ISSUE OF STREET RAILWAY STOCK

Par Value \$200,000 To Cover Extensions

FIVE MORE CARS

Order For New Ones Placed Some Months Ago—Colonel McLean Speaks of Proposals of Other Companies to Enter Field Here

An issue of stock, of the par value of \$200,000 is being made by the St. John Railway Company to cover the cost of the extensions now in progress. The present stockholders are being given the first opportunity to take up the new issue, the amount being made in the proportion of one share of the new for each four shares already held. If any is left over it will probably be offered for public subscription. The issue to the stockholders is being made at par.

Some time ago the company offered an issue of bonds of the same value but, owing to the existing condition of the bond market, there was no demand for the debentures and the issue was withdrawn to be replaced by the present offering of stock.

It is announced that the company has secured five cars to help meet the demands of their service. An order for new cars was placed months ago but, owing to the fact that the cars shipped cannot meet the demands which are being made upon them, the new cars have not yet been delivered.

Speaking of proposals of other companies to enter the field here Colonel McLean said this morning that they would welcome any such proposals from any company and would be glad to do anything they could to help them along.

INDICATIONS THAT REVOLT IN CHINA IS NEAR TO COLLAPSE

London, July 31.—A despatch to the Times from Peking says: "News from the north implying the collapse of the revolt is pouring into Peking. Much of it requires confirmation. The Shanghai correspondent says the Japanese naval contingent re-occupied Changhai on Wednesday without a fight. The correspondent adds that the general feeling in Shanghai is that the southerners will discontinue the revolution."

MEXICAN IS SHOT BY UNITED STATES SOLDIER

El Paso, Texas, July 31.—Corporal Smith, of Troop A, second cavalry, U. S. A., shot and wounded Ismael Monteros, a soldier of Colonel Torbio Ortega's command, said to be his personal servant on the Rio Grande yesterday as Monteros was attempting to cross the international boundary fully armed and on horseback. The Mexican has been arrested by the army surgeon at Fabens and is being held a prisoner, together with five other Mexicans, who were arrested some time ago and held for trial on a charge of accepting bribes from the Krupp Company for an insight into official documents.

CHARGES TOO, AGAINST KRUPP DIRECTORS

Berlin, July 31.—Several of the morning newspapers here announce that four directors of the Krupp Company, among them the president of the board, have been made defendants with the officers of the Prussian war office, who were arrested some time ago and held for trial on a charge of accepting bribes from the Krupp Company for an insight into official documents.

SAYS COCHRANE WAS NAMED AS LIKELY ONTARIO GOVERNOR

Minister of Railways Did Not Want Post—Governor Gibson Likely to Continue

Toronto, July 31.—The Globe says it is more than probable that Sir John Gibson, lieutenant-governor of Ontario, whose term will expire in September next, will be asked to continue as the king's representative for another year. Until such extension of term is proffered, it is impossible to state what position the lieutenant-governor will take, but it is assumed that he will accept. It is believed that the provincial government is heartily in favor of an extension of term.

The Globe understands that only one name has seriously been considered as a possible successor to Sir John Gibson. Had Hon. Frank Cochrane so desired, he would have been accepted for the position. The minister of railways, however, is much more devoted to his beloved-out-of-doors than to the fells and furrows and distinguished officialdom and the Globe fears that he definitely and decidedly declined a suggestion of the lieutenant-governorship.

GREAT STRIKE IN SPAIN

Textile Workers in 64 Factories Out—Fear of Clash With Troops

Barcelona, July 31.—A strike in the textile industry, involving sixty four factories has been called. The authorities here say that statements made by the workers they are fearful that the strike will assume a revolutionary character and as a precautionary measure, troops are being hurried to the city.

The governor of Barcelona maintains that the strike is illegally declared, and announces that he will have 17,000 men in his disposal to prevent a revolutionary outbreak.

MUST PAY THE TAX

Sum of \$50,000 on Part of Money Left by Marshall Field

London, July 31.—Mrs. Maudwin Drummond was non-suited yesterday in an appeal against a government assessment of \$50,000 income tax on money she received from the trustees of the late Marshall Field, Sr., for the suitable maintenance and education of his three grandchildren, Marshall, Field, Jr., and Mrs. Albertine Field, now Mrs. Maudwin Drummond.

EX-LABOR M. P. TO TRY HUNGER STRIKE

New York, July 31.—A cable to the Tribune from London says: George Lansbury, ex-labor member of parliament, who resigned his seat to fight for re-election on the suffrage issue, but who was defeated, was sentenced in Bow Street yesterday, to three months imprisonment for making inflammatory speeches in support of the suffrage cause. He left the court amid the cheers of woman sympathizers, declaring that he would hunger strike immediately.

SAY MRS. PANKHURST WILL BE AT MONDAY'S MEETING

London, July 31.—Mrs. Emmeline Pankhurst, militant suffragette leader, who is out of jail on license and has not been in her apartment in Westminster since Monday, will appear at the suffragette meeting in the London pavilion on next Monday.

Do You Know Anyone Like This?

Stop and look at this illustration again. It shows splendidly the far-reaching power of a little Want Ad. Aided by this little messenger a son was found in the heart of equatorial Africa and brought back to the bedside of his dying mother. If ever you have occasion to communicate with someone whose address you do not have, a little Want Ad may find him quickly at trivial cost. Want Ads are wonderfully effective little messengers.

FIND LIFE BELT AND HAT AT LOCH LOMOND BUT NO SUCCESS YET IN GRAPPLING FOR BODIES

The sad task of grappling for the bodies of the women who were drowned in Loch Lomond yesterday afternoon is being carried on energetically today, but up to a late hour this afternoon without success.

A party consisting of James H. Nobles, James I. Nobles, George A. Stephenson, James Patterson and William Davis left the city early this morning by automobile for the scene of the tragedy, taking with them the necessary equipment for the search. They were joined at the lake by many other volunteers from the city and also from Loch Lomond, and the work of grappling was commenced at an early hour and carried on steadily throughout the day.

Two motor boats and a large number of row boats were used and the search was carried on in a systematic manner. At noon a lunch was sent out by Mrs. Barker of the Ben Lomond House in order to save the time which would be required to come to shore for the meal. Fred Life Preserver and Hat.

The only result of the search this morning was the discovery of a life preserver, which the party had had the thought of taking with them, but which, in the suddenness of the accident, was not within reach of any of those in the boat. The life preserver, which Mrs. Noble had found on the shore near the scene of the accident, where they have been carried by the wind and waves.

Three Boston Girls to Mt. St. Vincent to Become Sisters

Boston, July 31.—Three young women, well-known in the Meeting House Hill section of Dorchester and chums from childhood left today for Mount St. Vincent Academy to prepare for the sisterhood. The young women are: Miss Katherine O'Brien, daughter of Mrs. Mary O'Brien; Miss Rose Murphy, daughter of Edward Murphy; and Miss Mary Martin, daughter of John Martin, of Dorchester.

NEW YORK ENGINEERS BUY WESTERN MASSACHUSETTS TROLLEY LINES

(Canadian Press) Boston, July 31.—The sale of western Massachusetts trolley lines by the New York, New Haven & Hartford Railroad Company was announced here today by authority of Ex-president Charles S. McElroy.

The purchasers are Sanborn and Porter of 50 William street, who have taken over the New England Investment and Security Company, the holding company owning the Springfield, Worcester, Pittsfield and other western Massachusetts trolley lines.

The purchase was consummated through the acquisition of the entire common stock of the New England Investment and Security Company, \$100,000, which, Judge has voting powers. The \$100,000 preferred stock of the investment company is owned by the public and dividends of 4 per cent on the issue are guaranteed by the New Haven, which also guarantees 105 a share in the event of liquidation.

BRITISH WEEKLY CRITICAL OF REV. MR. JACKSON

(Times' Special Cable) London, July 31.—The British Weekly, the chief organ of the English Free Church, while approving of the action of the Wesleyan conference in supporting Professor Jackson, says "We are not altogether in sympathy with Professor Jackson's recent action. We took some little part in defending him when his orthodoxy was called in question by many Canadian Methodists who do not feel that Mr. Jackson was wise or considerate in terminating his Canadian ministry as he did. He knew very well that he caused much anxiety, even misery, to many of his brethren and through his preaching pulled him through the water to respect their feelings. His parting message to Canada ought to have been of quite a different kind."

HALIFAX GARRISON OF BOER WAR DAYS SEEK RECOGNITION

Look to Ottawa For Medal and Delegation Will Wait on Hon. Colonel Sam Hughes

Ottawa, July 31.—The 900 members of the regiment which garrisoned Halifax during the South African war, are seeking recognition for their service at that time. It was first intended that the regiment should remain in Halifax only one year, but as the war continued, they remained two years. Several local members of the regiment have held meetings and have had correspondence with those of other cities with the result that a delegation will ask the minister of militia for recognition of their service, probably in the way of a medal.

KILLING HEAT IN STATES; PROMISE OF COOL WAVE TODAY

Scores of Deaths and Many Prostrations Yesterday With Mercury Above 100

Chicago, July 31.—Midsummer heat bringing to many cities temperatures as high as 100 and making the 100 degree mark common over wide areas, extended throughout the central states yesterday.

Generally described the heat, wave extended from the Rocky Mountains to the Atlantic coast, but the maximum temperatures were reported from points between Kansas and Ohio. The weather bureau temperatures—usually several degrees lower than the street level temperatures—were from Cincinnati, Louisville, Indianapolis and Davenport, Iowa, were 102.

Southern Illinois got the full blast of the heat. At Galesburg it was 106 and at Peoria 104. Burlington, Iowa, also reported a temperature of 106. Local showers relieved the heat in some places. While at Galesburg, Ill., no rain has fallen since July 9, Cairo, Ill., today enjoyed 2 1/2 inches of rain.

Over Missouri, Illinois, eastern Iowa and southwest Ohio, the heat generally was about the 100 mark. Scores of deaths and numerous prostrations were reported.

Chicago had relatively cool weather, the maximum being 89. The condition was relieved by brisk winds.

All the heat affected area was prostrated by the heat. High wind pressure in the west was said by the weather bureau to be indicative of cooling breezes.

TWO DEAD AND SIX CANNOT RECOVER

Motor Cycle Accident Involves Many—Driver Killed Outright

Cincinnati, July 31.—Two are dead and six are in a serious condition attending physicians, and eleven others probably fatally burned and eleven others are seriously injured as the result of a motor cycle accident at the lagoon motor dome across the river from this city last night.

John Johnson of Salt Lake City, captain of the Cincinnati team which was contesting at the motor dome, for some reason that will probably remain unknown, drove his cycle to the extreme top of the circular track, crashed into an electric light pole, broke it off, and the contact of the live wire with his machine exploded the gasoline tank throwing the burning fluid over a score of spectators.

Johnson paid the penalty with his life, and Wm. Davis, aged twenty years, is dead as the result of the accident. Two women and four men cannot live, while others are in a serious condition.

MUCH DAMAGE RESULTS FROM WASHINGTON CYCLONE

Washington, July 31.—The national capital awakened today to begin a civic house cleaning and citizens and city employees alike joined hands in an effort to clean up the litter and debris in the streets, left in the wake of the cyclonic storm of yesterday afternoon.

WORD SOON OR STRIKE ON I. C. R.

Mr. Mosher Makes Statement of Interest in Moncton

Disagrees with Manager

Grand President Says 85 Per Cent Have Voted in Favor of Strike—People of Maritime Provinces Reported in Sympathy With The Men

(Special To Times) Moncton, N. B., July 31.—The C. B. R. E. threatened strike on the I. C. R. remains the same, but interesting developments are expected tonight. A. H. Mosher, grand president, is here from Halifax, and is incensed by General Gutelius' statements. He did not see the I. C. R. general manager in Halifax and will not see any officials unless sent for. He says that he does not want to give six months' notice before striking, as a notice for a revision of schedule was given ten months ago.

The statement by Mr. Gutelius that the railway agreed with the committee on rules covering promotion, seniority, holidays, overtime, etc., is denied by Mr. Mosher, as he says that all negotiations were off when the I. C. R. wanted to take 500 men off the schedule. Mr. Gutelius says that only 100 clerks belong to the union, and Mr. Mosher also denies this. He has not heard from Borden, Cochrane, Crothers or Gutelius since he issued his ultimatum, and if word is not received in a reasonable length of time, he says the men will strike, as eighty-five per cent have voted that way.

The maritime province people are in sympathy with them. A mass meeting will be held this evening when all matters, both present and future, will be discussed. Committee from all over the system are here. I held private meetings last night, but nothing was given to the press. The meeting this evening will be open to the press. Interesting proceedings are promised. Mr. Mosher adds that other unions of the I. C. R. have promised support.

He says that the C. B. R. E. will not be alone in striking as the men will not submit to Russian rule.

What Manager Says

Mr. Gutelius, in an interview, says that he has no objection to the C. B. R. E. rules and regulations covering promotion, seniority, overtime, holidays, etc. We also agreed on the increase in salary for freight shed foremen, checkers and porters, baggage masters at stations and their assistants, baggage porters, railway stores clerks and storemen, roundhouse employees, coal shovellers, janitors at stations, steamship men, dining car conductors, cooks and waiters, sleeping and parlor car conductors, the increase ranging from \$2.50 to \$15 a month and which provided an increase for all employees covered in their previous schedule with a number of additions and amendments. The wages agreed upon conform with the wages granted to employees in the other eight organizations with which we have agreements.

Mr. Mosher in reply says: "It is a general manager getting \$20,000 a year running a government railroad which made a surplus last year of \$600,000 I would be ashamed to say in the public press that I offered \$2.50 a month to men getting a salary say of \$85 to \$80. I would not dare to have that statement published and credited to me if I were general manager."

Trainers' Strike Vote

Both he and the committee men express indignation over a despatch from Ottawa published in the press stating that the union was only made of "odds and ends." He says they are stronger than ever and are not afraid to strike. The situation is more serious now and the people are hoping that matters will be arranged as a strike will hurt the maritime provinces especially. The trainmen are awaiting grand lodge officers as they are expected at this writing. They are dissatisfied and threaten to tie up the system. Meetings have been called for Sunday, but a vote on the proposed strike will be taken.

Lid Down on Gambling Houses

Madrid, July 31.—The provincial governors of Spain have been ordered strictly to forbid gambling in casinos and clubs at watering places. No exceptions are to be made.

Straight Talk To the Retailer

It is safe to say that almost every progressive retailer in this community will concede the compelling influence of the newspaper and its advertising value as a permanent and helpful business builder. Merchants have learned by actual experience that the quickest, most convincing and most profitable way to tell their advertising news to their patrons and patrons-to-be is through the columns of the best newspapers. The results obtainable from newspaper advertising are so well understood and recognized that the retail merchant now expects and demands of the manufacturer whose special brand of merchandise he sells, co-operation, assistance and arrangements for advertising in the manufacturer's merchandise. The manufacturer gladly listens to the up-and-doing retailer who can present a clean-cut advertising plan that will sell more goods for both himself and the manufacturer.

65,000 Knights Templar to March Through Biggest Temporary Stadium Ever Built When They Meet in Denver Next Month!

The Great \$300,000 Stadium with the view of the Colorado Rockies the Knights Templar will get as they go through their manoeuvres.

(Times' Special Correspondence) Denver, Colo., July 29.—The biggest temporary stadium ever built anywhere is ready in Denver for the Knights Templar conclave, which will begin here on August 9.

The enormous stand occupies the new city-centre site. It is 710 feet long, 410 feet wide, and it will seat comfortably 80,000 people! It took four weeks to build, and as soon as the Knights Templar conclave is over, a force of men is ready to begin tearing it down.

When 65,000 men are expected to march, the parade will take six hours to pass the stand. But the big stadium is only one feature provided by Denver for this great occasion. For electric effects on the streets and decorations \$180,000 is being spent.

CHINESE AND HIS WHITE WIFE DIE

Burn To Death In Home In New York

CLOSE CALL FOR OTHERS

Fifteen More or Less Seriously Injured—Brave Work of Policemen Results in Rescue of People in the Burning Building

New York, July 31.—Steve Lee, a Chinese and his white wife, Ivy, were burned to death and fifteen persons were more or less seriously injured in a fire that gutted the four-story building with entrances at a Bowery and 82d Doyers street and for a time threatened to destroy the whole of Chinatown.

The building is more than a century old. Policeman Griffen of the Elizabeth street station was attracted to the fire by a series of explosions from the one-story kitchen extension in the rear of the building. A large quantity of fireworks stored in the attic of this structure fired by the flames from an overturned pot of grease on the stove, blew up and sent a mass of sparks and blazing rockets through the roof.

In a minute the whole place was a mass of flames, and after turning in an alarm, Griffen climbed up a staircase to the fire escape to the second floor. He lowered the ladder to the street and then plunged through a sheet of flame coming from one of the windows to answer a call for help from a woman.

Griffen found Que Lan and his white wife, Mollie, and led them around to another window, where he lowered them to the ground. They were painfully burned about the face and the policeman's hair was singed from his head and his eyebrows were coat burned.

Sergt. Barnes and Andrew Blith, who happened to be in the neighborhood, were the first to arrive. They found a woman leaning from one of the third story windows and cried for help. They found Sadie Gibney, who weighs 300 pounds and Mollie Smother, lying unconscious on the floor.

The policeman and Blith managed to carry the pair down to the second floor landing, where they were met with a wall of fire. Firemen had arrived by that time and by shooting a stream of water at the base of the fire they saved the lives of the quartette on the second floor landing. The women were carried from the building and were treated by an ambulance which was called and smoke inhalation. So were their rescuers.

Then while firemen poured streams of water on the stairway, Firemen Barrett and Greenland made their way up the stairs to the second floor, where Steve Lee and the Miller woman, unconscious.

Lee's wife was found dead nearby. The firemen grabbed the injured Chinese and the Miller woman and carried them to the street. Lee died soon afterwards. Both Barrett and Greenland were painfully burned.

The damage from the fire will amount to \$100,000.

IN NEW BRUNSWICK, TOO

Spruce Bud Worm Attacks Wide Area of Maine Forests

Greenville, July 31.—Spruce forests in the Moosehead Lake region, all over northern and eastern Maine as well as seriously menaced by the little grey or brown bug, known as the spruce bud moth, which now infests this section in great numbers.

The pests have spread eastward and cover a large portion of the forests of New Brunswick, as well as Maine. They attack spruce, fir and hemlock trees impartially.

Great areas of these trees in this vicinity appear as though their tops had been searched. The injury is caused by the insects. The damage this season is far more serious and of a much greater extent than is usual in Maine.

GREAT NUMBERS OF LITTLE ONES ARE DYING IN MONTREAL

Montreal, July 30.—The unremitting efforts of the city's medical health authorities to bring about a reduction in the infant death rate, which, mounting steadily week after week reached a climax two weeks ago with a total of 214 for seven days out of a total death list of 321, appears to be at last showing some results. Last week's figures, indicate that the percentage has fallen from 71.2 per cent. to approximately 61.7 per cent.

There were recorded altogether from midnight Sunday, July 29, and midnight on Sunday night, a total of 273 deaths. Of these 189 were of children under five years of age, and of the 189 deaths no fewer than 150 were of infants less than one year old. A majority of the deaths of little ones took place in the east and southwestern districts of the city, though every ward, north and south, east and west, added its quota to the list.

Nearly 3,000 in Seven Months If the weekly death lists seem large, that for the year 1913, so far as it has progressed, is astounding for, according to records kept in the office of Dr. J. Laberge, M. D., chief of the city's Contagious Disease Department, there have occurred in Montreal since January 1 last, 2,883 deaths of children under five years of age, very nearly one-half of the 6,298 deaths recorded during the whole period.

In other words, the half year's figures show that out of every hundred citizens who have died in Montreal since January 1 last forty-five were children who had not reached their fifth year.

This percentage, Dr. Louis Laberge, city health officer, pointed out is by far the highest of any city in Canada, and far higher than that of many American cities less well off as regards situation than Montreal.

For a radius of one hundred miles from the city, milk inspectors are out reporting on conditions under which Montreal gets its daily supply of milk.

TRANSPORTATION MEN TO ORGANIZE FOR WAR All Drivers of Vehicles in London May Join Fighting Union

London, July 31.—There is a big scheme afoot here to form a fighting union of taxicab drivers, street car men, bus men, and all drivers of vehicles in order to prevent "scabbing" when the railwaymen or members of other passenger-conveying organizations are on strike.

Six of the largest trades unions, with a membership of more than 100,000 have approved of the scheme, which will be elaborated still further at a conference at Manchester in September. When the scheme has been completed the unions will be able to tie up the entire passenger traffic of England.

WHAT DOES IT MEAN? In its largest type the Standard this morning, in its headlines on the first page, says: "Orange Grand Master scores the Liberals." This announcement, made with great joy, is based on a despatch to the effect that the Grand Master of the Grand Black Chapter in his official address described the rejection of the Borden naval policy as a "subversion of the great national movement to party ends, an amazing misconception of duty, and a stupid political blunder."

Has all this been changed? Is the Orange order to become a Conservative institution? The Canadian Baptist not long since practically asked this question, in an article in which it pointed out that at the time of the Eucharistic Congress in Montreal an outcry was raised because members of the militia marched in a procession. It was also said that the same thing occurred every year at the Corpus Christi processions in the same city. On this point the Canadian Baptist said: "Since that time we have had a change of government. The Minister of Militia is now an Orangeman, and if there was any force in the Orange protest against what was done with the troops in Montreal two years ago last September, there is equal force against what happened in Montreal on May 25th of this year, when the annual Corpus Christi procession took place. The Sixty-fifth Regiment on that day paraded to the number of about five hundred, and the men wore side arms and carried rifles. The officers carried swords. The Regiment was taken to the steps of the local University and there the Sixty-fifth presented arms as the Host was elevated. Now this is the second time that this has happened under the rule of Col. the Hon. Sam Hughes, Minister of Militia, although he has only to say the word and have it stopped. If the Orange protest against the use of troops at the Eucharistic Congress was sincere, that same protest should still be made. Either what happened at Montreal on May 25th last was perfectly proper, or what we have above described was improper, and in that case it should be stopped at once. We are aware that the troops in Toronto go to church together and no principle is violated. That, however, is very different from their acting as an escort and presenting arms to the Host. However, if Colonel Hughes says that this is all right, we shall have to accept his ruling. In that case, however, the protest against the Eucharistic Congress was improperly made, and the Catholics were perfectly right. But it is an attitude like this that makes it hard for some of us to defend the Orange order as chiefly a political organization, and that when anything can be made to embarrass a Liberal Premier it is heartily welcomed, but if it will embarrass an Orange Minister of Militia it is passed over in silence."

It would be unfortunate if an order which claims to be entirely non-political should assume a partisan attitude, since it would only add greater bitterness to the political controversies of the time, and would introduce a element of religious strife which could only be deplored by every citizen who really has at heart the welfare of his country.

THERE IS MONEY IN IT It is good news that the provincial department of agriculture is ready to lend its aid in urging more general attention to the cultivation of alfalfa in New Brunswick. The interest which Mr. H. G. Sears has shown in the question has had a good effect. Much has been said and written on the subject, and actual experiments have been made showing that alfalfa can be cultivated successfully in this province; but not until yesterday was an announcement made that the provincial department of agriculture was prepared to take an active part in encouraging this branch of farming.

Dairy Superintendent MacDougall deserves great credit for what he has done to demonstrate the fact that alfalfa will flourish in this province and that it will ripen and its seed germinate as well here as in other countries. No better point could therefore be made than that of Mr. MacDougall to supervise the planting of plots of alfalfa in various parts of the province, and to oversee them from time to time, and give information to the farmers generally concerning this most valuable of all fodder crops.

Alfalfa culture on a large scale would make it unnecessary for New Brunswick farmers to import so much feed from the western provinces. Alfalfa is a food for cattle, hogs and poultry, which has a very high food value, and which does not impoverish, but benefits the soil in which it is cultivated.

As in most other things New Brunswick in this matter is lagging behind other provinces and other countries. The people and the government of New Brunswick appear to be content to let others make all the experiments, and secure the advantage which comes from an early start, while they bring up the rear in a leisurely fashion. It may be hoped that the action to be taken in connection with alfalfa will be heartily supported by the farmers throughout the province, and it would probably be found that great benefit would result from the organization of alfalfa clubs, such as have been organized in many places, introducing in that way the principle of co-operation, which has proved so beneficial to farmers wherever and whenever it has been adopted.

BIRTHDAYS OF NOTABILITIES

THURSDAY, JULY 31 Lieut.-Colonel T. G. Roddick, M.D., Montreal, was born at Harbor Grace, Nfld., sixty-seven years ago today. He entered general practice in Montreal in 1874 and has since occupied a prominent place in medical circles in the city. He has served as president of the British Medical Association, being the first colonial to hold the office, was for some years dean of the medical faculty of McGill and has sat in parliament as M. P. for Montreal West.

LIGHTER VEIN The Englishman had been boasting about the way they did things across the pond. Then the New Englander thought he'd have a whack. "Talked about justice being meted out quickly," he said, "only yesterday an Irishman over here fell out of his aeroplane and he was tried and sentenced to six months in jail before he hit the ground."

The little girl had been so naughty that it was decided that she should not be allowed to attend the party to which she and her sister had been invited. On the day of the festivity the mother called in person to pick up her offending daughter and bring her home again. "Well," she asked, "and did you explain to Mrs. B.—how naughty Betty had been and how I kept her at home to punish her?" "O, no, mamma," came the answer; "I didn't think that 'ud do. I just said she'd gone to a much better party."

This series which will be shown again tonight, consists of two strong western features, an hilarious rough and tumble picture and an extraordinary educational film. On the Death of General Sherman, the two clever stories of western life clearly drawn out in the photo play. The run-away Elephant keeps the house in an uproar for about fifteen minutes. This film is one of Father's wonder pictures and a strong comedy feature.

CHARGED WITH WEAKENING ROPES ON BRIDGE WORK

Whitby Man Arrested at Instance of Hamilton Bridge Company—Held Without Bail. Whitby, Ont., July 30—Charged with an unlawful act in injuring a certain rope used by the Hamilton Bridge Co. in the construction of a bridge on the Canadian Pacific railway, Stead Gamble, known as "Teddy" Gamble, was arraigned before Police Magistrate Harper today and was remanded till Tuesday next to come before Magistrate Jeppson of Pickering township, in whose jurisdiction the offence is alleged to have been committed. Neither Hartley Dewart, whom Gamble announced as his counsel, or J. L. Patterson, his bondsman, appeared. Gamble demanded that bail be set, but it will be awarded only on condition that a higher court judge is willing to grant it. "The offence is more than it appears on the information," said Colonel Farewell, crown attorney for York county. "It is a charge of such an unusual nature that I would not care to take the responsibility of settling the amount. It is a charge, namely, of weakening ropes so that the lives of men were in danger."

VINCENT ASTOR WILL MAKE HIS FARM A UTOPIA Plans an "Ideal Democracy" for His 1,000 Employees at Ferncliffe. New York, July 31—Vincent Astor is planning to transform his magnificent estate at Rhinebeck into a modern Utopia as far as conditions of labor are concerned. As the first step in what the young man terms "industrial democracy," he before sailing on the Nons, he conferred with many of the 1,000 men, women and children employed at the forest position. "I desire to get into the closest possible touch with every department on the place," was his message to them. "If you have any complaint or suggestion to make to me personally each Saturday morning, I will see you and talk to you as man to man and not as employer to employee. In the last few months Mr. Astor has gradually raised wages until the payroll at Ferncliffe shows an increase of approximately \$100,000 a year. He has also decided to retire old employees on pensions after a certain term of service. Ferncliffe under the present management is really a self-supporting municipality of over 3,000 acres. Mr. Astor carries that hypothesis to its logical conclusion in these words: "It is my duty to show my gratitude by taking an interest in great public movements and in every way to attempt to aid mankind." He has determined in a measure to break down the barriers invariably raised between master and men. He has developed a passion, too, for exact first-hand knowledge of conditions as they really are. He has determined also to avoid the weaker things of life, and among these is included "Too much society." Despite his constantly multiplying duties the young man finds time to read on a variety of subjects. He is already fairly well versed upon the history of the relations of capital and labor, and although strongly inclined against it, both by heredity and environment, he is going a bit into true Socialism. He is inclined to the belief that a great many of the ills that have had their genesis in the capitalistic system can be cured by the individual capitalist. And it is upon this theory that he has inaugurated these weekly conferences with his employees.

THIEF GETS GEMS
 WORTH \$75,000

Stolen From Home of Daughter
 of E. H. Harriman

MAGNIFICENT ROPE OF PEARLS

This Alone Was Worth \$60,000
 —Robbery in Narragansett Pier
 Residence of Mrs. C. C. Rumsey — Taken From Unlocked
 Drawer of Bureau

New York, July 31—It has become known that a jewelry valued at \$75,000, including a rope of pearls worth \$60,000, were stolen from the home of C. C. Rumsey at Narragansett Pier during the twenty-four years ended on Sunday night. Mrs. Rumsey was a daughter of the late E. H. Harriman.

The rope of pearls was given to Mrs. Rumsey by her mother, and had a sentimental value far in excess of its intrinsic worth.

Other jewels stolen, according to a statement issued at the office of the Harriman estate in this city, include the following:
 Ruby and pearl pendant.
 Gold pin set with magnificent ruby solitaire.
 Diamond brooch.
 Gold mesh bag.

Mrs. Rumsey's house was entered some time between 8 o'clock on Saturday night and the same hour on Sunday. Only the contents of one room, that usually occupied by Mrs. Rumsey, were disturbed. The thief entered the house is not announced.

Mr. Tegethoff, secretary to the late E. H. Harriman, said that private detectives were working on the case and probably would handle it independently of the police.

Mrs. Rumsey is now at her home at Narragansett Pier.
 "Seventy thousand dollars is a conservative estimate of the value of the jewels which were stolen," Mr. Tegethoff said. "The rope of pearls was, of course, the most valuable article taken. I should not like to state the individual values of the other articles stolen, but I appraised them myself and have had them in my hands many a time."

Mrs. Rumsey was a favorite daughter of the late financier and was made an executrix of his will. A month after her father's death she took personal charge of the operation of his estate at Arden. She made her debut in 1905 and was married to Charles Cary Rumsey of Buffalo, at Arden, May 26, 1910.

The house showed no signs of breaking and entering. The fact that the thief apparently went straight to the room where the jewels were kept indicated that the robbery was committed by some one who possessed or had lately acquired a familiar knowledge of the premises. Mr. Tegethoff said, however, that none of the servants was suspected.

Five servants were in the premises at the time the robbery was committed. The thief had been looking over the ground in preparation for the crime.

The robbery offered no difficulty even to an amateur thief, because Mrs. Rumsey kept her jewels in their cases in two pasteboard boxes in an unlocked drawer of her bureau, and the doors and windows of the house were customarily left unfastened both day and night.

The rope of pearls contained 180 graduated gems. Part of these had been bought from a New York jeweler before Mrs. Rumsey's wedding, for \$85,000; the rest were taken from the jewel cases of Mrs. Harriman, who had them put together and gave them to her daughter as a wedding present. The largest of the pearls weighed 21 grains.

Mr. Tegethoff said he believed the thief would try to dispose of these pearls separately. The value of the pearl and ruby pendant was roughly estimated by Mr. Tegethoff at \$5,000. The ruby bar pin was worth about \$5,000, he said, the diamond brooch \$2,000 and the gold mesh bag, which was set with diamonds and sapphires, \$1,200.

GEOLOGISTS SPENT PLEASANT AND PROFITABLE DAY

The delegates to the World's Geological Congress, who arrived in St. John yesterday morning spent a busy day here and left last night, by their special train, for Woodstock, Grand Falls and Edmundston, whence they will proceed via River du Loup to Ottawa.
 Special cars were provided at 2:15 to take the geologists to the Suspension Bridge where an hour was spent examining strata on both sides of the water and viewing the falls. Two more special cars then brought the party to Seaside Park where they made straight for the beach, heading towards Duck Cove where they expected to find plant remains which they sought in vain for more than an hour. A few members of the party refreshed themselves by taking a plunge in the water which was very inviting considering the great heat and the morning's exertions.
 Through the courtesy of D. R. Jack of his house to the party, dainty refreshments were provided by the city, between 8 and 9 o'clock, Mrs. J. H. Frink, Mrs. Powell and many other ladies serving the visitors. The band of the 62nd regiment was in attendance and added gaiety to the scene.
 The evening reception proved one of the most successful features of the day, many specimens being made after the visitors had examined the exhibits of geological specimens belonging to the society which are all arranged so that the geologists could review the ground covered during the day. Many ladies were invited to meet the members of the congress and the evening's entertainment, apart from geological interests was an enjoyable social function.
 Professor William McIntosh, curator of the Natural History Society rooms introduced the speakers. On behalf of the society Dr. Matthew welcomed the visitors and Lieutenant-Governor Wood followed him in welcoming them to the province of New Brunswick. He referred to the natural resources of the province, saying that the visit of the geologists would be serviceable in drawing general attention to these. His Worship the Mayor made a speech of welcome on behalf of the city.
 Members of the congress then responded in four different languages, English, French, German and Japanese. The names of the speakers follow: Dr. Geo. Church, of Hamburg; H. M. Cadell, of Lintilhaw, Scotland; Dr. A. C. Lawson, of Berkeley University, California; P. M. Terrier, Paris, and Chutaro Kido, Kanto, Manchuria.
 After the reception the members of the congress returned to their train at the Union depot.

In Memory of W. T. Stead
Boston, July 31—Wreaths fashioned by members of the family of William T. Stead, London editor and author, who was lost in the Titanic wreck, were cast into the sea from the deck of the Cunard liner Franconia as that vessel lay with engines stalled, over the grave of the Titanic last Sunday afternoon. Fifteen hundred men and women stood with bowed heads during the ceremony, while the ship's band played "Nearer My God To Thee."

GAME POSTPONED
The game between the Fairville Crescents and the West End Imperials, which has caused such commotion, will not take place on next Saturday night but on the following Saturday, August 9.

SEASICKNESS
TRANSICKNESS
Prevented—Stopped

MOTHERS' MILK, after thorough tests, is now officially adopted by practically all the Great Lakes and New York Steamship Companies running south, and many Transatlantic Lines.

Four years ago Mr. Motherly gave a personal demonstration of his remedy on the English Channel, Irish Sea, and the Baltic, and received universal approval from leading papers and such people as Bishop Taylor Smith, Lord Northbrook, and other distinguished men and professional men. Letters from persons of international renown—people we all know—testify to the fact that his remedy is a most valuable one, and is contained in an attractive booklet, which will be sent free upon receipt of your name and address.

MOTHERS' MILK is guaranteed not to contain cocaine, morphine, opium, chloroform, or any other harmful substance, and is sufficient for twenty-four hours. It is best for a Transatlantic voyage. Non-drowsy keeps Motherly's milk clean, sweet, and fresh. If you have any trouble getting the genuine, send direct to the Motherly Remedies Co., 47 Scherer Bldg., Detroit, Mich. Also at 18 St. Brice St., London, Montreal, New York, Paris, Milan, Hamburg.

Wall Street Notes
New York, July 31—Americans in London steady, mostly 4 1/2 to 4 3/4 higher. Bank of England rate unchanged, 5 per cent. 7 1/2 unchanged.

Washington does not think McAdoo has any proof of his charges against the bank. President said to be displeased. N. Y. C. expected to buy 150,000 tons rail steel.

Southern Pacific will ask for mediation in their trainmen's strike.

Cons. Gas directors meet today.

Atchafalca sells N. D. 1 1/2 today.

The buying from abroad is still largely speculative. Reports are coming to the financial district that Canada will need considerable money to move her crops.

Trade balance is against the dominion and this condition is likely to prevail until shipments of grain are made in volume.

In the Stock Market the trading element on the floor has been working for a reaction for some time and with the sentiment that a reaction was overdue gaining ground, a situation has been created which gives more weight to unfavorable news than to favorable news. Today's market likely to be irregular and a trading market seems likely for a while. Steel would sell higher, but for the government suit.

BRITISH WOMEN GOLFERS TO PLAY IN CANADA
New York, July 31—It is reported that definite assurance has been received that Miss Gladys Havercroft, champion among the women golfers of Great Britain last year, and Miss Muriel Dodd, who recently won the title, will visit America this year. They plan to go to Canada first to compete in the championships there and then to come on to New York for some local tournaments and then proceed to Wilmington, Del., for the women's championship of the United States.

Potato Return

In the row below him, on the left, is Major Chambers, usher of the Black Rod, and secretary of the Canadian branch of the association; next to him, to the right, is Sir Stephen Collins, Donald McMaster, Stuart Wortley, Lord Emmet, Hon. George Perley, Col. Sir Everett Carlyle, Lord Sheffield, Miss Roche, daughter of the minister of the interior, and Howard D'Épville, honorary secretary. Third from the left in the front row is Lady Emmott. Third from the right is Miss Pirie, and on the right, Hon. Dr. Roche, minister of the interior.

Port Arthur, Ont., July 31—The British parliamentarians who arrived here Wednesday, were guests of J. J. Carrick, M. P. After a yacht trip round the Twin City harbors, they expressed astonishment at the developments. Lords Emmet and Sheffield, Messrs. Pirie, Greenwood and Crooks equipped specially into the capacity of the elevators and facilities for handling the crops.

THIRD DIVORCE IN THIS MATRIMONIAL TANGLE

London, July 31—The third of a series of divorces in the matrimonial tangle resulting from the relations of Hugo Ames and Mrs. Wilson, which was announced yesterday, was granted to Charles R. Wilson. According to the evidence in the suit, which was undefended, the Wilsons lived together for eleven years and had one child. Mrs. Wilson left her husband in 1908 and in 1910, she filed a petition for divorce on the grounds of desertion and misconduct, which was dismissed. Ames had gone to America, obtained a divorce from his wife in Idaho, and married Mrs. Wilson, who won a decree in Los Angeles. Mrs. Ames brought suit for divorce on the grounds of desertion and misconduct, which was dismissed. Conference Here Re Refinery; Statement of Building Plans

An important conference regarding the construction of the plant for the Atlantic Sugar Refineries, Ltd. is being held here today. F. H. Anson, president of the refineries company; Hewie Holgate, consulting engineer; E. Remington, president of the Foundation Company, which is building the foundations for the buildings; E. G. M. Cape, who has the contract for the superstructure; J. A. Grant, the latter's superintendent; and Mr. Grant, the designing engineer, were in the city at noon today.

An inspection of the work which has been completed, will be made and arrangements for continuing the work will be discussed. It is understood that there are some changes to be made in the original plans and these will be considered also.

The foundations for four of the buildings have been practically completed and the work of erecting the structures will be commenced immediately on the arrival of the structural steel which has been ordered and is now on the way. The progress of the work, which other buildings will be proceeded with as soon as they are complete the buildings will be erected on them also.

Mr. Cape, the contractor for the superstructure, said this morning that it will be their policy to employ local labor to as great an extent as possible. They expect to have the steel work for the first four buildings completed by Christmas time and the balance of the work on these buildings completed within a few months. The other buildings will take a few more months but everything should be ready in less than a year.

The progress of the work, which other buildings will be proceeded with as soon as they are complete the buildings will be erected on them also.

SAYS CHATHAM WILL HAVE FINE EXHIBITION

R. A. Lawlor, in City Today, Talks of Matters on The North Shore

"We are going to have a fine exhibition in Chatham this year," said R. A. Lawlor of Chatham, who is at the Royal today. "The prizes we are offering will be the largest ever put up in the maritime provinces. In the horse races, for the free-for-all alone, there will be a purse of \$1,000.

"The Chatham track, as you know is the fastest in the maritime provinces and we intend to add to the interest of the races this year by offering an additional \$200 to any horse which makes a new record.

"The exhibition this year will be held on September 24-26, which is about two weeks later than usual. We think that this is a wise step as the season of the North Shore has hitherto been backward. Now, however, the different crops are doing splendidly. The summer season has been a very successful one. The salmon catch has been large and the mackerel have been exceptionally plentiful. CITY AND THE COAL

The coal situation engaged the attention of the city commissioners this morning. They had expected to open tenders for coal supplies for the various city departments but no tenders were received. An inquiry made by the commissioners at the offices of R. P. & W. Starr, Ltd., electric informants, that this price could not supply coal at the usual prices paid by the city except at a loss of 40 cent a ton.

Mr. Starr explained that there is a very heavy demand for coal at present owing to the report that there will be an advance of fifty cents at the first of next month for which, he said, there is no foundation. At present coal can be secured in New York in any quantity for which the purchaser can furnish vessels for transportation but no orders are being taken for future shipments.

POOR RIVER SERVICE

Complaint is made by patrons of the steamers on the river that the latter do not always stop for passengers when signaled. On Monday of this week more than twenty persons were on the wharf at Public Landing ready to take an afternoon steamer for St. John. The Victoria and the May Queen came along and they were put to great inconvenience. One of the things that is greatly needed is a satisfactory steamer service on the St. John River.

Complaints of game law violations by navvies in the parish of Dunferries have been hushed for here.

It is said they proved about the woods with firearms on Sunday and shoot all kinds of games; also use dynamite on the lakes and streams.

TREAT FOR GEM PATRONS

The Gem patrons last evening were given an unusual treat in an excellent programme, the feature of which was the exceptionally strong Lubin drama, "A Hero Among Men," a two-part picture story full of stirring passages and cleverly enacted.

The story tells of the troubles between an employer and his workmen on the wages question. The hero, Harry Londers, is accountant for the Imperial Arms Co., and is in love with the president's daughter, Ethel Menton, who is secretly engaged to the secretary of the concern, Martin Bently. During the trouble with the men, the watchman of the factory, while intoxicated, accidentally drops a lighted cigarette among some explosives, near where a large amount of powder is piled, endangering the lives of Mr. Menton and his daughter, who are in the building. Harry carries Menton, who has swooned, from the building, directing Bently to save the girl, but she, in a paroxysm of fear, rushes out, and is knocked down by a horse in charge of a young man who was enjoying a drive with a young lady. Mr. McNally was assisted to his home and Dr. E. Berryman summoned. He found it necessary to take several stitches in a wound in his head.

The Bombardier and Carpentier Again

FROM T. E. ANDREWS

Milwaukee, July 29.—For a fighter who has been knocked out so many times Bombardier Wells, the British heavyweight champion, has had more opportunities to "make good" than any man in the business. Wells has taken the count from Moir, Palmer, Smith and Carpentier in short order each time, but he has always had the chance to come back again. He is a wonderfully clever boxer for a big man but he lacks the stamina, having a very weak stomach. Just about the time he should be putting his man away he leads over himself from the body blows that even a middleweight would stand up under. In all his fights he has had all the best of them until that one body blow when he seemed to collapse, and then it was all over but the shouting for the other man.

After his knockout by Carpentier the Bombardier sought a match in London and was sent against the Irish champion Packey Maloney, whom he defeated in 16 rounds. It was no great showing, but it served to bring Wells back into the limelight, and now he is to be matched again with Carpentier. Should he be lucky enough to turn the tables on the Frenchman, which is not at all impossible, it will bring him right back to the top rung again and he will be a candidate for a match with Gunboat Smith or Al Palmer, or still better, Felix Wells is a great boxer and has a hard wallop, as he has proven on numerous occasions, but that weak stomach spoils all for him. Some of these days the Bombardier will have his stomach made over or strengthened and then he will be a great fighter.

Box score for Frederiction vs St. Croix. Columns for AB, R, H, PO, A, E.

By innings— Home runs: Reed, Dolan, Williams, 1. Base on balls, by Williams, 4. Sacrifice hits, Dutton, Gibbs, Wakefield, Waterhouse. Stolen bases, Tewhey.

WHEN YOU'RE RUN DOWN GO TO THE SEASIDE!

CHEERY MESSAGE IS RECEIVED FROM PITCHER GOOMBS

(Bangor Commercial) Here is a message of assurance from John W. Coombs, the great pitcher of the Athletic baseball club, now at Kennebunk: "I expect to be in Philadelphia on or about Aug. 1. I never felt better in my life or had a stronger desire to resume pitching, and it is only a question of a little patience before I will be back in the game. All I need now is strength, which is fast returning to me. As a matter of fact I can see a gradual increase in my strength every day, and by Aug. 1, less than a week off, I expect to have nearly my normal strength, but it may require another fortnight to develop my pitching stamina." Such is the optimistic statement of John Wesley Coombs, the "Iron Man" of Mgr. Mack's pitching corps. Coombs' appearance is strong corroboration of his statement. Brown as an Indian from exposure in the field, he never looked the typical athlete more than when the writer approached him, raking hay in a field adjoining his home. Except for loss of hair, Coombs' appearance gives no indication of an almost fatal attack of typhoid fever. His eye is bright, his skin ruddy under his rich tan, step elastic and quick, and he weighs 180 pounds within five pounds of his normal weight. Mr. Coombs, accompanied by his wife, reached his country home on June 25. Immediately following his convalescence and prior to his arrival at Kennebunk, he spent two weeks at Atlantic City. Coombs was only a shadow of his usually robust physique when he left a sick bed, weighing only 128 pounds. His two weeks' sojourn at the city by the sea increased his weight 15 pounds, but his tissue increment since coming here has been almost incredible. When Mr. and Mrs. Coombs, Sr., greeted Jack on his arrival here they could hardly believe he was their son. On the 25th day of June he balanced the scales at 188 pounds. Today he weighs 180, an addition of 27 pounds in one month, or a trifle less than one pound per day.

GRETTED CLOCK WINDER AS CANADIAN DIGNITARY

Anecdote of Charles S. Hamlin as Former Treasury Department Official Recalled

Washington, July 31.—The nomination of Chas. S. Hamlin of Boston to be assistant secretary of the treasury, recalled to old treasury employes, a humorous incident that occurred when Mr. Hamlin occupied the same position during the Cleveland administration. This is the reminiscence story: The minister of finance of Canada came to Washington to discuss customs matters and Secretary of the Treasury, Cullum, notified Mr. Hamlin, who had charge of customs questions, that the minister was in the treasury department and would call upon him. In a few minutes a man of distinguished bearing, with flowing side whiskers and trimly dressed in a frock coat, entered the assistant secretary's office. "Mr. Hamlin greeted him effusively in a manner becoming the dignity of a foreign cabinet officer. They clasped hands and each bowed in courtly fashion. The greetings continued at the bowing stage until the treasury official discovered his visitor was deaf. Then he yelled his words of welcome, and the stranger, who seemed non-plussed, suddenly swung his free hand from behind his back and presented a salad fork with the exclamation, "Don't you think I made a good job of it?" The visitor of aristocratic mien was found to be the official clock winder of the treasury department who had repaired the clock for Mr. Hamlin's private secretary. Mr. Hamlin had to repeat his performance when the real minister arrived.

SOUTHERN PACIFIC FACES BIG STRIKE

Ninety-six Per Cent of Trainmen on Pacific Division Vote To Quit

San Francisco, July 30.—Ninety-six per cent of the trainmen and conductors employed on the Pacific division of the Southern Pacific system have voted to strike unless their differences with the management over the terms of employment rating and seniority allowed on the company's electric lines can be adjusted. The result of the vote, which stands 2,816 in favor of striking to 187 against, was made public here tonight.

The grand officers and the joint general committee of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Engineers, feeling that their interests are vitally wrapped up in the same conditions which face the conductors and trainmen, are now on their way to San Francisco to take up the problem from their viewpoint, and will arrive Friday night or Saturday morning.

The Chicago Police Department is trying out a substitute for the crossing policeman's whistle. The invention consists of a pole about ten feet long at the top of which are two signs at right angles to each other. On the front and back of one sign is the word "Go" and on the other "Stop." The officers turn the sign at will, thus signalling the traffic on one side to go ahead or to halt.

TIPS ARE EXPENSIVE TO GIVE OR RECEIVE

St. Louis, July 31.—The City Council Monday night passed a bill making it a misdemeanor to give or receive a tip in a hotel or restaurant. A fine of from \$10 to \$50 may be levied for each offence. Half of the fine is to be given to the police informant of violation of the anti-tipping ordinance. The measure was passed without opposition following a public hearing, in which scores of waiters attributed the local hotel employees' strike to low wages resulting from the tipping practice.

GRAFT IN STREET WORK IN MONTREAL

That is Charge Made by Italian Laborers
FOREMEN ARE ACCUSED

Among Other Things, Say They Had to Buy Liquor Sold Illegally by Employers in Order to Retain Their Jobs

Montreal, July 31.—That they were forced not only to pay tribute money to foremen in order to hold their positions in the city roads department, but obliged also to buy liquor in unlicensed houses operated, they say, by the same foremen, are declarations made by Italian laborers in the city's employ.

A Blumenthal, who laid three affidavits from Italian laborers before the board of control, alleging graft in the civic roads department, asserted that even more startling charges would be made. "I have here," the alderman said, "the names of six laborers who have promised me faithfully that they will come up to my office and sign me affidavits charging graft against their foremen."

"I think I have succeeded in assuring them that they have nothing to fear, 'Black Hand' or no 'Black Hand,' and they have agreed to come.

"These men have told me that not only did they have to buy \$2 a week after to keep them, but that they were obliged to buy their liquor supplies from one or two foremen. If they did not want to, their names would be removed from the pay lists."

"I have been further informed that these foremen are robbing the city, for, in taking graft, or 'tribute' from the laborers under them, they promise the payers that they shall be paid an hour's overtime each day."

"Then again, I have been informed by an ex-alderman of the council who takes note of these things that the men and the foremen with them, lost on the job and that for half a day they do nothing but sit round their jobs talking and smoking, and neglecting the city's work."

"In this manner, time and over time is being paid out by the city, the foremen are getting their slice and the men are getting their share in extra pay and an easy time."

"The board of control only has to start an investigation to corroborate the truth of what I say."

Petrocelli, a foreman employed by the city of Montreal was arrested yesterday charged with obtaining money under false pretenses by compelling laborers to pay for their jobs. When searched \$75 was found on the prisoner and a book showing receipts amounting to \$1,000. Other arrests are likely to follow.

MUSTACHE WAS CURED
Kansas City Mother Shrewdly Treats Her Eldliest Son

"Ralph, you forgot to shave your upper lip," said the mother to the oldest son of a South Side family as he came into the dining room. Of all unkind cuts! For three weeks Ralph had raved the few small blond hairs on his upper lip, hoping to make a mustache of them. Secretly, of late, he had doubted his success, but he had not lost hope.

Now his mother believed he merely had forgotten to shave. Half unconscious, Ralph made a sweeping gesture with his left hand. The thumb and second finger parted just below his nose and stroked gently each way. A titter ran around the table where the three younger brothers and the sister had already assembled.

"Why," Ralph, you are not going to stammer the mother.

"Sure," broke in the son, happy that she was at last beginning to realize what he intended to do. "Everybody's growing them nowadays."

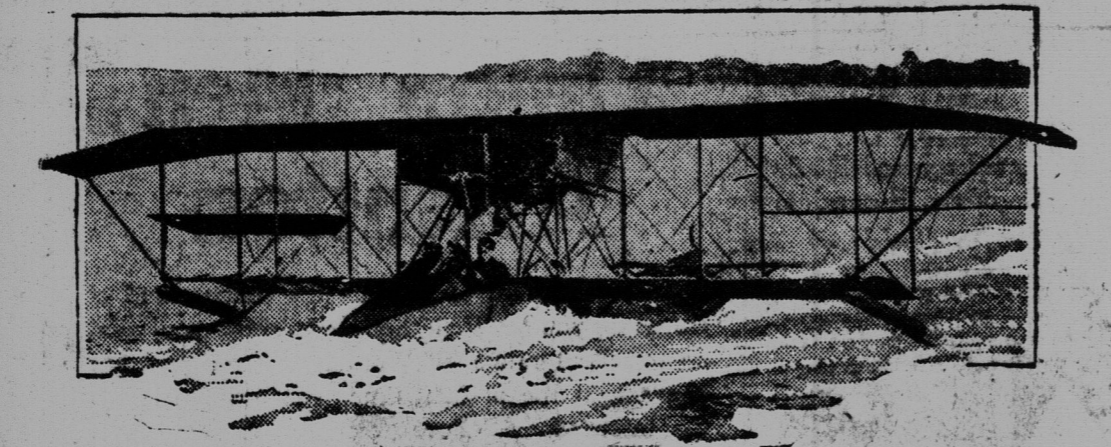

But the titter about the table continued, and the glowering of the eldest son of the house, Ralph, did not stop. His mother left the table and went to the kitchen. The younger sons winked at the daughter and stroked their upper lips. The mother returned, followed by the maid with the coffee.

Ralph seized the cup set before him and raised it to his lips. His upper lip struck something unfamiliar and he lowered the coffee. In his hand he held his father's old mustache cup.

After dinner the mother was passing Ralph's room. The door was open. In the mirror of the dresser she saw a lathered upper lip surrounded by a very red face. As she watched, a falling ring hand took a firm hold on a razor.—Kansas City Star.

The Rule Stands

August Herrmann, chairman of the National Baseball Commission, in discussing the "unwritten law" of calling a player out who slides into first base, which was upheld by President Thomas Livingston of the American Association says it is not only preposterous, but directly to the contrary to rule covering the point. "A player is allowed to reach any base by running, walking, jumping or in any other manner, as long as he remains within the lines prescribed," said Mr. Herrmann. "This is laid down in the rules of the game, and no umpire, president of a league, or anyone else, has any right to change this rule."

Another Johnson Record

When Walter Johnson of the Senators struck out 16 men in seven innings of last Friday's 15-inning game with the Browns, he accomplished a feat unexcelled by any pitcher of modern times. Johnson relieved a boxman and twirled with wonderful results. The American League knockout record for nine innings is 16 men, held jointly by Glade of the 1904 Browns and Waddell of the 1908 Browns. The world's record is 21 men, made by Charley Sweeney, of the 1884 Providence team.—New York Sun.

Chief Totes 31

"Chief" John Totes Meyers, the Indian backstop and diadem slugger of the New York Giants, celebrated his thirty-first birthday this week, that valiant redskin having been born in Riverside, Cal., on July 29, 1882.

Meyers, whose Indian name is Totes, is a full-blooded redskin, and a red-headed gentleman. He enjoyed better educational advantages than most pale-face youths, and his head is filled with lore and learning.

Peerless Leader Chance, and it also boasts of the fact that the "Chief" made his baseball debut in this city.

After leaving the Riverside High School the descendant of old Chief Quo-Qua set out to earn a living by "kicking a job press in a Fresno raisin packing house. On Saturday afternoons and Sundays he played ball, and soon earned a local reputation as a son of swat.

After spending some time in the Raisin in City, Meyers set out to see the world. He secured a job as interpreter in El Paso, Texas, and also held a similar position in Clifton, Ariz. When not engaged as acting as a verbal go-between, Meyers played ball, and his fame spread throughout the southwest. He was one of the stars in the baseball tournaments held annually at Albuquerque, N. M., and these met Rapsy Glass, later a big league pitcher, but then a Dartmouth student. Glass persuaded the chief to go to Dartmouth. He was not eligible to play on the college nine, and devoted himself to his studies, in many of which he excelled.

After leaving Dartmouth, Meyers joined the Harrisburg club of the Tri-state outlay league, and led the circuit in hitting. From the Pennsylvania capital he went to Butte, Mont., and thence to St. Paul. There his hitting attracted the attention of McGraw, and New York bought him for \$6,000. He started in with the Giants in 1908, and at Madrid set a record as a spring hitter by swatting the pill for twenty-nine home runs within a month.

Meyers is a stalwart, swarthy chap, with the typical Indian cast of countenance. He is a linguist of considerable ability, and speaks Spanish with all the fluency of a subject of King Alfonso.

Stop Benton's Salary

Cincinnati, July 31.—President Herrmann, of the Cincinnati Baseball team, said yesterday that Babe Benton, who was seriously injured, when his motor cycle collided with a street car would not be allowed one penny of his salary, and that the club would not stand any expense while he is at the hospital. Mr. Herrmann said he had repeatedly requested Benton not to ride his bike.

"The whole affair is an injustice to the club," said Mr. Herrmann. "The injury of Benton means that he will have to be absent for some time."

to get a pitcher or two and just now good pitchers are hard to get.

In an effort to pitch an in-curve in a baseball game at Westleigh, Staten Island, John Mitchell, 28 years old, star pitcher of the Orioles broke the bone of his arm close to the shoulder. Spectators of the game distinctly heard the sound of the fracture as the ball dropped from Mitchell's hand. The young pitcher had been putting across some fast balls before attempting the in-curve. Dr. Kazy Kingsley who set the broken limb, said the break was one of the cleanest he had ever seen.

Breaks Arm in Pitching

The St. Louis Cardinals made by far the best showing against the fast-traveling Giants, during the recent eastern trip of the western division of the National League.

Piek and Kroy, infielder and outfielder, have been purchased by Toronto from Terra Haute.

Two major league clubs, two American Association and one International League club have asked for options on Ed "Lefty" Rogers an Ottawa outfielder and pitcher who has been performing so sensationally both as a hitter, fielder and pitcher this season.

Marty O'Toole, pitcher of the Pittsburgh National League team, who recently had to undergo an operation for appendicitis, is able to be out.

Pittsburgh refuses to waive on Pitcher Kent, who has been sitting on the Toronto bench, and gets that player.

A MESSAGE FROM A WOMAN TO WOMEN

"Every Woman Should Take 'Fruit-a-fives'"

Lakelet, Ont., May 12th, 1911.
"Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the diseases I have had in the past, but am now, thank 'Fruit-a-fives,' completely cured of. It is my firm belief that every woman should take 'Fruit-a-fives' she wants to keep herself in good health."

Before taking 'Fruit-a-fives,' I was constantly troubled with what is commonly known as 'Nerves' or severe Nervousness. This Nervousness brought on the most violent attacks of Sick Headaches for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble for me and for which the Doctors said: 'I would have to take medicine all my life,' but 'Fruit-a-fives' banished all these troubles and now I am a well woman."

McLaughlin, United States champion; William Johnston, in the finals for the Longwood cup at Boston and John Strachan, winner of the National clay court championship at Omaha. This trio was graduated from the club which Mr. Marvin founded ten years ago and has directed since.

It was Marvin's idea that if, through constant tournament play, great accuracy could be combined with the speed developed on the asphalt courts of California, a series of champions would be produced. At the outset he engaged a professional to instruct his young charges and monthly tournaments for high-class trophies have stimulated interest in his club of youngsters.

"Mr. Marvin's boys," as they are known on the Pacific coast, develop championship caliber early. McLaughlin was only 18 when he was sent to Australia, as a member of the United States team of challengers for the Davis International trophy. Johnston, who eliminated such players as Touchard and Chittler and Longwood, on his invasion of the east and his first important competition on grass courts celebrated his 18th birthday only recently.

Fincham, the new clay court champion, is the same age.

Each year sees the advent of a new phenomenon in his club of youngsters. This year's development is Roland Roberts, aged 15, who came within one point of eliminating William Johnston from the Pacific coast championship. Other members of the club hold important titles throughout the western country.

Two Budding Pugilists

Washington, July 30.—Mrs. Catherine Shirier appeared before Commissioner Newman here to obtain a permit for a public boxing match between her two sons, Don and Quincy. The commissioner asked their ages.

"Don's 18 and Quincy's 11," answered Mrs. Shirier. "They've been boxing for six years. The boys are clever with their fists, and they've earned their own keep and that of their sister, too."

Much to Mrs. Shirier's surprise Commissioner Newman declined to issue the permit. He also made a few remarks about the tenderness of the ages of the two budding pugilists.

IS WORK A DRUDGERY?

If One Feels Driven to His Task He Hasn't Found His Place in Life
If your work is a burden, if it is drudgery to you, you have not found your place in life. If you are in the right place you will feel every faculty and function in you tugging away at your purpose with delight. Everything within you will give its consent, its approval, to your choice.

The mental attitude which we hold toward our work or our aim has everything to do with what we accomplish. If you go to your work like a slave lashed on his back and see in it only drudgery; if you work without hope, see no future in what you are doing beyond getting a bare living; if you see no light ahead, nothing but poverty, deprivation and hard work all your life; if you think that you are destined to such a hard life, you cannot expect to get anything else than that for which you look.

Everyone should go to his work with the same eager spirit as the great master approaches his canvas—with his

soul, led by a great longing and heart hunger, an all-absorbing eagerness to transpire to the canvas the mighty picture which is consuming his soul. If you approach your work as though it were a burden which you would gladly get rid of if you could, and do it merely from a sense of duty, you will continue to be a nobody in the world. HEARING CONTINUED

Hearing in the case of McCrackin vs. Smith was continued before Mr. Justice White this morning. Ernest Taylor and Luther Smith were examined. The case is going on this afternoon. Geo. H. V. Belyea appears for the plaintiff, and J. B. M. Baxter, K.C., and E. P. Raymond for the defendants.

REPORTS NAMESAKE

Police Sergeant Finley has reported H. J. Finley, representing the Dominion Bridge Co., for doing business in the city without a license. The following have also been reported for the same cause: O. Christian, D. Wilson, A. T. Beaulieu, A. Bruiert, O. Bruiert, W. Gagnon, W. Lesite, P. Letalia.

COLLISION MATTER

Motorman Allan Webb, who was driving the street car which ran into John M. Jenkins' team, appeared in court again this morning. Mr. Jenkins told of the accident and said he did not wish to prosecute. The magistrate suggested that the matter be settled out of court; otherwise it would be dealt with on Monday.

POLICE COURT

"So you gave up your job to come to St. John and get another did you," asked Magistrate Hiltche of John Haggerty, who was before him this morning charged with drunkenness. "How did you expect to get along until you got another job; like the birds of the air but not so innocently I suppose." Two others, one a woman whose husband was already in jail, were remanded.

MRS. MICHAEL HARRIGAN DEAD

At an early hour this morning Catherine, wife of Michael Harrigan, died at her residence, 80 Brussels street. Mrs. Harrigan, who was in her ninety-second year, was a life long resident of St. John, and was a daughter of the late Peter Cleary of the North End. The funeral will be held on Saturday morning at the Cathedral of the Immaculate Conception, where requiem high mass will be celebrated.

TENDER FOR GRAIN CONVEYORS \$133,000

Ottawa Reports Metcalf Company's Figures—Matter Before Council

It was announced some time ago that the public works department at Ottawa had asked for estimates of the cost of grain conveyors at steamship berths Nos. 6, 7 and 8. The latest information received came in reply to a telegram from Percy W. Thomson, chairman of the traffic bureau of the board of trade. It came in the form of a telegram from J. B. Hunter, deputy minister of public works and said:

"Tender of Metcalf Company for grain conveyors to berths at the cost of \$133,000 round figures. Matter before council for consideration."

DON'T LET HORSES DAMAGE THE TREES

James Mabce, who had been reported for allowing his horse to damage some ornamental trees in Elliott row, was in the police court this morning. He apparently doubted whether the person who saw his horse at the tree could be witness as he had seen the act through a glass window. "Where did you get that freckle law," asked his honor. "That was a law of the aboriginal Indians of the Northwest. But to be serious this damaging of ornamental trees has to stop. Several fine trees already been here for that very thing and I'm looking for a fellow with whiskers whose horse ate at the maple tree in front of my house and if I find him I don't think the fine will stand." Mabce was fined \$20 but the fine was allowed to stand.

UNION STREET PAVING

The attention which the city authorities have been directing to the streets in the central portion of the city is now to be turned on Union street. It is the intention to pave it by the same way as Charlotte street has been done. The section to be dealt with is that between Sydney and the streets. The old wooden blocks with which the street is now paved have been doing service for a long time and there are now many rats which make difficult hauling. The wooden blocks will be removed and a layer of concrete seven inches thick will be placed. This will be covered with a thick coating of tar. In the centre of the street, between the car tracks, Bessemer blocks will be placed; these are at present being piled near the corner of Union and Charlotte.

A. R. C. Clark & Son, who are also doing the work on the north side of King Square, have the contract for the work in Union street. The job was started about a week ago, and the curbing on one side of the street partially removed; this side was also closed to traffic; after starting, however, the crew was removed to finish up the King Square, contract as speedily as possible, and operations on Union street will be resumed tomorrow.

EGGS SEIZED THREE YEARS AGO, RELEASED FOR SALE

Trenton, N. J., July 31.—The frozen eggs seized by federal inspectors three years ago as unfit for food and which have been the subject of much litigation in various courts since that time, were released for sale on Tuesday by the State Board of Health. The members of the board, after hearing an expert testify that the eggs, although now nearly four years old, were still fit for food, a week ago performed the official task of eating foodstuffs made from the eggs. They were taken to the state laboratory, where custard pie and ice cream was prepared.

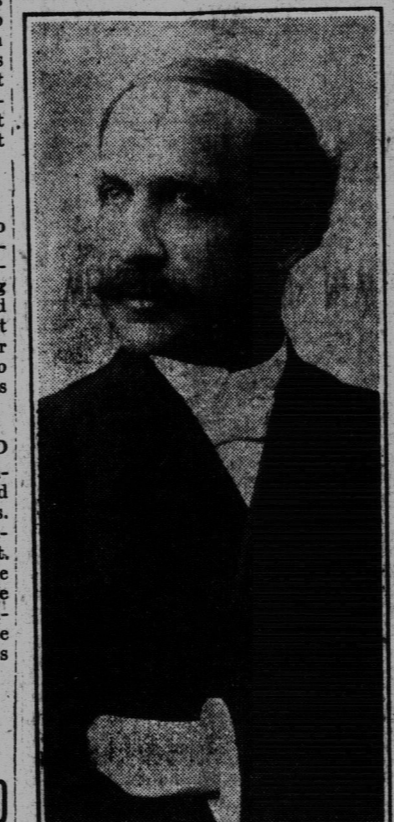

None of the members found the food objectionable, but decided to reserve decision for a week. Tuesday they gave the product a clean bill of health.

The canned eggs are owned by a Boston concern which will be required under Tuesday's decision to label the product so that purchasers may know how long it has been in storage.

Among those waiting at the depot were Rev. H. E. Thomas, Rev. T. J. Deindeit and Rev. H. A. Pierce, ministers of Methodist congregations in the city, and the following laymen: W. S. Allison, George A. Henderson, George E. Barbour, E. T. C. Knowles, William Baxter, J. E. Berrie, W. Morley McLaughlin, J. E. Arthurs, G. A. Ford, E. S. Henniger, H. W. Daniel, Joshua Clawson, H. B. McKinnon, J. S. Maurice, Hunter White, T. Bullock, John Sealy, E. J. Fleetwood and Harry S. McLaughlin.

After being cordially welcomed Rev. Mr. Barraclough and family were invited to take a trip round the city by W. S. Allison. After a trip in his car, accompanied by Mr. Henderson, they were taken to the parsonage which had been made ready for the new pastor. Ladies of the congregation, and were entertained by them at luncheon.

THREE INCH SHELL IN THE GARBAGE CAN

Was Thought to Be Placed There With Object of Wrecking London, Ont., Incinerator

London, Ont., July 31.—The men in charge of a newly established garbage incinerator here are quaking with fear as the result of the finding of a fully loaded three inch shell for a twelve-pounder gun. There has been a bitter agitation against the location of the incinerator at the foot of Waterloo street, near Victoria Hospital, and it was at first thought the shell had been deliberately placed in a refuse can at some collection point with a view to destroying the plant.

Men at work at the pit, where the collecting cans are dumped chanced to notice the peculiar "boom" and picked it up. One prevented his fellow workmen from dropping it into the blast furnace. The superintendent deposited the shell in a pail of water, and afterward had it removed to Wolsley Barracks, where the fuse was removed and it was found that the big fellow was fully charged with enough explosive to do great damage.

BANGOR HERE FOR TWO WEEK-END GAMES; NEW PITCHER IN ONE

The Marathons, again leading the league, are playing again in Bangor today. Both St. Croix and Fredericton are close upon the leaders, and they are playing again today in the Capital. The next games here will be on tomorrow and Saturday afternoons, when Bangor will play the Greeks.

Yesterday's scores, 3-0 and 3-2, shows that a high-class of baseball is the work of all the teams now. Connaughton has brought his men along in fine style, and they will give the locals a battle for victory. Charles and Williams—the latter a new pitcher, who after his bow with the Greeks in Bangor yesterday—will be the locals' pitchers. Williams won his game and there will be interest among St. John fans to see him perform. There should be two snappy ball games for the Bangor team here, and along in fine style and the Greeks are hitting well and fielding fast.

It is possible that Frank Keane's injuries may keep him out of the Fredericton line-up for the rest of the season.
