## BRIDGETOWN RADIO AND LITERARY CLUB

Organization Meeting in Board of Trade Rooms, Friday—Large Attendance Requested.

A movement is underway to form what may be known as Bridgetown Radio and Literary Club.

Mayor Hicks has been asked to call a meeting for Friday evening of this week at seven-thirty o'clock in the Board of Trade rooms and every man interested is urgently requested to attend.

The object of the proposed Club will be fully discussed at this meeting, which briefly will be to install a first-class wireless radio which will enable the members to enjoy at all times the very best lectures, sermons, etc., as well as all news of the world as it is handed out from time to time.

In addition it has been suggested that the Club also subscribe for a choice selection of English, American and Canadian periodicals and journals, which will form the nucleus of a rare literary association.

It seems that this should be a real asset to our town and as some such Club has been talked of for some years past it is to be hoped that this movement will receive the hearty support of our citizens.

Let every man then be at the Board of Trade rooms on Friday evening at seven-thirty o'clock.

## 50th WEDDING ANNIVERSARY

Mr. and Mrs. W. J. Hoyt Remembered By Family And Friends On This Auspicious Occasion.

On Wednesday evening last members of the family and many friends called upon Mr. and Mrs. W. J. Hoyt to felicitate with them on an occasion which comes but rarely in the lives of married couples, a fiftieth anniversary. Fifty years ago Mr. and Mrs. Hoyt were united in marriage by Rev. George Armstrong, assisted by Rev. Mr. Wilkins and have always resided in Bridgetown where their circle of friends has been large. Members of the family who were not present by distance were present on Tuesday night and these, the friends, and the children far away recognized the occasion in most appropriate and suitable manners. Mr. and Mrs. Hoyt have a family of eight who hold excellent positions in their respective spheres. Mr. F. M. Hoyt, Mgr. of the Bank of N. S. at Port Antonio, Jamaica; Mr. C. M. Hoyt, proprietor of Middleton Marble Works; Mr. Hal Hoyt of the Purchasing Dept. of the British Empire Steel Corporation, of Sydney; Mr. G. E. Hoyt, who is mining in Northern Ontario.

The daughters are: Mrs. J. H. McDaniel, wife of Mr. McDaniel, of the Royal Bank, Middleton; Mrs. A. L. Woodrow, wife of Mr. Woodrow, of the Bank of N. S., Port Arthur; Mrs. Freeman Fitch, wife of County Clerk, Mr. Freeman Fitch; Mrs. W. H. Patterson, Toronto.

Mr. Hoyt in his past was an active figure in civic life, occupied a seat at the Council Board for seven years, was Mayor for two terms, and was Chairman of the School Board at the time the handsome brick High School building was erected here. He has thus played a worthy and active part and their many friends here and elsewhere will wish himself and his life partner many years of continued happiness.

## RURAL DEANERY MEETS AT ANNAPOLIS

The clergy of the Rural Deanery of Annapolis met on Monday and Tuesday of last week in the parish of St. Luke's, Annapolis Royal.

The Rev. W. Driffield, Rural Dean, Presided and the clergy present were the Rev. Messrs. E. Underwood, Secretary; Archdeacon Watson; T. C. Mellor, M. Taylor and A. W. L. Smith; while the Rev. E. D. P. Parry, Rector of Stomham Parva, England, was warmly welcomed to the Deanery.

Mr. Parry has temporarily exchanged parishes with the Rev. J. Reeks, Rector of Rosette. After the opening service, a portion of the Greek Testament was studied and an exposition to the same read. Great respect was expressed at the unavoidable absence of the Rev. Canon Morris who is leaving the parish of Middleton. Canon Morris has been one of the most valuable members of the chapter, and his learning and kindly spirit have endeared him to all his brethren.

In addition a resolution expressing the regard and affection in which he is held was unanimously passed and read by the chapter. Papers were read as follows:—"Contrasts" by the Rev. E. D. P. Parry. Mr. Parry was for some years a priest in this diocese and is thus able to indicate the points of difference between clerical work here and at home. "Reminiscences, parochial and otherwise," by the Rev. M. Taylor, dealt with his adventures as an Imperial Army officer in England, Malta, India and Canada, and his later clerical experiences. "Cathedrals I have visited," by the Rev. T. C. Mellor, was a most interesting account of some of his recent travels in the Old Country.

The official Deanery service took place on Tuesday morning at St. Luke's Church, when the Rural Dean celebrated the Holy Communion and also preached an edifying sermon. The Rev. E. Underwood and the Rev. A. W. L. Smith who both delivered instructive and practical sermons. The kind hospitality of the Rector and Mrs. Mellor, the entertainment furnished by several parishioners, the stimulating debates and the lively bracing weather, all combined to render this a meeting long to be remembered. The next meeting is arranged to take place at Granville Ferry.

"You are a great man," said Lord Beaverbrook to Bonar Law after the latter became Premier. "If I am," replied Mr. Law, "then most of the great men in history have been frauds."

## Clarence

A "house-warming" was given Mr. and Mrs. F. W. Jackson on Friday evening last. About fifty neighbors met to welcome Mr. Jackson and bride in their new home. Luncheon was served by the visiting ladies. The table was well filled with useful presents including cash, and most everything useful in the pantry.

We welcome Capt. Crooks and family to our community, having purchased what is known as the Karakulu sheep farm in Clarence East. This is one of the best farms in the country, and we hope the Capt. will be successful in his new enterprise.

The lovely Fall is making it possible to finish up the work before Winter. Plowing, pressing hay, threshing, etc., is about finished, while the apples are all stored in the warehouses.

Another season closed and the "stone crusher" still idle. Have we not a right to know where our road taxes have gone for 1923.

## REORGANIZATION OF G. W. V. A.

Officers Appointed for Year—A vigorous Effort Will Be Made to Increase Membership and Interest.

A very well attended meeting of the Bridgetown G.W.V.A. was held on Wednesday evening of last week for reorganization purposes and there was evidence of a very considerable amount of interest among the members attending. A number of applications were received for membership from ex-service men.

Officers were elected as follows: President—V. A. Lloyd, 1st Vice-Pres.—George Dechman, 2nd Vice-Pres.—W. W. Flett, Executive Committee. The officers, K. L. Crowell and F. H. Beattie, W. E. Gesner.

There was a hearty expression of appreciation from the members to Comrade G. H. Warey, who was Secretary for the past two years of the local branch and who is leaving for Boston this week.

Comrades K. L. Crowell and H. T. McKenzie were named as Trustees of the Memorial Fund. There was also some discussion on the matter of the local G.W.V.A. being reimbursed for their expenses in connection with last year's Centennial celebration and an effort will be made to have the matter adjusted.

Another matter also taken up was the advisability of getting the ladies interested again in Auxiliary work. It was felt that this would be a big step in advance and assist greatly in this general work of the Association. There is to be a lowering in general dues and a vigorous effort will be made to increase the local membership and to keep up a good measure of the "esprit de corps" which distinguished former days.

The comrades were very pleased to have among them Col. C. E. Bent, who gave them an informal talk with many interesting and helpful suggestions.

### EXTREMES MEET IN GERMANY

(Ottawa Citizen)

The Federal Government in Germany is liable to go down, and the new republican structure to crack under the internal strain of political extremes in conflict. The powers in control of the state of Bavaria have never reconciled themselves to the German republic. They are monarchists and still believe in government by absolute authority. In the neighboring state of Saxony, the Socialist Government has moved so far to the extreme left that it is regarded as passing into the ranks of the communistic states.

The government in Berlin is finding it more and more difficult to hold the balance between the extremes of absolutism and communism. In addition to this internal strain, pressure from France makes the burden more than the German republic can much longer survive. Civil war in Germany is threatened. It would have a devastating effect on the whole of central Europe; and, without contemplating the possibility of additional turmoil through Russian intervention, the situation is sufficiently serious to be of immediate concern to Great Britain and the western world. The possible crash has been foreseen by British statesmen all along since the Peace Conference at Versailles. Unfortunately the statesmen and political leaders, while fully conscious that France's policy might lead to another European civil war, have been virtually helpless in the face of it. Great Britain is liable to become embroiled, largely because no progress has been made towards economic reconstruction away from the belief that prosperity at home is dependent first upon exporting to markets abroad.

## POLITICS AND JUSTICE

(Dearborn Independent)

There are twenty times as many murders in New York city every year as in all England, Scotland and Wales. There are ten times as many murders in Chicago every year as in all France. What is the reason? One reason, no doubt, is the population, but the best it is only a secondary reason. The principal reason is the political aspect of American justice. In a recent Boston campaign the writer heard all sorts of candidates from Congressmen down, base their pleas for election or re-election on their record for getting accused men out of the toils of the police or free in the courts. Just as there are industries that claim special tariff protection, and support the officials who secure that protection, so the crime industry of the United States looks to politics generally for protection. The only people who ever talk about having "influence" in official circles are those whose misdeeds created the need for it. The plain citizen has no "influence" and does not know how to go about to get it.

There is less justice and more crime in the United States than in Great Britain or France. Which means in those countries there is more justice and less crime. It might be well for the Government to study the methods by which the authorities overseas avoid the political necessity of coddling criminals.

## IN MEMORY OF MOTHER

The following poem is in memory of Mrs. Isaiah Rampey, who departed this life June 19th, 1921:  
Dearest mother, you have left us,  
Left us to mourn and to sorrow deep,  
But we know that you are resting  
In that long and peaceful sleep.  
Mother dear we now have left you,  
In your peaceful grave to rest,  
But your memory will be cherished  
Till we see your heavenly face.  
Friends may come and go hereafter,  
None can fill the vacant place.  
But we'll ever in our memory see  
Your bright and smiling face.  
Your dear, we seem to hear,  
Your sweet voice say: "I am at rest,  
Weep not for me dear children,  
But think it for the best."  
Mother dear, oh, how we miss you,  
How we miss you none can tell,  
But our parting won't be lasting,  
Only just a short farewell.

## WINTER COVERING FOR STRAWBERRIES

(Experimental Farms Note.)

Strawberry plants may be injured by alternate freezing and thawing, which tends to lift them out of the soil and thus injure or break the roots. They may be injured during the cold of winter by the frost drying out the crown of the plant and the leaves. Heaving of the plants seldom occurs on a well draining soil, but on soils poorly drained the plants are likely to suffer considerably, particularly during the very early spring after the snow has melted. In certain situations there may be little loss from cold, as the drying effect of the cold may be lessened because of the natural protection afforded, or the snow may give the protection required.

In order to make sure of the plants carrying through the winter successfully it is wise to protect them with a mulch. A mulch of any material tends to hold the soil under it at a more uniform temperature. The soil will not freeze so quickly under a mulch and is slower in thawing than where no covering is given. Thus with a mulch the plants are better able to avoid the alternate freezing and thawing of spring, with its consequent disastrous results. If the injury is due to drying out, which often happens in exposed situations, the mulch will overcome this trouble. Plants exposed to the cold, and unprotected from dry, cold winds may be completely dried out. Under such conditions, if the air is dry, a heavier mulch may be necessary than where the atmosphere is humid and the consequent loss from evaporation less.

In situations with a fairly moderate climate a light mulch is all that is necessary, as too heavy a mulch may cause injury because of the plants being kept damp and mould developing. In the colder sections a good blanket of snow can usually be depended upon, and under such conditions a heavy mulch with the snow above may also produce unsatisfactory conditions for the plants.

Of all mulch materials good, clean straw free from weed seeds is the best. This is scattered evenly over the plants at the rate of 2 tons per acre. A covering thick enough so that the plants are nicely hidden from view is usually ample, and careful scattering, giving an even light covering, is most satisfactory. A light covering of clean marsh hay may be used, but more care is necessary to give a light covering than with straw, as the compact hay may hold dampness in the spring and result in decay of the plant. Spruce boughs make a good covering, but it takes considerable time to gather and place them.

The mulch should be placed in November when the ground is nicely frozen, and is removed in the spring during the last week in April or early in May. It may be gathered when dry and used for bedding, or may be placed between the rows to serve as a summer mulch, thus conserving moisture and keeping the fruit along the edge of the rows clean from sand.

## WEDDING

Nickerson-Poole.

The marriage of Miss Kathleen D. Poole, to Mr. Harry N. Nickerson, took place at his home in South Braintree, Mass., Nov. 17th. The ceremony was performed by Rev. Mr. Peener, whose former home was Bridgetown, N. S.

The following Monday they left on their honeymoon trip to the home of her parents, Mr. and Mrs. Bradford Poole, St. Croix Cove, where a wedding reception was given on Tuesday evening, 20th inst. The parlor was decorated for the occasion in white with a large bell suspended in the centre of the room. The bride, who was very prettily attired in a gown of white Canton crepe, was the recipient of a number of gifts in linen, silverware, and a substantial sum in cash, testifying to the esteem in which she is held. A sumptuous supper was served. Two beautiful bouquets of yellow chrysanthemums, a gift from the bride's aunt, Mrs. Silas Beardsley, adorned the table.

Before leaving each guest was presented with a piece of Boston wedding cake to retain as a keepsake.

After spending a fortnight they will return to South Braintree, where they will in future reside.

APPLE POMACE FOR FEED

Thousands of tons of apple pomace are going to waste annually which might profitably be turned into food for wintering cattle, says the United States Department of Agriculture. Studies to determine the food value and best methods of utilizing this by-product from commercial cider and vinegar mills have been made by the department.

When the moist apple pomace can be used fresh or ensiled it yields a succulent cattle food comparable with corn silage. The quantity that can be used in this way is limited, however, because of the relatively high cost of transportation for material having such a high water content. Its most profitable utilization depends upon its preservation by dehydration and producing it as a commercial food. In feeding trials with dairy cows dried-apple pomace proved to be a palatable feed and appeared to be equal pound for pound of dry matter to good corn silage. The material was fed wet and replaced the corn silage in a ration including grain and hay.

## N. S. WOMEN'S INSTITUTES

Bear River, Plympton and Smith's Cove

The activities of these three branches cover many phases of Institute life. To them outside societies make their appeal and through Institute efforts substantial aid has been given to such institutions as the Halifax School for the Blind and the Infants' Home.

At home their good works have been manifold. Many deeds of kindness have been performed. Shut-ins have been taken for motor rides, financial help has been given to those in need. The lives of the sick have been brightened by flowers and by visits from Institute members. Christmas cheer has been provided for destitute homes and at the almshouse.

Library work has been carried on in each community. Bear River has had splendid success along this line and has now a library of about 150 books, which is open to the public every Saturday afternoon. Among the recent purchases at Smith's Cove was a reading lamp for their library which is in a thriving condition. Plympton Institute, not yet a year old, has made a good start in this work and school improvement.

The sanitary condition of the school has been of special interest to the Bear River branch since its inception and good progress has been made. During the past year work for the school included the serving of 1000 cups of cocoa to the school children, and the raising of money for a very comprehensive price list. In connection with the King's English convention Miss Archibald spoke under W. I. auspices and the institute offered a number of prizes for this work.

At Smith's Cove beautiful pictures were placed on the walls of the school rooms where they will prove an inspiration to both teachers and pupils. Two comfortable chairs were purchased for the school and there were fitted with cushions by an honorary member 86 years of age. A container has been purchased for drinking water and a strong effort was made to improve sanitary conditions. An illustrated lecture of birch was given to the pupils by one of the members and a sewing class was conducted for the girls.

Among the ways adopted for raising funds for carrying on their work at Bear River were a "Drovers' Party" and a "Rummage Sale," both of which proved highly successful. The work of the Publicity Committee which supplies news for several papers, added a considerable amount to the treasury. Among the expenditures, all of which were for the good of the community, was the purchase of socks for the baseball team.

Patriotic activities at Smith's Cove included decorating the soldiers graves with flowers and flags and holding a public meeting on Armistice night.

Interesting programmes have been enjoyed by each of these organizations. The special features at Smith's Cove included talks on "Wild Flowers and Trees of Nova Scotia," "Economy Botany," "Halibut and Customs of the People of St. Ives," "A Trip Across the Continent to Vancouver" and a description of the devastated grounds of France given by one who had visited them. Community sings have become common. Books were purchased for this purpose and a number of "sings" have been held on the verandah of the members.

MRS. H. S. CUNNINGHAM,  
Publicity Secretary.

AN HISTORIC EPISODE

On Sunday, November 11th, the colors of the 25th Canadian Infantry Battalion and of the 85th Canadian Infantry Battalion, Nova Scotia Highlanders, were transferred with appropriate ceremony from Government House, Halifax, to the Province Building. Standing on the steps of the latter historic structure Premier Armstrong said in part:

"In the name and on behalf of the Government and people of Nova Scotia I accept for safe-keeping the colors of the 25th Canadian Infantry Battalion and of the 85th Canadian Infantry Battalion, Nova Scotia Highlanders.

"As the representative of the Government and people of this Province I assure you that these precious memorials of gallantry and loyalty will be reverently and securely guarded within the walls of this historic and public building. They will remain here as a perpetual reminder to all of us, of our indebtedness to these brave and gallant soldiers and to edify and inspire the generations of the future.

"The 25th Battalion was the first battalion of Nova Scotians to be wholly raised and equipped in this Province, and the first to man the trenches in France and Flanders. "The 85th Battalion was thoroughly representative of Nova Scotia and was undoubtedly one of the very best infantry battalions sent from Canada overseas.

"In honoring the colors of these splendid regiments we are honoring all the men who willingly left farms and mines and shops and fishing villages of Nova Scotia and of Canada to safeguard the liberties of our Dominion and of our Empire. They fought that we might continue to enjoy the priceless gift of freedom. Many of them laid down their lives that we and our children might live in peace and happiness. Let the measure of our gratitude be in keeping with the greatness of their sacrifice."

BANKER URGES THE U. S. TO ACT

New York.—Otto H. Kahn, international banker, told the Foreign Policy Association that it was the duty of the United States to determine what should be done in the Franco-German crisis.

"I will not criticize the policy of the United States," he said, "but certainly it has not been a red blooded one. "The United States should determine first in its own mind what should be done and then the public should be taken into its confidence. Let it then state openly what the issues and circumstances are under which the United States would help."

THE GRAY DAYS OF NOVEMBER

(By G. Frank Burns.)

The gray days of November Shall get no plaint from me; I know shall come the Springtime, And happy I shall be; I draw my chair and closer And to where the warm glow cheers, And dreaming in the freight, Look back across the years.

Mine is a steadier courage To meet November days; Mine is a faith serene To walk life's fruitful ways; Mine is a love grown stronger Than ever youth could know To walk the way appointed Through Winter's falling snow.

The gray days of November, Will bring a silence deep, A blessed lull of resting When Earth and I shall sleep; But time shall bring a waking Which God will surely send— Through days of gray November I wait the long year's end.

Trapper Finds Vicks Handy For A Host of Ills

Ontario Man Says It Is A Most Useful Remedy.

Mr. C. Phoenix, of 755 Grey Street, London, Ont., writes: "I am very pleased to recommend Vicks VapoRub. I am a hunter, trader and trapper, also a fisherman. I use Vicks VapoRub in place of liniments, because it is very handy to carry and always gives such quick relief for small animal and insect bites, and for chapped hands and lips. My boots would blister my feet and I rubbed it on them and it made them just right. When I go trapping next Fall I will have plenty of Vicks VapoRub in my kit. I call it the "Trapper's Friend." I have not had a cold all Winter and I go out all the time and sometimes stay out all night with my traps."

Vicks VapoRub, the discovery of a Southern druggist, is a combination in salve form of Camphor, Menthol, Eucalyptus, Thyme, Turpentine, etc. Absorbed through the skin and at the same time inhaled as a vapor, Vicks reaches immediately inflamed, congested air passages.

It is the modern direct treatment for all cold troubles, the successor to goose grease, camphorated oil, liniments, poultices and plasters.

Used for croup and children's colds, Vicks gives remarkably quick results and also avoids nauseating internal dosing. Just as good for cuts, burns, bruises, bites, stings.

At all drug stores, 50c a jar. For a free test size package, write Vicks Chemical Co., 344 St. Paul St., W. Montreal, P.Q.

Though Vicks is new in Canada it has a remarkable sale in the States. Over 17 million jars used yearly.

AGED MAN BABLY INJURED BY AUTO

Albert D. Parker, of Granville Ferry, Was Struck by a Car.

Ven. A. W. Watson attended the Diocesan Mission Board meeting in Halifax last week.

Miss Bernasconi is the guest of friends in Halifax.

Alden Winchester, of Lynn, Mass., is a guest at the home of Mr. and Mrs. Ralph Chisholm.

Fletcher D. Williams, who has been recently transferred from the Bank of Nova Scotia staff, Tatamagouche, to that in Parry Sound, is ill in the hospital here with appendicitis.

Dixon Regan, of Port Williams, is a guest at the home of Mrs. E. E. Wade.

Albert D. Parker, aged eighty-four years, was knocked down by an automobile and sustained serious injuries on Wednesday afternoon. Mr. Parker was returning from Annapolis and was directly behind a team about to come off the approach to the bridge onto the road when a car came along going to Annapolis. The car, which was being driven slowly, swerved out of the road for the team and came into contact with Mr. Parker, who, somehow dodged in front of it. Mr. Parker put his hands on the radiator of the car, fell backwards, falling on his side, the car passing over him before it could be stopped. It is feared that his injuries, three broken ribs, will prove fatal. The accident occurred right in front of his own home. Mr. Parker was planning to leave for the United States to spend the winter with some of his children. His children are the Rev. Boyd Parker, of Pugwash, whom he has been visiting recently; Augustus, Avard and Clarence Parker, all of the United States; Mrs. Lucy, of Massachusetts, and Mrs. Rena Parker, of Florida.

BEFORE MY BABY CAME

I Was Greatly Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont.—"I took your medicine before my baby was born, and it was a great help to me as I was very poorly until I had started to take it. I just felt as though I was tired out all the time and would have weak, faint spells. My nerves would bother me until I could get little rest, night or day. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to recommend this good medicine. I will send that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will help others take it."—Mrs. HARVEY MILLIGAN, Sydenham, Ont.

It is remarkable how many cases have been reported similar to this one. Many women are poorly at such times and get into a weakened, run-down condition, when it is essential to the mother, as well as the child, that her strength be kept up.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be taken in safety by the nursing mother.

CANADA'S TRADE FOR SEVEN MONTHS SHOWS ENORMOUS GAIN

Ottawa.—There was an increase of nearly \$173,000,000 in the total trade of the Dominion during the first seven months of the present fiscal year, according to returns made public by the Department of Customs. There were increases in both exports and imports, but the rise in imports was much greater than in exports. The total trade for the period under review, the seven months ending with October, was \$1,094,564,000 for the current year as compared with \$921,999,000 for the year previous. Canadian exports rose from \$430,000,000 to \$540,000,000, while exports of Canadian produce increased from \$490,000,000 to \$553,000,000.

His head struck a railing and he laid in an unconscious state for half an hour before assistance came. He is confined to his home yet, but we hope he will soon be able to be around again.

BAPTIST CHURCH NOTES

Rev. R. F. Allen was in exchange with Rev. A. J. Prosser last Sunday. The latter was representing the Children's Aid work on the Nictaux field. It is confidently expected that when the few outstanding pledges are in the total amount pledged by the entire church will reach \$100. The Pastor addressed a meeting held under the auspices of the Loyal Orange Lodge at Paradise on Monday evening. Rothaus Masonic Lodge will worship with the Baptist Church on Sunday evening, the 24th of December. The Pastor will deliver the address. The Inglewood Sunday School will meet in the Baptist vestry at Bridgetown next Sunday, and thereafter until further notice is given. The subjects for next Sunday are: at 11 a.m., "On the Move", and at 7:00 p.m., "The Perils of Popularity." Last Friday evening Rev. W. S. Smith, of Paradise, spoke very acceptably to the B.Y.P.U. meeting. At the same hour the Pastor spoke at West Paradise on Child Welfare. He will speak on this subject at Hampton next Thursday evening. The committee in charge is preparing the membership list of the church for a Roll Call to be held in the near future. "The Dorcas Society" meets this week at the home of Mrs. George Dixon on Thursday afternoon at 2:30. D. A. R. TRAINS NOS. 96 AND 97. Announcement is made that trains 96 and 97 running between Kentville and Annapolis, commonly known as the "Owl" train, will be discontinued after November 30th, 1923. Reduction of train service is said to be inevitable following the continued loss in the operation of these trains.

WEDDING

Foster-Benson. Myrtle Lottie Foster, daughter of Mr. and Mrs. Curtis D. Foster, of Hampton, Nova Scotia, and Francis W. Benson, of Kennebunk, Me., were united in marriage last Saturday afternoon at the Baptist parsonage in Westbrooke, Rev. Burton H. Tilton officiating. The double ring service was used. The bride wore a travelling suit of fawn color with hat to mate. They were attended by Mr. and Mrs. Harry Tomlinson. Following the ceremony the bridal party journeyed to Saco, Me., where a reception was held at the home of Mr. and Mrs. George Chapman. Refreshments were served and the bride cut a handsome wedding cake, ornamented with a miniature bride and groom and orange blossoms. They received many beautiful gifts including china, silver and a magnificent floor lamp. They have the many good wishes of their friends with whom they are so highly esteemed. Mr. and Mrs. Benson will make their home on Friend St., Kennebunk, Me.

OBITUARIES

Mr. Stafford Guest. A sense of sadness crept over Young's Cove last Saturday when it became known that overnight Stafford, eldest son of Mr. and Mrs. Watson Guest, had passed into the Great Beyond. Some five or six years ago Stafford's health began to fail but treatment at the Provincial Sanatorium, Kentville, seemed to restore him and returning home and working with care, he maintained fairly good health for a long time. Last Spring, however, it became evident that the severe winter had seriously undermined his not over-strong constitution. He gradually failed, taking to his bed about a month ago, with the end coming, as indicated above, late on Friday evening. He was in the thirtieth year of his age. With the exception of the time he spent at Kentville, Mr. Guest has lived with his parents at Young's Cove, where he was highly respected and affectionately regarded, by all who knew him. He is survived by his parents, one brother, Leon, who lives at home, and five sisters, viz., Mrs. Gordon Marshall, Beausfield; Mrs. Chas. Wade, Hillsburn; Ruth, at Wolfville; Thera and Rhea, at home. Interment took place at Young's Cove, last Sunday afternoon, after a short service at the home, and a memorial service will be held next Sunday afternoon in St. Peter's-by-the-Sea, (Young's Cove), the congregation of which Mr. Guest was a valued member.

Clementsport

Clementsport.—On Friday, the 16th inst., O. Balcom, L. V. Shaw, Roy Merritt, and A. Milner returned from their moose hunt, bringing with them a moose which fell to the rifle of Mr. Merritt. "Roy" only went out with A. Milner the Saturday before, and joined the other two at their camp. On Friday evening, the 16th inst., a very pleasant birthday party was given by Mr. and Mrs. Fred Ruggles in honor of their daughter, Ruby, who attained her 18th year. All present had a most enjoyable time. Cards and music made the time pass all too rapidly. We join with others in wishing Miss Ruggles many happy returns of the day. Mrs. Arthur Burns, of Kentville, came on the 17th inst., to visit her mother, who is ill. The Annapolis Rural Deacons was in session on Monday and Tuesday, the 19th and 20th, in Annapolis Royal. Rev. A. W. L. Smith was in attendance throughout the session and was the preacher in St. Luke's Church on Sunday evening. Christmas trees are being brought by the car load to the station, where four car loads are to be shipped, and a car load from Deep Brook. The shipper is A. D. Knox and the trees are consigned to Boston. Bert Jones and his wife, of Ulysses, Penn., came on Tuesday, the 20th inst., and are visiting Mr. Jones' parents, Mr. and Mrs. Watson Jones. He had a fall before leaving his home, which injured his ankle, and he walks quite lame. George Ross has returned from St. John hospital to his home, but will have to return shortly for further examination. He is still weak. This time last year we had snow and winter was upon us. This year the weather is mild, the ground still soft, good ploughing, and the grass is as green as summer. The main thoroughfare from Clementsvalle to Clementsport, the Brook Road, or what is left of it, has been in miserable shape all summer, the bridges particularly. Some little work is being done on it.

HOW TO STORE POTATOES

Thousands of bushels of potatoes are lost annually by careless storing—by being put in wet in comparatively warm and poorly ventilated cellars and by being piled in great heaps. Touching on this matter the Dominion Horticulturist in Bulletin No. 90 of the Dominion Experimental Farms, that is to be had on application to the Publications Branch, Ottawa, furnishes advice that could profitably be well heeded. In the first place potatoes should be stored as far as possible in perfect darkness in a cool, well ventilated cellar. Instead of heaping the potatoes against the wall slats should be nailed, a little apart, about six inches or more from the wall. A temporary floor should also be laid a similar distance above the permanent floor with cracks between the boards. This plan will permit air to circulate under and through the pile. If large quantities have to be stored and the piles have to be made very large, square ventilators formed of slats and running from the top to the bottom, heaps can be placed here and there, which with the ventilation derived from the spaces below and at the sides, will keep the potatoes in far better condition than if they are packed solidly. Another plan for storing the tubers is to put them in large crates made from slats with small interstices between. The temperature is an important point. While every precaution should be taken against frost, the heat should not exceed from 23 to 35 degrees F. A further matter of importance is to provide some means of letting in cool air when Spring is at hand, to prevent sprouting. The best method is to let the cool air in at night and keep the cellar closed during the day.

A THRILLING STORY Captain Robinson, R.N.R., commander of the Canadian Pacific Steamship Empress of Australia, has written a thrilling and instructive account of the experience of himself, his crew, and his ship in the Japanese earthquake. This report has been issued by the C.P.R. in the form of a neat booklet, and it makes interesting reading. The fire following the earthquake and the relief operations later on are vividly described by Captain Robinson. The commander of the Empress of Australia explains that his ship was preparing to leave the dock at Yokohama on Saturday, Sept. 1st, when the first earthquake took place, and he relates the incidents of the disaster as they were brought to his notice from that time until September 12th when, after encountering innumerable difficulties, including a fouled propeller, and a sea of burning oil, and serving as a hospital and relief ship for the earthquake sufferers, the Australia left the stricken Orient for Vancouver.

Stories of Captain Robinson's heroism and outstanding seamanship with which he upheld the traditions of the Royal Navy Reserve, and his consideration for the suffering ones at great personal cost and effort, have been accorded a little of the publicity which is their due, but his report is modest in the extreme, and although one can glean from it some of the great problems which he faced, this hero of disaster reports only the good works executed by those identified with relief work. It is therefore fitting that the company should include in the booklet letters addressed to Captain Robinson by the refugees, passengers on the ship, and the American Relief Committee, in recognition and appreciation of his skillful handling of the many critical situations which presented themselves. The report is an historical document recording the greatest natural disaster known to man.

THE PULP WOOD COMMISSION The Montreal Gazette contains an excellent article re the Pulp Wood Commission, a portion of which we here reproduce: "The responsibility for the success or failure of the inquiry must rest upon the Government, which appointed the commission and defined its authority. The course which the commission has pursued up to the present has had, presumably, the sanction and approval of the Government; it cannot be said to have made a very favorable impression upon the public. It does not appear for example, that the commission has taken or is taking adequate means of informing itself upon the real question before it the conservation of Canadian resources for the benefit of Canada.

The practice of hearing voluntary witnesses cannot be relied upon to serve this purpose; it is obviously open to abuse, affording, as it does, an opportunity for interested parties to put in evidence calculated to serve an entirely different purpose, and to overload the record with evidence of that character. An inquiry that is open to all concerned is proper enough, but it looks very much as if, in the application of that principle, the Canadian case is being pushed into the background. The commission, we take it, should obtain the evidence of responsible Canadians who understand Canadian forestry conditions, the pulpwood industry, and the strategic position which that industry holds in relation to international commerce; otherwise the object of the investigation is likely to be defeated, and the report, when it is forthcoming, will be of little value. It is fair to assume that the Government regards this inquiry serious-

NEW PASTOR FOR WOLFVILLE CHURCH

Wolfville.—At a special meeting of the Wolfville Baptist Church on Wednesday evening the Rev. A. N. Marshall, D.D., of Ottawa, was invited to become pastor of the church to succeed Rev. J. H. MacDonald, who retired this Fall, to accept a professorship on the Theological Faculty of Acadia. Dr. Marshall is a native of Bridgetown, N. S., and a graduate of McMaster University, Toronto. His first pastorates were held in Adelaide and Melbourne, Australia, where he won instant renown. At the expense of the Y.M.C.A. he was brought from Australia to Canada and the United States to give a series of addresses to mass meetings of men. He has since held important pastorates in Winnipeg, Toronto and Ottawa. Dr. Marshall is recognized as a keen ability, and a man of virile and attractive personality. Should he decide to accept this call, the church is to be congratulated on obtaining a scholar, a consecrated leader and a man of power.

SAILS

Alas! must ye utterly vanish and cease from amidst us, Sails of the olden sea? Now dispossessed by the stern and stunted iron-clad, Winless and squat and stern? Purple Sails of the heroes lured to the westward, Spread for the golden isles! Sails of a magic foam with fairy plunder, Watting the wizard gold! Sails of the morning, come like ghosts on the sea-line, With midnight load of the deep! Sails of the sunset, red over endless waters, For the farthest Orient filled! Sails of the starlight, passing we know not whither, Silent, lighted and lone! Sails of the sea-man accursed and cruising forever, Sails set fire by the lightning, rebounding to tempest, That drum and thunder and sing! Sails that unruffled repose in a bosom of azure, Glazed by a placid flood! Alas! must ye go as a dream and depart as a vision, Sails of the olden sea? —Stephen Phillips.

THE SPIRIT OF SUMMER

Spirit, that comes on the wings of night, Swaying the trees as you pass along, Why won't you tarry to let me hear, The soft sweet notes of your farewell song?

But she heeded not my pleading voice, And passed me by in the shades of night, Leaving to me a memory dear Of Summer days with their golden light. I heard not the song of the woodland bird,

ly and intends it to be effective. To make it effective, however, some alteration, at least in the procedure seems imperative. United States interests, which have protested vigorously against the proposed embargo are represented before the commission by counsel who are, naturally, making the most of the American case. If these gentlemen have the right to be there and to cross-examine witnesses as they have been doing, it is reasonable to suggest that the Canadian Government, should itself appoint counsel to assist the commission, and should clothe him with authority to direct the course of the inquiry upon the lines originally intended. Something, at any rate, ought to be done to restore public confidence in an investigation for which the public are paying, and upon which so important a question of public policy depends.

CALF SALE PROCEEDS BUY ONE HERRING

Clausthal, Saxony.—The widow of a farmer living near here, has lost the proceeds from the sale of a calf which she marketed for one million marks six months ago.

The woman failed to keep in touch with the value of the mark and when she drew her money out of the savings bank it proved sufficiently only to pay for one ordinary herring.

I saw not the beauty of tree nor sky, For I mourned for the sprite with her silvery voice, And the farewell song that had passed me by.

Then once again I heard her voice, Singing the song I loved of old; And all at once I heard the birds, And saw the beauty of Autumn's gold.

For I knew by the joy in her rippling song, She'll come again with the Summer wind, To stay until the Summer fades And, awaken the memories she left behind. —Eileen Cameron.

**POLITICAL GUNS BOOM IN ENGLAND**  
London.—The big guns of every political party have opened fire, either through platform oratory or by manifesto, last week-end.  
One or two things have become clearer over the week-end. Firstly, Lord Derby, the potentate of Lancashire Unionism, is obviously very uncomfortable both because he does not favor an election at the present time and because he does not like tariffs, on principle. Secondly, it is evident that Lloyd George is entering the fray with his full old time lust for battle.

**STOMACH TROUBLE DUE TO THIN BLOOD**

It Usually Disappears When the Blood is Made Rich and Red

Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than good, rich, red blood.  
Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles and awakens to normal activity the glands that supply the digestive fluids. This is shown by an improved appetite, and soon the effect of these blood enriching pills is evident throughout the whole system. You find that what you eat does not distress you, and that you are vigorous instead of irritable and listless. If your appetite is fickle, if you have any of the distressing pains and symptoms of indigestion, you should at once take Dr. Williams' Pink Pills and profit by the better condition in which they will put your blood.  
These pills are sold by all dealers in medicine, or you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Exceptional Kills in Quebec and Ontario**

WITH the coming of the frost and the "Moon of the Falling Leaf" comes also the hunting season for caribou, moose and deer. For the past ten months, thousands of sportsmen have been longing for the return of the season. And today the season in Quebec, Ontario, New Brunswick, Nova Scotia, Alberta and British Columbia is in full swing. Once more the naked woods are echoing with the crack of the hunter's rifle and the red blood of Canada and the United States is piling itself against the monarchs of our native wilds.  
In Quebec, good chances for deer are reported from Lake Megantic, the Laurentians, the Gatineau Valley, along the Waltham branch line of the Canadian Pacific, Timiskaming-Kipawa district and other points, while in Ontario, Farry Sound, Byng Inlet, Pakesey, French River, sometimes referred to as Lac le Croix, they met several cow moose and an immense bull. But the climax came when another splendid bull obligingly took up a position within 50 yards of their tent. The first shot from the doctor's trusty rifle brought him down and Mr. O'Keefe finished him off.  
Again, from F. W. Arnott's Tem-Kip Camp, 30 miles up Lake Timiskaming from Timiskaming Station, at the mouth of Kipawa River, word comes of how Mr. J. A. Cavanagh, of New York, got his moose within an hour and a half of leaving camp, and was back within two hours and a half. Next morning, while the animal was being skinned, another big moose calmly watched the operation for five minutes from a point close by.  
After that, you can still keep your hand off your rifle?

## TEETHING TROUBLES

Baby's teething time is a time of worry and anxiety to most mothers. The little ones become cross, peevish; and their little stomach becomes deranged and constipation and colic sets in. To make the teething period easy on baby the stomach and bowels must be kept sweet and regular. This can be done by the use of Baby's Own Tablets—the ideal laxative for little ones. The Tablets are a sure relief for all the minor ailments of childhood such as constipation, colic, indigestion, colds and simple fevers. They always do good—never harm. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### MT. HANLEY

Guests at Mr. J. Fritz the past week were: Mr. Verge A. Card, Wolfville; Mrs. J. N. Hines, Cottage Cove; Miss Marjorie Horton, Port George; Mr. and Mrs. John Fritz and daughter Evangelina, also Mr. Clarence W. Fritz, Douglasville; Mr. and Mrs. A. M. Healy, Outrap.

We understand that Mr. and Mrs. B. M. Armstrong and family are going to leave our community and go to Middleton. We are very, very sorry to have them leave us, but "what is our loss is some one else's gain."

Several from this place attended the serenade of Dr. and Mrs. M. W. Brown of Port George, Nov. 18th. All say they had a splendid time with plenty of cake.

Her many friends was glad to see Miss Adelaide I. Fritz out to church on Nov. 11th after her illness of several weeks. Although Adelaide has been troubled with appendicitis for several years it did not prevent her from being one of the most successful teachers in the county and we wish her the best of health and luck in the future.

Mr. Lorne Winchester of Brooklyns, spent Nov. 18th, the guest of Mr. Wylie Barteaux.

### Sewing Circle Gossip.

There was some discussion at the circle this week about winter trips to the Mediterranean. The wife of the new Belle manager said that if she once started she would like to go as far east as Luxor on the Nile. She thought that if this place were only as interesting as Luxor ORIENTAL COFFEE is satisfying, it would surely be worth a visit.

## "King Cole" Preferred

A growing preference is expressed for KING COLE TEA. What other explanation could there be for its persistently increasing sale? Every year of the twelve that it has been before the public has marked its strong steady advance. A good long testing time—long enough to prove the merits or reveal the weakness of any article. Public confidence has been demonstrated in no uncertain way. The testing stage has been passed with honour.

### THE HOME TOWN PAPER

It is always a good day when the home town paper is put on our desk. Show, we feel sorry for those who read only the big dailies of the large cities, and never see the paper from their own town. Many a pen that might be a power in the metropolis strolls listlessly across the lesser pages of the country weekly, because its owner, perhaps, prefers to work every day, can go home to dinner every day, through quiet streets overarched with familiar trees and paved contentment. In its editorials and comments, one catches gleams that would adorn the big dailies because of its wholesomeness its viewpoint untaunted by greed and selfishness. Long live the little weeklies over the land, bearers of glad tidings and contentment with their news from the home town.—Hill.

## A Good Place to go in Winter

1. Parliament Buildings, Victoria, B.C.
2. Golf may be played every day in the year.
3. Famous Malahat Drive, Vancouver Island.
4. Vancouver is a beautiful modern city.
5. Magnificent mountain scenery en route.

Nature has dealt most generously with Canada in respect to her climate. While in the East we have winter weather worthy of the name, with lots of snow, which nowadays proves an attraction to thousands who revel in the bracing winter atmosphere and enjoy our winter sports of tobogganing, skating, etc., there are many who seek a warmer clime. We have this in Canada also.

Within the last few years, thousands of our Canadiana people have been making their annual winter pilgrimages to the Pacific Coast, many to avoid the rigors of winter, and many simply to indulge in a winter vacation.

Victoria and Vancouver, on our own Pacific Coast, offer ideal retreats. Here flowers bloom in winter, and the grass and trees are always green. South-westerly breezes prevail throughout the year, reaching the land warmed by their passage across the vast breadth of the Pacific, whose waters on this coast have a temperature of 52 degrees. In Victoria, 49 degrees has been the mean annual temperature for the last thirty years, while Vancouver is a little colder, but extremes in weather are never experienced. Golf and other outdoor sports may be engaged in all winter, while both cities have magnificent natural settings, and hundreds of

miles of the finest roads on the continent invite motoring. You have the grandeur of mountain scenery, glorious seascapes, luxurious evergreen forests and invigorating sea air, with all the advantages to be found in a modern metropolis, for Victoria and Vancouver are two of the finest cities in the Dominion. The mountains en route through the Canadian Rockies are magnificent in their sombre winter dress—a fairland of surpassing beauty. The Canadian National Railway passes through the mountains at the lowest altitude and easiest gradients of any transcontinental railway in America.

Mr. and Mrs. Stewart Spurr arrived on Saturday from Windsor, the former returning on Monday, the latter to remain a week.

Mrs. W. F. Ritchie and Mrs. C. Frude were in Bridgetown on Saturday.

### THE BLUENOSE

(Hon. Joseph Howe)

Let the student of Nature in rapture descend  
On the heaven's cerulean hue;  
Let the lover indulge in poetical rant  
When the eyes of his mistress are blue.

But fill your glass—fill, to the brim  
I've a different toast to propose;  
While such eyes, and such skies, still  
Are beaming for him.  
Here's a health to the jolly Blue Nose.

Let the Frenchman delight in his vine covered vales,  
Let the Greek toast his old classic ground;  
Here's the land where the bracing Northwester prevails,  
And where jolly Blue Noses abound.

Long—long may it flourish, to all of us dear,  
Loved and honored by hearts that are true;

But, should ever a foe chance his big nose to show here  
He shall find all our Noses true Blue.

There is talk of a skating rink for Berwick. It is understood that Mr. Douglas Chute is giving the project serious consideration, his ultimate decision depending upon the practical support that is forthcoming. If a reasonable number of season tickets can be disposed of within the next week or so, construction work will be commenced immediately. Berwick is sadly in need of a skating rink and it is to be hoped the enterprise will have the hearty support of every citizen. Get a hustle on, "Doug," if you mean business, as the skating season is getting mighty handy.—Berwick Register.

Invention of a gasoline engine without pistons, which its inventor believes will revolutionize the motor car industry, has been announced in Kansas City, Mo., by Charles Brotherton, Mechanical expert, who has tested the engine say it will effect remarkable economy of gasoline.

There are two things to do if you want a cup of really good tea. One is to buy the right kind and the other is to make it the right way. The best tea in the market today is MORSE'S SELECTED ORANGE PEKOE and the proper way to make it is to take a fresh water, absolutely fresh, and heat it until it comes to the boil, then having put your tea in the teapot, pour this boiling water on it. Six minutes afterwards you should have a cup of tea that is fit for the gods.

### The New Superior Chevrolet Chassis

The Final Achievement in Economical Transportation.

### A Quality Chassis which can be used with any Standard Body

CHEVROLET Economical Transportation is now available to the light truck user at a lower price than ever before. It is no longer necessary for the buyer of a Chevrolet Chassis to have a special body prepared.

The construction of this new Chevrolet Superior Chassis permits any standard body to be built on to it. Two popular types of body are shown in the illustration above. Many others are available, at moderate cost, to the buyer of a Chevrolet Superior Chassis.

Accompanying this new measure of economy are the usual Chevrolet qualities of power and endurance, and the many improvements recently completed in the Chevrolet Superior line.

Combined, these render the new Chevrolet Superior Chassis the greatest value of its kind in Canada. Every prospective light truck owner should inspect it at our showrooms.
