FOURTEENTH YEAR

AGED PEOPLE IN DEATH

James Williams and His Wife of Port Credit Foully Murdered at Their Home.

BRAINED WITH A BOOT AND A BROOM

The Hired Man and One of Williams' Horses and His Cutter Missing.

Just as He Had Finished Supper Williams Was Struck Down in His Arm Chair, Six Blows With a Long Boot Smashing His Skull—Mrs. Williams' Body Found in the Pantry Terribly Disfigured—They Had Not Been Seen Since Thursday Night—The Murder Thought to Have Been Committed That Night, But the Bodies Were Not Discovered Until Yesterday—The Hired Man Under Suspicion.

PORT CREDIT, Ont., Dec. 17.—One of the most blood-curdling tragedies ever enacted in the County of Peel took place in the "Middle-road," Township of Toronto, one and a half miles north of this village between Thursday night and Sunday-morning, William James Williams, aged 50 years, and his wife, Eliza Williams, aged 35, being literally beaten to death. The Williams' resided in the Township of Chinguicousy about 27 years ago, when they left for Bay City, Mich., where they remained until 1878, they returned to the County of Peel and took up their residence on the Middle-road.

They were an unassuming couple and did not mix much with their neighbors, although they were generally well known in the neighborhood. On Wednesday last Miss Goldthorpe, a neighbor, called at the house and saw the old couple, when they informed her that they intended leaving for Toronto on the following day to do some marketing. They had killed a number of geese during the forenoon, and a number of geese had been plucked ready for market when she called there.

Came to Toronto Thursday. Early Thursday morning Williams and his wife drove to Toronto market and disposed of their fowl. En route to the city they called at Nurse's Hotel at the corner of the street with Mrs. Nurse. It is supposed that they reached home after disposing of their fowl in time for supper, and that the murder was committed about 5:30 o'clock Thursday night, as the condition of the bodies when found went to show that Williams had apparently just finished partaking of his evening meal when a murderer stole upon him and struck him down.

His head had been battered to a shapeless mass, the murderer having apparently used a heavy boot, which was found underneath the chair, for the purpose. The body of Mrs. Williams was found in a closet. She had evidently been struck down by a potato masher, as the masher was found in the kitchen and dragged across the floor to the pantry.

A trail of blood marked the floor where she had been dragged. The potato masher, smeared with the arterial blood of the victim was found in the corner of the kitchen.

Suspicion Rests on the Hired Man. Suspicion rests upon a hired man named John, who was engaged by the couple about a month ago and whose time was up on Wednesday, when he left. It is believed that he returned on Thursday night and committed the crime.

The House Battered. All the upstairs rooms in the house were thoroughly ransacked, as if for plunder. The murder was discovered at 4:30 to-day by Clayton Osborne, son of a farmer living opposite, who noticing a strange light about the premises went over to investigate. He looked in the window and saw an old man seated at the table with a coat over his head and at once gave the alarm.

The Goldthorpes were notified and investigation disclosed the double murder. It was also found that a bay horse and cutter belonging to Williams were missing, and it is supposed the murderer took them with him.

Their Last Meal on the Table. The house is double fronted with a table with attic, standing back about 100 yards from the road on the north side. The door opens into a living room about 20 feet square. On the right hand are two bedrooms, and so to the left a stairway leading to the attic. Behind the living room is a small kitchen, off which is a small pantry. Against the south wall of the kitchen to the left of the door leading from the front room is a little table covered with a piece of marble cloth, and on it are the usual things, a chair, the area hanging at the left, the legs stretched straight out under the table.

Over the head was thrown an old coat, which was found, too, by the dogged blood. The removal of the coat disclosed a sickening sight, at which the stoutest heart might well quail and the most stoical tremble.

Mr. J. B. Thompson was seen last night. He lived in his youth in the vicinity of the murder. His wife was a Miss Goldthorpe, sister of the Goldthorpes. Mr. Thompson told of the Williams family and what he knew of the mystery as told him by his brother-in-law.

James and Eliza Williams came to the township of Toronto, County of Halton, from the township of Halton, County of Halton, in 1878. They were evidently of Irish extraction, but their previous history is not well known to their neighbors. The house is a small, two-story, frame house about half way between Cookville and Port Credit, and has since resided on that lot.

Description of the Murdered Man. Williams was a short, slight, dark, sharp-featured man about 60 years old, 5 feet 7 inches in height, badly crippled up with rheumatism. He had a small, short woman and aged 15 years her husband's junior. They had no children and but one daughter, Mrs. J. B. Williams, who is married to a farmer named Moody and lives about three miles north.

WRACKED BY WIND AND FROST. The storm caused such dire havoc to the wires of the first alarm system that it was necessary to station men on the towers of all the fire alarm towers. The wires in the outlying districts are in a fearful state, and will be for a couple of days. Of the nine circuits six are burnt out. The wires in the business portion of the city are in fair shape, but the police received instructions on an alarm of fire to run to the nearest telephone and give the number of the alarm. WRECKED BY WIND AND FROST

ATTEMPT AT FRIDAY'S VISIT OF THE STORM KING.

Immense Damage Occasioned to the Street Railway Service and the Telephone and Telegraph Lines. The Different Parties Concerned Promise to Hasten Next Time.

Torontonians who got up Saturday morning expecting a relief from the disagreeable weather of the previous day and night were disappointed. The dawn light, the slippy pavements, the murky atmosphere, all tended to make the day almost as unpleasant as it was on Friday. Although the rainfall had subsided, it was nearly bright before a storm broke in to die away into colder and clearer weather. The cold spell which then set in promised to be severe.

The influence of the storm was felt all over the country east of the Rocky Mountains, except the Gulf and South Atlantic. The Central and Middle Atlantic States, and by snow and rain over the Lake region in the Northwest.

Business in the city generally was completely wrecked by the receipt of the large sums of money for the week. SAVED BY THE WATCHMAN

MAY PASSENGERS HAVE THEIR LIVES SAVED BY A MIRACLE.

The Storm Wakes Out a Trestle and Bus. The presence of a watchman on a trestle near the Union depot saved the lives of a number of passengers.

The train leaving Toronto at 11 p.m. passed over safely at 8:40. A short time afterwards the watchman, Thomas Clark, heard a cracking sound, and upon going out to investigate discovered that the trestle work had collapsed and the tracks had sunk several feet.

THE TERRIBLE "LA GRIPPE."

Why It Attacks Adults and Spares All the Children. Is the Malady a Symptom of a Plague that will Burst Out Periodically as a Devastating Epidemic of the Future? What Eminent Physicians Prescribe As a Treatment.

The late Sir Morell Mackenzie, England's most famous physician, died on the threshold of his recovery, which, others, who hid behind a veil of mystery, are still exploiting on behalf of the profession for the benefit of humanity.

The family physician, in treating La Grippe as a disease, is as much at sea in his diagnosis as some of us are in prescribing for an infant, where we have little more than a guess as to the nature of the ailment.

The unimpaired nervous system of children is the protection which spares them from the grippe and many other acute nervous troubles, and continues to fortify them to the age when youth buds into manhood and womanhood.
