SIR ADAM BECK PRESIDES

Sees Need of Medical Staff **Building To Cost** \$12,000.

The banquet of the London Health Association presided over by Sir Adam Beck, president, at the Tecum seh Hotel, Monday night, was so successful that it bids fair to be an annual event.

The work being carried on, not only at the Queen Alexandra Sana torium at Byron, but elsewhere in Ontario and Canada as well, for tubercular patients was described by Sir Adam Beck, Dr. Woodhouse, secretary of the Canadian association for the prevention of tuberculosis, Dr. J. H. Holbrook, medical superintendent of the Mountain Sanatorium, Hamilton, Dr. H. W. Hill, dean of the Institute of Public Health, London, Mrs. John Stevely and Mrs. (Dr.) C. H. Zeigler.

In his opening remarks Sir Adam regretted the absence of Dr. Beland, minister of health in the federal He hoped that Beland would be present at the "birthday party" at the sanatorium

Deficit Much Reduced. In commenting on the annual fin-ancial statement the president stated that the deficit had been reduced to \$15.784.33. Last year it had been \$28,000. The revenue had been practically the same both years, and the reduction could be attributed to reduced costs of operation. The cost of maintenance, \$2.77 per day for civilian patients, compared favorably with any other institution on the

#### Alkali In Shampoos Bad For the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just plain Mulsified cocoanut oil shampoo (which is pure and greaseless), and is better than anything else you can use. Two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water, is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creatily lather, which rinses out easily, removing every particle of dust, dirt, dandruff, and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the mair fine and silky, bright, lustrous.

F. O. members for East and West Elgin in the provincial house in an interview published in a local paper Monday.

Mr. Hepburn gave all the credit for stopping the prosecution to Hon. Harry Mills, minister of mines and fisheries. He claimed that neither Peter Cameron, member for West Elgin, nor Malcolm McVicar of East Elgin had anything to do with the withdrawal of the charges. Although his claims were far from complimentary to the representatives of his party in the government he asserted that his yiews were heartily in-

stated Mr. Hepburn. "As an illustration of this overzealous game warden's officiousness, On March 8 he received \$500 from two Port Stanley fishermen, being the amount necessary for two com-mercial licenses, and on March 15 he acknowledged the receipt of the money, and on March 16 he countersigned the licenses in London.

"On that same day his deputy, S. H. Cohoon, seized two boats at Port Stanley for going out on the lake for the first time this season on that day. The reason IRONIZED YEAST brings such amazing results in so many cases is because it not only contains a proper amount of all three essential vitamines, but also a type of yeast which is admittedly unequalled as a reconstructive agent. This yeast is entirely different from the yeast found in ordinary 'yeast tablets' in that it is cultured expressly for medicinal purposes.

#### Results Twice as Quickly

Yet even more important is the fact that this yeast has been ironized, or treated through an exclusive scientific process with a special form of easily assimilated iron, similar to the

#### ONEIDA COMMUNITY. LIMITED ADVERTISING DEPARTMENT ONEIDA, N.Y.

December 20, 1921.

Canadian Daily Newspapers Association, 902 Excelsior Life Building. Toronto, Ont.

Dear Sirs:

Referring to your recent letter, I would say that I believe newspapers are a highly effective form of advertising. They not only reach channels impossible to reach by magazines, but they have an intensive effect not only on the consumer but on the dealer as well.

A woman, for instance, who sees an advertisement of COMMUNITY PLATE in her own newspaper realizes at once that it must be on sale in her own town. COMMUNITY PLATE for her is localized and her buying impulse is greatly accentuated.

Of course, with the dealer, he knows from experience that newspaper advertising in his own town is especially valuable to him and can be made to directly bring him business.

We feel that newspaper advertising has played an important part in helping us to place COMMUNITY PLATE in the dominant position in the Canadian tableware market.

Sincerely yours,

BLD'RM This confident attitude of the consumer and the dealer is the key-stone of the daily newspaper's superiority. Local advertising which sends a buyer directy to the place where your product is on sale, is the dominating factor in linking the

retailers' interest permanently with your own. Issued by The Canadian Daily Newspapers Association, Head Office, Toronto.

Mine Workers' Head Suggests Strike Solution To Labor Committee.

URGES UNIFORM SCALES

**Explains Fear of Competition** Between Operators in Different Fields.

WASHINGTON, April 3 .- Discussing before the house labor committee today reasons why 600,000 anthracite and bituminous coal miners stopped work last Saturday in the United States and Canada, John L. Lewis, president of the United Mine Workers of America, and official leader of the strike, declared that the anthracite workers had gone out merely to await the results of a peaceful negotiation with their employers over a new wage scale, but that the bituminous workers were out indefinitely, if need be, to obtain the signing of a

basic wage contract. bituminous workers, Mr. Lewis declared before the committee. which is considering the Bland resolution to direct appointment by the president of a commission to investigate the coal industry, are out to stay indefinitely, if need be, until the op-erators of the central competitive field of Ohio, Indiana, Illinois and Westerr. Pennsylvania sign up a basic wage contract according to their pledge, on which the other coal mining districts of the United States can

Fear Competition.

In reply to questions by Represen-tative Black (Democrat, Texas) as to why the union would not settle with operators in states and districts where work could be resumed under satisfactory conditions, Mr. Lewis insisted that competition would not permit the operators to fix wages locally without a knowledge of the wage scales their competitors would

"Even if the operators of Illinois, for instance," he added, "are willing to sign up a new scale for themselves, without regard to their competitors, the United Mine Workers are unwilling to have its members in Ohio, Western Pennsylvania, Indiana and West Virginia dragged into a long strike, while the Illinois mine owners take the markets."

Urges National Scale.

Although holding that a national wage scale was the first essential, Mr. Lewis told Chairman Nolan of the house committee if Congress or anybody else could get "a representative number of operators from all the central fields into a conference, those controlling a substantial tonnage, I mean, I shall advise the United Mine Workers-and I think they will take my advice-to negotiate with them for a new contract.' Short of this step, he added, miners

and operators conferring by districts "just be talking-doing no

In speaking of the general condition of the industry, Mr. Lewis re-ferred for the most part to anthracite matters, in view of the wider scope and importance of the bituminous industry. Although the United Mine Workers "stood for nationalization of coal mines, with adequate as-surance to property owners involved," impossible at this time.

Work Part of Year,

"Miners know that they cannot hope to get more than 215 days' work a year as things stand," he declared, "and that part time operation tends to increase its scope year after year. Loath as some persons may be to the difficulties and hazards, if private industry cannot work out this problem, regularize employment and stabilize outputs it may be necessary for the government to assume the burden. I believe Congress could well set up a tribunal or a bureau to investigate, at least, and give the facts which might determine a pol-

Mr. Lewis paid his respects to what he termed "a general financial demand for liquidation of labor and deflation of wages," by declaring that there was "nothing constructive in the business viewpoint today and depression cannot be overcome cutting wages and further lowering of the purchasing power of labor."

ALL UNION MINES CLOSE.

PITTSBURG, Pa., April 3 .- Every union mine in the Pittsburg bituminous district was closed today by a strike of United Mine Workers. Interest centered in the non-union mines, where union leaders said they had made progress in inducing men to join with them.

The Pittsburg Coal Producers' Association frankly stated that it had no detailed information from all the non-union mines, but said that numbers of them were working as usual. icture is a western picture. When Bill Hart, Harry Carey or Tom Mix is billed for an appearance at your favorite theatre you know just what to expect-a mad dash in the saddle and

a girl saved by the quick draw and steady trigger finger of a cowboy. The merit of these cowboy pic tures varies only so far as the evo-lution of this plot can be varied. Judged by this standard "Man to Man," Harry Carey's latest release is the best western in many months.

This plot is disguised. Harry starts out as a derelict in a South Sea Island. Aha! You think he has at last gotten out of his western role For a reel or more he gets wet in a tropical storm after getting bounced from Portuguese Joe's cafe. He promises a dying native maid that he will care for her daughter.

Six months later. Harry is back on the old ranch, falling in love with a pretty miss and falling out with

When I say Carey several weeks ago he told me that he really had injured his hand in this fight. I believe him.

Of course, the villain meets his just deserts and the hero wins undisputed title to his ranch. The big surprise in the story is that the South Sea episodes had nothing whatever to do with the story. The hero doesn't fall in love with his little ward. And that would be all to record the far shots of a moving herd of and Eric Von Stroheim as having the emotions which he suddenly

ARRANGEMENT EXPIRES

Federal Member Asks If Free Importation Will Be Continued.

BY JOHN J. McLELLAN.

OTTAWA, April 3 .- One of the questions that has continued to worry Donald Sutherland, federal member for North Oxford, Conservative, for a number of years past has been the question of the impor tation of oleomargarine duty free into Canada. This session he is again asking questions.

The arrangement providing for the free importation of oleomargarine, it is said, expires in July. As a prelude to inquiring of the government whether it intends to extend the free importation of the butter substitute the member for North Oxford asked of the minister of customs the quantity of oleomargarine imported into Canada during the SLAYER FOUND INSANE last few years. Jacques Bureau, minister of cus-

toms, reports today in his answer that during the fiscal year, 1922, to date, 1,336,634 pounds of oleo were imported, valued at \$255,726. quantity for the fiscal year ending in 1921 (these figures being for the amount of oleo imported from the United Kingdom and the United States only) was 4,630,747 pounds, which were valued at \$1,206,351. 6,497,031 pounds, valued at \$1,872,- gan State Hospital at Ionia.

Decrease Indicated.

Canada has according to this imof oleo since 1920. A gradual falling off is also indicated, since 1920.

Oleomargarine has been the particular theme of Mr. Sutherland for some years back, but so far his efforts have achieved little. North Oxford being a constituency where dairying abounds obligates this casions. member no doubt to bring this question to the front.

#### Women of Middle Age THE critical stage of a woman's life usually comes between the years of 45 and 55, and is often beset with annoying symptoms such as nervousness, irritability, melancholia, heat flashes which produce headache and dizziness, and a sense of suffocation. Guard your health carefully, for if this period be passed over safely, many years of perfect health may be enjoyed.

Lydia F. Pinkham's Vegetable Compound is especially adapted to help women through this crisis. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. It is prepared from medicinal roots and herbs, and contains no harmful drugs or narcotics. Its value is proven by many such letters as these:

Viscount, Saskatchewan—"I took Lydia E. Pinkham's Vegetable Compound for a female weakness. I had pains in the back and bearing-down pains in the abdomen and was in a general run-down condition. I could not sleep, rest, or work, and was quite unfit to do even slight household tasks friend told me about your Vegetable Compound and I in my turn truly recommend it, as my severe symptoms vanished and I am better in every way. I do my own work, look after my children and see to chickens, a cow, and my garden. I also recommend it for young girls who are weak and run-down, as my 16-year-old daughter has taken it and is quite her own gay self again."—Mrs. Fred Wiley, Viscount,

Brockville, Ontario-"I took Lydia E. Pinkham's Vegetable Compound for weakness and female disorders. I was so weak at times that I could not stand up. I had been this way for nearly three years, and the different medicines I had taken had not done me any good. I found one of your little books at my door one day, and I thought I would give your medicine a trial. I am now on my fifth bottle, and it has helped me. I am feeling much better, have no weak spells and can do all my work now. I am recommending your Vegetable Compound to all I know."-MRS. CASEY LEMERY, 176 Abbott St.,

#### UNKNOWINGLY-You may be ruining your teeth

You cannot afford to risk harming YOUR teeth with gritty, scouring matter. Neither can you afford to use dentifrices that do not destroy the decay germs or remove the coating in which they thrive.

For your teeth's sake use Minty's Tooth Paste. The highest-priced tooth pastes cannot do more towards preserving your teeth.

#### Minty's contains only ingredients approved by dental authorities.

Minty's cleans your teeth without the aid of coarse grit. Because it is highly mentholated and antiseptic it destroys all the decay germs where your tooth brush cannot reach. It keeps the mouth healthy, the gums firm, the breath sweet and is an acknowledged preventive of pyorrhea.

If you use more than half-an-inch you are wasting it because Minty's is concentrated more economical. The large 25c. tube represents the greatest tooth paste value obtainable.

### The Dread Pyorrhea Begins With Bleeding Gums

Pyorrhea's infecting germs cause many ills. Medical science has proven this.

Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for tooth and gum inspection.

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea-or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult a dentist immediately for special treatment.

men and conductors is proposed by the Detroit United Railway Company, it was announced here today, and representatives of the employees have been called into conferences Thursday, when the matter will be taken up.

Officials of the traction company said the amount of the cut had not been determined. The present wage agreement expires May 1, and the advance notices of the proposed cut is in conformity with the contract under which the men work.

# Eddy's is the safe match -the head is on tight-can't fly off!

EDDY FACTS

eers of the match industry in Canada. Over 70 years of con-structive efforts have built a complete organization.

When the first SULPHUR match was made in Canada, EDDY MADE IT. When the first SAFETY match was made in Canada, EDDY MADE IT. When the first WAX match

was made in Canada, EDDY MADE IT. When the first SILENT match was made in Canada, EDDY MADE IT. When the first NON-POI-SONOUS match was made in

Canada, EDDY MADE IT. Every invention in matchmaking and match-packing was first introduced into Canada by Eddy's.

May you never know the paralyzing fear of an unexpected blaze-from a match head flying off like a rocket!

To increase the margin of safety, the head of every Eddy match is glued to stay on tight-it can't fly off aflame!

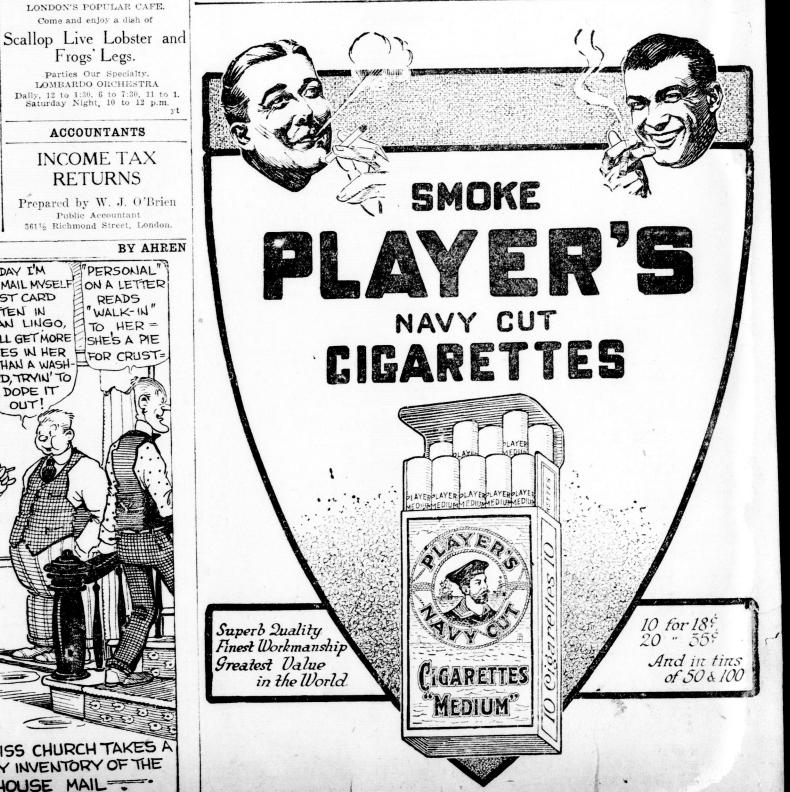

A man strikes an Eddy match. There is a big hot flame that burns bright and steadily. If he shakes out the flame and drops the match on the wooden floor, among sawdust, paper or shavings, it falls dead-black-out-cold-entirely freed from fire risk, with the head still on it.

Every Eddy match now leaving the factory will do just that. It is treated with chemicals to prevent the dangerous "after-glow"—is made selfextinguishing.

First in Safety, first in Convenience, first in Economy, the Eddy ideal still prevails-"The most of the best for the money"-since 1851.

East or West, Eddy's Best.

RANEY MAKES STATEMENT

Attorney-General Declares Drury Will Outline Chippawa Probe Plans.

Special to London Advertiser. TORONTO, April 3.—Hon. Howard G. Ferguson announced in the Legis-lature this afternoon that he would strenuously oppose the appointment of a member of judiciary to serve on a commission conducting a "semipolitical" investigation. He referred particularly to a report that a num-ber of judges had been asked to serve on a commission which will investigate the Chippawa project, and that all had refused to act. He claimed that when judges served on such probes they became open to justifiable attacks, and he strongly objected to the judiciary being dragged into any position which might endanger respect and confidence which all wished people to have in courts of this province.

Premier Drury was not in the ouse at the time, but Attorney-General Raney said the government had no present intention of appointing a udge to head the commission. He, however, declined to make further statements in this connection in view of Premier Drury's intention of making a statement in full, inming the house regarding the ope of the inquiry and personnel the commission sometime this
