PRESIDENT FALCONER PLAYS ROWDY STUDENTS

Promises Punishment of Guilty and Demand Guarantee of Behavior at Futurs Functions.

Dignified and manly, but straight from the shoulder, was the stinging rebuke which President Falconer administered in convocation had yesterday afternoon to the university students who, by their unruly conduct, disgraced their alma mater on Halloween.

"The public is indignant. I believe that all-almost of you moreover, probably more, are thoroughly indignant, and I take it that the article in The Varsity is a true expression of the minds of those who are the real students in this place."

"Humiliating Position. We are put in the humiliating position of having asked guests to accept our hospitality, and of having not known how to treat them. The leading educational institution of the Dominion asks ladies to a function and does not know how to afford them protection. Can you think of anything more humiliating than such an action?"

"Many things have been done that we can tolerate, but gentlemen, there are some things as gentlemen, that you cannot tolerate."

"If this continues, self-respecting ladies will refuse to act as patronesses and will refuse their presence at our entertainments."

"There are a few men who get here by mistake, and on them the burden lies."

"What is to be the continuation of this? How can this be avoided? We do not wish to remove from the university, and from the tempering influence of this environment, these social functions. We hesitate to bring in police from the city. I hesitate to introduce detectives in plain clothing. It might result in the introduction of a spirit of mistrust and the means of prevention become worse than the disease, and so it might be better to banish social functions altogether."

"Appeal to Honor. Is there no way out? I believe you can control if you only organize and let your influence be felt. I hope the great majority of this university, who are men of honor, will see that this is stopped. Gentlemen, as soon as we get a reasonable assurance from you that we will not be subjected to a repetition of this humiliation, we will give you perfect liberty for the social functions to proceed."

"You have your year organizations and faculty societies. These bodies will, thru the students' parliament, express themselves as prepared to stand behind the university to defend it against this indignity, which we cannot be obliged to shut down on the privileges."

"I need not tell you what happened on Saturday night. One gentleman's automobile was damaged to the extent of \$40 or \$50. A door was broken in, university property was damaged. Some coward flung a large stone thru one of the windows near which four or five men were standing, and anyone might have been struck. A childish thing, you say, and we are not supposed to have children who will do that sort of thing."

"A party with ladies, strangers to the city, were being taken thru the park and an obstacle was thrown in the way of students, which, fortunately, they avoided, and afterwards stones were thrown at them."

"Do you imagine anything more cowardly? Do you wonder at our indignation that the university should harbor such students?"

"Gentlemen, if we get the men who were responsible for this, we will deal with them, but it is difficult to get them. We look, of course, to the uni-

LADIES SAVE MODERN LANGUAGE ASSOCIATION

Mischief-Making Mere Man Unable to Wreck Varsity's Oldest Departmental Society.

Disruption threatened and nearly overtook the oldest of departmental societies in the University of Toronto, the Modern Language Association, but was averted by the resolute stand taken by the lady members.

The trouble appears to have been a by-product of the agitation to segregate the lady undergraduates in a separate college, the tender flame of which has been jealously guarded and assiduously fanned into feeble flickers of brilliance by the hand of the professor of history in University College.

When the Modern Language Club began its existence in 1881, there were no ladies at the university. They came in 1884, and at the present largely predominate in the moderns department.

When, therefore, no fourth year man was available for president of the club, the trouble began. Unkind remarks were made about "petticoat government." It was proposed to put a third year man in the office, which was clearly unconstitutional. Also a motion was made to limit the membership to 40 men and 60 ladies. The proposals, the ladies say, were made by men who had no proper status in the club, being in the English and history department.

The next move of the mischief-makers was to suggest that the constitution be changed, that the men succeed to the club be made a purely women's club.

This motion was squelched, but the entire executive resigned and it began to look blue for the club. However, the sunshine of M. St. Elme du Champs' influence beamed on the situation, and dispelled the vapors of dissolution arising from the history department. Miss M. L. Whyte was triumphantly elected president at a meeting on Tuesday, and peace once more reigns in varsity halls.

Redderoth, pastor of the German Lutheran Church, performed the ceremony, after which a wedding breakfast was served and the baron and baroness left later for Niagara Falls. They will return on Saturday for a few days, before sailing for London, Paris, Spain and Italy, en route to their home in Vienna. Mrs. J. Howard was matron of honor, and the bridesmaids were Miss Jessie Milner of Brampton, cousins of the bride, and Miss M. M. McLaughlin while little Isabel Nichols, sister of the bride, was flower girl. The wedding march was played by Miss Jennie Milner. The groom was supported by Mr. and Mrs. Sprinks left on their wedding tour for Buffalo and Cleveland.

LIQUOR AND DIVORCE CONDEMNED BY BISHOP

His Lordship of New Brunswick Gives His Synod Some Plain Talk.

FREDERICTON, N.B., Nov. 3.—(Special.)—At the opening of the Church of England Synod of New Brunswick to-day, Bishop Richardson said that the number of vacant missions had been reduced from sixteen to six. He noted a small improvement in the stipends of mission clergymen, but thought it standard was far too low. The plan of grading the stipends of mission clergymen according to the length of service, he approved. His lordship strongly deprecated parish picnics, etc., for the raising of funds for church purposes, such methods being unchristian and in the end in view, and serving to discredit the church. Public dances, sometimes carried on in connection with these picnics, were also condemned. Churches should be supported by the free will offerings of the people.

The bishop made a strong pronouncement on the temperance question, saying: "Look around, and you will find home after home that has been blasted by the traffic in alcohol. It is with a sense of shame that I remind you that this church is doing nothing to put itself on record as being opposed to the sale of liquor. The time was ripe for prohibition, which must have behind it the force of public opinion. Unlimited local option, he thought, worked well in rural communities, but not in cities. If liquor must be sold, it should be only in sealed packages and by license, then the cost of such license must be much higher."

His lordship also referred strongly to questions of marriage and divorce, asking his clergy to remember that the church law absolutely prohibited marriage under divorce.

His lordship, nothing can be taken for granted, but plain questions must be put to both parties to the proposed union," said the bishop. Under no circumstances, also, did the church deem it lawful for a man to marry his deceased wife's sister.

Case Against Mrs. Rumble. Woman Accused of Blowing Up Her Husband With Dynamite.

CHATHAM, Nov. 3.—Mrs. Mary Rumble, the woman who is charged with dynamiting her husband's house in Harwich, came up for preliminary hearing in police court this morning before W. G. Merritt, J.P.

Aylesworth Cole, a C.W. and L.E. conductor; Peter Bellaire and Mrs. Rose Gallagron testified that they had seen the prisoner on the morning after the explosion at the third concession, Chatham Township. She took the car there from the Wallaceburg, Marsden Whiteley, P.E. station on Saturday, testified that on the morning before the explosion Mrs. Rumble had carried the car to the Wallaceburg station. She appeared to be nervous, and acted queerly. She carried two parcels, and the witness identified the parcel which was found at the Rumble home after the explosion as the parcel which covered the parcels which the prisoner carried on that morning.

The case was then enlarged for a week.

Her Sentence Changed. When Laura Whible was called in police court yesterday morning charged with escaping from the Belmont Prison, a few days ago, A. R. Hassard, her counsel, sprang a sensation. He declared that in Nov. '08, she had been sentenced to six months in the Reformatory Home and had there served five extra months and had taken this method to end her wrongful confinement. It was explained that in order to get her into the institution Judge Winchester, with the girl's consent, had changed the sentence to an indeterminate one. This was confirmed last night by Judge Winchester.

EFFIGY OF BITHE DANGLES FROM ROPE

Figurative "Hanging of Man Who Killed His Wife in Village of Agincourt.

A gruesome evidence of the sentiment of the citizens of Agincourt with regard to the outcome of the two trials of Walter Bythe, serving 15 years in Kingston penitentiary for beating his wife to death in the little village, swings from a telegraph pole at the corner of the main highway just to the south of Knox Church, in the very heart of the village.

There is an image said to bear the inscription "Walter Bythe, the ghastly figure is suspended at the end of some ten feet of rope and swings about 15 feet from the ground. It was strung secretly during the darkness of Monday night and early drivers on the road saw it there just as the day was breaking Tuesday morning.

No move has been made to remove the lay figure. While it is regarded generally as the Halloween trick of boys, the comment made upon its presence is, to say the least, not adverse.

The MASON & RISCH PIANO

The Supreme Exponent of Modern Piano-making

BYGONE PIANO ART

An 18th Century Italian Harpsichord, with raised cover showing painting of chorus of monks.

An Italian harpsichord, in which the ancient principle whereby the strings were plucked by quills or other soft-leathers at the ends of the key-levers found its greatest development. The tone was light, rippling, metallicly glittering, and reflected these attributes into much of the music of the times. Gradations of tone were sought by stops operating dampers of cloth or leather on the strings. The awakening of modern music, however, demanded greater interpretative ability, and already (about 1711) the German clavichord had been evolved, wherein the strings were struck with hammers, instead of being plucked. This feature (with other improvements) was the great advance that made possible the magnificent tonal resources of the modern high-grade piano.

IN our forty years' experience of high-grade piano-making it has been our privilege not only to embody the finest knowledge of our illustrious predecessors in our instruments, but by the invention of several notable improvements, one at least bearing the stamp of genius, to endow the Mason & Risch with such exclusive beauty of tone as to win for it the title, "The Piano with a Soul." The Aliquot System of perfect tonal balance and enrichment is the ultimate possible improvement in tone production—by this means the utmost measure of rich, mellow, exquisitely sonorous music of which each note is capable is secured, and retained during the lifetime of the instrument.

To hear the Mason & Risch Piano played, or to play it yourself, is a revelation of the utmost of which the modern high grade piano is capable. Such a revelation will be given gladly without obligation, to purchase, at our warehouses, if you will arrange an early call. Booklet "Inside Information" free on request.

SUPERANNUATION FUND LIKELY FOR TEACHERS

Expert Actuary to Report on Scheme Formulated by Education Board.

Superannuation for public school teachers was advanced yesterday afternoon by the special committee of the board of education appointed to deal with the question. It was decided to get an expert actuarial report on the workability of the scheme. The name of Prof. M. A. McKenzie of Toronto University was put forward in connection, and he will be asked to act.

Levi Clark of Victoria School; R. A. Frey, principal of East Toronto High School; Miss Johnson of the Girls' Home, were appointed a committee to confer with the actuary.

The proposal is to have teachers 30 years of age or under contribute three per cent of their salaries up to \$1200, the number of annual payments to be made to exceed 36. A sliding scale of payments is provided for teachers over 35 years of age, ranging up to five per cent at 40 or over. The board is to contribute to the permanent fund two per cent of the total sum contributed by teachers for the first five and ten per cent for the following five years.

It was pointed out that in Austria teachers retire on full salary after 40 years, having made an annual payment of 2 per cent of their salaries. In England there is a 2 per cent annual payment, and the retiring allowance is two-thirds of the salary. In Belgium it is 10 per cent, and the highest allowance is \$1000. In Italy two to three per cent is paid, with full salary pay retiring. In Switzerland no payments and 1/2 salary after 30 years, with recognition for additional years' service. In Germany, three-quarters salary after 20 years.

Under the proposed system in Ontario the highest retiring allowance would be \$450 and the lowest \$90.

C. H. Barnes, Park School; Miss Harriet Johnson, Girls' Home; Alex. McMillan, J. Givens-street, were present as a deputation representing the teachers.

Pea for Publicity. PIETERMARITZBURG, Nov. 3.—(C.A.F.)—Col. Greene, Natal's delegate, speaking on behalf of the government, deprecated the desire for publicity of the proceedings at the defence conference. He denied that three South African delegates betrayed a tendency towards secession and eulogized the imperial spirit of New Zealand and the other dominions. He declared South Africa's contribution to the navy inadequate. The motion for publication was withdrawn.

KAISER AS A DRAMATIST

Assists in a Posthumous Production of Poet's Play.

BERLIN, Nov. 3.—The production of Ernst von Wildenbruch's posthumous play, "Der Deutsche Koenig," which met with the greatest success upon the first performance at the Royal Theatre last night, was carefully superintended by Emperor William, who had deep admiration for the poet and dramatist. During the dress rehearsal on Monday the emperor suggested the elimination of what appeared as an objectionable incident, and which had no bearing on the plot. Frau Wildenbruch consented, but when the emperor suggested another modification, she replied that her husband had attached particular importance to the passage in question. "In that case," said his majesty, "I shall stand as a matter of course."

A Little Wonder. Valuable goods are said to be done up in small packages. This may well be said in reference to Heintzman & Co.'s diminutive grand piano. This is the same style piano as the concert grand, but on a smaller scale, very suitable for drawing room or library. Though small, it has nearly the power of the larger instrument, and its beautiful penetrating volume of refined tone and its delicate and refined expression stir the enthusiasm of every lover of music. This piano can be seen at the warehouses, 115-117 King-street west, or at the firm's exhibit at the exhibition.

GIVE OPINION ON KNIGHT-AUTO ENGINE

Henry Sturney, the British Expert, Discusses the New Slide Valve.

An opinion of interest and value to automobile owners has been made public by the well known British automobile engineering expert, Henry Sturney.

Mr. Sturney's opinion is especially interesting because he was the first man in England, so he states, to turn the Knight engine over by manual means.

Referring to a recent test of great severity, Mr. Sturney says: "The test has shown that those who have refused to accept the unofficial evidence presented to them and who have stated, with more or less vehemence, that the engine could not be lubricated, that there would be excessive wear, and that, for all practical commercial purposes, it could not work, have been shown to be wrong."

This statement by an unquestioned authority will be appreciated by Toronto motorists who have seen the remarkable new engine work in the Russell car.

ALL'S WELL WITH PRINTERS

Robert Glocking Says Relations of Employers and Men Are Amicable.

"The printing trade, so far as relations between men and employers are concerned, has never before been so quiet and altogether so satisfactory as at present."

Mr. Glocking is president of the Ontario Federation of Labor and is now in session here at the Prince George. Business will be concluded to-day, and tomorrow there will be a conference of the union label trades department of the American Federation of Labor at the Labor Temple.

Mr. Glocking says the talk of striking presidency of the A. F. of L. is unfounded, and that Mr. Gumpers will be at the head again for the 25th time.

Gathering of World-Famous Prelates at Montreal Next Year.

His grace was asked if the three names had been sent to Rome in connection with the recent Ottawa case. Mr. Bruchet replying that it would be an indiscretion on his part to answer. The archbishop believes that there will be a world gathering here next year, attending the congress, as the railway and steamship companies are co-operating in a very liberal manner. There will be cardinals from the old world and many church dignitaries.

SEMBRICH RAVISHES WITH SWEET SONG

Large Audience Grooms Diva in Massey Hall on Occasion of Farewell Concert.

A crowded auditorium and two well-lit galleries—the fact, in brief, tells the tale of how Toronto, the greatest city, devotee on the continent of vocal music, greeted Mrs. Sembrich last night at Massey Hall.

Fashionable society, beautifully gowned and dressed en regie, was there, and enthusiasm reigned from beginning to end. For all were there to hear the most celebrated singer of "bel canto" and coloratura vocalism the world has yet heard.

GIVE DREADNOUGHTS TO SUPPORT BRITAIN

A. E. Kemp Ridicules Canadian-Built Navy Before First Ward Conservatives.

First Ward Conservatives cheered wildly last night when A. E. Kemp, ex-ecutive of the First Ward, declared in favor of Canada giving the money to build two or three Dreadnoughts for the British navy.

"Canada does not know how to build warships," he said, "and there is a crisis coming. It may be just before we know how our great ports and our coast line should be protected."

Both the majority candidates were at the meeting. Controller Henry Douglas discussed federal politics and gave the Ottawa authorities some knocks, while Controller Hocken's talk was mainly on the Beck power project.

"I look on the hydro-electric power policy as the foundation and basis of the future prosperity of Ontario," said Controller Hocken.

"Before two years are past I expect to see power from Niagara Falls oper-ating a municipal street railway."

Dr. J. A. McNeil, who has been in the city for some time, has been heard in a cycle of twenty years.

It happens that Toronto has been in-cluded in the supplementary list of cities which were chosen by Mrs. Sembrich to bear her farewell concert. If indeed she shall listen to her no more on the concert stage, let last night's concert remain with us as a tender memory of the loveliest and most ravishing bel canto and coloratura vocalism we shall ever hear.

Sleeping Car Comfort. The palace sleeping cars of the Canadian Pacific Railway, leaving Toronto daily for Ottawa, Montreal, Detroit, Chicago, Winnipeg and the Pacific Coast, are built in the company's own shops at Angus and are built higher, with berths a little wider (giving in-creased comfort and better ventilation) than the usual sleeper. Passengers' comfort is studied in every way; soft beds and dainty bedding for the weary body, harmonious decorations for the eye, perfect cleanliness and plenty of air for health's sake.

MAKES OTHER CITIES JEALOUS. Member of Federal Government and the Ottawa Grant.

OTTAWA, Nov. 3.—(Special.)—The Free Press, the government organ here, makes an interesting admission this evening in deploring the fact that a rival newspaper had broken faith and published the terms of the proposed arrangement between the government and the city. It says: "Another member of the government expressed his regret at the publication of the terms before they had been presented to the cabinet. He feared that it might provoke criticism by the opposition press outside of Ottawa, and arouse resentment on the part of other sections of the coun-try."

WYCHWOOD MAN ELOPES. Chas. Murray of St. Clair-avenue, who a day or two ago eloped with Olive Tuck, a 17-year-old girl, leaving his wife quarantined in the house pursuing a sick child, not only eloped, but took all his money as well. Murray is a member of the 48th Highlanders and Olive Tuck often accompanied him to the arm-ories. Mrs. Murray is being cared for by members of the local Presbyterian Church in Wychwood.

Brandon, the Second City of Manitoba, is One of the Greatest Railroad Centres of the West

MAP SHOWING BRANDON'S COMMANDING POSITION AS A RAILROAD CENTRE.

From Brandon fourteen lines radiate to all parts of the compass, and the systems include four transcontinental lines.

Take a Look at the Map.

You can see at a glance that Brandon's position is commanding and unchallenged as the commercial centre of a vast and rich agricultural area.

We have for some days been offering to the public fine residential lots in Kensington Park, right inside the city limits, for sixty dollars each. Many of the lots have been sold, and each we believe to be a sound investment that will return two, three or four dollars for every dollar invested.

These lots are 25 x 120 to a 20-foot lane. They are located on as fine a stretch of rolling land as one could wish to see. It is right in the track of the city's extension. Every lot is guaranteed good land or no sale.

Many Toronto gentlemen have invested largely in Brandon real estate. One of the best known of these is J. Curry, capitalist and banker. J. Walter Curry, K.C., is a trustee of the Kensington Park estate.

This is an opportunity that comes on rare occasions. Five years from now you will see the values of these lands so greatly enhanced that it will seem strange that they could ever have been procured at present prices.

The terms are easy. Price Sixty Dollars—one-third cash, one-third in three months and one-third in six months. Seven per cent. off for cash. No interest charged.

The taxes are at present nominal, being only 25 cents per lot per year. The registration and deed cost only \$250. That and the purchase price complete your outlay. Make a wise decision to-day and buy.

It is the man who acts on his judgment that wins. Circumstances have enabled us to present you an exceptional opportunity. Do not let it pass.

Brandon has doubled its population in five years. It is going to be a big city. Get in now while prices are within your reach. Send for application forms and booklet.
