VESSEL WRECKED AND BURNED AND DIED

Terrible Tragedy During Storm on Lake Winnipeg—Str. Premier Turns Turtle—Fate of Crew in Doubt.

WINNIPEG, Aug. 7.—(Special.)—At least eight persons met a horrible death by burning on board the Dominion Fish Company's steamer Premier, some two hundred miles up Lake Winnipeg, early Thursday morning.

In addition grave anxiety exists for the fate of the crew and other passengers. The known dead are: Madame Couture of St. Laurent, Man. Miss Copaz, school teacher, Winnipeg. W. W. Fryer, son of the captain, son of a big local merchant.

The disaster occurred at the far end of the lake in trackless wilds and a couple of hundred miles from any telegraphic communication, the first news being brought to Selkirk at the cabin of the fishing tug Wolverine, which passed some of the wreck on the way south from Norway House.

The ill-fated Premier was a sister ship to the Dominion Fish Company's vessel Princess, which was wrecked about the same time last year on Snake Island, some half dozen persons losing their lives.

Lake Winnipeg has a sinister reputation, and its shores are strewn with the debris of vessels caught on its inhospitable shores in gales which in summer tear up its shallow waters, no haven offering in all its length and breadth.

LAST UNDER LEMIEUX ACT UNLESS EXPERTS CAN ACT

Why the Railroaders Have No Confidence in the Findings of the Board.

The impression among railroad men, according to the press committee of the strikers, is that there will be no more arbitration under the Lemieux Act, if they can prevent it.

While we recognize that the principle of arbitration is right, we do not care to have technical points settled for us by men without the necessary knowledge of either the technical or the economic side of the question.

"What does a wholesale grocer know of railroading?" We have a grievance as great as the western men, too. They had evidence taken on their differences, but the board added a clause that we could have the benefits of the findings they had made on western matters.

"The unions are fighting for their very lives, but we would not have forced the issue while trade was only recovering from the setback of last fall and winter, had not the company, in its effort to smash the union, given notice of the abrogation of the working schedule in the west on April 1."

They did not anticipate any such move on our part as the filing of a notice of amendment, calling for a 30-day halt until we could get things in working order. Had we not done that, the company would only have had the western men to fight and might have succeeded in crushing them alone.

"We want a nine-hour day and other things, but would not have pressed for them had we not been forced into it by the company itself. Moreover," he continued, "the trainmen recognize their danger as well, and realize that if our union is beaten there will be a next time to be attacked. Whether we are beaten or not, the next strike will be not by any one union, but will be one that will make the company stop and consider a little."

"A strike like ours does not have its effect for a week or so, but then something can be looked for when the stock of available locomotives begins to be exhausted."

The men feel quite confident of winning. Reports from all over the line show that the men are holding their ground, and that the company are not obtaining even an appreciable number of good mechanics.

ORGANIZER TELLS WHY MECHANICS HAVE STRUCK

Not to Obtain New Conditions or Wage Increase But to Maintain the Schedules Long in Use.

In response to a request from The World, James H. McVety, organizer of the C.P.R. mechanics in the strike now in progress, has wired the following clear statement of the men's position. The public should read, mark, learn and inwardly digest the arguments set forth.

The strike of the employees of the Canadian Pacific is the result of an attempt of the company to cancel agreements and to change rules in force for a period of ten years.

In order to comply with the law, the men asked for the appointment of a board under the Lemieux Act to investigate the demands of the company.

When the board was first appointed, considerable delay occurred in considering whether the Eastern Line questions should be considered by the board, and the decision being in favor of considering all questions, whether east or west, the company withdrew their representative from the board.

Further delays occurred here, due to efforts of the government to have the company suggest someone else as their representative, G. F. Galt finally being appointed by the government, but in reality by the company, his name having been suggested by their officers as chairman of the board.

Findings Contrary to Evidence. During the investigation of the western line questions every opportunity was given the men to place their evidence before the board, but the decisions were apparently made with an eye to the company's interests, making the findings farcical and leaving the contestants in the same position as before the board was appointed.

The decision purports to be against a reduction of wages, but in reality 75 per cent. of the boiler-makers employed are reduced 8 3/4 per cent. by an apparently innocent clause classifying the men. The evidence presented on this, as on the apprentice clause, was altogether against the finding, it being clearly shown that no precedent exists for classifying boiler-makers, or for a ratio of apprentices of one to four, an increase of 20 per cent. in the number of apprentices. Long years of experience show that with this ratio the boys do not receive a proper grounding in the trades.

The western men had made no demand on the company and were engaged in trying to hold the schedules obtained during the past eight years. A policy of compromise had evidently been adopted by the board and their findings removed many of the rights conceded by the railway companies throughout the continent for a considerable number of years.

On the Eastern Lines. On the eastern lines the men had asked for a shorter working day, with the same pay per day, but the policy of compromise vanished entirely when considering this question, the board ruling against the men, although no evidence was heard, the board refusing to go to Montreal or to allow the men to bring witnesses from Eastern Canada to Winnipeg.

The company had asked no change in the east, but the board decided that the concessions made to the company in the west should also apply in the east, thereby reducing a large number of men on their own initiative.

SEE THE REPORT ON CITY HALL METHODS

Civic Auditors Sharply Criticize the Methods of Book-keeping in the Water-works Department.

Perfidious practice of "under" and "over" banking. Routine book-keeping in arrears thru poor system and lack of official energy. Errors in cash entries, frequent inaccuracies in additions and untidiness of books.

Carelessness and looseness in the handling of civic funds, showing weak discipline. Mistakes thru slipshod use of adding machines. Attendance register carelessly kept. Meter users are taxed too high for the water used.

The foregoing are some of the outstanding defects which Auditors Barber and Vigeon state in their report to the board of control that they have discovered in the administration of the waterworks branch of the city treasurer's department.

Their recommendations summed up, are: (1) Tellers should balance their cash books before leaving their boxes. (2) Attendance register should be enforced or discontinued.

(3) The departmental work should be rearranged and simplified by discarding present books and using a new form of account. (4) Water rates should be payable at the head office.

The report was very briefly discussed by the board, only the portion dealing with water rates being taken up. Controller Spence advocated a reduction of the meter rate, and said that if the waste of water were checked, this could be done without increasing the flat rate. No decision was reached, however.

The auditors said they had found routine book-keeping away behind, which was the "fault" largely of the system in use, but arising also from lack of earnestness and energy on the part of the officials.

The "under banking" evil scored, signifies the holding over by clerks of part of one day's cash to "make up" and deposit another day, a week or a month later, and is a practice which is impossible for improper use to be made of civic funds and the teller should balance his cash books absolutely before leaving his box, without reference to subsequent writing up or posting.

In this connection we note that on May 27, 1907, in a letter to the board, an amount of \$94.40 is denoted as "overbooked" on May 22. The blotter of May 22 gives no indication of any error on that day.

No explanation is given as to the reasons for these deductions, further than that it is claimed that the adding machines and some of the old additions on which are carried forward one or two instances of this were found.

The reason may be valid, but if so, it is simply another evidence of carelessness and looseness in the handling of civic funds, and the staff, the internal discipline of which we consider weak.

The auditors said their work in checking was hampered by the unmethodical manner of treating dates in various books, indeed, taken generally, the books (with the exception of those in the meter department) are untidy and frequently inaccurate in their additions, pencil entries and corrections being frequent.

The auditors deduced from the finances of the waterworks that meter users, who have to pay 10.60 cents per 1000 gallons as against 2.75 cents by ordinary users, are unfairly discriminated against.

City Treasurer Coady said last night that he had no comment to make on the report for the present, but that he might feel called upon to make a written report to the civic authorities later.

Whitney or Gibson--Which is Boss?

The recent action of the aldermen of Hamilton and the threatened action of the City of Brantford makes it imperative to once more direct public attention to the power policy of the Whitney Government, and to the danger of its being weakened, even the possibility of its being destroyed.

The opposition of the electric ring in Toronto and throughout Ontario is highly organized, is rich, has its secret friends in every direction, in some places even where they might not be suspected, and above all it is entrenched in legislation, the result of the long and arduous efforts of Hon. J. M. Gibson and the lawyers of the power ring.

It is also entrenched in a highly organized and very smooth newspaper support—of newspapers that are willing to be "voices" and "organs" of the government if they can only cut the throat of the power policy. The most ardent newspaper defender, apologist of the government to-day is a paper which did two things: it fought the power policy and the municipalities tooth and nail and told Sir James Whitney and his government that they were in substance wreckers of innocent investors and that they had destroyed the credit of Ontario in England because of their power policy.

The same paper has also taken the stand that the vote of the people given in the late election did not mean a mandate to carry out the power policy, it only meant that "honest government" on the old lines was all that was wanted!

The great danger to the Beck power policy, therefore, lies in this, that the power ring is organized while the public side is unorganized, and our contention to-day is that the Whitney Government must not even appear to be passive in the matter. They must undertake to carry their policy thru, and to assist the municipalities.

We wish to point out to Sir James what we think he already knows, that ever since Hon. J. M. Gibson was a member of the Ross Government, whether as provincial secretary, more pronouncedly when attorney-general, he deliberately, continuously and designedly introduced legislation that was hostile to public rights, to municipal rights, and in the interests of the power ring. It was he that created the power ring, and gave it all the legislation it acquired. He it was who tied up the province to the power companies in that notorious clause that the province should not engage in the production of electricity. He engineered thru Ottawa's the great franchise that allows his Cataract company to be water fed for a nominal sum from the public property known as the Welland Canal. Not only did he get the first privilege, but he got the privilege strengthened. The Cataract Power Co. would collapse like a balloon if it were not for the fact that to-day it gets its water from the Welland Canal, which cost the people of this country millions and millions of money, and it is this enemy who, entrenched behind legislation and legal agreements, fortified by great concessions in connection with the public works of the country, is attacking the people of all Ontario and the public power policy in particular. Years ago The World was the one paper that described Col. Gibson as a great public enemy. At that time the Liberal papers defended him, but subsequent events have shown him to be the most mercenary man that ever was in this province in the matter of corporation privileges and the greatest enemy this province ever had of public rights. To-day he has his Cataract Power Co. and street car franchises capitalized at twenty-five or thirty millions of dollars, where the actual investment has not been above four millions, and his whole effort is to float this investment of three or four millions into twenty-five millions, and he proposes doing it if he can out of the public. Everything to himself and his corporations, which are altogether public creations, and which are altogether dependent on a public water supply! It was the legislation secured by Col. Gibson from time to time, stealthily slipped into the law, which strengthens the power ring in this country, and the Premier, if he wishes to vindicate the Beck power policy, must offset the manipulations of Gibson and company, and the public must to-day have the assistance at every point of the government, and especially of the attorney-general of this province, to arrest the aggressions now being made under legislation that a government hostile to public rights gave some years ago. In other words, an apathetic policy of resistance by an existing government cannot meet an active policy of aggression based on the legislation of a former government.

The World believes that Sir James Whitney feels more than ever his responsibility to the people in the matter of this power policy, but The World is doing him an act of kindness in telling him that there are men in his government whose friendship to the power policy is questioned by the people. There are ministers who seem to act as if they were inspired by Mr. Wallace Nesbitt, a very able lawyer, and very much associated with the power interests; and Col. Hendrie has had the misfortune of having endorsed on two occasions the candidature of Mr. Scott as his colleague in the legislature from Hamilton, a candidate who was an out-and-out hostile to public ownership, and the Beck power policy especially. A great many people thought that inasmuch as Col. Hendrie was a member of the power commission and of a government committed to public ownership in regard to power and a government whose main asset in the way of holding the support of the people was this power policy, it should have been his care to have had the Conservatives put up a candidate sympathetic with the policy. A direct and avowed enemy was put up twice and beaten twice. Mr. Hendrie, if earnest in support of the power policy, should have refused such a colleague. He tried to elect him!

Surely the Premier must see that the day has come to legislate forthwith that no municipal council can hereafter part with any public franchise until approved by a vote of the electors. The scandal of the Hamilton aldermen ignoring the twice expressed vote of the people for a contract with the public power commission must be cured and prevented hereafter. This was entirely manipulated by Hon. J. M. Gibson, once attorney-general of Ontario! He is trying to repeat the trick in Brantford! What does Col. Hendrie think of the Hamilton aldermen repudiating the public wish? What does he think of the Hamilton aldermen using the Hydro-Electric Power Commission's terms with Toronto as the basis of their own infamous agreement? In other words, Hamilton would have been forever sewed up to Gibson if it had not been for Beck and they use the work of Beck to make terms for themselves in the very agreement with Gibson that betrays the Beck policy! The people of Hamilton have not done this, but the aldermen have done it in spite of the people!

Mr. Premier, the time has come for you to get off your coat, to re-examine your surroundings, to read the Riot Act, maybe, to meet Gibson on his own ground!

The public power policy will win out, but it must win out quick and win out impressively. And it will win out all the easier by joining immediate issue with its enemy.

What will Mr. Borden's fight for public ownership in the coming federal election amount to if Gibson bursts the Whitney power policy in Ontario? Well, that is just what the ex-attorney-general of Ontario is trying to do!

WOMAN OF WEAK MIND SCATTERS HER CLOTHING

Queer Conduct on City Streets Causes Final Arrest in East End of City.

Dazed and wandering in her mind a young woman giving her name as Miss Mildred Mikill, Highland Park, Ill., was arrested in Munro Park yesterday by P. C. Lang at 6.30 in the evening.

She was first noticed in the city hall, where during the morning she began to empty a valise which she carried. The contents were gathered and kept by Special Constable Nolan.

From there her route is described by a young man who followed her till her arrest. With a pair of silk stockings over her arm, she walked down Bay-street from the city hall to King-street to the King Edward Hotel. She was seen there for a moment, when she went down to the railway tracks and west. She came north thru St. Clarens-square, and east to Spadina-avenue, when she went north to College-street. She then came south again to Queen-street, and walked east to the Queen's Park, where she was taken into custody.

Upon her was a pin of the St. Luke's training home for nurses at Chicago. She said that she remembered starting from Chicago on the Mackinac trip. She had on her an address, 32 Falls-street, Niagara Falls, N.Y., at which she had received a telegram from Mrs. M. A. Mikill, Highland Park. It was dated Aug. 6, 1908, and read: "No card come. Money order will be there Thursday."

She had \$15 on her and her clothes were all good. She had a box of capsules and pills, purchased in Highland Park. Toward midnight she became more docile, but still refused to discuss her affairs.

She wore a pin of St. Luke's Training Home, '07, probably a nursing home. She is a woman of 25 years of age, dark and good looking. Her voice indicates refinement.

CROP REPORTS FROM WEST RAIN IS NEEDED BADLY

Some Damage by Hail—Lates Information From All Parts of the Country.

WINNIPEG, Aug. 7.—(Special.)—The crop report issued by the C.P.R. to-day indicates that while the crop is making excellent progress, many districts are badly in need of rain.

The crop is maturing too rapidly to give a high grade. In many districts, too, hail is reported, so it does not appear that any of the areas damaged are extensive.

On the Brandon and Varcoc sections cutting will begin by the first of next week. Rain is needed for late grain. On the Emerson, Teulon, Minnedosa and Souris sections, conditions are favorable, except for shortage of rain. On the Lariviere section, 30 per cent of the crop is reported cut in the Morden district, with practically all of the grain ready for the machines. On Broadview, Pheasant Hills, Rapid City, Yorkton, Minto, Lenora, Nipinka, Lleyton, Mowbray and Reston sections there is no comment beyond the statement that they could do with few showers.

On the last mountain section slight frosts are reported at Lemberg, while on the Arcola branch hail is reported from Arcola and Garfield. At McLean on Moosejaw section and at Milestone, Macoun and Estevan on Estevan section considerable hail is reported, as is also the case at Pimone, Howard, Forget and Kisby on Moose Mountain section.

The Edmonton section reports all fair, while Wetaskiwin section reports slight hailstorms at Sedgewick and Hardisty.

In the winter wheat belt a slight frost is reported from several points on the Macleod section.

VETERAN CUTS THROAT.

BRANTFORD, Aug. 7.—(Special.)—James Richards, a veteran of the Civil War, made an attempt to end his life here to-day by cutting his throat with a razor. Richards has been dependent for some time on account of being without work. He was a painter by trade and resides with his family on Richardson-street. The deed was committed at noon hour, while the family were eating.

Free Receipt For Weak Men

Gentlemen Will Send It Confidentially. Free and Sealed, to Every Weak and Unable Man Who Writes for It.

TRADE MARK.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excess, unnatural drains or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician, who has made a special study of men and I am convinced it is the surest acting combination for the cure of deficient manhood and vigor-failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what, I believe, is the quickest acting, restorative, unadvised, and, so cure himself at home, and quickly. Just drop me a line like this: Mr. A. E. Robinson, 333 Luck Bldg., Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

WEST TORONTO LAD MEETS INSTANT DEATH

Is Shot by Companion—Coroner Holds Preliminary Inquest—Suburban News.

WEST TORONTO, Aug. 7.—A sad accident attended with fatal results occurred in the west end of this city shortly before 11 o'clock this morning. While playing with an old muzzle-loading shotgun an eight-year-old boy named Fred Gracey, son of William Gracey, 201 Maria-street, accidentally discharged the weapon and blew the head of his playmate, Howard Sharpe, aged 2 years and 7 months, son of Charles Sharpe, 199 Maria-street, right guard at the Central Prison. Mr. Sharpe has been lying in the hospital since he was shot. The bullet entered the head in the forehead and passed through the brain. The child was taken to the hospital and died shortly after 10 o'clock.

Another boy will be held to-morrow (Saturday) afternoon at Bonwood-avenue, near the intersection of the church. An orchestra will be in attendance. The Epworth League of Davilleville Methodist Church will hold a garden party to-morrow (Saturday) on the grounds just north of the church. An orchestra will be in attendance.

Mr. Reid of Broadview-avenue is having the cellar excavated for his new house to be erected on Glencairn-avenue. Alterations on the Epworth Methodist Church will begin on Monday. The contractors are Messrs Fisher & Rambo.

Judge Morgan will hold court to revise the assessment in the town hall on Monday evening at 7 o'clock. This session is made on the appeal of D. D. Reid.

Rev. and Mrs. A. K. Griffin and family, who were on a month's vacation to Galt, have returned home.

BALMY BEACH, Aug. 8.—The formal induction to the pastorate of Rev. Dr. G. H. McMillan will take place on Friday evening, Aug. 21, at 8 o'clock. On that occasion Rev. Dr. G. H. McMillan will be the preacher. Rev. Dr. Parsons will address the minister, and Rev. Alex. McGray of Bonar Presbyterian Church the people.

Real estate in the eastern suburb, while showing no particular activity at present, is generally firm, and where transfers have recently been made it is always at a substantial advance. Five beautiful houses are in course of erection on Holly-avenue, one on Wheeler, another on Fernwood Park-avenue, and several on Balsam and Oak-avenues. The latter is fast becoming one of the most residential streets in the eastern end of the city.

The sale of a magnificent lot with a depth of 500 feet and frontage of 100 on Balsam-avenue at the head of the street at \$30 a foot is a good indication of the value of land in that district. A hobby trying to beat his way west by a C.P.R. constable to-night and will be brought before Police Magistrate Ellis to-morrow morning.

A meeting of owners, newsmen, conductors, trainmen, telegraphers, way and maintainers employees will be held at the James Hall to-morrow (Saturday) afternoon at 2 o'clock.

You Save Great Big Amounts

THE August Furniture Sale is not a sale of small savings. You save good full sized dollars on a single purchase. Perhaps when you are buying a set of chairs or a brass bed, seven or eight dollars more or less doesn't seem very much difference considered with the substantial figures of the regular price. But think what a saving of seven or eight cents means—not dollars—cents—in the purchase of a staple commodity like sugar! Seven or eight dollars is worth saving if you can get the chance, just as it is worth earning.

Why not buy Furniture at August prices? Every piece of furniture with a yellow tag display in our furniture department? Every piece of furniture with a yellow ticket is underpriced.

10 sets Diners, quartered oak frames, golden polished, neatly carved, well braced legs, claw feet, padded seats, upholstered in fine green leather, in sets of 5 small and 1 arm chair. Regular \$31.00. Monday August Sale ... \$22.75

SEA CLIFF IS BACKED WINS ALBANY HANDICAP

Dead Heat in First Race, Purse Divided—Fort Erie Summary

SARATOGA, Aug. 7.—The first dead heat at this race meeting occurred today, when Refined and Whiptop came on even terms to the finish and the judges were unable to decide the winner. Sweet, who had the mount on Refined, was severely criticized for his ride on the favorite. She was leading by a couple of lengths when they swung into the stretch, and Sweet was over-confident and began easing her up. Meanwhile McCarthy, on Whiptop, was hard at work and, closing vigorously, got up in time to make it a dead heat. The purse was divided. Sea Cliff, heavily played, won the Albany Handicap by a couple of lengths. The track was deep in mud. Summary:

FIRST RACE—For mares, 3-year-olds and up, selling, 5 furlongs: 1. Refined, 108 (Sweet), even, 1 to 4 and out. 2. Whiptop, 101 (McCarthy), 7 to 5, 1 to 3 and out. 3. Biskra, 102 (Cullen), 6 to 1, even and out. Time 1:17. Grace Cameron also ran. Dead heat between Refined and Whiptop. Purse divided.

THE ONE MAN!

Toronto and Canada have one Aristides, and he deals out justice in the Toronto police court. He believes that the law was made to be enforced, and he believes that if a man commits a crime he ought to be punished. More-over he doesn't believe in compromising justice and the vindication of the law with what is called "restitution," or having two kinds of law, one for those who have influence, and another kind for those who are without friends.

A GOOD MAN WORTH HIS PRICE.

In the selection of an electrical engineer for the new city power distribution plant installation the civic feeling of parsimony should not be permitted to operate against the choice of the best man available. Toronto has out-grown the day of second rate officials, and the man to be chosen should have independent ability and wide enough experience to enable him to fill the position adequately without requiring to rely on outside advice.

Very much of the success of the whole scheme depends on the skill with which the installation is locally carried out for distribution, and the business tact and management with which custom is found for the power to be delivered. The engineer appointed will have the responsibility of successfully carrying out the city's plans in both these respects.

HOED TURNIPS FOR BEGINNING.

Editor World: So John Willison has bought out The News. His old friends here delight to learn of his rise into the financial realm. When Jack worked for me years ago, he beat us all out hoeing turnips, altho as we said, he was scratching over the ground only and left too many turnips in a hill, but he got there just the same. We are glad that he has scratched along lively ever since, finishing first The Globe and now is on The News fields. Most of all he showed what he was made of when he hoed turnips down on the farm here.

WE WANT CLEAN MONEY.

Belleville Ontario: The Toronto World's campaign against dirty and defaced paper money ought to, and we hope it will be successful. Money is an excellent thing to have, but it can be made—the paper part of it, at least—much more attractive and more sanitary than it now is.

SOLD TO GERMANY?

LONDON, Aug. 7.—A rumor, said to have its origin in Berlin, but which some papers trace to certain German naval officers now visiting England, is that the three warships of the Dreadnought class, which were ordered here in 1905, are to be sold to Germany.

Detroit Divorce May Be Invalid.

Windsor, Aug. 7.—Provincial Detective Mahoney has been investigating a Detroit "quick" divorce suit and has charged of bigamy may be laid against a resident of Chatham and Wallaceburg. It is alleged that he secured a divorce from his wife in Detroit after swearing that he had been a resident of Detroit for a period of two years. The bill was filed on March 9 and a decree was granted on July 10. Two weeks ago he married another woman in Chatham.

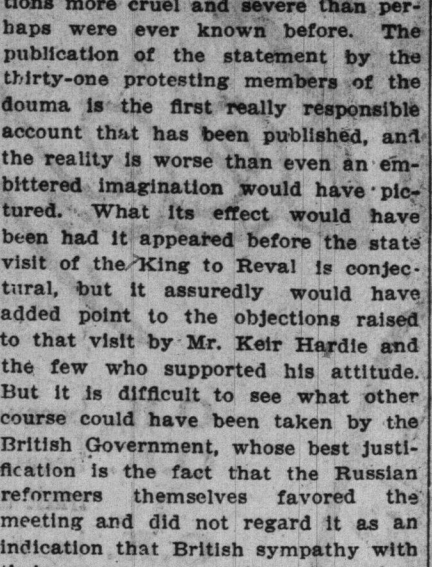

Summer Sunday Service.

Instead of the usual band concert tomorrow night at Hanlan's Point, Mr. J. M. Wilkinson, by request, will conduct a religious service similar to the one held in Massey Hall on Sunday nights last winter. A fine program of sacred song has been arranged by Mrs. K. Chatter-Morton and her quartet of ladies. The subject of the pictorial address will be the thrilling story of "Ben-Hur" illustrated by 75 beautiful hand painted views. The service will commence at 7.30 p.m.

5,000 Cured of Hay Fever

Instead of sending patients to the mountains, doctors are now prescribing "Catarrhoxone." It relieves hay fever and permanently cures Hay Fever. All druggists sell Catarrhoxone. Plenty to cure Hay Fever for \$1.00.

When watches disagree, the hands that set them right are the hands of the ELGIN WATCH that's ever right

THE READER OF HISTORY.

The reader of history generally chooses for his reading a story of other days. He very often loses sight of the fact that the really more important history is that of his own time and of his own country. Too often we are well versed in what has been done in foreign countries, and know little or nothing of what is being done in our own country, and in our home cities and towns.

POLITICAL INTELLIGENCE

Mr. R. L. Borden is having a well-deserved rest after the long and laborious vigil of the recent session. It is more than likely that in a very few days he will make an announcement of his program and the program of his chiefs in the coming federal contest. It is also likely that he will be strengthened by enlisting the services of Conservative chiefs who are now in the governments of British Columbia, Manitoba, and Ontario.

Public Amusements

"Six Little Girls and a Teddy Bear," a novelty in dance and song, will be the headline act at Shea's Theatre next week. The producer has hit upon a novel idea of dancing and singing combined with comedy.

A dainty newcomer will be seen in the "Fascinating Floras." This young woman possesses a charming personality and her impersonations are out of the ordinary and most acceptable.

The Gaudesmid Brothers are European comedy acrobats, with performing dogs. This act has been in America for but a few weeks and the performers have already won the greatest commendation for their clever and rapid work, which is at times sensational.

Nelson Downs has a unique act and shows something new and astonishing in the way of coin manipulating. Mr. Downs makes his act both amusing and picturesque.

The Charles Ahern Troupe are called the funniest bicyclists in the world. These men, including Charles Ahern himself and pretty little Vestia Ahern, make up the aggregation and their work is rapid and full of comedy.

The Josephine Trio have not been in Toronto in several seasons and these two graceful women and one man have an aerial act that is truly wonderful. They are all beautifully clothed in white and their stage drapes in a black velvet curtain, making a striking background for an exquisite picture.

The big bill of the week closes with new pictures in the kinetograph.

How San Francisco Fell. New lighting effects and added realism in the scene representing the destruction of the city make the San Francisco at Scarborough at Scarborough Beach a much better entertainment than it has ever been before. By the destruction of the scene painter's art and the craft of the carpenter the effect of distance is much more convincingly presented, and the City of San Francisco before and after its destruction is very truthfully presented. People who go into the San Francisco earth-quake expecting to see an ordinary moving picture show are very agreeably disappointed. The moving picture idea is not used at all in connection with the Scarborough Beach presen-

FOR AND ABOUT WOMAN

A SONG FOR AUGUST.

There's a death damp in the dawn And a fever in the noon; Summer's tender bloom is gone And her soul will follow soon.

There are voices in the night, And the calm stars overhead Are like tapers set a-light In the chamber of the dead.

"Mortui saluamus." But we shall not die in vain. We shall fill your dreams with beauty Till the summer comes again.

Rest.

You need it. You busy ones, Lazy ones, Busy ones should consider. Rest makes her better tempered all the time.

Rest soothes the nerves and prevents unkind remarks. Directly after luncheon is the best time for most women.

Sunburnt Eyes.

Many persons suffer from sunburnt eyes whenever they are exposed any length of time to the sun in summer. To relieve the pain bathe the eyes freely with hot water or use an eye-cup.

Timely Tips.

To remove grass stains from children's clothes rub the spots thoroughly with a little fresh lard a short time before washing and the spots will come out.

Refreshing Salad.

Pineapple in any form makes one of the most delicious summer salads. Instead of cutting it in cubes, however, and serving it either alone or with celery, try combining the pineapples and orange.

BROKEN IN HEALTH

Dr. Williams' Pink Pills Restored Strength After Medical Treatment Had Failed.

"I can truthfully say Dr. Williams' Pink Pills did for me what one of the best doctors in Halifax failed to do—restored my health." This strong statement is made by Mr. Wm. J. Weaver, 172 Argyle Street, Halifax.

Dr. Williams' Pink Pills cure such cases as Mr. Weaver's, because they make the rich, red blood that feeds and strengthens every part of the body.

It is more than six thousand years since the first judgment day. So far as we are able to approximate from the Bible, the first crisis day lasted about a year and a half during which Adam was on trial in Eden.

We all know the result of that first crisis—that it involved not only Adam and Mother Eve, but all of their children.

Some might expect us to treat the condemnation of matters as the food as the result of another judgment day; but we answer, no, mankind was not the result of the first crisis.

PASTOR RISSE'S SERMON

PITTSBURG, Pa., Aug. 7.—Pastor C. T. Russell preached in Allegheny Carnegie Hall to a large audience from the text, "When the judgments of the Lord are abroad in the earth the inhabitants of the world will learn righteousness."

The expression "day of judgment" is greatly misunderstood, being often interpreted to mean doomsday, signifying the time when trial is ended and the sentence given.
