H. H. WILLIAMS & CO., 25 Victoria Street - Toronto.

PROBS: Light to moderate, variable winds; fair, and continued.

SENATE P O

FOREIGNER HAS HIS MIDDLE

Hon. W. S. Fielding, at Dominion Day Banquet in London, Declares That Imperial Fiscal Arrangements Are Domestic Affairs.

(Canadian Associated Press Cable.) LONDON, July 1.—The Dominion Day dinner held at the Hotel Cecil maintained the high standard of previous years, namely that of being the most successful dinners in London. Lord Strathcona presided for the fifteenth time. Among those present were: Hon. W. S. Fielding, Hon. William Fisher, Hon. William Paterson, Sir William Mulock, Earl Crewe, Lords Balfour of Burleigh, Blyth-Shaw of Dunfermline, and Wemlock, G. H. Reid of Australia, W. Hall Jones of New Zealand, Richard Solomon of South Africa, the Bishop of Ripon and Staibans, Judge Champell and A. W. Smithers.

Lord Strathcona and Justice Mulock proposed the royal toasts. The president who received an ovation, in giving the toast "Canada," welcomed the distinguished visitors and recalled the unavoidable absence of Earl Grey. The Dominion's progress, prosperity and wealth were his inspiring theme. In an eloquent speech, he made reference to the reported gold discovery in British Columbia, and counseled caution in all more reliable information could be obtained. In response, the Hon. Mr. Fielding in a fluent and vigorous address, referred to the growing importance of this annual gathering and proceeded to emphasize Canada's position, which were capital and population.

Defends Immigration Laws. Canadians, he said, rejoiced to see the tide of British investment in the Dominion greater than ever. It would bring satisfactory returns. As regards population the finance minister entered a strong defence of the immigration laws. The interview of Sir A. Douglas was his next subject of reference. Mr. Fielding emphatically controverted each of the points raised by the Hon. Mr. Douglas. The statement that annexation was at the bottom of the hearts of ministers in the United States that at present. (Cheers.) Canada, north, south, east and west was meant to be thoroughly British. Mr. Fielding next endeavored to remove some of the misconception which he found existed here regarding Canada's commercial arrangements. His impression was that arrangements Canada had in some way interfered with her liberty to deal with the motherland as she might desire in the future.

A Domestic Affair. He wished to correct that view. Canada had fought for freedom in this dispute and would not be interfered in any degree with the principle she has maintained in every one of the treaties. There was a desire to improve Canadian relations with the United States. He declared, were domestic affairs, where with no foreign nation had a right to meddle. (Cheers.) A loyal telegram having been sent to the King in the name of the 400 guests present, the president at this point read a gracious message of thanks and good wishes. Walter Brooken, who has become a prime favorite, went up 3100 feet and established a record for the time, being 45 minutes and 21 seconds in the air. Count de Lesseps made a few flights, but his Blériot machine did not work.

Ralph Johnston's engine failed him after he had gone up a few hundred feet, and the plane came down with a plunge, the tail being badly smashed.

The Sunday World

SIXTEEN PAGES—SATURDAY MORNING JULY 2 1910—SIXTEEN PAGES

\$5000. We are offering a very nice detached American built house, containing 6 rooms; lot 35x130, with side drive and swimming pool; modern plumbing, improvements; a bargain. This price, H. H. WILLIAMS & CO., 25 Victoria Street, Toronto.

Toronto and York Radial Railway, Jackson's Pt., 3,500

ONTARIO'S PRISON ON THE GOLDEN RULE PLAN

Provincial Secretary's Idea of Giving Men Chance to Reform Under Model Conditions Being Tested at Guelph.

When the time comes for the demolition of the Central Prison buildings on Strachan-avenue, in this city, and the disposal of the site, which is not so far off now that the months cannot be counted, a new era will have been established in regard to prison practice and management in this province, and a new method of treatment adopted towards those upon whose liberty the law had placed a restraining hand.

After all, the foundation principle governing the institution in these enlightened days is correction, not punishment. Those who thru misfortune, circumstance or accident unhappily offend against the country's law are not all vicious and every criminal may have a saving remnant left if the right opportunity is given him.

How far this idea is practicable, Hon. W. J. Hanna, provincial secretary, is proving at the new Central Prison, Farm at Guelph. Prison farm? Surely not. The provincial secretary challenged the judgment of a party of newspaper men this week. They were taken to the farm, conducted over its 800 acres—almost 1 1/2 miles square—and during the time they were on the place there was no mention of the prisoner, no word about a prison. Call it a place of detention meanwhile, if you will, for want of a more appropriate name.

Hanna's Idea. The new farm is an Ontario product—really a Hanna idea. Reformatories in various states of the Union are working along similar lines, and at San Quentin Penitentiary, in California, practically the same principle of dealing with the inmates is in vogue as that which is being tried in Ontario. But the provincial secretary forecasted his present undertaking in a speech delivered in the legislature on Feb. 26, 1907, in moving for a committee of the house to inquire into the prison labor question. He pointed out that all prison labor contracts had resulted in failure; that it was only extremists who said that prisoners should not be employed at all.

"An system adopted," declared the provincial secretary, "should be one that will enable the prisoner to earn an honest livelihood on his discharge, and should turn him out in a fit physical condition to do a day's work." He pointed out that all prison labor contracts had resulted in failure; that it was only extremists who said that prisoners should not be employed at all.

But about the farm. Situated about two and a half miles from Guelph station, adjoining the broad acres of the Ontario Agricultural College, it forms almost a square. It can be properly divided into three sections. The River bank, the most fertile, is being used for a comparatively straight line, turned abruptly to the left and passing out, forms a parallelogram, which waters about 120 acres of the most agricultural land in the province. Although possession was only taken in April last, a large crop will be harvested in the fall. This is what is called the westerly section.

Then there is the central section, which goes thru from front to rear, and furnishes an admirable building site, since it is fairly elevated and excellently drained. This section also furnishes the best of gravel and building sand in unlimited quantities. It is a hot weather tip.

THE SPORT AND THE GLADIATORS

We are hero-worshippers, every mother's son of us; personal superiority is our fetish. Out of every ten normal, healthy, American male voters, nine would like to see a good, square prizefight, and acknowledge that in this condition, it has ever been a mystery to why this sport of sports has been tabooed so generally.

Every day more printed matter bearing on the Johnson-Jeffries prizefight is written, printed, distributed and read than most book lovers have in their entire libraries.

I saw that which I never expected to see, a man who has "come back." Jim Jeffries has renewed his youth. If Jeffries still retains his ultimate reserve force, he will win. No matter how marvelous is Johnson's defence, I do not believe he can stand before the rushing, stubborn monster, once things have settled down to a point where blood is pumping, lungs bursting and fatigue dragging at them equally.

Johnson seems to look upon the battle as a joke. He is marvelously fast. He has a straight left that taxes the eye to follow, but it seems that most of his agility and superlative cunning exercises itself in self-protection. Therein lies one great difference between the two men.

Johnston seems to look upon the battle as a joke. He is marvelously fast. He has a straight left that taxes the eye to follow, but it seems that most of his agility and superlative cunning exercises itself in self-protection. Therein lies one great difference between the two men.

KILLED BY THE BLOW OF A FIST

Fatal Termination to Altercation Between Men Employed in Factory at Port Credit.

PORT CREDIT, July 1.—(Special.)—Another killing was to-day added to the alarmingly large number which have taken place in Ontario within the last year or so. As a result Michael Maw of this village has died here and George Barker, accused of doing the deed, is locked up in Brampton jail, where he was lodged by Chief Constable Rulledge.

The fatality is said to have been the termination of a row which occurred at the works of the St. Lawrence Starch Co., in which both the participants were employed. Strained relations had evidently existed between the men previously to the outbreak of an open appeal to force. Barker, it is said, while passing Maw used an expression which caused the latter to lose his temper and throw a hammer at him. Barker promptly retaliated by knocking Maw down.

The men then started in to scrap in deadly earnest. A second blow from Barker's fist again felled Maw to the floor. This time he did not rise to resume the contest. He was dead. Barker was promptly arrested and taken to the county jail at Brampton. He is a young English immigrant, having only been eight or ten weeks in Canada. He is 21 years of age and of a stout and muscular build.

Coroner Dr. Sutton decided to hold an inquest on Maw and this will take place at 2 o'clock Monday afternoon. Crown Attorney McFadden of Brampton will attend to watch developments.

CAME DOWN WITH PLUNGE

Tail of Ralph Johnston's Biplane Smashed at Montreal Meet.

MONTEAL, July 1.—(Special.)—Many thousands went out to Lakeside to-day, and the public greatly appreciated the several features of the meet. There were nine different flights, and the interest was kept up till dark. Walter Brooken, who has become a prime favorite, went up 3100 feet and established a record for the time, being 45 minutes and 21 seconds in the air. Count de Lesseps made a few flights, but his Blériot machine did not work.

Ralph Johnston's engine failed him after he had gone up a few hundred feet, and the plane came down with a plunge, the tail being badly smashed.

Continued on Page 2, Column 3.

HOLIDAY WAS WELL SPENT DESPITE HEAT AND HAZE

Tens of Thousands of People Journeyed to Various Places of Amusement and Recreation.

If it hadn't been for the forest fires in the northwestern parts of the province, Torontonians might have had a more enjoyable Dominion Day. The sky darkened by smoke, not only caused many to think that a thunderstorm was in the offing, and so kept them clear to home that would have been the case had the sun shone brightly from a blue sky instead of appearing as an orange-red ball of fire thru the haze. The same atmospheric conditions prevailed as far east as Kingston.

And then, too, it was hot—that dull, sticky kind of heat. The mercury climbed up as high as 83, being 15 degrees above the average for the day. Last year it was 71.

Still, it's a poor kind of weather that blows nobody away, and the steamers and ferries had a glorious patronage. And the amusement parks and resorts were also thronged. The sporting events, as usual, drew big attendances, the lacrosse match in the afternoon having about 30,000. Many couples working along similar lines, and at San Quentin Penitentiary, in California, practically the same principle of dealing with the inmates is in vogue as that which is being tried in Ontario. But the provincial secretary forecasted his present undertaking in a speech delivered in the legislature on Feb. 26, 1907, in moving for a committee of the house to inquire into the prison labor question.

But about the farm. Situated about two and a half miles from Guelph station, adjoining the broad acres of the Ontario Agricultural College, it forms almost a square. It can be properly divided into three sections. The River bank, the most fertile, is being used for a comparatively straight line, turned abruptly to the left and passing out, forms a parallelogram, which waters about 120 acres of the most agricultural land in the province. Although possession was only taken in April last, a large crop will be harvested in the fall. This is what is called the westerly section.

Then there is the central section, which goes thru from front to rear, and furnishes an admirable building site, since it is fairly elevated and excellently drained. This section also furnishes the best of gravel and building sand in unlimited quantities. It is a hot weather tip.

All traffic officials, both marine and rail, hold that yesterday was the busiest Dominion Day for them that they have ever had. Also they say it was the biggest day this year, and big enough from their point of view to be ranked among the busiest days of the year.

VOUCHER FOR \$15,000 IS UNACCOUNTED FOR

Divulged in Connection With Printing Bureau Investigation—Neglected Proper Deputy.

OTTAWA, July 1.—(Special.)—The enquiry into the affairs at the printing bureau shows that, amongst other irregularities, there is a voucher for \$15,000 worth of supplies which cannot be accounted for. In other words, there has been in one case a clear steal of \$15,000.

One aspect of the printing bureau scandal which is arousing increasing comment is the manner in which the King's printer, Charles Parmelee, has been trusted aside by Hon. Chas. Murphy, Mr. Parmelee, who is a practical printer, was appointed to the post of King's printer quite recently, after years of faithful service as a Liberal M. P. As King's printer he holds the status of a deputy minister, with the printing bureau as his sphere of action.

Mr. Murphy is in the position of having three deputies, one, the King's printer, Charles Parmelee, in charge of the external relations of the bureau; another, the under-secretary of state for external relations, Joseph Pope, in charge of the external relations of the bureau; and the third, the under-secretary of state, Mr. Mulvey, in charge of such routine administrative work as the granting of charters. A parallel case was the manner in which until a while ago Mr. Lemieux had two deputies, Dr. Coultter, in charge of the postoffice, and Mackenzie King, presiding over the labor department.

When the proceedings commenced, Mr. Murphy summoned to his side one of his three deputies, Mr. Mulvey, and proceeded to investigate the affairs of another deputy, Mr. Parmelee, excluding the latter from the investigation of his own department. Mr. Murphy might as well have called in Mr. Pope.

BISLEY SHOOT BEGINS CANADIANS DOING WELL

Team in Empire Contest Are Good Third in First Stage of Match—Great Britain Leads.

LONDON, July 1.—The competition of the National Rifle Association at Bisley opened to-day, when the Empire Match was begun. It ends to-morrow. The trophy is given by the Australian Rifle Association, and is open to teams of 8. Shooting to-day was at 200, 500 and 1000 yards; to-morrow at 200, 500 and 1000 yards.

The Canadian scores at 200 yards were: Crowe, 49; Forrest 48; Freeborn 48; Mitchell 48; Russell 47, total 392. Great Britain scored 392, Australia 380, Singapore 378, India 378. At 500 yards the scores were: Crowe 45; Forrest 46; Freeborn 46; Mitchell 45; Morris 45; McHarg 47; Russell 46; Steele 46, total 372. Great Britain scored 385, Australia 380, Singapore 350, India 350. At 1000 yards the scores were: Crowe 47; Forrest 47; Freeborn 44; Mitchell 46; Morris 44; McHarg 41; Russell 47; Steele 46, total 354. Great Britain scored 382, Australia 365, and India 322. The Singapore team retired.

WATERBURY MAN IS INTERESTED IN FIGHTS

Rex Beach Says It's the Super-grafted Love of Victory and Admiration of Excellence—A Contrast of the "Pugs" at Reno.

Rex Beach fight story No. 1. Special service to The World, copyright 1910, by Geo. Matthew Adams, Registered in Canada. All rights reserved.

RENO, Nevada, July 1.—Peary discovered the earth's axis; Tex Rickard deeded the centre of the universe; Ronald Amundsen found the spot where the magnetic needle stands on its head, and fixed it as somewhere north of Canada, but Tex has proved him in error. It remained for a 38-year-old miner to demonstrate that Reno, Nevada, is not only the exact geographical focusing point of all things terrestrial, but also the precise magnetic centre of the civilized world.

I say "civilized world" designedly, for, whether you approve or disapprove of prize-fighting, you cannot remain within the hospital gates of this city for an hour before you are brought face to face with the great, manly, unadorned, elemental fact that mankind, underneath its veneer of civilization, is primitive and jungle-born. There is no gaining it.

You may lock yourself into a dark room or a sawdust-padded locker, or in some other manner isolate yourself from external influences and, by dint of calm, dispassionate reasoning, reach the conclusion that prize-fighting is unnatural, brutal, coarse, insane and foolish beyond measure. And so it would be if humanity lived in refrigerators and the blood of poster bears ran thru its veins.

HERO-WORSHIPPING OF TED ROOSEVELT

It was this spirit of individuality, this hunger for conquest, this desire for individual excellence that raised him to his stature, and subdued the earth to the sound of his voice. We are hero-worshippers, every mother's son of us. Personal superiority is our fetish.

Only yesterday we offered such a welcome as the world has never known to a fighter. No Roman emperor in the great epic days of old ever reviewed such a pageant of honor as Theodore Roosevelt in the hall of the "Elba." An armada met him at the threshold of his land; uncounted thousands lined his route of march, and sent the skies with such a crashing uproar that the jealous heavens opened wide and let loose their warring elements to drown it.

SHE GOT SYMPATHY

Wife of Toronto Immigrant Coming Over in State. (Canadian Associated Press Cable.) LONDON, July 1.—Mrs. Woolmer, the wife of a Toronto laborer, who the immigration regulations did not permit to join her husband in consequence of his being an assisted emigrant, sailed on the Empress of Ireland by public subscription. Sympathizers decorated her cabin in flowers.

A RETROSPECT. July 2, 1821.—Sir Charles Tupper was born at Amherst, Nova Scotia. July 2, 1867.—Lord Monck was sworn in as governor-general of Canada, by Chief Justice Draper. Sir John A. Macdonald, at the request of the governor-general, formed a coalition ministry.

Panama Hat Bargains. The disturbed state of the Panama hat market in New York, through the sale of several large consignments of hats from South America, has caused many of the large dealers there to unload their stocks at a sacrifice. The Dineen Company's buyer took advantage of the market conditions and Wednesday sent forward a real bargain shipment of Panama hats from the Dineen Company's stock. This morning the manager of the Dineen Company states that there never was a better selection of Panamas in Toronto at the prices asked. Here is the way the shipment will be sold: 102 dozen of Panamas at \$3.75; 187 dozen at \$5.00, and some specials at \$7.50 and \$10.00. The store is open every evening until 10 o'clock.

The Sunday World

Of to-morrow's issue of The Sunday World it is almost sufficient to say that it will be better even than the splendid number of last week. The magazine section hasn't a dull paragraph in it, and the news section will contain every item of popular interest available up to the very minute of going to press. And all the leading events of the past week, local and general, will be vividly told in picture form in the splendid eight-page supplement.

THE ILLUSTRATED SECTION WILL CONTAIN:

Full page of pictures of the big Conservative picnic at Kew Beach, showing the crowds and most of the leading figures and speakers present. Illustrations of scenes in the Western Ontario oil and gas district. Half-page of views showing the soldier boys breaking up camp at Niagara and preparing for the return to the city. Splendid picture of the leading characters in the Queen's Own Semi-Centennial Pageant. A fine souvenir of an interesting event. Scenes showing thousands of city workers on recreation bent in our own parks and playgrounds, and in other parts of America. Illustrations of fishing parties and the spoils of their sport at Ontario resorts. Numerous pictures of scenery, and of general human interest to our readers.

THE MAGAZINE SECTION WILL CONTAIN:

Well-written editorials on topics of local, national and general interest. Full page of literary matters, and a page devoted to Music and Fine Arts, embracing the second of the series of selections of popular and classical music. Full consideration of all affairs of timely interest to motorists. Snappy discussion of Theatres, Theatrical Matters and people connected therewith. SPECIAL FEATURES: Crusts and Crumbs, comment on timely topics. Impressions of an Englishwoman in Canada. Labor column, edited by Sam Landers. Observations of a Toronto Churchgoer.

EATON'S JULY SALE

STARTS MONDAY, JULY 4th

HERE'S the plain simple statement without a superlative—yet full to overflowing with tidings of the good value giving. The July Sale has grown to such an extent, involving quantities of merchandise of tremendous proportions—a growth that has been steady and sure—a growth that has evoked for this sale provision involving months of energetic preparations, preparations in anticipation of a month of much greater business activity than a year ago, which holds the record for Big July Sale Selling; all the more noteworthy for the road to such an accomplishment was fraught with

difficulties—cost of labor has increased, prices for material are higher, etc. Nevertheless here are prices as low—even lower in some cases than a year ago, the result of three things: Ready cash, quantity orders and particularly our manner of pricing. We're taking VERY small profit, as we utilized to every advantage our ready-cash buying, and we ordered far enough ahead to make it to the manufacturer's interests to fill the orders, thereby utilizing every possible minute otherwise idle. The first day holds many very exceptional offers.

The First Ice Cream

To Dolly Madison, wife of the fourth President of the United States, and one of the most charming and popular mistresses the White House has known, is attributed the invention of ice cream. Gifted with beauty, grace and diplomacy, it was yet as a hostess she won her greatest and most lasting fame. It is recorded that even the bitterest enemies met amicably at her board rather than forego the pleasure of her entertainments. That she should be the first to serve this now universal delicacy should entitle her to a place in international memory. If, as someone has suggested, every hot and thirsty mortal who finds refreshment in a sundae, an ice cream soda or any of the kindred concoctions, were to contribute a penny for the erection of a monument to the inventress of this culinary delight, they might build a tower so high that all other memorials of a similar kind would appear as mere gate posts.

The prophecy might easily have been credited during the past fortnight, when anything in the nature of ice cream was consumed in amazing quantities. And while Summer lasts it is not likely the demand will abate. It is appropriate, therefore, that attention should be drawn to the comfortable and attractive provision the Store has made for the shopper who feels inclined to pause for a moment and regale herself with a reviving draught.

The general lunch room has been enlarged, and also vastly improved in appearance by the introduction of handsome oak pillars and rafters. A system of ventilation supplies a constant current of cold air, making the place cool on the warmest of days. In the artistic little grill room adjoining the same magic effect is characteristic, and here, in a picturesque setting of palms, softly harmonizing decorations, and pretty, flower-decked tables, the morning cup of bouillon or cocoa, or the afternoon cup of tea or coffee, may be substituted, if so desired, by an ice, a soda or any of the sundry items on the Summer menu card.

"Eatonia Beauty," a delectable combination of strawberry and vanilla ice cream, reposing on lettuce and liberally crowned with candied cherries and pineapple, is one of the season's novelties, as is also "Eatonia Delight," of ice cream soda variety.

If you wish to sit and rest awhile, if you are feeling the heat and wish to become delightfully cool, if you wish to have a bite or sup of invigorating refreshment—spare ten or fifteen minutes and go up to the Lunch Room on the fifth floor.

Umbrellas

The first lot of Parasols for the July Sale is a choice collection of fancy designs at the tempting price of \$1.39. All are rare values at the price. There are light, medium and dark covers in a wide range of widely differing patterns and colors. Choice gilt and silvered frames, with handles assorted in dainty natural woods. July Sale price \$1.39

The Umbrellas are some of our best goods, pure silk and silk-and-wool covers, close rolling frames, large selection of handles, with extra fine rolled gold and sterling silver mounts, silk cased. They have been twice this price, so depend upon rare good buying. July Sale \$2.50
—Main Floor, Yonge St.

Women's Gloves

400 pairs Fine Kid and Lamb-skin Gloves, with two dome fasteners, outside and oversewn seams, gusset fingers, and Paris points. In a good range of colors, but not all sizes in each color. You'll save well on every pair at this July Sale price 45c
—Main Floor, Yonge St.

The White-wear Section

One of the foremost sections in the July Sale, the White-wear, has more than anticipated the needs that the magnitude of the Sale this year promises to develop. Here's a list of values that surpass almost anything we ever offered for a rush of opening day buying.

SATURDAY MORNING, JULY 2, 1910.

POWER POLICY MAKING GOOD.

Altho the public memory is proverbially short, the recent appearance of the Toronto Electric Light Company before the board of control must inevitably have recalled to many citizens the character of the opposition offered in its behalf to the entrance of Toronto into the Municipal Union formed for the purpose of carrying out the Whitney-Beck power policy. In the pamphlets issued on behalf of the private electric interests that were attempting to create a huge power monopoly and to sew up the city for all time, and the letters to the press ostensibly coming from independent sources, but really written to order, very reckless statements were made regarding the outcome of a municipally owned and operated undertaking. The public were informed that it was absolutely impossible to supply electric light and power at lower prices than the company was then charging, that the estimates prepared by the Hydro-Electric Commission and the city's engineers were unreliable, and would be far exceeded and that the only desire of the electric interests was to save the city from a huge and disastrous blunder.

Now the citizens see the same parties who inspired these interested warnings and loudly professed their indifference to civic competition in a more chastened attitude. An immediate and considerable reduction in the charges for electric light and power is no longer an impossibility. The once truculent company is now ready to accept the city department's tentative schedule of rates and not only this, but plainly expects to earn at least ten per cent. for its shareholders since it dangles the offer that profits over that amount shall be utilized for further rate reductions. This remarkable turn-about is a tacit admission that the representations made during the bylaw campaigns were unreliable and unfounded and it should enable the citizens to realize as never before the real danger from which Toronto so narrowly escaped. Having got cheaper white coal, let the citizens keep steadily in view that the coming reduction is only a beginning. As the scheme develops, other will assuredly follow and the prospect must not be clouded by any agreement which will deprive Toronto of the legitimate fruits of its enterprise.

PROPERTY AND PUBLIC RIGHTS.

In his oration delivered the other day before Harvard Law School, Attorney-General George W. Wickersham of the United States took occasion to refer to the anti-trust legislation of 1890, whereby congress undertook, thru the exercise of its constitutional power, to regulate interstate commerce to grapple with the great problem of combinations in restraint of trade and monopolies. The history of all nations, he remarked, indicated that at a certain period of national development it became necessary to interpose by legislation between the rapacity of individual greed and justice and fairness to the entire people.

The attorney-general pointed out that the right of every community to legislate regarding property affected by a public use had been early recognized and quoted Chief Justice Waite, who occupied the chair of the supreme court between 1874 and 1888, to this effect: "Property does become clothed with a public interest when used in a manner to make it of public consequence and affect the community at large. When, therefore, one devotes his property to a use in which the public has an interest, he, in effect, grants to the public an interest in that use and must submit to be controlled by the public for the common good to the extent of the interest he has thus created."

THE PROVINCIAL HEALTH BOARD.

Dr. Hodgkin's retreat from the secretaryship of the provincial board of health gives an opportunity to remark that his position never gave such a capable officer a sufficient chance for the full exercise of his abilities. He was thoroughly trusted by the provincial secretary, and anything that was possible within the limits of the law he was supported in doing. But the law itself is inadequate to meet the conditions that frequently occur in rural communities, and a much freer hand must be accorded the health board if it is to be of real service.

The board has frequently been complained of for not taking more rigorous measures, but the facts were usually that the board had no power to do more than it did. It could make recommendations, and then the local authorities could sit down and ignore them. Very frequently also the local member used his influence, to have a

disagreeable the necessary measure side-tracked. The non-enforcement of such recommendations has been the chief basis of any complaints that have been made.

The lack of authority of the provincial health board to enforce its recommendations is the weak point to be remedied. Hon. Mr. Hanna, we believe, is more than willing to have the board of health placed upon an up-to-date basis, but there is a good deal of reactionary material in the cabinet, and one man cannot do everything. There is an opportunity here for some useful legislation.

STAMP OUT CONSUMPTION.

Dr. William Oser, perhaps the first medical authority in the world, has declared that consumption can be stamped out in three generations if the people will co-operate. The people will certainly do so if they are properly led. The efforts in Ontario to cope with the malarial area not so heavily backed in official circles as would be wished. The reception of the movement was given in the legislature at the hands of the leader of the government was anything but encouraging. Sentiment and old-fashioned ideas must yield to the common welfare, and any disease that takes a toll of three thousand lives every year from the province should be met with the sternest measures of repression.

What can be done is being done by private enterprise. Canada can never have sufficient thanks for the noble work done by Mr. W. J. Gage, Mr. J. S. Robertson and other enthusiasts of the National Sanitarium Association with its hospitals at Muskoka and elsewhere. What was seen last week by those who visited these institutions was calculated to remove every vestige of prejudice or reluctance to reside at these admirable places.

So many have been restored to health thru their means and so much good work has been done by the example set by them in the dissemination of knowledge as to proper and prompt treatment and in other respects, that there should be no hesitation about giving the utmost official support to those in charge of it.

Consumption is a communicable disease, and one of the first steps towards its eradication is isolation of the sufferers. Notification is a preliminary to this, and there should be no further opposition to what all the medical authorities are practically agreed upon.

If Dr. A. R. Pyne succeeds Dr. Sheard Mayor Geary will have another royal fuyal to attend next January. Sir Edmund Walker declares Canada as a nation is in danger of going non-ex-mad. As long as women require the luxuries and style which they insist upon, and as long as men marry under these conditions and have to provide the means, the struggle for wealth will continue.

Special warnings are being issued by the health authorities with respect to the danger of the common house fly. It is called the "typhoid fly" because it carries the germs of the disease on its feet, and infects milk and other articles of food on which it alights. It is the cause of the death of thousands of infants. It is not the heat but the house and keep them out and leave no dirt or garbage about in which they can breed.

The manipulation of the tenders for printing contracts by which the Methodist Book Room was permitted to cut under the Bryant Press and The Mail Job Printing Co. is one of the astonishing things uncovered by Judge Winchester. Reputable firms will not go to the pains of making tenders if they know they are to be juggled out of the running. The exhibition must be run straight.

CITY GOVERNMENT REFORM.

Editor World: Re the question of civic government by commission, the thought and plan is admitted by most to be a good one and has worked successfully in American cities, that is if the reports are to be relied upon, but in the face of all this Toronto is a long way from such a plan being adopted here. Still I agree with the World that some plan should be adopted to change our present system of civic affairs. In its present state it is very unwieldy. Your remedy is a commission, mine would be to improve the present system and simplify same. To accomplish this I would suggest: To be elected by the people: Mayor, four controllers, seven aldermen—one from each ward—to be added to if number of wards are increased, the above to be elected for a two year term. The entire abolition of the present board of education. This gives the people twelve elective representatives and will net the people a saving of from \$10,000 to \$15,000 in salaries to aldermen and election expenses. Property and household qualification (as at present) to be entirely abolished, and in its stead, each candidate to pay premium \$100 to the city with nomination paper, such nomination paper to contain the names of at least twenty-five bona fide property owners, consent to be retained by city, no matter whether candidate is elected or not. This will check an overflow of freak candidates (myself included) and net the city possibly \$5000. This will help to defray the pleasant pastime of holding elections at the expense of the ambitious ones and will also give the candidates the pleasure of showing to the poor public how sincere they are to serve.

I have always maintained and still maintain that the basic principle of good civic management is the appointment of A1 men to the head of our various civic departments. Toronto in my mind has been more for-

tunate in this respect than it imagines. Still these men are not getting a square deal. They are interfered with too much by influences that should be kicked out of our city hall or should be granted police protection from these bullying influences, all of which tend to dwarf the mental capacity of any official, whereas on the other hand they should be encouraged to develop initiative and courage to take the status of our local officials must be increased and then make them more independent in serving the people (which I am sure is their one desire). This can be done by making each head official a non-selective member of the city council. If there are ten head officials, that will give the electors a majority of twenty-two members to elect and non-selective—but former to supply the hot air criticism and the latter the official technical knowledge of how to manage affairs. Why are our officials heads? Very few of the taxpayers know them. Why not give them a chance to get out of their bondage and take the people with them and who they are anxious to serve.

T. Yates Egan. 65 Jameson-avenue. July 1, 1910.

THE WIDENING OF ST. CLAIR AVENUE.

Editor World: After a year of discussion and correspondence, the only thing, apparently, that remains to be settled is the question of the proportion of the cost the city will have to pay, and that will depend, of course, upon the amount the people on the street will pay.

The city and the locality will have to divide the burden between them. There is no other source of help. It has been pointed out scores of times, in the papers, that the public or civic interest is enormously greater than the local.

There remains, however, one view of the case that has not been made quite clear—the distinction that must be made between the large property owners in the immediate neighborhood, who will be specially benefited by the improvement, and the ordinary householder upon the improved street. To the one the benefit will be small, as he has nothing to sell, and it does not matter to him that the value of his lot has been somewhat increased in spite of the objectionable features of dust and noise. To the other the result will be altogether good. He can have a more pleasant view, and when he disposes of any part of his property, he is soon made aware of the effect of the widening of St. Clair-avenue by the increase in its value.

It is only when the council has given full consideration of the amount of the cost of the widening of St. Clair-avenue, that we shall know the actual cost of the work.

City Operation Will Solve Transportation Problem.

In Tuesday's World the way was pointed out by which the readiest available means can be taken for bringing about a single car fare for the Town of North Toronto.

The proposition as stated corresponded with the fact which the City of Toronto must take to the northward sections of the city which are not being catered to by the Toronto Railway. With the incoming of the hydro-electric power the problem of the street railway to be operated by the city in the isolated sections of the city is much simplified.

A double track street railway on the parallel roads east and west of Yonge-street from St. Clair-avenue north to the northern limits of North Toronto and the St. Clair-avenue from the Junction could carry passengers to the city cars at a two cent fare at the most.

The eastern road from Rosedale north to meet the eastern parallel road in the Town of North Toronto is being pushed and passenger cars to be run therefrom could be delivered to the city service in Rosedale.

With the installation of the tube system it is expected that the northward route will end at about St. Clair-avenue and municipal cars either from the Junction, which would come along St. Clair-avenue, or from the northward limits of North Toronto, both on the east and west sides of Yonge-street could be brought down the parallel roads and delivered to the tube railway or run directly into the tube and passengers carried to the centre of the city at single fares.

With a car service on these thoroughfares the Metropolitan Railway would find competition sufficient to bring them to reasonable terms and a deal between the city, the Toronto Railway and the Metropolitan for an extension of the city service on Yonge-street would be the natural result.

Civic problems of all kinds are only solved by the people themselves. North Toronto must assist in solving its transportation problems, but it can only be arranged as a part of the city. The newer portions of Toronto, the east and west, are meeting similar transportation difficulties and a general effort to find a remedy cannot fall of its object.

"THEY HAVE EYES AND SEE NOT"

Toronto is a new city to me. I am a stranger. I am therefore lucky. Why? Because strangers get impressions, and impressions are the stepping stones of a man's imagination—and of himself. A new impression—a new ray of light thru a man's mind—can never harm him. It solely depends upon himself as to whether he can use it to the fullest advantage or not.

Toronto is a beautiful city and its outstanding feature to me is its trees. Here at once my impression and I'll tell you what I've learnt from it. Your avenues are full of living examples.

At the start of his career of usefulness an avenue tree is dependent upon the experience and help of someone else who places it in a position where it can be the most useful. So most of us: Gradually it expands—not too quickly—like some of us—it develops slowly and surely. It uses to the fullest advantage every outside help which comes its way—in the tree world—the sun, the rain and the soil—in our world—the power of living, the tonic of refreshment and relaxation and utilization of our fellowmen. A tree doesn't waste all its strength on one big spurt and then collapse, but it grows on, becomes petty and gives pleasure to others. Soon it is powerful enough to withstand useful and malicious attacks. There are some people always who try to keep back the usefulness of others, who try to curb and limit their own thoughts into our minds and their small acts into our lives, who picknick in the initial stages of our fight up life's hill. Well, this doesn't stem a tree's progress. It keeps smiling. So surely we can!

At length our sapling has become big and powerful—a force. Now it can hold its place, the parts of it are backed up, the trunk is strengthened, it is still in the position it has made for itself (after initial help) and has accumulated enough reserve power and strength to fight on and fight successfully.

Now in your avenue one tree in particular attracts my attention—one tree which, tho' planted and occasionally hacked, lives on. It is a beautiful tree. It's your tree, my tree, O.T.H.'s—the maple tree that attracts my attention. It will give the world. This is our land and this maple is our heritage. Let us always prize it as such and whenever we see a maple tree steadily one, let us pause and ponder awhile (if we can ponder quickly and to some purpose).

Let us remember that that tree is a living example of beauty and usefulness, and, greater still, the symbol of the land which has made of our usefulness—the rising world power—our land—Canada.

THE DIAMOND MERCHANT ABROAD.

Editor World: I am still interested in your news despatch to-day from Bradford, wherein Morris Levoitz has been buying diamonds in the same way as Mr. Samuel Finberg of Queen-street, Toronto, was buying them the other day, and much to his sorrow. I notice you give the nationality of Mr. Levoitz, but will you tell me the nationality of the man who did him up? Was he an Indian on this occasion, or is it a Scotchman who is still at large?

P. J. O'Farrell.

MARGARET ANGLIN'S ANTIGONE

Canadian Actress Complimented for Her Wonderful Playing. SAN FRANCISCO, July 1.—Before an audience of 8000 persons gathered in the Hearst Greek Theatre, on the campus of the University of California, Margaret Anglin and her company appeared to-night in a magnificent production of Sophocles' "Antigone." An artist and in interest, beauty and music, the performance surpassed all expectations on the part of the play, while Miss Anglin's acting, on the part of Antigone, is declared by those who have followed her to be the finest work of her career.

ATTEMPTED SUICIDE

Charged With Complicity in Husband's Murder, Opened Veins in Wrist. ALLENSTEIN, East Prussia, July 1.—Fritz Von Schoenbeck Weber, who has been on trial for a month, charged with complicity in the murder of her husband, an army officer, attempted suicide to-day by opening the veins of the wrist. The self-inflicted wounds were serious, but the physicians hope to save her life.

The case has excited national interest, because it brought into prominent the conditions existing at the garrisons in this and other cities of Germany.

Band Concert at Ward's Island.

The Band of the Royal Grenadiers, under J. Waldron, will play at Ward's Island on Monday night, from 8 to 10 o'clock. As this is a "special celebration" concert secured from the park concert series thru the interest of Ald. McBride for the east island residents, a special boat service will be run by the Toronto Ferry Co. from the Bay-street dock at and after 7.20 p.m.

Sunday at Hanlan's.

The Band of the Royal Grenadiers, under J. Waldron, will play special programs at Hanlan's Point on Sunday. The afternoon concert takes place from 2 to 5, and in the evening from 7.45 to 9.45.

REVISED BIBLE WITHOUT WORDS NOW OBSOLETE

Pastors and Editors Agree on Changes for Edition of the Version of King James.

NEW YORK, July 1.—The conference of clergymen and editors, for the purpose of arranging a tercentenary edition of the English authorized version of the Bible, which conference has been in session at Princeton, N.J., for the past ten days, has adjourned, and the remainder of the work will be done by the sub-committee.

The object of the work is to bring out a new edition of the King James version, correcting obsolete words, etc. The chief changes to be made are summed up briefly as follows: First, Where text is misleading it will be changed. As an instance in point, the word "damnation" in I Corinthians, xii:38, may be changed to "condemnation."

Second, Where the authorized version has an obscure rendering of a passage sufficiently clear in the Hebrew or Greek text, it will be changed. Third, Also where the authorized version is infelicitous in the choice of English words; even if not actually misleading.

Fourth, Words absolutely obsolete will be dropped for words now within the usage of good writers. The point was discussed that "haly" is still good English and while not so common, is more dignified than "limp." The word "or" or "hinder" was considered obsolete.

It is understood that the modern usage will be followed thoroly in the use of pronouns, and, generally, where an authorized version rendering is wholly consistent with good present day custom.

It is planned to have this new edition printed in England in May, 1911, three hundred years after the printing of the first edition of the Bible. While the committee proper has adjourned, two committees, each consisting of three persons, one on the New and one on the Old Testament, will continue their sessions thruout the summer at Asbury Park, N.J.

It is learned that at the session of the larger committee, there had been considerable agitation for a revision of the Bible.

Professor Robert Dick Wilson said that the committee would do no revising, as those who desired the Bible revised had been defeated, but that there would be an adherence to conservative lines, merely replacing old English words whose meanings have gradually changed, with modern words more clearly expressing the intended meaning.

PROFESSOR HITS BACK

Says President Butler of Columbia Shouldn't Criticize Him. NEW YORK, July 1.—President Nicholas Murray Butler, now abroad, has with him an address in Latin he intends to deliver at the University of Berlin, altho "personally" wrote it for him before he left this country. In fact, the president of Columbia was so pleased with the address that he ordered 400 copies printed for distribution among his friends over a heretofore objectionable matter. It seems laughable that such a man should censure my morals and be instrumental in demanding my resignation from the faculty of the college.

Professor Harry Thurston Peck, who has been asked to vacate the chair of Anthon Professor of Latin and English literature at Columbia, on account of the scandal resulting from the \$50,000 suit of Miss Esther Quinn for alleged breach of promise, thus spoke of President Butler in an interview. He went even further, stating that the present head of the noted institution of learning wanted as members of the faculty only such men as would be his spies, sycophants and bootlicks.

"I have known President Butler for thirty years and am acquainted with all his weaknesses, the greatest of which is his greed for power," said Professor Peck. "It is a matter of record that the man who has declined to be dominated unjustly over the detriment of the institution have had to go to please Dr. Butler."

"The trustees of the institution know nothing about the high manner in which the affairs of the college are being managed. The finance committee is the only body that acts independently. Simply matters like education are entirely overlooked."

J. S. ROBERTSON RESIGNS

After Nearly Ten Years' Service Withdraws From Sanitarium Work. Mr. J. S. Robertson, for nearly ten years executive secretary of the National Sanitarium Association, has resigned in order that he may devote his time to personal business, and private affairs. In 1901, when Mr. Robertson first associated himself with this work, there was only one sanitarium for seventy-five patients. To-day there are four sanitariums, that have grown from the one root—two in Gravenhurst, and two near Weston, with a total accommodation of three hundred and ninety-five beds.

As a specialist in advertising and publicity methods, the vigorous literature and other campaigns that have been put up on behalf of the Muskoka and Toronto Free Hospitals for Convalescents, under the direction of Mr. Robertson, as a result of which over \$200,000 has been raised for the Muskoka Free Hospital, besides a large sum for the Toronto Free Hospital.

Mr. W. F. Randel, bookkeeper of the N.S.A. for the past three years, has been appointed acting secretary.

Mr. Robertson's headquarters in future will be at 152 Bay-street, the office of the J. S. Robertson Co. of which he is senior member. London and Chatham. Court Trinity, I.O.F., will run an excursion to London and Chatham on Saturday, July 16.

THE FORMULA OF "FRUIT-A-LIVES"

Is On the Outside of Every Box For All The World To See

Every user of "Fruit-a-lives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-a-lives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.

Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true.

Fruit juice consists of about 81 per cent. water, 8 per cent. of sweet principle, and 1 per cent. of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities.

The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-lives". This is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.

"Fruit-a-lives" is Nature's stimulant for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails.

"Fruit-a-lives" is sold everywhere at 50c a box, 6 for \$2.50, or trial box, 25c., or will be sent, postpaid, on receipt of price by Fruit-a-lives, Limited, Ottawa.

Day's Doings

YORK COUNTY West Toronto North Toronto East Toronto

AGINCOURT HEATHER CLUB HOLD-FINE TOURNAMENT

Woodbridge and Stouffville, Too, Make Merry on National Holiday—Suburbs.

AGINCOURT, July 1.—(Special).—Nearly 1000 people attended the annual football tournament and field day of sports on the athletic grounds here this afternoon and saw, the best all round competition in years. All the teams were well represented, and the football tournament furnished unlimited excitement. The final victory of the Malvern senior and junior teams was a popular one.

The committee having the matter in hand was a good one, and served well to maintain the traditions of the township as the home of good clean sport and fair treatment to all. Few municipalities have done more individually and collectively to foster the many games than Scarborough.

The committees having charge of the games were: Football—W. W. Field, Geo. Scott and W. Doherty. Field—Robt. Green, H. Doherty, L. Kennedy, H. Elliott and G. Paterson. Racing—Rev. Mr. Anthony, Dr. D. F. Young, Dr. Coult, R. T. Laing and R. Adams. Shooting—W. H. Paterson and R. M. Paterson.

AGINCOURT 2.—100 yard race—H. Wood of Agincourt took first place after a hard dash with C. Baldwin.

Running hop, step and jump—Russell 1, Sanderson 2, Markham 3.

Running long jump—Russell 1, Pritchett 2.

AGINCOURT 3.—Standing jump—Pritchett 1, Alton of 2, and the Malvern boys wound up in a grand finale, defeating Davisville 1 to 0, and later the Yorks by the regulation score of 1 to 0. It will be observed that the goals won were the same throughout.

The Malvern Brass Band were present during the afternoon, and by their excellent music added immensely to the success of the day.

Caterer "Jimmy" Kennedy did a land-office business, and he and his assistants were busy all day handling out ice cream and other good things to the thrifty visitors. Alto-

WOODBRIDGE.—A big crowd had a day's fine sport on the afternoon. Four teams entered the football tournament. Woodbridge defeated Pine Grove, and Edgely defeated Elia. In the play-off for the silver cup Edgely defeated Woodbridge 3 to 0. As the Malverns of Toronto did not show up the lacrosse match was canceled.

WOODBRIDGE 2.—To-night a large gathering attended the Christ Church garden party. An orchestra from Toronto provided the music.

The monthly meeting of the Women's Institute will be held at the home of Mrs. J. G. Rogers on Monday afternoon, July 4, instead of the regular date.

WOODBRIDGE 3.—The Toronto Travel Club will entertain the ladies by giving a talk on "A Trip to Venice and Rome." Ladies interested in the change of date and try if possible to attend this meeting, as it will be an interesting study as well as being instructive to those who may have the pleasure of hearing Mrs. W. A. Skeans. A musical program will also be given.

WOODBRIDGE 4.—To Junior IV.—1. Willis Forsyth, 417; 2. Mary Wilkinson, 350; 3. Harold Warrington, 322; 4. Ida Brennan, 372; 5. Eva Wright, 255; 6. Gordon Ryan, 354; 7. Isabel Ashcroft, 344; 8. Wilfred Perry, 334.

To Senior III.—1. Elsie Warrington, 345; 2. Amy Perry, 304; 3. Tommy Wilkinson, 298 (R).

To Junior III.—1. George Locke, 305; 2. Fred Wright, 287.

To Senior II.—1. Hazel Warrington; 2. Annie Brennan (R); 3. Fred Leuschner (R). T. M. Husband, teacher.

WOODBRIDGE 5.—Oide English Fayre is Best Ever Held in Northern District.

WOODBRIDGE 6.—BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional remedy for all troubles. Mrs. M. Summers, Box 765, Windsor, Ont., will send free to any mother her successful formula for curing bed-wetting. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child, and chances are it can't help it. This treatment also cures adult and aged people troubled with urine difficulties by day or night.

EAST YORK PLOWMEN.
A meeting of the executive of the East York Plowing Association will be held in the Temperance Hall, Agincourt, on Saturday, July 9, at 8 p.m.

WEST TORONTO.
A Number of Sudden Deaths in the Western End of City.

WEST TORONTO, July 1.—(Special).—Mrs. Mary Taylor Gordon, wife of Edmund Both Gordon of Cockburn-avenue, died yesterday in the Western Hospital, aged 32 years. Deceased leaves a family of three, the eldest only 4 years of age. The family have been here for only a short time, coming from Scotland. The lady was highly respected. The funeral takes place from Mr. Speers' undertaking rooms to-morrow morning at 10 o'clock for Prospect cemetery.

WEST TORONTO.
George H. Hollingsworth, employed in the Gurney foundry and living at 839 Campbell-avenue, was badly injured by a traveling crane while working in the shops yesterday. He was taken to his home, but his condition to-night is reported as critical.

WEST TORONTO.
The little son of Dr. McHugh of 102 Annet-street, aged eight months, died yesterday from cholera infantum. The funeral takes place at 2:30 Saturday to Prospect cemetery.

WEST TORONTO.
To-day was one of the most oppressive days in years from the excessive heat and humidity across the lake to Niagara Falls and Buffalo.

WEST TORONTO.
Roger Alex. Daniels, aged 13, son of Frank Daniels, 1000 Danforth-avenue, caretaker of High Park, died here last night from heart trouble. The funeral will be held on Saturday at 2 p.m. to Prospect cemetery.

STOUFFVILLE.
Old Boys' At-Home Was Big Success in Spite of Heat.

STOUFFVILLE, July 1.—(Special).—The Old Boys' at home held here to-day was one of the most enjoyable events ever held in town, and attended by more than 1000 people. The program of sports, the winner of the five mile race being C. Pherrill of Scarborough. The play-off for the silver cup Edgely defeated Woodbridge 3 to 0. As the Malverns of Toronto did not show up the lacrosse match was canceled.

STOUFFVILLE.
To-night a large gathering attended the Christ Church garden party. An orchestra from Toronto provided the music.

STOUFFVILLE.
The monthly meeting of the Women's Institute will be held at the home of Mrs. J. G. Rogers on Monday afternoon, July 4, instead of the regular date.

STOUFFVILLE.
To Senior III.—1. Elsie Warrington, 345; 2. Amy Perry, 304; 3. Tommy Wilkinson, 298 (R).

STOUFFVILLE.
To Junior III.—1. George Locke, 305; 2. Fred Wright, 287.

WHISKEY TAX RETAINED

REDMOND DISAPPOINTED

But Nationalists Will Hardly Make Any Fight Against New Budget Under Circumstances.

LONDON, July 1.—Chancellor Lloyd-George, in submitting the budget to parliament, said that he felt justified in estimating the stated revenues on the assumption that the volume of trade this year and next would be greater than the country had ever experienced before. He proposed to retain the duty on spirits unchanged, and while admitting that there had been a loss of \$1,000,000 in these duties, said that the consumption of spirits had been decreased by 10,000,000 gallons from the figures of the preceding year, and that the moral gain to the state far outweighed the loss in revenue.

Mr. Asquith, the premier, refused to make a statement in the house of commons regarding the prospects of the conference between the government and the opposition over the legislation involving the veto power of the house of lords.

The chancellor has retained all the features of the previous budget in the current budget, the Unionists will oppose every stage of its progress. The Redmondites are disappointed at the retention of the whiskey tax, but it is not likely that they will seriously obstruct the budget while the government has the veto power of the house of lords still in its balance.

The remainder of the parliamentary session will probably be quite uneventful. It will be devoted to routine matters, all the serious and contentious stages of the budget and other important measures being postponed until the autumn session. In the improbable event that the conference of the representatives of the government and the opposition on the veto question will agree, the struggle between the rival houses will be revived in the autumn to an intensified degree.

"I would rather wait a little," said the premier, but the fact that he announced that there would be an autumn session of parliament indicates that he is not especially hopeful over the issue of the negotiations. The government's present intention is that parliament shall adjourn at the end of July to reassemble in November. The plan for an autumn session meets the demands of the Nationalists and the extreme Radicals and Laborites, who had threatened a revolt unless they were to agree to an early opportunity to resume the fight against the Unionists to agree to the terms originally laid down by Mr. Asquith.

Summer Amusements

AT THE ALEXANDERS.
Next week The Percy Haswell Players present at the Royal Alexandra the successful play by Clyde Fitch, "Her Own Way," which was a few seasons ago a starring vehicle for Miss Maxine Elliott. The play deals with New York society. The heroine is Georgiana Carley, who has a brother named Steven, who decides to become a speculator in stocks. She has a cousin, Sam Coast, who proposes marriage. She, however, will have nothing to do with him. Coast determines to have her at any cost. He is also a successful stock operator, and when he learns that the brother is gambling he decides to ruin him by giving him wrong "tips" on the market, hoping to win the hand of his cousin by coming to her assistance when they are financially ruined. Coleman is ordered to the Philippines, but neglects to tell Georgiana of his love for her. Coast meets him and begs him to help him, but his cousin is engaged to him. Coleman is reported having been killed in an engagement, but he subsequently returns and everything is straightened out.

The play abounds in strong dramatic situations and heart interest, and thru it all is a vein of refined comedy. The production of several children will be one of the pleasing features. As the action of the play takes place in the mansions of those in New York City, the costumes are splendid, and the wearing of handsome gowns.

AT HANLAN'S.
Hanlan's Point is now the most delightful and charming spot for a day's outing and recreation. It is always cool there. The water of Lake Ontario is now at a comfortable temperature, and the sand bar is ideal spot for bathers. The beautiful swimming beach makes it one of the safest places in the city for a day's outing.

To-day, both afternoon and evening, there will be band concerts by the Queen's Own, and in addition there will be a number of big thrilling circus acts given free. To-morrow (Sunday) afternoon and evening, the band of the Royal Grenadiers will give concerts.

IMPORTS OF SALTED FISH INTO GREECE.
The following information is from the report by H. M. Consul at Patras (Mr. F. B. Wood) on the trade of the Morea in 1909:

Salted cod from Labrador is advancing in favor annually; under normal circumstances consumption increases by from 5 to 10 per cent. per annum. The fish is consumed by all classes, and during certain seasons of the year and on stated days and holidays, it is an indispensable dish in all households. The annual consumption of present amounts to about 70,000 quintals, but the past season has been exceptionally unfavorable owing to the poor quality of fish generally, as well as to the over-abundant supplies, which are estimated at about 10,000 quintals over the usual annual consumption. The remaining reports received during the months of June and July regarding the failure of the Labrador fishery, induced the Greek dealers, who feared that they would be unable to obtain their usual supplies, to enter into large contracts for monthly delivery of French and other codfish. The Labrador fishery was owing to the exceptionally fine weather, protracted beyond the usual season; thus, in addition to the French and other codfish, the usual supplies came from Labrador.

WHY AVERAGE MAN IS INTERESTED IN FIGHTS

Continued From Page 1

WHY ARE THE LAWS AGAINST THE GAME?

We claim to be a nation ruled by a majority. Our civic spirit is seen and our democracy is goaded to fury at the mere suggestion that a hated minority holds the reins of government...

I do not think I exaggerate when I say that out of every ten normal, healthy American male voters, nine would like to see a good square prize fight...

FIGHT FOR RIGHTS, BUT NOT PRIVILEGES

I hold to the theory that men will guard their rights by blood, yet allow their privileges to be curtailed without much of a struggle.

BATTLE TO BE FOUGHT THROUGHOUT THE WORLD

In San Francisco, one paper has taken a huge arena where the public can gather on July 4th and hear the news of the fight as it comes sizzling over the wires from the ring-side.

HOW THE UNIVERSE IS KEPT INFORMED

Monday, one hundred and fifty thousand words went out from here over the wires, and the fight was a week away. The fall of Fort Arthur didn't take one-quarter that number of words to tell.

ORIENT AND OCCIDENT MEET.

Delighted School Children Surrounding the Camels and Donkeys From the Streets of Cairo at Scarborough Beach.

will increase. In other words, two novels are written every twenty-four hours dealing entirely with the question of individual superiority.

BATH TUBS ARE THE BIGGEST RENO LUXURY

The stage setting for this contradictory drama is also interesting as are the characters. So many tons of paper have been used in describing the twin stars of this century-marking show...

Turkish bath-house, which has a plunge, and not until they have arrived, will they know how favored of mortals they are.

JEFF HAS RENEWED DAYS OF HIS YOUTH

So I went, and I was very glad, for I saw that which I never expected to see in a man who has "come back."

JEFFRIES A HARD MAN TO PEEK AT

From a group of Chicago clubmen came a wire the other day, written, doubtfully by one well versed in the ways of the west.

YOU CAN EASILY Own This Fine Lemonade or Water Set

This is All You Have to Do.

All you have to do to secure one of these sets, is to subscribe for The World for six months and pay the express and duty charges of \$1.40 if called for at The World Office, or \$1.50 if delivered by wagon.

Mail subscribers can get one of these sets by paying their subscription six months in advance, together with the express and duty charges of \$1.50, or \$3.00 in all.

These are not cut glass in the strict sense of the word, but they are so nearly like the real article that it would take an expert to tell the difference.

SUBSCRIPTION AGREEMENT, THE TORONTO WORLD

Subscription agreement form with fields for name, address, and terms of subscription.

Even Until Old Age You May Feel the Vigor of Youth, With Its Light Heart, Elastic Step, Courage and Tireless Energy. You May Be Free From Pains and Defy Your Years.

Dr. McLaughlin's Electric Belt

Cures Nervous and Vital Weakness, Enlarged and Inflamed Prostate Gland, Lost Memory, Loss of Strength, Weak Back and Kidney Trouble, Rheumatic Pains in Back, Hips, Shoulders and Chest, Lumbago, Sciatica, Torpid Liver, Indigestion and Dyspepsia.

One of the world's greatest scientists, whom all the New York papers eulogize as the man of the hour, at a series of lectures at all the Great Institutes gives his experience in delving into the mystery which surrounds the organ of life.

My remedy is an honest remedy, a logical remedy, a time-tried remedy. You have seen my advertisement for over twenty years, if you have been on earth that long, and if you'll write to me...

If your stomach doesn't work; refuses to digest your food; if your bowels do not move regularly; if your kidneys are weak; if your liver is sluggish; if your blood circulation is poor...

PAY WHEN YOU ARE CURED

MR. SAMUEL J. HARNETT, North Gower, Ont., says: "I received a Belt from you some four years ago, and I wish to say that it was all it was represented to be, having cured me of indigestion and other ailments, and I now feel like a new man, giving all the credit to your Belt, anyone giving it a good trial, I know, will feel as I do."

Form for ordering the electric belt, including fields for name, address, and phone number.

STRENGTH AND NERVE HIS CHIEF ASSETS

That is what impresses one most strongly, the tremendous weight that lurks behind his blows. I saw none of that clever, stinging "snap" that other champions displayed in their boxing.

On the other hand is the white man, sullen, sullen, dogged and tremendous in his strength.

THE QUALITY THAT IS REALLY NEEDED

It is youth—in other words, recuperative power—that brings him out from his corner at the end of sixty swift flying seconds, fresh, courageous and eager, even to the end of the round.

ABOUT REX BEACH

Miner, Clubman, Athlete, Author, Lawyer and Dramatist. Rex Ellingwood Beach is a comparatively young man, but he has had a career so far that compares for vicissitudes in some degree with that of

NEGRO HAS NEVER THOUGHT OF DEFEAT

I believe he knows of fifty good and sufficient reasons why he will beat his opponent next Monday.

He is fast, marvelously fast. Jeffries cannot approach the swiftness of his arms and hands.

THE QUERIES THAT MONDAY WILL ANSWER

Of Jeffries we ask the question: "Has he retained that magic, unquenchable flame of youth?"

NOTICE! AGENTS AND NEWSDEALERS

The first news of the big fight between Jeffries and Johnson, on July 4, will reach Toronto about 6 o'clock in the afternoon—too late for the evening papers.

Agents and Newsdealers requiring extra copies of The World will confer a favor by ordering on or before July 3rd.

Mr. Rex Beach, the popular novelist and dramatist, will write the feature story for The World and will tell of the actual combat for the world's championship.

Improvement on the first, for he turned out to be an ex-whaler who had mullined on Herschel Island, helped to kill several of the ship's officers and was wanted for arson somewhere on the upper river.

Mr. Beach tells how, in order to repair his fortunes, he joined with two college boys and began to chop wood for steamers. His partners were honest this time, but after suffering torture from mosquitoes and lack of food and having "chopped off all the trees they could spare," they were compelled to dispose of their wood at the ruinous price of \$15 a cord, although they began by asking \$40.

Mr. Beach had to travel with scant provisions, both for financial reasons and because of the necessity for making haste.

In trying to get up to Dawson, the boat in which Mr. Beach and his party traveled was stranded on a bar, and they were obliged to turn back down the river, where a new camp was being built.

Mr. Beach was compelled to remain there two years and he and those with him were reduced to the expedient of trying to induce passengers on the steamboat to Dawson to "grub-stake" mining operations in earnest.

On the other hand is the white man, sullen, sullen, dogged and tremendous in his strength.

On the other hand is the white man, sullen, sullen, dogged and tremendous in his strength.

On the other hand is the white man, sullen, sullen, dogged and tremendous in his strength.

On the other hand is the white man, sullen, sullen, dogged and tremendous in his strength.

On the other hand is the white man, sullen, sullen, dogged and tremendous in his strength.

SURELY WAS GREAT PARADE WITH OVER 800 HORSES

And Tens of Thousands of People Saw Display at Queen's Park Along Route of Procession.

The open air horse parade has grown to be almost an indispensable feature of the Dominion Day celebration in Toronto. This it was that, altho the citizens were sweltering in the tropical weather, they did not fail to turn out in their tens of thousands, together with their wives and families to view the display of horsemanship, ranging from the most dapper and clean-lined of harness and saddle horses to the sturdy built equine whose life's vocation is to draw the prosaic lorry or butcher's wagon. It is this democracy of horses, from which has made the event popular to all classes of the public, and enabled the experiment of eight years ago to develop into an annual fixture.

The event was, as usual, excellently managed, and credit belongs to the acting manager and secretary, J. F. Macneil, as well as to the officers, including besides the gentleman previously named, Alfred Rogers, J. J. Dixon, O. B. Sheppard, H. C. Cox and George Peppert.

The horse parade is kept alive by the generosity of private subscribers in addition to the city's contribution of \$1000. Gentlemen and firms who subscribe horses were received too late for inclusion in the catalog list. P. Maher, G. Langmuir, D. Bell, D. McGregor, W. Wilson, C. M. H. Holden, Chas. Burns and Holby Bros.

An unannounced but popular feature of the show was the miniature circus procession which preceded the parade of the horses. A mounted trumpeter appeared first, and then came a rally, including besides the gentleman previously named, Alfred Rogers, J. J. Dixon, O. B. Sheppard, H. C. Cox and George Peppert.

Many classes for judging. There were 19 classes of harness and saddle horses and ponies, and 26 classes of commercial horses. The competition was even keener than usual, for there were about 30 more than last year. Following the lead of the Canadian Horse Show, the first prize horses were backed with blue ribbons instead of the red tokens of other years, these latter designating the winner of the second awards.

The parade, which was started at 10:15 a.m., as scheduled, was about 3 miles long. Proceeding by St. Alban's and Wellesley-streets to Jarvis-street, it wound its way down Jarvis-street to Adelaide-street, and back by Simcoe and Beverley, and St. George-streets

and Hoskin-avenue to Queen's Park, its progress watched by interested thousands. It would probably not be overrating the number of spectators, if it were estimated that 50,000 saw the parade at Queen's Park and on the streets traversed. It was headed by a squad of Dragons preceding a carriage containing Mayor Geary, Noel Marshall, president, and one of the founders, A. W. Davies, vice-president; Dr. W. A. Young, treasurer; W. K. McNaught, M.L.A., Ex-Mayor Oliver, W. E. Wellington, H. C. Tomlin, J. D. Montgomery, and H. J. P. Good. Mr. Good was associated with Mr. Marshall in founding the association and was its secretary up to the present year, he being now manager of the Dominion Exhibition at St. John, N.B.

On returning to Queen's Park, the successful competitors were presented with the trophies of victory. The first prizes received silver cups, the second and third silver sashes, with white rosettes for fourth place. Mayor Geary distributed the awards in the presence of a large gathering.

The event was, as usual, excellently managed, and credit belongs to the acting manager and secretary, J. F. Macneil, as well as to the officers, including besides the gentleman previously named, Alfred Rogers, J. J. Dixon, O. B. Sheppard, H. C. Cox and George Peppert.

Hands and even a four-year-old, Verdict, Conqueror, H. A. Taylor; 3. Minto, E. O'Keefe; 3. Duke, Lothar Reinhardt; recommended, Chocolate Drop, Alex. Buntin.

has an appetizing smell of fresh paste, the goat eats it. After nourishing the mind, one must feed the body. Thus nothing is lost in the commune. What a pity that all novel readers have not the stomach of this practical goat! They might then eat the books they had read, but more and so the men of letters would be the end be able to eat in his turn.—Paris Correspondence London Globe.

Perpetual Youth

Let Me Tell You How to Regain All Your Old Vigor, and Manly Strength. Be a "Health Belt Man"; Feel Young for Balance of Your Life. Age Doesn't Count if You Have the Vitality.

"I could shout for joy after years of Weakness and Debility, your Wonderful Health Belt Cured Me. I am a Man Again. Use My Name as You See Fit."
A. E. GRIFFIN, Lakefield, Ont.

Perpetual youth. That is precisely what I mean. I say as man to man give my Health Belt a reasonable chance and it will carry you through any business, mental physical strain you may be under. It doesn't stimulate; it simply adds the electro-tonic element to your bone, nerves, tissue and blood; all the force and strength which has been drained from your system by some earlier indiscretion. My Health Belt is essentially a strength giver. It overcomes the prate symptoms of weakness in men which sap the vitality. If you are nervous and lack manly vigor you are passing away thousands of brain cells every day. Ask your physician if this is not true. I stop this awful weakening process. You wear my Health Belt nights; while sleeping a great stream of soft electricity passes into your body at the small of the back; it cures backache in one application; you feel better immediately; inside of an hour; two months will make a new man of you. No drugs; no privations; no restrictions except that you must give up all dissipation. Follow my advice and I promise you will feel younger and look younger. Let me restore your vitality and you will be able to face the world with new ambition. The Health Belt cures other ailments, too. A positive remedy for rheumatism in any part of the body, sciatica, lumbago, kidney, liver, stomach disorders.

YOU CAN PAY WHEN CURED
If you're sceptical I'll prove it first. I'll take all the risk by letting you have the Belt on Free Trial, not to be paid for until cured. Send it back if it doesn't do the work.

Let Me Send You These Two Books FREE
They fully describe my Health Belt and contain much valuable information. One is called "Health in Nature," and deals with various ailments common to both men and women, such as rheumatism, kidney, liver, stomach, bladder disorders, etc. The other, "Strength," is a private treatise for men only. Both sent upon application, free sealed, by mail.

feeling that I would leave home without her permission. Every morning, as I got up before she did, she listened for the sound of my footsteps. If she heard my sabots, she said to herself, 'He can't go very far.' But if she heard me walking about in my boots she would cry anxiously from her bed, 'Where are you going with your boots on? Is it neither a holiday nor the day of the fair?' I replied: 'Mother, I'm going to the plow, and I put on my boots under my arm, at the same time making lot of noise with my sabots. Some distance from the village I took off my sabots and threw them over the hedge of a little field which belongs to my mother. Then I put on my boots, and continued my way towards Paris. When my mother took the cow to the field she found my sabots. At first she did not understand. But when she called me and I did not answer, she returned to the house and began to search for my boots. When she found them, she said to herself, 'My sabots are under my arm, at the same time making lot of noise with my sabots. Some distance from the village I took off my sabots and threw them over the hedge of a little field which belongs to my mother. Then I put on my boots, and continued my way towards Paris. When my mother took the cow to the field she found my sabots. At first she did not understand. But when she called me and I did not answer, she returned to the house and began to search for my boots. When she found them, she said to herself, 'My sabots are under my arm, at the same time making lot of noise with my sabots. Some distance from the village I took off my sabots and threw them over the hedge of a little field which belongs to my mother. Then I put on my boots, and continued my way towards Paris. EGLINTON PARK ESTATE

Did you go out to view this property yesterday, as I advised you? If so, I shall no doubt see you at my office this morning to close your purchase.

My Prices Are Low, My Terms Are Easy,

and the Estate itself is a LITTLE GEM. To-day's sale will probably wipe off most of the lots still unsold, and you must not fail to be on hand to make your choice.

Prices from \$8 to \$12 per Foot, on the Easiest of Terms.

GEO. WEAVER, Real Estate

Dominion Exchange Building, 14 King Street East, Toronto

Realty and Building

The statement of building permits issued by City Architect McCullum during June of this year, compared with that issued in June, 1909, shows an increase in the number of permits issued of 605, and an increase in the approximate value of buildings erected of over \$300,000.

The workmen have commenced the erection of the steel girders of the new Kent building at Richmond and Yonge streets. The contract has been secured by the Canada Foundry Co. and it is understood that a new record for rapid work will be made.

We notice a newcomer to the ranks of Toronto real estate men, in the person of Mr. George Weaver, formerly of New Liskeard, Ont., a well-known north country estate agent, who for several years successfully handled realty business in that town.

MRS. VANDERBILT HIGH FLYER

Goes Up in Aeroplane With Clifford Harmon. NEW YORK, July 1. - Mrs. William K. Vanderbilt, Jr., made a flight in an aeroplane with Clifford B. Harmon over the Hempstead Plains last night. Three thousand persons who went to Mineola, in the hope of seeing some one fly saw a natty dressed little woman climb on the stool behind Mr. Harmon's seat in his big skeleton-like air craft, but only a few of the on-lookers could see her when the machine started off. After they simply saw her sit apparently nervous in her seat some twelve feet above the ground and wave her hand with the machine started off. After it alighted and Mr. Harmon asked her how she liked it she simply said: "It was perfectly splendid." Then she stepped into her automobile and whisked away.

IMPORTED CANADIAN WOMAN

DETROIT, July 1. - Harry Preston was taken into custody to-day by Leonard Coyne, an immigration inspector, on a charge of importing from Canada an alien woman for immoral purposes. We Want to Sell 6,000 Shirts at \$1.00 Per Shirt How Long Will It Take Us to Do It?

LAST year we undertook to sell 10,000 of these Shirts in one month. This time we only have 6,000 of them and we ought to do it in two weeks. "Are you on?"

Six thousand Shirts in twelve days—that means an average of 500 Shirts a day of just one line. But it's a good line—it comprises better Shirts for a dollar than just ordinary Dollar Shirts. Men pay \$1.25 and in some cases \$1.50 for the same patterns and qualities all over Canada. We bought a great big lot of them at the quantity discount and can sell them at a dollar. We've sold nearly half of them already without advertising. Now here goes into a quick turn-over of the balance.

In the Wanless Store 1,000 GARMENTS OF REAL FRENCH BALBRIGGAN TO GO AT 44c EACH. Men who wear this underwear—and most particular men do—will appreciate this low-priced opportunity. 1,000 garments, Shirts and Drawers, in a creamy shade, made in France in that neat, careful way peculiar to expert French operators; they fit in a fashion that pleases; they are cool, that's sure; just one reason why we can offer this price reduction: A Montreal firm imported too large a quantity; they disposed of part of it to us at a low figure—that's all. Come Monday, and come in the morning, when there will be all sizes. The price, each 44c.

Special Black Dress and Suiting Fabrics

to be Cleared Out in One Day's Selling 4,000 yards Beautiful Black Dress Goods. This special lot includes dress and suit lengths and broken lines of our best qualities, comprising French Panamas, Henriettas, Lansdownes, chevot serges, wale serges, satin stripe taffetas, plain, fancy and striped voiles, French armures, Venetians, San Toys, mohairs, etc., etc.; guaranteed all pure wool qualities, and thoroughly sponged, jet and blue, unfading blacks. 46 to 52 inches. Regular 75c, 85c, \$1.00, \$1.25, \$1.50. Monday very special 63c yard.

NEW YORK SUITINGS. There is an unusual demand this summer for Cream with Black Stripe Suitings; we have just received a shipment from an English manufacturer; they are exactly correct for present wear; thoroughly sponged, and ready for immediate use; we were selling these suitings earlier in the season at one dollar per yard. Monday 85c yard, 68 inches wide.

Smart Silks for Real Summer Wear

Four of the most attractive values in Silks for the long summer wrap or coat, the traveling dress, to wear at the summer resort or at home. Black and Colored Shantung Silks, pure French Lyons dyed, heavy, rich, silky finish, correct for coats, dresses or suits; 34 inches wide. Per yard \$1.00. Smart Summer Novelty Silks, chiffon taffetas, satin de chine and satin paillette, in an excellent range of stripes, small and medium checks, etc.; all colorings and black, on white and ivory grounds. Price, per yard 75c. Black Cord Silk, for coats; this splendid coating cord, French made and French dyed, is in greater demand than ever for a useful wrap that is much needed in the summer and early fall. Price per yard, 34 in. wide, \$1.50. Heavier cord, 34 in. wide, per yard \$1.75. One yard wide Black Italian Taffeta 97c; guaranteed pure dye, Italian taffeta; soft, firm quality, and will give good wear and satisfaction for dresses, coats, skirts and separate waists; fast unfading black. Special, 36 inches wide, 97c per yard.

Women's White Canvas Summer Shoes

Women's White Canvas Oxfords and Ankle Strap Pumps, covered heel, stylish, dressy, very popular this summer; all sizes 2 1/2 to 7. Special Monday \$1.29. Same Shoe, of mercerized canvas, \$1.49. Women's White Canvas Ankle Strap Pumps and two eyelet Blucher Silk Ribbons. The Oxfords also pink, pale blue, grey and linen colors; a few Himalaya cloth included; all sizes. Regular prices \$2.50 and \$2.75. On sale Monday \$1.99.

BOYS' BOOTS. 120 pairs Boys' Box Kip Blucher Boots, heavy soles, standard screw, solid leather throughout; all sizes 1 to 5. Regular \$1.69. Monday \$1.29.

No phone or mail orders.

CHEAP AMERICAN MAGAZINES. William Archer Explains Their Non-Existence in England. What is the reason that we have not in England any such live and alert

cheap magazines? In the first place the social and political studies which form the strength of the American cheap magazines fall in England rather into the province of the great newspapers. It must be remembered

that in America there is no newspaper which has, like The Times and one or two other English papers, a national circulation. The greatest American newspapers do not circulate very largely outside their own cities or

their own group of states. The cheap magazines may be called the inter-state newspapers, in which articles of interest to the whole nation find a natural outlet. In England such papers as The Times, The

Morning Post or The Manchester Guardian will sometimes contain a series of half a dozen or more articles, which in the United States would be condensed into one or two papers for McClure's or The American.

In the second place, English political and social life is certainly not so fertile as the political and social life of America in topics of what may be called dramatic, or even melodramatic, interest. The United States present

a phenomenon new to history—a land of vast natural resources in process of feverishly rapid exploitation—a land of great cities expanding at an unprecedented rate.
