## RUMANIANS CAPTURE RICH INDUSTRIAL CITY OF ENEMY

### RICH PRIZE FOR RUMANIA BY CAPTURE OF PETROSENY, BIG CITY OF TRANSYLVANIA

Rumanians Driven Into Enemy's Country on Northern and Northwestern Fronts Continues Successfully—Heart of Rich Coal Field Falls Into Their Hands.

(Canadian Press.)

Bucharest, Aug. 31, via London, Sept. 1, 7:01 a.m.—Rumanian troops invading Transylvania have occupied the important industrial centre, Petroseny, and the Tarlunge Valley, near Kronstadt, says the announcement of the Rumanian war office.

The statement reads as follows:

"On our northern and northwestern fronts our advance continues with success in all directions. Our armies occupied Tarlunge Valley, near Brasso (Kronstadt), and the important industrial centre of Petroseny. Our losses were very slight.

"On our southern front Hungarian monitors bombarded Turnu Magureli and Zimnita."

Petroseny is the centre of a rich coalfield near the southern frontier of Transylvania, lying north of the Valcan Pass through the Transylvanian Alps. The occupation of Tarlunge Valley indicates the Rumanians are extending their invasion of the extreme eastern portion of Transylvania.

Turnu Magureli and Zimnita are Rumanian frontier towns on the Danube River.

#### GOOD AIR SERVICE.

London, Sept. 1.—The Daily Mail publishes the following:

"The rapid advance of the Rumanians in the Carpathians was much aided by very adequate aeroplane reconnaissance. The enemy is very poorly supplied with aeroplanes on this front, although the Bulgars have more and the various Turkish troops on the line facing Siliistra and Varna have some German machines.

#### Danube Mastered.

"The mastery of the Danube for the Allies is complete, and Rastchik, Vidin and other Bulgarian towns are exposed to destruction. Russian pontoons over the Danube already have allowed many thousands of men to set out on the march toward Bulgaria. Rumanian field guns are well known, but until recently heavy artillery was not too numerous. Some months ago the French sent batteries of heavy guns, which are now being doing excellent service in the Carpathians.

"Although Rumania is not an industrially developed country, great strides have been made during the war period to enable munitions to be manufactured within her frontiers. Machine shops of oil companies have been manufacturing shell cases for months.

#### Bulgars Hated.

"It is believed in Bucharest, Bulgaria will delay as long as possible in declaring war on Rumania, hoping a separate peace may be arranged by the good offices of the Government at Bucharest; but if there is one sentiment which can be compared in intensity with the desire to free the Rumanians of Transylvania, it is the mistrust of Bulgaria and the certainty that a great Bulgaria is incompatible with future peace and development in the Balkans."

### Ferd the Fox Goes to Vienna; Won't Be Back

(Canadian Press.)

Rome, Sept. 1.—The people here are much interested in the report that Czar Ferdinand of Bulgaria has gone to Vienna, whence he is not expected to return. This calls to mind the fact that some years ago, when it seemed that Bulgaria might have to fight the other Balkan States, Prince Ferdinand went to the French Riviera "for his health." Although affairs at home were very grave he did not leave there until the Bulgarians publicly informed him that if he did not return his would be dethroned.

## UNITED STATES WILL STRIKE AT COMMERCE OF ALLIES AS ANSWER TO BLOCKADE

(Canadian Press.)

New York, Sept. 1.—An Associated Press dispatch from Washington last night says:

Retail legislation, striking at the commerce of the Entente Allies in support of diplomatic protests against interference with American trade, has been decided upon as a general policy of the Government after extended conferences between state department officials and Congress. This was stated officially today, with the explanation that provisions written into the shipping bill and the pending revenue bill were first steps in the policy.

Dislike the Blockade.  
Up to now, a high official pointed out, the United States has relied solely on the equity of its case and the sense of justice of the belligerent nations, but despite frequent protests on various phases of the Allies' blockade the principle of which this Government has denounced as illegal in a sweeping note, trade pressure and discrimination has been increasing exasperatingly.

Consequently, this official declared, the Government has reached the limit of patience in reliance on direct diplomacy and has decided, after discussions between Secretary of State Lansing and members of Congress to empower the president to employ commercial retaliation. This course would have been taken some time ago, it was intimated, except that all plans of retaliation proposed were obviously illegal.

Aimed at Embargo.  
The amendment to the revenue bill, adopted by the senate would give the president discretionary power to prohibit the importation into this country of products which cannot be imported into foreign countries from the United States. This is aimed directly at the British embargo restricting the shipment of American tobacco, which is said to be an attempt by English interests to depress the price of the American product and then monopolize its sale.

The amendment to the shipping bill, which already has passed both houses, gives the secretary of the treasury discretionary power to refuse clearance papers to all ships refusing to take American merchandise on other grounds than lack of space. This amendment is designed to reach Allied vessels which refuse to accept the goods of American firms on the British commercial blockade.

There is no doubt a big crisis in the war has been reached, although it isn't believed here it can possibly be finished, so far as Germany is concerned, until another summer campaign.

By such a withdrawal, military critics here say, Germany could possibly release 750,000 men for the east, but the Allies' front in the west would be shortened to the same extent and more effective concentrations of the great forces at their disposal could be made in further pushes, so the German strategic situation would be hardly improved.

There are two possible lines to which she might retire, one as far back as Maestricht (in Holland, north of Liege), but the belief is that if the pressure in the east becomes a serious menace, Field Marshal von Hindenburg will recommend a withdrawal to the line of Antwerp, Namur and Metziers that is surrendering about half of Belgium and nearly all Northern France, and standing on the line of the Meuse) on which she has been very busy in the last four months, especially about Namur and Antwerp, whose lines have been strengthened in every direction.

Would Hold Antwerp.  
With Von Hindenburg's prestige with the German people, it is argued, he could safely recommend such a withdrawal, especially accompanied by a declaration, as it certainly would be, that Germany would never retire from Antwerp.

### HARD-HITTING SERBS BREAK OFFENSIVE OF THE BULGARS

Staggering Defeat Administered to Ferdinand's Troops.

LOSSES WERE ENORMOUS

Serbian in Strong Positions Stopped and Turned Back Drive.

(Canadian Press.)

London, Aug. 31.—The Times' special correspondent with the Serbian army at Saloniki telegraphs:

"The Bulgarian offensive in the Ostrovo region appears to be temporarily if not definitely broken. The Serbians, occupying very strong positions stood their ground magnificently, inflicting such enormous losses on the enemy that the Bulgarian 'victory' of which the Bulgarian-German communiques boast, should more properly be described as a staggering defeat.

"It is known with certainty here that the Bulgarians have been expending the greatest effort in conveying their numbers, and in the rear in spite of the fact that they enjoy the use of the railway between Banliza and Florina."

### FIVE ATTACKS OF HUNS GIVE THEM FOOTING

Manage to Penetrate British Defences at Two Points on Somme.

HEAVY FORCES WERE USED

Four Assaults Driven Back—Loss of Ground Slight.

(Canadian Press.)

London, Sept. 1.—Five successive attacks were made by German troops last night on British positions on the Somme front. The war office announced today that the Germans penetrated the British defences on a small frontage at two points between Ghinchy and Highwood.

The announcement follows: "Subject to his attempts to attack Highwood, reported in last night's communiqué, the enemy made a further counter-attack yesterday afternoon and evening on a front of some 3,000 yards between Ghinchy and Highwood. These counter-attacks were preceded by an intense bombardment on the front attacked and on each side of it.

"Considerable forces were employed by the enemy. Five attacks in all were made. Four of these were driven back with heavy losses to the enemy. At the fifth attempt he succeeded in penetrating to our advanced trench line, on a small frontage, at two points only.

"To the north was successfully engaged several batteries east of Beaumont and caused a big explosion in that area. Gas was liberated by us from the Ypres salient with satisfactory results."

By such a withdrawal, military critics here say, Germany could possibly release 750,000 men for the east, but the Allies' front in the west would be shortened to the same extent and more effective concentrations of the great forces at their disposal could be made in further pushes, so the German strategic situation would be hardly improved.

All Greece and Macedonia Reported in Revolt, Causing Abdication of King Constantine in Favor of His Son, Prince George—Regulars and Volunteers Clash at Saloniki Until French Interfere—Premier Venizelos Once More to Hold Reins of Power.

(Canadian Press.)

London, Sept. 1, 2:15 p.m.—King Constantine has abdicated, according to the official British press representative at Saloniki.

The press report says the king has abdicated in favor of the crown prince, with Venizelos as the power behind the throne. The new policy, he reports, will be to work with the Entente Allies. According to this information, Premier Zaimis will remain at the head of the Government.

The correspondent questions whether the Entente Allies desire the active assistance of Greece.

#### REVOLT IN MACEDONIA.

(Canadian Press.)

London, Sept. 1—1:49 p.m.—The beginning of a revolution in Macedonia is reported in a Reuter dispatch filed yesterday at Saloniki.

#### FIGHTING AT SALONIKI.

Fighting occurred in Saloniki, the correspondent adds, but serious trouble was prevented by the intervention of soldiers of the Entente Allies.

"The revolution claimed its first victims at 4:30 o'clock this morning," the correspondent cables. "Cretan gendarmes and Macedonian volunteers surrounded the barracks of the Greek infantry in Saloniki and exchanged shots with the garrison. But for the intervention of the Allies the consequences might have been more serious.

#### LOYALISTS ATTACKED.

"After half promising to participate in a demonstration arranged yesterday by a pro-ally committee, the Greek troops finally refused. During the night pro-ally volunteers made a determined attempt to seize the barracks, but failed. It is asserted one gendarme was killed and that two were wounded. The losses of the Loyalists have not been ascertained."

#### SURROUNDED BARRACKS.

Further details of the disturbance in Saloniki are given in a later dispatch to Reuter's Telegram Company, which says that when the volunteers ascertained the regulars were unwilling to co-operate with them they surrounded the barracks in the night, cut the water main and electric light wires and shut off food supplies.

#### DROVE REGULARS BACK.

A detachment of 60 regulars attempted to break its way out to obtain supplies. Its surrender was demanded, and when the regulars refused the volunteers fired shots in the air. The regulars replied with a volley, whereupon the volunteers opened fire on them, compelling them to return to the barracks.

The allied commander, Gen. Sarraill, intervened to prevent further bloodshed. Altogether, according to the latest reports, three men were killed and one gendarme and two volunteers were wounded.

The total number of wounded German prisoners taken in the Verdun sector and in the neighborhood of the Somme exceeds 43,000.

## BILLS TO AVERT STRIKE ON THEIR WAY THROUGH CONGRESS

(Canadian Press.)

Washington, Sept. 1.—Bills to avert the railway strike actually were put on their way to passage today in both houses of Congress.

Under a special rule providing for a vote not later than 4:30 this afternoon, the House took up the Adamson eight-hour day bill approved by President Wilson and accepted by brotherhood leaders as a "satisfactory settlement."

President Wilson told members of his cabinet at today's meeting that there was every prospect that the legislation would be passed by both houses of Congress before tomorrow night.

## COAL EMBARGO PLACED BY M. C. R.; OTHERS TO FOLLOW

Canadian Shipments Via Niagara Frontier Already in Effect Because of Strike.

Shipments of anthracite coal via the Niagara frontier over the Michigan Central Railway have been refused for all Canadian points. This embargo on Canadian shipments was announced by the M. C. R. late Thursday night, and is expected to have a far-reaching effect in this country. On the best of authority it is declared that the M. C. R. embargo on all Canadian coal shipments will be followed tonight by those imposed by other roads doing business in Canada, and more particularly in the London district.

Statements made by London coal merchants today that the rumors of only one month's supply here were incorrect are somewhat reassuring, but the embargo has placed another phase on the question.

The fact that the embargo has been ordered before the American strike materializes means that if the latter becomes a fact, last-minute shipments from London will be held up in American yards. It is regarded as serious here.

## HUNDREDS FROM WATERLOO SEE CEREMONY HERE

Come To Witness Colors Presentation to 111th Battalion.

### REGENT GIVES FLAGS

Head of the I.O.D.E. Chapter Hands Standards To Keeping of Officers.

### WEATHER WAS PERFECT

Bishop Williams Consecrates Gift of Flags to South Waterloo Unit.

Ideal weather conditions marked the presentation of colors to the 111th (South Waterloo) Battalion at Carling Heights on Thursday afternoon. Nearly 6000 spectators were present to witness the ceremony, and of these more than 600 came from the county, including Galt, Hespeler, Preston and even from North Waterloo. Mrs. R. A. Briscoe, regent of the 25th Regiment (Waterloo) Chapter of the I. O. D. E., made the presentation to the battalion on behalf of the women of the riding.

The standards were consecrated by Right Rev. Bishop Williams of Huron in the following words:

"Dear beloved in the Lord, forasmuch as men at all times have made for themselves signs and emblems of their allegiance to the ruler and to their duty to uphold these laws and institutions which God's providence has called them to obey, we, following this natural and pleasant custom and remembering that God Himself led his people Israel by a pillar of fire by night and a pillar of cloud by day are met together before God to ask His blessing on these colors which are to represent to us our duty to our sovereign and our country." Here followed the Lord's Prayer.

Prayer for Courage.

Then placing his hands upon the colors he continued: "O Lord, who rulest over all things, accept we beseech Thee our service this day. Bless what we have blessed. Thy name be glorified. Let Thy gracious favor rest on those who shall follow the colors now committed to their trust. Give them courage and manly spirit, and ever rest on their sure confidence in Thee. May they show self-control in the hour of success, patience in the time of adversity and may their honor lie in seeking the honor and glory of Thy great name."

The ceremony was performed before the band of the 111th Battalion, the bugle band, the colors lying across the drums, while the battalion stood at attention. Major A. Windall and Major L. W. Johnston knelt and received the colors from Mrs. A. Briscoe and then stepping back handed them to Lieuts. Watt and Robbin.

Fighting for Truth.

The bishop then addressed the battalion. They were going overseas, he said, to fight the battle of truth against falsehood. Germany had denied the right of other nations to live and had attempted to crush the smaller ones. "We believe that there is a God, and necessary to the world and have a right to live. We believe in the brotherhood of nations and we will maintain our loyalty to the God who we do believe in is because of our national belief of crushing smaller nations that we are going forth upon the battlefields of Europe to challenge Germany's supremacy. It is the duty of civilization against barbarism. Germany believes in the right of might. No further proof of this is needed than the deportations of the Germans only a month ago of the thousands of young women and non-combatants. These acts are not the acts of victory-raised soldiers, but they were deliberately planned in cold blood. We are going to wipe these out."

History of Colors.

"The colors remind us then of what we are fighting for. The Waterloo Cross of the Union Jack shows us that we are fighting not only for ourselves but for others. We are struggling to maintain the honor and integrity of our country, for if Germany wins, only the United Kingdom would suffer. British positions in Asia and Africa, but in Canada would be attacked. We look upon you as our champions, as standing between us and the German emperor. May you be worthy of the motto of "Second to None," which your standard bears. May you be the second to none of all the battalions who have gone overseas before you. We wish you good luck in the name of God."

Thanks I. O. D. E.

Col. Clarke then made a brief speech of thanks to the ladies for the colors. "If we are so fortunate as to go overseas we will do our best to keep unspotted these expressions of your loyalty and good-will," he said.

The general salute was then given and the flag-bearers with the color guard marched back to the lines.

The battalion then marched past the headquarters staff with the newly-presented colors unfurled. There was no lack of cheering as the colors were brought past.

Machine Gun Drill.

Following the march past the machine gun sections of the battalion gave an exhibition of their drill. All the guns were brought up as if under fire, the commands being given by whistle. Sudden changes of direction, advancing and retreating, all were brought into play. An interesting feature was a demonstration of meeting an aeroplane attack. The guns were elevated by three members of the crew and in this manner it is possible to destroy the imaginary intruder of the air.

The manoeuvres were carried through without a hitch and elicited much applause from the bystanders.

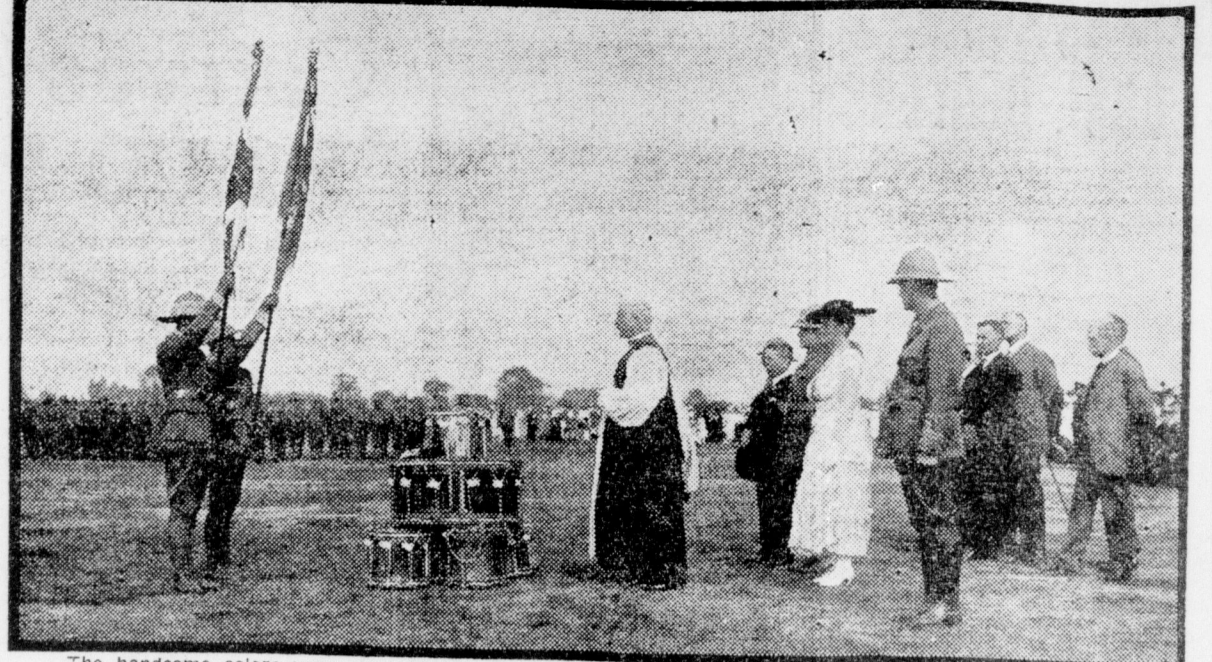

Among those who took part in the presentation were Col. L. W. Shannon, Lieut.-Col. H. D. Smith, Lieut.-Col. J. W. Brown, Lieut.-Col. J. Osborne, Lieut.-Col. W. Cole, Major B. Coburn, Major Sgt. Capt. J. E. Smeiman, Capt. Francis, Lieut. Fomeret, Lieut. George H. Ellis and Camp Sgt. Major Browne.

A number of the returned soldiers at Belvidere Hospital, near the Heights and were interested spectators of the ceremony.

The Visitors.

Some of the visitors were: Mrs. R. A. Briscoe, regent of the Waterloo Chapter of the Daughters of the Empire; Mayor A. M. Edwards, Ald. A. W. Mercer, Ald. Anderson, Ald. Taylor, Commissioner E. R. Feversham, B. Panabaker, reeve of Hespeler, B. V. Ziemann, deputy reeve; Mrs. Blake, vice-regent of the Waterloo chapter; Mrs. Spotton, 2nd vice-regent of the

The grounds were arranged much better than was the case at previous presentations. Ropes marked off the lines to which spectators might come and there was a specially reserved section with seats for the visitors. The grounds were sprinkled before the arrival of the people, so there was no dust blowing. Although it was quite warm a slight breeze prevented the bishop's address from carrying to all parts of the grounds, but this was unimportant.

An interested spectator of the spectacle was Puckon, the goat-mascot of the battalion, who paraded with it. After the ceremony many of the people took the opportunity of visiting the boys in their quarters. Sight-seeing amongst the neatly decorated tents occupied the remainder of the afternoon.

Friendly Visits.

Recruiting returns for No. 1 Military District for the last two weeks of August show a slight improvement over the figures of the first fortnight. The total enrollment for the last half-month was 236, as compared with 202 for the previous period.

As has been the case for the last couple of months, the majority of the men were of American extraction, and it is stated by the officers that the class is not of the best.

ADDRESS BY MR. ROGERS  
Minister of Public Works  
Welcomes Connaught in Eloquent Speech.

[Canadian Press.]  
Ottawa, Sept. 1.—The corner-stone of the new Parliament Building was laid today by the Duke of Connaught. Hon. Robert Rogers, in addressing His Royal Highness the Governor-General on his arrival, referred to the fact that 56 years ago today His Royal Highness Prince Albert Edward, then Prince of Wales, and brother of the Duke of Connaught, had laid the same stone in the foundation of the old building.

Recalls First Stone.  
"When your royal brother," said the minister of public works, "laid the corner-stone which is about to be removed from its original position and re-laid in the foundation of a new and more commodious building the Dominion of Canada lay in the womb of the future. The original building was erected by the far-seeing and brave men of that day to accommodate the legislature of the then existing Province of Canada. Since then the new Dominion has sprung into existence and developed into its present position of greatness and importance."

Upon History's Page.  
"The work accomplished within the walls of the old building by the representatives of the people of Canada during the years of its occupation will ever remain engraved upon the pages of the nation's history. Just what pages will be contributed to history by the legislators who will serve the country within the walls of the building now being erected no one can tell, but we all devoutly hope they will be pages replete with the same themes of progress, of courage, of devotion, of truth and of loyalty to country, flag and King."

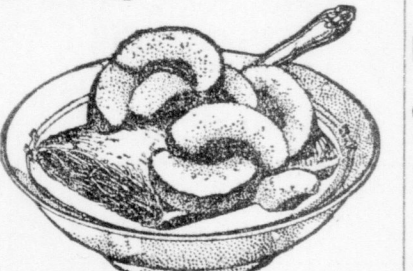

"SUMMERHOLM" BEING CLOSED FOR SEASON  
Y. W. C. A. Summer Session at Port Has Had Good Year.

"Summerholm," the summer session of the London Young Women's Christian Association, at Orchard Beach, Port Stanley, is being closed for the season this evening.

Mrs. W. M. Manning, president of the Summerholm board, and other members of her committee, have been delighted with the success of the season. A large number of girls have availed themselves of the pleasure of a holiday at a moderate cost at the cottage, which each season grows more modern and comfortable, thanks to improvements added each year. The new sleeping porch has proved an especial boon to the guests of the summer.

Miss Jennie Moore, president of the Y. W. C. A. board, has been the hostess during the past week.

Time for Peaches and Cream! To get full palate-joy with maximum of nutriment for the day's work eat them on shredded wheat biscuit—a complete, perfect meal, easy to prepare, appetizing and satisfying. In Shredded Wheat all the body-building material in the whole wheat grain is retained, including the bran coat, which is so useful in promoting bowel exercise.

## NOT A PARTICLE OF DANDRUFF OR FALLING HAIR

Save your hair! Double its beauty in just a few moments.

25-cent "Danderine" makes hair thick, glossy, wavy and beautiful.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes, but really new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a 25-cent bottle of Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that it all—surely can have beautiful hair and lots of it if you will just try a little Danderine.

## London Churches Refusing To Pay Any Garbage Tax

Deduct Amount From Bills—Collector Ordered to Get It.

The city churches have refused to pay their garbage tax this year. Major G. W. Hayes, the city tax collector, reported to the board of control that he had received checks from all the churches with the garbage tax deducted.

On the suggestion of Controller Moore, the matter was sent back to the collector. This means that he will have to collect the garbage tax, and if the churches want any redress they will have to go to the courts.

## EXPULSION OF THE GERMANS FROM HOLY RUSSIA, SLAV BATTLE CRY

Feeling Towards the Kaiser's Troops a Bitter One.

RUSS MORALE EXCELLENT  
Neither Shell Nor Bayonet Able To Turn Back the Muscovites.

[Canadian Press.]  
London, Aug. 31.—A Times correspondent, in a dispatch from Rovno, dealing with the morale of the Russian troops, says:

"The recent fighting has shown that German shells and German numbers could not blast or bayonet the Russians out of their positions this year. The Russian morale is excellent. The Russian troops are fighting with a determination to shoot, and could at last listen to the music of their own shells bursting over the Teuton lines."

Upon the morale of the army this year to which General Brusiloff himself directed much attention. Now, as he said, the morale is a hundred times more vital and deep-rooted than during the early successes in Galicia, in 1914. Then the soldiers fought through discipline and with a meagre realization of what it was all about. This year it is quite different. What was at the beginning of a war between governments has now become a war between peoples, and there is not a soldier in the army who does not understand now that he is fighting a hated enemy, and willing to die, if needed be, to dislodge Germany from the soil of Holy Russia. It is this conception which brings the troops forward singing and longing to get at the Germans. This feeling against the Austrians is quite different—perfunctory hostility, they would call it.

In addition one now notes an improvement in technique in every branch of the Russian service. Their trenches are as good as, if not better, than those of the Teutons. The transport is infinitely better organized than ever before, with the result that there is a saving of time, which certainly has increased its efficiency 50 per cent. The same is true of the ammunition columns, of the sanitary and Red Cross work, and every other branch of the Russian service I have seen. And last, but not least, we have shells and rifles."

Prince of Church  
URGES QUEBEC TO HELP RECRUITING  
Cardinal Begin Scores Those Who Oppose It.  
MEETINGS WILL CONTINUE  
Government To Talk Straight To Disturbers of Montreal Meetings.

[Canadian Press.]  
Montreal, Sept. 1.—A special dispatch to La Patrie from Quebec quotes Cardinal Begin as having given instructions to the clergy in regard to recruiting. These instructions are, in substance, as follows:

"It is complained that the work of recruiting is not producing results. The cause for which recruits are wanted is so grand, and the interests at stake are of an order so high, that a German victory would be a veritable calamity. The triumph of pan-Germanism would have the effect of spreading throughout the world all the evil ideas which have done so much harm in Europe. It is, therefore, of much importance that you do not oppose recruiting but that you favor it."

Rioters "Called."  
Mid-day recruiting meetings for the Irish Rangers on Place d'Armes Square, Montreal, suspended when a riot occurred between the demonstrators and the police, will be resumed today.

"The disposition of both military and civil authorities at Ottawa is that recruiting meetings should be proceeded with, and that they should not be interrupted, no matter where they might be held."

This was the statement made by Lieut.-Col. H. J. Tribes of the Irish Rangers today on his return from Ottawa, where he had been discussing the position created by the recent disturbances at the Place d'Armes.

Hon. C. J. Doherty will give an address at the meeting of the Irish Rangers at Dominion Square this evening, which it is expected he will give a clear account of the situation of the Dominion Government as to recruiting meetings and those who may attempt to interfere with them.

\$700 GIVEN AS CIVIC FIRE SUFFERERS' GRANT  
Original \$1,000 Provision Could Not Be Arranged.

The board of control will give \$700 to the fire sufferers of Northern Ontario. The original sum suggested was \$1,000, but as there is not enough money in the treasury to permit of this, the amount was reduced to \$700.

The central committee at Toronto agreed to purchase goods to this amount in London, provided the names of the wholesale firms here were supplied, and Gordon Philip, commissioner of industries, will give the desired information.

## BOOZE REGULATIONS COVERING NEW ACT RECEIVED IN CITY

Druggists, Doctors, Dentists and Vets. Get Them.

SOME IMPORTANT CHANGES

Sale of Alcohol Barred Unless Doctor's Prescription Is Presented.

Copies of the new regulations, prepared and issued by direction of the board of license commissioners of Ontario, governing the sale of liquor by druggists, physicians, dentists, and veterinary surgeons were received today by members of the above-named professions in the city.

The instructions issued to the druggists are much the same as that of other years with two exceptions. Formerly the druggist could sell alcohol to be used for rubbing purposes without a prescription, but the new law provides that alcohol must not be sold to any person for any purpose whatever except on a doctor's prescription. This will have a tendency to greatly restrict the sale of alcohol, which had been originally sold for rubbing purposes.

Must Supply Data.  
Another change that becomes effective on September 16 will make it necessary for every druggist to send to the Ontario License Board twice a year, September 1 and March 1, a record of the sales made during that period.

Section 36 of the act provides that the druggist must keep an accurate record, in a book kept for that purpose only, of each sale, and the name, date and address of the person to whom liquor has been furnished.

The act always required that a person can obtain liquor from a druggist only on a physician's prescription, which will specifically state the nature of the person's illness requiring the liquor. Only six ounces as a maximum amount can be secured at one time.

Upon the prescription of a physician, a druggist may supply for medicinal purposes only, ale, beer, and porter, in quantities not exceeding one dozen bottles, containing not more than three half-pints each, at any one time. Wine and distilled liquor can be sold under the same restrictions, not exceeding one quart at a time.

Six Ounces for Dentists.  
Dentists are permitted to keep on hand for restorative purposes a quantity not exceeding six ounces, and are permitted to administer the same to patients at times that they may deem expedient. Veterinary surgeons are allowed to keep on hand one quart of liquor to be used exclusively for their profession as the occasion demands.

Heavy penalties are provided for violations of the act. A person convicted on the first offence is liable to a fine of not less than \$50 nor more than \$100, or in default of payment, to four months' imprisonment. On a second conviction a fine of not less than \$100 nor more than \$500 can be levied, or in default of payment, the person is liable to six months' imprisonment.

## KNEW IT WAS FRAUD, SAYS CROWN COUNSEL OF EX-MINISTERS

Declares 'Illegitimate Profits' Amounted to \$600,000.

"WE'RE IN IT WITH KELLY"

Bonnar Continues His Summing of Charges Against Roblin.

[Canadian Press.]  
Winnipeg, Sept. 1.—Summing up the evidence of five weeks R. Bonnar, crown counsel, continued his address to the jury with which rests the decision as to guilt or innocence of the accused ex-cabinet ministers.

Bonnar pointed out that Thomas Kelly had been paid \$1,664,000 by December 20, 1914, and that in May following H. G. Russell estimated the value of the work done at \$780,000, leaving illegitimate profits of \$884,000 for Kelly. But of the total paid the contractors \$454,000 was on the main contract and the balance on extras. The total expenditure, according to estimated payments, would have been, he said, about \$5,200,000, as against the original contract figures of \$3,500,000. Dealing with the \$215,000 grillage contract, afterwards changed by the addition of steel to the steel superstructure, Bonnar declared he knew "the whole thing was a fraud." Kelly charged his Patriotic Fund donation to the Parliament buildings, and it was suggested he was doing this extra work for nothing.

Lumps Them All.  
The crown counsel described Roblin, Caldwell, Howden and Montague as "one in the whole case, solid and inseparable." Howden was just as much a party to the conspiracy as Caldwell. They roomed together, they financed Salt together. Out of \$882,000 paid Kelly in less than three months in the summer of 1914, accused Kelly should have been deducted \$100,000, said Bonnar. He claimed no deductions were to be made for the work omitted by Kelly, and that \$333,000 should have been deducted. Kelly was to get eight hundred thousand dollars for building the dome cheaper than originally specified, and Bonnar thought the evidence of the honesty of this contract was the fact that it was destroyed.

He thought it was a suspicious circumstance that with two reliable civil engineers in the public works department the Government went outside for men to design the caissons and steel piers.

All Worked Together.  
There was not one particle of evidence that the accused acted honestly from the fall of 1913 to the spring of 1915 in the Parliament Building matters, "the accused and Kelly were in this steal together," he said.

"Kelly took advantage of this fact to do poor work, and make more money than it was intended he should make. It was impossible to carry out the work, as it was done unless there was an arrangement among accused, Kelly, Howden and others. They were all working together to get money for themselves."

Engineer Will Report On Question at Once.

Secretary A. M. Hunt of the Western Fair Board asked the board of control to set aside certain streets for parking automobiles during the Western Fair. It was thought that the lane immediately west of the cattle sheds and Campbell street would be the best place.

The board of control decided that it would be unwise to do this, declaring that Egerton street would be preferable. However, City Engineer Brazier was instructed to go into the matter and deal with it as he thought best.

## RAILWAYS MAY CARRY STRIKE LEGISLATION TO THE SUPREME COURT

Not Likely To Accept Eight-Hour Law Without Fight.

ONLY POSTPONES CLASH

Presidents of American Systems Believe Strike Will Come Later.

[Canadian Press.]  
Chicago, Ill., Sept. 1.—While railroad officials of the country generally agreed today the passage by Congress of the proposed eight-hour day bill would avert the strike set by the four brotherhood of trainmen for next Monday, many were of the opinion that the railroads would decline to accept the law without a contest in the United States supreme court.

The plan today, as the result of conferences last night among presidents of a number of the leading roads was that no claim of unconstitutionality will be interposed, but should the measure be enacted, it will be studied by the railroad lawyers, and if they deem it advisable they will make a test case in the courts.

"If the men accept the measure it will probably mean the postponement of the strike," was the statement of E. P. Ripley, president of the Atchafalaya, Topeka and Santa Fe. "Such action, however, will mean but a temporary settlement of present difficulties."

Railways Prepare.  
Preparations for railroads for operation of trains in the event of a strike went on today notwithstanding the proposed legislation at Washington. Employment agencies are busy hiring men for the railroad companies and advertisements appeared in newspapers in many cities, soliciting applications from experienced engineers, conductors, brakemen, firemen and switchmen.

The embargo on perishable freight, instituted yesterday by every trunk line in the country was not materially changed today, with the exception of the Atchafalaya, Topeka and Santa Fe, which modified the embargo on perishable freight, instructions went out from the general offices at Topeka, Kansas, last night, to accept shipments of perishable merchandise to arrive at its destination no later than Sunday. Live stock shipments are excepted from the new order.

In a number of the larger cities, meetings of officials have been called for today to consider means of checking the increase in the prices of foodstuffs.

## A PAGE OF GENERAL INTEREST TO WOMEN READERS

## Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letter can be answered privately.]

## Favors Conscripted.

Dear Miss Grey.—I saw in The Advertiser where "Lonely Mother" asks for Quaker oat coupons. If she will send her address I will send her quite a number of them. I, too, am a lonely mother. I have a son in England; he went over with the 2nd Highlanders of Toronto. I expect he now is with the Royal Flying Corps training for an aviator. There are lots of lonely mothers nowadays. I am one of those who think we should have conscription. It is all very well for our boys to go to fight while lots of mothers will say "My boy don't have to go to war, let Britain fight her own battles, Canada has no right to send help to Britain. It is not our war." Those very same people would be the first ones to say "why don't Britain help us?" If any nation declared war on Canada, My idea of it, we should have conscription, that would be the fair way, then everybody's boy would have to do his part. It is our war, it is our duty to let our boys go to fight for our country. Where would these cowards be

if it was not for our brave lads who have gone to do their bit? My boy writes he would spill every drop of blood in his veins before he would be treated or have his family treated as he knows some of those Belgians have been, and thinks if the Canadian boys realized what it is like over there they would all enlist. He is sorry he did not go with the first contingent. Hope I have not taken up too much space. May I come again some time? I will sign myself, SUNNY KENT.

Ans.—Come again? Well I should think so. "Lonely Mothers" are always welcome, and you have a clear way of expressing yourself that is very convincing. I hope some of the mothers who refused consent for their sons' enlisting, see your letter.

Am asking the other "Lonely Mother" if you may have her address.

## Mabel's Note.

Dear Miss Grey.—Am sending recipe for tea biscuits for "Young Bride": 1 quart flour, 2 good teaspoons baking powder, 2 tablespoons of lard worked

through flour, 1 teaspoon salt in flour and milk enough to make soft dough; have oven quite hot as they need to bake quickly.

I notice where "Fly Pad" sends in satin inserts; could I have them? And could I get six flannellette gum flags if anyone has them? I want to finish a cushion. Would like a Poland flag, a Union Jack, and U. S. A. or any others I could get. Will try and help more next time. Am sending 25 cents for "Aunt Nannie."

## First at Last.

Dear Cynthia Grey.—Now surely I will be the first with this grape drink recipe asked for. Hearty thanks to all who sent in the bean canning recipes and the bulletin number. Let me give you all another bulletin number on "Flour and Breadmaking." It is No. 159. This bulletin is a great help in bread-making.

## I wish The Advertiser wouldn't say

such naughty things about Sir Sam—I don't think he's so bad (my Tony).

This is the way we can our corn: Cut off cob, press into sealers until full and milk comes up over the top, then seal and cook in boiler four hours for Imperial quart.

Grape juice for drink: Put grapes in kettle with just enough water to cover, boil up, then strain as for jelly. To one quart of juice add one cup sugar. Let it boil up, then seal. When wanted for drink put in as much cold water as there is juice. Concord grapes are the best to use for this.

These recipes for canning vegetables are getting along in good time. I have saved quite a number. Good luck to you all.

KATHERINE No. 1.

Ans.—Yes, you really are the very first and only, to send in the recipe. Happy now? Glad you see good in the page. Some days its pretty much coupons, I fear.

A "56th" Girl.

Dear Miss Grey.—Would you please answer the following questions for me?

1. On what day did September 20, 1896, fall?

2. Can the "Girl of the Lumberlost" tell me who played the part of Ashland in the "Cavalanche" also "The Rat" in the "Golden Chance"?

3. I do not know. Sorry.

4. Perhaps twenty.

5. Yes.

6. Rather attractive, but leave more space between lines.

7. Yes.

Miss Grey Heelates.

Dear Miss Grey.—I expect to hear that this is the P.R. because I am using pencils but the ink-bottle was upset all over my sideboard scarf, so I should worry, eh?

I see there is quite a discussion about how soldiers' wives spend their pay. I am not a soldier's wife, but from what I hear, they have no easy time of it. Their nests are not lined with gold. Let us hurry and decide about doing patriotic work.

Ans.—I am a Sunday school teacher. I referred to "Girl of the Lumberlost."

## A great Help on a Busy Day

ONCE a week at least there is a big day centering around the kitchen range. The boiler takes up a lot of room, and there is the dinner to cook—because no woman wants to serve "wash-day dinners."

The range should take care of both the dinner and the washing. And if you have a Pandora, it will.

Set the boiler on the long way of the Pandora—not on top, but right down in the pot holes. That leaves two of the hot front holes free for cooking and at the same time keeps the

boiler on the boil. Should you have to add coal to the fire, you can do so without taking off the lids or disturbing your cooking.

This is the sort of range every woman should have—one that saves her time on busy days. It is almost as important as the saving of coal for which the Pandora is famous.

## McClary's Pandora Range

Before you invest in a new range investigate the Pandora. If you would like to know why the Pandora gives a lifetime of perfect service, why it saves coal, why it saves time, we will be glad to place the reasons clearly explained in your hands. The Pandora has a glass oven door, a white enamel removable reservoir, wonderfully smooth working grates and dozens of features that are illustrated in our new booklet, "The Magic of the Pandora." You may secure one by mailing the coupon to the factory.

## Daily Bible Question Club

By Rev. T. S. Linscott, D. D.

The six daily studies for this week constitute the International S. S. Lesson for next Sunday. Read the Bible Story on which this study is based, as you ponder the following questions:

"Paul's Sorrows and Comforts." II. Cor., xi, 21-xi, 30.

Golden Text—"My grace is sufficient for thee; for my power is made perfect in weakness." II. Cor., xii, 3.

15. Chap. xii, 1-6—What is the logical or scientific value of Paul's experience of heaven?

16. In the last generation it was customary for preachers to bring into their sermons a lot of personal experience. In this generation it is conspicuous for its absence, which is the better, and why?

17. What is the real proof to the individual of immortality, and of the wisdom of the spiritual life?

Ans.—I, according to postal laws, the office must be kept open on such local half-holidays.

3. Will someone exchange with "Ugly Duckling?"

The remainder of your letter touched me very much. I should like to have printed it, only for with request. Do I think your idea practical? Not altogether, dear, for the general run of women. For some like yourself it would be fine. If the Government would only make it optional. I don't blame you a bit for feeling bitter, sometimes, especially when "those who walk in high places"—you know. Believe it is the colonel of your husband's battalion you

## MAGNATES TALK OF DIVIDING THE SEASON

Accidents to Clubs Causing Talk of Change.

NEW YORK, Aug. 31.—In view of the apparent ease with which a ball club can be knocked from leadership into nothing by a series of accidents and also in view of the fact that a ball club, getting a bad start, had little chance of catching up, the magnates of the American League are discussing a plan for changing the system of dividing pennants and world's championships that may revolutionize modern baseball.

The plan, heartily approved by Garry Herrmann, chairman of the national commission, contemplates dividing the regular season of six months into two pennant races of 70 games each. One season is to begin in April and end July 1, the other going from then until October 1. In other words a pennant race will be decided by July 1 and a fresh one start all over again. If two clubs win championships in each of the two leagues they are to play off in a seven-game series to see which shall meet the winner of the opposition in a series for the world's championship.

**Success in Minors.**  
This plan has been tried in minor leagues and met with considerable success, but the failure of big leagues to adopt it caused its discontinuance. In the Southern League many years ago Chattanooga and Birmingham won the pennant and then played off for the championship.

"There is no doubt in my mind," said Capt. Huston, "that the plan of dividing the summer into two separate baseball seasons would increase interest all around. It is evident that the public is more interested in the baseball season than in the games themselves, a surmise that is proved by the fact that the minute a ball club clinches the pennant there is little more interest in the games. This is also true of a club that is carelessly beaten from the start.

**Worth a Trial?**  
This new scheme, as radical as it may seem, offers many advantages to the ball clubs as well as the public. It would also hold hope for the club that suddenly comes to life and is going to have a chance to win the pennant. A club that is shot to pieces by accidents would have a chance to get together and start out with interest in the final playoff series between the two pennant winners in each league, and still it would not detract from the interest in the conservatism of baseball and the championship.

Whether it succeeds in overcoming the conservatism of baseball and the disinclination to adopt anything new, this plan is certainly meeting with serious discussion by the baseball magnates. It appears to be well worth the experiment.

**ELMWOOD CLUB WILL HOLD TOURNAMENT TONIGHT**  
Another big night is in store for the bowlers of the city at the Friday night tournament at the Elmwood Bowling Club.

Twenty-four rinks were entered last week, but the tourney had to be called off before the conclusion of the first game on account of the failure of the lights.

For tonight's tournament the players will all be classified before the draw and will play the same position throughout the evening. Two sets of prizes will be given, one to the winning rinks and one to the runner-up. The draw will be made at 7:45 and play commenced immediately.

**SPRINGWOOD GUN CLUB WILL HOLD BIG SHOOT**  
Labor Day Program Will Consist of Sixty Targets.

The Springfield Gun Club will hold their holiday shoot on Monday morning next, commencing at 9:30.

The program will consist of 60 targets. The club house will be used, and prizes will be awarded to high guns. All shooters will be made welcome.

It is almost a certainty that from a promoter's standpoint the Welsh-White Labor Day scrap at Colorado Springs is going to be a large-sized bloomer. Just how much they will lose depends greatly on whether the railroad strike materializes or not; but in any event the very little chance of their breaking even. Many of the fans who would have gone from a distance have given up the idea because they could not be sure of having their money going to get a stage the fight will be about \$35,000, and there does not exist any prospect of getting a gate of that size. Even money and four to five on the champion are the prevailing odds, with little money being wagered.

"Willie" Heston, the star football team of the University of Michigan football team of some years ago, will likely be reinstated as police justice of Detroit. Heston was undoubtedly the star of the western players of his day, and if he makes as good a judge as a little kick on his work.

Joe Jeannette, the negro heavyweight, has been matched to meet Gumboat Smith in New York on September 7. They will travel the ten-round route.

Stephencas Jockey Harry Simpson's badge was taken up on Ottawa on Thursday and he was told to report at the meeting of the stewards of the Canadian Racing Association which will be held at the Blue Bonnets next Wednesday. The ride that Simpson put up on Tropeum at Hamilton is the one in question that he will be asked to explain to the stewards.

Jean Dubuc will pitch for the Tigers against the Leafs in today's game.

Joe Jackson had the bulge on Cobb and Speaker, with a homer, triple and single on four chances. Speaker had the best Ty could do was to beat out a bunt on five chances. The Cubs, also fanned with the bases full in the third.

The refusal of Larry Doyle to sign with the Chicago Nationals, may result in the canceled season of the team which Heinie Zimmerman went to the Giants in exchange for Doyle and to other players. Terms of the trade included the stipulation that in the event Doyle refused to come to terms, the Chicago club could call off the dog. Doyle's contract with the Giants expired at the end of the present season, but he demanded for signing a three-year contract, and an increase in salary, none of which the Cubs were willing to give him.

Louis Guleto, the big first-sacker of the Portland Club, is also pulling the Doyle stunt, and refuses to join the Chicago Indians, saying he will rather go to the minors or leave the salary offered. The Georgia team demanded a \$2,500 a season, but he demanded a one thousand dollar bonus and a contract calling for \$3,000 a year.

Jack Bright, Newark International League Club pitcher, had his spine injured and his scalp lacerated, when thrown against the seat of a railway coach when the train made a sudden stop between Buffalo and Niagara Falls. He was attended by a physician and later taken to Toronto with the Newark Club, but will be out of the game for a few days.

Batchelor, writing in the Detroit Free Press, says that the Tigers have been playing better ball in the last three weeks than he has seen them display in the last six years, and if they continue the pace this month, there will be no doubt of a title for them.

21 out of a total of 27 games on the own grounds. He adds that there has been nothing lucky or fluky about their wins on the eastern trip.

**ZOCCANO AND MORGAN IN FINE SHAPE FOR LABOR DAY BOUT**

Both Lads in Pink of Condition for Battle.

All arrangements have now been completed for the Labor Day scrap, when Tony Zoccano of London and Eddie Morgan of Providence, R. I., will battle for featherweight honors at Queen's Park.

Morgan has arrived in the city and is in excellent shape. Zoccano is also in tiptop condition, and the boys will devote the rest of the time before the fight to light work only. Both lads are down to the required weight of 125 pounds and can be counted on to put up the stiffest kind of an argument.

It is some years since London fans have had an opportunity of seeing Zoccano in action and they should welcome this opportunity of seeing him in action again. Since leaving this city he has gained a name for himself in the roped arena by meeting a number of the top-notchers in the game.

In addition to the main event a number of good preliminaries will be staged. Cookson and Lucas will go on for eight rounds and Wainwright and Benny Stables will go on for six.

The semi-final will be provided by Joe Witty and Kid Albert. This will also be an eight-round affair. The other scheduled preliminary is between Fanny Iano and Ferguson had to be cancelled, owing to the disability of one of the boys, but Promoter Zoccano is arranging for two other lads to take their place.

**VETERAN HANS WAGNER IS OUT OF THE GAME**

Pittsburg, Sept. 1.—Honus Wagner, veteran shortstop of the Pittsburg Nationals, will probably not be able to play again this season owing to a series of injuries received during the past month. He was out ten days as a result of a badly-injured thumb and a lacerated finger, and when these wounds had healed, twisted a ligament in his leg.

As there is only one more month of the season, the shortstop's friends say he will probably remain on the bench while a number of recruits will be tried out in his place.

## Thirty-Four Rinks Enter Labor Day Tournament

Both Qualifying Games and Finals Will Be Played at London Rowing and Bowling Club—D. L. B. A. Rules To Govern Play.

One hundred and thirty-five bowlers entered for the big Labor Day tournament of the London Lawn Bowling Association, which will be held Monday at the London Rowing and Bowling Club. Play will be commenced at 9 o'clock and both the qualifying games and the finals will be played at the Rowing Club. At the annual meeting it was decided to hold the finals in the evening. The finals will be played at the Rowing Club, but at a meeting of the executive last night it was decided to play all the games at the agreed Club. Supper will be served on the lawn, so that all the players will have an opportunity of seeing the finals.

The committee invites the ladies to visit the lawn both day and evening.

It was also decided at last night's meeting to play all games under the rules of the Dominion Lawn Bowling Association.

At 125 names were received, one blank was included in the draw, and the first name received by the James S. McDougall will be filled in.

Players are requested to be on hand sharp at 9 o'clock. All slips will be supplied with cards, showing the greens on which they will play each game.

A man bought a lawn mower. We have forgotten what he paid, but it was the cheapest he could find.  
He cut his lawn twice, then took the lawn mower to the repair shop.  
Every time he finished mowing the grass the cussed thing had to go back to the repair shop to be sharpened or tuned.  
"That's the most expensive lawn mower I ever owned," he said one day.  
He had learned the lesson we have been trying to teach people about motor cars. And that lesson is—the cheapest car is often the most expensive. It pays enormously to pay a little more.  
By paying \$1475 for a Chalmers, for example, you get a five-year car. A car that will do everything you expect of it for at least five years.  
And at the end of that time it will be in fair condition.  
The motor—it's the famous 3400 r. p. m. It will never worry you. Never cause you to lose your temper.  
For it has been tested in the hands of 30,000 owners and found 99.21 per cent perfect.  
Caution: Don't take the cheap-lawn-mower attitude in buying motor cars.  
Chalmers are built in Canada at the factory in Walkerville. The service facilities are excellent and mean many more satisfied owners in a very short time.  
Prices—5-Passenger Touring, \$1475; 2-Pas-senger Roadster, \$1475; 3-Passenger Cabriolet, \$1900; 7-Passenger Touring, \$1775. All f. o. b. Walkerville.

## Council of War Will Assemble Soon at Vienna

Kaiser, Franz Josef and Czar  
Ferdinand to Attend.

GENEVA, Aug. 31.—A dispatch from the Associated Press—It is reported that a council of war will assemble shortly at Vienna, at which Emperor William of Germany, Emperor Franz Josef of Austria-Hungary and King Ferdinand of Bulgaria will be present.

The aged Emperor Francis Josef is reported to have arrived at Budapest for a conference with Hungarian leaders.

## RUSSIA TO LAY MINES ABOUT ALAND ISLANDS

Will Guard Waterways Which Provide  
Route to Petrograd.

LONDON, Aug. 31.—A dispatch from the Associated Press—It is reported that Russia has ordered mines to be laid around the Aland Islands as far as the Swedish territorial waters.

The Aland Islands are in the Baltic Sea, and command the waterways entering both the Gulf of Bothnia as well as the Gulf of Finland, and hence the way to Petrograd. The islands were forfeited by Russia soon after the beginning of the war. This action caused some unrest in Sweden, as the nearest of the islands is but six hours' sail from Stockholm. Russia, it was reported, has given informal assurances to Sweden that the fortifications on the islands were only temporary, and would be removed at the end of the war.

## GERMANS ATTEMPT TO MAKE ATTACK NEAR HIGH WOOD

Stopped by British Machine

## FRENCH MAKE PROGRESS

Gain New Positions Near  
Estrees and Soyecourt  
Wood.

LONDON, Sept. 1.—1:26 a.m.—The British official statement issued last night, reads:

"In the vicinity of High Wood today the enemy left his trenches intending to attack, but was stopped by our machine gun fire. No attack developed. There was some minor activity of little importance on both sides about Neuville St. Vaast and the La Bassée mill in the early morning, and also some fairly heavy bombardments in various sections during the day. Among the prisoners mentioned in the morning communiqué are eight officers."

"In the operations south of Martinpuich (Somme) reported last night," says the British official statement issued this afternoon, "two officers and 124 soldiers of other ranks surrendered. They belonged to a Bavarian regiment, and their willingness to surrender instead of returning to their lines is interesting."

"We discharged gas over a broad front near Arras, and also near Arras, with good results. The enemy shelled Bethune last night, which led to heavy retaliation from our guns."

FRENCH REPORT.  
PARIS, Aug. 31.—10:45 p.m.—The French official communiqué issued this evening reports some progress for the French south of the Somme near Estrees and Soyecourt, but says that elsewhere along the front there is nothing important to report. The text reads:

"On the Somme front our artillery displayed great activity during the day. North of the river, the enemy's grenade attack on our positions at Maurepas wood was easily repulsed."

"South of the Somme we succeeded in local operations which resulted in progress south of the village of Estrees and southwest of Soyecourt wood, where we took prisoners."

"The customary cannonade occurred on the rest of the front." This afternoon's report says: "The night was calm on the greater part of the front. In Lorraine today, toward the end of the day, the Germans attempted a surprise attack in Parroy forest. They penetrated a portion of one of our trenches, whence they were driven out immediately by our counter-attack."

## Ran the Blockade and Carried Arms To East Africa

BERLIN, Aug. 31, via wireless to the Associated Press.—A brief account of the voyage of the German steamship Marie which reached the Dutch harbor of Batavia May 13, after escaping the British blockade against German East Africa, instead of taking refuge in an African river as then reported, shows that the vessel left Germany in January with a cargo of supplies for the German forces fighting in East Africa.

The Marie successfully ran the blockades in the North Sea and at the mouth of the Sudi River, and delivered her cargo, which, her officers say, enabled the German soldiers to continue their resistance against the forces of the Entente Allies invading the German colony.

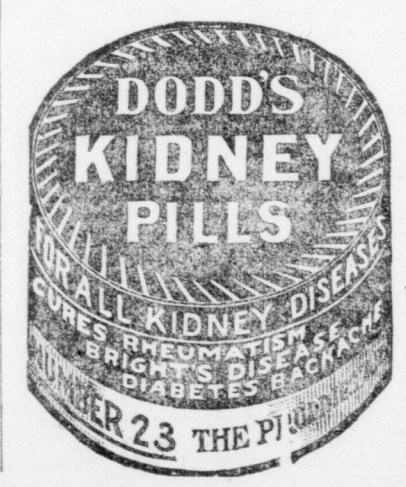

## LEGAL FIGHT BEGUN TO PREVENT HYDRO DIVERTING NIAGARA

Attorney-General Says Such  
Action Cannot Be  
Brought.

WELLAND, Aug. 31.—Following the refusal of a fiat by the attorney-general a supreme court writ was issued at Welland today by the Electrical Development Company against the attorney-general of Ontario, and the hydro-electric power commission of Ontario seeking to restrain the Government from going ahead with the Chippewa-Queensdown power development scheme or other power development within the limits of the Queen Victoria Niagara Falls Park.

The statement of claim concludes as follows: "And the plaintiff further claims injunction to restrain the defendant, the Hydro-Electric Power Commission of Ontario, from diverting any water from any part of the Niagara or Welland Rivers for the purpose of developing electric power."

LUCAS DENIES AUTHORITY.  
TORONTO, Aug. 31.—Hon. I. B. Lucas, attorney-general, received the writ this afternoon and took the view that there was no authority to issue such a writ. He could not see how such action could be brought against the attorney-general, and as regards the hydro commission, he pointed out that section 15 of the commission act set forth that "Without the consent of the attorney-general no action shall be brought against the commission or against any member thereof for anything done or omitted in the exercise of his office."

## CANADIAN PENSIONS EXPECTED TO REACH \$15,000,000 A YEAR

Board Is Named to Administer  
the Act.

J. K. L. ROSS CHAIRMAN

Major Todd of Montreal and  
Colonel Labatt Are Other  
Members.

[Special to The Advertiser.]

OTTAWA, Aug. 31.—The pensions board has been named, it takes over from the militia department administration of the pensions act.

The board named consists of Mr. J. K. L. Ross, Montreal, chairman; Major John L. Todd of Montreal, and Col. Labatt, Hamilton.

Mr. Ross is a son of the late Sir James Ross of Montreal, multi-millionaire. He has had a considerable business experience, and has been exceedingly generous in his gifts to Canada's war operations. He gave half a million dollars to the patriotic fund, and several fast yachts for coast patrol.

Dr. Todd has had a distinguished career. He was born in Victoria, B.C., and graduated in medicine from McGill where he specialized in parasitology, and afterwards lectured there. He went to Liverpool University and lectured there, after war began he went to the front on hospital work, and made a study of the French methods of handling wounded and training damaged men for vocations. He was brought back to Canada to assist the Canadian hospitals commission in training partially crippled men for civil employment. Colonel Labatt left Canada as major of the 4th Battalion, and came back as a casualty, he is a brother-in-law to Hon. John Reid, minister of customs.

The commission has an immense work before it. Already the Canadian pensions bill amounts to a million and a half dollars yearly, and will, it is expected, grow to fifteen million dollars a year. Local boards and agents will have to be established throughout the country to deal with injured men returned from the front, and with widows and orphans of Canadian soldiers who die on active service. The work has outgrown the capacity of the existing organization to handle it. The new board will commence work at once. The British pensions system will be studied. The commissioners will each receive five thousand dollars a year.

## MUNICIPALITIES ASK STEPS BE TAKEN TO EXTEND THE RADIALS

TORONTO, Aug. 31.—At a meeting attended by representatives of forty municipalities stretching from Peterborough to Windsor, and Collingwood, at the city hall today, a resolution was adopted to the effect that having regard to early assistance for hydro-electric power and railways, the central executive be instructed to interview the Provincial Government and make the following request:

A petition that orders-in-council be passed providing funds for the purchase of rights-of-way, as suggested by the attorney-general; also that enabling legislation be adopted by the Legislature permitting the municipalities interested to immediately take over the Chippewa Creek power development scheme, to complete its construction, and operate it; that legislation be enacted divorcing the hydro-electric power committee from any department, and from the control of any department, as set forth in the correspondence, making it incorrect to refer to the said commission, as under the attorney-general's control, as is now done on page 5 of the catalogue of publications of said Government.

Among the correspondence read was a letter from Sir Adam Beck denying that the hydro commission had been consulted in any way regarding the alleged placing of the commission under the control of the attorney-general.

Among the representatives in attendance were Messrs. J. W. Lyon, Guelph; R. Strutt, Petrolia; H. A. Hogden, Goderich; W. M. Foreman, Chatham; M. F. Irvine, St. Marys; Clifford Kemp, Woodstock; D. B. Detweiler, Kitchener; H. A. Stevenson, mayor of London; S. Baker, London; G. B. Ryan, Guelph; J. P. Dickson, Arkona; D. A. McLachlan, Stratford.

Before adjournment a resolution was adopted expressing the association's gratification "at the success attained by the operation of the London and Port Stanley Railway."

The association will attend a big convention to be held in Hamilton tomorrow.

# Greater Than Ever!

## TIP TOP Made-To-Measure Clothes ALWAYS \$15

Bigger output and improved facilities and methods have brought the prices down on many an article. The constantly lower prices on Ford cars, for example, illustrate how a well-organized, efficiently-conducted business can, by building up a gigantic output, save the consumer many dollars.

This season our suits and overcoats to-measure at \$15 are greater than ever—our superior values has been brought about because we have scoured the world's markets for the best possible woolsens to sell at this price. By concentrating absolutely on the one price and having an enormous output through our own stores all over the Dominion we have been able to cut \$10 to \$12 off the price of the tailored-to-order garment without lowering the quality.

We have cut out all middlemen—we operate our own great tailoring shop—we take orders exclusively through our own branches—we order our woolsens in large quantities direct from the mills—we buy and sell only for cash—we get the best materials and give the best value.

## See the Display of Made-Up Models In Our Windows

Ask the salesmen to let you examine them; note how we tailor and finish our garments. It will cost you nothing to do this.

The man who wishes to get his new Fall suit early should place his order as soon as possible. We expect our large tailoring plant to be taxed to its utmost capacity for the Fall trade. Avoid disappointment by coming and choosing your cloth now. Exhibition visitors should take advantage of their visit to the city and order a handsome Tip Top tailored suit and save \$10.

## SPEEDY ACTION AT WASHINGTON TO HALT STRIKE

Both Houses of Congress Are Likely to Pass Bill by Tomorrow.

## SHORTENS THE WORK DAY

Railwaymen Say It Will Be Considered "Satisfactory Settlement."

## LONG HEARING IS HELD

Brotherhood and Railroad Officials Appear Before the Commerce Commission.

[Canadian Press.]

Washington, Sept. 1.—Measures which will result in rescinding of orders for railway strikes next Monday may be passed by the House and Senate under special rule today, and within 24 hours may be on their way to receive President Wilson's signature.

Both Houses have under consideration virtually identical bills establishing an eight-hour day for trainmen in interstate railroad provisions, and providing for creation of a commission to study the effect, and President Wilson was on hand to press for their immediate passage. He set aside the matter for a personal visit to the Capitol to focus the Administration's influence in behalf of his proposals.

Some Republican opposition was looked for, particularly in the House, but it was believed by Congressional leaders that this would be insufficient to prevent passage. In the Senate there was pronounced feeling that the entire program proposed originally by the president should receive immediate consideration.

**Vote This Afternoon.**  
The House was to meet at 11 o'clock and vote finally on the Adamson bill, introduced yesterday with approval of the Administration, at 4:30 this afternoon. The Senate was to convene at 10 o'clock to take up the bill, on which the interstate commerce commission had held throughout the night after an all-day hearing. Both House and Senate bills would provide for payment of extra wages for time over the eight hours, and both would have the investigating commission of three members, appointed by the president, report its recommendations in from six to nine months after the law becomes effective. This date is set at December 1 by the House bill and at December 15 by the Senate bill. The Senate measure also would exempt railroads less than 100 miles long and electric street and interurban lines. The House would allow \$25,000 for the commission, and the Senate \$50,000. President Wilson arranged to leave at 3 p.m. for his summer home at Long Branch, N. J., where he will be notified tomorrow of his nomination, and a special messenger will be dispatched to him with the bill when it is passed.

Brotherhood leaders have reaffirmed their intention of considering provisions of the eight-hour bill a satisfactory settlement, and have promised to call off the strike if it is enacted before tomorrow night.

Speaker Clark believes Congress can adjourn by Wednesday if the strike legislation is disposed of tomorrow.

**LONG HEARING HELD.**  
WASHINGTON, Aug. 31.—Representatives of the railroads, of the trainmen's brotherhoods, and of shipper organizations, argued for nine hours today before the senate interstate commerce committee on legislation proposed to avert the threatened strike, re-compensate the roads for machinery to make impossible in the future another crisis like the present. Tonight the committee worked until late on a bill to be presented in the morning to the senate. Out of the nine hours' argument, two facts stood clearly. In the estimation of all affected parties, congress alone can prevent a strike, and the public eventually will foot the bill for an eight-hour day with ten hours' pay, which the trainmen demand. The railroad executives and the shipper insisted that strike order at least should be postponed, and the four brotherhood chiefs declared with equal vehemence it could not be.

All sides apparently were most satisfied with the hearing which had given them an opportunity to lay their cases before the public.

**Ends With Dramatic Scene.**  
A dramatic scene, in which A. B. Garretson, spokesman for the trainmen and president of the Order of Railway Conductors, was the central figure, brought the hearing to a climax tonight shortly before the taking of testimony closed.

Throughout the day members of the committee at different times had asked the four brotherhood leaders to give powers to stop the strike save by reporting a satisfactory settlement to their men. The question invariably was evaded, the replies being that Mr. Garretson would not discuss the situation before the hearing closed.

For almost an hour Mr. Garretson kept the crowd laughing with quaint expressions and humorous stories. When he had only three minutes left in which to speak, his brother-president urged him to answer the question of power to postpone a strike. He suddenly became serious, stood erect, gazed at the ceiling for a moment, and then began to speak.

"We have been asked," he said slowly, "if we have the power to defer this strike. I have been called for next Monday. I have the power to defer that date in my organization, but in the other organizations the situation is different. The heads of the other brotherhoods cannot call back the strike order."

"But here is where I stand: For years my men have trusted me. When I stood before the president the other night, and he asked me if I could be done, I found my Gettysburg. To the men who have made me the recipient of all these tributes I owe my first obligation. I can put it off, but if I did without gaining a satisfactory settlement, there would linger in the minds of those who have trusted me thoughts of treachery. If I put it off, across a fair record of 20 years would be written the word 'traitor'."

**Railwaymen Breaks Down.**  
For a moment the witness paused and seemed to peer far out over the heads of the crowd. Then tears came into his eyes and rolled down his cheeks. He started to speak, but choked. Apparently summoning all his strength, he threw out his arms, lowered his eyes to the crowd, and in a low voice asked: "Can I face it?" and dropped into his chair.

Not a person in the room moved for several seconds. Mr. Garretson relieved the situation by rising from his chair and leaving the chamber.

## Germany Prepares to Visit Cruelties Upon Prisoners

It is announced that if no satisfactory answer from the Russian Government is received, a fixed date for reprisals will be taken by the German Government.

## VIRGINIA BROOKS WINS THE FEATURE AT ITHACA MEET

Bad Spill Mar Racing on Michigan Shortship.

ITHACA, Mich., Aug. 31.—Eight thousand people saw the second day of racing at Gratiot County fair and shortship races. Several spills during the afternoon resulted in no serious injuries. The crowd was given a thrill in the second heat of the 216 pace, when Elbino Bell went down, and Driver-Owner H. Vandusen had a lively few moments in untangling himself and the mare.

A bad spill occurred on the back stretch in the third heat of the 219 pace, in which five drivers were unseated. This race furnished the afternoon's feature, a sixth heat between Essie V. and Miss Preble being necessary to decide.

## ASKING \$20,000 DAMAGES FOR DEATH OF HUSBAND

Widow of Fire Captain Case Institutes Legal Proceedings Against G. T. R.

Action against the G. T. R., to recover \$20,000 damages has been instituted by E. J. Johnston, solicitor, on behalf of Mrs. J. H. Case, widow of Fire Capt. Case, whose death resulted from the accident at the Talbot street crossing of the Grand Trunk, when a freight train struck the motor fire truck on which he was riding. A coroner's jury afterwards held the railway responsible.

Capt. John Case was stationed at No. 1 fire hall, and had been a member for many years of the city fire department. On Sunday, June 18, while responding to a call from South London the fire truck was held up for a few minutes at the Talbot street crossing of the G. T. R. while a train was passing. In his anxiety to let the department through, the watchman raised the gates and permitted the big motor truck to proceed, failing to notice that a train was approaching from the opposite direction to the one just passed.

In the middle of the track the motor truck was struck and Capt. Case instantly killed and two other firemen seriously injured.

The coroner's jury placed the responsibility on the railway, due to the negligence of Watchman Prismo, who will face a charge of manslaughter at the fall assizes.

## Better Than Ever

London reports to Bradstreet's say that business conditions in Western Ontario are very satisfactory, and that a better trade is being done now than during corresponding periods in 1914 and 1915. Concerns connected with the dairy industry report that conditions are healthy, and that greatly increased prices are being obtained. Crops in the district around London appeared well over the average. Country trade is especially good. Drygoods is reported active, and the grocery trade is brisk. Labor is in demand. Money is easier, and collections are good.

## COMMITTED TO ASYLUM

Two Prisoners Taken From Jail Here as Being Insane.

Thomas Jackson and Wilson McDoull were removed from the county jail Thursday to the hospital for the insane.

Jackson was committed some days ago on the complaint of a relative who charged that his life had been threatened.

McDoull was brought in from St. Johns several weeks ago, where he had been parading the neighborhood in such a scanty costume that neighbors objected. He has recovered to some extent lately and it is expected he will be discharged shortly.

## VOICE OF THE PEOPLE

Have Women on Board.

To the Editor of The Advertiser:

Sir, every word of your correspondent, "Shoreacres," carries conviction with it, and it is to be hoped that his remonstrance may bear fruit, and that "censor," of whose laxity he rightly complains, may see to it that never again shall the eyes and ears of the citizens of London be offended by the production of a film so suggestive of evil.

I would venture to ask whether the right of censorship is vested in one individual only, and that individual, a man? I thought there was a board of censors, and that the wisdom of the suggestion had been recognized of placing women upon that board. Is it too late to hope that in a matter of such importance to any community, the restraining voice of the mother may have an opportunity to be heard. The subject should surely be one of equal importance to man and woman alike, if, as your correspondent rightly observes, the movie has a recognized place in our midst, and rightly used, should be a tremendous power for good. Let us do our utmost to prevent its being an equally tremendous power for evil. A GRANDMOTHER.

## TWO GO TO CHAIR.

[Canadian Press.]

Ossining, N. Y., Sept. 1.—Two men were put to death in the electric chair in Sing Sing prison today. For the murder of Mrs. Julia Heiner, a Brooklyn woman who was his employer, Joseph Hanel, 35 years old, was executed shortly before 6 o'clock. Three minutes later Jan Tybus walked into the death chamber and paid the extreme penalty for killing Jacob Schoenberg, a junk dealer in Batavia. Both of the condemned men met death without flinching.

A third man, Thomas Bambrick, convicted for killing and shooting a policeman in New York, also was to have been executed this morning, but Governor Whitman late yesterday afternoon granted him a stay of two weeks upon representations by Bambrick's counsel that new evidence had been discovered which should entitle him to a new trial.

## JAIL TERM ONLY BAR TO SEAT IN COUNCIL IS CLAIM

Local Legal Opinion Differs From Toronto.

ALD. PALMER ELIGIBLE

Conviction, With Fine, Could Not Cause Loss of Council Place, Says Magistrate.

The story emanating from Toronto that delegates to the convention of the Ontario Municipal League declared that Ald. Adam Palmer was ineligible to hold a seat on the council while under an indictment for assault to do grievous bodily harm, is not being generally accepted as right in London.

"There is nothing in it at all," a magistrate informed The Advertiser today. "Ald. Palmer would not lose his seat if he were found guilty and fined. If he were given a term in prison he would lose his seat, but he certainly would not, if he were only fined. There is no doubt about that whatever."

Other legal authorities stated the same thing. Police Magistrate Judd gave it as his opinion that such was the case.

It seems that some persons are very anxious to get Ald. Palmer out of the council.

## WAS CALLED OFF.

The meeting of the finance committee of the city council scheduled for last evening was called off, owing to the lack of a quorum.

The legislation committee met in the afternoon for a brief spell, but transacted no business of importance.

## CITIZENS INDIFFERENT TO "SAFETY ZONES" NOW

No Efforts Being Made to Keep Innovation Going.

The "safety zones" which were established at the corner of Dundas and Richmond streets three weeks ago appear to be "dying a natural death."

The lines which were painted on the pavement at the time and twice repainted are at the present all but obliterated.

A few days more and the aid of a microscope will be made necessary to detect what was once the "safety zone lines."

"Are you still trying to keep pedestrians within the 'safety zone lines'?" an inquisitive reporter asked the traffic cop on the corner.

"You can't keep people within a line that is invisible to the naked eye and we are not bothering any more about it," said the policeman.

Owing to the apparent indifference of the city to keep the lines painted the "safety zone" is going the way many other novelties have gone and in a few more days the matter will only be a memory."

The police attempted on the start to keep people within the lines, but finding that they had no authority to enforce the rule soon realized it was "wasted energy" to bother with it and gradually let pedestrians go where they pleased.

No one seems to know what is going to be done about the "safety zones" and no one seems to care, and it can be taken as a safe bet that nothing more will be done this summer, at least. The "zones" would no doubt have proved valuable at fair time if continued.

## STEAMER AGROUND.

Chester, Conn., Sept. 1.—The steamer Hartford of the Hartford and New York Transportation Company, bound from New York to Hartford, is aground on a sand bar at Watrous Point, in the Connecticut River about a mile and a half below Essex. The passengers were taken off by a tug and carried up the river to points where they could get trains for their destinations.
