A DISGUISED TOWN.

The People of Oshawa Sore on the Dominion Government,

On Account of the Removal of the Postoffice to an Inconvenient and Out-of-the-Way Corner—A Job to Benefit a Couple of Government Heavies—Denounced by Reformers as Well as Conservatives—Mr. Dryden's Defeat Attributed to His Siding in With the Interested Parties.

Oshawa is one of the most thriving towns on the main line of the G. T. R. east of Toronto.

Oshawa has a population of 12,000. It is a model town and is marred in but one particular.

It was not over two years ago that the Dominion Government removed the postoffice from its present location to a new one on the main line of the G. T. R. east of Toronto.

The removal of the postoffice from its present location to a new one on the main line of the G. T. R. east of Toronto was a most unfortunate move.

The removal of the postoffice from its present location to a new one on the main line of the G. T. R. east of Toronto was a most unfortunate move.

of the Dominion of Canada:

We, the undersigned citizens of the town of Oshawa, beg most respectfully to submit to the Dominion Government,

That the late change in the location of the postoffice in this town has caused general dissatisfaction and inconvenience.

That it was effected in spite of a largely signed petition and vigorous individual representations to the contrary.

That we believe that the request for the removal of the office did not arise from any dissatisfaction on the part of the public with the old location, but was prompted by one or two individuals pecuniarily interested.

That the removal was brought about by the offer of a low rental for the purpose of enabling a citizen to lease other portions of the same property to the injury of other parts of the town.

That the position of the postoffice at the present time is still under lease for postoffice purposes, and substantially as constructed, convenient and located in the main thoroughfare to the railway depot, and the owner expressed his willingness before the removal to remodel the building and reduce the rent, and would have done so if a request had been made, or if the offer had been allowed to stand.

That we believe he is still willing to make such changes as will meet every convenience and the requirements and approval of the Department.

That since the removal of the roof of the building in which the office now is, the office has fallen in and greatly endangered the safety of the public.

That the position of the postoffice is larger than any town in this district, and should entitle it to public buildings, but if these are not granted, the interests and convenience of the citizens and public generally should be first considered, and not the private interests of one or two individuals.

That a large number of Liberal voters abstained from voting at the election of 1935, and several voted for the Opposition candidate to emphasize their resentment at the manner in which the town had been treated in this matter.

In view of the above facts, and in behalf of the cause of right and justice, we beg most respectfully to urge upon you the advisability of returning the postoffice to its former location as soon as any needed alterations are made, and your petitioners will ever pray.

Editor World: Your editorial on Avenue-Road Extension is just to the point. Why should we, in the city, be deprived of the benefit and pleasure of taking ourselves and friends to Mount Pleasant and the Bayview, and to the other parks and grounds, when we have to take a long and arduous journey to do so?

We have too much farm and garden land in the city now, either for the good of the city or for the benefit of the citizen who unfortunately owns vacant land. Let the citizens be in mind this year in the election of the Mayor and Council.

The building now occupied by the postoffice has been idle for years, and has been offered for sale at auction, but could not get a bidder. It was used as a music hall, but very infrequently, and was finally abandoned to ruin. It was an eyesore to the town, and the last place in which to locate a government office.

A Put-Up Job. This fact has led to much surmising as to why Mr. Boserby, a resident of Oshawa and member of a Toronto wholesale grocery store, about a year ago, bought this dilapidated property. Nine citizens out of ten believe that an arrangement was made between the postoffice and the property owner, and that the postoffice had been completed before the purchase of the property.

Having used Dr. Ward's Blood and Nerve Pills for kidney and liver troubles, I have found nothing to benefit me like them. I have used other remedies, but with little or no good. I have used three boxes of your Pills and can testify that I would not be without them.

My back is stronger, and my kidneys are in good, healthy condition. Your Pills are without exception the best that I am acquainted with. Yours very truly, Wm. H. King, Sheehon House, St. Catharines, Ont.

I wish to inform you that after using Dr. Ward's Blood and Nerve Pills for a short time I found myself a well man again, entirely cured. In fact I feel like a boy and would not care to return to my former wretched condition for all the gold that could be showered upon me.

Before taking Dr. Ward's Pills I wasted almost to a skeleton, every few nights I was awakened with terrible dreams, life was not worth living, in the condition I was in. I had almost made up my mind to give up life, but accidentally came across one of your pamphlets, and after reading it concluded to try these Pills—I felt like an angel from heaven when I felt I was getting better—they soothed and strengthened me wonderfully—today I am a perfect man, full of life and vigor. I consider them a blessing to humanity. Geo. Devereaux, St. Clair Ave., Niagara Falls, Ont.

The effect of using Dr. Ward's Pills has been truly wonderful—I have for several years been troubled with dyspepsia and biliousness, also headaches accompanied with dizziness and heart trouble—it seemed at times that my heart was in my throat—I would feel as though I was smothering at times—I had to sit up in bed in order to breathe—I feel that had it not been for Dr. Ward's Blood and Nerve Pills I would not have been living today. In two weeks' time I did not feel like the same person—my progress was watched with much interest by many of my neighbors and friends. In fact it is the only successful remedy that I have ever used.

Thanking you, gentlemen, for the great good that you have done me, I remain, yours very truly, W. F. Mudge, Traveler and Inventor of Welland Acetylene Gas Machines.

The beneficial results obtained from three boxes of Dr. Ward's Blood and Nerve Pills have been truly wonderful. I suffered most intense pain due to stomach troubles. I consulted a great doctor and after using many other medicines unsuccessfully I began taking Dr. Ward's Pills. Its effects in my case were wonderful. I was better after using one box, and three boxes have cured me. Several months have passed and still no signs of stomach troubles. I also feel stronger than I have for years and feel that I cannot speak too highly of them. Yours very truly, Leslie J. Vivian, Hibbert Township, Ont.

Dr. Ward's Blood and Nerve Pills are sold at 50c. per box, 5 boxes for \$2.00, at druggists, or mailed on receipt of price by THE DR. WARD CO., 71 Victoria-st., Toronto. Book of information free.

The Petition in Full. This petition, signed by four-fifths of the citizens of the town, shows how live an issue the postoffice remaining in Oshawa, April, 1938. To the Honorable the Postmaster-General

NOT FAVORABLE TO CHANGE. Many Toronto Manufacturers Prefer Steam to Electricity.

Expert James Milne Reports to the Mayor the Result of His Enquiries—Seven-Fold Reason for Adherence to Steam Power—Case of the Gas Engine.

James Milne, the president of the Western Electric Co., late of the Toronto Technical School, and the electrical expert employed by Mayor Shaw to summarize and report upon the answers received to the questions asked the manufacturers and other power consumers in respect to the amount of power which they consume, has submitted his statement.

The total horse power in motors used by electric power consumers is 3036, but the power in actual use at any one time would not exceed 1200 horse power, or 40 per cent of the gross total. The cost per electrical horse power having in most cases been estimated, taking the motor as running full time, the rate, of course, was brought down very low. Some had not included friction nor engineers into the cost of steam power, taking only into account cost of fuel. Thus in one case, where the engine was started to do over 200 horse power and the cost per horse power hour 4-10 of a cent, it would be more correct to state that the horse power was 60 and the cost 1/2 cent per horse power hour.

Seven Reasons. The steam plants, with 233 plants, from one up to 300 horse power, exhaust 16,802 horse power. Deducting 10,000 horse power for the street railway, the Toronto Electric Light Co., Incandescent Light and Corporation plants, there would be left 6822 horse power for commercial purposes. Of this amount nearly 1000 horse power might be supplied by electric power if steam engines at present, but the cost of electricity is so high that it is useless, he goes on, trying to persuade the city to change from steam to electric power. He gives the following reasons:

1. A very large percentage of them use refuse for part of their fuel.

2. The larger plants would have to keep the smaller plants as auxiliaries in case of breakdown of lines, generators, etc.

3. Having the steam plant on hand an extra mile of electrical wiring would be made for the installation of electric motors, with no apparent return for same.

4. The larger plants are entirely independent of any outside source, which is a most desirable feature.

5. There is a material difference in the cost before any radical change can be made in the city.

6. The larger plants are entirely independent of any outside source, which is a most desirable feature.

7. There is a material difference in the cost before any radical change can be made in the city.

8. The larger plants are entirely independent of any outside source, which is a most desirable feature.

9. There is a material difference in the cost before any radical change can be made in the city.

10. The larger plants are entirely independent of any outside source, which is a most desirable feature.

11. There is a material difference in the cost before any radical change can be made in the city.

12. The larger plants are entirely independent of any outside source, which is a most desirable feature.

13. There is a material difference in the cost before any radical change can be made in the city.

14. The larger plants are entirely independent of any outside source, which is a most desirable feature.

15. There is a material difference in the cost before any radical change can be made in the city.

16. The larger plants are entirely independent of any outside source, which is a most desirable feature.

17. There is a material difference in the cost before any radical change can be made in the city.

18. The larger plants are entirely independent of any outside source, which is a most desirable feature.

19. There is a material difference in the cost before any radical change can be made in the city.

20. The larger plants are entirely independent of any outside source, which is a most desirable feature.

21. There is a material difference in the cost before any radical change can be made in the city.

22. The larger plants are entirely independent of any outside source, which is a most desirable feature.

23. There is a material difference in the cost before any radical change can be made in the city.

NERVOUS DEBILITY.

Exhausting vital drains the effects of early follies thoroughly cured; kidney and bladder ailments, Discharges, Syphilis, Gonorrhoea, Loss or Falling Manhood, Varicocele, Old Gleet and all diseases of the Genito-Urinary Organs a specialty. I can cure you. Call or write. Consultation free. Mornings from 10 a.m. to 12 p.m. Dr. Howe, 235 Jarvis-st., southeast cor. Gerrard-st. Toronto 246

FOR SALE.

Steam Launch, complete, 30 feet long, 10 h.p. engine. Apply JOHN LANE, 274 Wellington St. East.

A Small Pill, but Powerful—That judges of the powers of any pill by its size would consider Farmer's Vegetable Pills to be lacking. It is a little wonder among pills. What it lacks in size it makes up in potency. The remedies which it carries are put up in these small doses because they are so powerful that only small doses are required. The full strength of the extract is secured in this form and do their work thoroughly.

WAR!

Not the Spanish-American war, but war on Cancer and Tumors. Hundreds of testimonials from patients who have been cured by the use of our medicine taken internally. The people are fast finding out that it does not pay to take any treatment but the D. BARR & CO., 246 J. FAIRHEAD, Manager.

Reduction Works at the Canadian Soo to Cost a Million Dollars and Employ About One Thousand Hands - A Grand Trunk Railway Connection.

Great things are to be accomplished at the two Soo, according to Mr. H. H. Clarke, president of the Lake Superior Power Company, at Sault Ste. Marie, Ont. Two hundred delegates of the Northwest Electrical Convention visited the two towns last week, and Mr. Clarke, addressing the delegates, said:

The Lake Superior Power Company has added to their present investment, the Power Canal at Sault Ste. Marie, Ont., by the purchase of the rights of the already existing power canal on the American side of the rapids, and has added to the property thus acquired large tracts of land in addition sufficient to permit of the construction of a hydraulic canal of about 30,000 horse-power.

Another break has occurred in Bearheart navigation for several days. The arrival in Toronto harbor yesterday was Str. John Hanla, with 400 tons tonnage from Jordan; the Gordon Jerry, carrying 100 tons of coal from the same port; and the schooner Lillian, from Hamilton. The steamer Enterprise also came in with 100 tons of coal from the same port.

It appears also that the Soo is not to be entirely dependent on the east for its power. The Canadian Pacific Railway, for instance, is to be connected with the Soo by a line of power lines, and it is expected that the Soo will be able to supply power to the west.

It appears also that the Soo is not to be entirely dependent on the east for its power. The Canadian Pacific Railway, for instance, is to be connected with the Soo by a line of power lines, and it is expected that the Soo will be able to supply power to the west.

WHEAT SLUMPED ONCE MORE

Further Declines at Chicago and Liverpool

Marked the Early Portions of Yesterday's Sessions—Futures Partially Recovered Late in the Day

Corn, Oats and Provisions Weak—Crop Reports.

Wednesday Evening, June 22.

On Liverpool's failure to respond to yesterday's American advance in wheat, the Chicago market opened weak this morning, all future deliveries selling off a couple of cents per bushel. Bullish reports of damage to growing crop were circulated, but not received. Traders here and yet recovered from the panic administered by the recent phenomenal breaks, and the market, therefore, was no longer there was some covering by shorts around the lowest points, and futures recovered somewhat late in the day. At the close wheat was quoted at 82 1/2c, July at 74c, September at 67 1/2c, and December at 57c.

Other American markets covered a large range and at Toronto prices were unchanged, with wheat quoted at 80c north and west, and Manitoba No. 1 hard at 81.00, Toronto and west.

On the Liverpool market to-day, wheat futures continued weak. The July wheat futures declined 3/4 cent, and the September and December, 1/2 cent.

The Paris market showed a rally at the close of 70 centimes in June wheat, September receding another 10 centimes for the day. On that market, four advanced 20 centimes to 115c.

Favorable weather reports and the weakness in wheat caused a fractional decline in corn at Chicago, and maize futures were 1/4 to 3/8 lower at Liverpool.

Provisions exhibited continued weakness at Chicago.

Cheese advanced another 6d in Liverpool. Total clearances to-day: Wheat and flour, 402,000 bushels; corn, 480,445 bushels. Primary receipts to-day, wheat, 121,000 bushels, against 140,000 bushels the corresponding day of last year. Shipments, 220,000 bushels, against 210,000 bushels.

Primary receipts of corn to-day, 400,000 bushels, against 654,000 bushels the day last year. Shipments, 471,000 bushels, against 275,000 bushels.

September wheat puts at Chicago to-day 60 1/2c, calls 65 1/2c. September corn puts 32 1/2c, calls 35 1/2c.

Receipts of wheat at Minneapolis and Duluth to-day, 56 cars, against 170 cars the same day last year.

Carloads of grain received at Chicago to-day: Wheat 21, corn 347, oats 102, 1 1/2 Minneapolis wire to-day says: Two farms sold 42,000 bushels of flour, all for domestic requirements.

Live stock receipts at Chicago to-day: Cattle, 14,000; hogs, 20,000.

Crop Reports.

The United States Government crop report issued from Washington to-day, makes the condition of winter wheat 10.8, and that of spring wheat 10.2.

A despatch from Denison, Texas, says: Seventeen days of excessive rain has cut short the wheat crop of North Texas and Indian Territory at least 30 per cent. Fully 100,000 bushels of wheat have been lost by rains, but the corn and cotton crops are in the condition.

St. Louis wire to-day: Brinson, who operates a line of elevators in the South-west, has an opinion that the wheat situation follows: Indian Territory cut in half; North Kansas and Oklahoma wheat very disappointing on account of rust and continued rains.

The harvesting in Kansas will commence in about two weeks.

Misconduct in the bulletin says: Corn is getting very weedy, the ground being too wet for cultivation. It is turning yellow in some cases; oats much better; reports of damage to wheat by chinch bugs and rust are heard from many sections.

Advices from Buda Pest say: Rust is making great progress in Hungarian corn, which was also hurt during bloom by heavy fogs.

Broomhall cable says: Weather in England unsettled. Our agent at Toronto, near mouth of Don, Russia, cables the wheat crop is suffering from too much rain.

Leading Wheat Markets.

Following are closing prices to-day at important centres: Cash, July.

Chicago 82 1/2c, July, 74c, Sept., 67 1/2c, Dec., 57c.

New York 82 1/2c, July, 74c, Sept., 67 1/2c, Dec., 57c.

St. Louis 82 1/2c, July, 74c, Sept., 67 1/2c, Dec., 57c.

Duluth, No. 1 North, 82 1/2c, 83 1/2c, 82 1/2c, 83 1/2c.

Duluth, No. 2 North, 82 1/2c, 83 1/2c, 82 1/2c, 83 1/2c.

Minneapolis, No. 1, 82 1/2c, 83 1/2c, 82 1/2c, 83 1/2c.

Toronto, No. 1 hard, 81c, 82c, 81c, 82c.

Toronto, red, 81c, 82c, 81c, 82c.

GRAIN AND PRODUCE.

Flour—Dull. Straight rollers in barrels, middle grades, are quoted at \$1.15 to \$1.25.

Wheat—Remains quiet on the local market. Ontario red is still held around 80c per bushel, and the liquidator of No. 1 Manitoba hard is still quoted at \$1.05 here.

London—Close—Wheat vessels arrived, 2; waiting orders, 1; off coast, 6d lower; passage to-day, 2s 1/2; for France, 2s 1/2; for coast very little doing at 3d lower. Passage rather quiet, but some business in wheat, 1s 1/2; unplaced, 1s 9d. La Plata, yellow, on passage, 1s 1/2; for America, 1s 1/2; for June and 21st for Sept. and Dec. Flour 21st for Sept. and Dec. Flour 21st for Sept. and Dec. Flour 21st for Sept. and Dec.

Chicago Gossip.

Henry A. King & Co., 13 King-street east, received the following despatch to-day from Chicago:

Wheat—The opening here at market to-day was a great surprise. Bulls, bears, and instead of being higher, as generally expected, prices have ranged lower, as a result of selling by one or two local professional and scattered traders, also owing to the fact that Liverpool did not respond to our advance yesterday. July delivery in our market opened higher, but closed 1/2c lower than previous close, with a decline in September and December of 1/2c. Paris was 8 1/2c higher for the lower. Adverse changes to 5 1/2c higher.

Crop reports from the southwest still complain of damage, but these advices were not accompanied by buying orders to-day, and therefore, did not have as much influence as yesterday. As a matter of fact, the market here was not interesting, the price which has prevailed since prices here were raised, was not interesting, and the market was not very active. The market here was not very active, and the market was not very active.

St. Lawrence Market.

Receipts of grain were small, and market dull.

Two loads of old white wheat sold at 82c per bushel, and one at 81c.

Two loads of red at 80c to 82 1/2c per bushel.

Data steady; 300 bushels sold at 32c to 33c.

One load of peas sold at 41c.

Hay, 35 loads, sold at \$9 to \$8 per ton for five loads, none per ton for five loads.

Dressed hogs, prices firmer at \$6.00 to \$7.00.

WALL ST. LIST IRREGULAR.

With a Sagging Tendency in Most Securities.

Canadian Stocks, on the Other Hand, Are Gaining Strength—C.P.R. and Richelieu and War Eagle the Leaders—General Electric Weak—End-Gossip.

Wednesday Evening, June 22.

Irregularity again characterized the Wall Street exchange today. Professional buyers were at work, and the tendency for most securities was downward.

The Canadian market, on the other hand, was at a point on a declaration that no dividend would be paid this year. Western buyers, as exceptions to the rest of the market, were at work, and the market was at a point on a declaration that no dividend would be paid this year.

American railroads were weak in London. St. Paul closing 1/2c lower than yesterday, and Illinois Central and N. & W. Union Pacific each 1/4 lower.

Canadian securities, as a rule, exhibited an improved tone to-day. On an advance of 1/4 to London, and hope of a settlement of the rate war, C.P.R. sold up to 8 1/2c, and the Ontario Electric and St. Lawrence real. The same prospect of a cessation of the rate war, and the fact that the market was at a point on a declaration that no dividend would be paid this year.

Richelieu and War Eagle the leaders—General Electric weak—End-Gossip.
