran second to Longboat in the recent Marathon race, and A. Cook, of Fall River, who ran so strong against Shrubbs in his last race in this city.

PENSION FOR DREYFUS.

Granted \$470 Annually After Over 30 Years' Service.

Paris, Nov. 8.—The Journal Official prints in a list of those granted pensions the name of Major Dreyfus, who is granted \$470 annually. His service extended over a period of 30 years and

TREMBLAY WON.

Defeated Otto Roehm in Montreal Last Night.

Montreal, Nov. 9.—Eugene Tremblay, champion lightweight wrestler of America, won two out of three falls from Otto Roehm, of Buffalo, who holds the amateur championship of America. First fall was won by Tremblay in 43 minutes; second fall was won by Roehm in 16 minutes; third fall was won by Tremblay in 20 minutes. The match was very fast and Tremblay had many close calls.

SHORT ENDS.

Little Paragraphs of Sport from Far and Near.

It is likely that some Hamilton wrestlers will compete in the big amateur tournament to be held at Convention Hall, Buffalo, on Nov. 23. Will Roehm is the manager of the tournament. Valuable prizes will be given.

Admirers of Boston terriers will be pleased to know that Mr. H. O'Neil of this city, has imported a good one—Sully Punch. Sully Punch is by Tom Thumby, an unbeaten sire.

A challenge has been received at the University of Toronto from the fencing club of Cornell University, asking for a meeting between the fencers of the two institutions at the intercollegiate meeting which will be held at Cornell toward the latter end of March next. It is more than probable that the match will be arranged.

The latest player named for the management of the Toronto Eastern League ball team is Jimmy Casey, the former popular catcher of the Maple Leafs.

Chatham, Nov. 9.—Jerry Dillard, Fred Brisco's famous horse, has been sold to W. R. Acton, of Gananoque, for about \$2,000, and will leave for there tomorrow. The horse has won something like its price already this season.

Charley Murray's Dulcain will start in the big steeplechase stake at Aqueduct this afternoon.

BOGUS MONEY.

Winnipegger Arrested on Serious Charge at St. Paul.

St. Paul, Minn., Nov. 9.—Ernest R. Workman, of Winnipeg, was arrested today by a United States Secret Service agent and \$20,000 in counterfeit currency was found in a suit case in Workman's office in the Union building. The counterfeit money was in \$200 gold certificates. In the suit case was also found a quantity of paper, which is supposed to have been used in counterfeiting, some ink, and a plate. A hand press was found in the office. More plates were found in the office. More plates were found in the office.

When taken before United States Commissioner Spencer, Workman decided not to plead. He will be arraigned on a charge of counterfeiting. Secret Service men assert that from the windows of a building opposite the Union block they had watched Workman make counterfeit money.

EIGHT KILLED.

Maya Indians Attack and Kill Troops in Mexico.

Mexico City, Nov. 9.—The War Department yesterday received advices from the military headquarters in Quintana Roo Territory, where a campaign against the rebellious Maya Indians is being made, that a force of Indians made an attack upon a camp of soldiers near Nopdee, killing Lieutenant Roman San Martin and seven privates.

FIRE MAN KILLED.

Rochester, N. Y., Nov. 9.—One fireman was killed and four injured here this morning, when a trolley car struck a horse cart, which was crossing Clinton avenue.

NEW NORMAL COURSES.

Important Changes in Curriculum Are Being Prepared.

Toronto, Nov. 9.—The details of the new course of study for provincial Normal schools will be announced in a few days. In the future increased attention will be paid in these institutions to the academic side of the work. In the past emphasis has been laid on professional training, rather than scholarship. However, the former will not be neglected in the new course.

With the Normal schools will be affiliated ungraded rural schools. The teacher training schools are situated in cities, and there was no provision for affording instruction of ungraded schools. Every Normal school master will be required to spend one week in each year in visiting these rural schools in company with the inspector.

About Laying Up Heats.

The practice of laying up heats was altogether too prevalent, both on the Canadian and United States trotting turf, the past season, and the plan resorted to for checking it fell far short of remedying it. It is seldom you find a horse's position in a race benefited by a change of drivers. There is a sort of fellow-feeling amongst the fraternity, which influences the new driver not to make too strong an effort to surpass the work of the man he has displaced. His chief endeavor, therefore, is to preserve about a similar position in the summary to that secured by his predecessor. There are many rules, both of the National and American Trotting Associations, which should have been revised long ago, but heavy bodies move slowly, and these are no exceptions to the rule. A different rule should be adopted altogether than the one which so far does service. The officials on duty at a trotting meeting should for such violations of the rules inflict a fine, and the amount should be graded according to the gravity of the offences. Such fines, rigidly enforced, would very soon stamp out a practice which is doing a lot of injury to the interests of the harness turf. A better practice even than that of inflicting a heavy fine for laying up heats would be the abolishment of betting on or at all harness meetings. The revenue, however, derived from the present practice is large, and so it is a difficult matter to induce clubs to adopt a reform which would take so much out of the treasury.

WHAT IS GOING ON NOW

Comment and Chat

At Trinity College sports, held in Toronto this week, a Hamilton boy won a large share of the honors. Mr. G. R. Forneret, son of Venerable Archdeacon Forneret, and a former Highfield School boy, was the winner in three events, the 100-yard dash, the relay race (one mile), securing the cup for his year, and the high jump, 5 feet 3 1/2 inches, in the rain.

The object of racing is primarily to improve the breed of the horse. The public attend mostly for recreation and amusement. To the great majority no harm results. The injury comes only to him who wagers more than he can afford to lose. Some will say that the morals are injured by the betting habit. That argument is the stock in trade of the alleged professional pleader for good, and in this department must be passed over. Horse racing properly conducted must have only beneficial results.

The betting adjunct to the racing game is the most difficult to regulate, and has been excessively aggravated by recent legal entanglements. The O. J. C. gives racing under difficulty. The meddlers make it hard to control the bookmakers, who are not allowed the conveniences, for instance, that are forthcoming in Hamilton. At the Woodbine there is confusion in the ring, and the wonder is that decent odds are offered. Another cause for complaint is the absence of refreshments in the public enclosure, while the members have every facility in this respect. A little less faint-heartedness on the part of the O. J. C. board should prove a relief, and an aggressive campaign against the body of meddlers is badly needed.—Toronto World.

Montreal people are asking how Tom Longboat gets his living. That sounds like a reflection on Mr. Flanagan's hotel.

If the Montreal Rugby team wins today, the Hamilton sports will take up wrestling, curling, or indoor baseball—or chess.

TEMPLAR RALLY.

Reunion, Rally and Presentation Last Evening.

Severign Council, No. 9, R. T. of T., held its annual rally last evening, the occasion being termed "Three in One," as it combined a reunion, a rally and a formal presentation to a retiring Select Councilor. A large proportion of the resident members were present, and there were many visitors. During the evening addresses were given by George H. Lees, Past Dominion Councilor; Dr. Emory, Dominion Secretary; J. W. Jones, District Councilor; T. J. Shanks, editor of the Templar, and the following representatives of other local councils: Dr. Crawford, Geo. T. Turner, John Carr and Geo. McConnell. Midway in the programme a handsome past councilor's badge and jewel were presented to Chas. H. Tallman, who has been a most faithful and active worker in the council, and was Select Councilor when obliged to remove to Toronto. Dr. Emory made the presentation address, and amid great applause the recipient made a fitting reply. Apart from the speaking, the programme was as follows: Song, Miss Tallman; duet, Messrs. Clark and W. H. Tallman; song, Rev. J. H. Collins, of Oakland; recitation, Miss Hattie Kelly; recitation, Rev. J. H. Collins; song, Miss Tallman; recitation, Miss Hattie Kelly. Refreshments were served at the close, and the gathering dispersed at a late hour, feeling pleased with the manner in which the event had passed off. This was the third Royal Templar rally held in this city this week. Crown and Sceptre Councils having held theirs, the first on Monday and the second on Thursday evening.

THE SHEEP INDUSTRY.

Important Bulletin Issued by the Department of Agriculture.

The Ontario Department of Agriculture has just issued a bulletin on the sheep industry of the Province, the first publication of its kind by the department. It contains the result of an exhaustive inquiry into the industry and the reasons for its decrease in Ontario. These are given as lack of profit owing to low prices for mutton and wool, losses from disease and at lambing time. It is pointed out in respect to the first that prices are now such as to make the sheep industry a profitable one, provided the other drawbacks can be offset. Suggestions are given as to how these are to be overcome, including proposed amendments to the sheep protection act. Among the tables in the bulletin is one showing that in the last year for which figures are obtainable, 1905, the aggregate of sheep in the Province was 1,224,453, and that since 1901 there had been a yearly average decrease of 109,411.

ROBBED CHARLES M. HAYES.

Thief Took Handbag of Grand Trunk's General Manager. Toronto, Nov. 9.—Mr. C. M. Hayes, Second Vice-President of the Grand Trunk, was a victim of sneak thieves who got away with his handbag during the afternoon, while it was being conveyed with a quantity of other baggage from the Union Station to the King Edward Hotel.

We would all be absent-minded if it would enable us to forget our troubles.

SHOT BY THIEF.

ROBERT WILLIAMS, A CARIBOU TRADER, MURDERED.

Victim Endeavored to Cut Off Escape of Water Stout With Two Stolen Horses at North River, B. C., Crossing—Stout Shoots and Escapes.

Vancouver, B. C., Nov. 8.—Robert Williams, owner of half a dozen trading posts in Cariboo, was murdered in cold blood on Tuesday afternoon at a crossing of the North River, 60 miles north of Kamloops, by Water Stout. Five Indians witnessed the tragedy and saw Stout escape. They jumped on their horses, and hardly without drawing rein they galloped to police headquarters at midnight last night. Chief Constable Fernie organized a posse and started north this morning to hunt for the desperado, who headed for Edmonton along the winter trail. Williams was the largest trader in the country. One hundred miles north Stout had stolen two horses, but word was sent by an Indian instructing Williams to prevent Stout crossing the river at his landing. Williams refused Stout permission to cross on the ferry, and Stout with a single shot from his revolver put a bullet through Williams' heart. Stout ferried himself across the river and escaped with three horses. Snow is falling and the chase will be a long one.

FOUND A DYING ITALIAN.

Railway Men at a Cobourg Switch Made Ghastly Discovery.

Cobourg, Nov. 8.—"I'm dying," were the words which greeted some of the employees at the G. T. R. station here as they were operating the switch between 7 and 8 o'clock last evening. Upon investigation they found an Italian lying beside the track in a terribly mangled condition. He was removed to the Emergency Hospital and three doctors were called in to attend him. It was found necessary to amputate the

right arm at the shoulder and the right leg above the knee, but the man died about 1 o'clock from loss of blood. When asked whether he had friends or not, he was understood to say they were in the United States. His name was Dominica Troisi.

WILL LET VETO STAND.

Mayor Ashdown's Opponents Will Not Act at Once.

Winnipeg, Nov. 8.—The Mayor's opponents in the City Council will probably not present their motion to upset his veto at the council meeting on Monday night. The latest information is to the effect that they have decided on a definite course of action, which includes withholding the veto motion until a later date. It is understood also that they are making every effort to secure a candidate to oppose the Mayor in the coming election. The Mayor's statement yesterday regarding Mr. Smith is causing much comment in civic circles. His Worship had nothing further to say today.

KAISER STARTS FOR ENGLAND.

Cheering Crowds at Station Bid His Majesty Goodspeed.

Berlin, Nov. 8.—Emperor William and the Empress departed shortly before midnight for Finsbury, where they will embark for England. The Emperor looked well and chatted cheerfully with Prince Von Buelow, the Imperial Chancellor, and Prince Oscar, his young son. The public is demonstrating enormous interest in this visit. The railroad station was thronged with cheering crowds, among the people being several members of the Cabinet, prominent military officers and other officials.

Got Two Years.

St. Catharines, Nov. 9.—Frank Davis, a Toronto youth, who stole a rifle from Beaumville, where he was arrested, was today sentenced to two years in the Victoria Industrial School, Mimico, with provision for an additional year if the

Style and Comfort

authorities at the school think it necessary. The Judge expressed the idea that as Toronto is the place of the boy's abode it should pay the costs at the school, and expressed willingness to sign an order to that effect.

HOME AGAIN.

Miss Maloney, the Wealthy Philadelphia Heiress Returns.

Philadelphia, Nov. 8.—Martin Maloney brought his daughter home to-night. After a chase lasting nearly a month, the Standard Oil millionaire arrived in Philadelphia to-night with Helena Maloney, whose sensational elopement, October 4, with Samuel Clarkson, created one of the furores of the year.

Earlier in the day came Mr. and Mrs. Carberry Ritchie, his other daughter and son-in-law; William J. Fanning, his attorney, and last Albert Herbert Osborne. They were joined by Mr. and Mrs. William Maloney, and Mr. and Mrs. Andrew Maloney. Mrs. Martin Maloney was already in the Logan square house, having come a day or two ago to have everything in readiness for the prodigal.

SPEEDY 34 KNOTS.

Successful Test of a New Automobile Vessel.

Paris, Nov. 8.—An automobile boat of the hydrogène type, owned by M. Lelas, made a trip on the Seine to-day, and was operated by the newly and American bridge at the rate of 32 kilometers (20 knots) an hour. An Antoinette motor was used, similar to that used by Henry Farman with his aeroplane. To-day he, for the first time, made a semi-circular flight of over 300 yards, keeping at a height of from two to three yards. His last Albert Herbert Osborne at the rate of 32 kilometers (20 knots) an hour. An Antoinette motor was used, similar to that used by Henry Farman with his aeroplane.

PILES

Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 50c. at all Dealers or KEMANOH, BATES & CO., Toronto. DR. CHASE'S OINTMENT.

# FIFTY YEARS OF PROGRESS

Described at Scientific Association's Semi-Centennial.

Reminiscent Addresses By Pioneers of the Organization.

Recalls Names of Many Eminent Men Formerly Connected With it.

The conversation given in the Conservatory of Music hall last evening to mark the Hamilton Scientific Association's semi-centennial, attracted a representative audience of members and of friends of the society. A thoroughly enjoyable and appropriate programme, in which reminiscent addresses, dealing with fifty years of valuable work and recalling the names of some of the pioneers who founded the association, held a prominent part, were heard.

President Hill after a reference to the fact that it was just fifty years ago on November 16, the society held its first meeting, extended a cordial welcome to the old and new members. In a brief sketch of the world's progress he entertainingly traced achievements such as the fast ocean liners, railways, the telegraph and telephone, which had revolutionized things in the last fifty years. What might not be expected in the next thirty years, he asked. Speaking of the advances in chemistry, physics and medicine Mr. Hill asked why it was that Hamilton had no college. "It is a strange thing," he said, "that Hamilton, one of the most important cities in the Dominion has no college when such places as London, Kingston and other places have their colleges. Why is it? Has Hamilton done its part or is there something in the atmosphere that shuts Hamilton out?"

In a reference to Canada's greatness, its vast resources and steady march of progress, Mr. Hill said he thought the people of the Dominion had much to which to be proud. Touching on the society's work, he said, he felt that if the general public were aware that more than half of the papers at the meeting were of a literary character the attendance would be larger.

Mr. Adam Brown, one of the pioneers of the organization, spoke reminiscently of those associated with the society in its early days. Many of these he said were eminent men, whose fame and name had exceeded Canada's bounds. Among those from whom letters of regret at being unable to attend and congratulations to the society on the celebration of its semi-centennial were received, were the following: Sir Sandford Fleming, the President of the Royal Astronomical Society, Toronto; Bard William Murray; Dr. Burgess, of Montreal; Professor McCoombe, C. T. Keefer, formerly engineer of the Hamilton waterworks, who was referred to by Mr. Brown as one of Canada's greatest men; Dr. Herriman, of Kingston, who was Vice-President of the society in 1900; Dr. Marsh, for years one of the society's most active officers, and Mr. Leggat, one of the original charter members.

Mr. Brown, in his address, said that the men connected with the society in its early days were men who had faith in Hamilton. The one thing required after the establishment of the waterworks to emphasize Hamilton's claims to greatness was supplied by the Cataract Power Company, which was making the city what it was today.

### After Fifty Years.

Mr. H. B. Witton, one of the fathers of the society, then read a well prepared and comprehensive sketch, under the above title, and which was as follows: In well chosen words, reference has been made to this as the jubilee year of the Hamilton Association; and our Secretary has favored us with a sketch of the society's history. Fifty years are indeed but an infinitesimal fraction of the past, the mere twinkling of an eye in contrast with those cycles of change which make up the history of the world. But modern events speed on at an accelerated pace. Fifty years bring in their train countless revolutions; and short as their span is, it nevertheless is longer than the average time allotted to individual man upon the earth.

Fifty years ago a dozen citizens deeming the time opportune for concerted action, met together and organized the Hamilton Association. The meetings of these foundation-men of our society were informal, and their doings were devoid of ostentation. But they were men who had high aims, and their plans were comprehensive. It was decided that in process of time the chief work of the newborn association should be to investigate the physical geography, geology, flora, fauna and antiquities of this district. Fairly optimistic, these men were confident that the trend of events favored human progress; and they had faith in the worth of intellectual culture. Like Matthew Arnold, they too were convinced that such culture depends on familiarity with the best that has been thought and done in the world; and in consonance with that conviction, they decided that from time to time each member should summarize for the association's choice selections from his studies and reading.

The founders of our society cared little for ceremony, but held to plainness of speech and simplicity of procedure. In this they followed, perhaps unwittingly the method of Sir William Jones, who counselled for such a society, that its object of inquiry should be: "Whatever is done by man or brought forth by nature; that for procedure but one rule is needed, namely: "to have no rules at all;" and that the sole requisite for membership should be: "love of knowledge and zeal for its promotion."

To-night this association closes the first half-century of its existence, and goes forward on another stage of the journey, toward what in human experience is designated the climacteric of life. At such a juncture it is seemly that our thoughts turn to the society's present status, to its record of work done, to remembrance of cherished names, filed on its head-roll, and to what are the auguries for its future usefulness.

From the first, work of the association has been directed by a President, Vice-President and Advisory Council; and for the tireless services of the gentlemen who have discharged the duties of these offices, unstinted thanks are due. Our William Maclure and Prof. Amos Eaton, Mr. Eaton made a geological survey of Albany county, in the State of New York, as early as 1820. With the report of his survey, was the best of the early American geological maps, for showing rock strata in situ. From that beginning, twenty States, in as many years, after, entrusted surveys to geologists, several of whom became famous. In

Canada, numerous amateurs made valuable collections of minerals and fossils; and Bayfield's maps of the St. Lawrence and Great Lakes also contained geological notes of great value. But these services, had a goodly number of plain and polished samples prepared to illustrate our extensive list. Complete sets, each specimen bearing its botanical, and when possible its popular name, were sent for exhibition to London, and to Paris; and some of them I think still find place in our museum.

Soon after completion of this piece of practical work concerning Canadian forest trees, a list was prepared of the flora of the Niagara peninsula. The chief contributors to that service were Dr. Craigie, Judge Logie, and Mr. William Craighie. The Association has been fortunate in always having expert botanists on its roll of membership, and that first consensus of opinion as to our local flora, several times since, has been revised and extended. Its second issue was under supervision of the late J. M. Buchanan, M. A., whose frequent contributions, on many subjects to our society, were widely read. Later revisions of this list have been the work of members happily still our associates; and a collection of pressed local floral specimens forming an herbarium or hortus siccus, has been mounted with a care that has received commendation from numerous botanists of taste and reputation. Many of these specimens were prepared by Dr. Burgess, now of Montreal, and formerly one of the most active of our Associates.

In botany as in other branches of natural history, the late Thomas MacLure rendered our society good service. Nearly thirty years ago he was President of the Association; and for several years served it as curator and librarian. Catholic in his love and study of nature in her many guises, his favorite life-long pursuit was the study of birds. At our earliest meetings he read ornithological papers, notable both at home and abroad. For many years his services were sought after by United States naturalists. He took part in forming the "American Ornithological Union"; and in revision of some branches of ornithological nomenclature. His book of more than three hundred pages entitled "The Birds of Ontario," an important contribution to the knowledge of Canadian bird-life, was first published by our Association.

No department of ornithology was foreign to Mr. MacLure. It was pleasant to hear him discourse on any branch of the avian subject. Even his exposition of the technical term used in describing birds lost its dryness; and to hear his papers explaining the structure of birds, and their homologies in form and function compared with those of other classes of animals, was a treat not to be forgotten. But it was as a field ornithologist that his equal was hard to find. Audubon and Wilson, in this regard, had no worthy disciple than Thomas MacLure, for nothing pertaining to the life history, song, habits, plumage and migration of birds was hidden from him. Blessed with a keen sense of humor himself, he delighted to trace all manifestation of humor in animals. Perhaps no man ever better enjoyed the refined satirical wit of the ancient playwright Aristophanes who, in Frere's version makes the birds in chorus cry in mock pity for mortals:

"Ye children of man! whose life is a torment,  
Protracted with sorrow from day to day,  
Naked and featherless, feeble and querulous,  
Sickly, calamitous creatures of clay."

In entomology, the branch of Natural History relating to insects, Mr. J. Alston Moffatt, for several years rendered the association much service. Rightly enough Pope calls these aerial horridities of living creatures: "The wandering nations of a summer's day." For they outnumber the rest of the animal kingdom, and by late authorities their species are estimated at a quarter of a million. Their influence, too, is almost as remarkable as is their number. For ages they have furnished the world with silk, honey and wax. They are food for countless other living things, are pollen-carriers that fertilize barren plants; and they are the common scavengers of the world. As malign agents they are but too well known; for to counteract their noxious attacks on cultivated plants, taxes the alertness of a trained army of specialists in various parts of the civilized world.

In all study of living things microscopic aid is helpful; and in its early days the association paid some attention to microscopy. It is pleasing to bear in mind the biological truths brought to light by men whose keen vision had but little adventitious aid; for the imperfect microscopes of other days were superseded by modern achromatic lenses till near the close of the first quarter of the nineteenth century. Ehrenberg's great work describing the Infusorial Animalcula dates only from the year 1838. In a second title that work was justly called: "A view of Nature's more profound organic life." To performance of original microscopic zoological work, this society makes little or no pretension. But in comparing with authoritative descriptive lists the diatoms, desmids and animalcula common to this district, and in helping to promote a right conception of the profuse life that surrounds us, life unseen by unaided vision, the society has striven to subserve the purpose for which it was established.

From the first geology received from our association a goodly share of the notice mother earth claims from her children. The realities to which she compels attention do not vary, though the fancies of their expounders sometimes require a large personal equation to be allowed for. When shells were found in the Alps, Sir Charles Lyell tells, the explanation of one authority was, they are fossils of nature; another said, they are a residuum of the deluge; and yet another, that they are Eastern shells dropped there by pilgrims returning from Syria. But William Smith, putting aside such fancies, about 1815 constructed the first geological map of England, and by his keen perception of truth, and by his industry, earned the name of Father of English geology. A canal surveyor, with no special advantages but his own force of character, from observation and reasoning he learned that the stratified rocks were in groups; that their order of succession was never inverted; and though their outcrop might be in places far apart, they could always be distinguished by their fossils. His map, the product of fifteen years' hard work, confirms these views; and able followers hastened to do him honor, and to adopt his methods.

Among the earliest on this side the Atlantic to work on similar lines were William Maclure and Prof. Amos Eaton. Mr. Eaton made a geological survey of Albany county, in the State of New York, as early as 1820. With the report of his survey, was the best of the early American geological maps, for showing rock strata in situ. From that beginning, twenty States, in as many years, after, entrusted surveys to geologists, several of whom became famous. In

Canada, numerous amateurs made valuable collections of minerals and fossils; and Bayfield's maps of the St. Lawrence and Great Lakes also contained geological notes of great value. But these services, had a goodly number of plain and polished samples prepared to illustrate our extensive list. Complete sets, each specimen bearing its botanical, and when possible its popular name, were sent for exhibition to London, and to Paris; and some of them I think still find place in our museum.

Soon after completion of this piece of practical work concerning Canadian forest trees, a list was prepared of the flora of the Niagara peninsula. The chief contributors to that service were Dr. Craigie, Judge Logie, and Mr. William Craighie. The Association has been fortunate in always having expert botanists on its roll of membership, and that first consensus of opinion as to our local flora, several times since, has been revised and extended. Its second issue was under supervision of the late J. M. Buchanan, M. A., whose frequent contributions, on many subjects to our society, were widely read. Later revisions of this list have been the work of members happily still our associates; and a collection of pressed local floral specimens forming an herbarium or hortus siccus, has been mounted with a care that has received commendation from numerous botanists of taste and reputation. Many of these specimens were prepared by Dr. Burgess, now of Montreal, and formerly one of the most active of our Associates.

Many of these specimens were prepared by Dr. Burgess, now of Montreal, and formerly one of the most active of our Associates.

In botany as in other branches of natural history, the late Thomas MacLure rendered our society good service. Nearly thirty years ago he was President of the Association; and for several years served it as curator and librarian. Catholic in his love and study of nature in her many guises, his favorite life-long pursuit was the study of birds. At our earliest meetings he read ornithological papers, notable both at home and abroad. For many years his services were sought after by United States naturalists. He took part in forming the "American Ornithological Union"; and in revision of some branches of ornithological nomenclature. His book of more than three hundred pages entitled "The Birds of Ontario," an important contribution to the knowledge of Canadian bird-life, was first published by our Association.

No department of ornithology was foreign to Mr. MacLure. It was pleasant to hear him discourse on any branch of the avian subject. Even his exposition of the technical term used in describing birds lost its dryness; and to hear his papers explaining the structure of birds, and their homologies in form and function compared with those of other classes of animals, was a treat not to be forgotten. But it was as a field ornithologist that his equal was hard to find. Audubon and Wilson, in this regard, had no worthy disciple than Thomas MacLure, for nothing pertaining to the life history, song, habits, plumage and migration of birds was hidden from him. Blessed with a keen sense of humor himself, he delighted to trace all manifestation of humor in animals. Perhaps no man ever better enjoyed the refined satirical wit of the ancient playwright Aristophanes who, in Frere's version makes the birds in chorus cry in mock pity for mortals:

"Ye children of man! whose life is a torment,  
Protracted with sorrow from day to day,  
Naked and featherless, feeble and querulous,  
Sickly, calamitous creatures of clay."

In entomology, the branch of Natural History relating to insects, Mr. J. Alston Moffatt, for several years rendered the association much service. Rightly enough Pope calls these aerial horridities of living creatures: "The wandering nations of a summer's day." For they outnumber the rest of the animal kingdom, and by late authorities their species are estimated at a quarter of a million. Their influence, too, is almost as remarkable as is their number. For ages they have furnished the world with silk, honey and wax. They are food for countless other living things, are pollen-carriers that fertilize barren plants; and they are the common scavengers of the world. As malign agents they are but too well known; for to counteract their noxious attacks on cultivated plants, taxes the alertness of a trained army of specialists in various parts of the civilized world.

Perhaps no man ever better enjoyed the refined satirical wit of the ancient playwright Aristophanes who, in Frere's version makes the birds in chorus cry in mock pity for mortals:

# When Buying a Piano

The most important thing to consider when buying a piano, is who made it? Is the maker an experienced piano maker?

You can't tell much about a piano by just looking at it. You can't tell about its lasting qualities by playing on it a few times. BUT YOU CAN tell everything about a piano if you know the record of the maker.

Birdseye view, showing the enormous plant of Gerhard Heintzman, Limited, grown to these proportions through the merits of their pianos. The small building shows where the first eight Gerhard Heintzman pianos were made, entirely by Mr. Gerhard Heintzman himself.

For nearly half a century the "GERHARD HEINTZMAN" pianos have held the place of honor as "Canada's best piano," a record gained entirely through merit; the makers, whose lives have been spent in manufacturing pianos; the "best possible" has been and is their motto, so that the wonderful growth of the "GERHARD HEINTZMAN" factory, as evidenced by the above picture, is only a fitting tribute of Canadians to their favorite high grade piano.

## AMERICA'S GREAT PIANIST

W.H. SHERWOOD'S Opinion of GERHARD HEINTZMAN Pianos

His letter to Mr. Gerhard Heintzman reads as follows: "It gives me much pleasure to be able to speak very highly of your pianos. The Concert Grand Pianos used by me for several years of concert playing in the United States are now supplanted by a Canadian make, in your piano, of high grade excellence throughout. In action, strength, sonority and sweetness of tone you have achieved success. The reliability of your piano under very hard usage, en tour, is also a cause for congratulation. With best wishes."

Mr. Sherwood played at the Hamilton Conservatory of Music last Thursday evening.

BUILDING WORK OF YEAR WELL IN HAND.

All the Large Undertakings of the Year are Rapidly Nearing Completion.

Manufacturing Concerns That Have Extended Their Premises During the Year.

November finds the contractors with all work well in hand at this, the close of the greatest year for building in Hamilton's history.

The magnificent new Terminal Station is practically completed. Perhaps the next largest job in the centre of the city, and which has attracted the most interest during the year, is the new Drill Hall, the masonry work of which is practically completed.

Other Big Contracts. Central Presbyterian Church, at the corner of Presbytery street and Charlton avenue, a building that is costing about \$150,000, is another magnificent structure, which, when completed, will be one of the finest pieces of architecture in Hamilton.

Many permits have been granted during the year for good store buildings, including two on Main street, near the Vineyard Hotel, costing \$10,000, and which have made a big improvement in that locality, and the five \$10,000 store buildings on the north side of King William street, east of James street.

WANT A TRIAL WITHOUT JURY.

ALLEGED ELECTION CONSPIRATORS BEFORE COUNTY JUDGE.

Question as to Jurisdiction of Session to Try London Election Case to be Argued on Monday—Four of Accused Ready.

Toronto, Nov. 9.—Four of the men committed for trial nearly a year ago by Magistrate Denison on charges of conspiracy in the London election, Messrs. John O'Gorman, William J. Mulloy, Daniel Wylie and George M. Reid, went before Judge Winchester yesterday for the purpose of electing to be tried by his Honor without a jury.

Mr. Stanton, who referred to the fact that indictments had been found at two Assizes, said he had witnesses for the Crown subpoenaed for the trial at the coming Assizes, and he was desirous of saving the Crown unnecessary expense.

The Judge suggested that the trial tape place on Nov. 18, the date on which the witnesses in the case were to appear if the trial had gone on to the High Court, and this seemed satisfactory to the counsel.

of the Bank of British North America is completed. It cost about \$20,000, and is one of the most imposing structures in that section of the city, being of pressed brick with high free stone trimmings.

Manufacturing Buildings. Hamilton's industrial development, as emphasized in building extensions and new buildings during the year, is also significant.

Among the new structures is that of the Zimmerman Manufacturing Company, in the southwest end, a building that cost \$20,000. The company is manufacturing goods in it now.

Satisfactory progress is also being made with the buildings of the Berlin Machine Company in East Hamilton, which are costing \$150,000. A number of these are under roof and when finished will be one of the most up-to-date and completely equipped buildings of the kind on the continent.

Other Big Contracts. Many permits have been granted during the year for good store buildings, including two on Main street, near the Vineyard Hotel, costing \$10,000, and which have made a big improvement in that locality.

GREY PAUPERS.

HOUSE OF REFUGE INMATES WILL GET SUGAR IN TEA.

Censure of Management of Grey County Institution Was Undeserved—Dr. Bruce Smith Makes Report.

Toronto, Nov. 9.—No fault is found with the management of Grey County House of Refuge, an investigation of whose affairs was held by the inspector of prisons and charities on the 1st inst.

Dr. Bruce Smith states that every facility had been afforded for the enquiry, all the officials and inmates having been interviewed. Only one member of the Grand Jury attended, though all who were at the recent assizes were notified.

The report concludes with a complimentary reference to the management and discipline of the house, and the kind and thoughtful care of the officials for the comfort and welfare of the inmates.

tered to remedy a deficiency in this respect. Other complaints were found to be baseless. Generally speaking, severe censure was undeserved, and while the superintendent in his zeal for economy was inclined to be parsimonious the inmates had not suffered on account of too rigid economy.

SHOOT AWAY FOGS.

SCHEME TO GIVE LONDON A CLEAR ATMOSPHERE.

Italian Inventor Says He Can Clear Away the Densest Mist That Hangs Over the City With His Air Cannon—Creates Air Currents, That's All.

London, Nov. 8.—A scheme to disperse fogs by currents of air, shot over London from "projectors" six miles away, has been laid before the Public Control Committee of the London County Council, and M. Demetrio Moggiora, the inventor, is ready to start experiments.

M. Moggiora says his apparatus has already been subjected to severe tests at Milan, Italy, where fogs, clouds and hail storms were quickly dissipated. With his projectors, or "air cannon," placed within a radius of six miles from the Houses of Parliament, he says, he will clear away the worst fog in London within twenty minutes.

Each projector is about 60 feet long, and the explosion has an effect for six miles. Thus, if ten or more of these were ranged over London from different directions, the fog would be lifted immediately to an altitude where the wind would blow it away.

HAVE STRUCK OFF \$158,000.

This is Amount Court of Revision Allowed on Appeals.

Will Figure Out About the Same as Last Year.

Appeal Against Martin Estate Laid Over Until Monday.

Lawyers' day at the Court of Revision yesterday afternoon did not furnish anything out of the ordinary. The case in which most interest is centered, the appeal of Martin Malone to have the assessment of his estate increased, was laid over because the assessor did not have all the papers in connection with the matter on hand.

FOR PEOPLE OF COUNTRY.

Sewers Committee Frames Up a New Agreement.

Department Hopes to Finish Year Without Overdraft.

Aldermen Will Visit Disposal Works This Afternoon.

DEACONESS' AID.

At-Home at the Residence on Vine Street Yesterday.

The annual thanksgiving and at-home of the Deaconess' Aid Society was held in the parlors of their home, 54 Vine street, last night and yesterday afternoon. The meeting was well attended, and most of the local Methodist ministers gave short and complimentary addresses.

A silver collection was asked, and a good sum was netted. Engineers and firemen on the Temiskaming Railway have asked for increased wages.

TERMINAL STATION BUILDING IS READY FOR OCCUPATION.

Thirteen Companies Will Open Their Offices In It One Week From Monday Next, November 18th.

Said to be the Finest Station Building of Its Kind on the Continent ---Description of Exterior and Interior.

HAMILTON TERMINAL STATION, WITH BENNETT'S THEATRE IN REAR. The arched portion has yet to be built.

The Hamilton Electric Light & Power Company, the Dundas Electric Company, the Lincoln Electric Light & Power Company, the Western Counties Electric Company, the Welland Electric Company, the Hamilton Street Railway Company, the Hamilton & Dundas Street Railway Company, the Hamilton Radial Company, the Hamilton, Grimsby & Beamsville Railway Company, the Brantford & Hamilton Electric Railway Company, and the Hamilton Terminal Company.

for any amount paid by him towards the construction of any common sewer or sewer connection. That he will not at any time petition against or oppose the construction of a sewer on the street in front of or alongside said lands as a local improvement, the expense of which is to be specially assessed upon the real property to be benefited thereby.

The imposing structure stands out in bold relief to its surroundings. It is thoroughly fire proof, being constructed of solid masonry and terra cotta on a steel frame. The outside of the building is of Indiana blue limestone for the first storey and above of pressed brick, made by the New York Pressed Brick Company, with trimmings of Perth Amboy terra cotta.

Regarding the request of the Canadian Westinghouse Company that it be advised as to the frequency and characteristics of the circuit which motors for the new disposal works will be operated, the committee decided to go to the disposal works this afternoon to get information. It is not yet known whether Hydro-Electric or Cataract power will be used, and until this is decided it will be difficult to give the information asked for.

The station floor is one large room, 68x108, the floor of which is laid in ceramic tile with hardies. The ceiling is 20 feet high, and the walls and vains scotting to a height of ten feet high with English veined Italian marble.

MAROOINED IN FAR NORTH. CREW OF FISHING SCHOONER RESCUED JUST IN TIME. Over Two Hundred and Fifty Men Shipwrecked Near Aleutian Islands—With Them Were Captain Murchison, of Prince Edward Island, His Wife and Five Children.

one enters the building is located the electric passenger elevator leading to the upper storeys. On the upper floors are located the general offices of the company, with its subsidiary companies. These offices are large and airy, and finished in quarter cut oak. The board room on the corner is finished in mahogany, and commands a fine view up King street.

A Soft, Velvety Skin. Produced by using Jersey Balm. Thousands of bottles have been sold in Hamilton, and no toilet preparation has given such universal satisfaction. It softens and whitens the skin, prevents tan, freckles and pimples, and is a perfect cure for chapped hands, roughness of the skin, etc. Sold only at Gerrie's drug store, 32 James street north. Price, 25 cents.

# THE LABOR WORLD

Hoisting engineers at San Francisco, Cal., get \$5 a day.

Canadian foundry and machine industries employ 17,928 people.

Adelaide, South Australia, soap and candle factory employees have formed a union.

With almost 1,500 members, Boston, Mass., Bakers' Union is the largest in the States.

One of the latest facts in labor circles is the formation of a Fallbearers' Union in Alexandria, Va.

A proposition is being considered to amalgamate the several unions of electricians in San Francisco, Cal.

The Union Pacific at Omaha, Neb., boasts of employing 18,000 men with a payroll of \$3,000,000 a year.

At Lynn, Mass., there was recently held a convention to organize a national K. of L. Shoe Cutters' Assemblies.

More than 40 unions of retail clerks are under course of organization in as many cities and towns in New England.

Chicago, Ill., Federation of Labor has gone on record as favoring the government ownership of telegraph lines.

New South Wales employers are penalizing some of their employees who gave evidence before the arbitration court.

Shoe stitchers used to work for 30 cents a day. This year, 1907, many shoe stitchers are able to earn 30 cents an hour.

Boxmakers and Sawyers' Union at Boston, Mass., has secured a two-year agreement with a wage increase of 10 per cent.

Printers in Russia have the greatest number of union members to the total employed, nearly 43 per cent, belonging to unions.

There are now more than 1,600,000 persons employed by the railroads of this country—twice as many as were thus employed ten years ago.

Two thousand men in Ontario and the Canadian Maritime Provinces received increases in wages during the second quarter of the current year.

The weekly rest day bill, which provides that all employees shall have one day of rest in the seven, was approved by the Italian Chamber of Deputies.

A dispute has arisen on the question of apprentices between the power-loom tenders and the Employers' Association in the Glasgow, Scotland, weaving trade.

San Francisco, Cal., retail grocery clerks are making arrangements to secure the application of every such clerk in the city to become a member of the new union.

It is claimed that but 1,500 members of the International Bookbinders' Union were compiled to strike on Oct. 1 to enforce the general demand for the eight-hour day.

Toronto, Ont., has been chosen as the next meeting place for the biennial convention of the Amalgamated Associations of Street and Electric Railway Employees of America.

During September there were received at the free labor bureau of Sacramento, Cal., 1,030 applications for employment, 1,200 applications for help and 937 for persons were placed.

From the last reports the proportion of unemployed union members in the iron and steel trades in the Salford, Manchester and Liverpool, England, districts was 27 per cent.—a year ago 22 per cent.

A gain of 60 per cent. in the membership since its meeting in Buffalo, N. Y., was reported by the International Association of Car Workers of America at its recent biennial convention held at Rochester, N. Y.

Amalgamated Society of British Engineers have been identified with every movement of the times looking to the betterment of its members, and in England the main body has been especially active in the political field.

The year 1906 was for the German Trade Unions a period of extremely successful work. The aggregate membership of all existing unions increased about 25 per cent., and the financial progress was no less satisfactory.

Cleveland, Eng., Ironstone Miners' Association has decided to withdraw its support, financial and otherwise, from the Labor party. It is possible that it will transfer its support to the miners' group, with which it is more in sympathy.

At the seventh annual session of the New York State Federation of Workmen, held recently in Syracuse, the Federation pledged its support to the Women's Trade Union League in its efforts to organize the women workers of the State.

The Union Pacific and the Northern Pacific are planning to establish magazines for their employees some time this winter. These are to be modeled much after the plan of those now issued by the Erie, the Santa Fe and the Rock Island.

Labor is largely represented in the nominations for the Boards of Aldermen and Councilmen at Louisville, Ky. Of the 38 members of the General Council eight will be prominent labor unionists, if the Democratic party is successful.

Filipino girls employed as telephone operators are very apt and intelligent and are rapidly developing a most satisfactory service. They receive, as beginners, a salary of \$10 a month, which is increased to twice that amount on their becoming proficient.

reasonable advance in the compensation of its 2,000 members employed in the Washington, D. C., Gun Factory. No decision has been reached as to just what the advance to be asked for will be.

Demands for more pay, double pay for Sundays and pay and a half for overtime have been drawn up by the Switchmen's Union of North America and presented to the railroad managers.

An increase of six cents an hour has been asked by all switchmen from New York to the coast.

Minneapolis and St. Paul, Minn., Carpenters' Unions have succeeded in reaching a satisfactory adjustment of matters concerning both unions in the Midway district. Minneapolis carpenters will receive the St. Paul scale when working in that territory, and no further trouble is looked for.

The New York Fur Manufacturers' Association and a number of independent manufacturers recently gained their fight against the closed shop. It is claimed by the strike committee that 1,000 furrers working for independent concerns had gained recognition of the union before the strike was called off.

The Telegraphers' Committee of the Erie Railroad has filed with the Public Service Commission of the second district a complaint, charging that the Erie is violating the Northrup eight-hour law which became effective October 1. This law limits the hours of telegraphers, towermen and other railroad employees.

The law of New York State forbidding newsboys under 14 years of age from selling papers between 10 p. m. and 6 a. m. has been put into effect. In any event, to sell newspapers at any time, the boys must have permits from the Board of Education. Children under 10 years of age are prohibited from selling newspapers at all.

The aim of the New York Child Labor Commission recently incorporated is to promote the welfare of society with respect to the employment of children in gainful occupations, to assist in protecting children by suitable legislation against premature or otherwise injurious employment, and to aid in promoting the enforcement of laws relating to child labor.

Paris, France, is on the brink of an important labor struggle, in which the principle of recognizing a trade union is involved. The manufacturing jewelers of the city held a meeting recently, and unanimously resolved not only to refuse to recognize the union, but to withdraw a previous concession of 9 1/2 hours as the working day, and to enforce 10 hours. A lock-out will take effect.

Hoopers Protective Union at Boston, Mass., which secured a wage increase of 25 cents a day on Jan. 1 last, the first in 18 years, has appointed committees to at once ascertain the bosses' intentions regarding giving another 25-cent raise next January.

The union last year asked for 50 cents a day increase, but accepted 25 cents under the promise that the other 25 cents would be granted next January.

The joint convention of the United Mine Workers of America and the operators representing every mine in Wyoming has reached an agreement regarding Wyoming coal fields. The terms of the settlement include an eight-hour day, a wage increase approximately 20 per cent. more for eight hours than formerly was paid for 10 hours, and an improvement in the working conditions all along the line.

An all-around increase of 14 per cent. in wages, to date from Oct. 1 last, overtime for all work on Sundays, and the granting of two weeks' holidays annually with full pay are the features of the award handed out at Toronto recently in connection with the dispute between the Canadian Pacific Railway and its operators, which has been before the Government board of conciliation for some weeks. The increase in wages amounts to about \$200,000 to the C. P. R.

The wage committee of the Amalgamated Window Glass Workers and a committee representing the manufacturers in the window glass industry throughout Cleveland, O., over a new wage scale. The conference resulted in a deadlock, and final adjournment was taken without it being broken. The President of the Manufacturers' Association sent out a notice calling for a 12 1/2 per cent. cut in the prevailing wage scale.

Massachusetts has been a leader in legislation designed to improve the conditions of the workman. Her first great contribution to the cause of labor was the incorporation, Dec. 5, 1816, of the Provident Institution for Saving in the Town of Boston, the first chartered American savings bank. To-day, with a population of little more than 3,000,000, her savings banks hold 1,908,378 separate deposits, aggregating \$694,081,141, the average account being \$303.70, a tribute to the thrift of her wage-earners.

The trade argument between the United Brotherhood of Carpenters and Joiners of America and the Amalgamated Society of Carpenters is still unsettled. This question has been before the members of both organizations for the past two or three years, and a year or so ago it was thought terms of amalgamation had been agreed upon. One hitch in the amalgamation proposition has been which name the consolidated organization should bear, each union contending for its own title.

The labor situation is causing the Western railroad managers a great deal of uneasiness. In various parts of the west, different labor organizations are making demands for increased wages, and on the road at least there is imminent danger of a switchmen's strike. It seems certain, from the present attitude of the general managers, that no labor organization need expect an increase in wages until the cost of advances and railway operations ceases to advance, and that the roads have practically decided to stand a strike or strikes rather than to grant any demand for further increases in wages.

Of the total number of strikes in the United States in twenty-five years to 1905, practically 60 per cent. were ordered by labor organizations. Employees who strike succeeded oftener than they failed, and employees were similarly successful in lock-outs.

Employees succeeded in winning all the demands for which the strikes were undertaken in 48 per cent. of the establishments, succeeded partly in more than 15 per cent., and in only 36 per cent. of the establishments did they fail entirely to win any of their demands. Lock-outs resulted wholly in favor of employers in more than 57 per cent. of the establishments

involved, succeeded partly in 11 per cent. and failed entirely in 32 per cent.

It has always been difficult to estimate the organized industrial forces in Russia and to discriminate between the purely labor unions and revolutionary bodies. It is fortunate, therefore, that the Central Committee of the Russian Trades Union Congress instituted an inquiry so as to ascertain as far as possible the number of workpeople in Russia who belong to trade unions. The results in the figures given may be only approximate, by reason of the difficulties in obtaining the required information, but the estimate is useful in all respects as being the first official record of the strength of trade unionism in that country. It appears that in the spring of 1906, when the inquiry was instituted, there were 633 unions known to be in existence, having a total of 246,272 members.

It was stated that the daughter posed as a wealthy Italian prince living in retirement. In communications to 'tradesmen, ordering goods or postponing pay, she was signed 'the prince'. She had immensely valuable properties in all parts of the world, that he paid a million sterling per annum to the Vatican, and that he kept fifteen hooches. The mother acted as valet and housekeeper to the 'prince'.

It was supposed that the younger prisoner had her hair cut short, and had a suit of man's clothing.

One tradesman, indeed, was shown a document purporting to be signed by four barristers of the Inner Temple, certifying the Prince's honor and assets, and giving the proceeds of payment to tradesmen. By that letter they got some jam and pickles.

In obtaining vegetables and mineral waters to the value of 13s. from a shopkeeper named Bubbs they missed the family accounts of pounds. There was £9,000 for the head of the family, £5,000 each for their two eldest sons, and £4,000 each for their daughters, with the chateaux at Lucerne.

The jury recommended the old man to mercy and he was given the nominal sentence of one day's imprisonment. The two women were sentenced to three months' hard labor.

The chairman of the court said that he could not have believed there were such credulous people in the world.

LADY WARWICK SUBMITS. The Countess of Warwick brought her Aunt, Sir, to the attention of the court when she left for home on the Kronprinzessin Cecilie. Our correspondent found the countess, dressed in a dark blue costume and large hat with white plumes, surrounded by a ring of photographers.

Holdings up her hands in mock despair she protested, 'Ah! now, really you must not. No woman should pose for a photo in travelling dress, you know.' 'But, madam,' said one bold photographer with a sweep of his hat and a low bow, 'you could not look more charming if you were in a dinner gown.' The countess laughed and said, 'I cannot resist that. I must submit.' The ordeal over, she brightly answered questions.

'Business? No, indeed, I merely came to see you for pleasure, and to see what you all looked like in dinner, which are ugly and dangerous, and your schools, which are the grandest in the world. I hope you appreciate your school system.' 'My! but she's a sporter!' remarked one susceptible reporter as the countess swept away to her cabin.

MILES OF COUNTRY UNDER WATER. A deluge of rain has caused serious floods in the south of Scotland and throughout the north of England and the Midlands. Rivers everywhere are in flood, thousands of acres are under water, many villages in Derbyshire are isolated, and communication by road is impossible.

Miles of country composed of fields of cut corn and unfitted potatoes are under water, in some places to a depth of nearly three feet, and roads are converted into channels deep enough for rowing boats.

A bridge at the Halls, East Lothian, was carried away on Thursday by the force of the water.

In England the most serious consequences were felt in South Yorkshire, North Derbyshire and Nottinghamshire. Many hotels and shops in close proximity to the Dewsbury market place are flooded, and some large mills alongside the River Calder had to suspend operations.

The rainfall in Sheffield was the heaviest for fifty years. The Derwent rose to an alarming rate, and low-lying parts about Darley were quickly submerged. Hotels and houses near the river were flooded, and in the afternoon the flood had reached the chief thoroughfares at Matlock.

Much low-lying land near Carlisle is submerged, and farmers have sustained serious losses of sheep, carried away by the swollen rivers. The Grampians and the mountains in Argyllshire and Dumfriesshire are under snow.

Potato and turnip crops in the Denny district of Stirlingshire have been washed out. At St. Leonard's Shipbuilding Works, Dunfermline, the water put out one of the furnaces. Work was stopped in the factory. A horse and pig plunged into a deep pool on the main road. The horse was drowned, but after some effort the driver and his fare, a commercial traveller, were rescued.

Owing to the overflow of the River Don sixty feet of rails on the Carrick Light Railway subsided, and several trains had to be diverted. Hamilton race course is submerged. A number of sheep have been washed out to sea by the flooding of the Spey. All public golf courses in the vicinity of Edinburgh have been closed.

So bad was the flooding in the Musselburgh district that railway traffic had to be suspended. This was brought about through a break out of water from Newburne Burn, near Newburne Station. The railway line to Musselburgh was converted into the bed of a rushing torrent, east coast traffic being seriously affected.

A NEW BISHOP. The bishopric of Mashonaland, which recently was declined by the Bishop of Glasgow and Galloway, has been offered to and accepted by the Rev. Edmund National Powell.

Mr. Powell was educated at Winchester and Trinity College, Oxford. He was ordained deacon in 1883 and priest in 1884. In the former year he became curate of Chelmsford, leaving there in 1887 to take charge of the Beekton Mission in the east end. After serving four years in this capacity he was appointed vicar of St. Stephen's, Upton Park, E., where he has remained ever since. Mr. Powell has thus worked for over twenty years in East London. In 1904 and 1905 he acted as commissary to the Bishop of St. John's, Kafiraria.

His new diocese comprises the Province of Southern Rhodesia and the Bechuanaland Protectorate, and possesses a population of just over 600,000, of whom less than 13,000 are English-speaking.

A new college at Lyons, Kan., says the Kansas City Star, already has a 'vell,' and all it needs is buildings, faculty, students and an endowment.

# THE OLD LAND.

## Many Interesting Happenings That Were Not Cabled.

### LYTHICAL 'PRINCE.'

An extraordinary story of a naval pensioner's daughter who masqueraded as an Italian prince, with a pedigree dating from B. C. 500, was told at the Worcestersters Quarter Sessions recently.

James Douglas, aged eighty-four, a naval pensioner, and his wife and daughter were brought before the court on a charge of obtaining goods from a number of tradesmen at Malvern by false pretences.

It was stated that the daughter posed as a wealthy Italian prince living in retirement. In communications to 'tradesmen, ordering goods or postponing pay, she was signed 'the prince'.

She had immensely valuable properties in all parts of the world, that he paid a million sterling per annum to the Vatican, and that he kept fifteen hooches. The mother acted as valet and housekeeper to the 'prince'.

It was supposed that the younger prisoner had her hair cut short, and had a suit of man's clothing.

One tradesman, indeed, was shown a document purporting to be signed by four barristers of the Inner Temple, certifying the Prince's honor and assets, and giving the proceeds of payment to tradesmen. By that letter they got some jam and pickles.

In obtaining vegetables and mineral waters to the value of 13s. from a shopkeeper named Bubbs they missed the family accounts of pounds. There was £9,000 for the head of the family, £5,000 each for their two eldest sons, and £4,000 each for their daughters, with the chateaux at Lucerne.

The jury recommended the old man to mercy and he was given the nominal sentence of one day's imprisonment. The two women were sentenced to three months' hard labor.

The chairman of the court said that he could not have believed there were such credulous people in the world.

### IRELAND'S SCOURGE.

In opening the tuberculosis exhibition at the Home Industries section of the Irish International Exhibition at Dublin last Saturday, the Lord Lieutenant announced a stimulating message from the King.

His Majesty's message was as follows: 'I am commanded by the King to express his good wishes for the success of the tuberculosis exhibition, the first of the kind ever held in Great Britain and Ireland. His Majesty is greatly interested in the progress of the disease, and he trusts the exhibition may be the means of directing the attention of the public to the terrible ravages caused by the scourge and to the efforts that are now being made to avert its progress.'

Mr. Birrell, Chief Secretary, explained that the exhibition was purely explanatory. It aimed at bringing home to Irish farmers and mothers the facts connected with this terrible plague.

Those who were not doctors were only too disposed to believe that diseases were divine ordinances, to which it was necessary to submit. He remembered that half a century ago in Liverpool typhoid fever was considered as much a divine institution as the prison, or the workhouse, or the gallows, or His Majesty's judges of assize. Now the disease has practically disappeared. It had been cured by scientific zeal and by public attention to the laws regulating health and hygiene. Consumption could be treated in the same way.

One section of the tuberculosis exhibition consists of statistics prepared by the Registrar of Ireland, including the returns for 1906, showing that 11,750 of 74,000 deaths in Ireland were caused by tuberculosis.

BRIDE'S TRAGIC REMORSE. A tragic story of a bride's unfounded self-accusations was told at the inquest at Myhill Florence Collingridge, aged twenty-nine, wife of Dr. W. Rex Collingridge, son of the medical officer of health for London. Mrs. Collingridge was found dead from the effects of prussic acid poisoning, and the jury returned a verdict of suicide while insane.

Dr. W. R. Collingridge said he was married on July 24. Five weeks ago he was attacked by scarlet fever, and was removed to Ormside Fever Hospital. When he was taken to the hospital his wife went to stay with her father, Professor Klein, at Twickenham, and his mother went to Morland, where she died very suddenly from an apoplectic seizure.

His wife returned to London on Saturday, Oct. 5. Though she appeared in better spirits than usual, she blamed herself both for having given him scarlet fever and being the cause of his mother's death, both of which were without foundation.

FRINGE AND BOY DIABOLIST. Marcel Meunier, 'arch-diabolist,' is the happy-go-lucky in England. On Saturday he was honored with a royal command to appear before the Prince and Princess of Wales at Marlborough House to give an exhibition of diabolism.

'We went to Marlborough House in a cab,' said Marcel, in an interview subsequently. 'My mother, Mr. Ben Nathan, my agent, and I. The Prince was very kind. He said I was but a small boy to be doing great things, but let us see what you can do. We then passed into the garden, the Prince, the Princess, with their children, and about thirty ladies and gentlemen. Nervous. No I never played so well, nor threw the diabolos so high.'

'The Prince said I was quite clever and asked me if I would like a little present.'

Marcel dived down into his trouser pocket and searched anxiously for a moment. The terms of a scarlet leather case with the royal arms engraved with the royal crest and monogram.

Before leaving Marcel presented each of the young Princes with a set of diabolos sticks and spoons.

LAST OF THE WAR OFFICE. Since the departure of its official occupants the old War Office in Pall Mall has fallen upon evil days.

For months it has stood a pathetic picture of deserted dignity, and the trophies have at last taken pity on its gloom and grime. It is to be demolished.

Tenders are being invited for a building lease of the site, which has an area of about 32,625 square feet, and is in an extremely valuable position.

Under the terms of an Agreement the contractor will be required to erect buildings to the value of £100,000 on the site, and it is stipulated that they shall consist of private houses, clubs, institutions of approved character, hotels, flats, or other buildings of a semi-private character.

MOP FAIR FEASTS. Stratford-on-Avon 'Mop' or statue fair, which dates back to medieval times, was held on Saturday. There was a record attendance, excursions bringing many thousands of visitors from all parts of Great Britain.

A feature of the fair is the ox-roasting. This year six oxen and twelve porkers were roasted whole at fireplace constructed in the streets.

The method of cooking looks simple. Through the carcass lengthwise is placed a spit, the two ends of which rest upon tripods. To the end of the spit is fixed a wheel. The height from the ground is just enough to enable the huge delicacy to revolve upon the spit above the fire. The meat is sold at 6d. or 1s. a plate, and the profits are given to charity.

STILL HALE AND HEARTY. One of the King's oldest subjects lives in the village of Great Rollright, near Chipping Norton, Oxfordshire. His name is Richard Withers, and he recently celebrated the 102nd anniversary of his birthday. On this occasion the villagers presented him with a oak and the church bell-ringers rang out a merry peal in his honor. Withers formerly followed the occupation of shepherd. He boasts that until recently when he had a billion attack, he was never in a doctor's hands. A moderate drinker, the old fellow regularly smokes his pipe. He shaves himself twice a week, and is seldom absent from Sunday morning church service.

Recently a local farmer wrote to the King, giving particulars of Withers' history. He has received the following reply: 'Balmoral Castle, Oct. 12, 1907. Sir,—I am commanded by the King to acknowledge the receipt of your letter, and to request you to convey my Majesty's congratulations to Richard

# SENTENCE SERMONS.

Truth makes a better cement than taffy.

Most of our difficulties are neglected duties.

When ambition weds avarice aspiration dies.

The evil we remember is surprised by the good we forget.

Inclination always furnishes the most convincing argument.

Watch your words, and your wings will take care of themselves.

The church with a head for gold usually has a heart of wood.

The world will never be driven to God by advertising the devil.

Some men hope that a golden crown will give them a silver mind.

Fashion leads many to carve the inmates in order to paint the house.

No man ever succeeded in walking one way when he was looking another.

If you will sell your soul you will never be able to make enough to buy it back.

Where the sermon is only a work of art the saints are usually artificial.

The preacher who trembles before the great has cause to tremble for himself.

You can always get fine feathers with money, but a fine face you cannot buy.

Many a man mistakes a stock of pious quotations for riches of religious character.

Men of business will be in the church when the church gives them some business there.

The ideal that is only a dream and never a deed is always a detriment to character.

Many who think they are defending the faith are only barricading truth out of their lives.

The power of a truth depends less on the brilliancy of the setting than on the character of the source.

—Henry F. Cope.

Our Clock. When our clock strikes I always dread to look, for fear it's time for bed.

And when we leave our play to see it seems to smile and wink at me.

My mother says, and she knows best, That children must lie down to rest.

Yet our old clock stands in the hall And never goes to sleep at all.

Oh! Wouldn't it be lots of fun If we could be wound up to run.

And never had to stop our play Nor lose a minute all the day?

I love our old clock when I'm sick, I listen to its tick-tack-tick.

And in the dark it says to me, 'I go to keep you company.'

—Youth's Companion.

WITHERS ON THE ATTAINMENT OF HIS HUNDRED AND SECOND BIRTHDAY. The King is glad to hear that he still enjoys good health in spite of his great age.—Yours faithfully, F. G. Ponsonby.

# IN THE WORLD OF AMUSEMENT

## General Gossip

The management of the Theatre an der Spree, Berlin, has offered a prize of 3,000 marks "for the best play which will have the city of Berlin as the seat of action and the characters representative of the various strata of Berlin population."

The aspirants for this prize are warned against "the complex psychological or problem style," but they are at liberty to submit any form of play from farce to tragedy.

This Berlin offer, in terms, suggests a somewhat narrow notion, although the restrictions set forth may be attributed to local pride. It was in Berlin a few days ago that jealousy was aroused because two or three prominent singers in the opera were Americans, and not Germans.

Art has no locale, no nationality, and no specific time. And it is possible that the play which shall win the 3,000 marks offered by this Berlin theatre may be a work that will prove as acceptable in London or New York as in Berlin. That is not probable, however, and it may be set down as unwise to limit the field and imagination of dramatic writers who, left to their own ideas, would be more likely to evolve drama of moment.

When Mrs. Patrick Campbell, the English actress, who is to tour America, beginning week after next, arrives on these shores she will have with her her daughter, Miss Stella Campbell, who is now 19 years old, and will officiate as stage manager for her talented mother. In addition to "Electra," the new play in which Mrs. Campbell will be seen during her tour, several of the plays from her repertoire will be given, including "The Notorious Mrs. Elphinstone," "Second Mrs. Tanqueray," and possibly "The Sorceress."

Some quidnunc who has a nose for detail has discovered that George Alexander Redford, the English Examiner of Plays, on whose judgment the censor, the Lord Chamberlain acts for or against

has a warm spot in her heart for the newsboys. In Los Angeles, where she lives, she has endowed a home for those tireless little workers. This home is lovingly called "The Lark Ellen News-Boys' Home," in honor of their famous patroness. Every year when she goes home from her tour she gives a benefit for these little fellows. Last year her donation was a cheque for \$1,000, and after the concert was over a committee of the boys waited on the fair prima donna with a little work basket done with their own hands as a gift from them to her. It is needless to say this little gift is carefully treasured in the home of the prima donna.

If the producer of a musical comedy can only hit upon some chorus effect which has not been used before he has found a winner. It does not have to be a chorus effect, either. In "The Girl Behind the Counter," in which Lew Fields and Connie Ediss are appearing with more success than has been found by most of the musical shows that have been produced so far this season, the soda fountain in a department store is utilized for laugh making purposes. Lew Fields draws soda water to match a sample of ribbon which Connie Ediss brings in, and a callaya jag which one of the characters in the piece accumulates at the soda fountain makes "one of the hits in the musical comedy."

Manager Appleton, of the Savoy Theatre, while in New York this week, arranged for the appearance here shortly of two of the biggest hits of the season in advanced vaudeville, Simou and Gardner and the Four Larks. The former present the comedy sketch entitled "The New Conchman," one of the biggest laughing hits vaudeville has produced in many seasons. The Larks have a great casting act.

The management of the Hamilton Conservatory of Music has wisely decided to follow the example of other leading institutions of the kind elsewhere by introducing to the public certain work of a purely dramatic nature. During this season a series of entertainments will be given in the lecture hall, in which high class short plays and sketches, both classic and of a lighter kind, will form the major portion of the programme. Fortunately the professional services of Mr. Martin Cleworth are available, and he is engaged for the whole series, both as actor and instructor. The support will be of the best this city can produce. The first entertainment will be held on Nov. 28.

## Savoy's Good Bill

The advanced vaudeville programme to be seen at the Savoy theatre next week, featuring as it does some of Klaw & Erlanger's best exclusive attractions, should pack that play-house throughout the week. The "O'Kabe" Japs, seven in number, who will be the leading heads in these features, have an act that keeps pace with advanced variety. It is one of the prettiest decorative acts on the stage and has few of any equals either from the standpoint of staging or original work. The material and dressing usually available. A gorgeous story embroidered in gold upon a black velvet background in an intricate Japanese design adds effect to the offering. There are seven people in the troupe, all very young men. At the opening they appear in splendid robes, in match the drop and change to tight, ground turpentine and hand balancing are features of the turn. At this the new organization excels, particularly in the latter department where they go through a routine of tricks that are sensational to a degree and easily lead anything seen in a long time. For novelty, attractive dress and skillful acrobats it would be difficult to find an acrobatic act to compare with this one.

Leroy and Clayton are billed as the special added attraction appearing in their big laughing success, "Hogan and the Hansons," one of the funniest vaudeville skits ever written. It is one continual laugh with a screamingly funny finish. The Sidonias, presenting an electric comedy wire act, is another offering that will add strength to the bill.

In the Meredith Sisters the management will present what is said to be the finest sister act in vaudeville. To those who remember the hit the act made here last season the statement will not sound extravagant. It is an exceptionally pretty and pleasing number. These girls sang "Hiawatha" into fame and have been making a solid hit ever since. They wear gorgeous costumes and carry a lot of splendid scenic effects, changing all the time. The act proved as big a hit abroad as in this country and the

EIGHT BEDOUIN ARABS. One of the features at Bennett's this week.

return of the clever pair will be welcomed.

A screamingly funny Germany comedy sketch entitled, "Miss Steno's Photographer," will be offered by Alice Philbrooks and Sidney Reynolds. It is a skit that affords every scope for real good fun and Reynolds and his pretty partner see to it that the laughs follow fast. Howe and Scott, two real Hebrew comedians, have been making a big hit on the advanced circuits, with a pleasing offering of bright new, breezy stuff, and are sure to be one of the best liked numbers next week. "The Man From Nowhere," is the way Ben Morse styles himself. He appears in fifteen minutes of trampology, introducing a merry line of patter that makes the minutes speed fast. Grace Dean is a girl with a pleasing voice and several new songs, which she knows how to sing. The kinetograph, with new pictures, as usual will be an interesting number.

## Bennett's All Star

Manager Driscoll has secured one of the best bills on the Keith & Proctor circuit for next week. The Bennett Theatre has done a splendid thing since the date of its opening, and the many changes in variety, the improvements and innovations which have taken place since then have not had the effect of making the place lose by comparison. All this week the house has played to big business, but it is confidently expected that with next week's bill the record established this week will be easily surpassed. In addition to this, the fact that next week will be the occasion of the Catholic Order of Foresters' benefit, should have a good effect on the attendance. The bill for next week covers all of the phases of variety, and its leading feature will be Ned Wayburn's "The Sideshow." This is one of the most magnificent spectacular acts which will be presented during the season, and it will be far in advance of anything of that kind presented so far. Wayburn has a reputation for the excellence of his productions, and according to some of the most reliable vaudeville critics in the United States, he has even excelled himself in "The Sideshow." There are ten handsome girls in the act,

and they are costumed in a most elaborate fashion. The choral work is particularly fine, and a series of witticisms are introduced into the piece. Accompanying the act is Eddie Mack, the distinguished Broadway comedian, who is said to be a whole show in himself.

The eight Bedouin Arabs, a troupe of the world's finest tumblers, are on the bill for next week also, and judging by the excellent press notices which the act has been given, it should prove a wonder worker. The characters in the act are genuine sons of the desert, and their act is something out of the ordinary. The fact is in Ottawa this week, and after every performance it has been tendered encore after encore. The Arabs do some astonishing pyramid work, and their whole act is like on kaleidoscopic maze. One of the troupe, who weighs only 125 pounds, supports the other seven in pyramid form without apparent effort.

"Am I Your Wife," is an exceedingly laughable sketch which Mr. and Mrs. Gardner Crane will figure in. Mr. Crane does an especially clever turn of the two brother in which he plays the double part with commendable skill, shielded and Rogers, a pair of clever larrikin artists will present their startling lasso act. They give a realistic portrayal of the never failing lasso work of the western ranchers, and their act is touched off by their pleasing dress.

Something out of the ordinary will be found in the act of Frank Whitman, the dancing violinist. He is one of the cleverest violinists and dancers in vaudeville, and he combines the two arts in a unique act. The Atlas comedy four will be another good offering in their clever joke making and singing act. Miss Rae Cox, in "A Girl From New Orleans," will provide a rare treat in the singing variety.

Another good turn which should provide a few good laughs is an act entitled, "A Woman of Few Words," which will be put on by Frank Rae and Gusie Brosche.

## At the Grand

Fresh from Chicago, via a few other metropolitan centres, "The Time, the Place and the Girl" may be taken as a typical Middle West hair-raiser.

The feature which stands out is the smooth, rippling, continuous, mellifluous stream of choice Chicago slang which proceeds from out of the mouth of Mr. Deacon. There is a good deal of rough philosophy entangled with this slang, and the manner of this presentation accentuates this particular point. To listen to him for five minutes—and he to read the John Henry series boiled down.

The big musical comedy will be presented at the Grand next Tuesday and Wednesday, with Wednesday matinee.

One of the latest of the popular melodramas is "Little Heroes of the Street," which will be seen for the first time in this city at the Grand on Monday night. It will be presented by a capable company, and special scenic effects. The story is said to be one that will appeal to all.

Ben Greet and his company of players, who are presenting Elizabethan dramas in ye old time style, will return to the Grand next Saturday. At the matinee the much talked of morality play, "Everyman," will be presented, and in the evening the bill will be "Machbeth." Mr. Greet has many followers here who will gladly welcome his return.

George F. Hall, one of the most popular comedians who comes to the Grand, will be seen there next Monday week in his new play, "I'm Now Married," which is said to be the best laugh-producer he has yet had.

A new farce will be seen at the Grand the week after next in "Mary's Lamb."

The leading role will be assumed by Harry Connors, the clever comedian, who will be remembered for his great work a season or two ago in "Mrs. Temple's Telegram." Charles Hawtreay is making a big hit in London at the present time in another version of the piece, entitled "Mrs. Vandermere's Past."

Rowland & Clifford's sensational melodrama, with music, "The Mysterious Burglar," will be seen at the Grand the week after next.

A musical treat is in store for those amusement lovers who see W. P. Cullen's great production of "The Burgomaster" at the Grand on Nov. 23. Gus Weinberg and Ruth White head the cast. The music of the play is especially catchy. Among the best songs are "I Love You, Dear," "The Tale of the Kangaroo," "Never Let Yourself be Worried," "Child Never Marries," "There's Only One Street," and "That's Broadway," and the famous Indian choruses.

## Additional Dramatic Matter on Page 5

### COBALT CASE.

#### Privy Council to Decide Governments Right to Mine.

Toronto, Nov. 8.—The order and bond have been made out on the application of C. Hargraves, permitting Mr. Hargraves to carry to the Privy Council the action of the Attorney-General against him. A School of Science student sold to Hargraves some property in the Cobalt district next to the Jacobs' mine, which subsequently turned out to be very valuable. The Government claimed that no discovery had been made and brought action for possession, and Chancellor

## Is the Musical Taste of the People Changing?

Is the musical taste of this country changing? Is the worship of the classic and the intensely technical dying away, and being supplanted by a careful attention to the simpler and more readily appreciated works of those who are less scholarly, but are closer to the people's heart? Many people seem to be of the opinion that that is the case, and among the number of Joseph E. Howard. He ought to, for he is the composer of "The Time, the Place and the Girl," and this music play, with its songs within the ready grasp of the average man or woman, boy or girl, has proved one of the most popular of the works in recent years on the American stage. Chicago, Boston, New York,—in fact the entire country with the exception of the Pacific coast—have taken up the refrain of the production, and the man who succeeded in thus touching the pulse of the public ought to know a little bit as to the popular American demand of the present time.

In speaking of this subject just the other day Mr. Howard made some interesting observations. "Give me the music that a man can whistle," he said, "and I will have his interest within five minutes. The average man wants a melody that he can take up from the very start, and over which he will not have to work for hours picking the refrain out upon a piano. Give him a piece that he can follow as the singer is giving it upon the stage and that he can whistle as he goes out of the theatre, and the chances are nine to one that he will say, 'It's great.' He might go to see 'Die Gotterdammerung,' and the chances are that he would enjoy it while the performance was in operation, but the chances are that down in his heart he would much prefer an evening with 'The Grand Duchess,' 'The Babes in Toyland,' 'Robin Hood,' or better than all of these, dear old 'Pinafore.' These have songs that are easily remembered, and that never grow tiresome. Thus they are my ideals, the inspirations to help me give something that the average man delights and remembers. It is not a case of a composer writing down to the public. On the contrary, it is oftentimes more difficult to get a simple melody that is thoroughly satisfactory than it is to score one filled with technical complexities. They tell me that the universality of the language of music is a positive thing. I believe that now, for my humble efforts in 'The Time, the Place and the Girl,' seemed to have pleased as much in the east as in the northwest and central States, and as my aim was simply to give music for the masses, for men like you and me, for our wives and daughters, I feel that my intentions were the right ones. Personally, nothing makes me happier than when I am far away from a theatre and I hear a man start whistling one of my songs."

## The Girl With the Music Roll.

Nowhere in Canada is she such a familiar figure as in Toronto—the Girl with the Music Roll. We see her at all hours on her way to and from the colleges and studios. She comes from everywhere to this musical centre, to pursue art, or to dally with a hoped-for accomplishment, as the case may be. The Girl with the Music Roll, however, has a responsibility which, I fear, she too rarely considers. Does she realize that she is responsible for the musical education of the average man?

The average man—Philistine that he is—cares very little about music as an art. If he happens to be standing near a brass band as it rattles off a merry air in lusty fashion he may pause and listen as though he enjoyed it; or he may sit down, if the time and place be propitious, and beat time on the toe of his boot with his stick. But let him go in formal attire to hear a noted artist make such music as the critics praise, and he is often forced to brace himself up after each number in order not to appear as bored as he feels. The Girl with the Music Roll more have noticed this, she may also have noticed that when, at home on an evening, she sits down to the piano and plays some homely melody, the average man, in the shape of a father or brother, will rest his paper on his knee and listen, but when she starts in on something "classical" he hunches up his nose, takes himself off to his den and shuts the door. It is up to the Girl with the Music Roll to determine what sort of music the average man must listen to around the house, and it also depends largely upon her whether or not he takes any interest in music as an art.

The Girl with the Music Roll ought to remember that it is not altogether because of perverseness or entire disregard of the value of music that the average man shows such woeful lack of enjoyment or appreciation of her most skillful pyrotechnics of voice or instrument. As a matter of fact, the average man has ideas of his own about music, as he has about most things. This may seem absurd to the Girl with the Music Roll, but it is a fact, and one which she would do well to recognize, if she has her esthetic welfare at heart, as I believe she has. The average man likes what he likes, and he cherishes the idea that

Boyd vacated the leases. The Court of Appeals upheld Chancellor Boyd's decision, and now the case will go to the Privy Council.

Many a man who is disappointed in love doesn't find it out until after he is married.

### Make Your Own Price.

Tell us what you want and we will make the rest easy. Our winter caps and sweaters, 25 per cent. off. Our winter cardigans, \$1.50. The workingman's place, M. Kennedy, 240 James north.

STEELEY AND EDWARDS, Who are coming to Bennett's next week.

the drama submitted to that official, makes about \$500 a year out of his office, the salary being only \$750 and the rest being made up in fees.

To earn this money, Radford has to read between 500 and 600 plays a year, or, say, two plays for every working day, in year and year out.

In these circumstances, there are persons who will be disposed to forgive some of the errors made by the English censor. The campaign against the office is being waged vigorously, and by persons whose judgment cannot be questioned by the authority to whom an appeal for the abolition of the censorship will be made.

David Belasco's new play, "The Warrens of Virginia," will have its first performance at the Belasco Theatre, New York, early in December, with a cast headed by Miss Charlotte Walker and Frank Keenan. The play is a romance of ante-bellum days and is the point effort of William C. DeMille and Mr. Belasco. This combination of authors suggests the old days when Belasco and the older DeMille wrote "The Charity Ball," "Men and Women," and many other successes.

Ellen Beach Yaw, the famous singer,

THE LITTLE BROILERS. In "The Time, the Place, and the Girl," which will appear at the Grand next Tuesday and Wednesday.

OKABE FAMILY. Japanese acrobats, at the Savoy next week.

# DAINTY AND INEXPENSIVE HOUSE FROCKS

## Latest Paris Notes

**T**HE humble wrapper is a back number. All the feminine world is now wearing the daintiest of house frocks, for these garments have taken on a coquetry and daintiness unknown to their kind a few years ago.

So many fascinatingly beautiful and extravagantly perishable materials are shown for these gowns that it takes a strong-minded woman to be practical in selecting materials for them.

The sheer silky stuffs are, perhaps, the most attractive fabrics. The beautiful supple crepe will be found much more serviceable and generally satisfactory.

These gowns are so often such a vexing question to the woman who does her own work. She is often too tired to dress for dinner every night, and yet she wishes to look fresh and dainty.

For her, nothing can be prettier, simpler and yet extremely dainty than a house gown of crepe in delicate shades of gray, maize or blue, made with a shortened waist line, from which a slightly full skirt falls in straight clinging folds, with several deep tucks at the bottom to give the needed weight.

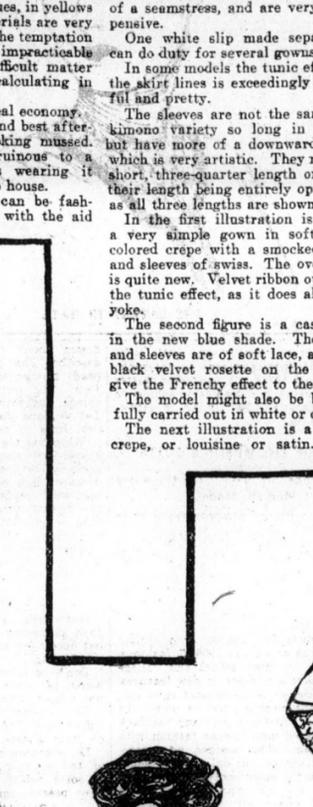

The bodice may be attached to the skirt and is oftenest of the simplest of draped surplice models.

It may be decorated with bands of lace or self-toned silk embroidery, bordering the surplice and the large armholes and forming the girdle.

The guimpe and sleeves, if so desired, may be made of finely tucked muslin.

For the woman who wants to follow fashion's edict by using the thin material, yet needs something that will resist hard wear and be practical as well as pretty, one of the volées is another good choice.

The one-tone fine stripes and checks in sheer volées are particularly well liked.

In dark and light blues, in yellows and browns these materials are very popular, even though the temptation to extravagance in impracticable fabrics makes it a difficult matter to remain cool and calculating in their presence.

A house gown is a real economy. It saves the street and best afternoon frocks from looking mussed. And nothing is so ruinous to a smart cloth skirt as wearing it continually around the house.

These little gowns can be fashioned easily alone or with the aid

of a seamstress, and are very inexpensive.

One white slip made separately can do duty for several gowns.

In some models the tunic effect in the skirt lines is exceedingly graceful and pretty.

The sleeves are not the same old kimono variety so long in vogue, but have more of a downward slope, which is very artistic. They may be short, three-quarter length or long, their length being entirely optional, as all three lengths are shown.

In the first illustration is given a very simple gown in soft rose-colored crepe with a smocked yoke and sleeves of swiss. The overskirt is quite new. Velvet ribbon outlines the tunic effect, as it does also the yoke.

The second figure is a cashmere in the new blue shade. The yoke and sleeves are of soft lace, and the black velvet rosette on the girdle give the French effect to the frock.

The model might also be beautifully carried out in white or cream.

The next illustration is a violet crepe, or louisine or satin. The

arrangement of the straps on the shoulders is new and not difficult to work out successfully.

The last model is of strawberry pink cashmere. The yoke and V girdle are outlined with darker pink satin.

### Finishing the Tailored Suit

**S**TRAPS, folds and plain lines of stitching are the most usual methods of finishing the plainer of the tailored suits.

A great many buttons are also used. They are usually arranged in groups or at intervals singly around the foot of the skirt at the hem line.

They are cloth covered like the gown they trim and are made on button moulds.

They are set flat upon the skirt and stitched down like discs. Some of them are two and a half inches in diameter.

The fancy buttons are used only on the jacket and vests.

**F**ANCY tailor-mades seem to be preferred to the severer, more masculine style.

Long jackets, trimmed with braid, buttons and velvet, and opening on to waistcoats, cutaway coats and sloping shoulders, with tucks, pipings and insertions, are in the greatest vogue.

Inspiration has evidently been drawn by the couturiers from Louis XIV and Louis XVI military uniforms, but the result is very new and modern.

One of the prettiest new tones is the "kingfisher," which is greenish-blue. Another novelty are wreaths of ivy leaves in dark green and autumnal tints on felt hats. A large purple faille hat, lined with soft mauve satin, was picturesquely trimmed with a myriad tassel-like fuchsia flowers in tones of rich purple rose and white. Fuchsia is quite the latest flower to be employed in millinery.

The coming fashions can be better gathered at the leading "premieres" than anywhere else just now, and at the "first night" at Antoine's last week it was clear that the princess gown, with shawl-shaped bodice and narrow, close-fitting skirt, is not superseded by any other style, seeing that these models are the creation of a firm whose taste is acknowledged as a criterion the world over.

For evening dresses velvet, supple satin, mousseline de soie and the new square meshed tulle will be largely employed for evening dresses this winter, while filet lace will be dyed to the exact tone of the gown.

Gold and silver lace are not any longer fashionable, but white lace is sometimes embroidered with gold threads which outline the pattern.

Clinging, enveloping skirts are the latest vagaries of the creators of fashion, and semi-high-waisted gowns which give height to the figure and produce certain folds which are eminently graceful are being worn to a very marked degree.

Colors and shades have never been more perfect, more varied and more artistic than they are at present. There is quite a furore for all shades of mauve, heliotrope, violet and purple; the latest effective combinations of colors appear to be mauve and blue, not in light tones, but a beautiful Parma mauve and a full-toned blue.

Hats are more and more huge—they are certainly becoming, but it seems almost time now to cry halt and to return to more reasonable dimensions.

The most curious harmonies are achieved in millinery, such as Nattier blue and mole brown, green and violet, gray and brown, flame red and black.

The brims of some hats are slightly folded over on one side or in front; others are quite round. The crowns are not very high, usually round, but they are not visible as a rule, being covered with huge choux of pannes or velvet in one or two shades, or masses of soft surah silk with fringed edges, or else completely concealed with bushes of light feathers, aigrette, ostrich and cocks' feathers, which dart forth on all sides with the greatest daring. Autumn leaves, also, are being used in a similar way.

Nothing definite has been decided about sleeves, and both long and short sleeves will be worn this winter; the lower part of long sleeves are often transparent.

The smartest belts for the coming season are rather broad, made of embroidered satin, and both edges of the belt are bordered with half an inch or so of black satin, stitched finely on to the embroidery; the edging must always correspond with the gown worn. With these belts are worn broad square buckles, chased and enameled in dark blue or black on gold, green, pale blue and mauve.

### Individuality in Styles

**T**HE questions of individuality of style and suitability of color are very important factors of dress.

How often does one see a woman of the athletic type, who looks very smart in tailor-mades, ruin her appearance at a dinner?

She arrives in a flimsy confection of pink chiffon, with her hair elaborately waved.

Such dressing is absolutely unsuited to her strong personality.

Had she chosen a simple gown of white; if she had wound her locks around her head in a heavy plait, her appearance would have been striking.

## Braid Trimmings

**C**OMBINATIONS of soutache and other braids are very smart, indeed, and give the finishing touches to many of the prettiest tailored gowns.

Serpentine patterns of soutache, joined together with chain stitching and small cords of varying widths, all carrying the same design, are among the novelties.

Bands and vestings made of standing soutache designs braided on a mousseline foundation are shown in a great variety of patterns.

Torpedo braids, in one or two tones, are most effective, particularly so in black and white.

These new padded braids can be used in a variety of ways, and are most strikingly used in a braided design in combination with other braids and passementeries.

Macrame braids are one of the latest garnitures. There is also a revival of the use of tailors' binding braids.

The Titan weave is considered one of the very smartest of these. Some of the most expensive tailor suits make use of these binding braids as a finish on cutaway coats.

Fashionable tailors, when using the Titan braid for binding the edges of the jackets, sometimes trim the skirt by binding the edge of the stitched fold.

Rows or lines of the Titan braid are often applied flat as a trimming on suits with bound edges.

Knitted braids are another novel decoration presented for winter. The radium patterns are simulated in these, but the product loses somewhat in beauty and weight.

The embossing of braids is a new feature this season. Patterns are stamped or embossed on braids by a process similar to that of crimping on hot rollers.

The improvement on the radium braids is little short of marvelous. Many of the patterns are entirely unlike anything seen before. A large majority of the designs show the use of narrow braids, woven into pattern, the narrow braids taking the place of the usual threads in the weaving.

The name radium is applied to all braids having the design in the pattern. These braids are made up very ingeniously on expensive machinery. In several of the new radiums an effect of embroidery of the heaviest kind is simulated.

Oriental effects are shown in many of the novelty trimmings. Japanese bands, as well as other Oriental designs in bands and vestings, are shown in the shops. A characteristic feature of these trimmings is the beautiful colorings in which they appear. In addition to the bands and vestings, there are also very handsome braid trimmings in separate motifs.

Very heavy trimmings of the gilt gimp, galloon and passementerie order are being used. They are generally in black.

The use of genuine hand-embroidered bands in Japanese and Chinese design has awakened an interest in machine-made trimmings of this nature. Many beautiful trimmings have been produced in simulation of the Japanese hand-embroidery. These embroideries usually have gold or silver threads mixed in among the gay colors characteristic of Oriental designs, and this makes them very handsome.

Other imported novelties show the use of cretonne in the form of applique and in bandings, and also for the very ornate vests which characterize some of the most extreme models in wraps.

Broad bands of cretonne veiled with chiffon are used by Paris designers as trimmings on foundation skirts of handsome net and lace costumes.

Black spangled trimmings in novel effects will be popular for silk gowns this season. Black passementeries in new designs are also shown.

Owing to the somber colors of many of the new materials and the mixture of black in many fancy fabrics, black trimming will be used greatly.

### The Newest Skirts

**T**HE newest skirts, while conforming to one or two single principles, are endlessly varied.

The principal points are a sheath fit over the hips and a flare at the foot.

The preference is given to a plain skirt trimmed with bands of its own material.

### Fashionable Collars

**Q**UITE the favorite among collars are the new turnovers. They are very high and elaborately adorned with broderie Anglaise and have hemstitched edges.

Almost without exception they are held together at the front with a bar pin of gold or silver, and the old safety design is rarely if ever seen now.

Any pin may be substituted, but a plain fine bar with a single jewel in the center is more often used.

The variety of linen or muslin tabs or small fronts worn with these collars is endless, and tiny silk bows of any color are good.

Plain turnover collars, with extremely narrow pleated ruffles, are both pretty and becoming for morning wear. There are cuffs to match.

Covering the entire hem of the blouse down the front are so-called jabots, to be worn with thin waists. They are not suitable with plain blouses having stiff cuffs.

A woman who is at all clever with her needle can make these front pieces with strips of embroidery or lace left from other work, and there should be one or more ruffles of lace down each side.

The new shirtwaist is distinctive on account of the width of the shoulders. Do not imagine for one moment that this effect may be obtained by cutting the shoulder seam extra long, that is to say, by running it down on the arm. It can't.

The proper width must be given by the correct line of the shoulder seam; otherwise the sleeve cannot be properly put in, and will droop in an ugly way over the arm, giving an ill-fitting, thoroughly home-made appearance to the shirtwaist.

It will be real economy to buy a plain shirtwaist of the newest cut and the proper bust measure and not attempt to remodel a pattern of the last season. The new pattern will be cut out according to the lines of an expert draughtsman, and with care in using it a perfect shirtwaist is bound to result.

In the majority of the waists shown variety is given by the different ways of trimming and not by different shaped patterns. When

tucks are to be used, no matter how they are shaped or grouped, the length of the back and the fronts should be torn from the material, and the tucking done on these straight pieces.

If the waist is to button in front and the tucks are to run the full length, it will be found much easier to leave the fronts in one piece and tuck them. If it buttons in the back, the same idea will naturally follow. In so doing, the possibility of the two sides being unevenly spaced will be done away with.

When insertions of lace or embroidery are used between the groups of tucks it will be more economical if the pattern is pinned on the piece, and the fronts and back cut out before the insertion is sewed on. In this way will be avoided the waste of lace and embroidery when the neck and arm holes are cut out.

When basting the insertion on, baste through to the right side of the material, and stitch it by machine on each side. Then the suste-

## HOW TO MAKE THE NEW SHIRTWAIST

Distribute the front and back fulness so as to keep the straight line of the goods from the shoulder down and pin the band to the waist at an interval of two inches.

The collar band should next be pinned on. This is made of a double fold of the material and three-quarters of an inch wide. Find the center back for the front and back, just as was done in finding the centers of the waist line, and pin the collar band shrinkage.

Pin the band to the waist so it will not slip. When the waist is taken off, shape the neck of it to correspond with the band, allowing one-quarter of an inch for a seam.

By fitting the neck carefully, all risk of cutting it too low in either the front or back is avoided, and the dreadful drawn look of some shirtwaists prevented. In making thin waists it is well to put in the sleeves with a cord, which makes a pretty finish and at the same time gives strength.

When cutting out the waist the grain of the material at both the center front and center back must be run on the straight. This, by the way, must be strictly observed when creasing for the tucks.

Care must be taken when fitting and putting the pieces together, particularly when using thin materials, as an unlined waist has nothing to hang upon and keep it in position at the top save the collar-band. The waistband must be depended upon for the rest, so both the collar and waistband must have careful attention.

If it is necessary to make adjustments in a pattern, such as correcting the waist line, or the spacing of the gathers, the amateur invariably is tempted to bring the fulness into a very narrow space on each

side of the center front and back. This is a great mistake. It cannot fail to give ugly lines to the waist.

The fulness should fall in straight lines from the shoulders to the waist line, no matter whether the figure be stout or slender.

To avoid this have ready a piece of inch-wide tape or a straight muslin band of that width with the raw edges turned in. After the waist has been adjusted at the shoulders and neck, find the center back and front of the waist line and at the same time the center of the tape.

If the waist opens at the back, pin the center of the tape to the center of the front of waist; if it opens in the front, pin center of tape to center of back. Draw the tape snugly around the waist and pin it, not forgetting to allow a little for shrinkage.

### Browns in Tailor-Mades

**B**ROWNS in all the wood tones, as well as the toast and cinnamon shades, are quite the smartest creations of the tailor.

These shades are used in the strictly tailored and in the semi-tailored suits.

They are combined with creams, delicate mauves, plums and especially with the hunter's and almond green.

# MILITARY MATTERS

The annual inspection of the 13th Regiment was held last evening. Gen. Otter being the inspecting officer. With him were Capt. Layborne, Capt. Shanley, Col. Gibson, Lieut.-Col. A. H. Moore, Lieut.-Col. Stoneman and Major Tidwell. The Drill Hall presented another brilliant scene, as in the case of the Kilties, and while there was not the picturesqueness of the Kilties' costume, the "Thin Red Line" looked exceptionally well. Every man had every button on his tunic shining to perfection, and every helmet was pipe clayed.

Lieut. Col. Moore and Major Mewburn put the troops through the different battalion movements, and the manner in which the soldier boys went through the drill was very pleasing to the officers. The small space in which the drill was held greatly hampered the men in the movements.

Gen. Otter, in speaking to the officers at the close of the drill, said he was highly pleased with the work of the regiment, and outside of a few minor points the drills had been gone through satisfactorily.

The parade state of the regiment was the largest this season, there being 525 men in line. After the inspection the officers of the regiment tendered Gen. Otter and his staff an informal luncheon in the officers' quarters. The parade state was as follows: Lieut.-Col. Moore, Majors Mewburn and Ross, Capt. Dumville, Adjutant, Major Herring, Paymaster, Col. Griffin and Capt. Carter, Surgeons, Major Forrester, Chaplain, Staff Sergeants 14, Buglers 40, Band 41, Bearers 17, Maxim 9, Signallers 10, A 60, B 60, C 47, D 46, E 40, F 37, G 35, H 32, total 525.

The past season has been a successful one also in shooting, and the Ninety-First Regiment is rapidly forging ahead in this respect. The junior team which represented the regiment at Toronto and Ottawa and did so well, have become senior shots by their good work, but several new and promising shots have been developed for next year's teams. Both the senior and junior shots representing this regiment at Toronto and Ottawa carried off more than their share of the most notable team winning prizes for first place in the junior match at Toronto and second place at Ottawa in the Gowski skirmishing match against all the best shooting regiments in Canada. In this last match the team was most ably handled by Staff-Serjt. D. Garson, and four of the six team were junior shots. In the 1,000 yards match at Ottawa, the most difficult one of all, every man representing the 91st was in the prize list, a most unique and satisfactory performance. The regiment desires to thank the merchants of this city who so kindly contributed to the prize list, and thus made it possible for the regiment to make some little returns to those men who practiced so faithfully throughout the season. The prize lists are given below:

**SENIOR PRIZE LIST.**

Seven shots each at 200, 500 and 600 yards; possible, 105.

Score	Prize
Sgt. J. Stoddart, B. . . . .	92 \$10
And D. R. A. Silver Medal.	
Capt. E. Skedden, A. . . . .	90 \$5
Corp. A. B. Davidson, A. . . . .	88 \$2
And D. R. A. Bronze Medal.	
Sgt. J. E. Foreman, B. . . . .	87 \$10
And O. R. A. Bronze Medal.	
Pte. F. Garson, G. . . . .	85 \$5
Lieut. H. B. Evel, E. . . . .	84 \$5
Sgt. W. Molaskey, G. . . . .	84 \$5
Pte. J. Bennie, F. . . . .	84 \$5
Staff-Serjt. G. Thompson, C. . . . .	83 \$5
Corp. F. Stock, F. . . . .	82 \$5
Corp. Yates, D. . . . .	82 \$5
Staff-Serjt. D. Garson, C. . . . .	82 \$5
Capt. J. I. McLaren, D. . . . .	82 \$5
Staff-Serjt. W. McAndrew, B. . . . .	82 \$5
Corp. Bennie, C. . . . .	82 \$5
Corp. Warren, C. . . . .	82 \$5
Maj. W. H. Harcourt, B. . . . .	82 \$5

MAN SHOT WIFE'S LOVER.

Killing Develops into a Sensational Tragedy.

Wife Tells Police That Husband Was Dishonored.

Husband Says He Thought Victim Was a Burglar.

Philadelphia, Nov. 8.—Rivalling in many of its sensational features the Thaw-White tragedy, the shooting of Harry Ferree by A. Jackson Detsch, shortly after midnight yesterday developed phases during the investigation yesterday which seem to place it among the most startling crimes the Philadelphia police have ever had to deal with.

Meanwhile, Detsch sits sulkily in his cell in City Hall, calmly giving the lie to his wife and declaring that his only reason for shooting Ferree was that he thought the man to be a burglar. He not only denies knowledge of the alleged despoiling of his home, but refuses to believe his wife's confession, declaring that, if there is any truth in it, he never knew, nor suspected it, and, therefore could have had no such reason for the murder.

Captain Donaghy claims to have evidence in his possession tending to show that Ferree was deliberately lured to his death and that Detsch lay in ambush for him, pumping five shots from his heavy revolver into the unsuspecting man on his way to keep a tryst with Mrs. Detsch.

Andrew Jackson Detsch, a young travelling man and son of George Washington Detsch, one of the largest retail meat dealers in the city, lived at No. 1840 North Twenty-second street with his young wife, Rose, and their 15-month-old baby, Harry Ferree, described as a "jack-of-all-trades," well-known amateur photographer, chairman and man about town, boarded with them.

At about 12:29 o'clock yesterday morning the attention of Police Constables Thistle, of the Twenty-eighth district, was attracted to the house by the sound of five revolver shots. Hurrying to the place, they found Detsch and his wife looking out of the third-story window.

In reply to orders to open the door, they declared they were afraid to go to the first floor and the police broke the door open. In the third floor hallway, just outside the door of the room occupied by the Detschs, they found Ferree prone on the floor, a pool of blood forming about him. Five bullet holes in the door indicated that he had been shot from behind protection. The door was closed. Detsch, who still held the smoking revolver in his hand, admitted the shooting, saying he heard Ferree moving about and thought he was a burglar.

Mrs. Detsch was so nervous and excited over the shooting that it was found impossible for her to be present when her husband was arraigned before Magistrate Scott, and he was committed to jail to await the action of the coroner. Subsequently, however, the woman recovered enough to be brought to the City Hall, where she was closeted with Captain Donaghy for some time. It was in the course of this examination that she made her remarkable explanation of the shooting, an explanation which startled even the detectives for its evidence of duplicity and wrong-doing.

Found Evidence of Intimacy. Immediately upon being notified of the shooting, Captain Donaghy had Ferree's room searched. There he found bundles of letters and a number of pictures, all indicating an intimacy between Ferree and the woman, calculated to madden the young husband and drive him to desperate measures.

Wife Acknowledged Letter. Mrs. Detsch at first denied to Captain Donaghy that there was any intimacy between her and Ferree, and stoutly stuck to the story of her husband. Captain Donaghy asked if she had ever written to Ferree, and she denied this also. He then asked her to produce the letters, and the woman, biting her lips, acknowledged them as hers. She was cool and self-possessed throughout the examination, the only emotion she displayed being a sudden rush of her words in offering an explanation.

"Yes, I wrote those letters," she said. "Ferree forced me to. He dictated them, and I had to write them. I couldn't help it."

"How could he dictate them to you and force you to write them when you were at Asbury Park and he was in Philadelphia?" asked the detective. "He dictated them and forced me to write them," was the only answer. "Then, did he dictate this, and force you to have this picture taken?" came the next question, as the worst picture, hitherto hidden, was suddenly held before the woman's eyes. She turned her head quickly, her cheeks flushing and her hands waving the picture away, refusing to look at it.

A DRESSMAKER'S DREAM

Madame Cullinane, a very prominent fashion editress of New York city, while reviewing a performance of "The Time, the Place and the Girl," which played its metropolitan engagement at Wallack's Theatre, and will appear in this city next week, gave the following description of one of the gowns worn by Harriett Burt, a principal in the company:

"Miss Harriett Burt has an interesting and striking personality and carries herself admirably. The simplicity of her gown is their chief charm. One of the most distinguished and indescribably beautiful is a Lichtenstein mode—a princess evening gown of gold spangled net, given a soft changeable effect by a lining of pale yellow mousseline de soie over a final one of canary colored silk—that hangs closely to the figure—a marvel of cut and fit, the low plain skirts beautifully hanging. Point de Venise lace formed a short sleeve leaving the lines of arm and shoulder beautifully revealed."

HOME NEEDLEWORK PATTERN SERVICE.

No. 688—Baby Moccasins. Though baby's garments are doubly pleasing when hand embroidered, it is seldom so unique a part of dress is offered for handwork as booties. The design, a pretty flower spray, may be worked either in eyelet or solid embroidery. If flannel is too fine a fabric to be used, the booties may be already stamped on heavy white felt of the best quality, or in a perforated pattern, which is simple to use and includes complete materials and full directions for stamping.

The prices are: Perforation, 15c; stamped on extra fine white French flannel, 35c; on white felt, 25c; material to work, 15c.

To the Home Needlework Pattern Department D., Daily Times, Hamilton, Ont.

Gentlemen,—Please send me Home Needlework Pattern No. \_\_\_\_\_, as above. Enclosed please find \_\_\_\_\_, also material to work.

In support of this appraisal of the dead man, Captain Donaghy declared that he had evidence showing that Ferree was a debauched, profligate young man. He said that Ferree made some pretensions to being an art photographer, and was very fond of making pictures of life, particularly in his studio. He said that he had seen pictures of him in various attitudes, and on more than one occasion had procured photographs of young girls standing naked amid fields of daisies in secluded spots in Fairmount Park.

Had Confessed to Husband. Mrs. Detsch told the detectives that her husband had discovered her correspondence with Ferree, and on Monday night had charged her with it, procuring a confession. On Tuesday he purchased a 38-calibre Colt's automatic revolver, telling her it was for her protection. Shortly after midnight of Tuesday, she said, she was awakened by hearing Ferree moving about, and she told her husband. He arose, procured his revolver and waited by the bedroom door. When he heard Ferree's hand on the knob, he fired five shots, each one taking effect.

When the police arrived Ferree's body was found minus coat and shoes. There was no evidence that he had been drinking.

In view of the peculiar circumstances of the case and private information which he claims to have strengthening it, Captain Donaghy is working on the theory that Mrs. Detsch's confession of Monday night so infuriated Detsch that he determined to seek revenge in his own way. He said that he either conspired with his wife or forced her to assist him to lure Ferree to her room on the pretext that the husband was away, and that when caught in the act of keeping his midnight appointment with the wife under the most convincing circumstances, he was shot down by the husband, hiding behind the door.

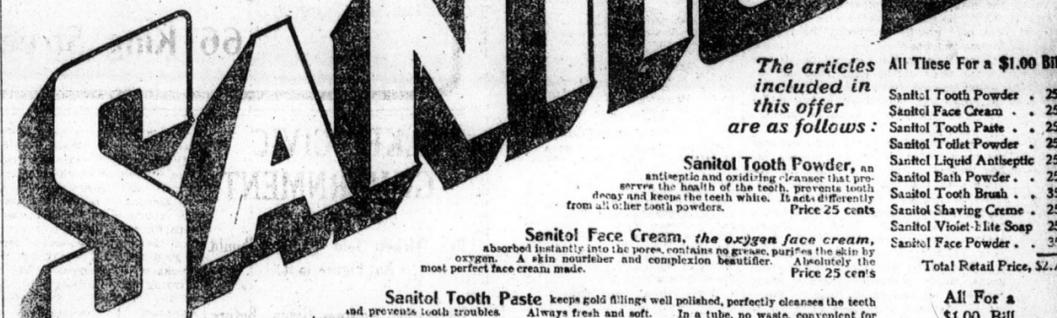

When Mrs. Detsch had told her story, detectives went to Detsch in his cell and told him of it, urging him to tell the truth about the matter. The man denied all knowledge of the story, denied that his wife had made her alleged confession on Monday night, and refused to believe that there had been anything illicit between his wife and Ferree. He reiterated his story of thinking Ferree was a burglar and declared he had no cause to suspect his wife.

\$2.70 worth of SANITOL for \$1.00

Cut out coupon in upper right hand corner of this page and send to us with a \$1.00 bill, and your druggist's name, and we will deliver to you, through your druggist, the complete assortment of 10 full size packages of Sanitol illustrated below, retail price of which is \$2.70.

Advertisement for Sanitol products including: Sanitol Tooth Powder, Sanitol Face Cream, Sanitol Tooth Paste, Sanitol Toilet Powder, Sanitol Liquid Antiseptic, Sanitol Bath Powder, Sanitol Tooth Brush, Sanitol Shaving Creme, Sanitol Violet-Elite Toilet Soap, and Sanitol Face Powder. Includes a coupon for a \$1.00 bill and a list of prices for various items.

THE CARE OF IMMIGRANTS.

Official Statement by Hon. Mr. Monteith Indicates a Change in the Method of Dealing With Immigrants Reaching Ontario.

Toronto, Nov. 8.—Hon. Mr. Monteith, who returned from Ottawa yesterday, where he had a conference with Hon. Mr. Oliver in respect to immigration matters, gave a statement to the newspapermen relative to the questions discussed. Its most important point is an intimation that the Province will probably discontinue the work of distributing immigrants now that the Dominion has entered that branch, and assist the Dominion authorities in other ways in dealing with the immigration problem.

JEWISH MISSION.

Rev. Weston of Toronto Gave Address Last Evening. An interesting meeting of the Hamilton Jewish Mission was held last evening in the Conservatory of Music.

INTERNATIONAL LODGE.

There was a large attendance at the meeting of International Lodge held in the G. O. O. F. hall last evening. Three candidates were initiated and two propositions for membership were received.

TWO MINERS CRUSHED.

Heavy Fall of Stone in Dominion Colliery. Halifax, Nov. 8.—As a result of a heavy fall of stone occasioned by the loosening of one of the pillars in the French slope, Dominion No. 7, John B.

THE BEACH PARK.

Dr. Cockburn Thinks it Would Benefit the Residents. To the Editor of the Times: Sir,—Will you allow me through your paper to again bring up the amusement park from the standpoint of the public good?

The one great factor that at present most seriously damages the Beach is the dirty bay front and the large amount of marshy land and stagnant water, especially in the neighborhood of Stations 6 and 8. Anyone who is not willfully blind must admit that the removal of all this marshy area would enormously improve the Beach.
