Saving Sale vs. Bank

We make the above comparison regarding our great sensation sale. Because it means a good many dollars you can put away in the bank if you get your wants filled here. Your good dollars that you would have to spend elsewhere to the last cent, should you want to get the same value. Thousands have already benefited by the extraordinary offers. They have come from every corner of the town and suburbs, bringing home with them the best value their money could ever buy. DON'T DELAY—delays are dangerous—come at once. Come while the assortment is large. Do not wait until the best things are gone. The early caller gets the best choice always.
Here is a list that will give you an idea of these great bargains.

- Men's Tweed pants, regular \$1.75 selling out price, 98c.
- Men's Suits, all styles and patterns finest in line, regular \$10.00, selling out price \$4.98.
- Boys very fine suits in fancy worsteds and swell tweeds made upon the latest styles, regular \$5.50 and \$6.00, selling out price \$2.98.
- Men's fine shoes suitable for Sunday, regular \$3.00, sale price \$2.25.
- Ladies' fine tailor-made coats, positively worth \$11.00, sale price \$3.98.
- Ladies' ready-to-wear dress skirts in black, navy, gray and handsomely made, former prices \$3.00 to 4.00, sale price \$1.50 to \$3.00.

These prices talk for themselves. We do not think we need add much more than a cordial invitation to all to call.

DIED RECENTLY AT WINNIPEG

Wm. B. Fairey, Well Known
on North Shore
Passed Away

Mrs. J. A. Killam, matron of the Nurses' Home, received a telegram yesterday conveying the sad intelligence of the death of her brother, Mr. Benjamin Fairey, which occurred last Wednesday. Mr. Fairey was formerly a well known business man of New-Castle, and also resided at St. John for some years. In both St. John and the North Shore town Mr. Fairey was well known and highly esteemed. He removed to the Canadian west some years ago and at the time of his death was in business in Calgary. Deceased was about 55 or 56 years of age and is survived by a widow, one daughter and two sons. The sons are Walter and Ernest, both engaged in business in the city of Winnipeg.

Mr. Fairey was for a number of years stationed here, and many friends will regret to learn of his death.

MONCTON, Monday. — A lawyer from St. John was in the city today making enquiries concerning the publisher and editor of the Free Press, a weekly newspaper published here. It is said that his mission here is to lay the foundation for a criminal prosecution against the editor on a complaint laid by Geo. W. Fowler, M. P. The charge is for publishing a slanderous libel and circulating the same and which was of a defamatory nature.

The article complained of appeared in the Free Press on Saturday, Dec. 14th and was signed 'Sussex'. The Graphic correspondent asked C. Bruce MacDougall concerning the alleged libel proceeding, but MacDougall was indignant at being approached on the subject and sarcastically replied that he did not want to be mixed up in any dirty business with Fowler but he said, 'I can tell you this, that Free Speech will take nothing back. I have no control over the paper but I feel certain that a law suit with Mr. Fowler would prove a blessing in disguise, unless the Hazen government pack a jury for Fowler the Free Press is safe. Mr. MacDougall once edited the Restigouche Pioneer at Campbellton and he does not appear to be having any sleep or worrying over the alleged criminal proceedings.

HONEYMAKERS HONEST

OTTAWA, Monday. — A bulletin of the Inland Revenue Department just issued, shows that of 141 samples of honey from various parts of the Dominion, analyzed by the department, 135 were genuine, 3 were doubtful, 1 was sold as a compound, and only two were adulterated. The report shows that strained honey sold in Canada can nearly always be relied upon as being the genuine article.

SWORN II. JUDGE OF EXCHEQUER COURT.

Ottawa, Ont. Monday. Mr. Walter Cassels, K. C. of Toronto, this morning took the oath of office as Judge of the Exchequer Court in succession to the late Justice Burdick.

LONDON, Monday. — Mr. W. L. M. King is tomorrow to see Lord Strathcona an subsequent interview Lord Elgin and Winston Churchill. Interviewed, he said that Canadian feeling was anti-Oriental especially in British Columbia, if it is allowed to continue. The morning Post on the subject of Asiatic immigration says, 'If the national policy of Canada is brought into line with Australia's, the United Kingdom may eventually bring her own policy into harmony with that of the other British democracies.'

OTTAWA, Monday. — In the House this evening Blain moved an anti-cigarette resolution, demanding that the manufacture, importation and sale of cigarettes be prohibited in Canada. He stated that the consumption was growing, having been eighty-five millions in 1896, and 277,000,000 ten years later. The increase is still rapid. The only way of dealing with the evil was by Dominion act. Blain claimed that the youth of Canada were being physically, mentally and morally hurt by cigarettes. Provincial legislation had been tried without result. Motion was seconded by Elson of Middlesex.

NEW YORK, Monday. — Raymond Hitchcock today was acquitted by direction of Justice Blanchard in the Supreme Court of charges brought by several young girls after one of the girls had testified that the actor was untrue. Resumption of the trial of the comedian in the supreme court furnished sensation when Flora Whitson who had been called as corroborative witness completely refuted her testimony given before the grand jury. In reply to questions by Assistant District Attorney Garvan the girl declared that Hitchcock never had harmed her and that she had told the story to the grand jury as she had been directed to do so by the agent of the Children's Society. It was partly upon the testimony of Flora Whitson that the grand jury's indictment against Hitchcock was based.

BATHURST

BATHURST, Monday. — Continued soft weather has taken away the snow very rapidly. A few are using wagons around town.

There is no school for the children of the upper grades of the Grammar school today on account of the absence of Principal Dixon.

The death of Mrs. Margaret Bell, relict of the late Wm. Bell occurred last night at Rose Hill. Deceased is survived by three sons, Robert and John of Chatham, and Richard of Rose Hill. The funeral will be held on Wednesday.

A large number of strangers spent Sunday in town. E. W. Seely, R. A. Chapman, Moncton; Wm. L. Carter, Richibucto; J. A. Levesque, Quebec; J. R. Sharpe, Truro; F. T. B. Young, were at the Robertson House, and W. H. S. Cox, R. Johnson, Moncton; Jas. Duncanson, J. E. Millette, H. W. Palmer, Allan Parsons, R. Gallagher, Montreal; L. W. Bailey, Fredericton at the White House.

OTTAWA, March 13.—The Ottawa Free Press this afternoon prints under the heading 'A Groundless Fear,' the following as its leading editorial comment on an interview with His Excellency's secretary, Col. Hanbury Williams, which appears on its first page:—

A despatch from Quebec states that there is much discussion in that city over reports from Ottawa that the military authorities propose a representation of the battle of the Plains of Abraham during the Champlain celebration next summer. The Free Press is pleased to be able to assert that there is no warrant for the distrust or the excitement. It would be absurd to suppose that His Excellency would give assent to any incident likely to hurt the feelings of French-Canadian people. Earl Grey has ever aimed at a united Canada and he has shown a warm personal sympathy for the descendants of the founders of Quebec.

'But if any further assurance were needed that the fears were groundless it is to be found in the fact that the arrangements for the celebration are in the hands of a committee made up of both English and French-Canadians.

It is unfortunate that such a rumor as this should have been given publicity. The Champlain Centennial celebration is one in which every true Canadian can heartily participate and in the Government plan to preserve the Plains of Abraham, Canadians as a whole are given an opportunity to honor two great generals, one French, one English, of whom they are very proud. The Free Press today prints an interview with Colonel Hanbury Williams, the Governor-General's secretary which should alter any feeling of distrust, and it is probable that His Excellency will himself take an early opportunity of emphasizing his position in this matter.

ARRESTED SHAH'S BROTHER

Said To Have Had Part in Recent Bomb Outrage.

TEHRAN, Monday.—Salar Dowleh the Shah's rebellious brother who was pardoned at the time of the Kourban Bazaar, was again placed under arrest today. Letters which he sent to his father-in-law, Louisian, were intercepted and proved his intention of escaping from Teheran and again beginning a rebellion.

It is rumored here that Salar Dowleh took part in the recent bomb outrage when an attempt was made to assassinate the shah.

PRINCE RUPERT HAS 1000.

Japanese Murdered by Fellow Country Man.

VANCOUVER, Monday.—Including the men now employed on the land reclamation work there are now about a thousand people in Prince Rupert. On Saturday nights and Sunday when men come in from the woods, the town is quite congested.

A Japanese murdered a countryman last Saturday at Swans Bay, three hundred miles up the coast. The murderer escaped in a fishing boat, which he stole from the waterfront and has not since been heard of. The victim was disemboweled.

Application will be made tomorrow for habeas corpus for the eighteen Hindus recently convicted under the Natal Act and sentenced to fines of \$500 each. Failing this the Hindus will appeal for executive clemency of the Dominion Government. They declare it is a shame that as loyal Britishers who fought under Lord Roberts in South Africa they are subjected to fines or years of imprisonment because of imperfect knowledge of the English language.

FOUR HUNDRED SLAIN.

Sixty of the Mullah's Soldiers Also Killed in the Engagements.

ROME, Monday.—News has been received to the effect that a local tribe, helped by soldiers of the Mullah, attacked another tribe under the protection of Italy and killed thirty of their opponents. They then drove off a quantity of cattle.

Some groups were sent in to the disturbed section to punish the raiders. In this city they were successful, for in one engagement they killed four hundred of the tribesmen and sixty of the Mullah's soldiers. The Italians had one man killed and two wounded.

TO DEVELOP IRON DEPOSITS

Miramichi Company Has
Been Formed With
Large Capital

Messrs. James Robinson, Millerton; John Ferguson and W. E. Fish, Newcastle, and F. M. Tweedle and R. A. Lawlor, Chatham, are seeking incorporation as the New Brunswick Iron Mines Company, Ltd., with a capital of \$49,500. Newcastle is to be the chief place of business and the company are seeking power to engage in mining, etc., in all parts of the province.

While this company has power to engage in mining in all parts of the province it is generally understood on the Miramichi that it has been organized to develop deposits of rich iron ore on the Northwest Miramichi. For a number of years Mr. John Ferguson, of Newcastle, has been endeavoring to bring this valuable property to the attention of capitalists. The opening of the Gloucester mine, which adjoins the property held by the new company has at last turned the eyes of those interested in the direction of the North Shore and before long all these properties will be developed on a large scale.

Those interested in the new company are confident that they have a property which is just as rich in mineral and as valuable as the Gloucester mine, which is being developed.

WASHINGTON, Monday.—Secretary of the United States Navy Metcalf announced the future movements of the fleet after a cabinet meeting Friday. It will leave San Francisco on July 6 for 'our Pacific possessions' as Mr. Metcalf styled it. The vessels will first touch at Hawaii for coal. After that they will go to Samoa, thence to Australia, where they will stop at Melbourne and Sydney. After leaving Australia the vessels are to go to Manila and while in the Philippines the annual fall target practice will be held. Thence the return will be made to the United States by way of the Suez.

BRITISH WARSHIPS SENT TO HAVAT

LONDON, MARCH 16th. The admiralty this morning sent orders by cable to the British Cruisers Indefatigable and Crescent, which are both in West Indian waters to proceed forthwith to Havat for the 'protection of British interests.

THREE WERE KILLED.

TWEED, Ont., Tuesday. — Three C. P. R. section men named Anderson, Fiddling and Woodcock were instantly killed this afternoon by a light engine striking the hand car. They were coming round a curve near Kaledah, a few miles from here. All were married and leave families.

FINE DOLLARS FOR VIOLATING GAME LAW

CHATHAM, N. B., Monday.—John W. Macnaughton councillor for Glenelg, Northumberland county, was this morning fined \$50 and costs by Magistrate Connor for killing a bull moose out of season. The shooting occurred on Jan. 2nd, and John W. Robinson, game warden, who laid the information, was six weeks in the defendant's trail. He finally secured the evidence that convicted him. Councillor Macnaughton pleaded guilty and paid the fine.

ST. JOHN, Monday.—The provincial government will meet in this city tomorrow morning and will endeavor to finish its business by Wednesday night. Its resignation is expected on Thursday.

His Honor the Lieutenant Governor on Saturday had a short conference with J. D. Hazen relative to the coming in of the new government. Mr. Hazen last evening would say nothing concerning the matter.

Saturday afternoon's session of the government, which was held in Fredericton, was devoted to routine business. There is a great deal to be done before the present government will be able to hand over the business of the province to Mr. Hazen.

It is thought, however, that the business will not run over into Thursday.

His Honor Lieutenant Governor Tweedle came from Fredericton Saturday night. He will remain here until after the resignation of Premier Robinson.

BLACK CAPE

BLACK CAPES, Monday. — The W. F. M. S. held their monthly meeting at the home of Mrs. J. C. Fair on Saturday afternoon.

The many friends of Miss Janet Burton are sorry to learn that she is still confined to her room with an attack of pleurisy.

Mr. J. A. Burton of New Richmond was in our vicinity on Wednesday on business.

The bridge over the Little Cascapedia is undergoing repairs by the careful superintending of Mr. James Henderson of New Richmond.

There are several of our young men down the coast working on the Atlantic, Quebec & Western railway construction.

The Cascapedia Lumber Co. closed down their camp No. 6 last week which has been in charge of Mr. R. D. Willet of Caplin River. They have still three camps in operation.

Sunday was a most beautiful day and judging by the appearances we will have an early spring.

The welcome snow storm which put in its appearance on Saturday has greatly improved the roads which were very much needed as the roads were in a very dangerous condition.

HALIFAX, Monday.—Recently B. E. Walker, president of the Canadian Bank of Commerce, delivered an address before the Canadian Club of Halifax. Through the title runs, 'Canadian Credit and Enterprise,' the theme is really the question, 'Why do we in Canada Enjoy High Credit?' In the course of his remarks he severely criticized the attitude and influence of the press in affecting the credit of a country. It is plain he says, 'that our credit as borrowers rests upon the opinion held regarding us by the lender.'

And this lender or investor in our securities is in the main advised by his banker, his broker or his lawyer.

Influence of Press

'All of these are greatly influenced by the press.... If then any country is supposed to be filled with agitators who are opposed to capitalists and to corporations generally, and if the politicians in such a country are supposed to be listening to the ground swell from the newspapers and are ready to do what such newspapers recommend, whether the integrity of contract is violated or not, it is not likely that such a country will obtain capital as against those countries which maintain the sacredness of contract and which do not exhibit hatred or corporate wealth.'

Basis of Canada's Credit

With this introduction, Mr. Walker turns to his theme. Why do we in Canada Enjoy High Credit? but he proceeds very little way until he again takes a crack at the press. However, the basis of Canada's credit, he alleges are, first and chiefly, the enormous material resources of the country, secondly, the agricultural and pastoral foundation of our industrial life, and the fact that Canadians as a rule 'live simply, hate public and private debt, and are not easily moved by social vagaries'; thirdly, that in all departments of life, Canadians have the instinct of social organization, and love law and order. And so 'with such natural resources, such respect for law and order, such economy and such intelligent energy, our credit slowly rose to the highest point enjoyed by any part of the empire, except Great Britain.'

Mr. Walker then steps away from his primary theme to his secondary inspiration—the influence of the press. He says: 'But if we desire to maintain the splendid credit we now enjoy, and if we reflect on the quantity of new capital we shall require year after year as we build up our country, then it behooves every good citizen to see that this incontinent hatred of success which is being encouraged every day by hundreds of inexperienced writers in our daily press be stopped, otherwise we must certainly suffer severely in credit.'

Journalists' Rancors

Mr. Walker met with a surprise at Halifax, when the press of that ancient and austere city by the sea, in his view, is evidently very proper and ladylike. But elsewhere, he says, the 'tone of certain papers has been so full of violence in advocating what would practically be confiscation, so full of levity regarding the binding nature of contracts, and so utterly regardless of truth in making statements of what purport to be facts, that it is indeed fortunate that our politicians do not often yield to the temptation to do wrong.'

SOVEREIGN BANK SHAREHOLDERS MEET.

Ratified Deed of Indenture Transferring Entire Assets to Chartered Banks.

Toronto, Ont. Monday. The share of the Sovereign Bank at a general meeting today ratified the deed of indenture by which the entire assets and business of the Bank were transferred to thirteen of the chartered Banks of Canada, headed by the Bank of Montreal and Canadian Bank of Commerce. A resolution was passed appointing a committee of shareholders composed of Wm. Wallace, Toronto; A. T. MacLaren, Stratford and Senator Baird, of Perth, N.B., who confer with the present management and trustees of the Bank and report back to the shareholders at the annual meeting in June.

The resolution asking for Government investigation was moved and seconded, but was not put to the meeting.

FOR THE PLAINS OF ABRAHAM.

The founding of Quebec, three hundred years ago by Samuel de Champlain, is a fact the significance of which is only now being fully realized, observes the Toronto Globe.

It would be a piece of gross historic neglect if the third anniversary of the founding of Quebec were allowed to go unnoted and uncelebrated. It will be said that arrangements for the occasion should have begun earlier.

The redness of the beginning will, we must be sure, be an incentive to energetic action for the executive which have been appointed to carry out the celebration. Two supreme points have already been settled. The Prince of Wales will be in Quebec as the representative of the Crown, and a noble fleet of British flagships will bear him across the Atlantic and will be distributed on the bottom of the most majestic of imperial streams which early navigators with true vision called the River of Canada, the unrivaled St. Lawrence.

The third condition has yet to be assured. His Excellency, Earl Grey, in his speech at the dinner of the Press Association, expressed the hope that during the tercentenary celebration it would be possible to hand over to the public the title deeds of the Plains of Abraham, an arena sacred in the annals of the two leading races of the Dominion. A large sum of money is needed for this purpose. It is eminently a national purpose, towards which it is hoped that Parliament, Legislatures and even the municipal bodies will contribute their quotas. His Excellency, however, is evidently particularly anxious that there should also be a popular subscription, especially a widespread subscription by Canadian school children, thus enlisting for the scheme the endorsement and support of the generation which will shortly be in the midst of affairs. In the city of Montreal, Mr. L. J. Paré, editor and proprietor of La Patrie, has devised plans for receiving the contributions of the French Canadian school children in his district, and the carrying of it out will involve a trip for a certain number of the children to the capital of their country. It may be hoped that a similar movement will be set on foot in this province, the school children of Ontario should be given the opportunity of contributing their mites to this fine national object. And when we say mite, we mean it in its almost literal acceptance. No child should be deterred from enjoying the proud boast that it had made its contribution towards the saving from profanation of one of the most cherished of the places which Canadians agree to hold in perpetual memory. While speaking of what may be done by the people of Ontario, it may be fitting to express the belief that Mr. Whitney would find the whole Province behind him in making a handsome grant from the revenues of the Province toward the purpose. A word is necessary should such a grant be made. It ought not to interfere with the school children's tribute or any fund that the Canadian Clubs may raise among the adults.

A SOLEMN VIEW.

A Baptist clergyman, Rev. John A. Earl, in Chicago, said in a recent sermon that nearly all players were bad; that not one play was moral; that there was no art in the theatre except the art of making money, and he admonished his congregation to remember: "Every time you buy a ticket for a theatre, that ticket is printed in blood and stained with the tears of ruined women." That minister should take some good spring medicine—some thing good for his liver.

A RATIONAL BILL.

A bill before the Ontario legislature which is likely to become law, limits the number of days during which the horse racing may be conducted in any one place to sixteen days a year. This will prevent all-season racing at any point. Another important provision is that racing meets shall be taxed a substantial percentage of their gross receipts as is done in New York. The money so received is to be handed over to the Minister of Agriculture and used to improve the breeding of horses. The bill means the closing of Fort Erie as a racing resort.

FANCY VISITING CARDS.

We may have the old fashioned fancy and illuminated visiting cards back again. In Leipzig the Royal Academy offers prizes of the best examples of illustrated visiting cards. Moritz von Weitenhiller, a noted Austrian artist in a paper read before the select art society, said that the illustrated card was not a new idea, but simply the revival of an old one. He showed many specimens of oldtime cards from his own collection and from that of Privy Councillor von Heffen and expressed the hope that the artistic card might find favor everywhere, not only because it would be a benefit to the artists and artists who are ready to design and execute the new style, but because it would break a monotony which considering our artistic tastes, it seems strange should have been endured so long.

AN UNIQUE RECORD.

When Hon. C. R. Devlin took his seat in the Legislative Assembly of Quebec at the opening of its session a day or two ago, he made an unique record in the history of Parliament.

He had within two years been elected at three elections and had taken his seat for the third time during the session of Parliament to which he had been elected.

The first of these elections took place in the Parliament of Great Britain and Ireland, when he was presented as member for Galway, by Mr. P. O'Brien, M. P., for Kilkenny and by Captain Donaldson, M. P., for Cork. The second was last year, after his election to the Canadian House of Commons for Nicolet, he was introduced by Sir Wilfrid Laurier and Hon. Rodolphe Lemieux; and the third came when he took his seat in the Legislative Assembly of Quebec as member for Nicolet and Montserrat.

He was chaperoned by Hon. Lomer Gouin and Hon. Adélard Turgeon. But these are not Mr. Devlin's only claims to hold Parliamentary records. Although still only a young man, he has won six elections and taken his place six times in the various Parliaments. The first was in the Canadian House of Commons as M. P. for the county of Ottawa in 1891; the second as M. P. for Wright at Ottawa in 1896; the third again as member for Galway at Westminster in 1903; the fourth at Westminster in 1905, the fifth at Ottawa as M. P. for Nicolet in 1907; and the sixth at Quebec as M. P. P. for Nicolet in 1908. If there is any other Parliamentary record in the British Empire with a similar record, we should like to hear of him.

This woman says Lydia E. Pinkham's Vegetable Compound cured her. Write her letter.

Mrs. J. A. Laliberté, of 34 Artillerie St., Quebec, writes to Mrs. Pinkham: "For six years I have been doctoring for female weakness, heart and nerves, liver and kidney trouble, but in Lydia E. Pinkham's Vegetable Compound I can safely say I have found a cure."

"I was continually bothered with the most distressing backaches, headaches, and bearing-down pains, and I kept growing more and more nervous."

"Lydia E. Pinkham's Vegetable Compound relieved me of all these distressing symptoms and made me a well woman. I would advise all suffering women, young or old, to use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, nervousness, prostration, etc. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address: Lynn, Mass.

YORK COUNTY LOAN AFFAIRS.

Liquidator Will Soon Be Able to Distribute Amounts to Stockholders.

TORONTO, Thursday.—Argument in connection with the liquidation of the York County Loan and Savings Company has been completed before official referee Kappela. That officer of the court has now to give judgment as to four classes of claims, at which the liquidator will be able to take the final steps towards distributing among the shareholders the amounts to which they are entitled according to the judgments.

Tickling or dry Coughs will quickly loosen when using Dr. Shoop's Cough Cure. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub give the curative properties to Dr. Shoop's Cough Cure.

It calms the inflamed and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Take no other.

A. McG. McDonald.

INDIANAPOLIS, Thursday.—The National convention of the United Mine Workers of America met today in Tomlinson Hall to agree upon course of action because of the failure of the operators and miners of the Central competitive field to agree upon a joint wage conference to fix a scale in place of the present one which expires April 1st. The wage scale for the various bituminous fields of the United States and Canada are based upon the scale fixed in the Central competitive field, consisting of Illinois, Indiana, Ohio and Western Pennsylvania.

It is thought probable that President Mitchell will advocate the adoption of one of the first two policies, expecting by pursuing that course to induce some of the operators to sign a scale and put their mines into operation which the miners believe would force the others to do likewise.

There is a disposition on the part of some of the coal operators to stimulate coal market prices in this manner or by the threat of bringing on such a strike, said Mr. Mitchell.

It looks now as though there would be a full suspension of mining in these great bituminous fields on April 1st.

\$100,000 paid by Dr. Shoop for any recent case of grippe or acute cold that a 25 cent box of Preventives will not break. How is this for an offer? The Doctor's supreme confidence in these Little Candy Cold Tablets—Preventives—certainly compares its \$100,000 against 25 cents—pretty big odds.

And Preventives, remember, contain no quinine, no laxative, nothing harsh nor sickening. Pneumonia will never appear if early colds were always looked after. Safe and sure for feverish children. 48 Preventives 25c.

FOR THE PLAINS OF ABRAHAM.

The founding of Quebec, three hundred years ago by Samuel de Champlain, is a fact the significance of which is only now being fully realized, observes the Toronto Globe.

It would be a piece of gross historic neglect if the third anniversary of the founding of Quebec were allowed to go unnoted and uncelebrated. It will be said that arrangements for the occasion should have begun earlier.

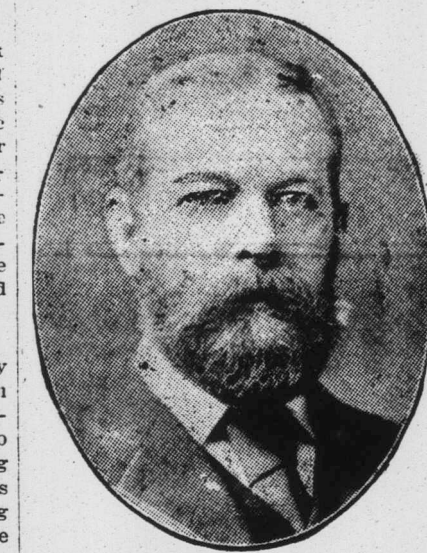

The redness of the beginning will, we must be sure, be an incentive to energetic action for the executive which have been appointed to carry out the celebration. Two supreme points have already been settled. The Prince of Wales will be in Quebec as the representative of the Crown, and a noble fleet of British flagships will bear him across the Atlantic and will be distributed on the bottom of the most majestic of imperial streams which early navigators with true vision called the River of Canada, the unrivaled St. Lawrence.

The third condition has yet to be assured. His Excellency, Earl Grey, in his speech at the dinner of the Press Association, expressed the hope that during the tercentenary celebration it would be possible to hand over to the public the title deeds of the Plains of Abraham, an arena sacred in the annals of the two leading races of the Dominion. A large sum of money is needed for this purpose. It is eminently a national purpose, towards which it is hoped that Parliament, Legislatures and even the municipal bodies will contribute their quotas. His Excellency, however, is evidently particularly anxious that there should also be a popular subscription, especially a widespread subscription by Canadian school children, thus enlisting for the scheme the endorsement and support of the generation which will shortly be in the midst of affairs. In the city of Montreal, Mr. L. J. Paré, editor and proprietor of La Patrie, has devised plans for receiving the contributions of the French Canadian school children in his district, and the carrying of it out will involve a trip for a certain number of the children to the capital of their country. It may be hoped that a similar movement will be set on foot in this province, the school children of Ontario should be given the opportunity of contributing their mites to this fine national object. And when we say mite, we mean it in its almost literal acceptance. No child should be deterred from enjoying the proud boast that it had made its contribution towards the saving from profanation of one of the most cherished of the places which Canadians agree to hold in perpetual memory. While speaking of what may be done by the people of Ontario, it may be fitting to express the belief that Mr. Whitney would find the whole Province behind him in making a handsome grant from the revenues of the Province toward the purpose. A word is necessary should such a grant be made. It ought not to interfere with the school children's tribute or any fund that the Canadian Clubs may raise among the adults.

MONTREAL, Thursday.

At the opening of the session of the ninth

HON. SYDNEY FISHER.

annual meeting of the Canadian Forestry Association held this morning in the Board of Trade building here, addresses were given by Mr. Bruchesi, Archbishop of Montreal, Hon. Sydney Fisher, minister of agriculture and Mr. H. M. Price, assistant forester of the Forestry Bureau of the United States.

Mr. Bruchesi said that he recognized the danger of Canada losing her forest reserves through indiscriminate and unscientific cutting of trees, and he and his clergy would do all in their power to assist in the reforestation of the country. At the Trappist fathers monastery at Oka 60,000 trees had recently been planted.

Hon. Mr. Fisher warned the Association that if measures were not promptly taken the entire country would presently be denuded of its trees. He announced that the Dominion government intend to make inalienable forests along the Eastern slope of the Rocky Mountains. The Association has now 1282 members.

"FRUIT-A-TIVES" SAVED HIS LIFE

Mr. Dingwall was Superintendent of St. Andrews Sunday School in Williams town for nine years and License Commissioner for Glenora—and Tax Collector for Charlottenburg—for fourteen years continuously. Read how strongly Mr. Dingwall comes out in favor of "Fruit-a-tives."

WILLIAMSTOWN, Ont., April 5th, 1907.

I have much pleasure in testifying to the almost marvelous benefit I have derived from taking "Fruit-a-tives." I was a life long sufferer from Chronic Constipation and the only medicine I ever secured to do me any real good was "Fruit-a-tives." This medicine cured me when everything else failed. Also, last spring, I had a severe attack of bladder trouble with kidney trouble, and "Fruit-a-tives" cured these complaints for me, when the physician attending me had practically given me up. I am now over eighty years of age and I can strongly recommend "Fruit-a-tives" for Chronic Constipation and bladder and kidney trouble. This medicine is mild like fruit, is easy to take, but most effective in action.

We do not claim that it will cure Con-
sumption in the advanced stages, but it
taken in time it will prevent it reaching
that stage, and will give the greatest relief
to the poor sufferer from this terrible
malady.

Be careful when purchasing to see that
you get the genuine Dr. Wood's Norway

Dr. Bernier of Matapedia and Dr.
Donner of Montreal were in town
last evening.

Dr. Bernier who is the assistant
inspector for the provincial board of
health of the province of Quebec
came to Matapedia a few days ago to
endeavor to check the epidemic of
smallpox in that neighborhood.

Dr. Beaudry, the chief in-
spector for the province of Quebec
will arrive Saturday morning and will
adopt drastic measures in an effort
to stamp out the disease.

Dr. Beaudry has been a spectator of
hygiene for twenty-four years and is
known as one of the most experienced
men in Canada, in the treatment of
smallpox. If Montreal desires an ex-
pert to settle the differences of opin-
ion existing among the physicians as to
whether or not smallpox exists there
no doubt Dr. Beaudry would go down
with pleasure and Montreal could
not obtain a better man.

Dr. Beaudry gave Campbellton
much valuable help when smallpox
was prevalent here in 1900.

Wm. Sprout is preparing to rebuild
his Royal Hotel and has commissioned
Mr. H. H. Mott of St. John, ar-
chitect, to prepare plans. The new
hotel will be one of the most modern
and up-to-date in the Maritime
Provinces, and will be a valuable ad-
dition to the commercial and tourist
equipment at Campbellton. Mr.
Sprout plans a building of brick on a
stone foundation, four stories high and
with a frontage of 165 feet.

The ground floor will contain the of-
fice and reception, kitchen, pantries,
room, dining room, kitchen, pantries,
etc., also a ladies' waiting room, bar-
ber shop and a few guests' rooms.

On the second floor will be the ladies'
parlour, gentlemen's reception room
and guest chambers, while the third
and fourth floors will be devoted en-
tirely to chambers. All rooms will
be connected, so that they can be
used either in suites or separately,
and as the rooms in the back will
be desirable as those in the front of
the house.

The basement will con-
tain the laundry, billiard room, vege-
table cellar, etc.

In connection with the ground floor
will be some six or eight fine sample
rooms, and a fine billiard room, and
throughout with steam and it is
Mr. Sprout's intention to make it one
of the most comfortable and conven-
ient of modern hostleries, a credit
like to himself and to the town of
Campbellton.

What might have been a serious
accident occurred yesterday afternoon
when the three year old daughter of
A. Myers was run over by a horse
on King Street. The child was
crossing the street and was struck
by the fore leg of the animal and
knocked down. Her head was struck
on by the hind foot of the horse,
inflicting an ugly wound on the skull.
Felix Frenette witnessed the acci-
dent and ran to the scene, picking
the child up and carrying her to Dr.
McNichol's office where medical aid was
given.

Luckily the horse was not going
very fast and the result might have
been fatal. Parents should take a
lesson from this and keep small chil-
dren off the streets.

The season's lumber operations are
about done now. Many men are al-
ready out of the woods and in all
probability another week will see them

SAN FRANCISCO, Thursday. —
Machine guns operated by the govern-
ment forces of Chile in a great con-
flict with strikers at the Nitra beds
and in the city of Iquique laid 2500
men low, most of whom were killed,
according to advices received yester-
day by the Norwegian steamer Christ-
ian Borge, which arrived today direct
from Chile. Business at Iquique
which had never before been scarcely
disturbed by anything but earth-
quakes was paralyzed when the great
army of workers went on a strike.
One fracas after another occurred un-
til soldiers and strikers met in the
streets of Iquique and on the outskirts
and openly defied each other. Being
ordered to disperse the army of men
the soldiers opened fire. The men
had little opportunity to fight back
even though they had been armed for
the assault was so sudden. This took
place on January 1st and a week later,
it was thought by common agree-
ment, the strikers went back to work
without the expected advance in
wages. It was reported that the
mine owners will voluntarily increase
the pay of their employees.

LONDON, Thursday. — Arshag At-
amian, on trial at Liverpool with other
on the charge of conspiring to de-
fraud emigrants, when questioned re-
ferring the correspondence found in
his possession, said he knew Dr. Hugh

ifax. The judge remarked that it
was strange that Atamian did not
know Dods, when Dods asked him

Do Not Crowd the Season.
The first warm days of spring bring
with them a desire to get out and en-
joy the exhilarating air and sunshine.
Children that have been housed all
winter are brought out and you won-
der where they all came from. The
early winter clothing is thrown aside
and many shed their flannels. Then
a cold wave comes and people say
that grip is epidemic. Colds at this
season are even more dangerous than
mid-winter, as there is much more
danger of pneumonia. Take Cham-
berlain's Cough Remedy, however, and
you will have nothing to fear. It al-
ways cures, and we have never known
a cold to result in pneumonia when it
is used. It is pleasant and safe to
take. Children like it. For sale by
all druggists.

ST. JOHN, N. B., Thursday. — Con-
sequent upon a reduction of ten per
cent in the wages the men employed
at the lumber mills of A. Cushing &
Sons at Union Point, and at Stetson
& Co.'s mill at Indiantown, have an-
nounced their intention of going on
strike. Several hundred men are af-
fected. Stetson & Co.'s men will
go out on Saturday unless the man-
agement give them the old rate of
wages.

**Chamberlain's Cough Remedy is Both
Agreeable and Effective**
Chamberlain's Cough Remedy has
no superior for coughs, colds and croup,
and the fact that it is pleasant to
take and contains nothing in any way
injurious has made it a favorite with
mothers. Mr. W. S. Polham, a mer-
chant of Kicksbury, Iowa, says: "For
more than twenty years Chamberlain's
Cough Remedy has been my leading
remedy for all throat troubles. It is
especially successful in cases of croup.
Children like it and my customers
who have used it will not take any
other." For sale by all druggists.

**GEO. G. MACKENZIE'S
SPLENDID STORE**

(From Saturday's Graphic.)
Elaborate alterations have just been
completed in the store of George G.
McKenzie & Co., making it one of
the most up to date emporiums of
its kind in the Maritime Provinces and
a credit alike to the firm and to the
town of Campbellton.

The alterations are at once notice-
able to one familiar with the former
layout of the store. In the first place
the main store, or dry goods depart-
ment is much brighter than former-
ly. The office which was in about the
centre of the department has been re-
moved and a large skylight above the
former location of the office now
throws a great volume of light to all
parts of the store.

The new office has been made much
larger than the old one on account of
the firm's rapidly increasing business.
A splendid assortment of wash goods
greet you on the right as you enter
the main store. It extends nearly half
of the entire length of the store and is
replete with choice muslins, blouses,
etc.

Next in order is the ladies' boot and
shoe department. Here is to be found
high and medium class goods of every
thing in the footwear line at the most
reasonable prices. This department
contains a fitting room neatly furnis-
hed.

First on the left as you enter is
the smallware department, including
gloves, ribbons, hosiery. Following this
is the firm's large and attractive dress
goods department, containing cloths,
silks, trimmings, etc. Next in order
is the staple goods department.
The new arrangement of the different
departments makes buying much
easier for the firm's hundreds of cus-
tomers, for it enables the staff of
clerks to serve with greater alacrity.
There are three large departments
on the second floor, viz., furniture,
carpets, and ladies' ready to wear.

The first thing which strikes the
eye on entering the carpet department
is the large display of squares. These
are to be found principally in wiltons
and velvets and the designs and color
effects of most of them are very
pretty. There is also here a splendid
stock of carpets, oilcloths, Japanese
mattings, lace curtains, etc., at the
lowest possible prices. The firm is car-
rying a high grade of goods in
the department than ever before
and an inspection of their goods
would repay any housekeeper.

The furniture department contains
some of the prettiest yet most sub-
stantial sets ever seen in Campbell-
ton.

In the ready-to-wear department
ladies have chosen a whole costume
or a separate skirt or coat, all ar-
ranged at greatly reduced prices.
These have all been placed together
along with odds and ends which must
be kept apart from the new spring
goods, on the second floor where they
may be had at greatly reduced prices.
It is the intention of the firm to de-
voted to all times a section of their
store to bargain sales where remnants
and broken lines will be placed and
can be bought for little money.

The men's haberdashery and boot
and shoe department now occupies the
entire first half of the store formerly
devoted to groceries. The new stock
has been fitted with silent salesmen,
attractive showcases, etc.

The first shipment of spring goods
such as shirts, collars, and boots and
shoes, have arrived and are as choice
as any ever imported into Campbellton.
The firm is handling a far more
extensive line of men's goods than
ever before and it is their intention
to cater to the best as well as the
medium class trade. They did a large
business in men's goods in the past,
but it is their aim to do a larger one
now.

The grocery department is divided
from the men's furnishings by an arch.
A full line of staple and fancy gro-
ceries is to be found here, all ar-
ranged in a most attractive fashion. The
choicest lines of everything to be
found in an up-to-date grocery store
are in evidence here. The new ar-
rangement of the grocery department
enables the clerks to give their cus-
tomers a quicker and better service.

The grocery delivery system of the
firm has been improved and is now
about as prompt as it is possible for
a system of this kind to be.

A visit to the store of the firm of
George G. McKenzie & Co. is well
worth while. The firm is certainly
keeping pace with the times and the
people will doubtless appreciate their
efforts to give Campbellton the best
to be had at the lowest possible prices
by according them a liberal patron-
age.

FIVE SUSPENDED AND TWO WERE DISMISSED

Young Students at Wolfville Behave Themselves in a Shocking Manner

TRIED HAZING

Took Advantage of the Arrival of a New Pupil and Indulged in all Sorts of Depredations

An interesting story from Wolfville has reached Campbellton. It is to the effect that a number of young students at the Baptist Seminary at that place have been behaving themselves in a rather shocking manner, resulting in the suspension of several and the dismissal of two.

About a week or ten days ago a new student arrived at the institution mentioned. This was a signal for the older students to indulge in the number of the delightful pastime of hazing. It is said that they poured water over the new arrival so that he looked like old father Neptune himself. Property belonging to the school was also destroyed and other depredations committed.

The matter was reported to the principal and an investigation held with the result that two of the scholars were dismissed and five suspended. The two dismissed belong to Gaspé and Amherst.

Bill to Abolish the Manufacture of the Cigarette Meets With Great Encouragement in the House

LOGGIE'S STRONG STAND

OTTAWA, Wednesday.—The Commons today saw the storm in the face of the budget of yesterday. The greater part of the afternoon was given to a talk preliminary of the second reading of the bill of Dr. Barr's.

Mr. Laurier argued that in some cases Borden's law would work badly.

Black of Hants continued his argument on the cigarette bill begun by him on Monday. He was against the cigarette but could not see how it could be made illegal and pipes and cigars allowed to flourish.

However he was so strongly against the combination of a small boy and a cigarette that he would go a long way towards legislative power to abolish the latter. Loggie of Northumberland answered on the

(Special to the Morning Graphic.) question of cigarettes and claimed that the two of Canada should have enough regard for the welfare of the boys of Canada to allow the cigarette to be abolished. The debate was closed at six o'clock today.

General Sminoff Fatally Wounded in a Duel With General Fock—Other Petersburg Gossip

(Special to the Morning Graphic.) ST. PETERSBURG, Wednesday.—Court martial yesterday passed the death sentence on three social revolutionists among whom is an 18 year old girl who was leader in several daring robberies.

The prefect has suppressed the radical newspaper in the capital.

The Novoye Vremya publishes an interview with a high official of the foreign office who criticizes the British proposal with regard to Macedonia as bound to produce a discord among the powers.

In Russia an appointment of a Christian Governor-General for Macedonia would be absolutely impossible as it would destroy Turkish sovereignty.

Lieut-General Sminoff was probably fatally wounded in a duel fought here this morning with Lieut-General Fock.

The men met in a riding school of the Chevalier Guard regiment and fought with pistols at short range.

The duel was caused by a memorandum written by General Fock in which he questioned the courage of General Fock.

The latter considered that his honor and reputation were involved and challenged the author of the memorandum.

(Special to the Morning Graphic.) ST. PETERSBURG, Wednesday.—The death of Hannah Loretta Neff wife of Mr. David Neff of Newcastle, and daughter of Mr. John Lamont of Upper Nelson, occurred at her home on McCullum street on Tuesday, 17th inst., at one p. m.

Deceased died of dropsy after a lingering illness of a year. She leaves a husband and two small children—a girl eight years old and a boy of two—to mourn her loss; also her father and the following sisters who all reside in Newcastle—Mrs. Wm. Hoger, Mrs. Robert McAllister and Miss Christine Lamont.

The funeral will take place at St. Mary's R. C. church on Friday next at 9 a. m.

The second performance of 'The Celebrated Case,' a thrilling drama of French life in the reign of Louis XV., was given in the opera house by the members of the St. Mary's choir last night. The house was packed, chairs filling the aisles.

The play was acted remarkably well by many of the actors coming up to the standard of professionals. It will not be very difficult for the same players to draw a full house should they again decide to appear before the public on the stage. The program was as follows:

FORFEITS HIS ALLOWANCE

Earl Grey Musical and Dramatic Competition Will Be Held Next Term in Toronto

(Special to the Morning Graphic.) OTTAWA, Wednesday.—Justice Mabée of the Ontario high court, has decided not to accept the position of chairman of the railway commission. As the act is now constituted, Justice Mabée, only being a judge for some two or three years, would have to forfeit his retiring allowance as a judge after leaving the railway commission if he did so at the end of ten years.

At a meeting of the executive committee of the Earl Grey musical and dramatic trophy competition yesterday it was decided with the hopes of winning the contest that the competition in February next should be held in Montreal and in the following year, that is 1910, in Toronto.

ARRESTED ON MURDER CHARGE. Two Men and a Woman Run in at Montreal.

(Special to the Morning Graphic.) MONTREAL, Wednesday.—Three Italians, two men and a woman, were in the court of Kings bench today to answer to the charge of murder of Enrico Caserio, who was found dead in a street in the Italian quarter, with a bullet in his brain, on February 8th last. Dr. McTaggart, who performed the autopsy declared that the bullet wound could not have been self inflicted. The names of the accused are—Clavari, Mangini and Maria Ardita.

The bonds of the Province of Ontario were just as good as any bonds which Mackenzie had to offer. The one, however, was a fraud, the other was not, and that makes all the difference.

(Toronto World.) Mr. Whitney could have as easily held the position in connection with the Electrical Development Company, which Mr. Mackenzie now holds, if he were as anxious to give the country cheap power as he pretends.

NEWS OF MOMENT TO CANADA'S DEFENDERS

Into the Ottawa garrison and the various corps are bestirring themselves after their long inactivity during the winter months. In less than a month the bugles will be sounding in the drill hall and the strident voices of the instructors will be echoing off the walls.

The coming season could seem to be in prospect one of the busiest that the Capital has ever experienced. The watchword is 'Quebec'! It has been practically assured and the entire garrison is going to it.

Consequently this unusual activity has commenced to the city corps. The 43rd D. C. O. R. have commenced a series of company drills, one company holding the floor each evening under Sergeant Major Chitty, until the entire battalion has a preliminary brushing up at its hands. The G. G. F. G. held their first parade last evening and will continue weekly drills until the ground outside is dry. A Squadron, 5th P. L. D. G. will parade on Monday evening for dismounted drill. The Dragons are almost at full strength, but have a few places for likely lads' provided they can get the height and ride.

The artillerymen have begun to buckle down again. A short course for noncoms of the 8th brigade will commence as soon as arrangements are completed and will continue six weeks. Mounted drill will be held at the close. The members of the 2nd Field Battery are preparing to take up rifle shooting and will be strong competitors for the cup which Lt. Col. Hurdman has offered to the best shot in the brigade.

ANOTHER CARNIVAL.
 Another carnival will be put on at the skating rink before the close of the season.

MRS. MCARTHUR'S FUNERAL.
 The funeral of the late Mrs. Malcolm McArthur takes place from her late residence this morning at eight o'clock.

DIED.
 At New Richmond, P. Q., on March 11th, 1908, Janet MacNeil, (Dennie) widow and well-loved daughter of William and Margaret G. McWhirter, aged four years and nine months.

ITALIANS FOR RAILWAY.
 About three hundred Italian laborers went down to Port Daniel yesterday to work on the construction of the Atlantic, Quebec and Western.

NO SMALLPOX THERE.
 It was rumored around town yesterday that there was a case of smallpox in the Murray building on Queen street. An officer of the Board of Health, however, informs the Graphic that such is not the case as a physician, who has had considerable experience in treating that disease visited the house in question yesterday and found no trace of smallpox or anything resembling it among the families living there.

CAMPBELLTON MAN WANTS JOB.
 There is likely to be quite a lively scramble for the job of official reporter of the legislature, the position now held by Dr. Hauney, and Mr. Hazen may have some difficulty in making a choice. Among those said to be pushing their claims are Mr. E. J. Payson of the Moncton Times, Commodore Stewart of the Chatham World, J. P. Melaney of the Woodstock Press, Chas. S. O. Crockett of the Campbellton Tribune, H. O. McInerney of St. John, and Organizer W. W. Hubbard. The position is worth somewhere in the neighborhood of \$1000 a year.

HOTELS GALORE.
 Campbellton may have hotels galore. Albert Caldwell of New Carlisle is negotiating with H. R. Murray for the lease or sale of his property adjoining the Royal Hotel site and also with James E. Kelly for a portion of his lot next to Mr. Murray's. Mr. Caldwell is expected to this week to complete negotiations. It is his intention, it is said, to erect a large modern hotel. Mr. Thomas Gorman has also about formed a company to build and conduct a large hotel here. The site has not yet been chosen.

I. C. R. MACHINISTS.
 Messrs. C. N. Sawyer, J. Oullet, of River du Loup, and A. Demers, of Chaudiere Jet, who have been attending a meeting here of the I. C. R. machinists, returned to their homes on Wednesday night. Messrs. Wm. Mitchell, of Stollerton, and P. Cameron, of Halifax, who have been here on the same errand, returned home yesterday morning.—Moncton Times.

MORE SMALLPOX.
 Three more cases of smallpox developed today, all in the home of Mrs. Williams, a French woman residing on Pearl street. The woman and two children are stricken with the disease. Miss Charter's class in the Aberdeen school was closed today by order of the Chairman of the School Trustees. It being learned that some children in the class, named Gallant, had been calling at the house of Mrs. Williams. The room will be fumigated, and notice given later as to the reopening of the class.—Moncton Transcript.

ENSIGN PYNN LEAVES.
 The many friends here of Ensign and Mrs. Pynn will regret to hear that they are compelled to leave Campbellton owing to the illness of the latter. Mrs. Pynn is suffering from lung trouble and has been ordered west by her physician. Ensign Pynn will conduct his farewell service on Sunday and on Thursday next the final meeting will be held. All who are interested in Army work should turn out both Sunday and Thursday and give the Ensign a rousing farewell. His successor has not been named.

HORSEMEN TO MEET.
 A meeting of the prominent horsemen in the Maritime Provinces will be held in the Dufferin Hotel here on Wednesday evening, March 25, to draw up a schedule of dates for the machine racing circuit. John Ross, secretary of the Gentlemen's Driving Club of this city, has received communications from a number of clubs in other towns asking him to arrange for a meeting here as it is the most central place for the gathering. Mr. Ross has therefore arranged for a meeting on the 25th. The indications are that horse racing will boom here during the coming season as a number of new fast ones have been brought to the province by well known horsemen.—St. John Times.

MANY WILL BE HELPED BY IT.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggists and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses.

This prescription, states a well-known authority in a Cleveland morning paper, Eclectic, is the old, but inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple receipt will no doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly. Our druggists here say they will either supply these ingredients or make the mixture ready to take, if any of our readers so prefer.

Coil-Spring Wire

Imported direct from England is used for the lateral of "Maritime" Wire Fence. This wire, while it stretches up stiff and taut, is yet remarkably springy—makes a fence so elastic that it instantly springs back into its original erect position after undergoing pressure severe enough to stretch an ordinary fence permanently out of shape. Test the galvanizing of this English Wire with your knife and you'll find it heavier, smoother, better. Fact is, this English Wire makes Maritime Wire Fence fully 25 to 100 per cent. more lasting than ordinary fencing—a 25 to 100 per cent. better investment.

EIGHT KILLED IN MISS. FIRE

Explosion of Gas Wrecks
Buildings and Fire Consumes Debris

BUSINESS SUSPENDED

Militia Companies on Duty—Work
of Recovering Bodies to Commence on Monday

(Special to the Morning Graphic.)
NATCHEZ, Miss., Saturday.—Eight persons were killed, one was seriously injured and property valued at many thousands of dollars was wrecked today by an explosion of gas in the basement of a five-story building occupied by the Natchez Drug Company near the business quarter. The dead are—Cleve Laubatt, Miss Ketteringham, Miss Luella Booth, Lizzie Worth, Carrie Murray, Inez Nettleton, Ada White, Elizabeth Hookins, a carpenter running from the building felt breaking his neck. John Carkett, 71 years old, suffered fractures of both legs and is not expected to live. The explosion tore away the rear wall of the building which in falling crushed an adjoining tenement building. The wreckage caught fire and a stiff wind blew huge parts to the north and west setting several fires. All business has been suspended and the local militia companies are on duty. Tomorrow the work of recovering the bodies buried under great piles of brick and debris will begin. Owing to the intense heat this work is impossible tonight.

Arm Broken

(Special to the Morning Graphic.)
BATHURST, Saturday.—About six hundred people witnessed an interesting horse race on the ice speedway. The day was a delightful one and the track was in fine condition.

Two horses, Violet R. owned by Freeman Goodwin, and Kentucky Mac, owned by Jos. Dunlop, started. Violet R. was the favorite and showed that the confidence of the crowd was not misplaced as she carried off the purse, \$25.00 in three straight heats. Kentucky Mac was driven in the first two heats by Sam'l Bishop, and in the last heat by Dunlop. The starter was S. R. Shirley, Judge J. F. Pillworth, Gordon Payne and Alex. Gauthier.

A lively fight took place in the DeGrace hotel this evening. Chas. Cook and Edward Bertam were the principals. Cook struck Bertam, knocking him down and breaking his arm. Cook has been arrested and will appear before the magistrate Monday morning.

CHINA WILL PAY UP

(Special to the Morning Graphic.)
HONG KONG, Saturday.—Information has been received here from Formosa that the first Japanese naval squadron will sail today on secret service. The cruisers Yakumo, Akitsushima, Asama and a flotilla of smaller vessels have been coaled ready to sail at a minute's notice since March 7. At Sasebo, the naval station, everything is exceedingly busy. The Tatsu Maru affair has caused a sensation in the navy and some action in this department is surmised.

PEKIN, March 14.—The negotiations looking towards a settlement of the difficulty between China and Japan growing out of the seizure by China of the Japanese steamer Tatsu Maru, are making favorable progress. The Chinese foreign board today approved the draft of a document in which China accepts the proposals made by Japan yesterday. China will pay Japan \$1,400,000 (about \$10,000) and retain the arms that form the cargo of the Tatsu Maru. She

RARE ANAESTHETIC USED IN TORONTO

Laborer Perfectly Conscious
While Difficult Operation
is Performed.

RESULT IS SPLENDID.

New Departure as Regards The
Use of Anaesthetics in
Canada.

(Montreal World.)
Montreal, Saturday.—An experiment which may add to the revolutionizing of the methods employed in surgical operations of the most delicate character was successfully carried out at the General Hospital yesterday afternoon by Dr. Norman Anderson of the surgical staff.

The patient was Frank Simpson, a laborer, who received very severe injuries from the kick of a horse several weeks ago, the bowels being terribly torn. The man, who had been previously operated on three times, was in an extremely weak condition, and it was found that he would not survive another application of anaesthetic.

Dr. Anderson resorted to the use of an anaesthetic which, it is stated, has never heretofore been used in Canada. The preparation owes its discovery to Forneau, an eminent chemist in Paris. While containing no cocaine, it has properties which deprive the patient of any sensation of pain, allowing him at the same time to retain full possession of his senses.

Dr. Anderson made an injection of the fluid into the sac covering the patient's spinal cord, and successfully united several portions of the bowels. Simpson being perfectly conscious, he afterwards said he felt no pain whatever. Last night he was reported to be sleeping peacefully, with good prospects of recovery.

Dr. Anderson, when spoken to by The World last night, said that while the anaesthetic had been used with very satisfactory results by Prof. Barker of University College, London, England, it was a new departure as regards the use of anaesthetics in Canada. Prof. Barker had only failed in eight cases in 200 in which he had employed the anaesthetic. The result in the Simpson case was excellent.

The successful use of the Forneau preparation has caused no slight interest in medical circles and will furnish material for the periodicals of the profession.

STEAMER SILVIA ASHORE ON MASSACHUSETTS COAST.

(Special to the Morning Graphic.)
WOODS HOLE, Mass., Saturday.—The British steamer Silvia, which left New York yesterday with passengers and freight for Halifax, N. S., and St. John's, Newfoundland, is ashore on the Bow and Pigs Reef off Cuttyhunk. No details of her grounding are yet available.

The Silvia ran on the ledge at 4.30 o'clock this morning, being a thick fog. Before striking, she picked up two shipwrecked crews, but whether they were from schooners or barges could not be learned. The saving crew from the Cuttyhunk station went out to the Silvia as soon as she was discovered on the ledge, and up to 10.20 a. m. has not returned.

IS GREATER THAN BEFORE THE WAR

Japan's Fleet Has Been
Largely Augmented in
Last Two Years

FIGURES GIVEN

Net Gain After War is Two Ships
and 88,924 Tonnage
Added

(Special to the Morning Graphic.)
TOKYO, Friday.—Some reliable figures are now at hand showing the present strength of the Japanese navy, as compared with its strength when the war with Russia broke out. The totals may be briefly stated, viz: 157 vessels of all descriptions representing a tonnage of 283,750 tons before the war, and 294 vessels aggregating 515,802 tons at present. The figures show that Japan today possesses more than twice the number of battleships, more than twice the tonnage of battleships, more than twice the number of armored cruisers, three more other cruisers, and nearly three times as many destroyers; but three fewer torpedo boats. Her avaral losses during the war included two battleships, eight cruisers, two destroyers and seven torpedo boats, or a total of 21 vessels representing 135,540 tons. Thus the net gain, without further building on Japan's part is seen to be two in number and 88,924 in tonnage, the discrepancy between the above figures being due to the fact that Japan's chief gains were in battleships and cruisers. Critics of the expansion program naturally are asking why, in the face of these figures, which indicate advance of fully ninety per cent, including new constructions the government should still persist in making appropriations for the army and navy more than 38 per cent. of the total national expenditures of the next fiscal year. Leading financiers and business men do not hesitate to point out, that so long as the above discrepancy is maintained the country must expect to invite foreign distrust, while forthcoming attempts to negotiate a new loan are likely to encounter no small opposition and even if successful will prove so only at the cost of a sacrifice of prestige in the shape of some form of hypothecation.

THREE YEARS AT DORCHESTER

Trial of Three Italians at
Edmundston for Mur-
derous Assault

FOUND GUILTY

All Sent to Penitentiary for 3
Years—No Civil Business
on Docket

(Special to the Morning Graphic.)
EDMUNDSTON, N. B., Saturday.—The Madawaska county Circuit Court opened here on the 10th inst., and has been occupied all this week in the trial of the charge against three Italians for wounding and robbing another Italian named Carmelo Vendo at St. Hilare on the night of Dec. 21st last. The prisoners, Pasquale Iacopeta, Salvatore Iacopeta and Frank Rivera, were arrested at Millinocket, Maine. The injured man was left on the road in a dying state, and he was the only witness who could depose to the assault and the robbery. The prisoners all denied the robbery, and claimed that one of them only Pasquale Iacopeta had cut the prisoner in returning the assault on his brother. Vendo had over thirty five cuts on his head and hands, and the right hand was nearly severed.

The prisoners were convicted and sentenced by Judge Gregory to three years each in the Dorchester penitentiary. Mr. A. Lawson represented the crown and the prisoners were defended by Mr. W. Hayward, of Portland.

There were no civil business before the court.

SHANTYMAN ROBBED.

(Special to the Morning Graphic.)
OTTAWA, Saturday.—Gideon Lebeche, a shantymen was robbed of a check for \$321 besides \$7 in cash in a Murray street hotel last night. The man had come down from the woods the day previous and left his coat and vest containing the money in his room while he went to the bath room for a few minutes. On his return the money was missing.

MONTREAL DEFEATS TORONTO TEAM

Wanderers of Montreal
Win Stanley Cup in an
Exciting Game

SCORE 6 TO 4

(Special to the Morning Graphic.)
MONTREAL, Saturday.—Toronto Professionals gave the Wanderers the hardest brush of the season last night in a sudden death game for the Stanley Cup. The half time score was 1-1, and full time 6-4 in favor of the Wanderers, but it was not until 10 minutes before full time that the Wanderers managed to score two goals thus giving them the lead which the Toronto were unable to overcome before the final whistle blew. This game closes the season here as the Wanderers leave on Monday to play in Pittsburgh.

SOME ARE WEALTHY

(Special to the Morning Graphic.)
WINNIPEG, Saturday.—In spite of American paper opposition the tide of American emigration to Canada promises to be this year the greatest on record. It is said a colony of sixty experienced and wealthy prairie farmers from Iowa and vicinity with steam plows is located at Roblin, N. W. T. Reports from the Middle country in Saskatchewan describe American immigration as being in full blast.

NEW OFFICIALS ARE SPOKEN OF

Geo. B. Willett is said to be Stated as Sheriff—School Books to be Cheaper

SMALLPOX SITUATION

(Special to the Morning Graphic.)
MONCTON, March 16.—There have been three more cases of smallpox recently, but on Friday the quarantine on three different houses was raised. They are talking of getting experts to diagnose the different cases here as some doubts exist as to its being genuine smallpox.

Mr. Bourgeois of Caraquet is visiting Moncton the guest of his friend Mr. Blanchard of the Audit department.

It is said that Geo. B. Willett is slated for sheriff of this County, and other appointments are said to be on the tapis.

One conservative says he expects to see Hazen get school books and perhaps cheaper than now but not at half price. They are beginning to let him down easy.

Chief Justice Barker is here holding court. Geo. L. Harris, barrister, is a prominent figure in the equity court case. Mr. Harris seeks to set aside the transfer of property to Mr. D. I.

KAISER TO BUILD AN AERIAL FLEET

Germany Will Shortly Have
Five Improved Military
Airships.

VALUE HIGHLY RATED.

Zeppelin Believes Large Bodies
of Troops Can be Safely
Carried in Air.

(Special to the Morning Graphic.)
BERLIN, Saturday.—The German emperor and his military advisers have resolved to lay the foundations of a German aerial fleet during the present year.

Within a few months the German government will possess five airships, which will be available for use in military operations, and whose value in this respect is rated highly by those who are competent to judge.

Count Zeppelin, the inventor of one of the best types of German airships, firmly believes that the development of a peculiar type are now being manufactured, for the purpose of conveying large bodies of troops to be conveyed rapidly and safely through the air.

German military experts and other German aeronauts may be somewhat sceptical on this point, but they are none the less convinced that airships, even in their present form, will be able to render many valuable services in a peculiar type are now being manufactured, for the purpose of conveying large bodies of troops to be conveyed rapidly and safely through the air.

The military authorities are also taking measures to protect themselves from the airships of other countries. At the Krupp works at Essen guns of a peculiar type are now being manufactured, for the purpose of disabling hostile airships maneuvering at a great height.

It may be possible to fire these guns either vertically or at an extremely high elevation, and they will be loaded with projectiles of an equally peculiar type, designed to inflict the greatest possible damage on the balloons which supports the hull of the hostile airship. Some of the projectiles will have jagged chains attached to them, and these chains will be so arranged that the best results can thereby be obtained by firing at balloons.

The Germans possess two systems of wireless telegraphy, which are admirably suited for use on airships. The apparatus invented by the German engineer, Hertz, is of comparatively minute size, both for transmission and reception, and it has even transmitted messages over a distance of nearly 100 miles.

The great firm of Siemens and Schuckert has established an airship department, and already it has more orders than it can fill. Two new companies are also being formed for the construction and equipment of airships.

These facts show that Germany is taking the lead in respect to airships, and it is well known that the Kaiser desires German predominance in the air to be as unquestionable as Great Britain's naval supremacy.

His majesty reveals his keen interest in this subject in all manners of ways, and his young German officers and engineers know that there is no surer road to distinction than to introduce some welcome improvement in aerial navigation.

HIGHBINDERS ARE CAUSING TROUBLE

Vancouver Police Investi-
gate Attempt to Burn a
Leading Chinaman.

WAS SLEEPING AT TIME.

Highbinders Used Oil, Powder
and Fuse But Latter
Failed.

(Vancouver World.)
The police have a first class Chinatown mystery on their hands today, and from investigations to date it would appear that a deliberate attempt was made last night to 'highbinder' David C. Lew, one of the best known Chinese residents of the city, out of existence.

There is every evidence that the intention of the unknown assassins was to burn Mr. Lew in his sleeping room on Dupont street. Fearing that the fire might arouse him and that he might attempt to escape, the effort from his premises were wired up. And in case he might break the wires that would have kept him penned within the reach of the flames a neat trap of ropes was laid on the stairway, a trip over which would undoubtedly have meant a broken neck. Not satisfied with this there is further evidence that someone waited at the foot of the stairs to see that the neck was properly broken if the fall did not do the business. Fortunately for Mr. Lew, the fire did not get properly started.

It was the manager of the Lee-Yune company, whose store is under Mr. Lew's rooms, who made the first discovery. He found his desk swimming in coal oil this morning, and seeing that the fluid was still dripping through the ceiling, he went upstairs to remonstrate with the careless man who might be responsible. He found Mr. Lew sound asleep, and quite unaware of what had taken place, but a moments investigation showed pools of coal oil in the passage in front of Lew's door, the door mat was soaked and a bundle of oil-soaked paper lay closely. The remains of a long fuse of Chinese punk and a heap of powder evidently from Chinese fire-crackers, completed the deadly collection. Where they failed appears to have been in the fact that the fuse did not quite reach to the powder.

Mr. Lew claims to be somewhat of a loss to know who may have wanted his scalp, although the fact that he has been prominent in several cases in which the so called 'highbinders' were interested, may explain the affair. His activity on behalf of the Chinese Board of Trade and the Reform Association in connection with the arrest of the chicken thief who is charged with the shooting of Police Officer McLeod, may also have something to do with what was a patent attempt on his life.

HAVE YOU BRONCHIAL CATARRH?
It is easily recognized by the dry cough and hoarseness. Not difficult to cure with Catarrhazone as Mr. Xavier Babine, of River Capelin, Quebec, proved. 'No one could suffer from Bronchitis more than I did. I had a hard hacking cough that caused me great pain. My throat was hoarse and I had great distress in my chest. Catarrhazone reached the sore spots and gave immediate relief. Since using it I have not had a single attack.' Every physician who is asked about Catarrhazone says it is a sure cure, so will you if you try it. Sold everywhere, 25c and \$1.00.

A GREAT WAR IS NEXT SENSATION

Gifford Pinchot at New York
Says it is Bound to
Come

MATERIAL FOR SCOUTS

Forest Rangers Are the Men
for This Work and They Alone
Can do it

(Special to the Morning Graphic.)
NEW YORK, Saturday.—Declaring it is only from the forest rangers in the service of the United States that scouts can be recruited for service in the 'great war that is coming' Gifford Pinchot, chief forester of the Department of Agriculture, startled his hearers at a dinner of the Camp Fire Club of America at the Cafe Des Beaux Arts last night by discussing the war as if conflict was unavoidable.

In the great war which this country will fight, but which I hope it will not fight soon, Mr. Pinchot said, the only quarter to which this government could look for scouts, whose service in war is as essential, is to the bureau of foresters. There and there only, are men being trained in such a fashion that they would be of service. It is of importance that we preserve the forests and the game, but it is more important that we be in condition to furnish for service in that war the material out of which good scouts can be made. The forest rangers make up this material.

He also said there is in this country now timber enough for less than thirty years and coal enough to last less than one hundred years.

LONDON, Friday.—Referring to the resolution of a Vancouver meeting to invite the American fleet to visit Vancouver, the Globe says the resolution shows how much more nearly British Columbians are to the policy of American than with Canadians.

ANOTHER BOOM FOR ROSSLAND

Mines Working Full Time
and Others are Being
Opened up

ANOTHER RECORD MADE

(Special to the Morning Graphic.)
NELSON, B. C., Saturday.—Another record was made last week by the Granby mines, the greatest amount of copper ever shipped in any one week being sent out for seven days ending last Friday night. The tonnage was 23,832. At the Granby smelter during the week the ore treated was 22,552 tons.

Roseland camp is enjoying a revival in the mines of the south. A lease has been long held to contain some of the best ore of the camp, the veins, however, being much displaced and in no instance has any great depth been gained. A lease has been taken on the Sunset No. 2, where much money has been spent in development. The mines have not been worked for five or six years. Similarly a lease has been taken upon the Homestake, close by the Sunset, but a little further away from the city. The Homestake also has not been worked for many years. A tunnel was driven in from the Gopher, immediately east, some time ago, to drain the property, which was very wet, and along the line it was thought at the time that success would ultimately be attained. If the revival of interest in the south belt is encouraged by good results, Roseland will have another boom time.

In the districts nearer home the bond on the Queen Victoria was thrown up during the week but was instantly taken by the original parties who have requested the mine and hope to make considerable shipments during the year. The Granite mine even nearer Nelson, is also making a remarkable showing of late. Altogether prospects are distinctly encouraging despite adverse conditions.

In East Kootenay the Sullivan has closed down for reasons, which have not been made public but which certainly have nothing to do with the profit being made by the property, the ore being of fair grade and with a well equipped reduction plant at Marysville, good returns heretofore have been received by the operating company.

POTATOES AND OATS.
Potatoes are scarce and are selling for \$2.00 per barrel. Oats are also scarce.

TENDERS CALLED.
Tenders are being asked for the erection of a new freight shed and loading platform here.

IN TWO SECTIONS.
As usual on Saturday morning the Maritime express going east passed through here in two sections.

DIVISION DEBATE.
Campbellton Division S. of T. meets this evening at 7:30. All members are asked to attend to take part in an interesting debate.

AN EARLY SPRING.
Saturday was a beautiful spring day and the signs point to an early spring. There is very little snow, and a few warm days will make sloppy travel.

WILL CLOSE OFFICES.
The American Consular Agencies at Gaspe, Coaticook, St. Hyacinthe and Three Rivers, P. Q., will be closed shortly according to advices from Washington.

SEND IN COUPONS.
The contest editor would like all our readers who are saving coupons to send them in and not hold them for a week or more. Send them in every day or two.

NEW BOOT AND SHOE STORE.
The Graphic learns that Mr. V. R. Scott has resigned as manager of the Canadian Express Company and has leased the building occupied by an express office. He will shortly open up a first class boot and shoe store.

ILL IN NEW YORK.
Miss Cora Ferguson, daughter of Mr. John Ferguson, is seriously ill at Mount Placid Hospital, New York, with appendicitis. An operation will be performed on Wednesday. Many friends here wish her a speedy recovery.

SEIZED SLOT MACHINE.
The chief of police has been instructed to seize all gambling devices and Saturday night made his first seizure. These devices have been suppressed in nearly every town in the province, and we should not be behind in suppressing this evil.

RUNAWAY.
W. H. Marquis & Co.'s delivery team ran away Saturday afternoon. The horse ran along the sidewalk or Water street, nearly running down pedestrians. Not much damage was done and the horse was caught near McMillan's barber shop.

ON A HOLIDAY.
Mr. R. W. Walker, the efficient and obliging station agent of the I. C. R. here, has been granted a well earned vacation of three weeks and left last evening on a trip to the United States. Mr. A. J. Swift will act as station agent during his absence, and Mr. Wilson Spencer of Gibson will act as assistant—Frederick Herald.

COASTING ON SIDEWALKS.
Saturday evening Andrew street was positively dangerous to pedestrians. A number of boys took possession of the sidewalk as a coasting path, and numerous sleds sped along at a dangerous pace. While we would not like to see this amusement stopped entirely, we think the less frequented streets should be used and the sleds kept on the roadway, instead of the sidewalks.

MANY BUILDINGS PLANNED.
The coming summer gives promise of being an exceedingly busy one in building lines. Already many new structures are being planned. Among these are at least two large hotels, a Masonic Temple, Orange Hall, large freight shed and many residences of the better class. L. T. Joudry is talking of building two double tenement houses, and two cottages. Campbellton is certainly a growing town.

MCDONALD—MAIN.
A very interesting event took place at the Baptist parsonage on Saturday evening when Angus McDonald, Campbellton's new chief of police, was united in marriage to Mary D. Main. The bride who looked very charming was dressed in white muslin and was unattended. The ceremony was performed by Rev. P. J. Stackhouse, B. D. The happy couple will reside in town, and will be followed by the good wishes of all.

VISITED NORMAL SCHOOL.
Hon. C. H. LaBrosse, Chief Commissioner of Public Works, was among the visitors to the Normal School yesterday, and paid his respects to the students from the county of Restigouche. At the request of Principal Bridges he took the platform and addressed the students in his usual happy vein. He expressed the hope that the new government would carry out the plans of the present administration and provide increased accommodation at the Normal School—Herald, 12th.

SMALLPOX IN TOBIQUE.
A. G. Ferguson, M. D., chairman of the county board of health, having discovered quite a number of cases of smallpox in the Tobique district, applied to our town board of health for the use of the Town Hospital for Infectious Diseases. At a meeting of the town board of health, held on Saturday evening, in the office of A. McG. McDonald, our town board, considering it was in the best interests of the town to help the county board in stamping out the disease, and means keep it out of town, granted Dr. Ferguson's request. Wm. Tope will be engaged as caretaker.

TOBOGGANING.
Many of the younger citizens took advantage of the good coasting and beautiful weather Saturday evening.

PROPERTY PURCHASE.
The lot of land on Roseberry st., which was auctioned off in front of the post office was bid in by Harry McLennan, highest bidder, for \$305.

SLIGHTLY IMPROVED.
Many friends here will be pleased to learn that Mr. Walter Joudry is somewhat improved. He is at present a patient in the Frederickton Hospital.

ALL SOLD OUT.
The demand for the Morning Graphic for several days has been greater than the supply. Saturday the entire edition was sold out before noon despite the fact that some extra copies were printed.

MOVED BARBER SHOP.
Thos. LaBlanc has moved his barber shop to the Sharpe building. Water street and will be open for business at his new stand. A new equipment of chairs, etc., has been installed and everything is up-to-date.

C. Smallwood, Newcastle, 388.
H. H. Bray, 351.

THE SMALLPOX CASES.
Dr. Ferguson, chairman of the county board of health, was in town to-day. He visited the Tobique and found that smallpox had been through several homes, and that it existed in large numbers. He had Wm. Tope put the town hospital for infectious diseases in readiness and took some of the cases out there last evening.

ANNUAL REPORT.
The 50th annual report of the above institution has been issued. The total attendance for the past year was 117. Of these 91 were from Nova Scotia, 14 from Newfoundland, 9 from P. E. Island and 6 from New Brunswick. The general health of the pupils was good, only two cases of serious illness having occurred during the year. After eleven years of service, Miss A. Johnson last June resigned her position on the teaching staff and went West to join her brother in California. Her place was taken by Mr. T. Brill, of London, Eng.

Have you voted for the popular railway man?

Every reader should save the coupon in each Graphic and vote for their friend.

Today two new men enter the field and by the appearance of things they mean to win. These are both popular employees of the Atlantic & Lake Superior railway. Many friends on the Quebec side are subscribing for the Graphic and voting for these candidates.

We wish to remind our readers that each full yearly subscription to the Graphic costs 300 for the candidate chosen.

The contest officer learns that there are several other names to be submitted later, friends in the meantime are saving the coupons, and a surprise may be in store for the present contestants. We would prefer that coupons be sent in every day or two.

The standing today is as follows:—Conductor John Laviole, Atlantic & Lake Superior Railway, 545; John McCormick, A. & L. S. Railway, 524; J. A. Stevens, I. C. R., Campbellton 488; C. Smallwood, I. C. R., Newcarleton, 377; H. H. Bray, I. C. R., Campbellton, 351.

For some time the I. C. R. and G. T. R. authorities have met with considerable annoyance and loss by the breaking in of their cars at Point St. Charles.

Inspector Noble, and his assistant Wm. Moore of Lewis, together with the Grand Trunk officers were put on the trail and last week rounded up six young men. They were tried, found guilty and remanded for sentence.

It is hoped that this will put an end to this thieving.

Inspector Noble and the other officers are being complimented on their clever work.

A rather lengthy session of the Town Council was held last evening. James Landon and Jardine were the only absentees.

Matta & David made application for license to conduct a general store. Referred to Police and License committee.

The last annual statement of the Board of School Trustees together with the auditor's report thereon was referred to the Education committee. The statement showed a balance due Bank of Nova Scotia of \$287.02 at June 29th, 1907.

The three sheets of the Water and Sewerage, and the Public Property and Streets departments from May 31, 1907, to March 14, 1908, were approved and ordered filed with the treasurer.

Council then went into committee of the whole for the consideration of by-laws, Coun. Andrew in the chair. By-law No. 21, relating to water supply was dealt with and recommended to committee for reading.

A motion in committee to reduce the rate for first tap from \$3.00 to \$5.00 was defeated.

D. A. Stewart, building inspector, submitted report of his inspection of the town school building. He had visited the school on two different occasions and had found everything in a most satisfactory condition. The furnace and pipes were of approved style. A coil of hose was always in readiness attached to the standpipe in the basement and in such a manner as to be easily got at in case of fire. A first class nozzle is attached to the hose.

All class room doors as well as the entrance doors open outwards and the stairs were sufficiently broad to make egress from the building easy and rapid.

The building inspector recommended that a sheet of asbestos be placed on one of the walls of the basement where the pipe came in close proximity to it and he had been assured by the trustees that this would be done tomorrow morning.

He also recommended that a fire escape be built from the two upper stories on two sides of the building. This fire escape or stairs should be covered in so as to be free from ice or snow in the winter season.

Mr. Stewart also stated that in the afternoon in company with Mr. Langdon, he had visited the school and the fire drill had been called without warning. The building had been emptied in the remarkably quick time of 48 seconds.

The petition of certain ratepayers for an act to light on McMillan Ave. in place of W. A. Truman as formerly in place of the whole work was \$300.00 but the Council thought the work could not be done to advantage at this time of the year and the matter was dropped.

A number of accounts were passed. Coun. Taylor submitted H. A. Chandler's estimate of the cost of survey and plan of the town. The figure for the whole work was \$300.00 but the Council thought the work could not be done to advantage at this time of the year and the matter was dropped.

The firm of Truman & McKenzie were appointed town solicitors in place of W. A. Truman as formerly.

A resolution was passed setting forth the need of additional water supply and authorizing the Water and Sewerage Committee to call for tenders for the supply of about 18,000 feet of 16-inch water pipe, and that necessary plans, specifications and profiles be prepared by a competent engineer, and also that tenders for the excavation and laying of the pipe from the reservoir to a junction with the town system be asked for. It was estimated that the 16-inch pipe would give sufficient capacity for 15,000 inhabitants or 2,700,000 gallons daily.

On motion the name of Stanley street, running westerly from Prince William was changed to Stanley St. East, as there was another street of the same name.

J. Art. Williams, engineer of the water system submitted a complete plan of the water system and also plans of the extension of the sewerage system. The plans are a very creditable piece of workmanship and reflect the highest credit on Mr. Williams. The work was done without cost to the town other than cost of material. Mr. Williams was given an unanimous vote of thanks by the Council, which was extended in warm words of praise by the Mayor.

The clerk opened the tenders received for the water privilege for shipping of the harbor. Four tenders were received as follows:—James Baird, \$120 per year.

James Landon, \$115 per year.
S. S. Harrison, \$207 per year.
P. Gaudin, \$30 per vessel.

The matter was laid on the table and the Council adjourned at 12:15.

TORONTO, March 17th.—Judgment was given this morning by Reference George Kappeler regarding class eight of the York Loan claims. Class eight, included all holders of fully or partly paid permanent stock, and the reference was to determine the question as to their liability as contributories or their right to rank as claimants.

The judgment states that the permanent shares are legal, and must be accounted for in consequence. Most of the stockholders had not paid up over fifty per cent of the subscribed amount. Those who have paid in full will rank as ordinary shareholders, but those who have not will have to pay up the amount in arrears before they can rank as regular shareholders. Class eight includes 2300 shareholders and an amount of \$25,000 of unpaid stock.

The many friends of Miss Cora Ferguson will be pleased to learn that she is improving quickly after her operation.
