LOCATION FOR PLANT SOUGHT

Col. Innes Tells Middleton People About "Appo-Krisp Limited"

Col. Robert Innes spoke before the Middleton Board of Trade and citizens of the town last Friday evening concerning the company known as the "Appo-Krisp Limited".

"Middleton is being looked over as a possible location for a factory. It seems eminently suited in many ways to such an industry, especially as it is a railway junction. The plant will be of the unit type, designed for economical production and permitting of additions as required."

A committee was appointed to confer with the promoters and set forth the advantages of Middleton as a suitable location for such an industry composed of Councillors G. N. Reagh, F. E. Cox and F. E. Bentley, and Col. Mumford and J. D. McKensie.

"Always-Ready" Battery Electrolyte Now Here

We are now prepared to give Battery Service with the wonderful solution that puts new life into the old battery. "Always-Ready" is a solution that contains less than one-half as much sulphuric acid as the old electrolyte, and is therefore one-half as harmful to the plates of the battery; will not eat out nor corrode the battery terminals; nor rot the battery case. "Always-Ready" acts upon the plates of the battery, consumes the sulphation caused by the sulphuric acid in the old solution, and frees the plates from their choked-up condition.

"Always-Ready" when used in a battery where the plates are still good will charge instantly, giving snapper starting, brighter lights, new and longer life.

"Always-Ready" is an anti-freeze liquid, with the use of it your battery is always safe from the unexpected frosts of the early winter, or any frost however severe.

With the use of "Always-Ready", Radio Battery, will hold their charge a third longer and will always be in a healthy condition.

If you wish your battery to be completely rejuvenated and given a new lease of life, bring it to us at your earliest convenience and then MARVEL AT THE CHANGE.

Here and There

The total landings at the new international government elevator in Edmonton, Alta., since its opening last fall, amount to 2,350,000 bushels. Of this quantity of grain handled, more than 2,000,000 bushels was wheat.

With the completion of the 1926 assessment for Toronto, the Chief Assessor announced that the city's population is now 549,429, or 7.012 per cent greater than last year. The total assessment for 1926 is \$891,673,797, which is \$16,259,443 higher than for 1925.

A new high-water mark for the 1925 season of navigation in regard to number of passengers landed at Quebec over a week-end, was established during the week-end of September 8th when six boats docked with nearly 5,000 passengers. The three Canadian Pacific steamers, the Montroyal, Marloch and Melita, brought 2,524 of the total passengers landed.

Between four and five hundred travelling passenger agents, representing railway, through the United States and Mexico, united with representatives of the Canadian railways and steamship companies in Montreal during the week ending September 10th, for the fifteenth annual convention of the American Association of Travelling Passenger Agents.

In succession to Captain James Gillies, who was recently appointed general manager Canadian Pacific steamships in London, Captain R. G. Latta has been appointed to the command of the Empress of Scotland, flagship of the Canadian Pacific fleet. Captain Latta was previously on the bridge of the "Montroyal" and other vessels of the same line.

Arrangements are being made for the holding of the western annual meeting in Winnipeg from November 3rd to 5th of the Canadian Institute of Mining and Metallurgy. The meetings will be held in the Royal Alexandra Hotel. Delegates from all points in the West, as well as from Eastern Canada, are expected to attend.

A memorial known as "The Altar of Peace" has recently been unveiled in Stanley Park, Vancouver, to symbolize the spirit of international good-will existing between the United States and Canada. The memorial was raised by joint subscription of United States and Canadian Kiwanis Clubs, and stands on the spot where the late President Harding delivered the last speech of his life while visiting Canada, in July, 1923.

One of the largest shipments of live foxes for export ever to leave Prince Edward Island, left recently for New York for transshipment to Norway. The shipment comprised 200 foxes in all, with a gross value of \$40,000. Several small shipments of animals were consigned to Norway last year and this large order was the success which the Norwegian breeders have had with those animals previously sent from this country.

As illustrating the volume of grain delivered by the Port of Montreal compared with that of Vancouver, figures given by the Pacific coast port for the crop year ending July 31 last, show Montreal deliveries were six and three-quarters times those from the Pacific coast.

The new Fawcett Furnace, pipe and Pipeless, offers advantages where quick heat counts that no church, school, public building can ignore. Its radiator, for example, instead of being steel (excellent radiation, but poor durability) or cast iron (durable, but inferior from the radiating standpoint) alone among Canadian furnaces its radiator is of Taconan Metal—pure iron, for durability, fused with copper for finest radiation.

If there was no law there would be no lawbreakers. And, if there were no lawbreakers you wouldn't need any laws. Now keep on round the circle.

Well, well, men are now wearing longer skirts than women on the bathing beaches.

HOW MODERN WOMAN IS SPOILED

By Anthony Wynne

Is our attitude to our womenfolk changing? American visitors to Great Britain this year declare that it is, and that we in England are gradually adopting the idea and customs in vogue on the other side of the Atlantic. "You may not notice it," a charming American woman told me a few days ago, "but I do. I know your country well, and I can assure you that your men are growing more like our men where girls are concerned."

"For women are spoiled in America, and being spoiled is so tiresome." "Naturally I was anxious to know the symptoms of the change, which, to a foreign visitor, is the newest phase of our social life. She gave me them in her crisp and decided way.

"You spend too much money on girls now. If you take a girl out it means cake and dinner, sometimes supper, too, as well as the 'show.' Ten years ago your girls would not have allowed you to do that. You would have despised them nearly if they had allowed you."

"I agreed that there was truth in that. "And, the young women themselves, especially the young wives, spend more than they used to do. They want excitement all day and every day, dances, theatres, parties, to go here and there, everywhere. Someone has to work to make that money. Ten years ago no Englishman would have accepted married life on such terms."

"But that," I said, "applies to only a few couples. "As yet, tomorrow there will be a few more. What one wife has the other wives demand. Once you allow women to run away with you, you can't tell where you may arrive."

She mentioned other signs, signs which I confessed I had not noticed, but which were obvious enough once they had been pointed out. Our ways of treating women are changing. We are spoiling women in a manner which our fathers and grandfathers would have regarded as quite reprehensible.

Worse still, as my American friend pointed out, we are turning happy-unhappy girls into little creatures, whose only thought is the next entertainment they may be able to secure. "What do you suppose women want in their hearts?" she asked me. She did not answer that question in so many words. But she told me that the tragedy of the American woman is that she is positively not allowed to give anything in exchange for what she gets. Her husband, so she has to give up gifts at her feet that he has for gotten how to ask for her gifts.

"And when a woman can give nothing to a man she is tired of him." Our fathers expected a great deal of their wives. Getting married twenty years ago was, for a woman, the preliminary to a very busy, very responsible, often very self-sacrificing life. Yet our mothers were very happy people. Boredom was a disease they knew little about.

The present-day husband—now that my eyes have been opened I see it quite clearly—is much too lax in the matter of his rights. He expects far too little of the girl he marries. Because he is afraid to seem harsh or unkind, he gives instead of asking. And so the spirit of romance, the spirit of going grandly in the face of difficulties and troubles, ebbs away out of his wife's heart. She becomes a woman with nothing to do.

That is the most miserable lot which can fall to any woman in this world. The modern notion that women exist to be petted and spoiled is unnatural and absurd. It is we men who are at fault. It is we men who have drifted into the bad habit of measuring our love by the number and costliness of our gifts instead of by the warmth of response it is capable of calling forth.

Bad habits can be broken. Let us have the courage and determination to break them. There is no reason, except weakness, why this spoiling of women should be carried to the present extremes.

"This cheque is doubtless all right," said the merchant, politely, but have you anything about you by which you could be indemnified?" The pretty young thing faltered: "I have a mole on my left knee."

"One thing we would like to see is to have all the people who think the country would get together, get together, and then see what would happen after they were together."

Every Woman Needs A Sink

Why get along without a kitchen sink any longer? Here is a new SMP Enamelled Drain Sink, the very latest. Made of rust-resisting Armo Iron, with three coats of pure white enamel, same as on bath tubs. Size 20" x 10" x 6" deep, with 17" back, complete with strainer, brackets, all fittings and directions for setting up. Price, complete, \$12.00.

The SMP Enamelled Drain

Board shows above is made to fit all standard sinks. Size 20" x 10". Has the same material and enamel as the Sink above and is complete with brackets and fittings for setting up. A great labor saver. Price, complete, \$6.00.

THE GOOD OLD DAYS

THE BAND STAND—by Arthur Chapman in Ladies' Home Journal.

Many small towns are installing radios in their bandstands, thus eliminating the village band. How dear to this heart is the band of my childhood. The band that could never play anything new; The cornet, the tuba, the flute carved from wildwood. And the drummer, as proudly his drumsticks he threw; The cymbals, and likewise the artist who played 'em. The cross-eyed troubadour, whose tones were a dark brown; Our leader, the barber, who, after he had shaved 'em, Charmed all of the suffering men of the town; And even the bandstand, the paint-lacking bandstand. The jackknife-carved bandstand, the pride of the town.

Now to have use has descended this treasure. A radio hangs from its rafters so bare; Far-scattered the players who once gave us pleasure; Our program now comes over miles of thin air. We get the jazz hits just as soon as the notes are written. A tune that's a week old we greet with a frown; But sometimes with grief o'er the past are we smitten. When we meet our radio stand in the town. The once so-called bandstand, the knothole-filled bandstand, The now bandless bandstand that graces our town.

CAMPERS GUILTY

"Campers and anchors," states the Chief Forester of the United States, "were directly responsible for about 64,000 forest fires, or more than 16 per cent of the total number during the last eight years. 25 per cent of the fires were credited to miscellaneous and unknown causes. More than 90 per cent are theoretically preventable, and it is safe to assume, I think that it is possible to save at least three-fourths of our present average annual timber-fire loss. And when we accomplish this saving, we shall have gone far, at least 75 per cent of the entire way, in solving our problem of national timber supply for the future."

WORSE OFF THAN BEFORE

A gentleman bought a dog. His wife did not like dogs, and she specially detested a dog that always sits whining at the door waiting for an opportunity to get into the house and set under the stove. Finally the good man surrendered to his wife, and agreed to get rid of the dog. But he didn't want to kill it, so he thought he would try to sell it. When he came back without the dog his wife was delighted. She said: "Where is the dog?" "I have sold him," "You dear man," she said, "how much did you get for him?" "Ten dollars," "Visions of new bonnets in her head, she put her arms around his neck and said: 'Have you got the money?'" "No," said he, "I took five pups at two dollars apiece."

The small town that possesses a weekly newspaper has in it a publishing and advertising industry which does more for the town than almost any of the buildings which emit smoke from the tall chimneys. But the town often does not show it. Thorold has found out. The Post of that town discontinued publication. The business men of the place after being for a few months paperless, have guaranteed the editor such support that publication has been resumed.

The Priest Says:

"After having given it a trial during the hardest part of the winter, I am pleased to say that the furnace is giving entire satisfaction. We have saved fuel, in comparison with other years: besides the heating is easier and more prompt than that of the hot water furnace." A Bourassa, Fire Cure, St. Alexandre, P. Q.

The 1925 Fawcett is even better. Castings have been deepened, to insure freest circulation. The feed neck has been taken farther from the radiator, lengthening the life of both. By the way this latter change was made as the result of 15 year tests—showing what an asset to the furnace buyer there is in the 70 year experience of Charles Fawcett Ltd.

The Merchant Says:

"We thought if we got sufficient heat from it to heat our store we would be well pleased with it, but to our surprise we found that we were getting too much heat for store requirement and found it necessary to find some escape for approximately 40 per cent of our supply. This we did by making an opening in our store ceiling and inserting a grating on the second story flat, which is occupied as a dwelling, and the escape heat from the store makes quite comfortable the second story living and bedrooms.—J. A. Leslie, Port Morien, C.B.S.

The Fawcett is not an assembled but a finished product, made throughout in our plant which is so complete that other furnace manufacturers have work done here.

The Doctor Says:

"I must congratulate you on the heating system you have sold me. The heat is sufficiently moist and hygienic. It is a blessing in the house, which is always comfortable for the women folk. If I had had this system ten years ago, I would have had less trouble and I strongly recommend working on its installation in all homes." — Doctor J. L. Landry, Kamouraska Co., P. Q.

Hot air heating of the Fawcett type is the most healthful in the world. By merely keeping the vapor tanks (conveniently placed under the fire door) filled daily, the air in your home is changed twice an hour, replaced by moist, fresh, sterilized air.

What Happened?

Do you remember the first meal your wife cooked for you when you returned from your honeymoon? And the range she used? Did your Fawcett Furnace ever stand you in good stead during nights of sickness? If you haven't a Fawcett Furnace or range, what's the most interesting thing that ever happened to you through its lack? What's the oldest stove still in use that you know about? What's the least fuel you ever used a season while keeping warm? By sending in 200 word answer to one of these or any related question you have a chance to win a Free Baby Grand. The little range shown above, complete in every detail, a miniature that is more than a toy as it will actually cook and roast, will be given to the best letter received not later than October 31.

OBITUARY

On Sept. 21st, 1925 there passed
away at Margareville, Minnie, be-
loved wife of Parker Ratnes at the age of
62 years. The funeral took place at
the home of her brother, R. C. Parks,
of Port George, where a goodly num-
ber of relatives and friends gathered
to pay their last respects to our much
loved neighbor and friend. The
funeral service was conducted by the
Rev. M. W. Brown of the same place.
In early life she united with the Mt.
Hanley Baptist Church, always a
staunch and firm believer in her reli-
gion.

She had been in failing health for
several years. She leaves to mourn
her loss, a husband, an only son, Em-
erest; two sisters, Mrs. J. Kilpatrick
and Mrs. F. L. Covert of Boston Mass
three brothers, R. C. Parks of Port
George; George and Guilford Parks of
Boston, Mass. Much sympathy is
felt for the bereaved husband and son,
the latter travelling home from Bos-
ton to assist in laying the mother in
her last resting place, the husband and
father being unable to leave his place
of business.

The floral tributes were beautiful
showing the high regard in which our
departed sister was held.

**Make Care of
Babies Easier**

Baby's Own Tablets Are a Great
Help to Mothers of Young
Children

Stomach disturbances and constipa-
tion are responsible for much of the
illnesses which afflict little ones. The
modern mother does not resort to so-called
nothing mixtures but corrects the
trouble by sweetening the little stom-
ach and giving a gentle laxative that
acts without gripping. Such a remedy
is found in Baby's Own Tablets, easy
to take and guaranteed to be free
from opiates or narcotics.

Every mother who tries Baby's Own
Tablets becomes enthusiastic about
them. Mrs. Oscar Auger, Holyoke,
Mass., says: "I have used Baby's
Own Tablets and think them a splen-
did medicine for constipation and other
ailments which affect little ones. I
have no hesitation in recommending
them to other mothers." Baby's Own
Tablets are sold by medicine dealers or
by mail at 25 cents a box from the
Dr. Williams Medicine Co., Brockville,
Ont. A little booklet, "Care of the
Baby in Health and Sickness," will be
sent free to any mother on request.

Middleton Wins from
TORBROOK, 3 TO 0.

Torbroke and Middleton baseball
nines met on the local diamond last
Thursday, and Middleton won 3 to 0
after an exciting game. The younger
local players were supported by three
of the former players, Goucher, Dodge,
and Phinney, who have recently ob-
tained their amateur cards. Postures
of the game were a double play by
Goucher unassisted and a two base
hit by Carter of the locals with 2 men
on. This is the first defeat the Tor-
broke team has met during the sea-
son's playing. Batteries were Gouch-

SAUGUS PUPILS ATTEND FUNERAL OF A CLASSMATE

More than 200 Saugus High school students gathered at the Cliffside Methodist Episcopal church, Thursday afternoon and with many townspeople filled the huge auditorium to its capacity to pay final tribute to their schoolmate, Frank Armstrong, 14-year-old son of Mr. and Mrs. William H. Armstrong of 8 Palmer Avenue, Cliffside, Mass., who was killed in an automobile accident Monday noon while riding his bicycle home from school.

The entire town sorrowed with the grief-stricken parents. Many, who could not attend the services, sent messages of condolence and floral pieces. The altar was so profuse that the entire front of the church was solidly banked with beautiful and fragrant blossoms.

Classmates and school chums of the boy took part in the services. So did the school orchestra, of which he was a member, and its director, C. Lynn, private cornet instructor of the boy, and Rev. Shirley D. Coffin, his pastor, assisted.

Long before the home office services 2:30 o'clock, the church was filled. A section had been reserved for schoolmates, teachers and former teachers of the boy. As the solemn gathering assembled, Mrs. Ina C. Howatt, church organist, played. Rev. Coffin took charge of the services.

C. Francis Woods, musical director at Saugus High, sang a tenor solo, "Sometime We'll Understand." The choir or boys played two numbers, "Abide With Me" and "Lead Kindly Light." Mr. Ricker played a cornet solo, "The Lost Chord," and he was so overcome with emotion that he collapsed after concluding this number.

The remains were borne from the church to its place in the funeral cortege by the following classmates of the deceased: James Smith, Daniel Sawyer, Emmett Nichols, Harold Everett, Franklin Devonshire, Herbert Holt and Arthur Bryer. The interment was in Riverside Cemetery.

Frank Armstrong was born in Medford 14 years ago and removed to Cliffside with his parents a year later. He has attended the local schools and was a member of the sophomore class of the High School. At the school he was a member of the chess club and orchestra. In the Cliffside Methodist Episcopal Church which he attended, he was active in its orchestra and in the Wesleyan League of Kings. Besides his parents, he leaves a sister, Beatrice.

The fatal accident occurred Monday noon on Central street, Saugus, but a short distance from the High school. From the police report, the Armstrong lad was riding home from school on his bicycle and he collided with an automobile owned and operated by Horace G. Cook of 35 Whitney St., Cliffside, receiving injuries which resulted in his instant death.

Wm. H. Armstrong is the son of Mrs. Laura Armstrong, formerly of Middletown, Mrs. Wm. H. Armstrong was the daughter of the late Samuel Legg.

OUT ON THE FARM

The freshman was spending Saturday afternoon on the farm owned by his sweetie's papa and, the scenery filled him with romance. They were walking through the pasture when he noted a cow and a calf rubbing noses. He stopped and said, "Such a loving sight," he said to the girl, "makes me want to do the same thing." "Go ahead," the girl said, "it's pe's cow and he won't care."

GREAT INTEREST IN NEW INDUSTRY

Location of New "Appo Krip" Plant Will Soon be Decided on

Kentville, Sept. 25.—Great interest is being manifested in the Valley towns as to the location of the new plant of Appo Krip Limited. It has been decided that the company which will manufacture the new fruit cereal composed of apples and raisins, will locate in the Valley. All the towns from Windsor and Annapolis are making a strong bid for the location of the plant, some of these towns having appointed special committees to assist in disposing of the stock with a view of ensuring the establishment of the industry in their locality.

The directors of the company have an absolutely open mind on this phase of the industry, but the place location will be ultimately decided early in October. The stock issue now being offered to the public is being well received.

The fruit growers and business men of the Valley fully appreciate the importance of an industry of this nature being established in their midst. By utilizing large quantities of inferior grades of sound apples the value of the product, Appo Krip possesses as it does exclusive patented process can be marketed on a profit in all parts of the world, and in this respect the industry is in a very favorable position in comparison with some of our other Maritime manufacturing enterprises.

The fruit growers of the Valley are strongly hoping that it will be possible for the new company to start operations so as to handle a portion of this year's crop and thus relieve what is at the moment a very difficult marketing proposition.

ADVERSE FREIGHTS AFFECT KENTVILLE

KENTVILLE, Sept. 25th.—A joint meeting of the Town Council and the meeting of the Board of Trade, held in the Town Assembly Hall this morning at 10:30. H. M. Chase, President of the Board of Trade, presided, and stated that the meeting had been called for the purpose of bearing the report of the committee appointed to consider a suitable location for the Appo Krip Company, and for discussion of equalization of freight rates.

R. H. Lamont, for the committee, stated that a favorable location could be secured. Colonel Innes stated that a more serious difficulty was presented by the fact that Middleton and Windsor had a preferential tariff, the former by about 25 per cent., or 210 per cent; the latter was not quite so much. It was estimated that this would amount to about \$10,000 per year.

A letter had been received by F. G. J. Comeau, G. F. A. of the D. A. Railway, stating that the Railway Commission would not allow them to equalize rates, consequently Kentville was under a disadvantage in securing further business. After further discussion, Mr. J. L. Hsiey, A. L. Pelton and E. H. Munro were appointed a committee to consult further with Mr. Comeau.

BROOKLYN

Mr. and Mrs. W. P. Fenerty and family attended the Exhibition at Bridge-water for a few days last week.

Mr. and Mrs. H. W. Bruce and family motored to Albany on Sunday and visited his sister, Mrs. Maynard Oakes who is seriously ill.

Rheumatic People Can Now Find Relief

By Driving the Poisonous Acid From the System

Rheumatism attacks people when the blood is thin and watery, or charged with impurities thus setting up inflammation of the muscles and joints. Cold, wet weather or sharp winds may start the pain, but the cause is rooted in the blood and to get relief it must be treated through the blood. As blood diluter and nerve tonic Dr. Williams' Pink Pills are unsurpassed and for that reason do not fail to give relief to rheumatic sufferers when given on a fair trial. Among the rheumatic sufferers who have proved the great value of this medicine is Mrs. Simon J. Taton, Indian Head, Sask., who says:—"For over two years I was an intense sufferer from rheumatism and when I began to use Dr. Williams' Pink Pills no treatment that I took helped me any. The trouble grew so bad that I could not move around the house without help, and finally I had to give up and go to bed. Words cannot tell how much I suffered, and I could not bear to have anyone come near me. Finally one of my neighbors suggested me to try Dr. Williams' Pink Pills, and I decided to do so. In the course of a few weeks I could get up, I kept on taking the pills until all traces of the trouble were gone and I could again do my household work feeling like a new person. Three years have passed since that and there has not been the slightest return of the trouble so that I feel safe in saying that the relief brought by this medicine is permanent."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

INSTITUTE RE-OPENS FOR WINTER

The local Women's Institute re-opened for regular meetings for the winter last Thursday evening, Sept. 24th. An important matter of business was the arrangement for the annual Soldiers' Memorial Hospital Day, which this year is to be held on October 15th. Another business matter was the appointment of a committee to co-operate with the work carried on by the Children's Aid Society, as it affects local families. The meeting was held in Parish Hall with a good attendance of members.

Polltiness, these days, consists of offering a lady your seat when you get off the street car.

IS FOUND BY TRACKS IN DYING STATE

Was Fatally Injured by D. A. R. Freight Train, Coroner's Jury Finds

MRS. S. LANTZ IS VICTIM

Community is Shocked by Tragic Death of 80-Year Old Lady

Mrs. Silas Lantz, aged resident of Kingston, was killed by the D. A. R. freight train near Kingston Station shortly after 10 o'clock Tuesday morning. There were no eye witnesses of the accident and the injured woman was not found until nearly an hour later. The crew on the train did not know that there had been an accident. When found at 11 o'clock, Mrs. Lantz was lying but unconscious and died twenty minutes later without gaining consciousness.

The distressing accident has greatly shocked the community where Mrs. Lantz was well known and had lived for many years. She was about 80 years of age and lived with her daughter, Cora.

Coroner's inquest was held at Kingston Tuesday night with Magistrate Frank W. Palmer acting as coroner. Verdict: that Mrs. Lantz had come to her death by being hit by the D. A. R. freight train near Kingston Station shortly after 10 o'clock Tuesday morning.

Exact details of the accident will never be known.

Mrs. Lantz for many years was a resident of Middleton and about fifteen years ago moved to Kingston.

—O— THE THINGS OF EVERY DAY

The little things of every day Make up the sum of living: The father's toil, the children's play, The loving and the loving's care, We plan so wrong and wealth take wings; Yet time can never take away The little things of every day.

The little things of every day Are what we most remember; The April grass, the rose of May, We cherish in December, Some word, the first the baby said, Some lullaby, some path we tread, The only things that ever stay Are little things of every day.

The little things of every day Make life a joy or sorrow; The things we do, the things we say, Are memories tomorrow. Whatever pleasure we choose, What wealth we win, what wealth we lose, The things that never pass away Are little things of every day.

—O— One of the worst blunders ever made by a friend of ours who has just been reported by a friend who is an enthusiastic writer had been written by a fair dandy he met at a swell dancing party, and in writing up the charming costume in his account of the affair he concluded the little paragraph by saying: "Her dainty feet were incased in shoes that might have been taken for ferry horses."

—O— The best of a book is of the thought which it contains, but the thought is suggestive; just as the charm of music lies not in the tones, but in the echoes in our hearts.—Holmes.
