

Ferro-Concrete Suggested for British Lines

Railway Officials Thinking of Copying French System to Structural Work.

(Special Dispatch.)

LONDON, August 8. SERIOUS thought has been given by British permanent way officials during the last fortnight to the more general use of ferro-concrete upon railways.

At Paris and the inspection of the lines verging upon the French capital have suggested that many of the prejudices now existing in railway men's minds are entirely without foundation.

One denies that the principal French ways rival and perhaps excel those of this in the stresses set up by high loads and heavy freights. The fact that ferro-concrete by "standing up" in all phases of structural work suggests that old prejudices have been ill founded.

German Army Surgeon Stops Use of Radium

is Costly Element Is Gradually Giving Place to Improved X-Ray.

(Special Dispatch.)

BERLIN, August 8. PROFESSOR BIER, Surgeon General of the German army, has, with many others, declined to use radium for cancer treatment.

The connection between X rays and radium may seem difficult to make, yet is really as simple as possible. If no had ever burned his fingers with rays, if no one had died from the effects of them, then it is probable that one would never have known what these rays had on skin and flesh.

WARSHIP WRECKAGE IS WASHED UP ON THE COAST OF THE PACIFIC OCEAN

Although no Word of any Fight Has Been Received it is Believed that a British Warship was Sunk—Story is not Confirmed

(By Special Wire to The Courier) SAN FRANCISCO, Aug. 11.—More wreckage from a British vessel which to-day is established to have been a man-of-war was cast up by the early flood tide in the neighborhood of the South Shore life-saving station.

WASHINGTON, Aug. 11.—According to records here, the only British ships in American Pacific waters are the small cruiser Sheerwater, the sloop-of-war Algernon, and the cruiser Rainbow.

The only enemy which might have been in the vicinity was the German protected cruiser Nuremberg, which had been on Mexican duty at Manzanillo, but on July 29 was reported in mid-Pacific near Midway Island, apparently steaming for the German China station.

OTTAWA, Ont., Aug. 11.—At the naval department the Canadian Press was informed that if the wreckage cast up at San Francisco is part of a British warship, it is probably either from the Sheerwater or the Algernon, two small British gunboats which had been stationed along the west coast of Mexico and Lower California.

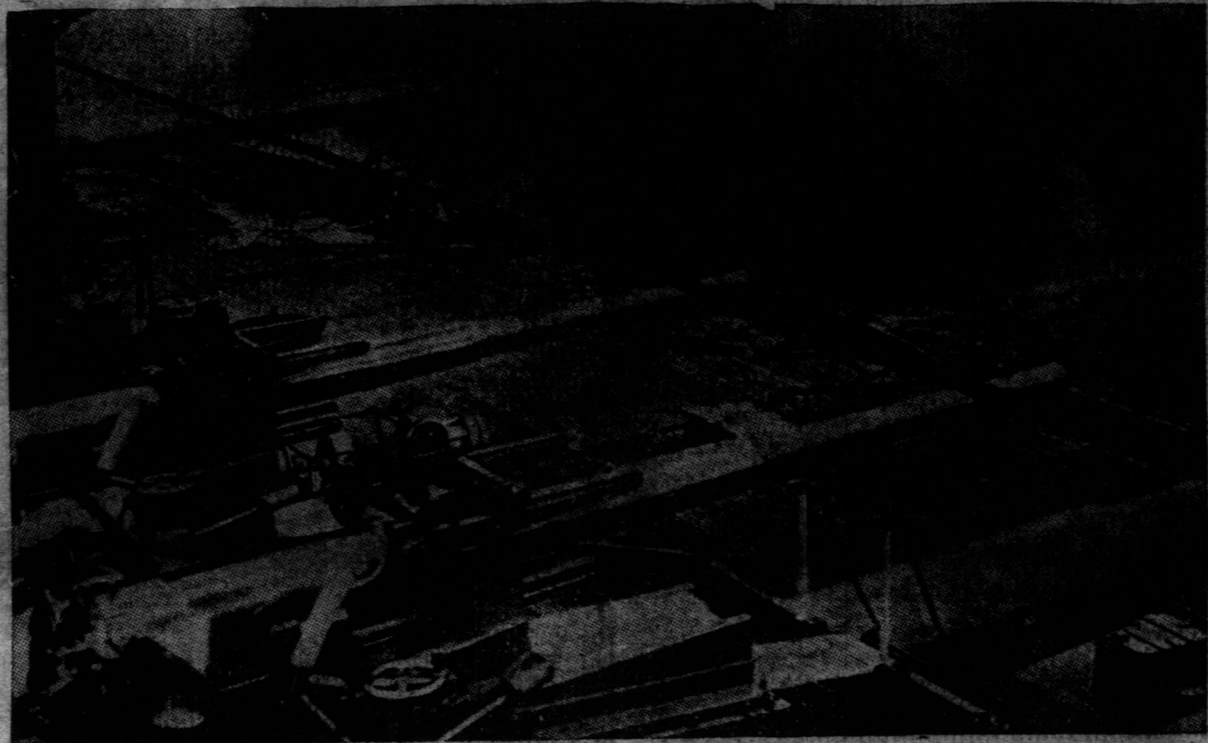

"MADE IN BRANTFORD" EXHIBITION PROVES GREAT SUCCESS AT THE ARMORIES

Well Worth Every Person's Time to take a Glimpse at the Array of Home Products—Some of the Exhibits.

Brantford's claim to be one of the premier manufacturing cities of the Dominion, was ably upheld and maintained by the splendid exhibition of Brantford made goods of all sorts, sizes and descriptions to be seen at the Industrial Exhibition opened, yesterday in the Armories.

During the afternoon and evening the spacious drill hall was kept well filled by a continuous stream of citizens who were deeply impressed with the evidences of Brantford's utility in the commercial world and what they saw was well worthy of their highest praise for there was not an exhibit which did not redound to the credit of the name Brantford and all it stands for.

A stroll around amid the many, revealed many of the booths got up in most artistic and decorative fashion while several working exhibits were to be seen. The basket weavers of the Brantford Willow Company attracted much attention as they plied their calling, while the cut glass worker and the wire worker of Schultz's exhibit each drew large and interested audiences.

FIRST REPORT OF THE NEW ADMIRALTY AND WAR OFFICE BUREAU

Was Issued This Morning--Germans Have Force of 120,000 Men at Liege and the Forts are Still Holding Out Bravely.

(By Special Wire to the Courier) LONDON, Aug. 11, 12:35 p.m.—The new admiralty and war office information bureau established by the British Government started work this morning. Its first announcement was as follows:

"About two German cavalry divisions are in the neighborhood of Tongres, to the north of Liege. Three German army corps are still opposite Liege, and other German troops are reported to be entrenching along the line of the River, Aisne.

"The large German force is moving through the Duchy of Luxemburg, and its advance troops are now at the Belgian frontier.

"German cavalry patrols have been reported near Marchienne and Arlon. Several individual soldiers belonging to German patrols have been captured both in France and Belgium. In all cases they were reported to be short of food for both men and horses, and they have made no resistance.

"The British consul-general at Shanghai, China, reports that no British vessels have been pursued or molested.

"A report from The Hague, Holland, states that public nervousness in that country has been allayed since the publication of Great Britain's attitude respecting the neutrality of the Netherlands.

"It is stated that the Germans lost 8,000 killed before Liege, but this is unconfirmed.

"A report states that the principal Liege forts are still holding out, although some of the smaller forts have been captured by the Germans. The bombardment of the fortifications by the Germans is proceeding without intermission. On one occasion a fort apparently had been silenced, but when German infantrymen advanced to attack it a hail of (Continued on page four.)

IT PAYS TO BE THE MISTRESS OF THE SEAS

British Shipping to be Resumed This Week—The Big Loss Will Fall on Germany--Liners Reach Port.

(By Special Wire to the Courier) NEW YORK, Aug. 11.—According to the Tribune, British shipping which has practically the freedom of the Atlantic, is not losing a great deal by the European war.

The Vaterland, which cost the Hamburg American Line \$10,000,000, is lying idle at her pier in Hoboken with no prospect of leaving port. The losses arising from her inactivity in carrying the great volume of business that has been apportioned to her by the travellers of the world is enormous. The loss of the stagnation of German commerce which is caused by Britain's present control of the sea, applies to all German carriers that are hugging close to neutral ports. From the records of the last two weeks it is clearly demonstrated, marine authorities say, that British merchantmen are at liberty to go as they please without interference from German cruisers. The Cunard Line has not suffered as

much financially as might be supposed because of the tying up of the Mauretania at Halifax and the taking over that ship and the Lusitania, now close to Liverpool, as scout cruisers and troop ships of the royal naval reserve.

Both these liners were built for the Cunard Company on loans from the British government. The annual subscription of \$750,000 for both as mail carriers and naval reserve ships more than paid the interest on the loan. Meanwhile the liners cleaned up nice profits for their owners. It is said that both these vessels will continue to draw profits from the British government, which will more than make up for the loss of business in the westbound fall passenger traffic.

THE ROYAL EDWARD

Sailed From Montreal This Morning Amid Cheers of Thousands. (By Special Wire to The Courier.) MONTREAL, Aug. 11.—The Marine department's order closing the port of Montreal was lifted this morning to allow the Royal Edward to sail with 500 French reservists on board.

The Royal Edward may be taken over by the British admiralty for hospital purposes it was rumored today. If the Royal Edward becomes a hospital ship when she reaches the other side it is likely she will be fitted by the Canadian Daughters of the Empire who have been planning such a work.

PLAN A FAILURE

Belgian Resistance Has Completely Upset German Army Plans. (By Special Wire to The Courier.) BRUSSELS, via London, Aug. 11.—12.20 p.m.—Military authorities here assert that the German cavalry divisions were told off to make a raid on Brussels, with the object it is believed either of levying war contributions or seizing the treasury. It is argued that they evidently reckoned on not meeting with any Belgian resistance.

VETERANS TO GO

Thirty-three at St. John Who Saw Service Have Enlisted. (By Special Wire to The Courier.) ST. JOHN, Aug. 11.—Among volunteers who have handed their names to the recruiting officers here are thirty-three South African war veterans in the city. S. Cecil Irvine, a British ex-regular, received word yesterday from Col. Farquhar, private secretary to H. R. H. the Duke of Connaught, informing him that a regiment of former regulars in the British army was being raised by him from amongst those in Canada, and asking that any names here be forwarded to him. This Mr. Irvine will undoubtedly do. Fifty loyal Scotsmen have volunteered for European service from about St. John. They passed the medical inspection yesterday with ease.

WON'T GO BACK

Local Russians to Number of 100 Do Not Think They Are Needed.

The Russians of the city who now number about one hundred sent their passports to the Russian Ambassador at Montreal, and as yet they have not been returned, which means that they are not likely to be called upon by the Russian Empire. Some time before the declaration of war many Russians left Brantford for their mother country and will be now in the Czar's domain. They had been warned of impending trouble and lost no time in returning to their home. The local Russians feel that there are really quite sufficient men in Russia to serve the empire's purpose but they hold themselves ready to go if called upon. The Russians are principally employed in railroad work and their numbers have considerably diminished lately. Diplomatic relations between France and Austria have been broken off.

The parade itself was, both in point of numbers and prettiness of decoration a complete success. The sidewalks were literally packed by spectators all along the route of the parade.

## Canada's First Contingent Will Be All Trained Men

The 20,000 to be Picked from Militiamen of Previous Experience—Troops Expected to Sail Within Four Weeks—Government Not Apprehensive of Naval Attack.

OTTAWA, Aug. 11.—Canada's first contingent of 20,000 men to be sent to Europe will consist of practically all previously trained militiamen. This appears from the manner in which members of the militia are volunteering and it is directly in line with the wishes of the Militia Department, which is seeing to it that the green men are being kept back to make way for those already trained.

It is probable that the end of four weeks will see the contingent leave Canadian shores. Although it may be necessary to send the men before that period it is calculated by the department that a month will elapse before the contingents leave. So far no definite arrangements have been made with the British Government for the transport of the men to the scene of action.

The regiments which the Province of Manitoba and that of New Brunswick propose to raise have been accepted, and these provinces have been notified that the organization can commence at once. There has been some misunderstanding as to the offer of the City of Calgary to raise 500 men. Up to the present it was understood that the city proposed to equip these men and another difficulty is that the proposal was for mounted men, very few of whom are being taken with the Canadian contingent.

### Little Danger of Attack.

In spite of the reports that German cruisers are hovering around Canadian coasts, little apprehension is being felt in Government circles as to the attack on any of Canada's ports. On the east the Gulf and River St. Lawrence would furnish the only means of entry and these are well guarded. It is learned that the gunners at Quebec and other ports are being given constant target practice. At Quebec there are twenty guns with a range of from 10,000 to 12,000 yards. It was stated at the Militia Department today that no ship except possibly a battleship, could ever get as far as Quebec without being blown off the water, and if one ever ventured so far up the river it would never get back. Preparations have been made for the mining of the St. Lawrence and of harbors on the Pacific coast if such should be found necessary.

Col. Cole of Montreal was in Ottawa yesterday consulting with the Militia department as to the use in the present emergency of the residue left over from the Patriotic War Fund collected during the last South African War. A large fund of this character amounting to about half a million was subscribed for the relief of the families who went to South Africa, and it is understood over \$100,000 of this still remains. If such should be the case it may be utilized now.

LONDON, Aug. 11.—According to today's Times, Great Britain is now well on with her mobilization, and has between 500,000 and 600,000 men under arms, not counting the national reserve. **A Woman's Alleged Threat to Kill.**

A respectfully-dressed woman named Mary Jane McMilvey was charged at Dublin Police Court, on Thursday, with threatening to kill Sir William Smyly, the well-known Dublin medical practitioner. The threats were said to be contained in letters sent to Sir Malachi Kelly, the chief Crown solicitor.

A detective-sergeant gave evidence that when arrested the woman said she expected to get justice from him. She added that Sir William Smyly had prevented her from earning her living by telling people that she was insane. Sir William Smyly denied in court that he ever told anyone she was insane.

McMilvey was remanded for a week, the magistrate declining to allow her out on bail.

Court was held in Berlin, Ont., by Justice of the Peace Kohler in one case in the German language.

## SALTS IF BACKACHE AND KIDNEYS HURT

Stop Eating Meat for a While if your Bladder is Troubling You.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach's sores, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, chammels often get sore, water scalds and you are often obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithia-water drink.

**IN NATURE'S WILDERNESS**

The attractiveness of spending ones summer holidays in the open is appealing to the large army of summer pleasure seekers more and more every year. Instead of looking for the fashionable resorts where one has to dress for dinner and where gaudy reigns supreme, the younger generations are taking to the woods, the lakes and the streams in which they find in a two or three weeks outing, that rest and bodily upbuilding that fortifies them for the arduous duties that a strenuous twentieth century business life demands. Algonquin Park is just the cut-of-way sort of place for you—log cabin camps in the heart of the wilderness surrounded with unrivalled scenery and in the midst of the best fishing and with the comforts of city homes await you. Hotels with reasonable rates offer good accommodation. Two thousand feet above the sea level assures you of cool evenings and the purest air. Ask Grant Trunk agents for all information, rates, etc.—T. J. Nelson, City Passenger and Ticket Agent Brantford.

GERMAN SOLDIERS IN LIEGE---STRANGE SIGHT IS PRESENTED IN CITY

Forts Still Hold Out but Enemy is Entrenched in City Streets People Hid Themselves in the Cellars but Came Out Later.

[By Special Wire to The Courier.] LONDON, Aug. 10.—A despatch to the Express from Brussels, timed in that city at noon yesterday, says the Germans entered Liege on Friday night and occupied the town, although the forts were not taken. The occupation was accomplished decorously. General Von Emmich having been warned from Berlin against allowing his men to commit excesses. The troops, headed by cavalry, approached the town along the main eastern roads through charred forests, passing between the forts of Fleron and Devegnet, where the Belgian officers and the gunners were assembled and watched the strange procession arriving. General Von Emmich summoned the principal citizens and imprisoned them as hostages in a citadel in the centre of the city to prevent the forts firing on the German gunners who were entrenched in the public squares to overawe the inhabitants.

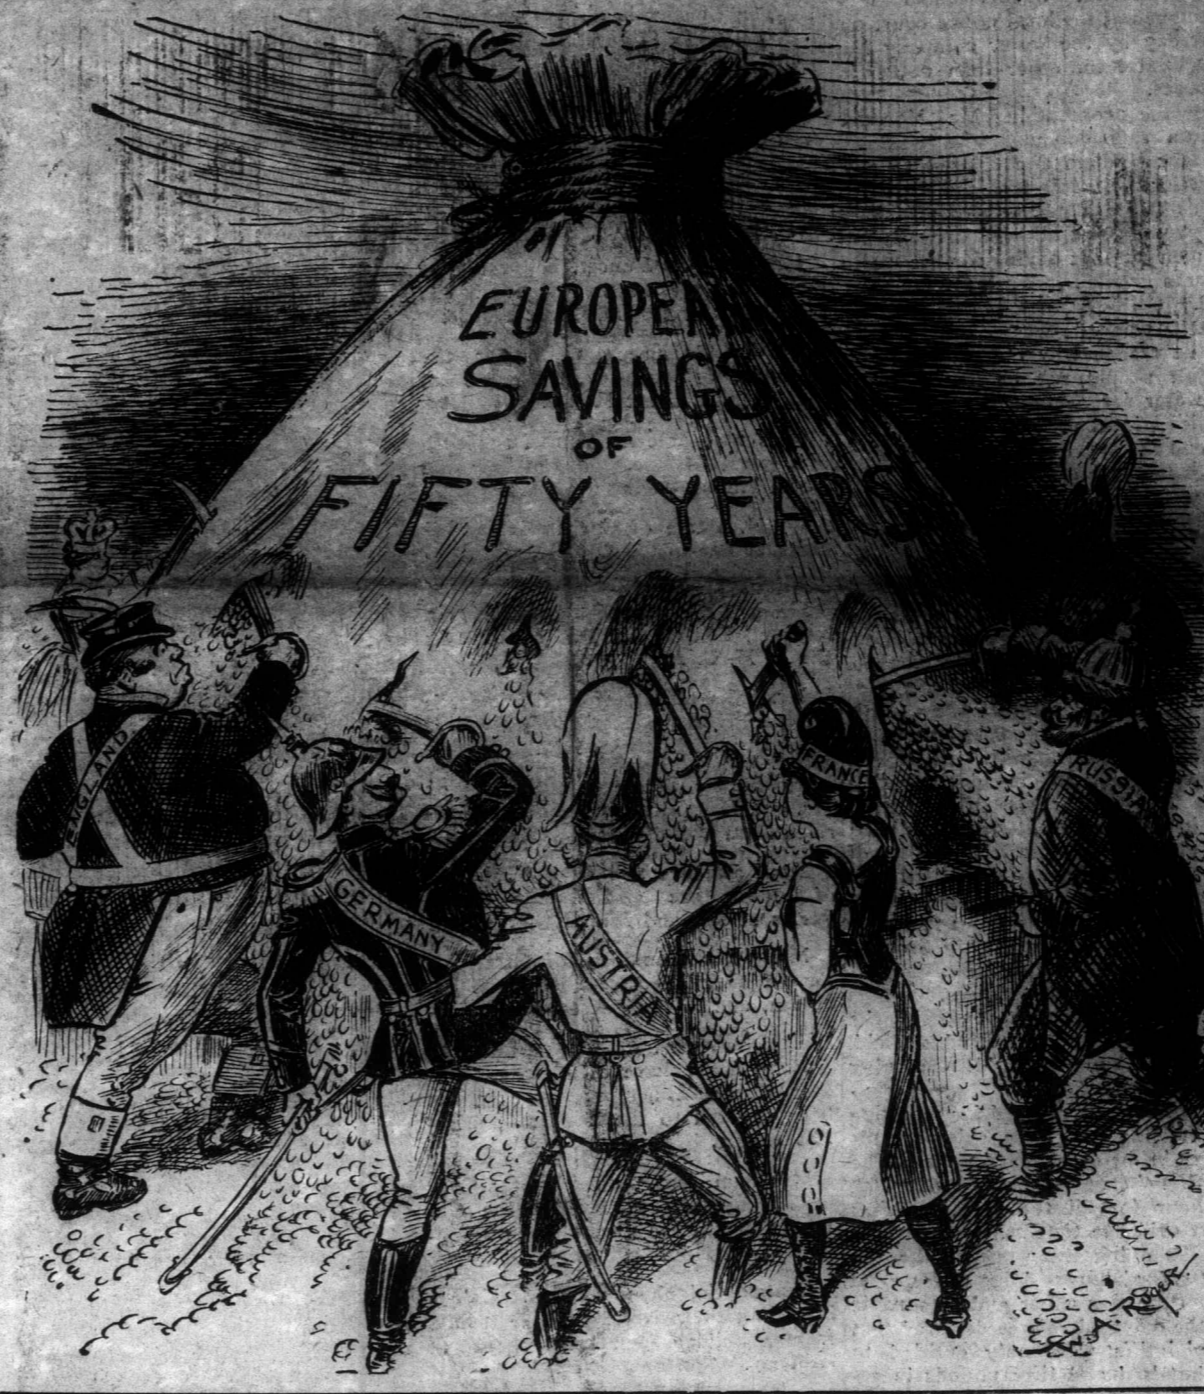

The German troops have been billeted in the schools and public buildings, but not in private houses. General Von Emmich's men also have been ordered to pay for all purchases at the stores which remain open. Most of the inhabitants of Liege remained in their cellars during Friday night. They came out on Saturday upon finding that General Van Emmich was not permitting excesses. The general issued a proclamation accusing civilians of firing upon German troops, and threatened to destroy the town if this was repeated. Liege presents a strange picture to-day. Soldiers of opposing

armies mingle freely in the streets. Piles of bodies awaiting identification lies under shrouds in the square. Among the unidentified bodies was that of a twelve year old child, which lay beside that of an aged civilian. Some of the streets are filled with army cooks, preparing soup for the soldiers, many of whom are weak from hunger.

BRUSSELS, Aug. 10, via London, 3.20 a.m.—The newspaper Le Soir gives the following details of the German occupation of Liege: "The Germans, on seeing spaces between the forts opened before them, entered in small groups on Thursday evening. Among those who entered were General Von Emmich, commander of the Tenth Army Corps, and his staff. At the citadel, which is the barracks, the governor and the burgo-master of Liege were informed that unless the town and forts surrendered the Germans would bombard the town and raze it completely. On orders from his government the governor then left the town.

"On Friday night 17 nobles of Liege, headed by the bishop, burgo-master and sheriff, with some deputies, proceeded to the citadel and begged General Von Emmich not to bombard the town. The general replied that the town and forts must surrender or he would begin the bombardment. The Germans asserted that the peasants in the district had committed hostile acts against them.

"All the members of the deputation were detained as hostages, and it is not yet known whether they have since been liberated."

BRANTFORD AUSTRIANS WERE ARRESTED ON PEARL STREET WITH FULL WAR EQUIPMENT

Successful Raid Made Last Night by Local Police—1,000 Rounds of Soft Nosed Bullets for Each Man—Leader of the Gang Admitted That Fight Was to be Made in the City.

(From Monday's Daily). Receiving private information that Austrians living in a boarding house, at 38 Pearl Street had a collection of arms and ammunition, Sergeant John Wallace, accompanied by Constables Joseph Cox, Steven Cara and John Blanchard made a raid on the house under suspicion at 1.30 this morning and found a full military outfit of brand new firearms, ammunition and Austrian army uniforms, the property of George Perge, John Tekay and James Kirzchlezer, who are now in the local police station cells under strong guard, awaiting trial.

It was about midnight that Sergeant Wallace received private information that the Austrians at this place were preparing for warfare and accompanied by the constables named the Sergeant headed a raid on the house under suspicion. All but two of the Austrians in the house were in bed when the officers forced an arrest, the three who owned the firearms and ammunition being among those who were sleeping. Telling the landlord, who is also an Austrian, that they were searching for liquor the officers commenced their search, one remaining on guard. The inmates became greatly excited and the officers had a hard time to keep them subdued. Finally the search was rewarded by the finding under the bed of one of the men of a box of ammunition. Three trunks that stood in one room were quickly torn open, and three brand new rifles and two shot guns, two Iver Johnson revolvers also new, and three pair of long distance field glasses, three suits of new Austrian army uniforms, one that of an officer owned by Perge, who acknowledged being the leader, leggings, and bags for the ammunition of which there was over 1000 rounds of soft nose cartridges, the most deadly known and which are prohibited for modern warfare by the Geneva

Convention, because of the jagged wound they inflict. The search lasted three hours and no more being found, the three were placed under arrest and hustled in the patrol to the police station where under strong guard they were placed in the cells.

"What could they want to shoot at this time of the year?" asked Magistrate Livingston, and Mr. Hollinrake replied that the men intended to live for some time in the Northwest, and had been preparing for the trip. It was not an ordinary shoot out of town.

Mr. M. W. McEwen, of the Crown, said they were not ready to proceed with the case, and asked an adjournment until Thursday in order to allow full evidence of further investigations. The Austrians asked that the case be tried to-morrow, but their request could not be acceded to, and the case will be again before the bench on Thursday.

Courier this morning to say that the three men arrested are Hungarians, and not Austrians.

IN POLICE COURT. The court-room was crowded this morning, and many Austrians were among the throng when the three Austrians came before the bench this morning. They were charged with having concealed weapons at their home, 38 Pearl street, contrary to the statutes of the land.

Through their lawyer, W. A. Hollinrake, K.C., they pleaded not guilty. As the Crown was not ready to go on with the prosecution the case was remanded until Thursday, the defendants being bound over in sureties of \$500 each. It was felt among the countermen of John Tekay, George Perge and James Kirzchlezer, the defendants, that they would have no difficulty in securing the sureties.

The story of the prisoners was that they had got the guns for a shooting expedition in the Northwest. They had no intention of using the guns for any other purpose.

AUSARIANS FOR ALSACE ROME, Aug. 10.—Via Paris 5.30 a.m. Eight Austrian regiments are reported to have crossed Lake Constance en route for Alsace.

IN LUZEMBURG BRUSSELS, via London, Aug. 10.—2.25 a.m.—The Germans are proceeding into France, chiefly into Esch a town of the Grand Duchy of Luxembourg, ten miles southwest of Luxembourg, where they have cut down trees and dug trenches. They have platforms four hundred yards long for the unloading of horses and guns have been constructed.

WOMEN WEPT AT BARBARITY OF THE SOLDIERS

Five Young Frenchmen Were Shot Down by Germans.

[By Special Wire to the Courier.] PARIS, Aug. 10.—2.45 a.m.—How five young Frenchmen were shot and killed in Germany is graphically described in an affidavit of Jean Demombaynes, a returned student, who declares furthermore, that two Italians travelling in the same train met the same fate.

The first Frenchman to be killed shouted "Long live France," at Lorrach, a town of Baden, where he was awaiting a train. According to the affidavit, he was immediately arrested, placed against the wall of the station and shot.

REBELLION IN GERMANY

PARIS, Aug. 10, 5.50 a.m.—A special to the Figaro from Bussels says that two foreigners who arrived from Berlin, which city they had left with some difficulty, declared that they had witnessed an agitation against the Emperor in the German capital. They said that on Unter Den Linden they heard cries of "down with the Emperor," and "down with the crown prince." The Belgian government has ordered and distributed among its soldiers descriptions of the designs of all uniforms worn by French and English troops.

FRENCH GET HARD VICTORY IN MOUNTAINS

Germans Put Up a Tremendous Resistance, But Were Driven Back.

[By Special Wire to The Courier.] PARIS, Aug. 10, 10.05 a.m.—A statement issued by the War Department at a late hour last night says that numerous skirmishes are taking place along the entire front of the French army.

One clash with the Germans was violent and the losses on both sides were serious. The official communication adds that the German troops are receiving reinforcements and that the French are also being strengthened.

A battle was begun on Saturday evening on the ridges of the Vosges mountains. Aeroplanes took part in the engagement. The French troops after a desperate encounter obtained possession of the mountain passes of Bonhomme and Sainte Marie. Then on Sunday morning when the fighting was resumed they took a position in the taking of Sainte Marie are not specifically given in the official report which confines itself to declaring that they were serious. The wounded French and German soldiers were taken to the French fortress of Epial for treatment. A French aeroplane which ascended during the engagement was repeatedly fired at, the officer who was acting as observer of the movements of the Germans received a bullet in the hip. The pilot of the machine, however, brought him safely to the ground and he was able to return to Belfort whither the aeroplane was also sent for repair. The German troops inundated the valley of the Seltz hoping by this means to stop the advance of the French, but the quantity of water was not sufficient and the French troops were able to continue their march. The French troops to-day were in face of the outskirts of the forest of Hardt in front of Neu Breisach, which appears to be occupied in force.

WELCOME HOME THE KEYNOTE OF INSPIRING SERVICES ON SUNDAY

Addresses Delivered in Victoria Park on Sunday--Many Old Boys and Girls Were Present--Auspicious Opening of the Week.

A deep sense of religion has always been at the bottom of the national life of Canada. The flag of Canada like the flag of the Motherland has always stood primarily for the religion of the British empire, christianity, and it was, therefore, but fitting and in line with all other great social gatherings held under the flag, that a public service in the name of the Saviour of the World should be held as an opening occasion for Old Home Week.

Such a gathering was the public open air service held in Victoria park Sunday afternoon. The park bedecked with flags and streamers was crowded with old and young while on the library steps and in George street where the platform was erected hundreds of Sunday school children were gathered.

Prayer was then offered by Rev. W. B. Caswell, B.A., of Winnipeg, formerly pastor of the Colborne Street Methodist church. Ven. Archdeacon Mackenzie was to have delivered an address but was unable to be present, and Rev. H. J. Pritchard, B.A., of Sault Ste. Marie, formerly of Alexandra Presbyterian church was called on to give an address.

Rev. H. J. Pritchard, B.A., boy, had left seven years ago and was pleased indeed to see his many friends again. He saw many changes in that seven years. Even the City Hall had changed. It was proper indeed that the O.H.W. committee had seen fit to begin the week with a religious service. It was a tribute to our great faith in God. Let us not forget everything accomplished was due to his goodness. The first duty of a public gathering of old boys was to pay homage to the old boys. In all things we must own our allegiance to God. No accident or unseemly incident escaped this notice and he would ask all to see, therefore, that the Old Home Week was an affair which redounded to the credit of God. He was glad to have had this opportunity to say a few words to some old boys and old girls, and wishing blessing upon the Old Home Week, the speaker closed his discourse.

It is announced that the list of German suicides in France has been increased by the death of several men, who became despondent because they were under the necessity of leaving the country.

endeavoring to have taken services accepted by the volunteer companies information here. Word however should be on hand to-day from Ottawa, Lt. Col. Ashton having written last week to ask the department if he was permitted to use them in forming the nucleus of his battery.

The advantages of having such men would be manifold and their experience would give the companies an asset which would be invaluable at the front.

## British Army More Than 100,000 Already en Route to Aid Belgians

PARIS, Aug 10.—Official announcement was made by the War Office Saturday that English troops are landing on French soil under the direction of French officers. It is also reported that a large force of French troops has reached the city of Lyons. The British troops comprise the first British expeditionary force of 22,000 men, and include some of the crack regiments of the British army. The troops will be rushed to Namur to assist in the defence of that town, where it is expected the chief stand against the German invasion of Belgium will be made. The bringing of the expeditionary force was mapped out at a conference of representatives of the British and French war offices held in London Wednesday, but no news of the proposed movement was made public until the troops actually had disembarked on this side of the Channel. The present force is only part of the expeditionary force which England is expected to send to the defence of Belgium, the War Office yesterday admitted. It was said that the British government already had completed arrangements, including the commandeering of sufficient transports to send an army of 100,000 men into Belgium. Although five strong British war vessels convoyed the troop ships which arrived Saturday, it is rumored that Great Britain is not depending entirely on these convoys, but has staked a fine of British cruisers across the Channel to keep the way clear in preparation for the movement of other troop ships.

## "GET ACQUAINTED" PICNIC HELD

New Lodge of I. O. O. F. Held Outing at Mohawk Park. A very pleasant event was held in Mohawk Park on Saturday when the new lodge of the I. O. O. F., the Mohawk, No. 452, held a "Get Acquainted Picnic." It was felt by the officials of bringing the members together in social intercourse. And the idea was tried and found to be splendidly successful. The new lodge with pretty little penants upon each member turned out in full force and a fine programme of sports was gone through with, prizes being presented to the winners of each event. After the sports had concluded, a real good repast was done justice to and a ramble concluded an afternoon spent in a very congenial manner. The programme and the winners were as follows: Single Men: C. F. Charlton, Married Men: C. Mayled, Single Ladies: A. McIsick, E. Tomlinson, Married Ladies: Mrs. Brown, Mrs. Dorland, Boys' under nine: Fred Brown, Jac Wedlake, Girls under nine: Mary Hanson, Maisey Jones, Boys under twelve: J. Wedlake, J. THE RE-UNION.

Welcome home—yes, three welcome. This is the spirit that is abroad in Brantford this festive time. The words will be heard on thousands of lips during the next few days, for the Brantford boys and girls are coming home.

THE FRANCO-GERMAN WAR

It was on July 15th, 1870, that France declared war on Germany because the latter refused to make certain guarantees. At that period the French people for the most part did not want to see hostilities, just as according to rumor, a large number of Germans resent what the Kaiser has done.

they hope will end in the humiliation of the man of all others, who has for years been looking for trouble, more especially at the expense of old Albin.

THE SITUATION

Still the news from the front is not of the first importance, nor does there seem likely to be anything of that nature for some time yet. Information which has come through, however, has had the right trend. The plucky little Belgians—they are small in stature but veritable wasps for fighting—have earned general admiration for the very efficient manner in which they have shown Germany that they cannot be easily walked over.

On the German side, Liege has evidently been occupied, that is the town and not the forts, and Warsaw is said to have also been secured by them, to the delight of the Poles.

In Canada, the recruiting at all points has been far beyond expectations. Instead of one army division of volunteers as asked, it looks as if there may be enough for two.

There has been a great deal of apprehension with regard to the long silence touching the fleets, the Courier is inclined to think needlessly so.

The course of events in the short but terrible contest electrified Europe, by its unexpected character. The mobilization of the German army was performed with marvellous celerity.

AERIAL FLEETS CLASHED WITH DEADLY RESULT

They Played a Prominent Part Between Germans and Belgians.

[By Special Wire to The Courier.] LONDON, Aug. 10.—The Times correspondent in Brussels, describing the fighting at Liege, says aerial fleets were used by both Belgians and Germans. The fighting in mid-air was desultory but deadly.

A BOMBARDMENT LONDON, Aug. 10, 9:15 a.m.—The Rome correspondent of the Exchange Telegraph Company, says that according to despatches from Vienna, the Montenegrins yesterday bombarded the Austrian fortifications of San Teodoro and Cattaro without, however, inflicting serious damage.

Canada's Gift Is One Million Bags of Flour

Has Been Accepted by the Motherland and Will be Great Help.

OTTAWA, Aug. 10.—Canada is giving a million bags of flour to the Motherland. Action has been taken already, the offer made and accepted and the flour purchased. Within the next few days the first cargo of his gift will leave the shores of Canada for Liverpool, British cruisers keeping within striking distance all the way to safeguard the passage of the flour ship.

The following reply has been received: "On behalf of the people of the United Kingdom his Majesty's Government accepts with deep gratitude the splendid and welcome gift of flour from Canada, which will be of the greatest use for the steady of prices and relief of distress in this country.

Flour Already Purchased The flour has already been purchased, following a conference between a sub-committee of the Government and a number of representative millers.

In addition to the free contribution of flour the Government, as already stated, is acting for the home authorities in the purchase of other stores. Members of the Government, are now obtaining from representative packers in Canada an estimate of the available surplus of meat, etc.

The schools have been reopened, although it is holiday time, so as to keep the children occupied. Kindergartens have been established in many public buildings.

Cavalry Will Not be Sent

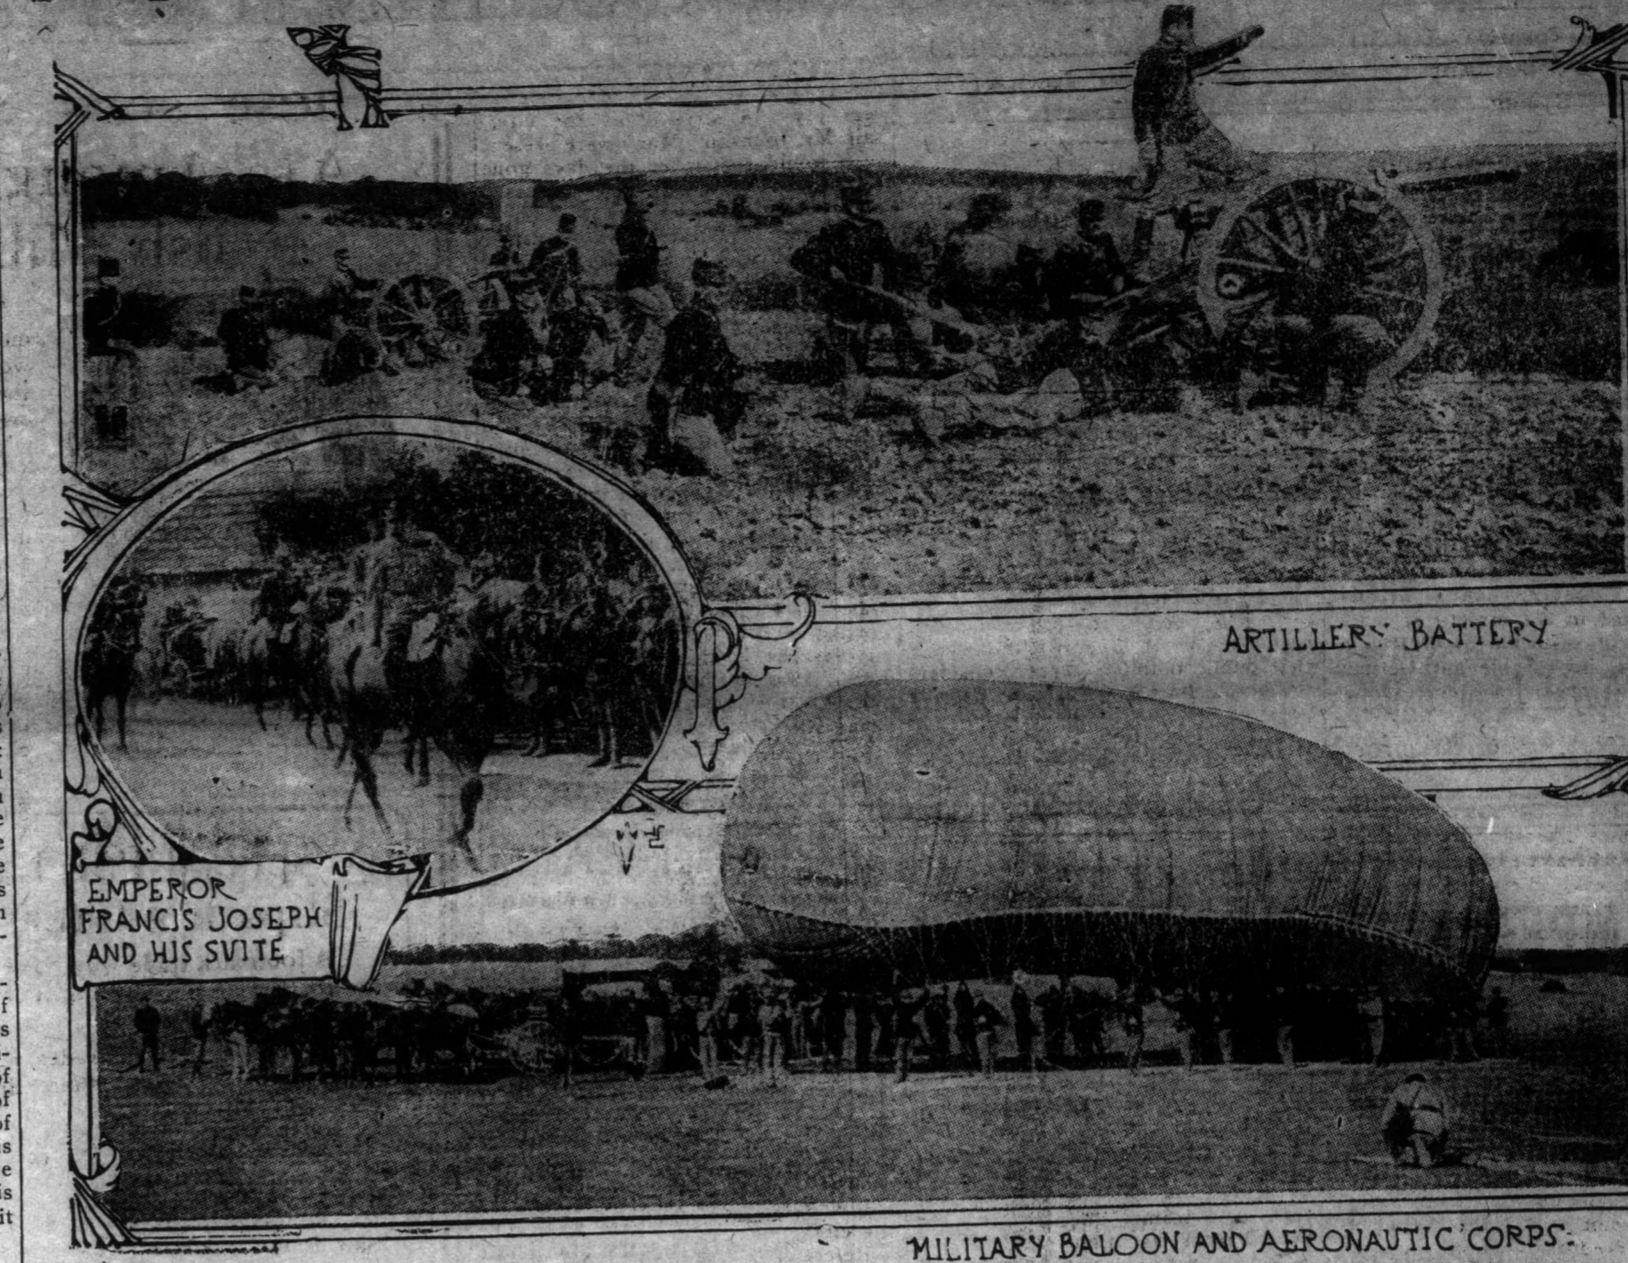

That cavalry in force will not be required to be sent from Canada is the information received in local military circles.

NEWS CONFIRMED.

LONDON, Aug. 10, 4.10.—The Brussels correspondent of the Daily Mail says that he has confirmed the report of French success at Marbehan, in Belgian Luxemburg, on the railway line between Ostend and Basle.

A NEW MOVEMENT.

BRUSSELS, Aug. 10, via London, 7 a.m.—It is confirmed that the Germans ceased their forward movement along the River Ourthe, which joins the Meuse a mile above Liege, and a movement north of Liege is expected. The Gazette states that a secret German arms depot, plentifully supplied, has been discovered in Brussels.

All Germans Rushed Out of State to Prevent Any Spying.

[By Special Wire to The Courier] BERLIN, Aug. 10, via London, a.m.—The Brussels representative of the official news agency here telegraphs from Goch that martial law was declared in Belgium Saturday and that all Germans have been ordered to leave the country as soon as possible.

Thousands of Germans have left Belgium since Thursday for Holland. They were chivalrously protected by Belgian officers and civic guards, and at last on Friday, together with municipal authorities, undertook to put a stop to the mania for espionage.

EXPULSED THEM

All Germans Rushed Out of State to Prevent Any Spying.

[By Special Wire to the Courier] BERLIN, Aug. 10, via London, 7 a.m.—The Brussels representative of the official news agency here telegraphs from Goch that martial law was declared in Belgium Saturday, and that all Germans have been ordered to leave the country as soon as possible.

The correspondent says that what happened in Belgium during the past several days surpasses the imaginable. After war was declared mobs demolished all business places which either belonged to Germans or handled German goods. Every escutcheon bearing allusion to Germany was removed, and anyone looking like a German was attacked in the streets or made the object of suspicion of espionage.

The most improbable anti-German reports were spread, the correspondent says, one of which was that German soldiers had tried to murder General Leman, the governor of Liege.

Oceanic Arrives at Southampton

LONDON, Aug. 10.—Passengers aboard the Oceanic, which arrived yesterday at Southampton from New York, had their insight into the meaning of war Wednesday night, when the decks were canvassed in the port-holes shuttered lights extinguished and notice was given that as a precautionary measure the ship would sail without lights during the night. Passengers were ordered to do without lights in their staterooms.

The impression prevailed that the Oceanic was pursued by German warships.

"We raced for two days and nights," said one of the passengers. "Thursday we had a thrill. We saw smoke on the horizon. Through marine glasses we could see that it came from war craft. Were they German or British? After ten minutes of doubt we went a string of flags fluttering out greetings. The signal was answered by one of the warships, which we then saw was flying the British flag."

A BOMBARDMENT

Austrian Cruisers Create Havoc on Seaport Town of Montenegro.

[By Special Wire to the Courier] BARI, Italy, via London, Aug. 10, 7 a.m.—After the Austrian cruisers had bombarded Antivari, Montenegro, damaging the wireless station and the fire to the adjacent hills in which many Montenegrins from the town had sought refuge.

These refugees returned the fire, whereupon the cruisers redoubled their attack upon the town and its suburbs, destroying many houses. One cruiser then entered the port and resumed the bombardment, destroyed the Maritime station and storehouses. The warships then sailed in the direction of Cattaro, Austria.

An Offense Against Italy

PARIS, Aug. 10, 3.55 a.m.—A special despatch from Rome declares that public opinion there considers the bombardment of Antivari, the sole port of Montenegro, as an offense by Austria against the interests and rights of Italians, because of the damage done to the property of the Italian company at that port.

Heavy Fogs Saved Boat

[By Special Wire to the Courier] BOSTON, Aug. 10.—Heavy fog banks on the North Atlantic saved the German steamer Whitekind, with 323 passengers and a million dollar cargo of lead and coal bar products, from capture as a prize of war by the British cruiser Essex, according to the story told by Captain Sembill when the steamer anchored in the lower harbor last night.

Captain Sembill said he was off Sable Island, bound from Hamburg for Montreal, when he learned by wireless of war between England and Germany. Later his operator picked up a code message from the cruiser Essex which he judged came from a point ten miles away.

The steamer's engines were immediately started full speed ahead and Captain Sembill had his smoke stacks painted black to conceal her identity. For twenty-four hours the liner drove through the protecting fog which did not lift until she got into neutral waters.

Commissioner Lange of the Canadian immigration office boarded the Whitekind and said the passengers would be sent direct to Montreal by train to-day.

RELIEVE ITALIANS

PARIS, Aug. 10, 4.15 a.m.—President Poincare and Premier Viviani have taken measures to relieve Italians in France who are suffering as a consequence of the war.

Among these were Mr. Shearstone and Mr. Harris, whose names will ever live on in the history of the city, because they were men of God. "May God bless the city," were Rev. Rev. R. Hamilton

Rev. R. D. Hamilton spoke upon the forthcoming Old Home Week. He was pleased to welcome all Old Boys, all old girls, indeed, everyone, and he was impressed with the large number of young people present. Upon them he would ask the high and uplifting influence of God. Give to him the best he said and the best will come into you. Speaking of religious work, he said: "We believe we have the best field in the young people, and the best message to give and the best text in the bible." Hospitality would be abundant during the Old Home Week and that Canadian hospitality was the best and most generous in the world would be evident. He welcomed all to the churches of the city.

Referring to the present war situation he said that Canada had never been behind in answering the call of the nation and on this occasion when freedom was again calling she would not be found wanting. To-day she was able and willing to do her part and she would always stand by the National Flag.

The speaker hoped that all would enter into a greater reunion in the heavens, than the earthly reunion which would be celebrated during the week to come. He asked for divine blessing upon the festive celebrations. Final.

At the conclusion of Rev. Mr. Hamilton's address, the Mayor called upon Mr. Geo. Kippax to lead in prayer which was earnestly and devoutly delivered to the Almighty, the mighty throng bowing their heads in reverence. Then the National Anthem, sweetly rendered by the Salvationist band announced the finish of the afternoon's proceedings and the multitude, composed of all sorts and classes of humanity wended its various ways from the scene of the religious ceremony to gather later at two sacred concerts given by the Inferior Rifles at Jubilee Terrace and the 25th Dragoons at Alexandra Park.

Another appropriate and special music were heard in all the city churches on Sunday all the services being of a "welcome home" nature to the old boys and girls of the city.

At the morning service in Wellington St. Methodist church, Rev. R. D. Hamilton, the pastor, preached a splendid sermon of a distinctive welcome home character. Pleasing and excellent solos were rendered by Miss Alice Bloxham and Mr. Vernon O'Neill of Woodstock, Miss Bloxham singing "The Homelands" and Mr. O'Neill "The Prodigal's Lament."

Rev. Mr. Hamilton of the fourth chapter of Deuteronomy, "Ask now of the days that are past." Many now, the speaker thought were asking of the days that are past, tradition and memories of the days that are past are now uppermost in everyone's mind. It is a good thought, that by memory one can live his or her life over again. Memory is especially blessed in that one can recall his childhood days and though perhaps old in years, live his childhood days over again. The lesson to be learned from this the preacher pointed out was that though a man may redeem his bad name or his bad character, he can never redeem lost time. Hours or days wasted are wasted forever. We are never the past now. What investment are we making of it? That is the point of all right living; do something every day, every moment that shall adorn life, and not shame it.

Prayers for Travellers. A special hymn was sung in St. Jude's church last night for those absent friends who are now located in the British Isles and whose return to their native land is a matter of concern to their friends. It was excellently and impressively sung by all and suited the occasion splendidly. The Rev. C. E. Jackson preached a masterly sermon upon the individuality with which our Lord Jesus treated those with whom he came into contact.

Ovation to the Overseas Teachers When Attending London Theatre

LONDON, Aug. 10.—The keen admiration evoked by the Canadian and overseas offer of help was evident when the overseas teachers touring under the auspices of the Hands Across the Sea Society were subject to a remarkable ovation at the Shaftesbury theatre on Friday night. During the interval of the play, "The Cinema Star," which is the London version of "The Queen of the Movies," the manager referred to the presence of the teachers and to Canada's and New Zealand's readiness to help, whereupon a volume of applause broke out, lasting for five minutes. The teachers are booked to return on the Scandinavian, which is scheduled to sail from Glasgow on the 22nd of August, but in the event that they are obliged to remain longer hospitality is already assured them from such hosts as Lord Brassey and the members of the party, including six fully trained nurses, have volunteered their services if detained, while others are taking courses in first aid to the injured in the event of their being unable to leave, and it is possible that the London County Council will employ them as substitutes of the men teachers that are called out. At a meeting under the presidency of Sir Thomas McKenzie, New Zealand's High Commissioner, the teachers passed a resolution urging the Canadian Government at this opportune moment to purchase the Turkish warships that are now under construction for the Imperial Government. Among the audience there were Canadians of both sides of politics. The teachers to be exchanged will begin work next week, as the London teachers' holidays have been curtailed for the benefit of the many children of fathers who have gone to service. Mrs. Perley has issued an invitation to the ladies of the Canadian colony to notify her in what direction they can help the community at present.

A Mad Rush From Europe

[By Special Wire to the Courier] LONDON, Aug. 10.—(Montreal Gazette special cable)—Stirring stories of the mad rush from the continent find prominent Canadians in the vanguard. Hon. N. Peroddeau, of Montreal, a member of the Quebec legislative council, who has been touring through northern counties of Europe was arrested.

Mr. Peroddeau had gone to Berlin to meet his son who is studying in Russian. They met in the German capital on the first of August and saw many demonstrations on the eve of the declaration of war with Russia. At that time both though German territory more safe than that of the Czar's domain and decided to go on to Hildesheim, near Hanover, while dining in a pension the police entered and put them under arrest. They managed to obtain their freedom, however, in time to catch the last possible train to the Hook of Holland reaching London after a tedious journey. They were compelled to leave their motor car behind.

Hon. N. Peroddeau has booked to sail by the Royal Edward on the 26th of August. Sir Lomer Gouin, who has had some adventures, has left for Bristol to board the Royal George, which is expected to sail on Monday two days in advance of the Royal line's schedule. There is no news of Sir Horace Archambault, who was last seen in Paris.

One of the locks on the Welland Canal was broken by the steamer Windsor upbound.

Fair and T. W. Standing had narrow escapes. Several Brantford girls assisted in the work of the bucket brigade.
