

DAVID TILSON

It is important to have definite points of view when being a candidate for the Presidency of the SRC. I would like to discuss many subjects involving campus activities, however, the short space given allows me to briefly mention only one topic which I believe

is of the most importance to the students at UNB.

As a member of the present council I feel that the finance system that now exists should be properly organized so that in the future it can function with more effectiveness. Several important changes should be made, one of which involves the Finance Committee itself. I believe that the individual committee members should be given greater powers to examine the financial records of campus organizations. This would not only decrease much of the obvious over-spending and waste by the organizations, but would enable the Finance Committee members to lead the council in establishing more efficient financial operations.

In conclusion, I might say that you can help your 1964-65 SRC by supporting the candidate of your choice in the coming election. I do hope that you will consider your vote carefully in choosing your Student's Representative Council and make it more efficient and stronger in the coming year.

NOTICE

All Lectures Cancelled Tuesday, 10:30 to 11:30

VOTING INSTRUCTIONS

- 1. You must have your Student Pass to vote. The polling clerk will mark it with a distinctive mark.
2. Everyone will vote for the President.
3. Seniors vote for their Faculty Reps as well as the Life Executive.
4. Post Grad and Law Students will vote for the President.
5. Polls will be open from 8:30 a.m. to 4:30 p.m.

PRESTON THOM

Preston Thom, fourth year Forestry, native of Montreal, has had a varied career here at UNB. As intermediate representative to the SRC this year, Preston was a member of two standing committees, Awards and Applications. He has been a member of the House Committee of Lady Beaverbrook's Residence for two years and is currently serving as House President. He has starred with the Varsity Swim teams since coming here and was Captain of the team for one year. In four years at UNB he has gained a wealth of experience by actively participating in various organizations.

Preston's decision to contest the Presidency of the SRC was prompted by a desire to make the SRC a means of governing the student body. If he is able to accomplish this, the SRC will be an institution representing all the students of

UNB. This, he feels, is as it should be. He is well known as a person representing many different aspects of student life. He is capable and confident. As President of the SRC he could use his varied experience and his knowledge of student affairs to good advantage in making the SRC a truly representative body.

Brunswickian

CANADA'S OLDEST OFFICIAL STUDENT PUBLICATION

VOL. 96 No. 19

FREDERICTON, N.B., JANUARY 28, 1964

The Voice of UNE

ATTACK APATHY - VOTE!

Sandy Speaks

To-morrow Wednesday, Jan. 29, is a very important day in the affairs of the students of the University of New Brunswick. To-morrow each and every student has the opportunity to have a voice in how his affairs will be governed for the next twelve months. This voice takes the form of a vote, and although one vote may seem trivial, each vote represents your opinion.

You the students will have the say as to how you want your policies directed, your affairs governed, your money spent, by electing those who will represent your opinion on the Students' Representative Council of 1964-1965. Take advantage of this say and perform the very important function of voting in the Spring Election to-morrow.

This year's S.R.C. has taken very daring steps in revamping the entire constitution with the hope of stimulating a keener interest in student affairs. These extensive changes can create a much more efficient governing body, but these changes need the support of your vote.

In the past the number of students turning out to vote has been very discouraging. This is inexcusable because polling booths are placed in all Faculty Buildings as well as the Dining Halls and Student Center. I am confident that a responsible student body such as ours will take better advantage of their voting privilege.

Arts

BRIAN MALONE

Students of the Faculty of Arts - Attention.

With the many changes made in the student government last year there is a need for experience and interest in the elected representatives. Brian Malone served on last years council as sophomore representative and has helped to set up the new government. A student interested in all campus affairs, he is the "home voice" of the Red Devils hockey team, a past member of the yearbook staff and has served with two consecutive Winter Carnival committees. For experience, common sense, and interest he asks or your vote on January 29, 1964.

ROBERT NAYLOR

Since last fall I have attended four S.R.C. meetings to see for myself just how our student government operates. On the whole it seems to do a good job but there were many times during those meetings when I wished I could vote and express myself on some issues.

Now with the support of the Arts Faculty I hope to become an S.R.C. member. I believe that I have the common sense to capably represent the Arts Faculty in a competent manner.

EDWIN A. UHLEN

If elected to the S.R.C. as an Arts representative I intend to perform all duties conscientiously, most particularly those pertaining to the Arts Faculty. My main reason for candidacy is to aid in the greater efficiency and better organization as well as establishing better

I would like to thank the Brunswickian Staff for their efforts in producing this paper, the purpose of which is to give you the chance to meet your candidates.

Finally I ask you to show your concern for Student Government and Vote.

communications between the S.R.C. and the student body. My previous experience as an army officer should lend itself readily to these situations.

CLYDE GORDON McELMAN (2nd Arts)

Clyde is a native of Fredericton, a product of the local environment. He is a three-year member of the Fredericton Rugby Club (and part of the conspiracy to revive interest in rugby on campus this fall), one of the committee workers involved in hosting the recent CUS conference, the UNB delegate sent to a recent international student conference in Montreal and a member of the International Affairs Club. Platform: "An open mind to listen and a firm stand on all issues."

PEGGY BLAIR

Please help send this kid to Council.

Peggy Blair for SRC Rep.

BRIAN DAVIDSON

Brian was born in Montreal and brought up in New Brunswick and the Eastern Townships of Quebec. He graduated from High School in 1962 and entered the class of Arts '66. In his Freshman year he ran on the Varsity Track Team. He was Accommodations Chairman of the recent CUS Conference and it was his connection with this conference which brought to his attention the need for sound student government.

Brian's only policy is to represent YOU, the Arts Students.

JOHN ALBERT WEBSTER

John came to U.N.B. this fall from Montreal. He is active in sports and social activities. He played varsity football this fall and at present is devoting his spare time to skiing.

John was somewhat surprised to find that he is the only first year Arts candidate running for an S.R.C. position and for this reason he is quite anxious to represent the first year Arts students. He is also determined to try to improve the student apathy towards our student government.

January 29 - S.R.C. election takes place to-day (if I were an artisan, I wouldn't vote for After Hours, I'd vote for Sheila Hutchison)

Engineering

ROBERT MARTIN

The question often arises as to how you, the student, wish to have your interests managed. If you desire any change or improvement, then I solicit your support in the coming election. I believe that with my knowledge of student activity that I will be able to actively represent the Faculty of Engineering. My interest on your behalf has been expressed by my presence at SRC meetings this past year.

ERIC R. GOZNA

Eric, a sophomore in the Electrical Engineering faculty, has held a responsible position as a member of the Engineering Society Executive and as a member of the Jones House Ways and Means Committee.

He has been a close follower of student affairs since his arrival at UNB and will endeavor to further these activities in any responsible position.

If he should be elected, the experience gained will be a

valuable asset, enabling him to better serve the interests of the Engineering Faculty throughout his remaining Three Years.

RICHARD SIMMS

Attention Engineers. You need a sophomore representative on the SRC. If only upperclassmen are elected, there will be no engineers with previous Council experience or knowledge of matters pertaining to the Engineering Faculty on the Next Council. Having been a student council member at Saint John School, I feel that this experience coupled with a desire to maintain the Engineering Faculty as the most potent one on Campus, are the necessary qualifications for sophomore representative. Vote Richard Simms for Engineering Rep.

ROSS TAGGART

During my last three years at UNB, I have taken an active interest in many extra-curricular activities. During the present year I have become quite interested in the SRC and attended many of the meetings. I would like to continue this interest by offering myself as one of the Engineering candidates for a position on the SRC.

BRADEN (JOE) JOLLY

Ever since I became an Engineering student, I have always had a keen interest in the activities of the student body, this includes being a member of the track team and a member of the House Committee of the Lady Beaverbrook Residence. Under the new system of electing your SRC representative by faculty, I feel that the Engineering faculty will now have an even greater voice on student matters. If I am elected I promise to work for the benefit and interest of the Engineering Faculty.

PETER FILLMORE

During the past two years I have been a member of the U.N.B. diving team. This year I am Secretary-Treasurer of the Sophomore Class. To me a position on the SRC represents both an opportunity and a responsibility - an opportunity to learn something more of campus af-

fairs and the responsibility of doing so. I am fully prepared to accept the challenge of properly serving the interests of the Engineers by giving them an effective voice on the SRC.

PHILIP A. VORVIS

At present I am in my third year of Mechanical Engineering. I have attended many of the SRC meetings this year and I am most interested in the management of student affairs as well as SRC funds. I believe that I possess the necessary qualifications to discharge the duties of an SRC Representative and therefore urge your support in this year's elections.

JACK LUFF

In 1963, Jack Luff, a Freshman Chemical Engineer, graduated from McAdam High School where he was active in student's affairs. At U.N.B. he has been President of the Freshman Class and a member of his residence's Ways and Means Committee. He feels capable of serving on the S.R.C. and promises to work for the good of the Engineering Faculty and U.N.B. and for an improvement in the efficiency of the S.R.C.

PETE EARLE

This year's Council has produced a policy of action; however, the ball has just begun to roll. The improvement in the Constitution and the efficiency of the Council are just a start. A dynamic character is necessary attribute of a Council member. That is why you of the Engineering Faculty should vote for the candidate who will insure that the Council continues this policy of action. Engineers, vote wisely vote Pete Earle, for your representative.

CARL "WOODY" WILSON

Since coming to U.N.B. I have taken part in many of the campus activities. Participation has helped me to become familiar with the problems and feelings of the student body. If I am elected to the S.R.C. I am prepared to voice the opinions and feelings of the U.N.B. Engineers. I will act for the Engineering student body and help to continue the close relationship that the Engineers have established with the S.R.C.

JAMES M. (JIM) STORRING

As a fourth year civil engineering student I have been on campus long enough to understand the purpose and function of the SRC. I am currently active in the Engineering Society and feel that the engineering students should play a more important role in the student government. If elected my aim is to promote this role.

HERBERT B. GIBSON

During my first year at UNB I had the opportunity of gaining practical experience as an elected representative of the Neville House Committee. This experience will undoubtedly be of assistance to me if I am elected to the SRC as an engineering representative. In addition I feel that I am informed of the interests of my faculty and I am able to express their sentiments and opinions in the SRC.

GORDON ROSS

This Wednesday I will be asking for your support as a candidate for engineering representative. I am a third year chemical engineering student. I have no previous experience on the SRC and I feel that this is an asset, because I believe new ideas and opinions are needed. I feel that in my three years on campus I have gained a knowledge of what you the students want from the council. I am prepared to do my best to see that your desires are carried out.

Forestry

DAVID CHRISTIE

Dave Christie, a fourth year forester, has served on his residence House Committee, as Treasurer of the Forestry Association, and as Intermediate Representative on the S.R.C.

His past experience has given him an insight into student affairs which makes him well-qualified for a position on the S.R.C. If elected, he promises to represent the views of the foresters and to do his best in handling the problems that the S.R.C. will meet.

AUSTIN DUQUETTE

My history to almost all of you is unknown, yet I am supposed to ask you to vote for me. It would seem that your challenge is as great as mine. However I will not bore you with the autobiography of an average individual.

I have twice, previously represented my class on the Students' Council of my High School. Although this task was small compared to the one set before me, I fully realize the responsibility and importance of this position as a Forestry Representative, and I will do my utmost to serve you.

My activities at UNB thus far include Varsity Hockey and Tennis.

KEN CARTY

Ken Carty, a third year Forestry student, is an active member of the Forestry Association, and was its treasurer last year. He has also taken part in many inter-mural activities throughout the past three years. With this experience and knowledge of the Faculty and its members, he feels that he will make an excellent rep. and asks for your support.

TO SUPPORT YOUR FACULTY

TOM PINCKARD

With the arrival of St. Thomas and Teacher's College on our Campus, many complications will arise. Now, more than ever before, a conscientious and diligent SRC is essential to enable it to deal in a competent manner with the problems and issues which will confront it in the coming year.

I believe that I have the qualifications to sit on such a Council, and as your representative, to express your ideas and recommendations in the best interests of the Business Faculty and our University.

JAMES F. ARMSTRONG

James F. Armstrong, a second year Business Administration student, is better known as Fritz. As a result a movement is afoot to change his name back to its original form. The process by which this is hoped to be accomplished is a Radio UNB program entitled "Blame It All On Eve", with the bedtime story teller Uncle Jimmy.

Mr. Armstrong is aptly suited to a SRC position in that he has had much experience in this field. He has been on the SRC in his High School Fraternity and Business Manager of Radio UNB. With this background, we feel that Jim will be an asset to the SRC of UNB.

Nursing

PETER McDERBY
Business Admin. Rep.

A native of Cornwall, Ont., the above was active in high school in the year book committee, drama society, Key Club and as president of the Stu-

dent's Council. Since leaving high school he has been employed by the Royal Bank in Cornwall, Ont., Montreal P.Q. and recently in Goose Bay airport in Labrador, Nfld.

He believes that all students should participate in the extra-curricular activities and that the freshman and sophomore years should be actively represented on the S.R.C.

MARY LAFLAIR

— Third year Nursing Student from Toronto.

— Interests include UNB Choral Society, Nursing Society, and Tennis Club.

— Assistant chairman of this year's and co-chairman of next year's fall and spring Blood Donor Clinics.

— At UNB successfully completed a course in Parliamentary Procedure.

— Would like to use whatever knowledge and background to adequately represent the Nursing Faculty on the SRC.

PAT PULLIN

NURSES!

GIVE THE SRC that helping "hypo" VOTE Pat for NURSES REP

MERRIBETH CAMPBELL

NURSES!

You alone can cure all the ills of the SRC. Give them MERRIBETH — she's a pill!

Science

DON BELYEA

Don Belyea came to the University of New Brunswick two years ago as a Lord Beaverbrook Scholar, and since then has been very interested in the problems of the Science Faculty. He feels the voice of the faculty has not been heard enough on this campus. This is reflected both in the poor show of interest in the SRC and in the disorganization within the faculty. Don has a good grasp of student opinion, especially that of the Freshman and Sophomore students of the Science Faculty, and hopes to end this apparent lack of interest in the faculty during his term of office.

GARY DAVIS

Gary Davis, in addition to serving two years on the SRC and with the constitution committee, has widened his experience with student problems by participating actively in Radio UNB and as a writer and editor for the Brunswickan. His participation in Model Parliaments, the Model United Nations, and on the managerial staff of last year's Red Devils, and his contribution to the 1962-'63 championship track team add to his qualifications for the position of representative on the incoming council. Gary Davis plans to continue to work in the best interests of the students he represents and to work his hardest to rescue the Science Guild from a seemingly certain death. He asks for your help.

BRIAN EDWARD ELLIS

— Fredericton resident.
— 3rd year Biology major
— Freshman lab demonstrator.
— member of Rod and Gun Club.
— an active interest in SRC meetings and policy.
— 'I want to see the Science

faculty strongly and actively represented in all decisions affecting our activities, and I think that I am capable of doing it well.'

Physical Education

ANTHEA ALLEN

Anthea Allen, 3rd year Physical Education student hails from Bedford Nova Scotia. During Anthea's two years Up-the-Hill she has been active in varsity field hockey and basketball and is presently on the Physical Education Society. Anthea is proud of her faculty and plans to do her best if elected to the S.R.C. to further better relations with other faculties and advance the status of the Physical Education Society on campus.

DOUG MACAULAY

I am a third year Physical Education student. Although this is my first attempt at student government, I feel that my experience as a Recreation Director for the past two summers would help me greatly on S.R.C. Committees. If elected, I will do my best to represent fairly the Faculty of Education at U.N.B.

No matter how you vote; be sure to VOTE — but don't forget DOUG MACAULAY.

ROSS EDDY

Dear Phys. Eders: May I take this opportunity to introduce myself as a candidate for the Education representative to the Students Representative Council.

I am presently serving my second term as class representative on the Physical Education Society and for the past two years I was on the managerial staff of the UNB Red Bombers, last year in the capacity of Head Manager.

I would like to continue in student administrative affairs and I would be willing to make the necessary sacrifices to represent you in the 1964-65 S.R.C.

On January 29th I would like you to consider me as one of your representatives. I remain.

Yours respectively,
Ross Eddy.

TONY DEW

One of the candidates for the position of Physical Education Representative is Tony Dew. Tony is in his 3rd year of Physical Education. He has been active with the Red Bomber Football Team and is a member of the Brunswickan sports department.

When he was asked why he was running for this position, he said that he felt he could represent the phy-ed students in such a way that their best interests would be fostered at the S.R.C. meetings and that the students would be kept up to date with all new events.

BILL REDDEN

I will be frank. I am in my second year as an executive of the Physical Education Society. I currently have the privilege of being president of The Kings College School Old Boys Association and I am a past president of the Nova Scotia Junior Tennis Association.

I feel that both the experience that I have accumulated in past years, plus my natural interest in the welfare of The Physical Education Program here at UNB. Stand me in good stead to represent the Physical Education Students on the Students Representative Council. Thank you.

ERIC METH

I, Eric Meth, am running for the position of Sophomore President for 1964. I am a member of the Arts Faculty; am very active in Radio UNB; and participate in UNB aquatics.

In regard to Freshman Week, I propose to update, organize and raise enough enthusiasm to make it the best Freshman Week ever.

BOB ORR

Fellow students:

To begin with let me introduce myself as a candidate for the position of Sophomore President in 1964-65. My name is Bob Orr and I am presently enrolled in the Arts faculty.

There has been a great deal of discussion about Freshman initiation week, and I think that through better organizing, that is preplanning of the fate of the newcomers next fall, that this old tradition can be vastly improved here at U.N.B.

Yours sincerely,
Bob Orr

VICE-PRESIDENT

JOHN TREVORS

To the Freshmen of U.N.B.,

I have allowed my name to stand as a candidate for the position of President of the Sophomore Class.

With a great deal of experience in organizing events such as this, I feel that we the students can put on the best Freshman Week ever.

In concluding, I urge to vote as you will, but vote.

With Respect,
John Trevors
