FRIEDMANN RETURNS TO MONTREAL TO TREAT PATIENTS SECOND TIME

MONTREAL, April 30.—(Can. Press.)—The authorities of the Royal Edward Institute received a telegram from Dr. F. F. Friedmann tonight stating that he would arrive here at 7.30 o'clock tomorrow morning for the purpose of giving a second inoculation of his serum to tubercular patients whom he treated upon his former visit. Immediately on receipt of the telegram, physicians and nurses began notifying the 55 patients treated by Dr. Friedmann several weeks ago to the effect that a clinic would be held at the Royal Ed-

ward Institute at 2.30 o'clock tomorrow afternoon. Dr. Friedmann's future plans were not revealed in the telegram sent to Dr. Adami, and whether the German physician will visit Toronto and London during his stay in Canada, could not be ascertained.

Provincial Secretary, in Giving Evidence Before Committee on Privileges and Elections, Stated That Harry Maisonville, Who Cherished a Grudge Against Him, Attempted

on Several Occasions to Blackmail Him and Had Been

W. K. M'NAUGHT WAS TOLD BY MAISONVILLE THAT HE WOULD "DOUBLE CROSS" HANNA

Hon. Dr. Reaume, Two or Three Years Ago.

Sensational Developments at Investigation Into Proudfoot Charges When the Provincial Secretary Made His Statement, and Sir James Whitney Paid a High Tribute to His Colleague, Saying That No Man Had Done More For the People of Ontario and For Good Government in

the Province Than Had Mr. Hanna.

Out of the stress and turmoil of one of the most spectacular assemblies of the privileges and elections committee in the history of the province, Hon. W. J. Hanna stepped forth yesterday with his character and reputation for integrity blameless and above suspicion in the eyes of the public. In spectacular fashion the mists of questionable conduct iniquitously conceived in the mind of a personal enemy and spread about his head by certain members of the opposition were dissipated; the charges fell flat, and the confidence of thousands of electors in the calibre

of public men was vindicated. It was without doubt the statement of the minister himself, plain matter-of-fact and concealing nothing, which literally knocked the last prop from beneath the Proudfoot charges. Early in the day their ultimate failure was discernible as witness after witness filing to the bcx testified to intimate knowledge of the uprightness of the department administra-

"Up to this moment there has never been a suggestion, near or remote, or by anyone living or dead, of any irregularity in my department," said the minister himself in concluding his testimony, and the committee felt the truth. Not only so, but Sir James Whitney seized the opportunity, gladly, as he said, of stating that in the eight years of association with Mr. Hanna

in the cabinet his conduct and the management of business had

been of a character exceptionally creditable.

CHARGES TRACEABLE TO MAISONVILLE. The evidence of L. E. C. Thorne and others, and the statements of the minister, made it plain that the launching of the charges is traceable directly to the venegeful spirit of one Harry Maisonville, a former secretary of the minister of public works. who had been detected in the theft of a private letter and dismissed. Against the provincial secretary since that time he had nursed a bitter grudge and sought means of turning public disapproval upon him for that reason. It fell to the lot of the present proposer of the charges to hold out the first encourage-

The feature of the morning's session was the abandonment of the case by Hartley Dewart, K.C., the prosecuting counsel, and the withdrawal one by one of the opposition members of the committee in the wake of Mr. Proudfoot. Altho each, including the counsel, in brief valedictory style claimed that the action was not preconcerted, the stand of the committee in restricting evidence to the exact charges of wrongful issue of the fiat and the award, they declared, muzzled the enquiry and closed all avenues of approach to the heart of the matter.

A challenge of Mr. Nesbitt to convert the list of insinuations into charges was disregarded and examination proceeded in their absence.

MAISONVILLE CHERISHED A GRUDGE.

In rapid, straightforward manner the minister unfolded the origin of the Proudfoot charges and showed them clearly traceable to one Harry Maisonville, ex-secretary of the minister of public works. This man had long cherished a grudge against him, as the history of events would show.

"On one Sunday night early in the spring of 1912 the telephone rang in my home, and a voice, later found out to be that of Harry Maisonville, called up and said that he had a letter and photographs of documents concerning me, and that he was going to make it impossible for me to stay in public life. Either I was to come myself or send some one to Windsor to look over the documents and see how important they were.

"I told him that he had no documents which could concern me whatever, and if he wished to publish them to go ahead. TO GIVE THE DOUBLE CROSS.

"Later on-it was at the London assizes in the spring-he again called me on Sunday evening, at the Tecumseh House, and said: 'I have waited long enough and am going to publish them tomorrow. I am going to give you the double-cross. You did me on one occasion'-referring to the time when I had illtreated him, or failed to stand by him when I could have.

"I told him," said Mr. Hanna, "in language which I will not repeat here, what he could do, and hung up the receiver. I told him in the identical language of Mr. McNaught, that he could publish it on every sign-post from Windsor to Montreal, but I was not going to be blackmailed by him."

"Was that the last you heard of him?" asked Mr. Nesbitt. WILL LAND BEHIND THE BARS

"No, he has gone from man to man in prominent life in the province, and he has been ordered out of their homes. I got this from the men themselves. He was told that sometime these documents would place him behind the bars. These messages from the parties have come periodically, and apparently with

HIS is what the bountiful earth is doing for many men. What is it doing for you?

Do you buy your corn by the can, or do you sell it by the bushel? Do you buy your food by the pound, or do you sell it by the acre? Do you think this man in the picture ever worries

about something to eat? Or do you think he was ever wor ried about an appetite to eat it with? Why he feeds his pigs better food than we in the city He can gather his dinner from his own land. He gets his eggs before his hens are through cackling about laying

them. His meat is sweet and tender and fine. His pocket and his stomach are always full. If you haven't any land, get some. If you have poor land, get good land.

It's absolutely silly for anybody not to be rich in this great big bountiful Canada. There are Farm Lands for sale in every copy of this paper. You can find offers with terms which permit anyone. to buy. New sections of richest soil are being opened up

every day. Are you envious?

All you have to do is to turn to the Want Ads of this paper, and look under the heading of "Farm Lands." Just answer a few of these numerous offers, and before you know it, you will be supplying food to hundreds of others instead of making a poor little meager demand for

In this day every man with an ounce of brains owns land, and every man with two ounces owns good land. Mention this paper please when you Answer the Ads.

the desire of worrying the heart out of me. I suppose, however, I have no right to complain."

Sir James Whitney, when called into the box, was asked his knowledge of the whole affair from the first. His answer was very similar to the explanation he made in the house a few days ago, and dealt with the visit of George C. Taylor to his office. "I do not know very much of this thing," he said. "It is two or three years ago, as far as I can judge, that a man are the facts. There has never been the suggestion by any one, living or came into my office to see me, one whom I did not know by

"He introduced himself," explained Sir James, "as George C. Taylor of the Taylor-Scott Company, and said he had a claim which was delayed, and that Mr. Hanna was evidently determined he would not get it. He said that he did not deserve such treatment, and had given Mr. Hanna \$500 for the election fund some time previous to the election of 1908.

"He became very earnest," said the premier, "and said some things that looked like intimidation. However, I told him

that it was useless to attempt to intimidate me."
NO DOUBT OF HIS PURPOSE. "You spoke in gentle accents," suggested Mr. Nesbitt.
"Yes, in gentle accents, but there was no doubt of the impression I wished to convey," said the premier, amid the

laughter of the committee. At this point Sir James expressed one of the warmest tributes to the provincial secretary which have yet been uttered

"Unquestionably."

He said that he had spoken to Mr. Hanna about the contribution, and that the latter had replied deprecatingly because he knew of the practice of the government, but there was one reason which had caused him to overlook the seriousness of it—a reason which he had not mentioned to Mr. Hanna said it was not a fair term thin at the time.

"The man who makes the charge knew it to be a falsehood and put it before the public as a falsehood. The question of the fiat never came before me. I never spoke to a human being about it, neither to Mr. Cartwright, "There is literature to be prepared, and there are lists to be made out."

Bared It All.

The provincial secretary, however, broke in with a determination to expose the falsity of the whole atmosphere created about him, and in spite of interruptions from the chair laid the whole situation bare.

"Up to this moment there has never the end of the chair laid the whole atmosphere created about him, and in spite of interruptions from the chair laid the whole atmosphere created about him, and in spite of interruptions from the chair laid the whole atmosphere created about him, and in spite of interruptions from the chair laid.

"Up to this moment there has never been a suggestion, near or remote, of irregularity in my department," he asked the chairman, and the members laughed heartily.

Mr. Hanna was then called to the box. He explained that Taylor was then called to the fer. It came to me indirectly that I had been written to Mr. Hanna with the underfeed solvers on the exact letter in question. It had been written to Mr. Hanna with the underfeed solvers on the exact letter in question. It had been written to Mr. Hanna with the underfeed solvers or the exact letter in question. This ended the stoker suggestions.

Again the chairman tried to interfere,
but the provincial secretary wanted to
settle the coal contract insinuations.

"Go or "read the committee of the coal contract insinuations."

"Go on," roared the committee.

"As to coal, in the year 1905 when the tenders came in before they were opened, John Swords of Kingston came in to say that he had made a mistake in his tender and that he had overled the tender and that he had overlooked trimming and insurance; that it meant thirteen cents more." He explained that the committee had quite properly ruled it out the day before, but that it was taken, did it have any influence was answered. "Has there ever been a charge by your opponents of bytoery?"
"There has never been a witness in the box. In 1911 I think there were the box. In 1911 I think there were one or two protests, but there has never been a charge to this date, so far as I know," said Mr. Hanna.

"The \$500 went to the proper source?"

mour Eaton's Business Book, and which has been such a pronounced success. The World struck a popular chord when they inaugurated the coupon plan of obtaining useful books. Some books depend largely on their fancy binding to secure buyers. Not so with Seymour Eaton's latest business book. It is plain, unpretentious looking, and its outside appearance would not make it a seller, but the 100 Lessons in Business, which it contains, are so useful and necessary to those who aspire to a business career that it occasioned no surprise when the thousands took advantage of the opportunity to secure one through The World's popular coupon plan. There are still some laggards who have neglected to secure one of these books. This notice is directed to them. After next Monday it will be impossible to secure this book. Twelve coupons clipped from consecutively dated issues of The World, together with the charge of 77 cents, which merely covers the cost of duty, freight and packing, will secure it. To those who have not saved the coupons, the presentation of proof at this office of a paid in advance subscription to The Daily World will be accepted in lieu of the coupons. No exceptions will be made to these conditions, as it is only to regular readers of The Daily World this book is available. The book contains 100 lessons, and every lesson is a necessity to a successful business career. For instance, lesson No. 13 deals with commercial interest. Lesson No. 18 exercises in stocks and bonds. No. 19 is the arithmetic of partnership. Double entry bookkeeping is taught in 15 lessons. Lesson No. 47 treats of banks and trust companies. Lesson No. 65 is on organization of stock companies. Lesson No. 78 is the lightning calculators' rule, and lesson No. 99 is "miscellaneous in short cuts and principles."

Every young man and woman who aspires to a business career should be in possession of one of these books. Every Business Man who has not had the opportunity of an early husiness education should also possess one. In fact, every business house, every manufacturer's office, every artisan, every farmer, and every woman who manages her own home should

Choux Paste and Fillings

TERE are four fillings for cream puffs or tarts, made with choux paste The filling should not be put in until the cakes are cold. Cut an incision on one side or remove a cap from the top of the puffs.
Whipped cream filling: Beat one-half pint of cream until firm, flavor and sweeten and add a little dissolved gelatine to make it hold its shape.

As the quantity of cream used will determine the amount of gelatine needed, the exact proportions cannot be given, but they will be found in the directions on the box containing the gelatine. Custard filling: Put half a pint of milk to heat in double boiler; beat the yolks of two eggs, a heaped tablespoon of corn starch, half a cup sugar and a half a cup of cold milk together. When the milk in the boiler is scalding, pour it on the egg mixture, beat a moment, return to boiler and cook, stirring often, fifteen minutes. When cold flavor with vanilla, rose,

almond or lemon. If the custard is to be chocolate flavored, add the grated chocolate to the milk with the other ingredients. The same rule applies to coffee custard; very strong black coffee will be needed and a little more corn starch

than called for should be used. Cream-puff biscuit: Make the choux paste and as soon as it has the last egg beaten in and is velvety and smooth, pour the mass onto a paper baking sheet or sheet of tin and spread out to a quarter of an inch thickness. Bake in a slack oven as directed for the puffs in preceding article.

When done remove the paper from bottom and spread the sheet of paste with French icing or fine jelly and roll up as with a jelly-roll cake. Fasten a sheet of paper or a towel about it to hold it in shape until cool.

When cold cover with frosting, then slice and cover slices with Condealmonds. These are almonds chopped fine and mixed with white frosting.

French fritters are the ideal fried cakes. They are made with the same paste that is used for cream puffs. Drop small spoons full of the paste in very hot fat in which nothing else has been fried. They will swell and turn themselves over. When a nice even brown, take from the fat and drain, then dredge heavily with sifted, powdered sugar. Another French sweet-cake that is sold on the promenades of the sum-

mer resorts and boulevards abroad, is called "Gauffre." This is baked on a special iron, but waffle irons will answer, and the cakes will delight everyone. This recipe was obtained in Mentone-sur-Mer. Whip six egg whites until their texture is fine like white linen.

In another bowl mix flour and water to a thin batter; flavor with vanilla and put in the whipped egg whites as quickly and gently as you can. Have the irons very hot and well buttered. Bake one gauffre and if it is right it should rise, filling the iron to the top. If the loss not, the batter is too thick, and more water should be added to make it very thin. When the batter is right, half fill the irons with it; bake over hot fire, turning but once.

Dredge with powdered sugar as soon as baked. Almond Macaroons are another fancy cake that puzzles the uninitiated. Ground almonds are bought at the confectioners; moisten them with The appearance of this dress is that rosewater before adding to egg white. The recipe is: 1 cup ground almonds.

In this case curds are vomited and are also seen in the movements from the bowels. Babies who are rocked or bounced up and down are very apt to vomit. If the clothing is too tight the food will sometimes be vomited because of the pressure on the stomach. If constipation is the cause, the vomiting will not cease until the bowels can be made to move regularly.

The first thing to do when the breast-fed baby vomits frequently is to make the periods between meals longer and keep to exact regularity of time in feeding. If this does not stop the vomiting, nurse him for a shorter time at each meal.

After another slight cough, and a Mowlem. There cannot be any ad-

pause, the lawyer went on:
"The man whose dead body was found near Claude G. Waverton's ear has been identified as Charles B. Scott, an American tutor in the family of Don Miguel Santander of Rosala, in York today, and the tutor would have accompanied them. It was his habit to take long walks late at night.

"The coroner's theory of the accident is that Waverton tried to avoid hitting of an awkward curve, but that the automobile either swerved or skidded on some wet leaves. The dead man had evidently been driven with fearful force against a telegraph pole, as medical examination showed that his skull was fractured and his neck broken."
The lawyer's quiet voice dropped,

with the manner of one who had come to the end of a paragraph, and Mrs. Waverton turned from the window. with the mainter of one who had come to the end of a paragraph, and Mrs. Waverton turned from the window. "Is that all?" she asked. "Practically all." "But nothing definite is said there concerning my—concerning Claude's injuries?" "Oh, it gives a few details—those I have already told you of." "Oh it gives a few details—those I have already told you of."

"Oh, it gives a few details—those I have already told you of." Mr. Mowlem was a precise man. He disliked subterfuge, and was noted for his avoidance of the lawyer-like inex-actitudes known as legal fictions. Something in his air caught Doris Waverton's troubled glance. And she was unquestionably a bright and in-telligent creature—little more than a girl in years, but a woman in sad ex-

erience.
"I think I ought to know all the facts, Mr. Mowlem, before making a decision which may have a far-reaching effect in the future," she said Curtis & Lamb, received him with the gravely paternal air which elderly legal advisers are wont to assume in the presence of wealthy prodigals. There was no escape for the lawyer.

He might still have juggled with words; but he realized that his client words; but he realized that his client would surely learn the truth before many hours had elapsed, and he could not assume the onus of actually misleading her.

He picked up the newspaper again and read:

Waverton seemed to became aware of a scrutinizing glance. "I am a somewhat changed person since my accident, Mr. Curtis," he said. "It has left its mark on me, as you have seen for yourself, no doubt. I mean to look into my affairs, put everything in or-der, and go away for a long rest. Will it matter if I sign papers with my left

"Yes, my right wrist was sprained and dislocated, and that is far worse than a break, as everybody knows. Can you come with me to my bank? I called at the bank this morning, and the teller explained that he had seen so little of me in the past that my illiterate scrawl needed some explanation. Of course, I don't blame him; but this matter should be put right."
"Certainly. I had no idea you were so knocked about. I am sorry now. Mr. Waverton, that we did not appeal to your wife's sense of fair play—"

"Has not everything been for the best? I am free, and Mrs. Waverton is free, and I gather from your last letter that she will receive yearly ten thousand dollars a year from the trustees. She has nothing to grumble at now. surely?"

Curtle was still more puzzled; but he did not want to quarrel with a good client. "Your wife—" he began.

Waverton broke in curtly. "Please remember that she has ceased to be my wife."

The lawyer lifted his hands in pained astonishment. "Obviously the estate is yours absolutely," he said, "yours to do with as you will, subject to—er—the provision made by the court for Mrs. Waverton and the child. Your cousin, were he alive, would have to be considered, perhaps, but, since he is dead, its disposition resis with you. Yet, a young man rests with you. Yet, a young man like you need not be seriously perplexed about your successor. You have had a sufficiently narrow escape on this occasion to warrant immunity from further mishap for a long time." "But how about my will?"

"Does that hold good now?"
"Assuredly, until you after it. Shall I take fresh instructions?"
"No"

"No."
The lawyer dropped the pen he had taken in his hand by force of habit.
"You mean that the old will is to stand?" he said, genuinely bewildered.

making that full disclosure pointed out as being necessary in Bentley v. Marshail. For this reason I think the action fails. Plaintiff's claim against Steele is based upon allegation that when Cormaci: purchased he purchased in truth as agent for himself and Steele. I find their allegation is not proved. The plaintiff therefore fails against Steele on this ground as well. Cormack claimed indemnity against Steele upon the theory that when nity against Steele upon the theory that when the agreement to share the profit was made Steele agreed to bear all the loss. This steele agreed to bear all the loss. This theory is not supported by the evidence at all. The action will therefore be dismissed with costs to be paid by plaintiff to both defendants, and Steele will be entitled to costs of third party proceedings against Cormack.

SOO'S DRYDOCK PROJECT.

SOO, Ont., April 30.—(Special.)—The arrival in the city of Dr. Casorety has revived interest in the drydock project at once and the doctor appears to have lost no time in getting into touch with the mayor and council. The mayor with the city solicitor met Dr. Casorety in the mayor's office, where a long conference was held. No extension of the time for completion is asked, that time being now fixed at Oct. 1, 1914, and if the extension for commencement is tween Bay and York street, daily except Sunday at 5 p.m. This dock is conveniently reached by crossing York
Street Bridge and thus saving any dewinter, Dr. Casorety putting up \$25,000 bond.

FAST FIGHTING BY HEAVYWEIGHTS

McCarty Has Slight Margin on Moran in Ten Rounds at New York.

NEW YORK, April 30—Luther McCarty outfought Frank Moran, the Pittsburg heavyweight, in a ten-round bout here

heavyweight, in a ten-round bout here tonight.

The fighting was at a fast pace for heavyweights. Moran did most of the leading and frequently the men stood toe to toe and exchanged freely their hardest blows, both receiving much punishment about the body.

McCarty relied upon a hard left to the fact, but often left his guard open, enabling his opponent to get in a strong left hook.

abling his opponent to get in a strong left hook.

McCarty had the better of the first round, but Moran evened it up in the next. In the third the fighters came together in a fierce clash. In the fourth, Moran landed a straight left, drawing blood from McCarty's nose. The fifth was even, but McCarty took the next two. McCarty tired in the eighth, a left hook sending him to the r-pes and in the ninth Moran got in some mor- good blows. McCarty finished strong, landing often in the last round, while Moran, who kept borling in, was wild and missed most of his blows.

ORDINARY FEATHERWEIGHTS.

LOS ANGELES, April 30.—Negotiations were begun today for a return match between Johnny Kilbane, the featherweight champion, and Johnny Dundee, was fought a 20-round draw with him at Vernon last night. Last night's fight was unsatisfactory in every way, according to the sporting writers. Altho Kilbane led easily on points, the draw decision was commended on the ground that Dundee was the aggressor and coming in at all times, albeit usually covered up It was the concensus of opinion among fight frequenters today that neither boy would make good against a lightweight—the often expressed ambition of each.

The Lachine Club having deraulted, Rosedale first met the Toronto Club on 5th and 5th of August, but was not successful in lifting the cup.

The final game between Toronto and the Winnipeg Wanderers was played on the Toronto Club grounds on 2nd and 3rd September, and the Toronto Club being the winners the cup remained in the possession of that club. The Toronto Club may, therefore, be called upon to defend the cup in three challenge games in the year 1913.

The trustees have decided that all challenges must be made by letter to Mr. D. W. Saunders, 19 Wellington street west, Toronto, on or before the 10th day of May. Each challenge must be accompanied by a marked cheque for \$10. In the event of more than three challenges being received, it will be necessary to arrange preliminary matches in order to decide which will be the three to decide which will be the three to clubs entitled to play the Toronto Club as holders of the cup.

Pro. Players Are Barred From Amateur Competitions in Toronto-Soccer News.

The council of the Toronto & District Football Association held an important meeting last night in Occident Hall. It was decided to bar Big Four players from competition. However, any men signed by the pros. will have the chance of getting back if they apply before next Monday.

ting back if they apply before next Monday.

Also it was decided that any Toronto teams, desiring a game outside the city must first apply to the Ontario F.A. and if that body agrees the consent of the T. & D. must be procured. There is nothing but harmony as yet among the probodies.

In future Messrs. Campbell of the Toronto pros. and Campbell, Queen City, will not be permitted to attend meetings of the T. & D.

The professional soccer teams have made arrangements about playing grounds and they will soon get out to practice and try to recover any lost ground that the other teams in the Big Six may have already got on them. Dufferin Park will be the scene of the interprovincial football battles and the baseball people who now have a lease on the ground will make room for them by moving their diamond more to the south and leaving the other end clear for the footballers.

Six Teams to Be Represented at Lally's Convention on Saturday.

One of the most important matters to be brought before the meeting of the National Lacrosse Union on Saturday evening in Montreal will be the appointment of a competent board of officials, which will be conducted under much the same conditions as that of the interprovincial Rugby Football Union. Should the clubs fail to agree on the choice of officials before Wednesday night each week, the president will appoint them from the board. There will be one or two changes made in the penalties. When a player is ruled off a substitute will be allowed in his place, which will keep ten men on the field at all times. There will be no fines this season, due to the number of amateurs playing on the teams. ber of amateurs playing on the teams. St. Patricks, St. Thomas Aquinas and Sherbrooke have been notified to send delegates to the meeting, as well as Cornwall, Shamrocks and M.A.A.A. The money now to the credit of the association will be expended in the purchase of a hand-some trophy for competition, and the running expenses of the union for the coming season. Several well-known la-crosse men have been suggested for the board of officials to be appointed.

Now that the D.L.A. have secured a commission, and the little gaps in the wall have been blocked up, so that those contract-jumpers and hold-outs are figuring out just where they get off at, the word has been passed along that the salaries this year will resemble something near what an honest working man should be getting. Twenty-five dollars has been mentioned as the rate at which such heroes of the sward as Lalonde, Fitzgerald, Fowers, Graydon and Kinsman will perform for under the burning rays of a Canadian sun.

That Alex, Seed has been tendered a contract by the Tecumsehs, is the latest from Ottawa.

Con Jones got busy right away as soon as he reached Vancouver, and soon had the following signed up: Archie Adamson, Dot Phelan, George Matheson, Bones Allen and Harry Griffiths, The salary question has not been a stumbling block there, for, altho it is said that they are not as high as last year still they are not as high as last year, still, they ex-

E GRACE, April 30.—Gorads-on favorite, won the feady, the Perryville Selling Stakes. Ame owner's Gallop and Ral Parr's autor were the only two other enview that had a chance, and they were withdrawn. The entry list was materially cut down on account of the track, which still continues heavy, thus favoring mud runners. Willie Waddelf, Garth's colt, did the unexpected when he won the second event, defeating the favorate. Wooden Shoes. Form players regarded Waddell as a dangerous factor, however, and the public evidently shared that view, for the odds were shortened by the support. Rolling Stone gathered in all the moss lying around loose in the handicap. Besom was considered the best entry and it was expected that Chuckles would put up the final argument, but McGraw's colt finished last of the field, while Besom was lucky to get in the money behind Penobscot, an outsider.

Towton Field, winner of the last race, was well played, the Big Dipper was regarded as the classiest mount of the race. There was some doubt, however, whether McGraw's filly could go the distance, and it was apparently justified, for she closed the procession.

Hough Cup—Stratford, Listowel, Clinton, Wingham, Galt and Woodstock College.

The Hamilton pro. soccer team offi-clals have finally closed negotiations re-garding sultable grounds to play their sames on this year.

H. M. West, the local promoter, has made arrangement for the leveling of the new grounds and the erecting of a grandstand. The new site is immediately behind the Canadian Westinghouse plant, on the Deering street car line.

A sudden change in the temperature at Montreal on Eaturday prevented the processionals from holding their practice at Windsor Park.

The fact that the Capitals have abandoned lacrosse in Ottawa leaves a clearer field for the soccer game in the Capital. The dates which would have gone to the Caps at Landowne Park will be taken up by the Ottawa City Soccer Club.

The local pro, teams have announced that definite word will be given out on Tuesday regarding their grounds, and then all speed for the tenth of May so that the public can get a chance to size up the paid soccerists.

SAME OLD STORY

NEW YORK, April 30—President Barrow today awarded the protested Buffalo-Baltimore game, played at Baltimore April 28, to Buffalo by the score of 8 to 7. The Buffalo Club had protested the game because of the umpire's refusal to allow a run to score in the tenth inning when, with the bases full, a wild throw by Pitcher Roth hit the grand stand.

Upon information after the game, says President Barrow, it was shown that the grand stand in Baltimore is considerably less than 90 feet from the home plate, in which case the playing rules provide that a runner may score from third base without being "put out."

BELT LINE SITES EAGERLY SOUGHT

Detroit Firm Secures Merton St. Land-G.T.R. Completes Industrial Line.

Merton street railway sidings at Davisville are being sought, in view of the fact that the G. T. R. has fin-ished the work of opening the old belt line around the city and increasing the Merton street facilities.

A construction company located in Detroit on Tuesday secured an option on 250 feet at \$175 per foot, in Merton street, from a King-street firm, and intend locating here, in order to share in the business of North Toronto and its ultimate development.

This firm, besides undertaking large contracts for street paying, own contracts for street paving, own brick plants some distance from To-ronto, and will ship direct over the Grand Trunk into Davisville.

Grand Trunk into Davisville.

Some Montreal buying of belt line frontage has been going on quietly lately. Grand Trunk officials are said to be the people putting up the money, but the agent doing the work refuses to divulge his clients' names. It is an open secret, however, that the Grand Trunk expects to make the beit line a factory belt, thus adding to its freight receipts without piling up work on its waterfront facilities.

TEN-YEAR LEASE ON RICE LEWIS BLDG.

Negotiations at Eighteen Thousand Yearly Practially Completed.

A local financial corporation is closing for a lease or the Rice Lewis building at the normeast corner of building at the northeast corner of Victoria and King streets at \$18,000 a year and taxes. A. G. Strathy & Co., the agents, admit a deal is almost closed, but will not divulge the name of the lessees until negotiations are concluded. The deal is for ten years and includes the entire King street part of the building, 40 feet by 100 along Victoria. The people leasing intend to occupy the ground floor and rent the four upper flats. Some money will be spent on alterations. A. M. Orpen is part owner of the building.

Rule — Demand For Electrical Development Bonds.

While sentiment in the Toronto Stock Exchange, in common with that in London and Wall street was more cheerful yesterday, such improvement as was made in values was not material. The public seemed to be fighting shy of the market, and while some optimistic speculators took on securities in anticipation of a turn for the heating. The detailed figures follow:

The speculative movement in the Toronto Stock Exchange during April was maintained pretty closely in line with that of the previous month. The number of shares of stock which changed hands was 73,914, which was less than 2000 shares below April last year, and only about 4000 shares ahead of April, 1911.

There was nothing significant in the bond dealings during the month. The only about 4000 shares are under the record of April, 1911.

A Natural Recovery.

After a week of incessant selling, it was regarded as natural that there should be a reaction. An upturn was indicated by the sharp advance of American stocks in London prior to the opening here, althofirst prices in this market did not follow up the improvement abroad to its full extent. Early European advices regarding the international political situation were more cheerful, and London also bought 15,000 shares here on balance. Whatever help was derived from this source, however, was minimized by the persistent weakness of a long list of stocks.

Sales of \$30,000 Electrical Development 5 per cent. bonds at 90 attracted some attention, as the securities were quoted two points lower two weeks ago. The purchase was said to be for London interests. In the banks Do-

York City held more snareholders than any entire state in the union. New York State had \$100, Massachusetts 4000 and Connecticut, which came third, 1500.

But three standard-bred stallions were shown in the morning, and the local stallion, Jack McKerron, 2.07 1-4, owned by Crow & Murray, and exhibited by Mr. Crow, so far outclassed the other two that there was practically no competition. Announcement that Sir William Mackenzie had sailed for home and that negotiations would soon be on for the street railway sent Toronto Rails up a large fraction to 140 3-8. Other firm spots were Twin City and Mackay, the the improvement in these was of the merest fractional extent. Consumers' Gas, General Electric and Steel Co. common duplicated their recent low records.

The interesting program of seven events greatly pleased the spectators. The features of the evening were classes 41, for hunt teams, and 46, the high jump, over loose poles. The hunt teams class was won by a trio of the Hon. Clifford Sifton's horses, with the Ennisclare Farm's entry second.

An unfortunate accident occurred during the competition in this class, when the bay gelding, Monte, in one of the Enniscare Farm's teams, landed their recent low records.

attracted the most/attention, since they would be most influenced by power troubles. Hollinger dropped back some 35 points to \$18.05, and McIntyre at \$3.10 was off 15 and duplicated the recent low record for the month. The three cheaper stocks maintained about on an even keel under a sustained demand. Dome Mines continued its decline on the curb, losing another 50 points at \$15, thus setting up a new coline on the curb, losing another 50 points at \$16, thus setting up a new low record in its history. Since this mine has its own power plant, the reaction required some explanation other than that of power difficulties. The shares have been offered down steadily for some days now

for some days now. There was nothing new in c with the Cobalt situation, but the list evidenced a slightly better tone than usual. Scattered buying was under way, and several stocks, notably Beaver, Great Northern and Chambers-rerland, showed a modicum of firm-ness. Cochrane Cobalt was listed dur-ing the day, and the shares sold be-tween \$1.70 and \$1.65. This is the only non-dividend payer ruling above par. The property adjoins the Timiskaming and the stock was underwritten at \$1.40 recently. Crown Reserve was quoted ex-dividend at \$3.90. Peterson Lake rose above 23 during the morning, but lost its gain later, when the price dipped to 22, a new low record for the present month.
