BIG OIL TANK

A large steel oil tank with a capacity of 200 barrels passed through this city. It was brought all the way from Sarnia. The tank is being moved on a wagon truck as it is too big to be taken on the railroad. Three teams were required to haul it. The teamsters left Sarnia Monday night and reached here last night. They stopped at the Klondyke Hotel and left for the Raleigh oil fields this morning at seven o'clock. The men have met with considerable trouble. The tank tipped off the truck twice at Wallaceburg and many times on the road between here and Sarnia.

CARRIE NATION.

SHE RIPS THINGS UP AT THE HORSE SHOW.

OBJECTS TO DRINKING AND THE WOMEN'S DRESS.

EJECTED FROM THE BUILDING BY THE POLICE.

New York, Nov. 21.—Mrs. Carrie Nation broke loose at the Horse Show yesterday. She harangued the multitude on the evils of overdrinking, attempted to break a bottle of champagne, and finally was ejected from the building by the police. Mrs. Nation entered the Garden quietly and took a seat in the tier. She had been there only a few minutes when her gaze rested on the box where some of the Vanderbilts were sitting. She studied her programme, and then descended to the promenade. Stationing herself in front of the Vanderbilt box she delivered a tirade on overdrinking. In the box were seated Mrs. Alfred G. Vanderbilt, Reginald Vanderbilt and Miss Nielson. Alfred G. Vanderbilt was leaning against the rail of the promenade and did not see Mrs. Nation approach. "You ought to be ashamed of yourself," she woman screamed at them. "You ought to be ashamed to wear such disgraceful clothes. Take them off! Take them off at once, and attire yourself more modestly!"

Alfred G. Vanderbilt hastily left his position at the rail and came over to where Mrs. Nation was standing, wiping her forehead with a handkerchief. He whispered something in her ear and pushed her away.

The outburst of the woman attracted a great crowd of people, and the occupants of the Vanderbilt box were evidently much embarrassed. Mrs. Nation then turned her attention to other boxes. Finally she started for the cafe, where she bore down on a party of gentlemen who were drinking wine. Mrs. Nation seized the bottle, and glaring at the men, shouted: "Young men, don't drink such filthy stuff. You are going straight to perdition! Where is the man who sells this damnable stuff? Show him to me, and I will tell him what I think of him."

Mrs. Nation's request was speedily granted by the sudden appearance of M. Willegrie, the caterer at the Garden. "Get out of this horrible business," she shouted at him. "You are ruining the bodies and souls of men. You are dragging them down with you. Shame on you! Shame on you!"

The Frenchman, however, pounced on Mrs. Nation and rescued the bottle, which she had repeatedly brandished in the air to emphasize her remarks. The police forced her out of the building. As Mrs. Nation's skirts disappeared a couple of hundred men gathered in the lobby and sang "Good Morning, Carrie," and the crowd outside took up the refrain.

NEW PACIFIC CABLE.

HIGHLY SATISFACTORY RESULT OF THE TESTS.

Mr. Dearlove Formally Takes the Work Over From the Construction Company—Now on His Way to London.

Victoria, Nov. 21.—Mr. Dearlove, who has conducted the test of the Pacific cable at Bamfield Station, is here on his way to London. He has found the cable entirely satisfactory, and has formally taken it over for the Cable Board from the construction company. A speed of 110 telegrams a minute was obtained, which is 10 per cent. higher than was expected.

FORTY-EIGHT IN IRONS.
Men of a United States Gunboat Mutinied.

Washington, Nov. 21.—The U.S. gunboat Isla de Luzon is en route to New York with 48 of her men in irons. The vessel, which has been doing guard duty in the Philippines, started recently for New York, proceeding from Manila via Singapore. Advice received indicate that on the trip to Singapore some of the machinery worked badly, creating a panic among the crew and causing a mutiny. The result was the placing of 48 of her crew in irons.

FARMERS GIVE THEIR VIEWS OF RALEIGH OIL OPERATIONS

Are Content and Prosperous on Their Farms and Decline to Allow Oil Operators to Dig Holes All Over Them—Reservations in Canada Company Leases Were Secured Unfairly.

Special Planet Correspondence.

Scene of Operations, Raleigh, Nov. 21.—The farmers in Raleigh view all who come to their places with suspicion. They even dubbed The Planet representative an oil man. As soon, however, as they found it was a representative of this G. H. J. that they were entertaining, they changed their tone and chatted freely. The farmers are dubious about every stranger and the side-roads and concessions are full of them.

Some of the farmers are holding out and refusing to lease. Their idea is to sell outright and if oil is not found on their place buy the land back at its agricultural value.

Although the drillers would give no information as to the depth of the well, it was learned from other sources that Gurd's Gusher is about 315 feet deep.

E. D. Brookes, Thomesville, master driller, sunk the hole. Mr. Brookes has been in the oil drilling business for many years. He has put down wells at Thomesville, Bothwell and Northwood, and Gurd's Gusher is the best he has ever seen. It took about two weeks to put down the well. Mr. Brookes doesn't talk much, but that is part of a well driller's business. He helped drill the mineral well at Chatham, working for E. H. Chapman, the driller who put it in the pipe in the well. The opening in the well through which the oil gas and water comes is only a half-inch in diameter. Ernest Miller, Raleigh, and Clarence Britton, Northwood, were his helpers.

Thomas Brodley, who claims to represent Chicago capital, is one of those who takes great interest in watching the work of the well. He says that he was in the Bradford oil fields of Pennsylvania, and he never saw anything like Gurd's Gusher. There wasn't an oil well in the United States to-day that was pumping as much as the Raleigh well. It was flowing. At Oil City, Pa., he had seen wells do 1,600 barrels a day of 24 hours, but this would beat that record if it were allowed to run.

Professor W. W. French, Thomesville oil finder, visited Gurd's Gusher last Saturday. He says that the drillers missed their mark by 20 feet. The driller, said Mr. French, "I put that said that had the well been 20 feet farther over, they would have struck a regular lake of oil."

There are many who would like to see the test, but, at present, there is little chance of this. Some of the oil men think that it is too lively to last, while others consider it a wonder. Meanwhile, the driller is working away to enlarge in drilling operations on a large scale.

It is rumored that James Rutherford, of Blenheim, has purchased the well from Mr. \$100 an acre. George Apthorpe, who lives just across the road from the well, was one of the first settlers in the 13th concession. Thirty years ago he brought his farm from the Canada Co. He is one of those sturdy pioneers who have made Kent the farming county it is.

"I was quite satisfied with my farming," said Mr. Apthorpe to The Planet. "I had everything I wanted and was making enough to provide for the future. I was quite satisfied, and then the oil drillers came and they haven't done so. They never came near me. I am satisfied with my farming business and I don't want my farm pushed full of holes. I'll hear that these windmills are an American drilling machine on the land. The well is about 315 feet, continued Mr. Apthorpe, "and it seems to be the impression amongst the oil men that it will play out. 'The company who own Gurd's Gusher never intended to shoot that well when there was any one around. Their intention was to move the derrick and then quickly shoot the well. Unfortunately for their plan, as soon as they picked the oil rock, the oil flow up, spouting twelve feet above the ground and then, of course, the whole thing became public."

told the company before they started that if I ever leased they should have the first chance."

Mr. Apthorpe said that he had had nothing to do with any of the oil speculators. They had wanted to board with him but he would not take them. He saw no reason for killing his wife with over-work for sake of the little money that was in it.

Bloss Corey, of Petrolia, was one of the visitors at the oil well this week. He drove out with Will Hadley. Mr. Corey tested the oil and pronounced it a good well. He rubbed the oil from his hands on his coat and then looked at his hands in surprise.

"Why," said Mr. Corey, "turning to the house of men collected around the well, 'there must be paraffine in that oil. See it will rub off my hands. Petrolia oil won't do that. That well's all right. They can just put that well in my front parlor and let the oil run all over the piano. I could buy a piano in quick order if I owned that well.'"

"The gas is a good sign. The well will continue to flow as long as the gas holds out."

REVOLVER HIS VISITING CARD.

Lunatic Wanted to See Emperor Francis Joseph.

London, Nov. 21.—A special despatch from Vienna, published yesterday, announces that a well-dressed individual, evidently insane, accosted a sentry on duty at the entrance of the Hofburg at midnight, and said that he was the Emperor's son, Rudolf, and that he wished to see his Majesty. The stranger, who is said to be a merchant of Hamburg, was taken to the guard-room and searched. A revolver was found in his pocket, and also a white stave, which he called his "magic wand." The man was committed to an asylum.

LORD TENNYSON APPOINTED.

Will be Governor-General of Australia.

London, Nov. 21.—Lord Tennyson, the temporary Governor-General of Australia, has been formally appointed to that office. The appointment at his Lordship's wish for only one year. He succeeds Lord Hopetoun, whose resignation was officially announced on May 14 last.

Death of Mr. David Cumberland.

London, Nov. 20.—The death occurred last night at Quebec of Mr. David Cumberland, Manager of the Bank of British North America. Deceased was a former Londoner, and was for several years Manager of the Bank of British North America in this city. He left this city in 1894. The late Mr. Cumberland was twice married, his second wife being Miss Alma Hunt of this city, who survives, also a family.

COUNTERFEITER IN COURT.

Pleads Not Guilty—Will Fight Extradition Proceedings.

Toronto, Nov. 21.—Joseph Gentile, alias Salvatore Clementi, who was arrested on Wednesday night on a charge of issuing counterfeit coins, appeared in the Police Court yesterday morning and was remanded until this morning. He was arraigned on two charges, the first being that on November 9 he began to make and did make counterfeit coin, resembling and intended to resemble and pass for silver coin of the Dominion of Canada. The other was to the effect that he produced bad money intended to pass as coin of a foreign country, meaning the United States. Detective Davis lays the information. The prisoner pleaded not guilty to both charges, electing to be tried summarily, and was remanded until to-morrow.

It is quite possible that these charges will not be pressed against the prisoner, but will be used to hold him until extradition proceedings are brought to a successful issue. It is, however, certain that Mr. Gentile will see that there is no bail allowed. Mr. Robinette, K.C., counsel for the prisoner, announces that extradition will be opposed. The United States detectives are still at work hunting up another branch of the case. They are very anxious to return with their prisoner and are expected to be present this morning.

Gentile's wife was one of the gang which the American police were hunting down, and she is now serving a three years term for her connection with the work.

Fred Goodland cut up seven of the deer secured by the Houston party in Muskoka. Mr. Goodland says that the venison from these deer is the finest and fattest he has ever seen.

THE CAMPAIGN

Rev. T. T. George returned this morning from Tepperville, where he addressed a meeting last night in the Salem church on Prohibition. "We had a good meeting," said Mr. George. "The people in that vicinity are very enthusiastic and I think almost unanimous for prohibition. 'The country there is booming in sugar beets at present,' he continued. 'This has been a bad year for beets, but the farmers claim that they will not lose any money, although the profit may not be as large as it otherwise would have been.'"

GRAND TRUNK PLANS

TO EXTEND THEIR LINE TO THE PACIFIC COAST.

THE ANNOUNCEMENT PUBLISHED IN LONDON.

ATTRACTIONS OF THE GREAT CANADIAN WEST.

London, Nov. 21.—A good deal of comment is excited here by the published announcement that application is being made to the Dominion Parliament for powers to authorize a company in alliance with the Grand Trunk to construct a railway from some point on the Grand Trunk line to the Pacific coast. The Pall Mall Gazette anticipates that the Canadian Pacific Railway will succeed in killing the scheme, as it killed others before. It is understood, however, in well-informed circles, that the Grand Trunk and the Canadian Pacific directrices will be disposed to give a more liberal interpretation to the present compact, which precludes either company trespassing on the ground of the other. It will be realized, seeing the enormous developments in the east and west, that it would be unreasonable to insist on too strict an embargo, which would be liable to deprive newer Canada of the necessary expansions of both railway systems.

MARTIAL LAW REPEALED.

PROCLAMATION ISSUED YESTERDAY AT PRETORIA.

The Right Reserved by Authorities to Reimpose Military Rule in Case of Necessity.

Pretoria, Nov. 21.—Martial law was repealed throughout the new colonies yesterday. The proclamation, however, announces that the authorities reserve the right to reimpose military rule in case of necessity. It provides for the expulsion of every one considered dangerous to the peace of the country and authorizes the arrest (without warrant) of anyone suspected of sedition.

EMPEROR IN RUNAWAY.

THE HORSES ATTACHED TO HIS CARRIAGE BOLTED.

Lieut.-General Sir Archibald Hunter Averted an Accident—Luncheon With Lord Rosebery.

Edinburgh, Nov. 21.—Emperor William, on his way to embark on board the Imperial yacht Hohenzollern lying in the Firth of Forth, arrived at Dalmeny and was met by Lord Rosebery. As his Majesty's carriage was leaving the station the horses attached to it became frightened at the waving of the colors of the detachment of the Black Watch forming the guard of honor. The postillions lost control of them, and they got mixed up in the crowd. An accident was only averted by the alertness of Lieut.-Gen. Sir Archibald Hunter, who seized their heads and managed to control them. After lunch with Lord Rosebery the Emperor boarded the Hohenzollern and sailed for Kiel.

DISASTROUS COLLISION.

Eight Men Drowned by Foundering of a Danish Vessel.

London, Nov. 21.—The Danish steamer Knud II, from Copenhagen, and the British steamer Swaledale, from Hamburg, collided last night at the mouth of the Tyne. The Knud II. foundered immediately, and the master and seven of her crew were drowned.

WILL CONSULT

The City Ministerial Association will hold a joint meeting with the members of the provisional committee of the Young Men's Association on Monday afternoon at St. Andrew's church, at four o'clock. The committee will submit the plans and constitution prepared and a consultation will be held regarding further steps to be taken.

PLOTS AGAINST RULERS.

STRIKING ADDRESS BY KING LEOPOLD OF BELGIUM.

Refers to the Recent Attempt to Assassinate Himself and Also to the Methods of Agitators.

Brussels, Nov. 21.—King Leopold made a somewhat striking reply to a deputation from the Chamber, headed by the President, who presented his Majesty with an address of congratulation on his escape Saturday from the Anarchist Rubino's bullet. After thanking the Deputies the King continued:—"The times are very troubled. Agitators are constantly stirring up their followers to disturb that order which is the guarantee of public liberties. Without order only license remains, which leads inevitably to despotism. These agitators find in their path, firstly, the heads of States. If they fail to reach them they attack their wives, as in the case of the horrible drama at Geneva (when the Empress of Austria was murdered). Their blows are also aimed at Ministers, as in the case of Senor Canovas, and they also blow up the houses of private individuals. They want to intimidate us, but they will not succeed. Even if they struck down the head of the State it would make no difference, as he would soon be replaced. In addition to revolver shots they employ the pen, which can write what calamities they please. I am nearing the end of my life. I do not know how long I shall live—how long they will let me live. But I can assure you that all the rest of my existence will be devoted, within the limits of my constitutional powers, to the good of my country and the protection of its liberties."

MR. MAXWELL'S FUNERAL

THE LATE MEMBER LAID TO REST AT VANCOUVER.

Remains of the Late Angus McLeod, M.P., Sent East For Interment—City Council's Resolution of Condolence.

Vancouver, B.C., Nov. 21.—The funeral of the late George R. Maxwell, M. P. for Burrard, took place yesterday under the auspices of the Masonic lodge, and was one of the largest ever held here. Services were held in the First Presbyterian Church, of which deceased was formerly pastor, the building being filled to the doors. Besides Masons there was a large attendance of Knights of Pythias, Orangemen and Oddfellows, to which he belonged. Among the messages of condolence received by the family was one from Hon. Clifford Sifton.

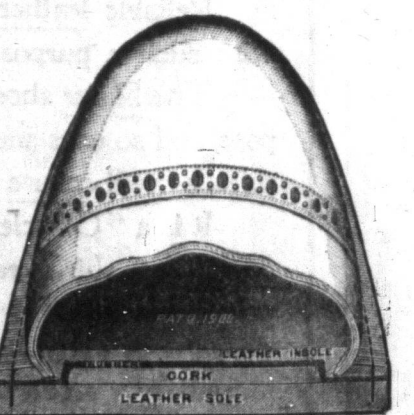

The remains of the late Angus McLeod, M.P. for North Ontario, were sent east on the express for interment at Bracebridge.

The City Council passed resolutions of condolence with Mrs. Maxwell and Mrs. McLeod in their bereavement.

ITALIAN EMIGRATION.

New Laws Proposed by United States Criticized.

Rome, Nov. 21.—The Tribuna, commenting on the proposed new law of the United States to stop the immigration of illiterates, says this measure is a new and cruel offence, and an inquiry to Italy. The journal urges the Government to make a protest to the United States Government, inasmuch as the proposed measure will strike especially at Italy, whose emigration comprises 50 per cent. of illiterates. "The Government," it concludes, "must obtain a veto on the bill from President Roosevelt, so that the measure at least be postponed till Italian emigrants are able to take to the United States not only the strength of their arms but the cultivation of their minds."

FRIDAY, NOVEMBER 21.

GOOD TIME TO START.

'Way down east, at a little nondescript hamlet whose only claim on passing notice seems to be a neighboring hillock, the residents assembled last night and held a preliminary consultation with a view to pulling off an Old Boys' Reunion next midsummer.

How would it do for this enterprising metropolis to take a leaf from the book of sleeping little Hamilton? Some time ago a couple of energetic efforts were made to arrange a big demonstration of this character in the Maple City. They were temporarily abandoned, largely because the promoters felt that the time was not opportune and preparations would have to be unduly hastened and of a very limited character.

Such disadvantages would not be met with if the matter were taken up now. The Planet has always been an ardent advocate of a Chatham Old Boys' Reunion. Its advantages have often been set forth in these columns. Everybody has already endorsed the idea.

Now is the time to set it practically on foot.

BANK CIRCULATION.

In connection with the stringency in Canadian currency and the reported action of the banks in increasing their capital in order to issue more bank notes, the Hamilton Spec. makes the very good point that the government should take up the question of increased circulation and issue the notes required instead of the banks, comments the Brantford Courier.

Perhaps it has not been thought of by the average business man outside of the banking fraternity, but one of the principal sources of revenue of the chartered banks is contained in their bank circulation.

Take for instance the Bank of Montreal. This very strong monetary institution bestows against its paid-up capital something like \$11,000,000 in bills of the bank. Putting this immense sum of money at the low earn-

ing power of 3 per cent and we have the Bank of Montreal receiving \$330,000 per annum from its note circulation alone. All it costs the bank to earn this money is the few thousands of dollars spent yearly in printing and renewing the bills.

A very pertinent question certainly seems to be, why not let the government issue more currency? Why not let the people secure the benefit from increased circulation instead of the shareholders of the various banks? These institutions are doing very well as it is with their dividends of from 8 to 10 per cent, and they ought not to feel hurt if the government should slip in and do a little more circulating on its own account.

NEWARK "PATRIOTS."

The Brockville Times quotes the following recent press despatches from the Land of the Free:

Newark, N. J., November 16.—The ladies in charge of the patriotic entertainment to be given for the benefit of the St. Rose of Lima church of this city are having trouble in raising funds on account of a report that there was to be a Union Jack table festooned with British flags. The sentiment against the scheme was such that the Rev. Father McKeever was forced to announce at today's service that the report that any British flags were to be displayed was untrue.

We should have thought that the Newark "Patriots" would have welcomed the chance of getting at the Union Jacks, tearing them in tatters, jumping on them and foaming at the mouth after the usual "patriotic" fashion in the United States.

And Bishop Ireland says that "Canadian hearts are beating in love" for the United States!

If you would like to see a regular rousing Old Boys' Reunion and demonstration in Chatham next summer, get into the game right away.

The other day the Hamilton Spectator ran the headline, "A Female Murderess," and many of its contemporaries are making merry at its expense. But then it isn't often that the Spec. gives the little fellows a chance. The Spec. usually goes by the book and, down Hamilton way, is very much the whole tip.

The expert opinion of City Engineer Jones, expressed in last evening's Planet, that the geological strata countenances the verdict that the shale lying below Chatham is similar to that from which vitrified bricks are manufactured so successfully in Massillon, Ohio, should result in a practical investigation. Around Chatham, says Mr. Jones, this shale is about 68 feet deep, but at Florence it comes almost to the surface of the ground. It is needless to say that a vitrified brick manufacturing industry would mean a great thing for this city.

Indianapolis News.
A Missouri man who went to Washington, D. C., to sell horses, reports the following conditions there: "The people travel on electric cars and do not need roadsters; they ride bicycles and automobiles and do not need trotters; they gamble by wire and do not need race horses, and the government is run largely by jackasses, and there you are."

WHEN THE COLONEL GOES TO WAR.

Detroit Tribune.
Kaiser Wilhelm of Germany is colonel-in-chief of the British Royal First Dragoons. Should war unhappily break out between Kaiser Wilhelm and his uncle, King Edward, it would be the duty of the German emperor to take personal command of the British Royal First Dragoons and fight to beat the Dutch. Imagine the Kaiser in a British red coat and white breeches galloping up and down the line opposed to his own and shouting to British Royal First Dragoons, "Rous mit em! Gift em hale, boys!"

The Better Way With a Cold.

When a slight cold fastens on you in early winter you are apt to regard it merely as an annoyance—not a thing worth serious consideration. You usually feel like taking something syrupy, with perhaps a touch of spirits in it, to warm you up and stop the cough. But there is a better way.

The cough, the red eyes and uncomfortable head are not the cold. They are only the symptoms. They are like the leaves of a weed sticking above ground. The surest way to get rid of them and prevent their sprouting again is to pull up the root.

You sometimes say, "This cold is all over me." Every cold you have is, to a certain degree, all over you. It is evidence of a slight general weakness. It usually steals in on you at a time when the body is a little below its normal tone and the surest way to get rid of it is to bring the whole system up to its right level.

You may need some medicine. Your doctor will know. But a mere expectorant will do nothing toward restoring the body to a healthy standard. At the best its action is merely local and gives only temporary relief. Scott's Emulsion does this and more.

A small quantity of the emulsion taken regularly for a few days will supply the lack of proper nourishment in ordinary food. It is rich in the substances of which healthy blood is composed, and makes itself quickly felt in the throat and bronchial tubes. It starts the flow of mucous and relieves an obstinate cough sooner than any expectorant will do.

The emulsion does more than rid you of a cough. It rids you of the cold which is the root of the cough. Still more, it helps to protect you against a return of the trouble and against its going deeper.

Scott's Emulsion is aptly termed a food-medicine. It contains the nourishing properties of the whole cod liver oil, emulsified and combined with the medicinal qualities of hypophosphites, of lime and soda. It is probably more widely recommended by physicians for use in coughs and colds than any other preparation.

So-called wines, cordials and extracts of cod liver oil do not contain the value of the whole oil and are worthless in cases where a pure reliable cod liver oil preparation is needed. Scott's Emulsion has been the standard for over twenty-five years.

We will send a sample free to anyone on request.

"THE ORNAMENTAL NUTMEG."

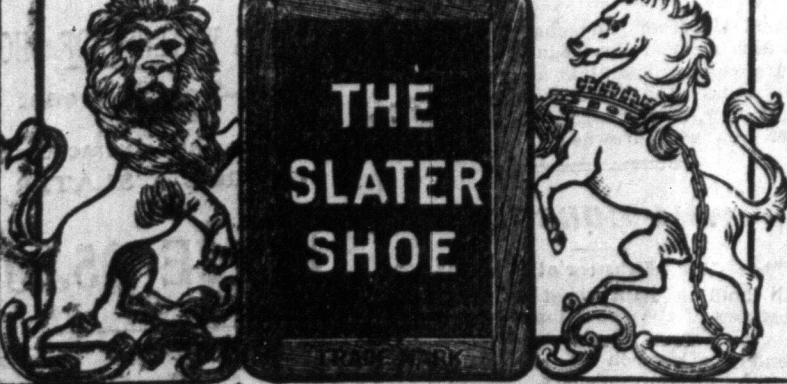

A wooden nutmeg,—a pictured peach,—or a shoddy shoe,—may be so finished as to rank with "Works of Art."

But all three are strictly ornamental! They are made to sell—not made to use. Reliable leather would be wasted in shoes with such a purpose.

The Slater shoe has wear for its first purpose, and so uses such leather for its uppers and soles, as will ensure creditable service.

It is a "Conscience Shoe," and the Makers could not shirk responsibility,—since every pair is sold with their own valuation, stamped on the soles in a slate frame, viz. \$3.50 and \$5.00.

MARCONI INTERVIEWED.

CORNWALL MESSAGE RECEIVED AT SYDNEY.

The Longest Ever Transmitted by Wireless System—Improvements in Apparatus—Machinery Not All Installed.

Halifax, Nov. 21.—Mr. Marconi told your correspondent yesterday that he would say nothing about the tests at the Table Head Station until he had completed his work here. He would then give out a full statement. He added: "Any remarks that I might make now would probably prove misleading, and I prefer to wait until my work is finished. The station here is really not completed yet. A portion of the machinery has not been adjusted, and some of it has not even been installed. Yes, the message received in Sydney harbor by the Carlo Alberto from Cornwall is the longest ever successfully transmitted by wireless telegraphy. It was received without any difficulty. But I can say no more about it, as my agreement with the Italian Government provides that they are to make public the result of all experiments made on the Carlo Alberto. Since I came to Table Head a few improvements have been made in both the sending and receiving apparatus, and we are now able to send at a rate of forty words a minute, while a year ago our best speed was sixteen or seventeen words a minute."
Mr. Marconi expects to complete experiments here before he leaves for the Cape Cod station.

NOAH HALE'S BODY FOUND.

SAULT STE. MARIE MURDERER DIED IN THE WOODS.

Exposure and Want of Nourishment the Probable Cause of Death—Had Been Missing Since October 3.

Sault Ste. Marie, Nov. 21.—Some parties while out hunting northwest of the town came upon the body of Noah Hale, who murdered his son Frank on October 3 last. Judging from appearance, the parties finding the body said death must have taken place some time ago, and they are inclined to think the cause was exposure and want of nourishment, rather than suicide. His gun was found with the body.

A PARISIAN TRAGEDY.

Miss Gore, an American, Dies From a Revolver Wound.

Paris, Nov. 21.—Consul-General Gowdy is personally investigating the death of Miss Gore, who came from the United States and who was completing her musical education here. She was found yesterday evening in a room on the Rue de Valenciennes, with a bullet wound over her right eye. Two doctors were summoned to attend her, but she died without regaining consciousness. The police have accepted the theory of the murder in that room at the time that the shooting was the result of an accident during a scuffle for possession of a revolver. De Rydzinski comes of a rich and noble Russian family. Miss Gore lived in the Avenue de la Grande Armée, not far from the apartment of the Russian, where the tragedy occurred. The affair has excited much excitement in that locality, the police are continuing their investigation and De Rydzinski is kept under surveillance.

BIG GAME

P. C. Dezella and Detective James McGregor were out in Harwich yesterday to serve a couple of summonses in connection with the city hotel keeper who is charged with selling liquor after hours. The two officers also intended to do a little shooting. The farmers were all afraid of hog cholera and refused to let the hunting dogs on their places. They, however, found a man whom the police have had a warrant for several months. Chief Holmes says that it isn't everybody who can go quail shooting and bag a man just after the farmers had refused the permission to shoot. Wm. Elliott was met. P. C. Dezella recognized the fellow as a man for whom there had been a warrant signed 20th of Nov. 1901, on the charge of stealing a suit of clothes from James Dillon.

CHESTNUT TREES

County Treasurer Fleming was speaking about chestnut trees this morning. "There were only a half dozen chestnut trees in Chatham Township," said Mr. Fleming. "These trees only knew but one spot where they grew in Chatham township. On the farm of Calvin Johnson, Centre side road, 3rd mile from Chatham, there is a small grove about a couple of acres in extent. On this about a dozen chestnut trees flourished. Lightning struck some, others decayed, and I don't know whether there are any of those trees left or not. This wood is not found on heavy soil. I have seen them in Romney, and Orford, also near Thamesville in Camden."

PRETTY SIGHT

County Clerk Jonas Gossnell, and Major Coogan were in the former office this morning, when the children began to disperse from the Central school. "There's a great sight," said Mr. Gossnell, as he watched the crowds of children taking their way homeward at the dinner hour. "Just look at the children," continued the County Clerk, "there isn't a poorly dressed child in the lot. I am going to have a photograph taken of the children dismising, so I can have it with me always. I think it is one of the prettiest sights in the City of Chatham."

Potatoes.

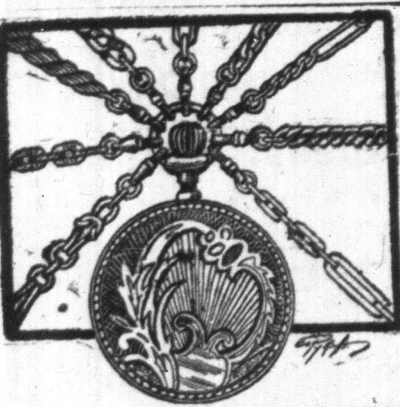

A most commonplace thing to advertise, of course, but this year is different from most years. If you have been so unfortunate as to get some of the wet, soggy potatoes grown this year, you will think of them feelingly.

There are potatoes, the trouble is not that, but good cooking, dry potatoes are decidedly scarce.

We have some that cook dry and mealy. You need not buy many to try them. Then, if they prove satisfactory you can buy more, if you do not delay too long.

WORLD OF SPORT

FOOTBALL

A scrub team had a practice game evening on Tecumseh Park. The city team, of course, won by several goals to none, but were given a very good run for their money. The forward line was fast yesterday and the players did good work.

The half-back line was kept quite last evening on Tecumseh park. The fast C. C. I. boys, Williamson and Dennis had charge of.

Walker and Shupe, too, on the right, gave Piggott as good a practice game as Percy wanted.

The team for to-morrow's game with Darrell has been picked with the exception of the forward line. Courtney will be replaced by Sissons at full back, while the half back line will remain intact, with Piggott, Laurie and Parrott.

Dugrell and Chatham have agreed mutually to have Mr. McNaughton, of the C. C. B. C., referee the game.

The line-up then, will be—

CHATHAM.

Goal—F. Sowerby.

Backs—J. W. Wilson and C. B. Sissons.

Half backs—P. Piggott, F. Laurie, L. Parrott.

The forward line will be picked from the following players, and others, Kellington, Fetterly, Grant, Messer, Brackin, Angus Brundage.

The Darrell team will likely be—

DARRELL.

Goal—H. French.

Backs—B. Fisher, Dick (Pettipiece).

Half backs—Pugh, Asher, M. Abram.

Right wing—R. Abram, F. Pugh.

Centre—J. Fisher.

Left wing—Gregory, Jenks.

RIDGETOWN HERE.

The Ridgetown Collegiate Institute football club will play the local C. C. I. a return match here to-morrow.

The local boys have been practicing and promise to give the boys from the town on the Ridge a harder battle than the game at Ridgetown. The C. C. I. line-up will be—

Goal—Taylor.

Backs—Sissons and Waddell.

Half backs—L. J. Campbell and Forshee.

Right wing—Warnock and Martin.

Centre—Barnes.

Left wing—Williamson and Dennis.

The game will be played at ten o'clock in the morning.

THE GALT CLUB.

Galt, Ont., Nov. 20.—The Galt Association football team is booked to play the following schedule of out-of-town games next week:—Thursday, 25th, at Detroit; Friday, 26th, at Chatham; Saturday, 27th, at Essex.

On Thanksgiving day, at Bennett Park, the Michigan-Minnesota game is now played here a contest for the Canadian championship in association football will take place.

A present the football club of Galt holds the championship of western Ontario, having defeated all-comers for the last two years. They claim the Canadian championship and in order to prove their right to the claim have issued a challenge to the Pease Lake league to produce a team that will even make a game of it.

This league will certainly do and, as in past Thanksgiving days, these games have been watched by large and enthusiastic crowds, the game ought to bring out all lovers of the "king" game.—Huron Tribune.

MR. AUSTIN REPLIES.

This morning The Planet received the following letter from John Austin, formerly grounds manager of the Chatham Football Club.

Spelling Editor, The Planet:—

Dear Sir,—I write you to ask you to make a statement in your paper about me, different from what I hear has been circulated about town.

You know, Sir, that my intentions were never to leave the football club of five-and-a-half piece. I told all the players and my friends that I was going to leave town for a time, but would do what I could for the club in selling lodges. To-day is the first I ever heard of what you said about me, and, as you know, I always was able to hold my head up, but how can I show myself back in Chatham in the spring with the name of a thief or robber? I did not jump any back fence. I did as I was told by Mr. Percy Piggott and went to meet Mr. Sissons, which I did at Westman's hardware store, and I feel sure that gentlemen will vouch for my honest dealing in the matter.

I leave Woodstock on December 9th for Resland, B. C., and hope to return to your city on the first day of May. Kindly correct that rumor in your paper so that I may have the same good name when I return as I always had. I only ask this in justice to my name as the statements I hear are, I am sure you will say, very mean and false.

If you do this kindness for me, please forward me the paper in which you put it, and oblige.

Yours respectfully

JOHN AUSTIN.

Box 591, Woodstock, Ont.

The Planet publishes Mr. Austin's letter with pleasure. As this journal pointed out at the time, there was not the slightest shadow of foundation for the ugly rumors so maliciously spread. Mr. Austin worked energetically and honestly for the football club and the members of that organization passed him a hearty vote of thanks for his services after his departure. Mr. Austin was duly authorized to collect money for lodges and every cent collected was duly accounted for. The originators of the ugly slander of Mr. Austin have reason to be energetically

REAL TIGER

Last Wednesday the Princeton College football players brought a live tiger on the field as a mascot. The animal belonged to an officer of the Naval Academy. It is 3 years old and 4 feet long and said to be as tame as a kitten, but the Princeton football players were not sure of that when it was delivered at the Osborn Field house that morning. They watched it pace up and down in the cage a long time before Capt. Davis mustered nerve enough to let it out.

The tiger stretched itself, surveyed the crowd of hounded athletes suspiciously and then opened its mouth wide and sent out a loud roar. The men rushed wildly for the doors, and chairs and tables. The tiger meanwhile was quietly inspecting its new quarters and soon came fawning up to the scared football players. It made a lot of friends quickly and that afternoon it was thought best to have the animal released the part which it is to take in the contest on Saturday.

W. H. Barnard, the old half-back, led it out on the field at the end of a long chain. Its appearance was the signal for hundreds of applause from the undergraduates and it became frightened and balked. Barnard tried to pull it along, but crouching quickly, it leaped like a flash over the fence into a crowd of spectators, who quickly scattered in all directions.

The tiger was brought back again and put in the cage, which was carried to the coaches' bench. It was released again later, but had to be taken in quickly when two buildings came rushing out. An attempt will be made to lead the beast across the field in front of the team on Saturday.—Ottawa Citizen.

BRITAIN'S EMBASSY.

CHANGES IN SIR M. HERBERT'S NEW HOME AT WASHINGTON.

Its Splendid Appointments—Wall Papering of the Finest Type—Red in the Color Scheme of the Lower Floor and Pink That of the Sleeping Apartments—Bathrooms Are Magnificent.

If Lady Pauncefoot were to return to Washington and re-enter the British embassy, she would find the interior almost unrecognizable and completely remodeled, says The Washington Post. The old study which the late Lord Pauncefoot occupied with an emerald has been thoroughly renovated, as indeed has been every one of the fifty odd rooms into which the building is divided. The great drawback to the embassy during the incumbency of the late Lord Pauncefoot, was the darkness of the rooms, the effect being rich and dignified.

The study connects with the living room of the embassy and the chancellery. The construction of the latter was begun during the regime of the late Lord Pauncefoot. Before its erection visitors to the embassy were compelled to go along the side of the house to a wing of the building not far from the kitchen, where they transacted their business with one of the secretaries. The chancellery is now near the building line of the embassy, and a caller of consequence does not feel that his dignity is suffering if he enters the chancellery through it. The chancellery has a reception room and three offices, which are sufficient for the work the ambassador will be required to transact. These rooms are plainly furnished, with a large number of shelves filled with records and reference books.

Friends of Sir Michael making a social call will drive to the front of the embassy along a stone driveway, and their horses will stop under a porte cochere over which the British flag flies. A short flight of stone steps, and the visitor will pass through the front door into a magnificent hall, at the end of which is a wide staircase, down which looks a magnificent portrait of the late Queen Victoria, valued at \$50,000. The hall is without much ornamentation. It has a marble mantelpiece, and the mantel is of a rich red. The staircase is of walnut which has been painted white. The ambassador's study, to the right of the hall door as one enters, is directly opposite two large drawing rooms. These rooms are also tastefully furnished. Over massive marble mantels are two large mirrors framed in gold. In the rear of the staircase is the dining room, containing a large dining room, capable of seating a large dinner party. The wainscoting is of burnished gold, with embossed roses, and the paper is red. The mantel is of walnut. The floor is the color scheme of the first floor, and pink is that of the rooms on the second floor. Barred paper, with pink roses trailing, cover the walls of the room over the ambassador's study. A painted paper of pink, coloring decorative the sleeping apartments over the drawing rooms. A harmonious color scheme has been adopted for the "attic," as the English attaches call it, the attic is decorated with the same scheme. The "attic" is the top of the embassy, and the floors and wainscoting are of tiling.

There is one room in the building to which Lady Herbert has devoted particular attention. This is the bathroom, on the first floor near the dining room. This is 20 feet wide by 10 feet long and is large enough to accommodate the select dancing parties Lady Herbert will give during the winter. The paper is of gold. The floor has been planned and when waxed will permit easy dancing. The work of renovating the embassy has been done by Mr. C. A. Langley, under a contract with the board of public works of London. Sir Michael, of course, transmitted his wishes to Mr. Langley, but the board had general charge of the improvements.

Lady Herbert has bought a large quantity of magnificent furniture in London for the embassy. The silver of the embassy, more valuable than that used at the White House, is now in storage and will be returned to the embassy as soon as needed. Rugs, all oriental and extremely valuable, covered the floors of the embassy when Lord Pauncefoot presided over the establishment. These have been taken up and cleaned. Others have been received from Sir Michael and add to the beauty of the embassy.

The cost of the renovation can be appreciated when it is known that \$15,000 has been spent for new fixtures alone. The wall papering is of the finest quality and must have necessitated a very large expenditure. The embassy has been strong with electric light wires, has steam heat, two furnaces being provided so that if one should get out of order the other can be immediately commissioned. A large range in the kitchen insures adequate cooking arrangements.

The Largest Thing Afloat. The landing stage at Liverpool is the largest thing afloat. The Celtic, the Oceanic and Great Eastern put together would be nothing like the size of this mighty raft. It is more than half a mile long and from 80 to 100 and more feet wide.

Walked 98,000 Miles. William Ayres, a rural postman, who has just retired at Kentishead, Devon, has walked 98,000 miles during his thirty years' service.

Well Made.

Pure flour and pure yeast do not necessarily mean good bread. It may be spoiled in the making. Just so; material is not everything. Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, after a number of analyses, reports that "Sunlight Soap is a pure and well-made soap." "Well made" means more than you think. Try Sunlight Soap—Octagon Bar—next wash day, and you will enjoy the benefits of a well-made soap, and will see that Prof. Ellis is right. No one should know better than he.

The most liberal creed is the one that takes in the greatest need.

INWARD AND OUTWARD.

The inward effects of humors are worse than the outward. They weaken all the organs, inflame the mucous membrane, cause catarrhal troubles, and endanger the whole system. Hood's Sarsaparilla eradicates all humors and cures all their effects. It's the great alternative and tonic medicine whose merit has been everywhere established. Accept no substitute.

Most of the things that actually happen are not true to life.

WOLFEY'S FAREWELL

By William Shakespeare.

Nay, then, farewell! I have touched the highest point of all my life. And now to my full meditation of my grief, I have now to my sorrow, I shall fall seeking health in the evening. And no man shall see me more.

Soforewelled to the little good you bear me. Farewell, a long farewell, to all my great loves. This is the state of many; to-day he puts forth the tender leaves of hopes, tomorrow And bears his blushing honors thick upon him. The third day comes a frost, a killing frost; And, when he thinks, good, easy, mellow, ripe, full surely His greatness is a ripening, nips his root, And then he falls as I do. I have ventur'd like little wanton boys that swim on bladders. This many summers I have swam on glory; But far beyond my depth. By high-blown pride I have broken under me; and now lies left me.

Wearied with service, to the mercy Of a rude stream, that must for ever hurtle Vain pomp and glory of this world, I hate. I have sworn heart new opened, Oh how wretched Is that poor man that hangs on princes' favours!

There is, belovest that smile we would apply to. That sweet aspect of princes, and their smiles have more power than wars or weapons have. And when he falls, he falls like Lucifer, Never to hope again.

Cromwell, I charge thee, fling away ambition! By that sin fell the angels; how can man then the image of his maker, hope to win by it? Love thyself last; cherish those hearts that hate thee; Comfort the poor, and bind the wretched; Seek for peace, not war; and for the sword, still in the right hand carry gentle peace, to silence envious tongues. Be just, and let all the ends thou aimest at be thy country's, thy people's, and thy God's. Thou art the lord of this blessed martyr! Serve the king!—Prishee, lead me in:—For a contract with the devil of all I have, To the last penny; 'tis the king's; my robe And my integrity to heaven, I all devote now call my own. O Cromwell, Had I served my God with half the heart I served my king, he would not in mine age Have left me naked to mine enemies.

—From Henry VIII.

NEW ONTARIO RAILWAYS.

CANADIAN NORTHERN PLANS TO REACH ONTARIO.

Surveying an Extension to White River—The Algoma Central—The Grand Trunk Said to Have Franchises There.

Toronto, Nov. 21.—The railway developments of new Ontario are assuming an interesting turn. The Canadian Northern have just sent out two surveying parties from Fort William to locate a route from there to White River, where their proposed extension easterly from Fort William will meet the Algoma Central. This route is intended to run considerably farther north than the Canadian Pacific road, which skirts the lake shore.

The Algoma Central, running north from the "Soo" is completed to within 25 miles of White River, and that small section will soon be finished. It is anticipated, the Canadian Northern pushes its line to White River, the work will be completed about the time Mr. Clergue announces his intention to have the North Shore & Manitoulin road finished. This would mean that by the junction at White River the Canadian Northern could get into Ontario over the Algoma Central.

Another interesting and well-defined rumor is that the Grand Trunk have secured a franchise which will enable them to reach the "Soo" from the west and on to Sudbury, or join the Algoma Central, whose Manitoulin & North Shore road may run north to Sudbury after leaving Manitoulin, and before turning west to the "Soo." Whatever the outcome of present surveys and temporary arrangements, it is certain the railway development of new Ontario during the next few years will be on a most extensive scale.

SAN FRANCISCO'S FIRE.

SOUTHERN PACIFIC DEPOT AT FERRY SLIP DESTROYED.

One Man Reported Killed—Large Number of Passenger Coaches Reduced to Ashes.

San Francisco, Nov. 21.—The Southern Pacific depot and ferry slip at the end of the Alameda Mole, which extends far into the bay from the eastern shore, was totally destroyed by fire early yesterday. Train Despatcher Walker estimates the loss at from \$450,000 to \$500,000. The sides of the slips and buildings, eight broad gauge passenger coaches and 25 narrow gauge coaches were burned. One man is reported to have been killed.

WORK OF BRUTAL MOB.

Beat a Negro Criminal and Then Hanged Him.

Sullivan, Ind., Nov. 21.—James Moore, the negro who assaulted Mrs. Mary Davis and Mrs. John Lemon, was taken from the Sheriff by a mob yesterday. He was captured at Robinson, Ill., and was brought here. The mob was warned of his coming, and as the Sheriff drove up to the jail the members overpowered the officers. Moore, egged piteously for mercy. The mob beat him over the head with revolvers. He was thrown into a wagon and taken to the house of one of his victims and hanged in the yard.

THE SCHNECTADY BOYCOTT.

Majority of the Unions Want it to be Called Off.

Schenectady, N.Y., Nov. 21.—The machinery builders' section of the Trades Assembly, representing at least two-thirds of the local trades union men, met last night, and by a practically unanimous vote decided that the assembly at its next meeting should raise the boycott against the Schenectady Railway Company. The machinery builders' section includes 31 unions, and involves every iron trades union in the city, having within its membership every man employed in the General Electric and American Locomotive Works. There are 61 unions in the Trades Assembly, and this action by a majority practically guarantees that the boycott will be declared off next Wednesday night. The Typographical Union met last night and also condemned the boycott.

NO FRAUD POSSIBLE HERE.

Referendum Ballots Are All Different—Printed in Toronto.

Toronto, Nov. 21.—Col. Clarke, Clerk of the Legislative Assembly, has already distributed the ballots for the referendum vote among the various returning officers. They were all printed at his order by Warwick Bros. & Rutter, the Government printers. Those for each constituency bear the name of that constituency and are numbered separately, so that there are in reality no two ballots alike in the whole Province. They are also printed on a special kind of paper.

MILITARY DICTATORSHIP.

King of Serbia Aims to Govern as Absolute Monarch.

Vienna, Nov. 21.—The resignation of the Serbian Cabinet and King Alexander's mandate to General Marovic to form a new Ministry are generally taken here to foreshadow a military dictatorship in Serbia. The King's next move, according to general expectations, will be the indefinite adjournment or dissolution of Parliament. He will then attempt to govern as an absolute monarch, supported only by his army.

FORTUNATE ESCAPE

Mrs. Ellis, who lives near Thamesville, had a wonderful escape from death on the Lake Erie track yesterday. As a result of the accident she is now at her home suffering from injuries which may prove serious.

About half past four o'clock yesterday afternoon, Mr. and Mrs. Ellis were driving down Head street on their way home, after spending the day in the city. The Lake Erie local freight from the north had just got in and was shunting near the waterworks. The cars were uncoupled just at the crossing and the engine was backing up with half of the train to couple on again, when Mr. Ellis, not noticing this, attempted to drive across the track. The horses had crossed the track before Mr. Ellis was aware of his dangerous position. The end of the car struck the buggy and Mr. Ellis, with great presence of mind, jumped out and held the horses. Mrs. Ellis was unable to jump and she and the buggy were crushed in between the two box cars.

The accident caused quite a commotion and a crowd quickly gathered around "Soo" Mr. Pomphrey, engineer at the waterworks, was among the first to arrive on the scene, and it was he who extricated Mrs. Ellis from her perilous position. Mrs. Ellis was at once moved to a nearby house. It is thought that she did not receive any serious injuries, although the shock to her nervous system was great. The buggy was a complete wreck but the horses escaped without injury.

PUTTING IT STRONG

But Doesn't it Look Reasonable?

This may read as though we were putting it a little strong, because it is usually thought by a majority of people that Dyspepsia in its chronic form is incurable or practically so. But we have long since shown that Dyspepsia is curable, not by such a difficult matter as at first appears.

The trouble with Dyspepsia is that they are continually dieting, starving themselves, or going to opposite extremes or else deluging the already over-burdened stomach with "cathartics," "after dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. Such treatment of the stomach simply makes matters worse. What the stomach wants is a rest. Now how can the stomach become recuperated and at the same time the body nourished and sustained?

This is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy but its success and popularity leaves no doubt as to its merit.

The Tablets will digest the food anyway, regardless of condition of stomach.

The sufferer from Dyspepsia according to directions, is to eat an abundance of food without restriction of food and the tablets are taken after each meal and the result will be that the food will be digested no matter how bad your Dyspepsia may be, because, as before stated, the tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1,800 grains of meat, eggs or ordinary food and place it in a temperature of 98 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach.

The stomach may be ever so weak yet the tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical, lasting cure of Dyspepsia will be made because the much abused stomach will be given to some extent, a much needed rest. Your druggist will tell you that of the many remedies advertised to cure Dyspepsia none of them give so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the least money.
