## Coffee Uniformity

Plenty of people have difficulty in having their Coffee the same day in and day out the year round.

Solve the difficulty this way—

1. Let us supply you with that blend of ours which you prefer.
2. Then learn to make it by the method that brings out all the aroma and the flavor of the berry.
3. And KEEP ON making it that way.

We can give you Coffee uniformity the year through, without a shade of variation.

The rest rests with you.

Coffee as low as 25 cents a pound. From that up to 65 cents.

### UNION STOCK MARKETS TORONTO

Heavy buying of cattle for the Easter trade prevented a break in values at the Union Stock Yards on the opening market of the week. The receipts offered for sale were about 3,700 head, and if it had not been for the good Easter demand, values would likely have weakened considerably. The offering exceeded that of last Monday by nearly 1,700 head, but the quality was excellent throughout. The good absorption of the cattle yesterday should not cause shippers to send heavy offerings for the rest of the week, as it is almost a certainty that prices will meet a reduction if the runs are not moderate.

The receipts yesterday contained quite a few shipments that had been apparently held for the Easter market, there being two straight loads of baby heaves, as well as numerous small lots. The size of the offering caused a slow market at the opening, and up till 11 o'clock not more than 500 head had passed over the scales. Buying became brisk after that, however, and at 2 o'clock around 3,000 head had been weighed up. There were no export buyers in the market, all of the buying being for the domestic trade. There were however, about 750 cattle billed through from the United States to Great Britain. The stocker and feeder trade was also quiet, only an odd load being bought for return to the country.

Although in the opinions of some values weakened in the late trading, the market generally was a steady one, with an excellent clean-up despite the heavy offering. Some good Easter prices were in evidence, baby heaves bringing up to \$9.50 a cwt. and heavy steers \$8.85. One big steer brought \$9 per cwt., and another weighing over 1,400 lb was sold at \$13 per cwt.

There was a slow trade in calves, and values were generally down from \$1 to \$1.50 per cwt. Commission men had difficulty in getting \$11 for tops at the close. A few sales were made as high as \$11.50. Trade in sheep and lambs was about steady with last week's prices. One bunch of yearlings sold at \$11 and sheep around \$9.50. Eighteen sheep averaging 150 lb were sold at \$11 per cwt. Lambs sold from \$13.50 to \$15.50 per cwt. Spring lambs were easier, with some sales from \$10 to \$14 each, but it was rather hard to sell them at these prices.

Hogs were inclined to sell a little higher as the result of the light offering over the week-end. Sales were being made at \$13 and \$13.25 per cwt. on the fed and watered basis. The top sales were up 25c a cwt. from last week's close.

### REPORT OF S. S. 13, CARRICK.

Report for March.

Jr. IV—Frieda Baetz 72;  
Jr. IV—Alma Hill 68; Harold Kuester 61;  
Jr. III—Tillie Hill 77; Norman Kuester 62; Priscilla Kupferschmidt (absent).  
Jr. II—Frieda Hill 73; Catherine Filsinger 62; George Eickmeier 54; Adella Kuester 51; Charlie Filsinger 27.

### A MORAL DEGENERATE

Robert Gass of Owen Sound goes to Kingston penitentiary for two years, having been found guilty of one of the most filthy offenses possible, by Magistrate Cresson on Monday of last week. The man, if he could be called such, exhibited traits that a bast would blush to own and he can easily be spared from the community. In 1915 he was convicted of a particularly heinous offence and sentenced to five years in penitentiary and apparently this was not even a lesson to him. He is apparently a moral degenerate.

A colored woman down south, asked why she called her son Prescription, said it was because it was so hard to get him filled.

That spruce is being crowded out of the forest areas of Ontario, Quebec and New Brunswick, owing to methods of lumbering employed, is the verdict of Dean Howe, of the Faculty of Forestry, University of Toronto. In some places spruce is being cut down six times as fast as it can be replaced by nature.

## Helwig's Weekly Store News

### STYLE INFORMATION SPRING 1922

**Sport Coats**  
Sport Coats indicate very little change with the exception of wide sleeves. Some are shown with raglan sleeves, while others are the all around belt, back pleat, patch pockets, and ruffles for trimming.

**Coats**  
Coats of the more dressy type are shown with full wide sleeves. The cape influence is very apparent in sleeves, and in coats which have cape back. Blouse effects are another of the new types. Fur fronts, and scarf collars which can be worn close around the neck are likely to be popular.

**Capes**  
The "Bromwich Coat meets the demand for a smart English cut made garment on mannish lines, developed in lovat, tan mixtures, or in Polo cloths.

**Suits**  
Suits are shown in tailored types or jaunty box styles. The latter are usually elaborately trimmed with braid or embroidery and the wide sleeve is a feature. Some are made with jumpers instead of skirts.

**Trimmings**  
Trimmings consist of silk embroidery, stitching, braid and tassels. Linings are both plain color and figured.

**Dresses**  
Dresses for ladies are made on straight and fitted lines, showing panels and side drapings, with normal and low set effect waist line, three-quarter, full length, and wide Jenny sleeves. The round, square, and bateau neck line are all featured in new models. Misses' taffeta dresses are made on youthful lines, with basque, and bouffant skirts, elbow sleeves, and trimmed with frills and bright colored streamers, or fruit puffings and cordings. The softer materials such as crepe de chene are made on blouse lines. Scalloped and pointed hems enhance these youthful frocks. Oriental embroideries, rich beadings combined with hand-made flowers add distinction to these garments.

**Skirt Styles**  
Skirt Styles show novelty fabrics in plaids, stripes, homespun, border effects, flannels and jerseys, also sport satins, especially high lustre fabrics. Pleated models are holding their own. The sash replaces the belt in some styles and is finished with fringe. Skirt lengths are a matter of taste and vary from seven to ten inches off the ground.

# HELWIG BROS.

GENERAL MERCHANTS,

## THE PEOPLE'S STORE.

### Big Specials for One Week

In Clothing, Underwear, Overcoats, Suits, etc.

### Flour Specials

Our best grade of High Patent Flour which is called Thorobred, manufactured by Hunt Bros. of London, will be offered up to Saturday, March 11th at \$4.25 cash or trade, after this date this flour will be \$4.75.
