"All right," said the amused clerk;

"All right," said the amused clerk; no efforts to make a display worthy specials are offered, and the Driving passed. Park association have loaned the track, offer \$225 for trials of speed.

FARMERSVILLE DRIVING PARK.

The Annual Races a Grand Success

Delightfully cool weather, a bright Driving club, for the opening day of fused manner exclaimed, "Where am its fall meeting, on Monday. The reputation which the club has already established for itself (though this is its second meeting) had the effect of bringing out an unusually large number of spectators, a noticeable feature being the large proportion of sportsmen from the cities and towns. Nearly every city and town in Eastern Ontario from Toronto to night?" Cornwall was fairly represented, while there was a fair sprinkling of Amerithe card for first day, and the horses and off he started. were called sharp on time, and no unnecessary delays were made. The judges were Mervin Soper, and R. B. Alguire; time-keepers, Richard Williams, of Brockville, and A. E. Donosporting men occupied a place on the stand. The drivers were uniformally "Look here," he said in a confiden-The drivers were uniformally obedient to the judges, and in short everything passed off in a satisfactory

First in order came the Green race.

Yesterday the races were continued, with great success. We shall conclude this report next week.

THEIR WEDDING NIGHT.

How it was Spent by an Unsophistic ated Bridegroom.

A bridal couple from one of our eighboring towns, recently married, went to the thriving city of Springfield, O., on their bridal tour. arrived at the Lagonda House of that place about nine o'clock in the evenng. The bride waited in the ladies' went to the office to register his name, and for the first time to write with it, married man, and the bridal chamber was accordingly assigned them. The groom retired from the office accom panied by a servont, and with his bride repaired to the bridal In about half an hour the affable clerk at the Lagonda was surprised to see the groom walking into the office, and still more surprised to notice that he deliberately walked to an easy chair in a dark corner, and seated himself with a disappointed and determined sort of air. The clerk waited for some minutes, all the time wondering if there could so soon be a family row. He watched the young As we go to press this morning husband closely, endeavoring to discover by his actions the cause of his commences. Up to 7 p.m. last evening the entries footed up to over 2,000, the chamber that conteilled his fair which is considerably in excess of young bride. But his watching was

proaching him in a respectful manner. ne said dition, therefore the exhibit of grain understand why you have so soon left and roots will likely be the best in the bridal chamber. Has anything but they continued their efforts "Oh, no," said the young fellow Jenny is an awful modest young girl, and she said she couldn't retire as long as I was in the room. I told her

that she would have to get used to it sooner or later, and she might as well ommence the first night. But she said 'no', and pleaded so hard, and with such love looks that I couldn't refuse her, and at her request came history of the society. Outside on the grounds the Massey Manufacturing said the curious clerk. "You don't dered doubly certain.—Globe.

propose to sit here all night, do you?"
"No, siree! you bet I don't. Jenny promised that as soon as she got unthe horse ring there will be a keen and then ring the bell. As soon as I competition for the society's prizes as heard it I was to go to my room. I dressed she would turn the gas low, well as for the specials, as quite a will sit here, and if you will please large number of fast horses have altell me when the bell to my room Cornwalls, Ore., Sept. 6.—P rings, I will be obliged, and I will go

## DIAMOND WOOING

A NOVEL

(BY THE AUTHOR OF "GARTE.")

'It was when I was only a little girl that he first got that power over me. He knew my father was rich, and he wanted me to e promised to him for his—you know what Then my father put me in the con vent and I stayed there seven years, till we thought he had lost the power, or was dead, perhaps. But he found me in America and made me come back, and now it's worse

Why doesn't your father have him arrested and imprisoned? It can be done."
"Oh, my poor fasher! He cannot, Tom.
Do not ask me that!"
"I must ask it, Kate; remember, I love

you. Why is it, Kate?"
"My father is afraid of him, too," she said, chafing one hand with the other with a pitcous expression of pain. "If he did anything against him, he would be ruined.

My father cannot help me, Tom."
"But I do not understand.
your father done that he should be afraid of
such a scoundrel as S!urk?" I demanded

She hesitated long before answering moving her hands and head restlessly and fetching many troubled sighs. At last she laid her hand shrinkingly on mine and I grasped it firmly.
"I will tell you, Tom," she said in a fal-

tering voice, "but you know I would tell no one in the world but you. My dear papa did not do wrong himself, but there were people connected with him who did, and made the blame seem to be his. And there were some papers of my papa's which— which—oh—"

Yes, yes, I understand, darling; and Slurk stole the papers?"
"Yes—that is—no; it was worse than that, for he didn't know where the papers were kept—no one knew that but I. Tom,

ne made me sleep, and in my sleep he made me go to the place where they were, and take them out and give them to him. He made me rob my own fasher—put my own dear paps in his hateful power. I would rather have died! And paps forgave me—

ment I believe I would have shot him inhesitatingly and rejoiced in the deed. Murder would be a righteous work when brought on such as he. And if the murder were brought home to me, could I suffer in

Kate had risen slowly from her chair and was now fronting me, scanning my face and bearing with curious eagerness. She held her hands across her bosom, alternately

her hands across her bosom, alternately interlacing the tips of her fingers and pulling them free again. Her lips moved as it in speech, but no sound came from them.

I got up presently looking, I dare say, very solemn, as, indeed, I fets. Her eyes followed mine as I ross, and now we gazed straight at each other for some moments.

"I promised you that you should be freed," I said, " and you shall be. I shall be sorry to have any man's blood on my hands, but if you can be saved in no other

You do love me, indeed!" she murmured with a sort of sad exultation in her tone. "But," she added, "I cannot let you do it. I cannot lose you, even to be freed from him. It is my father's fault, after all.

"I take it upon myself," interrupted I with a dignity which may have been absurd, but which did not seem so to me at the

"But it would be mu.Jer—at any rate,

the law would call it so. No, you must not be called a murderer, Tom. But I—shey would not hang a woman—let me do it! I should love to do it!" And she spoke with a look that confirmed the words.

was treated by his valet in private than Kate was aware, but I made no allusion to this. The more I reflected upon the enter-prise, the more inclined I was to assent to it. It was wild, fantastic, unconventional; "I was wishing to speak a momens to prise, the more inclined I was to assent to it. It was wild, fanishic, unconventional; but it had importent practical murity in the world permit in the world permit in the world permit in the world of the capanie of until the world in the wor

tailed discussion of our plans. Every mo-ment that Kate remained with me increased her peril, especially if, as she seemed to think was the case, Slurk had

dispatched her bither. As to his motive in so doing, I had no difficulty in form-ing an opinion. There was little doubt that he meant to use her as an undoubt that he meant to use her as an unconscious cat's paw to steal the diamonds,
as before to purioin the papers compromising her father. Had I been asleep, the
device could hardly have failed of success.
But as Kate seemed herself not to suspect
the nature of her involuntary errand, I
would not additionally distress her by
alluding to it. It was enough that it furnished me with a sufficient pretext, had
others been wanting, for it flighing chastiseothers been wanting, for inflicting chastise ment on the valet.

Kate said, in answer to my inquiry as to the proposed time of our starting on the pionic expedition the next day, that it would probably be about eleven in the fore-

when reasons of her objection.
"Not now," she said hastily, "I hear papa coming. Wait till after breakfast and then you shall know."
We were standing at the gate of the courtward hearth of the fact ward hearth of the courtward hearth of the fact was already seated in the carriage. Slurk was on the

was in store for us during the day. He began to talk about Kohlstein, and related several ancedetes of the bandits by whom it was said formerly to have been inhabited.

"I have been up there more than once," he remarked, "and the traces of their occupation are still visible. I remember one feature that particularly impressed me—a narrow cleft or chasm of considerable doubt intermediate.

was out short by a summons to breakfast. Before I could reply, however, her expression changed again. She appeared to think intensely for a few moments, and then her face lighted up. Suddenly she caught my hand and kissed it.

"And hiss me, Tom!" she cried excitedly. "Kiss me, for I deserve at! I have thought of a way that will save us all!"

Much startled, and half fearing that the girl's mind had given way under the pressure of trouble, I was attempting to quiet her, but she silenced me by an impetuous gosture, and went on speaking eagerly and rapidly.

On this occasion Slurk waited at table, and I observed him with more than usual attention and to best with more than usual attention. He was certainly a villainous-looking character; but he appeared to be, for ressons beet known to himself, in excellent spirits this morning, a circumstance which stirred up an unwilling kind of compassion within me, reflecting what a speedy and final end was going to be put to all his possibilities of enjoyment. Vile though his life had been, it was the only one he had.

Kate likewise had the semblance of unusual gaiety, but I could see that it was On this occasion Slurk waited at table, and

oidly.

To-morrow we have planned to go to lister feigned or the result of nervous histein for a pionic. It's a great, excitement. And my judgment was justimense rook, where robbers lived hun-fied when, after breakfast, she overtook me

seemed to be plausibility in her scheme; at the worst it would be better than shooting the man outright. But would the recovery of the papers put an end to Slurk's persecution of Kate as well as of her father? Would not his power over her-remain?

"But we can have him imprisoned then, you see," was her answer to my objection, "and for fear of that he would never trouble me again. He would have been in prison long ago but for the papers."

"It certainly seems a good plats," I said, after a continued attempt to turn the matter over in my mind. "We'll ask your father over in my mind. "We'll ask your father over in my mind. "We'll ask your father opinion to-morrow,"

"Oh, he must know nothing of ii!" she exclaimed with a gesture of vehement dissent. "He would betray it. You don't know how—what a power that villain has over him. Slurk treats him like a child when they are slone. No, Tom; we must do it all curselves or it will fail. Only when it is done will dear pape get back his courage."

"I know more about how Mr. Birchmore was treated by his valet in private than Kate was aware, but I made no allusion to this. The more I reflected upon the enterprise, the more inclined I was to assant to this. It was wishing to speak a moment to this. The more I reflected upon the enterprise, the more inclined I was to assant to this. The more I reflected upon the enterprise, the more inclined I was to assant to this. The more I reflected upon the enterprise, the more inclined I was to assant to this. The more I reflected upon the enterprise, the more inclined I was to assant to this. It was wishing to speak a moment to this. The moment was rather greated and manufactured and unattractive quarters in which to carry on the surface and it is an an inclined I was to assant to this. The moment was rather greated and manufactured to the product of the produ

downward earnestly, however, my eyer, becoming accustomed to the gloom, could dimly discern what seemed to be a bostom at a depth of not more than twenty feet "It's an awful thing to do, after all!" I door came to be in this condition?" and I pulled out the loose socket as I spoke, and the screws fell to the floor. "Indeed, I did not know this!" exclaimed murmured, after a long inspection, looking

murmured, after a long inspection, tooking up at Kate.

"Are you ready?" was all her answer.

"Yes," said I, shamed by her resolution.

"Let him come."

She mounted the little ridge, and stood she, but the dismay and confucion which were but too plainly visible on her face belied her words. "You will understand, however, that a

house whose fastenings are so much out of house whose fastenings are so much out of order would not be a proper place to keep treasures in. Well, good bye, Christina. I am going to Kohlstein, and probably I sha'n's spond another night here. When you write to your brother in Paris, you may tell him that the diamonds are quite safe, though they may have been in danger."

"Will Herr Gainsborough let me say one word?"

ing tone," bring the backet here, if you please. We mean to take our luncheon or

please. W this side."

"It's too late—I have no time," returned I, with an emphasis all the more coldly contemptuous because of the secret inclina-tion I felt—in view of her youth and prettiwould probably be about eleven in the forenoon. We would, therefore, have ample
time to settle the particulars of our scheme
before the hour of accionarrived. At parting she clung to me with peculiar tenderness; nor had I seer loved her so well as at
that moment, when I looked forward to
heratisg her forever from the evil spell
that had been blighting her young life.

After she had gone, I had the curiosity to
cxamine the belt on the door. The explanation of its mysterious opening proved simple enough. The screws whereby the
sockst of the bolt had been fastened to the
door-frame had been removed, and the
holes so enlarged that they could be slipped
in add out without difficulty. Socket and
screws had then been replaced, so that the
bolt could be shot agreedily as before. But
the tecturity was only an illusion; for, the
latch being turned, a slight push would

pape coming. Wait till after breakfast and then you shall known."

We were standing at the gate of the courty yard, breathing the fresh morning air. She left me and returned to the house, whence Mr. Birchmore almost immediately itsued and sainted me with more than his usual cordiality. I wondered what his behavior would have been had be known of the transactions of the neat picks or of what

Where is Christina?" I asked him. "Where is Christina?" I asked him.
"She has gone to the town to sell eggs.
Did the Herr want anything?"
"I should like to have sent for a corew-driver, but probably I can get one on our way back," was my answer, and with that

we drove away.

In about half an hour, proceeding by un ation are still visible. I remember at a still visible. I remember a strow cleft or chasm of considerable depth, into which the old fellows are said to depth, into which the into wards the condition of the fellows are said to depth, into which the into wards the condition of the depth, into which the into wards the condition of the depth, into was the the old fellows are said to depth in the carrier in the mand the interior and it stood upon a ricing ground of shifts.

an ideal place for a robber stronghold; impregnable, certainly, to any attack save that of the heaviest modern artillery.

"We must get out and walk from here," remarked Mr. Birchmore. "There's only one way of getting to the top, and that's on the other side. I have got a touch of my the touch side. I have got a touch of my the touch side. I have got a touch of my the matics to day, and hardly think Ishall be able to do the climbing. However, that in each't interfere with you young people, of course."

I exchanged a covert glance with Kate as I helped her to descend from the carriage, and she pressed my hand and emiled. I admired her courage as much as I lamented the apparent lack of it in her father. The horse having been unharnessed and tethered where some cool grass grow beside a stream, we struck off across the sandy pooled of the latt accurred.

In an Ottawa Court. a stream, we struck off across the sand upland, Slurk carrying the big basket, Mr. Birchmore walking with a rather feeble step near him, and Kate and I in front. It was an even hotter day than yesterday and the tramp was a wearisome one. By the time we arrived at the foot of the Stein we were quite ready to rest a few minutes in the shadow of the rock, for coolness and

CURRENT TOPICS

An English engineer, Mr. Harry Footnar, has been investigating the subject of abrasion and corrosion of steel rails. He found the loss of material not to be in pro-portion to amount of traffic, and that the corrosion on the bright or wearing surface of the rail, was four or five times mor rapid than on the body of the rail. GERMAN photographers have succeeded i

photographing a projectile in the ccurse of its flight, and some of these photographs show the head of condensed air which precedes every shot. It is said to be this "head" which prevents even skilful riflemen from hitting an empty egg shell when hung on a long thread. The air blows the shell out of the way of the bullet. HALFPENNY fares on the Landon under ground railroads are predicted for the near

future. It appears that some of the subur-ban London tramways have tried the (x-periment of low fares and report satisfac-tory results. The Southwark and Deptford Company report that in the past half-year they carried 134,000 passengers at a half-penny each, and 2,322,000 at a penny each. The average fare overhead was only 101d.

MAYIN ADAMS, when the express Dusiness was in its infaney, had an office and two horses in New York. One of these horses was a fine, fast animal and the other an old, broken down nag. Packages that were to be delivered immediately he sent orthodid the fast horse. Of goods that disn't have to be rushed he would say: "Leave them for the old hose." In expressions. with her graceful figure silkonetted against the blue heavens. I, below, turned up the ouffs of my sleeves and buttoned my coat them for the old hose." In every express cffice to this day there is an "old hose" room, where undelivered and unclaimed packages are kept.

Mormon Blood Atonement

Kate Field insists, in an article in the September "North American Review," that the Mormons have both preached and practiced blood atonement—the shedding of human blood—what the rest of the prople of the United States would call murder—and that in certain instances, like that of the Mountain Meadow massacre, they have practiced that core of murder on a large scale. She quotes Heber C. Kimball as

preaching thus:
"If a man has done wrong, toll him to do "If a man has done wrong, tell him to do right for the future and do a good work, and peradventure God will remit his sins and not require any more than a lamb, a pigson, a calf, or something of that kind as an aborement. But it will require a great many beifers for some of you, and you will fied your house left unto you desolate."

Miss Field says that, on Sunday evening.
Ostober 12.b., 1884, Elder Penrose, editer of the Morrose Church ware, the Description of the Morrose Church waren. Ottober 12th, 1884, Edder Penrosc, editor of the Mormon Church organ, the Describ News, arose in the Twelfth Ward Messing House of Sala Lake City and preached a sermon on "Blood Atonement." He admitted that it was a principle of his religion, but that the time had not yet some to carry it out! The edder declared that it only applied to such as had icined bat it only applied to such as had joined

the Church and apostatized.

Miss Field's article is responsible, also for a mest horrible narration about a Mrs Mansfield, who had revealed certain Mor on secrets. Her two sons told the story "Brown took us to a place where some-thing was thrown over our faces. Then we were conducted down stone steps into a room lighted with candles. There they brought poor mother almost naked. We were asked whether she had told us about the Endowment House, and we said 'No,' but Brown contradicted us. They cut mother's shroat and disemboweled her be-fore our eyes, and then told us to leave the Cerrisory in twenty-four hours, or we'd be

reated in the same way."
If these statements are true, Brown and the Moranos evidently need looking after, for other things as we'l as a polygamous

Buddhism gives no explanation of the beginning of all things; its starting point is that the world and men exist and that overything is subject to change. Everything will, if taken in time, effect permane. the little wheel of a bioyole. The theory is moves toward either destruction or renova-that the machine will present so little re-tion. Nirvana—" perfection or salvation" cases of chronic throat, bronchist tion. Nirvana..." perfection or salvation." oaces of chrois the state toward which the righteous lung discases. tend. For the theist there is the absorp-tion of the individual in God; for the atheist absorption in nothing. A human life is not a separate entity; it is a portion, so to speak, of the universal life. The life that sinceth is shall die, says Buddhism; it shall sink through lower and lower forms until it reaches annihilation. The right. one life, rising ever upward, attains at length to Nirvana, and is reabsorbed in the Divine Essence. There is ever-increasing joy in ever-increasing wisdom, and after one life is ended there shall be another, ever accending the scale of holiness, stretch-ing up to beatific and illimitable heights. This was transmigration; not of souls— for Gautama held that there was no such thing as a soul—but of life; each indi-vidual, according to the good or bad use he makes of his present life, becomes after death another individual of higher or lower character. And yet it is almost an error to say that Buddha taught absorption into God as the stage of existence beyond Nirvans; for it does not appear that Buddhism acknowledges a God. Perfection can go no further; it is the vanishing point of the human landscape.

Three strange fish made their appearance in Placentia Harbor, Nfid., a few days ego in Placentia Harbor, Nfld., a few days 20, much to the surprise of the inhabitants, who had never set eyes upon the like of them before. Armed with a harpoon and a rife, John F. Burke, aided by his neighbors, succeeded in killing one of the monsters. It is twenty feet in length and five feet in diameter. In color it is nearly all black with one large white stripe on each side. Its body is covered with a coat of feat seembling whole fet two and a half of fat resembling whale fat, two and a half inches thick. The strangest thing about the creature is its very large teeth, which fit so closely when its jaws are shut that carcely any water penetrates through

dress, eply to the Speech from the Throde Greed To-A Hot Time

A last (Friday) night's London cable says: In the Bunse of Commons this attention, Lord George Hamilton, First Lord of the Admiralty, replying to interrogations, denied that any agent of the United State, had access, through the firm of William Armstrong & Co., to the designs for naval vessels suder confidential consideration by the British Government.

Lord Randolph Churchill moved that precedence be given to the Supply Bills.

Mr. Dillon moved Mr. Parnell's amendment urging that the consideration of the situation in Ireland admirted of no delay. Sir Wm. Vernon Harcourt pointed out

Six Wm. Vernon Barcourt pointed out that if the amendment should be carried it would be useless, as the Opposition was powerless to compel the Government to introduce new measures now; therefore he would support Lord Randolph Churchill's

Wm. Harcourt for the attitude he ha taken, but it was only by persistent applica-tion of the principle of "Try, try again; that the Parnelistes had ever got anything He deried that the Parnellites intended to obstruct the business of the session. He himself was drafting a measure giving leaseholders leave to apply to the courts to fix fair rents, and would advise the withdrawal of the amendment if the Government would give facilities for the introduc-tion of such a Bill during the present

Lord Randelph Churchili replied that the Government had already stated is intension in regard to the Land Bill. If Mr. Parnell desired to describe in a fuller manner the way in which he wished the question to be dealt with the Governmen would undertake to give a special sitting for that purpose before the close of the Bossion. b John Mericy expressed bimself an ein

corely satisfied with the Government's Tio Mr. Parnell's amendment was then with

drawn. Mr. Labouchere moved an amendmen declaring that Lord Randolph Churchill's speech in Balfast was calculated to provoke breaches of the law, and ought to be withdrawn. He insisted that Lord Randolph Churchill was morally answershie for the killing and wounding of so many persons in Belfast.

Lord Randolph Churchill described the

Major Saunderson moved an amendment to Mr. Labouchere's amendment denounc-ing the presence of British subjects at the recent Irish Convention in Chicago, calling attention to the statement freely made that some Commoners avowed that they had dustion should be severely consured.

Mr. T. P. O'Connor attacked Lord Ran-

dolph Churchill for shirking a reply to Mr. Labouchers. He taunted him with having climbed into power on a ladder of obstruction. When there was danger of a war with Russia, continued Mr. O Connor, the rancor of Lord Randolph Churchill's tongue was not softened by the prospects of a sacrifice of thousands of lives, and he did everything in his power to thwart the efforts of the Government, which was striving to maintain peace. Oburchill's words had done more to estrange and fester haved between England and Ireland than any cocurrence in the last two years. (Cheers.) Mr. Saunderson's amendment was re

icoted without a division. Mr. Labouchere's was rejected by a vote of 202
The House then agreed to report

#### THEY SAW THE SERPENT.

The Monster Behaving Very Outrage

A Rondous (N. Y.) despatch says: The sea serpent which was witnessed disporting itself in the waters of the Hudson River, near Kingston Point on Sunday, has again been seen. Captain Fisher, of Rondout, went to Kingston Point Wednesday, and the man in charge of the wreck of the steamboat Daniel Drew told him that he maw the serpent the night previous. It was making its way north with its head ex-tended about five feet out of the water. Is stood from its course long enough to give shase to two young men who were rowing in a small boat. They reached the shore in safety, but were terribly frightened. The monster, as the watchman describes it, grew furious when is saw the young men It lashed the water inte foam with its tail, which seemed about 78 feet distant from the head. Its head wa as large around as a flour barrel, and it eyes, of greenish hue, looked "devilish." Before starting up the Hudson River again is rquired from its mouth a stream of foaming stuff resembling a long shaving

from a pine plank.

Capt. Conkling, of the propeller John H Ourdets, also saw the streem. He gave it the "right of way" in the channel. It was seen this morning abreast of Fastous ice-house. A number of persons saw the serpent, and their descriptions of the monste do not vary in the least.

#### CHRISTIANS KILLED.

Chinese Crusade Against Christians — Horrible Story.

A Shanghai despatch says: Advice from Ching-Too-Foo, the chief of y of the Province of Szechnen, state the natives of the eastern part of the province and those of northern Coohin China have risen against the Christians, and are massacring them and destroying property. This source persecution is attributed to the imprudence of the English and American missionarier, In Cochia China alone fitty Christians were killed, their houses burned, and their farms destroyed. In Szechuen a general massacru of Christiana is reported to be in progress said whole villages occupied by Ohristians have been destroyed, and that all lands occupied by professors of that faith are being devastated. The apostolic vicar's residence in Szachuen has been burned to the ground. The foreign consuls barely Szechuen with thei lives. No efforts have been made to sup-press the disorder, and so far as known it continues unsuppressed.

Married in Spite of the Horsewhip. Says a despatch from Auburn, N.Y.: The 19 year-old daughter of a wealthy Etna farmer named Rhodes, and Fred Coutant, a prosperous young farmer living near Freeville, were lovers. The young man had an excellent regulation, but his visits to the Rhodes' home were without the approval of the girl's father. On Thursday last, while shopping in Etna, Nhodes missed his daughter and found that she had taken a train for Freeville, a few miles distant. He pursued her with his team and found her in the village store talking with Coutant. She refused to return home, having made promises to make an excursion to Ithica next day, and he then tried to carry her to his wagon Failing in this he took a horsewhip and began to best her about the shoulders, when Coutant interfered, and after receiv-ing several blows from the father, seized the whip and broke it, amid the applause of the villagers. Sunday morning the young woman left home, saying she would never return, and went to the house of an aunt near by, where she was married to Coutant a few hours later. Rhodes, in deference to public sentiment, did no

HOW SHE DID IT.

the Surprise Party Which the Cruise Capture.

A Charlottetown, P.E.I., despatch says : A Charlottetown, P.E.I., despatch says: Following are the particulars of the seizure of the Highland Light. On Tuesdaysevening, observing that a fleet of about 40 schooners had sailed into Campbell's Cove and anchored within a short distance of East Point, the captain of the Houlette waited until after sunset, then quietly slipping among them under cover of the darkness lay to all night. In the morning his presence was unpoticed, the fishermen darkness lay to all night. In the morning his presence was unnoticed, the fishermen thinking him one of their number. It was just before daybreak, and soon, through the smoke and fog, signs of life were observed on the fishing fleet. One after another the sails were hoisted, and the vessels, after standing a little further out, hove to and prepared to fish. No sooner were operations commenced than the cutter swooped down alongside the nearest American, who had just got under way. The report of a had just got under way. The report of a gun from the deek of the Houlette went booming over the water, and the American at once hove to and awaited the coming of at once hove to and awaited the coming of the boarding officer. Captain Lorway boarded the craft, left a prize orew of four men and an officer in charge, ordered a similar number of the schooner's crew on board the cruiser, and then both stood in toward Souris. This sudden and unex-peated seizure of the schooner fell like a thunderbolt among the vessels of the fleet. Immediately every jib and mainsail was hoisted, and the whole fleet turned and followed the cruiser and prize in prohoisted, and the whole fiest turned and followed the cruiser and prize in procession as far as Souris, thinking that it was to that port the cruiser was steering. In this they were mistaken, and intentionally misled, for the cutter at once turned for Georgetown, leaving the disconsolate Americans behind in Souris harbor, where they remained all night. Capt. Lorway, on landing, immediately communicated. they remained all night. Capt. Lorway, on landing, immediately communicated the facts of the seizure to headquarters, and it is said that Captain Scott will arrive a Georgetown to-night. The schooner was to be stripped tc-day. The Highland Light is a ficely modelled, smart-looking schooner of 87 tone, built at Essex, Mass., in the apring of 1895, and together with her seine boats and fishing gear cost about \$9,000.

he Embankment Used as a Sleepin Place by Hundreds of Outcasts.

A London cablegram says : The atter amendment as a vain attempt to set a het in of the Mansion House Folice Court in the sight of the bird. He treated with has been drawn to the fact that the Victoria Embankment and the waste lands attempt, and flatly refused to respond to adjoining the Blackfriars Bridge have beadjoining the Blacktriars Bridge have become the nightly refuge of scores and even
hundreds of the poor and wretched, who
sleep either on the seats or huddled
together on the bare ground. This mornifig, at 2 o'clock, there were at least two
hundred poor outcasts thus sleeping in the
open air. Every one of the public seats
along the embankment was full, and
there are about a score of them,
each holding six persons. The
occupants were mostly men, but a
few were women. The waste ground
referred to above is a plot of nearly one
hundred yards rquare, adjoining the new
city Science Schools. It is partly covered
by timber, but the larger portion is uncocupied. All round the wall men and
women and even children were stretched
at full length on the naked earth or huddled close together in the corners aeleep. died close together in the corners asleep.
They appeared to be of all ages, some old
and decrept; but the majority youthe and
men in the prime of life, while a sprinkling were women and children. In one sheltered spot swenty-one men and boys lay close together within almost as narrow a space as it would be possible to pack them. They seem generally to have learned that paper is a slow conductor of heat and cold, a number of them being wrapped in the remnants of newspapers.

#### A FEARFUL DEATH.

Nine Hungarians Roasted Alive

Burning Shanty. Burning Shanty.

A Williamsport (Pa.) despatch says:
Word has been received here of a sickening
calamity, which occurred about midnight
last night, five miles and a half above
Sonestown, on the line of the Williamsport
& North Branch Railroad, where a large
number of Hungarian laborers are employed on an extension of the road. A
shanty, in which over twenty of these men
lodged, caught fire last night from the overturning of a stove while the men were door, but seven succeeded in getting out.

The others were left to their fate, and were roasted alive in the burning shanty their observed termines were afterwards found in the ruins. The men who escaped were so panic-stricken that they made no efforts to save their companions. The remains of two dead bodies were removed

A report was also received here that Hungarian named Joseph Jehenski was murdered, and his body hidden under a shanty on the same railroad at Elk Lick short time since. When the shanty was torn down portions of human remains were found. The men who occupied the shanty have disappeared.

#### STARTLING DEATH

Of Sir Alex, Campbell's Second Son

A last (Friday) night's Ottawa despe says: The city was startled this evening by a report that Archibald Campbell, second son of Sir Alex. Campbell, had committed suicide by shooting himself. On inquiry it was ascertained that about halt-past 5 o'clock he was found dead in his room at his father's residence by a servant who went to call him to dinner. Early in the day the servants heard a noise in Archi-bald's room, but paid no attention to it, as baids room, but paid no attention to it, as the young man was of a retiring and melancholy disposition, and would remain secluded for several days at a time. Whether the shooting was accidental or premeditated can only be conjectured, but premeditated can only be conjectured, but a revolver with one chamber discharged was found near the body of the deceased. Sir Alex. Campbell is overwhelmed with grief. The young man was about 24 years of age and passed his final examination as a barrister last autumn, having studied in Teronto. About two months ago he was appointed assistant reporter to the Supreme Court here, in order that he might become familiar with practice in that become familiar with practice in that court. It is not likely that any inquest

CONFLAGRATIONS IN THE CITY

Reveral Other Shocks-The Wave in Oth

THE TORONTO SHAKE-UP.

The compositors of the News and Courier decline to work to night, expecting a fresh shock of earthquake, and the paper cannot therefore issue to morrow. The following article was prepared for publication in the News and Courier, and is telegraphed almost-News and Courier, and is telegraphed almostin the writer's own words: Necessarily
the description that can be given of the
disaster which has befallen our city consusts in the narration of the experiences
and observations of individuals, and the
subject being the same and the experiences of all being nearly alike, the story
told by one execul observer may well stand
for a hundred others, with slight variations.
While engaged in his must duties in the While engaged in his usual duties in the second story of the News and Courier office at the time of the first shock, the writer's attention was vaguely attracted by a sound which seemed to come from the office below, and which was supposed for a moment to be caused by the rapid

as an iron safe or a heavy laden truck over the floor. Accompanying the sound there was a perceptible tremor of the building, not more marked, however, than would be caused by the passage of a street car or a dray along the street. For perhaps two or three seconds the courrence excited no surprise or comment. Then by swift degrees, or, perhaps, all at once—it is difficult to say which—the sound deepened in volume, the tremor became more decided, the ear caught the rattle of window sashes, gas fixtures, and other loose objects. The men in the office, with, perhaps, a simultaneous flash of recollections of the disturb-BOLLING OF A HEAVY BODY, taneous flash of recollections of the disturb ance of the Friday before, glanced hurriedly at each other and sprang to thei startled questions and answers, WHAT IS THAT? EARTHQUAKE?

And then all was bewilderment and con-fusion. Then the long roll deepened and spread into an awful roar that seemed to pervade at once the troubled earth and the still air above and around. The tremor was a rude, rapid quiver, that agitate the whole lofty strong-walled building a though it was being shaken by the hand o an immeasurable power, with intent at tear its joints acunder and scatter its stones and bricks atroad. There was no intermission in the vibration of the mighty subterranean engine. From the first to the last it was a continuous jar, only adding force at every moment; and as it approached and reached the climax of it manifestation, it seemed for a few terrible seconds that no work of human hands could be a seemed for a few terribles on the force of the fo seconds that no work of human hands could possibly survive the shocks. The floors were heaving under foot, the surrounding walls and partitions visibly swayed to and fro, the crash of falling masses of stone and brioks and mortar was heard overhead, and without the terrible roar filled the ears and seemed to fill the mind and heart, dasing perception, bewildering thought, and for a few panting breaths, or while you held your breath, in dreadful anticipation of immediate and cruel death, you felt that immediate and cruel death, you felt that

WAITED FOR THE END. as the victim with his head on the blo as the victim with his head on the block awaits the fall of the uplifted axe. It is not given to many men to look in the face of the Destroyer and yet live, but it is little to say that the group of strong men who shared the experience above faintly described will carry with them the recollection of that supreme moment to their dying day. None expected to escape. A sudden rush was simultaneously made to endeavor to attain the open air and first to a place of safety, but before the door wa reached all reeled together to the totterin wall and stopped, feeling that hope was i vain; that it was only a question of deat within the building or without, to be burie by the sinking roof or crushed by the topping walls. The uproar slowly die away in seeming distance. The earth wastill, and oh the blessed relief of tha tillness! But how radely the silence we broken! As we rushed down the stairwa

CRIES OF PAIN AND FEAR. the prayers and wailing of terrified women and children, commingled with the hoarse shouts of excited men out in the street. The sir was filled to the height of the houses with a white cloud of dry, stifling dust from the lime and mortar and shattered maconry, which, falling upon the pavement and stone roadway, had been reduced to powder. Through this cloud dense as fog, the gaslight flickered dimly, shedding but little light, so that you stumbled at every step over the piles of brick, or shedding but little light, so that you stum-bled at every step over the piles of brick, or became entangled in the lines of telegraph wires that depended in every direction from their broken supports. On every side were hurrying forms of men and women, bareheaded, partially dressed, some almost nude, and many of whom were crazed with fear or excitement. Here a woman is sup-ported half fainting in the arms of her husband who vainly tries to soothe her, while he exprise her into the open space at while he carries her into the open space at the street corner where present safety seems assured; there a woman lies on the pavement with upturned face and outstretched limbs, and the crowd passed her by for the time, not pausing to see whether she be alive or dead. A sudden light flares through a window overlooking the street. It becomes brighter and

THE CRY OF FIRE resounds from the multitude. A rush is made towards the spot. A man is seen doubled up and helpless against the wall. But at this moment somewhere out at sea over head, deep in the ground, is heard again that low ominous roll which is already too well known to be mistaken. It grows louder and nearer, like the growl of grows louder and nearer, like the growl of a wild beast swiftly approaching his prey, and is forgotten again in the frenzied rush for open space where alone there is hope of security, faint though it be. The tall buildings on either side blot out the skies and the stars and seem to overhang every foot of ground batween them. The shat-tered cornices and copings, the tops of their groaning walls, seemed piled from both aides to the centre of the street. It seems that a touch would now send the shattered masses left standing down upon the people below, who look up to them and shrink

THE TREMOR OF THE EARTHQUAKE AGAIN passes under them and the mysterious reverberations swell and roll along like some infernal drum beat summoning them to die. It passes away, and again is experienced that blessed feeling of deliveran from impending calamity. Again, far along the street and up from the alleys is heard the chorus of wailing and lamentation which, shough it had not ceased, was a special report from Mount Pleasant, pounds when scarcely noticed a moment before. It is a dreadful sound, the sound of helpless, the German Church, which on Tuesday one month.

together as

horror-stricken humanity, old and young; horror-stricken humanity, old and young; the strong and the feeble alike, where all are so feeble, calling for help from their fellow-oreatures and rassing their anguished voices in petition to heaven for mercy, where no human aid could avail. It is not a seene to be described by any mortal tongue or pen. It is not a seene to be forgotten when once it has been witnessed, and when the witness has shared all its dangers and feels all its agony.

NO THOUGHT WAS GIVEN TO TREASURES No THOUGHT WAS GIVEN TO TERRURES left behind in the effort to save life. Until long after midnight the streets were filled with fugitives in sight of their homes. Through the long hours that followed few eyes were closed in sleep. Never in any city, in any land, did the approach of dawn appear so beautiful and welcome as it appeared to the thousands of people who hailed the opening day here in the midst of the countless wrecked homes in this thrice-scourged, but still beautiful city.

Owing to the demoralized condition of everything here it is impossible to give

everything here it is impossible to give correct facts further than this. The number of casualties has not yet been ascer-tained. Probably from 30 to 40 were killed and over 100 injured. The loss to property will probably reach eight to ten million dollars. Three-fourths of the buildings in the city will have to be rebuilt.

11.50 p. m.—Another shock has just
passed over the city, rather more severe
than any since last night at 9.55, knocking down several houses.

righted and was hurled with a roar as of a discharge of artillery over to the west, and finally subsided on the track and tooks from the earthquake here last night and up to 5 o'clock this morning. The first shock was fearful and houses were shaken as though made of pasteboard. It seemed as if every thing must toppte. The rambling in the earth was loud and horrifying in the earth was loud and horrifying in the extreme. Clocks stopped, bells were rung, and damage done to some buildings, principally by toppling chimneys. Two rooms in the Governor's mansion were wrecked. There were numerous cases of nervous prostration. Two shocks were felt this morning. The tremor of the earth made pedestrians stagger.

PAST EARTHQUAKE RECORDS.

PAST EARTHQUAKE BECORDS. PAST EARTHQUAKE RECORDS.

During 1885 there were recorded the following earthquakes in the United States and Canada: Canadian Provinces, 8; New England, 5; Atlantic States, 9; Mississippi valley, 3; Pacific slope, 34; total, 59. During the 12 years, 1872 to 1883, there have been recorded in the United by the states and public squares had been filled last night, the inhabitants suspended overcoats, bedquits, etc., from the fences over the side walks and thus passed the night. Many enjoyed repose under open umbrelles, the States and Canada 364 earthquakes, Many of these disturbances were so slight as to be unperceived by the majority of people. The list is more of mplete in the densely populated and frequently shaken Atlantic lope than in either the seldom shaker Mississippi valley or the sparsely populated Pacific slope. The Earthquake in Toronto.

A student of McMaster Hall writes: waited to day for some account of the earth quake having been felt in the city. Falin to see it in any of the papers, I conclude to send you a brief account of my experence. I occupy rooms on the fourth flat o writing at a table when all at once I felt dizziness, and the table and floor seems to be going from under me with a rolling wave-like motion. The gas jet that hangs from the ceiling of the room, also started to vibrate through a space of about six inches; likewise a booksase that stood on a table behind me, swayed to and fro so as to strike a picture that hung by its side. This lasted for some time, until I started for another room to get two stu-dents to come and see what was going on. When on my way I met them com for the same purpose, there being but three of us on the flat. They returned with me, and we compared our experiences and I found that things in their room had been disturbed the same as they were in mine, and they also experienced the same feeling of dizziness. We concluded it was an earthquake, and announced it as such a the breakfast table this morning; but som who were asleep at the time thought it was only our imaginations. But we said, "Wait, you will see it in to-day's papers." SHOCKS ELSEWHERE IN CANADA

Despatches from London, St. Catharines and Petrolez state that shocks were felt in those places on Tuesday night.

A Charleston, S. C., despatch says: 12.30 p. m.—People are just beginning to pluck up courage, and efforts are being made to clear paths through the streets for the passage of vehicles and pedestrians, and the city once more begins to show some signs of life.

The list of the dead recognized and reported up to 11 a.m. foots up to sixteen, but the search has only commenced. The list of wounded will go into the hundreds. Despatches from London, St. Cathari

Scarcely a building in the city escaped injury. The damage is estimated at njury. The damage is estimated a 5,000,060. The official total of deaths is thirty-three the wounded will probably number 100. Business is still suspended, the whole attention of the people being given to providing for the refugees and making their residences sale. Bricklayers have adenidences sale. Drivers, ranced their rate to \$6 a day. residences safe.

There were shocks last night at 8.30, 11.50 p.m., and 5 a.m.; all were light. Confidence is gradually returning, but much apprehension is still felt. apprehension is still felt.

Specials from points in South Carolina
ranging from the extreme northwest to the
sea coast report severe shocks of earthquake, with more or less resulting damage o property, though without loss of life so ar as known.

was perfectly dry sand, is nowfull of fresh water. Near Shell street there is a cabin occupied by a colored man that is completely surrounded by yawning chasms extending through the earth's surface for ten feet and over. All around these are sinks of fresh water and masses of mud with queer-looking soft substances that have never been seen before. It is contended by many that the mud and other substances found around the village are volcanic matter.

and when the witness has shared all is dangers and feels all its agony.

Occurred at seven minutes of 10, as was indicated this morning by the public clocks, the hands on all of which had stopped at that fateful hour. The second shock was fels eight minutes later. As it passed away the weiter started homeward to find the scenes encoted on Broad sixeet, around the News and Courier offices, repeated at every step of the way. All the way up Meeting etreet, the Broadway of Oharleston, the road was piled with debrie from the tops of the walls. At Mann square, oorresponding exactly with Union square, New York, a great crowd had collected as even the edge of the wide spaces embraced in it could not be reached by the assers bluildings in the event of their fall. From this crowd, composed of men, women and children of both races, arose incessant calls and cress and lamentations, while over the motley, half-dressed throng was shed the lurid light of the configgration, which had broken out just beyond the equare immediately after the first shock, and had now wholly envised the work of their content of the configgration, which had broken out just beyond the equare immediately after the first shock, and had now wholly envised the configuration, which had broken out just beyond the equare immediately after the first shock, and had now wholly envised the configuration, the people on the stream, and the awful significance of the earth quake may be most fully appreciated parhaps when it is ead that with the tremendous fires blazing up all at once around them, and threatening the city with total destruction, the people on the streams of the colored people everywhere were load and unessening in their deelamstions of alarm, in the stinging of bymas and inferent papeals for Gold's mercy. In the residence parties of the them that were left standing were rent seunder in many cases from the colored people everywhere were load and understance in the colored people everywhere were load and understance in the colored people were the colo

Near Ten-Mile Hill a nearly fatal accident occurred on Tuesday night. The down Columbia train jumped the track. The engineer, Burns, and the fireman, Arnold (colored), were badly injured by the tremendous leap which the train took in the dark under the unseen influence of the shock that dismantled the road. It is said that the earth suddenly gave way and that the engine first plunged down the temporary declivity. It was then raised on the top of the succeeding undulation, and having reached the top of the wave a sudden swerving of the force to the right and left having reached the top of the wave a sudden swerving of the force to the right and left hurled the till-fated train down the embankment. The train at the time of the earth quake was running along at the usual speed, and when about a mile south of Jenburg it encountered a terrible experience. It was freighted with hundreds of excursionists returning from the mountains. Suddenly the train appeared to have left the track and was thrown up into the air. As suddenly it descended, and was flung first violently over to the east. Then there was a reflex action, and the train righted and was hurled with a roar as of a discharge of artillery over to the west,

The more aristocratic people camped in their own yards. The colored people say they will not return to their homes until at last another night has passed, and they may be seen taking their coffee and eating their dry bread beside the places where they sleep. On the whole, however, it may be said that confidence is returning, and should there not be a revisitation of the earthquake Charleston will be in her usual bushle of business within twenty-four hour although inconvenience and delay will be experienced for months to come.

A MESSAGE FROM QUEEN VICTORIA " Balmoral, Sept. 3 To the President of the United States: "I desire to express my profound sympley with the sufferers by the late ear uakes, and await with anxiety fuller inte

igence, which I hope may show the effects to have been less disastrous than reported. (Signed), THE QUEEN." (Signed), The Queen."
Charleston, S. C., Sept. 3, midnight.—
A charp shock of carthquake was felt just
before 11 o'clock to-night. Two buildings
fell. A white woman, name unknown, was
killed by a falling wall this evening.

#### THE OLD, OLD STORY.

in Unsuspecting Girl, Betrayed and Abandoned, Attempts Her Own Life. A Montreal despatch says: Susie Chantry, a young American girl, was brought before the Police Magistrate here on a charge of attempting to commit suicide by shooting herself with a revolver. Her defence was that she had eloped from her home in Adrian, Michigan, with a young man named Edward Arlington, with whom she had heen acquainted for some time on she had been acquainted for some time, on promise of marriage. After remaining a promise of marriage. After remaining here three weeks the secondrel told her she had better return home as he was a married man with a wife and child living in the States, and he had made up his mind to return to them. On hearing his declaration the girl pulled out a revolver on the street, which she had taken from her deceiver, and presented it at fier head, but he caught her arm and took the pistol away. He then called a cap and told a away. He then called a c ab and told a coliceman to take her to the station and decamped. On the accused promising the magistrate to return home she was dis list of wounded will go into the hundreds.

A man named Roberts, for assaulting Hiss Ella Graham, has been sentenced at Fredericton, N. B., to a year's imprison-ment, and at the end of nine months to receive twelve stripes. The whip handle is to be twenty-four inches long, and half an inch thick. But should the jail authorities at the end of nine months certify that the prisoner's conduct has been good the Crown may remit the whipping. Roberts' wife died on Monday, it is said, by grief' over her husband's position. She leaves a family of five young children.

Baille, and in succession to the late Sir Bailie, and in succession to the late Sir George Harrison, M.P., he was elevated to the chair of Chief Magistrate.

MARRIED WOMEN'S NAME 4 Keeplog the Maiden Name in Addition

It is becoming the fashion among married ladies to keep their maiden name in addition to their husband's surname. This practice has long been in vogue among actresses and other ladies who have made a reputation for themselves before marriage, the benefit of which they are unwilling to loose. The names of Mes dames Goldschmidt-Lind, Trebelli-Bettina, Lemens-Sherrington, and hosts of others, dames Goldschmidt-Lind, Trebelli-Bettins,
Lemens-Sherrington, and hoese of others,
will readily occur to every one as cases in
point. But until lately the fashion was
confined to actresses, singers, authoresses
and other ladies, whose loss at marriage
through the change of name would have
been so substantial a pecuniary one that it
might be estimated in thousands of pounds.
It is only now that ladies in private life
have begun to realize the fact that their
own loss in interchanging their name, and
thus, to a great extent, losing their
identity, is quite as real and quite as
important to themselves as to
actress, although possibly no one
would go so far as to say it had a monetary
value. When a girl marries, it is usually
only the favored few who are present at
the wedding breakfast who really manage
to remember her new name and addreer.
How often we hear the question: "What
is Mary So-and-so's name now, and where
does she live?" How often the answer
brings the rejoinder: "Darr me! we does she live?" How often the answer brings the rejoinder: "Dear me! we must have been quite close to her the other day; what a pity we did not know, we should have liked so much to go and see her. Hence the present movement on the part of married women. It certainly will have many advantages if it becomes general, not only to the ladies themselves but to all their friends and acquaintance

our to all their friends and acquain-ances, especially if the double surname comes, in course of time, to be the distinguishing mark of a married woman, for, as it would form part of a lady's ordinary signature, which the title of Mrs. and Miss does not, many a correspondent would be relieved from the harassing doubt which now besets him as to whether he is to address his reply o Mrs., Miss or Esq.-London Society.

A Redeeming Feature

An Estelline man quite prominent in political circles was trying to sell a horse when the prospective purchaser said:
"Is the animal first-class in every pect ?"
"Yes, sir."
"But I hear that it is sometimes taken

with eick spells. " Yes, that's a fact." " And still you recommend

once in a while is what I prize him for the

Worth more on account of that? "You bet he is. He's sick about twice a month and it would do you good to see the gure enjoyment we get out of it. He'll lay down, and sometimes there'll be more than a hundred men come round in less than 10 minutes—all the town officers and candi-dates and members of the Sonool Board dates and members of the Sonool-Board and other prominent citizens—and we'll all stand round and talk 'bout what's best to do, and try one thing and another thing, and I'll let some of my warmest friends hold his head up while I go down to the drug store. I tell you that hofte his made me popular in this town. I don's care anything about selling him, and 'less you want to give me my price you can't have him. I guess we can't deal any way, as I see you're one of those kind of men that don't care whether they make friends or not."—

Estelline Bell.

The home of the late Sir Moses Monte fiore at Ramsgate was bequeathed to his nephew, Mr. Sebag-Montefiore, who has nephew, Mr. Sebag-Monteflore, wheen expended \$60,000 in beautifying it. Lord Cseil is conducting evangelistic meetings in Napanee.

A small boynamed Delaney was drowned while bathing in the Price River, near Belle River, Ont., on Thursday. His body was recovered. A special meeting of the Toronto Board

of Trade was held yesterday, at which the gratuity scheme was organized by the appointment of three trustees. Evidence at the Long Point murder trial yesterday related mainly to the identifica-tion of the body and the relations of the prisoner with the deceased.

A brother of the alleged murderer Sproule wants the United States Government to interfere in the case, which is now before

#### AN ATTEMPTED ARREST.

Policeman and His Prisoner Ch Down a Cliff Fifty Feet High.

A Pittsburg, Pa., deepatch says: A sensational and probably fatal accident occurred about 11 o'clock last (Saturday) night. Officer George Woods and a man named Edward Hennig, whom he was arresting, fell over a cliff to Locust street and are not expected to survive the injuries they received. Hennig had engaged in a street quarrel, and when the officers arrived he took to his heels. Woods gave chase and finally drew his revolver and shot at the fugitive, the ball taking effect in Hennig's left forearm. Hennig stopped and stood at bay just on the brink of a precipice fifty feet high. They clinched, and after a short, hard tussle both men disappeared. When the other officers arrived no one was in sight, but a faint ery from over the cliff attracted their attention. Looking down the two men were seen stretched motionless at the bottom of the cut. Woods was unconscious and both were terribly injured. Hennig is resting Down a Cliff Fifty Feet High out. Woods was unconscious and both were terribly injured. Hennig is resting easier to-night, but Woods is suffering in-tensely and may die before morning.

A London cable says: Mr. Samuel Mor A noncon cable says: Mr. Samuel mor-ley died at midnight on Saturday in his 78th year. He was a prominent champion of Protestant Nonconformity, and made many liberal donations to that cause, more especially for the purpose of building chapels. He was deeply interested in the work of the Home Missionary Society, and work of the Home Missionary Society, and was instrumental in introducing, in con-nection with that body, the services of lay evangelists and colporteurs. Mr. Morley evangelists and colporteurs. Mr. Mor entered political life in 1865 as an advan Liberal and represented Nottingham for about a year, when he was unseated on petition. He subsequently ran for Bristol, but was defeated; but at the general elec-tion of 1868 he was returned for that constituency, which he continued to represent until his withdrawal from public life last

Sault Ste. Marie is beautifully situated on the St. Mary's river, which is the national boundry between the United States and Canada, at this point dividing Michigan from Ontario. Os the southern bank is the American town or rather city as the people call themselves, with a population of about 3,000; opposite is the Canadian village We have been overrun with job with a population of 500 or 600 peowork during the past two weeks, havwork out in time During the week no fine court house and jail, and also the less than 9 lots of lithographic posters district registry office, and four fine slopes back for a distance of one, and possible until after the Unionville magnificent site for a city, which the inhabitant tells you is only a question Wess Sidewalk.

Messrs A. Parish & Son, having urnished the plank for a new side-tralk in front of their premises on prices. At present the Sault has no railway communications, the Algoma and a gang of men have put down a branch of the C.P.R., which is within 85 miles of the Sault not being in putting on the necssary repairs on the Algorna Mills branch next summer.

> The greatest resource of Sault Ste. Marie is a water power, unrivalled on this continent. Down the St. Mary river which is here about one mile wide, comes all the waters of Lake Superior on their way to the ocean. In 500 yards this immense body of vater falls a distance of 16 feet, giving power enough to drive more machinery than can ever crowd its banks. As yet this power has never been developed, except at the U.S. canal, owing to the lack of transportation tacilities. A company has lately been formed in Michigan to utilize the water power, and competent judges say that it can be developed on the Canadian side of the river at one half of the cost that the Michigan side re- By George Taylor, M. P., Gananoque, quires in consequence of the formation of the banks and the stream. With this great water power, and with the gigantic mineral deposits and unlimited supplies of timber in the near right. vicinity—with the vast prairies only a short distance west and situated on the highways of commerce both by water and by way of through lines of railway, which will shortly be in opera-tion—with these advantages, and bear-

ing in mind the disadvantages, a most skeptic mind must admit that Sault track to the Driving Park Associati Ste. Marie will soon be the hub of the west in milling and manufacturing.
