

ANARCHY REIGNS IN PORTUGAL

Report Appears in London Paper This Morning of Storming of Royal Palace.

King Manuel said to be Prisoner in Hands of the Revolutionists—News by Wireless.

KING MANUEL OF PORTUGAL.

FISH COMBINE LOOKING FOR MORE BUSINESS

A. H. Britain of Montreal Predicts Nova Scotia Fleets will Supplant the New England Fishermen.

A. H. Britain of Montreal, business manager of the Fish Combine, was in the city yesterday on his way to Digby to inspect the improved plant there.

The companies in the merger have already made great progress in extending the fresh fish business.

These are now seven concerns in the merger, and a little organization on the business side has opened up such possibilities that we get money for almost any purpose.

Now that the C. P. R. has taken over the D.A.R. we get a direct express service from Digby and can put our products on the Montreal markets within 16 or 20 hours after they are taken out of the sea.

The I. C. R. gives an excellent service, too. Our Canso firms shipping through Port Mulgrave are working up a great business.

Our fish cars are handled with the regularity of a clock. Our customers in Montreal can set their watches by the arrival of the consignment of fish on the I. C. R.

Our fish cars are ready to supply fresh fish the year around in good condition and in quantities to suit. Organization will work wonders.

The I. C. R. gives an excellent service, too. Our Canso firms shipping through Port Mulgrave are working up a great business.

CAPT. WESTON KILLED AT GEORGETOWN

Charlottetown, P. E. I., Oct. 4.—Capt Weston, a naval aviator, met with a death at Georgetown today.

London, Oct. 4.—The "Times" this morning prints no despatches from Lisbon correspondent, but it prints the "Matin's" wireless despatch, and says it has reason to believe that the news of the revolution is true.

Montreal, Oct. 4.—W. W. L. Chipman late manager of the Montreal clearing house, and for many years connected with the Merchants Bank of Canada, and the defunct bank, died at his residence here today, at the age of 64.

W. W. L. CHIPMAN.

THIRTY-SEVEN KILLED IN TRACTION COLLISION

Excursion Train to St. Louis Crashed into Local Westbound Express at Staunton, Ill., and Both Trains Reduced to Splinters—Mistake in Orders Caused Tragedy—Death List May Reach 50.

Staunton Ills., Oct. 4.—Thirty-seven persons were killed and from 16 to 25 injured in collision on the Illinois traction system two miles north of Staunton late today.

Only three of the dead have been identified as yet. They are—J. E. Berry, Springfield, Ill., land commissioner for the Illinois Traction System.

W. N. Street Staunton Ill., assistant trainmaster of the traction system. D. W. Black, assistant superintendent of motive power and equipment.

The collision occurred between a local north bound and an excursion train headed towards St. Louis and loaded with passengers on their way to view the parade of the Velled Prophets at St. Louis.

The identified dead. Springfield, Ill., Oct. 4.—The dead identified at Carlinville follow: J. P. Habegger, Jamestown, Ill., merchant; C. Wern, Chapin, Ill.; Herman Bauer, carpenter, St. Louis; T. J. Kirwin, salesman, St. Louis; Manuel A. Indersmull, Baden, Ill., insurance agent; Dr. H. C. Galloway, Decatur, Ill.; J. G. Schaeffer, St. Louis; Mrs. Wm. McCloud, Bend, Ill.; S. A. Hill, Princeton, Ind., railway trainman; John Blocktona, Bend, teamster; Mrs. John Blocktona, Bend; Dr. B. F. Renshaw, Curran, Ill.; H. B. Robinson, Bend, miner; Mrs. H. B. Robinson, Bend; E. M. Rose, Chicago, collector Colliers Weekly.

Going 40 Miles an Hour. Dickerson's curve is at the bottom of a decline both from the north and from the south.

The collision occurred right at the bottom of the double decline and sharp part of the curve.

The health of Mr. O'Conner was pronounced by Mr. Ross, other speakers were Mr. Graham, Mr. Costigan, Mr. March, C. F. Easton, H. H. Patchin, Fred Cook and John A. Garvin.

WHO WILL LEAD?

The last voting coupon printed in The Standard will be issued today, Oct. 5th.

On all sides our busy contestants may be seen hurrying hither and thither in order to secure the votes that will ensure their place in the Bermuda party.

Those who are second or third in their district are putting in their utmost endeavors to be first in the final round.

Who will win the ribbon of the contest? or who will get the high vote? This is now the question and one that will be solved after the last vote has been placed in the ballot box next Saturday night.

St. Stephen, Oct. 4.—The number of Liberal members of parliament seeking permanent positions is so great that it is causing comment.

The synod of the Anglican diocese of Fredericton had a busy day yesterday. Business sessions were held in the morning and afternoon and in the evening there was a missionary meeting.

The day was auspiciously opened by a corporate celebration of the Holy Communion at 7.30 in Trinity church.

Reports of the clergy were first received. Among them was that of Rev. R. J. Coleman, rector of Campbellton, and on the Bishop's request he read his report. He stated that they now had on hand \$6,451, but they needed \$6,900 more.

PROTECTION CAUSE OF CORRUPTION

Ottawa, Oct. 4.—Sir Alfred Mond, Bart., M.P., addressing the Canadian Club here today said there was no corruption in England as compared with protection countries.

The synod of the Anglican diocese of Fredericton had a busy day yesterday. Business sessions were held in the morning and afternoon and in the evening there was a missionary meeting.

The day was auspiciously opened by a corporate celebration of the Holy Communion at 7.30 in Trinity church.

IMPORTANT MATTERS BEFORE SYNOD

Continued from page 1.
 Notice of motion was given by Archdeacon Raymond as follows:—"That the recommendation contained in the report of the committee appointed by the executive committee of the Synod to consider the matter of printing the Synod Journal with a view to the reduction in the cost of the same be adopted."

On motion of the secretary, Rev. J. W. B. Stewart, the report of the Board of Church Literature was adopted. The Bishop commented on the fact that over 400,000 copies of the New Hymnal had been sold with resulting royalties amounting to almost \$3,000.

On motion of W. M. Jarvis, deputy chairman, the report of the Board of Finance was adopted.

The report of the Committee on Statistics and State of Church was read by Deputy Chairman O. S. Newham, and on motion was adopted.

Returns from Parishes.
 The Bishop drew attention to the difficulty of securing returns from some of the parishes and urged greater attention to this matter.

On motion of Dean Schofield it was decided to make the report of the committee on the Bishop's charge the first business after routine on Wednesday morning.

Canon Smithers, on behalf of the special committee on the situation at Point du Chene, moved that the matter be referred to the Board of Missions. Carried.

The report of the committee on the theological study was read by the secretary, Rev. W. J. Wilkinson. In seconding a motion for its adoption, Rev. Father Conway spoke of need for greater study on the part of the clergy and asked that steps be taken to establish a summer school for the clergy of the diocese. The report was adopted.

The report of the board of governors of Kings College was read by Rev. Canon Smithers. The treasurer supplied the information that 29 parishes had contributed a total of \$174.04 towards the college deficit. Canon Smithers made an urgent appeal for a better response.

Dean Schofield drew attention to the fact that quite large amounts were given individually by laymen of the diocese directly to the agent of the college and suggested that these amounts should be credited as coming from this diocese.

On motion of Rev. G. A. Kuhring, Rev. Roy Hiltz was welcomed to the synod.

Need For Support.
 The Bishop continuing the discussion on the college, said that the church depended on the ministry and as a business proposition the college should receive the support of the church.

Dean Schofield asked that the adoption of the report stand over until the exact amount contributed by laymen of this diocese be ascertained. He knew of amounts totalling at least \$800 in the past year.

The report was adopted.
 Canon Neales on behalf of the Bishop Kingston memorial committee, moved that the amount collected take the form of an endowment fund for the cathedral. Carried.

Dean Schofield then moved that the report of the ordination candidates council be taken as read and adopted. Carried.

The afternoon session was taken up with the discussion of a number of interesting reports and an address by Rev. Roy Hiltz on the work of the Sunday school. Rev. Mr. Hiltz is general secretary of the Sunday school commission of the church in Canada, and his address was most helpful. At its conclusion he was tendered a vote of thanks.

Rothsay College.
 The report of the Board of Education was then taken up and J. H. A. L. Fairweather, the secretary, moved that Mr. Fairweather had been appointed secretary, and that the Bishop Rev. A. W. Daniel, H. B. Schofield, J. M. Robinson, W. H. Harrison and J. H. A. L. Fairweather had been elected the executive committee for the Rothsay collegiate school. After reporting that the school property at Rothsay had been granted during the summer to the standing committee on Sunday schools for the purposes of a summer school for teachers, the report concluded with a financial statement of the Rothsay school.

From this statement the receipts of the year were shown to be \$18,000.00, of which sum \$13,190 was received for tuition and board of the students.

The expenditures for the year were \$19,262.80, so there is a deficit of \$1,262.80 for the year. In expenditures on capital account the chief items were for the new athletic field which was now in fine shape, and in this respect the school was admirably well equipped.

Rev. Mr. Hibbard, headmaster of the school, was then called upon for a report, and he said that the number of boys at the beginning of the year was 43 boarders and 12 day boys. At the end of the term there were 41 boarders and 12 day boys, while this year shows 41 boarders and 9 day boys. Referring to the standing of the boys, he said that from the high form one boy had taken the examination for entrance to the Royal Military College at Kingston, and one for the McGill science course. Three others had been matriculated into other universities on their standing in Rothsay. In the examinations conducted by the masters the chief errors were only four boys failed to pass. The school needed a larger attendance, as at the present number, with the high cost of living at the present time, it is not possible to make both ends meet.

Large Attendance.
 Bishop Richardson said it was time to build up the school numerically. The addition of 10 or 12 boys would be enough to put the school on a good sound footing, and it should be the duty of church people to see to this.

He asked Mr. Hibbard how many boys from this city were in attendance at the school. Mr. Hibbard replied that there were six.

The Bishop then said that it should be possible to do a great deal better than this from the city. Some of the parishes in the diocese had done well in the number of boys they had sent to Rothsay and it was the duty of the church people in St. John to see that

more lads from the city went there. He recognized that there was a strong competitor in the St. John high school but thought a strong effort should be made to boom Rothsay.

H. B. Schofield said that there was a feeling in the minds of some that Rothsay was too close to the city and they would sooner send their sons further afield. He was pleased to say that Mr. Hibbard was conducting the school on lines which gave it all the advantages of being at a greater distance from the city as far as the pupils from the city are concerned. The boys were not allowed to come home over Sunday now, as formerly, and in other ways the discipline was strict. He had heard several cases recently where parents of city boys had said that they would sooner send their boys further away as they would not get as many privileges and he thought it well to correct any such impression.

Some residents of Rothsay paid tribute to the discipline of the school. Rev. Mr. Hibbard's report was ordered to be incorporated in the report of the committee on education and the whole was adopted.

The report of the executive committee was then taken up. It was passed without much discussion with the exception of the report of a sub-committee appointed to take into consideration the printing of the Journal of the synod with a view to seeing if the cost of the same could not be reduced. This committee recommended that the names of individual contributors to missions be not in future printed in the Journal; that the number of copies be reduced from 4000 to 2000, and all reports made to the synod by its boards and committees, also the parochial reports of the clergy be as concise as is consistent with clearness and the importance of the subject in hand; that the printing committee be instructed to ascertain if the Journal could be satisfactorily printed at a cheaper rate.

This report evoked considerable discussion and out of it arose a suggestion that the reports of the parishes should be handed over to a committee to have them condensed. There was some objection to this on the ground that if the reports were much condensed they would be robbed of all touches of individuality. In their present state they were read particularly in the small parishes, and the people found much interest even in the list of contributors to the mission schemes of the church.

Interesting Reading.
 Chief Superintendent of Education, W. S. Carter, said he had always read the parochial reports and had found much of interest in them. He did not think it would be advisable to cut them down until they stood as a mere mass statistics robbed of all their life and interest.

It was finally decided to adopt the report with the understanding that the parochial reports will be printed as formerly. The list of individual contributors to missions will not appear in future.

The synod adjourned at 5.30 until 10 o'clock this morning.

It is expected that today will be an interesting one. Several important matters are to be disposed of, chief of which is the plan of removal from

NATURAL HISTORY SOCIETY MEETING

Dr. G. U. Hay Reports on Royal Society Convention and Visit to Experimental Farm—Many Donations.

The regular monthly meeting of the Natural History Society of New Brunswick was held last evening, Dr. G. U. Hay in the chair.

New members were elected as follows: Regular, F. W. Holt; associate, Mrs. W. H. McBride, Mrs. Edgar Archibald, Mrs. C. P. Knight, Providence, R.I., Mrs. E. M. Skinner, Mrs. Cannell, Mrs. I. N. Kaplan, Miss Sarah Millidge, Winnipeg, Mrs. Jas. Stephenson, Miss E. M. Sharpe, Wilkes-Barre, Penn., Miss Elizabeth Cowan, Miss Mary A. Hanington; junior associate, Florence Beville; junior, Jas. Hutchison, Clark Somerville.

Dr. G. U. Hay, who acted as delegate at the meeting of the Royal Society at Ottawa, last week, reported that the meeting was smaller than usual, but some interesting papers were read. The members devoted themselves strictly to business, and what usually occupied three days was finished in two.

In the section on geology and biological science papers were presented by Dr. G. F. Matthews and by Dr. L. W. Bailey, and in the literature section a paper on the Loyallists of Nova Scotia was read by Rev. Dr. W. O. Raymond. Dr. Hay referred pleasantly to his visit to the Central Experimental Farm which is doing such a great work for the farming and horticultural interests of the Dominion. The great park and arboretum which form a part of the farm were particularly attractive in their autumn foliage at this season.

A hearty vote of thanks, moved by Dr. Matthews, and seconded by J. Roy Campbell, was presented to Dr. Hay for his interesting report.

A large number of donations were presented by Wm. McIntosh and a hearty vote of thanks tendered the curator for the attention and care which he had devoted to the improvement of the museum.

Mrs. Chas. Campbell, of Dorchester, Mass., arrived in the city last evening on a visit to her brother, M. A. Harding.

GLAD TIDINGS FROM NOVA SCOTIA

Sure Relief For Suffering Women Is Found in Dodd's Kidney Pills.

Miss Kathleen Murphy, tells how she suffered and how easy and complete was her cure by the great Canadian Kidney Remedy.

Tangier Mines, Halifax Co., N. S., Oct. 4. (Special)—There is no longer any doubt that of the thousands of suffering women of Canada, nine out of every ten owe their troubles to Kidney Disease. For that reason it is glad tidings that Miss Kathleen Murphy of this place is sending out to her suffering sisters.

"My troubles started from a cold," says Miss Murphy in an interview. "I had pains in my head and back, and Rheumatism and Diabetes finally developed."

"Then I started to take Dodd's Kidney Pills and they cleared out my rheumatism, cured my Kidney Disease and brought back my health."

"I would not be without Dodd's Kidney Pills for I have given them a thorough test and found them to be all that is claimed for them."

The secret of health for women is to keep the kidneys strong and healthy. Healthy kidneys mean pure blood, abundant energy and clear, healthy complexion. The one sure way to keep the kidneys healthy is to use Dodd's Kidney Pills.

A Customer's Reasonable Wish is this Store's Pleasure.

DYKEMAN'S

SILK AND NET WAISTS FOR FALL

We carry a fine assortment of these which are right up to the minute in style and are perfect fitting.

We have a special in Black Silk Waists which are really the best value in silk waists we have ever offered. They are made from a good weight chiffon taffeta, front neatly tucked with the new style sleeve. These waists are priced \$2.98.

A special White Chiffon Taffeta Silk Waist, with allover lace yoke front prettily tucked and trimmed with silk buttons. Price \$3.39.

Silk Waists in black, white and colors, including all the new shades at prices ranging from \$3.75 to \$5.65. Net Waists.

A special line of white net waists at \$3.98, are prettily made being trimmed with medallions in the front and finely tucked, with new sleeves.

Other lines in white, cream, black and colors range in price from \$2.95 to \$5.65.

F. A. DYKEMAN & CO.,

59 CHARLOTTE ST.

SHARP-BOSWALL

Sussex, Oct. 4.—George A. Sharp, superintendent of the Prince Edward Island Railway and formerly a resident of Sussex, was married here very quietly today to Mrs. Augusta Boswall, wife of the late Harry Boswall of Charlottetown. The ceremony was carried out so quietly that it came as a surprise to Mr. Sharp's relatives, to learn that anyone excepting themselves knew of it.

The marriage was performed at the home of Mr. Sharp's brother, B. J. Sharp, at half-past five o'clock, the officiating clergyman being Rev. Geo. M. Campbell who was for some years in charge of the church Mr. Sharp attended in Charlottetown.

Mrs. Boswall wore a going away gown of blue broadcloth with hat of the same color with Paisley trimmings. The couple were unattended and the ceremony was witnessed only by a few intimate friends. After supper had been served the newly married couple took the evening train on a trip to Montreal Toronto and New York.

St. John Actors Abroad.
 Friends of F. Godfrey Kenney, formerly of the Royal Bank here, but who resigned his position a few weeks ago to go upon the stage, will be interested in learning that he has secured an engagement in New York with a company presenting a vaudeville sketch known as "The Headliner." They opened at the Majestic Theatre in New York on Sept. 29 and this engagement will be followed with time in other New York theatres. George Lund, who will be remembered here as a member of the company which produced "The Lion and The Girl," has been engaged to play an important role with William Hodg's in "The Man from Home." Mr. Lund is also stage manager of the company. George Price, also of this city, is in vaudeville in a piece called "1925," and was playing in South Norwalk, Conn., last week.

J. N. Harvey, Going Out of Business

CLOTHING SALE

Because of business arrangements which will take us away from St. John, it becomes necessary to close out this big stock of

New Fall and Winter Clothing and Furnishings

And it must be done quickly, as every day counts. We realize that this cannot be done without your assistance and we are willing to pay you handsomely for such assistance. In this way you can buy your Fall and Winter Outfit at about half the regular price while the sale lasts.

SALE STARTS THURSDAY, OCTOBER 6th at 9 a. m.

Who Will Select the Chaperon?

The Burning Questions Now, Who Will Win the Standard's Free Tours to New York City and Bermuda?—Who Will Get the Extra Trip?

Continued from page 1. of the contestants are doing a lot of talking, as may be observed, but that may be their manner of "sawing wood"—you never can tell. All are bent on winning, and they mean to continue working up to the very last hour. Some of the contestants may be beaten out by very small margins, and then will come feelings of deep regret that they had not been more active during the time that the votes would count.

Best Days Felt. The total vote secured by each candidate during the entire contest will be her standing at its close. Now is the time to get busy, and it may be that through renewed and energetic operations many unexpected "catches" may be "fished" up to celebrate this day. The voting is done with much good natured, but intense friendly rivalry is apparent on all sides. Some

FOUNDER OF NEW CHURCH

Schenectady, N. Y., Oct. 4.—The Rev. Dr. Geo. R. Lunn cares more for human beings than theology. That's why he shocked his wealthy and aristocratic congregation here with repeated attacks on grabbing corporations, then resigned his pastorate and organized a new, credulous people's church.

Dr. Lunn began fighting early in life. He's young yet. He quit his theological studies to go to war with Col. Bryan's regiment, fought typhoid fever and won out, preached a while in Omaha and Brooklyn churches, then came to Schenectady.

Then Dr. Lunn turned on his oratorical rattling guns. "Why not cut down the notoriously watered capital stock?" he asked of the governor if they thought it was really necessary. A preacher's business was to let politics alone.

The general electric bossess both parties here. But Gov. Hughes came and the gang legislator had to make way for a real representative of the people.

By this time most of the wealthy members who paid Dr. Lunn's salary were represented by empty pews, but there was a noticeable increase in the attendance of plain, ordinary folks.

The preacher engineered an inspection of the books of the board of supervisors. It was very shocking to sensitive souls when he read from the pulp some salient facts buried in the investigators' report.

Dr. Lunn then formed the People's church. He holds two meetings every Sunday in a local theatre. His audience usually fills the theatre—1500 people, divided about equally as to sex—enthusiastic over the doctrine of democracy in religion.

ST. JOHN, N. B., WEDNESDAY, OCTOBER 5, 1910

THE CITY WATER SUPPLY.

The necessity of reverting to Little River reservoir to supply the city while No. 2 section on the Loch Lomond extension is drained for repairs, with a consequent reduction in the pressure, will bring forcibly to the notice of citizens the fact that the water system is still far from satisfactory. And the end is not yet.

Since No. 2 section was taken over from the contractors about \$9,000 has been spent in making repairs to the concrete pipe. It was found possible either by plugging the holes or by a plentiful application of plaster of Paris to the exterior of the pipe to reduce the leakage on this section by about 1,000,000 gallons a day. The distance covered by these repairs extends in the direction of Lake Latimer to the edge of Lake Fitzgerald, more popularly, but incorrectly, known as the dry lake.

A more serious problem, however, now presents itself. The concrete pipe, for a distance of about 150 yards, traverses Lake Fitzgerald, diagonally, at a depth of from 15 to 20 feet below the surface. The lake is a quagmire, and for months when the conduit was under construction, defied all the efforts of the contractors to control it. Finally the pipe was finished, and, within this limited area of 150 yards, since the water was first turned on, it has continued to leak at the rate of nearly 1,000,000 a day. Repairs from the exterior are obviously impossible and an attempt is now being made to stop the leaks from the inside.

It is, to say the least, doubtful, bearing in mind the extent of the leakage, whether satisfactory work of this nature can be conducted within the confined area of a 36 inch pipe. In order to get the full benefit of the volume and pressure from Loch Lomond there must be no appreciable loss, and the opinion has been freely expressed by members of the Board of Fire Underwriters, and by members of the Board of Trade, who have visited the scene of the leaks, that no patch work repairs on this 150 yards of conduit will prove effectual. Should this view turn out to be correct this section of the pipe will have to be abandoned, and a new conduit laid round the circumference of the lake. The length of the new conduit will be, approximately, 600 feet, and the work will be expensive, as the lake lies in a basin of ledge rock. It is just as well that the city should be prepared to face this alternative.

From one cause or another the extension to Loch Lomond has never proved thoroughly satisfactory. There must be no half measures if the city is to reap the full benefit of this great source of supply. The situation which may develop as the result of this attempt to repair what to all appearances is a rotten section of pipe, will have to be faced.

THE OLD PROPRIETOR LEDGE.

Within the next two years there will be a change in the system of carrying the mails on the Atlantic coast, and the subsidy will be divided between several lines. It is hoped that St. John will be selected as the terminal port in winter, and secure at least a large share in the passenger and mail service. In view of the fact that rival ports might point to disasters which have taken place in the Bay of Fundy as an argument against St. John, the action of the Board of Trade is opportune in again considering the wisdom of making the entrance to the bay perfectly safe for navigation at all times and seasons.

The federal government thought it wise to spend millions in making the Gulf of St. Lawrence safe for the summer trade by erecting lighthouses and fog whistles at all points along the coast. It would seem fair that they should extend this work for the benefit of St. John, the winter port, and erect suitable beacons on every dangerous reef near the entrance to the Bay of Fundy.

The Old Proprietor Ledge lies about six miles east from Gannet Rock and is passed by every steamer eastward and inward bound. For the last three or four years a gas buoy has been anchored near this ledge. Unfortunately the Old Proprietor is 18 feet under water at high tide, has an area of about 200 by 200 feet, and is therefore a most dangerous obstruction, especially in foggy weather. The brightest light cannot be seen any distance in a thick fog and the only remedy is a lighthouse and light with a fog bell. The channel between the Old Proprietor Ledge and the Nova Scotia coast is twenty-three miles wide, sixteen of which is deep water. On the other side between Grand Manan and the ledge there is no safe channel for steamers.

The cost of erecting a lighthouse such as the Board of Trade asked for four years ago may be large, possibly \$400,000, but is quite evident that if a lighthouse had been there the Heatta and her crew would not have been lost last year. We hope the resolution of the Board of Trade to the lighthouse board of the Dominion government will result in the necessary money being voted for this purpose.

SPECIALISM.

England's advancing standards in technical schools as seen by Dr. Richard C. Maclaurin, president of the Massachusetts Institute of Technology, show that nations, one by one, are discovering and approving the gradual trend toward specialism. "In the last ten years," he explains, "great advances have been made, until England gives promise of eventually placing itself on a par with Germany and America in higher educational policies." Oxford and Cambridge are teaching more advanced engineering, while at least twelve other universities have been

organized for the purpose of instruction in various branches of that study.

Once a graduate was thought well equipped when he had mastered certain accomplishments supposedly furnishing the groundwork for a hazily defined structure of life activity. Now the fond parent reluctantly confesses that his son must learn some trade or profession in order to rise even gradually against intelligent competition. This is a practical age and rudimentary knowledge alone is powerless to guide a youth up the winding stairs into the middle chamber where thoroughness wins its crown. He is more likely to be halted on the lower levels unless the yearning of unsatisfied ambition open a path that his weighted feet may tread. The conditions faced today are entirely unlike those amid which his father may have prospered.

Modern developments call for increased emphasis on the value of the applied sciences. The United States has awakened to a consciousness of this truth, Germany caught the reflection and England, open to conviction, has proved her receptivity and is now fact forging ahead. Knowledge of some one line of endeavor is bound to surpass in efficacy the superficial accomplishments that lay no claim to urgent consideration. What the present activity of the world's technical schools foretells in the broad sense, doubtless, is an era when every business man, whatever his country, will be a specialist.

NEWS BY WIRELESS.

The London press is about to have the benefit of the transmission of news by wireless. It appears that recent messages from sea—particularly regarding the Crippen affair—had suggested to the minds of newspaper proprietors that a good deal of information might be conveyed to newspapers in the same way. The Marconi Company are, therefore, about to establish a "wireless" news service. The messages will be despatched to the headquarters of the company in the Strand, and from there it will be distributed to the various newspaper offices subscribing to the service. Theoretically, the captain will act as press censor, as every message will have to be submitted for his approval before being telegraphed.

At the Marconi offices, says the Morning Leader, it was pointed out that many things happen on board ship which do not reach the newspapers at all—partly because it is nobody's interest to report them, and partly because the news is stale when the ship reaches port. As an example of the manner in which the world can be kept in touch with interesting happenings in mid-ocean, the North German Lloyd steamer Koenigin Luise, in the course of her voyage from New York to Genoa, quite recently, sighted the British ship Harvest Queen, from Windsor, Nova Scotia, in a sinking condition in latitude 40.5 north and longitude 44.24 west. The Koenigin Luise took off the whole of the crew of the Harvest Queen after the vessel had been set on fire. The incident happened on a Wednesday, but the outside world knew nothing of it until the following Saturday morning. Further, the operator on a given ship might be instructed to obtain interesting information from eminent travellers.

About 400 liners carry the Marconi apparatus now, including the biggest steamers in the world; these steamers at different times carry most of the world's prominent men and women, incidents in whose lives, even in mid-ocean, interest the news-reading public.

BACK TO THE SOIL.

Much has been said lately about scientific agriculture and intense cultivation. Not a little is being done to improve cultivation and increase the yield. But farmers all over the world will hear with pleasure that even the British Association for the Advancement of Science is giving serious attention to these problems.

At its Sheffield meeting this year two savants announced "the most important agricultural discovery in fifty years"—namely, the discovery that there are micro-organisms that spoil and destroy the soil as pathogenic germs attack and injure human and animal bodies. There are bacteria that fertilize and stimulate plants, and there are bacteria that kill these useful organisms. The bad and noxious agents may in turn be attacked and destroyed, thus saving the soil and leaving the field free to the beneficial organisms.

At the same meeting several scientific experimenters presented results of the application of electricity to wheat, vegetables and fruits. Surprising indeed are these results, for they indicate that the yield per acre may be increased substantially by the use of electric wires and currents properly directed.

Science can do much for the farm in several ways. It can add to its prosperity and comfort, and it can make farming interesting and attractive to ambitious young men and women entering active life. "Back to the soil" will acquire a new meaning in the light of such scientific discoveries and suggestions as we have indicated.

CURRENT COMMENT

(Montreal Gazette.)

There is to be found in the columns of Liberal newspapers evidence which suggests that the reported slowness of the government to discuss reciprocity may be due to a desire on the part of ministers to discover what the sentiment of their supporters may be. Sir George Ross, in a series of articles, is putting himself on record in opposition to any arrangement that will take it out of the power of parliament to fix the tariff from time to time as it thinks the interests of this country require. This means that he opposes a treaty, though it would leave the way open to an arrangement by which, without being bound to each country could adjust its rates of duty in a way to promote mutual trade. Some Liberal papers also favor such an idea, which might, however, be found difficult for the United States to accept. The government's party when confronted with responsibility considerably changed its attitude on the subject of protection. It may repeat the process in the case of reciprocity, which most of its members once thought was necessary to Canada's commercial life.

(Vancouver-News Advertiser.)

Queensland is involved in a religious instruction trouble. There was a demand for the use of the Bible in schools. Many advocated a measure of qualified and optional religious instruction. The government sought a way out of the difficulty by submitting the question to vote of the people at the general election. A majority in favor of the Bible in the schools was recorded. But the government measure based on the vote has strong opposition in the legislature. Several members hold that a plebiscite is good for business questions, but has no authority in questions of conscience.

(Calgary Herald.)

"Stick it, Canadians, you're all right," was the cheering sign that met Queen's Own eyes on many of the big stone fences along the route march during recent manoeuvres. The regulars in front had chucked them up when they were resting. And the boys staked.

(Ottawa Journal.)

As good as some in the prayer-book is that petition of Mrs. Wiggs, of the Cabbage Patch, "Lord, whatever happens me, don't let me get sour," and well nigh fifty per cent. of the population might do worse than to add the sentence to their daily petitions.

TUG HELP ALL BROKEN UP
Towing Steamer Worth \$20,000 Driven on Negro Point Breakwater and Reduced to Matchwood.

Twenty thousand dollars was the loss on the Negro Point breakwater yesterday morning in the wreck of the large wrecking tug Help, and some of the most exciting scenes ever witnessed on the harbor front were experienced, while Capt. David Reid of the steamer, and his crew were being rescued.

It was shortly after seven o'clock yesterday morning when the steamer Help ploughed her way through the West Channel with a scow full of mud dug by the dredge Cynthia. The tow was on its way to the dumping grounds to the westward of the breakwater. The tide was practically low but was on the flood when the steamer passed through the channel with her tow. When well through the channel and nearly at the dumping ground the steamer struck on one of the large piles of mud that had been dumped there. In a few moments her stern struck with such force that her steering gear was put out of order and the steamer with her tow was helplessly less. There was great excitement on board the tug and a small party of men on the breakwater watched the movements with some anxiety.

It was found that there was no way of keeping the Help from going ashore on the rocks of the breakwater, and the sea was running high despite the fact that the tide was quite low and with every roller from the bay the steamer would bump on the mud banks.

Lord Kitchener to Rescue.
The steamer and the tow were some distance from the breakwater when the large tug Lord Kitchener received the signal of distress and hastened to the scene. On her arriving a line was passed to the Help and an endeavor made to drag her out of the danger of destruction, but all of a sudden it was found that the Lord Kitchener was touching the bottom when the large swell would recede. It was then found necessary to cut the line to the Help and get the Kitchener out of danger. This was done and the Lord Kitchener was soon out of harm's way. The Help and her mud scow were slowly driven towards the rocks of the breakwater.

Captain Reid and his crew made all haste to leave the craft as soon as they could, as she was beginning to make water, and when once she struck the rocks there seemed to be little chance to save the steamer or their lives. The tug struck the rocks bow on and in an instant the end was torn out of her by the sharp edges. Another large roller swung the steamer broadside on the rocks and the captain and crew then made their escape from the doomed vessel. They clambered over the rocks and with the assistance of some of the workmen about the breakwater, they were saved from a watery grave.

Mud Scow Recovered.
After a short time the tide was higher and while the Help pounded on the rocks the Kitchener managed to draw a little closer to the breakwater and a line was taken on board the mud scow, but not without the launching of a boat and with great peril and difficulty. The laden scow had not been damaged to such an extent as the tug Help and was without much difficulty towed out to safety. There was nothing that could be done to save the Help and as she pounded harder on the rocks, the tide rose and the sea grew heavier. About 10 o'clock the seas were dashing over the breakwater and with every roll of the Help there was a great amount of damage. Captain Reid and his crew, who escaped with their clothing, except with what they had on at the time of the accident, could do nothing but stand by and watch. All that were saved from the steamer, it is said, by one of the crew, was a pair of shoes and an umbrella.

The place where the steamer struck was between the lighthouse and a point about one hundred yards inshore. After a few thumps on the rocks the smokestack was thrown overboard. Then went part of the quarter. The steamer's deck was slanted outward and the sea was battering her bottom in. The heavy mast was seen to break off and then there was another crash when the ship struck the rocks and the bottom went out of the boat and boiler and engines went down. The house was torn asunder and section by section went to the hull. With every sea the fragments of the steamer were torn and ground into small wood against the rocks.

Wreckage Came Ashore.
The wreckage was washed shoreward and as the tide rose the sea Continued on page 7.

BOARD OF TRADE MEMBERS DISCUSS MAIL CONTRACTS AND MORE PROTECTION IN BAY

Council Asked to Take Action to Secure Renewal of Contracts for Mail-Carrying Steamers to This Port--Lighthouse on Old Proprietor Urged--The Reciprocity Move.

The regular monthly meeting of the Board of Trade yesterday afternoon was enlivened by the introduction of several questions of importance to the city.

In the past it has been necessary for the board to be vetted on this afternoon. The board has been asked to make arrangements with the department however, whereby the addresses of all inquirers are now supplied to us direct, so that anyone desiring this information can now do so by contacting with the board of trade here.

New Members. We have 25 applications for membership to be voted on this afternoon. This will make 90 new members added to the board since the last annual meeting. It is interesting to note the growth of the board's membership for the past five years, which has been as follows: 1906.....185 1907.....210 1908.....230 1909.....268 1910.....300

The telephone committee has held several meetings. The following gentlemen, Messrs. James Pender, W. J. Thorne, W. F. Hatheway and H. B. Schofield with R. G. Murray have retained H. A. Powell, K.C., to represent them in laying a complaint against the N. B. Telephone Co. before the Public Utilities Commission.

West Indies Business. According to press despatches of the report of the Royal West Indies Commission, their report recommends direct steamship sailings from Halifax and from Montreal and St. John.

Advertising Committee. The "Made-in-St. John" exhibit carried out by the advertising committee of the board at the Dominion Exhibition was one of the best advertised.

Dr. Daniel M. P. followed Mr. Hatheway. He followed the matters of additional protection in the month of the bay were of paramount importance. After the investigation into the loss of the Hestia the government sent the steamer Stanley down there to look after the buoys, but even with this the only safe light on the Old Proprietor should be a stationary light in the middle of any steamship mail tendering for the new mail contract and considering the ports of call.

Outlook for Reciprocity. W. Frank Hatheway, M.P.P., said there was a strong sentiment throughout Canada in favor of a reciprocal treaty with the United States. President Taft when seen on the matter, said he felt that his country should have a closer trade relations with Canada and Sir Wilfrid Laurier had also pledged himself in its favor.

Shiloh's Cure quickly cures hemorrhoids, piles, the throat and lungs. 25 cents

SEWERAGE FOR LANCASTER

Municipal Council Authorizes Issuance of \$50,000 Bonds -- Alms House Accounts Squared--Water for Hospital

The Municipal Council at its quarterly meeting yesterday afternoon decided to issue bonds to install a sewerage system in Lancaster, and provide a better water service for the General Public Hospital. Overdrafts of between \$6,000 and \$7,000 on account of the Municipal Home were ordered paid off and other business transacted.

Continuing Councillor Baxter referred to the fact that he was retiring from active participation in the administration of the affairs of the county and expressed his regret at the severing of his connection with the county council. Since entering that body, he said, he had noticed a growing friendliness between the two bodies.

Councillor Baxter's Farewell. Continuing Councillor Baxter referred to the fact that he was retiring from active participation in the administration of the affairs of the county and expressed his regret at the severing of his connection with the county council. Since entering that body, he said, he had noticed a growing friendliness between the two bodies.

Court House Changes. Councillor McGoldrick submitted the report of the building committee. He said that there was need of a store room in the court house and that the grand jury room should be fitted up. Sheriff Ritchie was heard in this connection, corroborating the views of the chairman of the building committee.

Dr. Daniel M. P. followed Mr. Hatheway. He followed the matters of additional protection in the month of the bay were of paramount importance. After the investigation into the loss of the Hestia the government sent the steamer Stanley down there to look after the buoys, but even with this the only safe light on the Old Proprietor should be a stationary light in the middle of any steamship mail tendering for the new mail contract and considering the ports of call.

NEW FOOTBALL BETTER GAME

Critic of the Game Says Spectators Will Enjoy the Grid-iron Sport More Under New Rules.

Williamstown, Mass., Oct. 4.—Discussing the new football rules, Prof. John E. Russell of Williams college, and one of the keenest critics of the game, declared today that the new rules made for the enjoyment of the game by lay spectators, and while they would not prevent accidental injuries, they would remove the more serious hurts which made, he said, the continuance of the game under the old rules, impossible.

BIG LEAGUES HAVE BANDED TOGETHER

New York, N. Y., Oct. 4.—D. A. Fletcher, the Ohioan, who says he intends to launch a new major baseball league and will induce all the big stars to join at \$10,000 a man, to put up in cash on February 10th, has busy times ahead.

PROBATE COURT, CITY AND COUNTY OF ST. JOHN.

To the Sheriff of the City and County of St. John or any constable of the said city and county, greeting: Whereas Henry F. Puddington, the trustee of the estate of Sarah A. Tisdale, late of the City of St. John, in the City and County of St. John, spinster, deceased, has filed in this court an account of the administration of said James H. McAvity, as such trustee of said estate to the date of the appointment of the said Henry F. Puddington, as such trustee, together with an account of the administration of the said Henry F. Puddington, and has prayed that both the said accounts may be passed and allowed in due form of law.

THE WEATHER.

Maritime—Fresh southerly to west-erly winds, some showers, but partly fair, stationary or a little higher tem-perature.

Toronto, Oct. 4.—Rain has fallen over Ontario and in Quebec, and light showers have been almost general in the western provinces.

AROUND THE CITY

Special Meeting of Plumbers. The plumbers' union will hold a special meeting tonight in the hall of the painters' union, on Charlotte St.

Boy Scout Meeting. All interested in the boy scout movement are invited to attend the meeting in the Board of Trade rooms at 4 o'clock this afternoon.

Jewish Holy Day. The Jewish New Year's celebration was continued yesterday. Morning and evening services were held at the synagogues and special musical programmes were carried out.

R. L. Borden Club Annual Meeting. The annual meeting of the R. L. Borden club will be held on Friday evening, Oct. 7, at No. 12 Canterbury street. A full attendance of the members is requested, as business of importance will be taken up.

La Tour to Grand Manan. The Yarmouth steamer La Tour has been chartered to take the place of the steamer Grand Manan on the Grand Manan route, while the latter is going through her annual inspection and being overhauled. The La Tour left yesterday for Campobello.

School Board Enquiry. The School Board investigating committee visited Winter street school yesterday and inspected the work which F. Barr charged is not in accordance with the specifications. The committee expect to have their report ready in a few days.

St. John Business College. Among the 22 entries yesterday and Monday are several of the 11th and 12th school grades, 1 first class teacher, 1 superior class teacher, and 1 business man. The entries this term are of maturer years than usual and of superior intelligence and ability. This evening will be the second night of evening classes for the term.

Mrs. Maggie McCarthy. Mrs. Maggie McCarthy, wife of David McCarthy, died yesterday at her home 129 Hawthorne avenue. Mrs. McCarthy had been ill for eleven months. She was 36 years of age and besides her husband, is survived by her mother Mrs. Duffy, of Albert county, and a sister Mrs. Martin also of Albert county.

Morning Service for Delegates. A special service for the delegates to the Synod will be held in the Mission church at 7 o'clock this morning. Holy communion will be celebrated and there will be special music. A Victor Lee will preside at the organ. After the service the visiting delegates will be entertained in the school room by the Guild of Saint Monica.

W. C. T. U. Meeting. At the meeting of the W. C. T. U. yesterday the delegates to the convention at Hartland submitted reports, giving an interesting account of the work in progress and new lines being opened up. The question of appointing a successor to Mrs. J. W. Seymour to carry on the temperance work at the Seaman's Mission was taken up, but no appointment was made. Considerable routine business was transacted.

New Electric Light. A meeting of the commissioners of the Boys' Industrial Home was held last evening in the Mayor's office. A special committee was appointed to take up the matter of equipping the Institution with an electric lighting system and to interview the commissioners of the Municipal Home with the object of receiving their co-operation to have both institutions furnished with electric lighting. The matter of receiving a better water service was also considered, and a good deal of routine business was disposed of.

Ruling Affairs Local Union. Secretary Draper of the Trades and Labor Congress of Canada has ruled that delegates from local unions affiliated with the Canadian Federation of Labor, cannot be seated in Central Trades and Labor Councils. Mr. Draper makes definite charges to the effect that the Canadian Federation is controlled by the Manufacturers' Association and that it placed itself in league with strike breakers, both at Montreal and Winnipeg. This ruling will prevent the local painters and sheet metal makers' unions sending delegates to the Trades and Labor Council here, unless they sever their connection with the Canadian Federation.

500 SINGERS FOR TORREY MEETINGS

McEwan, Famous Scotch Musician Who Has Been Engaged as Leader, Asks for This Number.

At the meeting of the Torrey campaign committee at the Y. M. C. A. last night it was decided to get the Queens rink in readiness at once for the great meetings to be held in November.

Work on the platform for the man-moth choir will be commenced this week so as to have everything in readiness for the choir to begin practicing on Thursday night, the 13th.

Mr. McEwan, the famous Scotch singer, who is to direct the music at St. John, has sent instructions to have at least 300 and if possible 500 singers in the choir.

The musical committee will this week wait on the different city pastors and musical committees of the Sunday schools and the best trained musical talent in the city will be secured for this important part of the work.

It was decided to install a large number of extra lights and to put in a special heating plant. This will be done at once.

WATER SHORTAGE DUE TO WEAK DISTRIBUTION

Insufficient Supply from Little River Result of Pump Forcing Water Through Leaks in Bad Pipes.

The water was turned off No. 2 conduit yesterday and repairs were commenced from the inside of the big pipe. Quite a number of men were engaged in that work. The water was drawn off and the Silver Falls pump utilized to increase the pressure. This plan did not work very well and there were a number of complaints of water shortage from citizens. In the case of one of the city hotels it was found necessary to carry water from the lavatory on the ground floor to the kitchen as the supply did not rise that high.

Engineer Murdoch when asked last evening said there were a number of complaints. The fault is said the engineer, in the distribution pipes in the city. When the Little River service was used the pipes were able to stand the pressure but the extension to Loch Lomond proved too much for some of them and there is much leakage. The forcing of the water by means of the pump brought these defects out. While the city distribution system is not all bad there are a number of the pipes that require to be removed. This is being done as rapidly as possible and at the present time a large quantity of pipe is on hand. The older pipes are mostly on the lower levels.

The work on the conduit will occupy two or three days.

NEW FERRY BOAT IS OFFERED CITY

Description of the Newport Which Can be Purchased for \$30,000—Someone Going to New York.

The question of purchasing a new ferryboat which is now being fitted with fore and aft compound engines and draws seven feet of water. She has a guaranteed speed of twelve knots and is reported as a "good able boat and in first class condition." She can be purchased for about \$30,000 and at the price is regarded as a good investment.

It is likely that something will be done in the near future as the ferry superintendent feels that the city should have a second boat to relieve the Ludlow when necessary.

N. P. McLEOD MAY SUCCEED ALD. BAXTER

Popular Member of Firm of A. C. Smith & Co. Mentioned as Next Representative for Brooks Ward.

No date has yet been set for the swearing in of the new recorder but the city council will meet in a few days to receive the resignation of J. B. Baxter, K. C., an alderman for Brooks ward. Just what action will be taken as to the election of a successor to his seat is not known.

There is a sentiment among some of the aldermen that the ward should not be opened until the next general election, but on the other hand there is a strong feeling that this course would not be fair to the residents of the ward. In the event of a by-election Norman P. McLeod, of the firm of A. C. Smith and Co., Ltd. is mentioned as a candidate. When asked last evening if he would run Mr. McLeod replied in the affirmative.

There is as yet no talk of opposition to him. The name of ex-Alderman Baskin was mentioned, but it was said that he was not in the field and would not oppose Mr. McLeod.

M. R. A.'s Style Show of Fall and Winter Clothing. The last word in correct Fall and Winter Clothing for man and boy is featured in M. R. A.'s window displays on King and Germain streets, now ready for viewing. Five large windows are used to exhibit the finest cold weather clothes the season affords. Practically every prevailing style in garments for men and little men is represented, and a glance at the showing will at once impress how well prepared "The Big Store" is to look after the outfitting needs of those who are particular about their wearing apparel. Despite the fact that all the clothing is high grade and as stylish as can be made, prices are unusually reasonable. Don't fail when passing to study the many different models carefully. Step inside, if you will, and you are welcome to try on as often as you please.

Reception to New Pastor. There was a large attendance at the reception tendered to Rev. F. S. Porter and wife in the school room of the Germain street Baptist church last evening. A number of clergymen of other denominations were present, and speeches, songs, and musical selections helped to make the affair a pleasant one for all present.

RESIDENTS UNIT FOR BOULEVARD

Largely Signed Petition Asking for Widening of Germain Street Will be Presented to Council Today.

A petition signed by practically all the residents of Germain street, between Queen and Princess streets, will be presented to the special committee of the common council at noon today asking that the plan of boulevarding the street brought to the attention of the council by Walter Allison and Percy Thomson, be carried out. Before 8 o'clock last evening a large majority of the residents had signed the petition and not one of those approached in this connection had refused to sign.

Col. Sturdee stated last evening that the residents had taken enthusiastically to the idea of having grass plots on either side of the sidewalk and rows of shade trees along the street.

"Most of the residents in these two blocks," said Percy Thomson, "do not go to the country in the summer. Hence the idea of bringing a bit of the country to the street appeals strongly to them."

The Hasegan Company does not move as slowly as some other great bodies. By noon yesterday it had a force of men employed on Germain street removing the curb stones and getting ready to remove the sub-grade. The company will rush the work as rapidly as possible.

The work on the conduit will occupy two or three days.

INTERESTING REPORTS TO WOMEN'S AUXILIARY

Scenes in Campbellton and Life on the Tobique Subject of Speakers at Local Branch Meeting Yesterday.

The monthly Board meeting of the Women's Auxiliary of the Church of England was held in St. John's (Stone) church yesterday afternoon. Mrs. Thomas Walker presided, and there was a large attendance.

Mr. Buckland gave an interesting account of the mission work along the Tobique, where the people are farmers and lumbermen. He pointed out the needs of the people, and thanked the Women's Auxiliary for the assistance rendered to the mission work in this district.

Rev. R. J. Coleman, of Campbellton, gave a vivid description of the situation in the stricken town as it affects the people of his church.

Rev. R. E. Hiltz, secretary of the Sunday School Commission also delivered a brief address, requesting the co-operation of the auxiliary in various lines of Sunday school work.

Mrs. Pentreath, wife of Archdeacon Pentreath of the diocese of New Westminster, B. C., who was present, was invited to a seat on the platform.

MANY APPLY FOR VACANT POSITION

Seamen's Institute Board of Management Consider Applications for Managership in Succession to S.L. Gorbell

A meeting of the board of management of the Seaman's Institute was held last evening with R. M. Smith in the chair. A number of applications for the position of manager rendered vacant by the retirement of S. L. Gorbell, were considered, and several of the applicants appeared before the board and were examined as to their qualifications.

The board will give the matter further consideration before making an appointment.

Nearly all the members of the board were present and much interest was manifested in the question of selecting a manager qualified to carry on the work of the mission in a successful manner.

FRUIT GROWERS TO MEET IN ST. JOHN

Annual Convention and Fruit Exhibition of Provincial Association in St. Andrew's Rink Oct. 31-Nov. 3.

The sixth annual convention and fruit exhibition of the New Brunswick Fruit Growers' Association, will be held in the St. Andrew's rink on Oct. 31st and November 1, 2, and 3. Over 1000 plates of New Brunswick apples will be on exhibition and there will be demonstrations and addresses on all phases of fruit growing, by leading horticulturists of the Dominion.

A. G. Turney, provincial horticulturist, is secretary of the association and a postal card to him at Fredericton, will bring any required information. Every effort is being made to make the exhibition and convention the most successful fruit growing by leading horticulturists of the Dominion.
