PEACE AND WAR.

Fair minded people in this city on Friday afternoon voted unanimously in favor of universal disarmament and the establishment of a recognized international tribunal of arbitration. It is probable that a similar motion presented to a similar audience in any civilized country would meet with the same reception.

War is as illogical as it is absurd. It is a relic of the days of the cave men and has no justification in these times. As a means of settling disputes between nations it is worthless.

There is something in the average man that urges him to fight for what he cannot get otherwise, something that moves him to resist with his fists or other weapons any attempt at imposition upon him.

THE CAMPAIGN IN N. S. AMHERST, N. S., Sept. 26-The first shot in the election campaign in this province was fired in this town tonight, when a magnificent meeting here was addressed by E. F. Clarke, M. P., of Toronto, and Hon. T. Chase Casgrain, M. P., of Quebec.

PRINCE RUPERT DELAYED. The D. A. R. steamer Prince Rupert did not reach here from Digby last night till one o'clock. The steamer left on time, but when some thirteen miles out the upper bolt of the coupling pin broke and the sudden jar bent the lower one. Engineer Penhall at once got to work and quickly replaced the upper one, but found it necessary to drill out the lower one. As only a hand drill was available, this took considerable time. After the repairs were effected a good run across was made.

EMERSON VERSUS PUGSLEY. Those government journals which have been trying to persuade the people of New Brunswick that the present minister of railways represents the high water mark of New Brunswick statesmanship, are likely to be answered by their own party before many days. Old line liberals who have

reached this family journal for its reference to the Pugsley movement will learn before two weeks whether they can afford to make light of the warning. They will find themselves in close contact with the trumpet sounds for action. The attorney general has repeatedly stated that he is not seeking nomination and does not desire Mr. Emmerson's place. But his friends say that he will accept the position when it is offered, and that Mr. Emmerson is not unwilling to compromise on something else.

A few days ago the Sun stated that the government candidates in St. John would probably have a platform full of local attractions, including a St. John valley route for the Grand Trunk Pacific, nationalization of St. John Harbor and cold storage. The candidate who proposed to come forward with these and other schemes was not named. But it was possible to guess him.

The Globe has been in the habit of describing Dr. Pugsley as a man of speculative instincts and disposition. Perhaps the Globe may still entertain that opinion and yet support Dr. Pugsley as a candidate for Ottawa. That would not be so sharp a turn as the Globe took on the Grand Trunk Pacific question. But the Globe was not able a few months ago to prevent its party from nominating Mr. McKewen as a candidate for Ottawa, and even if it should oppose the nomination of Dr. Pugsley he might still be chosen by the party management.—Sun.

The mayor argues strongly in favor of the civic purchase of the Mispep Pulp Mill. The city may never be a manufacturer of pulp, but there are rights and privileges that would be acquired by that purchase which would far outweigh the value of the plant. We have practically decided to go to Loch Lomond for our water supply. Now if any other corporation than the Mispep Pulp Mill, but there are rights and privileges that would be acquired by that purchase which would far outweigh the value of the plant.

### YORK THEATRE OPENING.

The Show Was a Good One and Was Given Before a Crowded House.

The great Hyde Show opened its first week's engagement at the York Theatre last evening before a crowd which filled pit and gallery to overflowing. Enthusiasm was plentiful as each of the several excellent features was produced. The show was opened by the comedy couple, Hyde and Leola. The manager, Robert D. Hyde, and his wife took these parts. It is over a year since Mr. Hyde or his wife have been before the footlights, but theatre-goers in this city are very glad that they are on the stage again.

Raymond and Mason's singing and wooden shoe buck dancing was extremely clever; while Darnody, the club and gun manipulator, is a king of club swingers. His work is the best ever seen in this city.

Mr. Rowley and Miss Dunn in their singing and comedy dancing formed one of the best features of the entertainment. Miss Dunn's dancing being of the finest conceivable. The Great McKinley made a hit with his playing on flower pots, dinner dishes, or other resonating objects. The Cock of the North brought forth the most applause. Conway and Killen, in the character of two Irish sports, were inimitable. Their portrayal of life in Erin's Isle was perhaps the best of the many good features.

Boavis, the one-hand acrobat, closed the performance with some marvellous feats of contortion and balance work. One of his acts is to place a handkerchief on the floor and stand standing astride of two chairs, he slowly bends backwards, catches the handkerchief with his teeth, and rises to his former position on the chairs. His backward dive of over thirty feet was cleverly executed, and brought forth a hearty round of applause.

In addition to the regular attractions, the famous Harker Lester trio will arrive today and will take part in future performances. These are trick bicyclists, ground and lofty tumblers.

This afternoon at 4 o'clock a children's matinee will be given.

### PROFESSOR TO GERANIUMS IN WINTER.

Recommended to Those Who Would Have Blooms from January to June.

All things considered, the Geranium is our best plant for winter flowering. It blooms freely and constantly. In most instances, and adapt itself to the conditions prevailing in the ordinary living room, more readily than any other plant I have any knowledge of. And it requires very little care. Its ability to take care of itself is one of the strong arguments in its favor, especially with the amateur who is distrustful of his skill in the management of plants that insist on having their peculiarities humored. It has little to boast of in the way of attractive foliage—though a plant well selected is vigorous, healthy foliage is far from being unattractive—but it has a right to be the favorite of the winter flower-lover. Some of the scarlet varieties are so exceedingly brilliant that they actually seem to impart a festive air to the room. The little child who declared that auntie's Geranium was "on fire" was not far from the mark in his or her enthusiasm. The most richly colored sorts. Others are extremely delicate, fine and pure. Some are pure white. All the recently introduced varieties have large, wide petals, long stalks. A well-developed plant, symmetrical in shape and properly furnished with foliage, is extremely desirable, and which to display its blossoms effectively, is a magnificent sight when in full bloom. It is a pleasure to see a young person enter at the Geranium as being "common."

Fenton has been in the United States for a number of years, but for the past year has been working with the express company, one of whose wagons exploded in October, last, in Montreal, causing the accident. ## MAY OPEN A NIGHT SCHOOL.

Y. M. A. of St. Peter's are Considering the Proposal.

The Y. M. A. of St. Peter's church held a very successful social last evening in the association's rooms. Nearly one hundred and fifty of the young men of the parish were present. The purpose of the meeting was to organize for the coming winter's work. After the ordinary business had been transacted the following programme was carried out: Duet, piano and violin, Frank O'Hara and Frank Conway; solo, Arthur Delaney; song and canon, Leo O'Hara; step dance, Frank Harding; solo, Charles O'Neill; solo, Terence White; piano solo, Frank O'Hara; club swinging, Geo. Burns; piano solo, William Morgan; violin and piano, William Conway; Frank O'Hara, accompanist.

An enjoyable feature that was not on the programme was a duet by Messrs. Howard and Collins. No less than three encores were demanded. The conclusion of the programme by T. J. Phillips, president of the association, spoke a few words expressive of his pleasure at seeing so many of the young men present, and thought it augured well for the success of their coming winter entertainments. He considered the society a great help to any young man who wished to improve himself. During the coming season it is intended to improve the gymnasium by the addition of a bowling alley. He cordially thanked the rector for the use of the church grounds.

The two officers had been invited, with their wives, to spend the day on the British ship Blythe Wood, capt. Pritchard. During the afternoon in company with Capt. Pritchard and his son and three seamen, they embarked in the ship's boat for a sail to Race Rocks. Off Albert Head a sudden squall came upon them and the boat was capsized. All hands succeeded in reaching the overturned boat, and after consultation the second mate started to swim to the ship, several miles distant. Sergeant Major Churchard tried to swim ashore, but was drowned before he had gone a hundred yards. After being three hours in icy waters, Sergeant Endicott lost consciousness and sank out of sight. A short time afterwards the steam launch Shamrock hove in sight and took off the five survivors in a state of complete exhaustion. SUBURBANITES RETURNING

Summer Resorts are Pretty Well Deserted—The Weather This Year Was Unfavorable.

The summer residents of suburban points are fast moving to the city and by the end of the week the number still remaining in the country will be few. In the Westfield district there will not be more than two or three families, while Rathesay, the Chislet and other points to the east will also be pretty much deserted.

The season promised to be a most pleasant one for out of town residents, and the number of families that took up their abode on the banks of river or lake away from the smoke and noise of the city was much larger this year than ever before.

Despite the conditions that prevailed this year, all will undoubtedly go back next season and the chances are that when they left of their many pleasant social functions over the winter, besides they will make more converts, so that next year's exodus will be much larger than that of the season just closing.

TO FLOAT THE MAY QUEEN.

Divers and Pumping Apparatus Will be Used—Management Confident of Saving Her.

The steamer May Queen is still fast aground in the Grand Lake, but the management hopes to have her afloat in a few days. Arrangements are yet under way to secure a sufficient equipment to carry out the floating operations. Tomorrow a tug with a diver and a number of men will go up to the scene of the accident. The bottom of the steamer will be examined and the extent of her injury ascertained. The steamer will then be patched in a temporary fashion just to assist in the pumping of her out. To effect the least a large tug with scows and a pumping gear will go up. The steamer will then be brought to Indian town to undergo a general overhauling and receive final repairs.

The May Queen may not go on the river service again this year. In the meantime the steamer Beatrice Waring will take her route, starting tomorrow morning.

STARVED IN THE HOSPITAL.

Jack Howard Says He Ran Away Because He Got Nothing to Eat.

Jack Howard, the lad who escaped from the General Public Hospital, in a circumstance that Dr. Grant declines to discuss, and which has not as yet been explained satisfactorily, but leaves the public to believe that the discipline under the resident physician is lax, is safe in the care of friends of his mother, who is the cook at the Union Hotel.

After his escape the boy hid in Fleming's laundry, and after all directions his grandmother that he did not fear the operation, but had run away because he had not been given anything to eat for four days. In the afternoon he started for the city to seek his mother, but as she was out looking for him she missed him. That night the lad slept outdoors, but is now properly fed.

Deputy Chief Jenkins says the police have not been requested to look for the boy and return him to the hospital. The deputy took the lad to the hospital and knows him well.

There is a general feeling among the police, that the lad should not be called upon to keep guard over the hospital, and chase after runaways and that if the staff cannot look after the patients and keep them in they should ask the commissioners for guards or patrolmen.

But She Was Hauled Off Again Without Damage.

The tug Joseph, which ran ashore at Oak Point on Sunday night, has since been successfully pulled off by the aid of the steamer Beatrice Waring.

The grounding of the tug appears to have been due to some carelessness on the part of the crew in not keeping a prompt lookout. She was making down river under good headway with a string of scows. Her helmsman had evidently straightened the tug on her course and temporarily left the wheel, neglecting to take account of the current which pulls her shore just at that point. The result was the tug was worked out of her fixed course, and grounded before the crew knew what had taken place.

Fortunately the place where the tug grounded was soft mud and the tug was therefore uninjured.
