WANT JUVENILE AGE RAISED TO EIGHTEEN YEARS

Proposed Amendments to the Criminal Code Considered

Other Matters Before the National Council of Women Today—Luncheon by Hospital Aid and Graduate Nurses.

Proposed amendments to the criminal code, particularly those sections referring to women and children and the raising of the age of juvenility from sixteen to eighteen years, took up the greater part of this morning's session of the convention of the National Council of Women.

The corresponding secretary, Mrs. Horace Parsons, read the report of the special committee on the revision of the criminal code. It treated with the matters of the problem of treatment of moral delinquents, changes in the code to provide for conditional or indefinite sentences; the protection of society in connection with prostitution and venereal disease, and the question of general morality and public health. The amendments submitted were based on the fundamental principle of one moral standard for both sexes, as the code as it stands is evidently based on the double moral standard. The report also detailed several proposed amendments to the criminal code covering these subjects.

It was decided to have the report of this committee sent out to the various councils for deliberation during the year and final action at a subsequent meeting of the national council executive.

Mrs. Hamilton read a letter from the judge of the juvenile court in Toronto relative to the raising of the age of juvenility from sixteen years to eighteen years and she moved a resolution that the dominion government be memorialized to raise the age of juvenility to eighteen years, as referred to in section 46 of the criminal code. This was accepted by Mrs. W. C. Good, but discussion was deferred.

The corresponding secretary read a letter from Lady Aberdeen regarding the international council quinquennial meeting to be held in Christiania in September, and also a letter from Mrs. Ogilvie Gordon, president of the National Council of Great Britain and Ireland, advising that the annual meeting of that council would take place in Bristol in October and extending welcome to the Canadian delegates to the Christiania meeting.

The president read greetings from the national councils of Greece, South Africa, France and Australia, and reported that they as well as the national councils of Sweden, West Australia, Netherlands, the United States, Switzerland, Tasmania, Denmark, New South Wales, Norway, Victoria, Australia, Queensland, Portugal, Serbia, Croatia, Argentina and Uruguay, and the national council represented at the international council meeting. She reported that Madame (Continued on page 2, seventh column.)

CIRCUIT COURT Judge Barry's Tribute to Late Chief Justice

Only One Criminal Case so Far, a Charge of Attempted Murder, but Prisoner Now in Penitentiary.

Feeling reference to the death of Sir Ezekiel MeLoud was made this morning at the opening of the June sitting of the circuit court by Judge Barry, who presided. It was the first sitting of the court, he said, since the death had occurred and he desired to give public expression to the sense of regret felt at the passing of the late chief justice. He paid a highly complimentary eulogy to Sir Ezekiel, praising his high qualities, his integrity as a man, as a lawyer, and as judge of the supreme court. Though he had lived to a ripe age, said His Honor, yet the community felt his passing and many friends mourned his loss.

None of the cases on the docket were in readiness to be proceeded with this morning. His usual way to have the first few days of the court occupied with criminal business, but this morning the only criminal matter was the case against Albert Connell against whom the grand jury found a true bill on a charge of attempting to murder Cornelius Donovan.

Connell is now serving ten years in Dorchester, and it is unlikely that he will be brought here to stand trial on the last charge at present. Some other criminal cases are expected to be in readiness by Thursday. One reason perhaps for the few criminal indictments is that the county court just recently concluded had one of the heaviest sessions of late recorded in this regard. Adjourning was made until tomorrow morning at 10 o'clock.

The jurors The grand jurors are—Thos B. Reynolds, E. A. Job, C. H. Johnson, J. A. Kirk, A. A. Gaudry, F. V. Hamm, E. E. Holman, Alex. H. Campbell, Parker Jennings, Frank L. Cameron, J. H. Beattie and John Rowe.

The petit jurors summoned are—C. Dickason, J. P. Brown, Walter Hark, D. W. Puddington, H. L. Hunter, D. Love, G. M. Dunlavy, G. D. Ellis, F. P. C. O'Leary, G. T. Earle, W. L. McKenna, R. Ingleton, C. T. Richardson, M. S. Kilian, C. E. Love, G. H. Hamilton, E. K.

Statement by Editor of Christian Guardian on Matter of Union.

Toronto, June 22.—Rev. Dr. W. B. Creighton, editor of The Christian Guardian, who returned yesterday after a tour of the west, in an interview with the press, said that in the west there was a feeling of impatience and resentment at the Presbyterian General Assembly not having taken action at its recent annual meeting to

the consummation of union this year. "If there is any delay on the part of the Presbyterian church officials at the next assembly," Dr. Creighton is quoted as saying, "the western churches intend to go ahead with a union of their own, and there will be one church west of the Great Lakes."

LLOYD GEORGE AND KRASSIN NEAR BREAK

London, June 22.—A crisis has arisen in the negotiations between Premier Lloyd George and Gregory Krassin, Russian Bolshevik minister for trade and commerce, which may result in the definite breaking off of conversations and the departure of M. Krassin from London, according to the Herald, organ of labor.

It adds that the crisis was precipitated by the premier insisting that before negotiations go any further, Soviet government must promise compensation to British financiers who have invested interests in Russia. Krassin, it is said, offered to discuss this matter at a peace conference, but was met by what is declared to have been a virtual ultimatum.

Premier Lloyd George is charged by the Herald as acting "at the dictation of a group of British capitalists."

I don't know why he'd say the Lord made couldn't be London. Some other woman governor? Say, Mister—this new talk about it being ordained that man was to do this or that—an' women was to be his help-mates—makes me ble. Hanner's been my governess for a long while, an' I guess if she hadn't a been I'd a got into lots o' scrapes afore this. An' then this here idea that a woman never orto speak from a pulpit. Mister—if a good woman aint a better mouthpiece for the Lord than some critter, I've knowed in my time that could be like a bull about religion, an' then go out and do any low-down politician. I'd want to apologise for bein' human—yes, sir."

OCCUPATION IN GERMANY A POSSIBILITY

Reported Decision of Conference at Boulogne

Huns Must Keep Faith in 'Carrying Out Treaty'—Reported Plan for Mobilization of German Money.

Paris, June 22.—Recommendation that an international financial conference be held in Brussels to mobilize German money and issue international loans based on German revenues, has been decided upon at the inter-Allied meeting at Boulogne, according to a special correspondent of Havas.

Another point decided by the Boulogne conference, the correspondent says, is that the Allied powers shall appoint ambassadors to represent them at Berlin. They will be at their posts by July 1, before the Spa conference, the date for which remains fixed for July 5.

Discussions at the meeting, it is said, have resulted in a decision that if German manifests bad faith concerning the execution of the Versailles treaty, the Allies may employ other means of coercion than those already considered, occupation of parts of Germany being possible.

Boulogne, June 22.—Representatives of the Allied nations conferring here on the mobilization of German funds, met at 10 o'clock this morning and it was expected the conference would close today.

The packet Mail of Orleans, on which Premier Lloyd George of Great Britain arrived here yesterday morning from Folkestone, was ordered to be in readiness to sail at 8 o'clock. CROP REPORTS OF DOMINION

Reports from the Various Provinces Assembled Today.

(Canadian Press)

Toronto, June 22.—Crop prospects in Canada, from coast to coast in regard to grains, fruits and vegetables, according to reports gathered by the Canadian Press, Limited, today, give reasonable ground for optimism as to Canada's agricultural and horticultural production for the year 1925.

In the fruit growing districts of Eastern Canada, the prospects are for bumper crops of wheat and oats are promised, while other grains are also doing well.

The same is true, generally speaking, of the reports from Quebec and the maritime provinces. Potatoes are doing well in practically all centres, although the area seeded was restricted owing to the high cost of seed.

The various posts are making themselves felt; cut worms and grasshoppers are being fought with every weapon known to agricultural science. There is still danger of frosts, and the help problem is ever in sight, but so far as actual growth is concerned, Canada's crops according to the reports received today, are in a remarkably favorable position.

Quebec.

Montreal, June 22.—The amount of grain now reported to be in storage in this city is as follows: Wheat, 4,549,813 bushels; corn, 5,841 bushels; oats, 238,381 bushels; barley, 866,401 bushels; rye, 920,229 bushels; flaxseed, 17,918 bushels; total, 6,584,774 bushels.

The prospects of fruit are reported to be moderately good.

Nova Scotia.

Halifax, June 22.—Officials of the provincial department of agriculture, in regard to crop prospects in Nova Scotia, at the present time are most encouraging.

An unusually large crop of roots, such as potatoes has been secured and present indications are that a record harvest as regards these commodities will follow.

It is estimated that the apple crop will total one-half of last year's record harvest of 1,000,000 barrels.

DISMISSED.

The supreme court at Ottawa has dismissed, with costs, the appeal in the case of the Strand Theatre Co., Halifax, vs. Cahill.

MORE FIGHTING THIS MORNING IN DUBLIN

Some Trouble Also Occurs in Dublin

Comments on Stand Taken by Lloyd George in Matter of the Operation of Irish Railways.

Londonderry, June 22.—Firing was resumed in several parts of this city early today after a comparatively quiet night. Several persons were killed in the rioting here yesterday and scores were more or less seriously injured. Military forces patrolled the streets during the night.

Today they were flagging the danger points in the centre of the city. Additional troops are being sent here from Belfast. There were no deliveries of milk or bread in Londonderry this morning.

Trouble in Dublin.

Dublin, June 22.—An automobile carrying the assistant-director general of the Royal Irish Constabulary and four constables were attacked with revolver fire and bombs when en route from the Amiens street station to Dublin Castle today. Assistant Director General Roberts was severely wounded in the head by a revolver bullet, but is expected to live, and the driver and the car was shot in both legs. No arrests have been made.

The motor was met with a fusillade of bullets when passing under a railway bridge, but the badly wounded constable continued to drive the motor while an uninjured companion returned the fire. After shooting had gone on for some time the statements made by leaders of the railway workers here, who are on strike, are known as to the casualties among those who made the attack.

COMMENTS ON THE PREMIER'S DEMAND

Dublin, June 22.—Premier Lloyd George's demand that Irish railways handle munition trains gives rise to an issue which must be fought out, according to statements made by leaders of railroad workers here. Many declare the premier's attitude is a "bluff" and that they are "too much afraid of English law to give it effect."

The general body of the Sinn Fein welcome the situation and are solidly behind the railwaymen. The railroad officials, however, would suffer no inconvenience because they have ample motor transportation facilities. It is pointed out that food difficulties attending the strike would rather affect England, which gets enormous supplies of Irish produce while Ireland is self-supporting. Stoppage of coal traffic, however, would hamper Irish industries.

"It is true that the subsidy granted by the St. John Dry Dock & Shipbuilding Company is sufficient to meet the principal and interest on the total amount of bonds amounting to \$3,826,372.84 with interest at five and a half per cent?"

Death of Woman at Venice, a Beach Resort—Twenty-One Business Buildings in Inglewood Wrecked.

Los Angeles, June 22.—A survey early today of the damage done by an earthquake last night indicated that Inglewood, ten miles southwest of here, suffered much more severely than was at first reported. Twenty-one business buildings were otherwise damaged.

Many plate glass windows in Los Angeles were shattered by the shock, several buildings were otherwise damaged and persons were struck by bricks shaken from chimneys. San Pedro, Long Beach, Santa Monica and Venice also reported minor damage.

The death of Mrs. Wm. Shippy of Los Angeles in Venice, a beach resort, was attributed to the earthquake. She jumped from an automobile following the tremor and fell dead from heart disease.

Several persons in Inglewood were slightly hurt by falling plaster and bricks and broken glass but no serious injuries were reported.

LEMIEUX ASKS QUESTIONS RE COURTESY BAY

(Special to Times.)

Ottawa, June 21.—Hon. Rodolph Lemieux is still harping away on St. John harbor matters. He has given notice of several questions in regard to the government assistance in financing the St. John Dry Dock & Shipbuilding Company. He asks if the government has granted a subsidy to the company and if so when, and to what amount, and also he asks the estimated cost of the dock.

He continues: "Is the government aware that bonds are at present offered for sale to the public with the following paragraph appearing on the back of each bond:—"

#### A WOMAN'S MESSAGE.

It was something in the nature of an innovation when members of the Canadian Club and the Women's Canadian Club sat at dinner together last evening and joined in the welcome to their distinguished guest, Mrs. Ralph Smith of Vancouver. Socially the affair was a complete success, the good fellowship being especially marked.

St. John is indebted to the National Council of Women that it was made possible for citizens to hear so inspiring a message as that delivered by Mrs. Smith. Her hearers could readily understand why this woman of charming personality and broad vision was elected to the seat in the legislature made vacant by the lamented death of her distinguished husband, and why the measures relating to social welfare which she advocated are piloted through the house because laws of the province.

It was a wonderful story she told her hearers last evening, and one that should arouse the people of New Brunswick to a determination not to rest until measures similar to those she described have been placed upon the statute books of this province. These measures relate to the welfare of women and children, and to public health and morals. As she went down the list, enumerating them, and giving a brief explanation of each, her hearers realized how very far the Pacific province has gone in advance of this Atlantic province in the last few years. Equal guardianship of children, a minimum wage for women and girls, the deserted wives' maintenance act, the appointment of a superintendent of neglected and dependent children, the mental survey of the province and provision for care of the feeble-minded, the cottage system to replace the Industrial Home for Boys, and a like system for delinquent girls, mother pensions and the juvenile court with a woman as judge, make up a body of what Mrs. Smith terms human legislation which is unequalled elsewhere in Canada. It was for this the woman sought the franchise, and it was for this Mrs. Smith sought and gained a seat in the legislature. It is for these other women will seek and secure legislative power and rise to heights of influence for the public good that will make human legislation a reality in the Dominion as a whole. There need be no fear of the degradation of woman. It is for her uplift the woman are striving. Mrs. Smith is no less a mother because she strives to make the conditions of life for her own children and the children of others more endurable and with more splendid opportunities for development and for human service. The answer to every objection against woman in politics is found in the legislative career of this western woman and of others who hold representative positions in public bodies in this and other lands. They carry the human atmosphere with them into the arena that has been too much dominated by political intrigue, and the gratitude of all women and all children—of all men—will be their portion.

Those who heard Mrs. Ralph Smith last evening and on other occasions on which she has spoken in this city, telling her story with such simplicity and clearness and yet with such force of conviction, will not be doing their duty to themselves and their province if they do not dedicate themselves to tasks similar to those which absorb her attention and her great gifts, for the welfare and advancement of the province of New Brunswick.

**PRESIDENT WILSON'S VIEWS.**

President Wilson believes the Republican party will get an emphatic rebuke from the people of the United States for its attitude regarding the peace treaty and the League of Nations. In an interview last week he said:

"I am as confident today as I was when I returned from Paris finally in July last, that the people of not only America but of the entire world are in favor of the League of Nations; that they would feel a greater sense of security if its benefits should be guaranteed; that they would not approve with their votes of the policy of the Republican party, which is wholly political in intent and purpose, to deny them the protection that the League of Nations assures."

In the same interview the president said further:

"The Republican, and not the Democratic, policy has been responsible for any bad effects that have resulted from the failure of the Republican senate to ratify the Versailles treaty, and the covenant of the League of Nations. The Republican policy of negotiation has been persisted in for the sole purpose of advancing Republican chances for winning the coming presidential election."

President Wilson counters very neatly in Senator Lodge and the Republicans when he says:

"They accord me too much credit for my conception of the League of Nations which I said I had to assume the responsibility for the part I have played in promoting it, the honor of discovering its merits and appreciating its values cannot justly be given to me. A recent one of Ohio who became president of the United States advocated a League of Nations more than fifteen years before I came impressed with its tremendous importance and seized upon it as providing the greatest insurance ever devised against war. I mean William McKinley, Senator Theodore Burton, another Ohio Republican, possessing rare powers of perception, was an ardent champion of it. Senator Lodge was so favorably

impressed with the value of a League of Nations as providing adequate safeguards against war that he openly championed it in an address before Union College. So it must be a trifle disconcerting to some Republicans to have their party propose now to repudiate that which was approved a few years ago by some of their most important leaders."

As to the coming Democratic convention, President Wilson is confident it will welcome the opportunity to make the League of Nations the issue in the campaign. He says—"It is unthinkable that any Democratic should for an instant be influenced by the selfish and sinister motives that lie back of the Republican plan to stultify and discredit the United States in the eyes of the world."

There is a strong strain of partisanship running through the long interview which the president gave to the press, but the New York Evening Post sees in the strength of a clever political stroke. The Post says:

"Mr. Wilson by his emphasis on the Democratic need of a firm and clear stand in behalf of the treaty and the League, compels the Republican party and its candidate to emerge from their present ambiguous and timid position. The keynote struck by Mr. Wilson will undoubtedly be sustained by the San Francisco convention and by the Democratic campaigners. It is inevitable that the Republican candidate will be under a sustained fire upon the question of the League. And a day will come when Mr. Harding will have to find himself. The blank check which the Republican convention drew up for whatever candidate it might select must be filled out. And the sooner Mr. Harding and his party find themselves the better for them and the better for the country. They cannot straddle to victory. They must fight."

**DR. MACMURCHY.**

Dr. Helen MacMurphy had only time enough at the meeting of the National Council of Women last evening to make St. John listeners wish that she might be given a whole evening to discuss child welfare and mental hygiene. It may be hoped such an opportunity will be given in the not distant future. One very significant statement she made was that mental disease is in many cases curable, when taken in time and given the right treatment. Her picture of mentally defective children, properly cared for and trained to become self-supporting and useful citizens, is one that we need to have impressed very strongly upon our minds. The mental survey of the province to be made in September will undoubtedly rouse the people to the need of action. Miss MacMurphy, in her address, paid a high tribute to Hon. Dr. Roberts, and the work he is doing in this regard, and in relation to public health in general in the province of New Brunswick. Mrs. Ralph Smith, before the Canadian Club, told what British Columbia is doing as a result of the mental survey of that province, and we may anticipate similar action here after the report of the survey has been submitted to the government.

The western delegates to the National Council of Women, and St. John people as well, heard with deep interest last evening the very clear statement of Mrs. Lawrence regarding the reception and care of women immigrants landing at this port, and the improved conditions under which they will travel hereafter to their destination in Canada. Her story of the voluntary work done by St. John women in meeting and caring for the immigrants is one to inspire those of the west to do their part, in order that the newcomers may become worthy and happy citizens of Canada.

Several cans of milk that came to the city yesterday from Kings county were so doctored with gasoline as to be unfit for use. Criminal acts such as this deserve the severest punishment. One of the orphanages was without milk yesterday. Relations between the city and the milk producing section of Kings county are not improving.

The coal miners who closed a colliery in Cape Breton to go to a circus added considerably to the coming coal shortage. Still we all have a degree of sympathy with any man who knows there is a circus in the neighborhood. Perhaps the miners will speed up after having seen the "pike."

Hon. Dr. Roberts was given a very flattering reception by the National Council of Women last evening, and the paper he read was received with manifest approval. The emphasis he placed upon the proper care of the adolescent girl was the sober judgment of a physician who knew whereof he spoke.

Los Angeles, the wonder city of California, has provided a new sensation. It has had an earthquake shock that cracked the walls of the jail. Well, with a bone-dry city the old jail will not be as much needed as in the past.

An anonymous correspondent of the Standard charges the Times with ignoring the suburban steamer service on the St. John river. The Times was merely referring to the Valley Railway service.

#### GHOSTS.

Some people say that they have talked with ghosts across the river, and with the shadows they have walked—which rather makes me shiver. I've seen a weary waste of words, to bolster this contention, and "facts and figures" thrown at birds, too numerous to mention. I do not wish to pierce the veil my ignorance throws over me, or see or hear the phantoms I'm callous-hearted, but I will wait till I cash in to greet the dear departed. Then we can sit around in space, in glowing fields Elysian, and speak our pieces face to face, with naught to blur our vision. Perhaps some distant ghost may weep to hear my accents quiver, but what I think and to say will keep till I have crossed the river. The men who think and talk of ghosts where hustlers are chastised, by all the busy, buoyant hosts are looked upon as rattled. I do not wish to talk with shades in spectral, vague dominions, till this old world behind me fades and I am wearing pinstrip.

#### FIFTY YEARS QUEEN.

Jubilee Day, June 21, 1867, was a day long to be remembered by those who witnessed the events of that period. Fifty years had Queen Victoria ruled over the British people and in that time she had endeared herself to all classes of her people. Tens of thousands knew her in the more intimate visits she made to her people, and the words "God bless the Queen" were heard on every tongue among all nations. Her life had had its full measure of sorrows as well as pleasures and honors and when she had reigned a half century it was the desire of her majesty that in Westminster Abbey, the place where she had been crowned, she should return thanks with her people for the prosperity of the reign.

It was a day of "queens" weather—a delightful day when, with a might, a cavalcade in all the richness of uniform and dress such an occasion demanded, she made her way through enormous crowds to the abbey. In the line were the Prince of Wales, destined to rule in later years as King Edward VII, the Crown Prince of Germany and the Crown Prince of Austria and other members of the royal families of the continent.

None entered into the services in the abbey with greater spirit than the queen herself for she was a devout worshipper of the greater King from whom she derived her title. It was exactly half-past one o'clock when she entered the abbey and the throne she had occupied for the return to the palace.

London was a gay place that evening. The houses were gaily decorated with flags from the north to the south, and from the hills, beacon fires were blazing from all the principal points of the coast. Children were packed in Hyde Park, each being provided with a meat pie, a bun, and a glass of lemonade, and a flag. The women of the British Isles presented to her majesty nearly \$400,000 in honor of the occasion.

#### NANTUCKET.

Oh, lovely Isle, where Peace and Beauty reign,  
Amid thy moorlands wild and fragrant flowers,  
Where with Arcadian joys fond Nature dowers  
A thousand scenes within thy fair domain.  
Here, care-forgetting, have I oftentimes  
Dreaming, within the shade of thy sweet bowers,  
Winged the flight of summer's golden hours,  
Gazing the while upon thy wondrous main.

Oh, Isle of joy, serene and exquisite,  
May Heaven's choicest gifts abide with thee!

—R. A. Douglas-Lithgow.

#### IN LIGHTER VEIN.

His "Polly"

(Main and Empire)

One of the annoyances of the manager of a show is the "free list" in small towns, and it is his duty to look over the list when he arrives and do the necessary cutting. Edward Arnold, of the Bell-Boys, asked the house manager why he found two seats allotted to the Bell-Boys, and was introduced to the man. "Why two seats?" he said. "One is a curfew in this town," he said. "I'm the bell-ringer. If I get the seats the bell gets a couple of light taps. If I don't it rings an hour."

"Where is the bell?"

"Next door."

"He got the seats."

#### Couldn't Afford to.

The Diner—This chop's as tough as leather. Are you quite sure your chef didn't broil a scrap of leather for me by mistake?

The Manager—I'll see, sir. If he did the mistake is inexcusable, considering the high price of leather.—N. Y. Evening Globe.

#### To Paint a Sunrise.

An artist was showing a young woman over his studio. After she had critically examined all the pictures, she remarked: "I notice several sunsets among your works, but not a single sunrise. How's that?"

The artist who was rather noted for his Bohemian habits, blushed a little at this question, and then stammered:—"You see, it's this way. To tell the truth, the reason I've never painted a sunrise is because I'm never up at that time."—From the Pittsburg Chronicle Telegraph.

#### But He Made Ends Meet.

He had been tramping for hours, and not once had he found a place where he could refresh himself. At last as the sun was sinking he arrived at an old inn. When the waiter brought his order, he looked at it and then at the waiter, remarking: "Is this the best you can do in the way of sausage?"

"Why? Isn't it good?" said the surprised waiter.

"Good?" repeated the hungry tourist. "Oh, yes, it looks good, but the ends don't suit me."

"The ends?" said the waiter further perplexed. "What's the matter with them?"

"Not far enough apart," was the reply. "The waiter had no more to say.—N. Y. Evening Globe.

should be performed by Canadians. A motion by Senator Power to increase the rate of interest paid to depositors in government saving banks from three to four per cent was lost on division.

Sir James Lougheed said that the Dominion government savings banks were merely a convenience for the people and were not intended to rival chartered private banks. If the government raised its rates, the result would be an increase in the bank rates, which might seriously disturb business conditions.

Bills to amend the customs tariff and business profits war tax acts were reported from committee.

#### ENTERTAINMENT

##### OF V. C. WINNERS

BY KING GEORGE

London, June 8.—(Correspondence A. P.)—King George has decided to entertain the holders of the Victoria Cross at a garden party at Buckingham Palace. The date is not yet fixed.

Each recipient will probably be invited to take one or more members of his family with him. The guests will include all those surviving to whom Victoria Crosses were awarded in previous years.

At present there are surviving about 117 who received the Cross before the last war and since August, 1914, 880 further awards have been made. Only about half of these are now living. So it is expected that the attendance at the event will be approximately 400.

#### PENSIONS FOR SERVANTS MAY SOLVE PROBLEM

Paris, June 22.—Pensions for servants as a solution of the domestic problem is a suggestion made by Louis Roy, noted French publicist. He says: "Encourage servants to buy and use economically and to abolish waste by giving them a share of the sums they annually save the household."

"Establish a system of long-service pensions for your maid, your butler, cook and chauffeur—and you will find the servant problem will not worry you any more."

**STRAIGHT TALK BY SIR HENRY WILSON**

London, June 1.—(Correspondence of Associated Press)—What was called a "straight talk" was given at the annual meeting of the Union Jack Club by Field-Marshal Sir Henry Wilson, who described himself as "an old soldier who knows what he is talking about."

"We have been told," he said, "that we went into the war to end war. We did not. We went into it to save our skins. We were told that after the war we would have peace, but we have not got it. There are at present between twenty and thirty wars, big and little, going on. We were told that the war should end war, but it did not and could not. "We are living in ticklish and dangerous times, and our command on sea, on land, and in the air is being challenged in various parts of the world."

**LONELY CASTLE AS THE CLOCK STRIKES MIDNIGHT**

"Twelve-Ten" at Imperial is an English Thriller of Thrills—Marie Doro in Cast.

The attraction at the Imperial Theatre just now is the English super-direc feature, "12:10," with Marie Doro as the star. Miss Doro has been absent from the screen for several years starting in notable Broadway, New York, productions, and also appearing in London. She is well remembered as being one of the first stars selected by the Lasky company when this organization began screen productions. Herbert Brenon, who made "Nippon's" Daughter," "Daughter of the Gods," "Lone Wolf," and other notable film successes, directed Miss Doro in this gripping production of "12:10."

It is a mystery story of the most baffling character. It has the grip that holds you like a steel vise. A young girl, at midnight, in a lonely house, praying beside the body of her adopted father with doors creaking and the winds singing a weird symphony as the covers on the bed move begin the complications that will baffle any one. What happens? Brenon contrived his picture so that you can't find out until the last foot of the picture.

No one but Marie Doro possessed the ability to characterize this young girl, and with the settings in Paris and rural England a perfect entertainment and feast for the eyes is furnished.

For a British production and actual scenic settings the big picture is unusually attractive and for genuine punch and thrill it surpasses anything to date, chiefly because of the real old castle accompaniments, the midnight hour, etc. "Twelve-Ten" is being repeated today and Wednesday.

Jiffy-Jell comes in ten flavors: Try loganberry and pineapple for desserts. Try lime-fruit flavor for tart salad jell. Try mint for a refreshing mint jell.

Mrs. Ralph Smith, M. P. P. of Vancouver (B. Mrs. Smith took her audience back to the time when women were fighting for their franchise, telling them of their aims and ambitions at that time, and how they were gradually being fulfilled in the far Western province, expressing the hope that the experimental legislation, which had been enacted in the last four years in British Columbia, would prove an impetus and a help to the attainment in New Brunswick of similar legislation.

## 21 % Profit on a Government Bond

A 5 1/2% Dominion Government Bond due 1937 if bought at present prices will show a profit of 21% should the market for Government Bonds within the next seven years return to the level that existed in 1897, for example.

The above chart shows the prices at which the present issues of 5 1/2% Government Bonds which still have ten years to run would sell on the basis of the income yields given by Government Bonds in past years.

Past history shows that after periods of great capital stringency such as the present, the pendulum has always swung to the other extreme bringing an abundance of capital, low money rates and consequently high bond prices.

Experience indicates that such a development can take place in a much shorter period of time than generally thought possible.

British and French credit advanced from 1816, after the Napoleonic wars, over 20% in two years and 25% in eight years.

In addition to these profit probabilities there is the profit certainty of seventeen years complete exemption from all Federal income taxes. This is the longest period for which tax exemption can be bought.

*After careful consideration we have come to the conclusion that we should strongly recommend the purchase of Dominion Government 5 1/2% due 1937 at 101 and interest.*

### BUILDING BOOM DUE IN LONDON

London, June 1.—(Correspondence Associated Press)—London, which travelers maintain changes more slowly than any other great capital, is yielding to the necessity of providing for continued increases of population. There are many indications that the city is on the eve of an unprecedented era of rebuilding. Instead of stretching farther into the beautiful country lying immediately outside its bounds, the predicted building boom is likely to be a process of tightening up old buildings by better utilization of wasted spaces and acceptance of the American skyscraper idea. Specimens of the last-named influence are to be seen today along London's newest downtown thoroughfare.

Kingway, near the Strand. Here several buildings, either built by Americans or designed for American occupancy, are in the process of construction. Shortage of skilled men in the building trades and hindrances due to England's leasehold system are the main handicaps, but the fact remains that London is verging toward marked physical changes.

Preliminary examination in the case against Norman Curley, charged with breaking and entering the store of R. L. Adams, west side, and stealing jewelry valued at about \$250, was concluded in the police court this morning and the accused sent up for trial. Detective Biddiscombe said he made a search of the second hand stores in the city and found three ordinary watches, two wrist watches and three watch charms. A search after the accused was arrested the detective went with Sergeant Detective Power to the accused's house in Sheriff street and he said that on the mantle in the sitting room he found a clock in an accordion on the table two roses, six watches, two wrist watches and two lockets. They also went to a jewelry store in Cabourg street and found another watch. Sergeant Detective Power corroborated this evidence.

Ernest East, Cabourg street, said a man took a watch to him for repairs, but when asked to identify the accused he said he could not positively say it was Curley. The man that went into his store gave his name as Thomas Mercer. Harry Gilbert also said a man went into his store and wanted to sell him a watch but the witness refused to buy it.
