THE WORK OF THE RED CROSS

The Caravan Did Not Go To Hampton, It Remained At Bridgetown.

The Red Cross Caravan, which we have referred to in our columns many times recently, arrived here Monday afternoon on their tour through the province, having left Halifax last week. After viewing the climb over the mountain to Hampton where they were billed for Monday, Tuesday, and Wednesday, it was decided to spend the time allotted to Annapolis County in Bridgetown, leaving today for Church Point, Digby County. Monday night their usual programme of moving pictures and health talk was given in the Primrose Theatre by Dr. Craig which was crowded to the doors. There were far too many things arranged in Bridgetown for last Monday night considering the population. The Court House is the headquarters for the clinic while in town. Many more would have been attracted here if the advertising had not been put out stating that the whole affair would take place at Hampton. Hon O. T. Daniels paid \$10.00 for the rental of the theatre for the health talk Monday evening.

HAS PAID ALL BILLS A Digby County Young Man Who Has Made Good

(Digby Courier)
An episode which would form a good subject for an Horatio Alger to weave one of his books around has taken place here this week. Some twenty years ago a Digby boy named Alexander Martell left this town (as boys will do) to make his fortune. In Digby his lot had not always fallen in pleasant places and he had never known anything in the way of luxury. His parents were hard workers but were never blessed with much of this world's goods. Not long after he left his father died leaving nothing behind but a few unpaid debts. A year or so later his mother had become so destitute that she was placed in the almshouse where she died some months later. In the meantime Alex too had been scratching along, just making a living and nothing more. In 1914 he became interested in automobiles and his luck turned since then and one of his most poignant regrets has been that his parents were not alive to enjoy his good fortune with him. A few days ago, driving an up to date Pierce Arrow car, he arrived here on a visit to his sister, and has since occupied his leisure time in going around and paying up all the old debts left by his parents and today has them wiped out. He is much impressed with Digby and will probably be one of our regular visitors from now on.

BASEBALL NEWS

Wednesday afternoon Bridgetown was defeated at Berwick. Score 5-3
Wednesday evening the Annapolis Valley Cyder Co's men defeated Carleton Corner, 5-4.

Thursday night the Bridgetown merchants defeated the farmers 14-10
Friday the Bridgetown juniors defeated the Middleton juniors at Middleton, 7-0.

It is reported that owing to this being Cherry Carnival Day at Bear River, arrangements are being made to have the regular league games postponed.

ANOTHER QUERY

The ridiculous low price offered for wool, about 30 cents, will not, in all probability tempt the farmer to sell this year's clip now. "There is something rotten in Denmark," says the farmer, when clothes are so high and wool so cheap.

YARMOUTH'S PRINCIPAL BOAST

The Yarmouth Times in referring to one of their enterprising citizens, 1920, which exceeds that of any other year. This man delights in showing our beautiful Cemetery that was laid out by these gentlemen, who are now dead, and this is about all we have to boast of, is what Yarmouth has been and our burying ground, where the people who built Yarmouth are buried.

6,700 weasels were trapped in Nova Scotia last year.

120 bears were shot in Nova Scotia last year.

PUBLIC MEETING MONDAY EVENING

Town Council Authorized to Borrow \$5,000 For Schools and \$3,000 For Streets.

At a public meeting of the ratepayers held in the Council Room Monday evening the town Council was authorized by a vote of 25 for and none against to borrow a sum not exceeding \$5,000 to install a modern steam heating plant in the school building and make other necessary repairs. By a vote of 21 for and none against the council was also authorized to borrow a sum not exceeding \$3,000 for permanent road construction.

OLD HOME WEEK

(Kentville Advertiser)

Mr. John F. Masters of Boston, while in town this week, visiting at his old home, in referring to "Old Home Week", said he voiced the sentiment and wishes of the Canadian people, particularly Greater Boston, but also of New England that the people of Nova Scotia will not permit this most commendable undertaking to fall by the wayside and be thrown into the discard. Mr. Masters in his remarks says that everyone is intensely interested in having the "Old Home Week" celebration take place as was originally planned in the summer of 1924. He states further that the Provincial Government at Halifax, now seeking re-election, would do well to make this event a plank in their platform, in the coming campaign. It is more than a sentimental event for it can be made a means of far reaching importance to bring back to the homeland-Nova Scotia—tens of thousands of persons, and particularly young men and women, a percentage of whom at least will be attracted to remain and settle down in the province.

A HUNT FOR BRIDGETOWN

The Middleton Outlook says: If the fine example of public spirit shown by W. F. C. Parsons, Canon Morse, Mrs Croaker and Col Spongle in oiling a section of Main St were followed up and the business section of the town oiled it would greatly reduce the dust nuisance. Who will get a barrel of oil or half a barrel and apply it to a section of the street?

THE APPLE CROP

The Kentville Advertiser says: Apples are setting fine throughout the Valley and some orchards are expected to yield as heavily as last year which was an unusually good one. Orchardists are talking seriously of box packing this season and doing away with barrels for the packing of the best stock.

THE HAY CROP

The hay crop which was not looking very promising for an abundant yield up to a few days ago, has taken a fresh start since the heavy rain and prospects are now for an average cutting, which has already commenced.

LET'S PULL TOGETHER

A clean town creates comment. Comment advises a place. Advertising puts us on the map. Let's keep this town clean. Even one man can do much for the community in which he lives but when all men pull together there is no end to the possibilities.

BIG SUMMER TRAVEL

A statement of passengers carried between Yarmouth and Boston for the past ten years for the month of June, shows a total of 5,233 for 1920, which exceeds that of any other year. There was no steamship service in June 1918. The statement shows: 2,137 outbound, and 3,796 inbound.

During the absence of Bishop Richardson of Fredericton, the services at St. Annes Chapel, Harbour View, will be conducted by Rev. M. H. Van Allen, of the Church of the Advent in Boston. Bishop Richardson is attending the conference of Bishops in England and expects to return to Harbour View the middle of August.

REPORTS HER TROUBLES

Was Willing to Give the Department Some Business and Promised More

A new use for the trouble department of a telephone office has been discovered. The South Western Telephone News reports it in these words: "The family had not had their telephone very long, and everyone took a deep and abiding interest in it. On the outside of the directory they had noticed the words, "Trouble call No 4217."

It had been a hard morning, and everything had gone wrong. Finally the lady of the house, in desperation turned to her trusty telephone and called 4217.

"This is the trouble department," answered the operator sweetly. "Is this where you report your troubles?" asked the lady.

"Yes, ma'am."
"Well, I only want to report that our cat got drowned in the cistern this morning; the baby is cutting a new tooth; the cook left without warning; we are out of sugar and starch; the stovepipe fell down; the milkman left only a pint instead of a quart today; the bread won't raise; my oldest child is coming down with the measles; we have only enough coal to last through tomorrow; the paint gave out when I got only half over the dining room floor; the mainspring of the clock is broken; my three sisters in laws are coming to visit tomorrow; the man has not called for the garbage for two weeks; our dog has the mange; the looking glass fell off the wall a little ago and broke to pieces; and I think that my husband is taking considerable notice of a widow lady that lives next door. That's all today but if anything happens later I'll call you up and tell you about it."

NEWSPAPERS AND THE PUBLIC

(Manitoba Free Press)

That the newspaper performs an essential function in the business life of the community was convincingly shown in connection with the announcement of the new taxes contained in the Federal budget. These taxes came into effect on the morning following the budget, but particulars regarding the them were not telegraphed by the government to various parts of the country. It was simply left to the newspaper press to spread to every corner of the Dominion accurate information regarding the budget announcement.

The news service provided by the papers is now taken for granted and the press is relied upon to disseminate all important news. Some business men thought that they were not affected by the new taxes while their knowledge of them came only from reports in the newspapers. They expected to be officially notified by proclamation or otherwise that the new taxes had been imposed. But they soon learned that the notice which they received through the newspaper was all that would be given. The government considered further notice unnecessary.

This just shows how the newspaper press becomes a necessary part of the life of a country. The people could no more do without newspapers than they could do without railroads or the postal service. The business community constantly depends on the news service of the public press. Frequently the information obtained is of vital importance. And social life is almost equally dependent.

EDUCATION BEGRUDGED

(Vancouver World)

To provide reasonable accommodation for the hundreds of school children now housed in the badly ventilated basements of schools, to repair existing structures which have become a menace to health, and to provide for the technical education of 300 students who are needed in the city's growing industries, will cost the average ratepayer in Vancouver yearly the price of a couple of good cigars. Yet there are many ratepayers who refuse to pay that amount.

Eight papers have been forced out of business in Lambton County, Ont., within a short time.

But "Fruit-a-lives" Brought Health and Strength

"I am writing you to tell you that I owe my life to 'Fruit-a-lives'. This medicine relieved me when I had given up hope of ever being well. I was a terrible sufferer from Dyspepsia—had suffered for years; and nothing I took did me any good. I read about 'Fruit-a-lives' and tried them. After taking a few boxes, of this wonderful medicine made from fruit juices, I am now entirely well!"

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting then shortly you lift that bothersome corn or callus right off, root and all without one bit of pain or soreness. Truly! No humbug!

Farmers' Candidates Election Card

To the Electors of the County of Annapolis:

LADIES AND GENTLEMEN:—

At a largely attended Convention of the United Farmers of Annapolis County held in Lawrencetown, Monday, July 5th, the undersigned were unanimously chosen to contest the County in their interest in the coming County Election.

On account of the election being sprung at such short notice in the busiest month of the year for the farmers and fishermen we may be unable to meet all the electors before polling day. We solicit your votes and if elected we pledge ourselves to do all in our power to carry out the principles that our organization stands for; that is

MARINE NEWS

The government steamer Arle was in Digby Wednesday night. Schr Morning Star, Capt Harry Ross, was at Liverpool last week. Schr Westway, carrying lumber at Digby for New York, is about ready for sea. Schr Dorothy M. Smart landed 100,000 lbs fresh fish for the Maritime Fish Corporation at Digby last Thursday. Schr Valdare has arrived at Victoria Bridge with brick from St John for the new pulp mill. A lobster caught at Portland Harbor, states a correspondent, measures 1 ft 6 3/4 in long, and weighs 12 lb. Stuns Wm. Green, Capt H. W. Henshaw, arrived at Boston June 30 from Tampa and sailed July 3rd for New York. Shelburne Gazette: Boat fishermen all over the county are making big catches. It is one of the best summers for many years. Schr Peaceland, Captain J. Nelson Berry, discharged her cargo of hard coal at Annapolis and is now at Parker's Cove on the Bay of Fundy shore to take on a load of lumber from Smith's mill. Yarmouth Times: The yacht Alton, Capt C. W. Danforth, was in port over Sunday on her way from Lunenburg to Digby, where she will participate in the tourist trade. The Alton has been put in spick and span condition and looks better than ever. Mrs. Danforth accompanies the Digby Courier: We were shown this week by Fishery Officer Torrie a lobster claw, containing thumb and four fingers, resembling a human hand. Three of the fingers are jointed. This claw was given to Officer Torrie by John Wentzell, of Sea Wall. Old lobster fishermen say they never saw anything like it before. Mr. Torrie intends to send it to the Department Museum at Ottawa.

DID NOT SPEND ALL

Hard Times Experienced in the Good Old Days (From the Detroit News) Times, like eggs, are susceptible to various degrees of hardness. The people who are enjoying their Hard Times scabbies now have nothing on their grandfathers. There were hard times then, when the country was new. Granddad could have bought a ten acre field in the vicinity of Indian Village or Boston Boulevard for a 10 note, but he didn't have the money. He worried over financing an investment in a yoke of oxen and a wagon to take the family back into the wilds of Michigan, where he could pick out a sandy 80 that the boys won't live on and work of a kind those were hard times of a kind when a man worked sixteen to eighteen hours a day for 25 cents, and a man who owned a buckboard was in the limousine class. And some of those resolute, hard-handed old people braved the hardships of those hard times and founded fortunes for themselves. They did it by not spending quite all they earned.

ST. CROIX COVE

Rev. O. P. Wilson occupied the pulpit here Sunday, a. m. the 4th. Mrs. Silas Beardsley visited her daughter, Mrs. John Titus, Hampton, last week. Mrs. D. W. Marshall, Mt. Rose, is visiting Mr. and Mrs. Robert Marshall. Mr. and Mrs. D. F. Milbury, Mt. Rose, visited Mr. and Mrs. Webb Milbury this week. Mr. and Mrs. William Cropley, Lynn, Mass., visited their niece, Mrs. Joseph Hall, Friday, 2nd. Mr. and Mrs. John Graves, Port Lorne, spent the 8th at the home of Mr. and Mrs. D. M. Hall. Mr. Arnold Hall and Regy Hall, Beausid, have been visiting their cousins at the home of Mr. and Mrs. S. Zachaus, Hall attended the W. M. A. picnic held at the home of Mr. Ir. and Mrs. Elijah Risteen, Hampton, Wednesday, 7th.

The Big Value in FLOUR for Bread, Cakes & Pastry

The St. Lawrence Flour Mills Co.
Montreal, P.Q. LIMITED Halifax, N.S.

A BIT OF OLD-TIME HISTORY

(Berwick Register)
Some years ago, eighty or ninety approximately, it was customary in the autumn for the farmers of this fruitful Valley to drive their pigs up toward the slopes of North Mountain, where the beech nuts grew in great profusion, that the pigs—by adding these edible nuts in a large proportion to their diet—should yield bacon and ham possessing this delectable flavor. There the animals roamed at will until late in the autumn. In requesting a Mr. Magee to come and take home his pigs which had become a nuisance, Mr. Craig, grandfather of Mr. T. T. Craig, of Cambridge, who lived near the foot of the mountain at that time, used this rhyming letter, which we consider very clever and of which this is the only printed copy. We know it will be of interest to many relatives of both Mr. Magee and Mr. Craig in this County.

TO MR. MAGEE,
DEAR SIR:
When you receive this line Please send and take away your swine. For it is more than I am able To keep possession of my barn or stable. And I've had many a long and hard battle To keep these brutes from eating up my cattle. That Satan's in them no one here disputes. Nor is it the first time that he possessed such brutes. When first he entered swine they straight did run— Would youms do so I'd laugh to see the fun. Nor would I feel by any means provoked If in the sea they every one were choked. The women at their rave and pout And say they'd scald the devils out. Therefore, to remove them I would deem expedient. I am, respected sir, your most obedient.

MOTORIZING THE FARM

The horse has been declared by Thomas Edison to be the most inefficient machine in the world. In return for the amount of food and care needed, the horse returns less in work than any other machine.

The average team of farm horses costs \$400, a good set of double harness \$100, a wagon without box \$115, making a total of \$615.

A Ford Truck costs \$750 at Ford, Ont. A Fordson Tractor costs \$850 at Dearborn Mich.

The initial cost of motorizing a farm is slightly greater than the cost of a horse outfit, but the lower cost of operation and upkeep of the tractor and truck and the greater amount of work done easily put the horse out of the running.

Government experiments have proved that the cost of feeding a horse is 8.7 cents per working hour.

A team of horses cannot plow more than two acres in a ten-hour day. At 8.7 cents per hour or 17.4 cents per hour for a team, the cost would be \$1.74, or 87 cents an acre. A Fordson Tractor plows on an average of seven acres a day. The cost per acre averages not more than 75 cents per acre for gas and oil. The Fordson does three and a half times as much plowing in a day at a smaller cost per acre.

Suppose you are hauling produce to market or bringing out supplies. If the town is twenty miles away it will take you a whole day to make the return trip

with horses. If you have a heavy load and the weather is hot it will take you two days. If it took you twelve hours, the cost at 17.4 cents an hour for your team would be \$2.09. The average cost of running a Ford Truck, for gas and oil, is 4 1/2 cents a mile or \$1.80 for the forty miles. But with the Ford Truck you can make the return trip in four hours. The truck enables you to make three times as many trips and at a lower cost per trip.

But this is not all. If you motorize your farm you can get up an hour later in the morning. You have no horses to feed, groom or harness. You start work after breakfast.

When dinner is ready you stop at the end of the field, drive your tractor direct to the house, eat your dinner, and rest till it is time to go to work again.

In the afternoon your motor works just as well though the sun is hot and the flies are bad.

And at night when work is over you are through for the day,—no horses to rub down, feed or water.

You are always free to leave your farm for picnic or vacation—no worry about horses left behind to be cared for.

Every way you look at it the motor has the advantage over the horse. It means shorter hours on the farm, more work done in less time and at less cost.

Comfort WITH Economy The New Canadian Car

THIS Overland is built from the ground up to secure riding comfort, light weight and economy.

Triplex Springs combine, in a remarkable way, the economies of light weight with the luxury of riding, formerly possible only in a heavy car of long wheelbase.

In every detail of its equipment from Electric Starting and Lighting to Speedometer, Overland is high-grade and complete.

The large Canadian factory and service organization behind the Overland are big factors in the success of this new car for a new Canada.

THE VALUE OF A BOARD OF TRADE

No One Comes to a Dead Town if He Can Avoid it and Gets Out as Soon as Possible

(From the Busy East)

The value of a live Board of Trade in a town can hardly be over-estimated and every town which makes any pretensions to life and activity should have such an organization within its borders. Of course there are many varieties of Boards of Trade. All such organizations do not do effective work, but that cannot be helped. The success of a Board depends upon a few men, who, laying aside personal interests, are willing to sacrifice themselves, to some extent at least in the public interest. If a man is so entirely engrossed in his own affairs that he cannot spare a little time once and while to give to town matters, then he should go away back somewhere where it is quiet and commune with himself for a spell. He should try to see himself as others see him. He should look the whole situation squarely in the face and try to solve the problem of why men are put into the world. If a man after sober reflection, comes to the conclusion that the only aim and purpose in life is to make money with which to buy high priced automobiles and money to leave to his children to fight over, then such a man is hopeless, so far as public spirit is concerned. If on the other hand, the thought comes that he should make himself part of the town in which he lives; that he owes something to his community; that he should leave his town a better place than he found it, then a man naturally joins or helps to organize a Board of Trade which is a forum for public expression, a get together organization, which helps to smooth out civic difficulties and helps to promote the progress and prosperity of the town.

If there is no Board of Trade in your town, then see what you can do to get one organized. If there is a Board already in your town, then pitch in and see if you cannot do something to help on its work. If the Board is already progressive then throw a little more life and energy into it. The result will be that you will derive benefit and your town will be helped on the road to expansion. A town, you know, is what we make it. No one comes to a dead town if he can avoid it and if by chance he does come, he gets out at the earliest possible moment.

STRANGE BIT OF INFORMATION

"Doubtless," said the professor to the returned traveller, "you have picked up many strange bits of information regarding the animals and birds of the countries you have visited."

"A few," answered the traveller. "The most interesting thing I ever heard however, was a story I got in Africa. It seems that a year or so ago a representative of a rubber stamp house went through there and lost his sample case, containing all kinds of office stamping apparatus. It appears that some ostriches found the case, broke it open and swallowed the samples."

"I see nothing odd about that. Ostriches will eat anything."

"Yes, but now every ostrich egg that is found there is numbered and dated!"

WHY THEY ARE CONDEMNED

(Yarmouth Light)
We very often hear nowadays charges to the effect that the newspapers are unfair and unreliable. Probed to their source, it will, I imagine invariably be found that such charges come from those who are inimical to the public interests. It scarcely needs to be said in these days that the greatest protection there is or can be for the public interests is newspaper publicity and the obvious course for those whose disregard for the public good is discovered is to seek to defend themselves and their undertaking by condemning the newspaper as unreliable.

SOME APPLES

(Berwick Register)
Mr. S. B. Chute who last year harvested 22,000 barrels of apples from his 230 acres of orchard, expects a larger yield this year. Of course, Mr. Chute's success as a horticulturalist is due largely to the care and personal supervision of his orchards, both as regards cultivation and the use of chemicals. He has two dusting machines on the job this year and has already got away with fifteen tons of dust.

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. This kindly token came as a total and almost over whelming surprise to the recipient.

PROFESSOR HAMILTON'S WONDERFUL CURES

Testimonial of John D. Allen of Hampton, N. S.

DEAR SIR:—Kindly accept the following testimonial, from one who wishes others to know the great benefits received from your treatment. Four years ago, I was taken ill with stomach trouble and suffered untold agonies, which grew steadily worse, notwithstanding the treatment received from three of the best Doctors in the Valley, two of them telling me that my only hope, was in going to Halifax for Hospital treatment and possibly an operation.
For three years I could eat nothing, but the simplest foods, a little oatmeal porridge and this also distressed me awfully. I could never sleep more than four or five hours, and my nerves were terribly shaken.
My parents had given up hopes of ever being well again, and during an attack of Flu during the winter of 1919 passed very near to Death's door. My suffering continued and I was very despondent and it seemed as if there was no help for me then my father heard of the wonderful cures of Prof Hamilton and in September, 1919 I can eat anything. I fancy light work and enjoy my meals.
Today I can eat anything. I fancy without any distress, work twelve hours every day, fishing and farming and sleep like a top.
What he has done for me is miraculous and I gladly recommend him to others suffering as I did owing that his treatment cannot fail to give wonderful results.
Sincerely Yours,
JOHN D. ALLEN,
Hampton, N. S.
