APACHES ATTACK BIER OF PARIS MERCHANT

All Paris Took Holiday to Jeer at Pompous Funeral Procession.

POLICE CHARGE CROWD

PARIS, June 22.—Paris seized the occasion of the pompous funeral of M. Chancard, and made of it a holiday to jeer the merchant prince's memory.

The streets leading to the Madeleine church and the route of the cortege were thronged by a mob of Apaches, who hallooed and jeered at the pompous funeral.

In spite of the efforts of the police, the mob of Apaches, who hallooed and jeered at the pompous funeral, continued to throng the streets.

At a moment the crowd swept through the lines of police, jostling the mourners and pressing on the hearse.

A riotous tumult followed. Women fell fainting and were trampled upon.

The streets were filled with the cries of the mob, who were jeering at the pompous funeral.

The procession hurried on at a rapid pace, while the trouper and police charged right and left.

ENGINEER REPORTS ON COAL CREEK ACCIDENT

A. S. Donald, resident engineer of the Transcontinental Railway Company, on the Corbett-Fleisch contract, has just sent in his report of the accident on Saturday in which two men were killed and several hurt in the wreck of a supply train getting beyond the tracks.

In his report Mr. Donald does not attach blame to anyone. He says the tracks were in such a condition that the wheels of the engine did not take proper hold, and slipped thus causing the runaway.

In sickness, it is certain, hidden nerve goes wrong, then the organ that the nerve controls will also surely fail. It may be a stomach nerve, or it may have given strength and support to the heart or kidneys. It was Dr. Shoop that first pointed to this vital truth.

Dr. Shoop's Restorative was not made to do the stomach, liver and kidneys. The remarkable success of this prescription demonstrates the wisdom of treating the actual cause of these ills.

As it is a healthy tonic, it is a simple five or ten days' treatment will surely tell. Try it once, and see how it will benefit you.

ARE YOU DROWSY AFTER MEALS? Is there a fullness in your stomach, a drowsy, lazy desire to sleep, this isn't natural in healthy folks and only occurs when the liver is torpid. You need a stimulating tonic—need Dr. Hamilton's Pills to stir your liver, and put life into your organs. You'll feel brisk and lively—you'll eat, digest and sleep well after regulating with Dr. Hamilton's Pills. No medicine so universally used, so mild, so sure to benefit as Dr. Hamilton's Pills. WHAT THE BOY WROTE.

A young man once wrote to his father, saying, "I am well, only I don't feel like making any sort of physical exertion." Thousands of people feel exactly like that young man—and they are not lazy people, either. They are, generally, dyspeptics, with a first touch of indigestion; they need a short course of Mother Sigel's Syrup, to put their stomachs, liver and bowels into healthy activity, so that their food will nourish and strengthen them. Mr. George J. Henry, of Shippington, P.O., Gloucester Co., N.J., who suffered for years from indigestion, writes: "I became weak and almost unable to work. After trying many medicines without success I took several bottles of Mother Sigel's Syrup, and it gave me relief at once. I recommend it as much superior to all other medicines for stomach trouble."—Price 60 cents per bottle. Sold everywhere. A. J. Wake & Co., Ltd., Montreal.

FOOLISH RETALIATION

As indicated by recent despatches from Washington, the U. S. Senate's Committee on Finance would amend the tariff on wood-pulp so that pulp or paper imported into the Republic from any country, dependency, province or subdivision thereof, which imposes an export duty thereon shall be charged an extra import duty in the way of retaliation. This amendment is aimed solely at Canada, in which the province of Ontario has already prohibited the export of all unmanufactured wood-pulp out of crown lands and the densely wooded province of Quebec has announced her intention to follow Ontario's example. Should British Columbia and New Brunswick decide, as is most likely to soon occur, to do likewise, the United States and practically sole source of supply for foreign pulpwood will have been cut off, and that country compelled to take its paper materials from Canada in manufactured condition only.

Retaliation against Canada will not be wise, especially if it merely takes the form of increasing the customs duty on paper or manufactured pulp. The United States must have paper. And when their own very limited supply of pulpwood is exhausted, they must buy from others. And it is far cheaper for them to buy from Canada than cross the Atlantic to buy from Norway, Sweden and Russia, or go to South America for their supply. Any retaliatory duty on the Canadian product would not fall upon the Canadian exporters at all, but would be added to the selling price in the United States, thus coming entirely upon the buyer. Our Southern friends will soon tire of such a situation.

If the Americans wish to retaliate, a more sensible way to do so would be to put an export duty on some article of theirs we need, such as cotton. But even then, they could not hurt us much. As soon as the first shock of the disarrangement of business had passed off, we could easily get our cotton from British Africa or British India, and even our substitutes can also be got from the sub-tropical parts of the British Empire. So such retaliation would, in the end, merely serve to bind the parts of our own empire more closely together—a consummation devoutly to be wished. For trade within the Empire is what we need more urgently than any special arrangement with the United States. We doubt if the proposed amendment will pass the United States Senate. Our great neighbors have more need of us than we have of them. The best thing they can do is to quietly come and buy our paper. When we make up our minds not to sell them our unmanufactured logs.

The promptness shown by Hon. Mr. Graham, Minister of Railways and Canals, in requiring the damage done in the canal of Saint-Roch, Marie, has attracted the attention of an American newspaper, which compares the quickness and efficiency of authorities at Ottawa with the delays at Washington in similar circumstances. The Syracuse Post-Standard points out that last spring, when there was a major jam in the Niagara River, and tremendous damage threatened, an appeal was made to the authorities, and after the time was spent in Washington, a day or more was spent in the effort to determine which of the Federal Departments should attend to the matter. Then further valuable time was lost in discussing the question of government jurisdiction, and at last word was sent from Washington that there was no money available and nothing could be done. At last Governor Hughes, of New York, gave orders to throw out the ice gorge with dynamite. The Post-Standard says there is a tradition in the United States that Canadian authorities know that there is no more practical or business-like administration of public affairs in any country on earth than is consistently illustrated in the administration of the Dominion. That is right. Uncle Sam can learn a great deal from Canada respecting legislation and business-like administration of public affairs.

What nonsense it is to say that "Teddy" Roosevelt is in danger from the Mad Mullah. If anybody is in danger it is the Mad Mullah and he is the danger to the world.

Last year nearly a million cords of pulpwood went out of Quebec to the United States. Value, four and a half millions. There will be a different story a year hence—when the Gouin policy has been put into operation.

Mythomania is the latest term applied to the propensity of patients to lie to doctors. Just what the medical term is that describes the propensity of the physician to tell lies to the patient we have not learned as yet.

It is reported that 73,128,829 cubic yards of earth have been dug out of the Panama Canal, and that 101,541,746 remain to be excavated. At the present rate of progress the channel would be completed in three years, but no estimate is given of the time necessary to construct the dams, and locks.

The University of Alberta is to establish a course of municipal engineering. This is another instance in which the East may well learn from the West. In years gone by, the West has called for the best of our young men; the time may come when the East will be glad to secure the services of the expert graduates of Alberta.

A truly eloquent Kansas parson had been preaching for an hour or so on the immortality of the soul. "I looked at the mountains," he exclaimed, "and could not help thinking, beautiful as you are you will be destroyed, while my soul will not. I gaze upon the ocean and cried, Mighty as you are you will eventually dry up, but not I."

EDITOR TREATED LIKE A FELON IN PRISON

In Tattered Clothes, Behind Double Bars, and all for 'Contempt of Court.'

MONTREAL, June 17.—The Hon. P. Landry, senator of the Dominion, has been visiting Jules Poirier, editor of Le Nationalist, who is confined in the Quebec jail having been sentenced to three months for contempt of court. The senator says:

"I asked for the prisoner, and he appeared before me in a double iron rating which separates by four feet the assassins and the thieves from their relatives and their friends. In the light of prison cage, which one travels to reach the grating in question, an ordinary prisoner talks with the members of his family without any restraint whatever; but Poirier, guilty of a newspaper offence, is left without mercy behind a double grating in company with the worst prisoners who were also receiving a visit from several relatives."

"As three people only can sit in front of the grating, I was obliged to wait for the attention of the two other prisoners, as they were forced by the circumstances to interfere with mine, for the reason that the distance separating Poirier and myself was so great we had to converse in a very loud tone to be at all understood. Poirier was dressed in the ordinary prison garb, a sort of blue drilling, buttoned trousers, and a ten cent straw hat, all being worn to a fringe, having been used by several prisoners who had used the clothing before him. I remember some years ago when Mathurin, who had been condemned to death, was awaiting his execution, of having paid a visit to the miserable man. Mr. Bernatchez being governor of the jail. He personally brought me to the prisoner, whom I could see close at hand, and I also remember that he wore his own clothing. In comparing, therefore, the treatment inflicted upon Poirier and those who visit him with that accorded to Mathurin, it will be easily understood what sentiments such a visit produces, and if I do not give expression to my indignation here, it is because I do not want him to suffer for the indignation because of the prosecution to which he is made to suffer today."

He however, supports it all bravely convinced that he had right on his side when he denounced the administration of justice; he has no desire to lessen the value of his act in bowing before those who threatened him with imprisonment. He entered his cell holding his head high. He underwent the ignominious treatment of being made the victim of an insulting in-

People who are afflicted with kleptomania always feel that they should take something for it.

Somewhat a woman never seems to enjoy a good cry unless she has two or three reasons for starting the briny flow.

Youth is the springtime of hope, but when a man gets a little older he stops hoping and begins to reach out for anything he can get his hands on.

Yes, It Was True.
"Is it true that you threw something at Miss Chellis?" the squire inquired of a little woman.

"Yes, sir, I did," said the woman, catching her breath, "but I never meant to hurt her, and well she knows it. We'd just come home from my cousin's wedding, and I was feeling kinder soft to Miss Chellis, and I up and said him if he loved me as much as he did the day we was married, and—ah, yer answer, he was so slow an' werry me that I up and did the mop an' flung it at him! If we poor women don't have love our hearts just breaks inside us."

Origin of Geography.

The Phoenicians were the first people to communicate to other nations a knowledge of distant lands. It is now known that before the time of Homer that enterprising people had passed beyond the limit of the Mediterranean into the great western ocean, and it was by their sailors that the first rough charts of the world as then known were made. But geography as a science originated among the Greeks, its real father being Herodotus of Halicarnassus, about B. C. 484.

No Encouragement.

Mrs. Short—Oh, dear, I do wish we were rich! Just think of the good we could do if we only had lots of money!

Mr. Short—True, my dear, but we can do a great deal of good in a quiet way now. Mrs. Short—Yes, of course, but so one will ever hear of it.

His Excuse.

Diggs—You believe that whisky is good for a cold, don't you? Swiggs—Yes, but how did you know? Diggs—Oh, I've noticed that you nearly always have a cold.

Headache.

In all cases of headache the first thing to do is to relax the lower jaw and relieve the afflicted organs of the overfull blood vessels of the brain; and at the same time to restore tone to the system, re-establish the appetite, promote digestion and invigorate the entire body.

TOO MUCH WHISTLING

There is altogether too much whistling of trains, steamboats and mills during the early hours of the morning. Thursday morning at an early hour a tug on the river alarmed the water front by its blowing, many thinking it was an alarm of fire. Some steps should be taken to abate this nuisance as it is very annoying to those who are obliged to sleep after daylight.

Suffered More Than Tongue Can Tell From Liver Trouble.

A lazy, slow or torpid liver is a terrible affliction, as its influence permeates the whole system, causing Biliousness, Heartburn, Water Brash, Langour, Coated Tongue, Sick Headache, Yellow Eyes, Salty Complexion, etc. It holds back the bile, which is required to move the bowels, and lets it get into the blood instead, thus causing Constipation.
Milburn's Laxa-Liver Pills will regulate the flow of bile to act properly upon the bowels, and will tone, revivify and purify the liver. Mrs. J. C. Westberg, Swan River, Man., writes: "I have suffered from liver trouble. I tried several kinds of medicine, but could get no relief until I got Milburn's Laxa-Liver Pills. I cannot praise them too highly for what they have done for me."
Milburn's Laxa-Liver Pills are 25c. per box, or 5 for \$1.00, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE FOURNIER CASE

This paper reprinted a few days ago, a statement published by Hon. Mr. Landry, a Quebec senator, who gave some information to the public regarding the treatment of Mr. Fournier, an editor who is imprisoned in Montreal for contempt of court. It seems that Mr. Fournier would have been released if he had been a member of the House of Commons. On the other hand, the fact may be noted that while Sheriff Langelier's controversy with Mr. Fournier is subject to the rules of the institution, these rules were made fifty years ago. Judge Langelier, therefore, in committing Mr. Fournier to the care of Sheriff Langelier, who is in duty bound to subject his prisoner to the rules which were made fifty years ago, at a time when prison rules were much more harsh than are the rules which are made for the regulation of prisons in these modern days, has little regard for what may happen to the prisoner. Now we do not for a moment assume that Mr. Sheriff Langelier would have any objection to treat his prisoner more leniently than the prison rules provide. But in Mr. Fournier's case it is necessary to point out that this man is not only deprived of his liberty for three months, but is subject to very harsh treatment in jail under the rules of the prison, because he called attention to the laxest manner in which justice is administered in the province to which he belongs, and this is done not by a jury or even by a court properly speaking, but by the will of a single individual, a judge who seems to have felt himself personally aggrieved by the observations which Mr. Fournier made.

It takes a good neighbor to appreciate a neighbor who thinks he is better. The average man is not even a kind act than he begins to feel big over it.

"You say she said that I have a miserable complexion?"
Not in those exact words, but that was what she meant.
What were her exact words?
She said you know absolutely nothing about art—Houston Post.

"Edna—Have you heard of Jack's engagement to Eleanor?"
Harold—Dear me, no. Then Jack has finally succeeded?
Edna—No, succeeded—London Tatler.

Yes, said she, definitely admit that I kissed him.
Did he put up much of a struggle, inquired her best friend.

OBITUARY

Another of Restigouche's pioneer settlers has passed to his reward, in the person of John Cook, Esq., of Point la Pique.

The deceased gentleman was born in Isle of Arran and when three years of age his father and mother and three children came to P. la Pique, where with diligence and hard labor they made a home out of the woods. Twelve children in all were reared of whom Mr. Alexander and Miss Catherine and it is possible a brother in the west are all that survive. The deceased who was 83 years of age, was a very modest, helpful and quiet yet beautiful character and has made by his deceased a great blank in the family to whom their friends extend their kindest regards.
The funeral was held on Monday and was largely attended.

JUNE WEDDINGS NOW ORDER OF DAY

Many Young Couples Joined in Life's Journey—Campbellton Events

HANDSOME GOWNS.

At nine o'clock yesterday morning at the Church of Our Lady of Snows a very pretty wedding was performed by the Rev. E. P. Wallace, when Miss Edith M. McIntyre, third eldest daughter of Mr. and Mrs. John McIntyre of Campbellton, was united in marriage to Mr. Thomas H. Barry of the U. S. Railway Mail Service and a native of Boston, Mass. The bride wore an elegant gown of white satin and Irish point lace with a veil of embroidered net and carried a shower bouquet of white roses and lily of the valley. To the strains of Mendelssohn's wedding march played by Miss Annette Thibierge the bride entered the beautifully decorated church on the arm of her father who gave her away, while the groom was attended by Mr. Henry McIntyre of Campbellton. After the ceremony a sumptuous wedding breakfast was served at the home of the bride. The bride's travelling gown is a quite garment of catwalk ladies gown with hat to match. Saturday the couple will leave for Boston, Mass., and will reside in Dorchester, Mass. The bride was the recipient of a large number of elegant presents, which included a Steinway piano, the gift of the groom.

FERGUSON—FRASER

A very interesting event took place at the residence of the officiating clergyman, Rev. P. J. Stackhouse, B. D., on June 23rd, when Mr. William E. Ferguson of Flatlands was united in marriage to Miss Sadie B. Fraser, daughter of Mr. David Fraser of Moore Settlement, P. Q. The bride who was unattended, looked very charming in a gown of white tulle with hat to match. After the ceremony the couple drove to Moore Settlement, where a reception was held at the residence of the bride's parents. Many friends will wish congratulation to the newly married couple.

ENGLISH—FRASER

A quiet but pretty wedding took place at the home of Mr. Wm. Fraser, Prince William St., on Wednesday evening, when his eldest daughter Mary Elsie was married to Mr. Alfred Henry English of Lunenburg, N. S., but now of the W. E. Forbes Co. of this town. Rev. Dr. Carr was the officiating clergyman. The bride was charmingly attired in white silk, on Princess, with trimmings of Valenciennes lace. Miss Margaret Harper of Sackville, played the wedding march. The groom's gift to the bride was a gold watch and chain. Owing to the recent death of the

groom's mother, the wedding was very quiet, only the immediate friends being present.

Mr. and Mrs. King left this morning for the Maritime Provinces, and other Nova Scotia towns. The bride travelled in a suit of dark blue broadcloth, with hat to match. The best wishes of their many friends go with them.

KERMIT GETS THE BIGGEST LION

SAUVESHA, British East Africa, June 22—After comparative silence for over a fortnight, the first news of the Roosevelt expedition came into this city. The expedition, which is now in the hands of the British, has been reported to have killed a very large lion on the 10th inst. while a very large lioness was seen to have fallen before the rifle of his son Kermit. The animal holds the record for size on the present expedition.

ANOTHER QUEBEC EDITOR IN TROUBLE

QUEBEC, June 24—Another writ for contempt of court will be issued shortly from the Quebec Court House against a newspaper man, Mr. James P. Leves, chief editor of the *Quotidien*. Leves, wrote a humorous article on Fourrier's sentence, and the article was published with a cartoon in the *Poth* Quebec, a local humorous weekly.

GOOD SHIRTS!

Our soft shirts are a blessing on a hot day. Our choice selection of patterns—and the excellence of our shirt making is a great treat to the man who appreciates superior negligee shirts for summer.

Both our show windows are filled with handsome new shirtings. All the new novelties can be seen in our immense display.

We carry the largest stock of men's fine shirts in town, and you'll always find the new things here.
